SUBJECT/AGENCY INDEX

The following index provides the reader with a way to locate CFR regulations by a specific subject or by the issuing agency.

Emphasis is placed on directing the reader to regulations at the CFR Part level. A Part in the CFR contains the regulations pertaining to a single function or specific subject matter controlled by the issuing agency. References in the index are to CFR Title and Part, e.g., 12 CFR 228 refers to Part 228 of Title 12. Due to the size and organization of Title 26, Part 1 of that Title includes section references, e.g., 26 CFR 1 (1.1-1.11).

Descriptive entries for each CFR Part appear under the name of the issuing agency and under as many subject terms as apply to the content of the Part. The agency names appearing in the index are taken from the CFR Chapter headings published in the List of CFR Titles, Chapters, Subchapters and Parts. Subject terms appearing in the index are derived from the thesaurus developed by the Office of the Federal Register first published in the *Federal Register* of September 18, 1990 (55 FR 38443). A current version, revised as of January 1, 2021, is available electronically at *www.archives.gov/federal-register/cfr/thesaurus.pdf*.

Cross-references to agency names and thesaurus terms are added to better assist readers in navigating this index.

This index covers regulations codified in the CFR as of January 1, 2021.
