(g) Limitations.—(1) None of the funds made available pursuant to subsection (f) may be obligated until all of the requirements set forth in section 152 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484; 106 Stat. 2340) have been met.

(2) Of the amount made available pursuant to subsection (f), not more than $20,000,000 may be obligated until the plan required by subsection (a) has been submitted to the congressional defense committees.

SEC. 214. SPACE LAUNCH PLAN.

(a) Plan Required.—The Secretary of Defense shall develop a space launch plan that contains clearly defined priorities, goals, and milestones regarding new space
launch vehicles and technology. The Secretary shall submit
the plan to Congress at the same time that he submits to
Congress the future years defense program in 1994 pursuant
to section 221 of title 10, United States Code.

(b) Selection of Launch Vehicle Options.—Of
the amount authorized to be appropriated in section 201(3)
and to be made available for research, development, test,
and evaluation of new space launch systems and technology,
the Secretary of Defense shall allocate not less than 75 per-
cent of such amount to one of the following options for a
space launch system:

(1) A comprehensive demonstration of high-risk,
far-term launch technology, such as reusable single-
stage-to-orbit and air-breathing propulsion.

(2) A competitive acquisition program for a du-
rable and inexpensive expendable or reusable launch
vehicle with an initial operational capability date
early in the next decade.

(3) A program to modify existing launch vehicles
to achieve decreased cost and increased responsiveness.

(c) Limitation.—Not more than one-third of the
amount authorized to be appropriated in section 201(3)
and to be made available for research, development, test,
and evaluation of new space launch systems and technology
may be obligated until the Secretary certifies to the congres-
sional defense committees that the option selected for fund-
ing in accordance with subsection (b) is fully funded in the
future years defense program referred to in subsection (a).

(d) Use of Foreign Launch Vehicles.—(1) The
Secretary of Defense shall conduct one or more studies to
determine the potential for using space launch vehicles of
foreign countries to launch United States national security
payloads. The studies shall be conducted with the goal of
determining whether the use of such launch vehicles would
result in reduced costs for launches of national security
payloads, increased competition in the furnishing of space
launch vehicles for launching such payloads, and a reduc-
tion in the excessive United States space launch industrial
base.

(2) Of the funds authorized to be appropriated under
section 201(3) and to be made available for research, devel-
opment, test, and evaluation of new space launch systems
and technology, the Secretary of Defense shall allocate up
to $5,000,000 for conducting studies described in paragraph
(1).

(e) Requirement Regarding Development of
New Launch Vehicles.—If the Secretary of Defense se-
lects an option referred to in paragraph (1) or (2) of sub-
section (b) for full funding in the future years defense plan
referred to in subsection (a), the Secretary shall explore in-

HR 2401 EAS
novative government-industry funding, management, and acquisition strategies to minimize the cost and time involved.

(f) **Requirement Regarding Modification of Existing Launch Vehicles.**—If the Secretary of Defense selects the option referred to in paragraph (3) of subsection (b) for full funding under the future years defense plan referred to in subsection (a), the Secretary's plan shall provide for Department of Defense use of one medium-lift launch vehicle for satellite payloads instead of three medium-lift launch vehicles. The Secretary shall use competitive procedures to select the supplier of medium-lift launch vehicles.

(g) **Cost Reduction Requirement.**—The plan shall provide for reducing the cost of producing existing launch vehicles at current and projected production rates below the current estimates of the costs for such production rates.

**SEC. 215. Medical Countermeasures Against Biowarfare Threats.**

(a) **Funding.**—Of the amounts appropriated pursuant to section 201 for fiscal year 1994, not more than $108,300,000 shall be available for the medical component of the Biological Defense Research Program (BDRP) of the Department of Defense.
(b) LIMITATIONS.—(1) Funds appropriated or otherwise made available for the Department of Defense for fiscal year 1994 may be obligated and expended for product development, and for research, development, testing, and evaluation, of medical countermeasures against biowarfare threat agents only in accordance with this section.

(2) Of the funds made available pursuant to subsection (a), not more than $10,000,000 may be obligated or expended for research, development, test, or evaluation of medical countermeasures against far-term validated biowarfare threat agents.

(3) Of the funds made available pursuant to subsection (a), other than funds made available pursuant to paragraph (2) for the purpose set out in that paragraph—

(A) not more than 80 percent may be obligated and expended for product development, or for research, development, test, or evaluation, of medical countermeasures against near-term validated biowarfare threat agents; and

(B) not more than 20 percent may be obligated or expended for product development, or for research, development, test, or evaluation, of medical countermeasures against mid-term validated biowarfare threat agents.
(c) Definitions.—In this section, the terms “validated biowarfare threat agent”, “near-term validated biowarfare threat agent”, “mid-term validated biowarfare threat agent”, and “far-term validated biowarfare threat agent” have the meanings given such terms, respectively, in section 241(c) of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102–484, 106 Stat. 2359).

SEC. 216. BASELINE REPORT FOR THE ARROW TACTICAL BALLISTIC MISSILE DEFENSE SYSTEM.

(a) Baseline Report Required.—Not later than April 1, 1994, the Secretary of Defense shall submit to the congressional defense committees a baseline report on the Arrow tactical ballistic missile defense system of Israel. The Secretary shall design the report to provide such committees with the information the committees need to perform their oversight function.

(b) Content of Report.—At a minimum, the report shall include the following matters:

(1) The development and procurement schedules for the program.

(2) The estimated total cost of the program.

the tactical ballistic missile defense needs of Israel, in-
cluding providing Israel with an existing or planned
United States weapon system.

(8) For each such alternative—

(A) an assessment of the cost effectiveness of
undertaking the alternative;

(B) the technology transfer implications;

and

(C) the weapon proliferation implications.

c) Forms of Report.—The Secretary shall submit
the report in classified and unclassified versions.

(b) Authority To Waive Limitations.—The Secretary of Defense may waive a limitation regarding a maximum amount or a maximum number of MTS-years that applies under subsection (a) to a federally funded research and development center if—

(1) the Secretary has notified the congressional defense committees of the proposed waiver and the reasons for the waiver, and the 60-day period that begins on the date of the notification has elapsed; or

(2) the Secretary determines that it is essential to the national security that funds be obligated for work in excess of that limitation within 60 days and notifies the congressional defense committees of that determination and the reasons for the determination.

(c) Report on Allocations for Centers.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report containing the following information:

(1) The proposed funding level and the estimated personnel level for fiscal year 1994 for each federally funded research and development center.

(2) The funding source for that funding level, by program element, and the amount transferred or to be
transferred from that source to each federally funded research and development center.

(d) **Limitation Pending Submission of Report.**—Notwithstanding any other provision of this section, no funds appropriated or otherwise made available for the Department of Defense for fiscal year 1994 may be obligated to obtain work from any federally funded research and development center until the Secretary of Defense has submitted the report required by subsection (c).

(e) **Limitation Regarding Employee Compensation.**—(1) Except as provided in paragraph (2), during fiscal year 1994 no appropriated funds may be used to pay an employee of a federally funded research and development center named in the table in subsection (a)(2) at a higher rate of compensation than the rate of compensation that the center paid such employee during fiscal year 1993.

(2) The Secretary of Defense may waive the applicability of the limitation in paragraph (1) to any federally funded research and development center that certifies to the Secretary of Defense that the total expenditures of the center for fiscal year 1994, including any increases and planned increases in the rates of compensation for employees of the center, will be less than the amount equal to 94 percent of the maximum amount set forth for such center in the table in subsection (a)(2).
(f) Definition.—In this section:

(1) The term "MTS-year" means a member of technical staff-year, as defined by the Secretary of Defense.

(2) The term "technical staff", with respect to a federally funded research and development center, means the following employees of the center:

(A) Researchers.

(B) Mathematicians.

(C) Programmers.

(D) Analysts.

(E) Economists.

(F) Scientists.

(G) Engineers.

(H) Other employees of the center who perform professional level technical work primarily in any of the following fields:

(i) Studies and analyses.

(iii) Systems planning.

(iv) Program and policy planning and analysis.

(v) Basic and applied research.
(g) Funding.—(1) Of the amounts authorized to be appropriated to the Department of Defense for research, development, test, and evaluation for fiscal year 1994 pursuant to section 201, not more than $1,352,650,000 may be obligated for procuring services from the federally funded research and development centers listed in the table in subsection (a)(2).

(2) None of the funds authorized to be obligated under paragraph (1) may be obligated for the procurement of services from the Institute for Advanced Technology.

(h) Undistributed Reduction.—The total amount authorized to be appropriated for research, development, test, and evaluation in section 201 is hereby reduced by $200,000,000.

Subtitle C—Missile Defense Programs

(a) Terminology Amendments.—The Missile Defense Act of 1991 (10 U.S.C. 2431 note) is amended—

(1) in section 234(c)(1)—

(A) by striking out "Strategic Defense Initiative Organization (SDIO)" and inserting in lieu thereof "Ballistic Missile Defense Organization (BMDO)"; and
(B) by striking out "Strategic Defense Initiative Organization's" and inserting in lieu thereof "Ballistic Missile Defense Organization's";

(2) in section 235—

(A) in the section heading, by striking out "STRATEGIC DEFENSE INITIATIVE" and inserting in lieu thereof "BALLISTIC MISSILE DEFENSE PROGRAM"; and

(B) in the text of such section, by striking out "Strategic Defense Initiative" each place it appears and inserting in lieu thereof "Ballistic Missile Defense program";

(3) in the heading of section 236, by striking out "SDI" and inserting in lieu thereof "BMD"; and

(4) in sections 234, 235, and 236, by striking out "Strategic Defense Initiative Organization" each place it appears and inserting in lieu thereof "Ballistic Missile Defense Organization".

(b) REPEAL OF FUNDING, REPORTING, AND TRANSFER PROVISIONS.—(1) Section 237 of such Act is repealed.

(2) Such Act is amended by redesignating sections 238, 239, and 240 as sections 237, 238, and 239, respectively.
SEC. 222. FUNDING OF CERTAIN BALLISTIC MISSILE DEFENSE PROGRAMS.

(a) Funding for Certain Ballistic Missile RDT&E.—If a decision is not made before February 28, 1994, to proceed into engineering and manufacturing development under a weapon system program referred to in subsection (b), the funds appropriated pursuant to the authorization of appropriations in section 201 that are available for engineering and manufacturing development for such a program shall be available for research, development, test, and evaluation of the Patriot PAC-3 Missile program.

(b) Covered Weapon System Programs.—For purposes of subsection (a) the weapon system programs referred to in this subsection are as follows:

(1) The Patriot Multimode Missile Program.

(2) The Extended Range Interceptor (ERINT) missile program.

SEC. 223. REQUIREMENT FOR REVIEW OF BALLISTIC MISSILE DEFENSE SYSTEMS AND COMPONENTS FOR COMPLIANCE WITH ABM TREATY.

(a) Findings.—Congress makes the following findings:

(1) That section 232(a)(1) of the Missile Defense Act of 1991 (10 U.S.C. 2431 note) establishes a goal for the United States to comply with the ABM Treaty (including any protocol or amendment thereto) and not develop, test, or deploy any ballistic missile de-
that treaty (as modified by any protocol or amendment thereto) while deploying an anti-ballistic missile system capable of providing a highly effective defense of the United States against limited attacks of ballistic missiles.

(2) That the Department of Defense has conducted no formal compliance reviews of any of the components or systems scheduled for early deployment as part of either the Theater Missile Defense Initiative or the initial limited defense system to be located at Grand Forks, North Dakota.

(3) That the Department of Defense is continuing to obligate hundreds of millions of dollars during fiscal year 1993 for the development and testing of systems or components of ballistic missile defense systems prior to a determination that, if successfully developed, tested, or deployed, those systems and components would be in compliance with the ABM Treaty.

(4) That the Department of Defense is requesting the authorization and appropriation of additional funds for continued development of such systems and components during fiscal year 1994.

(5) That the United States and its allies face existing and expanding threats from ballistic missiles
capable of being utilized as theater weapon systems that are presently possessed by, being developed by, or being acquired by a number of countries such as Iraq, Iran, North Korea, and others.

(6) That some theater ballistic missiles presently deployed or being developed (such as the Chinese-made CSS-2) have capabilities equal to or greater than missiles which had been determined to be strategic missiles 20 years earlier under the U.S.-USSR SALT I Interim Agreement of 1972.

(7) That the ABM Treaty was not intended to, and does not, apply to or limit research, development, testing, or deployment of missile defense systems, system upgrades, or system components that are designed to counter modern theater ballistic missiles regardless of their capabilities, unless such systems, system upgrades, or system components are tested against or have demonstrated capabilities to counter modern strategic ballistic missiles.

(8) That it is a national security priority of the United States to develop and deploy highly effective theater missile defense systems capable of countering the existing and expanding threats posed by modern theater ballistic missiles, as soon as is technically possible.
(9) That it is essential that the Secretary of Defense immediately undertake and complete compliance reviews of proposed theater missile defense systems, system upgrades, and system components so as to not delay the development and deployment of such highly effective theater missile defense systems.

(10) That the Secretary of Defense should immediately report to the Congress on any issue which arises during the course of such compliance reviews which appears to indicate that any provision of the ABM Treaty may limit research, development, testing, or deployment by the United States of highly effective theater missile defense systems capable of countering modern theater ballistic missiles.

(b) REQUIRED COMPLIANCE REVIEW.—(1) The Secretary of Defense shall review the program for each system and system upgrade specified in paragraph (2), and the system components, to determine whether the development, testing, and deployment of that system or system upgrade complies with the ABM Treaty.

(2) The systems and system upgrades to be reviewed pursuant to paragraph (1) are as follows:

(A) The Patriot Multimode Missile.

(B) The Extended Range Interceptor (ERINT).
(C) The Ground-Based Radar for theater missile defenses (GBR-T).

(D) The Theater High Altitude Area Defense interceptor missile (THAAD).

(E) The Brilliant Eyes space-based sensor system.

(F) Upgrades to the AEGIS/SPY radar system of the Navy.

(G) Upgrades to the Standard Missile-2 (SM-2) interceptor of the Navy.

(c) REPORT REQUIRED.—(1) For each system and system upgrade specified in paragraph (2) of subsection (b), the Secretary shall submit to the congressional defense committees a report on the results of the review required by that subsection. A report may include the results of the reviews of more than one system and system upgrade.

(2) With regard to the Brilliant Eyes space-based sensor, the Secretary shall include in the report findings on each of the following issues:

(A) Would the current baseline configuration of the Brilliant Eyes space-based sensor comply with the ABM Treaty if the system were used in conjunction with the planned ground-based radar system and its ground-based interceptors at Grand Forks, North Dakota?
(B) If not, can design changes or operational changes be made to the Brilliant Eyes space-based sensor that—

(i) will result in the usability of the sensor in conjunction with the planned ground-based radar system and its ground-based interceptors being in compliance with the ABM Treaty; and

(ii) will not prevent the system from performing its strategic defense missions with a high degree of effectiveness?

(C) If not, can the Brilliant Eyes space-based sensor be made, through design changes or operational changes, for use only with theater missile defense systems and be in compliance with the ABM Treaty?

(D) If so, to what extent would the Brilliant Eyes space-based sensor enhance the capability of upper-tier theater defense systems and lower-tier theater defense systems, respectively?

(d) LIMITATIONS ON FUNDING.—(1) Not more than one-half of the funds reported pursuant to section 227(c) to be allocated for fiscal year 1994 for a system or system upgrade specified in subsection (b)(2) of this section may be obligated for that system or system upgrade, or any of its components, until the Secretary has completed the compliance review of such system or system upgrade required
by subsection (b) and has submitted to the congressional defense committees the report on the results of the compliance review of that system or system upgrade as required by subsection (c). The preceding sentence does not apply with respect to the Brilliant Eyes space-based sensor system.

(2) Not more than $50,000,000 may be obligated for the Brilliant Eyes space-based sensor until the Secretary has completed the compliance review of such system required by subsection (b) and has submitted to the congressional defense committees the report required under subsection (c) for that system.

(e) ABM Treaty Compliance of Theater Missile Defense Systems.—The Secretary of Defense has assured the Congress in the January 1993 Report to Congress on the Strategic Defense Initiative and in the June 1993 Report to Congress on the Theater Missile Defense Initiative that all programs, projects, and activities under both initiatives that are planned for execution in fiscal year 1994 fully comply with the ABM Treaty.

(f) Definition.—In this section, the term “ABM Treaty” has the meaning given such term in section 239 of the Missile Defense Act of 1991 (10 U.S.C. 2431 note).
SEC. 224. THEATER MISSILE DEFENSE MASTER PLAN.

(a) MASTER PLAN REQUIRED.—(1) Not later than March 1, 1994, the Secretary of Defense shall submit to Congress a report containing an updated master plan for theater missile defenses.

(2) The plan shall include the following matters:

(A) A description of the mission and scope of theater missile defense.

(B) A description of the role of each of the Armed Forces in theater missile defense and an explanation of how those roles interact and complement each other.

(C) An evaluation of the cost and relative effectiveness of each interceptor and sensor under development as part of a theater missile defense system by the Ballistic Missile Defense Organization.

(D) A detailed acquisition strategy for theater missile defenses, including an analysis and comparison of the projected life-cycle costs of each theater missile defense system intended for production, showing the component costs for—

(i) research, development, test, and evaluation;

(ii) procurement;

(iii) operation and maintenance; and

(iv) personnel for each system.
(E) The baseline production rate for each system for each year of the program through completion of procurement.

(F) An estimate of the unit cost and capabilities of each element.

(G) A description of the current and planned testing program for theater missile defenses, including a description of demonstration targets to be tracked and engaged by multiple interceptors, target discrimination from decoys, and a shoot-look-shoot capability.

(H) A description of how any projected theater missile defense program will conform to existing Anti-Ballistic Missile Treaty and Intermediate Nuclear Forces Treaty regimes, indicating clearly any potential noncompliance with either treaty regime, when such noncompliance would occur, and the position of the Secretary of Defense as to whether provisions of either treaty regime would have to be renegotiated within that regime in order to address future contingencies.

(I) A description of planned theater missile defense doctrine, training, tactics, and force structure.

(b) OBJECTIVES OF PLAN.—In preparing the master plan the Secretary shall—
(1) seek to maximize the use of existing technologies (such as AEGIS, Patriot, and THAAD) rather than develop new systems;

(2) seek to maximize integration and compatibility among the systems, roles, and missions of the military departments; and

(3) seek to promote cross-service use of existing equipment (such as development of Army equipment for the Marine Corps or ground utilization of an air or sea system).

SEC. 225. EXTENSION OF AUTHORITY FOR TRANSFER OF RESPONSIBILITY FOR FAR-TERM FOLLOW-ON TECHNOLOGIES.

Section 234(d)(2) of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484; 106 Stat. 2357; 10 U.S.C. 2431 note) is amended—

(1) in subparagraph (A)—

(A) by striking out “1993” and inserting in lieu thereof “1994”;  
(B) by striking out “(A)” ; and  
(C) by redesignating clauses (i) and (ii) as subparagraphs (A) and (B), respectively; and

(2) by striking out “(B) For purposes of sub-

paragraph (A),” and all that follows.
SEC. 226. REPORT ON ACQUISITION STREAMLINING TO ACCELERATE DEPLOYMENT OF INITIAL ABM SYSTEM.

(a) FINDINGS.—The Congress makes the following findings:

(2) That Act directed the Secretary of Defense to structure a development program with the objective of deploying such systems by the earliest date allowed by the availability of appropriate technology and the completion of adequate integrated testing of all systems components.

(3) Since 1983, in excess of $30,000,000,000 has been provided for research and development of ballistic missile defense capabilities.

(4) Notwithstanding this huge expenditure of funds on missile defense technologies, the Secretary of Defense has proposed deployment of such a system no sooner than 2004.

(5) It is incredible that the initial deployment of a limited defense capability requires another 11 years
to accomplish within the congressionally mandated
guidance.

(b) Review Required.—The Secretary of Defense
shall conduct an intensive and extensive review of opportu-
nities to streamline the weapon systems acquisition process
applicable to the development, deployment, and testing of
ballistic missile defenses with the objective of reducing the
cost of deployment and accelerating the schedule for deploy-
ment without significantly increasing programmatic risk
or concurrency. In conducting the review, the Secretary
shall obtain recommendations and advice from the Defense
Science Board, the faculty of the Industrial College of the
Armed Forces, and federally funded research and develop-
ment centers supporting the Office of the Secretary of De-
fense.

(c) Report Required.—Not later than May 1, 1994,
the Secretary shall submit to the congressional defense com-
mittees a report on his findings resulting from the review
together with his recommendations for legislation, if any.
The Secretary shall submit the report in unclassified form,
but may also submit a classified version of the report if
he considers it necessary to classify any of the information
in his findings or recommendations or any related informa-
tion.
SEC. 227. FUNDING FOR BALLISTIC MISSILE DEFENSE PROGRAMS.

(a) Total Amount.—Of the amounts appropriated pursuant to section 201 for fiscal year 1994, or otherwise made available to the Department of Defense for research, development, test and evaluation for fiscal year 1994, not more than $2,684,535,000 may be obligated for programs managed by the Ballistic Missile Defense Organization, of which—

(1) not more than 48 percent of the total amount may be obligated for Theater Missile Defense;

(2) not more than 32 percent of the total amount may be obligated for the Limited Defense System;

(3) not more than 9 percent of the total amount may be obligated for Other Follow-On Systems;

(4) not more than 10 percent of the total amount may be obligated for Research and Other Support Activities; and

(5) not more than 1 percent of the total amount may be obligated for Small Business Innovation Research program and the Small Business Technology Transfer program.

Notwithstanding paragraphs (1), (2), (3), and (4), the Secretary of Defense may obligate for a ballistic missile defense initiative or program element referred to in any such paragraph a total amount that exceeds by not more than 10
percent the maximum amount determined under that para-

graph, except that the total amount obligated for all pro-

grams managed by the Ballistic Missile Defense Organiza-

tion may not exceed the total amount authorized in the

matter above paragraph (1).

(b) Limitation on Number of TMD Programs.—
(1) Subject to paragraph (2), the amount authorized to be
obligated for Theater Missile Defense may be obligated only
for—

(A) the Patriot PAC-3 Missile program;

(B) not more than 2 other lower-tier theater mis-

sile defense programs;

(C) not more than 2 upper-tier theater missile

defense programs; and

(D) not more than 2 boost-phase intercept theater

missile defense programs.

(2) The President may waive the limitation in para-

graph (1) to the extent that the President determines appro-

priate in the national security interest of the United States.

(c) Funds Not To Be Made Available For Brilliant Eyes.—None of the funds authorized to be obligated
under subsection (a) may be obligated for the Brilliant Eyes
space-based sensor program.

(d) Reporting Requirement.—Not later than 60
days after the date of the enactment of this Act, the Sec-
Secretary of Defense shall submit to the congressional defense committees a report on the allocation of funds appropriated for the ballistic missile defense program for fiscal year 1994. The report shall specify the amount of such funds allocated for each program, project, and activity managed by the Ballistic Missile Defense Organization and shall list each ballistic missile defense program, project, and activity under the appropriate program element.

SEC. 228. TESTING OF NATIONAL MISSILE DEFENSE PROGRAM PROJECTS.

(a) ADVANCE REVIEW AND APPROVAL OF PROPOSED DEVELOPMENTAL TESTS.—No developmental test may be conducted under the limited missile defense program element of the Ballistic Missile Defense Program until the Director of the Ballistic Missile Defense Organization has notified the Secretary of Defense of the test and the Secretary has reviewed and approved (or approved with changes) the test plan.

(b) INDEPENDENT MONITORING OF TESTS.—(1) The Secretary shall provide for monitoring of the implementation of each test plan referred to in subsection (a) by a group composed of independent persons who—

(A) by reason of education, training, or experience, are qualified to monitor the testing covered by the plan; and
(B) are not assigned or detailed to, or otherwise
performing duties of, the Ballistic Missile Defense Or-
ganization and are otherwise independent of such or-
ganization.

(2) The monitoring group shall submit to the Secretary
its analysis of, and conclusions regarding, the conduct and
results of each test monitored by the group.

Subtitle D—Other Matters

SEC. 231. NUCLEAR TESTING.

(a) LIMITATIONS.—(1) None of the funds appropriated
pursuant to an authorization in this or any other Act may
be obligated to support underground explosions of nuclear
weapons, or devices, for testing of the effects of nuclear
weapon explosions, including the so-called “Mighty Uncle”
test.

(2) Funds available for the so-called “Mighty Uncle”
test may not be obligated until the Secretary of Defense sub-
mits to the congressional defense committees a detailed
spending plan for underground nuclear weapon testing that
is consistent with the provisions of section 507 of Public

(b) CERTAIN ACTIONS AUTHORIZED.—The Secretary
of Defense may proceed with underground nuclear test tun-
nel deactivation and environmental cleanup and may ex-
pend funds for infrastructure activities not prohibited by subsection (a).

(c) **Funding.**—Of the funds authorized to be appropriated pursuant to section 201, not more than $38,000,000 may be used for activities described in subsection (b).

SEC. 546. POLICY CONCERNING HOMOSEXUALITY IN THE
ARMED FORCES.
(a) CODIFICATION.—(1) Chapter 37 of title 10, United
States Code, is amended by adding at the end the following
new section:

§ 654. Policy concerning homosexuality in the armed
forces
(a) FINDINGS.—Congress makes the following find-
ings:

"(1) Section 8 of article I of the Constitution of
the United States commits exclusively to the Congress
the powers to raise and support armies, provide and
maintain a Navy, and make rules for the government
and regulation of the land and naval forces.

"(2) There is no constitutional right to serve in
the armed forces.

"(3) Pursuant to the powers conferred by section
8 of article I of the Constitution of the United States,
it lies within the discretion of the Congress to estab-
lish qualifications for and conditions of service in the
armed forces.

"(4) The primary purpose of the armed forces is
to prepare for and to prevail in combat should the
need arise.

"(5) The conduct of military operations requires
members of the armed forces to make extraordinary
sacrifices, including the ultimate sacrifice, in order to provide for the common defense.

“(6) Success in combat requires military units that are characterized by high morale, good order and discipline, and unit cohesion.

“(7) One of the most critical elements in combat capability is unit cohesion, that is, the bonds of trust among individual service members that make the combat effectiveness of a military unit greater than the sum of the combat effectiveness of the individual unit members.

“(8) Military life is fundamentally different from civilian life in that—

“(A) the extraordinary responsibilities of the armed forces, the unique conditions of military service, and the critical role of unit cohesion, require that the military community, while subject to civilian control, exist as a specialized society; and

“(B) the military society is characterized by its own laws, rules, customs, and traditions, including numerous restrictions on personal behavior, that would not be acceptable in civilian society.
"(9) The standards of conduct for members of the armed forces regulate a member's life for 24 hours each day beginning at the moment the member enters military status and not ending until that person is discharged or otherwise separated from the armed forces.

"(10) Those standards of conduct, including the Uniform Code of Military Justice, apply to a member of the armed forces at all times that the member has a military status, whether the member is on base or off base, and whether the member is on duty or off duty.

"(11) The pervasive application of the standards of conduct is necessary because members of the armed forces must be ready at all times for worldwide deployment to a combat environment.

"(12) The worldwide deployment of United States military forces, the international responsibilities of the United States, and the potential for involvement of the armed forces in actual combat routinely make it necessary for members of the armed forces involuntarily to accept living conditions and working conditions that are often spartan, primitive, and characterized by forced intimacy with little or no privacy.
“(13) The prohibition against homosexual conduct is a longstanding element of military law that continues to be necessary in the unique circumstances of military service.

“(14) The armed forces must maintain personnel policies that exclude persons whose presence in the armed forces would create an unacceptable risk to the armed forces’ high standards of morale, good order and discipline, and unit cohesion that are the essence of military capability.

“(15) The presence in the armed forces of persons who demonstrate a propensity or intent to engage in homosexual acts would create an unacceptable risk to the high standards of morale, good order and discipline, and unit cohesion that are the essence of military capability.

“(b) Policy.—A member of the armed forces shall be separated from the armed forces under regulations prescribed by the Secretary of Defense if one or more of the following findings is made and approved in accordance with procedures set forth in such regulations:

“(1) That the member has engaged in, attempted to engage in, or solicited another to engage in a homosexual act or acts unless there are further findings, made and approved in accordance with procedures set
forth in such regulations, that the member has demonstrated that—

“(A) such conduct is a departure from the member’s usual and customary behavior;

“(B) such conduct, under all the circumstances, is unlikely to recur;

“(C) such conduct was not accomplished by use of force, coercion, or intimidation;

“(D) under the particular circumstances of the case, the member’s continued presence in the armed forces is consistent with the interests of the armed forces in proper discipline, good order, and morale; and

“(E) the member does not have a propensity or intent to engage in homosexual acts.

“(2) That the member has stated that he or she is a homosexual or bisexual, or words to that effect, unless there is a further finding, made and approved in accordance with procedures set forth in the regulations, that the member has demonstrated that he or she is not a person who engages in, attempts to engage in, has a propensity to engage in, or intends to engage in homosexual acts.
“(3) That the member has married or attempted to marry a person known to be of the same biological sex.

“(c) Entry Standards and Documents.—(1) The Secretary of Defense shall ensure that the standards for enlistment and appointment of members of the armed forces reflect the policies set forth in subsection (b).

“(2) The documents used to effectuate the enlistment or appointment of a person as a member of the armed forces shall set forth the provisions of subsection (b).

“(d) Required Briefings.—The briefings that members of the armed forces receive upon entry into the armed forces and periodically thereafter under section 937 of this title (article 137 of the Uniform Code of Military Justice) shall include a detailed explanation of the applicable laws and regulations governing sexual conduct by members of the armed forces, including the policies prescribed under subsection (b).

“(e) Rule of Construction.—Nothing in subsection (b) shall be construed to require that a member of the armed forces be processed for separation from the armed forces when a determination is made in accordance with regulations prescribed by the Secretary of Defense that—
“(1) the member engaged in conduct or made
statements for the purpose of avoiding or terminating
military service; and
“(2) separation of the member would not be in
the best interest of the armed forces.
“(f) Definitions.—In this section:
“(1) The term ‘homosexual’ means a person, re-
gardless of sex, who engages in, attempts to engage in,
has a propensity to engage in, or intends to engage
in homosexual acts, and includes the terms ‘gay’ and
‘lesbian’.
“(2) The term ‘bisexual’ means a person who en-
gages in, attempts to engage in, has a propensity to
engage in, or intends to engage in homosexual and
heterosexual acts.
“(3) The term ‘homosexual act’ means—
“(A) any bodily contact, actively under-
taken or passively permitted, between members of
the same sex for the purpose of satisfying sexual
desires; and
“(B) any bodily contact which a reasonable
person would understand to demonstrate a pro-
pensity or intent to engage in an act described
in subparagraph (A).”.

HR 2401 EAS
(2) The table of sections at the beginning of such chapter is amended by adding at the end the following:

“654. Policy concerning homosexuality in the armed forces.”.

(b) Regulations.—Not later than 90 days after the date of enactment of this Act, the Secretary of Defense shall revise Department of Defense regulations, and issue such new regulations as may be necessary, to implement section 654 of title 10, United States Code, as added by subsection (a).

c) Savings Provision.—Nothing in this section or section 654 of title 10, United States Code, as added by subsection (a) may be construed to invalidate any inquiry, investigation, administrative action or proceeding, court-martial, or judicial proceeding conducted before the effective date of regulations issued by the Secretary of Defense to implement such section 654.

d) Sense of Congress.—It is the sense of Congress that—

(1) the suspension of questioning concerning homosexuality as part of the processing of individuals for accession into the Armed Forces under the interim policy of January 29, 1993, should be continued, but the Secretary of Defense may reinstate that questioning with such questions or such revised questions as he considers appropriate if the Secretary determines that it is necessary to do so in order to effectuate the
policy set forth in section 654 of title 10, United States Code, as added by subsection (a); and

(2) the Secretary of Defense should consider issuing guidance governing the circumstances under which members of the Armed Forces questioned about homosexuality for administrative purposes should be afforded warnings similar to the warnings under section 831(b) of title 10, United States Code (article 31(b) of the Uniform Code of Military Justice).

SEC. 547. EMPLOYMENT OF RETIRED MEMBERS BY FOREIGN GOVERNMENTS.

(a) FINDINGS.—The Congress makes the following findings:

(1) It is in the national security interest of the United States to promote democracy throughout the world.

(2) The armed forces of newly democratic nations often lack the democratic traditions that are a hallmark of the Armed Forces of the United States.

(3) The understanding of military roles and missions in a democracy is essential for the development and preservation of democratic forms of government.

(4) The service of retired members of the Armed Forces of the United States in the armed forces of newly democratic nations could lead to a better un-
derstanding of military roles and missions in a democracy.

(b) Congressional Consent.—(1) Chapter 53 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 1058. Military service of retired personnel with newly democratic nations

(a) Congressional Consent.—(1) Subject to subsection (b), Congress consents to a retired member of the uniformed services referred to in subsection (b)—

"(A) accepting employment by, or holding an office or position in, the armed forces of a newly democratic nation; and

"(B) accepting compensation associated with such employment, office, or position.

(b) Determinations and Approval Required.—

(1) The Secretary concerned and the Secretary of State shall jointly determine whether a nation is a newly democratic nation for the purposes of this section.

(2) The consent provided in subsection (a) for a retired member of the uniformed services to accept employment or hold an office or position shall apply to a retired member of the armed forces only if the Secretary concerned and the Secretary of State jointly approve the employment or the holding of such office or position.
"(c) CONTINUED ENTITLEMENT TO RETIRED PAY AND
BENEFITS.—The eligibility of a retired member of the uni-
formed services to receive retired or retainer pay and other
benefits arising from the retired member's status as a re-
tired member of the uniformed services, and the eligibility
of dependents of such retired member to receive benefits on
the basis of such retired member's status as a retired mem-
ber of the uniformed services, may not be terminated by
reason of employment or holding of an office or position
consented to in subsection (a).

(d) RETIRED MEMBER DEFINED.—In this section,
the term "retired member of the uniformed services" means
a member or former member of the uniformed services who
is entitled to receive retired or retainer pay.”.

this section in such fiscal year may not exceed
$1,000,000,000.

(2) In issuing medium- and long-term guarantees for

(2) Funds authorized to be available for the Export-Import Bank of the United States may not be used for the execution of the program under this section.

SEC. 1053. FINDINGS REGARDING DEFENSE COOPERATION BETWEEN THE UNITED STATES AND ISRAEL.

Congress makes the following findings:

(1) The President has made a commitment to maintain the qualitative superiority of the Israeli Defense Forces over any combination of adversary armed forces.

(2) The President has expressed a desire to enhance United States-Israeli military and technical cooperation, particularly in the areas of missile defense, counter-proliferation of weapons of mass destruction, and counter-proliferation of ballistic missiles.

(3) Maintaining the qualitative superiority of the Israeli Defense Forces and strengthening United States defense ties with Israel will help to ensure that Israel has the military strength and political support necessary for taking risks for peace while providing Arab states with an incentive to pursue negotiations instead of war.

(4) The establishment of the United States-Israel Science and Technology Commission, the binational Senior Planning Group, and the Technology Transfer
Working Group is in the interest of both the United States and Israel.

(5) It is in the national interests of the United States and Israel for the organizations referred to in paragraph (4) to work to strengthen existing mechanisms for cooperation and to eliminate barriers to further collaboration between the United States and Israel.

(6) Israel continues to face difficult threats to its national security that are compounded by the proliferation of weapons of mass destruction and ballistic missiles.

SEC. 1054. DEFENSE BURDENSHIRING.

(a) FINDINGS.—Congress makes the following findings:

(1) Since fiscal year 1985, the budget of the Department of Defense has declined by 34 percent in real terms.

(2) During the past few years, the United States military presence overseas has declined significantly in the following ways:

(A) Since fiscal year 1986, the number of United States military personnel permanently stationed overseas has declined by almost 200,000 personnel.
(B) From fiscal year 1989 to fiscal year 1994, spending by the United States to support the stationing of United States military forces overseas will have declined by 36 percent.

(C) Since January 1990, the Department of Defense has announced the closure, reduction, or transfer to standby status of 840 United States military facilities overseas, which is a 50 percent reduction in the number of such facilities.

(3) The United States military presence overseas will continue to decline as a result of actions by the executive branch and the following initiatives of the Congress:

   (A) Section 1302 of the National Defense Authorization Act for Fiscal Year 1993, which required a 40 percent reduction by September 30, 1996, in the number of United States military personnel permanently stationed ashore in overseas locations.

   (B) Section 1303 of the National Defense Authorization Act for Fiscal Year 1993, which specified that no more than 100,000 United States military personnel may be permanently stationed ashore in NATO member countries after September 30, 1996.
(C) Section 1301 of the National Defense Authorization Act for Fiscal Year 1993, which reduced the spending proposed by the Department of Defense for overseas basing activities during fiscal year 1993 by $500,000,000.

(D) Sections 913 and 915 of the National Defense Authorization Act for Fiscal Years 1990 and 1991, which directed the President to consult with East Asian allies, and to develop a plan, regarding gradually reducing the United States military force structure in East Asia.

(4) The East Asia Strategy Initiative, which was developed in response to sections 913 and 915 of the National Defense Authorization Act for Fiscal Years 1990 and 1991, has resulted in the withdrawal of more than 12,000 United States military personnel from Japan and the Republic of Korea since fiscal year 1990.

(5) In response to actions by the executive branch and the Congress, allied countries in which United States military personnel are stationed and alliances in which the United States participates have agreed in the following ways to offset more of the costs incurred by the United States in basing military forces overseas:
(A) Under the 1991 Special Measures Agreement between Japan and the United States, Japan will pay by 1995 almost all yen-denominated costs of stationing United States military personnel in Japan.

(B) The Republic of Korea has agreed to pay by 1995, one-third of the won-based costs incurred by the United States in stationing United States military personnel in the Republic of Korea.

(C) The North Atlantic Treaty Organization (NATO) has agreed that the Infrastructure Program could pay the annual operation and maintenance costs of facilities that would support the reinforcement of Europe by United States military forces.

(b) Funding Reductions.—(1) The total amount authorized to be appropriated to the Department of Defense for operation and maintenance and for military construction (including NATO Infrastructure) to conduct overseas basing activities during fiscal year 1994 may not exceed the amount equal to the baseline for fiscal year 1993 reduced by $1,355,500,000.

(2) For purposes of paragraph (1), the baseline for fiscal year 1993 is the sum of the amounts that were made
available for overseas basing activities out of the amounts appropriated for such fiscal year for the following purposes:

(A) Operation and maintenance.
(B) Family housing, operations.
(C) Family housing, construction.
(D) Military construction (including NATO Infrastructure).

(c) Sense of Congress.—It is the sense of Congress that the amounts obligated to conduct overseas basing activities should decline significantly in fiscal year 1995 and in future fiscal years as—

(1) the number of United States military personnel stationed overseas continues to decline; and

(2) the countries in which United States military personnel are stationed and the alliances in which the United States participates assume an increased share of United States overseas basing costs.

(d) Burdensharing Agreements for Increased Host Nation Support.—(1) In order to achieve additional savings in overseas basing costs, the President should intensify his efforts to negotiate a more favorable host-nation agreement with each foreign country to which this paragraph applies under paragraph (3)(A).
(2) For purposes of paragraph (1), a more favorable host-nation agreement is an agreement under which such foreign country—

(A) assumes an increased share of the costs of United States military installations in that country, including the costs of—

(i) labor, utilities, and services;

(ii) military construction projects and real property maintenance;

(iii) leasing requirements associated with the United States military presence; and

(iv) actions necessary to meet local environmental standards;

(B) relieves the Armed Forces of the United States of all tax liability that, with respect to forces located in such country, is incurred by the Armed Forces under the laws of that country and the laws of the community where those forces are located; and

(C) ensures that goods and services furnished in that country to the Armed Forces of the United States are provided at minimum cost and without imposition of user fees.

(3)(A) Except as provided in subparagraph (B), paragraph (1) applies with respect to—
(i) each country of the North Atlantic Treaty Organization (other than the United States); and
(ii) each other foreign country with which the United States has a bilateral or multilateral defense agreement that provides for the assignment of combat units of the Armed Forces of the United States to permanent duty in that country or the placement of combat equipment of the United States in that country.

(B) Paragraph (1) does not apply with respect to—
(i) a foreign country that receives assistance under section 23 of the Arms Export Control Act (22 U.S.C. 2673) (relating to the foreign military financing program) or under the provisions of chapter 4 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2346 et seq.); or
(ii) a foreign country that has agreed to assume, not later than September 30, 1996, at least 75 percent of the nonpersonnel costs of United States military installations in the country.

apolis water canal in downtown Indianapolis, Indi-
apol, will honor the personal sacrifice of the 1,197
servicemen who were aboard the U.S.S. Indianapolis
(CA-35) on that day, 881 of whom died as one of the greatest single combat losses suffered by the United States Navy in World War II.

(3) That the memorial will pay fitting tribute to that gallant ship and its final crew, and will forever commemorate the place of the U.S.S. Indianapolis in United States Navy history as the last major ship lost in World War II.

(4) That, as a memorial to the last major ship lost by the United States Navy in World War II, the memorial to the U.S.S. Indianapolis will rank in importance with the memorial to the U.S.S. Arizona (BB-39), one of the first ships lost by the United States Navy in World War II.

(5) That the memorial to the U.S.S. Indianapolis symbolizes the devoted service of the United States Navy and Marine Corps personnel, particularly those who lost their lives at sea in the Pacific Theater during World War II, whose dedication and sacrifice in the cause of liberty and freedom were instrumental in the triumph of the United States in that war.

(6) That the citizens of the United States have a continuing obligation to educate future generations about the military and other historic endeavors of this great Nation.
(b) **RECOGNITION AS A NATIONAL MEMORIAL.**—The memorial to the U.S.S. Indianapolis (CA-35) in Indianapolis, Indiana, is hereby recognized as the national memorial to the U.S.S. Indianapolis (CA-35) and to the final crew of that historic warship.

**SEC. 1067. INVOLVEMENT OF ARMED FORCES IN SOMALIA.**

(a) **SENSE OF CONGRESS REGARDING UNITED STATES POLICY TOWARDS SOMALIA.**—

(1) Since United States Armed Forces made significant contributions under Operation Restore Hope towards the establishment of a secure environment for humanitarian relief operations and restoration of peace in the region to end the humanitarian disaster that had claimed more than 300,000 lives.

(2) Since the mission of United States forces in support of the United Nations appears to be evolving from the establishment of "a secure environment for humanitarian relief operations," as set out in United Nations Security Council Resolution 794 of December 3, 1992, to one of internal security and nation building.

(b) **STATEMENT OF CONGRESSIONAL POLICY.**—

(1) **CONSULTATION WITH THE CONGRESS.**—The President should consult closely with the Congress regarding United States policy with respect to Somalia,
including in particular the deployment of United States Armed Forces in that country, whether under United Nations or United States command.

(2) PLANNING.—The United States shall facilitate the assumption of the functions of United States forces by the United Nations.

(3) REPORTING REQUIREMENT.—

(A) The President shall ensure that the goals and objectives supporting deployment of United States forces to Somalia and a description of the mission, command arrangements, size, functions, location, and anticipated duration in Somalia of those forces are clearly articulated and provided in a detailed report to the Congress by October 15, 1993.

(B) Such report shall include the status of planning to transfer the function contained in paragraph (2).

(4) CONGRESSIONAL APPROVAL.—Upon reporting under the requirements of paragraph (3) Congress believes the President should by November 15, 1993, seek and receive congressional authorization in order for the deployment of United States forces to Somalia to continue.
SEC. 1068. SENSE OF THE CONGRESS REGARDING ESTABLISHMENT OF AN OFFICE OF ECONOMIC CONVERSION INFORMATION WITHIN THE DEPARTMENT OF COMMERCE.

(a) FINDINGS.—The Congress makes the following findings:

(1) The available Federal resources for defense economic adjustment and conversion assistance are spread among 23 different Federal departments and agencies.

(2) Numerous other Federal departments and agencies are involved in related technology reinvestment activities.

(3) Workers and communities adversely affected by closures of military installations or decreased spending for national defense often experience difficulty finding which Federal department or agency is appropriate for providing assistance needed by such workers and communities.

(4) Expanded coordination between Federal departments and agencies could greatly improve Federal efforts to assist in defense economic adjustment and conversion.

(b) SENSE OF CONGRESS REGARDING ESTABLISHMENT OF AN OFFICE OF ECONOMIC CONVERSION INFORMATION.—It is the sense of the Congress that the President
should work with the Congress to establish within the Department of Commerce an Office of Economic Conversion Information which, under the joint direction of the Secretary of Commerce and the Secretary of Defense, would—

(1) serve as an information clearinghouse to provide comprehensive information regarding assistance for communities, workers, and businesses that have been adversely affected by closures of military installations and reduced spending for national defense;

(2) enhance and consolidate existing programs for collecting and disseminating information regarding defense economic adjustment and conversion;

(3) be widely publicized as the central point of access for the public on issues related to defense economic adjustment and conversion;

(4) develop data bases of information, to be available to help communities, businesses, and workers dependent on spending for national defense identify and apply for assistance from Federal departments and agencies, including—

(A) comprehensive listings and summaries of all major Federal, State, and local economic adjustment and conversion programs;

(B) a data base listing information available to the public regarding major defense con-
tract terminations and closures of military installations and identifying affected communities, industries, and jobs;

(C) listings and summaries of defense conversion attempts and successes; and

(D) relevant reference lists and bibliographies;

(5) provide information to communities, workers, and businesses by such easily accessible and easily used means as toll-free telephone information lines, inexpensive and frequently updated manuals and other print materials, workshops on clearinghouse services, and on-line computer access to clearinghouse information;

(6) facilitate a series of community roundtables, involving consultation and briefings with communities, workers, and businesses adversely affected by closures of military installations and reduced spending for national defense, to be held annually in all major regions of the United States so affected; and

(7) establish a mechanism, coordinated by the Secretary of Commerce and the Secretary of Defense, to ensure adequate cooperation between all Federal departments and agencies that oversee defense eco-
(c) SENSE OF CONGRESS REGARDING EVALUATION AND FUNDING OF THE OFFICE OF ECONOMIC CONVERSION INFORMATION.—It is further the sense of Congress that—

(1) after the Office of Economic Conversion Information has been in operation for three years, the Secretary of Commerce and the Secretary of Defense should jointly conduct a comprehensive evaluation of the operations of such office and consider whether the purpose of the office should be modified or the office should be terminated; and

(2) the operating expenses for the Office of Economic Conversion Information should not exceed $5,000,000 for each of the first three full fiscal years in which the office is in operation.

SEC. 1069. TRANSFER OF OBSOLETE DESTROYER TENDER YOSEMITE.

(a) AUTHORITY.—Notwithstanding subsections (a) and (c) of section 7308 of title 10, United States Code, but subject to subsection (b) of that section, the Secretary of the Navy may transfer the obsolete destroyer tender Yosemite to the nonprofit organization Ships at Sea for education and drug rehabilitation purposes.
(b) LIMITATIONS.— The transfer authorized by section (a) may be made only if the Secretary determines that the vessel Yosemite is of no further use to the United States for national security purposes.

(c) TERMS AND CONDITIONS.— The Secretary may require such terms and conditions in connection with the transfer authorized by this section as the Secretary considers appropriate.

SEC. 1070. TRANSPORTATION OF CARGOES BY WATER.

Chapter 157 of title 10, United States Code, is amended by inserting a new section 2631a, as follows:

§ 2631a. Contingency planning

(a) CONSIDERATION OF PRIVATE CAPABILITIES.— The Secretary of Defense shall ensure that all studies and reports of the Department of Defense, and all actions taken in the Department of Defense, concerning sealift and related intermodal transportation requirements take into consideration the full range of the transportation and distribution capabilities that are available from operators of privately owned United States flag merchant vessels.

(b) PRIVATE CAPACITIES PRESENTATIONS.— The Secretary shall afford each operator of a vessel referred to in subsection (a), not less often than annually, an opportunity to present to the Department of Defense information on its port-to-port and intermodal transportation capacities.
"(c) Certification Requirement.—The Secretary shall submit to the Secretary of Transportation, not less often than annually, a certification of compliance with the requirements of subsection (b).".

SEC. 1071. BURIAL OF REMAINS AT ARLINGTON NATIONAL CEMETERY.

(a) Eligibility.—Under regulations prescribed by the Secretary of the Army, former prisoners of war who, having served honorably in active military, naval, or air service (as determined in accordance with such regulations), die on or after the date of the enactment of this Act shall be eligible for burial in Arlington National Cemetery, Virginia.

(b) Savings provision.—This section may not be construed to make ineligible for burial in Arlington National Cemetery any former prisoner of war who was eligible before the date of the enactment of this Act to be buried in such cemetery.

(c) Definition.—In this section, the term "former prisoner of war" has the meaning given such term in section 101(32) of title 38, United States Code.
SEC. 1072. SENSE OF THE CONGRESS REGARDING THE JUSTIFICATION FOR CONTINUING THE EXTREMELY LOW FREQUENCY COMMUNICATION SYSTEM.

(a) FINDINGS.—(1) There is a need to re-evaluate all defense spending in light of the post-Cold War era and budget and fiscal constraints;

(2) The Extremely Low Frequency Communications System (ELF System) was originally designed to play a role in the strategic deterrence mission against the former Soviet Union;

(3) The threat of nuclear war has greatly diminished since the collapse of the Soviet Union;

(4) The ELF System is increasingly in use for communications with our SSN attack submarines in addition to our strategic missile submarines;

(5) Military base closing, downsizing of military facilities and activities, and termination of selected projects are appropriate in light of the end of the Cold War and the approximately $4,000,000,000,000 national debt;

(6) It is appropriate to establish funding priorities within the military defense budget; and

(7) Ongoing studies of the effects of ELF operations on human health and the environment are due to be concluded next year.
(b) Sense of Congress.—Now, therefore, it is the sense of Congress that—

(1) the Secretary of Defense should conduct an evaluation of the benefits and costs of continued operation of the Extremely Low Frequency Communications System and alternatives thereto, if any;

(2) the results of such an evaluation should be submitted to the Congressional Defense Committees prior to consideration of the fiscal year 1995 Defense budget request; and

(3) the Extremely Low Frequency Communication System should again be considered in the next round of military base closures.

Sec. 1073. Basing for C-130 Aircraft.

The Secretary of the Air Force shall determine the unit assignment and basing location for any C-130 aircraft procured for the Air Force Reserve from funds appropriated for National Guard and Reserve Equipment procurement for fiscal year 1992 or 1993 in such manner as the Secretary determines to be in the best interest of the Air Force.

Sec. 1074. Importance of Naval Oceanography Survey and Research in the Post-Cold War Period.

(a) The Senate finds that—
(1) the Oceanographer of the Navy is responsible for the all Navy oceanographic research and survey efforts;

(2) oceanographic research and surveys are critical investments in the Navy's ability to operate in littoral waters of the world with an increased confidence of operational success;

(3) oceanographic surveys enable the Navy to conduct naval operations in greater safety, particularly in littoral waters;

(4) the survey of littoral waters is most safely conducted during periods of peace when conflict is not imminent and the risk to lives and ships are diminished;

(5) the Navy has reduced their oceanographic research and survey effort by almost 50 percent over the last five years;

(6) this reduction in effort is the result of undistributed budget reductions required by the Comptroller of the Navy to meet overall Navy budget targets;

(7) the number of naval ships dedicated to oceanographic survey and research have been reduced from 12 to 7 over the last five years, significantly reducing the Navy's oceanographic survey capability;

(b) Therefore, it is the sense of the Congress that—
(1) additional reductions to the Office of the Oceanographer of the Navy which will further reduce the level of oceanographic survey and research efforts of the Navy should be avoided;

(2) a window of opportunity exists which allows near unencumbered access to littoral waters which are now available for surveying and research;

(3) committing limited resources to the Navy's oceanographic research and survey effort should be considered a force multiplier to United States combat forces in future conflicts, particularly in littoral waters;

(4) the Navy should exploit this opportunity to survey and research these critical littoral waters and maintain funding levels for oceanographic surveying and research.

**SEC. 1075. DIGITAL ELECTRONIC DEVICES.**

Of the funds authorized to be appropriated pursuant to section 201(1), $24,000,000 may be obligated and expended for the purposes of demonstrating in field maneuvers the integration of digital electronic devices for purposes of command, control, battle management and combat identification for all major weapon systems contained in a combined arms brigade.
SEC. 1076. RESEARCH ON EXPOSURE TO HAZARDOUS AGENTS AND MATERIALS OF ARMED SERVICES PERSONNEL WHO SERVED IN THE PERSIAN GULF WAR.

(a) FINDINGS.—Congress makes the following findings:

(1) A number of veterans of the Persian Gulf War have reported unexplained illnesses and claim that such illnesses are a consequence of exposure to chemical, biological, radiological, or other hazardous agents or materials as a result of service in Southwest Asia during the Persian Gulf War.

(2) Members of the Armed Forces of the former Czechoslovakian Federative Republic who served on a chemical decontamination team in Southwest Asia during the period of the Persian Gulf War have claimed exposure to chemical agents during such service, and the Czech Minister of Defense has confirmed that members of that chemical decontamination team detected low levels of nerve gas in that region during that period.

(3) Reports indicate that members of the United States Armed Forces who served in Southwest Asia during the Persian Gulf War may have been exposed to combined chemical warfare agents and other hazardous agents and substances during such service.
(4) Such exposure may have occurred directly as a result of attack on such members by Iraqi forces or indirectly as a result of prolonged “downwind” exposure to airborne chemical warfare agents or other hazardous substances that were dispersed as a consequence of the bombing of Iraqi chemical weapons facilities, nuclear facilities, and other facilities containing hazardous substances.

(5) It is in the interest of the United States that medical professionals providing care to members of the Armed Forces and to veterans understand the nature of the illnesses that such members and veterans may contract in order to ensure that such professionals have sufficient information to provide proper care to such members and veterans.

(b) Sense of the Congress.—It is the sense of the Congress that—

(1) one of the threats to international peace and to the interests of the United States in the post-Cold War era is the proliferation of weapons utilizing chemical, biological, radiological, or other hazardous agents or materials;

(2) the readiness of the United States to engage in future military conflicts will be directly related to the capability of the United States—
(A) to identify the threat to members of the Armed Forces posed by the utilization of such weapons and the agents and materials utilized in such weapons;

(B) to protect such members from the adverse effects of exposure to such agents and materials; and

(C) to treat the casualties that result from the utilization of such weapons and from exposure to such agents and materials; and

(3) the Department of Defense is uniquely capable of conducting research into the sources and effects of exposure of members of the Armed Forces during military conflicts to chemical, biological, radiological, and other hazardous agents and materials.

(c) CONTRACT FOR RESEARCH FACILITY AND ACTIVITIES.—(1) Subject to paragraph (2), the Secretary of the Army shall enter into a contract with a hospital or other existing health care or health care research facility in order to ensure that the research referred to in paragraph (3) is carried out.

(2)(A) The Secretary shall enter into the contract under paragraph (1) using full and open competition.
(B) The facility referred to in such paragraph shall be affiliated with a medical facility of the Department of Veterans Affairs.

(3) The research referred to in paragraph (1) is research into the effects upon humans of exposure to hazardous agents and materials, including chemical and biological warfare agents, toxins, and materials to which members of the Armed Forces may have been exposed as a result of service in Southwest Asia during the Persian Gulf War.

(4) Humans may not be exposed to hazardous agents or materials as a result of the carrying out of research under this subsection.

(d) Study on Reports of Exposure to Hazardous Agents and Materials.—(1) Subject to paragraph (2), the Secretary of Defense shall carry out a study in order to determine the validity and accuracy of claims that members of the Armed Forces who served in Southwest Asia during the Persian Gulf War were exposed to combined chemical warfare agents, biological warfare agents, biological toxins, and other unconventional warfare agents or other environmental conditions hazardous to the health of such members as a result of such service. The study shall identify the locations at which such exposure, if any, occurred and the extent, if any, of such exposure.
(2) The study under paragraph (1) shall include an investigation of such exposure directly as a result of attack on such members by Iraqi forces and indirectly as a result of prolonged downwind exposure to such agents and toxins dispersed in consequence of the bombing of Iraqi chemical weapons facilities, nuclear facilities, and other facilities containing hazardous substances.

(e) Study on Exposure to Depleted Uranium.—

The Secretary of the Army shall carry out a study of the effects upon humans of exposure to fragments of depleted uranium from weapons rounds that have been fired.

(f) Participation by the Department of Defense.—(1) The Secretary of Defense shall ensure that all elements of the Departments of the Defense, including all chemical and biological warfare defense programs, provide to the facility with which the Secretary of the Army contracts under subsection (c) any information possessed by such elements on the identity and quantity of the chemical, biological, radiological, and other hazardous agents and materials to which members of the Armed Forces may have been exposed as a result of service in Southwest Asia during the Persian Gulf War and on the effects upon humans of such exposure.

(2) The Secretary of Defense shall ensure that the elements of the Department of Defense referred to in para-
(g) Reports to Congress.—(1) Not later than each of March 1, 1994, and October 1, 1994, the Secretary shall submit to the congressional defense committees an interim report on the results during the year preceding the report of the research and studies, as the case may be, carried out under subsections (c), (d), and (e).

(2) The reports submitted under this subsection shall be submitted in an unclassified form but may have a classified annex.

(h) Budget Information.—The Secretary of Defense shall ensure that each budget submitted to the Congress under section 1105 of title 31, United States Code, for a fiscal year in which the contract referred to in subsection (c) is in force, the Secretary carries out the study referred to in subsection (d), or the Secretary carries out the study referred to in subsection (e), as the case may be, contains a request for such funds as the Secretary determines necessary in order to carry out the contract or such studies, as the case may be, during that fiscal year.
(i) **Funding.**—Funds for programs authorized in this section shall be derived from amounts to be appropriated for the Department of Defense.

(j) **Limitation on Expenditures.**—The total amount that may be expended in fiscal year 1994 with respect to activities under this section is as follows:

1. For research activities carried out under subsection (c), $2,000,000.
2. For the study carried out under subsection (d), $2,000,000.
3. For the study carried out under subsection (e), $1,700,000.

(k) **Definition.**—In this section, the term “Persian Gulf War” has the meaning given such term in section 101(33) of title 38, United States Code.

**SEC. 1077. Sense of Congress relating to the proliferation of space launch vehicle technologies.**

(a) **Findings.**—The Congress finds the following:

1. The United States has joined with other nations in the Missile Technology Control Regime (MTCR) which restricts the transfer of missiles or equipment or technology that could contribute to the design, development or production of missiles capable of delivering weapons of mass destruction.
(2) Missile technology is indistinguishable from and interchangeable with space launch vehicle technology.

(3) Transfers of missile technology or space launch vehicle technology cannot be safeguarded in a manner that would provide timely warning of diversion for military purposes.

(4) It has been United States policy since agreeing to the guidelines of the Missile Technology Control Regime to treat the sale or transfer of space launch vehicle technology as restrictively as the sale or transfer of missile technology.

(5) Previous congressional action on missile proliferation, notably title XVII of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 104 Stat. 1738), has explicitly supported this policy through such actions as the statutory definition of the term "missile" to mean "a category I system as defined in the MTCR Annex, and any other unmanned delivery system of similar capability, as well as the specially designed production facilities for these systems".

(6) There is strong evidence that emerging national space launch programs in the Third World are not economically viable.
(7) The United States has successfully dissuaded
countries from pursuing space launch vehicle pro-
grams in part by offering to cooperate with them in
other areas of space science and technology.

(8) The United States has successfully dissuaded
other MTCR adherents, and countries who have
agreed to abide by MTCR guidelines, from providing
assistance to emerging national space launch pro-
grams in the Third World.

(b) Sense of Congress.—It is the sense of Congress
that—

(1) the Congress supports the strict interpreta-
tion by the United States of the Missile Technology
Control Regime concerning—

(A) the inability to distinguish space
launch vehicle technology from missile technology
under the regime; and

(B) the inability to safeguard space launch
vehicle technology in a manner that would pro-
vide timely warning of its diversion to military
purposes; and

(2) the United States and the governments of
other nations adhering to the Missile Technology Con-
trol Regime should be recognized for—
(A) the success of such governments in restricting the export of space launch vehicle technology and of missile technology; and

(B) the significant contribution made by the imposition of such restrictions to reducing the proliferation of missile technology capable of being used to deliver weapons of mass destruction.

(c) Definitions.—In this section:

(1) The term "Missile Technology Control Regime" or "MTCR" means the policy statement, between the United States, the United Kingdom, the Federal Republic of Germany, France, Italy, Canada, and Japan, announced on April 16, 1987, to restrict sensitive missile-relevant transfers based on the MTCR Annex, and any amendments thereto.

(2) The term "MTCR Annex" means the Guidelines and Equipment and Technology Annex of the Missile Technology Control Regime, and any amendments thereto.

SEC. 1078. AMERICAN DIPLOMATIC FACILITIES IN GERMANY.

(a) No embassy, chancery, or consular facilities in Germany other than the facilities already occupied as of January 1, 1993 by United States diplomatic personnel.
may be purchased, constructed, leased or otherwise occupied
unless such facilities are purchased, constructed, modified
or leased with funds provided by the German government
as an offset for the value of facilities returned by the United
States Government to the Government of Germany pursuant
to Article 52 of the current Status of Forces Agreement
with the Government of Germany.

(b) The Secretary of State or his representative may
not enter into any legal instrument to purchase, construct,
modify or lease any facility in Germany acquired pursuant
to subsection (a) of this section until the Secretary of De-
fense certifies that the United States Government has re-
ceived or is scheduled to receive cash payments or offsets-
in-kind of a value not less than 50 percent of the value of
the facilities returned by the United States Government to
the Government of Germany pursuant to Article 52 of the
current Status of Forces Agreement with the Government
of Germany.

SEC. 1079. EFFECTIVE DATE FOR CHANGES IN SERVICE-
MEN'S GROUP LIFE INSURANCE PROGRAM.

(a) USE OF INTERNATIONAL DATE LINE.—Section
1967 of title 38, United States Code, is amended by adding
at the end the following new subsection:

“(f) The effective date and time for any change in bene-
fits under the Servicemen's Group Life Insurance Program
shall be based on the date and time according to the time zone immediately west of the International Date Line”.

(b) Effective Date.—The amendment made by subsection (a) shall apply with respect to amendments to chapter 19 of title 38, United States Code, that take effect after November 29, 1992.

SEC. 1080. AWARD OF THE NAVY EXPEDITIONARY MEDAL.

It is the sense of the Senate that the Secretary of the Navy should direct that members who served in Task Force 16, culminating in the air-raid commonly known as the “Doolittle raid on Tokyo”, during April 1942, be awarded the Navy Expeditionary Medal for such service.

SEC. 1081. REPORT ON MILITARY FOOD DISTRIBUTION PRACTICES.

(a) Findings.—The Congress makes the following findings:

(1) The Defense Personnel Support Center, a component of the Defense Logistics Agency (DLA), purchases more than 90 percent of the food supplied to military “end-users” such as dining halls, hospitals and other facilities that feed troops.

(2) Semiperishable items, such as canned goods, are stored in four DLA depots. Perishable items, including fresh and frozen vegetables, fruits, and meats,
are stored in 21 contractor-operated Defense Subsistence Offices.

(3) Private sector end-users, including independent restaurants, hospitals, and hotels, obtain their food through direct delivery from distributors.

(4) A Department of Defense comprehensive inventory reduction plan, issued in May 1990, stated that “where DoD requirements can be met through commercial distribution systems in a timely and cost-effective fashion, no value is added by pushing items through the DoD warehousing systems.”

(5) A June 1993 GAO report determined that the Department of Defense could achieve substantial cost savings by expanding the use of private sector food distributors and practices in the military food supply system.

(b) Review Required.—The Secretary of Defense shall conduct a review which evaluates the feasibility and economic benefits resulting from the expanded use of full-line distributors to deliver food directly to military end-users. The review should address whether the expanded use of distributors could reduce depot storage of food (except for war reserve stocks and items bound for overseas), and eliminates the requirement for Defense Subsistence Offices and certain base warehouse activities. The review should include
a cost comparison of the Department of Defense supply system with the costs of commercial distributors. The review should also consider what obstacles may exist that would hinder the Department of Defense's ability to procure commercial items and institute commercial logistics practices.

(c) REPORT.—Not later than March 1, 1994, the Secretary shall submit to the congressional defense committees a report on his findings from the review together with any recommendations.

SEC. 1082. PREVENTION OF ENTRY INTO THE UNITED STATES OF CERTAIN FORMER MEMBERS OF THE IRAQI ARMED FORCES.

It is the sense of the Senate that no person who was a member of the armed forces of Iraq during the period from August 2, 1990 through February 28, 1991 and who is in a refugee camp in Saudi Arabia as of the date of enactment of this Act shall be granted entry into the United States under the Immigration and Nationality Act, as amended, unless the President certifies to Congress prior to such entry that such person—

(1) assisted the United States or coalition armed forces after defection from the armed forces of Iraq or after capture by the United States or coalition armed forces; and
(2) did not commit or assist in the commission of war crimes.

SEC. 1083. SHORT TITLE.

Sections 1083, 1084, and 1085 may be cited as "NATO Review Requirements".

SEC. 1084. FINDINGS; POLICY.

(a) FINDINGS.—The Congress finds that—

(1) the North Atlantic Treaty Organization (NATO) has successfully met the challenge of helping to maintain the peace, security and freedom of the United States and its NATO allies for more than forty years;

(2) the national security interests of the United States have been well served by the process of consultation, coordination, and military cooperation in the NATO framework;

(3) recent history has witnessed radical changes in the international security environment, including the fall of the Berlin Wall, the unification of Germany, the disbanding of the Warsaw Pact and the disintegration of the Soviet Union;

(4) the military threats which NATO was established to deter have receded with the end of the Cold War, calling into question both the future value of the
alliance and the rationale for United States military deployments in Europe;

(5) the post-Cold War security situation continues to present a wide array of challenges to United States national interests, many of which interests the United States shares with its allies in Europe and Canada;

(6) the international community may prove capable of deterring many threats to the common peace if it can respond decisively to aggression;

(7) the United States must share the burden of its international security commitments with other nations if it is to tend to the needs of its own citizens in a responsible fashion;

(8) several of the newly democratic nations of Central and Eastern Europe have expressed interest in seeking membership in NATO;

(9) many of the security challenges facing the post-Cold War world would be best handled through coherent multilateral responses;

(10) the United States should never send its military forces into combat unless they are provided with the best opportunity to accomplish their objectives with as little risk as possible;
(11) military interventions against antagonistic armed forces cannot be conducted safely or effectively on a multilateral basis unless such operations are jointly planned in advance and are executed by units which have trained together and are familiar with each others operational procedures;

(12) NATO is currently the only organization with the experience, trained staff and infrastructure necessary to support military cooperation with the major military allies of the United States;

(13) the NATO allies already have volunteered to consider requests from the United Nations and the Conference on Security and Cooperation in Europe for assistance in maintaining the peace;

(14) justification of the relevance of NATO in the post-Cold War world will depend largely upon the alliance's ability to adapt its mission and procedures to the new security environment;

(15) justification of future United States support for the alliance and for a United States military presence in Europe will depend upon NATO's ability to address those security interests which the United States shares with its allies in Europe and Canada;

(16) a summit meeting of the NATO heads of state, which has been scheduled for January 1994,
would present an excellent opportunity for the President of the United States to articulate a new, broader security mission for the alliance in the post-Cold War world, one which will enable it to address a wider array of threats to its members' interests and which will help to share more effectively the burden of international security requirements.

(b) POLICY.—It is the sense of the Congress that—

(1) old threats to the security of the United States and its allies in the North Atlantic Treaty Organization have retreated radically but new, more diverse challenges have arisen in the form of ethno-religious conflict in Central and Eastern Europe and the proliferation of weapons of mass destruction in regions proximate to alliance territory and NATO's mission must be redefined so that it may respond to such challenges to its members' security even when those challenges emanate from beyond the geographic boundaries of its members' territories;

(2) future United States military involvement in, and contributions to, NATO should be determined in relation to the alliance's success or failure in adapting itself to confronting the challenges of the post-Cold War world.
1 SEC. 1085. REPORT.

2 Within 30 calendar days of the enactment of this legislation, the President, in consultation with the Secretary of State and the Secretary of Defense, shall send a report to the Armed Services Committees of the United States Senate and House of Representatives and to the Foreign Relations Committee of the United States Senate and the Foreign Affairs Committee of the House of Representatives. This report should contain recommendations on—

3 (1) the manner in which NATO can formulate and implement a strategy to address the new, more disparate threats to the security of its members;

4 (2) the feasibility of having NATO conduct security operations beyond the geographic boundaries of the alliance;

5 (3) the manner in which NATO should restructure its forces, training and equipment for the new security environment;

6 (4) the desirability of expanding the alliance to include either traditionally neutral nations or the new democratic nations of Eastern or Central Europe who wish to join NATO;

7 (5) the proper size and composition of United States forces to be deployed in Europe to assist in the implementation of NATO's new mandate and possible reduction in United States military deployments in
Europe in the event of the alliance's failure to adopt a new mandate;

(6) the structure and organization of NATO headquarters, with particular attention to the need to reinvigorate the NATO Military Committee;

(7) the desirability of having additional NATO forces train in North America in a manner supportive of NATO’s proposed new strategy;

(8) the structure of NATO’s military command, with particular attention to the need to make NATO’s Rapid Reaction Force a credible deterrent to regional aggression;

(9) the levels of United States, European and Canadian defense budgets and their ability to finance forces consistent with the implementation of NATO’s new mandate.

SEC. 1086. LOCATION OF JOINT WARFIGHTING SIMULATION CENTER.

The Secretary of Defense shall provide that the Joint Warfighting Simulation Center, established by the Secretary on July 1, 1993, be located with the Army Training and Doctrine Command at Fort Monroe, Virginia.
SEC. 1087. SANCTIONS AGAINST SERBIA AND MONTENEGRO.

(a) CODIFICATION OF EXECUTIVE BRANCH SANCTIONS.—The sanctions against Serbia and Montenegro described in the following directives of the executive branch of Government are hereby enacted into law:

(7) Department of Transportation Order 92-5-38 of May 20, 1992.

(b) PROHIBITION ON ASSISTANCE.—(1) No funds appropriated or otherwise made available by law may be obligated or expended for Serbia or Montenegro.
(2) The prohibition of paragraph (1) includes funds which were obligated but not expended under any law enacted before the date of enactment of this Act.
(c) **International Financial Institutions.**—The Secretary of the Treasury shall instruct the United States executive director of each international financial institution to use the voice and vote of the United States to oppose any assistance of the respective institutions to Serbia or Montenegro.

Hercegovina and Armenia. To the extent possible, these sup-
plies should come from surplus stocks.

SEC. 1094. LANDMINE MORATORIUM EXTENSION ACT.
(a) Short Title.—This section shall be titled the
"Landmine Moratorium Extension Act of 1993".
(b) Findings.—The Congress makes the following
findings:
(1) Anti-personnel landmines, which are de-
dsigned to maim and kill people, have been used indis-
criminately in dramatically increasing numbers
around the world. Hundreds of thousands of non-
combatant civilians, including children, have been the
primary victims. Unlike other military weapons,
landmines often remain implanted and undiscovered
after conflict has ended, causing massive suffering to
civilian populations.

(2) Tens of millions of landmines have been
strewn in at least 62 countries, often making whole
areas uninhabitable. The State Department estimates
there are more than 10,000,000 landmines in Afghan-
istan, 9,000,000 in Angola, 4,000,000 in Cambodia,
3,000,000 in Iraqi Kurdistan, and 2,000,000 each in
Somalia, Mozambique, and the former Yugoslavia.
Hundreds of thousands of landmines were used in
conflicts in Central America in the 1980s.

(3) Advanced technologies are being used to man-
ufacture sophisticated mines which can be scattered
remotely at a rate of 1,000 per hour. These mines,
which are being produced by many industrialized
countries, were found in Iraqi arsenals after the Per-
sian Gulf War.

(4) At least 300 types of anti-personnel land-
mines have been manufactured by at least 44 coun-
dries, including the United States. However, the Unit-
ed States is not a major exporter of landmines. Dur-
ing the past ten years the Administration has ap-
proved ten licenses for the commercial export of anti-
personnel landmines with a total value of $980,000,
and the sale under the Foreign Military Sales pro-
gram of 108,852 anti-personnel landmines.

(5) The United States signed, but has not rati-
fied, the 1980 Convention on Prohibitions or Re-
strictions on the Use of Certain Conventional Weap-
ons Which May Be Deemed To Be Excessively Injuri-
ous or To Have Indiscriminate Effects. Protocol II of
the Convention, otherwise known as the Landmine
Protocol, prohibits the indiscriminate use of land-
mines.

(6) When it signed the 1980 Convention, the
United States stated: “We believe that the Convention
represents a positive step forward in efforts to mini-
mize injury or damage to the civilian population in
time of armed conflict. Our signature of the Conven-
tion reflects the general willingness of the United
States to adopt practical and reasonable provisions
concerning the conduct of military operations, for the
purpose of protecting noncombatants.”.

(7) The United States also indicated that it had
supported procedures to enforce compliance, which
were omitted from the Convention’s final draft. The
United States stated: “The United States strongly supported proposals by other countries during the Conference to include special procedures for dealing with compliance matters, and reserves the right to propose at a later date additional procedures and remedies, should this prove necessary, to deal with such problems.”.

(8) The lack of compliance procedures and other weaknesses have significantly undermined the effectiveness of the Landmine Protocol. Since it entered into force on December 2, 1983, the number of civilians maimed and killed by anti-personnel landmines has multiplied.

(9) Since the moratorium on United States sales, transfers and exports of anti-personnel landmines was signed into law on October 23, 1992, the European Parliament has issued a resolution calling for a five year moratorium on sales, transfers and exports of anti-personnel landmines, and the Government of France has announced that it has ceased all sales, transfers and exports of anti-personnel landmines.

(10) On December 2, 1993, ten years will have elapsed since the 1980 Convention entered into force, triggering the right of any party to request a United Nations conference to review the Convention. Amend-
ments to the Landmine Protocol may be considered at that time. A formal request has been made to the United Nations Secretary General for a review conference. With necessary preparations and consultations among governments, a review conference is not expected to be convened before late 1994 or early 1995.

(11) The United States should continue to set an example for other countries in such negotiations by extending the moratorium on sales, transfers and exports of anti-personnel landmines for an additional three years. A moratorium of this duration would extend the current prohibition on the sale, transfer and export of anti-personnel landmines a sufficient time to take into account the results of a United Nations review conference.

(c) STATEMENT OF POLICY.—

(1) It shall be the policy of the United States to seek verifiable international agreements prohibiting the sale, transfer or export, and further limiting the manufacture, possession and use of anti-personnel landmines.

(2) It is the sense of the Congress that the President should submit the 1980 Convention on Certain Conventional Weapons to the Senate for ratification.
Furthermore, the Administration should participate in a United Nations conference to review the Landmine Protocol, and actively seek to negotiate under United Nations auspices a modification of the Landmine Protocol, or another international agreement, to prohibit the sale, transfer or export of anti-personnel landmines, and to further limit their manufacture, possession and use.

(d) Moratorium on Transfers of Anti-Personnel Landmines Abroad.—For a period of three years beginning on the date of enactment of this Act—

(1) no sale may be made or financed, no transfer may be made, and no license for export may be issued, under the Arms Export Control Act, with respect to any anti-personnel landmine; and

(2) no assistance may be provided under the Foreign Assistance Act of 1961, with respect to the provision of any anti-personnel landmine.

(e) Definition.—For purposes of this section, the term “anti-personnel landmine” means—

(1) any munition placed under, on, or near the ground or other surface area, or delivered by artillery, rocket, mortar, or similar means or dropped from an aircraft and which is designed to be detonated or ex-
ploded by the presence, proximity, or contact of a person;

(2) any device or material which is designed, constructed, or adapted to kill or injure and which functions unexpectedly when a person disturbs or approaches an apparently harmless object or performs an apparently safe act;

(3) any manually-emplaced munition or device designed to kill, injure, or damage and which is actuated by remote control or automatically after a lapse of time.

(6) The Federal Government may provide such assistance by accelerating environmental restoration at military installations to be closed, and by closing such installations, in a manner that best ensures the beneficial reutilization or redevelopment of such installations by such communities.
