“(c) PRESIDENTIAL ACTIONS.—Congress urges the President to pursue immediate discussions with Russia on the feasibility and mutual interest of amendments to the ABM Treaty to permit clarification of the distinctions for the purposes of the ABM Treaty between theater missile defenses and anti-ballistic missile defenses, including interceptors and radars.”

(5) Section 234 is amended to read as follows:

“SEC. 234. MANAGEMENT RESPONSIBILITY FOR RESEARCH AND DEVELOPMENT OF FAR-TERM FOLLOW-ON TECHNOLOGIES.

“(a) MANAGEMENT RESPONSIBILITY.—The Secretary of Defense shall provide that management and budget responsibility for research and development of any far-term follow-on technology relating to ballistic missile defense shall be provided through the Advanced Research Projects Agency or the appropriate military department.

“(b) WAIVER AUTHORITY.—The Secretary may waive the provisions of subsection (a) in the case of a particular far-term follow-on technology that on December 5, 1991, was under the Strategic Defense Initiative Organization and provide that management and budget responsibility for research and development of that technology shall be provided through the Ballistic Missile Defense Organization if the Secretary determines, and certifies to the
cational defense committees, that providing manage-
ment and budget responsibility for research and develop-
ment of that technology as provided in subsection (a)
would not be in the national security interests of the
United States.

"(c) DEFINITION.—For purposes of this section, the
term ‘far-term follow-on technology’ means a technology
that is not likely to be incorporated into a weapon system
before 2008.’’.

(6) Section 235 is amended—
(A) by striking out “‘Strategic Defense Ini-
tiative’” in subsections (a) and (b) and inserting
in lieu thereof “‘Ballistic Missile Defense pro-
gram’”; and
(B) by striking out the section heading and
inserting in lieu thereof the following:

“SEC. 235. PROGRAM ELEMENTS FOR BALLISTIC MISSILE
DEFENSE PROGRAM.”.

date”.

SEC. 235. PATRIOT ADVANCED CAPABILITY-3 THEATER
MISSILE DEFENSE SYSTEM.

(a) Competition for Missile Selection.—The
Secretary of Defense shall continue the strategy being car-
rried out by the Ballistic Missile Defense Organization as
of July 1, 1993, for selection of the best technology (in
terms of cost, schedule, risk, and performance) to meet
the missile requirements for the Patriot Advanced Capa-
bility-3 (PAC-3) theater missile defense system. That
strategy, consisting of flight testing, ground testing, sim-
ulations, and other analyses of the two competing missiles
(the Patriot Multimode Missile and the Extended Range
Interceptor (ERINT) missile), shall be continued until the
Secretary determines that the Ballistic Missile Defense
Organization has adequate information upon which to
base a decision as to which missile will be selected to pro-
ceed into the Engineering and Manufacturing Develop-
ment stage.

(b) Funds for Demonstration and Validation.—Of the funds authorized to be appropriated by sec-
tion 201 for the Ballistic Missile Defense Organization—
(1) not less than $44,100,000 shall be available for demonstration and validation purposes for the Patriot Multimode Missile program;

(2) not less than $55,900,000 shall be available for demonstration and validation purposes for the Extended Range Interceptor program; and

(3) not less than $52,700,000 shall be available for demonstration and validation and for the Engineering and Manufacturing Development stage for the system selected and for appropriate risk mitigation activities.

(c) IMPLICATIONS OF DELAY.—If there is a delay (based upon the schedule in effect in mid-1993) in the selection described in subsection (a) of the missile for the Patriot Advanced Capability-3 system, the Secretary of Defense shall ensure that demonstration and validation of both competing systems can continue as needed to support an informed decision for such selection.

SEC. 236. DEVELOPMENT AND TESTING OF ANTI-BALLISTIC MISSILE SYSTEMS OR COMPONENTS TO BE CARRIED OUT IN ACCORDANCE WITH TRADITIONAL INTERPRETATION OF ANTI-BALLISTIC MISSILE TREATY.

(a) LIMITATION.—Funds appropriated to the Department of Defense for fiscal year 1994, or otherwise made
available to the Department of Defense from any funds appropriated for fiscal year 1994 or for any fiscal year before 1994, may not be obligated or expended—

(1) for any development or testing of anti-ballistic missile systems or components except for development and testing consistent with the interpretation of the 1972 ABM Treaty set forth in the enclosure to the July 13, 1993, ACDA letter; or

(2) for the acquisition of any material or equipment (including any long lead materials, components, piece parts, test equipment, or any modified space launch vehicle) required or to be used for the development or testing of anti-ballistic missile systems or components, except for material or equipment required for development or testing consistent with the interpretation of the 1972 ABM Treaty set forth in the enclosure to the July 13, 1993, ACDA letter.

(b) Exception.—The limitation under subsection (a) shall not apply to funds transferred to or for the use of the Ballistic Missile Defense Organization for fiscal year 1994 if the transfer is made in accordance with section 1001 of this Act.

(c) Definition.—In this section, the term ‘‘July 13, 1993, ACDA letter’’ means the letter dated July 13, 1993,
from the Acting Director of the Arms Control and Disar-
mament Agency to the chairman of the Committee on For-
eign Relations of the Senate relating to the correct inter-
pretation of the 1972 ABM Treaty and accompanied by
an enclosure setting forth such interpretation.

SEC. 237. THEATER MISSILE DEFENSE ROAD MAP.
(a) INTEGRATION AND COMPATIBILITY.—In carrying
out the Theater Missile Defense Initiative, the Secretary
of Defense shall—

(1) seek to maximize the use of existing sys-
tems and technologies; and

(2) seek to promote joint use by the military
departments of existing and future ballistic missile
defense equipment (rather than each military de-
partment developing its own systems that would
largely overlap in their capabilities).

The Secretaries of the military departments shall seek the
maximum integration and compatibility of their ballistic
missile defense systems as well as of the respective roles
and missions of those systems.

(b) TMD ANALYSIS.—The Secretary of Defense shall
submit to Congress a report containing a thorough and
complete analysis of the future of theater missile defense
programs. The analysis shall include the following:
(1) A description of the mission and scope of Theater Missile Defense.

(2) A description of the role of each of the Armed Forces in Theater Missile Defense.

(3) A description of how those roles interact and complement each other.

(4) An evaluation of the cost and relative effectiveness of each interceptor and sensor under development as part of a Theater Missile Defense system by the Ballistic Missile Defense Organization.

(5) An analysis and comparison of the projected life-cycle costs of each Theater Missile Defense system intended for production (shown separately for research, development, test, and evaluation, for procurement, for operation and maintenance, and for personnel costs for each element).

(6) Specification of the baseline production rate for each year of the program through completion of procurement.

(7) Estimation of the unit cost and capabilities of each element.

(c) Description of Testing Program.—The Secretary of Defense shall include in the report under subsection (b) a description of the current and projected testing program for theater missile defense systems and major
components. The report shall include an evaluation of the adequacy of the testing program to simulate conditions similar to those the systems and components would actually be expected to encounter if and when deployed (such as the ability to track and engage multiple targets with multiple interceptors, to discriminate targets from decoys and other incoming objects, and to be employed in a shoot-look-shoot firing mode).

(d) Relationship to Arms Control Treaties.—The Secretary shall include in the report under subsection (b) a statement of how production and deployment of any projected Theater Missile Program will conform to existing Anti-Ballistic Missile Treaty and Intermediate Nuclear Forces Treaty Regimes. The report shall describe any potential noncompliance with either Regime, when such noncompliance is expected to occur, and whether provisions need to be renegotiated within that Regime to address future contingencies.

(e) Submission of Report.—The report required by subsection (b) shall be submitted as part of the next annual report of the Secretary submitted to Congress under section 224 of Public Law 101-189 (10 U.S.C. 2431 note).
SEC. 238. ADDITIONAL BMD PROGRAMS.

(a) NAVAL THEATER MISSILE DEFENSE.—Of the amount provided under section 201 for Theater Missile Defense, $102,000,000 shall be available to support the aggressive exploration of the Navy Upper Tier concept for Naval Theater Missile Defense, including cost-effective systems and upgrades to existing systems that can be fielded more quickly than new systems.

(b) ACCELERATED ADVANCED TECHNOLOGY DEMONSTRATION PROGRAM.—The Secretary of Defense, acting through the Director of the Theater Missile Defense Initiative, shall initiate during fiscal year 1994 an accelerated Advanced Technology Demonstration program to demonstrate the technical feasibility of using the Navy’s Standard Missile combined with a kickstage rocket motor and Lightweight Exoatmospheric Projectile (LEAP) as a near-term option for cost-effective wide-area Theater Missile Defense.

SEC. 239. REPORT ON NATIONAL MISSILE DEFENSE COST.

(a) REPORT REQUIRED.—The Secretary of Defense shall submit to Congress a report setting forth a full and thorough estimation of the cost of deploying a National Defense System at Grand Forks, North Dakota. The Secretary shall include in the report—

(1) the projected life-cycle costs of each system intended for production as part of such National De-
fense System, including a ground-based radar system, the system known as “Brilliant Eyes”, and a ground-based interceptor system; and

(2) with respect to each such system, a separate statement of those costs for (A) research, development, test, and evaluation, (B) procurement, (C) deployment and launch activities, (D) operation and maintenance, and (E) personnel.

(b) Submission.—The report required under subsection (a) shall be submitted as part of the next annual report of the Secretary submitted to Congress under section 224 of Public Law 101–189 (10 U.S.C. 2431 note).

SEC. 240. THEATER MISSILE DEFENSE INTERCEPTOR TESTING.

The Secretary of Defense may not approve a theater missile defense interceptor program proceeding into the Low-Rate Initial Production (Milestone III) acquisition stage until the Secretary certifies to the congressional defense committees in writing that the Secretary has conducted more than two realistic live-fire tests, consistent with section 2366 of title 10, United States Code, involving multiple interceptors and multiple targets in the presence of realistic countermeasures the results of which demonstrate the achievement by the interceptors of the single-shot probability-of-kill specified in the system baseline de-
scription established pursuant to section 2435(a)(1)(A) of title 10, United States Code, before the program entered full-scale engineering development.

SEC. 241. ARROW TACTICAL ANTI-MISSILE PROGRAM.

(a) ENDORSEMENT OF COOPERATIVE RESEARCH AND DEVELOPMENT.—Congress reiterates its endorsement (previously stated in section 225(a)(5) of Public Law 101-510 (104 Stat. 1515) and section 241(a) of Public Law 102-190 (105 Stat. 1326)) of a continuing program of cooperative research and development, jointly funded by the United States and Israel, on the Arrow Tactical Anti-Missile program.

(b) PROGRAM GOAL.—The goal of the cooperative program is to demonstrate the feasibility and practicality of the Arrow system and to permit the government of Israel to make a decision on its own initiative regarding deployment of that system without financial participation by the United States beyond the research and development stage.

(c) ARROW CONTINUING EXPERIMENTS.—The Secretary of Defense, from amounts appropriated to the Department of Defense pursuant to section 201 for Defense-wide activities and available for the Ballistic Missile Defense Organization, shall fully fund the United States con-
tribution to the fiscal year 1994 Arrow Continuing Experiments program at the level of $56,400,000.

(d) Arrow Deployability Initiative.—(1) Subject to paragraph (2), the Secretary of Defense may obligate from funds appropriated pursuant to section 201 up to $25,000,000 for the purpose of research and development of technologies associated with deploying the Arrow missile in the future (including technologies associated with battle management, lethality, system integration, and test bed systems).

(2) Funds may not be obligated for the purpose stated in paragraph (1) unless the President certifies to Congress that—

(A) the United States and the government of Israel have entered into an agreement governing the conduct and funding of research and development projects for the purpose stated in paragraph (1);

(B) each project in which the United States will join under that agreement (i) will have a benefit for the United States, and (ii) has not been barred by other congressional direction;

(C) the Arrow missile has successfully completed a flight test in which it intercepted a target missile under realistic test conditions; and
(D) the government of Israel is continuing, in accordance with its previous public commitments, to adhere to export controls pursuant to the Guidelines and Annex of the Missile Technology Control Regime.

(e) Sense of Congress on Expediting Test Program.—It is the sense of Congress that, in order to expedite the test program for the Arrow missile, the United States should seek to initiate with the government of Israel discussions on the agreement referred to in subsection (d)(2)(A) without waiting for the condition specified in subsection (d)(2)(C) to be met first.

Sec. 242. Extension of Prohibition on Testing Mid-Infrared Advanced Chemical Laser Against an Object in Space.

The Secretary of Defense may not carry out a test of the Mid-Infrared Advanced Chemical Laser (MIRACL) transmitter and associated optics against an object in space during 1994 unless such testing is specifically authorized by law.
SEC. 243. TECHNICAL AMENDMENTS TO REFLECT REDESIGNATION OF STRATEGIC DEFENSE INITIATIVE ORGANIZATION.

(1) by striking out “Strategic Defense Initiative” each place it appears (other than in subsection (b)(5)) and inserting in lieu thereof “Ballistic Missile Defense program”;

(2) by striking out “Strategic Defense Initiative” in subsection (b)(5) and inserting in lieu thereof “Ballistic Missile Defense”;

(3) by striking out “SDI” each place it appears and inserting in lieu thereof “BMD”; and

(4) by striking out the section heading and inserting in lieu thereof the following:

“SEC. 224. ANNUAL REPORT ON BALLISTIC MISSILE DEFENSE PROGRAM.”.

SEC. 244. CLEMENTINE SATELLITE PROGRAM.

(a) FINDING.—The Congress finds that the program of the Ballistic Missile Defense Organization within the Follow-on programs program element that is known as the “Clementine” program, consisting of a satellite space project that will, among other matters, provide valuable information about asteroids in the vicinity of Earth, rep-
represents an important opportunity for transfer of Department of Defense technology for civilian purposes and should be supported.

(b) Congressional Views.—The Congress urges the Secretary of Defense—

(1) to consider funding for the Clementine program to be a priority within the Ballistic Missile Defense Organization Follow-on programs program element and to provide funds for that program at appropriate levels; and

(2) to identify an appropriate management structure within either the Advanced Research Projects Agency or one of the military departments to which the Clementine program and related programs of general applicability to civilian, commercial, and military space programs might be transferred.

SEC. 245. TACTICAL AND THEATER MISSILE DEFENSES.

(a) Findings.—Congress makes the following findings:

(1) Systems to provide effective defense against theater and tactical ballistic missiles that may be developed and deployed by the United States have the potential to make equal or greater contributions to the national security interests of nations that are al-
lies of the United States as they do to the national
security interests of the United States.

(2) The cost of developing and deploying a
broad spectrum of such systems will be several tens
of billions of dollars.

(3) A truly cooperative approach to the develop-
ment and deployment of such systems could substan-
tially reduce the financial burden of such an under-
taking to any one country and would tap additional
sources of technological expertise.

(4) While recent statements of nations that are
allies of the United States have expressed a desire
for greater involvement in United States tactical
missile defense efforts, those nations are unlikely to
support programs for theater missile defense devel-
opment and deployment unless, at a minimum, they
can play a meaningful role in the planning and exe-
cution of such programs, including active participa-
tion in research and development and production of
the systems involved.

(5) Given the high cost of developing theater
ballistic missile defense systems, allied participation
in tactical missile defense efforts would result in
substantial savings to the United States.
(b) Plan and Reports.—(1) The Secretary of Defense shall develop a plan to coordinate development and implementation of Theater Missile Defense programs of the United States with that of its allies, in order to avoid duplication of effort, to increase interoperability, and to reduce costs. The plan shall set forth in detail any financial, in-kind, or other form of participation in cooperative efforts to plan, develop, produce, and deploy theater ballistic missile defenses for the mutual benefit of the countries involved.

(2) The Secretary shall submit to Congress a report on the plan developed under paragraph (1). The report shall be submitted in both classified and unclassified versions, as appropriate, and may be submitted as a component of the next annual Ballistic Missile Defense Organization report to Congress.

(3) The Secretary shall include in each annual Ballistic Missile Defense Organization report to Congress a report on steps taken to implement the plan developed under paragraph (1). Each such report shall set forth the status of discussions with United States allies for the purposes stated in that paragraph and the status of contributions by those allies to the Theater Missile Defense Cooperation Account, shown separately for each allied country covered by the plan.
(c) Restriction on Funds.—Of the total amount appropriated pursuant to authorizations in this Act for theater ballistic missile defenses programs, not more than 80 percent may be obligated until—

(1) the report under subsection (b)(2) is submitted to Congress; and

(2) the President certifies in writing to Congress that each of the NATO allies, Japan, Israel, South Korea, and any other country that the President considers appropriate have been formally contacted concerning the matters described in the report.

(d) Sense of Congress.—It is the sense of Congress that, whenever the United States deploys theater ballistic missile defenses to protect another country, or the military forces of another country, that has not provided financial or in-kind support for development of theater ballistic missile defenses, the United States should consider whether it is appropriate to seek reimbursement from that country to cover at least the incremental cost of such deployment.

(e) Requirement to Establish Annual TMD Level.—The Congress shall establish by law for each fiscal year (beginning with fiscal year 1995) the level of new obligational authority (stated as a single dollar amount)
for research, development, test, and evaluation and for procurement for theater missile defense programs of the Department of Defense for that fiscal year.

(f) **Allied Participation in TMD.**—Congress encourages greater participation by United States allies, and particularly by those nations that would benefit most from Theater Missile Defense systems, in cooperative Theater Missile Defense efforts with the United States.

(g) **Fund for Allied Contributions.**—(1) Chapter 155 of title 10, United States Code, is amended by adding at the end the following new section:

```
§ 2609. Theater Missile Defense: acceptance of contributions from allies; Theater Missile Defense Cooperation Account

(a) Acceptance Authority.—The Secretary of Defense may accept from any allied foreign government or any international organization any contribution of money made by such foreign government or international organization for use by the Department of Defense for Theater Missile Defense programs.

(b) Establishment of Theater Missile Defense Cooperation Account.—(1) There is established in the Treasury a special account to be known as the ‘Theater Missile Defense Cooperation Account’.
```
“(2) Contributions accepted by the Secretary of Defense under subsection (a) shall be credited to the Account.

“(c) Use of the Account.—(1) Funds in the Account are hereby made available for obligation for research, development, test, and evaluation, and for procurement, for Theater Missile Defense programs of the Department of Defense.

“(d) Investment of Money.—(1) Upon request by the Secretary of Defense, the Secretary of the Treasury may invest money in the Account in securities of the United States or in securities guaranteed as to principal and interest by the United States.

“(2) Any interest or other income that accrues from investment in securities referred to in paragraph (1) shall be deposited to the credit of the Account.

“(e) Notification of Conditions.—The Secretary of Defense shall notify Congress of any condition imposed by the donor on the use of any contribution accepted by the Secretary under the authority of this section.

“(f) Annual Audit by GAO.—The Comptroller General of the United States shall conduct an annual audit of money accepted by the Secretary of Defense under this section and shall submit a copy of the results of each such audit to Congress.

90

“(g) Regulations.—The Secretary of Defense shall prescribe regulations to carry out this section.”.

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“2609. Theater Missile Defense: acceptance of contributions from allies; Theater Missile Defense Cooperation Account.”.

“(h) Coordination of Benefits.—The Secretary concerned may not make payments to a spouse or former spouse under both this section and section 1408(h)(1) of this title. “(1) who is under 18 years of age;

SEC. 574. POLICY CONCERNING HOMOSEXUALITY IN THE ARMED FORCES.

(a) CODIFICATION.—(1) Chapter 37 of title 10, United States Code, is amended by adding at the end the following new section:

§ 654. Policy concerning homosexuality in the armed forces

“(a) FINDINGS.—Congress makes the following findings:

“(1) Section 8 of article I of the Constitution of the United States commits exclusively to the Congress the powers to raise and support armies, provide and maintain a Navy, and make rules for the government and regulation of the land and naval forces.

“(2) There is no constitutional right to serve in the armed forces.
“(3) Pursuant to the powers conferred by section 8 of article I of the Constitution of the United States, it lies within the discretion of the Congress to establish qualifications for and conditions of service in the armed forces.

“(4) The primary purpose of the armed forces is to prepare for and to prevail in combat should the need arise.

“(5) The conduct of military operations requires members of the armed forces to make extraordinary sacrifices, including the ultimate sacrifice, in order to provide for the common defense.

“(6) Success in combat requires military units that are characterized by high morale, good order and discipline, and unit cohesion.

“(7) One of the most critical elements in combat capability is unit cohesion, that is, the bonds of trust among individual service members that make the combat effectiveness of a military unit greater than the sum of the combat effectiveness of the individual unit members.

“(8) Military life is fundamentally different from civilian life in that—

“(A) the extraordinary responsibilities of the armed forces, the unique conditions of mili-
tary service, and the critical role of unit cohesion, require that the military community, while subject to civilian control, exist as a specialized society; and

“(B) the military society is characterized by its own laws, rules, customs, and traditions, including numerous restrictions on personal behavior, that would not be acceptable in civilian society.

“(9) The standards of conduct for members of the armed forces regulate a member’s life for 24 hours each day beginning at the moment the member enters military status and not ending until that person is discharged or otherwise separated from the armed forces.

“(10) Those standards of conduct, including the Uniform Code of Military Justice, apply to a member of the armed forces at all times that the member has a military status, whether the member is on base or off base, and whether the member is on duty or off duty.

“(11) The pervasive application of the standards of conduct is necessary because members of the armed forces must be ready at all times for worldwide deployment to a combat environment.
“(12) The worldwide deployment of United States military forces, the international responsibilities of the United States, and the potential for involvement of the armed forces in actual combat routinely make it necessary for members of the armed forces involuntarily to accept living conditions and working conditions that are often spartan, primitive, and characterized by forced intimacy with little or no privacy.

“(13) The prohibition against homosexual conduct is a longstanding element of military law that continues to be necessary in the unique circumstances of military service.

“(14) The armed forces must maintain personnel policies that exclude persons whose presence in the armed forces would create an unacceptable risk to the armed forces' high standards of morale, good order and discipline, and unit cohesion that are the essence of military capability.

“(15) The presence in the armed forces of persons who demonstrate a propensity or intent to engage in homosexual acts would create an unacceptable risk to the high standards of morale, good order and discipline, and unit cohesion that are the essence of military capability.
“(b) Policy.—A member of the armed forces shall be separated from the armed forces under regulations prescribed by the Secretary of Defense if one or more of the following findings is made and approved in accordance with procedures set forth in such regulations:

“(1) That the member has engaged in, attempted to engage in, or solicited another to engage in a homosexual act or acts unless there are further findings, made and approved in accordance with procedures set forth in such regulations, that the member has demonstrated that—

“(A) such conduct is a departure from the member’s usual and customary behavior;

“(B) such conduct, under all the circumstances, is unlikely to recur;

“(C) such conduct was not accomplished by use of force, coercion, or intimidation;

“(D) under the particular circumstances of the case, the member’s continued presence in the armed forces is consistent with the interests of the armed forces in proper discipline, good order, and morale; and

“(E) the member does not have a propensity or intent to engage in homosexual acts.
'(2) That the member has stated that he or she is a homosexual or bisexual, or words to that effect, unless there is a further finding, made and approved in accordance with procedures set forth in the regulations, that the member has demonstrated that he or she is not a person who engages in, attempts to engage in, has a propensity to engage in, or intends to engage in homosexual acts.

'(3) That the member has married or attempted to marry a person known to be of the same biological sex.

'(c) Entry Standards and Documents.—(1) The Secretary of Defense shall ensure that the standards for enlistment and appointment of members of the armed forces reflect the policies set forth in subsection (b).

'(2) The documents used to effectuate the enlistment or appointment of a person as a member of the armed forces shall set forth the provisions of subsection (b).

'(d) Required Briefings.—The briefings that members of the armed forces receive upon entry into the armed forces and periodically thereafter under section 937 of this title (article 137 of the Uniform Code of Military Justice) shall include a detailed explanation of the applicable laws and regulations governing sexual conduct by
members of the armed forces, including the policies prescribed under subsection (b).

“(e) Rule of Construction.—Nothing in subsection (b) shall be construed to require that a member of the armed forces be processed for separation from the armed forces when a determination is made in accordance with regulations prescribed by the Secretary of Defense that—

“(1) the member engaged in conduct or made statements for the purpose of avoiding or terminating military service; and

“(2) separation of the member would not be in the best interest of the armed forces.

“(f) Definitions.—In this section:

“(1) The term ‘homosexual’ means a person, regardless of sex, who engages in, attempts to engage in, has a propensity to engage in, or intends to engage in homosexual acts, and includes the terms ‘gay’ and ‘lesbian’.

“(2) The term ‘bisexual’ means a person who engages in, attempts to engage in, has a propensity to engage in, or intends to engage in homosexual and heterosexual acts.

“(3) The term ‘homosexual act’ means—
“(A) any bodily contact, actively undertaken or passively permitted, between members of the same sex for the purpose of satisfying sexual desires; and

“(B) any bodily contact which a reasonable person would understand to demonstrate a propensity or intent to engage in an act described in subparagraph (A).”.

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following: “654. Policy concerning homosexuality in the armed forces.”.

(b) Regulations.—Not later than 90 days after the date of enactment of this Act, the Secretary of Defense shall revise Department of Defense regulations, and issue such new regulations as may be necessary, to implement section 654 of title 10, United States Code, as added by subsection (a).

(c) Savings Provision.—Nothing in this section or section 654 of title 10, United States Code, as added by subsection (a) may be construed to invalidate any inquiry, investigation, administrative action or proceeding, court-martial, or judicial proceeding conducted before the effective date of regulations issued by the Secretary of Defense to implement such section 654.

(d) Sense of Congress.—It is the sense of Congress that—
(1) the suspension of questioning concerning homosexuality as part of the processing of individuals for accession into the Armed Forces under the interim policy of January 29, 1993, should be continued, but the Secretary of Defense may reinstate that questioning with such questions or such revised questions as he considers appropriate if the Secretary determines that it is necessary to do so in order to effectuate the policy set forth in section 654 of title 10, United States Code, as added by subsection (a); and

(2) the Secretary of Defense should consider issuing guidance governing the circumstances under which members of the Armed Forces questioned about homosexuality for administrative purposes should be afforded warnings similar to the warnings under section 831(b) of title 10, United States Code (article 31(b) of the Uniform Code of Military Justice).

SEC. 1008. FUNDING STRUCTURE FOR CONTINGENCY OPERATIONS.

(a) In General.—Chapter 3 of title 10, United States Code, is amended by inserting after section 127 the following new section:

```
§ 127a. Expenses for contingency operations

(a) Designation of National Contingency Operations.—The funding procedures prescribed by this section apply with respect to any operation involving the armed forces that is designated by the Secretary of Defense as a National Contingency Operation. Whenever the Secretary designates an operation as a National Contingency Operation, the Secretary shall promptly transmit notice of that designation in writing to Congress. This section does not provide authority for the President or the Secretary of Defense to carry out an operation, but applies to the Department of Defense mechanisms by which funds
```
are provided for operations that the armed forces are re-
quired to carry out under some other authority.

“(b) Waiver of Requirement To Reimburse Support Units.—(1) When an operating unit of the
Armed Forces participating in a National Contingency
Operation receives support services from a support unit
of the Armed Forces that operates through the Defense
Business Operations Fund (or a successor fund), that op-
erating unit need not reimburse that support unit for the
incremental costs incurred by the support unit in provid-
ing such support, notwithstanding any other provision of
law or Government accounting practice.

“(2) The amounts which but for paragraph (1) would be required to be reimbursed to a support unit shall be
recorded as an expense attributable to the operation and
shall be accounted for separately.

“(c) Obligational Limitations.—(1) Obligations attributable to a National Contingency Operation for
which customary reimbursement requirements are not ap-
plicable by reason of subsection (b) may not be made in
excess of $20,000,000 until the President submits to Con-
gress notice of the intention to make such obligations in
excess of $20,000,000.

“(2) Upon such notification under paragraph (1), an
additional $20,000,000 in obligations attributable to that
operation for which customary reimbursement require-
ments are not applicable by reason of subsection (b) may
be made.

````(3) Obligations attributable to a National Conting-
gency Operation for which customary reimbursement re-
quirements are not applicable by reason of subsection (b)
may be made in excess of $40,000,000—
````(A) only after the end of the 30-day period be-
ginning on the date on which a presidential notifica-
tion is submitted under paragraph (2); and
````(B) only if during that 30-day period a joint
resolution described in subsection (i) is not enacted
into law.
````(4) The President may waive the limitation in para-
graph (3) in the case of any National Contingency Op-
eration with respect to which the President has declared a
national emergency.
````(d) Notification and Plan for Large-Scale
Operations.—(1) Within two months of the beginning
of any large-scale or long-term National Contingency Op-
eration, the President shall submit to Congress a financial
plan for the operation that sets forth the manner by which
the President proposes to obtain funds for the full cost
to the United States of the operation.
"(2) For purposes of this subsection, a large-scale or long-term National Contingency Operation is an operation designated as a National Contingency Operation that was not anticipated and programmed for in the budget for the current fiscal year and which is expected—

"(A) to have a duration in excess of three months; or

"(B) to have an incremental cost to the Department of Defense in excess of $100,000,000.

"(e) Incremental Costs.—For purposes of this section, incremental costs of the Department of Defense with respect to an operation are the costs that are directly attributable to the operation and that are otherwise chargeable to accounts available for operation and maintenance or for military personnel. Any costs which are otherwise chargeable to accounts available for procurement may not be considered to be incremental costs for purposes of this section.

"(f) Incremental Personnel Costs Account.—(1) There is hereby established in the Department of Defense a reserve fund to be known as the ‘National Contingency Operation Personnel Fund’. Amounts in the fund shall be available for incremental military personnel costs attributable to a National Contingency Operation. Amounts in the fund remain available until expended.
“(2) There is hereby authorized to be appropriated for fiscal year 1994 to the fund established under paragraph (2) the sum of $10,000,000.

“(g) Coordination With War Powers Resolution.—This section may not be construed as altering or superseding the War Powers Resolution. This section does not provide authority to conduct a National Contingency Operation or any other operation.

“(h) GAO Compliance Reviews.—The Comptroller General of the United States shall from time to time, and when requested by a committee of Congress, conduct a review of the defense contingency funding structure under this section to determine whether the Department of Defense is complying with the requirements and limitations of this section.

“(i) Procedures for Considering Resolution of Disapproval.—(1) For purposes of subsection (c)(3), the term ‘joint resolution’ means only a joint resolution that is introduced within the 10-day period beginning on the date on which the President transmits to Congress the notification under that subsection and—

“(A) that does not have a preamble;

“(B) the matter after the resolving clause of which is as follows: ‘That the President may not incur obligations in excess of $40,000,000 as pro-
posed in the notice of the President of

‘__________’, the blank space being filled in with

the appropriate date; and

“(C) the title of which is as follows: ‘Joint reso-

lution limiting obligations by the President.’.

“(2) A resolution described in paragraph (1) that is

introduced in the House of Representatives shall be re-

ferred jointly to the Committee on Foreign Relations and

the Committee on Armed Services of the House of Rep-

resentatives. A resolution described in paragraph (1) that

is introduced in the Senate shall be referred to the Com-

mittee on Foreign Relations of the Senate and the Com-

mittee on Armed Services of the Senate.

“(3) If the committees to which a resolution described

in paragraph (1) is referred have not reported such resolu-

tion (or an identical resolution) by the end of the 15-day

period beginning on the date on which the President trans-
mits the applicable notice to Congress under subsection

(c), such committees shall be, at the end of such period,
discharged from further consideration of such resolution,

and such resolution shall be placed on the appropriate cal-

endar of the House involved.

“(4)(A) On or after the third day after the date on

which the committees to which such a resolution is re-
ferred have reported, or have been discharged (under
paragraph (3)) from further consideration of, such a reso-

...lution, it is in order (even though a previous motion to
...the same effect has been disagreed to) for any Member
...of the respective House to move to proceed to the consider-
...ation of the resolution. A Member may make the motion
...only on the day after the calendar day on which the Mem-
...ber announces to the House concerned the Member’s in-
...tention to make the motion, except that, in the case of
...the House of Representatives, the motion may be made
...without such prior announcement if the motion is made
...by direction of the committee to which the resolution was
...referred. All points of order against the resolution (and
...against consideration of the resolution) are waived. The
...motion is highly privileged in the House of Representatives
...and is privileged in the Senate and is not debatable. The
...motion is not subject to amendment, or to a motion to
...postpone, or to a motion to proceed to the consideration
...of other business. A motion to reconsider the vote by
...which the motion is agreed to or disagreed to shall not
...be in order. If a motion to proceed to the consideration
...of the resolution is agreed to, the respective House shall
...immediately proceed to consideration of the joint resolu-
...tion without intervening motion, order, or other business,
...and the resolution shall remain the unfinished business of
...the respective House until disposed of.
“(B) Debate on the resolution, and on all debatable motions and appeals in connection therewith, shall be limited to not more than 10 hours, which shall be divided equally between those favoring and those opposing the resolution. An amendment to the resolution is not in order. A motion further to limit debate is in order and not debatable. A motion to postpone, or a motion to proceed to the consideration of other business, or a motion to recommit the resolution is not in order. A motion to reconsider the vote by which the resolution is agreed to or disagreed to is not in order.

“(C) Immediately following the conclusion of the debate on a resolution described in paragraph (1) and a single quorum call at the conclusion of the debate if requested in accordance with the rules of the appropriate House, the vote on final passage of the resolution shall occur.

“(D) Appeals from the decisions of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to a resolution described in subsection (a) shall be decided without debate.

“(5)(A) If, before the passage by one House of a resolution of that House described in subsection (a), that House receives from the other House a resolution de-
scribed in subsection (a), then the following procedures shall apply:

‘‘(i) The resolution of the other House shall not be referred to a committee and may not be considered in the House receiving it except in the case of final passage as provided in clause (ii)(II).

‘‘(ii) With respect to a resolution described in paragraph (1) of the House receiving the resolution—

‘‘(I) the procedure in that House shall be the same as if no resolution had been received from the other House; but

‘‘(II) the vote on final passage shall be on the resolution of the other House.

‘‘(B) Upon disposition of the resolution received from the other House, it shall no longer be in order to consider the resolution that originated in the receiving House.

‘‘(6) This subsection is enacted by Congress—

‘‘(A) as an exercise of the rulemaking power of the Senate and House of Representatives, respectively, and as such it is deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of a resolution described in para-
graph (1), and it supersedes other rules only to the extent that it is inconsistent with such rules; and

“(B) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner, and to the same extent as in the case of any other rule of that House.”.

The memorial to the U.S.S. Indianapolis (CA-35) to be located on the east bank of the Indianapolis water canal in downtown Indianapolis, Indiana, is hereby designated as the national memorial to the U.S.S. Indianapolis and her final crew.

**SEC. 1041. CONGRESSIONAL NOTIFICATION WHEN UNITED STATES FORCES ARE PLACED UNDER OPERATIONAL CONTROL OF A FOREIGN NATION.**

(a) Notice Requirement.—(1) Whenever the President places elements of the Armed Forces under the operational control of a foreign national acting on behalf of the United Nations, the Secretary of Defense shall submit to Congress a report described in subsection (b).
(2) Except as provided in paragraph (3), a report under paragraph (1) shall be submitted not less than 30 days before the date on which such operational control becomes effective.

(3) A report under paragraph (1) may be submitted less than 30 days before the date on which such operational control becomes effective (or after such date) if the President certifies to Congress that the requirement for the commitment of forces for such purpose is of such an emergency nature that delaying such commitment in order to provide such 30 days prior notice is not possible. Any such certification shall be submitted promptly upon the commitment of such forces.

(b) Contents of Report.—A report under subsection (a) shall set forth the following:

(1) The mission of the United States forces involved.

(2) The expected size and composition of the United States forces involved.

(3) The incremental cost to the United States associated with the proposed operation.

(4) The precise command and control relationship between the United States forces involved and the international organization.
(5) The precise command and control relationship between the United States forces involved and the commander of the United States unified command for the region in which the operation is proposed.

(6) The extent to which the United States forces involved will rely on non-United States forces for security and self-defense and an assessment on the ability of those non-United States forces to provide adequate security to the United States forces involved.

(7) The conditions under which the United States forces involved can and would be withdrawn.

(8) The timetable for complete withdrawal of the United States forces involved.

(c) **Classification of Report.**—A report required by this section shall be submitted in both classified and unclassified form, if necessary.

(d) **Exception for Small Forces.**—This section does not apply in the case of elements of the Armed Forces involving fewer than 100 members of the Armed Forces.

(e) **Interpretation.**—Nothing in this section may be construed as authority for the President to use United States Armed Forces in any operation.
SEC. 1042. IDENTIFICATION OF SERVICE IN VIETNAM IN THE COMPUTERIZED INDEX OF THE NATIONAL PERSONNEL RECORDS CENTER.

The Secretary of Defense shall include in the computerized index of the National Personnel Records Center in St. Louis, Missouri, an indicator to allow for searches or selection of military records of military personnel based upon service in the Southeast Asia theater of operations during the Vietnam conflict (as defined in section 1035(g)(2) of title 10, United States Code).

SEC. 1043. SHARING DEFENSE BURDENS AND RESPONSIBILITIES.

(a) FINDINGS.—Congress makes the following findings:

(1) Since fiscal year 1985, the budget of the Department of Defense has declined by 34 percent in real terms.

(2) During the past few years, the United States military presence overseas has declined significantly in the following ways:

(A) Since fiscal year 1986, the number of United States military personnel permanently stationed overseas has declined by almost 200,000 personnel.

(B) From fiscal year 1989 to fiscal year 1994, spending by the United States to support
the stationing of United States military forces overseas will have declined by 36 percent.

(C) Since January 1990, the Department of Defense has announced the closure, reduction, or transfer to standby status of 840 United States military facilities overseas, which is approximately a 50 percent reduction in the number of such facilities.

(3) The United States military presence overseas will continue to decline as a result of actions by the executive branch and the following initiatives of the Congress:

(A) Section 1302 of the National Defense Authorization Act for Fiscal Year 1993, which required a 40 percent reduction by September 30, 1996, in the number of United States military personnel permanently stationed ashore in overseas locations.

(B) Section 1303 of the National Defense Authorization Act for Fiscal Year 1993, which specified that no more than 100,000 United States military personnel may be permanently stationed ashore in NATO member countries after September 30, 1996.
(C) Section 1301 of the National Defense Authorization Act for Fiscal Year 1993, which reduced the spending proposed by the Department of Defense for overseas basing activities during fiscal year 1993 by $500,000,000.

(D) Sections 913 and 915 of the National Defense Authorization Act for Fiscal Years 1990 and 1991, which directed the President to develop a plan to gradually reduce the United States military force structure in East Asia.

(4) The East Asia Strategy Initiative, which was developed in response to sections 913 and 915 of the National Defense Authorization Act for Fiscal Years 1990 and 1991, has resulted in the withdrawal of 12,000 United States military personnel from Japan and the Republic of Korea since fiscal year 1990.

(5) In response to actions by the executive branch and the Congress, allied countries in which United States military personnel are stationed and alliances in which the United States participates have agreed in the following ways to reduce the costs incurred by the United States in basing military forces overseas:
(A) Under the 1991 Special Measures Agreement between Japan and the United States, Japan will pay by 1995 almost all yen-denominated costs of stationing United States military personnel in Japan.

(B) The Republic of Korea has agreed to pay by 1995, one-third of the on-base costs incurred by the United States in stationing United States military personnel in the Republic of Korea.

(C) The North Atlantic Treaty Organization (NATO) has agreed that the NATO Infrastructure Program will adapt to support post-Cold War strategy and could pay the annual operation and maintenance costs of facilities in Europe and the United States that would support the reinforcement of Europe by United States military forces and the participation of United States military forces in peacekeeping and conflict prevention operations.

(D) Such allied countries and alliances have agreed to more fully share the responsibilities and burdens of providing for mutual security and stability through steps such as the following:
(i) The Republic of Korea has assumed the leadership role regarding ground combat forces for the defense of the Republic of Korea.

(ii) NATO has adopted the new mission of conducting peacekeeping operations and is, for example, providing land, sea, and air forces for United Nations efforts in the former Yugoslavia.

(iii) The countries of western Europe are contributing substantially to the development of democracy, stability, and open market societies in eastern Europe and the former Soviet Union.

(b) Sense of Congress.—It is the sense of Congress that—

(1) the forward presence of United States military personnel stationed overseas continues to be important to United States security interests;

(2) that forward presence facilitates efforts to pursue United States security interests on a collective basis rather than pursuing them on a far more costly unilateral basis or receding into isolationism;

(3) the bilateral and multilateral arrangements and alliances in which that forward presence plays
a part must be further adapted to the security envi-
r
ronment of the post-Cold War period;
(4) the cost-sharing percentages for the NATO
Infrastructure Program should be reviewed with the
aim of reflecting current economic, political, and
military realities and thus reducing the United
States cost-sharing percentage; and
(5) the amounts obligated to conduct United
States overseas basing activities should decline sig-
nificantly in fiscal year 1994 and in future fiscal
years as—
(A) the number of United States military
personnel stationed overseas continues to de-
cline; and
(B) the countries in which United States
military personnel are stationed and the alli-
ances in which the United States participates
assume an increased share of United States
overseas basing costs.
(c) Reducing United States Overseas Basing
Costs.—(1) In order to achieve additional savings in
overseas basing costs, the President should—
(A) continue with the reductions in United
States military presence overseas as required by sec-
tions 1302 and 1303 of the National Defense Au-
thorization Act for Fiscal Year 1993; and

(B) intensify his efforts to negotiate a more fa-
vorable host-nation agreement with each foreign
country to which this paragraph applies under para-
graph (3)(A).

(2) For purposes of paragraph (1)(B), a more favor-
able host-nation agreement is an agreement under which
such foreign country—

(A) assumes an increased share of the costs of
United States military installations in that country,
including the costs of—

(i) labor, utilities, and services;

(ii) military construction projects and real
property maintenance;

(iii) leasing requirements associated with
the United States military presence; and

(iv) actions necessary to meet local envi-
ronmental standards;

(B) relieves the Armed Forces of the United
States of all tax liability that, with respect to forces
located in such country, is incurred by the Armed
Forces under the laws of that country and the laws
of the community where those forces are located; and
(C) ensures that goods and services furnished in that country to the Armed Forces of the United States are provided at minimum cost and without imposition of user fees.

(3)(A) Except as provided in subparagraph (B), paragraph (1)(B) applies with respect to—

(i) each country of the North Atlantic Treaty Organization (other than the United States); and

(ii) each other foreign country with which the United States has a bilateral or multilateral defense agreement that provides for the assignment of combat units of the Armed Forces of the United States to permanent duty in that country or the placement of combat equipment of the United States in that country.

(B) Paragraph (1) does not apply with respect to—

(i) a foreign country that receives assistance under section 23 of the Arms Export Control Act (22 U.S.C. 2673) (relating to the foreign military financing program) or under the provisions of chapter 4 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2346 et seq.); or

(ii) a foreign country that has agreed to assume, not later than September 30, 1996, at least
75 percent of the nonpersonnel costs of United States military installations in the country.

(d) Obligational Limitation.—(1) The total amount appropriated to the Department of Defense for Military Personnel, for Operation and Maintenance, and for military construction (including NATO Infrastructure) that is obligated to conduct overseas basing activities during fiscal year 1994 may not exceed $16,915,400,000 (such amount being the amount appropriated for such purposes for fiscal year 1993 reduced by $3,300,000,000).

(2) For purposes of this subsection, the term “overseas basing activities” means the activities of the Department of Defense for which funds are provided through appropriations for Military Personnel, for Operation and Maintenance (including appropriations for family housing operations), and for military construction (including family housing construction and NATO Infrastructure) for the payment of costs for Department of Defense overseas military units and the costs for all dependents who accompany Department of Defense personnel outside the United States.

(e) Allocations of Savings.—Any amounts appropriated to the Department of Defense for fiscal year 1994 for the purposes covered by subsection (d)(1) that are not available to be used for those purposes by reason of the
limitation in that subsection shall be allocated by the Secretary of Defense for operation and maintenance and for military construction activities of the Department of Defense at military installations and facilities located inside the United States.

**SEC. 1044. BURDENSHIRING CONTRIBUTIONS FROM DESIGNATED COUNTRIES AND REGIONAL ORGANIZATIONS.**

(a) In General.—Section 1045 of the National Defense Authorization Act for Fiscal Years 1992 and 1993 (Public Law 102–190; 105 Stat. 1465) is amended—

(1) in subsection (a)—

(A) by striking out “During fiscal years 1992 and 1993, the Secretary” and inserting in lieu thereof “The Secretary”; and

(B) by striking out “Japan, Kuwait, and the Republic of Korea” and inserting in lieu thereof “any country or regional organization designated for purposes of this section by the Secretary of Defense”; and

(2) in subsection (f)—

(A) by striking out “each quarter of fiscal years 1992 and 1993” and inserting in lieu thereof “each fiscal-year quarter”;
(B) by striking out "congressional defense committees" and inserting in lieu thereof "Congress"; and

(C) by striking out "Japan, Kuwait, and the Republic of Korea" and inserting in lieu thereof "each country and regional organization from which contributions have been accepted by the Secretary under subsection (a)".

(b) Clerical Amendment.—The heading of such section is amended to read as follows:

"SEC. 1045. BURDENSHARING CONTRIBUTIONS FROM DESIGNATED COUNTRIES AND REGIONAL ORGANIZATIONS."

SEC. 1045. MODIFICATION OF CERTAIN REPORT REQUIREMENTS.

(a) Biennial NATO Report.—Section 1002(d) of the Department of Defense Authorization Act, 1985 (Public Law 98-525; 22 U.S.C. 1928 note), is amended—

(1) by striking out "(1) Not later than April 1, 1990, and biennially each year thereafter" and inserting in lieu thereof "Not later than April 1 of each even-numbered year";

(2) by redesignating subparagraphs (A) and (B) as paragraphs (1) and (2); and
(3) by striking out paragraph (2) (following the paragraph (2) designated by paragraph (2) of this subsection).

(1) by striking out “and” at the end of paragraph (2);

(2) by striking out the period at the end of paragraph (3) and inserting in lieu thereof “; and”;

and

(3) by adding at the end the following new paragraph:

“(4) specifying the incremental costs to the United States associated with the permanent stationing ashore of United States forces in foreign nations.”.

(c) Sense of Congress.—(1) The Congress finds that the Secretary of Defense did not submit to Congress in a timely manner the report on allied contributions to the common defense required under section 1003 of the National Defense Authorization Act, 1985 (Public Law 98-525; 98 Stat. 2577), to be submitted not later than April 1, 1993.
(2) It is the sense of Congress that the timely submission of such report to Congress each year is essential to the deliberation by Congress concerning the annual defense program.

SEC. 1046. REDESIGNATION OF HANFORD ARID LANDS ECOLOGY RESERVE.

(a) Reorganization.—The Hanford Arid Lands Ecology Reserve in Richland, Washington, is redesignated as the “Fitzner/Eberhardt Arid Lands Ecology Reserve”.

(b) Legal References.—Any reference in any law, regulation, document, record, map, or other paper of the United States to the ecology reserve referred to in subsection (a) is deemed to be a reference to the “Fitzner/Eberhardt Arid Lands Ecology Reserve”.

SEC. 1047. SENSE OF CONGRESS REGARDING UNITED STATES POLICY ON PLUTONIUM.

It is the sense of the Congress that the start-up or continued operation of any plutonium separation plant presents serious environmental hazards and increases the risk of proliferation of weapons-usable plutonium and therefore should be suspended until the related environmental and proliferation concerns have been addressed and resolved.
SEC. 1048. NORTH KOREA AND THE TREATY ON THE NON-
PROLIFERATION OF NUCLEAR WEAPONS.

(a) FINDINGS.—The Congress finds the following:

(1) The Treaty on the Non-Proliferation of Nuclear Weapons, to which 156 states are party, is the cornerstone of the international nuclear non-proliferation regime.

(2) Any nonnuclear weapon state that is a party to the Treaty on the Non-Proliferation of Nuclear Weapons is obligated to accept International Atomic Energy Agency safeguards on all source or special fissionable material that is within its territory, under its jurisdiction, or carried out under its control anywhere.

(3) The International Atomic Energy Agency is permitted to conduct inspections in a nonnuclear weapon state that is a party to the Treaty at any site, whether or not declared by that state, to ensure that all source or special fissionable material in that state is under safeguards.

(4) North Korea acceded to the Treaty on the Non-Proliferation of Nuclear Weapons as a non-nuclear weapons state in December 1985.

(5) North Korea, after acceding to that treaty, refused until 1992 to accept International Atomic
Energy Agency safeguards as required under the treaty.

(6) Inspections of North Korea’s nuclear materials by the International Atomic Energy Agency suggested discrepancies in North Korea’s declarations regarding special nuclear materials.

(7) North Korea has not given a scientifically satisfactory explanation for those discrepancies.

(8) North Korea refused to provide International Atomic Energy Agency inspectors with full access to two sites for the purposes of verifying its compliance with the Treaty on the Non-Proliferation of Nuclear Weapons.

(9) When called upon by the International Atomic Energy Agency to provide such full access as required by the Treaty, North Korea announced its intention to withdraw from the Treaty, effective after the required three months notice.

(10) After intensive negotiations with the United States, North Korea agreed to suspend its intention to withdraw from the Treaty on the Non-Proliferation of Nuclear Weapons and begin consultations with the International Atomic Energy Agency on providing access to its suspect sites.
Congressional Statements.—The Congress—

1. (b) (1) notes that the continued refusal of North Korea nearly eight years after ratification of the Treaty on the Non-Proliferation of Nuclear Weapons to fully accept International Atomic Energy Agency safeguards raises serious questions regarding a possible North Korean nuclear weapons program;

2. (2) notes that possession by North Korea of nuclear weapons (A) would threaten peace and stability in Asia, (B) would jeopardize the existing nuclear non-proliferation regime, and (C) would undermine the goal of the United States to extend the Treaty on the Non-Proliferation of Nuclear Weapons at the 1995 review conference;

3. (3) urges continued pressure from the President, United States allies, and the United Nations Security Council on North Korea to adhere to the Treaty and provide full access to the International Atomic Energy Agency in the shortest time possible;

4. (4) urges that no trade, financial, or other economic benefits be provided to North Korea by the United States or United States allies until North Korea has (A) provided full access to the International Atomic Energy Agency, (B) satisfactorily
explained any discrepancies in its declarations of bomb-grade material, and (C) fully demonstrated that it does not have or seek a nuclear weapons capability; and

(5) calls on the President and the international community to take steps to strengthen the international nuclear nonproliferation regime.

SEC. 1049. AVIATION LEADERSHIP PROGRAM.

(a) FINDINGS.—The Congress finds the following:

(1) The training of pilots from the air forces of friendly foreign nations in the United States further United States interests, promotes closer relations, and advances the national security.

(2) Many friendly foreign nations cannot afford to reimburse the United States for the cost of such training provided.

(3) It is in the national interest to authorize the Secretary of the Air Force to establish a program of pilot training for personnel of the air forces of friendly, less developed foreign nations.

(b) ESTABLISHMENT OF PROGRAM.—Part III of sub-title D of title 10, United States Code, is amended by inserting after chapter 903 the following new chapter:
CHAPTER 905—AVIATION LEADERSHIP PROGRAM

§ 9381. Establishment of program

The Secretary of the Air Force may establish and maintain an Aviation Leadership Program which will provide undergraduate pilot training and necessary related training (including, but not limited to, language training and programs to promote better awareness and understanding of the democratic institutions and social framework of the United States) to selected personnel of the air forces of friendly, less-developed foreign nations.

§ 9382. Supplies and clothing

(a) The Secretary of the Air Force may, under such conditions as the Secretary may prescribe, provide to persons receiving training under this chapter—

(1) transportation incident to such training;

(2) supplies and equipment for the use of such persons during training;

(3) flight clothing and other special clothing required for training; and

(4) billeting, food, and health services.

(b) The Secretary may authorize such expenditures from the appropriations of the Air Force as the Secretary
considers necessary for the efficient and effective maintenance of the Program in accordance with this chapter.

"§ 9383. Allowances"

"The Secretary of the Air Force may pay to persons receiving training under this chapter a living allowance at a rate to be prescribed by the Secretary, taking into account the amount of living allowances authorized for members of the armed forces under similar circumstances."

(c) Clerical Amendment.—The table of chapters at the beginning of subtitle D of title 10, United States Code, and part III of such subtitle are amended by inserting after the items relating to chapter 903 the following new item:

"905. Aviation Leadership Program ........................................... 9381."

SEC. 1050. PUBLIC PURPOSE EXTENSIONS.

Section 203 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484) is amended—

(1) in subsection (o) in the first sentence by inserting "or (q)" after "subsection (p)"; and

(2) by adding at the end the following:

"(q)(1) Under such regulations as the Administrator, after consultation with the Secretary of Defense, may prescribe, the Administrator, or the Secretary of Defense in the case of property located at a military installation closed or realigned pursuant to the Defense Authorization Amendments and Base Closure and Realignment Act
(Public Law 100-526), the Defense Base Closure and Re-
alignment Act of 1990 (Public Law 101-510), or section
2687 of title 10, United States Code, may, in his or her
discretion, assign to the Secretary of Transportation for
disposal such surplus real property, including buildings,
fixtures, and equipment situated thereon, as is rec-
ommended by the Secretary of Transportation as being
needed for the development or operation of a port facility.
``(2) Subject to the disapproval of the Administrator
or the Secretary of Defense within 30 days after notice
by the Secretary of Transportation of a proposed convey-
ance of property for any of the purposes described in para-
graph (1), the Secretary of Transportation, through such
officers or employees of the Department of Transportation
as he or she may designate, may convey, at no consider-
ation to the United States, such surplus real property, in-
cluding buildings, fixtures, and equipment situated there-
on, for use in the development or operation of a port facil-
ity to any State, the District of Columbia, the Common-
wealth of Puerto Rico, Guam, American Samoa, the Vir-
gin Islands, the Trust Territory of the Pacific Islands, the
Commonwealth of the Northern Mariana Islands, or any
political subdivision, municipality, or instrumentality
thereof.
“(3) No transfer of property may be made under this paragraph until the Secretary of Transportation has—

“(A) determined, after consultation with the Secretary of Labor, that the surplus real property to be conveyed is located in an area of serious economic disruption;

“(B) received and, after consultation with the Secretary of Commerce, approved an economic development plan submitted by an eligible grantee and based on assured use of the property to be conveyed as part of a necessary economic development program; and

“(C) provided an explanatory statement as specified in subsection (e)(6).

“(4) The instrument of conveyance of any surplus real property and related personal property disposed of under this subsection shall—

“(A) provide that all such property shall be used and maintained in perpetuity for the purpose for which it was conveyed, and that if the property ceases to be used or maintained for that purpose, all or any portion of the property shall, in its then existing condition, at the option of the United States, revert to the United States; and
“(B) contain such additional terms, reservations, restrictions, and conditions as the Secretary of Transportation shall by regulation require to assure use of the property for the purposes for which it was conveyed and to safeguard the interests of the United States.

“(5) With respect to surplus real property and related personal property conveyed pursuant to this subsection, the Secretary of Transportation shall—

“(A) determine and enforce compliance with the terms, conditions, reservations, and restrictions contained in any instrument by which such conveyance was made;

“(B) reform, correct, or amend any such instrument by the execution of a corrective, reformative, or amendatory instrument if necessary to correct such instrument or to conform such conveyance to the requirements of applicable law; and

“(C)(i) grant releases from any of the terms, conditions, reservations, and restrictions contained in, and (ii) convey, quitclaim, or release to the grantee any right or interest reserved to the United States by, any instrument by which such conveyance was made, if the Secretary of Transportation determines that the property so conveyed no longer serves
the purpose for which it was conveyed, or that such release, conveyance, or quitclaim deed will not pre-
vent accomplishment of the purpose for which such property was so conveyed, except that any such re-
lease, conveyance, or quitclaim deed may be granted on, or made subject to, such terms and conditions as the Secretary of Transportation considers necessary to protect or advance the interests of the United States.’’.

SEC. 1051. INVOLVEMENT OF ARMED FORCES IN SOMALIA.

(a) Sense of Congress Regarding United States Policy Toward Somalia.—

(1) Since United States Armed Forces made significant contributions under Operation Restore Hope towards the establishment of a secure environ-
ment for humanitarian relief operations and restoration of peace in the region to end the humanitarian disaster that had claimed more than 300,000 lives.

(2) Since the mission of United States forces in support of the United Nations appears to be evolv-
ing from the establishment of ‘‘a secure environment for humanitarian relief operations,’’ as set out in United Nations Security Council Resolution 794 of December 3, 1992, to one of internal security and nation building.
(b) **Statement of Congressional Policy.**—

(1) **Consultation with the Congress.**—The President should consult closely with the Congress regarding United States policy with respect to Somalia, including in particular the deployment of United States Armed Forces in that country, whether under United Nations or United States command.

(2) **Planning.**—The United States shall facilitate the assumption of the functions of United States forces by the United Nations.

(3) **Reporting Requirement.**—

(A) The President shall ensure that the goals and objectives supporting deployment of United States forces to Somalia and a description of the mission, command arrangements, size, functions, location, and anticipated duration in Somalia of those forces are clearly articulated and provided in a detailed report to the Congress by October 15, 1993.

(B) Such report shall include the status of planning to transfer the function contained in paragraph (2).

(4) **Congressional Approval.**—Upon reporting under the requirements of paragraph (3) Congress believes the President should by November 15,
1993, seek and receive congressional authorization
in order for the deployment of United States forces
to Somalia to continue.

SEC. 1052. NUCLEAR NONPROLIFERATION.

(a) FINDINGS.—The Congress finds the following:

(1) The United States has been seeking to con-
tain the spread of nuclear weapons technology and
materials.

(2) With the end of the Cold War and the
breakup of the Soviet Union, the proliferation of nu-
clear weapons is now a leading military threat to the
national security of the United States and its allies.

(3) The United Nations Security Council de-
clared on January 31, 1992, that “proliferation of
all weapons of mass destruction constitutes a threat
to international peace and security” and committed
to taking appropriate action to prevent proliferation
from occurring.

(4) Aside from the five declared nuclear weapon
states, a number of other nations have or are pursu-
ing nuclear weapons capabilities.

(5) The IAEA is a valuable international insti-
tution to counter proliferation, but the effectiveness
of its system to safeguard nuclear materials may be
adversely affected by financial constraints.
(6) The Nuclear Non-Proliferation Treaty codifies world consensus against further nuclear proliferation and is scheduled for review and extension in 1995.

(7) The Nuclear Nonproliferation Act of 1978 declared that the United States is committed to continued strong support for the Nuclear Non-Proliferation Treaty and to a strengthened and more effective IAEA, and established that it is United States policy to establish more effective controls over the transfer of nuclear equipment, materials, and technology.

(b) COMPREHENSIVE NUCLEAR NONPROLIFERATION POLICY.—In order to end nuclear proliferation and reduce current nuclear arsenals and supplies of weapons usable nuclear materials, it should be the policy of the United States to pursue a comprehensive policy to end the further spread of nuclear weapons capability, roll back nuclear proliferation where it has occurred, and prevent the use of nuclear weapons anywhere in the world, with the following additional objectives:

(1) Successful conclusion of all pending nuclear arms control and disarmament agreements with all the republics of the former Soviet Union and their secure implementation.
(2) Full participation by all the republics of the former Soviet Union in all multilateral nuclear non-proliferation efforts and acceptance of IAEA safeguards on all their nuclear facilities.

(3) Strengthening of United States and international support to the IAEA so that the IAEA has the technical, financial, and political resources to verify that countries are complying with their non-proliferation commitments.

(4) Strengthening of nuclear export controls in the United States and other nuclear supplier nations, impose sanctions on individuals, companies, and countries which contribute to nuclear proliferation, and provide increased public information on nuclear export licenses approved in the United States.

(5) Reduction in incentives for countries to pursue the acquisition of nuclear weapons by seeking to reduce regional tensions and to strengthen regional security agreements, and encourage the United Nations Security Council to increase its role in enforcing international nuclear nonproliferation agreements.

(6) Support for the indefinite extension of the Nuclear Non-Proliferation Treaty at the 1995 con-
ference to review and extend that treaty and seek to
ensure that all countries sign the treaty or partici-
pate in a comparable international regime for mon-
itoring and safeguarding nuclear facilities and mate-
rials.

(7) Reaching agreement with the Russian Fed-
eration to end the production of new types of nu-
clear warheads.

(8) Pursuing, once the START I treaty and the
START II treaty are ratified by all parties, a multi-
lateral agreement to significantly reduce the strate-
gic nuclear arsenals of the United States and the
Russian Federation to below the levels of the
START II treaty, with lower levels for the United
Kingdom, France, and the People's Republic of
China.

(9) Reaching immediate agreement with the
Russian Federation to halt permanently the produc-
tion of fissile material for weapons purposes, and
working to achieve worldwide agreements to—

(A) end in the shortest possible time the
production of weapons-usable fissile material;
(B) place existing stockpiles of such mate-
rials under bilateral or international controls; and
(C) require countries to place all of their nuclear facilities dedicated to peaceful purposes under IAEA safeguards.

(10) Strengthening IAEA safeguards to more effectively verify that countries are complying with their nonproliferation commitments and provide the IAEA with the political, technical, and financial support necessary to implement the necessary safeguard reforms.

(11) Conclusion of a multilateral comprehensive nuclear test ban treaty.

(c) Requirements for Implementation of Policy.—(1) Not later than 180 days after the date of the enactment of this Act, the President shall submit to the Congress a report, in unclassified form, with a classified appendix if necessary, on the actions the United States has taken and the actions the United States plans to take during the succeeding 12-month period to implement each of the policy objectives set forth in this section.

(2) Not later than 180 days after the date of the enactment of this Act, the President shall submit to the Congress a report in unclassified form, with a classified appendix if necessary, which—
(A) addresses the implications of the adoption by the United States of a policy of no-first-use of nuclear weapons;

(B) addresses the implications of an agreement with the other nuclear weapons states to adopt such a policy; and

(C) addresses the implications of a verifiable bi-lateral agreement with the Russian Federation under which both countries withdraw from their arsenals and dismantle all tactical nuclear weapons, and seek to extend to all nuclear weapons states this zero option for tactical nuclear weapons.

(d) DEFINITIONS.— For purposes of this section:

(1) The term “IAEA” means the International Atomic Energy Agency.

(2) The term “IAEA safeguards” means the safeguards set forth in an agreement between a country and the IAEA, as authorized by Article III(A)(5) of the Statute of the International Atomic Energy Agency.

(3) The term “non-nuclear weapon state” means any country that is not a nuclear weapon state.

(4) The term “Nuclear Non-Proliferation Treaty” means the Treaty on the Non-Proliferation of

(5) The term “nuclear weapon state” means any country that is a nuclear-weapon state, as defined by Article IX(3) of the Treaty on the Non-Proliferation of Nuclear Weapons, signed at Washington, London, and Moscow on July 1, 1968.

(6) The term “weapons-usable fissile materials” means highly enriched uranium and separated or reprocessed plutonium.

(7) The term “policy of no first use of nuclear weapons” means a commitment not to initiate the use of nuclear weapons.

SEC. 1053. SENSE OF CONGRESS RELATING TO THE PROLIFERATION OF SPACE LAUNCH VEHICLE TECHNOLOGIES.

(a) FINDINGS.—The Congress finds the following:

(1) The United States has joined with other nations in the Missile Technology Control Regime (MTCR) which restricts the transfer of missiles or
equipment or technology that could contribute to the

design, development or production of missiles capa-
ble of delivering weapons of mass destruction.

(2) Missile technology is indistinguishable from
and interchangeable with space launch vehicle tech-
ology.

(3) Transfers of missile technology or space
launch vehicle technology cannot be safeguarded in
a manner that would provide timely warning of di-
version for military purposes.

(4) It has been United States policy since
agreeing to the guidelines of the Missile Technology
Control Regime to treat the sale or transfer of space
launch vehicle technology as restrictively as the sale
or transfer of missile technology.

(5) Previous congressional action on missile
proliferation, notably title XVII of the National De-
fense Authorization Act for Fiscal Year 1991 (Pub-
lic Law 101-510; 104 Stat. 1738), has explicitly
supported this policy through such actions as the
statutory definition of the term “missile” to mean
“a category I system as defined in the MTCR
Annex, and any other unmanned delivery system of
similar capability, as well as the specially designed
production facilities for these systems”.

HR 2401 EH
(6) There is strong evidence that emerging national space launch programs in the Third World are not economically viable.

(7) The United States has successfully dissuaded countries from pursuing space launch vehicle programs in part by offering to cooperate with them in other areas of space science and technology.

(8) The United States has successfully dissuaded other MTCR adherents, and countries who have agreed to abide by MTCR guidelines, from providing assistance to emerging national space launch programs in the Third World.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Congress supports the strict interpretation by the United States of the Missile Technology Control Regime concerning—

(A) the inability to distinguish space launch vehicle technology from missile technology under the regime; and

(B) the inability to safeguard space launch vehicle technology in a manner that would provide timely warning of its diversion to military purposes; and
(2) the United States and the governments of other nations adhering to the Missile Technology Control Regime should be recognized for—

(A) the success of such governments in restricting the export of space launch vehicle technology and of missile technology; and

(B) the significant contribution made by the imposition of such restrictions to reducing the proliferation of missile technology capable of being used to deliver weapons of mass destruction.

(c) DEFINITIONS.—In this section:

(1) The term “Missile Technology Control Regime” or “MTCR” means the policy statement, between the United States, the United Kingdom, the Federal Republic of Germany, France, Italy, Canada, and Japan, announced on April 16, 1987, to restrict sensitive missile-relevant transfers based on the MTCR Annex, and any amendments thereto.

(2) The term “MTCR Annex” means the Guidelines and Equipment and Technology Annex of the Missile Technology Control Regime, and any amendments thereto.
SEC. 1054. LIMITATION ON USE OF FUNDS FOR CERTAIN PLUTONIUM STORAGE BY RUSSIA.

(a) Limitation.—None of the funds authorized to be appropriated by this Act or any other Act for any fiscal year may be obligated or expended for the purpose of assisting the Ministry of Atomic Energy of Russia to construct a storage facility for surplus plutonium from dismantled weapons, unless the President certifies to the Congress—

(1) that Russia is committed to halting the chemical separation of weapon-grade plutonium from spent nuclear fuel; and

(2) that Russia is taking all practical steps to halt such separation at the earliest possible date.

(b) Sense of Congress on Plutonium Policy.—It is the sense of the Congress that a key objective of the United States with respect to the nonproliferation of nuclear weapons should be to obtain a clear and unequivocal commitment from the Government of Russia that it will cease all production and separation of weapon-grade plutonium and halt chemical separation of plutonium produced in civil nuclear power reactors.

(c) Report.—Not later than June 1, 1994, the President shall submit to the Congress a report on the status of efforts by the United States to secure the commitments and achieve the objectives described in sub-
sections (a) and (b), including the status of joint efforts by the United States and Russia to replace any remaining Russian plutonium production reactors with alternative power sources or to convert such reactors to operation with alternative fuels that would permit their operation without generating weapon-grade plutonium.

TITLE XIV—NATIONAL COMMISSION ON ROLES AND MISSIONS OF THE ARMED FORCES

SEC. 1401. SHORT TITLE.
This title may be cited as the “National Commission on Roles and Missions of the Armed Forces Act”.

SEC. 1402. FINDINGS.
Congress makes the following findings:

(1) The current allocation of roles and missions among the Armed Forces evolved from the practice during World War II to meet the Cold War threat and may no longer be appropriate for the post-Cold War era.

(2) Many analysts believe that a realignment of those roles and mission is essential for the efficiency and effectiveness of the Armed Forces, particularly in light of lower budgetary resources that will be available to the Department of Defense in the future.

(3) The existing process of a triennial review of roles and missions by the Chairman of the Joint Chiefs of Staff pursuant to provisions of law enacted by the Goldwater-Nichols Department of Defense
Reauthorization Act of 1986 has not produced the comprehensive review envisioned by Congress.

(4) It is difficult for any organization, and may be particularly difficult for the Department of Defense, to reform itself without the benefit and authority provided by external perspectives and analysis.

SEC. 1403. ESTABLISHMENT OF COMMISSION.

(a) ESTABLISHMENT.—There is hereby established in the executive branch of the Government a commission to be known as the National Commission on Roles and Missions of the Armed Forces (hereinafter in this title referred to as the “Commission”).

(b) COMPOSITION AND QUALIFICATIONS.—

(1) The Commission shall be composed of seven members. Members of the Commission shall be appointed by the President.

(2) The Commission shall be appointed from among private United States citizens with appropriate and diverse military, organizational, and management experiences and historical perspectives.

(3) The President shall designate one of the members as chairman of the Commission.

(c) PERIOD OF APPOINTMENT; VACANCIES.—Members shall be appointed for the life of the Commission. Any
 vacancy in the Commission shall not affect its powers, but shall be filled in the same manner as the original appointment.

(d) Initial Organizational Requirements.—

(1) The President shall make all appointments to the Commission within 45 days after the date of the enactment of this Act.

(2) The Commission shall convene its first meeting within 30 days after the first date on which all members of the Commission have been appointed. At that meeting, the Commission shall develop an agenda and a schedule for carrying out its duties.

SEC. 1404. DUTIES OF COMMISSION.

(a) In General.—Over the period of fiscal years 1994 through 1998, the Commission shall—

(1) review the efficacy and appropriateness for the post-Cold War era of the current allocations among the Armed Forces of roles, missions, and functions;

(2) evaluate and report on alternative assignments of those roles, missions and functions; and

(3) make recommendations for changes in the current definition and distribution of those roles, functions, and missions.
(b) Review of Potential Military Operations.—The Commission shall review the types of military operations that may be required in the post-Cold War era, taking into account the requirements for success in various types of operations. As part of such review, the Commission shall take into consideration the official strategic planning of the Department of Defense. The types of operations to be considered by the Commission as part of such review shall include the following:

(1) Defense of the United States.

(2) Warfare against other national military forces.

(3) Limited military action for political effect.

(4) Action against nuclear, chemical, and biological weapons capabilities in hostile hands.

(5) Support of law enforcement.

(6) Other types of operations as specified by the chairman of the Commission.

(c) Definition of Broad Mission Areas and Key Support Requirements.—As a result of the review under subsection (b), the Commission shall define broad mission areas and key support requirements for the United States military establishment as a whole.

(d) Development of Conceptual Framework for Organizational Allocations.—The Commission
shall determine a conceptual framework for the review of
the organizational allocation among the Armed Forces of
military roles, missions, and functions. In developing that
framework, the Commission shall consider—

(1) static efficiency (such as duplicative overhead and economies of scale);

(2) dynamic effectiveness (including the benefits of competition and the effect on innovation);

(3) interoperability, responsiveness, and other aspects of military effectiveness in the field;

(4) gaps in mission coverage and so-called orphan missions that are inadequately served by existing organizational entities;

(5) division of responsibility on the battlefield;

(6) exploitation of new technology and operational concepts;

(7) civilian control of the military;

(8) the degree of disruption that a change in roles and missions would entail; and

(9) the experience of other nations.

The Commission shall evaluate the costs and benefits of unifying the Armed Forces into a single military service as a baseline for assessing the maximum benefits that may be achieved from less sweeping reforms.
574

(e) **Recommendations Concerning Military Roles and Missions.**—Using the conceptual framework developed under subsection (d) to evaluate possible changes to the existing allocation among the Armed Forces of military roles, missions, and functions, the Commission shall recommend (1) the functions for which each military department should organize, train, and equip forces, (2) the missions of combatant commands, and (3) the roles that Congress should assign to the various military elements of the Department of Defense.

(f) **Recommendations Concerning Civilian Elements of Department of Defense.**—The Commission may address the roles, missions, and functions of civilian portions of the Department of Defense and other national security agencies to the extent that changes in these areas are collateral to changes considered in military roles, functions, and mission.

(g) **Recommendations Concerning Process for Future Changes.**—The Commission shall also recommend a process for maintaining roles, missions, and functions in congruence with the strategic environment as it changes in the future.

**SEC. 1405. REPORTS.**

(a) **Implementation Plan.**—Not later than three months after the date on which the Commission is estab-
lished, the Commission shall transmit to the Committees on Armed Services of the Senate and House of Representa-
tives a report setting forth a multiyear plan for the work of the Commission, including the subjects to be addressed in the program of the Commission for each year of its existence. The plan shall be developed following discus-
sions with the Secretary of Defense, the Chairman of the Joint Chiefs of Staff, and the chairmen of those commit-
tees.

(b) Annual Report.—The Commission shall, not later than March 1 of each year from 1995 through 1999, submit to the committees named in subsection (a) a report setting forth the activities of the Commission during the preceding year and any recommendations for legislation that the Commission considers advisable. The Commission shall submit a preliminary version of each such annual re-
port to the Secretary of Defense and Chairman of the Joint Chiefs of Staff not later than December 25 of the preceding year, and the Secretary and Chairman shall submit comments thereon to the Commission not later than the following February 1.

(c) Assessment of Implementation.—In each re-
port under subsection (b) after the first, the Commission shall include its assessment of the performance of the De-
partment of Defense to that date in carrying out any rec-
recommendations made by the Commission in any previous reports under this section.

(d) Coordination with Triennial JCS Roles and Missions Report.—Any report of the Chairman of the Joint Chiefs of Staff under section 153(b) of title 10, United States Code, that is submitted to the Secretary of Defense during the period of the existence of the Commission shall also be submitted to the Commission. In its next report under subsection (b) after receiving any such report of the Chairman of the Joint Chiefs of Staff, the Commission shall provide its assessment of the Chairman’s report.

(C) Section 2687 of title 10, United States Code.
SEC. 2823. BASE DISPOSAL MANAGEMENT COOPERATIVE AGREEMENT.

(a) Use of Independent Site Manager.—(1) In order to fulfill the responsibilities of the Secretary of Defense under a base closure law, the Secretary may enter into not less than one and not more than 10 cooperative agreements described in section 6305 of title 31, United States Code, with independent entities (in this section referred to as a "Site Manager") to assist the Secretary in managing the site planning, approval, preparation, and disposal of excess and surplus real property under the authority delegated to the Secretary for military installations to be closed or realigned under a base closure law. The selection of a Site Manager under this subsection for a military installation shall be made by the Secretary, after suitable public notice, through the good faith exercise of the Secretary's discretion and in consultation with the affected local community in which the military installation is located.

(2) During the term of a cooperative agreement entered under this subsection and the five-year period beginning on the termination date of the cooperative agreement, the Site Manager subject to that cooperative agreement (and its affiliates) shall be barred from bidding for or acquiring any interest in real property or facilities located at any of the military installations to be managed by the
Site Manager, unless such acquisition is necessary to execute the terms of the cooperative agreement.

(b) **Qualifications.**—In selecting a Site Manager under subsection (a), the Secretary of Defense shall ensure that the Site Manager, either directly or through its principals, has had prior experience—

(1) in the site planning of properties located at Federal facilities;

(2) in dealing with local land use authorities in the States in which the military installations to be managed are located;

(3) in managing the cleanup of hazardous waste contamination;

(5) in meeting such other qualifications as the Secretary considers to be necessary to perform the tasks set forth in this section.

(c) **Duties Generally.**—Under the cooperative agreement entered into under subsection (a), a Site Manager shall—

A Site Manager shall enter into such contracts in accordance with such contracting guidelines as the Secretary may reasonably require in the cooperative agreement to promote fair competition, fair labor practices, and good faith commercially reasonable efforts to afford contracting opportunities to small business concerns owned by socially- or economically-disadvantaged persons.

(3) The Secretary shall reimburse the Site Manager for the reasonable overhead costs incurred by the Site
Manager and shall make funds available for the timely payment of amounts due under the contracts and subcontracts entered into in accordance with the cooperative agreement and the approved budget.

(e) Continued Liability for Environmental Remediation.—Nothing in this section shall be considered to diminish the liability of the Federal Government with respect to environmental conditions existing on a military installation managed by a Site Manager pursuant to a cooperative agreement entered into under subsection (a).

(1) The Secretary of Defense shall receive an amount equal to—

(B) \( \frac{1}{3} \) of the remainder of the proceeds.

(2) From amounts remaining after operation of paragraph (1), the applicable local authorities, as determined by the Secretary, shall receive \( \frac{1}{2} \) of the remainder. If the appropriate local authorities cannot be determined satisfactorily to the Secretary, the State in which the military installation involved is located shall receive the amount that would be distributed pursuant to this paragraph.

(B) The technology transfer activities that may be funded under this paragraph are those that are deter-
mined by the Secretary of Energy to facilitate the maintenance and enhancement of critical skills required for research on, and development of, any dual-use critical technology.

(3) For purposes of this subsection, the term “dual-use critical technology” has the meaning given that term by section 3136(b) of the National Defense Authorization Act for Fiscal Years 1992 and 1993 (Public Law 102-190; 105 Stat. 1577).

(4) Section 12(d) of the Stevenson-Wydler Act of 1980 (15 U.S.C. 3710a(d)) is amended—

(A) in paragraph (2)(B)—
(i) by inserting ``(including a weapon production facility of the Department of Energy)'' after ``facilities under a common contract''; and

(ii) by inserting ``and production'' after ``research and development'';

(B) in paragraph (2), by striking out ``propulsion program; and'' and inserting in lieu thereof ``propulsion program;'';

(C) in paragraph (3), by striking out the period and inserting in lieu thereof ``; and''; and

(D) by adding at the end the following new paragraph:

``(4) the term `weapon production facility of the Department of Energy' means a facility under the control or jurisdiction of the Secretary of Energy that is operated for national security purposes and is engaged in the production of a nuclear weapon or its components.''.

(e) PROHIBITION ON RESEARCH AND DEVELOPMENT OF LOW-YIELD NUCLEAR WEAPONS.—(1) The Congress finds the following:

(A) Section 507 of the Energy and Water Development Appropriations Act, 1993 (Public Law 102-377; 106 Stat. 1345) places severe restrictions
on the underground testing of a nuclear weapon by
the United States.

(B) The use of low-yield nuclear weapons
threatens to blur the distinction between nuclear and
non-nuclear conflict.

(2) It shall be the policy of the United States not
to conduct research and development of new low-yield nu-
clear weapons, including the precision low-yield warhead.

(3) No funds appropriated pursuant to this Act or
any other Act in any fiscal year may be used to conduct
or provide for the research and development of any low-
yield nuclear weapon which, as of the date of the enact-
ment of this Act, has not entered production.

(4) In this subsection, the term “low-yield nuclear

SEC. 3138. CONTRACT GOAL FOR SMALL DISADVANTAGED BUSINESSES AND CERTAIN INSTITUTIONS OF HIGHER EDUCATION.

(a) Goal.—Except as provided in subsection (c), a goal of 5 percent of the amount described in subsection (b) shall be the objective of the Department of Energy in carrying out national security programs of the Depart-
ment in each of fiscal years 1994 through 2000 for the
total combined amount obligated for contracts and sub-

(1) small business concerns, including mass
media and advertising firms, owned and controlled
by socially and economically disadvantaged individ-
uals (as such term is used in section 8(d) of the
Small Business Act (15 U.S.C. 637(d)) and regula-
tions issued under that section), the majority of the
earnings of which directly accrue to such individuals;

(2) historically Black colleges and universities;
and

(3) minority institutions (as defined in para-
graphs (3), (4), and (5) of section 312(b) of the

for any fiscal year apply to the combined total of the funds
obligated for contracts entered into by the Department of
Energy pursuant to competitive procedures for such fiscal
year for purposes of carrying out military applications of
nuclear energy and other national security programs of
the Department.
(c) **Applicability.**—Subsection (a) does not apply—

(1) to the extent to which the Secretary of Energy determines that compelling national security considerations require otherwise; and

(2) if the Secretary notifies Congress of such a determination and the reasons for the determination.

**SEC. 3139. Prohibition on Conduct of Safeguard C Program.**

None of the funds appropriated pursuant to this Act or any other Act for any fiscal year may be available to conduct the Safeguard C program or any other program to maintain the capability of the United States to conduct atmospheric testing of a nuclear weapon.

**SEC. 3140. Transfer or Lease of Property at Department of Energy Weapon Production Facilities.**

(a) **Findings.**—Congress makes the following findings:

(1) The termination or reconfiguration of weapon production activities at facilities of the Department of Energy within the United States is a necessary consequence of the end of the Cold War and of changed United States national security requirements.
(2) A facility of the Department of Energy is a significant source of employment for many communities, and the closure or reconfiguration of such a facility may cause economic hardship for the workers and the communities.

(3) It is in the interest of the United States that the Federal Government facilitate the economic recovery of communities that experience adverse economic circumstances as the result of the closure or reconfiguration of a Department of Energy facility and, where possible, prevent the occurrence of adverse economic circumstances.

(4) It is in the interest of the United States that the Federal Government work with communities that experience adverse economic circumstances as the result of the closure or reconfiguration of Department of Energy facilities to identify and implement means of reutilizing or redeveloping such facilities in a beneficial manner.

(5) The Federal Government may provide such assistance by closing or reconfiguring such facilities and conveying the real property in a manner that best ensures environmental protection and the beneficial reutilization or redevelopment of such facilities by such communities.
(6) The Federal Government may best ensure such reutilization and redevelopment by making available real and personal property of the closing or reconfigured Department of Energy facilities to communities affected by such closures or reconfigurations on a timely basis, and, if appropriate, at less than fair market value.

(7) Preservation of the national technology and industrial base could be assisted by the appropriate transfer, lease, or reutilization of property, facilities, and equipment which currently are not needed for the Department of Energy weapon production mission.

(8) A delay in the transfer, lease, or reutilization of such property, facilities, and equipment for commercial use will reduce the national technology and industrial base because of lost skilled personnel and lost business opportunities.

(b) Management and Disposal of Property.—

(1) The Administrator of General Services shall delegate to the Secretary of Energy, with respect to property covered under subsection (d)—

(A) the authority of the Administrator to utilize excess property under section 202 of the Federal
Property and Administrative Services Act of 1949 (40 U.S.C. 483); 

(B) the authority of the Administrator to dispose of surplus property under section 203 of that Act (40 U.S.C. 484); and 

(C) the authority of the Administrator to grant approvals and make determinations under section 13(g) of the Surplus Property Act of 1944 (50 U.S.C. App. 1622(g)). 

(2)(A) Subject to subparagraph (C), the Secretary of Energy shall exercise the authority delegated to the Secretary pursuant to paragraph (1) in accordance with— 

(i) all regulations in effect on the date of the enactment of this Act governing the utilization of excess property and the disposal of surplus property under the Federal Property and Administrative Services Act of 1949; and 

(ii) all regulations in effect on the date of the enactment of this Act governing the conveyance and disposal of property under section 13(g) of the Surplus Property Act of 1944 (50 U.S.C. App. 1622(g)). 

(B) The Secretary, after consulting with the Administrator of General Services, may issue regulations that are
necessary to carry out the delegation of authority required 
by paragraph (1).

(C) The authority required to be delegated by para-
graph (1) to the Secretary by the Administrator of Gen-
eral Services shall not include the authority to prescribe 
general policies and methods for utilizing excess property 
and disposing of surplus property.

(c) ADDITIONAL AUTHORITY TO TRANSFER AND 
LEASE.—(1) The Secretary of Energy may transfer or 
lease any or all right, title, and interest of the United 
States in and to the property referred to in subsection (d) 
to any public agency if the Secretary determines that such 
transfer or lease will mitigate the adverse economic con-
sequences that might otherwise arise from the closure or 
reconfiguration of a Department of Energy facility.

(2)(A) The consideration to be paid to the United 
States for any transfer or lease under paragraph (1) shall 
be for the estimated fair market value of such property 
or leasehold interest, as determined by the Secretary of 
Energy, except that the Secretary may accept consider-
ation for an amount that is not less than 50 percent of 
the estimated fair market value of such property if the 
Secretary determines that—
(i) the discount is required to implement the plans established in the report under subsection (i); and

(ii) 30 days after published notice, no private or public party has made a bona fide offer for such property at the estimated fair market value.

(B) The instrument transferring or leasing property for less than the estimated fair market value under this paragraph—

(i) shall contain a condition that all such property shall be used and maintained for the purpose for which it was transferred in perpetuity in accordance with the plans described in the report under subsection (i) or, in the case of a lease, for the term of the lease; and

(ii) may contain such additional terms, conditions, reservations, and restrictions as the Secretary determines to be necessary to safeguard the interests of the United States.

(C) The Secretary may—

(i) determine compliance with the terms, conditions, reservations, and restrictions contained in any instrument by which a transfer or lease of property is made;
(ii) reform, correct, or amend any such instrument by the execution of a corrective, reformative, or amendatory instrument where necessary to correct such instrument or to conform such transfer or lease to the requirements of applicable law; and

(iii)(I) grant releases from any of the terms, conditions, reservations, and restrictions contained in, and (II) convey, quitclaim, or release to the transferee any right or interest reserved to the United States by, any instrument by which such transfer or lease is made, if the Secretary determines that the property transferred no longer serves the purpose for which it was transferred, or that such lease, conveyance, or quitclaim will not prevent accomplishment of the purpose for which such property was so transferred.

Any such releases, conveyance, or quitclaim may be granted on, or made subject to, such terms and conditions as the Secretary considers necessary to protect or advance the interests of the United States.
