To ensure individual and family security through health care coverage for all Americans in a manner that contains the rate of growth in health care costs and promotes responsible health insurance practices, to promote choice in health care, and to ensure and protect the health care of all Americans.

IN THE SENATE OF THE UNITED STATES

JULY 19 (legislative day, JULY 11), 1994

Mr. KENNEDY, from the Committee on Labor and Human Resources, reported the following original bill; which was read twice and placed on the calendar

A BILL

To ensure individual and family security through health care coverage for all Americans in a manner that contains the rate of growth in health care costs and promotes responsible health insurance practices, to promote choice in health care, and to ensure and protect the health care of all Americans.

1

Be it enacted by the Senate and House of Representa-
2
tives of the United States of America in Congress assembled,
SECTION 1. SHORT TITLE.

This Act may be cited as the “Health Security Act”.

SEC. 2. FINDINGS.

The Congress finds as follows:

(1) Under the current health care system in the United States—

(A) individuals risk losing their health care coverage when they move, when they lose or change jobs, when they become seriously ill, or when the coverage becomes unaffordable;

(B) continued escalation of health care costs threatens the economy of the United States, undermines the international competitiveness of the Nation, and strains Federal, State, and local budgets;

(C) an excessive burden of forms, paperwork, and bureaucratic procedures confuses consumers and overwhelms health care providers;

(D) fraud and abuse sap the strength of the health care system; and

(E) health care is a critical part of the economy of the United States and interstate commerce, consumes a significant percentage of public and private spending, and affects all industries and individuals in the United States.
(2) Under any reform of the health care system—

(A) health insurance and high quality health care should be secure, uninterrupted, and affordable for all individuals in the United States;

(B) comprehensive health care benefits that meet the full range of health needs, including primary, preventive, and specialized care, should be available to all individuals in the United States;

(C) the current high quality of health care in the United States should be maintained;

(D) individuals in the United States should be afforded a meaningful opportunity to choose among a range of health plans, health care providers, and treatments;

(E) regulatory and administrative burdens should be reduced;

(F) the rapidly escalating costs of health care should be contained without sacrificing high quality or impeding technological improvements;

(G) competition in the health care industry should ensure that health plans and health care
providers are efficient and charge reasonable prices;

(H) a partnership between the Federal Government and each State should allow the State and its local communities to design an effective, high-quality system of care that serves the residents of the State;

(I) all individuals should have a responsibility to pay their fair share of the costs of health care coverage;

(J) a health care system should build on the strength of the employment-based coverage arrangements that now exist in the United States;

(K) the penalties for fraud and abuse should be swift and severe; and

(L) an individual’s medical information should remain confidential and should be protected from unauthorized disclosure and use.

SEC. 3. PURPOSES.

The purposes of this Act are as follows:

(1) To guarantee comprehensive and secure health care coverage.

(2) To simplify the health care system for consumers and health care professionals.
(3) To control the cost of health care for employers, employees, and others who pay for health care coverage.

(4) To promote individual choice among health plans and health care providers.

(5) To ensure high quality health care.

(6) To encourage all individuals to take responsibility for their health care coverage.

(B) ACTIONS BY PLAN SPONSOR.—Upon a determination by the Secretary of Labor under subparagraph (A)(ii), the plan sponsor shall, at the direction of such Secretary, terminate the plan and, in the course of the termination, take such actions as such Secretary may require as necessary to ensure that the affairs of the plan will be, to the maximum extent possible, wound up in a manner which will result in timely payment of all benefits for which the plan is obligated.

if such acts may be done under the provisions of the
plan,

(5) to require the large group purchaser, the
plan administrator, any contributing employer, and
any employee organization representing covered indi-

7 of any bankruptcy, mortgage foreclosure, or equity receivership proceeding, or any proceeding to reorganize, conserve, or liquidate such plan or its property, or any proceeding to enforce a lien against property of the plan.
8
9 (f) Jurisdiction of Court.—

work item or service shall comply with the following require-
ments:

(1) **Agreements.**—Each health plan must enter into such agreements or have such other arrangements as may be necessary with an appropriate mix, number, and distribution of qualified health professionals to ensure the provision of all services covered by the comprehensive benefit package to eligible individuals enrolled in the plan.

(2) **Gatekeeper.**—With respect to each health plan that utilizes a gatekeeper or similar process to approve health care services prior to or following the provision of such services, such gatekeepers shall include specialists or a care coordinator from an interdisciplinary team if medically necessary or appropriate given the nature, severity, or complexity of each patient's chronic disease, disorder, or other health condition.

(3) **Continued Care.**—Each health plan shall develop a process to ensure the access of enrollees to—

(A) obstetrician-gynecologists for medically necessary or appropriate primary care without gatekeeper approval prior to each visit, and
(B) relevant specialists for the continued care of patient-enrollees with chronic diseases, disorders, or health conditions without gatekeeper approval prior to each visit, when the continued care is medically indicated.

(4) ELIGIBLE CENTERS OF SPECIALIZED TREATMENT EXPERTISE.—

(A) IN GENERAL.—Each health plan shall provide access through agreements (as defined in subparagraph (B)) to eligible centers of specialized treatment expertise (as defined in subparagraphs (C) and (D)), including centers outside the health care coverage area or State, to ensure that enrollees receive the specialized treatment expertise of such centers when medically indicated. For children such specialized treatment expertise shall specifically be in pediatrics. A health plan shall be deemed to be in accordance with this paragraph if the agreement of such plan provides that, with respect to health conditions within the specialized treatment expertise of the center involved, the plan will, at the enrollees request—

(i) refer medical cases involving such conditions to such center;
(ii) inform plan members of the availability of referral care; and

(iii) establish an appeal mechanism in which plan participants may challenge denials of referrals to such center or may request that their specialized care be provided at an alternative center as described in subparagraph (E).

(B) Agreements.—An agreement between a health plan and a center of specialized treatment expertise shall—

(i) be a written provider participation agreement with the center; or

(ii) be a written agreement under which the plan shall make payment to the center such that services provided will be reimbursable at the plan’s normal rate for equivalent services or, with respect to a plan that does not pay providers on a fee-for-service basis, based on payment methodologies and rates used under the applicable methodology and rates or the most closely applicable Medicare payment methodologies under such program as the Secretary may specify in regulations.
(C) **Specialized Treatment Expertise.**—For purposes of this subtitle, the term "specialized treatment expertise", with respect to the treatment of a health condition by an eligible center, means expertise in diagnosing and treating unusual diseases or conditions, diagnosing and treating diseases or conditions which are unusually difficult to diagnose or treat, and providing other specialized health care.

(D) **Eligible Centers.**—Eligible centers under this paragraph shall be designated to diagnose and provide care for patients with specified categories of conditions and diseases. Such centers may include academic health centers and teaching hospitals, and other designated centers and systems of advanced care that meet strict objective criteria established by the Secretary including—

(i) specialized credentials for caring for patients with the specified categories of conditions and diseases;

(ii) staff with experience in caring for a significant number of patients with the
specified categories of conditions and diseases; and

(iii) excellent measured outcomes in the diagnosis and treatment of patients with the specified categories of conditions and diseases.

(E) Access to Alternative Centers.—

(i) In General.—Patients in need of specialized treatment expertise may request that specialized care be provided at an alternative center. As used in this subparagraph, the term “alternative center” means a center of specialized treatment expertise with which the health plan of the patient does not have a written agreement as described in subparagraph (B). Plans shall have a procedure for making decisions regarding such requests and have an appeals process for patients who are refused coverage at an alternative center for specialized treatment.

(ii) Reimbursement.—Care provided at an alternative center shall be reimbursed by the health plan at the plan's normal rate for equivalent services or, with
respect to a plan that does not pay providers on a fee-for-service basis, based on payment methodologies and rates used under the applicable methodology and rates or the most closely applicable Medicare payment methodologies under such program as the Secretary may specify in regulations.

(F) Limitation.—A State may not establish rules or policies that require or encourage health plans to give preference to centers of specialized treatment expertise within the State or within the health care coverage area. A health plan shall not prohibit an academic health center, teaching hospital, or other center for specialized care with which it contracts from contracting with one or more other plans.

(d) Emergency and Urgent Care Services.—

(1) In General.—Each health plan must cover emergency and urgent care services provided to enrollees, without regard to whether or not the provider furnishing such services has a contractual (or other) arrangement with the plan to provide items or services to enrollees of the plan and in the case of
emergency services without regard to prior authorization.

(2) **Payment amounts.**—In the case of emergency and urgent care provided to an enrollee outside of a health plan's service area, the payment amounts of the plan shall be based on the applicable fee schedule described in subsection (e).

(e) **Application of Fee Schedule.**—

(1) **In general.**—Subject to paragraphs (2) and (3), each qualified health plan that provides for payment for services on a fee-for-service basis and has not established an agreement or contractual arrangement with providers specifying a basis for payment shall make such payment to such providers under a fee schedule established by the plan.

(2) **Rule of construction.**—Nothing in the paragraph (1) shall be construed to prevent a health plan from providing for a different basis or level of payment than the fee schedule established under such paragraph as part of a contractual agreement with participating providers under the plan.

(3) **Reduction for providers voluntarily reducing charges.**—If a provider under a health plan voluntarily agrees to reduce the amount charged to an individual enrolled under the plan, the
plan shall reduce the amount otherwise determined under the fee schedule applicable under paragraph (1) by the proportion of the reduction in such amount charged.

(4) REDUCTION FOR NONCOMPLYING PLAN.— Each community-rated health plan that is a non-complying plan shall provide for reductions in payments under the fee schedule to providers that are not participating providers in accordance with section 6012(b).

(f) PROHIBITION AGAINST BALANCE BILLING; REQUIREMENT OF DIRECT BILLING.—

(1) PROHIBITION OF BALANCE BILLING.— A provider may not charge or collect from an enrollee a fee in excess of the applicable payment amount under the applicable fee schedule under subsection (e), and the health plan and its enrollees are not legally responsible for payment of any amount in excess of such applicable payment amount for items and services covered under the comprehensive benefits package.

(2) DIRECT BILLING.—

(A) IN GENERAL.— A provider may not charge or collect from an enrollee amounts that are payable by the health plan (including any
cost sharing reduction assistance payable by the
plan) and shall submit charges to such plan in
accordance with any applicable requirements of
subtitle B of title V (relating to health informa-
tion systems).

(B) Prohibition.—An individual or entity
that performs ancillary health services, such as
clinical laboratory services or other services as
defined by the Secretary, may not present or
cause to be presented, a claim, bill, or demand
for payment to any person other than the indi-
vidual receiving such services, or to the health
plan of the individual, except that the Secretary
may by regulation establish appropriate excep-
tions to the requirement of this subparagraph.

(3) Coverage Under Agreements With
Plans.—The agreements or other arrangements en-
tered into under section 1514(c)(2) between a health
plan and the health care providers providing the
comprehensive benefit package to individuals en-
rolled with the plan shall prohibit a provider from
engaging in balance billing described in paragraph
(1).

(4) Rule of Construction.—Nothing in this
Act shall be construed to—
(A) require or force an individual to receive health care solely through the individual’s health plan; or
(B) prohibit any individual from privately contracting with any health care provider and paying for the treatment or service provided by such provider on a cash basis or any other basis as agreed to between the individual and the provider.

(g) Imposition of Participating Provider Assessment in Case of a Noncomplying Plan.—Each community-rated health plan shall provide that if the plan is a noncomplying plan for a year under section 6012, payments to participating providers shall be reduced by the applicable network reduction percentage under such section.

(h) Providers Outside Area.—A State may not limit the ability of any plan to contract with a provider of health services located outside of the geographic boundaries of a health care coverage area or the State, so long as the provider is authorized under State law to provide such services.

SEC. 1524. HEALTH SECURITY CARDS.
Each health plan shall issue a health security card to each individual enrolled in such plan in accordance with
subtitle B of title V and regulations promulgated by the Board.

SEC. 1525. UTILIZATION MANAGEMENT PROTOCOLS AND PHYSICIAN INCENTIVE PLANS.

(a) Requiring Consumer Disclosure.—Each health plan shall disclose to enrollees (and prospective enrollees) and providers the protocols and financial incentives used by the plan, including utilization management protocols and physician incentive plans (as defined in subsection (b)), for controlling utilization and costs.

(b) Utilization Management.—Each health plan shall provide that all treatment assessment and placement decisions, or review of such decisions, shall be made by personnel—

(1) licensed, certified or otherwise credentialed by the State in the field for which the assessment or treatment is sought; and

(2) qualified to review utilization of the specific treatment delivered.

(c) Physician Incentive Plan Defined.—As used in this section, the term “physician incentive plan” means any compensation arrangement between a health plan, a utilization management organization or other organization and a physician or physician group that may directly or indirectly have the effect of reducing or limiting services
provided with respect to individuals enrolled with the organization.

(d) Limitations on Physician Incentive Plans.—A health plan, or any provider or group of providers with whom the health plan contracts, may not operate a physician incentive plan (as defined in subsection (c)) unless the following requirements are complied with:

(1) The physician incentive plan provides that no specific payment may be made directly or indirectly under the plan to a physician or physician group or utilization management organization as an inducement to reduce or limit medically necessary or appropriate services provided to individuals enrolled with the organization.

(2) If the health plan places a physician or physician group at financial risk for services not provided by the physician or physician group, the physician incentive plan shall provide stop-loss protection for the physician or physician group that is adequate and appropriate, based on standards developed by the Board that take into account the number of physicians placed at such financial risk in the group or under the plan and the number of individuals enrolled with the organization who receive services from the physician or the physician group.
(3) The health plan and any physician or physician group with whom the health plan contracts shall provide the Board with descriptive information regarding the physician incentive plan, sufficient to permit the Board to determine whether the plan is in compliance with the requirements of this subsection.

PART 2—REQUIREMENTS RELATING TO ESSENTIAL COMMUNITY PROVIDERS

SEC. 1531. HEALTH PLAN REQUIREMENT.

(1) enter into a written provider participation agreement (described in subsection (b)) with the provider, or

(2) enter into a written agreement under which the plan shall make payment to the provider in accordance with subsection (c).

(b) Participation Agreement.—A participation agreement between a health plan and an electing essential community provider under this subsection shall provide that the health plan agrees to treat the provider in accord-

1. The scope of services for which payment is made by the plan to the provider.
2. The rate of payment for covered care and services.
3. The availability of financial incentives to participating providers.
4. Limitations on financial risk provided to other participating providers.

6. Access by the provider’s patients to providers in medical specialties or subspecialties participating in the plan.

(c) **Payments for Providers Without Participation Agreements.**—

1. **In general.**—Payment in accordance with this subsection is payment based, as elected by the electing essential community provider, either—

   (A) on the fee schedule developed by the State; or

   (B) on payment methodologies and rates used under the applicable Medicare payment
methodology and rates (or the most closely applicable methodology under such program as the Secretary of Health and Human Services specifies in regulations).

(2) SPECIAL RULE FOR FEDERALLY QUALIFIED HEALTH CENTERS.—With respect to each federally qualified health center (as such term is defined in section 1861(aa) of the Social Security Act) that is an essential community provider, a health plan shall make payments based on the reasonable cost rates applicable under section 1833(a)(3) of the Social Security Act, except that the federally qualified health center may accept other payment amounts.

(3) NO APPLICATION OF GATE-KEEPER LIMITATIONS.—Payment in accordance with this subsection may be subject to utilization review, but may not be subject to otherwise applicable gate-keeper requirements under the plan.

(d) ELECTION.—

(1) IN GENERAL.—In this part, the term “electing essential community provider” means, with respect to a health plan, an essential community provider that elects this subpart to apply to the health plan.
(2) **Form of Election.**—An election under this subsection shall be made in a form and manner specified by the Secretary, and shall include notice to the health plan involved. Such an election may be made annually with respect to a health plan, except that the plan and provider may agree to make such an election on a more frequent basis.

SEC. 1532. **Recommendation on Continuation of Requirement.**

(a) **Studies.**—In order to prepare recommendations under subsection (b), the Secretary shall conduct studies regarding essential community providers, including studies that assess—

(2) the sufficiency of the funding levels for providers, including the special rule for federally qualified health centers under section 1531(c)(2), for both covered and uncovered benefits under this Act,
(3) the effects of contracting requirements relating to such providers on such providers, health plans, and enrollees,

(5) the impact of national health reform on such providers.

(b) **Recommendations to Congress.**—The Secretary shall submit to Congress, by not later than March 1, 2001, specific recommendations respecting whether, and to what extent, section 1531 should continue to apply to some or all essential community providers. appropriate to maintain the benefit package
without adjustments.

Secretary shall take such steps as are necessary to ensure that the comprehensive benefit package is provided to eligible individuals in the State during the year.

(c) Establishment of Guaranty Fund.—

(1) Establishment.—The Secretary must ensure that there is a guaranty fund that meets the requirements established by the Board under section 1652, in order to provide financial protection to health care providers and others in the case of a failure of a community-rated health plan under a health care system established and operated by the Secretary under this section.

(2) Assessments to Provide Guaranty Funds.—In the case of a failure of one or more community-rated health plans, the Secretary may require each community-rated health plan to pay an assessment to the Secretary in an amount not to exceed 2 percent of the premiums of such plans paid by or on behalf of community rate eligible individuals during a year for so long as necessary to generate sufficient revenue to cover any outstanding claims against the failed plan.

(a) In General.—If this subpart applies to a State for a calendar year, the premiums charged by community-rated health plans in the State shall be equal to premiums that would otherwise be charged, increased by 15 percent. Such 15 percent increase shall be used to reimburse the Secretary for any administrative or other expenses incurred as a result of establishing and operating the system.

(b) Treatment of Surcharge as Part of Premium.—For purposes of determining the compliance of a State for which this subpart applies in a year with the requirements for budgeting under subtitle A of title VI for the year, the 15 percent increase described in subsection (a) shall be treated as part of the premium for payment to a State.

(b) Conditions.—In establishing such factors, the factor for the class of individual enrollment shall be 1 and the factor for the couple-only class of family enrollment shall be 2.
Subpart E—Risk Adjustment and Reinsurance

Methodology for Payment of Plans

SEC. 1641. DEVELOPMENT OF A RISK ADJUSTMENT AND REINSURANCE METHODOLOGY.

(a) Development.—

(1) Initial Development.—Not later than April 1, 1995, the Board shall develop a risk adjustment and reinsurance methodology in accordance with this subpart.

(2) Improvements.—The Board shall make such improvements in such methodology as may be appropriate to achieve the purposes described in subsection (b)(1).

(b) Risk Adjustment Methodology.—

(1) Purposes.—Such risk adjustment methodology shall provide for the adjustment of payments to community-rated health plans for the purposes of—

(A) assuring that payments to such plans reflect the expected relative utilization and expenditures for such services by each plan’s enrollees compared to the average utilization and expenditures for community rate eligible individuals, and

(B) protecting health plans that enroll a disproportionate share of community rate eligi-
ble individuals with respect to whom expected utilization of health care services (included in the comprehensive benefit package) and expected health care expenditures for such services are greater than the average level of such utilization and expenditures for community rate eligible individuals.

(2) Factors to be considered.—In developing such risk adjustment methodology, the Board shall take into account the following factors:

(A) Demographic characteristics.

(B) Health status, including prior use of health services.

(C) Geographic area of residence.

(D) Socio-economic status.

(E) Subject to paragraph (5), (i) the proportion of enrollees who are SSI recipients and (ii) the proportion of enrollees who are AFDC recipients.

(F) Any other factors determined by the Board to be material to the purposes described in paragraph (1).

(3) Zero sum.—The risk adjustment methodology shall assure that the total payments to health plans after application of the methodology are the
same as the amount of payments that would have been made without application of the methodology.

(4) **Treatment of SSI/AFDC Adjustment.**—
The Board is not required to apply the factor described in clause (i) or (ii) of paragraph (2)(E) if the Board determines that the application of the other risk adjustment factors described in paragraph (2) is sufficient to adjust premiums to take into account the enrollment in plans of AFDC recipients and SSI recipients.

(5) **Special Consideration for Mental Illness and Mental Retardation.**—In developing the methodology under this section, the Board shall give consideration to the unique problems of adjusting payments to health plans with respect to individuals with mental illness and mental retardation.

(7) **Adjustment to Account for Use of Estimates.**—If the total payments made to all community-rated health plans in a year under section
1239 exceeds, or is less than, the total of such payments estimated by the State in the application of the methodology under this subsection, because of a difference between—

(A) the State's estimate of the distribution of enrolled families in different risk categories (assumed in the application of risk factors under this subsection in making payments to community-rated health plans), and

(B) the actual distribution of such enrolled families in such categories,

the methodology under this subsection shall provide for an adjustment in the application of such methodology in the second succeeding year in a manner that would reduce, or increase, respectively, by the amount of such excess (or deficit) the total of such payments made to all such plans.

(c) MANDATORY REINSURANCE.—

(1) IN GENERAL.—The methodology developed under this section shall include a system of mandatory reinsurance as a component of the risk adjustment methodology.

(2) REQUIREMENT IN CERTAIN CASES.—The Board shall reduce or eliminate such a system of reinsurance at such time as the Board determines that
an adequate prospective payment adjustment for health status has been developed and is ready for implementation.

(3) **Reinsurance System.**—The Board, in developing the methodology for a mandatory reinsurance system under this subsection, shall—

(A) provide for health plans to make payments to state-established reinsurance programs for the purpose of eliminating incentives for plans to discriminate against individuals on the basis of their expected utilization of health services; and

(B) specify the manner of creation, structure, and operation of the system in each State, including—

(i) the manner (which may be prospective or retrospective) in which health plans make payments to the system, and

(ii) the type and level of reinsurance coverage provided by the system.

(d) **Confidentiality of Information.**—The methodology shall be developed in a manner consistent with privacy standards promulgated under section 5120(a). In developing such standards, the Board shall take into account any potential need of States for certain
individually identifiable health information in order to carry out risk-adjustment and reinsurance activities under this Act, but only to the minimum extent necessary to carry out such activities and with protections provided to minimize the identification of the individuals to whom the information relates.

(e) **State Experimentation.**—The Board is authorized to undertake experimentation with alternative reinsurance and risk adjustments methods in one or more different States, with the approval of the States adopting such experiments, to determine the most appropriate method to be used on a national basis.

(f) **State-Specific Adjusters.**—States may, with the approval of the Board, add such risk adjusters to the national risk adjustment and reinsurance methodology that reflect State specific patterns of disease or population characteristics.

**SEC. 1642. INCENTIVES TO ENROLL DISADVANTAGED GROUPS.**

The Board shall establish standards under which States may provide (under section 1203) for an additional adjustment in the risk-adjustment methodology developed under section 1641 in order to provide a financial incentive for community-rated health plans to enroll individuals
who are members of disadvantaged groups or populations vulnerable to discrimination due to their health status.

SEC. 1643. RESEARCH AND DEMONSTRATIONS.

The Secretary shall conduct and support research and demonstration projects to develop and improve, on a continuing basis, the risk adjustment and reinsurance methodology under this subpart.

(A) services rendered by the health plan for the comprehensive benefit package, including any supplemental coverage for cost sharing provided by the health plan, and

(B) services rendered prior to health plan insolvency and services to patients after the insolvency but prior to their enrollment in other health plans.

(2) The fund is liable for all claims against the plan by health care providers with respect to their provision of items and services covered under the comprehensive benefit package to enrollees of the failed plan. Such claims, in full, shall take priority over all other claims. The fund also is liable, to the extent and in the manner provided in accordance with rules established by the Board, for other claims, including other claims of such providers and the claims of contractors, employees, governments, or any other claimants.

Such rules shall include provisions requiring health plans to pay providers for care delivered to individuals prior to the individual’s enrollment in the plan.

(g) Coordination of Enrollment Activities.—

Each State shall coordinate its activities, including plan enrollment and disenrollment activities, with other States in a manner specified by the National Health Board that ensures continuous, nonduplicative coverage of community-rated and experience-rated individuals in health plans and that minimizes administrative procedures and paperwork.

(c) Designation of Agency.—Not later than 6 months after the date of enactment of this Act, the Secretary shall designate an agency responsible for program administration under this subtitle.

SEC. 2102. STATE PLANS.

(a) Plan Requirements.—In order to be approved under subsection (b), a State plan for home and community-based services for individuals with disabilities must meet the following requirements:

(1) Eligibility.—

(A) In general.—Within the amounts provided by the State (and under section 2108) for such plan, the plan shall provide that services under the plan will be available to individ-

(B) Initial Screening.—The plan shall provide a process for the initial screening of individuals who appear to have some reasonable likelihood of being an individual with disabilities. Any such process shall require the provision of assistance to individuals who wish to apply but whose disability limits their ability to do so. Except as provided in subparagraph (C), the initial screening, as well as the determination of disability (as defined under section 2103(b)(1)) and the comprehensive assessment and individualized plan of care (as defined under section 2104(b)(1)(A) and (B)) and 2104(b)(2) (A) and (B) shall be provided by public or private nonprofit agencies that—

institutional setting), or

Secretary;
except that during the initial phase-in period
the Secretary may permit a State to limit eligi-
bility based on level of disability or geography
(if the State assures a balance between urban and rural areas).

(E) Continuation of Services.—The plan must provide assurances that, in the case of an individual receiving medical assistance for home and community-based services under the State medicaid plan as of the date of the enactment of this Act, the State will continue to make available (either under this plan, under the State medicaid plan, or otherwise) to such individual an appropriate level of assistance for home and community-based services, taking into account the level of assistance provided as of such date and the individual’s need for home and community-based services.

(2) Services.—

(A) Needs Assessment.—Not later than the end of the second year of implementation, the plan or its amendments shall include the results of a statewide assessment of the needs of individuals with disabilities, in a format required by the Secretary. (iii) shall include services that are determined to be necessary to help all categories of individuals with disabilities, regardless of their age or the nature of their disabling conditions,

(iv) shall demonstrate that services are allocated equitably, in accordance with the needs assessment required under subparagraph (A), and

"(B) Application.—If, within 12 months after the date of the enactment of this part, the NAIC develops the model standards under subparagraph (A)(i), the Secretary shall have 60 days in which to determine whether such standards implement the requirements of this part. If such standards are approved by the Secretary,
they shall be the standards that apply as provided in this part.

“(2) DEFAULT.—If the NAIC does not promulgate the model standards under paragraph (1) by the deadline established in that paragraph, the Secretary shall promulgate, within 12 months after such deadline, a regulation that provides standards that incorporate the requirements of this part and such standards shall apply as provided for in this part.

“(3) RELATION TO STATE LAW.—Nothing in this part shall be construed as preventing a State from applying standards that provide greater protection to policyholders of long-term care insurance policies than the standards promulgated under this part, except that such State standards may not be inconsistent or in conflict with any of the requirements of this part.

“(b) DEADLINE FOR APPLICATION OF STANDARDS.—

“(1) IN GENERAL.—Subject to paragraph (2), the date specified in this subsection for a State is—

has been decertified, the policy has been certified by the Secretary (in accordance with such procedures as the Secretary may establish) as meeting the standards established under section 2701(a) by the date specified in section 2701(b).

For purposes of this subsection, the advertising or soliciting with respect to a policy, directly or indirectly, shall be deemed the offering for sale of the policy.

“(2) Review of State Regulatory Programs.—The Secretary shall review regulatory programs described in paragraph (1)(A) at least biennially to determine if they continue to provide for the application and enforcement of the standards and procedures established under section 2701(a) and (b). If the Secretary determines that a State regulatory program no longer meets such standards and requirements, before making a final determination, the Secretary shall provide the State an opportunity to adopt such a plan of correction as would permit the program to continue to meet such standards and requirements. If the Secretary makes a final determination that the State regulatory program, after such an opportunity, fails to meet such
standards and requirements, the Secretary shall assume responsibility under paragraph (1)(B) with respect to certifying policies in the State and shall exercise full authority under section 2701 for carriers, agents, or associations or its subsidiary in the State plans in the State.

“(B) responding to such complaints within

90 days;

“(C) the investigation of—

“(i) those complaints which have a

reasonable probability of validity, and

“(ii) such other alleged violations of

the standards as the program finds appro-

“(D) the imposition of appropriate sanc-

“(iii) is made available to the public.

“(C) APPLICATION.—Except as provided in subparagraph (D), this paragraph shall not apply to a group long-term care insurance policy issued to a group described in section 4(E)(1) of the NAIC Long Term Care Insurance Model Act (effective January 1991), except that such group policy shall, pursuant to guidelines developed by the NAIC, provide notice to policyholders and certificate holders of any premium change under such group policy.

“(D) EXCEPTION.—Subparagraph (C) shall not apply to—

“(i) group conversion policies;

“(ii) the group continuation feature of a group policy if the insurer separately rates employee and continuation coverages; and

“(iii) group policies where the function of the employer is limited solely to col-
lecting premiums (through payroll deductions or dues checkoff) and remitting them to the insurer.

“(E) CONSTRUCTION.—Nothing in this paragraph shall be construed as preventing the NAIC from promulgating standards, or a State from enacting and enforcing laws, with respect to premium rates or loss ratios for all, including group, long-term care insurance policies.

“(6) ANNUAL REPORTS.—Each State regulatory program shall provide for annual reports to be submitted to the Secretary on the implementation and enforcement of the standards in the State, including information concerning violations in excess of 30 days.

``(B) Conduct of hearing.—Any hearing requested under subparagraph (A) shall be conducted before an administrative law judge. If no hearing is so requested, the Secretary’s imposition of the order shall constitute a final and unappealable order.

``(C) Authority in hearings.—In conducting hearings under this paragraph—

``(i) agents of the Secretary and administrative law judges shall have reasonable access necessary to enable such agents and judges to examine evidence of any carrier, agent, or association or its subsidiary being investigated; and

"(D) ISSUANCE OF ORDERS.—If an administrative law judge determines in a hearing under this paragraph, upon the preponderance of the evidence received, that a carrier, agent, or association or its subsidiary named in the complaint has violated the requirements of this part, the administrative law judge shall state the findings of fact and issue and cause to be served on such carrier, agent, association, or subsidiary an order described in paragraph (4).

“(ii) may require the agent, association or its subsidiary, or a carrier to take such other remedial action as is appropriate.

“(B) Corrections within 30 days.—No order shall be imposed under this paragraph by reason of any violation if the carrier, agent, or association or its subsidiary establishes to the satisfaction of the Secretary that—

“(i) such violation was due to reasonable cause and was not intentional and was not due to willful neglect; and
“(ii) such violation is corrected within the 30-day period beginning on the earliest date the carrier, agent, association, or subsidiary knew, or exercising reasonable diligence could have known, that such a violation was occurring.

“(C) WAIVER BY SECRETARY.—In the case of a violation under this part that is due to reasonable cause and not to willful neglect, the Secretary may waive part or all of the civil money penalty imposed under subparagraph (A)(i)(II) to the extent that payment of such penalty would be grossly excessive relative to the violation involved and to the need for deterrence of violations.

“(D) ADMINISTRATIVE APPELLATE REVIEW.—The decision and order of an administrative law judge under this paragraph shall become the final agency decision and order of the Secretary unless, within 30 days, the Secretary modifies or vacates the decision and order, in which case the decision and order of the Secretary shall become a final order under this paragraph.

“(D) OTHERS.—Engaging in such other practices determined inappropriate under guidelines issued by the NAIC.

“(b) FINANCIAL STANDARDS.—The NAIC shall develop recommended financial minimum standards (including both income and asset criteria) for the purpose of advising individuals as to the costs and amounts of insurance needed when considering the purchase of a long-term care insurance policy.

“(c) PROHIBITION OF SALE OR ISSUANCE TO MEDICARE BENEFICIARIES.—An agent, an association, or a carrier may not knowingly sell or issue a long-term care insurance policy to an individual who is eligible for medical assistance under title XIX of the Social Security Act.
“(d) PROHIBITION OF SALE OR ISSUANCE OF DUPLICATE SERVICE BENEFIT POLICIES.—An agent, association or its subsidiary, or a carrier may not sell or issue a service-benefit long-term care insurance policy to an individual—

“(1) knowing that the policy provides for coverage that duplicates coverage already provided in another service-benefit long-term care insurance policy held by such individual (unless the policy is intended to replace such other policy); or

“(2) for the benefit of an individual unless the individual (or a representative of the individual) provides a written statement to the effect that the coverage—

“(A) does not duplicate other coverage in effect under a service-benefit long-term care insurance policy; or

“(B) will replace another service-benefit long-term care insurance policy.

In this subsection, the term ‘service-benefit long-term care insurance policy’ means a long-term care insurance policy which provides for benefits based on the type and amount of services furnished.

“(e) PROHIBITION BASED ON ELIGIBILITY FOR OTHER BENEFITS.—A carrier may not sell or issue a
long-term care insurance policy that reduces, limits or co-

preempting or otherwise limiting the penalties that may
be imposed by a State for conduct that violates this section.

“(3) provide a written explanation of the manner in which to appeal the denial.

Except as provided in subsection (e) of section 2715, no claim under such a policy may be denied on the basis of a failure to disclose a condition at the time of issuance of the policy if the application for the policy failed to request information respecting the condition.

“(d) Reporting of Information.—A carrier that issues one or more long-term care insurance policies shall periodically (not less often than annually) report, in a
form and in a manner determined by the NAIC, to the

available to the Secretary, upon request, information in
a form and manner determined by the NAIC concerning—

"(1) In general.—A carrier that issues one or more long-term care insurance policies may provide a commission or other compensation to an agent or other representative for the sale of such a policy only if the first year commission or other first year compensation to be paid does not exceed 200 percent of the commission or other compensation paid for selling or servicing the policy in the second year, or if the first year commission or other compensation to be paid does not exceed 50 percent of the premium paid on the first year policy, until the NAIC promulgates mandatory standards concerning compensation for the sale of such policies.

"(2) Subsequent years.—The commission or other compensation provided for the sale of long-term care insurance policies in years subsequent to the first year of the policy shall be the same as that

A group policy which restricts provision of benefits and services to or contains incentives to use certain providers or facility, may provide continuation benefits which are substantially equivalent to the benefits of the existing group policy.

“(3) **Basis for Conversion.**—For purposes of paragraph (1), a policy provides a basis for conversion of coverage if the policy entitles each individual—

“(A) whose coverage under the group policy would otherwise be terminated for any reason; and

“(B) who has been continuously insured under the policy (or group policy which was replaced) for at least 6 months before the date of the termination;
to issuance of a policy providing benefits identical to, substantially equivalent to, or in excess of, those of the policy being terminated, without evidence of insurability.

"(4) Treatment of Substantial Equivalence.—In determining under this subsection whether benefits are substantially equivalent, consideration should be given to the difference between managed care and non-managed care plans.

"(5) Group Replacement of Policies.—If a group long-term care insurance policy is replaced by another long-term care insurance policy purchased by the same policyholder, the succeeding issuer shall offer coverage to all persons covered under the old group policy on its date of termination. Coverage under the new group policy shall not result in any exclusion for preexisting conditions that would have been covered under the group policy being replaced.

"(c) Standards for Issuance.—

"(1) In General.—

"(A) Guarantee.—An agent, association or carrier that sells or issues long-term care insurance policies shall guarantee that such policies shall be sold or issued to an individual, or eligible individual in the case of a group plan,
if such individual meets the minimum medical underwriting requirements of such policy.

"(B) PREMIUM FOR CONVERTED POLICY.—If a group policy from which conversion is made is a replacement for a previous group policy, the premium for the converted policy shall be calculated on the basis of the insured’s age at the inception of coverage under the group policy from which conversion is made. Where the group policy from which conversion is made replaced previous group coverage, the premium for the converted policy shall be calculated on the basis of the insured’s age at inception of coverage under the group policy replaced.

"(3) RATE STABILIZATION.—The NAIC shall establish standards for premium rate stabilization.

"(d) EFFECT OF INCAPACITATION.—
“(A) Prohibition.—Except as provided in paragraph (2), a long-term care insurance policy in effect as of the effective date of the standards established under section 2701(a) may not be canceled for nonpayment if the policy holder is determined by a long-term care provider, physician or other health care provider, independent of the issuer of the policy, to be cognitively or mentally incapacitated so as to not make payments in a timely manner.

“(B) Reinstatement.—A long-term care policy shall include a provision that provides for the reinstatement of such coverage, in the event of lapse, if the insurer is provided with proof of cognitive or mental incapacitation. Such reinstatement option shall remain available for a period of not less than 5 months after termination and shall allow for the collection of past due premium.

“(2) Permitted Cancellation.—A long-term care insurance policy may be canceled under paragraph (1) for nonpayment if—

“(i) IN GENERAL.—No long-term care insurance policy or certificate issued under this part shall utilize a definition of ‘preexisting condition’ that is more restrictive than the following: The term ‘preexisting condition’ means a condition for which medical advice or treatment was recommended by, or received from a provider of health care services, within 6 months preceding the effective date of coverage of an insured individual.

“(ii) PROHIBITION ON EXCLUSION OF COVERAGE.—No long-term care insurance policy or certificate may exclude coverage for a loss or confinement that is the result
of a preexisting condition unless such loss or confinement begins within 6 months following the effective date of the coverage of the insured individual.

"(2) REPLACEMENT POLICIES.—If a long-term care insurance policy replaces another long-term care insurance policy, the issuer of the replacing policy shall waive any time periods applicable to preexisting conditions, waiting period, elimination periods and probationary periods in the new policy for similar benefits to the extent such time was spent under the original policy.

"(f) ELIGIBILITY FOR BENEFITS.—

"(1) LONG-TERM CARE POLICIES.—Each long-term care insurance policy shall—

"(A) describe the level of benefits available under the policy; and

"(B) specify in clear, understandable terms, the level (or levels) of physical, cognitive, or mental impairment required in order to receive benefits under the policy.

“(1) OPTION TO PURCHASE.—A carrier may not offer a long-term care insurance policy unless the carrier also offers to the proposed policyholder, including each group policyholder, the option to purchase a policy that provides for increases in benefit levels, with benefit maximums or reasonable durations that are meaningful, to account for reasonably anticipated increases in the costs of long-term care services covered by the policy. A carrier may not offer to a policyholder an inflation protection feature that is less favorable to the policyholder than one following:
“(A) With respect to policies that provide for automatic periodic increases in benefits, the policy provides for an annual increase in benefits in a manner so that such increases are computed annually at a rate of not less than 5 percent.

“(B) With respect to policies that provide for periodic opportunities to elect an increase in benefits, the policy guarantees that the insured individual will have the right to periodically increase the benefit levels under the policy without providing evidence of insurability or health status so long as the option for the previous period was not declined. The amount of any such additional benefit may not be less than the difference between—

“(i) the existing policy benefit; and

“(ii) such existing benefit compounded annually at a rate of at least 5 percent for the period beginning on the date on which the existing benefit is purchased and extending until the year in which the offer of increase is made.

“(C) With respect to service benefit policies, the policy covers a specified percentage of
the actual or reasonable charges and does not include a maximum specified indemnity amount or limit.

“(2) EXCEPTION.—The requirements of paragraph (1) shall not apply to life insurance policies or riders containing accelerated long-term care benefits.

“(3) REQUIRED INFORMATION.—Carriers shall include the following information in or together with the outline of coverage provided under this part:

“(B) Any expected premium increases or additional premiums required to pay for any automatic or optional benefit increases, whether the individual who purchases the policy obtains the inflation protection initially or whether such individual delays purchasing such protection until a future time.

“(4) CONTINUATION OF PROTECTION.—Inflation protection benefit increases under this subsection under a policy that contains such protection
shall continue without regard to an insured’s age, claim status or claim history, or the length of time the individual has been insured under the policy.

“(5) CONSTANT PREMIUM.—An offer of inflation protection under this subsection that provides for automatic benefit increases shall include an offer of a premium that the carrier expects to remain constant. Such offer shall disclose in a conspicuous manner that the premium may change in the future unless the premium is guaranteed to remain constant.

“(6) REJECTION.—Inflation protection under this subsection shall be included in a long-term care insurance policy unless a carrier obtains a written rejection of such protection signed by the policyholder.

“SEC. 2716. NONFORFEITURE.

“(a) IN GENERAL.—Each long-term care insurance policy (or certificate) shall provide that if the policy lapses after the policy has been in effect for a minimum period (specified under the standards under section 2701(a)), the policy will provide, without payment of any additional premiums, nonforfeiture benefits as determined appropriate by the NAIC.
“(b) Establishment of Standards.—The standards under section 2701(a) shall provide that the percentage or amount of benefits under subsection (a) must increase based upon the policyholder’s equity in the policy.

“SEC. 2717. LIMIT OF PERIOD OF CONTESTABILITY AND RIGHT TO RETURN.

“(a) Contestability.—A carrier may not cancel or renew a long-term care insurance policy or deny a claim under the policy based on fraud or intentional misrepresentation relating to the issuance of the policy unless notice of such fraud or misrepresentation is provided within a time period to be determined by the NAIC.

“(b) Right to Return.—Each applicant for a long-term care insurance policy shall have the right to return the policy (or certificates) within 30 days of the date of its delivery (and to have the premium refunded) if, after examination of the policy or certificate, the applicant is not satisfied for any reason.

“SEC. 2718. CIVIL MONEY PENALTY.

this Act.
“(c) RECOMMENDATIONS.—The Secretary shall make recommendations to Congress regarding necessary revisions to the Life Care Act as a result of the findings provided in the reports submitted under this section.”.

SEC. 2303. SENSE OF THE COMMITTEE CONCERNING PACE (PROGRAM OF ALL-INCLUSIVE CARE FOR THE ELDERLY).

(a) FINDINGS.—The Committee on Labor and Human Resources of the Senate finds that—

(1) a serious shortcoming in the Nation’s current health care delivery system is its ability to integrate acute and long-term care services;

(2) the pioneering efforts of the On Lok program in San Francisco, which has been replicated as PACE (Program of All-inclusive Care for the Elderly), provides a comprehensive range of acute and long-term care services to frail, nursing home eligible individuals, allowing them to avoid unwanted institutionalization;

(3) two of the current PACE sites are located in East Boston, Massachusetts and Columbia, South Carolina;

(4) these programs have done a remarkable job in keeping elderly, low-income, severely disabled indi-
viduals in their homes and have proven to be both popular and cost-effective;

(5) payments to PACE providers are capitated and, therefore, require waivers of Medicare and Medicaid rules; and

(6) at the present time, only 15 PACE sites are authorized.

(b) Sense of the Committee.—It is the sense of the Committee on Labor and Human Resources of the Senate that—

(1) the number of PACE sites should be expanded substantially; and

(2) the Committee on Finance of the Senate, which has jurisdiction over Medicare and Medicaid, should take action on this critical issue to allow a greater number of individuals with disabilities to take advantage of a successful model for integrated service delivery.

(b) DEFINITIONS.—

(1) APPROVED PROGRAM.—For purposes of this subtitle:

(a) Annual Authorization of Number of Positions.—In the case of each medical specialty, the National Council shall, pursuant to section 3011, designate for each academic year the number of individuals nationwide who are authorized to be enrolled in eligible programs. The preceding sentence is subject to subsection (c)(2).

(b) Primary Health Care.—

(1) In general.—Subject to paragraph (2), in carrying out subsection (a) for an academic year, the National Council shall ensure that, of the class of
training participants entering eligible programs for academic year 2000-2001 or any subsequent academic year, the percentage of such class that completes eligible programs in primary health care is not less than 55 percent (without regard to the academic year in which the members of the class complete the programs).

(2) Rule of Construction.—The requirement of paragraph (1) regarding a percentage applies in the aggregate to training participants entering eligible programs for the academic year involved, and not individually to any eligible program.

(c) Designations Regarding 3-Year Periods.—

(1) Designation Periods.—For each medical specialty, the National Council shall make the annual designations under subsection (a) for periods of 3 academic years.

(2) Initial Period.—The first designation period established by the National Council after the date of the enactment of this Act shall be the academic years 2000-2001 through 2002-03.

(d) Certain Considerations in Designating Annual Numbers.—

of specialty positions for an academic year for a medical specialty shall include the extent to which there is a need for additional practitioners in the specialty, as indicated by the following:

(A) The characteristics of diseases, disorders, or health conditions treated, including—

(i) the incidence and prevalence (in the general population and in various other populations) of the diseases, disorders, or other health conditions with which the specialty is concerned;

(ii) the intensity of care required for each of these diseases, disorders, or health conditions;

(iii) the relevant training received and experience attained by primary care and specialist physicians in caring for each of these diseases, disorders, or health conditions; and

(iv) when sufficient data becomes available, the extent to which individuals with certain diseases, disorders, or health conditions have better health outcomes when treated by health specialists than by primary care physicians.
(B) The number of physicians who will be practicing in the specialty in the academic year.

schools in the United States in the preceding academic year; and

(3) MEASURE OF COMPLIANCE.—To be considered in compliance with the targets under paragraph (2), a specialty shall demonstrate, not later than July 1, 1998, that the number of individuals enrolled in approved physician training programs of
the specialty is not less than the number of individuals enrolled in such programs as of July 1, 1994, increased or decreased, as the case may be, by 45 percent of the difference between such enrollment and the target enrollment established under paragraph (1) and, not later than January 1, 2000, have increased or decreased by 90 percent of such difference, and, by January 1, 2001, are deemed by the National Council to be in compliance with the target.

(4) Loss of Compliance.—The National Council may, at any time, determine that a specialty is not in compliance with the targets established under paragraph (1) and initiate, with respect to that specialty, the system of mandatory allocations described under section 3013.

(f) Study.—Not later than January 1, 2005, the Secretary shall arrange for the completion, by the Institute of Medicine or other similar entity, of an independent study concerning the effect of medical workforce regulation and planning. Representatives. Only those participants in programs with a significant primary care training emphasis will be considered to have completed an eligible program in primary care for the purposes of subsection (b)(1). (3) **Underserved Rural and Inner-City Communities.**—In making allocations under subsection (a) for eligible programs, the National Council shall consider the extent to which the population of training participants in the program includes training participants who have resided in rural or inner-city communities and the proportion of past participants in the program who are practicing in rural or inner-city communities.

(4) **Recommendations of Private Organizations.**—In making allocations under subsection (a) for eligible programs, the National Council shall consider the recommendations of organizations representing physicians in the medical specialties, the recommendations of organizations representing academic medicine and the recommendations of organi-
organizations representing consumers of the services of such physicians.

volved. The national average applicable under such paragraph for a calendar year for such programs is, subject to subparagraph (B), the amount determined under the preceding sentence increased by the amount necessary to offset the effects of inflation occurring since academic year 1992–93, as determined through use of the consumer price index.

(B) The national average determined under subparagraph (A) and applicable to a calendar year shall, in the case of the eligible entity involved, be adjusted by a factor to reflect regional differences in the applicable wage and wage-related costs.

(5) FUNDING LEVEL AND ALLOCATION METHOD.—Not later than January 1, 1998, the Secretary shall complete a study to determine the effect of the funding level and allocation method described in subsection (a) and paragraphs (1) and (2) of this subsection on the operation of training programs and shall compile the findings and recommendations derived from such study in a report to be submitted to the President and the Congress.

(1) has been employed for in excess of 1 year by a health care entity; and

(a) **NOTICE.**—A health care entity which displaces a preference eligible employee shall provide such employee with—
(1) written notice, no later than the date of dis-

bargaining agreement, except that where application of

resolved in accordance with applicable Federal or State
law.

the operations of the contracting entity on whose premises
such employees work, both the contractor and the con-
tracting entity shall be considered joint employers of the
employees with respect to work performed on those prem-
ises for purposes of determining compliance with labor re-

Subtitle C—Health Research Initiatives

PART 1—PROGRAMS FOR CERTAIN AGENCIES

SEC. 3201. BIOMEDICAL AND BEHAVIORAL RESEARCH.

(a) FINDINGS.—Congress finds the following:

(1) Nearly 4 of 5 peer reviewed research projects deemed worthy of funding by the National Institutes of Health are not funded.

(2) Less than 2 percent of the nearly one trillion dollars our Nation spends on health care is devoted to health research, while the defense industry spends 15 percent of its budget on research.

(3) Public opinion surveys have shown that Americans want more Federal resources put into health research and support by having a portion of their health insurance premiums set aside for this purpose.

(4) Ample evidence exists to demonstrate that health research has improved the quality of health care in the United States. Advances such as the development of vaccines, the cure of many childhood cancers, drugs that effectively treat a host of diseases and disorders, a process to protect our Nation’s blood supply from the HIV virus, progress against cardiovascular disease including heart attack
and stroke, and new strategies for the early detection and treatment of diseases such as colon, breast, and prostate cancer clearly demonstrates the benefits of health research.

(5) Among the most effective methods to control health care costs are the prevention of intentional and unintentional injury and the prevention and cure of disease and disability, thus, health research which holds the promise of prevention of intentional and unintentional injury and cure and prevention of disease and disability is a critical component of any comprehensive health care reform plan.

(6) The state of our Nation’s research facilities at the National Institutes of Health and at universities is deteriorating significantly. Renovation and repair of these facilities are badly needed to maintain and improve the quality of research.

(7) Because the Omnibus Budget Reconciliation Act of 1993 freezes discretionary spending for the next 5 years, the Nation’s investment in health research through the National Institutes of Health is likely to decline in real terms unless corrective legislative action is taken.

(8) A health research fund is needed to maintain our Nation’s commitment to health research
and to increase the percentage of approved projects which receive funding at the National Institutes of Health to at least 33 percent.

(9) Private sector investment in research and development has been responsible for the vast majority of new developments in pharmaceuticals, medical devices, biotechnology and other health care innovations. Over 90 percent of the most prescribed drugs in the United States were discovered by the research-based pharmaceutical industry.

(10) United States industry is the preeminent world leader in the research, development and delivery of innovative therapies that improve the quality of care for people throughout the world.

(11) Global health care budgets may constrict private sector investment in research and development. Further, they may be inconsistent with the goal of developing promising new cost effective treatment therapies.

(b) Availability of Funds.—

(1) In general.—With respect to each calendar year, the Secretary shall pay, from funds in the Treasury not otherwise appropriated, for activities under this section in an amount equal to 0.25 percent in 1996, 0.50 percent in 1997, 0.75 percent
in 1998, and 1.0 percent in 1999 and subsequent years, of all private premiums required to be paid under this Act.

(2) For purposes of this subsection, the term “private health premiums” means all premium related payments made by employers, individuals, and families for coverage under this Act.

(c) PURPOSES FOR EXPENDITURES.—Part A of title IV of the Public Health Service Act (42 U.S.C. 281 et seq.) is amended by adding at the end thereof the following new section:

"SEC. 404F. EXPENDITURES FOR HEALTH RESEARCH.

“(a) IN GENERAL.—From amounts made available under section 3201 of the Health Security Act, the Secretary shall distribute—

“(1) 2 percent of such amounts during any fiscal year to the Office of the Director of the National Institutes of Health to be allocated at the Director’s discretion for the following activities:

“(A) for carrying out the responsibilities of the Office of the Director, in including the Office of Research on Women’s Health and the Office of Research on Minority Health, the Office of Alternative Medicine and the Office of Rare Diseases Research; and
``(B) for construction and acquisition of equipment for or facilities of or used by the Na-
tional Institutes of Health;
``(2) 2 percent of such amounts for transfer to the National Center for Research Resources to carry out section 1502 of the National Institutes of Health Revitalization Act of 1993 concerning Bio-
medical and Behavioral Research Facilities;
``(3) 1 percent of such amounts during any fiscal year for carrying out section 301 and part D of title IV with respect to health information commu-
nications; and
``(4) the remainder of such amounts during any fiscal year to member institutes of the National In-
stitutes of Health and Centers in the same propor-
tion to the total amount received under this section, as the amount of annual appropriations under ap-
propriations Acts for each member institute and Centers for the fiscal year bears to the total amount of appropriations under appropriations Acts for all member institutes and Centers of the National Institu-
tutes of Health for the fiscal year.
``(b) Plans of Allocation.—The amounts trans-
ferred under subsection (a) shall be allocated by the Direc-
tor of NIH or the various directors of the institutes and
centers, as the case may be, pursuant to allocation plans
developed by the various advisory councils to such direc-
tors, after consultation with such directors.”.

Section 902 of the Public Health Service Act (42
U.S.C. 299a), as amended by section 2(b) of Public Law
102–410 (106 Stat. 2094), is amended by adding at the
end the following subsection:

“(f) RESEARCH ON HEALTH CARE REFORM.—

“(1) IN GENERAL.—In carrying out section
901(b), the Administrator shall conduct and support
research on the reform of the health care system of
the United States, as directed by the National
Board.

“(2) PRIORITIES.—In carrying out paragraph
(1), the Administrator shall give priority to the fol-
lowing:

“(A) Conducting and supporting research
on the appropriateness and effectiveness of al-
ternative clinical strategies (including commu-
nity-based programs and preventive services),
the quality and outcomes of care, and adminis-
trative simplification.

“(B) Conducting and supporting research
on the appropriateness and effectiveness of al-
ternative community-based and clinical strategies including integrating preventive services into primary care, the effectiveness of preventive counseling and health education, and the efficacy and cost-effectiveness of clinical preventive services.

“(C) Conducting and supporting research on consumer choice and information resources; the effects of health care reform on health delivery systems; workplace injury and illness prevention; intentional and unintentional injury prevention; methods for risk adjustment; factors influencing access to health care for vulnerable populations, including children, persons with low-income, persons with disabilities, or individuals with chronic or complex health conditions, and primary care.

“(D) The development of clinical practice guidelines consistent with section 913, the dissemination of such guidelines consistent with section 903, and the assessment of the effectiveness of such guidelines.”

(c) SCOPE OF DISCLOSURE.—The disclosure of protected health information under this section shall be limited to the minimum amount necessary to accomplish the research purpose for which the disclosure is authorized.
(d) RESEARCH REQUIRING DIRECT CONTACT.—Protected information may not be disclosed to a health researcher for a research project that includes direct contact with an enrollee who is the subject of protected health information unless the enrollee has been given notice by the health information trustee that such contact is possible, has been given the opportunity to object to the disclosure, and has not objected.
SEC. 5173. LAW ENFORCEMENT.
(a) IN GENERAL.—A health care provider, health plan, health oversight agency, employer, or other person that receives protected health information under section

(2) in the identification of a victim or witness in a law enforcement inquiry; or

(3) in connection with the investigation of criminal activity committed against the trustee or on premises controlled by the trustee.

(2) states that the information is needed for a lawful purpose under this section; and

(3) is signed by a supervisory official of a rank designated by the head of the agency.

(c) SCOPE OF DISCLOSURE.—The disclosure of protected health information under this section shall be lim-

(d) Restrictions on Additional Disclosure.—

Protected health information about an enrollee that is disclosed to a law enforcement agency under this section—

(1) may not be disclosed for, or used in, any administrative, civil, or criminal action or investigation against the enrollee, except in an action or investigation arising out of and directly related to the action or investigation for which the information was obtained; and

SEC. 5174. SUBPOENAS AND WARRANTIES.

(a) In General.—A health care provider, health plan, health oversight agency, employer, or person that receives protected health information under section 5170 may disclose protected health information under this section if the disclosure is pursuant to—

that the grand jury has complied with the applicable access provisions of section 5175;

(2) an administrative subpoena or a judicial subpoena or warrant, and the trustee is provided a written certification by the person seeking the information that the person has complied with the applicable access provisions of section 5175 or 5176; or

(3) an administrative subpoena or a judicial subpoena or warrant, and the disclosure otherwise meets the conditions of section 5167, 5169, 5170, 5171, or 5173.

(b) Restrictions on Additional Disclosure.— Protected health information about an enrollee that is received under—

(1) subsection (a) may not be disclosed for, or used in, any administrative, civil, or criminal action or investigation against the enrollee, except in an action or investigation arising out of and directly related to the inquiry for which the information was obtained;

(2) subsection (a)(2) may not be otherwise disclosed by the recipient unless the disclosure is necessary to fulfill the purpose for which the information was obtained; and
(3) subsection (a)(3) may not be disclosed by the recipient unless the recipient complies with the conditions and restrictions on disclosure with which the recipient would have been required to comply if the disclosure had been made under section 5168, 5169, 5170, 5171, or 5173.

SEC. 5175. ACCESS PROCEDURES FOR LAW ENFORCEMENT SUBPOENAS AND WARRANTS.

(a) Probable Cause Requirement.—A government authority may not obtain protected health information about an enrollee under section 5174(a) (1) or (2) for use in a law enforcement inquiry unless there is probable cause to believe that the information is relevant to a legitimate law enforcement inquiry being conducted by the government authority.

(b) Warrants.—A government authority that obtains protected health information about an enrollee under circumstances described in subsection (a) and pursuant to a warrant shall, not later than 30 days after the date the warrant was executed, serve the enrollee with, or mail to the last known address of the enrollee, a notice that protected health information about the enrollee was so obtained.

(c) Subpoenas.—Except as provided in subsection (d), a government authority may not obtain protected
health information about an enrollee under circumstances described in subsection (a) and pursuant to a subpoena unless a copy of the subpoena has been served on the enrollee on or before the date of return of the subpoena, together with a notice of the enrollee's right to challenge the subpoena in accordance with section 5176, and—

(1) 30 days have passed from the date of service on the enrollee and within that time period the enrollee has not initiated a challenge in accordance with section 5176; or

(2) disclosure is ordered by a court after challenge under section 5176.

(d) Application for Delay.—

(1) In General.—A government authority may apply ex parte and under seal to an appropriate court to delay (for an initial period of not longer than 90 days) serving a copy of a subpoena or notice required under subsection (b) or (c) with respect to a law enforcement inquiry. The government authority may apply to the court for extensions of the delay.

(2) Reasons for Delay.—An application for a delay, or extension of a delay, under this subsection shall state, with reasonable specificity, the reasons why the delay or extension is being sought.
(3) EX PARTE ORDER.—The court shall enter an ex parte order delaying, or extending the delay of, notice and an order prohibiting the disclosure of the request for or disclosure of the protected health information and an order requiring the disclosure of the protected health information if the court finds that—

(A) the inquiry being conducted is within the lawful jurisdiction of the government authority seeking the protected health information;

(B) there is probable cause to believe that the protected health information being sought is relevant to a legitimate law enforcement inquiry;

(C) the government authority's need for the information outweighs the privacy interest of the enrollee who is the subject of the information; and

(D) there is reasonable ground to believe that receipt of notice by the enrollee will result in—

(i) endangering the life or physical safety of any individual;

(ii) flight from prosecution;
(iii) destruction of or tampering with evidence or the information being sought; or 
(iv) intimidation of potential witnesses.

SEC. 5176. CHALLENGE PROCEDURES FOR LAW ENFORCEMENT SUBPOENAS.

(a) MOTION TO QUASH SUBPOENA.—Within 30 days after the date of service of a subpoena of a government authority seeking protected health information about an enrollee under section 5174 (a) (1) or (2), or notice that protected health information has been obtained by a government authority, the enrollee may file a motion to quash the subpoena—

(1) in the case of a State judicial subpoena, in the court which issued the subpoena;

(2) in the case of a subpoena issued under the authority of a State that is not a State judicial subpoena, in a court of competent jurisdiction;

(3) in the case of a subpoena issued under the authority of a Federal court, in the United States district court for the district in which the enrollee resides or in which the subpoena was issued; or

(4) in the case of any other subpoena issued under the authority of the United States, in the
United States district court for the district in which the enrollee resides or in which the subpoena was issued.

(b) COPY.—A copy of the motion shall be served by the enrollee upon the government authority by registered or certified mail.

(c) PROCEEDINGS.—The government authority may file with the court such papers, including affidavits and other sworn documents, as sustain the validity of the subpoena. The enrollee may file with the court reply papers in response to the government authority’s filing. The court, upon the request of the enrollee or the government authority or both, may proceed in camera. The court may conduct such proceedings as it deems appropriate to rule on the motion, but shall endeavor to expedite its determination.

(d) STANDARD FOR DECISION.—A court may deny a motion under subsection (a) if it finds there is probable cause to believe the protected health information being sought is relevant to a legitimate law enforcement inquiry being conducted by the government authority, unless the court finds the enrollee’s privacy interest outweighs the government authority’s need for the information. The enrollee shall have the burden of demonstrating that the en-
rollee's privacy interest outweighs the need established by
the government authority for the information.

(e) **Specific Considerations With Respect to Privacy Interest.**—In reaching its determination, the
court shall consider—

(1) the particular purpose for which the infor-
mation was collected;

(2) the degree to which disclosure of the infor-
mation will embarrass, injure, or invade the privacy
of the enrollee;

(3) the effect of the disclosure on the enrollee’s
future health care;

(4) the importance of the inquiry being con-
ducted by the government authority, and the impor-
tance of the information to that inquiry; and

(5) any other factor deemed relevant by the
court.

(f) **Attorney’s Fees.**—In the case of a motion
brought under subsection (a) in which the enrollee has
substantially prevailed, the court may assess against the
government authority a reasonable attorney’s fee and
other litigation costs (including expert’s fees) reasonably
incurred.

(g) **No Interlocutory Appeal.**—A ruling denying
a motion to quash under this section shall not be deemed
to be a final order, and no interlocutory appeal may be
taken therefrom by the enrollee. An appeal of such a rul-
ing may be taken by the enrollee within such period of
time as is provided by law as part of any appeal from a
final order in any legal proceeding initiated against the
enrollee arising out of or based upon the protected health
information disclosed.

SEC. 5177. ACCESS AND CHALLENGE PROCEDURES FOR
SUBPOENAS OTHER THAN LAW ENFORCE-
MENT SUBPOENAS.

(a) IN GENERAL.—A private party may not obtain
protected health information from a health care provider,
health plan, employer, or person that receives protected
health information under section 5170 pursuant to a sub-
poena unless—

(1) a copy of the subpoena together with a no-
tice of the enrollee’s right to challenge the subpoena
by filing a motion to quash under subsection (b), has
been served upon the enrollee who is the subject of
the protected health information on or before the
date on which the subpoena was served; and

(2)(A) 30 days have passed since the date of
service, and within that time period the enrollee has
not filed a motion under subsection (b); or
(B) disclosure is ordered by a court under that subsection.

(b) MOTION TO QUASH.—Within 30 days after service of a subpoena seeking protected health information under subsection (a), the enrollee who is the subject of the protected health information may file in any court of competent jurisdiction a motion to quash the subpoena, with a copy served on the person seeking the information. The enrollee may oppose or seek to limit the subpoena on any ground that would be available if the enrollee were in sole possession of the information, including privacy and relevance.

(c) STANDARD FOR DECISION.—The court shall grant a motion under subsection (b) unless the respondent demonstrates that—

(1) there is reasonable ground to believe the information is relevant to a lawsuit or other judicial or administrative proceeding; and

(2) the need of the respondent for the information outweighs the privacy interest of the enrollee.

(d) SPECIFIC CONSIDERATIONS WITH RESPECT TO PRIVACY INTEREST.—In determining under subsection (c) whether the need of the respondent for the information outweighs the privacy interest of the enrollee, the court shall consider—
the particular purpose for which the information was collected;

(2) the degree to which disclosure of the information would embarrass, injure, or invade the privacy of the enrollee;

(3) the effect of the disclosure on the enrollee’s future health care;

(4) the importance of the information to the lawsuit or proceeding; and

(5) any other relevant factor.

(e) ATTORNEY’S FEES.—In the case of a motion brought under subsection (b) in which the enrollee has substantially prevailed, the court may assess against the respondent a reasonable attorney’s fee and other litigation costs and expenses (including expert’s fees) reasonably incurred.

(c) Regulations.—The Board shall promulgate regulations regarding security measures for protected health information.
SEC. 5179. INSPECTION OF PROTECTED HEALTH INFORMATION.

(B) shall permit the enrollee to have a copy of the information;

(C) shall permit a person who has been designated in writing by the enrollee who is the subject of the information to inspect, or to have a copy of, the information on behalf of the enrollee or to accompany the enrollee during the inspection; and

(D) may offer to explain or interpret information that is inspected or copied under this subsection.

(A) determine the identity of previous providers to the enrollee; and

(B) obtain protected health information regarding the enrollee.

The plan or provider may obtain such information through use of a certified indexing system.

(3) EXCEPTIONS.—A health care provider or health plan is not required by this section to permit inspection or copying of protected health information if any of the following conditions apply:

(A) Mental health treatment notes.—The information consists of psychiatric, psychological, or mental health treatment notes, and the provider or plan determines, based on reasonable medical judgment, that inspection or copying of the notes would cause sufficient harm to the enrollee who is the subject of the notes so as to outweigh the desirability of permitting access, and the provider or plan has not disclosed the notes to any person not directly engaged in treating the enrollee, except with the authorization of the enrollee or under compulsion of law.

(B) Information about others.—The information relates to an individual other than
the enrollee seeking to inspect or have a copy of the information and the provider or plan determines, based on reasonable medical judgment, that inspection or copying of the information would cause sufficient harm to 1 or both of the individuals so as to outweigh the desirability of permitting access.

(C) ENDANGERMENT TO LIFE OR SAFETY.—The provider or plan determines that disclosure of the information could reasonably be expected to endanger the life or physical safety of any individual.

(D) CONFIDENTIAL SOURCE.—The information identifies or could reasonably lead to the identification of a person (other than a health care provider) who provided information under a promise of confidentiality to a health care provider concerning the enrollee who is the subject of the information.

(E) ADMINISTRATIVE PURPOSES.—The information—

(i) is used by the provider or plan solely for administrative purposes and not in the provision of health care to the en-
rollee who is the subject of the information; and

(ii) has not been disclosed by the provider or plan to any other person.

(3) **Inspection and Copying of Segregable Portion.**—A health care provider or health plan shall permit inspection and copying under paragraph (1) of any reasonably segregable portion of a record after deletion of any portion that is exempt under paragraph (2).

(4) **Conditions.**—A health care provider or health plan may—

(A) require a written request for the inspection and copying of protected health information under this subsection; and

(B) charge a reasonable fee (not greater than the actual cost) for—

(i) permitting inspection of information under this subsection; and

(ii) providing a copy of protected health information under this subsection.

(5) **Statement of Reasons for Denial.**—If a health care provider or health plan denies a request for inspection or copying under this subsection, the provider or plan shall provide the en-
rollee who made the request (or the enrollee’s des-
ignated representative) with a written statement of
the reasons for the denial.

(6) DEADLINE.—A health care provider or
health plan shall comply with or deny a request for
inspection or copying of protected health information
under this subsection within the 30-day period be-
ginning on the date on which the provider or plan
receives the request.

(a) IN GENERAL.—A health care provider or health

information—

(2) inform the enrollee of the correction or

(b) REFUSAL TO CORRECT.—If the provider or plan refuses to make the corrections, the provider or plan shall inform the enrollee of—

(1) the reasons for the refusal of the provider or plan to make the correction or amendment;

(2) any procedures for further review of the refusal; and

(3) the enrollee's right to file with the provider or plan a concise statement setting forth the requested correction or amendment and the enrollee's reasons for disagreeing with the refusal of the provider or plan.

(c) BASES FOR REQUEST TO CORRECT OR AMEND.—An enrollee may request correction or amendment of protected health information about the enrollee under paragraph (a) if the information is not timely, accurate, relevant to the system of records, or complete.
(d) Statement of Disagreement.—After an enrollee has filed a statement of disagreement under paragraph (b)(3), the provider or plan, in any subsequent disclosure of the disputed portion of the information—

(1) shall include a copy of the enrollee’s statement; and

(2) may include a concise statement of the reasons of the provider or plan for not making the requested correction or amendment.

(e) Rule of Construction.—This section shall not be construed to require a health care provider or health plan to conduct a formal, informal, or other hearing or proceeding concerning a request for a correction or amendment to protected health information the provider or plan maintains.

(f) Correction.—For purposes of paragraph (a), a correction is deemed to have been made to protected health information when information that is not timely, accurate, relevant to the system of records, or complete is clearly marked as incorrect or when supplementary correct information is made part of the information.

(g) Notice of Information Practices.—

(1) Preparation of Written Notice.—A health care provider or health plan shall prepare a
written notice of information practices describing the following:

(A) **Personal rights of an enrollee.**—The rights under this section of an enrollee who is the subject of protected health information, including the right to inspect and copy such information and the right to seek amendments to such information, and the procedures for authorizing disclosures of protected health information and for revoking such authorizations.

respect to a written document under any other provision of this subpart, such standards shall provide for an electronic substitute that serves the functional equivalent of a signature.

SEC. 5183. RIGHTS OF INCOMPETENTS.

(a) Effect of Declaration of Incompetence.—Except as provided in section 5184, if an enrollee has been declared to be incompetent by a court of competent jurisdiction, the rights of the enrollee under this subpart shall be exercised and discharged in the best interests of the enrollee through the enrollee's representative.

(b) No Court Declaration.—Except as provided in section 5184, if a health care provider determines that an enrollee, who has not been declared to be incompetent by a court of competent jurisdiction, suffers from a medical condition that prevents the enrollee from acting knowingly or effectively on the enrollee's own behalf, the right of the enrollee to authorize disclosure may be exercised and discharged in the best interest of the enrollee by the enrollee's next of kin.

SEC. 5186. NO LIABILITY FOR INSTITUTIONAL REVIEW BOARD DETERMINATIONS.

If the members of an institutional review board make a determination in good faith that—

(1) a health research project is of sufficient importance to outweigh the intrusion into the privacy of an enrollee; and

(2) the effectiveness of the project requires use of protected health information,

the members, the board, and the parent institution of the board shall not be liable to the enrollee as a result of the determination.

SEC. 5187. GOOD FAITH RELIANCE ON CERTIFICATION.

statutory jurisdiction, authority, or limitations, or in
violation of a statutory right, or

(b) Civil penalties for certain other actions.—The Secretary of Labor, in consultation with the National Health Board, may assess a civil penalty de-

1421(b)(2), for any action described in section 5412(a).
The Secretary of Labor, in consultation with the National

agreement), and by releasing plan records to the
Program for the exclusive use of the facilitator as-
signed to the dispute.

(2) PARTICIPATION BY PLANS OR HEALTH BEN-

by a claimant pursuant to paragraph (1) shall par-

including copies of any insurance contracts under
which benefits are or were provided and any fee or reimbursement schedules for health care providers.

SEC. 5213. MEDIATION PROCEEDINGS.

(b) PREPARATIONS FOR CONFERENCE.—In advance of convening the conference, after identifying the necessary parties and confirming that the case is eligible for the Program, the facilitator shall analyze the record of the claims procedure conducted pursuant to section 5201 and any position papers submitted by the parties to determine if further case development is needed to clarify the legal and factual issues in dispute, and whether there is any need for additional information and documents.

(c) CONFERENCE.—Upon convening the conference, the facilitator shall assist the parties in identifying undisputed issues and exploring settlement. If settlement is reached, the facilitator shall assist in the preparation of a written settlement agreement. If no settlement is reached, the facilitator shall present the facilitator’s evaluation, including an assessment of the parties’ positions,
the likely outcome of further administrative action or litigation, and suggestions for narrowing the issues in dispute.

(d) **Time Limit.**—The facilitator shall ensure that mediation proceedings with respect to any dispute under the Early Resolution Program shall be completed within 120 days after the election to participate. The parties may agree to one extension of the proceedings by not more than 30 days if the proceedings are suspended to obtain an agency ruling or to reconvene the conference in a subsequent session.

(e) **Inapplicability of Formal Rules.**—Formal rules of evidence shall not apply to mediation proceedings under the Early Resolution Program. All statements made and evidence presented in the proceedings shall be admissible in the proceedings. The facilitator shall be the sole judge of the proper weight to be afforded to each submission. (a) **PROCESS NONBINDING.—** Findings and conclusions made in the mediation proceedings of the Early Resolution Program shall be treated as advisory in nature and nonbinding. Except as provided in subsection (b), the rights of the parties under subpart A shall not be affected by participation in the Program.

(b) **RESOLUTION THROUGH SETTLEMENT AGREEMENT.—** If a case is settled through participation in mediation proceedings under the Program, the facilitator shall
assist the parties in drawing up an agreement which shall constitute, upon signature of the parties, a binding contract between the parties, which shall be enforceable under section 5215.

(c) **Preservation of Rights of Non-Parties.**—The settlement agreement shall not have the effect of waiving or otherwise affecting any rights to review under subpart A, or any other right under this Act or the plan, with respect to any person who is not a party to the settlement agreement.

**SEC. 5215. ENFORCEMENT OF SETTLEMENT AGREEMENTS.**

(a) **Enforcement.**—Any party to a settlement agreement entered pursuant to mediation proceedings under this subpart may petition any court of competent jurisdiction for the enforcement of the agreement, by filing in the court a written petition praying that the agreement be enforced. In such a proceeding, the order of the hearing officer shall not be subject to review.

(b) **Court Review.**—It shall be the duty of the court to advance on the docket and to expedite to the greatest possible extent the disposition of any petition filed under this section, with due deference to the role of settlement agreements under this part in achieving prompt resolution of disputes involving health plans.

3 (1) FILED PER CAPITA COMMUNITY BID.—The term “filed per capita community bid” means the per capita premium bid that is filed with a State for a community-rated plan offered in a health care coverage area under subpart A of part 1 and is available to all community rate eligible individuals enrolling directly with a health plan.
(2) Accepted per capita cooperative bid.—The term "accepted per capita cooperative bid" means the per capita premium rate agreed upon by a cooperative and a plan taking into account any discount to such bid negotiated under section 1302(c)(2).

(3) Final community rate.—The term "final community rate" means the filed per capita community bid, taking into account any voluntary reduction in such bid made under section 6004(e).

(4) Final cooperative rate.—The term "final cooperative bid" means the accepted per capita cooperative bid, taking into account any voluntary reductions in such bid made under section 6004(e).

(b) Definitions related to weighted average per capita premium rates.—In this title:

(1) Weighted average accepted bid.—The term "weighted average accepted bid" means, for a health care coverage area for a year, the average across all plans of—

(A) the filed per capita community bid for each community-rated health plan offered in a health care coverage area weighted to reflect the relative enrollment (net of any enrollment
through a cooperative) of community rate eligible individuals among such plans; and

(B) the accepted per capita cooperative bid for each community-rated health plan offered in a health care coverage area weighted to reflect the relative enrollment of community rate eligible individuals through a cooperative among such plans.

(2) Weighted average discount rate.—

The term “weighted average discount rate” means, for a health care coverage area for a year, the lesser of—

(A) the per capita premium target for the health care coverage area (as defined in section 6003) for the year; or

(B) the average across all plans of the lesser of—

(i) the final community rate; or

(ii) the final cooperative rate, (applicable only for plans offered through the cooperative);

for each community-rated health plan, weighted to reflect the total enrollment of community rate eligible individuals among such plans.
(3) **Weighted Average Premium.**—The term “weighted average premium” means, for a class of enrollment and with respect to a health care coverage area for the year, the product of—

(A) the weighted average discount rate (as defined in paragraph (2));

**PART 1—HEALTH EXPENDITURES OF HEALTH CARE COVERAGE AREAS**

**Subpart A—Computation of Targets and Accepted Bids**

**SEC. 6001. COMPUTATION OF HEALTH CARE COVERAGE AREA INFLATION FACTORS.**

(a) **Computation.**—

(1) **In General.**—This section provides for the computation of factors that limit the growth of pre-
miums for the comprehensive benefit package in community-rated health plans. The Board shall compute and publish, not later than March 1 of each year (beginning with 1995) the health care coverage area inflation factor (as defined in paragraph (2)) for each health care coverage area for the following year.

(2) **HEALTH CARE COVERAGE AREAS INFLATION FACTOR.**—In this part, the term “health care coverage area inflation factor” means, for a year for a health care coverage area—

(A) the general health care inflation factor for the year (as defined in paragraph (3));

(B) adjusted under subsection (c) (to take into account material changes in the demographic and socio-economic characteristics of the population of community rate eligible individuals);

(C) decreased by the percentage adjustment (if any) provided with respect to the health care coverage area under subsection (d) (relating to adjustment for previous excess expenditures); and

(D) in the case of the year 2001, increased by a factor that the Board determines to reflect
the ratio of (i) the actuarial value of the increase in benefits provided in that year under the comprehensive benefit package to (ii) the actuarial value of the benefits that would have been in such package in the year without regard to the increase.

For purposes of subparagraph (D)(i), the actuarial value of the increase with respect to mental illness and substance abuse services (included within the comprehensive benefit package) shall not exceed an actuarial value based on the amount of the total expenditures that would have been made in 2001 by States and subdivisions of States for mental illness and substance abuse services (included in such package as of 2001) if this Act had not been enacted.

(3) **General Health Care Inflation Factor.**—

(A) **1996 Through 2000.**—In this part, the term "general health care inflation factor", for a year, means the percentage increase in the CPI (as specified under subsection (b)) for the year plus the following:

(i) For 1996, 1.5 percentage points.

(ii) For 1997, 1.0 percentage points.

(iii) For 1998, 0.5 percentage points.
(iv) For 1999 and for 2000, 0 percentage points.

(B) Years after 2000.—

(i) Recommendation to Congress.—In 1999, the Board shall submit to Congress recommendations, after consultation with the Federal Reserve Board, on what the general health care inflation factor should be for years beginning with 2001.

(ii) Failure of Congress to Act.—If the Congress fails to enact a law specifying the general health care inflation factor for a year after 2000, the Board, in January of the year before the year involved, shall compute such factor for the year involved. Such factor shall be the product of the factors described in subparagraph (C) for that fiscal year, minus 1.

(iii) Study by Federal Reserve Board.—Not later than January 1, 1999, the Federal Reserve Board shall conduct a study, and report to the National Health Board, concerning what the general health care inflation factor should be for years be-
ginning with 2001. Such study shall con-
sider whether continued indexing with re-
spect to such factor is advisable and
whether the consumer price index should
be used (in whole or in part, modified or
unmodified) with respect to premium caps
for future years. The recommendations of
the Federal Reserve Board under such
study shall be considered in the rec-
ommendations submitted under clause (i).

(C) Factors.—The factors described in
this subparagraph for a year are the following:

(i) CPI.—1 plus the percentage
change in the CPI for the year, determined
based upon the percentage change in the
average of the CPI for the 12-month pe-
riod ending with August 31 of the previous
fiscal year over such average for the pre-
ceding 12-month period.

(ii) Real GDP per Capita.—1 plus
the average annual percentage change in
the real, per capita gross domestic product
of the United States during the 3-year pe-
riod ending in the preceding calendar year,
determined by the Board based on data supplied by the Department of Commerce.

(b) **Projection of Increase in CPI.**—

(1) **In General.**—For purposes of this section, the Board shall specify, as of the time of publication, the annual percentage increase in the CPI (as defined in section 1902(9)) for the following year.

(2) **Data to be Used.**—Such increase shall be the projection of the CPI contained in the budget of the United States transmitted by the President to the Congress in the year.

(c) **Special Adjustment for Material Changes in Demographic Characteristics of Population.**—

(1) **Adjustment for Large Group Purchaser Opt-In.**—

(A) **In General.**—The Board shall develop a method for adjusting the health care coverage area inflation factor for each health care coverage area in order to reflect material changes in the demographic characteristics of community rate eligible individuals residing in the coverage area (in comparison with such characteristics for the previous year) as a result of the termination of an election of one or more large group purchasers under section 1406.
(B) **Basis for Adjustments.**—Adjustments under this paragraph (whether an increase or decrease) shall be based on the characteristics and factors used for making adjustments in payments under section 6124.

(2) **Adjustment for Area Trend Compared to National Trend.**—

(A) **In General.**—The Board shall develop a method for adjusting the health care coverage area inflator factor for each health care coverage area in order to reflect material changes in the demographic characteristics (including at least age, gender, and socio-economic status) and health status of community rate eligible individuals residing in the coverage area in comparison with the average change in such characteristics for such individuals residing in the United States. The adjustment under this paragraph shall be for changes not taken into account in the adjustment under paragraph (1).

(B) **Neutral Adjustment.**—Such method (and any annual adjustment under this paragraph) shall be designed to result in the adjustment effected under this paragraph for a
year not changing the weighted average of the
health care coverage area inflation factors.

(3) APPLICATION.—The Board shall provide, on
an annual basis, for an adjustment of health care
coverage area inflation factors under this subsection
using such methods.

(d) CONSULTATION PROCESS.—The Board shall have
a process for consulting with representatives of States be-
fore establishing the health care coverage area inflation
factors for each year under this section.

SEC. 6002. BOARD DETERMINATION OF NATIONAL PER CAP-
ITA BASELINE PREMIUM TARGET.

(a) IN GENERAL.—Not later than January 1, 1995,
the Board shall determine a national per capita baseline
premium target. Such target is equal to—

(1) the national average per capita current cov-
 erage health expenditures (determined under sub-
nsection (b)),

(2) updated under subsection (c).

(b) DETERMINATION OF NATIONAL AVERAGE PER
CAPITA CURRENT COVERAGE HEALTH EXPENDITURES.—

(1) IN GENERAL.—The Board shall determine
the national average per capita current coverage
health expenditures equal to—
(A) total covered current health care expenditures (described in paragraph (2)), divided by
(B) the estimated population in the United States of community rate eligible individuals (as determined by the Board as of 1993 under paragraph (4)) for whom such expenditures were determined.

The population under subparagraph (B) shall not include SSI recipients or AFDC recipients.

(2) CURRENT HEALTH CARE EXPENDITURES.—
For purposes of paragraph (1)(A), the Board shall determine current health care expenditures as follows:

(A) DETERMINATION OF TOTAL EXPENDITURES.—The Board shall first determine the amount of total payments made for items and services included in the comprehensive benefit package (determined without regard to cost sharing) in the United States in 1993.

(B) REMOVAL OF CERTAIN EXPENDITURES NOT TO BE COVERED IN THE COMPREHENSIVE BENEFIT PACKAGE.—The amount so determined shall be decreased by the proportion of
such amount that is attributable to any of the following:

(i) Medicare beneficiaries (other than such beneficiaries who are community rate eligible individuals).

(ii) AFDC recipients or SSI recipients.

(iii) Expenditures which are paid for through workers’ compensation or automobile or other liability insurance.

(iv) Expenditures by parties (including the Federal Government) that the Board determines will not be payable by community-rated plans for coverage of the comprehensive benefit package under this Act (as defined in section 1101).

(C) ADDITION OF PROJECTED EXPENDITURES FOR UNINSURED AND UNDERINSURED INDIVIDUALS.—The amount so determined and adjusted shall be increased to take into account increased utilization of, and expenditures for, items and services covered under the comprehensive benefit package likely to occur, as a result of coverage under a community-rated health plan of individuals who, as of 1993 were
uninsured or underinsured with respect to the comprehensive benefit package. In making such determination, such expenditures shall be based on the estimated average cost for such services in 1993 (and not on private payment rates established for such services). In making such determination, the estimated amount of uncompensated care in 1993 shall be removed and will not include adjustments to offset payments below costs by public programs.

(D) Addition of Costs of Administration.—The amount so determined and adjusted shall be increased by an estimated percentage (determined by the Board, but no more than 15 percent) that reflects the proportion of premiums that are required for health plan administration for State administration (including costs for administration of income-related premium discounts and cost sharing reductions) and for State premium taxes (which taxes shall be limited to such amounts in 1993 as are attributable to the health benefits to be included in the comprehensive benefit package). Such adjustments shall not include any marketing fees
(described in section 1511) or cooperative fees
(described in section 1305).

(E) DECREASE FOR COST SHARING.—The
amount so determined and adjusted shall be de-
creased by a percentage that reflects (i) the es-
timated average percentage of total amounts
payable for items and services covered under
the comprehensive benefit package that will be
payments in the form of cost sharing under a
higher cost sharing plan, and (ii) the percent-
age reduction in utilization estimated to result
from the application of high cost sharing.

(3) SPECIAL RULES.—

(A) BENEFITS USED.—The determinations
under this section shall be based on the com-
prehensive benefit package as in effect in 1996.

(B) ASSUMING NO CHANGE IN EXPENDI-
TURE PATTERN.—The determination under
paragraph (2) shall be made without regard to
any change in the pattern of expenditures that
may result from the enrollment of AFDC recipi-
ents and SSI recipients in community-rated
health plans.

(4) ELIGIBLE INDIVIDUALS.—In this sub-
section, the determination of who are community
rate eligible individuals under this subsection shall be made as though this Act was fully in effect in each State as of 1993.

(c) Updating.—

(1) In General.—Subject to paragraph (3), the Board shall update the amount determined under subsection (b)(1) for each of 1994 and 1995 by the appropriate update factor described in paragraph (2) for the year.

(2) Appropriate Update Factor.—In paragraph (1), the appropriate update factor for a year is 1 plus the annual percentage increase for the year (as determined by the Secretary, based on actual or projected information) in private sector health care spending for items and services included in the comprehensive benefit package (as of 1996).

(3) Limit.—The total, cumulative update under this subsection shall not exceed 15 percent.

SEC. 6003. DETERMINATION OF AREA PER CAPITA PREMIUM TARGETS.

(a) Initial Determination.—Not later than January 1, 1995, the Board shall determine, for each health care coverage area for 1996, a health care coverage area per capita premium target. Such target shall equal—
(1) the national per capita baseline premium
target (determined by the Board under section
6002),
(2) updated by the health care coverage area in-
flation factor (as determined under section
6001(a)(2)) for 1996, and
(3) adjusted by the adjustment factor for the
health care coverage area (determined under sub-
section (c)).

(b) Subsequent Determinations.—

(1) Determination.— Not later than March 1
of each year (beginning with 1996) the Board shall
determine, for each health care coverage area for the
succeeding year a health care coverage area per cap-
ita premium target.

(2) General Rule.— Subject to subsection (e),
such target shall equal—

(A) the health care coverage area per cap-
ita target determined under this section (with-
out regard to subsection (e)) for the health care
coverage area for the previous year,
(B) updated by the health care coverage
area inflation factor (as determined in section
6001(a)) for the year.
(3) **Adjustment for previous excess rate of increase in expenditures.**— Such target for a year is subject to a decrease under section 6001(d).

(c) **Adjustment Factors for Health Care Coverage Areas for Initial Determination.**—

(1) **In general.**— The Board shall establish an adjustment factor for each health care coverage area in a manner consistent with this subsection.

(2) **Considerations.**— In establishing the factor for each health care coverage area, the Board shall consider, using information of the type described in paragraph (3), the difference between the national average of the factors taken into account in determining the national per capita baseline premium target and such factors for the health care coverage area, including variations in health care expenditures and in rates of uninsurance and underinsurance in the different areas and including variations in the proportion of expenditures for services provided by academic health centers in the different areas.

(3) **Type of information.**— The type of information described in this paragraph is—

(A) information on variations in premiums across States and across health care coverage
areas within a State (based on surveys and other data);

(B) information on variations in per capita health spending by State, as measured by the Secretary;

(C) information on variations across States in per capita spending under the medicare program and in such spending among health care coverage areas within a State under such program;

(D) area rating factors commonly used by actuaries;

(E) information on variations in the extent to which States and health care coverage areas need additional investment because they have successfully controlled health care costs; and

(F) information on variations among States and health care coverage areas due to underutilization of health care services resulting from geographic barriers and lack of access to health care services, particularly in underserved rural and urban areas.

(4) APPLICATION OF FACTORS IN NEUTRAL MANNER.—The application of the adjustment factors under this subsection for 1996 shall be done in a
manner so that the weighted average of the health care coverage area per capita premium targets for 1996 is equal to the national per capita baseline premium target determined under section 6002. Such weighted average shall be based on the Board’s estimate of the expected distribution of community rate eligible individuals (taken into account under section 6002) among the health care coverage areas.

(5) Consultation Process.—The Board shall have a process for consulting with representatives of States and purchasing cooperative before establishing the adjustment for health care coverage areas under this subsection.

(d) Treatment of Certain States.—

(1) Non-participating.—In the case of a State that is not a participating State or otherwise has not established health care coverage areas, the entire State shall be treated under the provisions of this part as composing a single health care coverage area.

(2) Changes in Area Boundaries.—In the case of a State that changes the boundaries of its health care coverage areas (including the establishment of such areas after 1996), the Board shall provide a method for computing a health care coverage
area per capita premium target for each health care coverage area affected by such change in a manner that—

(A) reflects the factors taken into account in establishing the adjustment factors for health care coverage areas under subsection (c), and

(B) results in the weighted average of the newly computed regional targets for the health care coverage areas affected by the change equal to the weighted average of the regional targets for the health care coverage areas as previously established.

(e) Adjustment for Previous Excess Rate of Increase in Expenditures.—

(1) In general.—If the actual weighted average accepted bid for a health care coverage area for a year (as determined by the Board based on actual enrollment in the first month of the year) exceeds the health care coverage area per capita premium target (determined under this section) for the year, then the health care coverage area per capita premium target shall be reduced, by $\frac{1}{2}$ of the excess percentage (described in paragraph (2)) for the year, for each of the 2 succeeding years.
(2) EXCESS PERCENTAGE.—The excess percentage described in this paragraph for a year is the percentage by which—

(A) the actual weighted average accepted bid (referred to in paragraph (1)) for a health care coverage area for the year, exceeds

(B) the health care coverage area per capita premium target (determined under this section) for the year.

SEC. 6004. INITIAL RATE FILING AND BID NEGOTIATION PROCESS.

(a) FILING AND BIDDING PROCESS.—

(1) FILING COMMUNITY BIDS.—

(A) IN GENERAL.—Not later than July 1 before the first year, and not later than August 1 of each succeeding year, each plan seeking to participate as a community-rated health plan, with respect to the health care coverage area, in the following year shall file a per capita community bid in the manner specified under subsection (c).

(B) SUBMISSION OF BIDS TO COOPERATIVES.—Each plan filing a per capita community bid with respect to a health care coverage area under subparagraph (A) shall also submit
to the cooperative of such health care coverage area a per capita premium bid (not to exceed the rate filed under subparagraph (A) for such plan) for coverage of the comprehensive benefit package as specified in section 1101 in the manner described under subsection (c).

(C) ESTABLISHMENT OF RULES AND PROCEDURES FOR FILING PREMIUM BIDS.—In accordance with section 1660, each participating State shall establish rules and procedures for the filing of premium rates and submission of premium bids by plans.

(D) DISCLOSURE.—In conjunction with the filing of per capita community bids, the State may determine to disclose (or not to disclose) the health care coverage area per capita premium target for the health care coverage area (determined under section 6003) for the year involved.

(E) CONDITION.—Each community bid filed and cooperative bid submitted under this subsection with respect to a community-rated health plan shall be conditioned upon the plan’s agreement to accept any payment reduction that may be imposed under section 6011.
(2) Negotiation Process.—Following the bidding process under paragraph (1), a cooperative may conduct negotiations with health plans relating to the premiums to be charged for such community-rated health plans within a cooperative. Such negotiations may result in the resubmission of bids to the cooperative, but in no case shall a health plan resubmit a bid that exceeds its prior bid.

(3) Legally Binding Bids.—All rates filed and bids submitted under this subsection must be legally binding with respect to the plans involved.

(4) Acceptance.—

(A) Per Capita Community Bid.—The final community rate for a community-rated health plan under this subsection shall be considered to be the accepted bid for such plan, except as provided in subsection (e).

(B) Per Capita Cooperative Bid.—The final cooperative bid submitted to a cooperative for a community-rated health plan under this subsection shall be considered to be the accepted bid for such plan, except as provided in subsection (e).

(5) Assistance.—The Board shall provide States and cooperatives with such information and
technical assistance as may assist such States and
cooperatives in carrying out the provisions of this
subsection.
(b) Submission of Information to Board.—By
not later than September 1 of each year for which commu-
nity per capita bids are filed under subsection (a), each
State shall submit to the Board a report that discloses
for each community-rating area—
(1) information regarding the per capita com-
munity bid filed and accepted cooperative bids negoti-
tiated under subsection (a) by the different plans;
(2)(A) for the first year, any information the
Board may request concerning an estimation of the—
(i) enrollment likely in each such plan of
community rate eligible individuals through co-
operatives; and
(ii) the enrollment likely in each such plan
of community rate eligible individuals by enroll-
ment mechanisms other than cooperatives in ac-
cordance with section 1660, or
(B) for a succeeding year—
(i) the actual distribution of enrollment of
community rate eligible individuals in commu-
nity-rated health plans through cooperatives; and

(ii) the actual distribution of enrollment of community rate eligible individuals in community-rated health plans through enrollment mechanisms other than cooperatives, in accordance with section 1660;

in the year in which the report is transmitted; and

(3) limitations on capacity of community-rated health plans.

(c) Computation of Weighted Average Accepted Bid.—

(1) in general.—For each health care coverage area the Board shall determine a weighted average accepted bid for each year for which rates are filed with the State under subsection (a). Such determination shall be based on information on accepted bids for the year, submitted under subsection (b)(1), and shall take into account, subject to paragraph (2), the information on enrollment distribution submitted under subsection (b)(2).

(2) Enrollment distribution rules.—In making the determination under paragraph (1) for a health care coverage area, the Board shall establish
rules respecting the treatment of enrollment in plans that are discontinued or are newly offered.

(3) Exclusion of worksite health promotion discounts.—For purposes of calculating the weighted average accepted bid and enforcing the per capita premium targets in a health care coverage area in a State, the Board shall consider the accepted bids for the year, without consideration or inclusion of any worksite health promotion discount.

(d) Notice to certain States.—

(1) In general.—By not later than October 1 of each year for which rates are filed with a State, the Board shall notify a State—

(A) if the weighted average accepted bid (determined under subsection (c)) for the health care coverage area is greater than the health care coverage area per capita premium target for such area (determined under section 6003) for the year, and

(B) of the weighted average discount rate for the health care coverage area.

(2) Notice of premium reductions.—If notice is provided to a State under paragraph (1), the Board shall notify the State and each noncomplying plan of any plan payment reduction computed under
section 6011 for such a plan and the opportunity to voluntarily reduce the accepted bid under subsection (e) in order to avoid such a reduction.

(e) Voluntary Reduction of Accepted Bids.— After the Board has determined under subsection (c) the weighted average accepted bid for a health care coverage area and the Board has determined plan payment reductions, before such date as the Board may specify (in order to provide for an open enrollment period), a noncomplying plan has the opportunity to voluntarily reduce its filed community bid (and if applicable, its accepted cooperative bid) by the amount of the plan payment reduction that would otherwise apply to the plan. Such reduction shall not affect the amount of the plan payment reduction for any other plan for that year.

SEC. 6005. STATE FINANCIAL INCENTIVES.

(a) Election.— Any participating State may elect to assume responsibility for containment of health care expenditures in the State consistent with this part. Such responsibility shall include submitting annual reports to the Board on any activities undertaken by the State to contain such expenditures. A participating State may regulate the rates charged by providers furnishing health care items and services to all private payers. Such regulation of rates may not cause an experienced-rated health plan to be
charged, directly or indirectly, rates different from those charged other community-rated health plans for the same items and services or otherwise discriminate against experience-rated health plans.

(b) Financial Incentive.—In the case of a State that has made an election under subsection (a), if the Board determines for a particular year (beginning with the first year) that the statewide weighted average of the weighted average discount rates (based on actual average enrollment for the year), for health care coverage areas in the State, is less than the statewide weighted average of the health care coverage area per capita premium targets (based upon such enrollment) for such areas for the year, then the amount of the State maintenance-of-effort payment under section 9001(b), for the following year, shall be reduced by \( \frac{1}{2} \) of the product of—

(1) the amount by which the amount of such statewide average target exceeds the amount of such statewide average accepted bid, divided by the amount of such target; and

(2) the total of the amount of the Federal payments made in that particular year to the State under subtitle B of title IX.

(c) Alternative State Provider Payment Systems.—Notwithstanding any other provision of law, in the
case of an alternative State provider payment system that has been approved by the Secretary and in continuous operation since July 1, 1977, the payment rates and methodologies required under the State system for services provided in that State shall apply to all purchasers and payors, including those under employee welfare benefit plans authorized under the Employee Retirement Income Security Act of 1974, workers' compensation programs under State law, the Federal Employees' Compensation Act under chapter 81 of title 5, United States Code, and Federal employee health benefit plans under chapter 89 of title 5, United States Code.

SEC. 6006. RECOMMENDATIONS TO ELIMINATE REGIONAL VARIATIONS IN AREA TARGETS DUE TO VARIATION IN PRACTICE PATTERNS; CONGRESSIONAL CONSIDERATION.

(a) Establishment of Advisory Commission on Regional Variations in Health Expenditures.—The chair of the Board shall establish, by not later than 60 days after the date of appointment of the first chair, an advisory commission on regional variations in health expenditures.

(b) Composition.—The advisory commission shall be composed of consumers, employers, providers, representatives of health plans, States, individuals with exper-
tise in the financing of health care, individuals with expertise in the economics of health care, and representatives of diverse geographic areas.

(c) Elimination of Regional Variation in Premiums Due to Practice Pattern.—

(1) Commission Study.—The advisory commission shall examine methods of reducing or eliminating variation in health care coverage area per capita premium targets that are clearly due to variation in practice patterns not justified by differences in need for health care services, presence of academic health centers or other facilities meeting research, training, or care needs broader than those of the population in the area, or other factors (such as health care input prices and demographic factors), by 2002.

(2) Commission Report.—The advisory commission shall submit to the Board a report that specifies one or more methods for reducing or eliminating the variation described in paragraph (1).

(3) Board Recommendations.—The Board, after reviewing the report and such other studies as it deems appropriate and after consulting with the Prospective Payment Assessment Commission, the Physician Payment Review Commission and such
other experts as it deems appropriate, shall submit to Congress, by not later October 1, 1996, detailed recommendations respecting the specific method to be used to reduce or eliminate the variation described in paragraph (1) by 2006. Such recommendations shall not propose the reduction or elimination of differences in per capita premium targets that are not the result of inappropriate differences in practice patterns and shall be designed to avoid unnecessary disruption in the health care systems and economies of affected regions.

(d) CONGRESSIONAL CONSIDERATION.—

(1) IN GENERAL.—Detailed recommendations submitted under subsection (c)(3) shall apply under this subtitle unless a joint resolution (described in paragraph (2)) disapproving such recommendations is enacted, in accordance with the provisions of paragraph (3), before the end of the 60-day period beginning on the date on which such recommendations were submitted. For purposes of applying the preceding sentence and paragraphs (2) and (3), the days on which either House of Congress is not in session because of an adjournment of more than three days to a day certain shall be excluded in the computation of a period.
(2) **Joint Resolution of Disapproval.**—A joint resolution described in this paragraph means only a joint resolution which is introduced within the 10-day period beginning on the date on which the Board submits recommendations under subsection (e)(3) and—

(A) which does not have a preamble;

(B) the matter after the resolving clause of which is as follows: “That Congress disapproves the recommendations of the National Health Board concerning elimination of regional variation in health care coverage area premiums, as submitted by the Board on ____________.”, the blank space being filled in with the appropriate date; and

(C) the title of which is as follows: “Joint resolution disapproving recommendations of the National Health Board concerning elimination of regional variation in health care coverage area premiums, as submitted by the Board on ____________.”, the blank space being filled in with the appropriate date.

(3) **Procedures for Consideration of Resolution of Disapproval.**—Subject to paragraph (4), the provisions of section 2908 (other than sub-
section (a)) of the Defense Base Closure and Realignment Act of 1990 shall apply to the consideration of a joint resolution described in paragraph (2) in the same manner as such provisions apply to a joint resolution described in section 2908(a) of such Act.

(4) SPECIAL RULES.—For purposes of applying paragraph (3) with respect to such provisions—

(A) any reference to the Committee on Armed Services of the House of Representatives shall be deemed a reference to an appropriate Committee of the House of Representatives (specified by the Speaker of the House of Representatives at the time of submission of recommendations under subsection (c)(3)) and any reference to the Committee on Armed Services of the Senate shall be deemed a reference to an appropriate Committee of the Senate (specified by the Majority Leader of the Senate at the time of submission of recommendations under subsection (c)(3)); and

(B) any reference to the date on which the President transmits a report shall be deemed a reference to the date on which the Board submits a recommendation under subsection (c)(3).
(e) Elimination of Regional Variation State Payment Amounts.—

(1) Commission Study.—The advisory commission shall examine methods of reducing inappropriate variation among States in the level of payments required under subtitle A of title IX by 2002.

(2) Commission Report.—The advisory commission shall submit to the Board a report that specifies one or more methods for reducing the variation described in paragraph (1).

(3) Board Recommendations.—The Board shall submit to Congress, by not later than July 1, 1995, detailed recommendations respecting the specific method to be used to reduce the variation described in paragraph (1) by 2002 in a budget neutral manner with respect to total government payments and payments by the Federal Government. In submitting recommendations under this paragraph, the Board shall consider the fiscal capacity of the States.

(4) Congressional Consideration.—

(A) In General.—Subject to the succeeding provisions of this paragraph, the provisions of subsection (d) shall apply to recommendations under paragraph (3) in the same manner.
as they apply to recommendations under subsection (c)(3).

(B) SPECIAL RULES.—In applying subparagraph (A)—

(i) the following shall be substituted for the matter after the resolving clause described in subsection (d)(2)(B): “That Congress disapproves the recommendations of the National Health Board concerning reduction of regional variation in State payments, as submitted by the Board on ____________.”; and

(ii) the following shall be substituted for the title described in subsection (d)(2)(C): “Joint resolution disapproving recommendations of the National Health Board concerning reducing regional variation in State payments, as submitted by the Board on ____________.”.

(f) INFORMATION.—The advisory commission shall provide the Board, States, and community-rated health plans with information about regional differences in health care costs and practice patterns.
SEC. 6007. REFERENCE TO LIMITATION ON ADMINISTRATIVE AND JUDICIAL REVIEW OF CERTAIN DETERMINATIONS.

For limitation on administrative and judicial review of certain determinations under this part, see section 5232.

SEC. 6008. APPLICATION OF MARKETING AND COOPERATIVE FEES.

Cooperative fees (as described in section 1305) and health plan marketing fees (as described in section 1511(b)) shall not be incorporated into the calculation of plan and health care coverage areas’ compliance with the premium targets established in this part or in the determination of eligibility for discounts under subtitle B of this title.

Subpart B—Plan and Provider Payment Reductions to Maintain Expenditures within Targets

SEC. 6011. PLAN PAYMENT REDUCTION.

(a) PLAN PAYMENT REDUCTION.—In order to assure that premium-related payments to community-rated health plans offered in a health care coverage area are consistent with the applicable area per capita target for the health care coverage area (computed under this subtitle), payment to a noncomplying plan (as defined in subsection (b)(2)) for a year is subject to a reduction in plan
payment by the amount equal to plan payment reduction specified in subsection (c) for the year.

(b) NONCOMPLYING HEALTH CARE COVERAGE AREA AND NONCOMPLYING PLAN DEFINED.—In this part:

(1) NONCOMPLYING HEALTH CARE COVERAGE AREA.—The term “noncomplying health care coverage area” means, for a year, a health care coverage area for which the weighted average accepted bid (computed under section 6004(c)) exceeds the health care coverage area per capita premium target for the year.

(2) NONCOMPLYING PLAN.—The term “noncomplying plan” means, for a year, a community rated health plan offered in a noncomplying health care coverage area if the applicable premium rate for the year exceeds the maximum complying bid (as defined in subsection (d)) for the year. No plan shall be a noncomplying plan for a year before the first year in which the plan is offered as a community rated health plan under this Act.

(c) AMOUNT OF PLAN PAYMENT REDUCTION.—

(1) IN GENERAL.—The amount of the plan payment reduction, for a noncomplying plan offered in a health care coverage area, is the area-wide reduction percentage (as defined in paragraph (2)) of the
excess bid amount (as defined in paragraph (3)) for the plan.

(2) Area-wide Reduction Percentage.—
   (A) In General.—In paragraph (1), the term “area-wide reduction percentage” means, for a noncomplying plan offered in a health care coverage area for a year—
   (i) the amount by which—
      (I) the weighted average accepted bid (computed under section 6004(c)(1)) for the health care coverage area for the year, exceeds (II) the health care coverage area per capita target for the area for the year; divided by
      (ii) the sum, for noncomplying plans offered in the health care coverage area, of the plan proportions of area excess bid amounts (described in subparagraph (B)(i)) for the year.

   (B) Plan Proportion of Health Care Coverage Area Excess Bid Amount Described.—
   (i) In General.—The “plan proportion of area excess bid amount” described
in this clause, for a noncomplying plan, is
the product of—

(1) the excess bid amount (as de-
defined in paragraph (3)) for the plan,
and

(II) the plan enrollment propor-
tion (as defined in clause (ii)) for the
plan.

(ii) Plan enrollment proportion.—In clause (i)(II), the term “plan
enrollment proportion” means, with respect
to a health plan offered in a health care
coverage area, the total enrollment of com-
community-rate eligible individuals enrolled in
such plan expressed as a percentage of the
total enrollment of community-rate eligible
individuals in all community-rated plans
offered in the health care coverage area.
Such proportion shall be computed based
on the information used in computing the
weighted average accepted bid for the area
under section 6004(c)(1).

(3) Excess bid amount.—In this subsection,
the “excess bid amount”, with respect to a non-
complying plan for a year, is the amount by which—
(A) the accepted bid for the year (not taking into account any voluntary reduction under section 6004(e)), exceeds
(B) the maximum complying bid (as defined in subsection (d)) for the plan for the year.

(d) Community-Rated Health Plans with an Accepted Cooperative Bid Not Equal to the Final Community Rate for Such Plan.—

(1) In General.—For the purposes of this section (relating to determining plan compliance and plan payment reduction), if a community-rated health plan has more than one applicable premium rate, such health plan shall be treated as a separate health plan with respect to each applicable premium rate and the enrollment in each such health plan shall be considered to be the number of community-rated individuals enrolled in the community-rated plan at the applicable premium rate.

(2) The applicable final premium rate with respect to a community rated health plan shall be—
(A) for a community-rated plan offered through the state-designated enrollment process
(or through any other manner of enrollment
other than through a cooperative), the final community rate; or
(B) for a community rated health plan offered through a cooperative, the final cooperative rate for such cooperative.

(e) Maximum Complying Bid.—

(1) In general.—In this part for the first year and for subsequent years, the “maximum complying bid” for each community-rated health plan, is the health care coverage area per capita premium target for the area (determined under section 6003) for the year.

(2) Special rules for new plans.—

(A) In general.—Subject to subparagraph (B), in the case of a community rated health plan that is first offered in a health care coverage area in a year after the first year the maximum complying bid shall be the health care coverage area per capita premium target for the year.

(B) Authority.—The Board or a State may establish rules to modify the application of subparagraph (A) for community-rated health plans in the State in order—
(i) to prevent abusive premium practices by entities previously offering plans, or
(ii) to encourage the availability of all types of plans in the State and to permit establishment of new plans.

SEC. 6012. PROVIDER PAYMENT REDUCTION.

(a) Participating Providers.—

(1) In general.—Each community-rated health plan in the health care coverage area, as part of its contract or agreement with any participating provider or group of participating providers shall—

(A) include a provision that provides that if the plan is a noncomplying plan for a year, payments to the provider (or group) shall be reduced by the applicable network reduction percentage (described in paragraph (2)) for the year; and

(B) not include any provision which the State determines otherwise varies the payments to such providers (or group) because of, or in relation to, a plan payment reduction under section 6011 or otherwise is intended to nullify the effect of subparagraph (A).
For purposes of this section, a plan described in section 6011(d) shall be treated as a single plan with the total enrollment of such plan equal to the sum of the amounts described in section 6011(d)(1). The Board may issue regulations relating to the requirements of this paragraph.

(2) Applicable network reduction percentage.—

(A) In general.—Subject to subparagraph (B), the “applicable network reduction percentage”, with respect to participating providers of a noncomplying plan for a year equals—

(i) the plan payment reduction amount for the plan for the year (as determined under section 6011(c)), divided by

(ii) the final accepted bid for the plan for the year, adjusted under subparagraph (B).

(B) Induced volume offset.—The Board shall provide for an appropriate increase of the percentage reduction computed under subparagraph (A) to take into account any estimated increase in volume of services provided that may reasonably be anticipated as a con-
sequence of applying a reduction in payment under this subsection. The Board may compute and apply such increase differently for different classes of providers or services or different types of health plans (as the Board may define).

(b) Other Providers.—

(1) In General.—Each community rated health plan that is a noncomplying plan in a year shall provide for a reduction in the amount of payments to providers (or groups of providers) that are not participating providers under the applicable fee schedule under section 1523 by the applicable non-network reduction percentage (described in paragraph (2)) for the year.

(2) Applicable Nonnetwork Reduction Percentage.—

(A) In General.—Subject to subparagraph (B), the “applicable nonnetwork reduction percentage”, with respect to nonparticipating providers of a noncomplying plan for a year is—

(i) the plan payment reduction amount for the plan for the year (as determined under section 6011(c)), divided by
(ii) the final accepted bid for the plan
for the year, adjusted under subparagraph
(B).

(B) **INDUCED VOLUME OFFSET.**—The Board shall provide for an appropriate increase
of the percentage reduction computed under
subparagraph (A) to take into account any esti-
mated increase in volume of services provided
that may reasonably be anticipated as a con-
sequence of applying a reduction in payment
under this subsection. The Board may compute
and apply such increase differently for different
classes of providers or services or different
types of health plans (as the Board may de-
fine).

(c) **APPLICATION TO COST SHARING AND TO BAL-
ANCE BILLING RESTRICTIONS.**—For purposes of applying
section 1523 (relating to balance billing limitations) and
part 2 of subtitle B of title I (relating to computation of
cost sharing), the payment basis otherwise used for com-
puting any limitation on billing or cost sharing shall be
such payment basis as adjusted by any reductions effected
under this section.
PART 2—HEALTH EXPENDITURES OF LARGE GROUP PURCHASERS

SEC. 6021. CALCULATION OF PREMIUM EQUIVALENTS.

(a) In General.—By January 1, 1998, the Board shall develop a methodology for calculating an annual per capita expenditure equivalent for amounts paid for coverage for the comprehensive benefit package within a large group purchaser.

(b) Adjustment Permitted.—Such methodology shall permit a large group purchaser to petition the Secretary of Labor for an adjustment of the inflation adjustment that would otherwise apply to compensate for material changes in the demographic characteristics of the experience rate eligible individuals receiving coverage through plans offered in a health care coverage area.

(c) Reporting.—In 2001 and each subsequent year, each large group purchaser shall report to the Secretary of Labor, in a form and manner specified by the Secretary, the average of the annual per capita expenditure equivalent for the previous 3-year period.

SEC. 6022. SANCTIONS FOR LARGE GROUP PURCHASER FOR EXCESS INCREASE IN EXPENDITURES.

(a) Sanction.—

(1) Actions Against Large Employers.—If a large group purchaser that is a large employer has two excess years (as defined in subsection (b)) in a
3-year-period, then, effective beginning with the sec-
ond year following the second excess year in such pe-
riod, the Secretary of Labor shall take action under
section 1402.

(2) **Termination of Sponsorship for Other Large Group Purchasers.**—If a large group pur-
chaser that is not a large employer has two excess
years (as defined in subsection (b)) in a 3-year-pe-
riod, then, effective beginning with the second year
following the second excess year in such period—

(A) the Secretary of Labor shall terminate
the election of the large group purchaser under
section 1402; and

(B) an employer that was an experience-
rated employer with respect to such purchaser
shall become a community-rated employer (un-
less the employer has become an experience-
rated employer of another such large group
purchaser).

(3) **Initial 3-Year Period.**—Paragraph (1)
shall apply to the 3-year period beginning on Janu-
ary 1, 1998.

(b) **Excess Year.**—

(1) **In General.**—In subsection (a), the term
“excess year” means, for a large group purchaser, a
year (after 2000) for which the rate of increase for
the large group purchaser (specified in paragraph
(2)) for the year, exceeds the national corporate in-
flation factor (specified in paragraph (3)) for the
year.

(2) RATE OF INCREASE FOR LARGE GROUP
PURCHASER.—The rate of increase for a large group
purchaser for a year, specified in this paragraph, is
the percentage by which the average of the annual
per capita expenditure equivalent for the large group
purchaser (reported under section 6021 (c)) for the
3-year period ending with such year, exceeds the av-
erage of the annual per capita expenditure equiva-
lent for the large group purchaser (reported under
such subsection) for the 3-year period ending with
the previous year.

(3) NATIONAL CORPORATE INFLATION FACT-
OR.—The national corporate inflation factor for a
year, specified in this paragraph, is the average of
the general health care inflation factors (as defined
in section 6001(a)(3)) for each of the 3 years ending
with such year.
PART 3—TREATMENT OF SINGLE-PAYER STATES

SEC. 6031. SPECIAL RULES FOR SINGLE-PAYER STATES.

In the case of a Statewide single-payer State, for purposes of section 1222(6), the Board shall compute a Statewide per capita premium target for each year in the same manner as the health care coverage area per capita premium target is determined under section 6003.

PART 4—TRANSITION PROVISIONS

SEC. 6041. MONITORING PRICES AND EXPENDITURES.

(a) In General.—The Secretary shall establish a program to monitor prices and expenditures in the health care system in the United States.

(b) Reports.—The Secretary shall periodically report to the President on—

(1) the rate of increase in expenditures in each sector of the health care system, and

(2) how such rates compare with rate of overall increase in health care spending and rate of increase in the consumer price index.

(c) Access to Information.—

(1) In General.—The Secretary may obtain, through surveys or otherwise, information on prices and expenditures for health care services. The Secretary may compel health care providers and third party payers to disclose such information as is necessary to carry out the program under this section.
(2) Confidentiality.— Non-public information obtained under this subsection with respect to individual patients is confidential.

(d) Periodic Reports.— The Secretary shall periodically issue public reports on the matters described in subsection (b).

SEC. 6042. HEALTH CARE UTILIZATION RESEARCH PROGRAM.

To assist health plans in determining the appropriate cost of services to populations not previously covered by private health insurance, the Secretary of Health and Human Services shall conduct a program of research on the characteristics and health care utilization patterns of such populations, including Medicaid eligible individuals, unemployed individuals, and out-of-labor force individuals. Not later than 6 months after the date of enactment of this Act, such program shall be completed and a report concerning such program shall be submitted by the Secretary to health plans in such form as the Secretary determines is the most useful to such plans.

SEC. 6104. PREMIUM DISCOUNT BASED ON INCOME.

(a) IN GENERAL.—

(1) ENROLLEES IN COMMUNITY-RATED
PLANS.—Subject to paragraph (2), each family en-
rolled with a community-rated or experience-rated
plan is entitled to a premium discount under this
section, in the amount specified in subsection (b)(1)
if the family—

(A) is an AFDC or SSI family;

(B) is determined, under subtitle C of title
I, to have family adjusted income below 150
percent of the applicable poverty level; or

(C) is a family described in subsection
(c)(3) for which the family obligation amount
under subsection (c) for the year would other-
wise exceed a specified percent of family ad-
justed income described in such subsection.
(2) NO LIABILITY FOR INDIANS AND CERTAIN VETERANS AND MILITARY PERSONNEL.—

(A) IN GENERAL.—In the case of an individual described in subparagraph (B), because the applicable health plan does not impose any premium for such an individual, the individual is not eligible for any premium discount under this section.

(B) INDIVIDUALS DESCRIBED.—An individual described in this subparagraph is—

(i) an electing veteran (as defined in section 1012(d)(1)) who is enrolled under a health plan of the Department of Veterans Affairs and who, under the laws and rules as in effect as of December 31, 1994, has a service-connected disability or who is unable to defray the expenses of necessary care as determined under section 1722(a) of title 38, United States Code;

(2) Increase for community-rated families to assure enrollment in at-or-below-average-cost plan.—In the case of a family enrolled in a community-rated plan, if a State determines that a family eligible for a discount under this section is unable to enroll in an at-or-below-average-cost plan (as defined in paragraph (3)) that serves the area in which the family resides, the amount of the premium discount under this subsection is increased to the extent that such amount will permit the family to enroll in a community-rated plan without the need to pay a family share of premium under this part in excess of the sum described in paragraph (1)(B).
(3) **At-or-below-average-cost plan defined.**—In this section, the term "at-or-below-average-cost plan" means a community-rated plan the premium for which does not exceed, for the class of family enrollment involved, the weighted average premium for the community-rating area.

(c) **Family Obligation Amount.**—

(1) **Determination.**—Subject to paragraphs (2) and (3), the family obligation amount under this subsection is determined as follows:

(A) **No obligation if income below income threshold amount or if AFDC or SSI family.**—If the family adjusted income (as defined in section 1282(d)) of the family is less than the income threshold amount (specified in paragraph (4)) or if the family is an AFDC or SSI family, the family obligation amount is zero.

(B) **Income above income threshold amount.**—If such income is at least such income threshold amount and the family is not an AFDC or SSI family, the family obligation amount is the sum of the following:

(i) **For income (above income threshold amount) up to the pov-**
ERTY LEVEL.—The product of the initial marginal rate (specified in paragraph (2)) and the amount by which—

(1) the family adjusted income (not including any portion that exceeds the applicable poverty level for the class of family involved), exceeds;

(II) such income threshold amount.

(ii) GRADUATED PHASE OUT OF DISCOUNT UP TO 150 PERCENT OF POVERTY LEVEL.—The product of the final marginal rate (specified in paragraph (2)) and the amount by which the family adjusted income exceeds 100 percent (but is less than 150 percent) of the applicable poverty level.

(2) MARGINAL RATES.—In paragraph (1), for a year:

(A) INITIAL MARGINAL RATE.—The initial marginal rate is the ratio of—

(i) 3 percent of the applicable poverty level for the class of enrollment involved for the year; to

(3) Limitation to 3.9 Percent for All Families.—

(A) In General.—In no case shall the family obligation amount under this subsection for the year exceed 3.9 percent.

(B) Indexing of Percentage.—

(i) In General.—The percentage specified in subparagraph (A) shall be adjusted for any year after 1994 so that the percentage for the year bears the same ratio to the percentage so specified as the ratio of—

(I) 1 plus the general health care inflation factor (as defined in section 6001(a)(3)) for the year, bears to

(II) 1 plus the percentage specified in section 1135 (relating to indexing of dollar amounts related to cost sharing) for the year.
(ii) **Rounding.**—Any adjustment under clause (i) for a year shall be rounded to the nearest multiple of 1/10 of 1 percentage point.

(4) **Income Threshold Amount.**—

(A) **In General.**—For purposes of this subtitle, the income threshold amount specified in this paragraph is $1,000 (adjusted under subparagraph (B)).

(B) **Indexing.**—For the 1-year period beginning on January 1, 1995, the income threshold amount specified in subparagraph (A) shall be increased or decreased by the same percentage as the percentage increase or decrease by which the average CPI (described in section 1902(12)) for the 12-month-period ending with August 31 of the preceding year exceeds such average for the 12-month period ending with August 31, 1993.

(C) **Rounding.**—Any increase or decrease under subparagraph (B) for a year shall be rounded to the nearest multiple of $10.

**SEC. 6105. Excess Premium Credit.**

(a) **In General.**—If plan payment reductions are made for one or more community-rated health plans of-
fered in a health care coverage area for plan payments in a year under section 6021, all families enrolling in community-rated health plans shall receive a credit under this section, in the amount described in subsection (b), in the case of each family enrolled in a community-rated health plan offered in the health care coverage area for premiums in the year.

(b) Amount of Credit.—

(1) In general.—Subject to paragraph (2), the amount of the credit under this subsection, for a family enrolled in a class of family enrollment in a health care coverage area for a year, is the amount that would be the weighted average premium for such area, class, and year, if the per capita excess premium amount (determined under subsection (c)) for the area for the year were substituted for the weighted average discount rate for the health care coverage area for the year.

(2) Adjustment to account for use of estimates.—Subject to section 9201, if the total payments made to all community-rated health plans in a year under section 6203 exceeds (or is less than) the total of such payments estimated by the State (based on the weighted average discount rate under subsection (c)(1)), because of a difference between—
(A) the State's estimate of the distribution of enrolled families between excess premium plans and other plans, and

(B) the actual distribution of such enrolled families among such plans,

the amount of the credit under this section in the second succeeding year shall be reduced (or increased, respectively) by the amount of such excess (or deficit) in the total of such payments made to all such plans.

(c) **Per Capita Excess Premium Amount.**—The per capita excess premium amount, for a health care coverage area for a year, is the amount by which—

(1) the weighted average discount rate (as defined in section 6000(a)(2)) for the area for the year, exceeds

(2) the health care coverage area per capita premium target for the area for the year.

**SEC. 6106. LARGE GROUP PURCHASER OPT-IN CREDIT.**

(a) **In General.**—If community-rated individuals are owed a payment adjustment under section 6124 for a year, then the State shall provide for a credit under this section equal to 20 percent of the amount described in subsection (b), in the case of each family enrolled in a
community-rated plan offered in the health care coverage area.

(b) Amount of Credit.—The amount described in this subsection, for a family enrolled in a class of family enrollment for a health care coverage area for a year, is the amount that would be the weighted average premium for such area, class, and year, if the per capita large group purchaser opt-in amount (determined under subsection (c)) for the area for the year were substituted for the weighted average discount rate for the area for the year.

(c) Per Capita Large Group Purchaser Opt-in Amount.—The per capita large group purchaser opt-in amount, for a health care coverage area for a year, is—

(1) the total amount of the payment adjustments owed for the year under section 6124, divided by

(2) the estimated average number of community rate eligible individuals in the health care coverage area during the year (reduced by the average number of such individuals whose family share of premiums, determined without regard to this section and section 6107, is zero).

SEC. 6107. FAMILY COLLECTION SHORTFALL ADD-ON.

(a) In General.—The family collection shortfall add-on, for a health care coverage area for a class of en-
rollment for a year, is the amount that would be the weighted average premium for such area, class, and year, if the per capita collection shortfall amount (determined under subsection (b)) for the area for the year were substituted for the weighted average discount rate for the health care coverage area for the year.

(b) Computation of Per Capita Adjustment for Collection Shortfalls.—

(1) Per Capita Collection Shortfall Amount.—The per capita collection shortfall amount, for a health care coverage area for a year, under this subsection is equal to—

(A) the amount estimated under paragraph (2)(A) for the year, divided by

(B) the estimated average number of community rate eligible individuals in the health care coverage area during the year (reduced by the average number of such individuals whose family share of premiums, determined without regard to this section and section 6106, is zero).

(2) Aggregate Collection Shortfall.—

(A) In General.—Each State shall estimate, for each year (beginning with the first year) the total amount of payments which the
State can reasonably identify as owed to community-rated health plans under this Act (taking into account any premium reduction or discount under this subtitle and including amounts owed under subpart B and not taking into account any penalties) for the year and not likely to be collected (after making collection efforts described in section 6209) during a period specified by the Secretary beginning on the first day of the year.

(B) Exclusion of government debts.—The amount under subparagraph (A) shall not include any payments owed to a community-rated health plan by the Federal, State, or local governments.

(C) Adjustment for previous short-fall estimation discrepancy.—Subject to section 9201, the amount estimated under this paragraph for a year shall be adjusted to reflect over (or under) estimations in the amounts so computed under this paragraph for previous years (based on actual collections), taking into account interest payable based upon borrowings (or savings) attributable to such over or under estimations.
(c) Apportionment of Adjustment.—The Board shall implement a method for the distribution of the aggregate collection shortfall amount for each health care coverage area (as described in (b)(2)) across premiums in the area. Such method shall reflect a blend of each plan’s share of the area’s aggregate shortfall and the unadjusted per-capita collection shortfall amount.

SEC. 6108. NO LOSS OF COVERAGE.

In no case shall the failure to pay amounts owed under this Act result in an individual’s or family’s loss of coverage.

SEC. 6109. APPLICATION OF ADJUSTMENTS.

Per-capita adjustments described in sections 6105, 6106, 6107 and 6125 shall be converted into adjustments applicable to each class of premium under a methodology to be established by the Board.

(a) IN GENERAL.—The amount of any liability under section 6110 shall be reduced, in accordance with rules established by the National Health Board consistent with this section, based on employer premiums payable under section 6121 with respect to the employment of a family member who is a qualifying employee or with respect to a family member. In no case shall the reduction under this section result in any payment owing to a family.

(b) CREDIT FOR FULL-TIME AND PART-TIME EMPLOYMENT.—

(1) IN GENERAL.—Under rules of the Board, in the case of a family enrolled under a class of family enrollment, if a family member is a qualifying employee for a month and (except in the case described
in section 6114(a)) the employer is liable for payment under section 6121 based on such employment—

(A) **FULL-TIME EMPLOYMENT CREDIT.**—If the employment is on a full-time basis (as defined in section 1901(b)(2)(A)) the liability under section 6110 shall be reduced by the credit amount described in subparagraph (C).

(B) **PART-TIME EMPLOYMENT CREDIT.**—If the employment is on a part-time basis (as defined in section 1901(b)(2)(A)) the liability under section 6110 shall be reduced by the employment ratio (as defined in section 1901(b)(2)(B)) of the credit amount described in subparagraph (C).

(C) **FULL-TIME MONTHLY CREDIT.**—The amount of the credit under this subparagraph, with respect to employment by an employer in a month, is \( \frac{\text{\(\%\)}}{12} \) (or, if applicable, the fraction described in paragraph (2)) of the amount owed under section 6110, based on the class of enrollment, for the year.

(2) **COVERAGE DURING ONLY PART OF A YEAR.**—In the case of a family that is not enrolled in a community-rated health plan for all the months
in a year, the fraction described in this paragraph is 1 divided by the number of months in the year in which the family was enrolled in such a plan.

(3) Aggregation of Credits.—For purposes of paragraph (1)—

(A) Individuals.—In the case of an individual who is a qualifying employee of more than one employer in a month, the credit for the month shall equal the sum of the credits earned with respect to employment by each employer. Such sum may exceed the credit amount described in paragraph (1)(C).

(B) Couples.—In the case of a couple each spouse of which is a qualifying employee in a month, the credit for the month shall equal the sum of the credits earned with respect to employment by each spouse. Such sum may exceed the credit amount described in paragraph (1)(C).

(c) Treatment of Change of Enrollment Status.—In the case of a family for which the class of family enrollment changes during a year, the Board shall establish rules for appropriate conversion and allocation of the credit amounts under the previous provisions of this section in a manner that reflects the relative values of the
base employment monthly premiums (as determined under section 6122) among the different classes of family enrollment.

SEC. 6112. LIMITATION OF LIABILITY BASED ON INCOME.

(a) In General.—In the case of an eligible family described in subsection (b), the repayment amount required under this subpart (after taking into account any work credit earned under section 6111) with respect to a year shall not exceed the amount of liability described in subsection (c) for the year.

(i) FOUR PERCENT OF INCOME (ABOVE INCOME THRESHOLD AMOUNT) UP TO THE POVERTY LEVEL.—The initial marginal rate (specified in paragraph (2)(A)) of the amount by which—

(I) the wage-adjusted income (not including any portion that exceeds the applicable poverty level for the class of family involved), exceeds

(II) such income threshold amount.

(ii) 200 percent of such poverty level.

(3) Second marginal rate.—

(A) In general.—If, for a class of enrollment for a health care coverage area in a State, the second marginal rate exceeds the final marginal rate, the State may adjust such marginal rates as provided in subparagraph (B).

(B) Same rate applicable.—Under an adjustment made by a State under subparagraph (A), the second marginal rate and the final marginal rate shall be the same and shall be the ratio of—

(i) the amount by which (I) the amount of the repayment amount described in section 6111(a) exceeds (II) 4 percent of the applicable poverty level (for the class and year); to

(C) APPLICATION OF OTHER FACTORS .Ð
In the case of a change in premium rates related to a reason described in subparagraph (B), (C), or (D) of paragraph (1), the change in premium rates with respect to each health insurance plan in each sector shall reflect the rate factors specified under paragraph (3) applicable to the reason as applied to the current premium charged for the health insurance plan. Such rate factors shall be applied in a manner so that the resulting adjustment, to the extent possible, reflects the premium that would have been charged under the plan if the reason for the change in premium had existed at the time that the current premium rate was calculated.

In applying the rate factors under this subparagraph, the adjustment shall not reflect any change in the health status, claims experience or duration of coverage with respect to any employer or individual covered under the plan.
(5) LIMITATION ON APPLICATION. This subsection shall only apply—

(A) to changes in premiums occurring on or after the date of the enactment of this Act to groups and individuals covered as of such date, and

(B) SPECIAL RULE FOR LARGE GROUP SECTOR.ÐThe annual percentage increase in premiums by a health insurer for health insurance plans in the large group sector may vary among such plans based on the claims experience of an employer (to the extent the experience is credible), so long as the weighted average of such increases for all such plans in the sector complies with the requirement of subparagraph (A).

(C) GEOGRAPHIC APPLICATION.ÐSubparagraphs (A) and (B) Ð

(i) may be applied on a national level, or

(ii) may vary based on geographic area, but only if (I) such areas are sufficiently large to provide credible data on which to calculate the variation and (II) the variation is due to reasonable factors related to the objective differences among
such areas in costs and utilization of health services. Exception to Accommodate State Rate Reform Efforts. Subparagraphs (A) and (B) shall not apply, in accordance with guidelines of the Secretary, to the extent necessary to permit a State to narrow the variations in premiums among health insurance plans offered by health insurers to similarly situated groups or individuals within a sector.

Such guidelines may be based on the guidelines currently used by States in applying rate limitations under State insurance regulations.

(g) Effective Period. This section shall apply to premium increases occurring during the period beginning on the date of the enactment of this Act and ending, for a health insurance plan provided in a State, on the first day of the State’s first year.
