TITLE I—HEALTH CARE ACCESS, PORTABILITY, AND RENEWABILITY

Subtitle A—Group Health Plan Rules

SEC. 101. GUARANTEED AVAILABILITY OF HEALTH COVERAGE.

(a) In General.—
(1) **GROUP HEALTH PLANS.**—Except as provided in subsection (b) and section 103—

(A) an insurer may not decline to provide whole group coverage to employers; and

(B) a group health plan (whether an insured health plan or self-insured health plan) may not establish eligibility, continuation, enrollment, or contribution requirements for participants or beneficiaries; based on health status, medical condition, claims experience, receipt of health care, medical history, evidence of insurability, or disability of a participant or beneficiary.

(3) **HEALTH PROMOTION OR DISEASE PREVENTION.**—Nothing in this subsection shall prevent a group health plan from establishing discounts for participation in programs of health promotion or disease prevention.

(b) **APPLICATION OF CAPACITY LIMITS.**—

(1) **IN GENERAL.**—Subject to paragraph (2), an insurer offering coverage in connection with a group health plan may cease enrolling employers under the plan if—

(A) the insurer ceases to enroll any new employers, participants and beneficiaries; and
(B) the insurer can demonstrate to the applicable certifying authority (as defined in section 202(d)), if required, that its financial or provider capacity to serve previously covered participants and beneficiaries (and additional participants and beneficiaries who will be expected to enroll because of their affiliation with the group health plan or such previously covered participants or beneficiaries) will be impaired if the insurer is required to enroll additional employers, participants and beneficiaries. Such an insurer shall be prohibited from recommencing enrollment after a cessation in enrollment under this paragraph for a 6-month period after such cessation or until the insurer can demonstrate to the applicable certifying authority (as defined in section 202(d)) that the insurer has adequate capacity, whichever is later.

(2) FIRST-COME-FIRST-SERVED.—An insurer offering coverage in connection with a group health plan is only eligible to exercise the limitations provided for in paragraph (1) if the insurer provides for enrollment of employers (including participants and beneficiaries) under such plan on a first-come-first-served basis (except in the case of additional employ-
ers, participants and beneficiaries described in para-
graph (1)(B)).

(c) CONSTRUCTION.—Nothing in this section shall be
construed to prevent a State from requiring insurers offer-
ing group health plans to actively market such plans.

SEC. 102. GUARANTEED RENEWABILITY OF HEALTH COV-
ERAGE.

(a) IN GENERAL.—

(1) PLAN SPONSOR.—Subject to subsections (b)
and (c), a group health plan that is an insured
health plan shall be renewed or continued in force at
the option of the plan sponsor, except that the re-
quirement of this subparagraph shall not apply in
the case of—

(A) the nonpayment of premiums or con-
tributions by the plan sponsor in accordance
with the terms of the plan or where the insurer
has not received timely premium payments;

(B) fraud or misrepresentation of material
fact on the part of the plan sponsor;

(C) the termination of the plan in accord-
ance with subsection (b); or

(D) the failure of the plan sponsor to meet
contribution or participation requirements in
accordance with paragraph (3).
(2) Participant.—Subject to subsections (b) and (c), coverage under a group health plan (whether an insured health plan or a self-insured health plan) shall be renewed or continued in force, if the plan sponsor elects to continue to provide coverage under such plan, at the option of the participant or beneficiary, except that the requirement of this paragraph shall not apply in the case of—

(A) the nonpayment of premiums or contributions by the participant or beneficiary in accordance with the terms of the plan or where the plan has not received timely premium payments;

(3) Contribution and participation rules.—Nothing in this subsection shall be con-
strued to preclude an insurer from establishing em-
ployer contribution rules or group participation rules
for plan sponsors in connection with an insured
group health plan consistent with applicable State
law.

(b) **Termination of Health Plans.—**

(1) **Health Plan Not Offered.**—In any case
in which an insurer is no longer going to continue
to offer a group health plan to plan sponsors, par-
ticipants or beneficiaries, the plan may be discon-
tinued by the insurer if—

(A) the insurer provides notice to each
plan sponsor (and participants and beneficiaries
covered under the group health plan) of such
termination at least 90 days prior to the date
of the expiration of such plan;

(B) the insurer offers to each plan spon-
sor, the option to purchase any other group
health plan currently being offered; and

(C) in exercising the option to discontinue
the group health plan and in offering one or
more replacement plans, the insurer acts uni-
formly without regard to the health status or
insurability of participants or beneficiaries, or
new participants or beneficiaries.
(2) Insurer Not Offering Plan.—

(A) In General.—In any case in which an insurer is no longer offering any group health plan in a State, the plan may be discontinued by the insurer if—

(i) the insurer provides notice to the applicable certifying authority (as defined in section 202(d)) and to each plan sponsor (and participants and beneficiaries covered under such plan) of such termination at least 180 days prior to the date of the expiration of the plan; and

(ii) all such plans issued or delivered for issuance in the State are discontinued and coverage under such plans is nonrenewed.

(B) Application of Provisions.—The provisions of this paragraph and paragraph (3) may be applied separately by an insurer—

(i) to all group health plans of small employers (as defined under applicable State law, or employers with not more than 50 employees if such term is not defined in State law) covering participants or participants and beneficiaries; or
(ii) to all other group health plans offered by the insurer in the State.

(3) Prohibition on market reentry.—In the case of a termination under paragraph (2), the insurer may not provide for the issuance of any insured group health plan that was terminated in the State involved during the 5-year period beginning on the date of the termination of the last plan not so renewed.

(c) Treatment of Network Plans.—

(1) Geographic limitations.—A group health plan which is a network plan (as defined in paragraph (2)) or a health maintenance organization plan may deny continued participation under the plan to participants or beneficiaries who neither live, reside, nor work in an area in which the group health plan is offered, but only if such denial is applied uniformly, without regard to health status or the insurability of particular participants or beneficiaries.

(2) Network plan.—As used in paragraph (1), the term “network plan” means a health plan that arranges for the financing and delivery of health care services to participants or beneficiaries covered under such health plan, in whole or in part,
through arrangements with providers to furnish health care services.

SEC. 103. PORTABILITY OF HEALTH COVERAGE AND LIMITATION ON PREEXISTING CONDITION EXCLUSIONS.

(a) IN GENERAL.—A group health plan (whether an insured health plan or a self-insured health plan) may impose a limitation or exclusion of benefits relating to treatment of a preexisting condition based on the fact that the condition existed prior to the effective date of the plan with respect to a participant or beneficiary only if—

(1) the limitation or exclusion extends for a period of not more than 12 months after the date of enrollment in the health plan;

(2) the limitation or exclusion does not apply to an individual who, within 30 days of the date of birth, was covered under the plan; and

(3) the limitation or exclusion does not apply to a pregnancy existing on the effective date of coverage.

(b) CREDITING OF QUALIFYING PREVIOUS COVERAGE.—

(1) IN GENERAL.—A group health plan (whether an insured health plan or a self-insured health plan) shall provide that if a participant or bene-
ficiary is in a period of previous qualifying coverage as of the date of enrollment under such plan, any period of exclusion or limitation of coverage with respect to a preexisting condition shall be reduced by 1 month for each month in which the participant or beneficiary was in the period of qualifying previous coverage.

(2) **Discharge of Duty.**—The duty of an insurer or plan sponsor to verify previous qualifying coverage with respect to a participant or beneficiary is effectively discharged when such insurer or plan sponsor provides documentation to a participant or beneficiary at the time such participant or beneficiary becomes ineligible for coverage under the group health plan verifying—

(A) the dates that the participant or beneficiary was covered under such previous qualifying coverage; and

(B) the benefits and cost-sharing arrangement available to the participant or beneficiary under such previous qualifying coverage.

(3) **Definition.**—The term “previous qualifying coverage” means the period beginning on the date a participant or beneficiary is enrolled under a health plan and ends on the date the participant or
beneficiary is not so enrolled for a continuous period of more than 30 days (without regard to any waiting period).

(4) Construction.—Nothing in this subsection shall be construed to prohibit a preexisting condition exclusion, subject to the limits in subsection (a)(1), for a service or benefit related to a preexisting condition if such service or benefit was not previously covered under the health plan in which the individual was enrolled immediately prior to enrollment in the plan involved.

(c) Late Enrollees.—With respect to a participant or beneficiary enrolling in a group health plan (whether an insured health plan or a self-insured health plan) during a time that is other than the first opportunity to enroll during an enrollment period of at least 30 days, the plan may exclude coverage with respect to services related to the treatment of a preexisting condition in accordance with subsections (a) and (b), except the period of such exclusion may not exceed 18 months beginning on the date of coverage under the plan.

(d) Waiting Periods.—With respect to participants or beneficiaries who have become eligible to enroll in a group health plan (whether an insured health plan or a self-insured health plan), if such plan does not utilize a
preexisting condition exclusion, such plan may impose a waiting period on such participants or beneficiaries not to exceed 60 days (or in the case of a late participant or beneficiary described in subsection (c), 90 days) prior to the date on which coverage under the plan becomes effective. A group health plan may also use alternative methods to address adverse selection as approved by the applicable certifying authority (as defined in section 202(d)). During such a waiting period, the plan may not be required to provide health care services or benefits and no premium shall be charged to the participants or beneficiaries.

(e) Preexisting Condition.—For purposes of this section, the term "preexisting condition" means a condition for which medical advice, diagnosis, care, or treatment was recommended or received within the 6-month period ending on the day before the effective date of the coverage (without regard to any waiting period).

(f) State Flexibility.—Nothing in this Act shall be construed to preempt State laws that limit the exclusions or limitations for preexisting conditions to periods that are shorter than those provided for under this section so long as such laws are not in violation of section 514 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1144).
SEC. 104. SPECIAL ENROLLMENT PERIODS.

In the case of a participant, beneficiary or family member who—

(1) through marriage, separation, divorce, death, birth or adoption of a child, experiences a change in family composition affecting health insurance coverage;

(2) experiences a change in employment status (including a significant change in the terms and conditions of employment) or in continuation coverage; or

(3) experiences a loss of health insurance coverage because of a change in the employment status of a family member;

each group health plan (whether insured or self-insured) shall provide for a special enrollment period at the time of such event which would permit the participant, beneficiary or family member to change the individual or family basis of coverage or to enroll in the plan if coverage would have been available to such individual but for failure to enroll during a previous enrollment period. Such a special enrollment period shall ensure that a child born or adopted shall be deemed to be covered under the plan as of the date of such birth or adoption if such child is enrolled within 30 days of the date of such birth or adoption.
SEC. 105. DISCLOSURE OF INFORMATION.

(a) In General.—In connection with the offering for sale of any group health plan to a small employer (as defined under applicable State law, or employers with not more than 50 employees if such term is not defined in State law), an insurer shall make a reasonable disclosure to the employer, as part of its solicitation and sales materials, of—

(1) the provisions of the group health plan concerning the insurer’s right to change premium rates and the factors that affect changes in premium rates;

(2) the provisions of such plan relating to renewability of policies and contracts;

(3) the provisions of such plan relating to any preexisting condition provision; and

(4) descriptive information about the benefits and premiums available under all group health plans for which the employer is qualified.

Information shall be provided under this subsection in a manner determined to be understandable by the average small employer or plan sponsor, and shall be sufficiently accurate and comprehensive to reasonably inform employers, participants and beneficiaries of their rights and obligations under the plan.
(b) EXCEPTION.— With respect to the requirement of subsection (a), any information that is proprietary and trade secret information under applicable law shall not be subject to the disclosure requirements of such subsection.

(c) CONSTRUCTION.— Nothing in this section shall be construed to preempt State reporting and disclosure requirements or reporting and disclosure requirements under the Employee Retirement Income Security Act of 1974.

(a) LIMITATION ON REQUIREMENTS.—

(1) IN GENERAL.— With respect to an individual desiring to enroll in an individual health plan, if such individual is in a period of previous qualifying coverage (as defined in section 103(b)(3)) under a group health plan that commenced 12 or more months prior to the date on which such individual desires to enroll in such a plan, an insurer described in paragraph (3) may not establish eligibility, continuation, or enrollment requirements based on the health status, medical condition, claims experience, receipt of health care, medical history, evidence of insurability, or disability of the individual.

(3) **Insurer.**—An insurer described in this paragraph is an insurer that issues or renews any type or form of health plan to individuals.

(4) **Premiums.**—Nothing in this subsection shall be construed to affect the determination of an insurer as to the amount of the premium payable under a health plan issued to individuals under applicable State law.

(b) **Eligibility for Other Group Coverage.**—The provisions of subsection (a) shall not apply to an individual who is eligible for coverage under a group health plan, or who has had coverage terminated under a group health plan for failure to make required premium payments or contributions, or for fraud or misrepresentation of material fact, or who is otherwise eligible for continuation coverage as described in section 602 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1162).

nation at least 90 days prior to the date of the expiration of the plan;

(B) the insurer offers to each individual covered under the plan the option to purchase any other health plan currently being offered to individuals; and

(2) INSURER NOT OFFERING PLAN.—In any case in which an insurer is no longer offering any individual health plan in a State, the plan may be discontinued by the insurer if—

(A) the insurer provides notice to the applicable certifying authority (as defined in section 202(d)) and to each individual covered under the plan of such termination at least 180 days prior to the date of the expiration of the plan; and

(B) all such plans issued or delivered for issuance in the State are discontinued and coverage under such plans is nonrenewed.
(3) Prohibition on market reentry.—In the case of a termination under paragraph (2), the insurer may not provide for the issuance of any individual health plan in the State involved during the 5-year period beginning on the date of the termination of the last plan not so renewed.

(c) Treatment of network plans.—

(1) Geographic limitations.—An individual health plan which is a network plan (as defined in paragraph (2)) or a health maintenance organization plan may deny continued participation under the plan to individuals who neither live, reside, nor work in an area in which the individual health plan is offered, but only if such denial is applied uniformly, without regard to health status or the insurability of particular individuals.

(2) Network plan.—As used in paragraph (1), the term “network plan” means a health plan that arranges for the financing and delivery of health care services to individuals covered under such health plan, in whole or in part, through arrangements with providers to furnish health care services.

to individuals purchasing coverage on a non-group basis;

(2) the need for Federal standards that limit the variation in health insurance premiums charged to individuals and groups of different characteristics in order to achieve the purposes of this Act; and

Subtitle D—Private Health Plan Purchasing Coalitions

SEC. 131. PRIVATE HEALTH PLAN PURCHASING COALITIONS.

(a) **Definition.**—As used in this Act, the term “health plan purchasing coalition” means a group of individuals or employers that, on a voluntary basis and in accordance with this section, form an entity for the purpose of purchasing insured health plans or negotiating with insured health plans and providers. An insurer, agent, broker or any other individual or entity engaged in the sale of insurance may not form or underwrite a coalition.

(b) **Certification.**—

(1) **In general.**—A State shall certify health plan purchasing coalitions that meet the requirements of this section. Each coalition shall be chartered under State law and registered with the Secretary.

(2) **State refusal to certify.**—If a State fails to implement a program for certifying health plan purchasing coalitions in accordance with the standards under this Act, the Secretary shall certify and oversee the operations of such coalitions in such State.
(3) **Multi-state coalitions.**—For purposes of this section, a health plan purchasing coalition operating in more than one State shall be certified by the State in which the coalition is domiciled, pursuant to an agreement between the States in which the coalition conducts business.

(d) **Board of Directors.**—

(1) **In general.**—Each health plan purchasing coalition shall be governed by a Board of Directors that shall be responsible for ensuring the performance of the duties of the coalition under this section. The Board shall be composed of a broad cross-section of representatives of employers, employees, and individuals participating in the coalition. An insurer, agent, broker or any other individual or entity engaged in the sale of insurance may not hold or control any right to vote with respect to a coalition.

(2) **Limitation on compensation.**—A health plan purchasing coalition may not provide compensation to members of the Board of Directors. The coalition may provide reimbursements to such members for the reasonable and necessary expenses incurred by the members in the performance of their duties as members of the Board.
(3) **Conflict of Interest.**—No member of
the Board of Directors (or family members of such
members) nor any management personnel of the coa-
losion may be employed by, be a consultant for, be
a member of the board of directors of, be affiliated
with an agent of, or otherwise be a representative of
any health plan or other insurer, health care pro-
vider, or agent or broker. Nothing in the preceding
sentence shall limit a member of the Board from
purchasing coverage from a health plan offered
through the coalition.

(e) **Membership and Marketing Area.**—

(1) **Membership.**—

(A) **In General.**—A health plan purchas-
ing coalition may establish limits on the size of
employers who may become members of the co-
alition, and may determine whether to permit
individuals to become members. Upon the es-
establishment of such membership requirements,
the coalition shall, except as provided in sub-
paragraph (B), accept all employers (or individ-
uals) residing within the area served by the coa-
lition who meet such requirements as members
on a first come, first-served basis.
(B) **Capacity Limits.**—A health plan purchasing coalition may cease accepting employers or individuals as members of the coalition if—

(i) the coalition ceases to permit any new employers or individuals to become members; and

(ii) the coalition can demonstrate to the State (or the Secretary in the case of coalitions certified by the Secretary) that the financial or other capacity of the coalition to serve current members will be impaired if the coalition is required to accept other members.

(2) **Marketing Area.**—A State may establish rules regarding the geographic area that must be served by a health plan purchasing coalition. With respect to a State that has not established such rules, a health plan purchasing coalition operating in the State shall define the boundaries of the area to be served by the coalition, except that such boundaries may not be established on the basis of health status or insurability.

(f) **Duties and Responsibilities.**—

(1) **In General.**—A health plan purchasing coalition shall—
(A) enter into agreements with insured health plans;

(B) enter into agreements with employers and individuals who become members of the coalition;

(C) participate in any program of risk-adjustment or reinsurance, or any similar program, that is established by the State;

(D) contract and negotiate with health care providers and health plans;

(E) prepare and disseminate comparative health plan materials (including information about cost, quality, benefits, and other information concerning health plans offered through the coalition);

(F) actively market to all eligible employers and individuals residing within the service area; and

(G) act as an ombudsman for health plan enrollees.

(2) PERMISSIBLE ACTIVITIES.—A health plan purchasing coalition may perform such other functions as necessary to further the purposes of this Act, including—
(A) the collection and distribution of premiums and the performance of other administrative functions;

(B) the collection and analysis of surveys of health plan enrollee satisfaction;

(C) the charging of membership fee to enrollees (such fees may not be based on health status) and the charging of participation fees to health plans; and

(D) cooperating with (or accepting as members) employers who self-insure for the purpose of negotiating with providers.

(g) LIMITATIONS ON COALITION ACTIVITIES.—A health plan purchasing coalition shall not—

(1) perform any activity relating to the licensing of health plans;

(2) assume financial risk in relating to any health plan;

(3) perform any other activities that conflict or are inconsistent with the performance of its duties under this Act; or

(4) establish eligibility, continuation, enrollment, or contribution requirements for employees or employers and individuals based on the health status, medical condition, claims experience, receipt of
health care, medical history, evidence of insurability, or disability of any individual.

(h) **Limited Preemption of Certain State Laws.**—

(1) **In General.**—With respect to a health plan purchasing coalition that meets the requirements of this section, the following State laws shall be preempted:

(A) State fictitious group laws.

(B) State rating requirement laws, except to the extent necessary to comply with the requirements of paragraph (2).

(C) Other State laws that directly conflict with the requirements in this section.

(2) **Rating Requirement Laws.**—With respect to a State rating requirement law, the coalition—

(A) may not permit premium rates to vary among employers or individuals that are members of a health plan purchasing coalition in excess of the amount of such variations that would be permitted under such State rating laws among employers that are not members of the coalition; and
(B) with respect to premium rates negotiated by the coalition, may permit such rates to be less than rates that would otherwise be permitted under State law if such rating differential is not based on differences in health status or demographic factors.

(i) Rules of Construction.—Nothing in this section shall be construed to—

(1) require that a State organize, operate, or otherwise create health care purchasing coalitions;

(2) otherwise require the establishment of health care purchasing coalitions;

(3) require individuals or employers to purchase health plans through a health plan purchasing coalition;

(4) require that a health plan purchasing coalition be the only type of health insurance purchasing arrangement permitted to operate in a State; or
