SEC. 2. FINDINGS.

(a) General Findings.—Congress makes the following findings:

(1) The Food and Drug Administration and other public health authorities view the use of tobacco products by the nation’s children as a “pediatric disease” of epic and worsening proportions that results in new generations of tobacco-dependent children and adults.

(2) There is a consensus within the scientific and medical communities that tobacco products are inherently dangerous and cause cancer, heart disease, and other serious adverse health effects.

(3) The Food and Drug Administration and other health authorities have concluded that virtually all new users of tobacco products are under the age of 18. Virtually all Federal, State, and local officials and entities believe that tobacco advertising and marketing contribute significantly to the use of nicotine-containing tobacco products by adolescents and as such, sweeping new restriction on the sale, promotion, and distribution of such products are needed.

(4) Federal, State, and local governments lack many of the legal means and resources needed to ad-
dress the societal problems caused by the use of tobacco products.

(5) Public health authorities believe that the societal benefits of enacting tobacco settlement legislation in human and economic terms would be vast. The Food and Drug Administration found that reducing underage tobacco use 50 percent “would prevent well over 60,000 early deaths”. The Food and Drug Administration has estimated that the monetary value of the regulations promulgated as a result of this Act will be worth up to $43,000,000,000 per year in reduced medical costs, improved productivity, and the benefit of avoiding the premature death of loved ones.

(6) The unique position occupied by tobacco in the history and economy of the United States, the magnitude of the actual and potential tobacco-related litigation, the need to avoid the cost, expense, uncertainty, and inconsistency associated with such protracted litigation, the need to limit the sale, distribution, marketing, and advertising of tobacco products to persons of legal age, and the need to educate the public (especially young people) of the health effects of using tobacco products all dictate
that it would be in the public interest to enact legis-
lation to facilitate a resolution of such matters.

(b) Findings Related to Interstate Commerce

and the Judicial System.—Congress makes the follow-
ing findings:

(1) The sale, distribution, marketing, advertis-
ing, and use of tobacco products are activities sub-
stantially affecting interstate commerce. Such prod-
ucts are sold, marketed, advertised, and distributed
in interstate commerce on a nationwide basis and
have a substantial effect on the economy of the
United States.

(2) The sale, distribution, marketing, advertis-
ing, and use of tobacco products are activities that
substantially affect interstate commerce by virtue of
the health care and other costs that Federal and
State governmental authorities have incurred be-
cause of the usage of tobacco products.

(3) Various civil actions brought by State attor-
neys general, cities, counties, the Commonwealth of
Puerto Rico, third-party payors, and other private
classes and individuals to recover damages relating
to tobacco-related diseases, conditions and products
are pending throughout the United States, of these
actions are slow-moving, expensive, and burdensome
not only for the litigants but also for Federal and
State judicial systems.

SEC. 3. PURPOSES.

It is the purpose of this Act to—

(1) reiterate and enhance the authority of the
Food and Drug Administration to regulate tobacco
products and provide for tobacco industry funding of
the oversight activities of the Administration;

(2) ban all outdoor tobacco advertising and ban
all cartoon characters and human figures used in
connection with tobacco advertising;

(3) provide for the funding by the tobacco in-
dustry of an aggressive Federal enforcement pro-
gram relating to tobacco advertising and distribu-
tion, including a State-administered retail licensing
system to prevent minors from obtaining tobacco
products;

(4) subject the tobacco industry to severe finan-
cial penalties in the event that underage tobacco
usage does not decline radically over the next 10
years;

(5) provide for the establishment of national
standards to control the manufacturing of tobacco
products and the ingredients used in such products;
(6) provide certain regulatory powers to the Food and Drug Administration to encourage the development and marketing by the tobacco industry of “less hazardous tobacco products”, including the power to regulate the level of nicotine in such products;

(7) require the manufacturers of tobacco products to disclose all present and future non-public internal laboratory research regarding tobacco products;

(8) establish a minimum Federal standard to limit smoking in public places;

(9) provide for the establishment of a National Tobacco Settlement Trust Fund to be funded by the tobacco industry and used in accordance with this Act;

(10) provide for the establishment of a national education-oriented counter advertising and tobacco control campaign to be funded through the National Tobacco Settlement Trust Fund;

(11) provide annual payments to States to fund health benefits programs and to create a tobacco products liability judgments and settlements fund to be funded through the National Tobacco Settlement Trust Fund; and
(12) provide for the establishment of a national
program of smoking cessation to be funded through
the National Tobacco Settlement Trust Fund.

“SEC. 907. REQUIREMENTS RELATING TO NICOTINE AND OTHER CONSTITUENTS.

“(a) GENERAL RULE.—Except as provided in subsection (d), the Secretary, based on a finding under subsection (b), may adopt a performance standard under section 905 that requires the modification of a tobacco product in a manner that involves—

“(b) REQUIRED FINDING.—

“(1) IN GENERAL.—A modification described in
subsection (a) shall not be adopted unless the Sec-

“(A) will result in a significant reduction
in the health risks associated with the use of
the tobacco product involved;

“(B) is technologically feasible; and

“(C) will not result in the creation of a sig-
nificant demand for contraband products or
other tobacco products that do not meet the
performance standard that requires the modi-

of paragraph (1)(C), the Secretary, in determining
whether a significant demand for contraband prod-

“(c) LIMITATION.—Effective on the date that is 3 years after the date of enactment of the Universal Tobacco Settlement Act, and notwithstanding any performance standard established under this chapter, no cigarette or tobacco product shall be sold or otherwise distributed in the United States that exceeds a 12 milligram tar yield, as determined using the testing methodology used by the Federal Trade Commission on such date of enactment.

“(d) 12-YEAR PROHIBITION.—During the 12-year period beginning on the date of enactment of the Universal Tobacco Settlement Act, the Secretary shall not adopt any

“(C) will not result in the creation of a significant demand for contraband products or other tobacco products that do not meet the performance standard.
“(3) Health Benefits.—In making a determination with respect to health risks under paragraph (2)(A), the Secretary shall consider—

“(A) the number of dependent tobacco users residing in the United States on the date on which the proposed performance standard is being considered;

“SEC. 908. REDUCED RISK PRODUCTS.

“(a) MISBRANDING.—Except as provided in sub-
section (b), the regulations promulgated in accordance with section 904(a) shall require that a tobacco product be deemed to be misbranded if the labeling of the package of the product, or the claims of the manufacturer in con-

product presents a reduced health risk as compared to other similar products.

“(b) EXCEPTION.—

“(1) IN GENERAL.—Subsection (a) shall not apply to the labeling of a tobacco product, or the claims of the manufacturer in connection with the product, if—

“(B) the Commissioner approves the specific claim that will be made a part of the labeling of the product, or the specific claims of the manufacturer in connection with the product.

“(2) REDUCTION IN HARM.—The Commissioner shall promulgate regulations to permit the inclusion of scientifically-based specific health claims on the labeling of a tobacco product package, or the making of such claims by the manufacturer in connection with the product, where the Commissioner determines that the inclusion or making of such claims would reduce harm to consumers and otherwise promote public health.
“(c) Development of Reduced Risk Product Technology.—

“(A) In General.—With respect to any technology developed or acquired under paragraph (1), the manufacturer shall permit the use of such technology by other manufacturers of tobacco products to which this chapter applies.

“(B) Fees.—The Commissioner shall promulgate regulations to provide for the payment of a commercially reasonable fee by each manu-

made available to consumers.

“(2) Determination.—Upon a determination
by the Commissioner that the manufacture of a to-

users is technologically feasible, the Commissioner
may, in accordance with this subsection, require that
certain manufacturers of such products manufacture
and market such less hazardous products.

“(3) Manufacturer.—

“(A) Requirement.—Except as provided
in subparagraph (B), the requirement under
paragraph (2) shall apply to any manufacturer

“(i) the manufacturer elects not to manufacture such products and provides notice to the Commissioner of such election; and

“(ii) the manufacturer agrees to provide the technology involved, for a commercially reasonable fee, to other manufacturers that enter into agreements to use such technology to manufacture and market tobacco products that are less hazardous to the health of users.

“(4) ACTION BY PUBLIC HEALTH SERVICE.—If no manufacturer elects or agrees to manufacture and market tobacco products that are less hazardous to the health of users through the use of technology available pursuant to this subsection within a reasonable period of time, as determined appropriate by the Commissioner, the Commissioner, in consultation with the Secretary and acting through the Public
Health Service, shall, either directly or through grants or contracts, provide for the manufacture and marketing of such products.

“SEC. 909. GOOD MANUFACTURING PRACTICE STANDARDS.

“(1) In general.—The Secretary may, in accordance with paragraph (2), prescribe regulations requiring that the methods used in, and the facilities and controls used for, the manufacture, pre-production design validation (including a process to assess the performance of a tobacco product), packing, and storage of a tobacco product conform to current good manufacturing practice, as prescribed in such regulations, to ensure that such products will be in compliance with this chapter.

“(2) Requirements prior to regulations.—Prior to the Secretary promulgating any regulation under paragraph (1) the Secretary shall—

“(A) afford the Scientific Advisory Committee established under section 906 an opportunity (with a reasonable time period) to submit recommendations with respect to the regulations proposed to be promulgated; and

“(B) in the case of a petition for a variance from a requirement, set forth the methods proposed to be used in, and the facilities and controls proposed to be used for, the manufacture, packing, and storage of the product in lieu of the methods, facilities, and controls prescribed by the requirement; and

“(C) contain such other information as the Secretary shall prescribe.

“(2) SCIENTIFIC ADVISORY COMMITTEE.—The Secretary may refer to the Scientific Advisory Committee established under section 906 any petition
submitted under paragraph (1). The Scientific Advisory Committee shall report its recommendations to the Secretary with respect to a petition referred to it within 60 days of the date of the petition’s referral. Within 60 days after—

“(ii) a petition for a variance for a tobacco product from a requirement if the Secretary determines that the methods to
be used in, and the facilities and controls
to be used for, the manufacture, packing,
and storage of the product in lieu of the

officers or employees designated by the Secretary.

(2) HEARING.—Any manufacturer to which a
field citation is assessed may, within a reasonable
time as prescribed by the Secretary through regula-
tion, elect to pay the penalty assessment or to re-
quest a hearing on the field citation. If a request for
a hearing is not made within the time specified in
the regulation, the penalty assessment in the field ci-
tation shall be final. Such hearing shall not be sub-
ject to section 554 or 556 of title 5 of the United
States Code, but shall provide a reasonable oppor-
tunity to be heard and to present evidence.

(3) NO DEFENSE.—Payment of a civil penalty
required by a field citation under this paragraph
shall not be a defense to further enforcement by the
United States or a State to correct a violation, or to
assess the statutory maximum penalty pursuant to
other authorities in the subtitle, if the violation con-
tinues.

(d) JUDICIAL REVIEW.—
(1) Right.—Any manufacturer against whom a civil penalty is assessed under subsection (c) or to which a penalty order is issued under subsection (a) may seek review of such assessment in the United States District Court for the District of Columbia or for the district in which the violation is alleged to have occurred or in which the principal place of business of the manufacturer is located, by filing in such court within 30 days following the date the penalty order becomes final under subsection paragraph (b), the assessment becomes final under subsection (c), or a final decision following a hearing under subsection (c) is rendered, and by simultaneously sending a copy of the filing by certified mail to the Secretary and the Attorney General.

(2) Filing.—Within 30 days after a filing under paragraph (1), the Secretary shall file in the court involved a certified copy, or certified index, as appropriate, of the record on which the penalty order or assessment was issued.

(3) Action by Court.—A court shall not set aside or remand a penalty order or assessment under this section unless there is not substantial evidence in the record, taken as a whole, to support the
finding of a violation or unless the order or penalty assessment constitutes an abuse of discretion.

(4) LIMITATION.—A penalty order or assessment under this section shall not be subject to review by any court except as provided in this subsection. In any such proceedings, the United States may seek to recover civil penalties ordered or assessed under this section.

(e) FAILURE TO PAY.—

(1) IN GENERAL.—If any manufacturer fails to pay an assessment of a civil penalty or fails to comply with an penalty order under this section—

(A) after the order or assessment has become final; or

(B) after a court, in an action brought under subsection (d), has entered a final judgment in favor of the Secretary;

the Secretary shall request the Attorney General to bring a civil action in an appropriate district court to enforce the order or to recover the amount ordered or assessed (plus interest at rates established pursuant to section 6621(a)(2) of the Internal Revenue Code of 1986 from the date of the final order or decision or the date of the final judgment, as the case may be). In such an action, the validity,
amount, and appropriateness of such order or as-
assessment shall not be subject to review.

(2) Enforcement Expenses.—Any manufac-
turer who fails to pay on a timely basis a civil pen-
alty ordered or assessed under this section shall be
required to pay, in addition to such penalty and in-
terest, the United States enforcement expenses, in-
cluding attorneys fees and costs incurred by the
United States for collection proceedings and a quar-
terly nonpayment penalty for each quarter during
which such failure to pay persists. Such nonpayment
penalty shall be 10 percent of the aggregate amount
of such manufacturer’s outstanding penalties and
nonpayment penalties accrued as of the beginning of
such quarter.

**TITLE II—REDUCTION IN
UNDERAGE TOBACCO USE**

**SEC. 201. PURPOSE.**

It is the purpose of this title to encourage the achieve-
ment of dramatic and immediate reductions in the number
of underage consumers of tobacco products through the
imposition of substantial financial surcharges on manufac-
turers if certain underage tobacco-use reduction targets
are not met.
SEC. 202. DETERMINATION OF UNDERAGE USE BASE PERCENTAGES.

(a) CIGARETTES.—For purposes of this section, the underage use base percentage for cigarettes shall be a percentage determined by the Secretary, weighted by the relative population of the age groups involved as determined using data compiled in 1995 by the Bureau of the Census, based on—

(1) the average of the percentages of 12th graders (individuals who are 16 or 17 years of age) who used cigarette products on a daily basis for each of the calendar years 1986 through 1996;

(2) the average of the percentages of 10th graders (individuals who are 14 or 15 years of age) who used cigarette products on a daily basis for each of the calendar years 1991 through 1996; and

(3) the average of the percentages of 8th graders (individuals who are 13 years of age) who used cigarette products on a daily basis for each of the calendar years 1991 through 1996.

(b) SMOKELESS TOBACCO.—For purposes of this section, the underage use base percentage for smokeless tobacco products shall be a percentage determined by the Secretary, weighted by the relative population of the age groups involved as determined using data compiled in 1995 by the Bureau of the Census, based on—
(1) the average of the percentages of 12th graders (individuals who are 16 or 17 years of age) who used smokeless tobacco products on a daily basis in 1996;

(2) the average of the percentages of 10th graders (individuals who are 14 or 15 years of age) who used smokeless tobacco products on a daily basis in 1996; and

(3) the average of the percentages of 8th graders (individuals who are 13 years of age) who used smokeless tobacco products on a daily basis in 1996.

c) USE OF CERTAIN DATA OR METHODOLOGY.—For purposes of determining the percentages under paragraphs (1) through (3) of subsections (a) and (b), the Secretary shall use the data contained in the National High School Drug Use Survey entitled Monitoring the Future by the University of Michigan or such other comparable index, as determined appropriate by the Secretary after notice and an opportunity for a hearing, that utilizes methodology identical to that used by the University of Michigan in such survey.

SEC. 203. ANNUAL DAILY INCIDENCE OF UNDERAGE USE OF TOBACCO PRODUCTS.

(a) ANNUAL DETERMINATION.—Not later than the expiration of the 5-year period beginning on the date of
enactment of this Act, and annually thereafter, the Secretary shall determine the average annual incidence of the daily use of tobacco products by individuals who are under 18 years of age.

(b) Cigarettes.—With respect to cigarette products, a determination under subsection (a) for a year shall be based on the percentage, as weighted by the relative population of the age groups involved as determined using data compiled in 1995 by the Bureau of the Census, of—

(1) 12th graders (individuals who are 16 or 17 years of age) who used cigarette products on a daily basis during the year involved;

(2) 10th graders (individuals who are 14 or 15 years of age) who used cigarette products on a daily basis during the year involved; and

(3) 8th graders (individuals who are 13 years of age) who used cigarette products on a daily basis during the year involved.

(c) Smokeless Tobacco.—With respect to smokeless tobacco products, a determination under subsection (a) for a year shall be based on the percentage, as weighted by the relative population of the age groups involved as determined using data compiled in 1995 by the Bureau of the Census, of—
(1) 12th graders (individuals who are 16 or 17 years of age) who used smokeless tobacco products on a daily basis during the year involved;

(2) 10th graders (individuals who are 14 or 15 years of age) who used smokeless tobacco products on a daily basis during the year involved; and

(3) 8th graders (individuals who are 13 years of age) who used cigarette smokeless tobacco on a daily basis during the year involved.

(d) USE OF CERTAIN DATA OR METHODOLOGY.—

(1) IN GENERAL.—For purposes of determining the percentages under paragraphs (1) through (3) of subsections (b) and (c), the Secretary shall use the data contained in the National High School Drug Use Survey entitled Monitoring the Future by the University of Michigan (if such survey is still being undertaken) or such other comparable index, as determined appropriate by the Secretary after notice and an opportunity for a hearing, that utilizes methodology identical to that used by the University of Michigan in such survey.

(2) ALTERATION OF METHODOLOGY.—If the Secretary determines that the methodology used by the University of Michigan in the survey referred to in paragraph (1) has been altered in a material
manner from the methodology used during the period from 1986 to 1996 (including by altering States or regions on which the survey is based), the Secretary, after notice and an opportunity for a hearing, shall use percentages based on an index developed by the Secretary that utilizes methodology identical to that used by the University of Michigan in such survey.

SEC. 204. REQUIRED REDUCTION IN UNDERAGE TOBACCO USE.

(a) IN GENERAL.—For purposes of assessing surcharges under section 205, the Secretary shall determine whether the required percentage reduction in the underage use of tobacco products for a year (based on the tables contained in subsection (b)) has been achieved for the year involved. Such determination shall be based on—

(1) with respect to cigarette products, the average annual incidence of the daily use of tobacco products by individuals who are under 18 years of age for the year involved (as determined under section 203(b)) as compared to the underage use base percentage for cigarette products (as determined under section 202(a)); and

(2) with respect to smokeless tobacco products, the average annual incidence of the daily use of smokeless tobacco products by individuals who are
under 18 years of age for the year involved (as determined under section 203(c)) as compared to the underage use base percentage for smokeless tobacco products (as determined under section 202(b)).

(b) Percentage Reduction in Underage Use of Tobacco Products.—For purposes of subsection (a), the required percentage reduction in the underage use of tobacco products with respect to each tobacco product shall be determined according to the following tables:

SEC. 205. APPLICATION OF SURCHARGES.

(a) In General.—If the Secretary determines that the percentage reduction in the underage use of tobacco products for a year has not been achieved as required under section 204, the Secretary shall impose a surcharge on the manufacturers of the tobacco products involved.
(b) Amount of Surcharge.—

(1) In general.—The amount of any surcharge to be imposed under this section for a calendar year shall be equal to the product of—

(A) $80,000,000; and

(B) the number of applicable surcharge percentage points as determined under subsection (c).

(2) Adjustments.—The amount applicable under paragraph (1) shall be annually adjusted by the Secretary based on—

(A) with respect to subparagraph (A) of such paragraph—

(i) the proportional percentage increase or decrease, as compared to calendar year 1995, in the population of individuals residing in the United States who are at least 13 years of age but less than 18 years of age;

(ii) the proportional percentage increase or decrease, as compared to calendar year 1996, in the average profit per unit (measured in cents and weighted by annual sales) earned by tobacco manufacturers for the tobacco product involved (as
determined by the Secretary through a contract with a nationally recognized accounting firm having no connection to tobacco manufacturers); and

(B) any methodology utilized to avoid the double counting of underage individuals whose tobacco use has previously resulted in the imposition of a surcharge, limited to the extent that there were not other underage users of tobacco in such previous years for whom a surcharge was not paid because of the limitation contained in section 206.

(3) Profit per unit.—For purposes of paragraph (2)(A)(ii), the average profit per unit for calendar 1996 shall be determined using the operating profit reported by manufacturers to the Securities and Exchange Commission.

(c) Determination of Applicable Surcharge Percentage Points.—

(1) In general.—Except as provided in paragraph (2), with respect to a calendar year, the applicable surcharge percentage points shall be equal to the percentage point difference between—

(A) the required percentage reduction in the underage use of the tobacco product in—
volved for the year (based on the tables in section 204(b)); and

(B) the number of percentage points by which the average annual incidence of the daily use of the tobacco products involved by individuals who are under 18 years of age for the year (as determined under section 203) is less than the underage use base percentage for such products (as determined under section 202).

(2) ADJUSTMENT.—If for any calendar year the Secretary determines that the average annual incidence of the daily use of the tobacco products involved by individuals who are under 18 years of age (as determined under section 203) is greater than the underage use base percentage for such products (as determined under section 202), the applicable surcharge percentage point shall be equal to—

(A) the percentage point amount determined under paragraph (1)(A); and

(B) the number of percentage points by which the average annual incidence of the daily use of the tobacco products involved by individuals who are under 18 years of age (as determined under section 203) is greater than
underage use base percentage for such products
(as determined under section 202).

(3) TYPE OF PRODUCT.—Separate determinations shall be made under this section for cigarette products and smokeless tobacco products.

(d) LIMITATION.—The total amount of surcharges imposed with respect to each type of tobacco product (cigarette products or smokeless tobacco products) under this section shall not exceed $2,000,000,000 (adjusted each year by the Secretary to account for inflation) for any calendar year.

(e) JOINT AND SEVERAL OBLIGATION.—Any surcharge imposed under this section with respect to a tobacco product (cigarette products or smokeless tobacco products) shall be the joint and several obligation of all manufacturers of such product as allocated by the market share of each such manufacturer with respect to such product. The market share of each manufacturer for each such product shall be based on the actual Federal excise tax payments made by such manufacturers for each such product under the Internal Revenue Code of 1986.

(f) ASSESSMENT.—Not later than May 1 of each year in which a surcharge will be imposed under this section, the Secretary shall assess to each manufacturer the amount for which such manufacturer is obligated. Not
later than July 1 of any year in which a manufacturer receives an assessment under this section, the manufacturer shall pay such assessment in full or be subject to such interest on such amount as the Secretary may by regulation prescribe.

(g) Use of Amounts.—Amounts received under this section shall be used as provided for in section 517.

(h) Prohibition.—No stay or other injunctive relief may be granted by the Secretary or any court that has the effect of enjoining the imposition and collection of the surcharges to be applied under this section.

SEC. 206. ABATEMENT PROCEDURES.

(a) Petitions.—Upon payment by a manufacturer of the amount assessed to the manufacturer under section 205(f), the manufacturer may submit a petition to the Secretary for an abatement of the assessment. A notice of such abatement petition shall be submitted to the attorney general of each State.

(b) Hearing.—The Secretary shall provide for the conduct of a hearing on an abatement petition received under subsection (a) pursuant to the procedures described in sections 554, 556, and 557 of title 5, United States Code. The attorney general of any State shall be permitted to be heard at any hearing conducted under this subsection.
(c) BURDEN.—The burden at any hearing under subsection (b) shall be on the manufacturer to prove, by a preponderance of the evidence, that the manufacturer should be granted the abatement.

(d) BASIS OF DECISION.—Any decision regarding a petition for an abatement under this section shall be based on a determination as to whether—

(1) the manufacturer has acted in good faith and in full compliance with this Act (and any amendment made by this Act) and any regulations or State or local laws promulgated in furtherance of this Act;

(2) the manufacturer has pursued all reasonably available measures to attain the reductions;

(3) there is any evidence of any direct or indirect action by the manufacturer to undermine the achievement of the reductions required under section 204 or to undermine any other provision of this Act (or amendment); and

(4) the manufacturer has taken (or failed to take) any other action as determined appropriate by the Secretary.

(e) AMOUNT.—Upon a determination granting an abatement under this section, the Secretary shall order the abatement of not to exceed 75 percent of the amount paid
by the manufacturer, together with interest that may have
accrued on such amount during the period between the
date on which payment by the manufacturer was made
and the date on which the abatement order was granted.
Such interest shall be equal to that provided for the aver-
age 52-week Treasury Bill during the period involved.

(f) AGGRIEVED PARTIES.—Any manufacturer or attor-
ney general of any State that is aggrieved by an abate-
ment that is granted under this section may seek judicial
review of the abatement decision within 30 days of the
date of such decision in the Court of Appeals for the Dis-
trict of Columbia Circuit. Review in such cases shall be
subject to the procedures described in sections 701
through 706 of title 5, United States Code.

(g) PROHIBITION.—A manufacturer may not file a
petition under subsection (a) until such time as the manu-
facturer has fully paid the Secretary the amount assessed
to the manufacturer under section 205(f).

“(B) the student has at least a cumulative C average or its equivalent, or academic standing consistent with the requirements for graduation, as determined by the institution, at the end of the second such academic year.

“(2) SPECIAL RULE.—Whenever a student fails to meet the eligibility requirements of subsection (a)(3) as a result of the application of this subsection and subsequent to that failure the student has academic standing consistent with the requirements for graduation, as determined by the institution, for any grading period, the student may, sub-

section (a)(3) for a grant under this subpart.

by the institution.

“(d) **STUDENTS WHO ARE NOT SECONDARY SCHOOL
GRADUATES.**—In order for a student who does not have
a certificate of graduation from a school providing second-

the student shall meet either 1 of the following standards:

“(1) **EXAMINATION.**—The student shall take an
independently administered examination and shall
achieve a score, specified by the Secretary, dem-

of compliance with such standards for development,
administration, and scoring as the Secretary may
prescribe in regulations.

“(2) DETERMINATION.—The student shall be

the institutions.

“(2) RESTRICTION OR REDUCTIONS OF FINANCIAL AID.—A student’s eligibility to receive a grant under this subpart may be reduced if a financial aid officer determines under the discretionary authority provided in section 479A that telecommunications instruction results in a substantially reduced cost of attendance to such student.

“(3) DEFINITION.—For the purposes of this subsection, the term ‘telecommunications’ means the
use of television, audio, or computer transmission, including open broadcast, closed circuit, cable, microwave, or satellite, audio conferencing, computer conferencing, or video cassettes or discs, except that such term does not include a course that is delivered using video cassette or disc recordings at such institution and that is not delivered in person to other students of that institution.
