 13 *as the “Emergency Steel Loan Guarantee Act of 1999”.*

14 **(b) CONGRESSIONAL FINDINGS.**—*Congress finds*  
 15 *that—*

16 *(1) the United States steel industry has been se-*

 18 *40,000,000 tons of steel imports into the United*  
 19 *States in 1998, caused by the world financial crisis;*

20 *(2) this surge in imports resulted in the loss of*  
 21 *more than 10,000 steel worker jobs in 1998, and was*  
 22 *the imminent cause of 3 bankruptcies by medium-*  
 23 *sized steel companies, Acme Steel, Laclede Steel, and*  
 24 *Geneva Steel;*

1           (3) *the crisis also forced almost all United States*  
2 *steel companies into—*

3                 (A) *reduced volume, lower prices, and fi-*  
4 *nancial losses; and*

5                 (B) *an inability to obtain credit for contin-*

8 *private banks and investment institutions to make*  
9 *loans to the U.S. steel industry for continued oper-*  
10 *ation and reinvestment in facilities;*

11           (5) *these steel bankruptcies, job losses, and finan-*  
12 *cial losses are also having serious negative effects on*  
13 *the tax base of cities, counties, and States, and on the*  
14 *essential health, education, and municipal services*  
15 *that these government entities provide to their citi-*  
16 *zens; and*

17           (6) *a strong steel industry is necessary to the*  
18 *adequate defense preparedness of the United States in*  
19 *order to have sufficient steel available to build the*  
20 *ships, tanks, planes, and armaments necessary for the*  
21 *national defense.*

SEC. 1402. PETROLEUM DEVELOPMENT MANAGEMENT.

(a) *SHORT TITLE*.—This section may be cited as the “Emergency Oil and Gas Guaranteed Loan Program Act”.

(b) *FINDINGS*.—Congress finds that—

(1) consumption of foreign oil in the United States is estimated to equal 56 percent of all oil consumed, and that percentage could reach 68 percent by 2010 if current prices prevail;

(2) the number of oil and gas rigs operating in the United States is at its lowest since 1944, when records of this tally began;

(3) if prices do not increase soon, the United States could lose at least half its marginal wells, which in aggregate produce as much oil as the United States imports from Saudi Arabia;

1           (4) *oil and gas prices are unlikely to increase for*  
 2           *at least several years;*

3           (5) *declining production, well abandonment, and*

 7           *the Middle East are experiencing increasingly greater*  
 8           *political instability;*

9           (7) *United Nations policy may make Iraq the*  
 10          *swing oil producing nation, thereby granting Saddam*  
 11          *Hussein tremendous power;*

12          (8) *reliance on foreign oil for more than 60 per-*  
 13          *cent of our daily oil and gas consumption is a na-*  
 14          *tional security threat;*

15          (9) *the level of United States oil security is di-*  
 16          *rectly related to the level of domestic production of oil,*  
 17          *natural gas liquids, and natural gas; and*

18          (10) *a national security policy should be devel-*
