(3) determine the ratio that—

(A) the obligation limitation for Federal-aid Highways less the aggregate of amounts not distributed under paragraphs (1) and (2), bears to

(5) distribute the obligation limitation provided for Federal-aid Highways less the aggregate amounts not distributed under paragraphs (1) and (2) and amounts distributed under paragraph (4) for each of the programs that are allocated by the Secretary under title 23, United States Code (other than activities to which paragraph (1) applies and programs to which paragraph (4) applies) by multiplying the ratio determined under paragraph (3) by the sums authorized to be appropriated for such program for such fiscal year; and

(6) distribute the obligation limitation provided for Federal-aid Highways less the aggregate amounts not distributed under paragraphs (1) and (2) and amounts distributed under paragraphs (4) and (5) for Federal-aid highways and highway safety construction programs (other than the minimum guarantee program, but only to the extent that amounts apportioned for the minimum guarantee program for such fiscal year exceed \$2,639,000,000, and the Appalachian development highway system program) that are apportioned by the Secretary under title 23, United States Code, in the ratio that—

(A) sums authorized to be appropriated for such programs that are apportioned to each State for such fiscal year, bear to

(B) the total of the sums authorized to be appropriated for such programs that are apportioned to all States for such fiscal year.

(3) The decennial census has included marital status among the information sought from every American household since 1880.

(4) The 2000 decennial census will mark the first decennial census since 1880 in which marital status will not be a question included on the census questionnaire distributed to the majority of American households.

(5) The United States Census Bureau has removed marital status from the short form census questionnaire to be distributed to the majority of American households in the 2000 decennial census and placed that category of information on the long form census questionnaire to be distributed only to a sample of the population in that decennial census.

(6) Every year more than \$100,000,000,000 in Federal funds are allocated based on the data collected by the Census Bureau.

(7) Recorded data on marital status provides a basic foundation for the development of Federal policy.

(8) Census data showing an exact account of the numbers of persons who are married, single, or divorced provides critical information which serves as an indicator on the prevalence of marriage in society.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the United States Census Bureau—

(1) has wrongfully decided not to include marital status on the census questionnaire to be distributed to the majority of Americans for the 2000 decennial census; and

SEC. 365. (a) The Administrator of the Environmental Protection Agency (in this section referred to as the “Administrator”) shall make a grant for the purpose of conducting a study for the following purposes:

(1) To develop and evaluate methods for calculating reductions in emissions of precursors of ground level ozone that are achieved within a geographic area as a result of reduced vehicle-miles-traveled in the geographic area.

(2) To develop a design for the following proposal for a pilot program:

(A) For the purpose of reducing such emissions, employers electing to participate in the pilot program would authorize and encourage telecommuting by their employees. Pursuant to methods developed and evaluated under paragraph (1), credits would be issued to the participating employers reflecting the amount of reductions in such emissions achieved through reduced vehicle-miles-traveled by their telecommuting employees.

(B) For purposes of compliance with the Clean Air Act, entities that are regulated under such Act with respect to such emissions would obtain the credits through a commercial trading and exchange forum (established for such purpose) and through direct trades and exchanges with participating employers and other persons who hold the credits.

(3) To determine whether, if the proposed pilot program were to be carried out, the program—

(A) could provide significant incentives for increasing the use of telecommuting, thereby reducing vehicle-miles-traveled and improving air quality; and

(B) could have positive effects on national, State, and local transportation and infrastructure policies, and on energy conservation and consumption.

(b) The Administrator shall ensure that the design developed under subsection (a)(2) includes recommendations for carrying out the proposed pilot program described in such subsection in each of the following geographic areas (which recommendations for an area shall be developed in consultation with State and local governments and business leaders and organizations in the designated areas): (1) The greater metropolitan region of the District of Columbia (including areas in the State of Maryland and the Commonwealth of Virginia). (2) The greater metropolitan region of Los Angeles, in the State of California. (3) The greater metropolitan region of Philadelphia, in the Commonwealth of Pennsylvania (including areas in the State of New Jersey). (4) Two additional areas to be selected by the grantee under subsection (a), after consultation with the Administrator (or the designee of the Administrator).

(c) The grant under subsection (a) shall be made to the National Environmental Policy Institute (a nonprofit private entity incorporated under the laws of and located in the District of Columbia). The grant may not be made in an amount exceeding \$500,000.

(d) The Administrator shall make the grant under subsection (a) not later than 45 days after the date of the enactment of this Act. The Administrator shall require that, not later than 180 days after receiving the first payment under the grant, the grantee under subsection (a) complete the study under such subsection and submit to the Administrator a report describing the methods developed and evaluated under paragraph (1) of such subsection, and containing the design required in paragraph (2) of such subsection and the determinations required in paragraph (3) of such subsection.

(e) The Administrator shall carry out this section (including subsection (b)(3)) in collaboration with the Secretary of Transportation and the Secretary of Energy.
