1 SEC. 2. FINDINGS AND PURPOSES.

- 2 (a) FINDINGS.**—*The Congress finds the following:*

1 (1) *The National Forest System, which is man-*
2 *aged by the United States Forest Service, was estab-*
3 *lished in 1907 and has grown to include approxi-*
4 *mately 192,000,000 acres of Federal lands.*

5 (2) *The public domain lands known as revested*
6 *Oregon and California Railroad grant lands and the*
7 *reconveyed Coos Bay Wagon Road grant lands, which*
8 *are managed predominantly by the Bureau of Land*
9 *Management were returned to Federal ownership in*
10 *1916 and 1919 and now comprise approximately*
11 *2,600,000 acres of Federal lands.*

12 (3) *Congress recognized that, by its decision to*
13 *secure these lands in Federal ownership, the counties*
14 *in which these lands are situated would be deprived*
15 *of revenues they would otherwise receive if the lands*
16 *were held in private ownership.*

17 (4) *These same counties have expended public*
18 *funds year after year to provide services, such as edu-*
19 *cation, road construction and maintenance, search*
20 *and rescue, law enforcement, waste removal, and fire*
21 *protection, that directly benefit these Federal lands*
22 *and people who use these lands.*

23 (5) *To accord a measure of compensation to the*
24 *affected counties for the critical services they provide*
25 *to both county residents and visitors to these Federal*

1 *lands, Congress determined that the Federal Govern-*
2 *ment should share with these counties a portion of the*
3 *revenues the United States receives from these Federal*
4 *lands.*

5 *(6) Congress enacted in 1908 and subsequently*
6 *amended a law that requires that 25 percent of the*
7 *revenues derived from National Forest System lands*
8 *be paid to States for use by the counties in which the*
9 *lands are situated for the benefit of public schools and*
10 *roads.*

11 *(7) Congress enacted in 1937 and subsequently*
12 *amended a law that requires that 75 percent of the*
13 *revenues derived from the revested and reconveyed*
14 *grant lands be paid to the counties in which those*
15 *lands are situated to be used as are other county*
16 *funds, of which 50 percent is to be used as other coun-*
17 *ty funds.*

18 *(8) For several decades primarily due to the*
19 *growth of the Federal timber sale program, counties*
20 *dependent on and supportive of these Federal lands*
21 *received and relied on increasing shares of these reve-*
22 *nuues to provide funding for schools and road mainte-*
23 *nance.*

24 *(9) In recent years, the principal source of these*
25 *revenues, Federal timber sales, has been sharply cur-*

1 *tailed and, as the volume of timber sold annually*
2 *from most of the Federal lands has decreased precipi-*
3 *tously, so too have the revenues shared with the af-*
4 *ected counties.*

5 *(10) This decline in shared revenues has affected*
6 *educational funding and road maintenance for many*
7 *counties.*

8 *(11) In the Omnibus Budget Reconciliation Act*
9 *of 1993, Congress recognized this trend and amelio-*
10 *rated its adverse consequences by providing an alter-*
11 *native annual safety net payment to 72 counties in*
12 *Oregon, Washington, and northern California in*
13 *which Federal timber sales had been restricted or pro-*
14 *hibited by administrative and judicial decisions to*
15 *protect the northern spotted owl.*

16 *(12) The authority for these particular safety net*
17 *payments is expiring and no comparable authority*
18 *has been granted for alternative payments to counties*
19 *elsewhere in the United States that have suffered*
20 *similar losses in shared revenues from the Federal*
21 *lands and in the funding for schools and roads those*
22 *revenues provide.*

23 *(13) There is a need to stabilize education and*
24 *road maintenance funding through predictable pay-*
25 *ments to the affected counties, job creation in those*

1 *counties, and other opportunities associated with res-*
2 *toration, maintenance, and stewardship of Federal*
3 *lands.*

4 *(14) Both the Forest Service and the Bureau of*
5 *Land Management face significant backlogs in infra-*
6 *structure maintenance and ecosystem restoration that*
7 *are difficult to address through annual appropria-*
8 *tions.*

9 *(15) There is a need to build new, and strength-*
10 *en existing, relationships and to improve manage-*
11 *ment of public lands and waters.*

12 *(b) PURPOSES.—The purposes of this Act are as fol-*
13 *lows:*

14 *(1) To stabilize payments to counties to provide*
15 *funding for schools and roads that supplements other*
16 *available funds.*

17 *(2) To make additional investments in, and cre-*
18 *ate additional employment opportunities through,*
19 *projects that improve the maintenance of existing in-*
20 *frastructure, implement stewardship objectives that*
21 *enhance forest ecosystems, and restore and improve*
22 *land health and water quality. Such projects shall*
23 *enjoy broad-based support with objectives that may*
24 *include, but are not limited to—*

1 (A) road, trail, and infrastructure mainte-
2 nance or obliteration;

3 (B) soil productivity improvement;

4 (C) improvements in forest ecosystem
5 health;

6 (D) watershed restoration and maintenance;

7 (E) restoration, maintenance and improve-
8 ment of wildlife and fish habitat;

9 (F) control of noxious and exotic weeds; and

10 (G) reestablishment of native species.

11 (3) To improve cooperative relationships among
12 the people that use and care for Federal lands and the
13 agencies that manage these lands.

13 *onciliation Act of 1993 (Public Law 103–66; 107*
14 *Stat. 407) amended section 35 of the Mineral Leasing*
15 *Act (30 U.S.C. 191) to change the sharing of onshore*
16 *mineral revenues and revenues from geothermal steam*
17 *from a 50:50 split between the Federal Government*
18 *and the States to a complicated formula that entailed*
19 *deducting from the State share of leasing revenues*
20 *“50 percent of the portion of the enacted appropri-*
21 *ations of the Department of the Interior and any other*
22 *agency during the preceding fiscal year allocable to*
23 *the administration of all laws providing for the leas-*
24 *ing of any onshore lands or interest in land owned*
25 *by the United States for the production of the same*
26 *types of minerals leasable under this Act or of geo-*

1 *thermal steam, and to enforcement of such*
2 *laws . . .”.*

3 *(2) There is no legislative record to suggest a*
4 *sound public policy rationale for deducting prior-year*
5 *administrative expenses from the sharing of current-*
6 *year receipts, indicating that this change was made*
7 *primarily for budget scoring reasons.*

8 *(3) The system put in place by this change in*
9 *law has proved difficult to administer and has given*
10 *rise to disputes between the Federal Government and*
11 *the States as to the nature of allocable expenses. Fed-*
12 *eral accounting systems have proven to be poorly suit-*
13 *ed to breaking down administrative costs in the man-*
14 *ner required by the law. Different Federal agencies*
15 *implementing this law have used varying methodolo-*
16 *gies to identify allocable costs, resulting in an inequi-*
17 *table distribution of costs during fiscal years 1994*
18 *through 1996. In November 1997, the Inspector Gen-*
19 *eral of the Department of the Interior found that “the*
20 *congressionally approved method for cost sharing de-*
21 *ductions effective in fiscal year 1997 may not accu-*
22 *rately compute the deductions”.*

23 *(4) Given the lack of a substantive rationale for*
24 *the 1993 change in law and the complexity and ad-*
25 *ministrative burden involved, a return to the sharing*

1 *formula prior to the enactment of the Omnibus Budg-*
2 *et Reconciliation Act of 1993 is justified.*

3 **SEC. 503. AMENDMENT OF THE MINERAL LEASING ACT.**

4 *Section 35(b) of the Mineral Leasing Act (30 U.S.C.*
5 *191(b)) is amended to read as follows:*

6 “(b) *In determining the amount of payments to the*
7 *States under this section, the amount of such payments*
8 *shall not be reduced by any administrative or other costs*
9 *incurred by the United States.”.*

10 **TITLE VI—COMMUNITY FOREST**
11 **RESTORATION**

12 **SEC. 601. SHORT TITLE.**

13 *This title may be cited as the “Community Forest Res-*
14 *toration Act”.*

15 **SEC. 602. FINDINGS.**

16 *The Congress finds the following:*

17 (1) *A century of fire suppression, logging, and*
18 *livestock grazing has altered the ecological balance of*
19 *New Mexico’s forests.*

20 (2) *Some forest lands in New Mexico contain an*
21 *unnaturally high number of small diameter trees that*
22 *are subject to large, high intensity wildfires that can*
23 *endanger human lives, livelihoods, and ecological sta-*
24 *bility.*

1 (3) *Forest lands that contain an unnaturally*
2 *high number of small diameter trees have reduced bio-*
3 *diversity and provide fewer benefits to human com-*
4 *munities, wildlife, and watersheds.*

5 (4) *Healthy and productive watersheds minimize*
6 *the threat of large, high intensity wildfires, provide*
7 *abundant and diverse wildlife habitat, and produce a*
8 *variety of timber and non-timber products including*
9 *better quality water and increased water flows.*

10 (5) *Restoration efforts are more successful when*
11 *there is involvement from neighboring communities*
12 *and better stewardship will evolve from more diverse*
13 *involvement.*

14 (6) *Designing demonstration restoration projects*
15 *through a collaborative approach may—*

16 (A) *lead to the development of cost effective*
17 *restoration activities;*

18 (B) *empower diverse organizations to im-*
19 *plement activities which value local and tradi-*
20 *tional knowledge;*

21 (C) *build ownership and civic pride; and*

22 (D) *ensure healthy, diverse, and productive*
23 *forests and watersheds.*

24 **SEC. 603. PURPOSES.**

25 *The purposes of this title are—*

1 (1) *to promote healthy watersheds and reduce the*
2 *threat of large, high intensity wildfires, insect infesta-*
3 *tion, and disease in the forests in New Mexico;*

4 (2) *to improve the functioning of forest eco-*
5 *systems and enhance plant and wildlife biodiversity*
6 *by reducing the unnaturally high number and density*
7 *of small diameter trees on Federal, Tribal, State,*
8 *County, and Municipal forest lands;*

9 (3) *to improve communication and joint problem*
10 *solving among individuals and groups who are inter-*
11 *ested in restoring the diversity and productivity of*
12 *forested watersheds in New Mexico;*

13 (4) *to improve the use of, or add value to, small*
14 *diameter trees;*

15 (5) *to encourage sustainable communities and*
16 *sustainable forests through collaborative partnerships,*
17 *whose objectives are forest restoration; and*

18 (6) *to develop, demonstrate, and evaluate eco-*
19 *logically sound forest restoration techniques.*

20 **SEC. 604. DEFINITIONS.**

21 *As used in this title—*

22 (1) *the term “Secretary” means the Secretary of*
23 *Agriculture acting through the Chief of the Forest*
24 *Service; and*

1 (2) *the term “stakeholder” includes: tribal gov-*
2 *ernments, educational institutions, landowners, and*
3 *other interested public and private entities.*

4 **SEC. 605. ESTABLISHMENT OF PROGRAM.**

5 (a) *FOREST RESTORATION PROGRAM.*—*The Secretary*
6 *shall establish a cooperative forest restoration program in*
7 *New Mexico in order to provide cost-share grants to stake-*
8 *holders for experimental forest restoration projects that are*
9 *designed through a collaborative process (hereinafter re-*
10 *ferred to as the “Collaborative Forest Restoration Pro-*
11 *gram”). The projects may be entirely on, or on any com-*
12 *bination of, Federal, Tribal, State, County, or Municipal*
13 *forest lands. The Federal share of an individual project cost*
14 *shall not exceed 80 percent of the total cost. The 20-percent*
15 *matching may be in the form of cash or in-kind contribu-*
16 *tion.*

17 (b) *ELIGIBILITY REQUIREMENTS.*—*To be eligible to re-*
18 *ceive funding under this title, a project shall—*

19 (1) *address the following objectives—*

20 (A) *reduce the threat of large, high intensity*
21 *wildfires and the negative effects of excessive*
22 *competition between trees by restoring ecosystem*
23 *functions, structures, and species composition,*
24 *including the reduction of non-native species*
25 *populations;*

1 (B) re-establish fire regimes approximating
2 those that shaped forest ecosystems prior to fire
3 suppression;

4 (C) preserve old and large trees;

5 (D) replant trees in deforested areas if they
6 exist in the proposed project area; and

7 (E) improve the use of, or add value to,
8 small diameter trees;

9 (2) comply with all Federal and State environ-
10 mental laws;

11 (3) include a diverse and balanced group of

13 State, County, and Municipal government representa-
14 tives in the design, implementation, and monitoring
15 of the project;

16 (4) incorporate current scientific forest restora-
17 tion information; and

18 (5) include a multiparty assessment to—

19 (A) identify both the existing ecological con-
20 dition of the proposed project area and the de-
21 sired future condition; and

22 (B) report, upon project completion, on the
23 positive or negative impact and effectiveness of
24 the project including improvements in local
25 management skills and on the ground results;

1 (6) *create local employment or training opportu-*
2 *nities within the context of accomplishing restoration*
3 *objectives, that are consistent with the purposes of this*
4 *title, including summer youth jobs programs such as*
5 *the Youth Conservation Corps where appropriate;*

6 (7) *not exceed 4 years in length;*

7 (8) *not exceed a total annual cost of \$150,000,*
8 *with the Federal portion not exceeding \$120,000 an-*
9 *nually, nor exceed a total cost of \$450,000 for the*
10 *project, with the Federal portion of the total cost not*
11 *exceeding \$360,000;*

12 (9) *leverage Federal funding through in-kind or*
13 *matching contributions; and*

14 (10) *include an agreement by each stakeholder to*
15 *attend an annual workshop with other stakeholders*
16 *for the purpose of discussing the cooperative forest res-*
17 *toration program and projects implemented under*
18 *this title. The Secretary shall coordinate and fund the*
19 *annual workshop. Stakeholders may use funding for*
20 *projects authorized under this title to pay for their*
21 *travel and per diem expenses to attend the workshop.*

22 **SEC. 606. SELECTION PROCESS.**

23 (a) *After consulting with the technical advisory panel*
24 *established in subsection (b), the Secretary shall select the*

1 *proposals that will receive funding through the Collaborative Forest Restoration Program.*

3 *(b) The Secretary shall convene a technical advisory*
4 *panel to evaluate the proposals for forest restoration grants*
5 *and provide recommendations regarding which proposals*
6 *would best meet the objectives of the Collaborative Forest*
7 *Restoration Program. The technical advisory panel shall*
8 *consider eligibility criteria established in section 605, the*
9 *effect on long-term management, and seek to use a con-*
10 *sensus-based decisionmaking process to develop such rec-*
11 *ommendations. The panel shall be composed of 12 to 15*
12 *members, to be appointed by the Secretary as follows:*

13 *(1) A State Natural Resource official from the*
14 *State of New Mexico.*

15 *(2) At least two representatives from Federal*
16 *land management agencies.*

1 **SEC. 607. MONITORING AND EVALUATION.**

2 *The Secretary shall establish a multiparty monitoring*
3 *and evaluation process in order to assess the cumulative*
4 *accomplishments or adverse impacts of the Collaborative*
5 *Forest Restoration Program. The Secretary shall include*
6 *any interested individual or organization in the monitoring*
7 *and evaluation process. The Secretary also shall conduct a*
8 *monitoring program to assess the short- and long-term eco-*
9 *logical effects of the restoration treatments, if any, for a*
10 *minimum of 15 years.*

11 **SEC. 608. REPORT.**

12 *No later than 5 years after the first fiscal year in*
13 *which funding is made available for this program, the Sec-*
14 *retary shall submit a report to the Committee on Energy*
15 *and Natural Resources of the United States Senate and the*
16 *Committee on Resources of the United States House of Rep-*
17 *resentatives. The report shall include an assessment on*
18 *whether, and to what extent, the projects funded pursuant*
19 *to this title are meeting the purposes of the Collaborative*
20 *Forest Restoration Program.*

1 **SEC. 609. AUTHORIZATION OF APPROPRIATIONS.**

2 *There are authorized to be appropriated \$5,000,000*

3 *annually to carry out this title.*
