1 **SEC. 2. FINDINGS.**

2 Congress finds that—

3 (1) Andrew Jackson Higgins was born on Au-
4 gust 28, 1886, in Columbus, Nebraska, moved to
5 New Orleans in 1910, and formed Higgins Indus-
6 tries on September 26, 1930;

7 (2) Andrew Jackson Higgins designed, engi-
8 neered, and produced the “Eureka”, a unique shal-
9 low draft boat, the design of which evolved during
10 World War II into 2 basic classes of military craft,
11 high speed PT boats, and types of Higgins landing
12 craft (LCPs, LCPLs, LCVPs, LCMs and LCSs);

13 (3) Andrew Jackson Higgins designed, engi-
14 neered, and constructed 4 major assembly line
15 plants in New Orleans for mass production of Hig-
16 gins landing craft, and other vessels vital to the Al-
17 lied Forces’ conduct of World War II;

18 (4) Andrew Jackson Higgins bought the entire
19 1940 Philippine mahogany crop and other material
20 purely at risk without a Government contract, an-
21 ticipating that America would join World War II
22 and that Higgins Industries would need the wood to
23 build landing craft, and Higgins also bought steel,
24 engines, and other material necessary to construct
25 landing craft;

1 (5) Andrew Jackson Higgins, through Higgins
2 Industries, employed a fully integrated assembly line
3 work force, black and white, male and female, of up
4 to 30,000 during World War II, with equal pay for
5 equal work;

6 (6) in 1939, the United States Navy had a total
7 of 18 landing craft in the fleet;

8 (7) from November 18, 1940, when Higgins In-
9 dustries was awarded its first contract for Higgins
10 landing craft until the conclusion of the war, the em-
11 ployees of Higgins Industries produced 12,300
12 Landing Craft Vehicle Personnel (LCVP's) and
13 nearly 8,000 other landing craft of all types;

14 (8) during World War II, Higgins Industries
15 employees produced 20,094 boats, including landing
16 craft and Patrol Torpedo boats, and trained 30,000
17 Navy, Marine, and Coast Guard personnel on the
18 safe operation of landing craft at the Higgins' Boat
19 Operators School;

20 (9) on Thanksgiving Day 1944, General Dwight
21 D. Eisenhower stated in an address to the Nation,
22 "Let us thank God for Higgins Industries, manage-
23 ment, and labor which has given us the landing
24 boats with which to conduct our campaign.";

1 (10) Higgins landing craft, constructed of wood
2 and steel, transported fully armed troops, light
3 tanks, field artillery, and other mechanized equip-
4 ment essential to amphibious operations;

5 (11) Higgins landing craft made the amphib-
6 ious assault on D-day and the landings at Leyte,
7 North Africa, Guadalcanal, Sicily, Iwo Jima,
8 Tarawa, Guam, and thousands of less well-known
9 assaults possible;

10 (12) Captain R.R.M. Emmett, a commander at
11 the North Africa amphibious landing, and later com-
12 mandant of the Great Lakes Training Station, wrote
13 during the war, “When the history of this war is fi-
14 nally written by historians, far enough removed from
15 its present turmoil and clamor to be cool and impar-
16 tial, I predict that they will place Mr. (Andrew Jack-
17 son) Higgins very high on the list of those who de-
18 serve the commendation and gratitude of all citi-
19 zens.”; and

20 (13) in 1964, President Dwight D. Eisenhower
21 told historian Steven Ambrose, “He (Higgins) is the
22 man who won the war for us. If Higgins had not de-
23 veloped and produced those landing craft, we never
24 could have gone in over an open beach. We would
25 have had to change the entire strategy of the war.”.
