H. R. 4259

AN ACT

To amend title 31, United States Code, to improve the financial accountability requirements applicable to the Department of Homeland Security, to establish requirements for the Future Years Homeland Security Program of the Department, and for other purposes.

108TH CONGRESS
2D SESSION

H. R. 4259

AN ACT

To amend title 31, United States Code, to improve the financial accountability requirements applicable to the Department of Homeland Security, to establish requirements for the Future Years Homeland Security Program of the Department, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as “Department of Homeland
5 Security Financial Accountability Act”.

6 **SEC. 2. FINDINGS.**

7 The Congress finds the following:

8 (1) Influential financial management leadership
9 is of vital importance to the mission success of the
10 Department of Homeland Security. For this reason,
11 the Chief Financial Officer of the Department must
12 be a key figure in the Department’s management.

13 (2) To provide a sound financial leadership
14 structure, the provisions of law enacted by the Chief
15 Financial Officers Act of 1990 (Public Law 101–
16 576) provide that the Chief Financial Officer of each
17 of the Federal executive departments is to be a Pres-
18 idential appointee who reports directly to the Sec-
19 retary of that department on financial management
20 matters. Because the Department of Homeland Se-
21 curity was only recently created, the provisions en-
22 acted by that Act must be amended to include the
23 Department within these provisions.

24 (3) The Department of Homeland Security was
25 created by consolidation of 22 separate Federal

1 agencies, each with its own accounting and financial
2 management system. None of these systems was de-
3 veloped with a view to executing the mission of the
4 Department of Homeland Security to prevent ter-
5 rorist attacks within the United States, reduce the
6 Nation's vulnerability to terrorism, and minimize the
7 damage and assist in the recovery from terrorist at-
8 tacks. For these reasons, a strong Chief Financial
9 Officer is needed within the Department both to
10 consolidate financial management operations, and to
11 insure that management control systems are com-
12 prehensively designed to achieve the mission and
13 execute the strategy of the Department.

14 (4) The provisions of law enacted by the Chief
15 Financial Officers Act of 1990 require agency Chief
16 Financial Officers to improve the financial informa-
17 tion available to agency managers and the Congress.
18 Those provisions also specify that agency financial
19 management systems must provide for the system-
20 atic measurement of performance. In the case of the
21 Department of Homeland Security, therefore, it is
22 vitally important that management control systems
23 be designed with a clear view of a homeland security
24 strategy, including the priorities of the Department
25 in addressing those risks of terrorism deemed most

1 significant based upon a comprehensive assessment
 2 of potential threats, vulnerabilities, criticality, and
 3 consequences. For this reason, Federal law should
 4 be amended to clearly state the responsibilities of
 5 the Chief Financial Officer of the Department of
 6 Homeland Security to provide management control
 7 information, for the benefit of managers within the
 8 Department and to help inform the Congress, that
 9 permits an assessment of the Department's perform-
 10 ance in executing a homeland security strategy.
