TITLE IX

BORDER LAW ENFORCEMENT RELIEF ACT

SEC. 901. SHORT TITLE.

This title may be cited as the “Border Law Enforcement Relief Act of 2006”.

SEC. 902. FINDINGS.

Congress finds the following:

(1) It is the obligation of the Federal Government of the United States to adequately secure the Nation’s borders and prevent the flow of undocumented persons and illegal drugs into the United States.
(2) Despite the fact that the United States Border Patrol apprehends over 1,000,000 people each year trying to illegally enter the United States, according to the Congressional Research Service, the net growth in the number of unauthorized aliens has increased by approximately 500,000 each year. The Southwest border accounts for approximately 94 percent of all migrant apprehensions each year. Currently, there are an estimated 11,000,000 unauthorized aliens in the United States.

(3) The border region is also a major corridor for the shipment of drugs. According to the El Paso Intelligence Center, 65 percent of the narcotics that are sold in the markets of the United States enter the country through the Southwest Border.

(4) Border communities continue to incur significant costs due to the lack of adequate border security. A 2001 study by the United States-Mexico Border Counties Coalition found that law enforcement and criminal justice expenses associated with illegal immigration exceed $89,000,000 annually for the Southwest border counties.

(5) In August 2005, the States of New Mexico and Arizona declared states of emergency in order to provide local law enforcement immediate assistance
in addressing criminal activity along the Southwest border.

(6) While the Federal Government provides States and localities assistance in covering costs related to the detention of certain criminal aliens and the prosecution of Federal drug cases, local law enforcement along the border are provided no assistance in covering such expenses and must use their limited resources to combat drug trafficking, human smuggling, kidnappings, the destruction of private property, and other border-related crimes.

(7) The United States shares 5,525 miles of border with Canada and 1,989 miles with Mexico. Many of the local law enforcement agencies located along the border are small, rural departments charged with patrolling large areas of land. Counties along the Southwest United States-Mexico border are some of the poorest in the country and lack the financial resources to cover the additional costs associated with illegal immigration, drug trafficking, and other border-related crimes.

(8) Federal assistance is required to help local law enforcement operating along the border address the unique challenges that arise as a result of their
proximity to an international border and the lack of overall border security in the region.

Sec. 903. Border Relief Grant Program. (a) Grants Authorized.—

(1) In general.—The Secretary is authorized to award grants, subject to the availability of appropriations, to an eligible law enforcement agency to provide assistance to such agency to address—

(A) describe the activities for which assistance under this section is sought; and
(B) provide such additional assurances as the Secretary determines to be essential to ensure compliance with the requirements of this section.

(ii) Mexico; or

(B) located in a county more than 100 miles from any such border, but where such county has been certified by the Secretary as a High Impact Area.

(A) whether local law enforcement agencies in that county have the resources to protect the lives, property, safety, or welfare of the residents of that county;
