5 “(a) COOPERATION OF NON-FEDERAL INTEREST.—

6 “(1) IN GENERAL.—After December 31, 1970,
7 the construction of any water resources project, or
8 an acceptable separable element thereof, by the Sec-
9 retary of the Army, acting through the Chief of En-
10 gineers, or by a non-Federal interest where such in-
11 terest will be reimbursed for such construction under
12 any provision of law, shall not be commenced until
13 each non-Federal interest has entered into a written
14 partnership agreement with the Secretary (or, where
15 appropriate, the district engineer for the district in
16 which the project will be carried out) under which
17 each party agrees to carry out its responsibilities
18 and requirements for implementation or construction
19 of the project or the appropriate element of the
20 project, as the case may be; except that no such
21 agreement shall be required if the Secretary deter-
22 mines that the administrative costs associated with
23 negotiating, executing, or administering the agree-
24 ment would exceed the amount of the contribution
25 required from the non-Federal interest and are less
26 than \$25,000.

1 “(2) LIQUIDATED DAMAGES.—A partnership
2 agreement described in paragraph (1) may include a
3 provision for liquidated damages in the event of a

7 paragraph (1) and entered into by a State, or a body
8 politic of the State which derives its powers from the
9 State constitution, or a governmental entity created
10 by the State legislature, the agreement may reflect
11 that it does not obligate future appropriations for
12 such performance and payment when obligating fu-
13 ture appropriations would be inconsistent with con-
14 stitutional or statutory limitations of the State or a
15 political subdivision of the State.

16 “(4) CREDIT FOR IN-KIND CONTRIBUTIONS.—

17 “(A) IN GENERAL.—A partnership agree-
18 ment described in paragraph (1) may provide
19 with respect to a project that the Secretary
20 shall credit toward the non-Federal share of the
21 cost of the project, including a project imple-
22 mented without specific authorization in law,
23 the value of in-kind contributions made by the
24 non-Federal interest, including—

1 “(i) the costs of planning (including
2 data collection), design, management, miti-

10 project; and

11 “(iii) the value of materials and serv-
12 ices provided after execution of the part-
13 nership agreement.

14 “(B) CONDITION.—The Secretary shall
15 credit an in-kind contribution under subpara-

17 material or service provided as an in-kind con-
18 tribution is integral to the project.

19 “(C) WORK PERFORMED BEFORE PART-
20 NERSHIP AGREEMENT.—In any case in which
21 the non-Federal interest is to receive credit
22 under subparagraph (A)(ii) for the cost of work
23 carried out by the non-Federal interest and
24 such work has not been carried out as of the
25 date of enactment of this subparagraph, the

1 Secretary and the non-Federal interest shall
2 enter into an agreement under which the non-
3 Federal interest shall carry out such work, and
4 only work carried out following the execution of
5 the agreement shall be eligible for credit.

6 “(D) LIMITATIONS.—Credit authorized
7 under this paragraph for a project—

8 “(i) shall not exceed the non-Federal

10 “(ii) shall not alter any other require-
11 ment that a non-Federal interest provide
12 lands, easements or rights-of-way, or areas
13 for disposal of dredged material for the
14 project;

15 “(iii) shall not alter any requirement
16 that a non-Federal interest pay a portion
17 of the costs of construction of the project
18 under sections 101 and 103 of the Water
19 Resources Development Act of 1986 (33
20 U.S.C. 2211; 33 U.S.C. 2213); and

1 “(E) APPLICABILITY.—

2 “(i) IN GENERAL.—This paragraph
3 shall apply to water resources projects au-
4 thorized after November 16, 1986, includ-
5 ing projects initiated after November 16,
6 1986, without specific authorization in law.

7 “(ii) LIMITATION.—In any case in
8 which a specific provision of law provides
9 for a non-Federal interest to receive credit
10 toward the non-Federal share of the cost
11 of a study for, or construction or operation
12 and maintenance of, a water resources
13 project, the specific provision of law shall
14 apply instead of this paragraph.”.

15 (b) NON-FEDERAL INTEREST.—Section 221(b) of
16 such Act is amended to read as follows:

17 “(b) DEFINITION OF NON-FEDERAL INTEREST.—
18 The term ‘non-Federal interest’ means a legally con-

17 “(3) the authority to approve any partnership
18 agreement that complies with the policies and guide-
19 lines issued by the Secretary; and

20 “(4) the authority to sign any partnership
21 agreement for any water resources project unless,
22 within 30 days of the date of authorization of the
23 project, the Secretary notifies the district engineer in
24 which the project will be carried out that the Sec-

1 retary wishes to retain the prerogative to sign the
2 partnership agreement for that project.

3 “(f) REPORT TO CONGRESS.—Not later than 2 years
4 after the date of enactment of this subsection, and every
5 year thereafter, the Secretary shall submit to Congress a

12 the district engineer was not appropriate.

13 “(g) PUBLIC AVAILABILITY.—Not later than 120
14 days after the date of enactment of this subsection, the
15 Chief of Engineers shall—

16 “(1) ensure that each district engineer has
17 made available to the public, including on the Inter-

19 this section within the preceding 10 years and all
20 partnership agreements for water resources projects
21 currently being carried out in that district; and

22 “(2) make each partnership agreement entered
23 into after such date of enactment available to the

25 tion, or disposal facility.

1 “(3) MULTIPLE PROJECTS.—If a facility to
2 which this subsection applies serves to manage
3 dredged material from multiple water resources
4 projects located in the geographic region of the facil-

6 projects with appropriate combined costsharing be-
7 tween the various projects in a partnership agree-
8 ment for the facility under this subsection.

9 “(4) SPECIFIED FEDERAL FUNDING SOURCES
10 AND COST SHARING.—

11 “(A) SPECIFIED FEDERAL FUNDING.—A
12 partnership agreement with respect to a facility
13 under this subsection shall specify—

12 In carrying out a water resources project that in-
13 volves wetlands mitigation and that has impacts that occur
14 within the same watershed of a mitigation bank, the Sec-
15 retary, to the maximum extent practicable and where ap-
16 propriate, shall first consider the use of the mitigation
17 bank if the bank contains sufficient available credits to
18 offset the impact and the bank is approved in accordance
19 with the Federal Guidance for the Establishment, Use and
20 Operation of Mitigation Banks (60 Fed. Reg. 58605) or
21 other applicable Federal law (including regulations).

22 **SEC. 2014. MITIGATION FOR FISH AND WILDLIFE LOSSES.**

3 “(3) CONTENTS.—A mitigation plan shall in-
4 clude—

5 “(A) a description of the physical action to
6 be undertaken to achieve the mitigation objec-
7 tives within the watershed in which such losses
8 occur and, in any case in which mitigation must
9 take place outside the watershed, a justification
10 detailing the rationale for undertaking the miti-
11 gation outside of the watershed;

12 “(B) a description of the lands or interests
13 in lands to be acquired for mitigation and the
14 basis for a determination that such lands are
15 available for acquisition;

16 “(C) the type, amount, and characteristics
17 of the habitat being restored;

18 “(D) success criteria for mitigation based
19 on replacement of lost functions and values of
20 the habitat, including hydrologic and vegetative
21 characteristics; and

22 “(E) a plan for any necessary monitoring
23 to determine the success of the mitigation, in-
24 cluding the cost and duration of any monitoring

1 and, to the extent practicable, the entities re-
2 sponsible for any monitoring.

3 “(4) RESPONSIBILITY FOR MONITORING.—In
4 any case in which it is not practicable to identify in
5 a mitigation plan for a water resources project, the
6 entity responsible for monitoring at the time of a
7 final report of the Chief of Engineers or other final
8 decision document for the project, such entity shall
9 be identified in the partnership agreement entered
10 into with the non-Federal interest.”.

11 (b) STATUS REPORT.—

12 (1) IN GENERAL.—Concurrent with the Presi-
13 dent’s submission to Congress of the President’s re-

25 shall include the status of all projects that are under

1 construction, all projects for which the President re-
2 quests funding for the next fiscal year, and all
3 projects that have completed construction, but have
4 not completed the mitigation required under section
5 906 of the Water Resources Development Act of
6 1986.

7 **SEC. 2015. REMOTE AND SUBSISTENCE HARBORS.**

8 (a) IN GENERAL.—In conducting a study of harbor
9 and navigation improvements, the Secretary may rec-
10 ommend a project without the need to demonstrate that
11 the project is justified solely by national economic develop-
12 ment benefits if the Secretary determines that—

13 (1)(A) the community to be served by the
14 project is at least 70 miles from the nearest surface
15 accessible commercial port and has no direct rail or
16 highway link to another community served by a sur-
17 face accessible port or harbor; or

18 (B) the project would be located in the Com-
19 monwealth of Puerto Rico, Guam, the State of Ha-
20 waii, the Commonwealth of the Northern Mariana
21 Islands, the United States Virgin Islands, or Amer-
22 ican Samoa;

23 (2) the harbor is economically critical such that
24 over 80 percent of the goods transported through
25 the harbor would be consumed within the community

1 served by the harbor and navigation improvement;
2 and

3 (3) the long-term viability of the community
4 would be threatened without the harbor and naviga-
5 tion improvement.

6 (b) JUSTIFICATION.—In considering whether to rec-
7 ommend a project under subsection (a), the Secretary
8 shall consider the benefits of the project to—

9 (1) public health and safety of the local commu-
10 nity, including access to facilities designed to protect
11 public health and safety;

12 (2) access to natural resources for subsistence
13 purposes;

14 (3) local and regional economic opportunities;

15 (4) welfare of the local population; and

16 (5) social and cultural value to the community.

17 **SEC. 2016. BENEFICIAL USES OF DREDGED MATERIAL.**

18 (a) IN GENERAL.—Section 204 of the Water Re-
19 sources Development Act of 1992 (33 U.S.C. 2326) is
20 amended by striking subsections (c) through (g) and in-
21 serting the following:

22 “(c) IN GENERAL.—The Secretary may carry out
23 projects to transport and place sediment obtained in con-
24 nection with the construction, operation, or maintenance
25 of an authorized water resources project at locations se-

1 lected by a non-Federal entity for use in the construction,
2 repair, or rehabilitation of projects determined by the Sec-
3 retary to be in the public interest and associated with navi-
4 gation, flood damage reduction, hydroelectric power, mu-
5 nicipal and industrial water supply, agricultural water
6 supply, recreation, hurricane and storm damage reduction,
7 aquatic plant control, and environmental protection and
8 restoration.

9 “(d) COOPERATIVE AGREEMENT.—Any project un-
10 dertaken pursuant to this section shall be initiated only
11 after non-Federal interests have entered into an agree-
12 ment with the Secretary in which the non-Federal inter-
13 ests agree to pay the non-Federal share of the cost of con-
14 struction of the project and 100 percent of the cost of
15 operation, maintenance, replacement, and rehabilitation of
16 the project in accordance with section 103 of the Water
17 Resources Development Act of 1986 (33 U.S.C. 2213).

18 “(e) SPECIAL RULE.—Construction of a project
19 under subsection (a) for one or more of the purposes of
20 protection, restoration, or creation of aquatic and eco-
21 logically related habitat, the cost of which does not exceed
22 \$750,000 and which will be located in a disadvantaged
23 community as determined by the Secretary, may be car-
24 ried out at Federal expense.

1 “(f) DETERMINATION OF CONSTRUCTION COSTS.—

2 Costs associated with construction of a project under this
3 section shall be limited solely to construction costs that
4 are in excess of those costs necessary to carry out the
5 dredging for construction, operation, or maintenance of
6 the authorized water resources project in the most cos-
7 effective way, consistent with economic, engineering, and
8 environmental criteria.

9 “(g) SELECTION OF SEDIMENT DISPOSAL METH-

10 OD.—In developing and carrying out a water resources
11 project involving the disposal of sediment, the Secretary
12 may select, with the consent of the non-Federal interest,
13 a disposal method that is not the least cost option if the
14 Secretary determines that the incremental costs of such
15 disposal method are reasonable in relation to the environ-
16 mental benefits, including the benefits to the aquatic envi-
17 ronment to be derived from the creation of wetlands and
18 control of shoreline erosion. The Federal share of such in-
19 cremental costs shall be determined in accordance with
20 subsections (d) and (f).

21 “(h) NONPROFIT ENTITIES.—Notwithstanding sec-
22 tion 221 of the Flood Control Act of 1970 (42 U.S.C.
23 1962d–5b), for any project carried out under this section,
24 a non-Federal interest may include a nonprofit entity, with
25 the consent of the affected local government.
