(7) it is in the national security interest of the United States to continue development, testing, and operations of the United States ballistic missile defense system to hedge against uncertainty in the de-
development, test, and fielding of ballistic missile capabilities by rogue nations.

SEC. 238. MODELING, ANALYSIS, AND SIMULATION OF MILITARY AND NON-MILITARY OPERATIONS IN COMPLEX URBAN ENVIRONMENTS.

Congress finds the following:

(1) Modeling, Analysis, and Simulation Technology has become an essential component in ensuring that we meet the defense challenges of the 21st century. It allows us to build and develop models of complex systems, effectively sharpen the tools, procedures, and decisions needed to address difficult problems, and determine how certain actions will affect the end result before implementing the plan in real life, thereby providing strategic, tactical and financial benefits. Every effort should be made to include Modeling, Analysis and Simulation Technology in the training and planning doctrines of the Department of Defense.
(2) Current and future military operations, and emergency management of natural and man-made disasters, do and will continue to involve operations in highly complex, urban environments. These environments include complex geographical, communications, transportation, informational, social, political, and public support subsystems. The interdependence of these subsystems and the cascading effects of warfare or disasters imposed upon them should be modeled in a computer simulation environment. It is important for the security and safety of the Department of Defense to study and understand the effects of warfare and disasters on the resiliency of urban environments and to develop a computer modeling and simulation decision-making tool for emergency consequence management of military, natural and man-made disasters in complex urban environments.

commission’s State, or upon the request of the Governor
of the commission’s State, whichever occurs first”.

SEC. 922. SENSE OF CONGRESS ON COMPLETION OF DE-
STRUCTION OF UNITED STATES CHEMICAL
WEAPONS STOCKPILE.

(a) FINDINGS.—Congress makes the following find-
ings:

(1) The Convention on the Prohibition of the
Development, Production, Stockpiling and Use of
Chemical Weapons and on Their Destruction, done
at Paris on January 13, 1993 (commonly referred to
as the “Chemical Weapons Convention”), originally
required that destruction of the entire United States
chemical weapons stockpile be completed by April
29, 2007, and then subsequently extended five years
to April 29, 2012.

(2) Destroying existing chemical weapons is a
homeland security imperative and an arms control
priority and is required by United States law.
(3) The program met its one percent and 20 percent destruction deadlines early, and is working towards its 45 percent destruction milestone date of December 31, 2007, as extended.

(4) The mission of the Assembled Chemical Weapons Alternatives (ACWA) program, established in the Department of Defense by Congress in 1997, is to safely destroy the chemical weapons stockpiles located at Pueblo Chemical Depot, Colorado, and Blue Grass Army Depot, Kentucky, through the demonstration of systems employing alternative technologies to the incineration process.

(5) Current ACWA plans call for the use of neutralization followed by on-site biotreatment of aqueous secondary wastes to destroy the Pueblo stockpile, and the use of neutralization followed by on-site supercritical water oxidation treatment of aqueous secondary wastes to destroy the Blue Grass stockpile.

(6) Affected communities in Colorado and Kentucky, represented respectively by the Colorado Chemical Demilitarization Citizens' Advisory Commission (CO CAC) and the Chemical Destruction Community Advisory Board (CDCAB), have made
clear their preference for on-site treatment of aque-
ous secondary wastes over off-site treatment.

(7) Section 921(b)(3) of the John Warner Na-
tional Defense Authorization Act for Fiscal Year
2007 (Public Law 109–364; 120 Stat. 2359) con-
tained a Sense of Congress urging the Secretary of
Defense to ensure the elimination of the United
States chemical weapons stockpile in the shortest
time possible, consistent with the requirement to
protect public health, safety, and the environment.

(8) Section 921(b)(4) of that Act contained a
Sense of Congress urging the Secretary of Defense
to propose a credible treatment and disposal process
with the support of affected communities.

(b) SENSE OF CONGRESS.—It is the sense of Con-
gress the Department of Defense should—

(1) continue with its plan for on-site disposal of
the ACWA-managed stockpiles located at Pueblo
Chemical Depot, Colorado, and Blue Grass Army
Depot, Kentucky; and

(2) ensure that extensive consultation and noti-
ification processes exist between representatives of
the Department of Defense and representatives of
the relevant States and local communities.

SEC. 1048. REPEAL OF CERTIFICATION REQUIREMENT.

SEC. 1049. PROHIBITION ON SALE BY DEPARTMENT OF DEFENSE OF PARTS FOR F–14 FIGHTER AIRCRAFT.

(a) FINDINGS.—Congress makes the following findings:

(1) The Department of Defense is responsible for demilitarizing and auctioning off sensitive surplus United States military equipment.

(2) F–14 “Tomcat” fighter aircraft have recently been retired, and their parts are being made available by auction in large quantities.

(3) Iran is the only country, besides the United States, flying F–14 fighter aircraft and is purchasing surplus parts for such aircraft from brokers.

(4) The Government Accountability Office has, as a result of undercover investigative work, declared the acquisition of the surplus United States military equipment, including parts for F–14 fighter aircraft, to be disturbingly effortless.

(5) Upon the seizure of such sensitive surplus military equipment being sold to Iran, United States customs agents have discovered these same items,
having been resold by the Department of Defense, being brokered illegally to Iran again.

(6) Iran is pursuing a nuclear weapons capability, and the Department of State has identified Iran as the most active state sponsor of terrorism.

(7) Iran continues to provide funding, safe haven, training, and weapons to known terrorist groups, including Hizballah, HAMAS, the Palestine Islamic Jihad, and the Popular Front for the Liberation of Palestine.

(8) The sale of spare parts for F–14 fighter aircraft could make it more difficult to confront the nuclear weapons capability of Iran and would strengthen the ground war capability of Iran. To prevent these threats to regional and global security, the sale of spare parts for F–14 fighter aircraft should be prohibited.

(b) Prohibition on Sale by Department of Defense.—

(1) In general.—Notwithstanding any other provision of law and except as provided in paragraph (2), the Department of Defense may not sell (whether directly or indirectly) any parts for F–14 fighter aircraft, whether through the Defense Reutilization
and Marketing Service or through another agency or element of the Department.

(2) Exception.—Paragraph (1) shall not apply with respect to the sale of parts for F–14 fighter aircraft to a museum or similar organization located in the United States that is involved in the preservation of F–14 fighter aircraft for historical purposes.

(e) Prohibition on Export License.—No license for the export of parts for F–14 fighter aircraft to a non-United States person or entity may be issued by the United States Government.

SEC. 1052. SENSE OF CONGRESS REGARDING NEED TO REPLACE ARMY M109 155MM SELF-PROPELLED HOWITZER.

(a) FINDINGS.—Congress finds the following:

(1) Military historians recognize the M109 155mm self-propelled howitzer as a pioneer of the configuration of modern mechanized artillery.

(2) The M109 was first used by the Army in combat during the Vietnam War.

(3) The Marine Corps also made use of the M109 during the Vietnam War, primarily in defensive ways similar to the Army.

(4) The Army adapted the M109 for use during the Gulf War, adding capability for more lethal DPICM rounds.

(5) The M109 has most recently demonstrated its usefulness in Operation Iraqi Freedom, dependably placing rounds downrange about two minutes after obtaining its mission.
(b) Sense of Congress.—It is the sense of Congress that, while the M109 155mm self-propelled howitzer has been a dependable military weapon for 40 years and recognizing the budgeting challenges facing the Armed Forces, the Army—

(1) has not been timely in procuring a replacement for the M109; and

(2) should transition to the NLOS-C as the replacement for the M109.

SEC. 1053. SENSE OF CONGRESS REGARDING DETAINEES AT NAVAL STATION, GUANTANAMO BAY, CUBA.

It is the sense of Congress that—

(1) the Nation extends its gratitude to the military personnel who guard and interrogate some of the world’s most dangerous men every day at Naval Station, Guantanamo Bay, Cuba;

(2) the international community, in general, and in particular, the home countries of the detainees who remain in detention despite having been ordered released by a Department of Defense administrative review board, should work with the Department of Defense to facilitate and expedite the repatriation of such detainees;
(3) detainees at Guantanamo Bay, to the maximum extent possible, should be charged and expeditiously prosecuted for crimes committed against the United States; and

(4) operations at Guantanamo Bay should be carried out in a way that upholds the national interest and core values of the American people.

SEC. 1055. SENSE OF CONGRESS REGARDING A MEMORIAL FOR MEMBERS OF THE ARMED FORCES WHO DIED IN AIR CRASH IN BAKERS CREEK, AUSTRALIA.

(a) FINDINGS.—Congress finds the following:

(1) During the Second World War, the United States Army Air Corps established rest and recreation facilities in Mackay, Queensland, Australia.

(2) From the end of January 1943 until early 1944, thousands of United States servicemen were ferried from jungle battlefields in New Guinea to Mackay.

(3) These servicemen traveled by air transport to spend an average of 10 days on a rest and relaxation furlough.

(4) They usually were carried by two B–17C Flying Fortresses converted for transport duty.

(5) On Monday, June 14, 1943, at about 6 a.m., a B–17C, Serial Number 40–2072, took off from Mackay Airport for Port Moresby.

(6) There were 6 crew members and 35 passengers aboard.

(7) The aircraft took off into fog and soon made two left turns at low altitude.

(8) A few minutes after takeoff, when it was five miles south of Mackay, the plane crashed at
Bakers Creek, killing everyone on board except Corporal Foye Kenneth Roberts of Wichita Falls, Texas, the sole survivor of the accident.

(9) The cause of the crash remains a mystery, and the incident remains relatively unknown outside of Australia.

(10) United States officials, who were under orders not to reveal the presence of Allied troops in Australia, kept the crash a military secret during the war.

(11) Due to wartime censorship, the news media did not report the crash.

(12) Relatives of the victims received telegrams from the United States War Department stating little more than that the serviceman had been killed somewhere in the South West Pacific.

(13) The remains of the 40 crash victims were flown to Townsville, Queensland, where they were buried in the Belgian Gardens United States military cemetery on June 19, 1943.

(14) In early 1946, they were disinterred and shipped to Hawaii, where 13 were reburied in the National Memorial Cemetery of the Pacific, and the remainder were returned to the United States mainland for reburial.
(15) 15 years ago, Robert S. Cutler was reading his father’s wartime journal and found a reference to the tragic B–17C airplane accident.

(16) This discovery inspired Mr. Cutler to embark upon a research project that would consume more than a decade and take him to Australia.

(17) Retired United States Air Force Chief Master Sergeant Teddy W. Hanks, of Wichita Falls, Texas, who lost four of his World War II buddies in the crash, compiled a list of the casualties from United States archives in 1993 and began searching for their families.

(18) The Bakers Creek Memorial Association, in conjunction with the Washington Post and retired United States Army genealogy experts Charles Gailey and Arvon Staats, located 23 additional families of victims of the accident during the past two years.

(19) Joy Shingleton, Donnie Tenney, Wendy Andrus, and Wilma Post, the family of Army Air Corps Corporal Edward J. Tenney, of Buckhannon, West Virginia, helped to bring this recently uncovered World War II tragedy to light.
(20) The commander of the United States Fifth Air Force officially had notified the relatives of 36 of the 40 victims.

(b) Sense of Congress.—It is the sense of Congress that an appropriate site in Arlington National Cemetery should be provided for a memorial marker to honor the memory of the 40 members of the Armed Forces of the United States who lost their lives in the air crash at Bakers Creek, Australia, on June 14, 1943, provided that the Secretary of the Army have exclusive authority to approve the design and site for the memorial marker.

(b) Report.—

(1) In general.—Not later than February 1, 2008, the Administrator shall submit to the congressional defense committees a report on the results of the study. The report shall be in unclassified form, but may include a classified annex.
(2) MATTERS INCLUDED.—The report shall contain the assessment of the Administrator of the results of the study, including—

(A) an assessment of—

(i) whether using existing pits to remanufacture warheads for the RRW program is technically feasible;

(ii) whether remanufacturing warheads with existing pits is more desirable than remanufacturing warheads with newly manufactured pits;

(iii) the number of existing pits suitable for such remanufacturing;

(iv) whether proceeding to remanufacture warheads with existing pits before remanufacturing warheads with newly manufactured pits is desirable; and

(v) the extent to which remanufacturing warheads with existing pits, as compared to remanufacturing warheads with newly manufactured pits, would reduce future requirements for new pit production, and how such use of existing pits would affect the schedule and scope for new pit production; and
(B) a comparison of the requirements for certifying—

(i) warheads remanufactured with existing pits;

(ii) warheads remanufactured with newly manufactured pits; and

(iii) warheads maintained by the Stockpile Life Extension Programs.

(e) DEFINITIONS.—For the purposes of this section, the terms “remanufacturing” and “remanufacture” mean the replacement of existing warheads with modern components that are designed to increase the reliability, safety, and surety of the warhead, but that do not alter the yield of the warhead or affect military characteristics of the warhead in any way.

(d) FUNDING.—Of the amounts made available pursuant to the authorization of appropriations in section 3101(a)(1), such funds as may be necessary shall be available to carry out this section.

(A) only of contractor employees;

(B) only of Federal employees;
