Fees required by this subparagraph shall be in addition to the fees required under subparagraph (B), if any. Fees under this subparagraph shall be due 20 days before any direct-to-consumer television advertisement is sub-

the submission of proposed direct-to-consumer
television advertisements for advisory review
prior to initial broadcast.

“(B) DETERMINATION OF WORKLOAD AD-

“(B) ANNUAL FEE.—The Secretary shall, 60 days before the start of each fiscal year, establish, for the next fiscal year, the direct-to-consumer television advertisement advisory review fee under subsection (a)(1), based on the revenue amounts established under subsection (b), the adjustments provided under this subsection and the number of direct-to-consumer television advertisements identified pursuant to subparagraph (A), excluding allowable previously paid carry over submissions. The annual advisory review fee shall be established by dividing the fee revenue for a fiscal year (as adjusted pursuant to this subsection) by the number of direct-to-consumer television advertisements identified pursuant to subparagraph (A), excluding allowable previously paid carry over submissions.

“(C) FISCAL YEAR 2008 FEE LIMIT.—Notwithstanding subsection (b), the fee established under subparagraph (B) for fiscal year 2008

revenue amount established for that fiscal year.

“(2) FEE SETTING.—The Secretary shall estab-
lish the operating reserve fee under subsection
(a)(2)(A) for each person required to pay the fee by multiplying the number of direct-to-consumer television advertisements identified by that person pursuant to subsection (c)(3)(A) by the advisory review fee established pursuant to subsection (c)(3) for that fiscal year. In no case shall the operating reserve fee assessed be less than the operating reserve fee assessed if the person had first participated in the Program in fiscal year 2008.

“(3) USE OF OPERATING RESERVE.—The Secretary may use funds from the reserves under this subsection only to the extent necessary in any fiscal year to make up the difference between the fee revenue amount established for that fiscal year under subsection (b) and the amount of fees collected for that fiscal year pursuant to subsection (a), or to pay costs of ending the Program if it is terminated pursuant to subsection (f) or if it is not reauthorized after fiscal year 2012.

“(1) First Fiscal Year.—If on November 1,
2007, or 120 days after enactment of the Prescrip-

is later, the Secretary has received less than
$11,250,000 in advisory review fees and operating
reserve fees combined, the Program shall be termi-
nated and all collected fees shall be refunded.

“(2) Subsequent Fiscal Years.—Beginning
in fiscal year 2009, if, on November 1 of a fiscal
year, the combination of the operating reserves, an-
nual fee revenues from that fiscal year, and unobligated fee revenues from prior fiscal years is less than $9,000,000, adjusted for inflation (in accordance with subsection (c)(1)), the Program shall be terminated, and the Secretary shall notify all participants, retain any money from the unused advisory review fees and the operating reserves needed to terminate the Program, and refund the remainder of the unused fees and operating reserves. To the extent required to terminate the Program, the Secretary shall first use unobligated advisory review fee revenues from prior fiscal years, then the operating reserves, and then unused advisory review fees from the relevant fiscal year.

“(g) CREDITING AND AVAILABILITY OF FEES.—

“(1) IN GENERAL.—Fees authorized under subsection (a) shall be collected and available for obligation only to the extent and in the amount provided in advance in appropriations Acts. revenues made under this section, plus amounts collected for the reserve fund under subsection (d).

“(4) OFFSET.—Any amount of fees collected for a fiscal year under this section that exceeds the amount of fees specified in appropriation Acts for such fiscal year shall be credited to the appropriation account of the Food and Drug Administration as provided in paragraph (1), and shall be subtracted from the amount of fees that would otherwise be collected under this section pursuant to appropriation Acts for a subsequent fiscal year.

vision advertisements, the activities necessary to re-
view and provide advisory comments on other pro-
posed advertisements and promotional material prior
to public dissemination.

“(6) The term ‘Program’ means the Program
to assess, collect, and use fees for the advisory re-
view of prescription drug advertising established by
this section.

“(7) The term ‘resources allocated for the proc-
ess for the advisory review of prescription drug ad-
vertising’ means the expenses incurred in connection
with the process for the advisory review of prescription drug advertising for—

“(A) officers and employees of the Food and Drug Administration, contractors of the Food and Drug Administration, advisory committees, and costs related to such officers, employees, and committees, and to contracts with such contractors;

“(B) management of information, and the acquisition, maintenance, and repair of computer resources;

“(C) leasing, maintenance, renovation, and repair of facilities and acquisition, maintenance, and repair of fixtures, furniture, scientific equipment, and other necessary materials and supplies;

“(D) collection of fees under this section and accounting for resources allocated for the advisory review of prescription drug advertising; and

“(8) The term ‘resubmission’ means a subsequent submission for advisory review of a direct-to-consumer television advertisement that has been re-
vised in response to the Secretary’s comments on an
original submission. A resubmission may not intro-
duce significant new concepts or creative themes into
the television advertisement.

“(9) The term ‘submission for advisory review’
means an original submission of a direct-to-con-
sumer television advertisement for which the sponsor
voluntarily requests advisory comments before the
advertisement is publicly disseminated.

“(3) **Routine active surveillance and assessment.**

“(A) **Development of the postmarket risk identification and analysis system.**—The Secretary shall, not later than 2 years after the date of enactment of the Enhancing Drug Safety and Innovation Act of 2007, act in collaboration with academic institutions and private entities to—

“(i) establish minimum standards for collection and transmission of postmarketing data elements from electronic health data systems; and

“(ii) establish, through partnerships, a validated and integrated postmarket risk identification and analysis system to integrate and analyze safety data from multiple sources, with the goals of including, in aggregate—

“(I) at least 25,000,000 patients by July 1, 2010; and

“(II) at least 100,000,000 patients by July 1, 2012.

“(i) IN GENERAL.—The Secretary shall, not later than 1 year after the establishment of the minimum standards and the identification and analysis system under subparagraph (A), establish and maintain an active surveillance infrastructure—

“(I) to collect and report data for pharmaceutical postmarket risk identification and analysis, in compliance with the regulations promulgated under section 264(e) of the Health Insurance Portability and Accountability Act of 1996; and

“(II) that includes, in addition to the collection and monitoring (in a standardized form) of data on all serious adverse drug experiences (as defined in subsection (o)(2)(C)) required to be submitted to the Secretary under paragraph (1), and those events voluntarily submitted from patients, providers, and drug, when appropriate, procedures to—
“(aa) provide for adverse event surveillance by collecting and monitoring Federal health-related electronic data (such as data from the Medicare program and the health systems of the Department of Veterans Affairs);

“(bb) provide for adverse event surveillance by collecting and monitoring private sector health-related electronic data (such as pharmaceutical purchase data and health insurance claims data);

“(cc) provide for adverse event surveillance by monitoring standardized electronic health records, as available;

“(gg) enable the program to export data in a form appropriate for further aggregation, statistical analysis, and reporting.

“(ii) Timeliness of Reporting.—The procedures developed under clause (i) shall ensure that such data are collected, monitored, and reported in a timely, routine, and automatic manner, taking into consideration the need for data completeness, coding, cleansing, and transmission.
“(iii) **PRIVATE SECTOR RESOURCES.**—

To ensure the establishment of the active surveillance infrastructure by the date described under clause (i), the Secretary may, on a temporary or permanent basis, implement systems or products developed by private entities.

“(iv) **COMPLEMENTARY APPROACHES.**—To the extent the active surveillance infrastructure established under clause (i) is not sufficient to gather data and information relevant to priority drug safety questions, the Secretary shall develop, support, and participate in complementary approaches to gather and analyze such data and information, including—

“(I) approaches that are complementary with respect to assessing the safety of use of a drug in domestic populations not included in the trials used to approve the drug (such as older people, people with comorbidities, pregnant women, or children); and
“(II) existing approaches such as
the Vaccine Adverse Event Reporting
System and the Vaccine Safety
Datalink or successor databases.

“(v) AUTHORITY FOR CONTRACTS.—
The Secretary may enter into contracts
with public and private entities to fulfill
the requirements of this subparagraph.

“(C) RISK IDENTIFICATION AND ANAL-
YSIS.—

“(i) PURPOSE.—To carry out this
paragraph, the Secretary shall establish
collaborations with other Government, aca-
demic, and private entities, including the
Centers for Education and Research on
Therapeutics under section 912 of the
Public Health Service Act, to provide for
the risk identification and analysis of the
data collected under subparagraph (B) and

tical trials under subsection (o)(4)(C).

“(iii) Procedures for the development of drug safety collaborations.—

“(I) In general.—Not later than 180 days after the date of the establishment of the active surveillance infrastructure under subparagraph (B), the Secretary shall establish and implement procedures under which the Secretary may routinely collaborate with a qualified entity to—

“(aa) clean, classify, or aggregate data collected under subparagraph (B) and data that is publicly available or is provided by the Secretary;

“(bb) allow for prompt investigation of priority drug safety questions, including—

“(AA) unresolved safety questions for drugs or classes of drugs; and

“(dd) convene an expert advisory committee to oversee the establishment of standards for the ethical and scientific uses for, and communication of, post-marketing data collected under subparagraph (B), including advising on the development of ef-
effective research methods for the study of drug safety questions;

“(ee) focus postmarket studies under subsection (o)(4)(B) and postapproval clinical trials under subsection (o)(4)(C) more effectively on cases for which reports under paragraph (1) and other safety signal detection is not sufficient to resolve whether there is an elevated risk of a serious adverse event associated with the use of a drug; and

“(ff) carry out other activities as the Secretary deems necessary to carry out the purposes of this paragraph.

“(II) REQUEST FOR SPECIFIC METHODOLOGY.—The procedures described in subclause (I) shall permit the Secretary to request that a specific methodology be used by the qualified entity. The qualified entity shall work with the Secretary to finalize the methodology to be used.

“(II) COMPONENT OF ANOTHER ORGANIZATION.—If a qualified entity is a component of another organization—

“(aa) the qualified entity shall maintain the data related to the activities carried out under this paragraph separate from the other components of the organization and establish appropriate security measures to maintain the confidentiality and privacy of such data; and

“(bb) the entity shall not make an unauthorized disclosure of such data to the other components of the organization in
breach of such confidentiality and privacy requirement.

“(III) TERMINATION OR NON-RENEWAL.—If a contract with a qualified entity under this subparagraph is terminated or not renewed, the following requirements shall apply:

“(aa) CONFIDENTIALITY AND PRIVACY PROTECTIONS.—The entity shall continue to comply with the confidentiality and privacy requirements under this paragraph with respect to all data disclosed to the entity.

SEC. 202. RISK EVALUATION AND MITIGATION STRATEGIES.

Section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) is amended by adding at the end the following:

“(o) RISK EVALUATION AND MITIGATION STRATEGY.—

“(1) IN GENERAL.—In the case of any drug subject to subsection (b) or to section 351 of the Public Health Service Act for which a risk evaluation and mitigation strategy is approved as provided for in this subsection, the applicant shall comply with the requirements of such strategy.

“(2) DEFINITIONS.—In this subsection:

“(A) ADVERSE DRUG EXPERIENCE.—The term ‘adverse drug experience’ means any adverse event associated with the use of a drug in humans, whether or not considered drug related, including—

“(i) an adverse event occurring in the course of the use of the drug in professional practice;

“(ii) an adverse event occurring from an overdose of the drug, whether accidental or intentional;

“(iii) an adverse event occurring from abuse of the drug;
“(iv) an adverse event occurring from withdrawal of the drug; and

“(v) any failure of expected pharmacological action of the drug.

“(B) NEW SAFETY INFORMATION.—The term ‘new safety information’ with respect to a drug means information about—

“(i) a serious risk or an unexpected serious risk with use of the drug that the Secretary has become aware of since the later of—

“(I) the date of initial approval of the drug under this section or initial licensure of the drug under section 351 of the Public Health Service Act; or

“(II) if applicable, the last assessment of the approved risk evaluation and mitigation strategy for the drug; or

“(ii) the effectiveness of the approved risk evaluation and mitigation strategy for the drug obtained since the later of—

“(I) the approval of such strategy; or
“(II) the last assessment of such strategy.

“(C) Serious adverse drug experience.—The term ‘serious adverse drug experience’ is an adverse drug experience that—

“(i) results in—

“(I) death;

“(II) the placement of the patient at immediate risk of death from the adverse drug experience as it occurred (not including an adverse drug experience that might have caused death had it occurred in a more severe form);

“(III) inpatient hospitalization or prolongation of existing hospitalization;

“(IV) a persistent or significant incapacity or substantial disruption of the ability to conduct normal life functions; or

“(V) a congenital anomaly or birth defect; or

“(ii) based on appropriate medical judgment, may jeopardize the patient and
may require a medical or surgical interven-
tion to prevent an outcome described under
clause (i).

“(D) **Serious Risk.**—The term ‘serious
risk’ means a risk of a serious adverse drug ex-
perience.

“(E) **Signal of a Serious Risk.**—The
term ‘signal of a serious risk’ means informa-
tion related to a serious adverse drug experi-
ence derived from—

“(i) a clinical trial;

“(ii) adverse event reports under sub-
section (k)(1);

“(iii) routine active surveillance under
subsection (k)(3);

“(iv) a postapproval study, including a
study under paragraph (4)(B); or

“(v) peer-reviewed biomedical lit-
erature.

“(F) **Unexpected Serious Risk.**—The
term ‘unexpected serious risk’ means a serious
adverse drug experience that—

“(i) is not listed in the labeling of a
drug; or
“(ii) is symptomatically and pathophysiologically related to an adverse drug experience listed in the labeling of the drug, but differs from such adverse drug experience because of greater severity, specificity, or prevalence.

“(3) REQUIRED ELEMENTS OF A RISK EVALUATION AND MITIGATION STRATEGY.—If a risk evaluation and mitigation strategy for a drug is required, such strategy shall include—

“(A) the labeling for the drug for use by health care providers as approved under subsection (c);

“(B) a timetable for submission of assessments of the strategy, that—

“(i) for a drug no active ingredient (including any ester or salt of the active ingredient) of which has been approved in any other application under this section or section 351 of the Public Health Service Act—

“(I) shall be no less frequently than 18 months and 3 years after the drug is initially approved and at a fre-
frequency specified in the strategy for
subsequent years; and

“(II) may be eliminated after the
first 3 years if the Secretary deter-
mines that serious risks of the drug
have been adequately identified and
assessed and are being adequately
managed;

“(ii) for a drug other than a drug de-
scribed under clause (i), shall occur at a
frequency determined by the Secretary;
and

“(iii) may be increased or reduced in
frequency as necessary as provided for in
paragraph (7)(B)(v)(VI).

“(4) ADDITIONAL POTENTIAL EVALUATION
ELEMENTS OF A RISK EVALUATION AND MITIGATION
STRATEGY.—

“(A) RISK EVALUATION.—If a risk evalua-
tion and mitigation strategy for a drug is re-
quired, such strategy may include 1 or more of
the additional evaluation elements described in
this paragraph, so long as the Secretary makes
the determination required with respect to each
additional included element.
“(B) POSTAPPROVAL STUDIES.—If the Secretary determines that the reports under subsection (k)(1) and routine active surveillance as available under subsection (k)(3) (including available complementary approaches under subsection (k)(3)(B)(iv)) will not be sufficient to—

“(i) assess a signal of a serious risk with use of a drug; or

“(ii) identify, based on a review of a demonstrated pattern of use of the drug, unexpected serious risks in a domestic population, including older people, people with comorbidities, pregnant women, or children,

the risk evaluation and mitigation strategy for the drug may require that the applicant conduct an appropriate postapproval study, such as a prospective or retrospective observational study, of the drug (which shall include a timeframe specified by the Secretary for completing the study and reporting the results to the Secretary).

“(C) POSTAPPROVAL CLINICAL TRIALS.—If the Secretary determines that the reports under subsection (k)(1), routine active surveillance as
available under subsection (k)(3) (including available complementary approaches under subsection (k)(3)(B)(iv)), and a study or studies under subparagraph (B) will likely be inadequate to assess a signal of a serious risk with use of a drug, and there is no effective approved application for the drug under subsection (j) as of the date that the requirement is first imposed, the risk evaluation and mitigation strategy for the drug may require that the applicant conduct an appropriate postapproval clinical trial of the drug (which shall include a timeframe specified by the Secretary for completing the clinical trial and reporting the results to the Secretary) to be included in the clinical trial registry data bank provided for under subsections (i) and (j) of section 402 of the Public Health Service Act.

“(5) ADDITIONAL POTENTIAL COMMUNICATION ELEMENTS OF A RISK EVALUATION AND MITIGATION STRATEGY.—

“(A) RISK COMMUNICATION.—If a risk evaluation and mitigation strategy for a drug is required, such strategy may include 1 or more of the additional communication elements de-
scribed in this paragraph, so long as the Secretary makes the determination required with respect to each additional included element.

"(B) MEDGUIDE; PATIENT PACKAGE INSERT.—The risk evaluation and mitigation strategy for a drug may require that the applicant develop for distribution to each patient when the drug is dispensed either or both of the following:

"(i) A Medication Guide, as provided for under part 208 of title 21, Code of Federal Regulations (or any successor regulations).

"(ii) A patient package insert, if the Secretary determines that such insert may help mitigate a serious risk listed in the labeling of the drug.

"(C) COMMUNICATION PLAN.—If the Secretary determines that a communication plan to health care providers may support implementation of an element of the risk evaluation and mitigation strategy for a drug, such as a labeling change, the strategy may require that the applicant conduct such a plan, which may include—
“(i) sending letters to health care providers;

“(ii) disseminating information about the elements of the strategy to encourage implementation by health care providers of components that apply to such health care providers, or to explain certain safety protocols (such as medical monitoring by periodic laboratory tests); or

“(iii) disseminating information to health care providers through professional societies about any serious risks of the drug and any protocol to assure safe use.

“(D) PREREVIEW.—

“(i) IN GENERAL.—If the Secretary determines that prereview of advertisements is necessary to ensure the inclusion of a true statement in such advertisements of information in brief summary relating to a serious risk listed in the labeling of a drug, or relating to a protocol to ensure the safe use described in the labeling of the drug, the risk evaluation and mitigation strategy for the drug may require that the applicant submit to the Secretary adver-
tisements of the drug for prereview not
later than 45 days before dissemination of
the advertisement

“(ii) Specification of advertisements.—The Secretary may specify the
advertisements required to be submitted
under clause (i).

“(E) Specific disclosures.—

“(i) Serious risk; safety protocol.—If the Secretary determines that
advertisements lacking a specific disclosure
about a serious risk listed in the labeling
of a drug or about a protocol to ensure
safe use described in the labeling of the
drug would be false or misleading, the risk
evaluation and mitigation strategy for the
drug may require that the applicant in-
clude in advertisements of the drug such
disclosure.

“(ii) Date of approval.—If the
Secretary determines that advertisements
lacking a specific disclosure of the date a
drug was approved and disclosure of a se-
rious risk would be false or misleading, the
risk evaluation and mitigation strategy for
the drug may require that the applicant include in advertisements of the drug such disclosure.

“(iii) SPECIFICATION OF ADVERTISEMENTS.—The Secretary may specify the advertisements required to include a specific disclosure under clause (i) or (ii).

“(iv) REQUIRED SAFETY SURVEILLANCE.—If the approved risk evaluation and mitigation strategy for a drug requires the specific disclosure under clause (ii), the Secretary shall—

“(I) consider identifying and assessing all serious risks of using the drug to be a priority safety question under subsection (k)(3)(B);

“(II) not less frequently than every 3 months, evaluate the reports under subsection (k)(1) and the routine active surveillance as available under subsection (k)(3) with respect to such priority drug safety question to determine whether serious risks that might occur among patients expected to be treated with the drug
have been adequately identified and assessed;

“(III) remove such specific disclosure requirement as an element of such strategy if such serious risks have been adequately identified and assessed; and

“(IV) consider whether a specific disclosure under clause (i) should be required.

“(6) PROVIDING SAFE ACCESS FOR PATIENTS TO DRUGS WITH KNOWN SERIOUS RISKS THAT WOULD OTHERWISE BE UNAVAILABLE.—

“(A) ALLOWING SAFE ACCESS TO DRUGS WITH KNOWN SERIOUS RISKS.—The Secretary may require that the risk evaluation and mitigation strategy for a drug include such elements as are necessary to assure safe use of the drug, because of its inherent toxicity or potential harmfulness, if the Secretary determines that—

“(i) the drug, which has been shown to be effective, but is associated with a serious adverse drug experience, can be approved only if, or would be withdrawn un-
less, such elements are required as part of
such strategy to mitigate a specific serious
risk listed in the labeling of the drug; and

“(ii) for a drug initially approved
without elements to assure safe use, other
elements under paragraphs (3), (4), and
(5) are not sufficient to mitigate such seri-
ous risk.

“(B) ASSURING ACCESS AND MINIMIZING
BURDEN.—Such elements to assure safe use
under subparagraph (A) shall—

“(i) be commensurate with the spe-
cific serious risk listed in the labeling of
the drug;

“(ii) within 30 days of the date on
which any element under subparagraph (A)
is imposed, be posted publicly by the Sec-
retary with an explanation of how such ele-
ments will mitigate the observed safety
risk;

“(iii) considering such risk, not be un-
duly burdensome on patient access to the
drug, considering in particular—
“(I) patients with serious or life-threatening diseases or conditions; and

“(II) patients who have difficulty accessing health care (such as patients in rural or medically underserved areas); and

“(iv) to the extent practicable, so as to minimize the burden on the health care delivery system—

“(I) conform with elements to assure safe use for other drugs with similar, serious risks; and

“(II) be designed to be compatible with established distribution, procurement, and dispensing systems for drugs.

“(C) ELEMENTS TO ASSURE SAFE USE.—

The elements to assure safe use under subparagraph (A) shall include 1 or more goals to mitigate a specific serious risk listed in the labeling of the drug and, to mitigate such risk, may require that—

“(i) health care providers who prescribe the drug have particular training or
experience, or are specially certified (which training or certification with respect to the drug shall be available to any willing provider from a frontier area in a widely available training or certification method (including an on-line course or via mail) as approved by the Secretary at minimal cost to the provider);

“(ii) pharmacies, practitioners, or health care settings that dispense the drug are specially certified (which certification shall be available to any willing provider from a frontier area);

“(iii) the drug be dispensed to patients only in certain health care settings, such as hospitals;

“(iv) the drug be dispensed to patients with evidence or other documentation of safe-use conditions, such as laboratory test results;

“(v) each patient using the drug be subject to certain monitoring; or

“(vi) each patient using the drug be enrolled in a registry.
“(D) IMPLEMENTATION SYSTEM.—The elements to assure safe use under subparagraph (A) that are described in clauses (ii), (iii), or (iv) of subparagraph (C) may include a system through which the applicant is able to take reasonable steps to—

“(i) monitor and evaluate implementation of such elements by health care providers, pharmacists, and other parties in the health care system who are responsible for implementing such elements; and

“(ii) work to improve implementation of such elements by such persons.

“(E) EVALUATION OF ELEMENTS TO ASSURE SAFE USE.—The Secretary, through the Drug Safety and Risk Management Advisory Committee (or successor committee) of the Food and Drug Administration, shall—

“(i) seek input from patients, physicians, pharmacists, and other health care providers about how elements to assure safe use under this paragraph for 1 or more drugs may be standardized so as not to be—
“(I) unduly burdensome on patient access to the drug; and

“(II) to the extent practicable, minimize the burden on the health care delivery system;

“(ii) at least annually, evaluate, for 1 or more drugs, the elements to assure safe use of such drug to assess whether the elements—

“(I) assure safe use of the drug;  
“(II) are not unduly burdensome on patient access to the drug; and  
“(III) to the extent practicable, minimize the burden on the health care delivery system; and  
“(iii) considering such input and evaluations—

“(I) issue or modify agency guidance about how to implement the requirements of this paragraph; and  
“(II) modify elements under this paragraph for 1 or more drugs as appropriate.

“(F) ADDITIONAL MECHANISMS TO ASSURE ACCESS.—The mechanisms under section
561 to provide for expanded access for patients with serious or life-threatening diseases or conditions may be used to provide access for patients with a serious or life-threatening disease or condition, the treatment of which is not an approved use for the drug, to a drug that is subject to elements to assure safe use under this paragraph. The Secretary shall promulgate regulations for how a physician may provide the drug under the mechanisms of section 561.

“(G) WAIVER IN PUBLIC HEALTH EMERGENCIES.—The Secretary may waive any requirement of this paragraph during the period described in section 319(a) of the Public Health Service Act with respect to a qualified countermeasure described under section 319F–1(a)(2) of such Act, to which a requirement under this paragraph has been applied, if the Secretary has—

“(i) declared a public health emergency under such section 319; and

“(ii) determined that such waiver is required to mitigate the effects of, or reduce the severity of, such public health emergency.
“(7) Submission and review of risk evaluation and mitigation strategy.—

“(A) Proposed risk evaluation and mitigation strategy.—

“(i) Voluntary proposal.—If there is a signal of a serious risk with a drug, an applicant may include a proposed risk evaluation and mitigation strategy for the drug in an application, including in a supplemental application, for the drug under subsection (b) or section 351 of the Public Health Service Act.

“(ii) Required proposal.—

“(I) Determination necessary to require a proposal.—

“(aa) In general.—The Secretary may require that the applicant for a drug submit a proposed risk evaluation and mitigation strategy for a drug if the Secretary (acting through the office responsible for reviewing the drug and the office responsible for postapproval safety with respect to the drug) determines
that, based on a signal of a serious risk with the drug, a risk evaluation and mitigation strategy is necessary to assess such signal or mitigate such serious risk.

“(bb) NON-DELEGATION.—A determination under item (aa) for a drug shall be made by individuals at or above the level of individuals empowered to approve a drug (such as division directors within the Center for Drug Evaluation and Research).

“(II) CIRCUMSTANCES IN WHICH A PROPOSAL MAY BE REQUIRED.—The applicant shall submit a proposed risk evaluation and mitigation strategy for a drug—

“(aa) in response to a letter from the Secretary (acting through the office responsible for reviewing the drug and the office responsible for postapproval safety with respect to the drug) sent
regarding an application, including a supplemental application, for the drug, if the Secretary determines that data or information in the application indicates that an element under paragraph (4), (5), or (6) should be included in a strategy for the drug;

“(bb) within a timeframe specified by the Secretary, not to be less than 45 days, when ordered by the Secretary (acting through such offices), if the Secretary determines that new safety information indicates that—

“(AA) the labeling of the drug should be changed; or

“(BB) an element under paragraph (4) or (5) should be included in a strategy for the drug; or

“(cc) within 90 days when ordered by the Secretary (acting through such offices), if the Sec-
retary determines that new safety
information indicates that an ele-
ment under paragraph (6) should
be included in a strategy for the
drug.

“(iii) CONTENT OF LETTER.—A letter
under clause (ii)(II)(aa) shall describe—

“(I) the data or information in
the application that warrants the pro-
posal of a risk evaluation and mitiga-
tion strategy for the drug; and

“(II) what elements under para-
graphs (4), (5), or (6) should be in-
cluded in a strategy for the drug.

“(iv) CONTENT OF ORDER.—An order
under item (aa) or (bb) of clause (ii)(II)
shall describe—

“(I) the new safety information
with respect to the drug that warrants
the proposal of a risk evaluation and
mitigation strategy for the drug; and

“(II) whether and how the label-
ing of the drug should be changed and
what elements under paragraphs (4),
(5), or (6) should be included in a strategy for the drug.

“(v) CONTENT OF PROPOSAL.—A proposed risk evaluation and mitigation strategy—

“(I) shall include a timetable as described under paragraph (3)(B); and

that many Food and Drug Administration-approved drugs
used in the treatment of orphan diseases in children may
not be approved for pediatric indications.

(b) SENSE OF THE SENATE.—It is the sense of the
Senate that the Food and Drug Administration should
enter into a contract with the Institute of Medicine for
the conduct of a study concerning measures that may be
taken to improve the likelihood that Food and Drug Ad-
ministration-approved drugs that are safe and effective in
treating children with orphan diseases are made available
and affordable for pediatric indications.

SEC. 515. ENHANCED AQUACULTURE AND SEAFOOD INSPECTION.

(a) FINDINGS.—Congress finds the following:
(1) In 2007, there has been an overwhelming increase in the volume of aquaculture and seafood that has been found to contain substances that are not approved for use in food in the United States.

(2) As of May 2007, inspection programs are not able to satisfactorily accomplish the goals of ensuring the food safety of the United States.

property is vital to the continued development of
new and life-saving drugs and future growth of the
United States economy.
(3) In order to maintain the global competitiveness of the United States, the United States Trade Representative's Office of Intellectual Property and Innovation develops and implements trade policy in support of vital American innovations, including innovation in the pharmaceutical and medical technology industries.

(4) The United States Trade Representative also provides trade policy leadership and expertise across the full range of interagency initiatives to enhance protection and enforcement of intellectual property rights.

(5) Strong and fair intellectual property protection, including patent, copyright, trademark, and data protection plays an integral role in fostering economic growth and development and ensuring patient access to the most effective medicines around the world.

Americans bear the majority of research and development costs for the world, which could undermine the value of existing United States pharmaceutical patents and could impede access to important therapies.

“(5) The Secretary may compromise, modify, remit, with or without conditions, any civil penalty which may be assessed under paragraph (1). The amount of such penalty, when finally determined, or the amount charged upon in compromise, may be deducted from any sums owned by the United States to the applicant charged.

SEC. 520. REPORT BY THE FOOD AND DRUG ADMINISTRA-
TION REGARDING LABELING INFORMATION
ON THE RELATIONSHIP BETWEEN THE USE
OF INDOOR TANNING DEVICES AND DEVEL-

DAMAGE.

(a) IN GENERAL.—The Secretary of Health and
Human Services (referred to in this section as the “Sec-
retary”), acting through the Commissioner of Food and
Drugs, shall determine—
(1) whether the labeling requirements for indoor tanning devices, including the positioning requirements, provide sufficient information to consumers regarding the risks that the use of such devices pose for the development of irreversible damage to the eyes and skin, including skin cancer; and

(2)(A) whether modifying the warning label required on tanning beds to read, "Ultraviolet radiation can cause skin cancer", or any other additional warning, would communicate the risks of indoor tanning more effectively; or

(b) Consumer Testing.—In making the determinations under subsection (a), the Secretary shall conduct appropriate consumer testing, using the best available methods for determining consumer understanding of label warnings.

**TITLE VI—FOOD SAFETY**

**SEC. 601. FINDINGS.**

(a) **FINDINGS.**—Congress finds that—

(1) the safety and integrity of the United
States food supply is vital to the public health, to
public confidence in the food supply, and to the suc-
cess of the food sector of the Nation’s economy;

(2) illnesses and deaths of individuals and com-
panion animals caused by contaminated food—

(A) have contributed to a loss of public

   confidence in food safety; and

(B) have caused significant economic losses
to manufacturers and producers not responsible
for contaminated food items;

(3) the task of preserving the safety of the food
supply of the United States faces tremendous pres-
ures with regard to—

(A) emerging pathogens and other con-
taminants and the ability to detect all forms of
contamination; and
an increasing volume of imported food
from a wide variety of countries; and
a shortage of adequate resources for
monitoring and inspection;
the United States is increasing the amount
of food that it imports such that—
(A) from 2003 to the present, the value of
food imports has increased from
$45,600,000,000 to $64,000,000,000; and
(B) imported food accounts for 13 percent
of the average Americans diet including 31 per-
cent of fruits, juices, and nuts, 9.5 percent of
red meat and 78.6 percent of fish and shellfish;
and
the number of full time equivalent Food and
Drug Administration employees conducting inspec-
tions has decreased from 2003 to 2007.

SEC. 602. ENSURING THE SAFETY OF PET FOOD.
(a) PROCESSING AND INGREDIENT STANDARDS.—
Not later than 18 months after the date of enactment of
this Act, the Secretary of Health and Human Services (re-

with the Association of American Feed Control Officials,
and other relevant stakeholder groups, including veteri-
inary medical associations, animal health organizations,
and pet food manufacturers, shall by regulation establish—

(2) updated standards for the labeling of pet food that includes nutritional information and ingredient information.

(b) Early Warning Surveillance Systems and Notification During Pet Food Recalls.—Not later than 180 days after the date of enactment of this Act, the Secretary shall by regulation establish an early warning and surveillance system to identify adulteration of the pet food supply and outbreaks of illness associated with pet food. In establishing such system, the Secretary shall—

SEC. 605. ADULTERATED FOOD REGISTRY.

(a) FINDINGS.—Congress makes the following findings:

(1) In 1994, Congress passed the Dietary Supplement Health and Education Act (P.L. 103–417) to provide the Food and Drug Administration with the legal framework to ensure that dietary supplements are safe and properly labeled foods.

(2) In 2006, Congress passed the Dietary Supplement and Nonprescription Drug Consumer Protection Act (P.L. 109–462) to establish a mandatory reporting system of serious adverse events for non-prescription drugs and dietary supplements sold and consumed in the United States.

(3) The adverse event reporting system created under the Dietary Supplement and Nonprescription Drug Consumer Protection Act will serve as the early warning system for any potential public health issues associated with the use of these food products.

(4) A reliable mechanism to track patterns of adulteration in food would support efforts by the Food and Drug Administration to effectively target limited inspection resources to protect the public health.
(b) IN GENERAL.—Chapter IV of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341 et seq.) is amended by adding at the end the following:

SEC. 606. SENSE OF THE SENATE.

It is the sense of the Senate that—

(1) it is vital for Congress to provide the Food and Drug Administration with additional resources, authorities, and direction with respect to ensuring the safety of the food supply of the United States;
(2) additional inspectors are required to improve the Food and Drug Administration’s ability to safeguard the food supply of the United States;

(3) because of the increasing volume of international trade in food products the Secretary of Health and Human Services should make it a priority to enter into agreements with the trading partners of the United States with respect to food safety; and

(4) the Senate should work to develop a comprehensive response to the issue of food safety.

SEC. 607. ANNUAL REPORT TO CONGRESS.

The Secretary shall, on an annual basis, submit to the Committee on Health, Education, Labor, and Pensions and the Committee on Appropriations of the Senate and the Committee on Energy and Commerce and the Committee on Appropriations of the House of Representatives a report that includes, with respect to the preceding 1-year period—

(1) the number and amount of food products regulated by the Food and Drug Administration imported into the United States, aggregated by country and type of food;

(2) a listing of the number of Food and Drug Administration inspectors of imported food products
referenced in paragraph (1) and the number of Food and Drug Administration inspections performed on such products; and

(3) aggregated data on the findings of such inspections, including data related to violations of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 201 et seq.), and enforcement actions used to follow-up on such findings and violations.

SEC. 608. RULE OF CONSTRUCTION.

Nothing in this title (or an amendment made by this title) shall be construed to affect—

(1) the regulation of dietary supplements under the Dietary Supplement Health and Education Act;

or

(2) the adverse event reporting system for dietary supplements created under the Dietary Supplement and Nonprescription Drug Consumer Protection Act.

SEC. 609. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out this title (and the amendments made by this title) such sums as may be necessary.
TITLE VII—DOMESTIC PET TURTLE MARKET ACCESS

SEC. 701. SHORT TITLE.

This title may be cited as the “Domestic Pet Turtle Market Access Act of 2007”.

SEC. 702. FINDINGS.

Congress makes the following findings:

(1) Pet turtles less than 10.2 centimeters in diameter have been banned for sale in the United States by the Food and Drug Administration since 1975 due to health concerns.

(2) The Food and Drug Administration does not ban the sale of iguanas or other lizards, snakes, frogs, or other amphibians or reptiles that are sold as pets in the United States that also carry salmonella bacteria. The Food and Drug Administration also does not require that these animals be treated for salmonella bacteria before being sold as pets.

(3) The technology to treat turtles for salmonella, and make them safe for sale, has greatly advanced since 1975. Treatments exist that can nearly eradicate salmonella from turtles, and individuals are more aware of the causes of salmonella, how
to treat salmonella poisoning, and the seriousness
associated with salmonella poisoning.

(4) University research has shown that these
turtles can be treated in such a way that they can
be raised, shipped, and distributed without having a
recolonization of salmonella.

(5) University research has also shown that pet
owners can be equipped with a treatment regiment
that allows the turtle to be maintained safe from sal-
onella.

(6) The Food and Drug Administration should
allow the sale of turtles less than 10.2 centimeters
in diameter as pets as long as the sellers are re-
quired to use proven methods to treat these turtles
for salmonella.

SEC. 703. SALE OF BABY TURTLES.

Notwithstanding any other provision of law, the Food
and Drug Administration shall not restrict the sale by a
turtle farmer, wholesaler, or commercial retail seller of a
turtle that is less than 10.2 centimeters in diameter as
a pet if—

(1) the State or territory in which such farmer
is located has developed a regulatory process by
which pet turtle farmers are required to have a
State license to breed, hatch, propagate, raise, grow,
receive, ship, transport, export, or sell pet turtles or
pet turtle eggs;

(2) such State or territory requires certification
of sanitization that is signed by a veterinarian who
is licensed in the State or territory, and approved by
the State or territory agency in charge of regulating
the sale of pet turtles;

(3) the certification of sanitization requires
each turtle to be sanitized or treated for diseases, in-
cluding salmonella, and is dependant upon using the
Siebeling method, or other such proven non-anti-
biotic method, to make the turtle salmonella-free;
and

(4) the turtle farmer or commercial retail seller
includes, with the sale of such a turtle, a disclosure
to the buyer that includes—

(A) information regarding—

(i) the possibility that salmonella can
re-colonize in turtles;

(ii) the dangers, including possible se-
vere illness or death, especially for at-risk
people who may be susceptible to sal-
monella poisoning, such as children, preg-
nant women, and others who may have
weak immune systems, that could result if
the turtle is not properly handled and safely maintained;

(iii) the proper handling of the turtle, including an explanation of proper hygiene such as handwashing after handling a turtle; and

(iv) the proven methods of treatment that, if properly applied, keep the turtle safe from salmonella;

(B) a detailed explanation of how to properly treat the turtle to keep it safe from salmonella, using the proven methods of treatment referred to under subparagraph (A), and how the buyer can continue to purchase the tools, treatments, or any other required item to continually treat the turtle; and

(C) a statement that buyers of pet turtles should not abandon the turtle or abandon it outside, as the turtle may become an invasive species to the local community, but should instead return them to a commercial retail pet seller or other organization that would accept turtles no longer wanted as pets.
SEC. 704. FDA REVIEW OF STATE PROTECTIONS.

The Commissioner of Food and Drugs may, after providing an opportunity for the affected State to respond, restrict the sale of a turtle only if the Secretary of Health and Human Services determines that the actual implementation of State health protections described in this title are insufficient to protect consumers against infectious diseases acquired from such turtle at the time of sale.

TITLE VIII—IMPORTATION OF PRESCRIPTION DRUGS

SEC. 801. SHORT TITLE.

This title may be cited as the “Pharmaceutical Market Access and Drug Safety Act of 2007”.

SEC. 802. FINDINGS.

Congress finds that—

(1) Americans unjustly pay up to 5 times more to fill their prescriptions than consumers in other countries;

(2) the United States is the largest market for pharmaceuticals in the world, yet American consumers pay the highest prices for brand pharmaceuticals in the world;

(3) a prescription drug is neither safe nor effective to an individual who cannot afford it;

(4) allowing and structuring the importation of prescription drugs to ensure access to safe and af-
affordable drugs approved by the Food and Drug Ad-
ministration will provide a level of safety to Amer-
ican consumers that they do not currently enjoy;

(5) American spend more than
$200,000,000,000 on prescription drugs every year;

(6) the Congressional Budget Office has found
that the cost of prescription drugs are between 35
to 55 percent less in other highly-developed coun-
tries than in the United States; and

(7) promoting competitive market pricing would
both contribute to health care savings and allow
greater access to therapy, improving health and sav-
ing lives.

SEC. 803. REPEAL OF CERTAIN SECTION REGARDING IM-
PORTATION OF PRESCRIPTION DRUGS.

metic Act (21 U.S.C. 381 et seq.) is amended by striking

“(B) TERMINATION.—The Secretary, after notice and opportunity for a hearing, may terminate the registration under paragraph (1) of a registrant if the Secretary determines that the registrant has engaged in a pattern or practice of violating 1 or more registration conditions, or if on 1 or more occasions the Secretary
has under subparagraph (A)(ii) suspended the registration of the registrant. The Secretary may make the termination permanent, or for a fixed period of not less than 1 year. During the period in which the registration is terminated, any registration submitted under paragraph (1) by the registrant, or a person that is a partner in the export or import enterprise, or a principal officer in such enterprise, and any registration prepared with the assistance of the registrant or such a person, has no legal effect under this section.

“(5) Default of Bond.—A bond required to be posted by an exporter under paragraph (1)(I)(ii) shall be defaulted and paid to the Treasury of the United States if, after opportunity for an informal hearing, the Secretary determines that the exporter has—

“(B) failed to permit the Secretary to conduct an inspection described under subsection (d).

“(1) The drug was manufactured in an establishment—

“(A) required to register under subsection (h) or (i) of section 510; and

“(B)(i) inspected by the Secretary; or

“(ii) for which the Secretary has elected to rely on a satisfactory report of a good manufacturing practice inspection of the establishment from a permitted country whose regulatory system the Secretary recognizes as equivalent under a mutual recognition agreement, as provided for under section 510(i)(3), section 803, or part 26 of title 21, Code of Federal Regulations (or any corresponding successor rule or regulation).

“(2) The establishment is located in any country, and the establishment manufactured the drug for distribution in the United States or for distribution in 1 or more of the permitted countries (without regard to whether in addition the drug is manufa-

“(3) The exporter or importer obtained the drug—

“(A) directly from the establishment; or

“(B) directly from an entity that, by contract with the exporter or importer—

“(i) provides to the exporter or importer a statement (in such form and containing such information as the Secretary may require) that, for the chain of custody from the establishment, identifies each prior sale, purchase, or trade of the drug (including the date of the transaction and the names and addresses of all parties to the transaction);

“(ii) agrees to permit the Secretary to inspect such statements and related records to determine their accuracy;

“(iii) agrees, with respect to the qualifying drugs involved, to permit the Secretary to inspect warehouses and other facilities, including records, of the entity for purposes of determining whether the facilities are in compliance with any standards
under this Act that are applicable to facilities of that type in the United States; and

“(iv) has ensured, through such contractual relationships as may be necessary, that the Secretary has the same authority regarding other parties in the chain of custody from the establishment that the Secretary has under clauses (ii) and (iii) regarding such entity.

“(4)(A) The foreign country from which the importer will import the drug is a permitted country; or

“(B) The foreign country from which the exporter will export the drug is the permitted country in which the exporter is located.

“(2) MARKING OF COMPLIANT SHIPMENTS.—A registration condition is that the exporter involved agrees to affix to each shipping container of qualifying drugs exported under subsection (a) such markings as the Secretary determines to be necessary to identify the shipment as being in compliance with all registration conditions. Markings under the preceding sentence shall—

“(C) Randomly reviewing records of exports to individuals for the purpose of determining whether the drugs are being imported by the individuals in accordance with the conditions under subsection (i). Such reviews shall be conducted in a manner that will result in a sta-

agrees, before wholesale distribution (as defined in section 503(e)) of a qualifying drug that has been imported under subsection (a), to affix to each container of such drug such markings or other technology as the Secretary determines necessary to identify the shipment as being in compliance with all registration conditions, except that the markings or other technology shall not be required on a drug that bears comparable, compatible markings or technology from the manufacturer of the drug. Markings or other technology under the preceding sentence shall—

“(A) be designed to prevent affixation of the markings or other technology to any container that is not authorized to bear the markings; and

“(D) INDIVIDUAL IMPORTER FEE.—Subject to the limitation described in subparagraph (B), the fee under paragraph (2) to be paid on October 1 and April 1 by an importer shall be an amount that is proportional to a reasonable estimate by the Secretary of the semiannual share of the importer of the volume of qualifying drugs imported by importers under subsection (a).

“(4) USE OF FEES.—

the chain of custody of a qualifying drug as necessary, under subsection (d)(3);

“(B) LIMITATION.—Subject to subparagraph (C), the aggregate total of fees collected under paragraph (2) for a fiscal year shall not exceed 2.5 percent of the total price of qualifying drugs imported during that fiscal year into the United States by registered exporters under subsection (a).

“(C) TOTAL PRICE OF DRUGS.—

subparagraph (B) when establishing under paragraph (A) the aggregate total of fees to be collected under paragraph (2) for a fiscal year, the Secretary shall estimate the total price of qualifying drugs imported into the United States by registered exporters during that fiscal year by adding the total price of qualifying drugs exported by each registered exporter during the 6-month period from January 1 through June 30 of the previous fiscal year, as reported to the Secretary by each registered exporter under subsection (b)(1)(I)(iv).

“(ii) CALCULATION.—Not later than March 1 of the fiscal year that follows the fiscal year for which the estimate under clause (i) is made, the Secretary shall calculate the total price of qualifying drugs imported into the United States by registered exporters during that fiscal year by adding the total price of qualifying drugs exported by each registered exporter during that fiscal year, as reported to the Secretary by each registered exporter under subsection (b)(1)(I)(iv).
“(iii) ADJUSTMENT.—If the total price of qualifying drugs imported into the United States by registered exporters during a fiscal year as calculated under clause (ii) is less than the aggregate total of fees collected under paragraph (2) for that fiscal year, the Secretary shall provide for a pro-rata reduction in the fee due from each registered exporter on April 1 of the subsequent fiscal year so that the limitation described in subparagraph (B) is observed.

“(D) INDIVIDUAL EXPORTER FEE.—Subject to the limitation described in subparagraph (B), the fee under paragraph (2) to be paid on October 1 and April 1 by an exporter shall be an amount that is proportional to a reasonable estimate by the Secretary of the semianual share of the exporter of the volume of qualifying drugs exported by exporters under subsection (a).

“(4) USE OF FEES.—

“(A) IN GENERAL.—Subject to appropriations Acts, fees collected by the Secretary under paragraphs (1) and (2) shall be credited to the appropriation account for salaries and expenses
of the Food and Drug Administration until expended (without fiscal year limitation), and the Secretary may, in consultation with the Secretary of Homeland Security and the Secretary of the Treasury, transfer some proportion of such fees to the appropriation account for salaries and expenses of the Bureau of Customs and Border Protection until expended (without fiscal year limitation).

“(B) SOLE PURPOSE.—Fees collected by the Secretary under paragraphs (1) and (2) are only available to the Secretary and, if transferred, to the Secretary of Homeland Security, and are for the sole purpose of paying the costs referred to in paragraph (3)(A).

“(5) COLLECTION OF FEES.—In any case where the Secretary does not receive payment of a fee assessed under paragraph (1) or (2) within 30 days after it is due, such fee shall be treated as a claim of the United States Government subject to subchapter II of chapter 37 of title 31, United States Code.

“(IV) promptly notify registered exporters, registered importers, the Federal Trade Commission, and the State attorneys general of the determination.
“(D) Notice; drug difference not requiring prior approval.—In the case of a notice under subparagraph (B)(i) that includes a difference that would, under section 506A(d)(3)(B)(ii), not require the approval of a supplemental application before the difference could be made to the U.S. label drug the following shall occur:

“(ii) If the Secretary determines that such a supplemental application regarding the U.S. label drug would not be approved, the Secretary shall—

“(I) order that the importation of the qualifying drug involved from the permitted country cease;

“(II) notify the permitted country that approved the qualifying drug for commercial distribution of the determination; and
“(III) promptly notify registered exporters, registered importers, the Federal Trade Commission, and the State attorneys general of the determination.

“(iii) If the Secretary determines that such a supplemental application regarding the U.S. label drug would be approved, the difference shall be considered to be a variation provided for in the approved application for the U.S. label drug.

“(E) NOTICE; DRUG DIFFERENCE NOT REQUIRING APPROVAL; NO DIFFERENCE.—In the case of a notice under subparagraph (B)(i) that includes a difference for which, under section 506A(d)(1)(A), a supplemental application would not be required for the difference to be made to the U.S. label drug, or that states that there is no difference, the Secretary—

“(i) shall consider such difference to be a variation provided for in the approved application for the U.S. label drug;

“(ii) may not order that the importation of the qualifying drug involved cease; and
“(iii) shall promptly notify registered exporters and registered importers.

“(F) DIFFERENCES IN ACTIVE INGREDIENT, ROUTE OF ADMINISTRATION, DOSAGE FORM, OR STRENGTH.—

“(i) IN GENERAL.—A person who manufactures a drug approved under section 505(b) shall submit an application under section 505(b) for approval of another drug that is manufactured for distribution in a permitted country by or for the person that manufactures the drug approved under section 505(b) if—

“(I) there is no qualifying drug in commercial distribution in permitted countries whose combined population represents at least 50 percent of the total population of all permitted countries with the same active ingredient or ingredients, route of administration, dosage form, and strength as the drug approved under section 505(b); and

“(II) each active ingredient of the other drug is related to an active

“(6) ACTIONS BY STATES.—

“(A) IN GENERAL.—

“(i) CIVIL ACTIONS.—In any case in which the attorney general of a State has reason to believe that an interest of the residents of that State have been adversely affected by any manufacturer that violates paragraph (1), the attorney general of a State may bring a civil action on behalf of the residents of the State, and persons doing business in the State, in a district court of the United States of appropriate jurisdiction to—

was brought.

“(H) Exclusion on duplicative re-

(D) Failure to pay fees.—Notwithstanding any other provision of this section, the Secretary may prohibit a registered importer or exporter that is required to pay user fees under subsection (e) or (f) of such section 804 and that fails to pay such fees within 30 days after the date on which it is due, from importing or offering for importation a qualifying drug under such section 804 until such fee is paid.
