19 applicant to a patent by filing a request which sets  
20 forth with particularity the basis for finding that an  
21 earlier applicant derived the claimed invention from  
22 the applicant requesting the proceeding and, without  
23 authorization, filed an application claiming such in-  
24 vention. Any such request may only be made within

1 application containing a claim that is the same or is  
2 substantially the same as the claimed invention,  
3 must be made under oath, and must be supported  
4 by substantial evidence. Whenever the Director de-

6 naming different individuals as the inventor interfere  
7 with one another because of a dispute over the right

9 tute a derivation proceeding for the purpose of de-  
10 termining which applicant is entitled to a patent.

22 right to patent;

23 “(B) in appropriate circumstances, may  
24 correct the naming of the inventor in any appli-  
25 cation or patent at issue; and

2           right to patent.

3           “(4) DERIVATION PROCEEDING.—The Board  
4           may defer action on a request to initiate a derivation  
5           proceeding until 3 months after the date on which  
6           the Director issues a patent to the applicant that  
7           filed the earlier application.

8           “(5) EFFECT OF FINAL DECISION.—The final  
9           decision of the Patent Trial and Appeal Board, if  
10          adverse to the claim of an applicant, shall constitute  
11          the final refusal by the Patent and Trademark Of-  
12          fice on the claims involved. The Director may issue  
13          a patent to an applicant who is determined by the  
14          Patent Trial and Appeal Board to have the right to  
15          patent. The final decision of the Board, if adverse  
16          to a patentee, shall, if no appeal or other review of  
17          the decision has been or can be taken or had, con-  
18          stitute cancellation of the claims involved in the pat-  
19          ent, and notice of such cancellation shall be endorsed  
20          on copies of the patent distributed after such can-  
21          cellation by the Patent and Trademark Office.”.

8                   **“§ 118. Filing by other than inventor**

9                   “A person to whom the inventor has assigned or is  
10                  under an obligation to assign the invention may make an  
11                  application for patent. A person who otherwise shows suf-  
12                  ficient proprietary interest in the matter may make an ap-  
13                  plication for patent on behalf of and as agent for the in-  
14                  ventor on proof of the pertinent facts and a showing that  
15                  such action is appropriate to preserve the rights of the  
16                  parties. If the Director grants a patent on an application  
17                  filed under this section by a person other than the inven-  
18                  tor, the patent shall be granted to the real party in inter-  
19                  est and upon such notice to the inventor as the Director  
20                  considers to be sufficient.”

21                  (e) SPECIFICATION.—Section 112 is amended—

23                   (A) by striking “The specification” and in-

 3           rying out the invention”; and  
 4           (2) in the second paragraph—

5           (A) by striking “The specifications” and

 7           tions”; and

8           (B) by striking “applicant regards as his  
 9           invention” and inserting “inventor or a joint in-  
 10          ventor regards as the invention”;

11          (3) in the third paragraph, by striking “A  
 12          claim” and inserting “(c) FORM.—A claim”;

13          (4) in the fourth paragraph, by striking “Sub-  
 14          ject to the following paragraph,” and inserting “(d)  
 15          REFERENCE IN DEPENDENT FORMS.—Subject to

1 (A) by striking “Upon” and inserting “(a)

2 AWARD OF DAMAGES.—

3 “(1) IN GENERAL.—Upon”;

4 (B) by aligning the remaining text accord-  
5 ingly; and

6 (C) by adding at the end the following:

7 “(2) RELATIONSHIP OF DAMAGES TO CON-  
8 TRIBUTIONS OVER PRIOR ART.—The court shall con-  
9 duct an analysis to ensure that a reasonable royalty  
10 under paragraph (1) is applied only to that economic  
11 value properly attributable to the patent’s specific  
12 contribution over the prior art. In a reasonable roy-  
13 alty analysis, the court shall identify all factors rel-  
14 evant to the determination of a reasonable royalty  
15 under this subsection, and the court or the jury, as  
16 the case may be, shall consider only those factors in  
17 making the determination. The court shall exclude  
18 from the analysis the economic value properly attrib-  
19 utable to the prior art, and other features or im-  
20 provements, whether or not themselves patented,  
21 that contribute economic value to the infringing  
22 product or process.

23 “(3) ENTIRE MARKET VALUE.—Unless the  
24 claimant shows that the patent’s specific contribu-  
25 tion over the prior art is the predominant basis for

1 market demand for an infringing product or process,  
 2 damages may not be based upon the entire market  
 3 value of that infringing product or process.

4 “(4) OTHER FACTORS.—In determining dam-  
 5 ages, the court may also consider, or direct the jury  
 6 to consider, the terms of any nonexclusive market-  
 7 place licensing of the invention, where appropriate,  
 8 as well as any other relevant factors under applica-  
 9 ble law.”;

10 (2) by amending the second undesignated para-  
 11 graph to read as follows:

12 “(b) WILLFUL INFRINGEMENT .—

13 “(1) INCREASED DAMAGES.—A court that has  
 14 determined that the infringer has willfully infringed  
 15 a patent or patents may increase the damages up to  
 16 three times the amount of damages found or as-  
 17 sessed under subsection (a), except that increased  
 18 damages under this paragraph shall not apply to  
 19 provisional rights under section 154(d).

20 “(2) PERMITTED GROUNDS FOR WILLFUL-  
 21 NESS.—A court may find that an infringer has will-  
 22 fully infringed a patent only if the patent owner pre-  
 23 sents clear and convincing evidence that—

24 “(A) after receiving written notice from  
 25 the patentee—

1           “(i) alleging acts of infringement in a  
2           manner sufficient to give the infringer an  
3           objectively reasonable apprehension of suit  
4           on such patent, and

5           “(ii) identifying with particularity  
6           each claim of the patent, each product or  
7           process that the patent owner alleges in-  
8           fringes the patent, and the relationship of  
9           such product or process to such claim,  
10          the infringer, after a reasonable opportunity to  
11          investigate, thereafter performed one or more of  
12          the alleged acts of infringement;

13          “(B) the infringer intentionally copied the  
14          patented invention with knowledge that it was  
15          patented; or

16          “(C) after having been found by a court to  
17          have infringed that patent, the infringer en-  
18          gaged in conduct that was not colorably dif-  
19          ferent from the conduct previously found to  
20          have infringed the patent, and which resulted in  
21          a separate finding of infringement of the same  
22          patent.

23          “(3) LIMITATIONS ON WILLFULNESS.—(A) A  
24          court may not find that an infringer has willfully in-  
25          fringed a patent under paragraph (2) for any period

1 of time during which the infringer had an informed  
2 good faith belief that the patent was invalid or unen-  
3 forceable, or would not be infringed by the conduct  
4 later shown to constitute infringement of the patent.

5 “(B) An informed good faith belief within the  
6 meaning of subparagraph (A) may be established  
7 by—

8 “(i) reasonable reliance on advice of coun-  
9 sel;

10 “(ii) evidence that the infringer sought to  
11 modify its conduct to avoid infringement once it  
12 had discovered the patent; or

13 “(iii) other evidence a court may find suffi-  
14 cient to establish such good faith belief.

15 “(C) The decision of the infringer not to  
16 present evidence of advice of counsel is not relevant  
17 to a determination of willful infringement under  
18 paragraph (2).

19 “(4) LIMITATION ON PLEADING.—Before the  
20 date on which a court determines that the patent in  
21 suit is not invalid, is enforceable, and has been in-  
22 fringed by the infringer, a patentee may not plead  
23 and a court may not determine that an infringer has  
24 willfully infringed a patent. The court’s determina-

1 tion of an infringer’s willfulness shall be made with-  
 2 out a jury.”; and

3 (3) in the third undesignated paragraph, by  
 4 striking “The court” and inserting “(c) EXPERT  
 5 TESTIMONY.—The court”.

6 (b) DEFENSE TO INFRINGEMENT BASED ON EAR-  
 7 LIER INVENTOR.—Section 273 of title 35, United States  
 8 Code, is amended—

9 (1) in subsection (a)—

10 (A) in paragraph (1)—

11 (i) by striking “of a method”; and

12 (ii) by striking “review period;” and  
 13 inserting “review period; and”;

14 (B) in paragraph (2)(B), by striking the  
 15 semicolon at the end and inserting a period;

21 (ii) by striking “at least 1 year before  
 22 the effective filing date of such patent,  
 23 and” and all that follows through the pe-

 25 or made substantial preparations for com-

1           mercial use of, the subject matter before  
2           the effective filing date of the claimed in-  
3           vention.”;

4           (B) in paragraph (2)—

5                 (i) by striking “The sale or other dis-  
6                 position of a useful end result produced by  
7                 a patented method” and inserting “The  
8                 sale or other disposition of subject matter  
9                 that qualifies for the defense set forth in  
10                this section”; and

11               (ii) by striking “a defense under this  
12                section with respect to that useful end re-  
13                sult” and inserting “such defense”; and

14           (C) in paragraph (3)—

15                 (i) by striking subparagraph (A); and

16                 (ii) by redesignating subparagraphs  
17                 (B) and (C) as subparagraphs (A) and  
18                 (B), respectively;

19           (3) in paragraph (7), by striking “of the pat-  
20           ent” and inserting “of the claimed invention”; and

 12 read as follows:

13 “(a) Within 3 months after the owner of a patent  
 14 files a request for reexamination under section 302, the  
 15 Director shall determine whether a substantial new ques-  
 16 tion of patentability affecting any claim of the patent con-  
 17 cerned is raised by the request, with or without consider-  
 18 ation of other patents or printed publications. On the Di-  
 19 rector’s own initiative, and at any time, the Director may  
 20 determine whether a substantial new question of patent-  
 21 ability is raised by patents and publications discovered by  
 22 the Director, is cited under section 301, or is cited by any  
 23 person other than the owner of the patent under section  
 24 302 or section 311. The existence of a substantial new  
 25 question of patentability is not precluded by the fact that

1 a patent or printed publication was previously cited by or  
2 to the Office or considered by the Office.”.

3 (b) REEXAMINATION.—Section 315(e) is amended by

15 United States Code, as amended by this Act, shall apply  
16 to any patent that issues before, on, or after the date of

17 “(a) IN GENERAL.—The Director shall—

18 “(1) prescribe regulations, in accordance with

8           ther party in the proceeding; and the procedures for  
9           obtaining such evidence shall be consistent with the

8           of the patent.

9           “(e) CONSIDERATIONS.—In prescribing regulations  
10          under this section, the Director shall consider the effect

21          set by the Director, a response to the cancellation petition.  
22          The patent owner shall file with the response, through af-

25          support of the response.

1 **“§ 328. Proof and evidentiary standards**

2 “(a) IN GENERAL.—The presumption of validity set  
3 forth in section 282 shall not apply in a challenge to any  
4 patent claim under this chapter.

5 “(b) BURDEN OF PROOF.—The party advancing a  
6 proposition under this chapter shall have the burden of  
7 proving that proposition by a preponderance of the evi-  
8 dence.

9 **“§ 329. Amendment of the patent**

10 “(a) IN GENERAL.—In response to a challenge in a  
11 petition for cancellation, the patent owner may file 1 mo-  
12 tion to amend the patent in 1 or more of the following  
13 ways:

14 “(1) Cancel any challenged patent claim.

15 “(2) For each challenged claim, propose a sub-  
16 stitute claim.

17 “(3) Amend the patent drawings or otherwise  
18 amend the patent other than the claims.

19 “(b) ADDITIONAL MOTIONS.—Additional motions to  
20 amend may be permitted only for good cause shown.

21 “(c) SCOPE OF CLAIMS.—An amendment under this  
22 section may not enlarge the scope of the claims of the pat-  
23 ent or introduce new matter.

24 **“§ 330. Decision of the Board**

25 “If the post-grant review proceeding is instituted and

 2 spect to the patentability of any patent claim challenged  
 3 and any new claim added under section 329.

4 **“§ 331. Effect of decision**

5       “(a) IN GENERAL.—If the Patent Trial and Appeal  
 6 Board issues a final decision under section 330 and the  
 7 time for appeal has expired or any appeal proceeding has  
 8 terminated, the Director shall issue and publish a certifi-  
 9 cate canceling any claim of the patent finally determined  
 10 to be unpatentable and incorporating in the patent by op-  
 11 eration of the certificate any new claim determined to be  
 12 patentable.

13       “(b) NEW CLAIMS.—Any new claim held to be pat-  
 14 entable and incorporated into a patent in a post-grant re-  
 15 view proceeding shall have the same effect as that speci-  
 16 fied in section 252 for reissued patents on the right of  
 17 any person who made, purchased, offered to sell, or used  
 18 within the United States, or imported into the United

 20 substantial preparations therefore, prior to issuance of a  
 21 certificate under subsection (a) of this section.

22 **“§ 332. Relationship to other pending proceedings**

23       “Notwithstanding subsection 135(a), sections 251

2 the effective date of the Patent Reform Act of 2007), deri-  
3 vation proceeding, or post-grant review proceeding, that  
4 is pending during a post-grant review proceeding, may  
5 proceed, including providing for stay, transfer, consolida-  
6 tion, or termination of any such proceeding.

7 **“§ 333. Effect of decisions rendered in civil action on**  
8 **future post-grant review proceedings**

9 “If a final decision has been entered against a party  
10 in a civil action arising in whole or in part under section  
11 1338 of title 28 establishing that the party has not sus-  
12 tained its burden of proving the invalidity of any patent  
13 claim—

14 “(1) that party to the civil action and the  
15 privies of that party may not thereafter request a  
16 post-grant review proceeding on that patent claim on  
17 the basis of any grounds, under the provisions of  
18 section 311, which that party or the privies of that  
19 party raised or had actual knowledge of; and

20 “(2) the Director may not thereafter maintain  
21 a post-grant review proceeding previously requested  
22 by that party or the privies of that party on the  
23 basis of such grounds.

1 **“§ 334. Effect of final decision on future proceedings**

2       “(a) IN GENERAL.—If a final decision under section  
3 330 is favorable to the patentability of any original or new  
4 claim of the patent challenged by the cancellation peti-  
5 tioner, the cancellation petitioner may not thereafter,  
6 based on any ground which the cancellation petitioner  
7 raised during the post-grant review proceeding—

8               “(1) request or pursue a reexamination of such  
9 claim under chapter 31;

10              “(2) request or pursue a derivation proceeding  
11 with respect to such claim;

15               “(2) *PERMITTED GROUNDS FOR WILLFULNESS.—*  
16 *A court may find that an infringer has willfully in-*

5           such product or process to such claim,  
6           the infringer, after a reasonable opportunity to  
7           investigate, thereafter performed 1 or more of the  
8           alleged acts of infringement;

9           “(B) the infringer intentionally copied the  
10          patented invention with knowledge that it was  
11          patented; or

12          “(C) after having been found by a court to

14          in conduct that was not colorably different from  
15          the conduct previously found to have infringed  
16          the patent, and which resulted in a separate  
17          finding of infringement of the same patent.

18          “(3) LIMITATIONS ON WILLFULNESS.—

19          “(A) IN GENERAL.—A court may not find  
20          that an infringer has willfully infringed a pat-  
21          ent under paragraph (2) for any period of time  
22          during which the infringer had an informed good

12                    *sufficient to establish such good faith belief.*

13           “(C) *RELEVANCE OF NOT PRESENTING CER-*  
14           *TAIN EVIDENCE.*—*The decision of the infringer*  
15           *not to present evidence of advice of counsel is not*  
16           *relevant to a determination of willful infringe-*

1 **“§ 321. *Petition for post-grant review***

2       “Subject to sections 322, 324, 332, and 333 of this  
 3 chapter, a person who is not the patent owner may file with  
 4 the Office a petition seeking to institute a post-grant review  
 5 proceeding to cancel as unpatentable any claim of a patent  
 6 on any ground that could be raised under paragraph (2)  
 7 or (3) of section 282(b) (relating to invalidity of the patent  
 8 or any claim). The Director shall establish, by regulation,  
 9 fees to be paid by the person requesting the proceeding, in  
 10 such amounts as the Director determines to be reasonable,  
 11 considering the aggregate costs of the post-grant review pro-  
 12 ceeding and the status of the petitioner.

13 **“§ 322. *Timing and bases of petition***

14       “A post-grant proceeding may be instituted under this  
 15 chapter pursuant to a petition filed under section 321 only  
 16 if—

17               “(1) the petition is filed not later than 12  
 18 months after the grant of the patent or issuance of a  
 19 reissue patent, as the case may be;

1           “(2)(A) the petitioner establishes in the petition  
2           a substantial reason to believe that the continued ex-  
3           istence of the challenged claim in the petition causes  
4           or is likely to cause the petitioner significant eco-  
5           nomic harm; and

6           “(B) the petitioner files a petition not later than  
7           12 months after receiving notice, explicitly or implic-  
8           itly, that the patent holder alleges infringement; or

9           “(3) the patent owner consents in writing to the  
10          proceeding.

11       **“§ 323. Requirements of petition**

12          “A petition filed under section 321 may be considered  
13       only if—

14               “(1) the petition is accompanied by payment of  
15               the fee established by the Director under section 321;

16               “(2) the petition identifies any real parties in  
17               interest;

18               “(3) the petition identifies, in writing and with  
19               particularity, each claim challenged, the grounds on  
20               which the challenge to each claim is based, and the  
21               evidence that supports the grounds for each challenged  
22               claim, including—

23                       “(A) copies of patents and printed publica-  
24                       tions that the petitioner relies upon in support  
25                       of the petition; and

1           “(B) affidavits or declarations of sup-  
2           porting evidence and opinions, if the petitioner  
3           relies on other factual evidence or on expert  
4           opinions;

5           “(4) the petition provides such information as  
6           the Director may require by regulation; and

7           “(5) the petitioner provides copies of any of the  
8           documents required under paragraphs (3) and (4) to  
9           the patent owner or, if applicable, the designated rep-  
10          resentative of the patent owner.

11   **“§ 324. Publication and public availability of petition**

12          “(a) *IN GENERAL.*—As soon as practicable after the  
13          receipt of a petition under section 321, the Director shall—

14               “(1) publish the petition in the Federal Register;  
15          and

16               “(2) make that petition available on the website  
17          of the United States Patent and Trademark Office.

18          “(b) *PUBLIC AVAILABILITY.*—The file of any pro-  
19          ceeding under this chapter shall be made available to the  
20          public except that any petition or document filed with the  
21          intent to be sealed shall be accompanied by a motion to  
22          seal. Such petition or document shall be treated as sealed,  
23          pending the outcome of the ruling on the motion. Failure  
24          to file a motion to seal will result in the pleading being  
25          placed in the public record.

1 **“§ 325. Prohibited filings**

2       “(a) *IN GENERAL.*—A post-grant review proceeding  
3 may not be instituted under paragraph (1), (2), or (3) of  
4 section 322 if the petition requesting the proceeding identi-  
5 fies the same petitioner or real party in interest and the  
6 same patent as a previous petition filed under any para-  
7 graph of section 322.

8       “(b) *PREVIOUSLY FILED CIVIL ACTIONS.*—A post-  
9 grant review proceeding may not be instituted or main-  
10 tained under paragraph (1) or (2) of section 322 if the peti-  
11 tioner or real party in interest has instituted a civil action  
12 challenging the validity of a claim of the patent.

13 **“§ 326. Submission of additional information**

14       “A petitioner under this chapter shall file such addi-  
15 tional information with respect to the petition as the Direc-  
16 tor may require by regulation.

17 **“§ 327. Institution of post-grant review proceedings**

18       “(a) *IN GENERAL.*—The Director may not authorize  
19 a post-grant review proceeding to commence unless the Di-  
20 rector determines that the information presented in the peti-  
21 tion raises a substantial new question of patentability for  
22 at least 1 of the challenged claims. The Director shall deter-  
23 mine whether to authorize a post-grant proceeding within  
24 90 days after receiving a petition.

25       “(b) *NOTIFICATION.*—The Director shall notify the pe-  
26 titioner and patent owner, in writing, of the Director’s de-

1 *termination under subsection (a). The Director shall pub-*  
2 *lish each notice of institution of a post-grant review pro-*

16 **“§ 328. Consolidation of proceedings and joinder**

17       “(a) *CONSOLIDATION OF POST-GRANT PRO-*  
18 *CEEDINGS.—If more than 1 petition is submitted under sec-*  
19 *tion 322(1) against the same patent and the Director deter-*  
20 *mines that each raises a substantial new question of patent-*  
21 *ability warranting the commencement of a post-grant re-*  
22 *view proceeding under section 327, the Director may con-*  
23 *solidate such proceedings into a single post-grant review*  
24 *proceeding.*

1       “(b) *JOINDER.*—*If the Director commences a post-*  
2 *grant review proceeding on the basis of a petition filed*  
3 *under section 322(2), any person who files in compliance*  
4 *with section 322(2)(A) a petition that the Director finds*  
5 *sufficient to proceed under section 327 may be joined at*  
6 *the discretion of the Director, and such person shall partici-*  
7 *pate in such post-grant review proceeding.*

8       “**§ 329. Conduct of post-grant review proceedings**

19               “(3) *providing for the publication in the Federal*  
20 *Register all requests for the institution of post-grant*

22               “(4) *establishing procedures for the submission of*  
23 *supplemental information after the petition is filed;*  
24 *and*

1           “(5) setting forth procedures for discovery of rel-  
2           evant evidence, including that such discovery shall be  
3           limited to evidence directly related to factual asser-

9           year after the date on which the Director notices the  
10          institution of a post-grant proceeding under this  
11          chapter, except that, for good cause shown, the Direc-  
12          tor may extend the 1-year period by not more than  
13          6 months;

14          “(2) provide for discovery upon order of the Di-  
15          rector, as required in the interests of justice;

16          “(3) prescribe sanctions for abuse of discovery,  
17          abuse of process, or any other improper use of the  
18          proceeding, such as to harass or to cause unnecessary  
19          delay or unnecessary increase in the cost of the pro-  
20          ceeding;

21          “(4) provide for protective orders governing the  
22          exchange and submission of confidential information;  
23          and

24          “(5) ensure that any information submitted by  
25          the patent owner in support of any amendment en-

1        *tered under section 332 is made available to the pub-*  
2        *lic as part of the prosecution history of the patent.*

3        “(c) *CONSIDERATIONS.—In prescribing regulations*  
4        *under this section, the Director shall consider the effect on*
