A BILL

To increase the safety of swimming pools and spas by requiring the use of proper anti-entrapment drain covers and pool and spa drainage systems, to educate the public about pool and spa safety, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
 2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “Virginia Graeme Baker
3 Pool and Spa Safety Act”.

4 **SEC. 2. FINDINGS.**

5 Congress finds the following:

6 (1) Of injury-related deaths, drowning is the
7 second leading cause of death in children aged 1 to
8 14 in the United States.

9 (2) In 2004, 761 children aged 14 and under
10 died as a result of unintentional drowning.

11 (3) Adult supervision at all aquatic venues is a
12 critical safety factor in preventing children from
13 drowning.

14 (4) Research studies show that the installation
15 and proper use of barriers or fencing, as well as ad-
16 ditional layers of protection, could substantially re-
17 duce the number of childhood residential swimming
18 pool drownings and near drownings.

19 **SEC. 3. DEFINITIONS.**

20 In this Act:

21 (1) ASME/ANSI.—The term “ASME/ANSI”
22 as applied to a safety standard means such a stand-
23 ard that is accredited by the American National
24 Standards Institute and published by the American
25 Society of Mechanical Engineers.

1 (2) BARRIER.—The term “barrier” includes a
2 natural or constructed topographical feature that
3 prevents unpermitted access by children to a swim-

12 (5) SAFETY VACUUM RELEASE SYSTEM.—The
13 term “safety vacuum release system” means a vacu-
14 um release system capable of providing vacuum re-
15 lease at a suction outlet caused by a high vacuum
16 occurrence due to a suction outlet flow blockage.

17 (6) SWIMMING POOL; SPA.—The term “swim-
18 ming pool” or “spa” means any outdoor or indoor
19 structure intended for swimming or recreational
20 bathing, including in-ground and above-ground
21 structures, and includes hot tubs, spas, portable
22 spas, and non-portable wading pools.

24 “unblockable drain” means a drain of any size and

1 shape that a human body cannot sufficiently block
 2 to create a suction entrapment hazard.
