1ST SESSION

S. 1810

To amend the Public Health Service Act to increase the provision of scientifically sound information and support services to patients receiving a positive test diagnosis for Down syndrome or other prenatally and postnatally diagnosed conditions.

IN THE SENATE OF THE UNITED STATES

JULY 18 (legislative day, JULY 17), 2007

Mr. BROWNBACK introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To amend the Public Health Service Act to increase the provision of scientifically sound information and support services to patients receiving a positive test diagnosis for Down syndrome or other prenatally and postnatally diagnosed conditions.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Prenatally and
5 Postnatally Diagnosed Conditions Awareness Act”.

1 **SEC. 2. FINDINGS AND PURPOSES.**

2 (a) FINDINGS.—Congress makes the following find-
3 ings:

4 (1) Pregnant women who choose to undergo
5 prenatal genetic testing should have access to timely,
6 scientific, and nondirective counseling about the con-
7 ditions being tested for and the accuracy of such
8 tests, from health care professionals qualified to pro-
9 vide and interpret these tests. Informed consent is a
10 critical component of all genetic testing.

11 (2) A recent, peer-reviewed study and two re-
12 ports from the Centers for Disease Control and Pre-
13 vention on prenatal testing found a deficiency in the
14 data needed to understand the epidemiology of pre-
15 natally diagnosed conditions, to monitor trends accu-
16 rately, and to increase the effectiveness of health
17 intervention.

18 (b) PURPOSES.—It is the purpose of this Act, after
19 the diagnosis of a fetus with Down syndrome or other pre-
20 natally diagnosed conditions, to—

21 (1) increase patient referrals to providers of key
22 support services for women who have received a
23 positive test diagnosis for Down syndrome, or other
24 prenatally or postnatally diagnosed conditions, as
25 well as to provide up-to-date, comprehensive infor-
26 mation about life expectancy, development potential,

1 and quality of life for a child born with Down syn-
 2 drome or other prenatally or postnatally diagnosed
 3 condition;

4 (2) strengthen existing networks of support
 5 through a Centers for Disease Control and Preven-
 6 tion patient and provider outreach program;

7 (3) improve available data by incorporating in-
 8 formation directly revealed by prenatal or postnatal
 9 testing into existing State-based surveillance pro-
 10 grams for birth defects and prenatally or postnatally
 11 diagnosed conditions; and

12 (4) ensure that patients receive up-to-date, sci-
 13 entific information about the accuracy of the test.

14 **SEC. 3. AMENDMENT TO THE PUBLIC HEALTH SERVICE**
 15 **ACT.**

16 Part P of title III of the Public Health Service Act
