Mr. Rush (for himself, Mr. Stearns, Mr. Barton of Texas, Ms. Schakowsky, and Mr. Radanovich) introduced the following bill; which was referred to the Committee on Energy and Commerce

A BILL

To protect consumers by requiring reasonable security policies and procedures to protect computerized data containing personal information, and to provide for nationwide notice in the event of a security breach.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Data Accountability and Trust Act”.

SECTION 2. REQUIREMENTS FOR INFORMATION SECURITY.

(a) General Security Policies and Procedures.—
(1) REGULATIONS.—Not later than 1 year after
the date of enactment of this Act, the Commission
shall promulgate regulations under section 553 of
title 5, United States Code, to require each person
engaged in interstate commerce that owns or pos-
sesses data in electronic form containing personal in-
formation, or contracts to have any third party enti-
ty maintain such data for such person, to establish
and implement policies and procedures regarding in-
formation security practices for the treatment and
protection of personal information taking into con-
sideration—

(A) the size of, and the nature, scope, and
complexity of the activities engaged in by, such
person;

(B) the current state of the art in adminis-
trative, technical, and physical safeguards for
protecting such information; and

(C) the cost of implementing such safe-
guards.

(2) REQUIREMENTS.—Such regulations shall
require the policies and procedures to include the
following:
(A) A security policy with respect to the collection, use, sale, other dissemination, and maintenance of such personal information.

(B) The identification of an officer or other individual as the point of contact with responsibility for the management of information security.

(C) A process for identifying and assessing any reasonably foreseeable vulnerabilities in the system maintained by such person that contains such electronic data, which shall include regular monitoring for a breach of security of such system.

(D) A process for taking preventive and corrective action to mitigate against any vulnerabilities identified in the process required by subparagraph (C), which may include implementing any changes to security practices and the architecture, installation, or implementation of network or operating software.

(E) A process for disposing of obsolete data in electronic form containing personal information by shredding, permanently erasing, or otherwise modifying the personal information contained in such data to make such personal
information permanently unreadable or undecipherable.

(3) Treatment of Entities Governed by Other Law.—In promulgating the regulations under this subsection, the Commission may determine to be in compliance with this subsection any person who is required under any other Federal law to maintain standards and safeguards for information security and protection of personal information that provide equal or greater protection than those required under this subsection.

(b) Destruction of Obsolete Paper Records Containing Personal Information.—

(1) Study.—Not later than 1 year after the date of enactment of this Act, the Commission shall conduct a study on the practicality of requiring a standard method or methods for the destruction of obsolete paper documents and other non-electronic data containing personal information by persons engaged in interstate commerce who own or possess such paper documents and non-electronic data. The study shall consider the cost, benefit, feasibility, and effect of a requirement of shredding or other permanent destruction of such paper documents and non-electronic data.
(2) Regulations.—The Commission may promulgate regulations under section 553 of title 5, United States Code, requiring a standard method or methods for the destruction of obsolete paper documents and other non-electronic data containing personal information by persons engaged in interstate commerce who own or possess such paper documents and non-electronic data if the Commission finds that—

(A) the improper disposal of obsolete paper documents and other non-electronic data creates a reasonable risk of identity theft, fraud, or other unlawful conduct;

(B) such a requirement would be effective in preventing identity theft, fraud, or other unlawful conduct;

(C) the benefit in preventing identity theft, fraud, or other unlawful conduct would outweigh the cost to persons subject to such a requirement; and

(D) compliance with such a requirement would be practicable.

In enforcing any such regulations, the Commission may determine to be in compliance with such regulations any person who is required under any other
Federal law to dispose of obsolete paper documents and other non-electronic data containing personal information if such other Federal law provides equal or greater protection or personal information than the regulations promulgated under this subsection.

(c) Special Requirements for Information Brokers.—

(1) Submission of Policies to the FTC.—The regulations promulgated under subsection (a) shall require information brokers to submit their security policies to the Commission in conjunction with a notification of a breach of security under section 3 or upon request of the Commission.

The Commission may conduct or require additional audits for a period of 5 years following the breach of security or until the Commission determines that the security practices of the information...
broker are in compliance with the requirements of this section and are adequate to prevent further breaches of security.

(3) Verification of and Individual Access to Personal Information.—

(A) Verification.—Each information broker shall establish reasonable procedures to verify the accuracy of the personal information it collects, assembles, or maintains, and any other information it collects, assembles, or maintains that specifically identifies an individual, other than information which merely identifies an individual’s name or address.

(II) place a conspicuous notice on its Internet website (if the information broker maintains such a website) instructing individuals how to request access to the information required to be provided under subclause (I).

(ii) DISPUTED INFORMATION.—Whenever an individual whose information the information broker maintains makes a written request disputing the accuracy of any such information, the information broker, after verifying the identity of the individual making such request and unless there are reasonable grounds to believe such request is frivolous or irrelevant, shall—

(I) correct any inaccuracy; or
(II)(aa) in the case of information that is public record information, inform the individual of the source of
the information, and, if reasonably available, where a request for correction may be directed; or

(bb) in the case of information that is non-public information, note the information that is disputed, in-
cluding the individual’s statement disputing such information, and take reasonable steps to independently
verify such information under the procedures outlined in subparagraph (A) if such information can be independ-
ently verified.

(iii) LIMITATIONS.—An information broker may limit the access to information required under subpara-

(C) Treatment of Entities Governed by Other Law.—The Commission may promulgate rules (under section 553 of title 5, United States Code) to determine to be in compliance with this paragraph any person who is a consumer reporting agency, as defined in section 603(f) of the Fair Credit Reporting Act, with respect to those products and services that are subject to and in compliance with the requirements of that Act.

electronic form containing personal information collected, assembled, or maintained by such information broker.

(5) Prohibition on pretexting by information brokers.—

(B) Prohibition on solicitation to obtain personal information under false pretenses.—It shall be unlawful for an infor-
information broker to request a person to obtain personal information or any other information relating to any other person, if the information broker knew or should have known that the person to whom such a request is made will obtain or attempt to obtain such information in the manner described in subsection (a).

(d) Exemption for Telecommunications Carrier, Cable Operator, Information Service, or Interactive Computer Service.—Nothing in this section shall apply to any electronic communication by a third party stored by a telecommunications carrier, cable operator, or information service, as those terms are defined in section 3 of the Communications Act of 1934 (47 U.S.C. 153), or an interactive computer service, as such term is defined in section 230(f)(2) of such Act (47 U.S.C. 230(f)(2)).

(d) Method and Content of Notification.—

(1) Direct notification.—

(A) Method of notification.—A person required to provide notification to individuals under subsection (a)(1) shall be in compliance with such requirement if the person provides conspicuous and clearly identified notification by one of the following methods (provided the selected method can reasonably be expected to reach the intended individual):

Any such presumption may be rebutted by facts demonstrating that any such methodology or
technology has been or is reasonably likely to be compromised. In promulgating such a rule, the Commission shall consult with relevant industries, consumer organizations, and data security and identity theft prevention experts and established standards setting bodies.

(3) FTC GUIDANCE.—Not later than 1 year after the date of the enactment of this Act, the Commission shall issue guidance regarding the application of the exemption in paragraph (1).

Any person who violates such regulations shall be subject to the penalties and entitled to the privileges and immunities provided in that Act.

(ii) TREATMENT OF VIOLATIONS OF SECTION 3.—For purposes of paragraph (1)(C) with regard to a violation of section 3, the amount determined under this paragraph is the amount calculated by multiplying the number of violations of such section by an amount not greater than $11,000. (3) INTERVENTION BY THE FTC.—

(A) NOTICE AND INTERVENTION.—The
State shall provide prior written notice of any

plaint of the Commission for any violation of
this Act alleged in the complaint.

(4) CONSTRUCTION.—For purposes of bringing

on the attorney general by the laws of that State
to—

(A) conduct investigations;

(B) administer oaths or affirmations; or

(C) compel the attendance of witnesses or
the production of documentary and other evi-
