(1) by striking subsection (a)(6) and inserting the following:

“(6) The Secretary, acting through the Administrator of the Health Resources and Services Administration, shall submit to Congress an annual report on the activities carried out under this section.”;

(2) in subsection (d)—

(A) in paragraph (2)—

(i) in the matter preceding subparagraph (A), by striking “With respect to cord blood, the Program shall—” and inserting the following:

“(A) IN GENERAL.—With respect to cord blood, the Program shall—”;

(ii) by redesignating subparagraphs (A) through (H) as clauses (i) through (viii) respectively;

(iii) by striking clause (iv), as so redesignated, and inserting the following:

“(iv) support and expand new and existing studies and demonstration and outreach projects for the purpose of increasing cord blood unit donation and collection from a genetically diverse population and expanding the number of cord blood unit collection sites partnering with cord blood banks receiving a contract under the National Cord Blood Inventory program under section 2 of the Stem Cell Therapeutic and Research Act of 2005, including such studies and projects that focus on—

“(I) remote collection of cord blood units, consistent with the requirements under the Program and the National Cord Blood Inventory program goal described in section 2(a) of the Stem Cell Therapeutic and Research Act of 2005; and

“(II) exploring novel approaches or incentives to encourage innovative technological advances that could be used to collect cord blood units, consistent with the requirements under the Program and such National Cord Blood Inventory program goal;”;

(iv) by adding at the end the following:

“(B) EFFORTS TO INCREASE COLLECTION OF HIGH QUALITY CORD BLOOD UNITS.—In carrying out subparagraph (A)(iv), not later than 1 year after the date of enactment of the Stem Cell Therapeutic and Research Reauthorization Act of 2010 and annually thereafter, the Secretary shall set an annual goal of increasing collections of high quality cord blood units, consistent with the inventory goal described in section 2(a) of the Stem Cell Therapeutic and Research Act of 2005 (referred to in this subparagraph as the ‘inventory goal’), and shall identify at least one project under subparagraph (A)(iv) to replicate and expand nationwide, as appropriate. If the Secretary cannot identify a project as described in the preceding sentence, the Secretary shall submit a plan, not later than 180 days after the date on which the Secretary was required to identify such a project, to the Committee on Health, Education, Labor, and Pensions of the Senate and the Committee

on Energy and Commerce of the House of Representatives for expanding remote collection of high quality cord blood units, consistent with the requirements under the National Cord Blood Inventory program under section 2 of the Stem Cell Therapeutic and Research Act of 2005 and the inventory goal. Each such plan shall be made available to the public.

“(C) DEFINITION.—In this paragraph, the term ‘remote collection’ means the collection of cord blood units at locations that do not have written contracts with cord blood banks for collection support.”; and

(B) in paragraph (3)(A), by striking “(2)(A)” and inserting “(2)(A)(i)”;

(3) by striking subsection (f)(5)(A) and inserting the following:

“(A) require the establishment of a system of strict confidentiality to protect the identity and privacy of patients and donors in accordance with Federal and State law; and”.

(c) ADDITIONAL REPORTS.—

(1) INTERIM REPORT.—In addition to the annual report required under section 379(a)(6) of the Public Health Service Act (42 U.S.C. 274k(a)(6)), the Secretary of Health and Human Services (referred to in this subsection as the “Secretary”), in consultation with the Advisory Council established under such section 379, shall submit to Congress an interim report not later than 180 days after the date of enactment of this Act describing—

(A) the methods to distribute Federal funds to cord blood banks used at the time of submission of the report;

(B) how cord blood banks contract with collection sites for the collection of cord blood units; and

(C) recommendations for improving the methods to distribute Federal funds described in subparagraph (A) in order to encourage the efficient collection of high-quality and diverse cord blood units.

(2) RECOMMENDATIONS.—Not later than 1 year after the date of enactment of this Act, the Advisory Council shall submit recommendations to the Secretary with respect to—

(A) whether models for remote collection of cord blood units should be allowed only with limited, scientifically-justified safety protections; and

(B) whether the Secretary should allow for cord blood unit collection from routine deliveries without temperature or humidity monitoring of delivery rooms in hospitals approved by the Joint Commission.

(d) AUTHORIZATION OF APPROPRIATIONS.—Section 379B of the Public Health Service Act (42 U.S.C. 274m) is amended by striking “\$34,000,000” and all that follows through the period at the end, and inserting “\$30,000,000 for each of fiscal years 2011 through 2014 and \$33,000,000 for fiscal year 2015.”.

(e) REPORT ON CORD BLOOD UNIT DONATION AND COLLECTION.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall submit to the Committee on Health, Education, Labor, and Pensions and the Committee on Appropriations of the Senate, the Committee on Energy and Commerce and

the Committee on Appropriations of the House of Representatives, and the Secretary of Health and Human Services a report reviewing studies, demonstration programs, and outreach efforts for the purpose of increasing cord blood unit donation and collection for the National Cord Blood Inventory to ensure a high-quality and genetically diverse inventory of cord blood units.

(2) CONTENTS.—The report described in paragraph (1) shall include a review of such studies, demonstration programs, and outreach efforts under section 2 of the Stem Cell Therapeutic and Research Act of 2005 (42 U.S.C. 274k note) (as amended by this Act) and section 379 of the Public Health Service Act (42 U.S.C. 274k) (as amended by this Act), including—

(A) a description of the challenges and barriers to expanding the number of cord blood unit collection sites, including cost, the cash flow requirements and operations of awarding contracts, the methods by which funds are distributed through contracts, the impact of regulatory and administrative requirements, and the capacity of cord blood banks to maintain high-quality units;

(B) remote collection or other innovative technological advances that could be used to collect cord blood units;

(C) appropriate methods for improving provider education about collecting cord blood units for the national inventory and participation in such collection activities;

(D) estimates of the number of cord blood unit collection sites necessary to meet the outstanding national inventory need and the characteristics of such collection sites that would help increase the genetic diversity and enhance the quality of cord blood units collected;

(E) best practices for establishing and sustaining partnerships for cord blood unit collection at medical facilities with a high number of minority births;

(F) potential and proven incentives to encourage hospitals to become cord blood unit collection sites and partner with cord blood banks participating in the National Cord Blood Inventory under section 2 of the Stem Cell Therapeutic and Research Act of 2005 and to assist cord blood banks in expanding the number of cord blood unit collection sites with which such cord blood banks partner;

(G) recommendations about methods cord blood banks and collection sites could use to lower costs and improve efficiency of cord blood unit collection without decreasing the quality of the cord blood units collected; and

(H) a description of the methods used prior to the date of enactment of this Act to distribute funds to cord blood banks and recommendations for how to improve such methods to encourage the efficient collection of high-quality and diverse cord blood units, consistent with the requirements of the C.W. Bill Young Cell Transplantation Program and the National Cord Blood Inventory program under section 2 of the Stem Cell Therapeutic and Research Act of 2005.

S. 3751—6
