

112TH CONGRESS
2D SESSION

H. CON. RES. 127

Expressing the sense of Congress regarding actions to preserve and advance the multistakeholder governance model under which the Internet has thrived.

IN THE HOUSE OF REPRESENTATIVES

MAY 30, 2012

Mrs. BONO MACK (for herself, Mr. UPTON, Mr. WAXMAN, Mr. WALDEN, and Ms. ESHOO) submitted the following concurrent resolution; which was referred to the Committee on Energy and Commerce

CONCURRENT RESOLUTION

Expressing the sense of Congress regarding actions to preserve and advance the multistakeholder governance model under which the Internet has thrived.

Whereas given the importance of the Internet to the global economy, it is essential that the Internet remain stable, secure, and free from government control;

Whereas the world deserves the access to knowledge, services, commerce, and communication, the accompanying benefits to economic development, education, and health care, and the informed discussion that is the bedrock of democratic self-government that the Internet provides;

Whereas the structure of Internet governance has profound implications for competition and trade, democratization, free expression, and access to information;

Whereas countries have obligations to protect human rights, which are advanced by online activity as well as offline activity;

Whereas the ability to innovate, develop technical capacity, grasp economic opportunities, and promote freedom of expression online is best realized in cooperation with all stakeholders;

Whereas proposals have been put forward for consideration at the 2012 World Conference on International Telecommunications that would fundamentally alter the governance and operation of the Internet;

Whereas the proposals, in international bodies such as the United Nations General Assembly, the United Nations Commission on Science and Technology for Development, and the International Telecommunication Union, would justify under international law increased government control over the Internet and would reject the current multi-stakeholder model that has enabled the Internet to flourish and under which the private sector, civil society, academia, and individual users play an important role in charting its direction;

Whereas the proposals would diminish the freedom of expression on the Internet in favor of government control over content, contrary to international law;

Whereas the position of the United States Government has been and is to advocate for the flow of information free from government control; and

Whereas this and past Administrations have made a strong commitment to the multistakeholder model of Internet governance and the promotion of the global benefits of the Internet: Now, therefore, be it

1 *Resolved by the House of Representatives (the Senate*
2 *concurring)*, That it is the sense of Congress that the As-
3 sistant Secretary of Commerce for Communications and
4 Information, in consultation with the Deputy Assistant
5 Secretary of State and United States Coordinator for
6 International Communications and Information Policy,
7 should continue working to implement the position of the
8 United States on Internet governance that clearly articu-
9 lates the consistent and unequivocal policy of the United
10 States to promote a global Internet free from government
11 control and preserve and advance the successful multi-
12 stakeholder model that governs the Internet today.
