13 **SEC. 3. CHILDREN’S PRODUCTS CONTAINING LEAD.**

14 (a) IN GENERAL.—Section 101(a)(2) of the Con-

17 (1) in subparagraph (A), by striking “600 parts  
18 per million” both places it appears and inserting  
19 “0.06 percent”;

20 (2) by striking subparagraphs (B) and (C) and

22 “(B) 0.03 PERCENT BY WEIGHT.—Except  
23 as provided in subparagraphs (C), (D), (F) and

9 dren's product that—

10 “(i) is designed or intended primarily  
11 for use by a child 6 years of age or young-

6                   subsection (b)(1)(A)(ii), a children’s product  
7                   can be placed in a child’s mouth if any part of  
8                   the children’s product can actually be brought  
9                   to the mouth and kept in the mouth by a child  
10                  so that it can be sucked and chewed. If the chil-  
11                  dren’s product can only be licked, it is not re-  
12                  garded as able to be placed in the mouth. If a  
13                  toy or part of a toy in one dimension is smaller  
14                  than 5 centimeters, it can be placed in the  
15                  mouth.

16                  “(F) APPLICATION OF MORE STRINGENT  
17                  LIMIT TO OTHER CHILDREN’S PRODUCTS.—The  
18                  Commission may, by regulation, apply the limit  
19                  set forth in subparagraph (C) or (D) to any  
20                  children’s product or class of products if it de-  
21                  termines after a hearing that the lead content  
22                  in such product or class of products, as limited  
23                  by subparagraph (B), presents an unreasonable  
24                  risk to children’s health.”; and

1           (5) in subparagraph (G) (as so redesignated),  
2           by striking “or (D)” and inserting “(D), or (F)”.

3           (b) PROSPECTIVE APPLICATION OF LEAD LIMIT FOR  
4 CHILDREN’S PRODUCTS.—Section 101(a) of the Con-  
5 sumer Product Safety Improvement Act of 2008 (15  
6 U.S.C. 1278a(a)) is further amended by adding at the end  
7 the following:

8           “(3) APPLICATION.—Each limit set forth in  
9           paragraph (2) (except for the limit set forth in sub-  
10          paragraph (A)) shall apply only to a children’s prod-  
11          uct (as defined in section 3(a) of the Consumer  
12          Product Safety Act (15 U.S.C. 2052(a))) that is  
13          manufactured after the effective date of such respec-  
14          tive limit.”.

15          (c) ALTERNATIVE LIMITS AND EXCEPTIONS.—Sec-  
16 tion 101(b) of such Act (15 U.S.C. 1278a(b)(1)) is  
17 amended—

18           (1) by striking paragraph (1) and inserting the  
19          following:

20           “(1) FUNCTIONAL PURPOSE EXCEPTION.—

21           “(A) IN GENERAL.—The Commission, on  
22          its own initiative or upon petition by an inter-  
23          ested party, shall grant an exception to the pro-  
24          hibition in subsection (a) for a specific product,  
25          material, or component part if the Commission,

1 after notice and comment in accordance with  
2 subparagraph (B), determines that—

3 “(i) the product, material, or compo-  
4 nent part requires the inclusion of lead be-  
5 cause it is not practicable or not techno-  
6 logically feasible to manufacture such  
7 product, material, or component part, as  
8 the case may be, in accordance with sub-  
9 section (a) by removing the excessive lead  
10 or by making the lead inaccessible;

11 “(ii) the product, material, or compo-  
12 nent part is not likely to be placed in the  
13 mouth or ingested, taking into account  
14 normal and reasonably foreseeable use and  
15 abuse of such product, material, or compo-  
16 nent part by a child; and

17 “(iii) an exception for the product,  
18 material, or component part will have no  
19 measurable adverse effect on public health  
20 or safety, taking into account normal and  
21 reasonably foreseeable use and abuse.

22 For purposes of clause (iii), there is no measur-  
23 able adverse effect on public health or safety if  
24 the exception described in this subparagraph

1 will result in no measurable increase in blood  
2 lead levels.

3 “(B) PROCEDURES FOR GRANTING EXCEP-  
4 TION.—

5 “(i) NOTICE AND COMMENT PE-  
6 RIOD.—Before granting an exception under  
7 subparagraph (A), the Commission shall  
8 allow not fewer than 60 days for public  
9 comment after publishing the notice of the  
10 proposed exception.

11 “(ii) BURDEN OF PROOF.—A party  
12 seeking an exception under subparagraph  
13 (A) has the burden of demonstrating that  
14 it meets the requirements of such subpara-  
15 graph.

16 “(iii) GROUNDS FOR DECISION.—In  
17 the case where a party has petitioned for  
18 an exception, in determining whether to  
19 grant the exception, the Commission may  
20 base its decision solely on the materials  
21 presented by the party seeking the excep-  
22 tion and any materials received through  
23 notice and comment.

24 “(iv) ADMISSIBLE EVIDENCE.—In  
25 demonstrating that it meets the require-

1           ments of subparagraph (A), a party seek-  
2           ing an exception under such subparagraph  
3           may rely on any nonproprietary informa-  
4           tion submitted by any other party seeking  
5           such an exception and such information  
6           shall be considered part of the record pre-  
7           sented by the party that relies on that in-  
8           formation.

9           “(v) SCOPE OF EXCEPTION.—If an ex-  
10          ception is sought for an entire product, the  
11          burden is on the petitioning party to dem-  
12          onstrate that the criteria in subparagraph  
13          (A) are met with respect to every acces-  
14          sible component or accessible material of  
15          the product.

16          “(C) LIMITATION ON EXCEPTION.—If the  
17          Commission grants an exception for a product,  
18          material, or component part under subpara-  
19          graph (A), the Commission may, as necessary  
20          to protect public health or safety—

21                 “(i) require each manufacturer of  
22                 such product, material, or component part  
23                 to reduce the level of lead in such product,  
24                 material, or component part; or

1           “(ii) place a manufacturing expiration  
2           date on such exception or establish a  
3           schedule after which the manufacturer of  
4           such product, material, or component part  
5           shall be in full compliance with the limits  
6           in subsection (a).

7           “(D) APPLICATION OF EXCEPTION.—An  
8           exception under subparagraph (A) for a prod-  
9           uct, material, or component part shall apply re-  
10          gardless of the date of manufacture unless the  
11          Commission expressly provides otherwise.

12          “(E) PREVIOUSLY SUBMITTED PETI-  
13          TIONS.—A party seeking an exception under  
14          this paragraph may rely on materials previously  
15          submitted in connection with a petition for ex-  
16          clusion under this section. In such cases, peti-  
17          tioners must notify the Commission of their in-  
18          tent to rely on materials previously submitted.  
19          Such reliance does not affect petitioners’ obliga-  
20          tion to demonstrate that they meet all require-  
21          ments of this paragraph as required by sub-  
22          paragraph (B)(ii).”;

23          (2) in paragraph (2)(A), by striking “include  
24          to,” and inserting “include”;

1           (3) by redesignating paragraph (5) as para-  
2           graph (7) and inserting after paragraph (4) the fol-  
3           lowing:

4           “(5) CERTAIN OUTDOOR RECREATIONAL PROD-  
5           UCTS.—

6           “(A) METAL COMPONENT PARTS.—In lieu  
7           of the lead limits established in subsection  
8           (a)(2), the limits set forth for each respective  
9           material in section 1500.88 of title 16, Code of  
10          Federal Regulations (as in effect on January  
11          20, 2010) shall apply to metal component parts  
12          made of such materials in children’s products,  
13          other than apparel, intended primarily for out-  
14          door recreational use, regardless of the date on  
15          which such products were manufactured.

16          “(B) BATTERY TERMINALS.—The lead  
17          limits established in subsection (a)(2) shall not  
18          apply to battery terminals in children’s prod-  
19          ucts intended primarily for outdoor recreational  
20          use.

21          “(6) EXCLUSION OF CERTAIN USED CHIL-  
22          DREN’S PRODUCTS.—

23          “(A) GENERAL EXCLUSION.—The lead  
24          limits established under subsection (a) shall not  
25          apply to a used children’s product.

1           “(B) DEFINITION.—The term ‘used chil-  
2           dren’s product’ means a children’s product that  
3           was obtained by the seller for use and not for  
4           the purpose of resale or was obtained by the  
5           seller, either directly or indirectly, from a per-  
6           son who obtained such children’s product for  
7           use and not for the purpose of resale. Such  
8           term also includes a children’s product that was  
9           donated to the seller for charitable distribution  
10          or resale to support charitable purposes. Such  
11          term shall not include—

12                       “(i) children’s metal jewelry; or

13                       “(ii) any children’s product for which  
14                       the donating party or the seller has actual  
15                       knowledge that the product is in violation  
16                       of the lead limits in this section.

17          For purposes of this definition, the term ‘seller’  
18          includes a person who lends or donates a used  
19          children’s product.”; and

20          (4) in paragraph (7) (as so redesignated)—

21                       (A) by inserting “the alternative limits set  
22                       forth in this subsection and” after “review and  
23                       revise”; and

24                       (B) by striking “the first promulgation of  
25                       a of a regulation under this subsection” and in-

1           serting “the date of enactment of the Enhanc-

3           2011,”.

4 **SEC. 4. APPLICATION OF THIRD-PARTY TESTING REQUIRE-**  
5 **MENTS.**

6           (a) **APPLICABLE CHILDREN’S PRODUCTS.**—Section  
7 14(a) of the Consumer Product Safety Act (15 U.S.C.  
8 2063(a)) is amended—

9           (1) in paragraph (2)—

10           (A) in the matter preceding subparagraph  
11           (A), by inserting “described in paragraph  
12           (3)(B)” after “a children’s product safety rule”;

13           (B) in subparagraph (B), by striking “the  
14           children’s product safety rule” and inserting  
15           “such children’s product safety rule”; and

16           (C) by striking the flush sentence following  
17           subparagraph (B); and

18           (2) in paragraph (3)—

19           (A) in subparagraph (A), by inserting “de-  
20           scribed in subparagraph (B)” after “a chil-

22           (B) by amending subparagraph (B)(vi) to  
23           read as follows:

24                   “(vi) **OTHER DURABLE NURSERY**  
25                   **PRODUCTS.**—The Commission shall publish

1 notice of the requirements for accreditation  
2 of third-party conformity assessment bod-  
3 ies to assess conformity with other rules  
4 promulgated under section 104 of the Con-  
5 sumer Product Safety Improvement Act of  
6 2008 not later than 90 days before such  
7 rules or revisions take effect.”.

8 (b) THIRD-PARTY TESTING REQUIREMENTS.—

9 (1) REQUIREMENTS.—Section 14(b) of the  
10 Consumer Product Safety Act (15 U.S.C. 2063(b))  
11 is amended to read as follows:

12 “(b) TESTING PROGRAMS.—

13 “(1) IN GENERAL.—The Commission may, by  
14 rule, prescribe reasonable testing programs to be  
15 used as the basis for certification under subsection  
16 (a).

17 “(2) TESTING BY AN INDEPENDENT THIRD  
18 PARTY.—Any test or testing program on the basis of  
19 which a certificate is issued under subsection (a)  
20 may, at the option of the person required to certify  
21 the product, be conducted by an independent third  
22 party qualified to perform such tests, unless the  
23 Commission, by rule and in accordance with para-  
24 graph (3), requires testing by an independent third  
25 party for—

1           “(A) a particular rule, regulation, stand-  
2           ard, ban;

3           “(B) any portion of a particular rule, regu-  
4           lation, standard, or ban; or

5           “(C) a particular class of products.

6           “(3) REQUIREMENTS FOR TESTING BY AN  
7           INDEPENDENT THIRD PARTY.—

8           “(A) REQUIREMENTS.—The Commission  
9           may not require testing by an independent third  
10          party under paragraph (2) until the Commis-  
11          sion has—

12           “(i) established and published notice  
13           of the requirements for accreditation of  
14           third-party conformity assessment bodies  
15           who are determined to be qualified by the  
16           Commission to conduct such testing;

17           “(ii) determined that the testing ca-  
18           pacity of accredited third-party conformity  
19           assessment bodies, taken together as a  
20           whole, is sufficient or is likely to be suffi-  
21           cient in a reasonable period of time to pre-  
22           vent unreasonable delays due to testing;

23           “(iii) established, by rule, exemptions  
24           or alternative testing procedures for the  
25           certification of works of art and other one-

1 of-a-kind products and of specialty prod-  
2 ucts for the disabled, and products that  
3 are produced in small quantities such that  
4 the cost of testing by an independent third  
5 party is not economically practicable; and

6 “(iv) made a reasoned determina-  
7 tion—

8 “(I) that the benefits from re-  
9 quiring third-party testing justify the  
10 costs; and

11 “(II) that any rule issued pursu-  
12 ant to this paragraph is tailored to  
13 impose the least possible burden, tak-  
14 ing into account to the extent prac-  
15 ticable, the costs of cumulative regula-  
16 tions.

17 “(B) PRODUCED IN SMALL QUANTITIES  
18 DEFINED.—For purposes of subparagraph  
19 (A)(iii), the term ‘produced in small quantities’  
20 means that not more than 10,000 units of the  
21 same product (or substantially similar products)  
22 are produced in one year by a manufacturer  
23 and any affiliated manufacturer. A manufac-  
24 turer may not subdivide the production of such

1 manufacturer into small quantities in order to  
2 evade third-party testing requirements.

3 “(4) STAY OF ENFORCEMENT AND REVIEW OF  
4 REQUIREMENTS.—

5 “(A) STAY OF ENFORCEMENT.—The Com-  
6 mission may not enforce any third-party testing  
7 requirement relating to lead content limits  
8 (other than for children’s metal jewelry),  
9 phthalate limits, or the mandatory toy standard  
10 until the Commission has complied with the re-  
11 quirements of paragraph (3) with respect to  
12 such requirement.

13 “(B) REVIEW.—The Commission may  
14 modify any other third-party testing require-  
15 ment it has adopted, based on a review of such  
16 requirements in accordance with paragraph (3),  
17 to provide additional flexibility or to eliminate  
18 unnecessary burdens.”.

19 (2) PROHIBITED ACT.—Section 19(a)(14) of  
20 the Consumer Product Safety Act (15 U.S.C.  
21 2068(a)(14)) is amended by inserting before the pe-  
22 riod the following: “, or to subdivide the production  
23 of any children’s product into small quantities in  
24 order to evade any third-party testing requirements  
25 under section 14(a)(2)”.

1 (c) CONTINUING TESTING.—Section 14(d)(2) of the  
2 Consumer Product Safety Act (15 U.S.C. 2063(d)(2)) is  
3 amended—

4 (1) by striking “Not later than 15 months after  
5 the date of enactment of the Consumer Product  
6 Safety Improvement Act of 2008, the” and inserting  
7 “(A) The”;

8 (2) by redesignating clauses (i) through (iv) of  
9 subparagraph (B) as subclauses (I) through (IV),  
10 respectively, and by redesignating subparagraphs  
11 (A) and (B) as clauses (i) and (ii), respectively;

12 (3) in the matter preceding clause (i) (as so re-  
13 designated), by striking “shall”;

14 (4) in clause (i) (as so redesignated), by strik-  
15 ing “initiate” and inserting “not later than 15  
16 months after the date of enactment of the Consumer  
17 Product Safety Improvement Act of 2008, shall ini-  
18 tiate”; and

19 (5) in clause (ii) (as so redesignated), by strik-  
20 ing “establish” and inserting “may establish”; and

21 (6) by inserting at the end the following:

22 “(B) The Commission may not enforce any  
23 third-party testing requirement pursuant to this  
24 paragraph without first having determined that such

1 requirement is consistent with the requirements of  
2 subsection (b)(3)(A)(iv).”.

3 **SEC. 5. APPLICATION OF AND PROCESS FOR UPDATING DU-**  
4 **RABLE NURSERY PRODUCTS STANDARDS.**

5 (a) UPDATING STANDARD.—Section 104(b) of the  
6 Consumer Product Safety Improvement Act of 2008 (15  
7 U.S.C. 2056a(b)) is amended by adding at the end the  
8 following:

9 “(4) PROCESS FOR CONSIDERING SUBSEQUENT  
10 REVISIONS TO VOLUNTARY STANDARD.—

11 “(A) NOTICE OF ADOPTION OF VOL-  
12 UNTARY STANDARD.—When the Commission  
13 promulgates a consumer product safety stand-  
14 ard under this subsection that is based, in  
15 whole or in part, on a voluntary standard, the  
16 Commission shall notify the organization that  
17 issued the voluntary standard of the Commis-  
18 sion’s action and shall provide a copy of the  
19 consumer product safety standard to the orga-  
20 nization.

21 “(B) COMMISSION ACTION ON REVISED  
22 VOLUNTARY STANDARD.—If an organization re-  
23 vises a standard that has been adopted, in  
24 whole or in part, as a consumer product safety  
25 standard under subparagraph (A), it shall no-

1           tify the Commission. The revised voluntary  
2           standard shall be considered to be a consumer  
3           product safety standard issued by the Commis-  
4           sion under section 9 of the Consumer Product  
5           Safety Act (15 U.S.C. 2058), effective 180 days  
6           after the date on which the organization notifies  
7           the Commission (or such later date specified by  
8           the Commission in the Federal Register) unless,  
9           within 90 days after receiving that notice, the  
10          Commission notifies the organization that it has  
11          determined that the proposed revision does not  
12          improve the safety of the consumer product cov-  
13          ered by the standard and that the Commission  
14          is retaining the existing consumer product safe-  
15          ty standard.”.

16          (b) APPLICATION OF STANDARD.—Section 104(c) of  
17          the Consumer Product Safety Improvement Act of 2008  
18          (15 U.S.C. 2056a) is amended by redesignating paragraph  
19          (3) as paragraph (4) and inserting after paragraph (2)  
20          the following:

21                 “(3) APPLICATION.—
