made available in this title for the Department of Energy
shall be used to initiate or resume any program, project,
or activity or to prepare or initiate Requests For Proposals
or similar arrangements (including Requests for
Quotations, Requests for Information, and Funding Op-
portunity Announcements) for a program, project, or ac-
tivity if the program, project, or activity has not been
funded by Congress.

(b)(1) Except as provided in paragraph (2), the De-
partment of Energy may not, with respect to any program,
project, or activity that uses budget authority made avail-
able in this title under the heading “Department of En-
ergy—Energy Programs”, enter into a contract, award a
grant, or enter into a cooperative agreement that obligates
the Government in excess of the budget authority available
under such heading for such purpose, or that is properly
chargeable to budget authority of a future fiscal year be-
fore such budget authority is available, regardless of
whether the contract, grant, or cooperative agreement includes a clause conditioning the Government’s obligation on the availability of such budget authority.

(2) Paragraph (1) shall not apply with respect to major capital projects.

(c) Except as provided in this section, the amounts made available by this Act for the Department of Energy shall be expended as authorized by law for the projects and activities specified in the text and the “Bill” column in the “Comparative Statement of New Budget (Obligational) Authority for 2011 and Budget Requests and Amounts Recommended in the Bill for 2012” included under the heading “Title III—Department of Energy” in the report of the Committee on Appropriations of the House of Representatives to accompany this Act.

(d) None of the funds provided in this title shall be available for obligation or expenditure through a reprogramming of funds that—

(1) creates or initiates a new program, project, or activity;

(2) eliminates a program, project, or activity;

(3) increases funds or personnel for any program, project, or activity for which funds are denied or restricted by this Act;
(4) reduces funds that are directed to be used for a specific program, project, or activity by this Act;

(5) increases funds for any program, project, or activity by more than $2,000,000 or 10 percent, whichever is less; or

(6) reduces funds for any program, project, or activity by more than $2,000,000 or 10 percent, whichever is less.

(c) The Secretary of Energy and the Administrator for Nuclear Security may jointly waive the restrictions under subsection (a) and subsection (d) on a case-by-case basis by certifying to the Committees on Appropriations of the House of Representatives and the Senate that it is in the national security interest to do so.

SEC. 302. None of the funds made available in this title may be used—

(1) to augment the funds made available for obligation by this Act for severance payments and other benefits and community assistance grants under section 4604 of the Atomic Energy Defense Act (50 U.S.C. 2704) unless the Department of Energy submits a reprogramming request to the appropriate congressional committees;
(2) to provide enhanced severance payments or other benefits for employees of the Department of Energy under section 4604; or

SEC. 304. None of the funds in this or any other Act for the Administrator of the Bonneville Power Administration may be used to enter into any agreement to perform energy efficiency services outside the legally defined Bonneville service territory, with the exception of services provided internationally, including services provided on a reimbursable basis, unless the Administrator certifies in advance that such services are not available from private sector businesses.

SEC. 305. When the Department of Energy makes a user facility available to universities or other potential users, or seeks input from universities or other potential
users regarding significant characteristics or equipment in a user facility or a proposed user facility, the Department shall ensure broad public notice of such availability or such need for input to universities and other potential users. When the Department of Energy considers the participation of a university or other potential user as a formal partner in the establishment or operation of a user facility, the Department shall employ full and open competition in selecting such a partner. For purposes of this section, the term “user facility” includes, but is not limited to: (1) a user facility as described in section 2203(a)(2) of the Energy Policy Act of 1992 (42 U.S.C. 13503(a)(2)); (2) a National Nuclear Security Administration Defense Programs Technology Deployment Center/User Facility; and (3) any other Departmental facility designated by the Department as a user facility.

not more than 1 percent of an appropriation made avail-
able in this or any subsequent Energy and Water Develop-
ment Appropriations Act to any other appropriation made
available to the Secretary by such Act for such reimburse-
ment.

(b) Where the Secretary recovers the costs of defined
benefit pension plans for contractor employees through
charges for the indirect costs of research and activities at
facilities of the Department of Energy, if the indirect costs
attributable to defined benefit pension plan costs in a fis-
cal year are more than charges in fiscal year 2008, the
Secretary shall carry out a transfer of funds under this
section.

(e) In carrying out a transfer under this section, the
Secretary shall use each appropriation made available to
the Department in that fiscal year as a source for the
transfer, and shall reduce each appropriation by an equal
percentage, except that appropriations for which the Sec-
retary determines there exists a need for additional funds
for pension plan costs in that fiscal year, as well as appro-
priations made available for the Power Marketing Admin-
istrations, the loan guarantee program under title XVII
Regulatory Commission, shall not be subject to this requirement.

(d) Each January, the Secretary shall report to the Committees on Appropriations of the House of Representatives and the Senate on the state of defined benefit pension plan liabilities in the Department for the preceding year.

(e) This transfer authority does not apply to supplemental appropriations, and is in addition to any other transfer authority provided in this or any other Act. The authority provided under this section shall expire on September 30, 2015.

$10,000,000 are considered for purposes of section 4703 of the Atomic Energy Defense Act (50 U.S.C. 2743) as a plant project for which the approved total estimated cost does not exceed the minor construction threshold and for purposes of section 4704(d) of such Act (50 U.S.C. 2744(d)) as a construction project with an estimated cost of less than a minor construction threshold.

SEC. 310. None of the funds made available in this title may be used to approve critical decision-2 or critical decision-3 under Department of Energy Order 413.3B, or any successive departmental guidance, for construction projects where the total project cost exceeds $100,000,000, until a separate independent cost estimate has been developed for the project for that critical decision.

SEC. 311. None of the funds made available in this title may be used to make a grant allocation, discretionary grant award, discretionary contract award, or Other Transaction Agreement, or to issue a letter of intent, totaling in excess of $1,000,000, or to announce publicly the intention to make such an allocation, award, or Agreement, or to issue such a letter, including a contract covered by the Federal Acquisition Regulation, unless the Secretary of Energy notifies the Committees on Appropriations of the Senate and the House of Representatives
at least 3 full business days in advance of making such
an allocation, award, or Agreement, or issuing such a let-
ter: Provided, That if the Secretary of Energy determines
that compliance with this section would pose a substantial
risk to human life, health, or safety, an allocation, award,
or Agreement may be made, or a letter may be issued,
without advance notification, and the Secretary shall no-
tify the Committees on Appropriations of the Senate and
the House of Representatives not later than 5 full business
days after the date on which such an allocation, award,
or Agreement is made or letter issued.

Sec. 312. None of the funds made available by this
title may be used to make a final or conditional loan guar-
antee award unless the Secretary of Energy provides noti-
fication of the award, including the proposed subsidy cost,
to the Committees on Appropriations of the Senate and
the House of Representatives at least three full business
days in advance of such award.

Sec. 313. None of the funds included in this title
for the Department of Energy shall be made available to
initiate, administer, promulgate, or enforce any “signifi-
cant regulatory action” as defined by Executive Order No.
12866 unless the Committee on Appropriations has been
notified not later than 30 days before the issuance of such
action.
