13 of a covered entity that submits to such a body informa-  
14 tion on such an adverse event and in the case of the collec-  
15 tion and maintenance of such information by such a body,

21 (c) CLARIFICATION OF AUTHORITY.—Certified  
22 EHR's shall not be considered a device for purposes of

13 (1) ENCOURAGING SPEEDY RESOLUTION OF  
14 CLAIMS.—

15 (A) GENERAL.—A claimant may not com-  
16 mence a health care lawsuit against a covered  
17 entity on any date that is 3 years after the date  
18 of manifestation of injury or 1 year after the  
19 claimant discovers, or through the use of rea-  
20 sonable diligence should have discovered, the in-  
21 jury, whichever occurs first. This limitation  
22 shall be tolled to the extent that the claimant  
23 is able to prove—

24 (i) fraud;

25 (ii) intentional concealment; or

1 (iii) the presence of a foreign body,  
2 which has no therapeutic or diagnostic  
3 purpose or effect, in the person of the in-  
4 jured person.

5 (B) TREATMENT OF A MINOR.—A health  
6 care lawsuit by or on behalf of a claimant under  
7 the age of 17 years at the time the injury was  
8 suffered may not be commenced after the date  
9 that is not later than 3 years after the date of  
10 the alleged manifestation of injury except that  
11 actions by a claimant under the full age of 6  
12 years shall be commenced not later than 3  
13 years after the date of manifestation of injury  
14 or prior to the claimant's 8th birthday, which-  
15 ever provides a longer period. In addition to  
16 subsection (1)(A)(i)–(iii), this limitation shall  
17 be tolled for claimants under the age of 17  
18 years for any period during which a parent or  
19 guardian and a health care provider or health  
20 care organization have committed fraud or col-  
21 lusion in the failure to bring an action on be-  
22 half of the claimant.

23 (2) EQUITABLE ASSIGNMENT OF RESPONSIBI-  
24 LITY.—In any health care lawsuit against a cov-  
25 ered entity—

1 (A) each party to the lawsuit other than  
2 the claimant that is such a covered entity shall  
3 be liable for that party's several share of any  
4 damages only and not for the share of any  
5 other person and such several share shall be in  
6 direct proportion to that party's proportion of  
7 responsibility for the injury, as determined  
8 under clause (iii);

9 (B) whenever a judgment of liability is ren-  
10 dered as to any such party, a separate judg-  
11 ment shall be rendered against each such party  
12 for the amount allocated to such party; and

13 (C) for purposes of this paragraph, the  
14 trier of fact shall determine the proportion of

19 related adverse event with respect to certified EHR  
20 technology used or provided by the covered entity  
21 (including changes to the certified EHR system, ad-  
22 ditional training requirements, or changes to stand-  
23 ard operating procedures) by a covered entity shall  
24 not be admissible in health care lawsuits.

1           (4) INCREASED BURDEN OF PROOF PROTEC-  
2           TION FOR COVERED ENTITIES.—Punitive damages  
3           may, if otherwise permitted by applicable State or  
4           Federal law, be awarded against any covered entity  
5           in a health care lawsuit only if it is proven by clear  
6           and convincing evidence that such entity acted with  
7           reckless disregard for the health or safety of the  
8           claimant. In any such health care lawsuit where no  
9           judgment for compensatory damages is rendered  
10          against such entity, no punitive damages may be  
11          awarded with respect to the claim in such lawsuit.

12          (5) PROTECTION FROM LIBEL OR SLANDER.—  
13          Covered entities and employees, agents and rep-  
14          resentatives of covered entities are immune from  
15          civil action for libel or slander arising from informa-  
16          tion or entries made in certified EHR technology  
17          and for the transfer of such information to another  
18          eligible provider, hospital or health information ex-  
19          change, if the information, transfer of information,
