“(aa) a loan that is secured by the property is originated; or

“(bb) any existing loan that is secured by the property is increased, extended, or renewed.

(c) Duties.—

(1) New Mapping Standards.—Not later than the expiration of the 12-month period beginning upon the date of the enactment of this Act, the Council shall develop and submit to the Administrator and the Congress proposed new mapping standards for 100-year flood insurance rate maps used under the national flood insurance program under the National Flood Insurance Act of 1968. In developing such proposed standards the Council shall—

(A) ensure that the flood insurance rate maps reflect true risk, including graduated risk that better reflects the financial risk to each property; such reflection of risk should be at the smallest geographic level possible (but not necessarily property-by-property) to ensure that communities are mapped in a manner that takes into consideration different risk levels within the community;
(B) ensure the most efficient generation, display, and distribution of flood risk data, models, and maps where practicable through dynamic digital environments using spatial database technology and the Internet;

(C) ensure that flood insurance rate maps reflect current hydrologic and hydraulic data, current land use, and topography, incorporating the most current and accurate ground and bathymetric elevation data;

(D) determine the best ways to include in such flood insurance rate maps levees, decertified levees, and areas located below dams, including determining a methodology for ensuring that decertified levees and other protections are included in flood insurance rate maps and their corresponding flood zones reflect the level of protection conferred;

(F) consider whether to use vertical positioning (as defined by the Administrator) for flood insurance rate maps;

(G) ensure that flood insurance rate maps differentiate between a property that is located in a flood zone and a structure located on such property that is not at the same risk level for flooding as such property due to the elevation of the structure;

(H) ensure that flood insurance rate maps take into consideration the best scientific data and potential future conditions (including projections for sea level rise); and

(I) consider how to incorporate the new standards proposed pursuant to this paragraph in existing mapping efforts.

(2) ONGOING DUTIES.—The Council shall, on an ongoing basis, review the mapping protocols developed pursuant to paragraph (1), and make recommendations to the Administrator when the Council determines that mapping protocols should be altered.

(i) MORATORIUM ON FLOOD MAP CHANGES.—

(1) MORATORIUM.—Except as provided in paragraph (2) and notwithstanding any other provision of this title, the National Flood Insurance Act of 1968, or the Flood Disaster Protection Act of 1973, during the period beginning upon the date of the enactment of this Act and ending upon the submission by the Council to the Administrator and the Congress of the proposed new mapping standards required under subsection (e)(1), the Administrator may not make effective any new or updated rate maps for flood insurance coverage under the national flood insurance program that were not in effect for such program as of such date of enactment, or otherwise revise, update, or change the flood insurance rate maps in effect for such program as of such date.

(2) LETTERS OF MAP CHANGE.—During the period described in paragraph (1), the Administrator may revise, update, and change the flood insurance rate maps in effect for the national flood insurance program only pursuant to a letter of map change.
(including a letter of map amendment, letter of map revision, and letter of map revision based on fill).

(C) take into consideration the impacts and use of fill and the flood risks associated with altered hydrology;

(D) differentiate between a property that is located in a flood zone and a structure located on such property that is not at the same risk level for flooding as such property due to the elevation of the structure;

(E) identify and incorporate natural features and their associated flood protection benefits into mapping and rates; and

(F) identify, analyze, and incorporate the impact of significant changes to building and development throughout any river or coastal water system, including all tributaries, which may impact flooding in areas downstream; and

(3) provide that such rate maps are developed on a watershed basis.

(c) REPORT.—If, in establishing new standards for flood insurance rate maps pursuant to subsection (a) of
this section, the Administrator does not implement all of
the recommendations of the Council made under the pro-
posed new mapping standards developed by the Council
pursuant to section 3006(c), upon establishment of the
new standards the Administrator shall submit a report to
the Committee on Financial Services of the House of Rep-

(2) **Review of Certificate.**—The Administrator shall accept as conclusive each elevation certificate submitted under paragraph (1) unless the Administrator conducts a subsequent elevation survey and determines that the lowest level of the primary residence on the property in question is not at an elevation that is at least three feet higher than the elevation of the 100-year flood plain. The Administrator shall provide any such subsequent elevation survey to the owner of such property.

(3) **Determinations for Properties on Borders of Special Flood Hazard Areas.**—
(A) Expedited Determination.—In the case of any survey for a property submitted to the Administrator pursuant to paragraph (1) showing that a portion of the property is located within an area having special flood hazards and that a structure located on the property is not located within such area having special flood hazards, the Administrator shall expeditiously process any request made by an owner of the property for a determination pursuant to paragraph (2) or a determination of whether the structure is located within the area having special flood hazards.

(B) Prohibition of Fee.—If the Administrator determines pursuant to subparagraph (A) that the structure on the property is not located within the area having special flood hazards, the Administrator shall not charge a fee for reviewing the flood hazard data and shall not require the owner to provide any additional elevation data.

18-month period beginning on the date of the enactment
of this Act, the Administrator of the Federal Emergency

beginning on the date of the enactment of this Act, the
Administrator of the Federal Emergency Management Agency shall conduct a study and submit a report to the Committee on Financial Services of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate regarding the impact, effectiveness, and feasibility of amending section 1361 of the National Flood Insurance Act of 1968 (42 U.S.C. 4102) to include widely used and nationally recognized building codes as part of the floodplain management criteria developed under such section, and shall determine—

(6) the feasibility and effectiveness of providing an incentive in lower premium rates for flood insurance coverage under such Act for structures meeting whichever of such widely used and nationally recognized building code or any applicable local building code provides greater protection from flood damage;

(7) the impact of such a building code requirement on rural communities with different building code challenges than more urban environments; and

(8) the impact of such a building code requirement on Indian reservations.

SEC. 3031. STUDY ON GRADUATED RISK.

(a) STUDY.—The National Academy of Sciences shall conduct a study exploring methods for understanding graduated risk behind levees and the associated land development, insurance, and risk communication dimensions, which shall—

(1) research, review, and recommend current best practices for estimating direct annualized flood losses behind levees for residential and commercial structures;
(2) rank such practices based on their best value, balancing cost, scientific integrity, and the inherent uncertainties associated with all aspects of the loss estimate, including geotechnical engineering, flood frequency estimates, economic value, and direct damages;

(3) research, review, and identify current best floodplain management and land use practices behind levees that effectively balance social, economic, and environmental considerations as part of an overall flood risk management strategy;

(4) identify examples where such practices have proven effective and recommend methods and processes by which they could be applied more broadly across the United States, given the variety of different flood risks, State and local legal frameworks, and evolving judicial opinions;

(5) research, review, and identify a variety of flood insurance pricing options for flood hazards behind levees which are actuarially sound and based on the flood risk data developed using the top three best value approaches identified pursuant to paragraph (1);

(6) evaluate and recommend methods to reduce insurance costs through creative arrangements be-
tween insureds and insurers while keeping a clear accounting of how much financial risk is being borne by various parties such that the entire risk is accounted for, including establishment of explicit limits on disaster aid or other assistance in the event of a flood; and

(7) taking into consideration the recommendations pursuant to paragraphs (1) through (3), recommend approaches to communicating the associated risks to community officials, homeowners, and other residents.

(a) REVERSE AUCTION TO IDENTIFY INCENTIVE AMOUNT.—

(1) IN GENERAL.—The Commission shall conduct a reverse auction to determine the amount of compensation that each broadcast television licensee would accept in return for voluntarily relinquishing some or all of its broadcast television spectrum usage rights in order to make spectrum available for assignment through a system of competitive bidding.
under subparagraph (G) of section 309(j)(8) of the Communications Act of 1934, as added by section 4103.

(2) Eligible relinquishments.—A relinquishment of usage rights for purposes of paragraph (1) shall include the following:

(A) Relinquishing all usage rights with respect to a particular television channel without receiving in return any usage rights with respect to another television channel.

(B) Relinquishing all usage rights with respect to an ultra high frequency television channel in return for receiving usage rights with respect to a very high frequency television channel.

(C) Relinquishing usage rights in order to share a television channel with another licensee.

(3) Confidentiality.—The Commission shall take all reasonable steps necessary to protect the confidentiality of Commission-held data of a licensee participating in the reverse auction under paragraph (1), including withholding the identity of such licensee until the reassignments and reallocations (if any) under subsection (b)(1)(B) become effective, as described in subsection (f)(2).
(4) Protection of carriage rights of licensees sharing a channel.—A broadcast television station that voluntarily relinquishes spectrum usage rights under this subsection in order to share a television channel and that possessed carriage rights under section 338, 614, or 615 of the Communications Act of 1934 (47 U.S.C. 338; 534; 535) on November 30, 2010, shall have, at its shared location, the carriage rights under such section that would apply to such station at such location if it were not sharing a channel.

(b) Reorganization of broadcast TV spectrum.—

(1) In general.—For purposes of making available spectrum to carry out the forward auction under subsection (c)(1), the Commission—

(A) shall evaluate the broadcast television spectrum (including spectrum made available through the reverse auction under subsection (a)(1)); and

(B) may, subject to international coordination along the border with Mexico and Canada—
(i) make such reassignments of television channels as the Commission considers appropriate; and

(ii) reallocate such portions of such spectrum as the Commission determines are available for reallocation.

(2) FACTORS FOR CONSIDERATION.—In making any reassignments or reallocations under paragraph (1)(B), the Commission shall make all reasonable efforts to preserve, as of the date of the enactment of this Act, the coverage area and population served of each broadcast television licensee, as determined using the methodology described in OET Bulletin 69 of the Office of Engineering and Technology of the Commission.

(3) NO INVOLUNTARY RELOCATION FROM UHF TO VHF.—In making any reassignments under paragraph (1)(B)(i), the Commission may not involuntarily reassign a broadcast television licensee—

(A) from an ultra high frequency television channel to a very high frequency television channel; or

(B) from a television channel between the frequencies from 174 megahertz to 216 mega-
hertz to a television channel between the fre-
quencies from 54 megahertz to 88 megahertz.

(A) IN GENERAL.—Except as provided in
subparagraph (B), from amounts made avail-
able under subsection (d)(2), the Commission
shall reimburse costs reasonably incurred by—

was reassigned under paragraph (1)(B)(i)
from one ultra high frequency television
channel to a different ultra high frequency
television channel, from one very high fre-
quency television channel to a different
very high frequency television channel, or,
in accordance with subsection (g)(1)(B),
from a very high frequency television chan-
nel to an ultra high frequency television
channel, in order for the licensee to relo-
cate its television service from one channel
to the other; or

(ii) a multichannel video programming
distributor in order to continue to carry
the signal of a broadcast television licensee
that—

(I) is described in clause (i);
(II) voluntarily relinquishes spectrum usage rights under subsection (a) with respect to an ultra high frequency television channel in return for receiving usage rights with respect to a very high frequency television channel; or

(III) voluntarily relinquishes spectrum usage rights under subsection (a) to share a television channel with another licensee.

(B) REGULATORY RELIEF.—In lieu of reimbursement for relocation costs under subparagraph (A), a broadcast television licensee may accept, and the Commission may grant as it considers appropriate, a waiver of the service rules of the Commission to permit the licensee, subject to interference protections, to make flexible use of the spectrum assigned to the licensee to provide services other than broadcast television services. Such waiver shall only remain in effect while the licensee provides at least 1 broadcast television program stream on such spectrum at no charge to the public.
(C) LIMITATION.—The Commission may not make reimbursements under subparagraph (A) for lost revenues.

(D) DEADLINE.—The Commission shall make all reimbursements required by subparagraph (A) not later than the date that is 3 years after the completion of the forward auction under subsection (c)(1).

(5) LOW-POWER TELEVISION USAGE RIGHTS.—Nothing in this subsection shall be construed to alter the spectrum usage rights of low-power television stations.

(e) FORWARD AUCTION.—

(1) AUCTION REQUIRED.—The Commission shall conduct a forward auction in which—

(A) the Commission assigns licenses for the use of the spectrum that the Commission reallocates under subsection (b)(1)(B)(ii); and

(B) the amount of the proceeds that the Commission shares under clause (i) of section 309(j)(8)(G) of the Communications Act of 1934 with each licensee whose bid the Commission accepts in the reverse auction under subsection (a)(1) is not less than the amount of such bid.
(2) MINIMUM PROCEEDS.—

(A) IN GENERAL.—If the amount of the proceeds from the forward auction under paragraph (1) is not greater than the sum described in subparagraph (B), no licenses shall be assigned through such forward auction, no reassignments or reallocations under subsection (b)(1)(B) shall become effective, and the Commission may not revoke any spectrum usage rights by reason of a bid that the Commission accepts in the reverse auction under subsection (a)(1).

(B) SUM DESCRIBED.—The sum described in this subparagraph is the sum of—

(i) the total amount of compensation that the Commission must pay successful bidders in the reverse auction under subsection (a)(1);

that are not necessary for reimbursement of the gen-
eral fund of the Treasury for such borrowed
amounts shall be available to the Commission to
make the payments required by subsection (b)(4)(A).

(3) Borrowing authority.—

(A) In general.—Beginning on the date
when any reassignments or reallocations under
subsection (b)(1)(B) become effective, as pro-
vided in subsection (f)(2), and ending when
$1,000,000,000 has been deposited in the TV
Broadcaster Relocation Fund, the Commission
may borrow from the Treasury of the United
States an amount not to exceed $1,000,000,000
to use toward the payments required by sub-
section (b)(4)(A).

(B) Reimbursement.—The Commission
shall reimburse the general fund of the Treas-

(B) reassign a broadcast television licensee from a very high frequency television channel to an ultra high frequency television channel, unless such a reassignment will not decrease the total amount of ultra high frequency spectrum made available for reallocation under this section.

(2) Period described.—The period described in this paragraph is the period beginning on the date of the enactment of this Act and ending on the earliest of—

(A) the first date when the reverse auction under subsection (a)(1), the reassignments and reallocations (if any) under subsection (b)(1)(B), and the forward auction under subsection (c)(1) have been completed;
(B) the date of a determination by the Commission that the amount of the proceeds from the forward auction under subsection (c)(1) is not greater than the sum described in subsection (c)(2)(B); or

PART 4—NEXT GENERATION 9–1–1

ADVANCEMENT ACT OF 2011

SEC. 4261. SHORT TITLE.

This part may be cited as the “Next Generation 9–
1–1 Advancement Act of 2011”.

SEC. 4262. FINDINGS.

Congress finds that—

(1) for the sake of the public safety of our Na-
tion, a universal emergency service number (9–1–1)
that is enhanced with the most modern and state-of-
the-art telecommunications capabilities possible, in-
cluding voice, data, and video communications,
should be available to all citizens wherever they live,
work, and travel;

(2) a successful migration to Next Generation
9–1–1 service communications systems will require
greater Federal, State, and local government re-
sources and coordination;

(3) any funds that are collected from fees im-
posed on consumer bills for the purposes of funding
9–1–1 services, enhanced 9–1–1 services, or Next
Generation 9–1–1 services should only be used for
the purposes for which the funds are collected;
(4) it is a national priority to foster the migration from analog, voice-centric 9–1–1 and current generation emergency communications systems to a 21st century, Next Generation, IP-based emergency services model that embraces a wide range of voice, video, and data applications;

(5) ensuring 9–1–1 access for all citizens includes improving access to 9–1–1 systems for the deaf, hard of hearing, deaf-blind, and individuals with speech disabilities, who increasingly communicate with non-traditional text, video, and instant-messaging communications services, and who expect those services to be able to connect directly to 9–1–1 systems;

(6) a coordinated public educational effort on current and emerging 9–1–1 system capabilities and proper use of the 9–1–1 system is essential to the operation of effective 9–1–1 systems;

(7) Federal policies and funding should enable the transition to Internet Protocol-based (IP-based) Next Generation 9–1–1 systems, and Federal 9–1–1 and emergency communications laws and regulations must keep pace with rapidly changing technology to ensure an open and competitive 9–1–1 en-
environment based on the most advanced technology available; and

(8) Federal policies and grant programs should reflect the growing convergence and integration of emergency communications technology, such that State interoperability plans and Federal funding in support of such plans are made available for all aspects of Next Generation 9–1–1 service and emergency communications systems.

SEC. 4263. PURPOSES.

The purposes of this part are—

(1) to focus Federal policies and funding programs to ensure a successful migration from voice-centric 9–1–1 systems to IP-enabled, Next Generation 9–1–1 emergency response systems that use voice, data, and video services to greatly enhance the capability of 9–1–1 and emergency response services;

(2) to ensure that technologically advanced 9–1–1 and emergency communications systems are universally available and adequately funded to serve all Americans; and

(3) to ensure that all 9–1–1 and emergency response organizations have access to—

(A) high-speed broadband networks;

(B) interconnected IP backbones; and

spectrum frequencies from Federal use to exclusive
non-Federal use or to shared use shall receive pay-
ment for such relocation or sharing costs from the
Spectrum Relocation Fund, in accordance with this
section and section 118. For purposes of this para-
graph, Federal power agencies exempted under sub-
section (c)(4) that choose to relocate from the fre-

use or to shared use after January 1, 2003, that is assigned by competitive bidding pursuant to section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)).”;

(D) by amending paragraph (3) to read as follows:

“(3) ReLOCATION OR SHARING COSTS DEFINED.—

“(A) IN GENERAL.—For purposes of this section and section 118, the term ‘relocation or sharing costs’ means the costs incurred by a Federal entity in connection with the auction of spectrum frequencies previously assigned to such entity or the sharing of spectrum frequencies assigned to such entity (including the auction or a planned auction of the rights to use spectrum frequencies on a shared basis with such entity) in order to achieve comparable capability of systems as before the relocation or sharing arrangement. Such term includes, with respect to relocation or sharing, as the case may be—

“(i) the costs of any modification or replacement of equipment, spares, associated ancillary equipment, software, facili-
ties, operating manuals, training, or compliance with regulations that are attributable to relocation or sharing;

“(ii) the costs of all engineering, equipment, software, site acquisition, and construction, as well as any legitimate and prudent transaction expense, including term-limited Federal civil servant and contractor staff necessary to carry out the relocation or sharing activities of a Federal entity, and reasonable additional costs incurred by the Federal entity that are attributable to relocation or sharing, including increased recurring costs associated with the replacement of facilities;

“(iii) the costs of research, engineering studies, economic analyses, or other expenses reasonably incurred in connection with—

“(I) calculating the estimated relocation or sharing costs that are provided to the Commission pursuant to paragraph (4)(A);

“(II) determining the technical or operational feasibility of relocation to
1 or more potential relocation bands;

or

“(III) planning for or managing a relocation or sharing arrangement (including spectrum coordination with auction winners);

“(iv) the one-time costs of any modification of equipment reasonably necessary—

“(I) to accommodate non-Federal use of shared frequencies; or

“(II) in the case of eligible frequencies reallocated for exclusive non-Federal use and assigned through a system of competitive bidding under section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)) but with respect to which a Federal entity retains primary allocation or protected status for a period of time after the completion of the competitive bidding process, to accommodate shared Federal and non-Federal use of such frequencies for such period; and
“(v) the costs associated with the accelerated replacement of systems and equipment if the acceleration is necessary to ensure the timely relocation of systems to a new frequency assignment or the timely accommodation of sharing of Federal frequencies.

“(B) COMPARABLE CAPABILITY OF SYSTEMS.—For purposes of subparagraph (A), comparable capability of systems—

“(i) may be achieved by relocating a Federal Government station to a new frequency assignment, by relocating a Federal Government station to a different geographic location, by modifying Federal Government equipment to mitigate interference or use less spectrum, in terms of bandwidth, geography, or time, and thereby permitting spectrum sharing (including sharing among relocated Federal entities and incumbents to make spectrum available for non-Federal use) or relocation, or by utilizing an alternative technology; and

“(ii) includes the acquisition of state-of-the-art replacement systems intended to
meet comparable operational scope, which may include incidental increases in functionality.”;

(E) in paragraph (4)—

(i) in the heading, by striking “RELOCATION COSTS” and inserting “RELOCATION OR SHARING COSTS”;

(ii) by striking “relocation costs” each place it appears and inserting “relocation or sharing costs”; and

(iii) in subparagraph (A), by inserting “or sharing” after “such relocation”;

(ii) by inserting “or sharing” after “for relocation”; and

(G) by amending paragraph (6) to read as follows:

“(6) IMPLEMENTATION OF PROCEDURES.—The NTIA shall take such actions as necessary to ensure the timely relocation of Federal entities’ spectrum-related operations from frequencies described in paragraph (2) to frequencies or facilities of comparable capability and to ensure the timely imple-
mentation of arrangements for the sharing of frequencies described in such paragraph. Upon a finding by the NTIA that a Federal entity has achieved comparable capability of systems, the NTIA shall terminate or limit the entity’s authorization and notify the Commission that the entity’s relocation has been completed or sharing arrangement has been implemented. The NTIA shall also terminate such entity’s authorization if the NTIA determines that the entity has unreasonably failed to comply with the timeline for relocation or sharing submitted by the Director of the Office of Management and Budget under section 118(d)(2)(C).”;

(2) by redesignating subsections (h) and (i) as subsections (k) and (l), respectively; and

(3) by inserting after subsection (g) the following:

“(E) The specific interactions between the eligible Federal entity and the NTIA needed to implement the transition plan.

“(F) The name of the officer or employee of the Federal entity who is responsible for the relocation or sharing efforts of the entity and who is authorized to meet and negotiate with non-Federal users regarding the transition.

“(G) The plans and timelines of the Federal entity for—

“(i) using funds received from the Spectrum Relocation Fund established by section 118;

“(ii) procuring new equipment and additional personnel needed for relocation or sharing;

“(iii) field-testing and deploying new equipment needed for relocation or sharing; and

"SEC. 1327. ENTERPRISE GUARANTEE FEES.

(a) DEFINITIONS.—For purposes of this section, the following definitions shall apply:

(1) GUARANTEE FEE.—The term ‘guarantee fee’—

(A) means a fee described in subsection (b); and

(B) includes—

(i) the guaranty fee charged by the Federal National Mortgage Association with respect to mortgage-backed securities; and

(ii) the management and guarantee fee charged by the Federal Home Loan Mortgage Corporation with respect to participation certificates.

(2) AVERAGE FEES.—The term ‘average fees’ means the average contractual fee rate of single-family guaranty arrangements by an enterprise entered into during 2011, plus the recognition of any up-front cash payments over an estimated average life, expressed in terms of basis points. Such definition shall be interpreted in a manner consistent with the annual report on guarantee fees by the Federal Housing Finance Agency.

(b) INCREASE.—
“(1) IN GENERAL.—

“(A) PHASED INCREASE REQUIRED.—Subject to subsection (c), the Director shall require each enterprise to charge a guarantee fee in connection with any guarantee of the timely payment of principal and interest on securities, notes, and other obligations based on or backed by mortgages on residential real properties designed principally for occupancy of from 1 to 4 families, consummated after the date of enactment of this section.

“(B) AMOUNT.—The amount of the increase required under this section shall be determined by the Director to appropriately reflect the risk of loss, as well the cost of capital allocated to similar assets held by other fully private regulated financial institutions, but such amount shall be not less than an average increase of 10 basis points for each origination year or book year above the average fees imposed in 2011 for such guarantees. The Director shall prohibit an enterprise from offsetting the cost of the fee to mortgage originators, borrowers, and investors by decreasing other
charges, fees, or premiums, or in any other manner.

“(2) Authority to limit offer of guarantee.—The Director shall prohibit an enterprise from consummating any offer for a guarantee to a lender for mortgage-backed securities, if—

“(A) the guarantee is inconsistent with the requirements of this section; or

“(B) the risk of loss is allowed to increase, through lowering of the underwriting standards or other means, for the primary purpose of meeting the requirements of this section.

“(3) Deposit in Treasury.—To the extent that amounts are received from fee increases imposed under this section that are necessary to comply with the minimum increase required by this subsection, such amounts shall be deposited directly into the United States Treasury, and shall be available only to the extent provided in subsequent appropriations Acts. Such fees shall not be considered a reimbursement to the Federal Government for the costs or subsidy provided to an enterprise.

“(c) Phase-In.—

“(1) In general.—The Director may provide for compliance with subsection (b) by allowing each
enterprise to increase the guarantee fee charged by
the enterprise gradually over the 2-year period be-
going on the date of enactment of this section, in
a manner sufficient to comply with this section. In
determining a schedule for such increases, the Direc-
tor shall—

“(A) provide for uniform pricing among
lenders;
“(B) provide for adjustments in pricing
based on risk levels; and
“(C) take into consideration conditions in
financial markets.
“(2) RULE OF CONSTRUCTION.—Nothing in
this subsection shall be interpreted to undermine the
minimum increase required by subsection (b).
“(d) INFORMATION COLLECTION AND ANNUAL
ANALYSIS.—The Director shall require each enterprise to
provide to the Director, as part of its annual report sub-
mitted to Congress—
“(1) a description of—
“(A) changes made to up-front fees and
annual fees as part of the guarantee fees nego-
tiated with lenders; and
“(B) changes to the riskiness of the new borrowers compared to previous origination years or book years; and

“(2) an assessment of how the changes in the guarantee fees described in paragraph (1) met the requirements of subsection (b).

“(e) ENFORCEMENT.—

“(1) REQUIRED ADJUSTMENTS.—Based on the information from subsection (d) and any other information the Director deems necessary, the Director shall require an enterprise to make adjustments in its guarantee fee in order to be in compliance with subsection (b).

“(2) NONCOMPLIANCE PENALTY.—An enterprise that has been found to be out of compliance with subsection (b) for any 2 consecutive years shall be precluded from providing any guarantee for a period, determined by rule of the Director, but in no case less than 1 year.

“(3) RULE OF CONSTRUCTION.—Nothing in this subsection shall be interpreted as preventing the Director from initiating and implementing an enforcement action against an enterprise, at a time the Director deems necessary, under other existing enforcement authority.
“(f) Authority for Other Increases.—Nothing in this section may be construed to prohibiting, restricting, or limiting increases, other than pursuant to this section, in the guarantee fees charged by an enterprise.
