(a) Findings.—Congress finds that—

(1) the Armed Forces is comprised of approximately 1,450,000 members who are stationed on active duty at more than 6,000 military bases in 146 different countries;

(2) the United States is indebted to the members of the Armed Forces, many of whom are in
grave danger due to their engagement in, or exposure to, combat;

(3) military service, especially in the current war against terrorism, often requires members of the Armed Forces to be separated from their families on short notice, for long periods of time, and under very stressful conditions;

(4) the unique demands of military service often preclude members of the Armed Forces from purchasing discounted advance airline tickets in order to visit their loved ones at home; and

(5) it is the patriotic duty of the people of the United States to support the members of the Armed Forces who are defending the Nation’s interests around the world at great personal sacrifice.

(b) Sense of Congress.—It is the sense of Congress that—

(1) all United States commercial air carriers should seek to lend their support with flexible, generous policies applicable to members of the Armed Forces who are traveling on leave or liberty at their own expense; and

(2) each United States air carrier, for all members of the Armed Forces who have been granted
leave or liberty and who are traveling by air at their own expense, should—

(A) seek to provide reduced air fares that are comparable to the lowest airfare for ticketed flights and that eliminate to the maximum extent possible advance purchase requirements;

(B) seek to eliminate change fees or charges and any penalties;

(C) seek to eliminate or reduce baggage and excess weight fees;

(D) offer flexible terms that allow members to purchase, modify, or cancel tickets without time restrictions, and to waive fees (including baggage fees), ancillary costs, or penalties; and

(E) seek to take proactive measures to ensure that all airline employees, particularly those who issue tickets and respond to members of the Armed Forces and their family members, are trained in the policies of the airline aimed at benefitting members of the Armed Forces who are on leave.

7. the impact of flight delays and cancellations on the airline industry.
(c) Report.—Not later than 1 year after the date of enactment of this Act, the Inspector General shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the review conducted under this section, including the assessments described in subsection (b).

the “Chicago Convention”), and other relevant air
services agreements and antithetical to building
international cooperation to address effectively the
problem of greenhouse gas emissions by aircraft en-
gaged in international civil aviation;

should instead work with other contracting states of
ICAO to develop a consensual approach to address-
ing aircraft greenhouse gas emissions through
ICAO; and

(3) officials the United States Government, and
particularly the Secretary of Transportation and the
Administrator of the Federal Aviation Administration, should use all political, diplomatic, and legal tools at the disposal of the United States to ensure that the European Union’s emissions trading scheme is not applied to aircraft registered by the United States or the operators of those aircraft, including the mandates that United States carriers provide emissions data to and purchase emissions allowances from or surrender emissions allowances to the European Union Member States.
