Whereas unintentional injuries, such as motor vehicle crashes, poisonings, and burns, rank among the top 10 causes of death for people ages 1 through 44;

Whereas the financial costs of injuries are staggering, accounting for 12 percent of annual medical care spending and totaling as much as $69,000,000,000 per year;

Whereas injuries, unexpected events, and violence affect people at home, at work, and at play, in their communities and on the move; and

Whereas many injuries and associated costs can be prevented by taking actions such as wearing a seatbelt, properly installing smoke alarms, properly installing and using child safety seats, wearing a helmet, storing cleaning supplies and guns in locked cabinets, and educating the community about violence and abuse toward children, women, seniors, and other at-risk populations: Now, therefore, be it
