an earlier application derived the claimed invention from
an inventor named in the petitioner’s application and,
without authorization, the earlier application claiming
such invention was filed. Any such petition may only be
filed within 1 year after the first publication of a claim
to an invention that is the same or substantially the same
as the earlier application’s claim to the invention, shall
be made under oath, and shall be supported by substantial
evidence. Whenever the Director determines that a peti-
tion filed under this subsection demonstrates that the standards for instituting a derivation proceeding are met, the Director may institute a derivation proceeding. The determination by the Director whether to institute a derivation proceeding shall be final and nonappealable.

“(b) DETERMINATION BY PATENT TRIAL AND APPEAL BOARD.—In a derivation proceeding instituted under subsection (a), the Patent Trial and Appeal Board shall determine whether an inventor named in the earlier application derived the claimed invention from an inventor named in the petitioner’s application and, without authorization, the earlier application claiming such invention was filed. The Director shall prescribe regulations setting forth standards for the conduct of derivation proceedings.

“(c) DEFERRAL OF DECISION.—The Patent Trial and Appeal Board may defer action on a petition for a derivation proceeding until 3 months after the date on which the Director issues a patent that includes the claimed invention that is the subject of the petition. “(d) Effect of Final Decision.—The final decision of the Patent Trial and Appeal Board, if adverse to claims in an application for patent, shall constitute the final refusal by the Office on those claims. “(e) Settlement.—Parties to a proceeding instituted under subsection (a) may terminate the proceeding by filing a written statement reflecting the agreement of the parties as to the correct inventors of the claimed invention in dispute. Unless the Patent Trial and Appeal Board finds the agreement to be inconsistent with the evidence of record, if any, it shall take action consistent with the agreement. Any written settlement or understanding of the parties shall be filed with the Director. At the request of a party to the proceeding, the agreement or understanding shall be treated as business confidential information, shall be kept separate from the file of the involved patents or applications, and shall be made available only to Government agencies on written request, or to any person on a showing of good cause.
“(f) Arbitration.—Parties to a proceeding instituted under subsection (a) may, within such time as may be specified by the Director by regulation, determine such contest or any aspect thereof by arbitration. Such arbitration shall be governed by the provisions of title 9, to the extent such title is not inconsistent with this section. and inserting “section 112(a)”.

(2) Section 111(b)(2) is amended by striking
“the second through fifth paragraphs of section
112,” and inserting “subsections (b) through (e) of
section 112,”.

(e) EFFECTIVE DATE.—The amendments made by
this section shall take effect 1 year after the date of the
enactment of this Act and shall apply to patent applica-
tions that are filed on or after that effective date.

SEC. 4. DAMAGES.

(a) DAMAGES.—Section 284 of title 35, United
States Code, is amended—

(1) by striking “Upon finding” and inserting
the following: “(a) IN GENERAL.—Upon finding”;

(2) by striking “fixed by the court” and all that
follows through “When the damages” and inserting
the following: “fixed by the court. When the dam-
ages”;
(3) by striking “shall assess them.” and all that
follows through “The court may receive” and insert-
ing the following: “shall assess them. The court may
receive”; and

(4) by adding at the end the following:

“(b) Procedure for Determining Damages.—

“(1) In General.—The court shall identify the
methodologies and factors that are relevant to the
determination of damages, and the court or jury
shall consider only those methodologies and factors
relevant to making such determination.

“(2) Disclosure of Claims.—By no later
than the entry of the final pretrial order, unless oth-
erwise ordered by the court, the parties shall state,
in writing and with particularity, the methodologies
and factors the parties propose for instruction to the
jury in determining damages under this section,
specifying the relevant underlying legal and factual
bases for their assertions.

“(3) Sufficiency of Evidence.—Prior to the
introduction of any evidence concerning the deter-
mination of damages, upon motion of either party or
sua sponte, the court shall consider whether one or
more of a party’s damages contentions lacks a le-
gally sufficient evidentiary basis. After providing a
nonmovant the opportunity to be heard, and after
any further proffer of evidence, briefing, or argu-
ment that the court may deem appropriate, the
court shall identify on the record those methodolo-
gies and factors as to which there is a legally suffi-
cient evidentiary basis, and the court or jury shall
consider only those methodologies and factors in
making the determination of damages under this
section. The court shall only permit the introduction
of evidence relating to the determination of damages
that is relevant to the methodologies and factors
that the court determines may be considered in mak-
ing the damages determination.

“(c) SEQUENCING.—Any party may request that a
patent-infringement trial be sequenced so that the trier
of fact decides questions of the patent’s infringement and
validity before the issues of damages and willful infringe-
ment are tried to the court or the jury. The court shall
grant such a request absent good cause to reject the re-
quest, such as the absence of issues of significant damages
or infringement and validity. The sequencing of a trial
pursuant to this subsection shall not affect other matters,
such as the timing of discovery. This subsection does not
authorize a party to request that the issues of damages
and willful infringement be tried to a jury different than
the one that will decide questions of the patent’s infringe-
ment and validity.

“(d) WILLFUL INFRINGEMENT.—

“(1) IN GENERAL.—The court may increase
damages up to 3 times the amount found or as-
sessed if the court or the jury, as the case may be,
determines that the infringement of the patent was
willful. Increased damages under this subsection
shall not apply to provisional rights under section
154(d). Infringement is not willful unless the claim-
ant proves by clear and convincing evidence that the
accused infringer’s conduct with respect to the pat-
ent was objectively reckless. An accused infringer’s
conduct was objectively reckless if the infringer was
acting despite an objectively high likelihood that his
actions constituted infringement of a valid patent,
and this objectively-defined risk was either known or
so obvious that it should have been known to the ac-
cused infringer.

“(2) PLEADING STANDARDS.—A claimant as-
serting that a patent was infringed willfully shall
comply with the pleading requirements set forth
under Federal Rule of Civil Procedure 9(b).

“(3) KNOWLEDGE ALONE INSUFFICIENT.—In-
fringement of a patent may not be found to be will-
ful solely on the basis that the infringer had knowledge of the infringed patent.

“(4) **Pre-suit Notification.**—A claimant seeking to establish willful infringement may not rely on evidence of pre-suit notification of infringement unless that notification identifies with particularity the asserted patent, identifies the product or process accused, and explains with particularity, to the extent possible following a reasonable investigation or inquiry, how the product or process infringes one or more claims of the patent.

“(5) **Close Case.**—The court shall not increase damages under this subsection if the court determines that there is a close case as to infringement, validity, or enforceability. On the motion of either party, the court shall determine whether a close case as to infringement, validity, or enforceability exists, and the court shall explain its decision. Once the court determines that such a close case exists, the issue of willful infringement shall not thereafter be tried to the jury.

“(6) **Accrued Damages.**—If a court or jury finds that the infringement of patent was willful, the court may increase only those damages that accrued after the infringement became willful.”.
(b) Defense to Infringement Based on Earlier Inventor.—Section 273(b)(6) of title 35, United States Code, is amended to read as follows:

“(6) Personal defense.—The defense under this section may be asserted only by the person who performed or caused the performance of the acts necessary to establish the defense as well as any other entity that controls, is controlled by, or is under common control with such person and, except for any transfer to the patent owner, the right to assert the defense shall not be licensed or assigned or transferred to another person except as an ancillary and subordinate part of a good faith assignment or transfer for other reasons of the entire enterprise or line of business to which the defense relates. Notwithstanding the preceding sentence, any person may, on its own behalf, assert a defense based on the exhaustion of rights provided under paragraph (3), including any necessary elements thereof.”.

(c) Virtual Marking.—Section 287(a) of title 35, United States Code, is amended by inserting “, or by fixing thereon the word ‘patent’ or the abbreviation ‘pat.’ together with an address of a posting on the Internet, accessible to the public without charge for accessing the ad-
dress, that associates the patented article with the number
of the patent” before “, or when”.

(d) ADVICE OF COUNSEL.—Chapter 29 of title 35,
United States Code, is amended by adding at the end the
following:

“§ 298. Advice of Counsel

“The failure of an infringer to obtain the advice of
counsel with respect to any allegedly infringed patent or
the failure of the infringer to present such advice to the
court or jury may not be used to prove that the accused
infringer willfully infringed the patent or that the in-
fringer intended to induce infringement of the patent.”.

(e) EFFECTIVE DATE.—The amendments made by
this section shall apply to any civil action commenced on
or after the date of the enactment of this Act.

based upon the failure of the petition to meet any require-
ment of this chapter.

§314. Institution of inter partes review

“(a) THRESHOLD.—The Director may not authorize
an inter partes review to commence unless the Director
determines that the information presented in the petition
filed under section 311 and any response filed under sec-
tion 313 shows that there is a reasonable likelihood that
the petitioner would prevail with respect to at least 1 of
the claims challenged in the petition.

“(b) TIMING.—The Director shall determine whether
to institute an inter partes review under this chapter with-
in 3 months after receiving a preliminary response under
section 313 or, if none is filed, within three months after

“(c) NOTICE.—The Director shall notify the peti-
tioner and patent owner, in writing, of the Director’s de-

“(d) NO APPEAL.—The determination by the Director whether to institute an inter partes review under this section shall be final and nonappealable.

“§ 315. Relation to other proceedings or actions

“(a) INFRINGER’S ACTION.—An inter partes review may not be instituted or maintained if the petitioner or real party in interest has filed a civil action challenging the validity of a claim of the patent.

“(b) PATENT OWNER’S ACTION.—An inter partes review may not be instituted if the petition requesting the proceeding is filed more than 3 months after the date on which the petitioner, real party in interest, or his privy is required to respond to a civil action alleging infringement of the patent.

“(c) JOINDER.—If the Director institutes an inter partes review, the Director, in his discretion, may join as a party to that inter partes review any person who properly files a petition under section 311 that the Director, after receiving a preliminary response under section 313 or the expiration of the time for filing such a response, determines warrants the institution of an inter partes review under section 314.
“(d) MULTIPLE PROCEEDINGS.—Notwithstanding sections 135(a), 251, and 252, and chapter 30, during the pendency of an inter partes review, if another proceeding or matter involving the patent is before the Office, the Director may determine the manner in which the inter partes review or other proceeding or matter may proceed, including providing for stay, transfer, consolidation, or termination of any such matter or proceeding.

“(e) ESTOPPEL.—

“(1) PROCEEDINGS BEFORE THE OFFICE.—The petitioner in an inter partes review under this chapter, or his real party in interest or privy, may not request or maintain a proceeding before the Office with respect to a claim on any ground that the petitioner raised or reasonably could have raised during an inter partes review of the claim that resulted in a final written decision under section 318(a).

“(2) CIVIL ACTIONS AND OTHER PROCEEDINGS.—The petitioner in an inter partes review under this chapter, or his real party in interest or privy, may not assert either in a civil action arising in whole or in part under section 1338 of title 28 or in a proceeding before the International Trade Commission that a claim in a patent is invalid on any ground that the petitioner raised or reasonably
could have raised during an inter partes review of
the claim that resulted in a final written decision
under section 318(a).

§316. Conduct of inter partes review

(a) REGULATIONS.—The Director shall prescribe
regulations—

“(1) providing that the file of any proceeding
under this chapter shall be made available to the

ument shall be treated as sealed pending the out-
come of the ruling on the motion;

“(2) setting forth the standards for the showing
of sufficient grounds to institute a review under sec-
tion 314(a);

“(3) establishing procedures for the submission

“(10) setting forth standards and procedures for allowing the patent owner to move to amend the patent under subsection (d) to cancel a challenged
claim or propose a reasonable number of substitute

public as part of the prosecution history of the pat-

may adjust the time periods in this paragraph in the
case of joinder under section 315(c).

“(3) SCOPE OF CLAIMS.—An amendment under this subsection may not enlarge the scope of the claims of the patent or introduce new matter.

“(e) EVIDENTIARY STANDARDS.—In an inter partes review instituted under this chapter, the petitioner shall have the burden of proving a proposition of unpatentability by a preponderance of the evidence.
§ 317. Settlement

(a) In General.—An inter partes review instituted under this chapter shall be terminated with respect to any petitioner upon the joint request of the petitioner and the patent owner, unless the Office has decided the merits of the proceeding before the request for termination is filed. If the inter partes review is terminated with respect to a petitioner under this section, no estoppel under section 315(e) shall apply to that petitioner. If no petitioner remains in the inter partes review, the Office may terminate the review or proceed to a final written decision under section 318(a).

(b) Agreements in Writing.—Any agreement or understanding between the patent owner and a petitioner, including any collateral agreements referred to in such agreement or understanding, made in connection with, or in contemplation of, the termination of an inter partes review under this section shall be in writing and a true copy of such agreement or understanding shall be filed in the Office before the termination of the inter partes review as between the parties. If any party filing such agreement or understanding so requests, the copy shall be kept separate from the file of the inter partes review, and shall be made available only to Federal Government agencies upon written request, or to any other person on a showing of good cause.
“§ 318. Decision of the board

(a) Final Written Decision.—If an inter partes review is instituted and not dismissed under this chapter, the Patent Trial and Appeal Board shall issue a final written decision with respect to the patentability of any patent claim challenged by the petitioner and any new claim added under section 316(d).

(b) Certificate.—If the Patent Trial and Appeal Board issues a final written decision under subsection (a) and the time for appeal has expired or any appeal has terminated, the Director shall issue and publish a certificate canceling any claim of the patent finally determined to be unpatentable, confirming any claim of the patent determined to be patentable, and incorporating in the patent by operation of the certificate any new or amended claim determined to be patentable.

“§ 319. Appeal

A party dissatisfied with the final written decision of the Patent Trial and Appeal Board under section 318(a) may appeal the decision pursuant to sections 141 through 144. Any party to the inter partes review shall have the right to be a party to the appeal.”.

(C) GRADUATED IMPLEMENTATION.—The Director may impose a limit on the number of inter partes reviews that may be instituted dur-
ing each of the first 4 years following the effective date of subsection (a), provided that such number shall in each year be equivalent to or greater than the number of inter partes reexaminations that are ordered in the last full fiscal year prior to the effective date of subsection (a).

(3) TRANSITION.—

(A) IN GENERAL.—Chapter 31 of title 35, United States Code, is amended—

(i) in section 312—

(I) in subsection (a)—

(aa) in the first sentence, by striking “a substantial new question of patentability affecting any claim of the patent concerned is raised by the request,” and inserting “the information presented in the request shows that there is a reasonable likelihood that the requester would prevail with respect to at least 1 of the claims challenged in the re-quest,”; and
(bb) in the second sentence,
by striking “The existence of a
substantial new question of pat-
entability” and inserting “A

in the request”; and

(II) in subsection (c), in the sec-
ond sentence, by striking “no substan-
tial new question of patentability has
been raised,” and inserting “the show-

The Director shall establish, by regulation, fees to be paid by the person requesting the review, in such amounts as the Director determines to be reasonable, considering the aggregate costs of the post-grant review.

(b) SCOPE.—A petitioner in a post-grant review may request to cancel as unpatentable 1 or more claims of a patent on any ground that could be raised under paragraph (2) or (3) of section 282(b) (relating to invalidity of the patent or any claim).
```
“(c) FILING DEADLINE.—A petition for a post-grant review shall be filed not later than 9 months after the grant of the patent or issuance of a reissue patent.

“(1) the petition is accompanied by payment of the fee established by the Director under section 321;

“(2) the petition identifies all real parties in interest;

“(3) the petition identifies, in writing and with particularity, each claim challenged, the grounds on which the challenge to each claim is based, and the evidence that supports the grounds for the challenge to each claim, including—

“(A) copies of patents and printed publications that the petitioner relies upon in support of the petition; and

“(b) CONTENT OF RESPONSE.—A preliminary response to a petition for post-grant review shall set forth reasons why no post-grant review should be instituted based upon the failure of the petition to meet any requirement of this chapter.

“§ 324. Institution of post-grant review

“(a) THRESHOLD.—The Director may not authorize a post-grant review to commence unless the Director determines that the information presented in the petition, if such information is not rebutted, would demonstrate that it is more likely than not that at least 1 of the claims challenged in the petition is unpatentable.
“(b) ADDITIONAL GROUNDS.—The determination required under subsection (a) may also be satisfied by a showing that the petition raises a novel or unsettled legal question that is important to other patents or patent applications.

“(c) TIMING.—The Director shall determine whether to institute a post-grant review under this chapter within 3 months after receiving a preliminary response under section 323 or, if none is filed, the expiration of the time for filing such a response.

real party in interest has filed a civil action challenging the validity of a claim of the patent.

“(b) PATENT OWNER’S ACTION.—A post-grant review may not be instituted if the petition requesting the proceeding is filed more than 3 months after the date on which the petitioner, real party in interest, or his privy is required to respond to a civil action alleging infringement of the patent.

“(c) JOINDER.—If more than 1 petition for a post-grant review is properly filed against the same patent and the Director determines that more than 1 of these petitions warrants the institution of a post-grant review under section 324, the Director may consolidate such reviews into a single post-grant review.

“(d) MULTIPLE PROCEEDINGS.—Notwithstanding sections 135(a), 251, and 252, and chapter 30, during the pendency of any post-grant review, if another proceeding or matter involving the patent is before the Office, the Director may determine the manner in which the post-grant review or other proceeding or matter may proceed, including providing for stay, transfer, consolidation, or termination of any such matter or proceeding. In determining whether to institute or order a proceeding under this chapter, chapter 30, or chapter 31, the Director may take into account whether, and reject the petition or re-
quest because, the same or substantially the same prior art or arguments previously were presented to the Office.

“(e) ESTOPPEL.—

“(1) PROCEEDINGS BEFORE THE OFFICE.—The petitioner in a post-grant review under this chapter, or his real party in interest or privy, may not request or maintain a proceeding before the Office with respect to a claim on any ground that the petitioner raised or reasonably could have raised during a post-grant review of the claim that resulted in a final written decision under section 328(a).

“(2) CIVIL ACTIONS AND OTHER PROCEEDINGS.—The petitioner in a post-grant review under this chapter, or his real party in interest or privy, may not assert either in a civil action arising in whole or in part under section 1338 of title 28 or in a proceeding before the International Trade Commission that a claim in a patent is invalid on any ground that the petitioner raised during a post-grant review of the claim that resulted in a final written decision under section 328(a).

“(f) PRELIMINARY INJUNCTIONS.—If a civil action alleging infringement of a patent is filed within 3 months of the grant of the patent, the court may not stay its consideration of the patent owner’s motion for a preliminary
injunction against infringement of the patent on the basis that a petition for post-grant review has been filed or that such a proceeding has been instituted.

“(g) Reissue Patents.—A post-grant review may not be instituted if the petition requests cancellation of a claim in a reissue patent that is identical to or narrower than a claim in the original patent from which the reissue patent was issued, and the time limitations in section 321(e) would bar filing a petition for a post-grant review for such original patent.

“§ 326. Conduct of post-grant review

“(a) Regulations.—The Director shall prescribe regulations—

“(1) providing that the file of any proceeding under this chapter shall be made available to the public, except that any petition or document filed with the intent that it be sealed shall be accompanied by a motion to seal, and such petition or document shall be treated as sealed pending the outcome of the ruling on the motion;

“(9) setting forth standards and procedures for allowing the patent owner to move to amend the patent under subsection (d) to cancel a challenged claim or propose a reasonable number of substitute claims, and ensuring that any information submitted by the patent owner in support of any amendment entered under subsection (d) is made available to the public as part of the prosecution history of the patent;

“(10) providing either party with the right to an oral hearing as part of the proceeding; and

“(11) requiring that the final determination in any post-grant review be issued not later than 1 year after the date on which the Director notices the institution of a proceeding under this chapter, except that the Director may, for good cause shown, extend the 1-year period by not more than 6 months, and may adjust the time periods in this paragraph in the case of joinder under section 325(c).

“(b) CONSIDERATIONS.—In prescribing regulations under this section, the Director shall consider the effect of any such regulation on the economy, the integrity of the patent system, the efficient administration of the Of-
office, and the ability of the Office to timely complete pro-
ceedings instituted under this chapter.

“(c) PATENT TRIAL AND APPEAL BOARD.—The Pat-
ent Trial and Appeal Board shall, in accordance with sec-
tion 6, conduct each proceeding authorized by the Direc-
tor.

“(d) AMENDMENT OF THE PATENT.—

instituted under this chapter, the patent owner may
file 1 motion to amend the patent in 1 or more of
the following ways:

“(B) For each challenged claim, propose a
reasonable number of substitute claims.

“(2) ADDITIONAL MOTIONS.—Additional mo-
