4 **SEC. 130. SENSE OF CONGRESS ON MARINE CORPS AMPHIB-**
5 **IOUS LIFT AND PRESENCE REQUIREMENTS.**

6 (a) FINDINGS.—Congress makes the following find-
7 ings:

8 (1) The United States Marine Corps is a com-
9 bat force which leverages maneuver from the sea as
10 a force multiplier allowing for a variety of oper-
11 ational tasks ranging from major combat operations
12 to humanitarian assistance.

13 (2) The United States Marine Corps is unique
14 in that, while embarked upon Naval vessels, they
15 bring all the logistic support necessary for the full
16 range of military operations, operating “from the
17 sea” they require no third party host nation permis-
18 sion to conduct military operations.

19 (3) The Department of the Navy has a require-
20 ment for 38 amphibious assault ships to meet this
21 full range of military operations.

22 (4) Due to fiscal constraints only, that require-
23 ment of 38 vessels was reduced to 33 vessels, which
24 adds military risk to future operations.

1 (5) The Department of the Navy has been un-
2 able to meet even the minimal requirement of 30
3 operationally available vessels and has submitted a
4 shipbuilding and ship retirement plan to Congress
5 which will reduce the force to 28 vessels.

6 (6) Experience has shown that early engineer-
7 ing and design of naval vessels has significantly re-
8 duced the acquisition costs and life-cycle costs of
9 those vessels.

10 (b) SENSE OF CONGRESS.—It is the sense of Con-
11 gress that—

12 (1) the Department of Defense should carefully
13 evaluate the maritime force structure necessary to
14 execute demand for forces by the commanders of the
15 combatant commands;

16 (2) the Department of the Navy carefully evalu-
17 ate amphibious lift capabilities to meet current and
18 projected requirements;

19 (3) the Department of the Navy should consider
20 prioritization of investment in and procurement of
21 the next generation of amphibious assault ships, as
22 a component of the balanced battle force;

23 (4) the next generation amphibious assault
24 ships should maintain survivability protection;

1 (5) operation and maintenance requirements
 2 analysis, as well as the potential to leverage a com-
 3 mon hull form design, should be considered to re-
 4 duce total ownership cost and acquisition cost; and
 5 (6) maintaining a robust amphibious ship build-
 6 ing industrial base is vital for the future of the na-
 7 tional security of the United States.

8 **SEC. 131. SENSE OF SENATE ON DEPARTMENT OF NAVY FIS-**
 9 **CAL YEAR 2014 BUDGET REQUEST FOR TAC-**
 10 **TICAL AVIATION AIRCRAFT.**

11 It is the sense of Senate that, if the budget request
 12 of the Department of the Navy for fiscal year 2014 for
 13 F-18 aircraft includes a request for funds for more than
 14 13 new F-18 aircraft, the budget request of the Depart-
 15 ment of the Navy for fiscal year 2014 for F-35 aircraft
 16 should include a request for funds for not fewer than 6
 17 F-35B aircraft and 4 F-35C aircraft, presuming that de-
 18 velopment, testing, and production of the F-35 aircraft
 19 are proceeding according to current plans.

20 **SEC. 132. SPIDERNET/SPECTRAL WARRIOR HARDWARE.**

21 (a) **ADDITIONAL AMOUNT FOR OTHER PROCURE-**
 22 **MENT, NAVY.**—The amount authorized to be appropriated
 23 for fiscal year 2013 by section 101 is hereby increased
 24 by \$2,000,000, with the amount of the increase to be
 25 available for amounts authorized to be appropriated by

1 that section and available for other procurement, Navy,
 2 Satellite Communications, line 085, Satellite Communica-
 3 tions Systems, as specified in the funding table in section
 4 4101.

5 (b) AVAILABILITY OF AMOUNT.—To the extent pro-
 6 vided in appropriations Acts, the amount authorized and
 7 made available by subsection (a) may be obligated and ex-
 8 pended for a new program to procure SPIDERNet/Spec-
 9 tral Warrior Hardware and installation in order to provide
 10 a cloud network for Spectral Warrior terminals in support
 11 of requirements of the commanders of the combatant com-
 12 mands.

9 (E) The terms of the contract regarding
10 the treatment of changes by the Federal Gov-
11 ernment to the requirements of the contract, in-
12 cluding how any such changes may affect the
13 success of the contract.

14 (2) PLAN FOR USING COST SAVINGS.—Not later
15 than 90 days after the date on which the Secretary
16 enters into a contract under subsection (a), the Sec-
17 retary shall submit to the congressional defense com-
18 mittees a plan for using the cost savings described
19 in paragraph (1)(A) to improve the capability of
20 military infrared and early warning satellites that
21 includes a description of the following:

22 (A) The available funds, by year, resulting
23 from such cost savings.

24 (B) The specific activities or subprograms
25 to be funded using such cost savings and the

1 funds, by year, allocated to each such activity
2 or subprogram.

3 (C) The objectives for each such activity or
4 subprogram.

5 (D) The criteria used by the Secretary to
6 determine which such activities or subprograms
7 to fund.

8 (E) The method by which the Secretary
9 will determine which such activities or subpro-
10 grams to fund, including whether that deter-
11 mination will be on a competitive basis.

12 (F) The plan for encouraging participation
13 in such activities and subprograms by small
14 businesses.

15 (G) The process for determining how and
16 when such activities and subprograms would
17 transition to an existing program or be estab-
18 lished as a new program of record.

19 (e) USE OF FUNDS AVAILABLE FOR SPACE VEHICLE
20 NUMBER 5 FOR SPACE VEHICLE NUMBER 6.—The Sec-
21 retary may obligate and expend amounts authorized to be
22 appropriated for fiscal year 2013 by section 101 for pro-
23 curement for the Air Force as specified in the funding
24 table in section 4101 and available for the advanced pro-
25 curement of long-lead parts and the replacement of obso-

1 lete parts for space-based infrared system satellite space
 2 vehicle number 5 for the advanced procurement of long-
 3 lead parts and the replacement of obsolete parts for space-
 4 based infrared system space vehicle number 6.

5 (f) SENSE OF CONGRESS.—It is the sense of Con-
 6 gress that the Secretary should not enter into a fixed-price
 7 contract under subsection (a) for the procurement of two
 8 space-based infrared system satellites unless the Secretary
 9 determines that entering into such a contract will save the
 10 Air Force not less than 20 percent over the cost of pro-
 11 curing two such satellites separately.

3 Missile Defense (IAMD) for the requirements of the com-
4 manders of the combatant commands.

5 **Subtitle C—Missile Defense** 6 **Matters**

7 **SEC. 231. HOMELAND BALLISTIC MISSILE DEFENSE.**

8 (a) FINDINGS.—Congress makes the following find-
9 ings:

10 (1) The Ballistic Missile Defense Review of
11 February 2010 stated as its first policy priority that
12 “the United States will continue to defend the home-
13 land against the threat of limited ballistic missile at-
14 tack” and that “an essential element of the United
15 States’ homeland ballistic missile defense strategy is
16 to hedge against future uncertainties, including both
17 the uncertainty of future threat capabilities and the
18 technical risks inherent to our own development
19 plans”.

20 (2) The United States currently has an oper-
21 ational Ground-based Midcourse Defense (GMD)
22 system with 30 Ground-Based Interceptors (GBIs)
23 deployed in Alaska and California, protecting the
24 United States against the potential future threat of

1 limited ballistic missile attack from countries such
2 as North Korea and Iran.

3 (3) As Deputy Assistant Secretary of Defense
4 for Nuclear and Missile Defense Policy Bradley Rob-
5 erts testified before the Committee on Armed Serv-
6 ices of the Senate on April 25, 2012, “[w]ith 30
7 GBIs in place, the United States is in an advan-
8 tageous position vis-à-vis the threats from North
9 Korea and Iran,” and “neither has successfully test-
10 ed an ICBM or demonstrated an ICBM-class war-
11 head”.

12 (4) Deputy Assistant Secretary Roberts testi-
13 fied that maintaining this advantageous position
14 “requires continued improvement to the GMD sys-
15 tem, including enhanced performance by the GBIs
16 and the deployment of new sensors. It also requires
17 the development of the Precision Tracking Space
18 System (PTSS) to handle larger raid sizes and the
19 Standard Missile-3 (SM-3) Block IIB as the ICBM
20 threat from states like Iran and North Korea ma-
21 tures. These efforts will help to ensure that the
22 United States possesses the capability to counter the
23 projected threat for the foreseeable future”.

24 (5) As its highest priority, the Missile Defense
25 Agency is designing a correction to the problem that

1 caused a December 2010 flight test failure of the
2 Ground-based Midcourse Defense system using the
3 Capability Enhancement II (CE-II) model of exo-at-
4 mospheric kill vehicle, and plans to demonstrate the
5 correction in two flight tests before resuming pro-
6 duction or assembly of additional Capability En-
7 hancement II kill vehicles.

8 (6) The Department of Defense has a program
9 to improve the performance and reliability of the
10 Ground-based Midcourse Defense system, including
11 a plan to test every component of the Ground-Based
12 Interceptors for reliability. According to Department
13 of Defense officials, the goal of the Ground-Based
14 Interceptor reliability program is to double the num-
15 ber of threat Intercontinental Ballistic Missiles
16 (ICBMs) that our current inventory of Ground-
17 Based Interceptors could defeat, thereby effectively
18 doubling the capability of our current Ground-based
19 Midcourse Defense system.

20 (7) The Missile Defense Agency, working with
21 the Director of Operational Test and Evaluation and
22 with United States Strategic Command, has devel-
23 oped a comprehensive Integrated Master Test Plan
24 (IMTP) for missile defense, with flight tests for the
25 Ground-based Midcourse Defense system planned

1 through fiscal year 2022, including salvo testing,
2 multiple simultaneous engagement testing, and oper-
3 ational testing.

4 (8) The Director of Operational Test and Eval-
5 uation, who must review, approve, and sign each
6 semi-annual version of the Integrated Master Test
7 Plan, testified that the Test Plan is “a robust and
8 rigorous test plan”. He also testified that the cur-
9 rent pace of Ground-based Midcourse Defense sys-
10 tem testing of one flight test per year is the “best
11 that we’ve been able to achieve over a decade”.

12 (9) The Director of the Missile Defense Agency
13 testified before the Committee on Armed Services of
14 the Senate on April 25, 2012, that flight testing the
15 Ground-based Midcourse Defense system more often
16 than once per year could cause “greater risk of fur-
17 ther failure and setbacks to developing our homeland
18 defense capability as rapidly as possible”.

19 (10) As part of its homeland defense hedging
20 strategy, the Department of Defense has already de-
21 cided upon or implemented a number of actions to
22 improve the missile defense posture of the United
23 States in case the threat of Intercontinental Ballistic
24 Missiles from North Korea or Iran emerges sooner

1 or in greater numbers than anticipated. These in-
2 clude the following actions:

3 (A) The Missile Defense Agency has com-
4 pleted construction of Missile Field-2 at Fort
5 Greely, Alaska, with eight extra silos available
6 to deploy additional operational Ground-Based
7 Interceptors, if needed.

8 (B) With its request for 5 additional
9 Ground-Based Interceptors in the budget of the
10 President for fiscal year 2013, the Missile De-
11 fense Agency plans to have enough test and
12 spare Ground-Based Interceptors to emplace in
13 the 8 extra silos from 2014 through 2025, and
14 will keep the Ground-Based Interceptor produc-
15 tion line active for 5 additional years, thus al-
16 lowing additional Ground-Based Interceptor
17 purchases in the future, if needed.

18 (C) The Department has decided not to
19 decommission prototype Missile Field-1 at Fort
20 Greely but, instead, to keep it in a storage sta-
21 tus that would permit it to be refurbished and
22 reactivated within a few years if future threat
23 developments make that necessary.

24 (D) The Missile Defense Agency plans to
25 build an in-flight interceptor communications

terminal at Fort Drum, New York, to enhance the performance of Ground-Based Interceptors defending the eastern United States against possible future missile threats from Iran.

(E) The Missile Defense Agency is continuing the development and testing of the two-stage Ground-Based Interceptor for possible deployment in the future, if needed.

(F) The Missile Defense Agency is upgrading early warning radars in Clear, Alaska, and Cape Cod, Massachusetts, to enhance the ability to defend against potential multiple future Intercontinental Ballistic Missile threats from North Korea and Iran.

(G) The Missile Defense Agency is pursuing development of the Standard Missile-3 Block IIB interceptor for Phase 4 of the European Phased Adaptive Approach. It is intended to augment the Ground-based Midcourse Defense system as a cost-effective first layer of defense of the homeland against a possible future Intercontinental Ballistic Missile threat from Iran.

(H) The Missile Defense Agency is pursuing development of the Precision Tracking

1 Space System, a satellite sensor system to pro-
2 vide persistent tracking of large numbers of
3 missiles in flight, and fire-control quality tar-
4 geting data to various missile defense inter-
5 ceptor systems. According to the Director of the
6 Missile Defense Agency, “the greatest future
7 enhancement for both homeland and regional
8 defense in the next ten years is the development
9 of the Precision Tracking Space System sat-
10 ellites”.

11 (11) As part of its homeland defense hedging
12 strategy review, the Department of Defense is con-
13 sidering other options to enhance the future United
14 States posture to defend the homeland, including the
15 feasibility, advisability and affordability of deploying
16 additional Ground-Based Interceptors, either in
17 Alaska or at a missile defense site on the East Coast
18 of the United States.

19 (b) SENSE OF CONGRESS.—It is the sense of Con-
20 gress that—

21 (1) it is a national priority to defend the home-
22 land against the potential future threat of limited
23 ballistic missile attack from countries such as North
24 Korea and Iran;

1 (2) the currently deployed Ground-based Mid-
2 course Defense system, with 30 Ground-Based Inter-
3 ceptors deployed in Alaska and California, provides
4 protection of the United States homeland against
5 the potential future threat of limited ballistic missile
6 attack from North Korea and Iran;

7 (3) it is essential for the Ground-based Mid-
8 course Defense system to achieve the levels of reli-
9 ability, availability, sustainability, and operational
10 performance that will allow it to continue providing
11 protection of the United States homeland against
12 limited ballistic missile attack;

13 (4) the Missile Defense Agency should, as its
14 highest priority, correct the problem that caused the
15 December 2010 Ground-based Midcourse Defense
16 system flight test failure and demonstrate the cor-
17 rection in flight tests before resuming production of
18 the Capability Enhancement-II kill vehicle, in order
19 to provide confidence that the system will work as
20 intended;

21 (5) the Department of Defense should continue
22 to enhance the performance and reliability of the
23 Ground-based Midcourse Defense system, and en-
24 hance the capability of the Ballistic Missile Defense
25 System, to provide improved capability to defend the

1 homeland against possible increased future missile
2 threats from North Korea and Iran;

3 (6) the Missile Defense Agency should continue
4 its robust, rigorous, and realistic testing of the
5 Ground-based Midcourse Defense system at a pace
6 of one flight test per year, as described in the Inte-
7 grated Master Test Plan, including salvo testing,
8 multiple simultaneous engagement testing, and oper-
9 ational testing;

10 (7) if successfully developed, the Standard Mis-
11 sile-3 Block IIB interceptor would provide an essen-
12 tial first layer of defense of the homeland against an
13 emerging Intercontinental Ballistic Missile threat
14 from Iran, using a cost-effective forward-based early
15 intercept system that could permit holding Ground-
16 Based Interceptors in reserve, and if such inter-
17 ceptor could be deployed on ships, it would also pro-
18 vide a significant enhancement to defense against
19 possible future threats from North Korea;

20 (8) the Precision Tracking Space System has
21 the potential to improve dramatically the capability
22 of homeland and regional missile defense systems
23 against large numbers of missiles launched simulta-
24 neously, and should remain a high priority for devel-
25 opment;

1 (9) the Department of Defense has taken a
2 number of prudent, affordable, cost-effective, and
3 operationally significant steps to hedge against the
4 possibility of future growth in the missile threat to
5 the homeland from North Korea and Iran; and

6 (10) the Department of Defense should con-
7 tinue to evaluate the evolution of the long-range mis-
8 sile threat from North Korea and Iran and consider
9 other possibilities for prudent, affordable, cost-effec-
10 tive, and operationally significant steps to improve
11 the posture of the United States to defend the home-
12 land against possible future growth in the threat.

13 (c) REPORT.—

14 (1) REPORT REQUIRED.—Not later than 180
15 days after the date of the enactment of this Act, the
16 Secretary of Defense shall submit to the congres-
17 sional defense committees a report on the status of
18 efforts to improve the homeland ballistic missile de-
19 fense capability of the United States.

20 (2) ELEMENTS OF REPORT.—The report re-
21 quired by paragraph (1)) shall include the following:

22 (A) A detailed description of the actions
23 taken or planned to improve the reliability,
24 availability, and capability of the Ground-based
25 Midcourse Defense system.

1 (B) A description of any improvements
2 achieved as a result of the actions described in
3 subparagraph (A).

4 (C) A description of the results of the two
5 planned flight tests of the Ground-based Mid-
6 course Defense system (Control Test Vehicle
7 flight test-1, and GMD Flight Test-06b) in-
8 tended to demonstrate the success of the correc-
9 tion of the problem that caused the flight test
10 failure of December 2010, and the status of
11 any decision to resume production of the Capa-
12 bility Enhancement-II kill vehicle.

13 (D) A detailed description of actions taken
14 or planned to improve the homeland defense
15 posture of the United States to hedge against
16 potential future Intercontinental Ballistic Mis-
17 sile threat growth from North Korea and Iran.

18 (E) Any other matters the Secretary con-
19 siders appropriate.

20 (3) FORM OF REPORT.—The report shall be
21 submitted in unclassified form, but may include a
22 classified annex.

23 **SEC. 232. REGIONAL BALLISTIC MISSILE DEFENSE.**

24 (a) FINDINGS.—Congress makes the following find-
25 ings:

1 (1) In the introduction to the Ballistic Missile
2 Defense Review of February 2010, Secretary of De-
3 fense Robert Gates states that “I have made defend-
4 ing against near-term regional threats a top priority
5 of our missile defense plans, programs and capabili-
6 ties”.

7 (2) In describing the threat of regional ballistic
8 missiles, the report of the Ballistic Missile Defense
9 Review states that “there is no uncertainty about
10 the existence of regional threats. They are clear and
11 present. The threat from short-range, medium-
12 range, and intermediate-range ballistic missiles
13 (SRBMs, MRBMs, and IRBMs) in regions where
14 the United States deploys forces and maintains secu-
15 rity relationships is growing at a particularly rapid
16 pace”.

17 (3) In testimony before the Committee on
18 Armed Services of the Senate on April 25, 2012, Dr.
19 Bradley Roberts, Deputy Assistant Secretary of De-
20 fense for Nuclear and Missile Defense Policy stated,
21 with respect to regional missile defense, that “the
22 need arises from the rapidly emerging threats to our
23 armed forces in Europe, the Middle East, and East
24 Asia from regional missile proliferators and the basic
25 challenge such proliferation poses to the safety and

1 security of our forces and allies and to our power
2 projection strategy”.

3 (4) Iran has the largest inventory of regional
4 ballistic missiles in the Middle East, with hundreds
5 of missiles that can reach southeastern Europe and
6 all of the Middle East, including Israel. Iran is im-
7 proving its existing missiles and developing new and
8 longer-range missiles.

9 (5) North Korea has a large and growing inven-
10 tory of short-range and medium-range ballistic mis-
11 siles that can reach United States forces and allies
12 in South Korea and Japan. North Korea is improv-
13 ing its existing missiles and developing new and
14 longer-range missiles.

15 (6) In September 2009, President Barack
16 Obama announced that he had accepted the unani-
17 mous recommendation of the Secretary of Defense
18 and the Joint Chiefs of Staff to establish a Euro-
19 pean Phased Adaptive Approach to missile defense,
20 designed to protect deployed United States forces
21 and allies and partners in Europe against the large
22 and growing threat of ballistic missiles from Iran.

23 (7) In November 2010, at the Lisbon Summit,
24 the North Atlantic Treaty Organization (NATO) de-
25 cided to adopt the core mission of missile defense of

1 its population, territory and forces. The North At-
 2 lantic Treaty Organization agreed to enhance its
 3 missile defense command and control system, the
 4 Active Layered Theater Ballistic Missile Defense, to
 5 provide a North Atlantic Treaty Organization com-
 6 mand and control capability. This is in addition to
 7 contributions of missile defense capability from indi-
 8 vidual nations.

9 (8) During 2011, the United States successfully
 10 implemented Phase 1 of the European Phased
 11 Adaptive Approach, including deployment of an AN/
 12 TPY-2 radar in Turkey, deployment of an Aegis
 13 Ballistic Missile Defense ship in the eastern Medi-
 14 terranean Sea with Standard Missile-3 Block IA
 15 interceptors, and establishment of a missile defense
 16 command and control system in Germany.

17 (9) During 2011, the United States successfully
 18 negotiated all the international agreements with
 19 North Atlantic Treaty Organization allies needed to
 20 permit future phases of the European Phased
 21 Adaptive Approach, including agreements with Ro-
 22 mania and Poland to permit the deployment of Aegis
 23 Ashore missile defense systems on their territory, an
 24 agreement with Turkey to permit deployment of an
 25 AN/TPY-2 radar on its territory, and an agreement

1 with Spain to permit the forward stationing of four
2 Aegis Ballistic Missile Defense ships at Rota.

3 (10) Phase 2 of the European Phased Adaptive
4 Approach is planned for deployment in 2015, and is
5 planned to include the deployment of Standard Mis-
6 sile-3 Block IB interceptors on Aegis Ballistic Mis-
7 sile Defense ships and at an Aegis Ashore site in
8 Romania.

9 (11) Phase 3 of the European Phased Adaptive
10 Approach is planned for deployment in 2018, and is
11 planned to include the deployment of Standard Mis-
12 sile-3 Block IIA interceptors on Aegis Ballistic Mis-
13 sile Defense ships and at an Aegis Ashore site in Po-
14 land.

15 (12) Phase 4 of the European Phased Adaptive
16 Approach is planned for deployment in 2020, and is
17 planned to include the deployment of Standard Mis-
18 sile-3 Block IIB interceptors at Aegis Ashore sites.
19 This interceptor is intended to protect both Europe
20 and the United States against potential future long-
21 range ballistic missiles from Iran.

22 (13) At the North Atlantic Treaty Organization
23 Summit in Chicago in 2012, the North Atlantic
24 Treaty Organization plans to announce it has
25 achieved an “interim capability” for the North At-

1 lantic Treaty Organization missile defense system,
2 including initial capability of its Active Layered The-
3 ater Ballistic Missile Defense system at a command
4 and control facility in Germany.

5 (14) The United States has a robust program
6 of missile defense cooperation with Israel, including
7 joint development of the Arrow Weapon System and
8 the new Arrow-3 upper tier interceptor, designed to
9 defend Israel against ballistic missiles from Iran.
10 These jointly developed missile defense systems are
11 designed to be interoperable with United States bal-
12 listic missile defenses, and these interoperable sys-
13 tems are tested in large military exercises. The
14 United States has deployed an AN/TPY-2 radar in
15 Israel to enhance missile defense against missiles
16 from Iran.

17 (15) The United States is working with the na-
18 tions of the Gulf Cooperation Council on enhanced
19 national and regional missile defense capabilities
20 against growing missile threats from Iran. As part
21 of this effort, the United Arab Emirates plans to
22 purchase two batteries of the Terminal High Alti-
23 tude Air Defense (THAAD) system, as well as other
24 equipment.

1 (16) The United States has a strong program
2 of missile defense cooperation with Japan, including
3 the co-development of the Standard Missile-3 (SM-
4 3) Block IIA interceptor for the Aegis Ballistic Mis-
5 sile Defense system, intended to be deployed by
6 Japan and in Phase 3 of the European Phased
7 Adaptive Approach, Japan's fleet of Aegis Ballistic
8 Missile Defense ships using the SM-3 Block IA
9 interceptors, and the United States deployment of
10 an AN/TPY-2 radar in Japan.

11 (b) SENSE OF CONGRESS.—It is the sense of Con-
12 gress that—

13 (1) the threat from regional ballistic missiles,
14 particularly from Iran and North Korea, is serious
15 and growing, and puts at risk forward-deployed
16 United States forces and allies and partners in Eu-
17 rope, the Middle East, and the Asia-Pacific region;

18 (2) the Department of Defense has an obliga-
19 tion to provide force protection of forward-deployed
20 United States forces, assets, and facilities from re-
21 gional ballistic missile attack;

22 (3) the United States has an obligation to meet
23 its security commitments to its allies, including bal-
24 listic missile defense commitments;

1 (4) the Department of Defense has a balanced
2 program of investment and capabilities to provide
3 for both homeland defense and regional defense
4 against ballistic missiles, consistent with the Bal-
5 listic Missile Defense Review and with the prioritized
6 and integrated needs of the commanders of the com-
7 batant commands;

8 (5) the European Phased Adaptive Approach to
9 missile defense is an appropriate and necessary re-
10 sponse to the existing and growing ballistic missile
11 threat from Iran to forward deployed United States
12 forces and allies and partners in Europe;

13 (6) the Department of Defense—

14 (A) should, as a high priority, continue to
15 develop, test, and plan to deploy all four phases
16 of the European Phased Adaptive Approach, in-
17 cluding all variants of the Standard Missile-3
18 interceptor; and

19 (B) should also continue with its other
20 phased and adaptive regional missile defense ef-
21 forts tailored to the Middle East and the Asia-
22 Pacific region;

23 (7) European members of the North Atlantic
24 Treaty Organization are making valuable contribu-
25 tions to missile defense in Europe, by hosting ele-

1 ments of United States missile defense systems on
2 their territories, through individual national con-
3 tributions to missile defense capability, and by col-
4 lective funding and development of the Active Lay-
5 ered Theater Ballistic Missile Defense system; and

6 (8) the Department of Defense should continue
7 with the development of the key enablers of en-
8 hanced regional missile defense, including the Preci-
9 sion Tracking Space System.

10 (c) REPORT.—

11 (1) IN GENERAL.—Not later than 180 days
12 after the date of enactment of this Act, the Sec-
13 retary of Defense shall submit to the congressional
14 defense committees a report describing the status
15 and progress of regional missile defense programs
16 and efforts.

17 (2) ELEMENTS OF REPORT.—The report re-
18 quired by paragraph (1) shall include the following:

19 (A) An assessment of the adequacy of the
20 existing and planned European Phased Adapt-
21 ive Approach to provide force protection for for-
22 ward deployed United States forces in Europe
23 against ballistic missile threats from Iran, and
24 an assessment whether adequate force protec-

tion would be available absent the European Phased Adaptive Approach.

(B) An assessment whether the European Phased Adaptive Approach and other planned regional missile defense approaches of the United States meet the integrated priorities of the commanders of the regional combatant commands in an affordable and balanced manner.

(C) A description of the progress made in the development and testing of elements of systems intended for deployment in Phases 2 through 4 of the European Phased Adaptive Approach, including the Standard Missile-3 Block IB interceptor and the Aegis Ashore system.

(D) A description of the manner in which elements of regional missile defense architectures, such as forward-based X-band radars in Turkey and Japan, contribute to the enhancement of homeland defense of the United States.

(E) A description of the current and planned contributions of North Atlantic Treaty Organization allies, both collectively and individually, to missile defense in Europe.

1 (3) FORM.—The report required by paragraph
2 (1) shall be submitted in unclassified form, but may
3 include a classified annex.

4 **SEC. 233. MISSILE DEFENSE COOPERATION WITH RUSSIA.**

5 (a) FINDINGS.—Congress makes the following find-
6 ings:

7 (1) For more than a decade, the United States
8 and Russia have discussed a variety of options for
9 cooperation on shared early warning and ballistic
10 missile defense. For example, on May 1, 2001,
11 President George W. Bush spoke of a “new coopera-
12 tive relationship” with Russia and said “it should be
13 premised on openness, mutual confidence and real
14 opportunities for cooperation, including the area of
15 missile defense. It should allow us to share informa-
16 tion so that each nation can improve its early warn-
17 ing capability, and its capability to defend its people
18 and territory. And perhaps one day, we can even co-
19 operate in a joint defense”.

20 (2) Section 1231 of the Floyd D. Spence Na-
21 tional Defense Authorization Act for Fiscal Year
22 2001 (as enacted into law by Public Law 106–398;
23 1654A–329) authorized the Department of Defense
24 to establish in Russia a “joint center for the ex-
25 change of data from systems to provide early warn-

1 ing of launches of ballistic missiles and for notifica-
2 tion of launches of such missiles”, also known as the
3 Joint Data Exchange Center (JDEC).

4 (3) On March 31, 2008, Deputy Secretary of
5 Defense Gordon England stated that “we have of-
6 fered Russia a wide-ranging proposal to cooperate
7 on missile defense—everything from modeling and
8 simulation, to data sharing, to joint development of
9 a regional missile defense architecture—all designed
10 to defend the United States, Europe, and Russia
11 from the growing threat of Iranian ballistic missiles.
12 An extraordinary series of transparency measures
13 have also been offered to reassure Russia. Despite
14 some Russian reluctance to sign up to these coopera-
15 tive missile defense activities, we continue to work
16 toward this goal”.

17 (4) On July 6, 2009, President Barack Obama
18 and Russian President Dmitry Medvedev issued a
19 joint statement on missile defense issues, which stat-
20 ed that “Russia and the United States plan to con-
21 tinue the discussion concerning the establishment of
22 cooperation in responding to the challenge of bal-
23 listic missile proliferation. . . We have instructed our
24 experts to work together to analyze the ballistic mis-

1 sile challenges of the 21st century and to prepare
2 appropriate recommendations”.

3 (5) The February 2010 report of the Ballistic
4 Missile Defense Review established as one of its cen-
5 tral policy pillars that increased international missile
6 defense cooperation is in the national security inter-
7 est of the United States and, with regard to coopera-
8 tion with Russia, the United States “is pursuing a
9 broad agenda focused on shared early warning of
10 missile launches, possible technical cooperation, and
11 even operational cooperation”.

12 (6) at the November 2010 Lisbon Summit, the
13 North Atlantic Treaty Organization (NATO) decided
14 to develop a missile defense system to “protect
15 NATO European populations, territory and forces”
16 and also to seek cooperation with Russia on missile
17 defense. In its Lisbon Summit Declaration, the
18 North Atlantic Treaty Organization reaffirmed its
19 readiness to “invite Russia to explore jointly the po-
20 tential for linking current and planned missile
21 defence systems at an appropriate time in mutually
22 beneficial ways”. The new NATO Strategic Concept
23 adopted at the Lisbon Summit states that “we will
24 actively seek cooperation on missile defense with
25 Russia”, that “NATO-Russia cooperation is of stra-

1 tegic importance”, and that “the security of the
2 North Atlantic Treaty Organization and Russia is
3 intertwined”.

4 (7) In a December 18, 2010, letter to the lead-
5 ership of the Senate, President Obama wrote that
6 the North Atlantic Treaty Organization “invited
7 Russia to cooperate on missile defense, which could
8 lead to adding Russian capabilities to those deployed
9 by NATO to enhance our common security against
10 common threats. The Lisbon Summit thus dem-
11 onstrated that the Alliance’s missile defenses can be
12 strengthened by improving NATO-Russian relations.
13 This comes even as we have made clear that the sys-
14 tem we intend to pursue with Russia will not be a
15 joint system, and it will not in any way limit United
16 States’ or NATO’s missile defense capabilities. Ef-
17 fective cooperation with Russia could enhance the
18 overall efficiency of our combined territorial missile
19 defenses, and at the same time provide Russia with
20 greater security”.

21 (8) Section 221(a)(3) of the Ike Skelton Na-
22 tional Defense Authorization Act for Fiscal Year
23 2011 (Public Law 111–383; 124 Stat. 4167) states
24 that it is the sense of Congress “to support the ef-
25 forts of the United States Government and the

1 North Atlantic Treaty Organization to pursue co-
2 operation with the Russian Federation on ballistic
3 missile defense relative to Iranian missile threats”.

4 (9) In a speech in Russia on March 21, 2011,
5 Secretary of Defense Robert Gates cited “the
6 NATO-Russian decision to cooperate on defense
7 against ballistic missiles. We’ve disagreed before,
8 and Russia still has uncertainties about the Euro-
9 pean Phased Adaptive Approach, a limited system
10 that poses no challenges to the large Russian nu-
11 clear arsenal. However, we’ve mutually committed to
12 resolving these difficulties in order to develop a
13 roadmap toward truly effective anti-ballistic missile
14 collaboration. This collaboration may include ex-
15 changing launch information, setting up a joint data
16 fusion center, allowing greater transparency with re-
17 spect to our missile defense plans and exercises, and
18 conducting a joint analysis to determine areas of fu-
19 ture cooperation”.

20 (10) In testimony to the Committee on Armed
21 Services of the Senate on April 13, 2011, Deputy
22 Assistant Secretary of Defense for Nuclear and Mis-
23 sile Defense Policy Bradley H. Roberts stated that
24 the United States has been pursuing a Defense
25 Technology Cooperation Agreement with Russia

1 since 2004, and that such an agreement is necessary
2 “for the safeguarding of sensitive information in
3 support of cooperation” on missile defense, and to
4 “provide the legal framework for undertaking coop-
5 erative efforts”. Further, Dr. Roberts stated that
6 the United States would not provide any classified
7 information to Russia without first conducting a Na-
8 tional Disclosure Policy review. He also stated that
9 the United States is not considering sharing “hit-to-
10 kill” technology with Russia.

11 (11) In a March 2012 answer to a question
12 from the Committee on Armed Services of the Sen-
13 ate on missile defense cooperation with Russia, Act-
14 ing Under Secretary of Defense for Policy Jim Mil-
15 ler wrote that “I support U.S.-Russian cooperation
16 on missile defenses first and foremost because it
17 could improve the effectiveness of U.S. and NATO
18 missile defenses, thereby improving the protection of
19 the United States, our forces overseas, and our Al-
20 lies. Missile defense cooperation with Russia is in
21 the security interests of the United States, NATO,
22 and Russia, first and foremost because it could
23 strengthen capabilities across Europe to intercept
24 Iranian missiles”. He also wrote that “[t]he United
25 States has pursued missile defense cooperation with

1 Russia with the clear understanding that we would
2 not accept constraints on missile defense, and that
3 we would undertake necessary qualitative and quan-
4 titative improvements to meet U.S. Security needs”.

5 (12) In February 2012, an international group
6 of independent experts known as the Euro-Atlantic
7 Security Initiative issued a report proposing missile
8 defense cooperation between the United States (with
9 its North Atlantic Treaty Organization allies) and
10 Russia. The group, whose leaders included Stephen
11 Hadley, the National Security Advisor to President
12 George W. Bush, proposed that the nations share
13 satellite and radar early warning data at joint co-
14 operation centers in order to improve their ability to
15 detect, track, and defeat medium-range and inter-
16 mediate-range ballistic missiles from the Middle
17 East.

18 (13) In a letter dated April 13, 2012, Robert
19 Nabors, Assistant to the President and Director of
20 the Office of Legislative Affairs, wrote that “it is
21 Administration policy that we will only provide infor-
22 mation to Russia that will enhance the effectiveness
23 of our missile defenses. The Administration will not
24 provide Russia with sensitive information that would

1 in any way compromise our national security, includ-
2 ing hit-to-kill technology and interceptor telemetry”.

3 (14) The United States and Russia already en-
4 gage in substantial cooperation on a number of
5 international security efforts, including nuclear non-
6 proliferation, anti-piracy, counter-narcotics, nuclear
7 security, counter-terrorism, and logistics resupply
8 through Russia of coalition forces in Afghanistan.
9 These areas of cooperation require each side to
10 share and protect sensitive information, which they
11 have both done successfully.

12 (15) The United States currently has shared
13 early warning agreements and programs of coopera-
14 tion with eight nations in addition to the North At-
15 lantic Treaty Organization. The United States has
16 developed procedures and mechanisms for sharing
17 early warning information with partner nations while
18 ensuring the protection of sensitive United States in-
19 formation.

20 (16) Russia and the United States each have
21 missile launch early warning and detection and
22 tracking sensors that could contribute to and en-
23 hance each others’ ability to detect, track, and defend
24 against ballistic missile threats from Iran.

1 (17) The Obama Administration has provided
2 regular briefings to Congress on its discussions with
3 Russia on possible missile defense cooperation.

4 (b) SENSE OF CONGRESS.—It is the sense of Con-
5 gress that—

6 (1) it is in the national security interest of the
7 United States to pursue efforts at missile defense
8 cooperation with Russia that would enhance the se-
9 curity of the United States, its North Atlantic Trea-
10 ty Organization allies, and Russia, particularly
11 against missile threats from Iran;

12 (2) the United States should pursue ballistic
13 missile defense cooperation with Russia on both a bi-
14 lateral basis and a multilateral basis with its North
15 Atlantic Treaty Organization allies, particularly
16 through the NATO-Russia Council;

17 (3) missile defense cooperation with Russia
18 should not “in any way limit United States’ or
19 NATO’s missile defense capabilities”, as acknowl-
20 edged in the December 18, 2010, letter from Presi-
21 dent Obama to the leadership of the Senate, and
22 should be mutually beneficial and reciprocal in na-
23 ture;

24 (4) the United States should not provide Russia
25 with sensitive missile defense information that would

1 in any way compromise United States national secu-
2 rity, including “hit-to-kill” technology and inter-
3 ceptor telemetry; and

4 (5) the United States should pursue missile de-
5 fense cooperation with Russia in a manner that en-
6 sures that—

7 (A) United States classified information is
8 appropriately safeguarded and protected from
9 unauthorized disclosure;

10 (B) prior to sharing classified information
11 with Russia, the United States conducts a Na-
12 tional Disclosure Policy review and determines
13 the types and levels of information that may be
14 shared and whether any additional procedures
15 are necessary to protect such information;

16 (C) prior to entering into missile defense
17 technology cooperation projects, the United
18 States enters into a Defense Technology Co-
19 operation Agreement with Russia that estab-
20 lishes the legal framework for a broad spectrum
21 of potential cooperative defense projects; and

22 (D) such cooperation does not limit the
23 missile defense capabilities of the United States
24 or its North Atlantic Treaty Organization allies.

1 **SEC. 234. NEXT GENERATION EXO-ATMOSPHERIC KILL VE-**
2 **HICLE.**

3 (a) PLAN FOR NEXT GENERATION KILL VEHICLE.—

4 The Director of the Missile Defense Agency shall develop
5 a long-term plan for the Exo-atmospheric Kill Vehicle
6 (EKV) that addresses both modifications and enhance-
7 ments to the current Exo-atmospheric Kill Vehicle and op-
8 tions for the competitive development of a next generation
9 Exo-atmospheric Kill Vehicle for the Ground-Based Inter-
10 ceptor (GBI) of the Ground-based Midcourse Defense
11 (GMD) system and any other interceptor that might be
12 developed for the defense of the United States against
13 long-range ballistic missiles.

14 (b) DEFINITION OF PARAMETERS AND CAPABILI-
15 TIES.—

16 (1) ASSESSMENT REQUIRED.—The Director
17 shall define the desired technical parameters and
18 performance capabilities for a next generation Exo-
19 atmospheric Kill Vehicle using an assessment con-
20 ducted by the Director for that purpose that is de-
21 signed to ensure that a next generation Exo-atmos-
22 pheric Kill Vehicle design—

23 (A) enables ease of manufacturing, high
24 tolerances to production processes and supply
25 chain variability, and inherent reliability;

1 (B) will be optimized to take advantage of
2 the Ballistic Missile Defense System architec-
3 ture and sensor system capabilities;

4 (C) leverages all relevant kill vehicle devel-
5 opment activities and technologies, including
6 from the current Standard Missile-3 Block IIB
7 (SM-3 IIB) program and the previous Multiple
8 Kill Vehicle technology development program;

9 (D) seeks to maximize, to the greatest ex-
10 tent practicable, commonality between sub-
11 systems of a next generation Exo-atmospheric
12 Kill Vehicle and other exo-atmospheric kill vehi-
13 cle programs; and

14 (E) meets Department of Defense criteria,
15 as established in the February 2010 Ballistic
16 Missile Defense Review, for affordability, reli-
17 ability, suitability, and operational effectiveness
18 to defend against limited attacks from evolving
19 and future threats from long-range missiles.

20 (2) EVALUATION OF PAYLOADS.—The assess-
21 ment required by paragraph (1) shall include an
22 evaluation of the potential benefits and drawbacks of
23 options for both unitary and multiple Exo-atmos-
24 pheric Kill Vehicle payloads.

1 (3) STANDARD MISSILE-3 BLOCK IIB INTER-
 2 CEPTOR.—As part of the assessment required by
 3 paragraph (1), the Director shall evaluate whether
 4 there are potential options and opportunities arising
 5 from the Standard Missile-3 Block IIB interceptor
 6 development program for development of an exo-at-
 7 mospheric kill vehicle, or kill vehicle technologies or
 8 components, that could be used for potential up-
 9 grades to the Ground-Based Interceptor or for a
 10 next generation Exo-atmospheric Kill Vehicle.

11 (c) REPORT.—

12 (1) IN GENERAL.—Not later than one year
 13 after the date of the enactment of this Act, the Di-
 14 rector shall submit to the congressional defense com-
 15 mittees a report setting forth the plan developed
 16 under subsection (a), including the results of the as-
 17 sessment under subsection (b), and an estimate of
 18 the cost and schedule of implementing the plan.

19 (2) FORM.—The report required by paragraph
 20 (1) shall be submitted in unclassified form, but may
 21 include a classified annex.

 14 on alert or operationally deployed status; and

17 **SEC. 239. SENSE OF CONGRESS ON THE SUBMITTAL TO**
 18 **CONGRESS OF THE HOMELAND DEFENSE**
 19 **HEDGING POLICY AND STRATEGY REPORT OF**
 20 **THE SECRETARY OF DEFENSE.**

21 (a) FINDINGS.—Congress makes the following find-
 22 ings:

23 (1) Section 233 of the National Defense Au-
 24 thorization Act for Fiscal Year 2012 (Public Law
 25 112–81; 125 Stat. 1340) requires a homeland de-

1 fense hedging policy and strategy report from the
2 Secretary of Defense.

3 (2) The report was required to be submitted
4 not later than 75 days after the date of the enact-
5 ment of the National Defense Authorization Act for
6 Fiscal Year 2012, namely by March 16, 2012.

7 (3) The Secretary of Defense has not yet sub-
8 mitted the report as required.

9 (4) In March 2012, General Charles Jacoby,
10 Jr., Commander of the United States Northern
11 Command, the combatant command responsible for
12 operation of the Ground-based Midcourse Defense
13 system to defend the homeland against ballistic mis-
14 sile threats, testified before Congress that “I am
15 confident in my ability to successfully defend the
16 homeland from the current set of limited long-range
17 ballistic missile threats”, and that “[a]gainst current
18 threats from the Middle East, I am confident we are
19 well postured”.

20 (5) Phase 4 of the European Phased Adaptive
21 Approach (EPAA) is intended to augment the cur-
22 rently deployed homeland defense capability of the
23 Ground-based Midcourse Defense system against a
24 potential future Iranian long-range missile threat by

1 deploying an additional layer of forward-deployed
2 interceptors in Europe in the 2020 timeframe.

3 (6) The Director of National Intelligence,
4 James Clapper, has testified to Congress that, al-
5 though the intelligence community does “not know if
6 Iran will eventually decide to build nuclear weap-
7 ons”, it judges “that Iran would likely choose missile
8 delivery as its preferred method of delivering a nu-
9 clear weapon”. He also testified that “Iran already
10 has the largest inventory of ballistic missiles in the
11 Middle East, and it is expanding the scale, reach,
12 and sophistication of its ballistic missile forces,
13 many of which are inherently capable of carrying a
14 nuclear payload”.

15 (7) The 2012 Annual Report to Congress on
16 the Military Power of Iran by the Department of
17 Defense states that, in addition to increasing its
18 missile inventories, “Iran has boosted the lethality
19 and effectiveness of its existing missile systems with
20 accuracy improvements and new submunitions pay-
21 loads”, and that it continues to develop missiles that
22 can strike Israel and Eastern Europe. It also states
23 that “Iran has launched multistage space launch ve-
24 hicles that could serve as a testbed for developing
25 long-range ballistic missiles technologies”, and that

1 “[w]ith sufficient foreign assistance, Iran may be
2 technically capable of flight-testing an interconti-
3 nental ballistic missile by 2015”.

4 (8) Despite the failure of its April 2012 sat-
5 ellite launch attempt, North Korea warned the
6 United States in October 2012 that the United
7 States mainland is within range of its missiles.

8 (9) The threat of limited ballistic missile attack
9 against the United States homeland from countries
10 such as North Korea and Iran is increasing.

11 (b) SENSE OF CONGRESS.—It is the sense of the
12 Congress that—

13 (1) the homeland defense hedging policy and
14 strategy report required by section 233 of the Na-
15 tional Defense Authorization Act for Fiscal Year
16 2012 is necessary to inform Congress on options to
17 protect the United States homeland against the
18 evolving ballistic missile threat, including potential
19 options prior to the deployment of Phase 4 of the
20 European Phased Adaptive Approach to missile de-
21 fense; and

22 (2) the Secretary of Defense should comply
23 with the requirements of section 233 of the National
24 Defense Authorization Act for Fiscal Year 2012 by

1 submitting the homeland defense hedging policy and
 2 strategy report to Congress.

3 **Subtitle D—Reports**

 18 lent approval for that increment.

19 (2) A plan for demonstrating that the capability
 20 increment for each Mission Package, combined with
 21 a Littoral Combat Ship, on the basis of a Prelimi-
 22 nary Design Review and post-Preliminary Design
 23 Review assessment, will achieve the capability speci-
 24 fied for that increment.

(3) A plan for demonstrating the survivability and lethality of the Littoral Combat Ship with its Mission Packages sufficiently early in the development phase of the system to minimize costs of currency.

24 tion policy and regulations of the Department
25 of Defense.

(E) A risk assessment of the integrated master schedule and the test and evaluation master plan of the Amphibious Combat Vehicle as it relates to—

(i) the probability of success;

(A) The analysis of alternatives.

(B) The initial capabilities document.

(C) The capability development document.

(4) INFORMATION IN SUBSEQUENT REPORTS.—

(A) CERTAIN INFORMATION REQUIRED ONLY FOLLOWING SIGNIFICANT CHANGES.—A report under this subsection after the first report under paragraph (1) shall address the

1 matters identified in subparagraphs (C), (D),
2 and (E) of paragraph (2) only to the extent
3 that the Comptroller General determines that
4 there have been significant changes to the ap-
5 plicable plans, strategies, or schedules since the
6 last report under this subsection addressing
7 such matters.

8 (B) ADDITIONAL INFORMATION AFTER AP-
9 PROVAL OR CHANGE OF DOCUMENTS.—If any
10 document specified in paragraph (3) is ap-
11 proved or changed after the first report under
12 paragraph (1), the Comptroller General shall
13 provide an assessment of the sufficiency and ob-

8 Corps shall jointly submit to the congressional defense
9 committees a report that includes the following:

10 (1) A detailed description of the capability gaps

 17 **MEMBERS OF THE ARMED FORCES.**

18 It is the sense of the Senate that—

 20 play a critical role in the training of the members
 21 of the Armed Forces;

22 (2) while increased modeling and simulation has

11 exercises; and

12 (4) the Secretary of Defense should develop a
13 plan to increase the use of emerging technologies in

4 and there is no showing that such delay is due to
5 the bad faith of the complainant, the complainant
6 shall be deemed to have exhausted all administrative
7 remedies with respect to the complaint, and the com-
8 plainant may bring a de novo action at law or equity
9 against the contractor or grantee to seek compen-
10 satory damages and other relief available under this
11 section in the appropriate district court of the
12 United States, which shall have jurisdiction over
13 such an action without regard to the amount in con-

8 “(7) RIGHTS AND REMEDIES NOT WAIVABLE.—
9 The rights and remedies provided for in this section

21 “(e) CONSTRUCTION.—Nothing in this section may
22 be construed to authorize the discharge of, demotion of,

3 **SEC. 868. SENSE OF SENATE ON THE CONTRIBUTIONS OF**
 4 **LATVIA AND OTHER NORTH ATLANTIC TREA-**
 5 **TY ORGANIZATION MEMBER NATIONS TO THE**
 6 **SUCCESS OF THE NORTHERN DISTRIBUTION**
 7 **NETWORK.**

8 (a) FINDINGS.—The Senate makes the following
 9 findings:

10 (1) The remote and austere environments in
 11 which United States troops are required to operate
 12 as part of the International Security Assistance
 13 Force (ISAF) mission in Afghanistan have increased
 14 the need for reliable lines of supply in southwest
 15 Asia.

16 (2) The country of Afghanistan presents unique
 17 logistics challenges, which have precipitated the de-
 18 velopment of several redundant lines of supply.

19 (3) United States Transportation Command
 20 and the Defense Logistics Agency (DLA), in con-
 21 sultation with United States Embassy officials and
 22 other parties, have successfully established memo-
 23 randa of understanding and other agreements with
 24 nations in and around southwest Asia to ensure the
 25 reliability of lines of supply to Afghanistan.

1 (4) The lines of supply through Pakistan have
2 been repeatedly threatened by instability in that
3 country. Airlifting goods to Afghanistan, while safer,
4 is expensive.

5 (5) The Northern Distribution Network (NDN)
6 was established in late 2008 to ensure that a safe
7 and cost-effective line of supply is available for
8 United States troops in Afghanistan.

9 (6) The two prongs of supply provided by the
10 Northern Distribution Network ship nonlethal goods
11 from the Baltic ports in the north and the
12 Caucasus in the west to southwest Asia and Af-
13 ghanistan.

14 (7) The Northern Distribution Network has
15 been successful and now handles more than 50 per-
16 cent of cargo shipped to Afghanistan.

17 (8) North Atlantic Treaty Organization
18 (NATO) member nations along the Northern Dis-
19 tribution Network routes have contributed signifi-
20 cantly to the success of the Northern Distribution
21 Network.

22 (9) The United States has strong economic ties
23 to Northern Distribution Network nations that are
24 members of the North Atlantic Treaty Organization,
25 and these nations may be able to provide quality

1 goods and services for near and long-term use by the
2 Department of Defense.

3 (10) Since 2009 the port of Riga, on the Baltic
4 Sea, has been a critical overland entry point for
5 goods being shipped using the Northern Distribution
6 Network. Latvia is a member of the North Atlantic
7 Treaty Organization and has been an ally of the
8 United States in the region for many years.

9 (11) In September 2010, the Defense Logistics
10 Agency, the General Services Administration, and
11 other parties hosted a local procurement conference
12 in Riga, Latvia.

13 (12) One hundred nine Latvian vendors at-
14 tended the September 2010 conference in Riga, and
15 contracts with Latvian vendors have been entered
16 into as a result.

17 (13) In May 2012, Latvia hosted an inter-
18 national workshop in Riga to examine ways of trans-
19 forming the Northern Distribution Network from a
20 route for the delivery of United States and other Al-
21 lies' non-lethal goods to Afghanistan into a commer-
22 cial route that would support the economic growth
23 of Afghanistan and the southwest Asia region.

24 (b) SENSE OF SENATE.—It is the sense of the Senate
25 that—

(1) Latvia and other North Atlantic Treaty Organization member nations along the Northern Distribution Network routes are key economic and security partners of the United States and are to be commended for their contribution to ensuring United States and International Security Assistance Force troops have reliable lines of supply to achieve the mission in Afghanistan;

(2) when quality products at competitive prices are available, significant effort should be made to procure goods locally from Latvia and other North Atlantic Treaty Organization member nations along the Northern Distribution Network routes; and

(3) Latvia and other North Atlantic Treaty Organization member nations along the Northern Distribution Network routes remain allies of the United States in the region, and a mutually beneficial relationship should continue to be cultivated between the United States and Latvia and such other nations in the future.

11 sources to store rapidly growing threat libraries.

12 (2) The system should provide an open archi-

13 piration of the current lease and ending on the date
14 on which the Commander of the United States Cen-
15 tral Command notifies the Secretary that a sub-
16 stitute is available for the capabilities provided by
17 the lease, or that the capabilities provided by such
18 aircraft are no longer required; or

19 (2) six months.

20 (b) FUNDING.—Amounts authorized to be appro-
21 priated for fiscal year 2013 by title XV and available for
22 Overseas Contingency Operations for operation and main-

25 authorized by subsection (a).

1 **SEC. 934. SENSE OF SENATE ON POTENTIAL SECURITY**
2 **RISKS TO DEPARTMENT OF DEFENSE NET-**
3 **WORKS.**

4 (a) FINDINGS.—The Senate makes the following
5 findings:

6 (1) Cybersecurity threats are pervasive and se-
7 rious, including through the supply chain of infor-
8 mation technology equipment and software.

9 (2) Semiconductor manufacturing is already
10 dominated by foreign producers, presenting supply
11 chain risk management challenges.

12 (3) In a number of instances, foreign manufac-
13 turers of telecommunications equipment, including
14 advanced wireless technology, are gaining global
15 market share due to high quality and low prices.
16 Competitive market forces ensure that commercial
17 providers of consumer, business, and government
18 systems and services will choose equipment and as-
19 sociated software from these manufacturers. In some
20 cases, like Huawei Industries, this competitive posi-
21 tion stems in part from inappropriate government
22 subsidies and other forms of assistance.

23 (4) Some of these companies also present clear
24 cybersecurity supply chain risks that the Govern-
25 ment must address.

1 (5) The Committee on Foreign Investment in
2 the United States has blocked the attempt by
3 Huawei to acquire United States technology firms
4 on two occasions and the National Security Agency
5 and the Secretary of Commerce have advised two
6 major United States telecommunications carriers
7 against selecting Huawei as a supplier.

8 (6) The Ike Skelton National Defense Author-
9 ization Act for Fiscal Year 2011 (Public Law 111–
10 383) provided authority and mechanisms for the
11 Secretary of Defense to control these supply chain
12 risks, but only for National Security Systems, leav-
13 ing many information technology systems and mis-
14 sions exposed to supply chain risks.

15 (7) Blocking sales from providers of informa-
16 tion technology systems and services due to concerns
17 about cybersecurity risks, while maintaining our
18 commitment to free trade and fair and transparent
19 competition, poses difficult policy challenges.

20 (b) SENSE OF SENATE.—It is the sense of the Senate
21 that the Department of Defense—

22 (1) must ensure it maintains full visibility and
23 adequate control of its supply chain, including sub-
24 contractors, in order to mitigate supply chain exploi-
25 tation; and

(2) needs the authority and capability to mitigate supply chain risks to its information technology systems that fall outside the scope of National Security Systems.

**SEC. 935. SENSE OF CONGRESS ON THE UNITED STATES
CYBER COMMAND.**

(a) FINDINGS.—Congress makes the following findings:

(1) On June 23, 2009, the Secretary of Defense directed the Commander of the United States Strategic Command to establish the United States Cyber Command, which became operational on May 21, 2010, and operates as a sub-unified command subordinate to the United States Strategic Command.

(2) In May 2012, media reports indicated that General Martin Dempsey, the Chairman of the Joint Chiefs of Staff, planned to recommend to Secretary of Defense Leon Panetta that the two-year-old United States Cyber Command be elevated to full combatant command status.

(3) On August 14, 2012, General Keith Alexander, the Commander of the United States Cyber Command and the Director of the National Security Agency, addressed the TechNet Land Forces conference and stated that “[i]n 2007 we drafted . . .

1 a paper . . . about establishing a Cyber Command
2 . . . [which concluded that] . . . the most logical is
3 to set it up as a sub unified and grow it to a unified,
4 and I think that's the process that we're going to
5 work our way through".

6 (4) On October 11, 2012, Secretary of Defense
7 Leon Panetta discussed cybersecurity in a speech to
8 the Business Executives for National Security in
9 New York, New York, specifically calling for a
10 strengthening of the United States Cyber Command
11 and stating that the Department of Defense "must
12 ensure that [the United States Cyber Command] has
13 the resources, that it has the authorities, that it has
14 the capabilities required to perform this growing
15 mission. And it must also be able to react quickly to
16 events unfolding in cyberspace and help fully inte-
17 grate cyber into all of the department's plans and
18 activities."

19 (b) SENSE OF CONGRESS.—Congress—

20 (1) recognizes the serious cyber threat to na-
21 tional security and the need to work both offensively
22 and defensively to protect the Nation's networks and
23 critical infrastructure;

24 (2) acknowledges the importance of the unified
25 command structure of the Department in directing

1 military operations in cyberspace and recognizes that
2 a change in the status of the United States Cyber
3 Command has Department-wide and national secu-
4 rity implications, which require careful consider-
5 ation;

6 (3) expects to be briefed and consulted about
7 any proposal to elevate the United States Cyber
8 Command to a unified command before a decision by
9 the Secretary make such a proposal to the President
10 and to receive, at a minimum—

11 (A) a clear statement of mission and re-
12 lated legal definitions;

13 (B) an outline of the specific national secu-
14 rity benefits of elevating the sub-unified United
15 States Cyber Command to a unified command;

16 (C) an estimate of the cost of creating a
17 unified United States Cyber Command and a
18 justification of the expenditure; and

19 (D) if the Secretary considers it advisable
20 to continue the designation of the Commander
21 of the United States Cyber Command as also
22 being the Director of the National Security
23 Agency—

24 (i) an explanation of how a single in-
25 dividual could serve as a commander of a

1 combatant command that conducts overt,
 2 albeit clandestine, cyber operations under
 3 title 10, United States Code, as well as the
 4 director of an intelligence agency that con-
 5 ducts covert cyber operations under the
 6 National Security Act of 1947 (50 U.S.C.
 7 401 et seq.) in a manner that affords
 8 deniability to the United States; and

9 (ii) a statement of whether the Sec-
 10 retary believes it is appropriate either to
 11 appoint a line officer as the Director of the
 12 National Security Agency or to take the
 13 unprecedented step of appointing an intel-
 14 ligence officer as a unified commander;
 15 and

16 (4) believes that appropriate policy foundations
 17 and standing rules of engagement must be in place
 18 before any decision to create a unified United States
 19 Cyber Command.

7 network or information system under the process
8 shall include the following:

9 (A) A description of the technique or
10 method used in the penetration.

11 (B) A sample of the malicious software, if
12 discovered and isolated by the contractor.

13 (3) ACCESS.—The process shall include mecha-
14 nisms by which Department of Defense personnel
15 may, upon request, obtain access to equipment or in-
16 formation of a contractor necessary to conduct a fo-
17 rensic analysis to determine whether information
18 created by or for the Department in connection with
19 any Department program was successfully
20 exfiltrated from a network or information system of
21 the contractor and, if so, what information was
22 exfiltrated.

23 (4) LIMITATION ON DISSEMINATION OF CER-
24 TAIN INFORMATION.—The process shall prohibit the
25 dissemination outside the Department of Defense of

1 information obtained or derived through the process
 2 that is not created by or for the Department except
 3 with the approval of the contractor providing such
 4 information.

5 (e) CLEARED DEFENSE CONTRACTOR DEFINED.—In
 6 this section, the term “cleared defense contractor” means
 7 a private entity granted clearance by the Defense Security
 8 Service to receive and store classified information for the
 9 purpose of bidding for a contract or conducting activities
 10 under a contract with the Department of Defense.

6 **TITLE X—GENERAL PROVISIONS**

7 **Subtitle A—Financial Matters**

8 **SEC. 1001. GENERAL TRANSFER AUTHORITY.**

9 (a) AUTHORITY TO TRANSFER AUTHORIZATIONS.—

10 (1) AUTHORITY.—Upon determination by the
 11 Secretary of Defense that such action is necessary in
 12 the national interest, the Secretary may transfer
 13 amounts of authorizations made available to the De-
 14 partment of Defense in this division for fiscal year
 15 2013 between any such authorizations for that fiscal
 16 year (or any subdivisions thereof). Amounts of au-
 17 thorizations so transferred shall be merged with and
 18 be available for the same purposes as the authoriza-
 19 tion to which transferred.

20 (2) LIMITATION.—Except as provided in para-
 21 graph (3), the total amount of authorizations that
 22 the Secretary may transfer under the authority of
 23 this section may not exceed \$5,000,000,000.

24 (3) EXCEPTION FOR TRANSFERS BETWEEN
 25 MILITARY PERSONNEL AUTHORIZATIONS.—A trans-

1 fer of funds between military personnel authoriza-
2 tions under title IV shall not be counted toward the
3 dollar limitation in paragraph (2).

4 (b) LIMITATIONS.—The authority provided by this
5 section to transfer authorizations—

6 (1) may only be used to provide authority for
7 items that have a higher priority than the items
8 from which authority is transferred; and

9 (2) may not be used to provide authority for an
10 item that has been denied authorization by Con-
11 gress.

12 (c) EFFECT ON AUTHORIZATION AMOUNTS.—A
13 transfer made from one account to another under the au-
14 thority of this section shall be deemed to increase the
15 amount authorized for the account to which the amount
16 is transferred by an amount equal to the amount trans-
17 ferred.

18 (d) NOTICE TO CONGRESS.—The Secretary shall
19 promptly notify Congress of each transfer made under
20 subsection (a).

1 **SEC. 1002. AUTHORITY TO TRANSFER FUNDS TO THE NA-**

4 **ERNIZATION.**

5 (a) **TRANSFER AUTHORIZED.**—If the amount author-
6 ized to be appropriated for the weapons activities of the
7 National Nuclear Security Administration for fiscal year
8 2013 in section 3101 is less than \$7,900,000,000 (the
9 amount projected to be required for such activities in fiscal
10 year 2013 as specified in the report under section 1251
11 of the National Defense Authorization Act for Fiscal Year
12 2010 (Public Law 111–84; 123 Stat. 2549)), the Sec-
13 retary of Defense may transfer, from amounts authorized
14 to be appropriated for the Department of Defense for fis-

6 **SEC. 1003. AUDIT READINESS OF DEPARTMENT OF DE-**
7 **ENSE STATEMENTS OF BUDGETARY RE-**
8 **SOURCES.**

9 (a) OBJECTIVE.—Section 1003(a)(2)(A)(ii) of the
10 National Defense Authorization Act for Fiscal Year 2010
11 (Public Law 111–84; 123 Stat. 2439; 10 U.S.C. 2222
12 note) is amended by inserting “, and the statement of
13 budgetary resources of the Department of Defense is vali-
14 dated as ready for audit by not later than September 30,
15 2014” after “September 30, 2017”.

16 (b) AFFORDABLE AND SUSTAINABLE APPROACH.—

17 (1) IN GENERAL.—The Chief Management Offi-
18 cer of the Department of Defense and the Chief
19 Management Officers of each of the military depart-
20 ments shall ensure that plans to achieve an
21 auditable statement of budgetary resources of the
22 Department of Defense by September 30, 2014, in-
23 clude appropriate steps to minimize one-time fixes
24 and manual work-arounds, are sustainable and af-

1 fordable, and will not delay full auditability of finan-
2 cial statements.

3 (2) ADDITIONAL ELEMENTS IN FIAR PLAN RE-
4 PORT.—Each semi-annual report on the Financial
5 Improvement and Audit Readiness Plan of the De-
6 partment of Defense submitted by the Under Sec-
7 retary of Defense (Comptroller) under section
8 1003(b) of the National Defense Authorization Act
9 for Fiscal Year 2010 during the period beginning on
10 the date of the enactment of this Act and ending on
11 September 30, 2014, shall include the following:

12 (A) A description of the actions taken by
13 the military departments pursuant to paragraph
14 (1).

15 (B) A determination by the Chief Manage-
16 ment Officer of each military department
17 whether or not such military department is able
18 to achieve an auditable statement of budgetary
19 resources by September 30, 2014, without an
20 unaffordable or unsustainable level of one-time
21 fixes and manual work-arounds and without de-
22 laying the full auditability of the financial state-
23 ments of such military department.

24 (C) If the Chief Management Officer of a
25 military department determines under subpara-

graph (B) that the military department is not able to achieve an auditable statement of budgetary resources by September 30, 2014, as described in that subparagraph—

(i) an explanation why the military department is unable to meet the deadline;

(ii) an alternative deadline by which the military department will achieve an auditable statement of budgetary resources;

(iii) a description of the plan of the military department for meeting the alternative deadline.

SEC. 1004. REPORT ON EFFECTS OF BUDGET SEQUESTRATION ON THE DEPARTMENT OF DEFENSE.

(a) FINDINGS.—Congress makes the following findings:

(1) The inability of the Joint Select Committee on Deficit Reduction to find \$1,200,000,000,000 in savings will trigger automatic funding reductions known as “sequestration” to the Department of Defense of \$492,000,000,000 between 2013 and 2021 under section 251A of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 USC 901a).

1 (2) These reductions are in addition to reduc-
2 tions of \$487,000,000,000 already being imple-
3 mented by the Department of Defense, and would
4 decrease the readiness and capabilities of the Armed
5 Forces while increasing risks to the effective imple-
6 mentation of the National Security Strategy of the
7 United States.

8 (3) The leaders of the Department of Defense
9 have consistently testified that threats to the na-
10 tional security of the United States have increased,
11 not decreased. Secretary of Defense Leon Panetta
12 said that these reductions would “inflict severe dam-
13 age to our national defense for generations”, com-
14 ments that have been echoed by the Secretaries of
15 the Army, Navy, and Air Force.

16 (4) While reductions in funds available for the
17 Department of Defense will automatically commence
18 January 2, 2013, uncertainty regarding the reduc-
19 tions has already exacerbated Department of De-
20 fense efforts to plan future defense budget.

21 (5) Sequestration will have a detrimental effect
22 on the industrial base that supports the Department
23 of Defense.

24 (b) REPORT.—

1 (1) IN GENERAL.—Not later than August 15,
2 2012, the Secretary of Defense shall submit to the
3 Committees on Armed Services of the Senate and
4 the House of Representatives a detailed report on
5 the impact on the Department of Defense of the se-
6 questration of funds authorized and appropriated for
7 fiscal year 2013 for the Department of Defense, if
8 automatically triggered on January 2, 2013, under
9 section 251A of the Balanced Budget and Emer-
10 gency Deficit Control Act of 1985.

11 (2) ELEMENTS.—The report required by para-
12 graph (1) shall include the following:

13 (A) An assessment of the potential impact
14 of sequestration on the readiness of the Armed
15 Forces, including impacts to steaming hours,
16 flying hours, and full spectrum training miles,
17 and an estimate of the increase or decrease in
18 readiness (as defined in the C status C-1
19 through C-5).

20 (B) An assessment of the potential impact
21 of sequestration on the ability of the Depart-
22 ment of Defense to carry out the National Mili-
23 tary Strategy of the United States, and any
24 changes to the most recent Risk Assessment of
25 the Chairman of the Joint Chiefs of Staff under

1 section 153(b) of title 10, United States Code
2 arising from sequestration.

3 (C) A list of the programs, projects, and
4 activities across the Department of Defense, the
5 military departments, and the elements and
6 components of the Department of Defense that
7 would be reduced or terminated as a result of
8 sequestration.

9 (D) An estimate of the number and value
10 of all contracts that will be terminated, restruc-
11 tured, or revised in scope as a result of seques-
12 tration, including an estimate of potential ter-
13 mination costs and of increased contract costs
14 due to renegotiation and reinstatement of con-
15 tracts.

16 (3) ASSUMPTIONS.—The report required by
17 paragraph (1) shall assume the following:

18 (A) Except as provided in subparagraph
19 (B), the funds subject to sequester are the
20 funds in all 050 accounts, including all unobli-
21 gated balances.

22 (B) The funds exempt from the sequester
23 are the following:

24 (i) Funds in accounts for military per-
25 sonnel.

1 (ii) Funds in accounts for overseas
2 contingency operations.

3 (4) PRESENTATION OF CERTAIN INFORMA-
4 TION.—In listing programs, projects, and activities
5 under paragraph (2)(C), the report required by
6 paragraph (1) shall set forth for each the following:

7 (A) The most specific level of budget item
8 identified in applicable appropriations Acts.

9 (B) Related classified annexes and explan-
10 atory statements.

11 (C) Department of Defense budget jus-
12 tification documents DOD P-1 and R-1 as
13 subsequently modified by congressional action,
14 and as submitted by the Department of Defense
15 together with the budget materials for the
16 budget of the President for fiscal year 2013 (as
17 submitted to Congress pursuant to section
18 1105(a) of title 31, United States Code).

19 (D) Department of Defense document O-
20 1 for operation and maintenance accounts for
21 fiscal year 2013, for which purpose the term
22 “program, project, or activity” means the budg-
23 et activity account and sub account for the pro-
24 gram, project, or activity as submitted in such
25 document O-1.

1 **SEC. 1005. REPORT ON BALANCES CARRIED FORWARD BY**
2 **THE DEPARTMENT OF DEFENSE AT THE END**
3 **OF FISCAL YEAR 2012.**

4 Not later than 180 days after the date of the enact-
5 ment of this Act, the Secretary of Defense shall submit
6 to Congress, and publish on the Internet website of the
7 Department of Defense available to the public, the fol-
8 lowing:

9 (1) The total dollar amount of all balances car-
10 ried forward by the Department of Defense at the
11 end of fiscal year 2012 by account.

16 **FOR THE NAVY AND COAST GUARD.**

18 ings:

19 (1) More than 70 percent of the world's surface
20 is comprised of navigable oceans.

21 (2) More than 80 percent of the population of
22 the world lives within 100 miles of an ocean.

23 (3) More than 90 percent of the world's com-
24 merce traverses an oceans.

1 (4) The national security of the United States
2 is inextricably linked to the maintenance of global
3 freedom of access for both the strategic and com-
4 mercial interests of the United States.

5 (5) To maintain that freedom of access the sea
6 services of the United States, composed of the Navy,
7 the Marine Corps, and the Coast Guard, must be
8 sufficiently positioned as rotationally globally
9 deployable forces with the capability to decisively de-
10 fend United States citizens, homeland, and interests
11 abroad from direct or asymmetric attack and must
12 be comprised of sufficient vessels to maintain global
13 freedom of action.

14 (6) To achieve appropriate capabilities to en-
15 sure national security the Government of the United
16 States must continue to recapitalize the fleets of the
17 Navy and Coast Guard and must continue to con-
18 duct vital maintenance and repair of existing vessels
19 to ensure such vessels meet service life goals.

20 (b) SENSE OF CONGRESS.—It is the sense of Con-
21 gress that—

22 (1) the sea services of the United States should
23 be funded and maintained to provide the broad spec-
24 trum of capabilities required to protect the national

1 (2) such capabilities should include—

2 (A) the ability to project United States
3 power rapidly anywhere on the globe without
4 the need for host nation basing permission or
5 long and potentially vulnerable logistics supply
6 lines;

7 (B) the ability to land and recover mari-
8 time forces from the sea for direct combat ac-
9 tion, to evacuate United States citizens from
10 hostile situations, and to provide humanitarian
11 assistance where needed;

12 (C) the ability to operate from the sub-
13 surface with overpowering conventional combat
14 power, as well as strategic deterrence; and

15 (D) the ability to operate in collaboration
16 with United States maritime partners in the
17 common interest of preventing piracy at sea
18 and maintaining the commercial sea lanes avail-
19 able for global commerce;

20 (3) the Secretary of Defense, in coordination
21 with the Secretary of the Navy, should maintain the
22 recapitalization plans for the Navy as a priority in
23 all future force structure decisions; and

24 (4) the Secretary of Homeland Security should
25 maintain the recapitalization plans for the Coast

1 Guard as a priority in all future force structure deci-
2 sions.

4 **PROPOSALS TO NAME NAVAL VESSELS.**

6 ings:

7 (1) The Navy traces its ancestry to October 13,
8 1775, when an Act of the Continental Congress au-
9 thorized the first vessel of a navy for the United
10 Colonies. Vessels of the Continental Navy were
11 named for early patriots and military heroes, Fed-
12 eral institutions, colonial cities, and positive char-
13 acter traits representative of naval and military vir-
14 tues.

15 (2) An Act of Congress on March 3, 1819,
16 made the Secretary of the Navy responsible for as-
17 signing names to vessels of the Navy. Traditional
18 sources for vessel names customarily encompassed
19 such categories as geographic locations in the United
20 States; historic sites, battles, and ships; naval and
21 military heroes and leaders; and noted individuals
22 who made distinguished contributions to United
23 States national security.

1 (3) These customs and traditions provide ap-
2 appropriate and necessary standards for the naming of
3 vessels of the Navy.

4 (b) NOTICE TO CONGRESS.—Section 7292 of title 10,
5 United States Code, is amended by adding at the end the
6 following new subsection:

7 “(d)(1) The Secretary of the Navy may not announce
8 or implement any proposal to name a vessel of the Navy
9 until 30 days after the date on which the Secretary sub-
10 mits to the Committees on Armed Services of the Senate
11 and the House of Representatives a report setting forth
12 such proposal.

13 “(2) Each report under this subsection shall describe
14 the justification for the proposal covered by such report
15 in accordance with the standards referred to in section

2 **EARTH PHOSPHORS FROM DEPARTMENT OF**
3 **DEFENSE FLUORESCENT LIGHTING WASTE**
4 **TO THE DOMESTIC RARE EARTH SUPPLY**
5 **CHAIN.**

6 (a) FINDINGS.—Congress makes the following find-
7 ings:

8 (1) In its December 2011 report entitled “Crit-
9 ical Materials Strategy”, the Department of Energy
10 states that the heavy rare earth phosphors, dyspro-
11 sium, europium, terbium, and yttrium, are particu-
12 larly important given their relative scarcity and their
13 importance to clean energy, energy efficiency, hybrid
14 and electric vehicles, and advanced defense systems,
15 among other key technologies.

16 (2) While new sources of production of rare
17 earth elements show promise, these are focused pri-
18 marily on the light rare earth elements.

19 (b) SENSE OF SENATE.—It is the sense of the Senate
20 that—

21 (1) the recycling of end-use technologies that
22 use rare earth elements can provide near-term op-
23 portunities to recapture, reprocess, and reuse some
24 of the rare earth elements contained in them;

(2) fluorescent lighting materials could prove to be a promising recyclable source of heavy rare earth elements;

(3) a cost-benefit analysis would be helpful in determining the viability of a Department of Defense program to recycle fluorescent lighting waste in order to increase its supplies of heavy rare earth elements; and

(4) the recycling of heavy rare earth elements may be one component of a long term strategic plan to address the global demand for such elements, without which such elements could be unnecessarily lost.

(c) REPORT REQUIRED.—

(1) IN GENERAL.—Not later than March 1, 2013, the Secretary of Defense shall submit to the congressional defense committees a report on the results of a cost-benefit analysis on, and on recommendations concerning, the feasibility and advisability of establishing a program within the Department of Defense to—

(A) recapture fluorescent lighting waste;
and

(B) make such waste available to entities that have the ability to extract rare earth phos-

1 phors, reprocess and separate them in an envi-
 2 ronmentally safe manner, and return them to
 3 the domestic rare earth supply chain.

4 (2) ELEMENTS.—The report required by para-
 5 graph (1) shall include analysis of measures that
 6 could be taken to—

7 (A) provide for the disposal and mitigation
 8 of residual mercury and other hazardous by-
 9 products to be produced by the recycling proc-
 10 ess; and

11 (B) address concerns regarding the poten-
 12 tial export of heavy rare earth materials ob-
 13 tained from United States Government sources
 14 to non-allied nations.

 19 ment of this Act, the Secretary of Defense shall submit
 20 to the congressional defense committees a report setting
 21 forth an assessment of the feasibility and advisability of
 22 establishing a joint Armed Forces historical storage and
 23 preservation facility. The report shall include a description
 24 and assessment of the current capacities and qualities of

1 the historical storage and preservation facilities of each
2 of the Armed Forces, including the following:

3 (1) An identification of any excess capacity at
4 any such facility.

5 (2) An identification of any shortfalls in the ca-
6 pacity or quality of such facilities of any Armed
7 Force, and a description of possible actions to ad-
8 dress such shortfalls.

9 **SEC. 1066. STUDY ON BRADLEY FIGHTING VEHICLE INDUS-**

14 cle industrial base.

15 (b) CONTENT.—The study required under subsection
16 (a) shall—

17 (1) assess the quantitative impacts of a produc-
18 tion break for the Bradley Fighting Vehicle, includ-
19 ing the cost of shutdown compared to the cost of
20 continued production; and

21 (2) assess the qualitative impacts of a produc-
22 tion break for the Bradley Fighting Vehicle, includ-
23 ing the loss of a specialized workforce and supplier
24 base.

13 **SEC. 1071. STRATEGIC DELIVERY SYSTEMS.**

14 (a) FINDINGS.—Congress makes the following find-
15 ings:

16 (1) The Nuclear Posture Review of 2010 said,
17 with respect to modernizing the triad, “for planned
18 reductions under New START, the United States
19 should retain a smaller Triad of SLBMs, ICBMs,
20 and heavy bombers. Retaining all three Triad legs
21 will best maintain strategic stability at reasonable
22 cost, while hedging against potential technical prob-
23 lems or vulnerabilities”.

24 (2) The Senate stated in Declaration 12 of the
25 Resolution of Advice and Consent to Ratification of

1 the New START Treaty that “In accordance with
2 paragraph 1 of Article V of the New START Trea-
3 ty, which states that, ‘Subject to the provisions of
4 this Treaty, modernization and replacement of stra-
5 tegic offensive arms may be carried out,’ it is the
6 sense of the Senate that United States deterrence
7 and flexibility is assured by a robust triad of stra-
8 tegic delivery vehicles. To this end, the United
9 States is committed to accomplishing the moderniza-
10 tion and replacement of its strategic nuclear delivery
11 vehicles, and to ensuring the continued flexibility of
12 United States conventional and nuclear delivery sys-
13 tems”.

14 (3) The Senate required the President, prior to
15 the entry into force of the New START Treaty, to
16 certify to the Senate that the President intended to
17 modernize or replace the triad of strategic nuclear
18 delivery systems.

19 (4) The President made this certification in a
20 message to the Senate on February 2, 2011, in
21 which the President stated, “I intend to (a) mod-
22 ernize or replace the triad of strategic nuclear deliv-
23 ery systems: a heavy bomber and air-launched cruise
24 missile, an ICBM, and a nuclear-powered ballistic
25 missile submarine (SSBN) and SLBM; and (b)

1 maintain the United States rocket motor industrial
2 base”.

3 (b) REQUIREMENTS.—

4 (1) IN GENERAL.—Chapter 23 of title 10,
5 United States Code, is amended by adding at the
6 end the following new section:

7 **“§ 491. Strategic delivery systems**

 6 Congress under section 1043 of the National Defense Au-
 7 thorization Act for Fiscal Year 2012 the following:

 11 the plan referred to in section 1251 of the National
 12 Defense Authorization Act for Fiscal Year 2010.

13 “(2) If the determination under paragraph (1)
 14 is that the lack of full funding will result in a loss
 15 of military capability—

16 “(A) a plan to preserve or retain the mili-
 17 tary capability that would otherwise be lost; or

18 “(B) a report setting forth—

19 “(i) an assessment of the impact of
 20 the lack of full funding on the strategic de-
 21 livery systems specified in subsection (a);
 22 and

23 “(ii) a description of the funding re-
 24 quired to restore or maintain the capa-
 25 bility.

1 “(3) A certification by the President whether or
 2 not the President is committed to accomplishing the
 3 modernization and replacement of strategic delivery
 4 systems and will meet the obligations concerning nu-
 5 clear modernization as set forth in declaration 12 of
 6 the Resolution of Advice and Consent to Ratification
 7 of the New START Treaty.

 9 certification under subsection (a) shall not take into ac-
 10 count the following:

11 “(1) Reductions made to ensure the safety, se-
 12 curity, reliability, and credibility of the nuclear
 13 weapons stockpile and strategic delivery systems, in-
 14 cluding activities related to surveillance, assessment,

 16 warheads and delivery systems.

17 “(2) Strategic delivery systems that are retired
 18 or awaiting dismantlement on the date of the certifi-
 19 cation under subsection (a).

20 “(d) DEFINITIONS.—In this section:

 24 Reduction and Limitation of Strategic Offensive

1 Arms, signed on April 8, 2010, and entered into
2 force on February 5, 2011.

SEC. 1083. SENSE OF CONGRESS ON NON-UNITED STATES

CITIZENS WHO ARE GRADUATES OF UNITED STATES EDUCATIONAL INSTITUTIONS WITH ADVANCED DEGREES IN SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS.

(a) FINDINGS.—Congress makes the following findings:

(1) It is a national security concern that more than half of all graduates with advanced scientific and technical degrees from United States institutions of higher education are non-United States citizens who have very limited opportunities upon graduation to contribute to the science and technology activities of the Department of Defense and the United States defense industrial base.

1 (2) The capabilities of the Armed Forces are
2 highly reliant upon advanced technologies that pro-
3 vide our forces with a technological edge on the bat-
4 tlefield.

5 (3) In order to maintain and advance our mili-
6 tary technological superiority, the United States re-
7 quires the best and brightest scientists, mathemati-
8 cians, and engineers to discover, develop, and field
9 the next generation of weapon systems and defense
10 technologies.

11 (4) The Department of Defense and the defense
12 industrial base compete with other sectors for a lim-
13 ited number of United States citizens who have ap-
14 propriate advanced degrees and skills.

15 (5) While an overarching national priority is to
16 increase the numbers of United States citizens who
17 have appropriate advanced degrees in science, tech-
18 nology, engineering, and mathematics (STEM), it
19 would be beneficial if the Department of Defense
20 and the defense industrial base were able to access
21 the pool of talent of non-United States citizens with
22 advanced scientific and technical degrees from
23 United States institutions of higher education, many
24 of whom are otherwise returning to their home coun-
25 tries.

1 (b) SENSE OF CONGRESS.—It is the sense of Con-
 2 gress—

3 (1) that the Department of Defense should
 4 make every reasonable and practical effort to in-
 5 crease the number of United States citizens who
 6 pursue advanced degrees in science, technology, en-
 7 gineering, and mathematics; and

8 (2) to strongly urge the Department of Defense
 9 to investigate innovative mechanisms (subject to all
 10 appropriate security requirements) to access to the
 11 pool of talent of non-United States citizens with ad-
 12 vanced scientific and technical degrees from United
 13 States institutions of higher education, especially in
 14 those scientific and technical areas that are most
 15 vital to the national defense (such as those identified
 16 by the Assistant Secretary of Defense for Research
 17 and Engineering and the Armed Forces).

18 **SEC. 1084. SENSE OF SENATE ON THE MAINTENANCE BY**
 19 **THE UNITED STATES OF A TRIAD OF STRA-**
 20 **TEGIC NUCLEAR DELIVERY SYSTEMS.**

21 (a) FINDINGS.—The Senate finds the following:

22 (1) The April 2010 Nuclear Posture Review
 23 concluded that even with the reductions specified in
 24 the New START Treaty, the United States should
 25 retain a nuclear “Triad” of land-based interconti-

1 mental ballistic missiles, submarine-launched ballistic
2 missiles and nuclear capable heavy bombers, noting
3 that “[r]etaining all three Triad legs will best main-
4 tain strategic stability at reasonable cost, while
5 hedging against potential technical problems or
6 vulnerabilities”.

7 (2) The resolution of ratification for the New
8 START Treaty, which the Senate approved on De-
9 cember 22, 2010, stated that “it is the sense of the
10 Senate that United States deterrence and flexibility
11 is assured by a robust triad of strategic delivery ve-
12 hicles. To this end, the United States is committed
13 to accomplishing the modernization and replacement
14 of its strategic nuclear delivery vehicles, and to en-
15 suring the continued flexibility of United States con-
16 ventional and nuclear delivery systems”.

17 (3) In a message to the Senate on February 2,
18 2011, President Obama certified that he intended to
19 “modernize or replace the triad of strategic nuclear
20 delivery systems: a heavy bomber and air-launched
21 cruise missile, an ICBM, and a nuclear-powered bal-
22 listic missile submarine (SSBN) and SLBM” and to
23 “maintain the United States rocket motor industrial
24 base”.

1 (b) SENSE OF SENATE.—It is the sense of the Senate
2 that—

3 (1) the United States should maintain a triad
4 of strategic nuclear delivery systems; and

5 (2) the United States is committed to modern-
6 izing the component weapons and delivery systems
7 of that triad.

8 **SEC. 1085. PLAN TO PARTNER WITH STATE AND LOCAL EN-**
9 **TITIES TO ADDRESS VETERANS CLAIMS**
10 **BACKLOG.**

11 (a) FINDINGS.—Congress makes the following find-
12 ings:

13 (1) The Department of Veterans Affairs defines
14 any claim for benefits under laws administered by
15 the Secretary of Veterans Affairs as backlogged if
16 the claim has been pending for 125 days or more.

17 (2) According to the Department, as of Novem-
18 ber 24, 2012, there were 899,540 pending claims,
19 with 604,583 (67.2 percent) of those considered
20 backlogged.

21 (3) The Department's data further shows that,
22 on November 22, 2010, there were 749,934 claims
23 pending, with only 244,129 (32.6 percent) of those
24 considered backlogged.

1 (4) During the past two years, both the overall
2 number of backlogged claims and the percentage of
3 all pending claims that are backlogged have doubled.

4 (5) In order to reduce the claims backlog at re-
5 gional offices of the Department of Veterans Affairs
6 located in Texas, the Texas Veterans Commission
7 announced two initiatives on July 19, 2012, to part-
8 ner with the Department of Veterans Affairs—

9 (A) to assist veterans whose claims are al-
10 ready backlogged to complete development of
11 those claims; and

12 (B) to help veterans who are filing new
13 claims to fully develop those claims prior to fil-
14 ing them, shortening the processing time re-
15 quired.

16 (6) The common goal of the two initiatives of
17 the Texas Veterans Commission, called the “Texas
18 State Strike Force Team” and the “Fully Developed
19 Claims Team Initiative”, is to reduce the backlog of
20 claims pending in Texas by 17,000 within one year.

21 (7) During the first two months of these new
22 initiatives, the Texas Veterans Commission helped
23 veterans complete development of more than 2,500
24 backlogged claims and assisted veterans with the
25 submission of more than 800 fully developed claims.

1 (8) In testimony before the Subcommittee on
2 Disability Assistance and Memorial Affairs of the
3 Committee on Veterans' Affairs of the House of
4 Representatives on September 21, 2012, Diana
5 Rubens, Deputy Under Secretary for Field Oper-
6 ations of the Veterans Benefits Administration, indi-
7 cated that the Department of Veterans Affairs has
8 experienced positive outcomes in projects with the
9 Texas Veterans Commission, stating that both Vet-
10 erans Service Organizations "and state and county
11 service officers . . . are important partners in
12 VBA's transformation to better serve Veterans."

13 (9) At the same hearing, Mr. John Limpose, di-
14 rector of the regional office of the Department of
15 Veterans Affairs in Waco, Texas, testified that the
16 "TVC is working very, very well" with regional of-
17 fices of the Department in Texas, calling the Texas
18 Veterans Commission a "very positive story that we
19 can branch out into . . . all of our stakeholders."

5 **ING AIRSPACE, AND AIR TRAINING ROUTES.**

6 It is the sense of the Senate that—

7 (1) Department of Defense airfields, training
8 airspace, and air training routes are national treas-
9 ures that must be protected from encroachment;

10 (2) placement or emplacement of obstructions
11 near or on Department of Defense airfields, training
12 airspace, or air training routes has the potential of
13 increasing risk to military aircraft and personnel as
14 well as impacting training and readiness; and

15 (3) the Department of Defense should develop
16 comprehensive rules and regulations to address con-
17 struction and use of land in close proximity to De-
18 partment of Defense airfields, training areas, or air
19 training routes to ensure compatibility with military
20 aircraft operations.

13 (4) TREATMENT OF AMOUNTS CREDITED.—
14 Amounts credited to the Fund under this subsection

17 (d) NONAVAILABILITY OF AMOUNTS IN FUND FOR
18 STORAGE, MAINTENANCE, AND RELATED COSTS.—Fol-
19 lowing the repair, overhaul, or refurbishment of defense
20 articles under the program authorized by subsection (a),

1 **SEC. 1249. PLAN FOR PROMOTING THE SECURITY OF AF-**
2 **GHAN WOMEN AND GIRLS DURING THE SECU-**
3 **RITY TRANSITION PROCESS.**

4 (a) FINDINGS.—Congress makes the following find-
5 ings:

6 (1) According to the Department of Defense’s
7 April 2012 Report on Progress Toward Security and
8 Stability in Afghanistan:

9 (A) “U.S. and coalition forces will continue
10 to degrade the Taliban-led insurgency in order
11 to provide time and space to increase the capac-
12 ity of the Afghan National Security Forces and
13 the Afghan Government so they can assume full
14 responsibility for Afghanistan’s security by the
15 end of 2014.”

16 (B) “Transition to Afghan security lead
17 began in July 2011 and transition to full Af-
18 ghan security responsibility will be complete
19 country-wide by the end of 2014.”

20 (C) “The security of the Afghan people
21 and the stability of the government are used to
22 judge provincial readiness to move to each suc-
23 cessive stage of transition implementation.”

24 (D) For each area designated for transi-
25 tion, a transition implementation plan is devel-
26 oped by the Government of Afghanistan,

1 NATO, and ISAF and approved by the Joint
 2 Afghan-NATO Inteqal Board (JANIB). JANIB
 3 is also responsible for recommending areas to
 4 enter and exit the transition process.

5 (2) According to a 2002 study on Women,
 6 Peace and Security submitted by the Secretary-Gen-
 7 eral of the United Nations pursuant to Security
 8 Council resolution 1325 (2000), “the suspension of
 9 or restriction on women’s enjoyment of their human
 10 rights” can act as an early-warning indicator of im-
 11 pending or renewed conflict. In Afghanistan, restric-
 12 tions on women’s mobility and rights can signal the
 13 presence of extremist or insurgent elements in a
 14 community.

15 (3) The security of Afghan women and girls in
 16 areas undergoing security transitions will be an im-
 17 portant gauge of the transition strategy’s success.
 18 Indicators by which to measure women’s security in-
 19 clude the mobility of women and girls, the participa-
 20 tion of women in local government bodies, the rate
 21 of school attendance for girls, women’s access to
 22 government services, and the prevalence of violence
 23 against women.

24 (4) Maintaining and improving physical security
 25 for Afghan women and girls throughout the country

1 is critical in order for women and girls to take ad-
2 vantage of opportunities in education, commerce,
3 politics, and other areas of public life, which in turn
4 is essential for the future stability and prosperity of
5 Afghanistan.

6 (5) Women who serve as public officials at all
7 levels of the Government of Afghanistan face serious
8 threats to their personal security and that of their
9 families. Many female officials have been the victims
10 of violent crimes, but they are generally not afforded
11 official protection by the Government of Afghanistan
12 or security forces.

13 (6) Protecting the security and human rights of
14 Afghan women and girls requires the involvement of
15 Afghan men and boys through education about the
16 important benefits of women's full participation in
17 social, economic, and political life. Male officials and
18 security personnel can play a particularly important
19 role in supporting and protecting women and girls.

20 (7) The Chicago Summit Declaration issued by
21 NATO in May 2012 states: "As the Afghan Na-
22 tional Police further develop and professionalize,
23 they will evolve towards a sustainable, credible, and
24 accountable civilian law enforcement force that will
25 shoulder the main responsibility for domestic secu-

1 rity. This force should be capable of providing polic-
2 ing services to the Afghan population as part of the
3 broader Afghan rule of law system.”

4 (8) Women face significant barriers to full par-
5 ticipation in the ANA and ANP, including a dis-
6 criminatory or hostile work environment and the
7 lack of separate facilities designed for female per-
8 sonnel.

9 (9) As of September 2012, female recruitment
10 and retention rates for the Afghan National Security
11 Forces are far below published targets, as follows:

12 (A) Approximately 1,700 women serve in
13 the Afghan National Security Forces, or less
14 than half of one percent of the total force.

15 (B) In 2010, President Hamid Karzai an-
16 nounced plans to recruit and train 5,000
17 women in the Afghan National Police, or ap-
18 proximately 3 percent of the force, by 2014.
19 Currently, there are approximately 1,370
20 women in the ANP, or 0.87 percent of the po-
21 lice force.

22 (C) Approximately 350 women currently
23 serve in the Afghan National Army, rep-
24 resenting only 0.17 percent of the force. The
25 Government of Afghanistan has said that its

1 goal is to achieve a force that is 10 percent fe-
2 male. As of May 2012, approximately 3 percent
3 of new ANA recruits were women.

4 (10) Male security personnel often do not re-
5 spond to threats or incidences of violence against
6 women, particularly at the local level. They largely
7 lack the training and understanding needed to re-
8 spond appropriately and effectively to situations in-
9 volving women. According to the Department of De-
10 fense's April 2012 Report on Progress Toward Secu-
11 rity and Stability in Afghanistan:

12 (A) The Afghan Ministry of Defense
13 "lacks the combination of policies, procedures,
14 and execution to promote opportunity and fair
15 and respectful treatment of women in the
16 force".

17 (B) The Afghan Ministry of Interior "faces
18 significant challenges in fully integrating and
19 protecting women in the ANP workforce, espe-
20 cially among operational units at the provincial
21 and district levels".

22 (C) In the Afghan National Police, "Many
23 Provincial Headquarters Commanders do not
24 accept policewomen, as they prefer male can-

1 didates and lack adequate facilities to support
2 females.”

3 (D) “While women are greatly needed to
4 support police operations, a combination of cul-
5 tural impediments, weak recruitment, and un-
6 even application of policies hinder significant
7 progress.”

8 (E) “Although stronger documentation,
9 implementation, and enforcement of policies,
10 procedures, and guidance to better integrate
11 women will help, time will be needed to change
12 the cultural mores that form the basis of many
13 of the current impediments.”

14 (11) The United States, the North American
15 Treaty Organization, and United States coalition
16 partners have made firm commitments to support
17 the human rights of the women and girls of Afghani-
18 stan, as evidenced by the following actions:

19 (A) According to the United States Na-
20 tional Action Plan on Women, Peace and Secu-
21 rity, “integrating women and gender consider-
22 ations into peace-building processes helps pro-
23 mote democratic governance and long-term sta-
24 bility,” which are key United States strategic
25 goals in Afghanistan.

1 (B) The National Action Plan also states
2 that “the engagement and protection of women
3 as agents of peace and stability will be central
4 to United States efforts to promote security,
5 prevent, respond to, and resolve conflict, and
6 rebuild societies.” This policy applies to United
7 States Government efforts in Afghanistan,
8 where addressing the security vulnerabilities of
9 Afghan women and girls during the period of
10 security transition is an essential step toward
11 long-term stability.

12 (C) The Chicago Summit Declaration
13 issued by NATO in May 2012 states: “We em-
14 phasize the importance of full participation of
15 all Afghan women in the reconstruction, polit-
16 ical, peace and reconciliation processes in Af-
17 ghanistan and the need to respect the institu-
18 tional arrangements protecting their rights. We
19 remain committed to the implementation of
20 United Nations Security Council Resolution
21 (UNSCR) 1325 on women, peace and security.
22 We recognize also the need for the protection of
23 children from the damaging effects of armed
24 conflict as required in relevant UNSCRs.”

1 (12) The Strategic Partnership Agreement
2 signed between the United States and Afghanistan
3 by President Obama and President Karzai in June
4 2012 states, “Consistent with its Constitution and
5 international obligations, Afghanistan shall ensure
6 and advance the essential role of women in society,
7 so that they may fully enjoy their economic, social,
8 political, civil and cultural rights.”

9 (b) PLAN TO PROMOTE SECURITY OF AFGHAN
10 WOMEN.—

11 (1) IN GENERAL.—Not later than 120 days
12 after the date of the enactment of this Act, the Sec-
13 retary of Defense, in concurrence with the Secretary
14 of State, shall submit to the appropriate congres-
15 sional committees a plan to promote the security of
16 Afghan women during the security transition proc-
17 ess.

18 (2) ELEMENTS.—The plan required under
19 paragraph (1) shall include the following elements:

20 (A) A plan to monitor and respond to
21 changes in women’s security conditions in areas
22 undergoing transition, including the following
23 actions:

24 (i) Seeking to designate a Civilian Im-
25 pact Advisor on the Joint Afghan-NATO

1 Integral Board (JANIB) to assess the im-
 2 pact of transition on male and female civil-
 3 ians and ensure that efforts to protect
 4 women's rights and security are included
 5 in each area's transition implementation
 6 plan.

7 (ii) Reviewing existing indicators
 8 against which sex-disaggregated data is
 9 collected and, if necessary, developing addi-
 10 tional indicators, to ensure the availability
 11 of data that can be used to measure wom-
 12 en's security, such as—

13 (I) the mobility of women and
 14 girls;

15 (II) the participation of women
 16 in local government bodies;

17 (III) the rate of school attend-
 18 ance for girls;

19 (IV) women's access to govern-
 20 ment services; and

21 (V) the prevalence of violence
 22 against women; and incorporating
 23 those indicators into ongoing efforts
 24 to assess overall security conditions
 25 during the transition period.

1 (iii) Integrating assessments of wom-
2 en's security into current procedures used
3 to determine an area's readiness to proceed
4 through the transition process.

5 (iv) Working with Afghan partners,
6 coalition partners, and relevant United
7 States Government departments and agen-
8 cies to take concrete action to support
9 women's rights and security in cases of de-
10 terioration in women's security conditions
11 during the transition period.

12 (B) A plan to increase gender awareness
13 and responsiveness among Afghan National
14 Army and Afghan National Police personnel, in-
15 cluding the following actions:

16 (i) Working with Afghan and coalition
17 partners to utilize training curricula and
18 programming that addresses the human
19 rights of women and girls, appropriate re-
20 sponses to threats against women and
21 girls, and appropriate behavior toward fe-
22 male colleagues and members of the com-
23 munity; assessing the quality and consist-
24 ency of this training across regional com-

1 mands; and assessing the impact of this
2 training on trainee behavior.

3 (ii) Working with national and local
4 ANA and ANP leaders to develop and uti-
5 lize enforcement and accountability mecha-
6 nisms for ANA and ANP personnel who
7 violate codes of conduct related to the
8 human rights of women and girls.

9 (iii) Working with Afghan and coal-
10 tion partners to implement the above tools
11 and develop uniform methods and stand-
12 ards for training and enforcement among
13 coalition partners and across regions.

14 (C) A plan to increase the number of fe-
15 male members of the ANA and ANP, including
16 the following actions:

17 (i) Providing, through consultation
18 with Afghan partners, realistic and achiev-
19 able objectives for the recruitment and re-
20 tention of women to the ANA and ANP by
21 the end of the security transition period in
22 2014.

23 (ii) Working with national and local
24 ANA and ANP leaders and coalition part-
25 ners to address physical and cultural chal-

1 lenges to the recruitment and retention of
2 female ANA and ANP personnel, including
3 through targeted recruitment campaigns,
4 expanded training and mentorship oppor-
5 tunities, parity in pay and promotion rates
6 with male counterparts, and availability of
7 facilities for female personnel.

8 (iii) Working with national and local
9 ANA and ANP leaders to increase under-
10 standing about the unique ways in which
11 women members of the security forces im-
12 prove the force's overall effectiveness.

13 (iv) Working with national and local
14 ANA and ANP leaders to develop a plan
15 for maintaining and increasing the recruit-
16 ment and retention of women in the ANA
17 and ANP following the completion of the
18 security transition.

19 (3) REPORT.—The Secretary of Defense shall
20 include in each report on progress toward security
21 and stability in Afghanistan that is submitted to
22 Congress under sections 1230 and 1231 of the Na-
23 tional Defense Authorization Act for Fiscal Year
24 2008 (Public Law 110–181; 122 Stat. 385, 390) a

1 section describing actions taken to implement the
2 plan required under this subsection.

3 (c) APPROPRIATE CONGRESSIONAL COMMITTEES DE-

11 **SEC. 1250. SENSE OF CONGRESS ON THE ISRAELI IRON**
12 **DOME DEFENSIVE WEAPON SYSTEM.**

13 (a) FINDINGS.—Congress makes the following find-
14 ings:

15 (1) The citizens of Israel have suffered under a
16 continual barrage of missiles, rockets, and mortar
17 shells from the Hamas-controlled Gaza Strip.

18 (2) Hamas has been designated by the Sec-
19 retary of State as a Foreign Terrorist Organization.

20 (3) Hamas and other terrorist groups in Gaza
21 have routinely used human shields and launched
22 rockets from civilian areas.

23 (4) Israel has gone to extraordinary lengths to
24 avoid Palestinian civilian casualties, including
25 aborting attacks on military targets because of the

1 presence of civilians, alerting civilians to leave areas
2 of potential conflict, and allowing the importation of
3 medical and other supplies into Gaza.

4 (5) Israel faces additional rocket and missile
5 threats from Lebanon and Syria.

6 (6) The Government of Iran has supplied
7 Hamas with advanced longer range missiles such as
8 the Fajar-5.

9 (7) Hamas has deployed these weapons to be
10 fired from within their own civilian population.

11 (8) The Government of Israel, taking seriously
12 the threat of short range rockets and mortars, de-
13 signed, developed, and produced the Iron Dome sys-
14 tem to address those threats.

15 (9) The Iron Dome system has successfully
16 intercepted hundreds of rockets targeting population
17 centers in Israel.

18 (10) The Iron Dome system has maintained a
19 success rate of close to 90 percent.

20 (11) The Government of Israel currently main-
21 tains 5 Iron Dome batteries, a number insufficient
22 to protect all of Israel.

23 (12) It appears that approximately 10 addi-
24 tional Iron Dome batteries are needed to protect all
25 of Israel.

1 (13) The United States Government, recog-
2 nizing the threat to Israeli citizens and desirous of
3 promoting peace, approved funding to assist the
4 Government of Israel in procuring Iron Dome bat-
5 teries.

6 (14) Israel maintains a significant inventory of
7 Iron Dome interceptors which has been reduced due
8 to attacks from Gaza.

9 (15) Israel used a significant number of preci-
10 sion-guided munitions in order to destroy military
11 targets while minimizing civilian casualties in its re-
12 cent defensive effort in Gaza.

13 (16) President Barack Obama has expressed
14 his intention to seek additional funding for Iron
15 Dome and other United States-Israel missile defense
16 systems.

17 (b) SENSE OF CONGRESS.—Congress—

18 (1) reaffirms its commitment to the security of
19 our ally and strategic partner, Israel;

20 (2) fully supports Israel's right to defend itself
21 against acts of terrorism;

22 (3) sympathizes with the families of Israelis
23 who have come under the indiscriminate rocket fire
24 from Hamas-controlled Gaza;

1 (4) recognizes the exceptional success of the
2 Iron Dome Missile Defense system in defending the
3 population of Israel;

4 (5) desires to help ensure that Israel has the
5 means to defend itself against terrorist attacks, in-
6 cluding through the acquisition of additional Iron
7 Dome batteries and interceptors; and

8 (6) urges the Departments of Defense and
9 State to explore with their Israeli counterparts and
10 alert Congress of any needs the Israeli Defense
11 Force may have for additional Iron Dome batteries,
12 interceptors, or other equipment depleted during the
13 current conflict.

14 **SEC. 1251. SENSE OF THE SENATE ON THE SITUATION IN**
15 **THE SENKAKU ISLANDS.**

16 It is the sense of the Senate that—

17 (1) the East China Sea is a vital part of the
18 maritime commons of Asia, including critical sea
19 lanes of communication and commerce that benefit
20 all nations of the Asia-Pacific region;

21 (2) the peaceful settlement of territorial and ju-
22 risdictional disputes in the East China Sea requires
23 the exercise of self-restraint by all parties in the con-
24 duct of activities that would complicate or escalate
25 disputes and destabilize the region, and differences

1 should be handled in a constructive manner con-
2 sistent with universally recognized principles of cus-
3 tomary international law;

4 (3) while the United States takes no position on
5 the ultimate sovereignty of the Senkaku islands, the
6 United States acknowledges the administration of
7 Japan over the Senkaku Islands;

8 (4) The unilateral action of a third party will
9 not affect the United States' acknowledgment of the
10 administration of Japan over the Senkaku Islands;

11 (5) the United States has national interests in
12 freedom of navigation, the maintenance of peace and
13 stability, respect for international law, and
14 unimpeded lawful commerce;

15 (6) the United States supports a collaborative
16 diplomatic process by claimants to resolve territorial
17 disputes without coercion, and opposes efforts at co-
18 ercion, the threat of use of force, or use of force by
19 any claimant in seeking to resolve sovereignty and
20 territorial issues in the East China Sea; and

21 (7) the United States reaffirms its commitment
22 to the Government of Japan under Article V of the
23 Treaty of Mutual Cooperation and Security that
24 “[e]ach Party recognizes that an armed attack
25 against either Party in the territories under the ad-

1 ministration of Japan would be dangerous to its own
 2 peace and safety and declares that it would act to
 3 meet the common danger in accordance with its con-
 4 stitutional provisions and processes”.

14 (c) SENSE OF CONGRESS ON INTERNATIONAL INITIA-
 15 TIVES.—It is the sense of Congress that the Department
 16 of Defense, in coordination with the Department State,
 17 should—

18 (1) conduct a review of all United States–India
 19 bilateral working groups dealing with high tech-
 20 nology transfers, including technology security and

4 the United States Government have expressed con-

23 (6) The National Iranian Tanker Company is
24 the main carrier for the Iranian Revolutionary

 3 (42 U.S.C. 15852(b)(2)) is amended by striking “geo-
 4 thermal,” and inserting “geothermal (including geo-
 5 thermal heat pumps),”.

7 **SEC. 3131. REPORT ON ACTIONS REQUIRED FOR TRANSI-**
 8 **TION OF REGULATION OF NON-NUCLEAR AC-**
 9 **TIVITIES OF THE NATIONAL NUCLEAR SECU-**
 10 **RITY ADMINISTRATION TO OTHER FEDERAL**
 11 **AGENCIES.**

12 Not later than February 28, 2013, the Secretary of
 13 Energy shall, acting through the Administrator of the Na-
 14 tional Nuclear Security Administration, submit to Con-
 15 gress a report on the actions required to transition, to the
 16 maximum extent practicable, the regulation of the non-
 17 nuclear activities of the National Nuclear Security Admin-
 18 istration to other appropriate agencies of the Federal Gov-
 19 ernment by not later than October 1, 2017.

20 **SEC. 3132. REPORT ON CONSOLIDATION OF FACILITIES OF**
 21 **THE NATIONAL NUCLEAR SECURITY ADMIN-**
 22 **ISTRATION.**

23 (a) REPORT REQUIRED.—Not later than 180 days
 24 after the date of the enactment of this Act, the Nuclear
 25 Weapons Council shall submit to the congressional defense
 26 committees a report setting forth the assessment of the

1 Council as to the feasibility of consolidating facilities and
2 functions of the National Nuclear Security Administration
3 in order to reduce costs.

4 (b) PROCESS FOR CONSOLIDATION.—If the assess-
5 ment of the Council in the report under subsection (a)
6 is that excess facilities exist and the consolidation of facili-
7 ties and functions of the Administration is feasible and
8 would reduce cost, the report shall include recommenda-
9 tions for a process to determine the manner in which the
10 consolidation should be accomplished, including an esti-
11 mate of the time to be required to complete the process.

12 (c) LIMITATION ON AVAILABILITY OF CERTAIN
13 FUNDS PENDING REPORT.—Amounts authorized to be
14 appropriated by this title and available for the facility
15 projects in the Department of Energy Readiness and
16 Technical Base designated 04–D–125 and 06–D–141 may
17 not be obligated or expended for CD–3, Start of Construc-
18 tion (as found in Department of Energy Order 413.3 B
19 Program and Project Management for the Acquisition of
20 Capital Assets,) until the submittal under subsection (a)
21 of the report required by that subsection.

22 **SEC. 3133. REGIONAL RADIOLOGICAL SECURITY ZONES.**

23 (a) FINDINGS.—Congress makes the following find-
24 ings:

1 (1) A terrorist attack using high-activity radio-
2 logical materials, such as in a dirty bomb, could in-
3 flict billions of dollars of economic costs and consid-
4 erable societal and economic dislocation, with effects
5 and costs possibly lasting for years.

6 (2) It may be easier for terrorists to obtain the
7 materials for, and to fabricate, a dirty bomb than an
8 improvised nuclear device.

9 (3) Radiological materials are in widespread use
10 worldwide, with estimates of the number of radio-
11 logical sources ranging from 100,000 to millions.

12 (4) Many nations have a security and regu-
13 latory regime for their radiological sources that is
14 much less developed than that of the United States.

15 (5) Radiological materials are used at many ci-
16 vilian sites including hospitals, industrial sites, and
17 other locations that have little security, placing these
18 materials at risk of theft.

19 (6) Many radiological materials have become
20 lost, disused, unwanted, or abandoned, with the
21 Global Threat Reduction Initiative of the National
22 Nuclear Security Administration having recovered
23 more than 30,000 radioactive sources in the United
24 States, repatriated more than 2,400 United States-
25 origin sources from other countries, and helped re-

1 cover more than 13,000 radioactive sources and ra-
2 dioisotope thermoelectric generators in other coun-
3 tries.

4 (7) High-activity radiological materials can be
5 used in a dirty bomb.

6 (b) SENSE OF CONGRESS.—It is the sense of Con-
7 gress that United States and global nonproliferation ef-
8 forts should place a high priority on programs to secure
9 high-activity radiological sources to reduce the threat of
10 radiological terrorism.

11 (c) STUDY.—

12 (1) IN GENERAL.—Not later than 180 days
13 after the date of the enactment of this Act, the Ad-
14 ministrator of the National Nuclear Security Admin-
15 istration shall submit to the appropriate committees
16 of Congress a study in accordance with paragraph
17 (3).

18 (2) CONSULTATION.—The Administrator may,
19 in conducting the study required under paragraph
20 (1), consult with the Secretary of Homeland Secu-
21 rity, the Secretary of State, the Nuclear Regulatory
22 Commission, and such other departments and agen-
23 cies of the United States Government as the Admin-
24 istrator considers appropriate.

1 (3) MATTERS INCLUDED.—The study under
2 paragraph (1) shall include the following:

3 (A) An assessment of the radioactive iso-
4 topes and associated activity levels that present
5 the greatest risk to national and international
6 security.

7 (B) A review of current United States
8 Government efforts to secure radiological mate-
9 rials abroad, including coordination with foreign
10 governments, the European Union, the Inter-
11 national Atomic Energy Agency, other inter-
12 national programs, and nongovernmental orga-
13 nizations that identify, register, secure, remove,
14 and provide for the disposition of high-risk ra-
15 diological materials worldwide.

16 (C) A review of current United States Gov-
17 ernment efforts to secure radiological materials
18 domestically at civilian sites, including hos-
19 pitals, industrial sites, and other locations.

20 (D) A definition of regional radiological se-
21 curity zones, including the subset of the mate-
22 rials of concern to be the immediate focus and
23 the security best practices required to achieve
24 that goal.

1 (E) An assessment of the feasibility, cost,
2 desirability, and added benefit of establishing
3 regional radiological security zones in high pri-
4 ority areas worldwide in order to facilitate re-
5 gional collaboration in—

6 (i) identifying and inventorying high-
7 activity radiological sources at high-risk
8 sites;

9 (ii) reviewing national level regula-
10 tions, inspections, transportation security,
11 and security upgrade options; and

12 (iii) assessing opportunities for the
13 harmonization of regulations and security
14 practices among the nations of the region.

15 (F) An assessment of the feasibility, cost,
16 desirability, and added benefit of establishing
17 remote regional monitoring centers that would
18 receive real-time data from radiological security
19 sites, would be staffed by trained personnel
20 from the countries in the region, and would
21 alert local law enforcement in the event of a po-
22 tential or actual terrorist incident or other
23 emergency.

24 (G) A list and assessment of the best prac-
25 tices used in the United States that are most

critical in enhancing domestic radiological material security and could be used to enhance radiological security worldwide.

(H) An assessment of the United States entity or entities that would be best suited to lead efforts to establish a radiological security zone program.

(I) An estimate of the costs associated with the implementation of a radiological security zone program.

(J) An assessment of the known locations outside the United States housing high-risk radiological materials in excess of 1,000 curies.

(4) FORM.—The study required under paragraph (1) shall be submitted in unclassified form, but may include a classified annex.

(d) APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this section, the term “appropriate committees of Congress” means—

(1) the Committee on Armed Services, the Committee on Homeland Security and Governmental Affairs, and the Committee on Foreign Relations of the Senate; and

(2) the Committee on Armed Services, the Committee on Homeland Security, and the Com-

1 mittee on Foreign Affairs of the House of Rep-
2 resentatives.

3 **SEC. 3134. REPORT ON LEGACY URANIUM MINES.**

4 (a) REPORT.—

5 (1) IN GENERAL.—The Secretary of Energy
6 shall undertake a review of, and prepare a report on,
7 abandoned uranium mines at which uranium ore was
8 mined for the weapons program of the United States
9 (hereinafter referred to as “legacy uranium mines”).

10 (2) MATTERS TO BE ADDRESSED.—The report
11 shall describe and analyze—

12 (A) the location of the legacy uranium
13 mines on Federal, State, tribal, and private
14 land, taking into account any existing inven-
15 tories undertaken by Federal agencies, States,
16 and Indian tribes, and any additional informa-
17 tion available to the Secretary;

18 (B) the extent to which the legacy uranium
19 mines—

20 (i) may pose a potential and signifi-
21 cant radiation health hazard to the public;

22 (ii) may pose some other threat to
23 public health and safety hazard;

24 (iii) have caused, or may cause, deg-
25 radation of water quality; and

1 (iv) have caused, or may cause, envi-
2 ronmental degradation;

3 (C) a ranking of priority by category for
4 the remediation and reclamation of the legacy
5 uranium mines;

6 (D) the potential cost and feasibility of re-
7 mediating and reclaiming, in accordance with
8 applicable Federal law, each category of legacy
9 uranium mines; and

10 (E) the status of any efforts to remediate
11 and reclaim legacy uranium mines.

12 (b) RECOMMENDATIONS.—The report shall—

13 (1) make recommendations as to how to ensure
14 most feasibly and effectively and expeditiously that
15 the public health and safety, water resources, and
16 the environment will be protected from the adverse
17 effects of legacy uranium mines; and

18 (2) make recommendations on changes, if any,
19 to Federal law to address the remediation and rec-
20 lamation of legacy uranium mines.

21 (c) CONSULTATION.—In preparing the report, the
22 Secretary of Energy shall consult with any other relevant
23 Federal agencies, affected States and Indian tribes, and
24 interested members of the public.

1 (d) REPORT TO CONGRESS.—Not later than 18
 2 months after the date of enactment of this Act, the Sec-
 3 retary of Energy shall submit to the Committee on Armed
 4 Services and the Committee on Energy and Natural Re-
 5 sources of the Senate and the appropriate Committees of
 6 the House of Representatives—

7 (1) the report; and

8 (2) the plan and timeframe of the Secretary of
 9 Energy for implementing those recommendations of
 10 the report that do not require legislation.

11 **SEC. 3135. COMPTROLLER GENERAL OF THE UNITED**
 12 **STATES REVIEW OF PROJECTS CARRIED OUT**
 13 **BY OFFICE OF ENVIRONMENTAL MANAGE-**
 14 **MENT OF THE DEPARTMENT OF ENERGY**
 15 **PURSUANT TO THE AMERICAN RECOVERY**
 16 **AND REINVESTMENT ACT OF 2009.**

17 Section 3134 of the National Defense Authorization
 18 Act for Fiscal Year 2010 (Public Law 111–84; 123 Stat.
 19 2713) is amended—

20 (1) in subsection (c)—

21 (A) in paragraph (1), by striking “The
 22 Comptroller General shall conduct a review dur-
 23 ing the period described in paragraph (2), of
 24 the following:” and inserting “Beginning on the
 25 date of the submittal of the report required

1 under subsection (b)(2), the Comptroller Gen-
2 eral shall conduct a review of the following:”;

3 (B) by striking paragraph (2);

4 (C) by redesignating paragraph (3) as
5 paragraph (2); and

6 (D) in paragraph (2), as redesignated by
7 subparagraph (C), by striking “the end of the
8 period described in paragraph (2)” and insert-
9 ing “August 30, 2012”; and
10 (2) in subsection (d)—

11 (A) in paragraph (1), by striking “Begin-
12 ning on the date on which the Comptroller Gen-
13 eral submits the last report required under sub-
14 section (c)(3), the Comptroller General shall
15 conduct a review of the following:” and insert-
16 ing “Following the submittal of the final report
17 required under subsection (c)(2), the Comp-
18 troller General shall conduct a review of the fol-
19 lowing:”; and

20 (B) in paragraph (2), by striking “Not
21 later than 90 days after submitting the last re-
22 port required under subsection (c)(3)” and in-
23 serting “Within seven months after receiving
24 notification that all American Recovery and Re-

1 investment Act funds have been expended, but
2 not later than April 30, 2016”.

3 **Subtitle D—Other Matters**

4 **SEC. 3141. SENSE OF CONGRESS ON OVERSIGHT OF THE**
5 **NUCLEAR SECURITY ENTERPRISE.**

6 (a) FINDINGS.—Congress makes the following find-
7 ings:

8 (1) In 2000, the National Nuclear Security Ad-
9 ministration was established as an independent enti-
10 ty within the Department of Energy to manage and
11 secure the nuclear weapons stockpile of the United
12 States and to manage nuclear nonproliferation and
13 naval reactor programs.

14 (2) Serious security and health incidents con-
15 tinue to occur at sites of the National Nuclear Secu-
16 rity Administration.

17 (3) In September 2012, an official of the Gov-
18 ernment Accountability Office testified to Congress
19 that lax laboratory attitudes toward safety proce-
20 dures, laboratory inadequacies in identifying and ad-
21 dressing safety problems with appropriate corrective
22 actions, and inadequate oversight by site offices of
23 the National Nuclear Security Administration were
24 responsible for nearly 100 safety incidents since
25 2000.

1 (4) On July 28, 2012, three unarmed individ-
2 uals compromised security at the Y-12 National Se-
3 curity Complex in Oak Ridge, Tennessee, and ac-
4 cording to the Government Accountability Office,
5 “gained access to the protected security area directly
6 adjacent to one of the nation’s most critically impor-
7 tant nuclear weapons-related facilities”.

8 (5) In June 2006, hackers attacked an unclassi-
9 fied computer system at the National Nuclear Secu-
10 rity Administration’s Service Center in Albuquerque,
11 New Mexico, and gained access to a file containing
12 the names and social security numbers of more than
13 1,500 employees of the National Nuclear Security
14 Administration.

15 (6) As early as February 2005, the Inspector
16 General of the Department of Energy identified
17 problems with the retrieval of badges from termi-
18 nated employees at Los Alamos National Laboratory
19 and other sites of the National Nuclear Security Ad-
20 ministration.

21 (7) In 2004, a pattern of safety and security in-
22 cidents that occurred over the course of a year
23 prompted the stand-down of Los Alamos National
24 Laboratory.

1 (8) The National Nuclear Security Administra-
2 tion, independent of the safety and security reform
3 efforts of the Department of Energy, has launched
4 an overhaul of its contracting oversight, placing an
5 emphasis on contractor self-policing through an un-
6 tested “contractor assurance” approach.

7 (9) The Government Accountability Office has
8 given the contractor administration and project
9 management capabilities of the National Nuclear Se-
10 curity Administration a “high risk” designation and
11 found there to be insufficient qualified Federal ac-
12 quisition professionals to “plan, direct, and oversee
13 project execution”.

14 (b) SENSE OF CONGRESS.—It is the sense of Con-
15 gress that—

16 (1) there is a need for strong, independent over-
17 sight of the United States nuclear security enter-
18 prise;

19 (2) any attempt to reform oversight of the nu-
20 clear security enterprise that transfers oversight
21 from the Department of Energy to the National Nu-
22 clear Security Administration, reduces protections
23 for worker health and safety at facilities of the Na-
24 tional Nuclear Security Administration to levels
25 below the standards of the Department of Energy,

1 or transfers construction appropriations for the nu-
2 clear security enterprise from the Department of
3 Energy appropriation account to the military con-
4 struction appropriation account, should be carefully
5 evaluated;

6 (3) the Office of Health, Safety, and Security
7 of the Department of Energy, which reports to the
8 Secretary of Energy but is also accountable for rou-
9 tinely reporting to Congress on the performance with
10 respect to safety and security of the Department, in-
11 cluding the National Nuclear Security Administra-
12 tion, and the role of that Office in overseeing safety
13 and security at the National Nuclear Security Ad-
14 ministration, should not be diminished but should be
15 routinely evaluated;

16 (4) any future modifications to the management
17 or structure of the nuclear security enterprise should
18 be done in a way that maintains or increases over-
19 sight of critical construction, security, and acquisi-
20 tion capabilities;

21 (5) to the extent possible, oversight of programs
22 of the National Nuclear Security Administration by
23 the Department of Defense should increase to en-
24 sure current and future warfighting requirements
25 are met; and

(6) the Nuclear Weapons Council should provide proper oversight in the execution of its responsibilities under section 179 of title 10, United States Code.

Subtitle E—American Medical Isotopes Production

(4) SECRETARY.—The term “Secretary” means the Secretary of Energy.

SEC. 3153. IMPROVING THE RELIABILITY OF DOMESTIC MEDICAL ISOTOPE SUPPLY.

(a) MEDICAL ISOTOPE DEVELOPMENT PROJECTS.—

1 (1) IN GENERAL.—The Secretary shall carry
2 out a technology-neutral program—

3 (A) to evaluate and support projects for
4 the production in the United States, without
5 the use of highly enriched uranium, of signifi-
6 cant quantities of molybdenum-99 for medical
7 uses;

8 (B) to be carried out in cooperation with
9 non-Federal entities; and

10 (C) the costs of which shall be shared in
11 accordance with section 988 of the Energy Pol-
12 icy Act of 2005 (42 U.S.C. 16352).

13 (2) CRITERIA.—Projects shall be judged against
14 the following primary criteria:

15 (A) The length of time necessary for the
16 proposed project to begin production of molyb-
17 denum-99 for medical uses within the United
18 States.

19 (B) The capability of the proposed project
20 to produce a significant percentage of United
21 States demand for molybdenum-99 for medical
22 uses.

23 (C) The cost of the proposed project.

24 (3) EXEMPTION.—An existing reactor in the
25 United States fueled with highly enriched uranium

1 shall not be disqualified from the program if the
2 Secretary determines that—

3 (A) there is no alternative nuclear reactor
4 fuel, enriched in the isotope U-235 to less than
5 20 percent, that can be used in that reactor;

6 (B) the reactor operator has provided as-
7 surances that, whenever an alternative nuclear
8 reactor fuel, enriched in the isotope U-235 to
9 less than 20 percent, can be used in that reac-
10 tor, it will use that alternative in lieu of highly
11 enriched uranium; and

12 (C) the reactor operator has provided a
13 current report on the status of its efforts to
14 convert the reactor to an alternative nuclear re-
15 actor fuel enriched in the isotope U-235 to less
16 than 20 percent, and an anticipated schedule
17 for completion of conversion.

18 (4) PUBLIC PARTICIPATION AND REVIEW.—The
19 Secretary shall—

20 (A) develop a program plan and annually
21 update the program plan through public work-
22 shops; and

23 (B) use the Nuclear Science Advisory
24 Committee to conduct annual reviews of the
25 progress made in achieving the program goals.

1 (b) DEVELOPMENT ASSISTANCE.—The Secretary
2 shall carry out a program to provide assistance for—

3 (1) the development of fuels, targets, and proc-
4 esses for domestic molybdenum-99 production that
5 do not use highly enriched uranium; and

6 (2) commercial operations using the fuels, tar-
7 gets, and processes described in paragraph (1).

8 (c) URANIUM LEASE AND TAKE-BACK.—

9 (1) IN GENERAL.—The Secretary shall establish
10 a program to make low-enriched uranium available,
11 through lease contracts, for irradiation for the pro-
12 duction of molybdenum-99 for medical uses.

13 (2) TITLE.—The lease contracts shall provide
14 for the producers of the molybdenum-99 to take title
15 to and be responsible for the molybdenum-99 created
16 by the irradiation, processing, or purification of ura-
17 nium leased under this section.

18 (3) DUTIES.—

19 (A) SECRETARY.—The lease contracts
20 shall require the Secretary—

21 (i) to retain responsibility for the final
22 disposition of spent nuclear fuel created by
23 the irradiation, processing, or purification
24 of uranium leased under this section for
25 the production of medical isotopes; and

1 (ii) to take title to and be responsible
2 for the final disposition of radioactive
3 waste created by the irradiation, proc-
4 essing, or purification of uranium leased
5 under this section for which the Secretary
6 determines the producer does not have ac-
7 cess to a disposal path.

8 (B) PRODUCER.—The producer of the
9 spent nuclear fuel and radioactive waste shall
10 accurately characterize, appropriately package,
11 and transport the spent nuclear fuel and radio-
12 active waste prior to acceptance by the Depart-
13 ment.

14 (4) COMPENSATION.—

15 (A) IN GENERAL.—Subject to subpara-
16 graph (B), the lease contracts shall provide for
17 compensation in cash amounts equivalent to
18 prevailing market rates for the sale of com-
19 parable uranium products and for compensation
20 in cash amounts equivalent to the net present
21 value of the cost to the Federal Government
22 for—

23 (i) the final disposition of spent nu-
24 clear fuel and radioactive waste for which

1 the Department is responsible under para-
2 graph (3); and

3 (ii) other costs associated with car-
4 rying out the uranium lease and take-back
5 program authorized by this subsection.

6 (B) DISCOUNT RATE.—The discount rate
7 used to determine the net present value of costs
8 described in subparagraph (A)(ii) shall be not
9 greater than the average interest rate on mar-
10 ketable Treasury securities.

11 (5) AUTHORIZED USE OF FUNDS.—The Sec-
12 retary may obligate and expend funds received under
13 leases entered into under this subsection, which shall
14 remain available until expended, for the purpose of
15 carrying out the activities authorized by this sub-
16 title, including activities related to the final disposi-
17 tion of spent nuclear fuel and radioactive waste for
18 which the Department is responsible under para-
19 graph (3).

20 (6) EXCHANGE OF URANIUM FOR SERVICES.—
21 The Secretary shall not barter or otherwise sell or
22 transfer uranium in any form in exchange for—

23 (A) services related to the final disposition
24 of the spent nuclear fuel and radioactive waste

1 for which the Department is responsible under
2 paragraph (3); or

3 (B) any other services associated with car-
4 rying out the uranium lease and take-back pro-
5 gram authorized by this subsection.

6 (d) COORDINATION OF ENVIRONMENTAL RE-
7 VIEWS.—The Department and the Nuclear Regulatory
8 Commission shall ensure to the maximum extent prac-
9 ticable that environmental reviews for the production of
10 the medical isotopes shall complement and not duplicate
11 each review.

12 (e) OPERATIONAL DATE.—The Secretary shall estab-
13 lish a program as described in subsection (c)(3) not later
14 than 3 years after the date of enactment of this Act.

15 (f) RADIOACTIVE WASTE.—Notwithstanding section
16 2 of the Nuclear Waste Policy Act of 1982 (42 U.S.C.
17 10101), radioactive material resulting from the production
18 of medical isotopes that has been permanently removed
19 from a reactor or subcritical assembly and for which there
20 is no further use shall be considered low-level radioactive
21 waste if the material is acceptable under Federal require-
22 ments for disposal as low-level radioactive waste.

1 **SEC. 3154. EXPORTS.**

2 Section 134 of the Atomic Energy Act of 1954 (42
3 U.S.C. 2160d) is amended by striking subsection c. and
4 inserting the following:

5 “c. Effective 7 years after the date of enactment of
6 the American Medical Isotopes Production Act of 2012,
7 the Commission may not issue a license for the export of
8 highly enriched uranium from the United States for the
9 purposes of medical isotope production.

10 “d. The period referred to in subsection b. may be
11 extended for no more than 6 years if, no earlier than 6
12 years after the date of enactment of the American Medical
13 Isotopes Production Act of 2012, the Secretary of Energy
14 certifies to the Committee on Energy and Commerce of
15 the House of Representatives and the Committee on En-
16 ergy and Natural Resources of the Senate that—

17 “(1) there is insufficient global supply of molyb-
18 denum-99 produced without the use of highly en-
19 riched uranium available to satisfy the domestic
20 United States market; and

21 “(2) the export of United States-origin highly
22 enriched uranium for the purposes of medical iso-
23 tope production is the most effective temporary
24 means to increase the supply of molybdenum-99 to
25 the domestic United States market.

1 “e. To ensure public review and comment, the devel-
2 opment of the certification described in subsection c. shall
3 be carried out through announcement in the Federal Reg-
4 ister.

5 “f. At any time after the restriction of export licenses
6 provided for in subsection b. becomes effective, if there
7 is a critical shortage in the supply of molybdenum-99
8 available to satisfy the domestic United States medical iso-
9 tope needs, the restriction of export licenses may be sus-
10 pended for a period of no more than 12 months, if—

11 “(1) the Secretary of Energy certifies to the
12 Congress that the export of United States-origin
13 highly enriched uranium for the purposes of medical
14 isotope production is the only effective temporary
15 means to increase the supply of molybdenum-99 nec-
16 essary to meet United States medical isotope needs
17 during that period; and

18 “(2) the Congress enacts a Joint Resolution ap-
19 proving the temporary suspension of the restriction
20 of export licenses.

21 “g. As used in this section—

22 “(1) the term ‘alternative nuclear reactor fuel
23 or target’ means a nuclear reactor fuel or target
24 which is enriched to less than 20 percent in the iso-
25 tope U-235;

1 “(2) the term ‘highly enriched uranium’ means
2 uranium enriched to 20 percent or more in the iso-
3 tope U-235;

4 “(3) a fuel or target ‘can be used’ in a nuclear
5 research or test reactor if—

6 “(A) the fuel or target has been qualified
7 by the Reduced Enrichment Research and Test
8 Reactor Program of the Department of Energy;
9 and

10 “(B) use of the fuel or target will permit
11 the large majority of ongoing and planned ex-
12 periments and medical isotope production to be
13 conducted in the reactor without a large per-
14 centage increase in the total cost of operating
15 the reactor; and

3 **DIVISION F—STOLEN VALOR ACT**

4 **TITLE LI—STOLEN VALOR ACT**

5 **SEC. 5011. SHORT TITLE.**

6 This division may be cited as the “Stolen Valor Act
7 of 2012”.

8 **SEC. 5012. FINDINGS.**

9 Congress find the following:

10 (1) Because of the great respect in which mili-
11 tary service and military awards are rightfully held
12 by the public, false claims of receiving such medals
13 or serving in the military are especially likely to be
14 harmful and material to employers, voters in decid-
15 ing to whom paid elective positions should be en-
16 trusted, and in the award of contracts.

17 (2) Military service and military awards are
18 held in such great respect that public and private
19 decisions are correctly influenced by claims of her-
20 oism.

21 (3) False claims of military service or military
22 heroism are an especially noxious means of obtaining
23 something of value because they are particularly
24 likely to cause tangible harm to victims of fraud.

1 (4) False claims of military service or the re-
2 ceipt of military awards, if believed, are especially
3 likely to dispose people favorably toward the speak-
4 er.

5 (5) False claims of military service or the re-
6 ceipt of military awards are particularly likely to be
7 material and cause people to part with money or
8 property. Even if such claims are unsuccessful in
9 bringing about this result, they still constitute at-
10 tempted fraud.

11 (6) False claims of military service or the re-
12 ceipt of military awards that are made to secure ap-
13 pointment to the board of an organization are likely
14 to cause harm to such organization through their ob-
15 taining the services of an individual who does not
16 bring to that organization what he or she claims,
17 and whose falsehood, if discovered, would cause the
18 organization's donors concern that the organization's
19 board might not manage money honestly.

20 (7) The easily verifiable nature of false claims
21 regarding military service or the receipt of military
22 awards, the relative infrequency of such claims, and
23 the fact that false claims of having served in the
24 military or received such awards are rightfully con-
25 demned across the political spectrum, it is especially

1 likely that any law prohibiting such false claims
2 would not be enforced selectively.

3 (8) Congress may make criminal the false claim
4 of military service or the receipt of military awards
5 based on its powers under article I, section 8, clause
6 2 of the Constitution of the United States, to raise
7 and support armies, and article I, section 8, clause
8 18 of the Constitution of the United States, to enact
9 necessary and proper measures to carry into execu-
10 tion that power.

11 **SEC. 5013. MILITARY MEDALS OR DECORATIONS.**

12 Section 704 of title 18, United States Code, is
13 amended to read as follows:

14 **“§ 704. Military medals or decorations**

15 “(a) IN GENERAL.—Whoever knowingly purchases,
16 attempts to purchase, solicits for purchase, mails, ships,
17 imports, exports, produces blank certificates of receipt for,
18 manufactures, sells, attempts to sell, advertises for sale,
19 trades, barter, or exchanges for anything of value any
20 decoration or medal authorized by Congress for the Armed
21 Forces of the United States, or any of the service medals
22 or badges awarded to the members of such forces, or the
23 ribbon, button, or rosette of any such badge, decoration,
24 or medal, or any colorable imitation thereof, except when
25 authorized under regulations made pursuant to law, shall

1 be fined under this title, imprisoned for not more than
2 6 months, or both.

3 “(b) FALSE CLAIMS TO THE RECEIPT OF MILITARY
4 DECORATIONS, MEDALS, OR RIBBONS AND FALSE
5 CLAIMS RELATING TO MILITARY SERVICE IN ORDER TO
6 SECURE A TANGIBLE BENEFIT OR PERSONAL GAIN.—

7 “(1) IN GENERAL.—Whoever, with the intent of
8 securing a tangible benefit or personal gain, know-
9 ingly, falsely, and materially represents himself or
10 herself through any written or oral communication
11 (including a resume) to have served in the Armed
12 Forces of the United States or to have been awarded
13 any decoration, medal, ribbon, or other device au-
14 thorized by Congress or pursuant to Federal law for
15 the Armed Forces of the United States, shall be
16 fined under this title, imprisoned for not more than
17 6 months, or both.

18 “(2) TANGIBLE BENEFIT OR PERSONAL GAIN.—
19 For purposes of this subsection, the term ‘tangible
20 benefit or personal gain’ includes—

21 “(A) a benefit relating to military service
22 provided by the Federal Government or a State
23 or local government;

24 “(B) public or private employment;

25 “(C) financial remuneration;

1 “(D) an effect on the outcome of a crimi-
2 nal or civil court proceeding;

3 “(E) election of the speaker to paying of-
4 fice; and

5 “(F) appointment to a board or leadership
6 position of a non-profit organization.

7 “(c) DEFINITION.—In this section, the term ‘Armed
8 Forces of the United States’ means the Army, Navy, Air
9 Force, Marine Corps, and Coast Guard, including the re-
10 serve components named in section 10101 of title 10.”.

11 **SEC. 5014. SEVERABILITY.**

12 If any provision of this division, any amendment
13 made by this division, or the application of such provision
14 or amendment to any person or circumstance is held to
15 be unconstitutional, the remainder of the provisions of this
16 division, the amendments made by this division, and the
17 application of such provisions or amendments to any per-
18 son or circumstance shall not be affected.

22 **Subtitle C—Sense of Congress**
 23 **Regarding Spectrum**

24 **SEC. 5317. SENSE OF CONGRESS REGARDING SPECTRUM.**

25 It is the sense of Congress that—

1 (1) the Nation's mobile communications indus-
2 try is a significant economic engine, by one estimate
3 directly or indirectly supporting 3,800,000 jobs, or
4 2.6 percent of all United States employment, con-
5 tributing \$195,500,000,000 to the United States
6 gross domestic product and driving \$33,000,000,000
7 in productivity improvements in 2011;

8 (2) while wireless carriers are continually imple-
9 menting new and more efficient technologies and
10 techniques to maximize their existing spectrum ca-
11 pacity, there is a pressing need for additional spec-
12 trum for mobile broadband services, with one report
13 predicting that global mobile data traffic will in-
14 crease 18-fold between 2011 and 2016 at a com-
15 pound annual growth rate of 78 percent, reaching
16 10.8 exabytes per month by 2016;

17 (3) as the Nation faces the growing demand for
18 spectrum, consideration should be given to both the
19 supply of spectrum for licensed networks and for un-
20 licensed devices;

21 (4) while this additional demand can be met in
22 part by reallocating spectrum from existing non-gov-
23 ernmental uses, the long-term solution must include
24 reallocation and sharing of Federal Government
25 spectrum for private sector use;

1 (5) recognizing the important uses of spectrum
2 by the Federal Government, including for national
3 and homeland security, law enforcement and other
4 critical federal uses, existing law ensures that Fed-
5 eral operations are not harmed as a result of a re-
6 allocation of spectrum for commercial use, including
7 through the establishment of the Spectrum Reloca-
8 tion Fund to reimburse Federal users for the costs
9 of planning and implementing relocation and sharing
10 arrangements and, with respect to spectrum vacated
11 by the Department of Defense, certification under
12 section 1062 of P.L. 106–65 by the Secretaries of
13 Defense and Commerce and the Chairman of the
14 Joint Chiefs of Staff that replacement spectrum pro-
15 vides comparable technical characteristics to restore
16 essential military capability; and

17 (6) given the need to determine equitable out-
18 comes for the Nation in relation to spectrum use
19 that balance the private sector’s demand for spec-
