(6) be implemented for a period of seven consecutive calendar years.

(b) MANAGEMENT.—The management of the pilot program shall be the joint responsibility of the Commissioner and the districts. Such parties shall work collaboratively to insure the performance of the pilot program, and shall discuss and agree upon, among other things, changes in the structure, management, personnel, tech-

the pilot program.

(c) CONDUCT.—

(1) IN GENERAL.—At the election of the dis-

own personnel, qualified private contractors hired by

the districts, personnel of, on loan to, or otherwise

assigned to the Bureau of Reclamation, or a com-

bination thereof.

(2) PARTICIPATION BY THE BUREAU OF RECL-

LAMATION.—In the event the districts elect to con-

duct the program using their own personnel or quali-

fied private contractors hired by them, the Commis-

sioner has the option to assign an employee of, on

loan to, or otherwise assigned to the Bureau of Recl-

lamation, to be present for all activities performed in

the field. Such presence shall insure compliance with

the agreed upon elements specified in subsection (b).

The districts shall pay 100 percent of the cost of

such participation as specified in subsection (d).

If an amount equal to the estimate is not provided to the reclamation fund identified in section 3 of the Act of February 21, 1911 (43 U.S.C. 525), or any other fund as directed by the Commissioner, by the districts on or before December 31 of each year, (a) the Bureau of Reclamation shall have no obligation to conduct the pilot program activities otherwise scheduled, and (b) the districts shall be prohibited from conducting any aspect of the pilot program, until full payment is made by the districts.

If the estimate paid by the districts was less than the actual costs incurred by the Bureau of Reclamation, the districts shall have
until September 30 of that calendar year to pay the
difference to the reclamation fund. If the estimate
paid by the districts was greater than the actual
costs incurred by the Bureau of Reclamation, then
a credit shall be provided to the districts, which shall
be deducted from the estimate payment the districts
must make for the work performed by the Bureau
of Reclamation, if any, in the next calendar year.

(e) REPORTING AND EVALUATION.—

(1) IN GENERAL.—On or before the 15th day
of each month, the Commissioner shall post on the
website of the Bureau of Reclamation a tabular
summary of the raw data collected in the prior
month.

(2) REPORT.—On or before June 30 of the cal-
endar year following the completion of the program,
the Commissioner and districts shall jointly publish
a peer reviewed report that—

(h) Restrictions.—Any restriction imposed under 
California law on the catch, take, or harvest of any non-
native or introduced aquatic or terrestrial species that

The Secretary shall thereafter make all reasonable efforts to make available additional rescheduled water; provided, that such efforts shall not interfere with the Central Valley Project operations in the contract year into which Central Valley Project has been rescheduled.

TITLE III—REPAYMENT CON-
TRACTS AND ACCELERATION
OF REPAYMENT OF CON-
STRUCTION COSTS

SEC. 301. REPAYMENT CONTRACTS AND ACCELERATION OF
 REPAYMENT OF CONSTRUCTION COSTS.

   (a) Conversion of Contracts.—
(1) Not later than 1 year after enactment, the Secretary of the Interior, upon request of the contractor, shall convert all existing long-term Central Valley Project contracts entered under subsection (e) of section 9 of the Act of August 4, 1939 (53 Stat. 1196), to a contract under subsection (d) of section 9 of said Act (53 Stat. 1195), under mutually agreeable terms and conditions.

(2) Upon request of the contractor, the Secretary is further authorized to convert, not later than 1 year after enactment, any Central Valley Project long-term contract entered under subsection (e)(2) of section 9 of the Act of August 4, 1939 (53 Stat. 1194), to a contract under subsection (c)(1) of section 9 of said Act, under mutually agreeable terms and conditions.

(3) All contracts entered into pursuant to paragraph (1) shall—

(A) require the repayment, either in lump sum or by accelerated prepayment, of the remaining amount of construction costs identified in the most current version of the Central Valley Project Schedule of Irrigation Capital Allocations by Contractor, as adjusted to reflect payments not reflected in such schedule, and
properly assignable for ultimate return by the contractor, no later than January 31, 2015, or if made in approximately equal annual installments, no later than January 31, 2018; such amount to be discounted by the Treasury Rate. An estimate of the remaining amount of construction costs as of January 31, 2015, as adjusted, shall be provided by the Secretary of the Interior to each contractor no later than 180 days after enactment;

(B) require that, notwithstanding subsection (c)(2), construction costs or other capitalized costs incurred after the effective date of the converted contract or not reflected in the schedule referenced in subparagraph (A), and properly assignable to such contractor, shall be repaid in not more than 5 years after notification of the allocation if such amount is a result of a collective annual allocation of capital costs to the contractors exercising contract conversions under this subsection of less than $5,000,000. If such amount is $5,000,000 or greater, such cost shall be repaid as provided by applicable reclamation law, provided that the
reference to the amount of $5,000,000 shall not be a precedent in any other context; and

(C) provide that power revenues will not be available to aid in repayment of construction costs allocated to irrigation under the contract.

(4) All contracts entered into pursuant to paragraph (2) shall—

(A) require the repayment in lump sum of the remaining amount of construction costs identified in the most current version of the Central Valley Project Schedule of Municipal and Industrial Water Rates, as adjusted to reflect payments not reflected in such schedule, and properly assignable for ultimate return by the contractor, no later than January 31, 2018. An estimate of the remaining amount of construction costs as of January 31, 2018, as adjusted, shall be provided by the Secretary of the Interior to each contractor no later than 180 days after enactment; and

(B) require that, notwithstanding subsection (c)(2), construction costs or other capitalized costs incurred after the effective date of the contract or not reflected in the schedule referenced in subparagraph (A), and properly as-
signable to such contractor, shall be repaid in not more than 5 years after notification of the allocation if such amount is a result of a collective annual allocation of capital costs to the contractors exercising contract conversions under this subsection of less than $5,000,000.

If such amount is $5,000,000 or greater, such cost shall be repaid as provided by applicable reclamation law, provided that the reference to the amount of $5,000,000 shall not be a precedent in any other context.

(b) FINAL ADJUSTMENT.—The amounts paid pursuant to subsection (a) shall be subject to adjustment following a final cost allocation by the Secretary of the Interior upon completion of the construction of the Central Valley Project. In the event that the final cost allocation indicates that the costs properly assignable to the contractor are greater than what has been paid by the contractor, the contractor shall be obligated to pay the remaining allocated costs. The term of such additional repayment contract shall be no less than 1 year and no more than 10 years, however, mutually agreeable provisions regarding the rate of repayment of such amount may be developed by the parties. In the event that the final cost allocation indicates that the costs properly assignable to the
contractor are less than what the contractor has paid, the
Secretary of the Interior is authorized and directed to
credit such overpayment as an offset against any out-
standing or future obligation of the contractor.

(c) APPLICABILITY OF CERTAIN PROVISIONS.—

(1) Notwithstanding any repayment obligation
under subsection (a)(3)(B) or subsection (b), upon a
contractor’s compliance with and discharge of the
obligation of repayment of the construction costs as
provided in subsection (a)(3)(A), the ownership and
full-cost pricing limitations of any provision of Fed-
eral reclamation law shall not apply to lands in such
district.

(2) Notwithstanding any repayment obligation
under paragraph (3)(B) or paragraph (4)(B) of sub-
section (a), or subsection (b), upon a contractor’s
compliance with and discharge of the obligation of
repayment of the construction costs as provided in
paragraphs (3)(A) and (4)(A) of subsection (a), such
contractor shall continue to pay applicable operation
and maintenance costs and other charges applicable
to such repayment contracts pursuant to the then-
current rate-setting policy and applicable law.

(d) CERTAIN REPAYMENT OBLIGATIONS NOT AL-
terred.—Implementation of the provisions of this section
shall not alter the repayment obligation of any other long-
term water service or repayment contractor receiving
water from the Central Valley Project, or shift any costs
that would otherwise have been properly assignable to any
contractors absent this section, including operations and
maintenance costs, construction costs, or other capitalized
costs incurred after the date of enactment of this Act, to
other such contractors.

(e) STATUTORY INTERPRETATION.—Nothing in this

of this section, “Treasury Rate” shall be defined as the

TITLE IV—BAY-DELTA WATERSHED WATER RIGHTS PRESERVATION AND PROTECTION

SEC. 401. WATER RIGHTS AND AREA-OF-ORIGIN PROTECTIONS.

Notwithstanding the provisions of this Act, Federal reclamation law, or the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.)—

(1) the Secretary of the Interior ("Secretary") is directed, in the operation of the Central Valley Project, to strictly adhere to State water rights law governing water rights priorities by honoring water rights senior to those belonging to the Central Valley Project, regardless of the source of priority;

(2) the Secretary is directed, in the operation of the Central Valley Project, to strictly adhere to and honor water rights and other priorities that are obtained or exist pursuant to the provisions of California Water Code sections 10505, 10505:5, 11128, 11460, and 11463; and sections 12200 to 12220, inclusive; and

(3) any action that affects the diversion of water or involves the release of water from any Central Valley Project water storage facility taken by the Secretary or the Secretary of the Department of
Commerce to conserve, enhance, recover, or otherwise protect any species listed under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) shall be applied in a manner that is consistent with water right priorities established by State law.

SEC. 402. SACRAMENTO RIVER SETTLEMENT CONTRACTS.

In the implementation of the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), in the Bay-Delta and on the Sacramento River, the Secretary and the Secretary of Commerce are directed to apply any limitations on the operation of the Central Valley Project or to formulate any “reasonable prudent alternative” associated with the operation of the Central Valley Project in a manner that strictly adheres to and applies the water rights priorities for “Project Water” and “Base Supply” provided for in the Sacramento River Settlement Contracts. Article 3(i) of the Sacramento River Settlement Contracts shall not be utilized by the United States as means to provide shortages to the Sacramento River Settlement Contracts that are different than those provided for in Article 5(a) of those contracts.

SEC. 403. SACRAMENTO RIVER WATERSHED WATER SERVICE CONTRACTORS.

(a) IN GENERAL.—Subject to subsection (b) and the absolute priority of the Sacramento River Settlement Con-
tractors to Sacramento River supplies over Central Valley Project diversions and deliveries to other contractors, the Secretary is directed, in the operation of the Central Valley Project, to allocate water provided for irrigation purposes to existing Central Valley Project agricultural water service contractors within the Sacramento River Watershed in compliance with the following:

(1) Not less than 100% of their contract quantities in a “Wet” year.

(2) Not less than 100% of their contract quantities in an “Above Normal” year.

(3) Not less than 100% of their contract quantities in a “Below Normal” year.

(4) Not less than 75% of their contract quantities in a “Dry” year.

(5) Not less than 50% of their contract quantities in a “Critically Dry” year.

(b) Protection of Municipal and Industrial Supplies.—Nothing in subsection (a) shall be deemed to modify any provision of a water service contract that addresses municipal and industrial water shortage policies of the Secretary, (ii) affect or limit the authority of the Secretary to adopt or modify municipal and industrial water shortage policies, (iii) affect or limit the authority of the Secretary to implement municipal and industrial
water shortage policies, or (iv) affect allocations to Central Valley Project municipal and industrial contractors pursuant to such policies. Neither subsection (a) nor the Secretary’s implementation of subsection (a) shall constrain, govern or affect, directly or indirectly, the operations of the Central Valley Project’s American River Division or any deliveries from that Division, its units or its facilities.

(c) DEFINITIONS.—In this section:

(1) The term “existing Central Valley Project agricultural water service contractors within the Sacramento River Watershed” means water service contractors within the Shasta, Trinity, and Sacramento River Divisions of the Central Valley Project, that have a water service contract in effect, on the date of the enactment of this section, that provides water for irrigation.

(2) The year type terms used in subsection (a) have the meaning given those year types in the Sacramento Valley Water Year Type (40–30–30) Index.

SEC. 404. NO REDIRECTED ADVERSE IMPACTS.

The Secretary shall insure that there are no redirected adverse water supply or fiscal impacts to those within the Sacramento River or San Joaquin River watershed or to the State Water Project arising from the Secretary’s operation of the Central Valley Project to meet
legal obligations imposed by or through any State or Federal agency, including, but not limited to those legal obligations emanating from the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) or this Act, or actions or activities implemented to meet the twin goals of improving water supply or addressing environmental needs of the Bay Delta.

**TITLE V—MISCELLANEOUS**

**SEC. 501. PRECEDENT.**

Congress finds and declares that—

(1) coordinated operations between the Central Valley Project and the State Water Project, previously requested and consented to by the State of California and the Federal Government, require assertion of Federal supremacy to protect existing water rights throughout the system; and

Therefore, nothing in this Act shall serve as precedent in any other State.

**SEC. 502. NO EFFECT ON PROCLAMATION OF STATE OF EMERGENCY.**

January 17, 2014, or the authorities granted thereby, including without limitation the authority of the California State Water Resources Control Board to modify any standards or operational constraints adopted to implement the “Principles for on the Bay-Delta Standards Between the State of California and the Federal Government”, dated December 15, 1994, so as to make additional irrigation and municipal and industrial water supplies available in the Central Valley Project and State Water Project service areas during the state of emergency.
