

113TH CONGRESS
2D SESSION

H. R. 5435

To amend title XVIII of the Social Security Act to provide for the coverage of home as a site of care for infusion therapy under the Medicare Program.

IN THE HOUSE OF REPRESENTATIVES

SEPTEMBER 10, 2014

Mr. ENGEL (for himself, Mr. TIBERI, Mr. LARSON of Connecticut, Mr. HARPER, Mr. MEEHAN, Ms. PINGREE of Maine, and Mr. PETERSON) introduced the following bill; which was referred to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

A BILL

To amend title XVIII of the Social Security Act to provide for the coverage of home as a site of care for infusion therapy under the Medicare Program.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Medicare Home Infu-
5 sion Site of Care Act of 2014”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

1 (1) The Medicare fee-for-service program covers
2 infusion therapy in the hospital, skilled nursing facil-
3 ity, physician office, and hospital outpatient depart-
4 ment, but does not cover the full range of services
5 for the provision of infusion therapies in a patient's
6 home.

7 (2) The Medicare program is presently the only
8 major health care payer in the United States that
9 does not provide comprehensive coverage of home in-
10 fusion therapy.

11 (3) As a result of the Medicare program not
12 providing for comprehensive coverage of home infu-
13 sion therapy, many Medicare beneficiaries are unable
14 to obtain infusion therapy in the most cost-effective
15 and convenient setting of their home, and physicians
16 are deprived of the ability to select the best site of
17 care for their patients.

18 (4) The Medicare program is paying for institu-
19 tional care for the provision of infusion therapy in
20 many instances when such institutional care could be
21 avoided if the Medicare program provided coverage
22 for home infusion therapy.

23 (5) The Government Accountability Office
24 found in a 2010 report that home infusion therapy
25 is utilized widely by private payers providing health

1 insurance coverage for individuals enrolled under
 2 such coverage and that such private payers generally
 3 are satisfied with the quality of care and the savings
 4 they achieve through avoided institutionalizations.

5 (6) A recent study has reported a potential sav-
 6 ings for Medicare if infusion therapies were covered
 7 in the home site of care.

8 **SEC. 3. MEDICARE COVERAGE OF HOME INFUSION THER-**
 9 **APY.**

8 plans and in the private sector), and the effi-
9 cient administration of the home infusion ther-
