113<sup>TH</sup> CONGRESS  
1<sup>ST</sup> SESSION

# H. R. 674

**[Report No. 113-72]**

To authorize the Secretary of the Interior to study the suitability and feasibility of designating prehistoric, historic, and limestone forest sites on Rota, Commonwealth of the Northern Mariana Islands, as a unit of the National Park System.

---

### IN THE HOUSE OF REPRESENTATIVES

FEBRUARY 13, 2013

Mr. SABLAN (for himself, Mr. GRIJALVA, Ms. BORDALLO, Mrs. NAPOLITANO, Mr. YOUNG of Alaska, and Mr. MARKEY) introduced the following bill; which was referred to the Committee on Natural Resources

MAY 17, 2013

Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

# **A BILL**

To authorize the Secretary of the Interior to study the suitability and feasibility of designating prehistoric, historic, and limestone forest sites on Rota, Commonwealth of the Northern Mariana Islands, as a unit of the National Park System.

1       *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; FINDINGS.**

4       (a) **SHORT TITLE.**—This Act may be cited as the  
5 “Rota Cultural and Natural Resources Study Act”.

6       (b) **FINDINGS.**—Congress finds as follows:

7           (1) The island of Rota was the only major is-  
8 land in the Mariana Islands to be spared the de-  
9 struction and large scale land use changes brought  
10 about by World War II.

11           (2) The island of Rota has been described by  
12 professional archeologists as having the most numer-  
13 ous, most intact, and generally the most unique pre-  
14 historic sites of any of the islands of the Mariana  
15 Archipelago.

16           (3) The island of Rota contains remaining ex-  
17 amples of what is known as the Latte Phase of the  
18 cultural tradition of the indigenous Chamorro people  
19 of the Mariana Islands. Latte stone houses are rem-  
20 nants of the ancient Chamorro culture.

21           (4) Four prehistoric sites are listed on the Na-  
22 tional Register of Historic Places: Monchon Archeo-  
23 logical District (also known locally as Monchon  
24 Latte Stone Village), Taga Latte Stone Quarry, the  
25 Dugi Archeological Site that contains latte stone

1 structures, and the Chugai Pictograph Cave that  
2 contains examples of ancient Chamorro rock art.  
3 Alaguan Bay Ancient Village is another latte stone  
4 prehistoric site that is surrounded by tall-canopy  
5 limestone forest.

6 (5) In addition to prehistoric sites, the island of  
7 Rota boasts historic sites remaining from the Japa-  
8 nese period (1914–1945). Several of these sites are  
9 on the National Register of Historic Places: Nanyo  
10 Kohatsu Kabushiki Kaisha Sugar Mill, Japanese  
11 Coastal Defense Gun, and the Japanese Hospital.

12 (6) The island of Rota’s natural resources are  
13 significant because of the extent and intact condition  
14 of its native limestone forest that provides habitat  
15 for several federally endangered listed species, the  
16 Mariana crow, and the Rota bridled white-eye birds,  
17 that are also native to the island of Rota. Three en-  
18 dangered plant species are also found on Rota and  
19 two are endemic to the island.

20 (7) Because of the significant cultural and nat-  
21 ural resources listed above, on September 2005, the  
22 National Park Service, Pacific West Region, com-  
23 pleted a preliminary resource assessment on the is-  
24 land of Rota, Commonwealth of the Northern Mar-  
25 iana Islands, which determined that the “establish-

1       ment of a unit of the national park system  
2       appear[ed] to be the best way to ensure the long  
3       term protection of Rota’s most important cultural  
4       resources and its best examples of its native lime-  
5       stone forest.”.

6 **SEC. 2. NPS STUDY OF SITES ON THE ISLAND OF ROTA,**  
7                   **COMMONWEALTH OF THE NORTHERN MAR-**  
8                   **IANA ISLANDS.**

9       (a) STUDY.—The Secretary of the Interior shall—

10           (1) carry out a study regarding the suitability  
11           and feasibility of designating prehistoric, historic,  
12           and limestone forest sites on the island of Rota,  
13           Commonwealth of the Northern Mariana Islands, as  
14           a unit of the National Park System; and

15           (2) consider management alternatives for the is-  
16           land of Rota, Commonwealth of the Northern Mar-  
17           iana Islands.

18       (b) STUDY PROCESS AND COMPLETION.—Except as  
19       provided by subsection (c) of this section, section 8(c) of  
20       Public Law 91–383 (16 U.S.C. 1a–5(c)) shall apply to the  
21       conduct and completion of the study required by this sec-  
22       tion.

23       (c) SUBMISSION OF STUDY RESULTS.—Not later  
24       than 3 years after the date that funds are made available  
25       for this section, the Secretary shall submit to the Com-

1 mittee on Natural Resources of the House of Representa-  
2 tives and the Committee on Energy and Natural Re-  
3 sources of the Senate a report describing the results of  
4 the study.
