1 SEC. 2. FINDINGS.

Congress finds the following:

(1) Older adults are the fastest growing segment of the Nation’s population.

(2) Every day, 10,000 Baby Boomers turn 65.

(3) One in 5 of those individuals age 65 and older survives on an average of $7,500 a year.

(4) Federal funding to support older adults and their caregivers has not kept pace with inflation.

(5) Only 7 percent of individuals who are food insecure get a home-delivered meal.

(6) For every reported incident of elder abuse, neglect, exploitation, or self-neglect, approximately 25 go unreported.

(7) By making significant improvements through the Older Americans Act Amendments of 2013, it is possible to improve the lives of millions
of older adults, and ensure that they receive the sup-
ports and services that they need to stay healthy and
active in their homes and communities.
