“(iii) be aligned with the State’s academic content standards in reading or language arts so that achieving proficiency against the State’s English language proficiency standards indicates a sufficient knowledge of English to measure validly and reliably the student’s achievement on the State’s reading or language arts standards.

“(H) PROHIBITIONS.—

“(i) STANDARDS REVIEW OR AP-

PROVAL.—A State shall not be required to submit any standards developed under this subsection for academic content or student academic achievement to the Secretary for review or approval.

“(A) IN GENERAL.—Each State plan shall provide an assurance that the State educational agency, in consultation with local educational agencies, has implemented a set of high-quality, yearly student academic assessments that include, at a minimum, academic assessments in mathematics and reading or language arts that will be used as the primary means of determining the yearly performance of each school in the State in enabling all children to meet the State’s challenging student academic achievement standards.

“(B) REQUIREMENTS.—Each State plan shall provide an assurance that such assessments—
“(i) are the same academic assessments used to measure the achievement of all students;

“(ii) are aligned with the State’s challenging academic content and student academic achievement standards, and provide coherent information about student attainment of such standards;

“(iv)(I) measure the annual academic achievement of all students against the State’s challenging academic achievement standards in mathematics and reading or language arts, and be administered—

“(aa) in each of grades 3 through 8; and

“(bb) at least once in grades 9 through 12; and

“(II) measure the academic achievement of all students against the State’s
challenging academic achievement standards in science, and be administered not less than one time, during—

“(aa) grades 3 through 5;
“(bb) grades 6 through 8; and
“(cc) grades 9 through 12;

“(bb) modified academic achievement standards consistent with subparagraph (C); and

“(IV) the inclusion of English language learners, who shall be assessed in a valid and reliable manner and provided reasonable accommodations on assessments administered to such students under this paragraph, including, to the extent practicable, assessments in the language and form most likely to yield accurate data on what such students know and can do in academic content areas, until such students have achieved English language proficiency, as determined under paragraph (1)(G);

“(vii) produce individual student interpretive, descriptive, and diagnostic reports, consistent with clause (iii), that
allow parents, teachers, and principals to understand and address the specific academic needs of students, and include information regarding achievement on academic assessments, and that are provided to parents, teachers, and principals in a timely manner after the assessment is given, in an understandable and uniform format; and

“(viii) enable results to be disaggregated within each State, local educational agency, and school, by—

“(I) each major racial and ethnic group;

“(IV) English proficiency status;

“(V) gender; and

“(VI) migrant status.

“(C) STUDENTS WITH DISABILITIES.—

“(i) ALTERNATE STANDARDS.—A State may provide for alternate assess-
ments aligned with alternate academic achievement standards for students with the most significant cognitive disabilities, if the State—

“(I) establishes and monitors implementation of clear and appropriate guidelines for individualized education program teams (as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act) (referred to in this section as ‘IEP Teams’) to apply in determining when a child’s significant cognitive disability justifies assessment based on alternate academic achievement standards;

“(II) ensures that the parents of those students are informed that their child’s academic achievement will be based on alternate academic achievement standards;

“(III) documents that students with the most significant cognitive disabilities are, to the extent practicable, included in the general cur-
riculum, and in assessments aligned with that curriculum;

“(IV) develops, disseminates information on, and promotes the use of appropriate accommodations to increase the number of students with disabilities who are tested against academic achievement standards for the grade in which a student is enrolled; and

“(V) ensures that regular and special education teachers and other appropriate staff know how to administer assessments, including making appropriate use of accommodations, for students with disabilities.

“(ii) MODIFIED STANDARDS.—A State may assess students with disabilities based on modified academic achievement standards, if the State—

“(I) establishes and ensures implementation of clear and appropriate guidelines for IEP Teams to apply in determining which students with disabilities are eligible to be assessed.
based on modified academic achievement standards, which criteria, at a minimum, shall include—

“(aa) whether the student’s disability has precluded the student from achieving grade-level proficiency, as demonstrated by objective evidence, such as the student’s performance on the State’s regular assessments or on other assessments that can validly demonstrate academic achievement; and

“(bb) whether the student’s progress in response to appropriate instruction, including special education and related services designed to address the student’s individual needs, is such that, even if significant growth occurs, the IEP Team is reasonably certain that the student will not achieve to grade-level within the year covered by the IEP, which progress shall be based on
multiple measurements, over a
period of time, that are valid for
the subjects being assessed;

“(II) ensures that, if a student’s
IEP includes goals for a subject as-
assed based on modified academic
achievement standards, those goals
are based on academic content stand-
ards for the grade in which the stu-
dent is enrolled;

“(III) ensures that parents of
students with disabilities who are as-
essed against modified academic
achievement standards are informed
that their child’s achievement will be
measured based on modified academic
achievement standards;

“(IV) ensures that the alternate
assessment yields results that measure
the achievement of those students sep-
arately in reading or language arts,
mathematics, and science relative to
the modified academic achievement
standards;
“(V) ensures that students who are assessed based on modified academic achievement standards have access to the curriculum, including instruction, for the grade in which the students are enrolled; and

“(VI) establishes and monitors implementation of clear and appropriate guidelines for IEP Teams to apply in developing and implementing IEPs for students who are assessed based on modified academic achievement standards.

“(D) LANGUAGE ASSESSMENTS.—Each State plan shall identify the languages other than English that are present to a significant extent in the participating student population and indicate the languages for which yearly student academic assessments are not available and are needed, and such State shall make every effort to develop such assessments as are necessary.

“(E) ASSESSMENTS OF ENGLISH LANGUAGE PROFICIENCY.—Each State plan shall provide an assurance that local educational
agencies in the State will provide for an annual assessment of English proficiency (measuring students’ speaking, listening, reading, and writing skills in English) of all English language learners in the schools served by the State educational agency, except that each local educational agency shall have discretion to exempt any student who has been assessed as proficient in listening, speaking, reading, or writing English from the corresponding portion of the assessment.

“(F) DEFERRAL.—A State may defer the commencement, or suspend the administration, but not cease the development, of the assessments described in this paragraph, for 1 year for each year for which the amount appropriated for grants under part B is less than $368,900,000.

“(3) STATE ACCOUNTABILITY SYSTEM.—
“(A) IN GENERAL.—Each State plan shall provide an assurance that the State has developed and is implementing a single, statewide State accountability system that will be based on the challenging academic content standards and student academic achievement standards adopted by the State, and other academic indicators related to student achievement identified by the State, to ensure that all students graduate from high school prepared for postsecondary education or the workforce without the need for remediation and that, at a minimum—

“(i) annually measures academic achievement of all public school students in the State towards meeting the State’s challenging academic achievement standards established by the State in mathematics and reading or language arts, which may include measures of student growth to such standards and any other valid and reliable academic indicators related to student achievement;

“(ii) establishes a system of annually identifying and differentiating among all public schools in the State based on stu-
dent academic achievement and any other factors determined appropriate by the State and also takes into account—
