8 **certain highway construction projects**

9 “(a) REQUIREMENT.—

10 “(1) IN GENERAL.—The Secretary shall require
11 States to evaluate the need for broadband conduit in
12 accordance with this section as part of any covered
13 highway construction project.

14 “(2) CONSULTATION.—This evaluation shall be
15 done in consultation with local and national tele-
16 communications providers, including telecommuni-
17 cations service and equipment providers.

18 “(3) RESULTS OF EVALUATION.—If the evalua-
19 tion reveals an anticipated need in the next 15 years
20 for broadband conduit beneath hard surfaces to be
21 constructed by the project, the conduit shall be in-
22 stalled under the hard surfaces as part of the cov-
23 ered highway construction project.

24 “(b) INSTALLATION REQUIREMENTS.—In carrying
25 out subsection (a), the Secretary shall ensure with respect
26 to a covered highway construction project that—

1 “(1) an appropriate number of broadband con-
2 duits, as determined by the Administrator of the Na-
3 tional Telecommunications and Information Admin-
4 istration, are installed along such highway to accom-
5 modate multiple broadband providers, with consider-
6 ation given to the availability of existing conduits;

7 “(2) the size of each such conduit is consistent
8 with industry best practices and is sufficient to ac-
9 commodate potential demand, as determined by the
10 Administrator; and

11 “(3) hand holes and manholes for fiber access
12 and pulling with respect to each such conduit are
13 placed at intervals consistent with industry best
14 practices, as determined by the Administrator.

6 such project.

7 “(d) PULL TAPE.—The Secretary shall ensure that
8 each broadband conduit installed pursuant to this section
9 includes a pull tape and is capable of supporting fiber
10 optic cable placement techniques consistent with industry
11 best practices, as determined by the Secretary.

12 “(e) DEPTH OF INSTALLATION.—The Secretary shall
13 ensure that each broadband conduit installed pursuant to
14 this section is placed at a depth consistent with industry

17 given to the location of existing utilities and the cable sep-
18 aration requirements of State and local electrical codes.

19 “(f) ACCESS.—The Secretary shall ensure that any

3 “(1) a showing of undue burden;

4 “(2) a determination that the installation of
5 broadband conduit beneath hard surfaces to be con-
6 structed as part of a covered highway construction
7 project is not necessary based on the availability of
8 existing broadband infrastructure;

10 “(4) the consideration of other relevant factors.

11 “(h) COORDINATION WITH FCC.—In carrying out
12 this section, the Secretary and the Administrator shall co-
