

114TH CONGRESS

To establish requirements regarding quality dates and safety dates in food labeling, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

MAY 19, 2016

Ms. PINGREE introduced the following bill; which was referred to the Committee on Energy and Commerce, and in addition to the Committee on Agriculture, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

A BILL

To establish requirements regarding quality dates and safety dates in food labeling, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Food Date Labeling
5 Act of 2016”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

8 (1) As of the date of enactment of this Act,
9 date labeling practices on food packaging cause con-

1 fusion with “sell-by,” “best-by,” “use-by,” and “best
2 before” dates, leading up to 90 percent of individ-
3 uals in the United States to occasionally throw out
4 still-fresh food.

5 (2) Confusion over the meaning of date labels
6 is estimated to account for 20 percent of consumer
7 waste of safe, edible food, leading to approximately
8 \$29,000,000,000 of wasted consumer spending each
9 year.

10 (3) Consumer education and standardized date
11 labeling are the top 2 most cost-effective strategies
12 for reducing food waste, by economic value per ton
13 diverted.

14 (4) Wasted food costs consumers and industry
15 money, squanders important natural resources that
16 are used to grow, process, distribute, and store the
17 food supply of the United States, and represents a
18 missed opportunity to feed the millions of food inse-
19 cure households in the United States that are strug-
20 gling to access healthy, affordable food.

21 **SEC. 3. DEFINITIONS.**

2 means a date printed on food packaging of a ready-
