1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “Fair Access to Science
3 and Technology Research Act of 2015”.

4 **SEC. 2. FINDINGS.**

5 Congress finds that—

6 (1) the Federal Government funds basic and
7 applied research with the expectation that new ideas
8 and discoveries that result from the research, if
9 shared and effectively disseminated, will advance
10 science and improve the lives and welfare of people
11 of the United States and around the world;

12 (2) the Internet makes it possible for this infor-
13 mation to be promptly available to every scientist,
14 physician, educator, and citizen at home, in school,
15 or in a library; and

16 (3) the United States has a substantial interest
17 in maximizing the impact and utility of the research
18 it funds by enabling a wide range of reuses of the
19 peer-reviewed literature that reports the results of
20 such research, including by enabling computational
21 analysis by state-of-the-art technologies.

22 **SEC. 3. DEFINITION OF FEDERAL AGENCY.**

23 In this Act, the term “Federal agency” means an Ex-
24 ecutive agency, as defined under section 105 of title 5,

21 funding by the Federal Government;

22 (2) the incorporation of all changes resulting
23 from the peer review publication process in the
24 manuscript described under paragraph (1);

25 (3) the replacement of the final manuscript

2 ment; and

3 (B) the goals of the Federal agency for
4 functionality and interoperability are retained;

5 (4) free online public access to such final peer-
6 reviewed manuscripts or published versions as soon
7 as practicable, but not later than 6 months after
8 publication in peer-reviewed journals;

18 access to, published research findings—

19 (A) in a stable digital repository main-
20 tained by the Federal agency; or
