13 **SEC. 133. MINORITY AND DISADVANTAGED BUSINESS PAR-**  
14 **TICIPATION.**

15 Congress finds the following:

16 (1) While significant progress has occurred due  
17 to the establishment of the airport disadvantaged  
18 business enterprise program (49 U.S.C. 47107(e)  
19 and 47113), discrimination and related barriers con-  
20 tinue to pose significant obstacles for minority- and  
21 women-owned businesses seeking to do business in  
22 airport-related markets across the Nation. These  
23 continuing barriers merit the continuation of the air-  
24 port disadvantaged business enterprise program.

25 (2) Congress has received and reviewed testi-  
26 mony and documentation of race and gender dis-

1       crimination from numerous sources, including con-  
2       gressional hearings and roundtables, scientific re-  
3       ports, reports issued by public and private agencies,  
4       news stories, reports of discrimination by organiza-  
5       tions and individuals, and discrimination lawsuits.  
6       This testimony and documentation shows that race-  
7       and gender-neutral efforts alone are insufficient to  
8       address the problem.

9               (3) This testimony and documentation dem-  
10       onstrates that discrimination across the Nation  
11       poses a barrier to full and fair participation in air-  
12       port-related businesses of women business owners  
13       and minority business owners in the racial groups  
14       detailed in parts 23 and 26 of title 49, Code of Fed-  
15       eral Regulations, and has impacted firm develop-  
16       ment and many aspects of airport-related business  
17       in the public and private markets.

18               (4) This testimony and documentation provides  
19       a strong basis that there is a compelling need for the  
20       continuation of the airport disadvantaged business  
21       enterprise program and the airport concessions dis-  
22       advantaged business enterprise program to address  
23       race and gender discrimination in airport-related  
24       business.

1 **SEC. 134. CONTRACT TOWER PROGRAM.**

9 determination is made; or

10 “(ii) if an appeal of such determina-  
11 tion is requested, for the 1-year period de-  
12 scribed in subsection (d)(4)(D)”.

26 ministration” after “1996”.

8 GRAM APPLICANTS.—Section 47124(b)(3) of title 49,

10 end the following:

11 “(G) BENEFIT-TO-COST CALCULATION.—Not  
12 later than 90 days after receiving an application to  
13 the Contract Tower Program, the Secretary shall  
14 calculate a benefit-to-cost ratio (as described in sub-  
15 section (d)) for the applicable air traffic control  
16 tower for purposes of selecting towers for participa-  
17 tion in the Contract Tower Program.”.

18 (b) CRITERIA TO EVALUATE PARTICIPANTS.—Sec-

3           cost ratio with respect to the tower.

4           “(B) TOWERS PARTICIPATING IN CON-  
5           TRACT TOWER PROGRAM.—In the case of an air

7           program established under subsection (a) and  
8           continued under subsection (b)(1), the Sec-  
9           retary shall not calculate a benefit-to-cost ratio  
10          after the date of enactment of this subsection  
11          with respect to the tower unless the Secretary  
12          determines that the annual aircraft traffic at  
13          the airport where the tower is located has de-  
14          creased—

15                 “(i) by more than 25 percent from the  
16                 previous year; or

17                 “(ii) by more than 55 percent cumula-  
18                 tively in the preceding 3-year period.

19          “(2) COSTS TO BE CONSIDERED.—In estab-  
20          lishing a benefit-to-cost ratio under this section with  
21          respect to an air traffic control tower, the Secretary  
22          shall consider only the following costs:

23                 “(A) The Federal Aviation Administra-  
24                 tion’s actual cost of wages and benefits of per-  
25                 sonnel working at the tower.

1           “(B) The Federal Aviation Administra-

3           associated with the tower.

4           “(C) The Federal Aviation Administra-  
5           tion’s costs of purchasing and installing any air  
6           traffic control equipment that would not have  
7           been purchased or installed except as a result of  
8           the operation of the tower.

9           “(D) The Federal Aviation Administra-  
10          tion’s actual travel costs associated with main-  
11          taining air traffic control equipment that is  
12          owned by the Administration and would not be  
13          maintained except as a result of the operation  
14          of the tower.

15          “(E) Other actual costs of the Federal  
16          Aviation Administration directly associated with  
17          the tower that would not be incurred except as  
18          a result of the operation of the tower (excluding  
19          costs for non-contract tower related personnel  
20          and equipment, even if the personnel or equip-  
21          ment are located in the contract tower build-  
22          ing).

23          “(3) OTHER CRITERIA TO BE CONSIDERED.—In

3       knowledge and account for the direct and indirect  
4       economic and other benefits that are not included in  
5       the criteria the Secretary used in calculating that  
6       ratio.

7               “(4) REVIEW OF COST-BENEFIT DETERMINA-  
8       TIONS.—In issuing a benefit-to-cost ratio determina-  
9       tion under this section with respect to an air traffic  
10      control tower located at an airport, the Secretary  
11      shall implement the following procedures:

12              “(A) The Secretary shall provide the air-  
13      port (or the State or local government having  
14      jurisdiction over the airport) at least 90 days  
15      following the date of receipt of the determina-  
16      tion to submit to the Secretary a request for an  
17      appeal of the determination, together with up-

19      peal.

20              “(B) Upon receipt of a request for an ap-  
21      peal submitted pursuant to subparagraph (A),  
22      the Secretary shall—

23              “(i) transmit to the Administrator of  
24      the Federal Aviation Administration any

1 updated or additional data submitted in  
2 support of the appeal; and

3 “(ii) provide the Administrator not  
4 more than 90 days to review the data and  
5 provide a response to the Secretary based  
6 on the review.

7 “(C) After receiving a response from the  
8 Administrator pursuant to subparagraph (B),  
9 the Secretary shall—

13 “(ii) withhold from taking further ac-  
14 tion in connection with the appeal during  
15 that 30-day period.

16 “(D) If, after completion of the appeal pro-  
17 cedures with respect to the determination, the  
18 Secretary requires the tower to transition into  
19 the program established under subsection  
20 (b)(3), the Secretary shall not require a cost-  
21 share payment from the airport, State, or local  
22 government for 1 year following the last day of  
23 the 30-day period described in subparagraph  
24 (C).”.

6 **SEC. 155. STAGE 3 AIRCRAFT STUDY.**

7           (a) **STUDY.**—Not later than 180 days after the date  
8 of enactment of this Act, the Comptroller General of the  
9 United States shall initiate a review of the potential bene-  
10 fits, costs, and other impacts that would result from a  
11 phaseout of covered stage 3 aircraft.

12           (b) **CONTENTS.**—The review shall include—

13               (1) a determination of the number, types, fre-

16               (2) an analysis of the potential benefits, costs,  
17               and other impacts to air carriers, general aviation  
18               operators, airports, communities surrounding air-  
19               ports, and the general public associated with phasing  
20               out or reducing the operations of covered stage 3  
21               aircraft, assuming such a phaseout or reduction is  
22               put into effect over a reasonable period of time;

23               (3) a determination of lessons learned from the  
24               phaseout of stage 2 aircraft that might be applicable  
25               to a phaseout or reduction in the operations of cov-

1       ered stage 3 aircraft, including comparisons between  
2       the benefits, costs, and other impacts associated  
3       with the phaseout of stage 2 aircraft and the poten-  
4       tial benefits, costs, and other impacts determined  
5       under paragraph (2);

6               (4) a determination of the costs and logistical

7 Regulations.

8 **SEC. 156. ADDRESSING COMMUNITY NOISE CONCERNS.**

9 When proposing a new area navigation departure pro-  
10 cedure, or amending an existing procedure that would di-  
11 rect aircraft between the surface and 6,000 feet above  
12 ground level over noise sensitive areas, the Administrator  
13 of the Federal Aviation Administration shall consider the  
14 feasibility of dispersal headings or other lateral track vari-  
15 ations to address community noise concerns, if—

16 (1) the affected airport operator, in consulta-  
17 tion with the affected community, submits a request  
18 to the Administrator for such a consideration;

19 (2) the airport operator’s request would not, in  
20 the judgment of the Administrator, conflict with the  
21 safe and efficient operation of the national airspace  
22 system; and

23 (3) the effect of a modified departure procedure  
24 would not significantly increase noise over noise sen-  
25 sitive areas, as determined by the Administrator.

1 **SEC. 157. STUDY ON POTENTIAL HEALTH IMPACTS OF**  
2 **OVERFLIGHT NOISE.**

3 (a) IN GENERAL.—Not later than 180 days after the

7 conduct a study on the health impacts of noise from air-  
8 craft flights on residents exposed to a range of noise levels  
9 from such flights.

10 (b) SCOPE OF STUDY.—The study shall—

11 (1) include an examination of the incremental  
12 health impacts attributable to noise exposure that

2 health impacts on residents living partly or wholly  
3 underneath flight paths most frequently used by air-  
4 craft flying at an altitude lower than 10,000 feet, in-  
5 cluding during takeoff or landing; and

6           (4) include an assessment of the relationship  
7 between a perceived increase in aircraft noise, in-  
8 cluding as a result of a change in flight paths that  
9 increases the visibility of aircraft from a certain lo-  
10 cation, and an actual increase in aircraft noise, par-  
11 ticularly in areas with high or variable levels of non-  
12 aircraft-related ambient noise.

13       (c) ELIGIBILITY.—An institution of higher education  
14 is eligible to conduct the study if the institution—

5 the aircraft subject to the directive.

6 “(B) ALTERNATIVE APPROVAL PROCESS.—

7 Notwithstanding subparagraph (A), the Admin-  
8 istrator may issue a Federal Aviation Adminis-  
9 tration airworthiness directive instead of accept-  
10 ing an airworthiness directive otherwise eligible  
11 for acceptance under such subparagraph, if the  
12 Administrator determines that such issuance is  
13 necessary for safety or operational reasons due  
14 to the complexity or unique features of the Fed-

23 nautical safety authority of the foreign  
24 country that issued the airworthiness di-  
25 rective; or

1                   “(ii) notwithstanding subparagraph  
2                   (A), and at the request of any person af-  
3                   fected by an airworthiness directive accept-  
4                   ed under such subparagraph, approve an  
5                   alternative means of compliance with re-  
6                   spect to the airworthiness directive.

7                   “(D) LIMITATION.—The Administrator  
8                   may not accept an airworthiness directive  
9                   issued by an aeronautical safety authority of a

6 of operation, and the characteristics of the aircraft in-  
7 volved, do not create a hazard to users of the national  
8 airspace system or the public.

9       “(c) REQUIREMENTS FOR SAFE OPERATION.—If the  
10 Secretary determines that certain UTM and low-altitude
