Be it enacted by the Senate and House of Representa-

tives of the United States of America in Congress assembled,
SECTION 1. SHORT TITLE.

This Act may be cited as the “Revitalizing the Economy of Coal Communities by Leveraging Local Activities and Investing More Act of 2019” or the “RECLAIM Act of 2019”.

SEC. 2. ECONOMIC REVITALIZATION FOR COAL COUNTRY.

(a) In general.—Title IV of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1231 et seq.) is amended by adding at the end the following:

“SEC. 416. ABANDONED MINE LAND ECONOMIC REVITALIZATION.

“(a) Purpose.—The purpose of this section is to promote economic revitalization, diversification, and development in economically distressed mining communities through the reclamation and restoration of land and water resources adversely affected by coal mining carried out before August 3, 1977.

“(b) In general.—From amounts deposited into the fund under section 401(b) before October 1, 2007, and not otherwise appropriated to the extent such funds are available, $200,000,000 shall be made available to the Secretary, without further appropriation, for each of fiscal years 2020 through 2024 for distribution to States and Indian tribes in accordance with this section for reclamation and restoration projects at sites identified as priorities under section 403(a): Provided, That if less than
$200,000,000 is available in any fiscal year to the Secretary, such remaining amount shall be made available to the Secretary, without further appropriation, and such fiscal year shall end distributions made available under this section.

“(c) Use of Funds.—Funds distributed to a State or Indian tribe under subsection (d) shall be used only for projects classified under the priorities of section 403(a) that meet the following criteria:

“(1) Contribution to future economic or community development.—

“(A) In general.—The project, upon completion of reclamation, is intended to create favorable conditions for the economic development of the project site or create favorable conditions that promote the general welfare through economic and community development of the area in which the project is conducted.

“(B) Demonstration of conditions.—

Such conditions are demonstrated by—

“(i) documentation of the role of the project in such area’s economic development strategy or other economic and community development planning process;
“(ii) any other documentation of the planned economic and community use of the project site after the primary reclamation activities are completed, which may include contracts, agreements in principle, or other evidence that, once reclaimed, the site is reasonably anticipated to be used for one or more industrial, commercial, residential, agricultural, or recreational purposes; or

“(iii) any other documentation agreed to by the State or Indian tribe that demonstrates the project will meet the criteria set forth in this subsection.

“(2) LOCATION IN ECONOMICALLY DISTRESSED COMMUNITY AFFECTED BY RECENT DECLINE IN MINING.—

“(A) IN GENERAL.—The project will be conducted in a community—

“(i) that has been adversely affected economically by a recent reduction in coal mining related activity, as demonstrated by employment data, per capita income, or other indicators of economic distress; or
“(ii)(I) that has historically relied on coal mining for a substantial portion of its economy; and

“(II) in which the economic contribution of coal mining has significantly declined.

“(B) Submission and publication of evidence or analysis.—Any evidence or analysis relied upon in selecting the location of a project under this subparagraph shall be submitted to the Secretary for publication. The Secretary shall publish such evidence or analysis in the Federal Register within 30 days after receiving such submission.

“(3) Stakeholder collaboration.—

“(A) In general.—The project has been the subject of project planning under subsection (g) and has been the focus of collaboration, including partnerships, as appropriate, with interested persons or local organizations.

“(B) Public notice.—As part of project planning—

“(i) the public has been notified of the project and has been given an opportunity to comment at a public meeting convened...
in a community near the proposed project site; and

“(ii) the State or Indian tribe published notice of such meetings in local newspapers of general circulation, on the Internet, and by any other means considered desirable by the Secretary.

“(C) Electronic Notification.—The State or Indian tribe established a way for interested persons to receive electronically all public notices issued under subparagraph (B) and any written declarations submitted to the Secretary under paragraph (5).

“(4) Eligible Applicants.—The project has been proposed by entities of State, local, county, or tribal governments, or local organizations, and will be approved and executed by State or tribal programs, approved under section 405 or referred to in section 402(g)(8)(B), which may include subcontracting project-related activities, as appropriate.

“(5) Waiver.—If the State or Indian tribe—

“(A) cannot provide documentation described in paragraph (1)(B) for a project conducted under a priority stated in paragraph (1) or (2) of section 403(a), or
“(B) is unable to meet the requirements under paragraph (2),
the State or Indian tribe shall submit a written decla-
ration to the Secretary requesting an exemption from the requirements of those subparagraphs. The declaration must explain why achieving favorable conditions for economic or community development at the project site is not practicable, or why the require-
ments of paragraph (2) cannot be met, and that sufficient funds distributed annually under sec-
tion 401 are not available to implement the project. Such request for an exemption is deemed to be ap-
proved, except the Secretary shall deny such request if the Secretary determines the declaration to be substantially inadequate. Any denial of such request shall be resolved at the State’s or Indian tribe’s re-
quest through the procedures described in subsection (e).

“(d) DISTRIBUTION OF FUNDS.—

“(1) UNCERTIFIED STATES.—

“(A) IN GENERAL.—From the amount made available in subsection (b), the Secretary shall distribute $195,000,000 annually for each of fiscal years 2020 through 2024 to States and Indian tribes that have a State or tribal pro-

made a certification under section 411(a) in
which the Secretary has concurred, as follows:

“(i) Four-fifths of such amount shall
be distributed based on the proportion of
the amount of coal historically produced in
each State or from the lands of each In-

1977.

“(i) means that funds received by the State or Indian tribe—

“(ii) includes use of any amount for project planning under subsection (g); and

“(1) the Secretary and the State or tribe shall meet and confer for a period of not more than 45 days to resolve the Secretary’s concerns, except that
such period may be shortened by the Secretary if the Secretary’s concerns are resolved;

“(2) during that period, at the State’s or Indian tribe’s request, the Secretary may consult with any appropriate Federal agency; and

“(3) at the end of that period, if the Secretary’s concerns are not resolved the Secretary shall provide to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an explanation of the concerns and such project proposal shall not be eligible for funds distributed under this section.

“(f) ACID MINE DRAINAGE TREATMENT.—

A State or Indian tribe shall specify the total funds allotted for such
costs in its application submitted under subsection (d)(2)(B).

“(2) CONDITION.—A State or Indian tribe may use funds under this subsection only if the State or tribe can demonstrate that the annual grant distributed to the State or tribe pursuant to section 401(f), including any interest from the State’s or tribe’s acid mine drainage abatement and treatment fund that is not used for the operation or maintenance of preexisting acid mine drainage treatment systems, is insufficient to fund the operation and maintenance of any acid mine drainage treatment system associated with an individual project funded under this section.

“(h) REPORT TO CONGRESS.—The Secretary shall provide to the Committee on Natural Resources of the House of Representatives, the Committees on Appropriations of the House of Representatives and the Senate, and the Committee on Energy and Natural Resources of the Senate at the end of each fiscal year for which such funds are distributed a detailed report—

“(i) Prohibition on Certain Use of Funds.—Any State or Indian tribe that uses the funds distributed under this section for purposes other than reclamation or drainage abatement expenditures, as made eligible by section 404, and for the purposes authorized under subsections (f) and (g), shall be barred from receiving any subsequent funding under this section.”.
