(a) In General.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall develop a climate vulnerability and risk assessment tool to assist the military departments in measuring how the risks associated with climate change impact networks, systems, installations, facilities, and other assets, as well as the operational plans and capabilities of the Department of Defense.

SEC. 323. PROVISION OF UNCONTAMINATED WATER FOR AGRICULTURAL USE ON LAND CONTAMINATED BY PFOS AND PFOA USED ON MILITARY INSTALLATIONS.

(a) FINDINGS.—Congress makes the following findings:

(1) Perfluorooctanesulfonic acid (in this section referred to as “PFOS”) and perfluorooctanoic acid (in this section referred to as “PFOA”) are part of a class of man-made chemicals that have been used in a variety of industrial and consumer products to make the products resist heat, stains, water, and grease. Because PFOS and PFOA extinguish petroleum fires quickly, the Department of Defense and commercial airports began using aqueous film forming foam containing PFOS and PFOA in the 1970s.
(2) PFOS and PFOA can accumulate and stay in the body for long periods of time. Exposure to PFOS and PFOA may cause health problems, including issues with the reproductive system, liver and kidney damage, developmental issues in children, and negatively impacted immune system, and cancer.

(3) A common method of human exposure to PFOS and PFOA is by consuming contaminated drinking water.

(4) The Environmental Protection Agency issued lifetime health advisories under the Safe Drinking Water Act for individual or combined PFOS and PFOA concentrations at 70 parts per trillion in 2016, but has not yet issued any guidance or regulation for groundwater or agricultural water.

(5) The Department of Defense has provided mitigations in many communities where drinking water has tested at or above the lifetime health advisory level, including bottled water and drinking water filtration systems. Due to the lack of regulatory guidance, these mitigations have not been mirrored in agricultural water systems.

(6) As a result, farmers located adjacent to military installations with PFOS and PFOA contamination that has migrated off-installation are potentially
impacted, and in at least one case, such contamina-
tion has had a serious impact on the livelihood of a
dairy farmer.

(b) Authority to Provide Uncontaminated
Water for Agricultural Purposes.—

(1) In general.—If an area has been identified
under paragraph (2), and a military installation has
been determined to be the source of that contamina-
tion, the Secretary of Defense or the Secretary con-
cerned may provide, for the purpose of producing ag-
gricultural products destined for human consump-
tion—

(A) water sources uncontaminated with
perfluoroalkyl and polyfluoroalkyl substances, in-
cluding PFOA and PFOS, or

(B) treatment of contaminated waters.

(2) Identification of areas.—An area identi-
fied under this paragraph is an area for which the
level of PFOA or PFOS contamination—

(A) is above the lifetime health advisory for
contamination for such compounds as issued by
the Environmental Protection Agency and print-
ed in the Federal Register on May 25, 2016;

(B) is at or above a regulatory standard set
by the Food and Drug Administration for PFOA
and PFOS in raw agricultural commodities and milk; or

(C) is at or above a duly promulgated, non-discriminatory standard promulgated by a State regulatory entity for PFOA and PFOS in raw agricultural commodities and milk.

(3) SOURCE OF FUNDS.—Amounts used to carry out this section shall be derived—

(A) in the case of amounts made available by the Secretary concerned, from amounts authorized to be appropriated for Operation and Maintenance for the military department concerned; or

(B) in the case of amounts made available by the Secretary of Defense, from amounts authorized to be appropriated for Operation and Maintenance, Defense-wide.

(c) SENSE OF CONGRESS REGARDING LAND ACQUISITION.—It is the sense of Congress that the Secretary concerned should explore authorities under which the Secretary could acquire land the land adjacent to military installations where the owners of the land have experienced impacts to their livelihood due to PFOS and PFOA contamination that has been verified to have been caused by that installa-
tion, including the authorities under sections 2663, 2864a, and 2869 of title 10, United States Code.

SEC. 853. REVISED AUTHORITIES TO DEFEAT ADVERSARY EFFORTS TO COMPROMISE UNITED STATES DEFENSE CAPABILITIES.

(a) Sense of Congress.—Congress finds that to comprehensively address the supply chain vulnerabilities of the Department of Defense, defense contractors must be incentivized to prioritize security in a manner which exceeds basic compliance with mitigation practices relating to cybersecurity risk and supply chain security standards. Defense contractors can no longer pass unknown risks on to the Department of Defense but should be provided with the tools to meet the needs of the Department with respect to cybersecurity risk and supply chain security. Incentives for defense contractors will help stimulate efforts within the defense industrial base to minimize vulnerabilities in hardware, software, and supply chain services. The Department of Defense must develop policies and regulations that move
security from a cost that defense contractors seek to minimize to a key consideration in the award of contracts, equal in importance to cost, schedule, and performance.

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall the revise the statement of purpose in the Defense Federal Acquisition Regulation Supplement added by section 801(3) of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115–91; 131 Stat. 1449; U.S.C. 2302 note) to include the security of goods acquired by the Department of Defense as one of the primary objectives of Department of Defense acquisition. **Subtitle D—Matters Relating to Russia**

**SEC. 1231. PROHIBITION ON THE USE OF FUNDS TO SUSPEND, TERMINATE, OR WITHDRAW THE UNITED STATES FROM THE OPEN SKIES TREATY.**

(a) **FINDINGS.**—Congress finds the following:

(1) Since 1992, the United States has supported the Open Skies Treaty with dedicated aircraft and ob-
reservation mission teams, conducting several hundred
training and observation missions with other coun-
tries.

(2) This commitment by the United States has
helped to confirm and refine operational procedures,
to improve implementation and effectiveness of the
Open Skies Treaty, and provide United States leader-
ship and engagement opportunities that have sup-
ported broader objectives and improved European
transparency.

(3) The Open Skies Treaty provides signatories
with the ability to gather information through aerial
imaging on military forces and activities of concern
to them which contributes to greater transparency
and stability in the Euro-Atlantic region, which bene-
fits both the United States and United States allies
and partners.

(4) In order to maximize United States benefits
from the Open Skies Treaty, the United States needs
to recapitalize and modernize its aircraft and sensors,
and the ongoing work to certify the Digital Visual
Imaging System and the new effort for the Open
Skies Treaty Aircraft Recapitalization (OSTAR) are
critical to United States leadership and involvement
in the Treaty.
(5) The current 1960s-era United States aircraft used with respect to the Open Skies Treaty are ill-suited to extreme operating environments in Russia and experience regular, unplanned maintenance issues, often resulting in mission delays or cancellations.

(6) The OSTAR effort will provide a United States aircraft capability that allows the United States to fully implement the goals and objectives of the Open Skies Treaty.

(7) The United States also demonstrated in December 2018, along with United States allies of Canada, the United Kingdom, France, Germany, and Romania, that Open Skies Treaty mechanisms can be used during times of crisis.

(8) Following Russia’s unprovoked attack on Ukrainian vessels near the Kerch Strait, the United States and United States allies conducted an “extraordinary” Open Skies Treaty observation mission over Ukraine to reaffirm commitment to Ukraine.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States should forcefully address Russian violations of its obligations under the Open Skies Treaty; and
(2) due to the significant benefits that observation missions under the Open Skies Treaty provide to the United States and United States allies, the United States should commit to continued participation in the Treaty.

(c) PROHIBITION.—

(1) IN GENERAL.—Except as provided in paragraph (2), none of the funds authorized to be appropriated by this Act or otherwise made available to the Department of Defense for fiscal year 2020 may be obligated or expended to take any action to suspend, terminate, or withdraw the United States from the Open Skies Treaty.

(2) EXCEPTION.—The prohibition in paragraph (1) shall not apply if the Secretary of Defense and the Secretary of State jointly determine and certify to the congressional defense committees, the Committee on Foreign Affairs of the House of Representatives, and the Committee on Foreign Relations of the Senate, that—

(A) Russia is in material breach of its obligations under the Open Skies Treaty and is not taking steps to return to compliance with such obligations, and all other state parties to the

SEC. 1607. INDEPENDENT STUDY ON PLAN FOR DETERRENCE IN SPACE.

(a) FINDINGS.—Congress finds the following:

(1) Threats to space systems of the United States have increased and continue to grow.

studies and writings with respect to creating
conditions of deterrence suitable for use in the
space domain, including, at a minimum, an as-

cluding varying classification, strategies to deny
benefit or impose cost, and space mission assur-
ance (including resilience, active defense, and re-
constitution).

tending such studies and writings or through
new analysis, of a holistic and comprehensive
theory of deterrence in space appropriate for use
in defense planning.
