2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Puppies Assisting  
5 Wounded Servicemembers Act of 2019” or the “PAWS  
6 Act of 2019”.

1 **SEC. 2. FINDINGS; SENSE OF CONGRESS.**

2 (a) FINDINGS.—Congress makes the following find-  
3 ings:

4 (1) According to the analyses of veteran suicide  
5 published by the Department of Veterans Affairs in  
6 August 2016 entitled “Suicide Among Veterans and  
7 Other Americans” and in June 2018 entitled “VA  
8 National Suicide Data Report”—

9 (A) an average of 20 veterans died by sui-  
10 cide each day during 2014;

11 (B) mental health disorders, including  
12 major depression and other mood disorders,  
13 have been associated with increased risk for sui-  
14 cide;

15 (C) the proportion of users of the Veterans  
16 Health Administration with mental health con-  
17 ditions or substance use disorders increased  
18 from approximately 27 percent in 2001 to more  
19 than 40 percent in 2014; and

20 (D) overall, suicide rates are highest  
21 among patients with mental health and sub-  
22 stance use disorder diagnoses who are in treat-  
23 ment and lower among those who received a  
24 mental health diagnoses but were not at risk  
25 enough to require enhanced care from a mental  
26 health provider.

1           (2) Pairing a service dog with a veteran costs  
2           approximately \$25,000, including training of the  
3           service dog as well as training of the veteran with  
4           the service dog and follow-up services and support.

5           (3) Organizations like K9s For Warriors and  
6           other members of the Association of Service Dog  
7           Providers for Military Veterans have proven track-  
8           records of training service dogs for veterans with se-  
9           vere post-traumatic stress disorder and dramatically  
10          improving those veterans' quality of life, ability to  
11          re-enter society, and, most importantly, their  
12          chances of survival.

13          (4) New, rigorous scientific research provides  
14          persuasive weight to the growing anecdotal evidence  
15          that service dogs ameliorate the symptoms associ-  
16          ated with post-traumatic stress disorder, and in par-  
17          ticular, help prevent veteran suicide.

18          (b) SENSE OF CONGRESS.—It is the sense of Con-  
19          gress that the Department of Veterans Affairs must be  
20          more effective in its approach to reducing the burden of  
21          veteran suicide connected to mental health disorders, in-  
22          cluding post-traumatic stress disorder.
