IN THE SENATE OF THE UNITED STATES

MAY 22, 2019

Mrs. FISCHER (for herself, Mr. SCHATZ, Mr. GARDNER, and Mr. BOOKER) introduced the following bill; which was read twice and referred to the Committee on Commerce, Science, and Transportation

A BILL

To ensure appropriate prioritization, spectrum planning, and interagency coordination to support the Internet of Things.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Developing Innovation and Growing the Internet of Things Act” or the “DIGIT Act”.

SEC. 2. FINDINGS; SENSE OF CONGRESS.

(a) FINDINGS.—Congress finds that—

(1) the Internet of Things refers to the growing number of connected and interconnected devices;
estimates indicate that more than 125,000,000,000 devices will be connected to the internet by 2030;

(3) the Internet of Things has the potential to generate trillions of dollars in new economic activity around the world in the transportation, energy, agriculture, manufacturing, and health care sectors and in other sectors that are critical to the growth of the gross domestic product of the United States;

(4) businesses across the United States can develop new services and products, improve the efficiency of operations and logistics, cut costs, improve worker and public safety, and pass savings on to consumers by utilizing the Internet of Things and related innovations;

(5) the Internet of Things will—

(A) be vital in furthering innovation and the development of emerging technologies; and

(B) play a key role in developing artificial intelligence and advanced computing capabilities;

(6) the United States leads the world in the development of technologies that support the internet, the United States technology sector is well-positioned to lead in the development of technologies for
the Internet of Things, and the appropriate prioritization of a national strategy with respect to the Internet of Things would strengthen that position;

(7) the Federal Government can implement this technology to better deliver services to the public; and

(8) the Senate unanimously passed Senate Resolution 110, 114th Congress, agreed to March 24, 2015, calling for a national strategy for the development of the Internet of Things.

(b) SENSE OF CONGRESS.—It is the sense of Congress that policies governing the Internet of Things should—

(1) promote solutions with respect to the Internet of Things that are secure, scalable, interoperable, industry-driven, and standards-based; and

(2) maximize the development and deployment of the Internet of Things to benefit all stakeholders, including businesses, governments, and consumers.

SEC. 3. DEFINITIONS.

In this Act:

(1) COMMISSION.—The term “Commission” means the Federal Communications Commission.
(2) Secretary.—The term “Secretary” means the Secretary of Commerce.

(3) Steering Committee.—The term “steering committee” means the steering committee established under section 4(e)(1).

(4) Working Group.—The term “working group” means the working group convened under section 4(a).

SEC. 4. FEDERAL WORKING GROUP.

(a) In General.—The Secretary shall convene a working group of Federal stakeholders for the purpose of providing recommendations and a report to Congress relating to the aspects of the Internet of Things described in subsection (b).

(b) Duties.—The working group shall—

(1) identify any Federal regulations, statutes, grant practices, budgetary or jurisdictional challenges, and other sector-specific policies that are inhibiting, or could inhibit, the development or deployment of the Internet of Things;

(2) consider policies or programs that encourage and improve coordination among Federal agencies that have responsibilities that are relevant to the objectives of this Act;
(3) consider any findings or recommendations made by the steering committee and, where appropriate, act to implement those recommendations;

(4) examine—

(A) how Federal agencies can benefit from utilizing the Internet of Things;

(B) the use of Internet of Things technology by Federal agencies as of the date on which the working group performs the examination;

(C) the preparedness and ability of Federal agencies to adopt Internet of Things technology as of the date on which the working group performs the examination and in the future; and

(D) any additional security measures that Federal agencies may need to take to—

(i) safely and securely use the Internet of Things, including measures that ensure the security of critical infrastructure; and

(ii) enhance the resiliency of Federal systems against cyber threats to the Internet of Things; and

(5) in carrying out the examinations required under clauses (i) and (ii) of paragraph (4)(D), en-
sure to the maximum extent possible the coordina-
tion of the current and future activities of the Fed-
eral Government relating to security with respect to
the Internet of Things.

(c) AGENCY REPRESENTATIVES.—In convening the
working group under subsection (a), the Secretary shall
have discretion to appoint representatives from Federal
agencies and departments as appropriate and shall specifi-
cally consider seeking representation from—

(1) the Department of Commerce, including—

   (A) the National Telecommunications and
   Information Administration;

   (B) the National Institute of Standards
   and Technology; and

   (C) the National Oceanic and Atmospheric
   Administration;

(2) the Department of Transportation;

(3) the Department of Homeland Security;

(4) the Office of Management and Budget;

(5) the National Science Foundation;

(6) the Commission;

(7) the Federal Trade Commission;

(8) the Office of Science and Technology Policy;

(9) the Department of Energy; and
(10) the Federal Energy Regulatory Commis-

sion.

(d) NONGOVERNMENTAL Stakeholders.—The
working group shall consult with nongovernmental stake-
holders with expertise relating to the Internet of Things,
including—

(1) the steering committee;

(2) information and communications technology
manufacturers, suppliers, service providers, and ven-
dors;

(3) subject matter experts representing indus-
trial sectors other than the technology sector that
can benefit from the Internet of Things, including
the transportation, energy, agriculture, and health
care sectors;

(4) small, medium, and large businesses;

(5) think tanks and academia;

(6) nonprofit organizations and consumer
groups;

(7) security experts;

(8) rural stakeholders; and

(9) other stakeholders with relevant expertise,
as determined by the Secretary.

(e) STEERING COMMITTEE.—
(1) **ESTABLISHMENT.**—There is established within the Department of Commerce a steering committee to advise the working group.

(2) **DUTIES.**—The steering committee shall advise the working group with respect to—

(A) the identification of any Federal regulations, statutes, grant practices, programs, budgetary or jurisdictional challenges, and other sector-specific policies that are inhibiting, or could inhibit, the development of the Internet of Things;

(B) situations in which the use of the Internet of Things is likely to deliver significant and scalable economic and societal benefits to the United States, including benefits from or to—

(i) smart traffic and transit technologies;

(ii) augmented logistics and supply chains;

(iii) sustainable infrastructure;

(iv) precision agriculture;

(v) environmental monitoring;

(vi) public safety; and

(vii) health care;
(C) whether adequate spectrum is available
to support the growing Internet of Things and
what legal or regulatory barriers may exist to
providing any spectrum needed in the future;

(D) policies, programs, or multi-stake-
holder activities that—

(i) promote or are related to the pri-

vacy of individuals who use or are affected
by the Internet of Things;

(ii) may enhance the security of the

Internet of Things, including the security
of critical infrastructure;

(iii) may protect users of the Internet

of Things; and

(iv) may encourage coordination

among Federal agencies with jurisdiction
over the Internet of Things;

(E) the opportunities and challenges asso-

associated with the use of Internet of Things tech-

nology by small businesses; and

(F) any international proceeding, inter-

national negotiation, or other international mat-

ter affecting the Internet of Things to which
the United States is or should be a party.
(3) MEMBERSHIP.—The Secretary shall appoint
to the steering committee members representing a
wide range of stakeholders outside of the Federal
Government with expertise relating to the Internet
of Things, including—

(A) information and communications tech-
nology manufacturers, suppliers, service pro-
viders, and vendors;

(B) subject matter experts representing in-
dustrial sectors other than the technology sector
that can benefit from the Internet of Things,
including the transportation, energy, agri-
culture, and health care sectors;

(C) small, medium, and large businesses;

(D) think tanks and academia;

(E) nonprofit organizations and consumer
groups;

(F) security experts;

(G) rural stakeholders; and

(H) other stakeholders with relevant exper-
tise, as determined by the Secretary.

(4) REPORT.—Not later than 1 year after the
date of enactment of this Act, the steering com-
mittee shall submit to the working group a report
that includes any findings or recommendations of the steering committee.

(5) INDEPENDENT ADVICE.—

(A) IN GENERAL.—The steering committee shall set the agenda of the steering committee in carrying out the duties of the steering committee under paragraph (2).

(B) SUGGESTIONS.—The working group may suggest topics or items for the steering committee to study, and the steering committee shall take those suggestions into consideration in carrying out the duties of the steering committee.

(C) REPORT.—The steering committee shall ensure that the report submitted under paragraph (4) is the result of the independent judgment of the steering committee.

(6) TERMINATION.—The steering committee shall terminate on the date on which the working group submits the report under subsection (f) unless, on or before that date, the Secretary files a new charter for the steering committee under section 9(c) of the Federal Advisory Committee Act (5 U.S.C. App.).

(f) REPORT TO CONGRESS.—
(1) In general.—Not later than 18 months after the date of enactment of this Act, the working group shall submit to Congress a report that includes—

(A) the findings and recommendations of the working group with respect to the duties of the working group under subsection (b);

(B) the report submitted by the steering committee under subsection (e)(4), as the report was received by the working group;

(C) recommendations for action or reasons for inaction, as applicable, with respect to each recommendation made by the steering committee in the report submitted under subsection (e)(4); and

(D) an accounting of any progress made by Federal agencies to implement recommendations made by the working group or the steering committee.

(2) Copy of report.—The working group shall submit a copy of the report described in paragraph (1) to—

(A) the Committee on Commerce, Science, and Transportation and the Committee on Energy and Natural Resources of the Senate;
(B) the Committee on Energy and Commerce of the House of Representatives; and

(C) any other committee of Congress, upon request to the working group.

SEC. 5. ASSESSING SPECTRUM NEEDS.

(a) IN GENERAL.—The Commission, in consultation with the National Telecommunications and Information Administration, shall issue a notice of inquiry seeking public comment on the current, as of the date of enactment of this Act, and future spectrum needs to enable better connectivity relating to the Internet of Things.

(b) REQUIREMENTS.—In issuing the notice of inquiry under subsection (a), the Commission shall seek comments that consider and evaluate—

(1) whether adequate spectrum is available, or is planned for allocation, for commercial wireless services that could support the growing Internet of Things;

(2) if adequate spectrum is not available for the purposes described in paragraph (1), how to ensure that adequate spectrum is available for increased demand with respect to the Internet of Things;

(3) what regulatory barriers may exist to providing any needed spectrum that would support uses relating to the Internet of Things; and
(4) what the role of unlicensed and licensed spectrum is and will be in the growth of the Internet of Things.

(c) REPORT.—Not later than 1 year after the date of enactment of this Act, the Commission shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report summarizing the comments submitted in response to the notice of inquiry issued under subsection (a).
