1 eroding, posing significant risks to economic competi-
2 tiveness, national security, and public well-being.

3 (5) *To address major societal challenges and sus-
4 tain United States leadership in innovation, the Fed-
5 eral Government must increase investments in re-
6 search, broaden participation in the STEM workforce,
7 and bolster collaborations among universities, Na-
8 tional Laboratories, field stations and marine labora-
9 tories, companies, labor organizations, non-profit
