•HR 2773 RH
Be it enacted by the Senate and House of Representa-
tives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Recovering America’s
Wildlife Act of 2021”.

TITLE I—WILDLIFE CONSERVA-
TION AND RESTORATION

SEC. 101. WILDLIFE CONSERVATION AND RESTORATION

SUBACCOUNT.

(a) IN GENERAL.—Section 3 of the Pittman-Robertson
Wildlife Restoration Act (16 U.S.C. 669b) is amended in
subsection (c)—

(1) by redesignating paragraphs (2) and (3) as
paragraphs (10) and (11); and

(2) by striking paragraph (1) and inserting the
following:

“(1) ESTABLISHMENT OF SUBACCOUNT.—

“(A) IN GENERAL.—There is established in
the fund a subaccount to be known as the ‘Wild-
life Conservation and Restoration Subaccount’
(referred to in this section as the ‘Subaccount’).

“(B) AVAILABILITY.—Amounts in the Sub-
account shall be available without further appro-
priation, for each fiscal year, for apportionment
in accordance with this Act.
“(C) Deposits into Subaccount.—Beginning in fiscal year 2022, the Secretary of the Treasury shall transfer $1,300,000,000 from the general fund of the treasury each fiscal year to the fund for deposit in the Subaccount.

“(2) Supplement not supplant.—Amounts transferred to the Subaccount shall supplement, but not replace, existing funds available to the States from—

“(A) the funds distributed pursuant to the Dingell-Johnson Sport Fish Restoration Act; and

“(B) the fund.

“(3) Innovation Grants.—

“(A) In general.—The Secretary shall distribute 10 percent of funds apportioned from the Subaccount through a competitive grant program to State fish and wildlife departments, the District of Columbia fish and wildlife department, fish and wildlife departments of territories, or to regional associations of fish and wildlife departments (or any group composed of more than 1 such entity).

“(B) Purpose.—Such grants shall be provided for the purpose of catalyzing innovation of techniques, tools, strategies, or collaborative part-
nerships that accelerate, expand, or replicate effective and measurable recovery efforts for species of greatest conservation need and species listed under the Endangered Species Act of 1973 and the habitats of such species.

“(C) REVIEW COMMITTEE.—The Secretary shall appoint a review committee comprised of—

“(i) a State Director from each regional association of State fish and wildlife departments;

“(ii) the head of a department responsible for fish and wildlife management in a territory; and

“(iii) 4 individuals representing 4 different nonprofit organizations each of which is actively participating in carrying out wildlife conservation restoration activities using funds apportioned from the Sub-account.

“(D) SUPPORT FROM UNITED STATES FISH AND WILDLIFE SERVICE.—The United States Fish and Wildlife Service shall provide any personnel or administrative support services necessary for such Committee to carry out its responsibilities under this Act.
“(E) Evaluation.—Such committee shall evaluate each proposal submitted under this paragraph and recommend projects for funding, giving preference to solutions that accelerate the recovery of species identified as priorities through regional scientific assessments of species of greatest conservation need.

“(F) Special rule before disbursement of funds from subaccount.—In any fiscal year that begins before the first disbursement of funds from the Subaccount, any non-profit organization that actively participates in carrying out wildlife conservation restoration activities shall be deemed to fulfill the requirement described in subparagraph (C)(iii).

“(4) Use of funds.—Funds apportioned from the Subaccount—

“(A) shall be used to implement the Wildlife Conservation Strategy of a State, territory, or the District of Columbia, as required under section 4(e), by carrying out, revising, or enhancing existing wildlife and habitat conservation and restoration programs and developing and implementing new wildlife conservation and restoration programs to recover and manage species of
greatest conservation need and the key habitats
and plant community types essential to the con-
servation of those species as determined by the
appropriate State fish and wildlife department;

“(B) shall be used to develop, revise, and
enhance the Wildlife Conservation Strategy of a
State, territory, or the District of Columbia, as
may be required by this Act;

“(C) shall be used to assist in the recovery
of species found in the State, territory, or the
District of Columbia that are listed as endan-
gered species, threatened species, candidate spe-
cies or species proposed for listing, or species pe-
titioned for listing under the Endangered Species
Act of 1973 or under State law;

“(D) may be used for wildlife conservation
education and wildlife-associated recreation
projects, especially in historically underserved
communities;

“(E) may be used to manage a species of
greatest conservation need whose range is shared
with another State, territory, Indian Tribe, or
foreign government and for the conservation of
the habitat of such species;
“(F) may be used to manage, control, and prevent invasive species, disease, and other risks to species of greatest conservation need; and

“(G) may be used for law enforcement activities that are directly related to the protection and conservation of a species of greatest conservation need and the habitat of such species.

“(5) Minimum required spending for endangered species recovery.—Not less than an average of 15 percent over a 5-year period of amounts apportioned to a State, territory, or the District of Columbia from the Subaccount shall be used for purposes described in paragraph (4)(C). The Secretary may reduce the minimum requirement of a State, territory, or the District of Columbia on an annual basis if the Secretary determines that the State, territory, or the District of Columbia is meeting the conservation and recovery needs of all species described in paragraph (4)(C).

“(6) Public access to private lands not required.—Funds apportioned from the Subaccount shall not be conditioned upon the provision of public access to private lands, waters, or holdings.

“(7) Requirements for matching funds.—
“(A) For the purposes of the non-Federal fund matching requirement for a wildlife conservation or restoration program or project funded by the Subaccount, a State, territory, or the District of Columbia may use as matching non-Federal funds—

“(i) funds from Federal agencies other than the Department of the Interior and the Department of Agriculture;

“(ii) donated private lands and waters, including privately owned easements;

“(iii) in circumstances described in subparagraph (B), revenue generated through the sale of State hunting and fishing licenses; and

“(B) Revenue described in subparagraph (A)(iii) may only be used to fulfill the requirements of such non-Federal fund matching requirement if—

such State from the Wildlife Restoration Program or the Sport Fish Restoration Program have been reverted because of a failure to fulfill such non-Federal fund matching requirement by such State during the previous 2 fiscal years; and

“(ii) the project or program being funded benefits the habitat of a hunted or fished species and a species of greatest conservation need.
