SEC. 524. PETITION FOR DNA TESTING UNDER THE UNIFORM CODE OF MILITARY JUSTICE.

(a) IN GENERAL.—Subchapter IX of chapter 47 of title 10, United States Code (the Uniform Code of Military Justice), is amended by inserting after section 873 (article 73) the following new section (article):

“§ 873a. Art. 73a. Petition for DNA testing

“(a) IN GENERAL.—Upon a written petition by an accused sentenced to imprisonment or death pursuant to a conviction under this chapter (referred to in this section as the ‘applicant’), the Judge Advocate General shall order DNA testing of specific evidence if the Judge Advocate General finds that all of the following apply:

“(1) The applicant asserts, under penalty of perjury, that the applicant is actually innocent of the offense for which the applicant is sentenced to imprisonment or death.

“(2) The specific evidence to be tested was secured in relation to the investigation or prosecution of the offense referenced in the applicant’s assertion under paragraph (1).

“(3) The specific evidence to be tested—

“(A) was not previously subjected to DNA testing and the applicant did not knowingly fail to request DNA testing of that evidence in a prior motion for postconviction DNA testing; or
“(B) was previously subjected to DNA testing and the applicant is requesting DNA testing using a new method or technology that is substantially more probative than the prior DNA testing.

“(4) The specific evidence to be tested is in the possession of the Government and has been subject to a chain of custody and retained under conditions sufficient to ensure that such evidence has not been substituted, contaminated, tampered with, replaced, or altered in any respect material to the proposed DNA testing.

“(5) The proposed DNA testing is reasonable in scope, uses scientifically sound methods, and is consistent with accepted forensic practices.

“(6) The applicant identifies a theory of defense that—

“(A) is not inconsistent with an affirmative defense presented at trial; and

“(B) would establish the actual innocence of the applicant of the offense referenced in the applicant’s assertion under paragraph (1).

“(7) If the applicant was convicted following a trial, the identity of the perpetrator was at issue in the trial.
“(8) The proposed DNA testing of the specific evidence may produce new material evidence that would—

“(A) support the theory of defense referenced in paragraph (6); and

“(B) raise a reasonable probability that the applicant did not commit the offense.

“(9) The applicant certifies that the applicant will provide a DNA sample for purposes of comparison.

“(10) The petition is made in a timely fashion, subject to the following conditions:

“(A) There shall be a rebuttable presumption of timeliness if the petition is made within five years of the enactment of the National Defense Authorization Act for Fiscal Year 2022 or within three years after the date of the entry of judgment under section 860c of this title (article 60c), whichever comes later. Such presumption may be rebutted upon a showing—

“(i) that the applicant’s petition for a DNA test is based solely upon information used in a previously denied motion; or
“(ii) of clear and convincing evidence that the applicant’s filing is done solely to cause delay or harass.

“(B) There shall be a rebuttable presumption against timeliness for any petition not satisfying subparagraph (A) above. Such presumption may be rebutted upon the Judge Advocate General’s finding—

“(i) that the applicant was or is incompetent and such incompetence substantially contributed to the delay in the applicant’s motion for a DNA test;

“(ii) the evidence to be tested is newly discovered DNA evidence;

“(iii) that the applicant’s petition is not based solely upon the applicant’s own assertion of innocence and, after considering all relevant facts and circumstances surrounding the petition, a denial would result in a manifest injustice; or

“(iv) upon good cause shown.

“(C) For purposes of this paragraph—

“(i) the term ‘incompetence’ has the meaning given that term in section 876b of this chapter (article 76b);
“(ii) the term ‘manifest’ means that which is unmistakable, clear, plain, or indisputable and requires that the opposite conclusion be clearly evident.

“(b) APPEAL OF DENIAL.— The applicant may appeal the Judge Advocate General’s denial of the petition of DNA testing to the Court of Appeals for the Armed Forces.

“(c) EVIDENCE INVENTORY; PRESERVATION ORDER; APPOINTMENT OF COUNSEL.—

“(1) INVENTORY.—The Judge Advocate General shall order the preparation of an inventory of the evidence related to the case for which a petition is made under subsection (a), which shall be provided to the applicant.

“(2) PRESERVATION ORDER.—To the extent necessary to carry out proceedings under this section, the Judge Advocate General shall direct the preservation of the specific evidence relating to a petition under subsection (a).

“(3) APPOINTMENT OF COUNSEL.—The applicant shall be eligible for representation by appellate defense counsel under section 870 of this chapter (article 70).

“(d) TESTING COSTS.—The costs of any DNA testing ordered under this section shall be paid by the Government.
“(e) **TIME LIMITATION IN CAPITAL CASES.**—In any
case in which the applicant is sentenced to death—

“(1) any DNA testing ordered under this section
shall be completed not later than 60 days after the
date on which the test is ordered by the Judge Advoca-
cate General; and

“(2) not later than 120 days after the date on
which the DNA testing ordered under this section is
completed, the Judge Advocate General shall order
any post-testing procedures under subsection (f) or
(g), as appropriate.

“(f) **DISCLOSURE OF TEST RESULTS.**—Reporting of
test results shall be simultaneously disclosed to the Govern-
ment and the applicant.

“(g) **POST-TESTING PROCEDURES; INCONCLUSIVE AND
INCULPATORY RESULTS.**—

“(1) **INCONCLUSIVE RESULTS.**—If DNA test re-
results obtained under this section are inconclusive, the
Judge Advocate General may order further testing, if
appropriate, or may deny the applicant relief.

“(2) **INCULPATORY RESULTS.**—If DNA test re-
results obtained under this section show that the appli-
cant was the source of the DNA evidence, the Judge
Advocate General shall—

“(A) deny the applicant relief; and
“(B) if the DNA test results relate to a State offense, forward the finding to any appropriate State official.

“(h) POST-TESTING PROCEDURES; MOTION FOR NEW TRIAL OR RESENTENCING.—

“(1) IN GENERAL.—Notwithstanding any provision of law that would bar a motion under this paragraph as untimely, if DNA test results obtained under this section exclude the applicant as the source of the DNA evidence, the applicant may file a petition for a new trial or resentencing, as appropriate.

“(2) STANDARD FOR GRANTING MOTION FOR NEW TRIAL OR RESENTENCING.—The applicant’s petition for a new trial or resentencing, as appropriate, shall be granted if the DNA test results, when considered with all other evidence in the case (regardless of whether such evidence was introduced at trial), establish by compelling evidence that a new trial would result in the acquittal of the applicant.

“(i) RELATIONSHIP TO OTHER LAWS.—

“(1) POST-CONVICTION RELIEF.—Nothing in this section shall affect the circumstances under which a person may obtain DNA testing or post-conviction relief under any other provision of law.
“(2) HABEAS CORPUS.—Nothing in this section shall provide a basis for relief in any Federal habeas corpus proceeding.”.

mental and physical ailments such as post-traumatic stress disorder and traumatic brain injury.

SEC. 1302. SENSE OF CONGRESS ON UNITED STATES DEFENSE POSTURE IN EUROPE.

It is the sense of Congress as follows:

(1) The United States is steadfastly committed to upholding and strengthening its defense alliances and partnerships in the European theater. The North Atlantic Treaty Organization (NATO) alliance is the bedrock of these relationships, which are central to deterring Russian aggression, upholding territorial integrity and sovereignty in Europe, countering malign
efforts to undermine the rules-based international order and disrupt shared values, fostering international cooperation against collective challenges, and advancing shared national security objectives worldwide.

(2) United States allies in Europe have made substantial strides on responsibility-sharing and defense investment since the Wales Declaration in 2014 and should be commended for their ongoing efforts to increase complementary investments in NATO deterrence capacity. These efforts have provided an accumulated increase of more than $130,000,000,000 in foreign investments between 2016 and 2020 to strengthen trans-Atlantic security, and it is essential that the United States continue to press NATO allies to achieve their Wales Summit pledges and continue to make progress on greater complementary defense investments.

(3) The behavior of the Russian Government has not improved and has, in many aspects, become increasingly belligerent since the invasion of Ukraine in 2014, with respect to—

(A) military efforts to disrupt the territorial integrity of sovereign countries in Europe;
(B) threats against the United States, NATO, and other United States partners;

(C) intervention in allied democratic processes;

(D) efforts to disrupt United States alliances, partnerships, and values;

(E) acts such as assassination and the use of chemical weapons on the territory of other sovereign countries; and

(F) other high-risk, disruptive efforts.

(4) Continued commitment to enhancing the United States and allied force posture in Europe is indispensable for efforts to establish and sustain a credible deterrent against Russian aggression and long-term strategic competition by the Russian government. The Secretary of Defense must continue to—

(A) support the European Deterrence Initiative and other investments in a strengthened United States and allied force posture in Europe;

(B) support rotational deployments and robust exercises in the European theater;

(C) complete efforts to establish prepositioned stocks and effective staging infra-
structure to maintain credible deterrence against Russian threats;

(D) invest effectively in multi-service, cyber, information, and air defense efforts to counter modern military challenges, enhance the survivability and flexibility of the United States force posture, logistics, and planning; and

(E) consider whether additional forward-positioned forces in Europe would reduce cost and strain, enhance credibility, and strengthen capabilities.

SEC. 1303. SENSE OF CONGRESS ON SECURITY ASSISTANCE TO THE BALTIC COUNTRIES.

(a) FINDINGS.—Congress finds the following:

(1) The United States has cumulatively allocated over $498,965,000 in Department of Defense partner capacity funding for the Baltic countries since fiscal year 2018, including over $219,000,000 for the Baltic security efforts known as the “Baltic Security Initiative”, executed using sections 332 and 333 of title 10, United States Code, including assistance with respect to air defense, maritime situational awareness, ammunition, C4ISR, anti-tank capability, special forces, and other defense capabilities.
(2) The Secretary of Defense has completed the comprehensive Baltic Defense Assessment required by section 1246 of the National Defense Authorization Act for Fiscal Year 2020 and has recommended continued robust, comprehensive investment Baltic security efforts in accordance with that assessment, with assistance executed using such sections 332 and 333.

(3) The Secretary of Defense has assessed that the authority granted by such sections 332 and 333 affords the most efficient and effective authority to provide this assistance to the Baltic countries, and that attempting to provide the assistance pursuant to alternate authorities would hamper the Department’s ability to deliver assistance and implement the investment program established by the Baltic Defense Assessment.

(b) SENSE OF CONGRESS.—Congress strongly supports the robust assistance to accomplish United States strategic objectives in accordance with sections 332 and 333 of title 10, United States Code, including by providing assistance to the Baltic countries using those sections, funded by the Baltic Security Initiative. It is the sense of Congress that the security of the Baltic region is crucial to the security of the NATO alliance and these efforts are critical to ensure
continued deterrence against Russian aggression and bolster
allied security.

(a) FINDINGS.—Congress finds the following:

(1) Foreign Area Officers of the Army and their
equivalent positions in the other Armed Forces (in
this section referred to as “FAOs”) are trained to
manage, grow, and enhance security cooperation rela-
tionships between the United States and foreign part-
ners and to build the overall military capacity and
capabilities of foreign partners.

(2) At present, some senior defense official posi-
tions in United States embassies are filled by officers
lacking the necessary skills, training, and experience
to strengthen the relationships between the United
States and its critical partners and allies.
(3) FAOs are trained to fill those positions, and deficiencies in the equitable use, assessment, promotion, diversity and inclusion of such officers, as well as limitations on career opportunities, undermine the ability of the Department of Defense to strengthen partnerships and alliances of the United States.

(4) A federally funded research and development center can provide a roadmap to correcting these deficiencies, strengthening the FAO branch, and placing qualified FAOs in positions of positive influence over United States partnerships and alliances.

(b) ASSESSMENT AND REVIEW REQUIRED.—

(1) IN GENERAL.—Not later than 60 days after the date of the enactment of this Act, the Secretary of Defense shall enter into an agreement with a federally funded research and development center to conduct an independent assessment and comprehensive review of the process by which Foreign Area Officers and their equivalent positions in the other Armed Forces (in this section referred to as “FAOs”) are recruited, selected, trained, assigned, organized, promoted, retained, and used in security cooperation offices, senior defense roles in U.S. embassies, and in other critical roles of engagement with allies and partners.

(D) A review and assessment of the promotion criteria, process, and possible pathways for career advancement for FAOs.

(E) A review of the organization and categorization of FAOs by geographic region.

(F) An assessment of the training program for FAOs and its effectiveness.

(G) An assessment of the available career paths for FAOs.

(H) An assessment of the criteria used to determine staffing requirements for senior defense official positions and security cooperation roles for uniformed officers.
(I) A review of the staffing of senior defense official and security cooperation roles and assessment to determine whether requirements are being met through the staffing process.

(J) An assessment of how the broader utilization of FAOs in key security cooperation and embassy defense leadership billets would improve the quality and professionalism of the security cooperation workforce under section 384 of title 10, United States Code.

(K) A review of how many FAO opportunities are joint-qualifying and an assessment of whether increasing the number of joint-qualified opportunities for FAOs would increase recruitment, retention, and promotion.

(L) Any other matters the Secretary determines relevant.

(c) RESULTS.—The federally funded research and development center conducting the assessment and review described in subsection (b) shall submit to the Secretary the results of such assessment and review, which shall include the following:

(1) A summary of the research and activities undertaken to carry out the assessment required by subsection (b).
(2) Considerations and recommendations, including legislative recommendations, to achieve the following:

(a) SENSE OF CONGRESS.—It is the sense of Congress that—
(1) the Space Force, in collaboration with the United States Space Command, the military departments, relevant Defense Agencies and, where practicable, the National Reconnaissance Office, should continue to build on the successful Space Safari tactically responsive launch-2 mission of the Space Force, which was a pathfinder to inform concepts of operation regarding tactically responsive launches; and

(2) future efforts regarding tactically responsive launches should not be limited to only launch capabilities, but should also include all aspects that are needed for rapid reconstitution and responsiveness to urgent requirements with respect to satellite buses, payloads, operations, and ground infrastructure.

(b) PROGRAM.—Section 1609 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Public Law 116–283) is amended—

SEC. 1602. NATIONAL SECURITY SPACE LAUNCH PROGRAM.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Department of Defense and the National Reconnaissance Office should, to the extent practicable, use launch services under a phase two contract of the National Security Space Launch program; and
(2) for missions that fall outside of the requirements of phase two of the National Security Space Launch program, the Department of Defense and the National Reconnaissance Office should continue to leverage the growing launch provider base of the United States, including those companies that provide smaller and ride-share launch capabilities, to incentivize sustained investment in domestic launch capabilities.

(c) Notification.—If the Secretary of Defense or the Director of the National Reconnaissance Office determines that a program requiring launch services that could be met
using phase two contracts will instead use an alternative launch procurement approach, not later than seven days after the date of such determination, the Secretary of Defense or, as appropriate, the Director of National Intelligence, shall submit to the appropriate congressional committees—

(1) a notification of such determination;

(2) a certification that the alternative launch procurement approach is in the national security interest of the United States; and

(ii) re-examine the balance of mission assurance versus risk tolerance to reflect new resilient spacecraft architectures and reduce workload on the Federal Government
and industry to perform mission assurance where appropriate.

SEC. 1624. REVIEW OF ENGINEERING AND MANUFACTURING

DEVELOPMENT CONTRACT FOR GROUND-BASED STRATEGIC DETERRENT PROGRAM.

(a) FINDINGS.—Congress finds the following:

(1) In September 2020, the Air Force awarded the engineering and manufacturing development contract for the ground-based strategic deterrent program.

(2) The total development cost of the ground-based strategic deterrent program is expected to be approximately $100,000,000,000.

(3) The Vice Chairman of the Joint Chiefs of Staff recently noted that “we have got to make [the ground-based strategic deterrent program] more affordable. A three-stage, solid rocket ICBM should not cost as much as the forecast says it costs for now. After meeting with the program office at Northrop Grumman multiple times I think that program can come in significantly cheaper. It’s designed correctly. It’s a digital engineering process that should be able to build things quickly and much more effectively.”.

(4) The Air Force has placed significant importance on digital engineering in achieving cost and schedule requirements with respect to the ground-based strategic deterrent program.

(b) REVIEW.—
(1) REQUIREMENT.—The Secretary of the Air Force shall provide for the conduct of a review of the implementation and the execution of the engineering and manufacturing development contract for the ground-based strategic deterrent program.

(B) A review of the challenges the Air Force faces in implementing such industry best practices.

(C) A review of the ability of the Air Force to leverage digital engineering during such engineering and manufacturing development phase.

(D) A review of any options that may be available to the Air Force to reduce cost and introduce competition within the operations and maintenance phase of the ground-based strategic deterrent program.
(E) Recommendations to improve the cost, schedule, and program management of the ground-based strategic deterrent program.

(3) EXPERTISE.—The Secretary shall ensure that the review under paragraph (1) is conducted by individuals from the public and private sector, including not fewer than two individuals—

(b) BRIEFING.—Not later than 90 days after the date of the enactment of this Act, the Secretary of the Air Force shall provide to the congressional defense committees a briefing on the execution of the engineering and manufacturing development contract for the long-range standoff weapon, including with respect to—

(1) how the timely development of the long-range standoff weapon may serve as a hedge to delays in other nuclear modernization efforts;

(2) the effects of potential delays in the W80–4 warhead program on the ability of the long-range standoff weapon to achieve the initial operational capability schedule under section 217 of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113–66; 127 Stat. 706), as most recently amended by section 1668 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116–92; 133 Stat. 1774);

(a) FINDINGS.—Congress finds the following:

(1) On April 20th, 2021, before the Committee on Armed Services of the Senate, the Commander of the United States Strategic Command, Admiral Charles A. Richard, said that the basic design criteria in the triad is that “you cannot allow a failure of any one leg of the triad to prevent you from being able to do everything the President has ordered you to do.”.

(2) Admiral Richard further stated that in the event of one leg atrophying, “You are completely dependent on the submarine leg, and I’ve already told the Secretary of Defense that under those conditions I would request to re-alert the bombers.”.

(b) COST ESTIMATE.—The Secretary of the Air Force shall develop a cost estimate with respect to re-alerting long-range bombers in the absence of a ground-based leg of the nuclear triad.
SEC. 1631. NOTIFICATION REGARDING INTERCONTINENTAL BALLISTIC MISSILES OF CHINA.

SEC. 1641. DIRECTED ENERGY PROGRAMS FOR BALLISTIC AND HYPersonic MISSile DEFENSE.

(a) FINDINGS.—Congress finds the following:

(1) In the fiscal year 2021 budget request of the Department of Defense, the Secretary of Defense removed all funding from the Missile Defense Agency to conduct research, engineering, or development for directed energy technologies that could be applicable for ballistic and hypersonic missile defense, and this re-
moval of funding continued in the fiscal year 2022 budget request of the Department, despite Congress appropriating funding for fiscal year 2021 for these efforts.

(2) In January 2020, an independent Senior Executive Review Team noted that “If successfully developed, the unique features of diode pumped alkali laser, an efficient electrically powered, relatively short wavelength gas laser with the potential to deliver megawatt power with near diffraction limited beam quality from a single aperture would provide the Department of Defense and the Missile Defense Agency with an important strategic technology with the potential for an attractive size, weight, and power. Such a system would have potential capability use cases across all services/agencies.”. However, the Under Secretary of Defense for Research and Engineering did not support continued investigation of this promising technology by the Missile Defense Agency.

(3) In addition to diode pumped alkali lasers, there are other directed energy applications that have the potential to contribute to ballistic and hypersonic missile defense architecture, including microwave and short pulse lasers technologies.
(b) **SENSE OF CONGRESS.**—It is the sense of Congress that the Director of the Missile Defense Agency should continue to fund promising directed energy technologies for ballistic and hypersonic missile defense, in coordination with the directed energy roadmap of the Under Secretary of Defense for Research and Engineering, with the intent to transfer technologies to the military departments as appropriate.

(c) **AUTHORITY OF THE MISSILE DEFENSE AGENCY.**—

(1) **DELEGATION.**—The Secretary of Defense shall delegate to the Director of the Missile Defense Agency the authority to budget for, direct, and manage directed energy programs applicable for ballistic and hypersonic missile defense missions, in coordination with other directed energy efforts of the Department of Defense.

(iii) with respect to any such changes to Department of Defense Directive 5134.09, a final draft of the proposed modified directive, both in an electronic format and in a hard copy format;

(D) with respect to any such changes to Department of Defense Directive 5134.09, provides to such committees a briefing on the proposed modified directive described in subparagraph (C)(ii); and
(E) a period of 120 days has elapsed following the date on which the Secretary submits the report under subparagraph (C).
