

117<sup>TH</sup> CONGRESS  
2<sup>D</sup> SESSION

# H. R. 4521

---

## AN ACT

To provide for a coordinated Federal research initiative to ensure continued United States leadership in engineering biology.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE.**

2       This Act may be cited as the “America Creating Op-  
3 portunities for Manufacturing, Pre-Eminence in Tech-  
4 nology, and Economic Strength Act of 2022” or the  
5 “America COMPETES Act of 2022”.

6 **SEC. 2. TABLE OF CONTENTS.**

7       The table of contents for this Act is as follows:

- Sec. 1. Short title.
- Sec. 2. Table of contents.
- Sec. 3. Prohibiting discrimination against people of Asian descent.

DIVISION A—CREATING HELPFUL INCENTIVES TO PRODUCE  
SEMICONDUCTORS (CHIPS) FOR AMERICA FUND

- Sec. 10001. Creating Helpful Incentives to Produce Semiconductors (CHIPS) for America Fund.
- Sec. 10002. Semiconductor incentives.
- Sec. 10003. Office of Opportunity and Inclusion.
- Sec. 10004. Additional GAO reporting requirement.
- Sec. 10005. Comptroller General report.
- Sec. 10006. Modification to certain GAO reports.
- Sec. 10007. Expanding the semiconductor incentive program to include non-profits.

DIVISION B—RESEARCH AND INNOVATION

TITLE I—DEPARTMENT OF ENERGY SCIENCE FOR THE FUTURE

- Sec. 10101. Mission of the Office of Science.
- Sec. 10102. Basic energy sciences program.
- Sec. 10103. Biological and environmental research.
- Sec. 10104. Advanced scientific computing research program.
- Sec. 10105. Fusion energy research.
- Sec. 10106. High energy physics program.
- Sec. 10107. Nuclear physics program.
- Sec. 10108. Accelerator research and development.
- Sec. 10109. Isotope development and production for research applications.
- Sec. 10110. Science laboratories infrastructure program.
- Sec. 10111. Increased collaboration with teachers and scientists.
- Sec. 10112. High intensity laser research initiative; Office of Science Emerging Infectious Disease Computing Research Initiative; helium conservation program; authorization of appropriations.
- Sec. 10113. State-owned enterprises prohibition.
- Sec. 10114. Determination of Budgetary Effects.
- Sec. 10115. National Virtual Biotechnology Laboratory.
- Sec. 10116. Additional research.

TITLE II—NATIONAL INSTITUTE OF STANDARDS AND  
TECHNOLOGY FOR THE FUTURE ACT OF 2021

Sec. 10201. Definitions.

Subtitle A—Appropriations

Sec. 10211. Authorization of appropriations.

Subtitle B—Measurement Research

- Sec. 10221. Engineering biology and biometrology.
- Sec. 10222. Greenhouse gas measurement research.
- Sec. 10223. NIST authority for cybersecurity and privacy activities.
- Sec. 10224. Software security and authentication.
- Sec. 10225. Digital identity management research.
- Sec. 10226. Biometrics research and testing.
- Sec. 10227. Federal biometric performance standards.
- Sec. 10228. Protecting research from cyber theft.
- Sec. 10229. Dissemination of resources for research institutions.
- Sec. 10230. Advanced communications research.
- Sec. 10231. Neutron scattering.
- Sec. 10232. Quantum information science.
- Sec. 10233. Artificial intelligence.
- Sec. 10234. Sustainable Chemistry Research and Education.
- Sec. 10235. Premise plumbing research.

Subtitle C—General Activities

- Sec. 10241. Educational outreach and support for underrepresented communities.
- Sec. 10242. Other transactions authority.
- Sec. 10243. Report to congress on collaborations with government agencies.
- Sec. 10244. Hiring critical technical experts.
- Sec. 10245. International standards development.
- Sec. 10246. Standard technical update.
- Sec. 10247. GAO study of NIST research security policies and protocols.
- Sec. 10248. Standards development organization grants.

Subtitle D—Hollings Manufacturing Extension Partnership

- Sec. 10251. Establishment of expansion awards pilot program as a part of the Hollings Manufacturing Extension Partnership.
- Sec. 10252. Update to manufacturing extension partnership.
- Sec. 10253. National supply chain database.
- Sec. 10254. Hollings Manufacturing Extension Partnership activities.

Subtitle E—Manufacturing USA Program

Sec. 10261. Supporting geographic diversity.

Subtitle F—Manufacturing USA Program

Sec. 10271. Expanding opportunities through the Manufacturing USA Program.

TITLE III—NATIONAL SCIENCE FOUNDATION FOR THE FUTURE

Sec. 10301. Findings.

- Sec. 10302. Definitions.
- Sec. 10303. Authorization of appropriations.
- Sec. 10304. STEM education.
- Sec. 10305. Broadening participation.
- Sec. 10306. Fundamental research.
- Sec. 10307. Research infrastructure.
- Sec. 10308. Directorate for science and engineering solutions.
- Sec. 10309. Administrative amendments.
- Sec. 10310. Microgravity utilization policy.
- Sec. 10311. Recognition of the Arecibo Observatory.
- Sec. 10312. Hands-on learning opportunities in STEM education.

#### TITLE IV—BIOECONOMY RESEARCH AND DEVELOPMENT

- Sec. 10401. Findings.
- Sec. 10402. Definitions.
- Sec. 10403. National Engineering Biology Research and Development Initiative.
- Sec. 10404. Initiative coordination.
- Sec. 10405. Advisory committee.
- Sec. 10406. External review of ethical, legal, environmental, safety, security, and societal issues.
- Sec. 10407. Agency activities.
- Sec. 10408. Rule of construction.

#### TITLE V—BROADENING PARTICIPATION IN SCIENCE

##### Subtitle A—STEM Opportunities

- Sec. 10501. Findings.
- Sec. 10502. Purposes.
- Sec. 10503. Federal science agency policies for caregivers.
- Sec. 10504. Collection and reporting of data on Federal research grants.
- Sec. 10505. Policies for review of Federal research grants.
- Sec. 10506. Collection of data on demographics of faculty.
- Sec. 10507. Cultural and institutional barriers to expanding the academic and Federal STEM workforce.
- Sec. 10508. Research and dissemination at the National Science Foundation.
- Sec. 10509. Research and related activities to expand STEM opportunities.
- Sec. 10510. Tribal Colleges and Universities Program.
- Sec. 10511. Report to Congress.
- Sec. 10512. Merit review.
- Sec. 10513. Determination of budgetary effects.
- Sec. 10514. Definitions.

##### Subtitle B—Rural STEM Education Research

- Sec. 10521. Findings.
- Sec. 10522. NIST engagement with rural communities.
- Sec. 10523. NITR-D broadband working group.
- Sec. 10524. National Academy of Sciences evaluation.
- Sec. 10525. GAO review.
- Sec. 10526. Capacity building through EPSCOR.
- Sec. 10527. National Science Foundation rural STEM Research activities.
- Sec. 10528. Researching opportunities for online education.
- Sec. 10529. Definitions.

Subtitle C—MSI STEM Achievement

- Sec. 10531. Findings.
- Sec. 10532. Government Accountability Office review.
- Sec. 10533. Research and capacity building.
- Sec. 10534. Agency responsibilities.
- Sec. 10535. Definitions.

Subtitle D—Combating Sexual Harassment in Science

- Sec. 10541. Findings.
- Sec. 10542. Definitions.
- Sec. 10543. Research grants.
- Sec. 10544. Data collection.
- Sec. 10545. Responsible conduct guide.
- Sec. 10546. Interagency working group.
- Sec. 10547. National academies assessment.
- Sec. 10548. Authorization of appropriations.

TITLE VI—MISCELLANEOUS SCIENCE AND TECHNOLOGY  
PROVISIONS

Subtitle A—Supporting Early-Career Researchers

- Sec. 10601. Findings.
- Sec. 10602. Early-career research fellowship program.
- Sec. 10603. Authorization of appropriations.

Subtitle B—National Science and Technology Strategy

- Sec. 10611. National science and technology strategy.
- Sec. 10612. Quadrennial science and technology review.
- Sec. 10613. National Circular Economy Roadmap.

Subtitle C—Energizing Technology Transfer

- Sec. 10621. Definitions.

PART 1—NATIONAL CLEAN ENERGY TECHNOLOGY TRANSFER PROGRAMS

- Sec. 10623. National clean energy incubator program.
- Sec. 10624. Clean energy technology university prize competition.
- Sec. 10625. Clean energy technology transfer coordination.

PART 2—SUPPORTING TECHNOLOGY DEVELOPMENT AT THE NATIONAL  
LABORATORIES

- Sec. 10626. Lab partnering service pilot program.
- Sec. 10627. Lab-embedded entrepreneurship program.
- Sec. 10628. Small business voucher program.
- Sec. 10629. Entrepreneurial leave program.
- Sec. 10630. National laboratory non-Federal employee outside employment authority.
- Sec. 10631. National laboratories restoration and modernization.

PART 3—DEPARTMENT OF ENERGY MODERNIZATION

- Sec. 10632. Office of technology transitions.
- Sec. 10633. Management of Department of Energy demonstration projects.

- Sec. 10634. Streamlining prize competitions.
- Sec. 10635. Cost-share waiver extension.
- Sec. 10636. Special hiring authority for scientific, engineering, and project management personnel.
- Sec. 10637. Technology transfer reports and evaluation.
- Sec. 10638. ARPA-E authorization of appropriations.

#### Subtitle D—Regional Innovation

- Sec. 10641. Regional Innovation Capacity.
- Sec. 10642. Regional Clean Energy Innovation Program.
- Sec. 10643. Critical technology and innovation analytics program.
- Sec. 10644. Support for commercial deployment.

#### Subtitle E—Malign Foreign Talent Recruitment Program Prohibition

- Sec. 10651. Malign foreign talent recruitment program prohibition.

#### Subtitle F—Microelectronics Research for Energy Innovation

- Sec. 10661. Definitions.
- Sec. 10662. Findings.
- Sec. 10663. Microelectronics research program.
- Sec. 10664. Microelectronics science research centers.
- Sec. 10665. Miscellaneous other requirements.

#### Subtitle G—Reports

- Sec. 10671. Report on methane removal technology.

#### Subtitle H—Better Energy Storage Technology

- Sec. 10681. Long-duration demonstration initiative and joint program.

#### Subtitle I—SBIR, STTR, and Pilot Extensions

- Sec. 10691. Small business innovation programs and pilot extensions.

#### Subtitle J—Coastal and Ocean Acidification Stressors and Threats Research

- Sec. 10701. Short title.
- Sec. 10702. Purposes.
- Sec. 10703. Definitions.
- Sec. 10704. Interagency working group.
- Sec. 10705. Strategic research plan.
- Sec. 10706. NOAA ocean acidification activities.
- Sec. 10707. NSF ocean acidification activities.
- Sec. 10708. NASA ocean acidification activities.
- Sec. 10709. Authorization of appropriations.

#### Subtitle K—National Nuclear University Research Infrastructure Reinvestment

- Sec. 10711. Short title.
- Sec. 10712. Purposes.
- Sec. 10713. University infrastructure collaboration.
- Sec. 10714. Advanced nuclear research infrastructure enhancement subprogram.

Sec. 10715. Science education and human resources scholarships, fellowships, and research and development projects.

Subtitle L—Steel Upgrading Partnerships and Emissions Reduction

Sec. 10721. Low-emissions steel manufacturing research program.

Subtitle M—National Academies Science, Technology, and Security Roundtable

Sec. 10731. Ad-hoc committee on research security.

Subtitle N—Additional Provisions

Sec. 10741. Establishment of blockchain and cryptocurrency specialist position within OSTP.

Subtitle O—Partnerships for Energy Security and Innovation

Sec. 10751. Foundation for Energy Security and Innovation.

## DIVISION C—ENERGY AND COMMERCE

### TITLE I—COMMUNICATIONS AND TECHNOLOGY

Sec. 20101. Appropriations for wireless supply chain innovation.

Sec. 20102. Understanding cybersecurity of mobile networks.

Sec. 20103. Information and communication technology strategy.

Sec. 20104. Open RAN outreach.

Sec. 20105. Future networks.

Sec. 20106. NTIA policy and cybersecurity coordination.

Sec. 20107. American cybersecurity literacy.

Sec. 20108. Communications security advisory council.

Sec. 20109. Promoting United States wireless leadership.

Sec. 20110. Critical Infrastructure Manufacturing Feasibility.

### TITLE II—CONSUMER PROTECTION AND COMMERCE

#### Subtitle A—Supply Chain Resilience

Sec. 20201. Office of manufacturing security and resilience.

Sec. 20202. United states strategy to counter threats to supply chains.

Sec. 20203. Critical supply chain monitoring program.

Sec. 20204. Manufacturing security and resilience program.

Sec. 20205. Supply chain innovation and best practices.

Sec. 20206. Program evaluation by the inspector general of the department of commerce.

Sec. 20207. Supply chain database and toolkit.

Sec. 20208. Agriculture and food system supply chain monitoring and assessment.

Sec. 20209. Definitions.

Sec. 20210. Departments of Commerce and Transportation supply chain report.

Sec. 20211. Supply chain report required.

Sec. 20212. National Commission on Critical Supply Chains.

Subtitle B—Strengthening Consumer Protections, Tourism, and Manufacturing

- Sec. 20211. National manufacturing advisory council.
- Sec. 20212. Availability of Travel Promotion Fund for Brand USA.
- Sec. 20213. Collection, verification, and disclosure of information by online marketplaces to inform consumers.
- Sec. 20214. Supercomputing For Safer Chemicals (SUPERSAFE) Consortium.
- Sec. 20215. GAO report on global semiconductor shortage.

#### Subtitle C—Defense Supply Chain Risk Management

- Sec. 20221. Risk management for Department of Defense supply chains.

### TITLE III—ENERGY

- Sec. 20301. Strategic transformer reserve and resilience program.
- Sec. 20302. Solar component manufacturing supply chain assistance.
- Sec. 20303. Support for the first three commercial-scale implementations of transformative industrial technologies.
- Sec. 20304. Improving the natural gas distribution system.
- Sec. 20305. Consideration of energy storage systems.
- Sec. 20306. Coordination of programs.
- Sec. 20307. State flex-tech energy program.

### TITLE IV—MEDICAL PRODUCT SUPPLY CHAIN IMPROVEMENTS

#### Subtitle A—Medical Product Innovation, Transparency, and Safety

- Sec. 20401. National Centers of Excellence in Advanced and Continuous Pharmaceutical Manufacturing.
- Sec. 20402. Notification, nondistribution, and recall of drugs.
- Sec. 20403. Reporting requirement for drug manufacturers.
- Sec. 20404. Enhanced penalties for false information and records destruction.

#### Subtitle B—Strengthening America’s Strategic National Stockpile

- Sec. 20411. Reimbursable transfers.
- Sec. 20412. Equipment maintenance.
- Sec. 20413. Supply chain flexibility manufacturing pilot.
- Sec. 20414. GAO study on the feasibility and benefits of a user fee agreement.
- Sec. 20415. Grants for State strategic stockpiles.
- Sec. 20416. Action reporting.
- Sec. 20417. Improved, transparent processes.
- Sec. 20418. Authorization of appropriations.
- Sec. 20419. GAO report on automated supply-chain tracking application.
- Sec. 20420. High-quality masks for children.

### DIVISION D—COMMITTEE ON FOREIGN AFFAIRS

- Sec. 30000. Short title.
- Sec. 30001. Definitions.
- Sec. 30002. Findings.
- Sec. 30003. Statement of policy.
- Sec. 30004. Sense of Congress.
- Sec. 30005. Rules of construction.

### TITLE I—INVESTING IN AMERICAN COMPETITIVENESS

#### Subtitle A—Science and Technology

- Sec. 30101. Authorization to assist United States companies with global supply chain diversification and management.
- Sec. 30102. Report on national technology and industrial base.

#### Subtitle B—Global Infrastructure and Energy Development

- Sec. 30111. Appropriate committees of Congress defined.
- Sec. 30112. Sense of Congress on international quality infrastructure investment standards.
- Sec. 30113. Supporting economic independence from the People’s Republic of China.
- Sec. 30114. Strategy for advanced and reliable energy infrastructure.
- Sec. 30115. Report on the People’s Republic of China’s investments in foreign energy development.
- Sec. 30116. Report on foreign investment in the agriculture sector of the United States.

#### Subtitle C—Economic Diplomacy and Leadership

- Sec. 30121. Findings on regional economic order.
- Sec. 30122. Report on entrenching American economic diplomacy in the Indo-Pacific.
- Sec. 30123. Sense of Congress on the need to bolster American leadership in the Asia Pacific Economic Cooperation.
- Sec. 30124. Task force to counter China’s economic coercion.
- Sec. 30125. Sense of Congress on digital technology issues.
- Sec. 30126. Digital dialogue and cooperation.
- Sec. 30127. Digital connectivity and cybersecurity partnership.
- Sec. 30128. Sense of Congress on ideological competition.
- Sec. 30129. Report on cooperation between China and United Arab Emirates.
- Sec. 30129A. Authorization to hire additional staff for the Office of Foreign Asset Control of the Department of the Treasury.

#### Subtitle D—Financial Diplomacy and Leadership

- Sec. 30131. Findings on Chinese financial industrial policy.
- Sec. 30132. Report on importance of American financial strength for global leadership.
- Sec. 30133. Review of Chinese companies on United States capital markets.
- Sec. 30134. Report on the implications of changes to cross-border payment and financial messaging systems.
- Sec. 30135. Report on links between private sector Chinese technology and social media companies and the People’s Liberation Army, Chinese intelligence, and the Chinese Communist Party.

### TITLE II—INVESTING IN ALLIANCES AND PARTNERSHIPS

#### Subtitle A—Strategic and Diplomatic Matters

- Sec. 30201. Appropriate committees of Congress defined.
- Sec. 30202. United States commitment and support for allies and partners in the Indo-Pacific.
- Sec. 30203. Boosting Quad cooperation.
- Sec. 30204. Establishment of Quad Intra-Parliamentary Working Group.
- Sec. 30205. Statement of policy on cooperation with ASEAN.
- Sec. 30206. Young Southeast Asian Leaders Initiative.
- Sec. 30207. Sense of Congress on engagement with G7 and G20 countries.

- Sec. 30208. Enhancing the United States-Taiwan partnership.
- Sec. 30209. Taiwan diplomatic review.
- Sec. 30210. Taiwan Peace and Stability Act.
- Sec. 30211. Taiwan International Solidarity Act.
- Sec. 30212. Taiwan Fellowship Program.
- Sec. 30213. Increasing Department of State personnel and resources devoted to the Indo-Pacific.
- Sec. 30214. Report on bilateral efforts to address Chinese fentanyl trafficking.
- Sec. 30215. Facilitation of increased equity investments under the Better Utilization of Investments Leading to Development Act of 2018.
- Sec. 30216. Expanding investment by United States International Development Finance Corporation for vaccine manufacturing, distribution, storage, and delivery.
- Sec. 30217. Actions to prevent the spread of the COVID–19 pandemic.
- Sec. 30218. Ensuring United States diplomatic posts align with American strategic national security and economic objectives.
- Sec. 30219. Authorization of appropriations for the Fulbright-Hays Program.
- Sec. 30219A. Supporting independent media and countering disinformation.
- Sec. 30219B. Global Engagement Center.
- Sec. 30219C. Report on origins of the COVID–19 pandemic.
- Sec. 30219D. Extension of Asia Reassurance Initiative Act of 2018.
- Sec. 30219E. China Watcher Program.
- Sec. 30219F. Liu Xiaobo Fund for Study of the Chinese Language.
- Sec. 30219G. Oversight of funds made available through the American Rescue Plan Act of 2021.
- Sec. 30219H. Requirements relating to vaccine branding.
- Sec. 30219I. National Intelligence Estimate on escalation and de-escalation of gray zone activities in great power competition.
- Sec. 30219J. Prioritizing Digital Infrastructure and Connectivity.
- Sec. 30219K. Report on multilateral efforts to address Latin American fentanyl trafficking and efforts between Latin America and China on fentanyl trafficking.
- Sec. 30219L. Report generation and sharing on long term cost of Belt and Road Initiative to third countries.
- Sec. 30219M. Sense of Congress regarding the status of China.
- Sec. 30219N. Report on providing access to uncensored media in China.
- Sec. 30219O. Report on open radio access networks.

#### Subtitle B—International Security Matters

- Sec. 30221. Appropriate committees of Congress.
- Sec. 30222. Additional funding for international military education and training in the Indo-Pacific.
- Sec. 30223. Statement of policy.
- Sec. 30224. Foreign military financing in the Indo-Pacific and authorization of appropriations for Southeast Asia maritime security programs and diplomatic outreach activities.
- Sec. 30225. Foreign military financing compact pilot program in the Indo-Pacific.
- Sec. 30226. Statement of policy on maritime freedom of operations in international waterways and airspace of the Indo-Pacific and on artificial land features in the South China Sea.
- Sec. 30227. Report on capability development of Indo-Pacific allies and partners.

- Sec. 30228. Statement of policy regarding the threat posed by the Chinese Communist Party to the North Atlantic Treaty Organization.
- Sec. 30229. Identification of PLA-supported institutions.
- Sec. 30229A. Prohibition on certain assistance to the Philippines.
- Sec. 30229B. Prioritization and protection of international research.

#### Subtitle C—Multilateral Strategies to Bolster American Power

- Sec. 30231. Findings on multilateral engagement.
- Sec. 30232. Statement of policy on America’s multilateral engagement.
- Sec. 30233. Support for Americans at the United Nations.
- Sec. 30234. Junior professional officers.
- Sec. 30235. Report on American employment in international organizations.

#### Subtitle D—Regional Strategies to Bolster American Power

- Sec. 30241. Statement of policy on cooperation with allies and partners around the world.
- Sec. 30241A. Report on indigenous engagement.

### PART 1—WESTERN HEMISPHERE

- Sec. 30242. Sense of Congress regarding United States-Canada relations.
- Sec. 30243. Sense of Congress regarding China’s arbitrary imprisonment of Canadian citizens.
- Sec. 30244. Strategy to enhance cooperation with Canada.
- Sec. 30245. Sense of Congress.
- Sec. 30246. Strategy to strengthen economic competitiveness, governance, human rights, and the rule of law in Latin America and the Caribbean.
- Sec. 30247. Engagement in international organizations and the defense sector in Latin America and the Caribbean.
- Sec. 30248. Defense cooperation in Latin America and the Caribbean.
- Sec. 30249. Engagement with civil society in Latin America and the Caribbean regarding accountability, human rights, and the risks of pervasive surveillance technologies.
- Sec. 30250. Caribbean energy initiative as alternative to China’s Belt and Road Initiative.
- Sec. 30251. United States-Caribbean Resilience Partnership.
- Sec. 30252. Countering China’s educational and cultural diplomacy in Latin America.
- Sec. 30253. Narcotics trafficking in Latin America and the Caribbean.
- Sec. 30254. Report on major Chinese infrastructure investments.

### PART 2—TRANSATLANTIC RELATIONSHIPS

- Sec. 30255. Sense of Congress on transatlantic relationships.
- Sec. 30256. Strategy to enhance transatlantic cooperation with respect to the People’s Republic of China.
- Sec. 30257. Enhancing transatlantic cooperation on promoting private sector finance.
- Sec. 30258. Report and briefing on cooperation between China and Iran and between China and Russia.
- Sec. 30259. Report and briefing on China’s election interference.
- Sec. 30259A. Intelligence assessment.

### PART 3—SOUTH AND CENTRAL ASIA

- Sec. 30261. Sense of Congress on South and Central Asia.
- Sec. 30262. Strategy to enhance cooperation with South and Central Asia.
- Sec. 30263. Indian Ocean region strategic review.

## PART 4—AFRICA

- Sec. 30271. Assessment of political, economic, and security activity of the People's Republic of China in Africa.
- Sec. 30272. Increasing the competitiveness of the United States in Africa.
- Sec. 30273. Digital security cooperation with respect to Africa.
- Sec. 30274. Support for Young African Leaders Initiative.
- Sec. 30275. Africa broadcasting networks.
- Sec. 30276. Africa energy security and diversification.

## PART 5—MIDDLE EAST AND NORTH AFRICA

- Sec. 30281. Strategy to counter Chinese influence in, and access to, the Middle East and North Africa.
- Sec. 30282. Sense of Congress on Middle East and North Africa engagement.
- Sec. 30283. Sense of Congress on People's Republic of China-Iran relationship.

## PART 6—ARCTIC REGION

- Sec. 30285. Arctic diplomacy.
- Sec. 30286. Statement of policy regarding observer status for Taiwan on the Arctic Council.

## PART 7—OCEANIA

- Sec. 30291. Statement of policy on United States engagement in Oceania.
- Sec. 30292. Oceania strategic roadmap.
- Sec. 30293. Oceania Security Dialogue.
- Sec. 30294. Oceania Peace Corps partnerships.

## PART 8—PACIFIC ISLANDS

- Sec. 30295. Short title.
- Sec. 30296. Findings.
- Sec. 30297. Statement of policy.
- Sec. 30298. Definition.
- Sec. 30299. Authority to consolidate reports; form of reports.
- Sec. 30299A. Diplomatic presence in the Pacific Islands.
- Sec. 30299B. Coordination with regional allies and partners.
- Sec. 30299C. Climate resilient development in the Pacific Islands.
- Sec. 30299D. International law enforcement academy for the Pacific Islands.
- Sec. 30299E. Security assistance for the Pacific Islands.
- Sec. 30299F. Countering transnational crime.
- Sec. 30299G. Emergency preparedness initiative for the Pacific Islands.
- Sec. 30299H. Peace Corps in the Pacific Islands.
- Sec. 30299I. Pacific Islands leadership development initiative.

## TITLE III—INVESTING IN OUR VALUES

- Sec. 30301. Sense of Congress on the continued violation of rights and freedoms of the people of Hong Kong.
- Sec. 30302. Authorization of appropriations for promotion of democracy in Hong Kong.
- Sec. 30303. Hong Kong people's freedom and choice.

- Sec. 30304. Export prohibition of munitions items to the Hong Kong police force.
- Sec. 30305. Sense of Congress on treatment of Uyghurs and other ethnic minorities in the Xinjiang Uyghur Autonomous Region.
- Sec. 30306. Uyghur human rights protection.
- Sec. 30307. Removal of members of the United Nations Human Rights Council that commit human rights abuses.
- Sec. 30308. Policy with respect to Tibet.
- Sec. 30309. United States policy and international engagement on the succession or reincarnation of the Dalai Lama and religious freedom of Tibetan Buddhists.
- Sec. 30310. Development and deployment of internet freedom and Great Firewall circumvention tools for the people of Hong Kong.
- Sec. 30311. Authorization of appropriations for protecting human rights in the People's Republic of China.
- Sec. 30312. Modifications to and reauthorization of sanctions with respect to human rights violations.
- Sec. 30313. Sense of congress condemning anti-asian racism and discrimination.
- Sec. 30314. Annual reporting on censorship of free speech with respect to international abuses of human rights.
- Sec. 30315. Policy toward the XXIV Olympic Winter Games and the XIII Paralympic Winter Games.
- Sec. 30316. Review and controls on export of items with critical capabilities to enable human rights abuses.
- Sec. 30317. Sense of Congress on commercial export control policy.
- Sec. 30318. Imposition of sanctions with respect to systematic rape, coercive abortion, forced sterilization, or involuntary contraceptive implantation in the Xinjiang Uyghur Autonomous Region.
- Sec. 30319. Sense of Congress regarding censorship of political speech.
- Sec. 30320. Report on manner and extent to which the Government of China exploits Hong Kong to circumvent United States laws and protections.
- Sec. 30321. Sense of Congress regarding annual Country Reports on Human Rights Practices.
- Sec. 30322. Sense of Congress regarding press freedom in the People's Republic of China.
- Sec. 30323. United States Special Envoy for Xinjiang Province.
- Sec. 30324. China Censorship Monitor and Action Group.
- Sec. 30325. Public disclosure on BIS licensing information.
- Sec. 30326. Modification of authority of the President under the Export Control Reform Act of 2018.
- Sec. 30327. Determination with respect to the imposition of sanctions on entities involved in using Uyghur forced labor.

#### TITLE IV—INVESTING IN OUR ECONOMIC STATECRAFT

- Sec. 30401. Sense of Congress regarding the People's Republic of China's industrial policy.
- Sec. 30402. Economic defense response teams.
- Sec. 30403. Countering overseas kleptocracy.
- Sec. 30404. Annual report on Chinese surveillance companies.
- Sec. 30405. Report on the People's Republic of China's investments in foreign mining and processing industries.

#### TITLE V—ENSURING STRATEGIC SECURITY

- Sec. 30501. Cooperation on a strategic nuclear dialogue.
- Sec. 30502. Report on United States efforts to engage the People's Republic of China on nuclear issues and ballistic missile issues.
- Sec. 30503. Countering the People's Republic of China's proliferation of ballistic missiles and nuclear technology to the Middle East.
- Sec. 30504. Report on support for Biodefense Steering Committee in implementation of National Biodefense Strategy.

#### TITLE VI—INVESTING IN A SUSTAINABLE FUTURE

- Sec. 30601. Ensuring national security and economic priorities with the People's Republic of China and other countries account for environmental issues and climate change.
- Sec. 30602. Enhancing security considerations for global climate disruptions.
- Sec. 30603. Balancing accountability and cooperation with China.
- Sec. 30604. Promoting responsible development alternatives to the People's Republic of China's Belt and Road Initiative.
- Sec. 30605. Using climate diplomacy to better serve national security and economic interests.
- Sec. 30606. Driving a global climate change resilience strategy.
- Sec. 30607. Addressing international climate change mitigation, adaptation, and security.
- Sec. 30608. Reducing the negative impacts from short-lived climate pollutants.
- Sec. 30609. Building United States economic growth and technological innovation through the Green Climate Fund.
- Sec. 30610. Ensuring a whole-of-government response to climate action.
- Sec. 30611. Working with international partners to reduce deforestation.
- Sec. 30612. Controlling the export of electronic waste to protect United States supply chains.
- Sec. 30613. Rural Export Center.
- Sec. 30614. Report on global exports of natural gas production.
- Sec. 30615. Report on global CCP investment in port infrastructure.

#### TITLE VII—UNITED STATES COMMITMENT TO PEACEKEEPING

- Sec. 30701. Statement of policy concerning United States engagement regarding United Nations peacekeeping operations.
- Sec. 30702. Repeal of the 25 percent cap on United States contributions to United Nations peacekeeping operations.
- Sec. 30703. Reports on United States efforts to achieve United Nations peacekeeping reform.
- Sec. 30704. Strategy to advocate for peacekeeping reforms at the United Nations.
- Sec. 30705. Reporting requirements.

#### TITLE VIII—PREVENTING FUTURE PANDEMICS

- Sec. 30801. Short title.
- Sec. 30802. Definitions.
- Sec. 30803. Study on risk of wildlife markets on the emergence of novel viral pathogens.
- Sec. 30804. Country-driven approach to end the commercial trade in live wildlife and associated wildlife markets.
- Sec. 30805. Sense of congress.
- Sec. 30806. Statement of policy.
- Sec. 30807. Prevention of future zoonotic spillover events.

- Sec. 30808. One health task force.
- Sec. 30809. Reservation of rights.

DIVISION E—COMMITTEE ON OVERSIGHT AND REFORM

- Sec. 40101. Federal Rotational Cyber Workforce Program.
- Sec. 40102. AI in counterterrorism oversight enhancement.
- Sec. 40103. Defense priorities effectiveness study.
- Sec. 40104. Inflation study.
- Sec. 40105. GAO report on inflation.
- Sec. 40106. American Security Drone Act.

DIVISION F—COMMITTEE ON HOMELAND SECURITY

- Sec. 50101. Homeland procurement reform.
- Sec. 50102. DHS software supply chain risk management.
- Sec. 50103. Department of Homeland Security Mentor-Protégé Program.
- Sec. 50104. Unmanned aerial security.
- Sec. 50105. Metrics and reports on technologies relating to irregular migration along the southern border.
- Sec. 50106. Report on current standards and guidelines for managing ports of entry under the control of the Department of Homeland Security.
- Sec. 50107. Improving cybersecurity of small entities.
- Sec. 50108. Critical Technology Security Centers.

DIVISION G—COMMITTEE ON FINANCIAL SERVICES

TITLE I—U.S. POLICY ON WORLD BANK GROUP AND ASIAN DEVELOPMENT BANK LOANS TO CHINA

- Sec. 60101. U.S. policy on World Bank Group and Asian Development Bank Loans to China.

TITLE II—PROHIBITIONS OR CONDITIONS ON CERTAIN TRANSMITTALS OF FUNDS

- Sec. 60201. Findings.
- Sec. 60202. Prohibitions or conditions on certain transmittals of funds.

TITLE III—U.S. STOCK EXCHANGE TRADING PROHIBITION FOR 2 CONSECUTIVE AUDITOR NON-INSPECTION YEARS

- Sec. 60301. Trading prohibition for 2 consecutive non-inspection years.

TITLE IV—COMBATING WILDLIFE TRAFFICKING FINANCING AND PROCEEDS STUDY ACT

- Sec. 60401. Findings.
- Sec. 60402. Study.

TITLE V—STUDY ON CHINESE SUPPORT FOR AFGHAN ILLICIT FINANCE

Sec. 60501. Study on Chinese support for Afghan illicit finance.

TITLE VI—U.S. POLICY ON MULTILATERAL DEVELOPMENT BANK  
CO-FINANCING ARRANGEMENTS WITH CHINA'S INFRASTRUC-  
TURE BANK

Sec. 60601. U.S. policy on co-financing arrangements at the multilateral devel-  
opment banks.

TITLE VII—CHINA FINANCIAL THREAT MITIGATION

Sec. 60701. China financial threat mitigation.

TITLE VIII—SUPPORT FOR DEBT RELIEF FOR DEVELOPING  
COUNTRIES

Sec. 60801. Support for international initiatives to provide debt relief to devel-  
oping countries with unsustainable levels of debt.

TITLE IX—SECURING AMERICA'S VACCINES FOR EMERGENCIES

Sec. 60901. Short title.

Sec. 60902. Securing essential medical materials.

Sec. 60903. Investment in supply chain security.

TITLE X—COVID-19 EMERGENCY MEDICAL SUPPLIES  
ENHANCEMENT

Sec. 61001. Short title.

Sec. 61002. Determination on emergency supplies and other public health  
emergencies.

Sec. 61003. Exercise of title I authorities in relation to contracts by State,  
local, or Tribal governments.

Sec. 61004. Engagement with the private sector.

Sec. 61005. Enhancement of supply chain production.

Sec. 61006. Enhanced reporting during COVID-19 emergency.

Sec. 61007. Report on activities involving small business.

Sec. 61008. Definitions.

TITLE XI—AFGHAN TRADE ZONES FOR LICIT TRADE

Sec. 61101. Study and report on feasibility of establishment and implementa-  
tion of Afghan trade zones for licit trade.

TITLE XII—INTERAGENCY TASK FORCE TO ADDRESS CHINESE  
MARKET MANIPULATION IN THE UNITED STATES

Sec. 61201. Establishment of interagency task force to address Chinese market  
manipulation in the United States.

Sec. 61202. Expansion of study and strategy on money laundering by the Peo-  
ple's Republic of China to include risks of contributing to cor-  
ruption.

TITLE XIII—DISCLOSURE REQUIREMENTS RELATING TO  
CERTAIN EXEMPTED TRANSACTIONS

Sec. 61301. In general.

TITLE XIV—SAFE BANKING

- Sec. 61401. Short title; table of contents; purpose.
- Sec. 61402. Safe harbor for depository institutions.
- Sec. 61403. Protections for ancillary businesses.
- Sec. 61404. Protections under Federal law.
- Sec. 61405. Rules of construction.
- Sec. 61406. Requirements for filing suspicious activity reports.
- Sec. 61407. Guidance and examination procedures.
- Sec. 61408. Annual diversity and inclusion report.
- Sec. 61409. GAO study on diversity and inclusion.
- Sec. 61410. GAO study on effectiveness of certain reports on finding certain persons.
- Sec. 61411. Application of this title with respect to hemp-related legitimate businesses and hemp-related service providers.
- Sec. 61412. Banking services for hemp-related legitimate businesses and hemp-related service providers.
- Sec. 61413. Requirements for deposit account termination requests and orders.
- Sec. 61414. Definitions.
- Sec. 61415. Discretionary surplus funds.

#### DIVISION H—COMMITTEE ON NATURAL RESOURCES

##### TITLE I—ILLEGAL FISHING AND FORCED LABOR PREVENTION

- Sec. 70101. Definitions.
- Sec. 70102. Authorization of appropriations.

##### Subtitle A—Combating Human Trafficking Through Seafood Import Monitoring

- Sec. 70111. Definitions.
- Sec. 70112. Expansion of Seafood Import Monitoring Program to all species.
- Sec. 70113. Enhancement of Seafood Import Monitoring Program Automated Commercial Environment Message Set.
- Sec. 70114. Additional data requirements for Seafood Import Monitoring Program data collection.
- Sec. 70115. Import audits.
- Sec. 70116. Availability of fisheries information.
- Sec. 70117. Authority to hold fish products.
- Sec. 70118. Report on seafood import monitoring.
- Sec. 70119. Authorization of appropriations.

##### Subtitle B—Strengthening International Fisheries Management to Combat Human Trafficking

- Sec. 70121. Denial of port privileges.
- Sec. 70122. Identification and certification criteria.
- Sec. 70123. Illegal, unreported, or unregulated fishing defined.
- Sec. 70124. Equivalent conservation measures.
- Sec. 70125. Regulations.

##### Subtitle C—Maritime Awareness

- Sec. 70131. Automatic identification system requirements.

##### TITLE II—DRIFTNET MODERNIZATION AND BYCATCH REDUCTION

- Sec. 70201. Definition.

- Sec. 70202. Findings and policy.
- Sec. 70203. Transition program.
- Sec. 70204. Exception.
- Sec. 70205. Fees.

#### TITLE III—MARINE MAMMAL RESEARCH AND RESPONSE

- Sec. 70301. Data collection and dissemination.
- Sec. 70302. Stranding or entanglement response agreements.
- Sec. 70303. Unusual mortality event activity funding.
- Sec. 70304. Liability.
- Sec. 70305. National Marine Mammal Tissue Bank and tissue analysis.
- Sec. 70306. Marine Mammal Rescue and Response Grant Program and Rapid Response Fund.
- Sec. 70307. Health MAP.
- Sec. 70308. Reports to Congress.
- Sec. 70309. Authorization of appropriations.
- Sec. 70310. Definitions.
- Sec. 70311. Study on marine mammal mortality.

#### TITLE IV—REAUTHORIZATION OF CORAL REEF CONSERVATION ACT OF 2000

- Sec. 70401. Reauthorization of Coral Reef Conservation Act of 2000.
- Sec. 70402. Modification to section 204 of the Coral Reef Conservation Act of 2000.

#### TITLE V—UNITED STATES CORAL REEF TASK FORCE

- Sec. 70501. Establishment.
- Sec. 70502. Duties.
- Sec. 70503. Membership.
- Sec. 70504. Responsibilities of Federal agency members.
- Sec. 70505. Working groups.
- Sec. 70506. Definitions.

#### TITLE VI—DEPARTMENT OF THE INTERIOR CORAL REEF AUTHORITIES

- Sec. 70601. Coral reef conservation and restoration assistance.

#### TITLE VII—SUSAN L. WILLIAMS NATIONAL CORAL REEF MANAGEMENT FELLOWSHIP

- Sec. 70701. Definitions.
- Sec. 70702. Establishment of fellowship program.
- Sec. 70703. Fellowship awards.
- Sec. 70704. Authorization of appropriations.

#### TITLE VIII—BUY AMERICAN SEAFOOD

- Sec. 70801. Sense of Congress.
- Sec. 70802. Caught in the USA.

#### TITLE IX—INSULAR AFFAIRS

- Sec. 70901. Ocean and Coastal Mapping Integration Act.

#### TITLE X—STUDIES AND REPORTS

- Sec. 71001. Deep sea mining.
- Sec. 71002. National Academies assessment of oceanic blue carbon.
- Sec. 71003. National Academies assessment of oil spills and plastic ingestion on sea life.
- Sec. 71004. Offshore aquaculture.
- Sec. 71005. Expanding opportunities to increase the diversity, equity, and inclusion of highly skilled science, technology, engineering, and mathematics (“STEM”) professionals in ocean research and development.
- Sec. 71006. Study on effects of 6PPD-quinone.

#### TITLE XI—MISCELLANEOUS

- Sec. 71101. Law enforcement attache deployment.
- Sec. 71102. Lacey Act amendments.
- Sec. 71103. Shark fin sales elimination.
- Sec. 71104. Offshore wind energy deployment.
- Sec. 71105. Shovel-ready restoration grants for coastlines and fisheries.
- Sec. 71106. Leasing on the Outer Continental Shelf.
- Sec. 71107. Tropical Forest and Coral Reef Conservation Reauthorization.
- Sec. 71108. Prohibition on Sale of American Mink.

#### TITLE XII—BOLSTERING LONG-TERM UNDERSTANDING AND EXPLORATION OF THE GREAT LAKES, OCEANS, BAYS, AND ESTUARIES

- Sec. 71201. Purpose.
- Sec. 71202. Sense of Congress.
- Sec. 71203. Definition of Administrator.
- Sec. 71204. Increased coordination among agencies with respect to data and monitoring.
- Sec. 71205. Technology innovation to combat illegal, unreported, and unregulated fishing.
- Sec. 71206. Workforce study.
- Sec. 71207. Accelerating innovation at Cooperative Institutes.
- Sec. 71208. Ocean Innovation Prize and prioritization.
- Sec. 71209. Reauthorization of NOAA programs.
- Sec. 71210. Blue Economy valuation.
- Sec. 71211. Advanced Research Projects Agency—Oceans.

#### TITLE XIII—CLIMATE CHANGE EDUCATION

- Sec. 71301. Findings.
- Sec. 71302. Definitions.
- Sec. 71303. Climate Change Education Program.
- Sec. 71304. Grant program.
- Sec. 71305. Report.
- Sec. 71306. Authorization of appropriations.

#### TITLE XIV—OFFICE OF EDUCATION TECHNOLOGY TO SUPPORT THE BUREAU OF INDIAN EDUCATION

- Sec. 71401. Updating Bureau of Indian Affairs programs.
- Sec. 71402. Establishment for the Office of Education Technology to support the Bureau of Indian Education.

TITLE XV—PUBLIC LAND RENEWABLE ENERGY DEVELOPMENT  
ACT

- Sec. 71501. Definitions.
- Sec. 71502. Land use planning; updates to programmatic environmental impact statements.
- Sec. 71503. Limited grandfathering.
- Sec. 71504. Disposition of revenues.
- Sec. 71505. Savings.

TITLE XVI—INCREASING COMMUNITY ACCESS TO RESILIENCY  
GRANTS

- Sec. 71601. Centralized website for resiliency grants.

TITLE XVII—KEEP AMERICA’S WATERFRONTS WORKING

- Sec. 71701. Working Waterfronts Grant Program.

TITLE XVIII—BLUE CARBON FOR OUR PLANET

- Sec. 71801. Interagency working group.
- Sec. 71802. National map of coastal blue carbon ecosystems.
- Sec. 71803. Restoration and protections for existing coastal blue carbon ecosystems.
- Sec. 71804. NAS assessment of containment of carbon dioxide in deep seafloor environment.
- Sec. 71805. Authorization of appropriations.
- Sec. 71806. Definitions.

TITLE XIX—ELIMINATE, NEUTRALIZE, AND DISRUPT WILDLIFE  
TRAFFICKING REAUTHORIZATION AND IMPROVEMENTS

- Sec. 71901. Sense of Congress.
- Sec. 71902. Definitions.
- Sec. 71903. Framework for interagency response and reporting.
- Sec. 71904. Funding safeguards.
- Sec. 71905. Issuance of subpoenas in wildlife trafficking civil penalty enforcement actions.

DIVISION I—COMMITTEE ON THE JUDICIARY

TITLE I—SUBCOMMITTEE ON COURTS, INTELLECTUAL  
PROPERTY, AND THE INTERNET

- Sec. 80101. Basic Research.
- Sec. 80102. Collection of demographic information for patent inventors.
- Sec. 80103. Stopping harmful offers on platforms by screening against fakes in e-commerce.

TITLE II—SUBCOMMITTEE ON ANTITRUST, COMMERCIAL AND  
ADMINISTRATIVE LAW

- Sec. 80201. Premerger notification filing fees.
- Sec. 80202. Authorization of appropriations.
- Sec. 80203. Mergers involving foreign government subsidies.

TITLE III—IMMIGRATION PROVISIONS

- Sec. 80301. W visas.
- Sec. 80302. Start-up entities; nonimmigrant entrepreneurs and employees.
- Sec. 80303. Advanced degree stem graduates.
- Sec. 80304. Conforming amendments.
- Sec. 80305. Rulemaking.
- Sec. 80306. Reciprocal visas for nationals of South Korea.
- Sec. 80307. Special immigrant visas for certain Fulbright scholars.
- Sec. 80308. Citizenship for certain children born outside the United States.
- Sec. 80309. Foreign Corruption Accountability.

TITLE IV—ADMISSION OF ESSENTIAL SCIENTISTS AND  
TECHNICAL EXPERTS

- Sec. 80401. Admission of essential scientists and technical experts to promote and protect National Security Innovation Base.

TITLE V—CRIMINAL PROVISIONS

- Sec. 80501. Justice for Victims of Kleptocracy.

TITLE VI—OTHER MATTERS

- Sec. 80601. Registration of agent.

DIVISION J—COMMITTEE ON EDUCATION AND LABOR

TITLE I—NATIONAL APPRENTICESHIP ACT OF 2022

- Sec. 90101. Short title.
- Sec. 90102. Effective date.
- Sec. 90103. Amendment.
- Sec. 90104. Conforming amendments.

TITLE II—ELEMENTARY AND SECONDARY EDUCATION

- Sec. 90201. Postsecondary stem pathways grants.
- Sec. 90202. Improving access to elementary and secondary computer science education.

TITLE III—HIGHER EDUCATION

- Sec. 90301. Reauthorization of international education programs under title VI of the Higher Education Act of 1965.
- Sec. 90302. Confucius Institutes.
- Sec. 90303. Sustaining the Truman Foundation and the Madison Foundation.
- Sec. 90304. Disclosures of foreign gifts and contracts at institutions of higher education.
- Sec. 90305. Eliminating short-term education loan programs; job training Federal Pell grants; technical corrections.
- Sec. 90306. College transparency.

TITLE IV—IMPACT ACT

- Sec. 90401. Telecommunications workforce training grant program.

TITLE V—BUILDING U.S. INFRASTRUCTURE BY LEVERAGING  
DEMANDS FOR SKILLS (BUILDS)

- Sec. 90501. Definitions.

- Sec. 90502. Grants authorized.
- Sec. 90503. Application.
- Sec. 90504. Eligible activities.
- Sec. 90505. Administration by the Secretary.
- Sec. 90506. Authorization of appropriations.
- Sec. 90507. Special rule.

TITLE VI—DR. DAVID SATCHER CYBERSECURITY EDUCATION  
GRANT PROGRAM

- Sec. 90601. Dr. David Satcher cybersecurity education grant program.

TITLE VII—CRITICAL SUPPLY CHAIN SECTORS APPRENTICESHIPS  
GRANTS

- Sec. 90701. Grant requirements.

TITLE VIII—AI JOBS ACT OF 2021

- Sec. 90801. Sense of Congress.
- Sec. 90802. Report on artificial intelligence.
- Sec. 90803. Definitions.

TITLE IX—SUPPORTING APPRENTICESHIP COLLEGES ACT OF  
2021

- Sec. 90901. Community outreach grant program.
- Sec. 90902. Student support grant program for expanded academic advising.
- Sec. 90903. Definitions.

DIVISION K—MATTERS RELATING TO TRADE

- Sec. 100001. Short title.

TITLE I—TRADE ADJUSTMENT ASSISTANCE

- Sec. 101001. Short title.
- Sec. 101002. Application of provisions relating to trade adjustment assistance.

Subtitle A—Trade Adjustment Assistance for Workers

- Sec. 101101. Filing petitions.
- Sec. 101102. Group eligibility requirements.
- Sec. 101103. Application of determinations of eligibility to workers employed by successors-in-interest.
- Sec. 101104. Provision of benefit information to workers.
- Sec. 101105. Qualifying requirements for workers.
- Sec. 101106. Modification to trade readjustment allowances.
- Sec. 101107. Automatic extension of trade readjustment allowances.
- Sec. 101108. Employment and case management services.
- Sec. 101109. Training.
- Sec. 101110. Job search, relocation, and child and other dependent care allowances.
- Sec. 101111. Agreements with States.
- Sec. 101112. Reemployment trade adjustment assistance program.
- Sec. 101113. Extension of trade adjustment assistance to public agency workers.
- Sec. 101114. Definitions.

- Sec. 101115. Requirements for certain territories.
- Sec. 101116. Subpoena power.

#### Subtitle B—Trade Adjustment Assistance for Firms

- Sec. 101201. Petitions and determinations.
- Sec. 101202. Approval of adjustment proposals.
- Sec. 101203. Technical assistance.
- Sec. 101204. Definitions.
- Sec. 101205. Plan for sustained outreach to potentially-eligible firms.

#### Subtitle C—Trade Adjustment Assistance for Communities and Community Colleges

- Sec. 101301. Trade adjustment assistance for communities.
- Sec. 101302. Trade adjustment assistance for community colleges and career training.

#### Subtitle D—Trade Adjustment Assistance for Farmers

- Sec. 101401. Definitions.
- Sec. 101402. Group eligibility requirements.
- Sec. 101403. Benefit information to agricultural commodity producers.
- Sec. 101404. Qualifying requirements and benefits for agricultural commodity producers.

#### Subtitle E—Authorizations of Appropriations and Other Matters

- Sec. 101501. Extension of trade adjustment assistance program.
- Sec. 101502. Applicability of trade adjustment assistance provisions.

#### Subtitle F—Health Care Tax Credit

- Sec. 101601. Permanent credit for health insurance costs.

### TITLE II—IMPROVEMENTS TO TRADE REMEDIES LAWS

#### Subtitle A—Successive Investigations

- Sec. 102001. Establishment of special rules for determination of material injury in the case of successive antidumping and countervailing duty investigations.
- Sec. 102002. Initiation of successive antidumping and countervailing duty investigations.
- Sec. 102003. Issuance of determinations with respect to successive antidumping and countervailing duty investigations.

#### Subtitle B—Responding to Market Distortions

- Sec. 102101. Addressing cross-border subsidies in countervailing duty investigations.
- Sec. 102102. Modification of definition of ordinary course of trade to specify that an insufficient quantity of foreign like products constitutes a situation outside the ordinary course of trade.
- Sec. 102103. Modification of adjustments to export price and constructed export price with respect to duty drawback.
- Sec. 102104. Modification of determination of constructed value to include distortions of costs that occur in foreign countries.

Sec. 102105. Special rules for calculation of cost of production and constructed value to address distorted costs.

#### Subtitle C—Preventing Circumvention

Sec. 102201. Modification of requirements in circumvention inquiries.  
 Sec. 102202. Requirement of provision by importer of certification by importer or other party.  
 Sec. 102203. Clarification of authority for Department of Commerce regarding determinations of class or kind of merchandise.  
 Sec. 102204. Asset requirements applicable to nonresident importers.

#### Subtitle D—Countering Currency Undervaluation

Sec. 102301. Investigation or review of currency undervaluation under countervailing duty law.  
 Sec. 102302. Determination of benefit with respect to currency undervaluation.

#### Subtitle E—Preventing Duty Evasion

Sec. 102401. Limitation on protest against decisions of U.S. Customs and Border Protection of claims of evasion of antidumping and countervailing duty orders.  
 Sec. 102402. Procedures for investigating claims of evasion of safeguard actions.  
 Sec. 102403. Application of provisions relating to certain proprietary information.

#### Subtitle F—General Provisions

Sec. 102501. Application to Canada and Mexico.  
 Sec. 102502. Repeal of the Softwood Lumber Act of 2008.  
 Sec. 102503. Enforcement actions relating to cheese subject to an in-quota rate of duty.  
 Sec. 102504. Effective date.

### TITLE III—IMPORT SECURITY AND FAIRNESS ACT

Sec. 103001. Short title.  
 Sec. 103002. Additional exceptions to exemptions for de minimis treatment under the Tariff Act of 1930.  
 Sec. 103003. Additional administrative provisions relating to de minimis treatment under the Tariff Act of 1930.  
 Sec. 103004. Effective date.

### TITLE IV—NATIONAL CRITICAL CAPABILITIES REVIEWS

Sec. 104001. National critical capabilities reviews.

### TITLE V—MODIFICATION AND EXTENSION OF GENERALIZED SYSTEM OF PREFERENCES

Sec. 105001. Modification and extension of Generalized System of Preferences.

Sec. 105002. United States International Trade Commission study.

TITLE VI—REAUTHORIZATION OF THE AMERICAN MANUFACTURING COMPETITIVENESS ACT OF 2016 AND OTHER MATTERS

Sec. 106001. Reauthorization of american manufacturing competitiveness act of 2016.

Sec. 106002. Limitation on duty suspensions or reductions for finished goods.

Sec. 106003. Sense of Congress on United States commitment to the World Trade Organization.

Sec. 106004. Authority of U.S. Customs and Border Protection to consolidate, modify, or reorganize Customs revenue functions.

Sec. 106005. Prohibition on large scale transportation of sodium cyanide briquettes for mining purposes in the United States.

TITLE VII—TEMPORARY DUTY SUSPENSIONS AND REDUCTIONS

Sec. 107001. Reference.

Subtitle A—New Duty Suspensions and Reductions

Sec. 107101. Shelled pine nuts.

Sec. 107102. Licorice extract.

Sec. 107103. Refined Carrageenan.

Sec. 107104. Irish dairy chocolate crumb.

Sec. 107105. Pepperoncini, preserved in vinegar.

Sec. 107106. Coconut water in PET bottles.

Sec. 107107. 9,11-Octadecadienoic acid.

Sec. 107108. Liquid galacto-oligosaccharides.

Sec. 107109. Beverage containing coconut water.

Sec. 107110. Animal feed additive containing guanidinoacetic acid.

Sec. 107111. Tungsten concentrate.

Sec. 107112. Piperylene.

Sec. 107113. Normal paraffin M (alkanes C10–C14).

Sec. 107114. Neodymium (Nd) metal.

Sec. 107115. Praseodymium (Pr) metal.

Sec. 107116. Heavy rare earth metals, dysprosium (Dy) metal and terbium (Tb) metal.

Sec. 107117. Scandium crystal.

Sec. 107118. Hexafluorotitanic acid.

Sec. 107119. Silica gel cat litter with tray.

Sec. 107120. Dioxosilane spherical particles (mean particle size 0.046–0.054 mm).

Sec. 107121. Silica gel cat litter.

Sec. 107122. Sulfuryl dichloride.

Sec. 107123. FS-10D acicular electroconductive tin oxide.

Sec. 107124. Certain potassium fluoride.

Sec. 107125. Other potassium fluoride.

Sec. 107126. LiPF<sub>6</sub>.

Sec. 107127. LiPO<sub>2</sub>F<sub>2</sub>.

Sec. 107128. Ammonium fluoroborate.

Sec. 107129. Sodium tetrafluoroborate.

Sec. 107130. Ferric chloride.

Sec. 107131. Ferrous chloride.

Sec. 107132. Cupric chloride dihydrate.

Sec. 107133. Copper chloride anhydrous.

- Sec. 107134. Manganese chloride anhydrous.
- Sec. 107135. Manganese chloride tetrahydrate.
- Sec. 107136. Reducing agent.
- Sec. 107137. Manganese carbonate.

- Sec. 107643. Phthalocyanine derivative.
- Sec. 107644. Mixtures of Cocamidopropyl betaine, glycol distearate, Laureth-4, and water.
- Sec. 107645. Mixtures of tall oil mono-, di-, and triglycerides.
- Sec. 107646. Tallow-bis(2-hydroxyethyl) amines.
- Sec. 107647. Additive mixtures for metalworking fluids.
- Sec. 107648. Naphthenic acids.
- Sec. 107649. Hydroxytyrosol powders.
- Sec. 107650. Secondary alcohol ethoxylates.
- Sec. 107651. Ethylene glycol dimerate.
- Sec. 107652. Two-part liquid silicone kits.
- Sec. 107653. Hydrophobic precipitated silica.
- Sec. 107654. Silane, trimethoxyethyl-, hydrolysis products.
- Sec. 107655. 1,1,1-Trimethyl-N-(trimethylsilyl)silanamine hydrolysis products.
- Sec. 107656. Waterborne epoxy curing agents.
- Sec. 107657. Preparations based on 1-phenylcosane-1,3-dione.
- Sec. 107658. Mixtures of 2-Mercaptopropionic acid, methyl ester, O-ethyl dithiocarbonate.
- Sec. 107659. Epoxy curing agents.
- Sec. 107660. Aliphatic amine curing agents.
- Sec. 107661. Non-halogenated flame retardants.
- Sec. 107662. Ligaphob N 90.

- Sec. 107663. Organomodified siloxane.
- Sec. 107664. Methyl palmitate-stearate, hydrogenated.
- Sec. 107665. Olfine E1010.
- Sec. 107666. Certain non-halogenated flame retardants.
- Sec. 107667. Flame retardants.
- Sec. 107668. Preparations based on acetyl hexapeptide-8 and pentapeptide-18.
- Sec. 107669. Lithium silicon oxide.
- Sec. 107670. Branched olefin from propylene polymerization.
- Sec. 107671. Polypropylene pellets.
- Sec. 107672. Propylene-ethylene copolymer.
- Sec. 107673. Ethylene-propylene copolymers.
- Sec. 107674. Benzene alkylated with polypropylene.
- Sec. 107675. Chlorinated polyolefin.
- Sec. 107676. Adsorbent resin.
- Sec. 107677. Vinyl chloride-hydroxypropyl acrylate copolymer.
- Sec. 107678. Vinyl chloride ethylene copolymer with hydrophic properties.
- Sec. 107679. Fluids with boiling points above 170 °C.
- Sec. 107680. Formulations of functionalized perfluoropolyether.
- Sec. 107681. Perfluoropolyether-urethane acrylate.
- Sec. 107682. PVDF homopolymer/PVDF/CTFE copolymer mixtures.
- Sec. 107683. Chemically modified PVDF.
- Sec. 107684. Fluoropolymer, fluoroethylene-alkyl vinyl ether alternative copolymers.
- Sec. 107685. Copolymer of vinyl acetate and higher vinyl esters.
- Sec. 107686. Food-grade vinyl acetate copolymer.
- Sec. 107687. Vinyl chloride ethylene with enhanced properties.
- Sec. 107688. Vinyl acetate ethylene copolymer with enhanced properties.
- Sec. 107689. Food-grade polyvinyl acetate homopolymers.
- Sec. 107690. Acrylic acid/vinylsulphonate random copolymers.
- Sec. 107691. Poly(methyl methacrylate) microspheres.
- Sec. 107692. Methyl methacrylate crosspolymer microspheres.
- Sec. 107693. Styrene acrylate copolymer with enhanced properties.
- Sec. 107694. Copolymer for dental use.
- Sec. 107695. Vinyl phosphonic acid, acrylic acid copolymer, 20 percent solution in water.
- Sec. 107696. Polyacrylate 33.
- Sec. 107697. AA/AMPS copolymer.
- Sec. 107698. Flocculant dry polyacrylamides.
- Sec. 107699. Sorbitol, propylene oxide, ethylene oxide polymer.
- Sec. 107700. Trimethoxysilylpropyl carbamate-terminated polyether.
- Sec. 107701. Dimethoxy(methyl)silylmethyl carbamate-terminated polyether.
- Sec. 107702. Curing agent is used in two- or three-parts epoxy systems.
- Sec. 107703. Polyethylene glycol 450.
- Sec. 107704. Medicinal intermediate for investigational use.
- Sec. 107705. Aqueous solutions of carboxylic acid-copolymer-salt in water.
- Sec. 107706. Aqueous solutions of a modified polymer bearing hydrophilic and hydrophobic groups.
- Sec. 107707. Dimethylamine/epichlorohydrin/ethylenediamine copolymer.
- Sec. 107708. Linear hydroxyl-terminated aliphatic polycarb diol.
- Sec. 107709. Short hollow PET fibers.
- Sec. 107710. Polytetrahydrofuran.
- Sec. 107711. Crystalline polyesters.
- Sec. 107712. Liquid crystal polymers.
- Sec. 107713. Branched polyesters.
- Sec. 107714. High molecular weight co-polyester.

- Sec. 107715. High molecular weight co-polyester.
- Sec. 107716. Polyester-polyamide dispersants.
- Sec. 107717. Nylon-12 micro-spheres.
- Sec. 107718. Short nylon-66 fibers.
- Sec. 107719. Short nylon 6 fibers, colored.
- Sec. 107720. Short triangular nylon 6 fibers.
- Sec. 107721. Short star-shaped nylon 6 fibers.
- Sec. 107722. Short heart-shaped nylon 6 fibers.
- Sec. 107723. PA510 polymer compounds.
- Sec. 107724. MXD6 polymer compounds.
- Sec. 107725. PA10T polymer compounds.
- Sec. 107726. PA10T/10I polymer compounds.
- Sec. 107727. Polyurethane aqueous resins.
- Sec. 107728. Aqueous resin.
- Sec. 107729. Aliphatic polyisocyanate.
- Sec. 107730. IPDI and HDI based aliphatic polyisocyanate.
- Sec. 107731. HDI/Trimethylol hexyllactone crosspolymer micro-spheres.
- Sec. 107732. HDI/PPG/Polycaprolactone crosspolymer micro-spheres.
- Sec. 107733. Aromatic isocyanate prepolymer.
- Sec. 107734. Blocked polyisocyanate containing solvent.
- Sec. 107735. Polyisocyanate adduct for powder coatings.
- Sec. 107736. Blocked polyisocyanate for use in can and coil applications.
- Sec. 107737. Polydimethylsiloxane.
- Sec. 107738. Silicone resins.
- Sec. 107739. Methoxyfunctional methyl-phenyl polysiloxane.
- Sec. 107740. Hydrogenpolysiloxane.
- Sec. 107741. Methyl silicone resins.
- Sec. 107742. Epoxy functional polydimethylsiloxane.
- Sec. 107743. Polymethylhydrogensiloxane.
- Sec. 107744. Vinyl terminated siloxanes.
- Sec. 107745. Silicone hybrid resin (solvent free).
- Sec. 107746. Hydrogenated polycyclopentadiene resin.
- Sec. 107747. Water dispersable HDI based polyisocyanate.
- Sec. 107748. Cyanate ester resins for high-end electronic, aerospace, and industrial applications.
- Sec. 107749. Polyethyleneimine, component used in manufacturing medical devices.
- Sec. 107750. Polyhexanide.
- Sec. 107751. Ethylene-norbornene copolymer.
- Sec. 107752. Cellulose powder.
- Sec. 107753. Polymaltotriose.
- Sec. 107754. Chitosan.
- Sec. 107755. Plastic drinking straws.
- Sec. 107756. Garden hoses.
- Sec. 107757. Plastic fittings of perfluoroalkoxy.
- Sec. 107758. Low density polyethylene (LDPE) sheeting.
- Sec. 107759. Biaxially oriented dielectric polypropylene film.
- Sec. 107760. Biaxially oriented polypropylene (BOPP) capacitor-grade film.
- Sec. 107761. Polyester capacitor-grade film.
- Sec. 107762. Acid form membranes.
- Sec. 107763. Melamine resin foam.
- Sec. 107764. Infant bathtubs and basins, of plastics.
- Sec. 107765. Boxes, cases, crates, and similar articles of plastics.
- Sec. 107766. Nozzles, black, of polypropylene.
- Sec. 107767. Tip/cap combinations of polyethylene.

- Sec. 107768. Bottles made of LDPE.
- Sec. 107769. Plastic nasal irrigator caps for neti pots.
- Sec. 107770. Toy character bottle toppers.
- Sec. 107771. Melamine platters, other than those presented in sets.
- Sec. 107772. Melamine plates, other than those presented in sets.
- Sec. 107773. Melamine bowls not presented in sets.
- Sec. 107774. Melamine trays not presented in sets.
- Sec. 107775. Plastic measuring cups and spoons in sets.
- Sec. 107776. Liquid measuring cups.
- Sec. 107777. Self-anchoring beverage containers.
- Sec. 107778. PVC infant bathtub mats.
- Sec. 107779. Reversible playmats.
- Sec. 107780. Hangers.
- Sec. 107781. Infant bath rinsing cups.
- Sec. 107782. Bathtub spout covers.
- Sec. 107783. Infant teethingers.
- Sec. 107784. Lighted dog fetch toys.
- Sec. 107785. Certain thermoplastic nylon 3-gang switch wallplates.
- Sec. 107786. Manual plastic disposable cutlery dispensers.
- Sec. 107787. Ear bulb syringes of clear silicone.
- Sec. 107788. PVC inflatable pillows.
- Sec. 107789. Self-inflatable queen air mattresses.
- Sec. 107790. Plastic clip fasteners.
- Sec. 107791. Self-venting spouts for diesel exhaust fluid.
- Sec. 107792. Plastic pet carriers.
- Sec. 107793. Plastic mixing tips.
- Sec. 107794. Cable ties of plastics.
- Sec. 107795. Flexible camera mountings.
- Sec. 107796. Three-piece camera mount sets.
- Sec. 107797. Magnetic swivel clips for cameras.
- Sec. 107798. Helmet camera mounts.
- Sec. 107799. Short extension poles for use with cameras.
- Sec. 107800. Long extension poles for cameras.
- Sec. 107801. Swivel mounts for cameras.
- Sec. 107802. Tripod camera mounts.
- Sec. 107803. Bulk hydraulic hoses.
- Sec. 107804. Brake hydraulic hoses.
- Sec. 107805. Bulk fabric/metal-reinforced rubber hoses.
- Sec. 107806. Disposable gloves.
- Sec. 107807. Reusable gloves.
- Sec. 107808. Dog and cat apparel.
- Sec. 107809. Polycarbonate vanity cases.
- Sec. 107810. Aluminum vanity cases.
- Sec. 107811. Suitcases with outer surface of aluminum with built-in zipper locks.
- Sec. 107812. Laminated recycled reusable shopping tote bags.
- Sec. 107813. Reusable shopping style tote bags.
- Sec. 107814. Waterproof tote bags.
- Sec. 107815. Waterproof duffle bags.
- Sec. 107816. Waterproof zippered bags, without handles, of plastic sheeting.
- Sec. 107817. Waterproof backpacks.
- Sec. 107818. Waterproof waist packs.
- Sec. 107819. Guitar cases.
- Sec. 107820. Jewelry boxes.
- Sec. 107821. Silicone rubber camera cases with straps.

- Sec. 107822. Leather gloves with flip mitts for hunting.
- Sec. 107823. Men's leather gloves valued at \$18 or more per pair.
- Sec. 107824. Belts of calf skin.
- Sec. 107825. Bamboo engineered flooring: 12.5–12.9 mm thick.
- Sec. 107826. Bamboo engineered flooring: 14.1–14.5 mm thick.
- Sec. 107827. Bamboo engineered flooring: 15.7–16.1 mm thick.
- Sec. 107828. Strand bamboo flooring: 12.5–12.9 mm thick.
- Sec. 107829. Strand bamboo flooring: 14.1–14.5 mm thick.
- Sec. 107830. Strand bamboo flooring: 10.9–11.3 mm thick.
- Sec. 107831. Chopsticks made of bamboo.
- Sec. 107832. Drying racks of wood.
- Sec. 107833. Bamboo skewers.
- Sec. 107834. Wood blinds with louvered slats.
- Sec. 107835. 100 percent cotton woven crimped unbleached fabric.
- Sec. 107836. Woven fabrics of cotton, containing 85 percent or more by weight of cotton, not more than 200 grams per square meter.
- Sec. 107837. 100 percent cotton woven bleached fabric pieces, open weave.
- Sec. 107838. Incontinence underpad fabrics of cotton.
- Sec. 107839. Woven fabrics of cotton with an average yarn number between 55 and 60.
- Sec. 107840. Woven fabric of cotton of yarn number 69 or higher.
- Sec. 107841. Woven fabrics of cotton with an average yarn number exceeding 68.
- Sec. 107842. Incontinence underpad fabrics, cotton, plain weave, of yarn number 42 or lower.
- Sec. 107843. Incontinence underpad fabrics, cotton, plain weave, of yarn number between 43 and 68.
- Sec. 107844. Incontinence underpad fabrics, bleached.
- Sec. 107845. Incontinence underpad fabrics, printed.
- Sec. 107846. Untwisted filament polyvinyl alcohol yarn, measuring 1,100 to 1,330 decitex.
- Sec. 107847. Untwisted filament polyvinyl alcohol yarn.
- Sec. 107848. Polypropylene (PP) monofilament.
- Sec. 107849. Acrylic fiber tow with an average decitex of 0.9.
- Sec. 107850. Black polyester bi-component fibers.
- Sec. 107851. Acrylic staple fibers with an average decitex of 2.2, fiber length of 100 mm.
- Sec. 107852. Modacrylic staple fibers not processed for spinning.
- Sec. 107853. Short polypropylene fibers.
- Sec. 107854. Polyoxadiazole fibers.
- Sec. 107855. Artificial staple fibers of viscose rayon, 38–42 mm in length.
- Sec. 107856. Artificial fibers of viscose rayon for the manufacture of feminine hygiene products.
- Sec. 107857. Flame retardant rayon fibers, measuring 4.78 decitex.
- Sec. 107858. Flame retardant rayon fibers, measuring 4.55 decitex.
- Sec. 107859. Flame retardant rayon fibers, measuring 4.4 decitex.
- Sec. 107860. Other flame retardant rayon fibers.
- Sec. 107861. Cellulosic man-made viscose rayon staple fibers, measuring 1.3–1.5 decitex.
- Sec. 107862. Viscose rayon staple fibers, measuring 1.5–1.67 decitex, with a fiber length of 38–42 mm.
- Sec. 107863. Cellulosic man-made viscose rayon staple fibers, measuring 1.67–2 decitex.
- Sec. 107864. Viscose rayon staple fibers, measuring 1–2 decitex, with a fiber length of 4–8 mm.

- Sec. 107865. Viscose staple fibers used in textile, medical, or hygiene applications.
- Sec. 107866. Viscose rayon staple fibers, measuring 1.51–2 decitex, with a fiber length of 8–16 mm.
- Sec. 107867. Viscose rayon staple fibers, measuring 1–1.5 decitex, with a fiber length of 8–16 mm.
- Sec. 107868. Flame retardant viscose rayon staple fibers, with a decitex of 4.7 mm and a fiber length of 51–60 mm.
- Sec. 107869. Viscose rayon staple fibers for nonwoven production.
- Sec. 107870. Black viscose rayon staple fibers.
- Sec. 107871. Acrylic or modacrylic staple fibers with a decitex of 3–5.6.
- Sec. 107872. Made up hand-cast string-drawn fishing nets.
- Sec. 107873. Knitted carpets containing 75 percent or more of cotton, with a rubber backing.
- Sec. 107874. Knitted carpets containing 75 percent or more by weight of polyester, with a rubber backing.
- Sec. 107875. Faux leather fabrics.
- Sec. 107876. Grass catcher bags.
- Sec. 107877. Oxygenation membrane capillary material.
- Sec. 107878. Textile knitted fabrics composed of micromodal and elastane.
- Sec. 107879. Textile technical knitted fabrics combining technical cotton and elastane.
- Sec. 107880. Textile knit fabrics of modal, cashmere, and spandex.
- Sec. 107881. Women’s and girls’ dresses, knitted or crocheted, of synthetic fibers infused with minerals.
- Sec. 107882. Women’s and girls’ skirts and divided skirts of synthetic fibers infused with minerals.
- Sec. 107883. Women’s and girls’ knit cardigans or pullovers containing 70 percent or more of silk.
- Sec. 107884. Men’s and boys’ knit cardigans or pullovers of linen.
- Sec. 107885. Babies’ knit sweaters, pullovers, sweatshirts, waistcoats (vests), and cardigans, of artificial fibers.
- Sec. 107886. Women’s and girls’ tops, knitted or crocheted, of man-made fibers infused with minerals.
- Sec. 107887. Men’s and boy’s tops, knitted or crocheted, of man-made fibers infused with minerals.
- Sec. 107888. Men’s 3 mm wetsuits.
- Sec. 107889. Men’s 5.5 and 6.5 mm wetsuits.
- Sec. 107890. Men’s 3.5 mm wetsuits.
- Sec. 107891. Men’s 4.5 mm wetsuits.
- Sec. 107892. Women’s 3 mm wetsuits.
- Sec. 107893. Women’s 3.5 mm wetsuits.
- Sec. 107894. Women’s 4.5 mm wetsuits.
- Sec. 107895. Women’s 5.5 and 6.5 mm wetsuits.
- Sec. 107896. Insulated handmuffs of knit polyester.
- Sec. 107897. Men’s stockingfoot wader bottom subassemblies, of compressed neoprene.
- Sec. 107898. Men’s stockingfoot wader bottom subassemblies, of non-compressed neoprene.
- Sec. 107899. Fishing wader pocket pouch assemblies.
- Sec. 107900. Martial arts uniforms.
- Sec. 107901. Women’s or girls’ linen woven blouses, shirts and shirt-blouses, and sleeveless tank styles.
- Sec. 107902. Women’s or girls’ linen woven washsuits, sunsuits, or one-piece playsuits.

- Sec. 107903. Women's or girls' linen woven coveralls or jumpsuits.
- Sec. 107904. Women's shawls and similar goods, 100 percent silk.
- Sec. 107905. Winter cycling gloves.
- Sec. 107906. Lock pocket tents.
- Sec. 107907. Dark room tents.
- Sec. 107908. Bi-component microfiber tube mop refills.
- Sec. 107909. Microfiber duster refills.
- Sec. 107910. RFID mop pads.
- Sec. 107911. Microfiber cleaning cloths.
- Sec. 107912. Microfiber mop pads.
- Sec. 107913. Golf bag body flats.
- Sec. 107914. Bathtub elbow rests.
- Sec. 107915. Door swings.
- Sec. 107916. Under bed restraints.
- Sec. 107917. Bath kneeler.
- Sec. 107918. Two-piece camera mount kits.
- Sec. 107919. Sleeve covers.
- Sec. 107920. Men's cycling shoes valued over \$18 per pair.
- Sec. 107921. Women's cycling shoes valued over \$16 per pair.
- Sec. 107922. Men's golf shoes with outers and uppers of rubber or plastics, valued over \$20 per pair.
- Sec. 107923. Golf shoes other than for men, with outers and uppers of rubber or plastics, valued over \$20 per pair.
- Sec. 107924. Winter cycling boots for men.
- Sec. 107925. Winter cycling boots for women.
- Sec. 107926. Children's footwear valued over \$15 per pair.
- Sec. 107927. Women's protective active footwear, valued over \$25 per pair, 15.35–25.4 cm in height.
- Sec. 107928. Cheer shoes covering the ankle.
- Sec. 107929. Sideline cheer shoes.
- Sec. 107930. Men's athletic footwear, valued under \$9 per pair.
- Sec. 107931. Athletic footwear for women, valued not over \$9 per pair.
- Sec. 107932. Athletic footwear for children, valued not over \$8 per pair.
- Sec. 107933. Men's golf shoes, with outer soles and uppers of rubber or plastics, not covering the ankle, valued \$15 per pair or over.
- Sec. 107934. Golf shoes other than for men, with outer soles and uppers of rubber or plastics, not covering the ankle, valued \$15 per pair or over.
- Sec. 107935. Men's rubber/plastic footwear, valued not over \$5 per pair.
- Sec. 107936. Women's rubber/plastic footwear, valued not over \$6 per pair.
- Sec. 107937. Cheer shoes with sole less than 12 mm.
- Sec. 107938. Men's golf shoes with outers and uppers of rubber or plastics, valued over \$19 per pair.
- Sec. 107939. Golf shoes other than for men, outer soles and uppers of rubber or plastics, valued over \$19 per pair.
- Sec. 107940. Men's golf shoes, outer soles of rubber, plastics, leather or composition leather and uppers of leather (except pigskin uppers).
- Sec. 107941. Women's leather footwear, lined with pigskin with zipper, valued \$47–\$60 per pair.
- Sec. 107942. Women's leather footwear, lined with pigskin, valued \$31–\$40 per pair.
- Sec. 107943. Women's slip-on cow/calf hair footwear, valued \$50–\$60 per pair.
- Sec. 107944. Women's leather footwear lined with sheepskin.
- Sec. 107945. Women's leather slip-on footwear lined with sheep leather.
- Sec. 107946. Women's leather slip-on footwear lined with pigskin.

- Sec. 107947. Women's leather footwear, lined with pigskin, valued \$21–\$27 per pair.
- Sec. 107948. Women's footwear with leather uppers, lined with pigskin, closed toe or heel with functional zippers on sides.
- Sec. 107949. Women's footwear with leather uppers, lined with pigskin with adjustable laces.
- Sec. 107950. Competitive cheer shoes with leather uppers.
- Sec. 107951. Women's footwear with leather uppers, with strap and buckle, valued \$27–\$40 per pair.
- Sec. 107952. Children's leather upper athletic footwear, valued not over \$9 per pair.
- Sec. 107953. Men's athletic type footwear with uppers of textile materials of vegetable fibers and outer soles of rubber or plastic with textile flocking.
- Sec. 107954. Athletic footwear for men, with a bellows tongue, valued over \$6.50 but not over \$12 per pair.
- Sec. 107955. Athletic footwear for women, with a bellows tongue, valued over \$6.50 but not over \$12 per pair.
- Sec. 107956. Athletic footwear for children, bellows tongue, valued over \$6.50 but not over \$12 per pair.
- Sec. 107957. Athletic footwear for men, valued over \$6.50 but not over \$9 per pair.
- Sec. 107958. Athletic footwear for children, valued over \$6.50 but not over \$9 per pair.
- Sec. 107959. Cheer shoes with uppers of textile materials.
- Sec. 107960. Women's footwear with textile uppers and 50 percent or more of the surface area of which is leather.
- Sec. 107961. Women's footwear with textile uppers, open toes or heels, valued \$15–\$30 per pair.
- Sec. 107962. Men's textile upper footwear, with open toes or open heels, valued not over \$12 per pair.
- Sec. 107963. Women's textile upper footwear, with open toes or open heels, valued not over \$12 per pair.
- Sec. 107964. Children's textile upper footwear, with open toes or open heels, valued not over \$12 per pair.
- Sec. 107965. Oxford-style work footwear with steel safety toe and static dissipating protection.
- Sec. 107966. Oxford footwear with textile uppers and composite toe, valued over \$20 per pair.
- Sec. 107967. Men's mid-cut footwear with a textile upper and a protective toe cap.
- Sec. 107968. Women's footwear with leather soles and textile uppers, open toes or heels, valued \$12–\$24 per pair.
- Sec. 107969. Footwear for women valued over \$20 but not over \$24 per pair.
- Sec. 107970. Women's footwear with leather soles and textile uppers, valued \$15–\$20 per pair.
- Sec. 107971. Women's footwear with leather soles and textile uppers, valued \$20–\$25 per pair.
- Sec. 107972. Women's footwear with cork soles and textile uppers.
- Sec. 107973. Men's footwear with felt soles, not covering the ankle, valued \$20 per pair or higher.
- Sec. 107974. Women's and girls' footwear with cork uppers, valued less than \$25 per pair.
- Sec. 107975. Women's footwear with cow/calf hair uppers, valued \$35–\$40 per pair, covering the ankle.

- Sec. 107976. Women's footwear with cow/calf hair uppers, valued \$35–\$40 per pair, not covering the ankle.
- Sec. 107977. Women's footwear with cow/calf hair uppers, valued \$19–\$25 per pair.
- Sec. 107978. Women's footwear with cow/calf hair uppers, valued \$50–\$55 per pair.
- Sec. 107979. Women's footwear, leather soles and rubber/plastic uppers, valued \$16–\$18 per pair.
- Sec. 107980. Women's footwear with cow/calf hair uppers, valued \$19–\$34 per pair.
- Sec. 107981. Footwear for women, valued over \$50 but not over \$60 per pair.
- Sec. 107982. Calf hair upper footwear.
- Sec. 107983. Gaiters of man-made fibers.
- Sec. 107984. Hats of vegetable fibers.
- Sec. 107985. Hairnets.
- Sec. 107986. Cotton knit hats, valued \$8 or less.
- Sec. 107987. Babies' woven cotton hats.
- Sec. 107988. Hats of man-made fiber, valued \$5–\$25.
- Sec. 107989. Waterproof and insulated hats with ear flaps, valued over \$15.
- Sec. 107990. Fishing wading staffs.
- Sec. 107991. Plastic plants for aquariums, not glued or bound.
- Sec. 107992. Natural stone ledger tile of sandstone.
- Sec. 107993. Marble mosaic and pebble tiles.
- Sec. 107994. Natural stone limestone tiles.
- Sec. 107995. Natural stone marble tiles.
- Sec. 107996. Waterjet natural stone mosaic tile.
- Sec. 107997. Marble entertaining and serveware.
- Sec. 107998. Articles of marble for kitchen and dining room.
- Sec. 107999. Natural stone ledger tiles of travertine.
- Sec. 108000. Travertine decorative tile.
- Sec. 108001. Limestone decorative tiles.
- Sec. 108002. Blank, embossed, and printed stoneware coaster disks and trivets.
- Sec. 108003. Rolled green glass sheets.
- Sec. 108004. Framed rear-view mirrors.
- Sec. 108005. Wall mirrors, unframed.
- Sec. 108006. Wall mirrors, framed.
- Sec. 108007. Stemware (crystalline) drinking glasses valued over \$0.30 but not over \$3 each, other than those presented in sets.
- Sec. 108008. Double-walled insulated glass tumblers.
- Sec. 108009. Diamond-shaped stemmed wine glasses.
- Sec. 108010. Twisted-center stemless wine glass.
- Sec. 108011. Crystalline drinking glasses, without stems, not in sets.
- Sec. 108012. Double-walled insulated glass bowls.
- Sec. 108013. Leaf-shaped glass decanters.
- Sec. 108014. Set of four appetizer plates made of glass with steel caddy holder, valued at \$2 each.
- Sec. 108015. Spice rack with glass jars and wooden lids valued not over \$3 each.
- Sec. 108016. Glass lens blanks for infrared applications.
- Sec. 108017. Hair accessories of glass beads, imitation pearls, and imitation stones, valued less than \$7.
- Sec. 108018. Filter bags with acid-resistant coating, of woven fiberglass laminated to ePTFE, weighing at least 325 g/m<sup>2</sup> but not over 350 g/m<sup>2</sup>.

- Sec. 108019. Fiberglass replacement wicks for outdoor garden torch.
- Sec. 108020. Filter bags of woven fiberglass fabric laminated to an ePTFE, with a polytetrafluoroethylene coated backing, not acid resistant, weighing at least 721 g/m<sup>2</sup> but not over 771 g/m<sup>2</sup>.
- Sec. 108021. Silver catalyst.
- Sec. 108022. Silver round blanks.
- Sec. 108023. Ferroboron alloy.
- Sec. 108024. Cast iron nonmalleable threaded main body combo castings for residential fuel oil tanks.
- Sec. 108025. Cast iron nonmalleable threaded vent caps for residential fuel oil tanks.
- Sec. 108026. Cast iron nonmalleable threaded bushings for residential fuel oil tanks.
- Sec. 108027. Cast iron nonmalleable threaded tank adapters for residential fuel oil tanks.
- Sec. 108028. Cast iron nonmalleable threaded fill alarm main body for residential fuel oil tanks.
- Sec. 108029. Cast iron nonmalleable threaded fill box caps for residential fuel oil tanks.
- Sec. 108030. Cast iron nonmalleable threaded leg flanges for residential fuel oil tanks.
- Sec. 108031. Portable gas cooking stoves.
- Sec. 108032. Portable outdoor cookers.
- Sec. 108033. Self-anchored beverage containers.
- Sec. 108034. Stainless steel handmade kitchen sinks.
- Sec. 108035. Loose frame baskets.
- Sec. 108036. Two-story fire escape ladders.
- Sec. 108037. Three-story fire escape ladders.
- Sec. 108038. Work support stands of steel.
- Sec. 108039. Locking fixtures of iron or steel.
- Sec. 108040. Stainless steel phone handle-and-stand accessories.
- Sec. 108041. Circular and S-shaped stainless steel carabiners.
- Sec. 108042. Pieces of refined unwrought copper cathode 99.9999 percent pure.
- Sec. 108043. Ultra-thin and wide-width aluminum foil.
- Sec. 108044. Etched capacitor aluminum foil of a thickness 0.018–0.126 mm.
- Sec. 108045. Stove top coffee makers.
- Sec. 108046. Aluminum shower caddies.
- Sec. 108047. Step stools of aluminum.
- Sec. 108048. Aluminum ladders.
- Sec. 108049. Circular and S-shaped aluminum carabiners.
- Sec. 108050. Stationary sprinklers of zinc.
- Sec. 108051. Tungsten waste and scrap.
- Sec. 108052. Cobalt alloys.
- Sec. 108053. Certain gallium (Ga).
- Sec. 108054. Niobium (columbium) rings no thicker than 20 mm.
- Sec. 108055. Tungsten secondary raw material.
- Sec. 108056. Gear-driven bolt cutters and pipe cutters.
- Sec. 108057. Rotary cutters.
- Sec. 108058. Food graters.
- Sec. 108059. Hand tools for applying plastic clip fasteners to garments.
- Sec. 108060. Steel workstations with vises adjustable by foot pedal.
- Sec. 108061. Fixed carbide cutter and roller cone drill bits.
- Sec. 108062. Rotary food graters.
- Sec. 108063. Coffee presses.

- Sec. 108064. Vacuum insulated coffee servers with a brew-through lid.
- Sec. 108065. Vacuum insulated coffee servers with no lid.
- Sec. 108066. Vacuum insulated coffee servers with fitted hinged lid.
- Sec. 108067. Commercial vacuum insulated coffee servers with sight gauge.
- Sec. 108068. Commercial vacuum insulated coffee servers with plastic base.
- Sec. 108069. Commercial vacuum insulated coffee servers with plastic base and stand.
- Sec. 108070. Craft knives with fixed pen-like or retractable blades.
- Sec. 108071. Craft knives.
- Sec. 108072. Blades for craft knives with non-fixed blades.
- Sec. 108073. Ergonomic pinking shears.
- Sec. 108074. Spring-action scissors.
- Sec. 108075. Electronic locks for lockers.
- Sec. 108076. Luggage locks of base metal, packaged for retail sale.
- Sec. 108077. Key-operated door handles, push-pull-rotate.
- Sec. 108078. Vent mounted magnetic mobile phone holder for automobiles.
- Sec. 108079. Dash mounted magnetic mobile phone holder for automobiles.
- Sec. 108080. Windshield mounted magnetic mobile phone holder for automobiles.
- Sec. 108081. Steel latches with plastic plungers.
- Sec. 108082. Non-key-operated door handles.
- Sec. 108083. Curtain rings.
- Sec. 108084. Brackets.
- Sec. 108085. Curtain rods.
- Sec. 108086. Curtain rod hardware.
- Sec. 108087. Curtain tiebacks.
- Sec. 108088. Curtain rod finials.
- Sec. 108089. Curved shower rods.
- Sec. 108090. Shower hooks and rings.
- Sec. 108091. Straight shower rods.
- Sec. 108092. Steel window rods.
- Sec. 108093. Antitheft steel cases with digital locks.
- Sec. 108094. Stainless steel hose kits.
- Sec. 108095. Stainless steel hoses.
- Sec. 108096. Wrist watch strap buckles not over 18 mm.
- Sec. 108097. Wrist watch strap buckles over 18 mm.
- Sec. 108098. Used cylinder heads.
- Sec. 108099. Cylinder heads used solely or principally with certain engines.
- Sec. 108100. Engine blocks.
- Sec. 108101. Swirler assemblies for turbines.
- Sec. 108102. Barrels for fuel mixing.
- Sec. 108103. Injector assemblies for certain turbines.
- Sec. 108104. Stem assemblies for certain turbines.
- Sec. 108105. Tip assemblies for non-gas turbines.
- Sec. 108106. High pressure fuel pumps.
- Sec. 108107. Dry scroll vacuum pumps 364x333x485 mm.
- Sec. 108108. Dry scroll vacuum pumps 297x260x420 mm.
- Sec. 108109. Dry scroll vacuum pumps 254x260x420 mm.
- Sec. 108110. Dry scroll vacuum pumps 181x140x358 mm.
- Sec. 108111. Turbomolecular vacuum pumps.
- Sec. 108112. Rotary vane vacuum pumps valued over \$500 each.
- Sec. 108113. Vacuum diffusion pumps valued over \$900 each.
- Sec. 108114. Hand- or foot-operated air pumps.
- Sec. 108115. Roof vent fans.
- Sec. 108116. 12-Amp corded electric leaf blowers.

- Sec. 108117. Cordless battery powered leaf blowers not exceeding 20 volts.
- Sec. 108118. Cordless battery powered leaf blowers between 20 and 60 V.
- Sec. 108119. Fan assemblies for cab climate systems.
- Sec. 108120. Aquarium air pumps.
- Sec. 108121. Heat pumps for residential use.
- Sec. 108122. Heat pumps (outdoor units) for split air conditioner systems.
- Sec. 108123. High-wall indoor units.
- Sec. 108124. Single-zone outdoor units.
- Sec. 108125. Mini heat pumps for split air conditioner systems.
- Sec. 108126. Multi-zone outdoor unit ductless systems.
- Sec. 108127. Indoor units of split air conditioner systems.
- Sec. 108128. Ductless 18000 BTU heat pumps, single zone inverter.
- Sec. 108129. Single-phase heat pump.
- Sec. 108130. Steel vacuum pitchers with plastic hinged lid.
- Sec. 108131. Oil filters.
- Sec. 108132. Battery powered nasal irrigators.
- Sec. 108133. Struts to absorb vibration.
- Sec. 108134. Table saws (25.4 cm.), operable corded and cordless.
- Sec. 108135. Sliding miter saws (25.4 cm) with laser, corded and cordless.
- Sec. 108136. Electromechanical rotary hammers, corded and cordless.
- Sec. 108137. Electromechanical hammer impact drivers, corded and cordless.
- Sec. 108138. Rotary hammer drill tools with self-contained electric motor.
- Sec. 108139. Drill driver tools with self-contained electric motor.
- Sec. 108140. Extruders.
- Sec. 108141. Three-dimensional drawing pens.
- Sec. 108142. Professional grade three-dimensional drawing pens.
- Sec. 108143. Electric multi-functional blower vacuums.
- Sec. 108144. Autosamplers (multisamplers) for liquid chromatographs.
- Sec. 108145. Autosamplers (vialsamplers) for liquid chromatographs.
- Sec. 108146. Hydraulic hammer assembly.
- Sec. 108147. Segmented bladder-operated molds, with more than 25-inch rim diameter.
- Sec. 108148. Used valves for directional control.
- Sec. 108149. Keg spears with pressure release valves.
- Sec. 108150. Multiport distribution controllers.
- Sec. 108151. Subsea modular trees.
- Sec. 108152. Flow selector unit-multi-port 6-branch engine crankshafts.
- Sec. 108153. Engine crankshafts.
- Sec. 108154. Turbocharger journal bearings.
- Sec. 108155. Mid-range bearing housings.
- Sec. 108156. Heavy duty bearing housings.
- Sec. 108157. Fixed ration gear boxes.
- Sec. 108158. Track drive gear boxes.
- Sec. 108159. Swing bearing assembly.
- Sec. 108160. Gears for use in machinery or within engines.
- Sec. 108161. 14Y stepper motors.
- Sec. 108162. Air door actuators.
- Sec. 108163. Servo motors.
- Sec. 108164. DC brushed rhombic winding NdFeb magnet motors, with output under 18.65 W.
- Sec. 108165. DC brushed rhombic winding NdFeB magnet motors.
- Sec. 108166. DC brushed rhombic winding AlNiCo magnet motors, with output under 18.65 W.
- Sec. 108167. DC brushless rhombic winding NdFeB magnet motors, with output under 18.65 W.

- Sec. 108168. DC brushed rhombic winding NdFeB magnet motors, with output over 18.65 but not over 37.5 W.
- Sec. 108169. DC brushed rhombic winding AlNiCo magnet motors, with output over 18.65 W but not over 37.5 W.
- Sec. 108170. DC brushless slotless rhombic winding NdFeB magnet motors output over 18.65 W but not over 37.5 W.
- Sec. 108171. DC brushed rhombic winding NdFeB magnet motors output over 37.5 W but not over 74.6 W.
- Sec. 108172. DC brushless slotless rhombic winding NdFeB magnet motors output over 37.5 W but not over 74.6 W.
- Sec. 108173. Motors.
- Sec. 108174. DC motors of an output exceeding 74.6 W but not exceeding 735 W.
- Sec. 108175. DC motors, of an output exceeding 74.6 W but not exceeding 735 W.
- Sec. 108176. DC brushed rhombic winding NdFeB magnet motors output over 74.6 W but not over 735 W.
- Sec. 108177. DC brushless slotless rhombic winding NdFeB magnet motors output over 74.6 W but not over 735 W.
- Sec. 108178. DC motors of an output exceeding 750 W but not exceeding 14.92 kW.
- Sec. 108179. DC electric motor for non-aircraft gas turbines.
- Sec. 108180. AC alternators.
- Sec. 108181. AC alternators with copper windings.
- Sec. 108182. Wound stators and rotor assemblies.
- Sec. 108183. Rotors.
- Sec. 108184. Stators for washing machines, with a 27-tooth design.
- Sec. 108185. Stators for washing machines, with an 18-tooth design.
- Sec. 108186. Rotors for washing machines, with a height of 60.8 mm.
- Sec. 108187. Rotors for washing machines, with a height of 49 mm.
- Sec. 108188. 6 V lead-acid storage batteries.
- Sec. 108189. 12 V lead-acid storage batteries, used for the auxiliary source of power.
- Sec. 108190. Lead-acid storage batteries, used for wheelchairs.
- Sec. 108191. 12 V lead-acid storage batteries, rated at less than 15 ampere-hours.
- Sec. 108192. 12 V lead-acid storage batteries, rated at 15 ampere-hours or more.
- Sec. 108193. Cell box assemblies, weighing 15 kg or more but not over 18 kg.
- Sec. 108194. Cell box assemblies, weighing 30 kg or more but not over 36 kg.
- Sec. 108195. Cell box assemblies, weighing 36 kg or more but not over 49 kg.
- Sec. 108196. Cell box assemblies NX.
- Sec. 108197. Food processors with a capacity greater than 2.9 liters but not exceeding 3.1 liters.
- Sec. 108198. Food processors with a capacity greater than 1.6 liters but not exceeding 2.2 liters.
- Sec. 108199. Cordless hand blenders.
- Sec. 108200. Cordless hand mixers.
- Sec. 108201. Corded hand blenders.
- Sec. 108202. Burr coffee grinders.
- Sec. 108203. Electric food processors with bowl scraper.
- Sec. 108204. Electric food processors with snap-locking lid.
- Sec. 108205. Electric juice extractors.
- Sec. 108206. Electric drink mixers.

- Sec. 108207. Spiralizing food processors with a capacity equal to or greater than 2.36 liters but not exceeding 2.64 liters.
- Sec. 108208. Spiralizing food processors with a capacity equal to or greater than 2.83 liters but not exceeding 3.07 liters.
- Sec. 108209. Dicing food processors.
- Sec. 108210. Compact food processor with smoothie function.
- Sec. 108211. Juice extractors.
- Sec. 108212. Integrated baby food making systems.
- Sec. 108213. Electric juice mixers and grinders.
- Sec. 108214. Ultrasonic humidifiers.
- Sec. 108215. Automatic litterboxes, valued no more than \$100.
- Sec. 108216. Electric toothbrushes.
- Sec. 108217. Ultrasonic cool/warm mist humidifiers with aromatherapy.
- Sec. 108218. 2-in-1 can opener.
- Sec. 108219. Food spiralizing devices.
- Sec. 108220. Ceramic bowls.
- Sec. 108221. Food grinders for certain electromechanical stand food mixers.
- Sec. 108222. Pasta press extruders for certain stand food mixers.
- Sec. 108223. Stainless steel bowls for certain electromechanical stand food mixers, with capacity greater than 4.2 liters but not exceeding 4.8 liters.
- Sec. 108224. Stainless steel bowls for certain electromechanical stand food mixers, with capacity greater than 2.8 liters but not exceeding 3.4 liters.
- Sec. 108225. Stainless steel bowls for certain electromechanical stand food mixers, with capacity greater than 5.6 liters but not exceeding 8.6 liters.
- Sec. 108226. Pasta rollers and cutters for stand food mixers.
- Sec. 108227. Glass bowls for certain electromechanical stand food mixers.
- Sec. 108228. Body trimmers for detailed hair trimming.
- Sec. 108229. Hair clipper sets.
- Sec. 108230. Rechargeable trimmers for trimming human hair.
- Sec. 108231. PCB assemblies for clippers and trimmers.
- Sec. 108232. LED bicycle wheel spoke lights.
- Sec. 108233. Bicycle rear lights.
- Sec. 108234. Portable electric lamps.
- Sec. 108235. Space heaters.
- Sec. 108236. Microwave ovens with capacity not exceeding 22.5 liters.
- Sec. 108237. Microwave ovens with capacity exceeding 22.5 liters but not exceeding 31 liters.
- Sec. 108238. Low-profile microwave ovens with electronic opening mechanism and integral range hood.
- Sec. 108239. Low-profile microwave ovens with push button opening mechanism and integral range hood.
- Sec. 108240. Low-profile microwave ovens with electronic opening mechanism and without a range hood.
- Sec. 108241. Searing grills.
- Sec. 108242. Automatic drip coffee makers.
- Sec. 108243. Espresso machines.
- Sec. 108244. Coffee makers with dishwasher safe removable parts.
- Sec. 108245. Single-service coffee makers with milk frothers.
- Sec. 108246. Electric coffee makers with dual dispensers.
- Sec. 108247. Electric coffee makers for brewing capsules.
- Sec. 108248. Automatic or manual pour over coffee makers.
- Sec. 108249. Removable reservoir coffeemakers.

- Sec. 108250. Single serve coffee makers.
- Sec. 108251. 2-way coffee makers with a 12-cup carafe and a pod brewer.
- Sec. 108252. Rapid cold brew and hot coffee makers.
- Sec. 108253. Electric kettles.
- Sec. 108254. Electric toasters with even-toast feature.
- Sec. 108255. Electric toasters with 6.5 inch slots.
- Sec. 108256. Electric toasters with 37 mm wide slots, with an under-base cord wrap.
- Sec. 108257. 2- and 4-slot toasters, not having a button to keep toaster contents warm after toasting.
- Sec. 108258. 2-slot toasters, with a button to keep toaster content warm after toasting.
- Sec. 108259. Electric toasters with double-slice slots.
- Sec. 108260. Electric toasters with 37 mm wide slots, with a retractable cord.
- Sec. 108261. Electric pressure cookers rated more than 800 W but not more than 1,000 W, with a capacity of not less than 5 liters.
- Sec. 108262. Electric pressure cookers rated more than 1,200 W but not more than 1,400 W, with a capacity of less than 5 liters.
- Sec. 108263. Electric pressure cookers rated more than 1,000 W but not more than 1,200 W, with a capacity of less than 5 liters.
- Sec. 108264. Contoured heating pads.
- Sec. 108265. Slow cookers with non-stick ceramic coated stoneware.
- Sec. 108266. Heating pads.
- Sec. 108267. Programmable slow cookers with digital display.
- Sec. 108268. 8-Quart electric slow cookers.
- Sec. 108269. Programmable slow cookers.
- Sec. 108270. Electric slow cookers with locking lid.
- Sec. 108271. Double flip waffle makers with removable grids.
- Sec. 108272. Ice cream waffle cone and bowl makers.
- Sec. 108273. Electric breakfast sandwich makers.
- Sec. 108274. Pressure cookers.
- Sec. 108275. 10-quart programmable slow cookers.
- Sec. 108276. Polished stainless steel 1.5-quart tea kettles.
- Sec. 108277. Egg bite makers.
- Sec. 108278. Vacuum steel insulated coffee carafes, of a kind used with deep ultraviolet lithography machines.
- Sec. 108279. Vacuum steel insulated carafes for household coffee machines, of a kind used with deep ultraviolet lithography machines.
- Sec. 108280. Vacuum steel bodies with inner and outer steel layers.
- Sec. 108281. Lamp-holder housings of plastic.
- Sec. 108282. 660 W, 125 V, lamp-holder with two 15 amp outlets.
- Sec. 108283. Combination duplex receptacle/outlet and USB charger, 15–20 amp, 125 V.
- Sec. 108284. Range and dryer receptacles.
- Sec. 108285. Residential grade receptacles.
- Sec. 108286. Residential and commercial USB receptacles.
- Sec. 108287. Power strips.
- Sec. 108288. Surge protectors.
- Sec. 108289. Programmable controllers for architectural lighting.
- Sec. 108290. Electronic modular control panels for generators.
- Sec. 108291. Power distribution modules and programmable controllers.
- Sec. 108292. Glass capacitive touchscreen assemblies with LCD.
- Sec. 108293. Lamps containing deuterium gas without radio-frequency identification (RFID).

- Sec. 108294. Lamps containing deuterium gas with radio-frequency identification (RFID).
- Sec. 108295. Fiber channel coaxial cables of silver-plated copper conductors and expanded ePTFE dielectrics.
- Sec. 108296. Insulated coaxial cables, of a kind used with deep ultraviolet lithography machines.
- Sec. 108297. Coaxial cables insulated with ePTFE, vapor sealed, of a kind used with deep ultraviolet lithography machines.
- Sec. 108298. Coaxial cables insulated with ePTFE, non-vapor sealed, of a kind used with deep ultraviolet lithography machines.
- Sec. 108299. Low speed automotive ethernet USB harnesses.
- Sec. 108300. High speed autolink cable USB harnesses.
- Sec. 108301. Insulated electric conductors, of a kind used with extreme ultraviolet lithography machines.
- Sec. 108302. Insulated electric conductors, of a kind used with deep ultraviolet lithography machines.
- Sec. 108303. Insulated electric conductors, of a kind used with optical instruments.
- Sec. 108304. Rings, blocks, and other insulating fittings of quartz.
- Sec. 108305. Front tire splash guards for vehicles.
- Sec. 108306. Rear tire splash guards for vehicles.
- Sec. 108307. Automatic gear boxes.
- Sec. 108308. Suspension systems (struts) for off-highway trucks.
- Sec. 108309. Suspension system stabilizer bars.
- Sec. 108310. Tie rod assemblies.
- Sec. 108311. Used axle housings.
- Sec. 108312. Used parts for power trains.
- Sec. 108313. Front windshield covers.
- Sec. 108314. Expansion chambers.
- Sec. 108315. Bicycle racks for car roofs.
- Sec. 108316. High pressure fuel injector rails.
- Sec. 108317. Stand-up bicycles, having both wheels exceeding 63.5 cm in diameter.
- Sec. 108318. Elliptical cycles, with wheels not exceeding 63.5 cm in diameter.
- Sec. 108319. Bicycle frames, other than of steel, valued \$600 or less.
- Sec. 108320. Internal gear bicycle hubs, other than two or three speeds.
- Sec. 108321. Bicycle pedals other than clipless pedals.
- Sec. 108322. Clipless bicycle pedals and parts thereof.
- Sec. 108323. Carbon fiber bicycle seatposts.
- Sec. 108324. Bicycle handlebar tape, other than silicon or leather tape.
- Sec. 108325. Trailer cycles.
- Sec. 108326. Dropper seatposts.
- Sec. 108327. Bicycle fenders.
- Sec. 108328. Bicycle handlebars.
- Sec. 108329. Multi-functional steel carts.
- Sec. 108330. Non-mechanically propelled industrial hand truck.
- Sec. 108331. Moving dollies.
- Sec. 108332. Paragliders, paraglider wings and paraglider harnesses.
- Sec. 108333. Sailing catamarans and power catamarans.
- Sec. 108334. Projection lenses.
- Sec. 108335. Mounted optical lenses.
- Sec. 108336. Objective lenses for broadcast cameras.
- Sec. 108337. Objective lenses for cinema cameras.
- Sec. 108338. Magnifying spectacles.

- Sec. 108339. LCD television panel assemblies, with a video display measuring over 175.26 cm.
- Sec. 108340. LCD television panel assemblies, with a video display measuring over 149.86 cm but not over 175.26 cm.
- Sec. 108341. LCD television panel assemblies, with a video display measuring over 139.7 cm but not over 149.86 cm.
- Sec. 108342. LCD television panel assemblies, with a video display measuring over 137.16 cm but not over 139.7 cm.
- Sec. 108343. Housings designed for infrared lenses.
- Sec. 108344. Electronic temperature indicators, weighing 14.2 g.
- Sec. 108345. Electronic temperature indicators, weighing 64.4 g.
- Sec. 108346. Electronic temperature indicators, weighing 430 g.
- Sec. 108347. Global cargo trackers, weighing 660 g.
- Sec. 108348. Temperature data monitors, weighing 115 g.
- Sec. 108349. Temperature data monitors, weighing 138.9 g.
- Sec. 108350. Temperature data monitors, weighing 133.2 g.
- Sec. 108351. Parts and accessories of bicycle speedometers.
- Sec. 108352. Wired remote controllers.
- Sec. 108353. Analog/digital wrist watches.
- Sec. 108354. Mechanical wrist watches.
- Sec. 108355. Mechanical wrist watches with leather or other band.
- Sec. 108356. Analog pocket watches.
- Sec. 108357. Projection alarm clocks, non-atomic.
- Sec. 108358. Projection atomic alarm clocks.
- Sec. 108359. Analog wall clocks without thermometer, hygrometer, or barometer gauges.
- Sec. 108360. Analog clocks with thermometer and hygrometer.
- Sec. 108361. Atomic analog wall clocks.
- Sec. 108362. Atomic digital clocks.
- Sec. 108363. Analog kitchen timers.
- Sec. 108364. Wrist watch movements having over one jewel and less than 7 jewels.
- Sec. 108365. Watch movements having over 7 jewels and under 17 jewels.
- Sec. 108366. Watch cases or “bodies” over 41 mm in diameter.
- Sec. 108367. Watch cases or “bodies” not over 41 mm in diameter.
- Sec. 108368. Watch case bezels, backs, and centers.
- Sec. 108369. Watch case parts.
- Sec. 108370. Stainless steel watch bracelets.
- Sec. 108371. Watch dials.
- Sec. 108372. Watch crowns.
- Sec. 108373. Watch hands.
- Sec. 108374. Acoustic guitars.
- Sec. 108375. Console digital pianos.
- Sec. 108376. Grand digital pianos.
- Sec. 108377. Electronic 61-key keyboards.
- Sec. 108378. Electric guitars and acoustic/electric guitars.
- Sec. 108379. Memory foam travel pillows.
- Sec. 108380. Lighting for wall installation.
- Sec. 108381. Decorative bathroom fan assemblies (lighting fixtures) assemblies.
- Sec. 108382. Metal household floor lamps.
- Sec. 108383. Solar powered pathway lights, each measuring between 36.8 cm and 42 cm in height.
- Sec. 108384. Solar powered pathway lights, each measuring between 45 cm and 48 cm in height.

- Sec. 108385. Exterior exit viewing lights, dual beam.
- Sec. 108386. LED flameless candles.
- Sec. 108387. Aquarium LED light strands.
- Sec. 108388. LED light modules for bathroom fans/lights.
- Sec. 108389. Aquarium LED light sticks.
- Sec. 108390. Aquarium LED light strips.
- Sec. 108391. Decorative votive candle holders.
- Sec. 108392. Candle jar shades.
- Sec. 108393. Non-electrical lighting.
- Sec. 108394. Outdoor garden or patio torches of bamboo construction.
- Sec. 108395. Outdoor garden or patio torches of non-bamboo construction.
- Sec. 108396. Indoor oil lamps with base of glass or metal.
- Sec. 108397. Outdoor garden torches for tabletop use.
- Sec. 108398. Glass lens arrays for spotlights.
- Sec. 108399. Lamp shades.
- Sec. 108400. Galvanized steel LED downlight housing frames.
- Sec. 108401. Aluminum cylinders for LED lighting fixtures.
- Sec. 108402. Galvanized steel brackets and plates for LED lighting fixtures.
- Sec. 108403. Aluminum LED downlight reflectors.
- Sec. 108404. Outdoor garden torch replacement canisters.
- Sec. 108405. Iris subassemblies for moving lights.
- Sec. 108406. Zoom modules for automated moving lights.
- Sec. 108407. Golf club heads for fairway woods.
- Sec. 108408. Golf club shafts for putters.
- Sec. 108409. Steel golf club shafts, other than for putters.
- Sec. 108410. Golf club shaft assemblies.
- Sec. 108411. Graphite driver golf club shafts, extra stiff flex.
- Sec. 108412. Graphite hybrid golf club shafts, extra stiff flex.
- Sec. 108413. Graphite irons golf club shafts, extra stiff flex.
- Sec. 108414. Graphite driver golf club shafts, regular, senior, adult, or ladies flex.
- Sec. 108415. Graphite golf club driver shafts, stiff flex.
- Sec. 108416. Graphite hybrid golf club shafts, regular, senior, adult, or ladies flex.
- Sec. 108417. Graphite hybrid golf club shafts, stiff flex.
- Sec. 108418. Graphite irons golf club shafts, regular, senior, adult, or ladies flex.
- Sec. 108419. Graphite irons golf club shafts, stiff flex.
- Sec. 108420. Pickleball paddles.
- Sec. 108421. Pickleballs.
- Sec. 108422. Exercise cycles.
- Sec. 108423. Stationary trainers.
- Sec. 108424. Multimodality fitness equipment, without integrated contact grip heart rate monitor.
- Sec. 108425. Multimodality fitness equipment with integrated power sensor to measure the user's upper body power input.
- Sec. 108426. Parts and accessories for treadmills.
- Sec. 108427. Parts and accessories for ellipticals.
- Sec. 108428. Parts and accessories for stationary exercise cycles.
- Sec. 108429. Parts and accessories for weight training equipment.
- Sec. 108430. Parts and accessories for certain exercise equipment machines.
- Sec. 108431. Lateral elliptical machines.
- Sec. 108432. Adjustable-weight kettlebells.
- Sec. 108433. Adjustable-weight barbell.
- Sec. 108434. Exercise cycles with dual-position handgrips.

- Sec. 108435. Exercise cycles with single handgrips.
- Sec. 108436. Upright exercise cycles.
- Sec. 108437. Recumbent exercise cycles with touchscreen consoles.
- Sec. 108438. Leaning exercise cycles.
- Sec. 108439. Rod gyms, with vertical bench.
- Sec. 108440. Rod and resistance gyms, with flat benches.
- Sec. 108441. Foldable treadmills, with LCD consoles with control keypads.
- Sec. 108442. Foldable treadmills, with touchscreen consoles measuring 44.5 cm or less.
- Sec. 108443. Indoor cycling machines with wireless data touchscreen displays.
- Sec. 108444. Indoor cycling machines with LCD consoles and two water bottle holders.
- Sec. 108445. Indoor cycling machines with LCD consoles and single water bottle holder.
- Sec. 108446. Recumbent elliptical machines.
- Sec. 108447. Fitness equipment combining the functions of an elliptical and a stair stepper, weight over 90 kgs.
- Sec. 108448. Foldable treadmills with touchscreen console greater than 44.4 cm.
- Sec. 108449. Interactive indoor cycling exercise cycles.
- Sec. 108450. Multimodality fitness equipment, with integrated contact grip heart rate monitors.
- Sec. 108451. Fishing reels valued not over \$2.70 each, pre-spooled, with rod and fishing line.
- Sec. 108452. Fishing reels valued not over \$2.70 each.
- Sec. 108453. Hard artificial crankbaits.
- Sec. 108454. Collapsible big game decoys.
- Sec. 108455. Vacuum steel hinged lid pitchers, not exceeding 1 liter.
- Sec. 108456. Vacuum insulated drinkware having a capacity exceeding 1 liter but not exceeding 2 liters.
- Sec. 108457. Vacuum insulated drinkware having a capacity exceeding 2 liters but not exceeding 4 liters.
- Sec. 108458. Vacuum glass lined steel coffee servers over 2 liters.
- Sec. 108459. Vacuum glass lined steel coffee servers over 2 liters with lever dispensing.

1 **SEC. 3. PROHIBITING DISCRIMINATION AGAINST PEOPLE**  
2 **OF ASIAN DESCENT.**

3 The President shall ensure that the provisions of this  
4 Act which are aimed at countering the influence of the  
5 Chinese Communist Party are implemented in a manner  
6 that does not result in discrimination against people of  
7 Asian descent on the basis of race, color, ethnicity, or na-  
8 tionality.

9 **DIVISION A—CREATING HELP-**  
10 **FUL INCENTIVES TO**  
11 **PRODUCE SEMICONDUCTORS**  
12 **(CHIPS) FOR AMERICA FUND**

13 **SEC. 10001. CREATING HELPFUL INCENTIVES TO PRODUCE**  
14 **SEMICONDUCTORS (CHIPS) FOR AMERICA**  
15 **FUND.**

16 (a) CHIPS FOR AMERICA FUND.—

17 (1) ESTABLISHMENT.—There is established in  
18 the Treasury of the United States a fund to be  
19 known as the “Creating Helpful Incentives to  
20 Produce Semiconductors (CHIPS) for America  
21 Fund” (referred to in this subsection as the  
22 “Fund”) for the Secretary of Commerce to carry out  
23 sections 9902 and 9906 of the William M. (Mac)  
24 Thornberry National Defense Authorization Act for  
25 Fiscal Year 2021 (Public Law 116–283). Amounts  
26 in the Fund to carry out section 9906 of Public Law

1 116–283 shall be transferred to and merged with ac-  
2 counts within the Department of Commerce to be  
3 used for such purposes.

4 (2) APPROPRIATION.—

5 (A) In addition to amounts otherwise avail-  
6 able for such purposes, there is appropriated to  
7 the Fund established in subsection (a)(1), out  
8 of amounts in the Treasury not otherwise ap-  
9 propriated—

10 (i) for fiscal year 2022,  
11 \$24,000,000,000, to remain available until  
12 expended, of which \$19,000,000,000 shall  
13 be for section 9902 of Public Law 116–  
14 283, \$2,000,000,000 shall be for sub-  
15 section (c) of section 9906 of Public Law  
16 116–283, \$2,500,000,000 shall be for sub-  
17 section (d) of section 9906 of Public Law  
18 116–283, and \$500,000,000 shall be for  
19 subsections (e) and (f) of section 9906 of  
20 Public Law 116–283;

21 (ii) for fiscal year 2023,  
22 \$7,000,000,000 to remain available until  
23 expended, of which \$5,000,000,000 shall  
24 be for section 9902 of Public Law 116–  
25 283 and \$2,000,000,000 shall be for sub-

1 sections (c), (d), (e), and (f) of section  
2 9906 of Public Law 116–283;

3 (iii) for fiscal year 2024,  
4 \$6,300,000,000, to remain available until  
5 expended, of which \$5,000,000,000 shall  
6 be for section 9902 of Public Law 116–  
7 283 and \$1,300,000,000 shall be for sub-  
8 sections (c), (d), (e), and (f) of section  
9 9906 of Public Law 116–283;

10 (iv) for fiscal year 2025,  
11 \$6,100,000,000, to remain available until  
12 expended, of which \$5,000,000,000 shall  
13 be for section 9902 of Public Law 116–  
14 283 and \$1,100,000,000 shall be for sub-  
15 sections (c), (d), (e), and (f) of section  
16 9906 of Public Law 116–283; and

17 (v) for fiscal year 2026,  
18 \$6,800,000,000, to remain available until  
19 expended, of which \$5,000,000,000 shall  
20 be for section 9902 of Public Law 116–  
21 283 and \$1,800,000,000 shall be for sub-  
22 sections (c), (d), (e), and (f) of section  
23 9906 of Public Law 116–283.

24 (B) The Secretary of Commerce may  
25 use—

1 (i) up to \$6,000,000,000 of the  
2 amounts made available for fiscal year  
3 2022 for section 9902 of Public Law 116–  
4 283 for the cost of direct loans and loan  
5 guarantees, as authorized by section 9902  
6 of Public Law 116–283, provided that—

7 (I) such costs, including the cost  
8 of modifying such loans and loan  
9 guarantees shall be as defined in sec-  
10 tion 502 of the Congressional Budget  
11 Act of 1974; and

12 (II) these funds are available to  
13 subsidize gross obligations for the  
14 principal amount of direct loans and  
15 total loan principal, any part of which  
16 is to be guaranteed, not to exceed  
17 \$75,000,000,000; and

18 (ii) up to 2 percent of the amounts  
19 made available in each fiscal year for sala-  
20 ries and expenses, administration, and  
21 oversight purposes to carry out sections  
22 9902, 9904 and 9906 of Public Law 116–  
23 283, of which \$5,000,000 in each of fiscal  
24 years 2022 through 2026 shall be trans-  
25 ferred to the Office of Inspector General of

1 the Department of Commerce to oversee  
2 expenditures from the Fund. The require-  
3 ment to transfer and merge funds for car-  
4 rying out section 9906 of Public Law 116-  
5 283 shall not apply to amounts used pur-  
6 suant to this provision.

7 (3) ASSISTANCE FOR MATURE TECHNOLOGY  
8 NODES.—

9 (A) Of the amount available in fiscal year  
10 2022 to implement section 9902 of Public Law  
11 116-283, \$2,000,000,000 shall be to provide  
12 Federal financial assistance to covered entities  
13 to incentivize investment in facilities and equip-  
14 ment in the United States for the fabrication,  
15 assembly, testing, or advanced packaging of  
16 semiconductors at mature technology nodes.

17 (B) In addition to the procedures, eligi-  
18 bility, and considerations for review specified in  
19 subsection 9902(a)(2) of Public Law 116-283,  
20 in order for an entity to qualify to receive Fed-  
21 eral financial assistance under this paragraph,  
22 the covered entity shall—

23 (i)(I) provide equipment or materials  
24 for the fabrication, assembly, testing, or  
25 advanced packaging of semiconductors at

1 mature technology nodes in the United  
2 States; or

3 (II) fabricate, assemble using ad-  
4 vanced packaging, or test semiconductors  
5 at mature technology nodes in the United  
6 States; and

7 (ii) commit to using any Federal fi-  
8 nancial assistance received under this sec-  
9 tion to increase the production of semi-  
10 conductors at mature technology nodes.

11 (C) In addition to the considerations de-  
12 scribed in subsection 9902(a)(2)(C) of Public  
13 Law 116–283, in granting Federal financial as-  
14 sistance under this paragraph, the Secretary  
15 may consider whether a covered entity produces  
16 or supplies equipment or materials used in the  
17 fabrication, assembly, testing, or advanced  
18 packaging of semiconductors at mature tech-  
19 nology nodes that are necessary to support a  
20 critical manufacturing industry.

21 (D) In awarding Federal financial assist-  
22 ance to covered entities under this paragraph,  
23 the Secretary shall give priority to covered enti-  
24 ties that support the resiliency of semiconductor

1 supply chains for critical manufacturing indus-  
2 tries in the United States.

3 (E) In this paragraph, the term “critical  
4 manufacturing industry”—

5 (i) means an industry that is assigned  
6 a North American Industry Classification  
7 System code beginning with 31, 32, or 33,  
8 and for which the industry components  
9 that are assigned a North American Indus-  
10 try Classification System code beginning  
11 with the same 4 digits as the industry—

12 (I) manufacture primary prod-  
13 ucts and parts, the sum of which ac-  
14 count for not less than 5 percent of  
15 the manufacturing value added by in-  
16 dustry gross domestic product of the  
17 United States; and

18 (II) employ individuals for pri-  
19 mary products and parts manufac-  
20 turing activities that, combined, ac-  
21 count for not less than 5 percent of  
22 manufacturing employment in the  
23 United States; and

24 (ii) may include any other manufac-  
25 turing industry designated by the Sec-

1           retary based on the relevance of the manu-  
2           facturing industry to the national and eco-  
3           nomic security of the United States, in-  
4           cluding the impacts of job losses.

5           (F) In this paragraph, the term “mature  
6           technology node” has the meaning given the  
7           term by the Secretary of Commerce.

8           (4) ALLOCATION AUTHORITY.—

9           (A) SUBMISSION OF COST ESTIMATES.—

10          The President shall submit to Congress detailed  
11          account, program, and project allocations of the  
12          full amount made available under subsection  
13          (a)(2)—

14                 (i) for fiscal years 2022 and 2023, not  
15                 later than 90 days after the date of enact-  
16                 ment of this Act; and

17                 (ii) for each subsequent fiscal year  
18                 through 2026, as part of the annual budg-  
19                 et submission of the President under sec-  
20                 tion 1105(a) of title 31, United States  
21                 Code.

22          (B) ALTERNATE ALLOCATION.—

23                 (i) IN GENERAL.—The Committees on  
24                 Appropriations of the House of Represent-  
25                 atives and the Senate may provide for al-

1           ternate allocation of amounts made avail-  
2           able under subsection (a)(2), including by  
3           account, program, and project.

4           (ii) ALLOCATION BY PRESIDENT.—

5           (I) NO ALTERNATE ALLOCA-  
6           TIONS.—If Congress has not enacted  
7           legislation establishing alternate allo-  
8           cations, including by account, pro-  
9           gram, and project, by the date on  
10          which the Act making full-year appro-  
11          priations for the Department of Com-  
12          merce, Justice, Science, and Related  
13          Agencies for the applicable fiscal year  
14          is enacted into law, only then shall  
15          amounts made available under sub-  
16          section (a)(2) be allocated by the  
17          President or apportioned or allotted  
18          by account, program, and project pur-  
19          suant to title 31, United States Code.

20          (II) INSUFFICIENT ALTERNATE  
21          ALLOCATION.—If Congress enacts leg-  
22          islation establishing alternate alloca-  
23          tions, including by account, program,  
24          and project, for amounts made avail-  
25          able under subsection (a)(2) that are

1 less than the full amount appropriated  
2 under that subsection, the difference  
3 between the amount appropriated and  
4 the alternate allocation shall be allo-  
5 cated by the President and appor-  
6 tioned and allotted by account, pro-  
7 gram, and project pursuant to title  
8 31, United States Code.

9 (b) CHIPS FOR AMERICA DEFENSE FUND.—

10 (1) ESTABLISHMENT.—There is established in  
11 the Treasury of the United States a fund to be  
12 known as the “Creating Helpful Incentives to  
13 Produce Semiconductors (CHIPS) for America De-  
14 fense Fund” (referred to in this subsection as the  
15 “Fund”) to provide for research, development, test  
16 and evaluation, workforce development, and other re-  
17 quirements that are unique to the Department of  
18 Defense and the intelligence community, including  
19 those requirements that are necessary to carry out  
20 section 9903(b) of the William M. (Mac) Thornberry  
21 National Defense Authorization Act for Fiscal Year  
22 2021 (Public Law 116–283). Amounts in the Fund  
23 shall be transferred to and merged with accounts  
24 within the Department of Defense to be used for  
25 such purposes. Amounts in the Fund or transferred

1 to and merged with accounts within the Department  
2 of Defense may not be used for construction of fa-  
3 cilities.

4 (2) APPROPRIATION.—In addition to amounts  
5 otherwise available for such purposes, there is appro-  
6 priated to the Fund established in subsection (b)(1),  
7 out of amounts in the Treasury not otherwise appro-  
8 priated—

9 (A) for fiscal year 2022, \$400,000,000, to  
10 remain available until September 30, 2022;

11 (B) for fiscal year 2023, \$400,000,000, to  
12 remain available until September 30, 2023;

13 (C) for fiscal year 2024, \$400,000,000, to  
14 remain available until September 30, 2024;

15 (D) for fiscal year 2025, \$400,000,000, to  
16 remain available until September 30, 2025; and

17 (E) for fiscal year 2026, \$400,000,000, to  
18 remain available until September 30, 2026.

19 (3) ALLOCATION AUTHORITY.—

20 (A) SUBMISSION OF COST ESTIMATES.—  
21 The President shall submit to Congress detailed  
22 account, program element, and project alloca-  
23 tions of the full amount made available under  
24 subsection (b)(2)—

1 (i) for fiscal years 2022 and 2023, not  
2 later than 90 days after the date of enact-  
3 ment of this Act; and

4 (ii) for each subsequent fiscal year  
5 through 2026, as part of the annual budg-  
6 et submission of the President under sec-  
7 tion 1105(a) of title 31, United States  
8 Code.

9 (B) ALTERNATE ALLOCATION.—

10 (i) IN GENERAL.—The Committees on  
11 Appropriations of the House of Represent-  
12 atives and the Senate may provide for al-  
13 ternate allocation of amounts made avail-  
14 able under subsection (b)(2), including by  
15 account, program element, and project.

16 (ii) ALLOCATION BY PRESIDENT.—

17 (I) NO ALTERNATE ALLOCA-  
18 TIONS.—If Congress has not enacted  
19 legislation establishing alternate allo-  
20 cations, including by account, pro-  
21 gram element, and project, by the  
22 date on which the Act making full-  
23 year appropriations for the Depart-  
24 ment of Defense for the applicable fis-  
25 cal year is enacted into law, only then

1 shall amounts made available under  
2 subsection (b)(2) be allocated by the  
3 President or apportioned or allotted  
4 by account, program element, and  
5 project pursuant to title 31, United  
6 States Code.

7 (II) INSUFFICIENT ALTERNATE  
8 ALLOCATION.—If Congress enacts leg-  
9 islation establishing alternate alloca-  
10 tions, including by account, program  
11 element, and project, for amounts  
12 made available under subsection  
13 (b)(2) that are less than the full  
14 amount appropriated under that sub-  
15 section, the difference between the  
16 amount appropriated and the alter-  
17 nate allocation shall be allocated by  
18 the President and apportioned and al-  
19 lotted by account, program element,  
20 and project pursuant to title 31,  
21 United States Code.

22 (c) CHIPS FOR AMERICA INTERNATIONAL TECH-  
23 NOLOGY SECURITY AND INNOVATION FUND.—

24 (1) ESTABLISHMENT.—There is established in  
25 the Treasury of the United States a fund to be

1 known as the “Creating Helpful Incentives to  
2 Produce Semiconductors (CHIPS) for America  
3 International Technology Security and Innovation  
4 Fund” (referred to in this subsection as the  
5 “Fund”) to provide for international information  
6 and communications technology security and semi-  
7 conductor supply chain activities, including to sup-  
8 port the development and adoption of secure and  
9 trusted telecommunications technologies, secure  
10 semiconductors, secure semiconductors supply  
11 chains, and other emerging technologies and to carry  
12 out sections 9905 and 9202(a)(2) of the William M.  
13 (Mac) Thornberry National Defense Authorization  
14 Act for Fiscal Year 2021 (Public Law 116–283), as  
15 appropriate. Amounts in the Fund shall be trans-  
16 ferred by the Secretary of State to accounts within  
17 the Department of State, the United States Agency  
18 for International Development, the Export-Import  
19 Bank, and the United States International Develop-  
20 ment Finance Corporation, as appropriate, to be  
21 used for such purposes and under the terms and  
22 conditions of the account to which transferred.

23 (2) APPROPRIATION.—

24 (A) In addition to amounts otherwise avail-  
25 able for such purposes, there is appropriated to

1 the Fund established in subsection (c)(1), out  
2 of amounts in the Treasury not otherwise ap-  
3 propriated—

4 (i) for fiscal year 2022, \$100,000,000,  
5 to remain available until September 30,  
6 2026;

7 (ii) for fiscal year 2023,  
8 \$100,000,000, to remain available until  
9 September 30, 2027;

10 (iii) for fiscal year 2024,  
11 \$100,000,000, to remain available until  
12 September 30, 2028;

13 (iv) for fiscal year 2025,  
14 \$100,000,000, to remain available until  
15 September 30, 2029; and

16 (v) for fiscal year 2026,  
17 \$100,000,000, to remain available until  
18 September 30, 2030.

19 (B) In carrying out this subsection, the  
20 Secretary of State may use up to \$5,000,000 of  
21 the amounts made available in each fiscal year  
22 for the Fund for salaries and expenses, admin-  
23 istration, and oversight purposes, of which  
24 \$500,000 in each of fiscal years 2022 through  
25 2026 shall be transferred to the Office of In-

1           spectator General of the Department of State to  
2           oversee expenditures under the Fund.

3           (3) ALLOCATION AUTHORITY.—

4           (A) SUBMISSION OF COST ESTIMATES.—

5           The President shall submit to Congress detailed  
6           account, program, project, and activity alloca-  
7           tions of the full amount made available under  
8           subsection (c)(2)—

9                   (i) for fiscal years 2022 and 2023, not  
10                  later than 90 days after the date of enact-  
11                  ment of this Act; and

12                   (ii) for each subsequent fiscal year  
13                  through 2026, as part of the annual budg-  
14                  et submission of the President under sec-  
15                  tion 1105(a) of title 31, United States  
16                  Code.

17           (B) ALTERNATE ALLOCATION.—

18                   (i) IN GENERAL.—The Committees on  
19                  Appropriations of the House of Represent-  
20                  atives and the Senate may provide for al-  
21                  ternate allocation of amounts made avail-  
22                  able under subsection (c)(2), including by  
23                  account, program, project, and activity.

24                   (ii) ALLOCATION BY PRESIDENT.—

1 (I) NO ALTERNATE ALLOCA-  
2 TIONS.—If Congress has not enacted  
3 legislation establishing alternate allo-  
4 cations, including by account, pro-  
5 gram, project, and activity, by the  
6 date on which the Act making full-  
7 year appropriations for the Depart-  
8 ment of State, Foreign Operations,  
9 and Related Programs for the applica-  
10 ble fiscal year is enacted into law,  
11 only then shall amounts made avail-  
12 able under subsection (c)(2) be allo-  
13 cated by the President or apportioned  
14 or allotted by account, program,  
15 project, and activity pursuant to title  
16 31, United States Code.

17 (II) INSUFFICIENT ALTERNATE  
18 ALLOCATION.—If Congress enacts leg-  
19 islation establishing alternate alloca-  
20 tions, including by account, program,  
21 project, and activity, for amounts  
22 made available under subsection  
23 (c)(2) that are less than the full  
24 amount appropriated under that sub-  
25 section, the difference between the

1 amount appropriated and the alter-  
2 nate allocation shall be allocated by  
3 the President and apportioned and al-  
4 lotted by account, program, project,  
5 and activity pursuant to title 31,  
6 United States Code.

7 (d) SEQUESTRATION.—Section 255(g)(1)(A) of the  
8 Balanced Budget and Emergency Deficit Control Act of  
9 1985 (2 U.S.C. 905(g)(1)(A)) is amended by inserting  
10 after “Continuing Fund, Southwestern Power Administra-  
11 tion (89–5649–0–2–271).” the following:

12 “Creating Helpful Incentives to Produce  
13 Semiconductors (CHIPS) for America Fund.

14 “Creating Helpful Incentives to Produce  
15 Semiconductors (CHIPS) for America Defense  
16 Fund.

17 “Creating Helpful Incentives to Produce  
18 Semiconductors (CHIPS) for America Inter-  
19 national Technology Security and Innovation  
20 Fund.”.

21 (e) STATUTORY PAYGO SCORECARDS.—The budg-  
22 etary effects of this section shall not be entered on either  
23 PAYGO scorecard maintained pursuant to section 4(d) of  
24 the Statutory Pay-As-You-Go Act of 2010.

1 (f) LIMITATION ON USING AMOUNTS FOR STOCK  
2 BUYBACKS OR THE PAYMENT OF DIVIDENDS.—

3 (1) IN GENERAL.—A person receiving amounts  
4 appropriated under this section or from a covered  
5 fund may not use such amounts—

6 (A) to purchase an equity security that is  
7 listed on a national securities exchange of such  
8 person or any parent company of such person;  
9 or

10 (B) to pay dividends or make other capital  
11 distributions with respect to the common stock  
12 (or equivalent interest) of the person.

13 (2) COVERED FUND.—In this subsection, the  
14 term “covered fund” means—

15 (A) the Creating Helpful Incentives to  
16 Produce Semiconductors (CHIPS) for America  
17 Fund;

18 (B) the Creating Helpful Incentives to  
19 Produce Semiconductors (CHIPS) for America  
20 Defense Fund; and

21 (C) the Creating Helpful Incentives to  
22 Produce Semiconductors (CHIPS) for America  
23 International Technology Security and Innova-  
24 tion Fund.

1 **SEC. 10002. SEMICONDUCTOR INCENTIVES.**

2 (a) DEFINITIONS.—Section 9901 of the William M.  
3 (Mac) Thornberry National Defense Authorization Act for  
4 Fiscal Year 2021 (Public Law 116–283) is amended—

5 (1) in paragraph (2)—

6 (A) by inserting “production,” before “or  
7 research and development”; and

8 (B) by striking “of semiconductors.” and  
9 inserting “of semiconductors, materials used to  
10 manufacture semiconductors, or semiconductor  
11 manufacturing equipment.”;

12 (2) by redesignating paragraphs (4), (5), (6),  
13 (7), (8), and (9) as paragraphs (5), (6), (7), (8),  
14 (10), and (11), respectively;

15 (3) by inserting after paragraph (3) the fol-  
16 lowing:

17 “(4) The term ‘critical manufacturing indus-  
18 try’—

19 “(A) means an industry—

20 “(i) that is assigned a North Amer-  
21 ican Industry Classification System code  
22 beginning with 31, 32, or 33; and

23 “(ii) for which the industry compo-  
24 nents that are assigned a North American  
25 Industry Classification System code begin-

1           ning with the same 4 digits as the indus-  
2           try—

3                   “(I) manufacture primary prod-  
4                   ucts and parts, the sum of which ac-  
5                   count for not less than 5 percent of  
6                   the manufacturing value added by in-  
7                   dustry gross domestic product of the  
8                   United States; and

9                   “(II) employ individuals for pri-  
10                   mary products and parts manufac-  
11                   turing activities that, combined, ac-  
12                   count for not less than 5 percent of  
13                   manufacturing employment in the  
14                   United States; and

15                   “(B) may include any other manufacturing  
16                   industry designated by the Secretary based on  
17                   the relevance of the manufacturing industry to  
18                   the national and economic security of the  
19                   United States, including the impacts of job  
20                   losses.”; and

21                   (4) by inserting after paragraph (8), as so re-  
22                   designated, the following:

23                   “(9) The term ‘mature technology node’ has the  
24                   meaning given the term by the Secretary.”.

1 (b) SEMICONDUCTOR PROGRAM.—Section 9902 of  
2 the William M. (Mac) Thornberry National Defense Au-  
3 thorization Act for Fiscal Year 2021 (Public Law 116-  
4 283) is amended—

5 (1) in subsection (a)(1)—

6 (A) by striking “for semiconductor fabrica-  
7 tion” and inserting “for the fabrication”;

8 (B) by inserting “production,” before “or  
9 research and development”; and

10 (C) by striking the period at the end and  
11 inserting “of semiconductors, materials used to  
12 manufacture semiconductors, or semiconductor  
13 manufacturing equipment.”; and

14 (2) in subsection (a)(2)—

15 (A) in subparagraph (B)(ii)—

16 (i) in subclause (III), by striking  
17 “and” at the end;

18 (ii) in subclause (IV), by striking the  
19 period at the end and inserting “and”; and

20 (iii) by adding at the end the fol-  
21 lowing:

22 “(V) determined—

23 “(aa) the type of semicon-  
24 ductor technology the covered en-

1 tity will produce at the facility  
2 described in clause (i); and

3 “(bb) the customers to  
4 which the covered entity plans to  
5 sell the semiconductor technology  
6 described in item (aa).”;

7 (B) in subparagraph (C)—

8 (i) in clause (i)—

9 (I) in subclause (II), by striking  
10 “is in the interest of the United  
11 States” and inserting “is in the eco-  
12 nomic and national security interests  
13 of the United States”; and

14 (II) in subclause (III), by strik-  
15 ing “and” at the end;

16 (ii) in clause (ii)(IV), by striking  
17 “and” at the end;

18 (iii) by redesignating clause (iii) as  
19 clause (iv); and

20 (iv) by inserting after clause (ii) the  
21 following:

22 “(iii) the Secretary shall consider the  
23 type of semiconductor technology produced  
24 by the covered entity and whether that  
25 semiconductor technology advances the

1 economic and national security interests of  
2 the United States; and”;

3 (C) by redesignating subparagraph (D) as  
4 subparagraph (E) and by inserting at the end  
5 of such subparagraph the following: “Any appli-  
6 cant with more than 100 employees shall pro-  
7 vide data to the Secretary on the racial diver-  
8 sity of their workforce.”; and

9 (D) by inserting after subparagraph (C)  
10 the following:

11 “(D) PRIORITY.—In awarding Federal fi-  
12 nancial assistance to covered entities under sub-  
13 section (a), the Secretary shall give priority to  
14 ensuring that a covered entity receiving finan-  
15 cial assistance will—

16 “(i) manufacture semiconductors nec-  
17 essary to address gaps and vulnerabilities  
18 in the domestic supply chain across a di-  
19 verse range of technology and process  
20 nodes; and

21 “(ii) provide a secure supply of semi-  
22 conductors necessary for the national secu-  
23 rity, manufacturing, critical infrastructure,  
24 and technology leadership of the United

1 States and other essential elements of the  
2 economy of the United States.”;

3 (3) in paragraph (4)(A), by striking “used for  
4 semiconductors” and inserting “used for the pur-  
5 poses”;

6 (4) in subsection (c)(1)(B)—

7 (A) in clause (i), by striking “; and” and  
8 inserting a semicolon; and

9 (B) by adding at the end the following:

10 “(iii) the Federal Government could  
11 take specific actions to address shortages  
12 in the semiconductor supply chain, includ-  
13 ing—

14 “(I) demand-side incentives, in-  
15 cluding incentives related to the infor-  
16 mation and communications tech-  
17 nology supply chain; and

18 “(II) additional incentives, at na-  
19 tional and global scales, to accelerate  
20 utilization of leading-edge semicon-  
21 ductor nodes to address shortages in  
22 mature semiconductor nodes; and”;

23 (5) in subsection (c)(1)(C)(iii), by striking “in-  
24 cluding efforts to hire individuals from disadvan-  
25 taged populations; and” and inserting “including—

1                   “(I) efforts to hire individuals  
2                   from disadvantaged populations; and

3                   “(II) the aggregated racial diver-  
4                   sity of workforce data for applicants  
5                   who received awards made under the  
6                   program and separately for applicants  
7                   who unsuccessfully applied for such  
8                   an award; and”;

9                   (6) by adding at the end the following:

10                  “(d) SENSE OF CONGRESS.—It is the sense of Con-  
11                  gress that, in carrying out subsection (a), the Secretary  
12                  should allocate funds in a manner that—

13                         “(1) strengthens the security and resilience of  
14                         the semiconductor supply chain, including by miti-  
15                         gating gaps and vulnerabilities;

16                         “(2) provides a supply of secure semiconductors  
17                         relevant for national security;

18                         “(3) strengthens the leadership of the United  
19                         States in semiconductor technology;

20                         “(4) grows the economy of the United States  
21                         and supports job creation in the United States;

22                         “(5) in consultation with the Director of the  
23                         Minority Business Development Agency, adequately  
24                         addresses the inclusion of economically disadvan-

1       tagged individuals and similarly-situated small busi-  
2       nesses; and

3               “(6) improves the resiliency of the semicon-  
4       ductor supply chains of critical manufacturing in-  
5       dustries.

6       “(e) ADDITIONAL ASSISTANCE FOR MATURE TECH-  
7       NOLOGY NODES.—

8               “(1) IN GENERAL.—The Secretary shall estab-  
9       lish within the program established under subsection  
10       (a) an additional program that provides Federal fi-  
11       nancial assistance to covered entities to incentivize  
12       investment in facilities and equipment in the United  
13       States for the fabrication, assembly, testing, or ad-  
14       vanced packaging of semiconductors at mature tech-  
15       nology nodes.

16               “(2) ELIGIBILITY AND REQUIREMENTS.—In  
17       order for an entity to qualify to receive Federal fi-  
18       nancial assistance under this subsection, the covered  
19       entity shall—

20                       “(A) submit an application under sub-  
21                       section (a)(2)(A);

22                       “(B) meet the eligibility requirements  
23                       under subsection (a)(2)(B);

24                       “(C)(i) provide equipment or materials for  
25                       the fabrication, assembly, testing, or advanced

1 packaging of semiconductors at mature tech-  
2 nology nodes in the United States; or

3 “(ii) fabricate, assemble using advanced  
4 packaging, or test semiconductors at mature  
5 technology nodes in the United States;

6 “(D) commit to using any Federal finan-  
7 cial assistance received under this section to in-  
8 crease the production of semiconductors at ma-  
9 ture technology nodes; and

10 “(E) be subject to the considerations de-  
11 scribed in subsection (a)(2)(C).

12 “(3) PROCEDURES.—In granting Federal finan-  
13 cial assistance to covered entities under this sub-  
14 section, the Secretary may use the procedures estab-  
15 lished under subsection (a).

16 “(4) CONSIDERATIONS.—In addition to the con-  
17 siderations described in subsection (a)(2)(C), in  
18 granting Federal financial assistance under this sub-  
19 section, the Secretary may consider whether a cov-  
20 ered entity produces or supplies equipment or mate-  
21 rials used in the fabrication, assembly, testing, or  
22 advanced packaging of semiconductors at mature  
23 technology nodes that are necessary to support a  
24 critical manufacturing industry.

1           “(5) PRIORITY.—In awarding Federal financial  
2           assistance to covered entities under this subsection,  
3           the Secretary shall give priority to covered entities  
4           that support the resiliency of semiconductor supply  
5           chains for critical manufacturing industries in the  
6           United States.

7           “(6) AUTHORIZATION OF APPROPRIATIONS.—  
8           There are authorized to be appropriated to the Sec-  
9           retary to carry out this subsection \$2,000,000,000,  
10          which shall remain available until expended.

11          “(f) CONSTRUCTION PROJECTS.—Section 602 of the  
12          Public Works and Economic Development Act of 1965 (42  
13          U.S.C. 3212) shall apply to a construction project that  
14          receives financial assistance from the Secretary under this  
15          section.”.

16          (c) ADVANCED MICROELECTRONICS RESEARCH AND  
17          DEVELOPMENT.—Section 9906 of the William M. (Mac)  
18          Thornberry National Defense Authorization Act for Fiscal  
19          Year 2021 (Public Law 116–283) is amended—

20                 (1) in subsection (a)(3)(A)(ii)(II), by inserting  
21                 “, including for technologies based on organic and  
22                 inorganic materials” before the semicolon at the end;  
23                 and

24                 (2) by adding at the end the following:

1           “(h) INFRASTRUCTURE GRANTS.—Section 602 of the  
2 Public Works and Economic Development Act of 1965 (42  
3 U.S.C. 3212) shall apply to a construction project that  
4 receives financial assistance from the Secretary under this  
5 section.”.

6           (d) LOAN GUARANTEE AUTHORITIES.—Section 9902  
7 of the William M. (Mac) Thornberry National Defense Au-  
8 thorization Act for Fiscal Year 2021 (Public Law 116–  
9 283) is amended by adding at the end the following:

10           “(d) LOANS AND LOAN GUARANTEES.—Subject to  
11 the requirements of subsection (a) of this section, the Sec-  
12 retary of Commerce is authorized to make or guarantee  
13 loans to covered entities as financial assistance under this  
14 section. Loans made or guaranteed under this section will  
15 be on such terms and conditions as the Secretary may pre-  
16 scribe.”.

17           (e) ADMINISTRATIVE CHANGES.—Section 9906 of the  
18 William M. (Mac) Thornberry National Defense Author-  
19 ization Act for Fiscal Year 2021 (Public Law 116–283)  
20 is amended—

21           (1) in subsection (c)(1) by adding at the end  
22 the following: “The Secretary may make financial  
23 assistance awards in support of the center.”;

24           (2) in subsection (c)(2)(B) by inserting “and  
25 capitalize” before “an investment fund”;

1 (3) in subsection (d) by—

2 (A) striking “the Manufacturing USA in-  
3 stitute” and inserting “a Manufacturing USA  
4 institute”; and

5 (B) adding to the end the following: “The  
6 Director may make financial assistance awards  
7 in support of the Program.”; and

8 (4) in subsection (f) by—

9 (A) striking “a Manufacturing USA Insti-  
10 tute” and inserting “one or more Manufac-  
11 turing USA Institutes”;

12 (B) striking “is focused on semiconductor  
13 manufacturing” and inserting “are focused on  
14 semiconductor manufacturing”;

15 (C) inserting “The Secretary may also pro-  
16 vide financial assistance to any Manufacturing  
17 USA institute for work related to semicon-  
18 ductor manufacturing.” after “focused on semi-  
19 conductor manufacturing.”; and

20 (D) striking “Such institute may empha-  
21 size” and inserting “Such institutes may em-  
22 phasize”.

23 (f) ADDITIONAL AUTHORITIES.—The William M.  
24 (Mac) Thornberry National Defense Authorization Act for

1 Fiscal Year 2021 (Public Law 116–283) is amended by  
2 adding at the end the following:

3 **“SEC. 9909. ADDITIONAL AUTHORITIES.**

4 “In carrying out the responsibilities of the Depart-  
5 ment of Commerce under this Act, the Secretary of Com-  
6 merce may—

7 “(1) enter into agreements, including contracts,  
8 grants and cooperative agreements, and other trans-  
9 actions as may be necessary and on such terms as  
10 the Secretary considers appropriate;

11 “(2) make advance payments under agreements  
12 and other transactions authorized by paragraph (1)  
13 without regard to section 3324 of title 31, United  
14 States Code;

15 “(3) include a clause that requires a person or  
16 other entity to make payments to the Department of  
17 Commerce as a condition for receiving support  
18 through an award of assistance or other transaction,  
19 and any funds received shall be credited to and  
20 merged with the account from which such support  
21 was made;

22 “(4) procure temporary and intermittent serv-  
23 ices of experts and consultants in accordance with  
24 section 3109 of title 5, United States Code;

1           “(5) notwithstanding section 3104 of title 5,  
2           United States Code, or the provisions of any other  
3           law relating to the appointment, number, classifica-  
4           tion, or compensation of employees, make appoint-  
5           ments of scientific, engineering, and professional  
6           personnel, and fix the basic pay of such personnel at  
7           a rate to be determined by the Secretary at rates not  
8           in excess of the highest total annual compensation  
9           payable at the rate determined under section 104 of  
10          title 3, United States Code, except that the Sec-  
11          retary shall appoint not more than 25 personnel  
12          under this paragraph; and

13           “(6) with the consent of another Federal agen-  
14          cy, enter into an agreement with that Federal agen-  
15          cy to utilize, with or without reimbursement, any  
16          service, equipment, personnel, or facility of that Fed-  
17          eral agency.”.

18          (g) CONFORMING AMENDMENT.—The analysis for  
19          the William M. (Mac) Thornberry National Defense Au-  
20          thorization Act for Fiscal Year 2021 (Public Law 116–  
21          283) is amended by adding after the item relating to sec-  
22          tion 9908 the following:

          “9909. Additional authorities.”.

23          **SEC. 10003. OFFICE OF OPPORTUNITY AND INCLUSION.**

24           (a) ESTABLISHMENT.—Not later than 6 months after  
25          the date of the enactment of this Act, the Secretary of

1 Commerce shall establish an Office of Opportunity and In-  
2 clusion in the Department of Commerce, within the pro-  
3 gram established under section 9902 of the William M.  
4 (Mac) Thornberry National Defense Authorization Act for  
5 Fiscal Year 2021 (Public Law 116–283), that shall be re-  
6 sponsible for carrying out this section using existing ap-  
7 propriated funds.

8 (b) DIRECTOR.—

9 (1) IN GENERAL.—The Director shall be ap-  
10 pointed by, and shall report to, the Secretary or the  
11 designee of the Secretary. The position of Director  
12 shall be a career reserved position in the Senior Ex-  
13 ecutive Service, as that position is defined in section  
14 3132 of title 5, United State Code, or an equivalent  
15 designation.

16 (2) DUTIES.—The Director shall assist the Sec-  
17 retary by developing standards for—

18 (A) assessing the eligibility of a covered  
19 entity for financial assistance for a project as it  
20 relates to section 9902(a)(2)(B)(ii)(II) and  
21 (III) of the William M. (Mac) Thornberry Na-  
22 tional Defense Authorization Act for Fiscal  
23 Year 2021 (Public Law 116–283);

24 (B) ensuring a covered entity has carried  
25 out the commitments of the covered entity to

1 economically disadvantaged individuals as de-  
2 scribed in its application by the target dates for  
3 completion set by the Secretary in section  
4 9902(a)(5)(A) of such Act; and

5 (C) increased participation of and outreach  
6 to economically disadvantaged individuals, mi-  
7 nority-owned businesses, veteran-owned busi-  
8 nesses and women-owned businesses in the geo-  
9 graphic area of a project under such section  
10 9902 and serve as a resource for those individ-  
11 uals, businesses, and covered entity.

12 (c) STAFF.—The Office of Opportunity and Inclusion  
13 shall be staffed at the appropriate levels to carry out the  
14 functions and responsibilities of the Office under this sec-  
15 tion at least until 12 months after 95 percent of funds  
16 have been expended.

17 (d) REPORT.—The Secretary shall submit to Con-  
18 gress and make publicly available on its website an annual  
19 report regarding the actions taken by the Department of  
20 Commerce and the Office under this section.

21 **SEC. 10004. ADDITIONAL GAO REPORTING REQUIREMENT.**

22 Section 9902(c)(1)(C) of William M. (Mac) Thorn-  
23 berry National Defense Authorization Act for Fiscal Year  
24 2021 (Public Law 116–283) is amended—

1 (1) in clause (iii), by striking “; and” and in-  
2 serting a semicolon; and

3 (2) by inserting after clause (iv) the following  
4 new clause:

5 “(v) how projects are supporting the  
6 semiconductor needs of critical infrastruc-  
7 ture industries in the United States, in-  
8 cluding those industries designated by the  
9 Cybersecurity and Infrastructure Security  
10 Agency as essential infrastructure indus-  
11 tries; and”.

12 **SEC. 10005. COMPTROLLER GENERAL REPORT.**

13 Not later than September 30, 2023, the Comptroller  
14 General of the United States shall submit to Congress a  
15 report on the number and amount of awards made pursu-  
16 ant to sections 9902 and 9202(a)(1) of the William M.  
17 (Mac) Thornberry National Defense Authorization Act for  
18 Fiscal Year 2021 (Public Law 116–283), disaggregated  
19 by recipients of each such award that are majority owned  
20 and controlled by minority individuals and majority owned  
21 and controlled by women.

22 **SEC. 10006. MODIFICATION TO CERTAIN GAO REPORTS.**

23 (a) SEMICONDUCTOR INCENTIVES.—Section  
24 9902(c)(1) of the William M. (Mac) Thornberry National

1 Defense Authorization Act for Fiscal Year 2021 (Public  
2 Law 116–283) is amended—

3 (1) in subparagraph (B)(ii), by striking “and”  
4 at the end;

5 (2) by adding at the end the following new sub-  
6 paragraph:

7 “(D) the number and amount of contracts  
8 and subcontracts awarded by a covered entity  
9 using funds made available under subsection (a)  
10 disaggregated by recipients of each such con-  
11 tract or subcontracts that are majority owned  
12 and controlled by minority individuals and ma-  
13 jority owned and controlled by women; and”.

14 (b) DEPARTMENT OF DEFENSE.—Section  
15 9202(a)(1)(G)(ii)(I) of the William M. (Mac) Thornberry  
16 National Defense Authorization Act for Fiscal Year 2021  
17 (Public Law 116–283) is amended by inserting “(includ-  
18 ing whether recipients are majority owned and controlled  
19 by minority individuals and majority owned and controlled  
20 by women)” after “to whom”.

21 **SEC. 10007. EXPANDING THE SEMICONDUCTOR INCENTIVE**  
22 **PROGRAM TO INCLUDE NONPROFITS.**

23 Section 9901(2) of William M. (Mac) Thornberry Na-  
24 tional Defense Authorization Act for Fiscal Year 2021

1 (Public Law 116–283) is amended by inserting “a non-  
2 profit entity” before “a private entity”.

3       **DIVISION B—RESEARCH AND**  
4                                   **INNOVATION**  
5       **TITLE I—DEPARTMENT OF EN-**  
6                                   **ERGY SCIENCE FOR THE FU-**  
7                                   **TURE**

8       **SEC. 10101. MISSION OF THE OFFICE OF SCIENCE.**

9           Section 209 of the Department of Energy Organiza-  
10       tion Act (42 U.S.C. 7139) is amended by adding at the  
11       end the following:

12           “(d) **USER FACILITIES.**—The Director shall carry  
13       out the construction, operation, and maintenance of user  
14       facilities to support the mission described in subsection  
15       (c). As practicable, these facilities shall serve the needs  
16       of the Department, industry, the academic community,  
17       and other relevant entities for the purposes of advancing  
18       the missions of the Department, improving the competi-  
19       tiveness of the United States, protecting public health and  
20       safety, and addressing other national priorities including  
21       emergencies.

22           “(e) **COORDINATION.**—

23                   “(1) **IN GENERAL.**—The Secretary—

1           “(A) shall ensure the coordination of the  
2 Office of Science with the other activities of the  
3 Department;

4           “(B) shall support joint activities among  
5 the programs of the Department;

6           “(C) shall coordinate with other relevant  
7 Federal agencies in supporting advancements in  
8 related research areas as appropriate; and

9           “(D) may form partnerships to enhance  
10 the utilization of and ensure access to user fa-  
11 cilities by other Federal agencies.

12           “(2) OFFICE OF SCIENCE.—The Director—

13           “(A) shall ensure the coordination of pro-  
14 grams and activities carried out by the Office of  
15 Science; and

16           “(B) shall direct all programs which have  
17 not recently completed a future planning road-  
18 map consistent with the funding of such pro-  
19 grams authorized under the America COM-  
20 PETES Act of 2022 to complete such a road-  
21 map.”.

22 **SEC. 10102. BASIC ENERGY SCIENCES PROGRAM.**

23           (a) DEPARTMENT OF ENERGY RESEARCH AND INNO-  
24 VATION ACT.—Section 303 of the Department of Energy

1 Research and Innovation Act (42 U.S.C. 18641) is amend-  
2 ed—

3 (1) by redesignating subsections (a) through (e)  
4 as subsections (c) through (g), respectively; and

5 (2) by inserting before subsection (c), as so re-  
6 designated, the following:

7 “(a) PROGRAM.—As part of the activities authorized  
8 under section 209 of the Department of Energy Organiza-  
9 tion Act (42 U.S.C. 7139), the Director shall carry out  
10 a research and development program in basic energy  
11 sciences, including materials sciences and engineering,  
12 chemical sciences, physical biosciences, geosciences, and  
13 other disciplines, to understand, model, and control matter  
14 and energy at the electronic, atomic, and molecular levels  
15 in order to provide the foundations for new energy tech-  
16 nologies, address scientific grand challenges, and support  
17 the energy, environment, and national security missions  
18 of the Department.

19 “(b) SUSTAINABLE CHEMISTRY.—In carrying out  
20 chemistry-related research and development activities  
21 under this section, the Director shall prioritize research  
22 and development of sustainable chemistry to support  
23 clean, safe, and economic alternatives and methodologies  
24 to traditional chemical products and processes.”;

25 (3) in subsection (d), as so redesignated—

1 (A) in paragraph (3)—

2 (i) subparagraph (C), by striking  
3 “and” at the end;

4 (ii) by redesignating subparagraph  
5 (D) as subparagraph (E); and

6 (iii) by inserting after subparagraph  
7 (C) the following:

8 “(D) autonomous chemistry and materials  
9 synthesis and characterization facilities that le-  
10 verage advances in artificial intelligence; and”;  
11 and

12 (B) by adding at the end the following:

13 “(4) ADVANCED PHOTON SOURCE UPGRADE.—

14 “(A) DEFINITIONS.—In this paragraph:

15 “(i) FLUX.—The term ‘flux’ means  
16 the rate of flow of photons.

17 “(ii) HARD X-RAY.—The term ‘hard  
18 x-ray’ means a photon with energy greater  
19 than 20 kiloelectron volts.

20 “(B) IN GENERAL.—The Secretary shall  
21 provide for the upgrade to the Advanced Pho-  
22 ton Source described in the publication ap-  
23 proved by the Basic Energy Sciences Advisory  
24 Committee on June 9, 2016, titled ‘Report on  
25 Facility Upgrades’, including the development

1 of a multi-bend achromat lattice to produce a  
2 high flux of coherent x-rays within the hard x-  
3 ray energy region and a suite of beamlines opti-  
4 mized for this source.

5 “(C) START OF OPERATIONS.—The Sec-  
6 retary shall, subject to the availability of appro-  
7 priations, ensure that the start of full oper-  
8 ations of the upgrade under this paragraph oc-  
9 curs before March 31, 2026.

10 “(D) FUNDING.—Out of funds authorized  
11 to be appropriated under subsection (j), there  
12 are authorized to be appropriated to the Sec-  
13 retary to carry out the upgrade under this  
14 paragraph \$101,000,000 for fiscal year 2022  
15 and \$56,000,000 for fiscal year 2023.

16 “(5) SPALLATION NEUTRON SOURCE PROTON  
17 POWER UPGRADE.—

18 “(A) IN GENERAL.—The Secretary shall  
19 provide for the proton power upgrade to the  
20 Spallation Neutron Source.

21 “(B) PROTON POWER UPGRADE DE-  
22 FINED.—For the purposes of this paragraph,  
23 the term ‘proton power upgrade’ means the  
24 Spallation Neutron Source power upgrade de-  
25 scribed in—

1           “(i) the publication titled ‘Facilities  
2           for the Future of Science: A Twenty-Year  
3           Outlook’, published by the Office of  
4           Science of the Department of Energy in  
5           December, 2003;

6           “(ii) the publication titled ‘Four Years  
7           Later: An Interim Report on Facilities for  
8           the Future of Science: A Twenty-Year  
9           Outlook’, published by the Office of  
10          Science of the Department of Energy in  
11          August, 2007; and

12          “(iii) the publication approved by the  
13          Basic Energy Sciences Advisory Committee  
14          on June 9, 2016, titled ‘Report on Facility  
15          Upgrades’.

16          “(C) START OF OPERATIONS.—The Sec-  
17          retary shall, subject to the availability of appro-  
18          priations, ensure that the start of full oper-  
19          ations of the upgrade under this paragraph oc-  
20          curs before July 30, 2028, with the option for  
21          early operation in 2025.

22          “(D) FUNDING.—Out of funds authorized  
23          to be appropriated under subsection (j), there  
24          are authorized to be appropriated to the Sec-

1           retary to carry out the upgrade under this  
2           paragraph \$49,800,000 for fiscal year 2022.

3           “(6) SPALLATION NEUTRON SOURCE SECOND  
4           TARGET STATION.—

5                   “(A) IN GENERAL.—The Secretary shall  
6           provide for a second target station for the  
7           Spallation Neutron Source.

8                   “(B) SECOND TARGET STATION DE-  
9           FINED.—For the purposes of this paragraph,  
10          the term ‘second target station’ means the  
11          Spallation Neutron Source second target station  
12          described in—

13                   “(i) the publication titled, ‘Facilities  
14          for the Future of Science: A Twenty-Year  
15          Outlook’, published by the Office of  
16          Science of the Department of Energy in  
17          December, 2003;

18                   “(ii) the publication titled, ‘Four  
19          Years Later: An Interim Report on Facili-  
20          ties for the Future of Science: A Twenty-  
21          Year Outlook’, published by the Office of  
22          Science of the Department of Energy in  
23          August, 2007; and

24                   “(iii) the publication approved by the  
25          Basic Energy Sciences Advisory Committee

1 on June 9, 2016, titled ‘Report on Facility  
2 Upgrades’.

3 “(C) START OF OPERATIONS.—The Sec-  
4 retary shall, subject to the availability of appro-  
5 priations, ensure that the start of full oper-  
6 ations of the second target station under this  
7 paragraph occurs before December 31, 2033,  
8 with the option for early operation in 2029.

9 “(D) FUNDING.—Out of funds authorized  
10 to be appropriated under subsection (j), there  
11 are authorized to be appropriated to the Sec-  
12 retary to carry out the activities under this  
13 paragraph, including construction—

14 “(i) \$70,000,000 for fiscal year 2022;

15 “(ii) \$127,000,000 for fiscal year  
16 2023;

17 “(iii) \$204,000,000 for fiscal year  
18 2024;

19 “(iv) \$279,000,000 for fiscal year  
20 2025; and

21 “(v) \$300,000,000 for fiscal year  
22 2026.

23 “(7) ADVANCED LIGHT SOURCE UPGRADE.—

24 “(A) DEFINITIONS.—In this paragraph:

1                   “(i) FLUX.—The term ‘flux’ means  
2                   the rate of flow of photons.

3                   “(ii) SOFT X-RAY.—The term ‘soft x-  
4                   ray’ means a photon with energy in the  
5                   range from 50 to 2,000 electron volts.

6                   “(B) IN GENERAL.—The Secretary shall  
7                   provide for the upgrade to the Advanced Light  
8                   Source described in the publication approved by  
9                   the Basic Energy Sciences Advisory Committee  
10                  on June 9, 2016, titled ‘Report on Facility Up-  
11                  grades’, including the development of a  
12                  multibend achromat lattice to produce a high  
13                  flux of coherent x-rays within the soft x-ray en-  
14                  ergy region.

15                  “(C) START OF OPERATIONS.—The Sec-  
16                  retary shall, subject to the availability of appro-  
17                  priations, ensure that the start of full oper-  
18                  ations of the upgrade under this paragraph oc-  
19                  curs before September 30, 2029.

20                  “(D) FUNDING.—Out of funds authorized  
21                  to be appropriated under subsection (j), there  
22                  are authorized to be appropriated to the Sec-  
23                  retary to carry out the upgrade under this  
24                  paragraph—

25                         “(i) \$75,100,000 for fiscal year 2022;

1                   “(ii) \$135,000,000 for fiscal year  
2                   2023;

3                   “(iii) \$102,500,000 for fiscal year  
4                   2024;

5                   “(iv) \$25,000,000 for fiscal year  
6                   2025; and

7                   “(v) \$25,000,000 for fiscal year 2026.

8                   “(8) LINAC COHERENT LIGHT SOURCE II HIGH  
9                   ENERGY UPGRADE.—

10                   “(A) DEFINITIONS.—In this paragraph:

11                   “(i) HIGH ENERGY X-RAY.—The term  
12                   ‘high energy x-ray’ means a photon with  
13                   an energy in the 5 to 13 kiloelectron volt  
14                   range.

15                   “(ii) HIGH REPETITION RATE.—The  
16                   term ‘high repetition rate’ means the deliv-  
17                   ery of x-ray pulses up to 1 million pulses  
18                   per second.

19                   “(iii) ULTRA-SHORT PULSE X-RAYS.—  
20                   The term ‘ultra-short pulse x-rays’ means  
21                   x-ray bursts capable of durations of less  
22                   than 100 femtoseconds.

23                   “(B) IN GENERAL.—The Secretary shall—

24                   “(i) provide for the upgrade to the  
25                   Linac Coherent Light Source II facility de-

1 scribed in the publication approved by the  
2 Basic Energy Sciences Advisory Committee  
3 on June 9, 2016, titled ‘Report on Facility  
4 Upgrades’, including the development of  
5 experimental capabilities for high energy x-  
6 rays to reveal fundamental scientific dis-  
7 coveries; and

8 “(ii) ensure such upgrade enables the  
9 production and use of high energy, ultra-  
10 short pulse x-rays delivered at a high rep-  
11 etition rate.

12 “(C) START OF OPERATIONS.—The Sec-  
13 retary shall, subject to the availability of appro-  
14 priations, ensure that the start of full oper-  
15 ations of the upgrade under this paragraph oc-  
16 curs before December 31, 2026.

17 “(D) FUNDING.—Out of funds authorized  
18 to be appropriated under subsection (j), there  
19 are authorized to be appropriated to the Sec-  
20 retary to carry out the upgrade under this  
21 paragraph—

22 “(i) \$106,925,000 for fiscal year  
23 2022;

24 “(ii) \$125,925,000 for fiscal year  
25 2023;

1                   “(iii) \$115,000,000 for fiscal year  
2                   2024;

3                   “(iv) \$89,000,000 for fiscal year  
4                   2025; and

5                   “(v) \$49,344,000 for fiscal year 2026.

6                   “(9) CRYOMODULE REPAIR AND MAINTENANCE  
7                   FACILITY.—

8                   “(A) IN GENERAL.—The Secretary shall  
9                   provide for the construction of a cryomodule re-  
10                  pair and maintenance facility to service the  
11                  Linac Coherent Light Source II and upgrades  
12                  to the facility. The Secretary shall consult with  
13                  the private sector, universities, National Lab-  
14                  oratories, and relevant Federal agencies to en-  
15                  sure that this facility has the capability to  
16                  maintain, repair, and test superconducting ra-  
17                  diofrequency accelerator components.

18                  “(B) FUNDING.—Out of funds authorized  
19                  to be appropriated under subsection (j), there  
20                  are authorized to be appropriated to the Sec-  
21                  retary to carry out the activities under this  
22                  paragraph—

23                               “(i) \$19,000,000 for fiscal year 2022;

24                               “(ii) \$25,000,000 for fiscal year 2023;

1                   “(iii) \$25,000,000 for fiscal year  
2                   2024; and

3                   “(iv) \$17,000,000 for fiscal year  
4                   2025.

5                   “(10) NANOSCALE SCIENCE RESEARCH CENTER  
6                   RECAPITALIZATION PROJECT.—

7                   “(A) IN GENERAL.—The Secretary shall  
8                   provide for the recapitalization of the Nanoscale  
9                   Science Research Centers, to include the up-  
10                  grade of equipment at each Center supported  
11                  by the Office of Science on the date of enact-  
12                  ment of the America COMPETES Act of 2022,  
13                  to accelerate advances in the various fields of  
14                  science including nanoscience, materials, chem-  
15                  istry, biology, and quantum information science.

16                  “(B) FUNDING.—Out of funds authorized  
17                  to be appropriated under subsection (j), there  
18                  are authorized to be appropriated to the Sec-  
19                  retary to carry out the recapitalization under  
20                  this paragraph—

21                         “(i) \$20,000,000 for fiscal year 2022;

22                         “(ii) \$30,000,000 for fiscal year 2023;

23                         “(iii) \$20,000,000 for fiscal year  
24                         2024; and

1                   “(iv) \$20,000,000 for fiscal year  
2                   2025.”; and

3                   (4) by adding at the end the following:

4                   “(h) COMPUTATIONAL MATERIALS AND CHEMICAL  
5 SCIENCES.—

6                   “(1) IN GENERAL.—The Director shall support  
7 a program of research and development for the ap-  
8 plication of advanced computing practices to  
9 foundational and emerging research problems in  
10 chemistry and materials science. Research activities  
11 shall include—

12                   “(A) chemical catalysis research and devel-  
13 opment;

14                   “(B) the use of large data sets to model  
15 materials phenomena, including through ad-  
16 vanced characterization of materials, materials  
17 synthesis, processing, and innovative use of ex-  
18 perimental and theoretical data;

19                   “(C) co-design of chemical system and  
20 chemistry modeling software with advanced  
21 computing systems and hardware technologies;  
22 and

23                   “(D) modeling of chemical processes, as-  
24 semblies, and reactions such as molecular dy-

1 namics and quantum chemistry, including  
2 through novel computing methods.

3 “(2) COMPUTATIONAL MATERIALS AND CHEM-  
4 ICAL SCIENCES CENTERS.—

5 “(A) IN GENERAL.—In carrying out the  
6 activities authorized under paragraph (1), the  
7 Director shall select and establish up to six  
8 computational materials and chemical sciences  
9 centers to—

10 “(i) develop open-source, robust, and  
11 validated computational codes and user-  
12 friendly software, coupled with innovative  
13 use of experimental and theoretical data,  
14 to enable the design, discovery, and devel-  
15 opment of new materials and chemical sys-  
16 tems; and

17 “(ii) focus on overcoming challenges  
18 and maximizing the benefits of exascale  
19 and other high performance computing  
20 underpinned by accelerated node tech-  
21 nologies.

22 “(B) SELECTION.—The Director shall se-  
23 lect centers under subparagraph (A) on a com-  
24 petitive, merit-reviewed basis. The Director  
25 shall consider applications from the National

1 Laboratories, institutes of higher education,  
2 multi-institutional collaborations, and other ap-  
3 propriate entities.

4 “(C) DURATION.—

5 “(i) A center selected under subpara-  
6 graph (A) shall receive support for a pe-  
7 riod of not more than 5 years beginning on  
8 the date of establishment of that center,  
9 subject to the availability of appropria-  
10 tions.

11 “(ii) A center already in existence on  
12 the date of enactment of the America  
13 COMPETES Act of 2022 may continue to  
14 receive support for a period of not more  
15 than 5 years beginning on the date of es-  
16 tablishment of that center.

17 “(D) RENEWAL.—Upon the expiration of  
18 any period of support of a center under this  
19 subsection, the Director may renew support for  
20 the center, on a merit-reviewed basis, for a pe-  
21 riod of not more than 5 years.

22 “(E) TERMINATION.—Consistent with the  
23 existing authorities of the Department, the Di-  
24 rector may terminate an underperforming cen-  
25 ter for cause during the performance period.

1 “(i) MATERIALS RESEARCH DATABASE.—

2 “(1) IN GENERAL.—The Director shall support  
3 the development of a web-based platform to develop  
4 and provide access to a database of computed infor-  
5 mation on known and predicted materials properties  
6 and computational tools to accelerate breakthroughs  
7 in materials discovery and design.

8 “(2) PROGRAM.—In carrying out this sub-  
9 section, the Director shall—

10 “(A) conduct cooperative research with in-  
11 dustry, academia, and other research institu-  
12 tions to advance understanding, prediction, and  
13 manipulation of materials and facilitate the de-  
14 sign of novel materials;

15 “(B) develop and maintain data infrastruc-  
16 ture at user facilities that generate data to col-  
17 lect, analyze, label, and otherwise prepare the  
18 data for inclusion in the database;

19 “(C) leverage existing high performance  
20 computing systems to conduct high throughput  
21 calculations, and develop computational and  
22 data mining algorithms for the prediction of  
23 material properties;

24 “(D) strengthen the foundation for new  
25 technologies and advanced manufacturing; and

1           “(E) drive the development of advanced  
2 materials for applications that span the Depart-  
3 ment’s missions in energy, environment, and  
4 national security.

5           “(3) COORDINATION.—In carrying out this sub-  
6 section, the Director shall leverage programs and ac-  
7 tivities across the Department, including computa-  
8 tional materials and chemical sciences centers estab-  
9 lished under subsection (h).

10           “(4) FUNDING.—Out of funds authorized to be  
11 appropriated under subsection (j), there are author-  
12 ized to be appropriated to the Secretary to carry out  
13 activities under this subsection \$10,000,000 for each  
14 of the fiscal years 2022 through 2026.

15           “(j) AUTHORIZATION OF APPROPRIATIONS.—There  
16 are authorized to be appropriated to the Secretary to carry  
17 out the activities described in this section—

18           “(1) \$2,727,705,000 for fiscal year 2022;

19           “(2) \$2,828,896,600 for fiscal year 2023;

20           “(3) \$3,019,489,612 for fiscal year 2024;

21           “(4) \$3,161,698,885 for fiscal year 2025; and

22           “(5) \$3,291,651,600 for fiscal year 2026.”.

23           “(b) ARTIFICIAL PHOTOSYNTHESIS.—Section 973 of  
24 the Energy Policy Act of 2005 (42 U.S.C. 16313) is  
25 amended—

1 (1) in subsection (b), by striking paragraph (4)  
2 and inserting:

3 “(4) FUNDING.—From within funds authorized  
4 to be appropriated for Basic Energy Sciences, there  
5 are authorized to be appropriated to the Secretary  
6 for carrying out activities under this subsection  
7 \$50,000,000 for each of fiscal years 2022 through  
8 2026.”; and

9 (2) in subsection (c), by striking paragraph (4)  
10 and inserting:

11 “(4) FUNDING.—From within funds authorized  
12 to be appropriated in section 316 of the Department  
13 of Energy Research and Innovation Act, there are  
14 authorized to be appropriated to the Secretary for  
15 carrying out activities under this subsection  
16 \$50,000,000 for each of fiscal years 2022 through  
17 2026.”.

18 (c) ELECTRICITY STORAGE RESEARCH INITIATIVE.—  
19 Section 975 of the Energy Policy Act of 2005 (42 U.S.C.  
20 16315) is amended—

21 (1) in subsection (b), by striking paragraph (4)  
22 and inserting:

23 “(4) FUNDING.—From within funds authorized  
24 to be appropriated for Basic Energy Sciences, there  
25 are authorized to be appropriated to the Secretary

1 for carrying out activities under this subsection  
2 \$50,000,000 for each of fiscal years 2022 through  
3 2026.”;

4 (2) in subsection (c), by striking paragraph (4)  
5 and inserting:

6 “(4) FUNDING.—From within funds authorized  
7 to be appropriated in section 316 of the Department  
8 of Energy Research and Innovation Act, there are  
9 authorized to be appropriated to the Secretary for  
10 carrying out activities under this subsection  
11 \$50,000,000 for each of fiscal years 2022 through  
12 2026.”; and

13 (3) in subsection (d), by striking paragraph (4)  
14 and inserting:

15 “(4) FUNDING.—From within funds authorized  
16 to be appropriated in section 316 of the Department  
17 of Energy Research and Innovation Act, there are  
18 authorized to be appropriated to the Secretary for  
19 carrying out activities under this subsection  
20 \$20,000,000 for each of fiscal years 2022 through  
21 2026.”.

22 **SEC. 10103. BIOLOGICAL AND ENVIRONMENTAL RESEARCH.**

23 (a) PROGRAM; BIOLOGICAL SYSTEMS; BIOMOLEC-  
24 ULAR CHARACTERIZATION AND IMAGING SCIENCE.—Sec-

1 tion 306 of the Department of Energy Research and Inno-  
2 vation Act (42 U.S.C. 18644) is amended—

3 (1) by striking subsection (a) and inserting the  
4 following:

5 “(a) PROGRAM.—As part of the duties of the Director  
6 authorized under section 209 of the Department of En-  
7 ergy Organization Act (42 U.S.C. 7139), and coordinated  
8 with the activities authorized under sections 303 and 304  
9 of this Act, the Director shall carry out a program of re-  
10 search and development in the areas of biological systems  
11 science and climate and environmental science, including  
12 subsurface science, relevant to the development of new en-  
13 ergy technologies and to support the energy, environ-  
14 mental, and national security missions of the Department.

15 “(b) BIOLOGICAL SYSTEMS.—The Director shall  
16 carry out research and development activities in genomic  
17 science including fundamental research on plants and mi-  
18 crobes to increase systems-level understanding of the com-  
19 plex biological systems, which may include activities to—

20 “(1) accelerate breakthroughs and new knowl-  
21 edge that would enable the cost-effective, sustainable  
22 production of—

23 “(A) biomass-based liquid transportation  
24 fuels;

25 “(B) bioenergy; and

1           “(C) biobased materials from renewable  
2 biomass;

3           “(2) improve fundamental understanding of  
4 plant and microbial processes impacting the global  
5 carbon cycle, including processes for removing car-  
6 bon dioxide from the atmosphere, through photosyn-  
7 thesis and other biological processes, for sequestra-  
8 tion and storage;

9           “(3) understand the microbiome mechanisms  
10 used to transform, immobilize, or remove contami-  
11 nants from subsurface environments;

12           “(4) develop the computational approaches and  
13 integrated platforms for open access collaborative  
14 science;

15           “(5) leverage tools and approaches across the  
16 Office of Science to expand research to include novel  
17 processes, methods, and science to develop bio-based  
18 chemicals, polymers, inorganic materials, including  
19 research to—

20           “(A) advance biosystems design research  
21 to advance the understanding of how CRISPR  
22 tools and other gene editing tools and tech-  
23 nologies work in nature, in the laboratory, and  
24 in practice;

1           “(B) deepen genome-enabled knowledge of  
2           root architecture and growth in crops, including  
3           trees; and

4           “(C) develop biosystems design methods  
5           and tools to increase the efficiency of photosyn-  
6           thesis in plants; and

7           “(6) develop other relevant methods and proc-  
8           esses as determined by the Director.

9           “(c) BIOMOLECULAR CHARACTERIZATION AND IMAG-  
10          ING SCIENCE.—The Director shall carry out research and  
11          development activities in biomolecular characterization  
12          and imaging science, including development of integrative  
13          imaging and analysis platforms and biosensors to under-  
14          stand the expression, structure, and function of genome  
15          information encoded within cells and for real-time meas-  
16          urements in ecosystems and field sites of relevance to the  
17          mission of the Department of Energy.”; and

18           (2) by redesignating subsections (b) through (d)  
19          as subsections (d) through (f), respectively.

20          (b) BIOENERGY RESEARCH CENTERS.—Section  
21          977(f) of the Energy Policy Act of 2005 (42 U.S.C.  
22          16317(f)) is amended to read as follows:

23           “(f) BIOENERGY RESEARCH CENTERS.—

24           “(1) IN GENERAL.—In carrying out the pro-  
25          gram under section 306(a) of the Department of

1 Energy Research and Innovation Act (42 U.S.C.  
2 18644(a)), the Director shall support up to six bio-  
3 energy research centers to conduct fundamental re-  
4 search in plant and microbial systems biology, bio-  
5 logical imaging and analysis, and genomics, and to  
6 accelerate advanced research and development of  
7 biomass-based liquid transportation fuels, bioenergy,  
8 or biobased materials, chemicals, and products that  
9 are produced from a variety of regionally diverse  
10 feedstocks, and to facilitate the translation of re-  
11 search results to industry. The activities of the cen-  
12 ters authorized under this subsection may include—

13 “(A) accelerating the domestication of bio-  
14 energy-relevant plants, microbes, and associated  
15 microbial communities to enable high-impact,  
16 value-added coproduct development at multiple  
17 points in the bioenergy supply chain;

18 “(B) developing the science and techno-  
19 logical advances to ensure process sustainability  
20 is considered in the creation of biofuels and bio-  
21 products from lignocellulose; and

22 “(C) using the latest tools in genomics,  
23 molecular biology, catalysis science, chemical  
24 engineering, systems biology, and computational  
25 and robotics technologies to sustainably produce

1 and transform biomass into biofuels and bio-  
2 products.

3 “(2) SELECTION AND DURATION.—

4 “(A) IN GENERAL.—A center established  
5 under paragraph (1) shall be selected on a com-  
6 petitive, merit-reviewed basis for a period of not  
7 more than 5 years, subject to the availability of  
8 appropriations, beginning on the date of estab-  
9 lishment of that center.

10 “(B) APPLICATIONS.—The Director shall  
11 consider applications from National Labora-  
12 tories, multi-institutional collaborations, and  
13 other appropriate entities.

14 “(C) EXISTING CENTERS.—A center al-  
15 ready in existence on the date of enactment of  
16 the America COMPETES Act of 2022 may  
17 continue to receive support for a period of not  
18 more than 5 years beginning on the date of es-  
19 tablishment of that center.

20 “(3) RENEWAL.—After the end of either period  
21 described in paragraph (2), the Director may renew  
22 support for the center for a period of not more than  
23 5 years on a merit-reviewed basis. For a center in  
24 operation for 10 years after its previous selection on  
25 a competitive, merit-reviewed basis, the Director

1 may renew support for the center on a competitive,  
2 merit-reviewed basis for a period of not more than  
3 5 years, and may subsequently provide an additional  
4 renewal on a merit-reviewed basis for a period of not  
5 more than 5 years.

6 “(4) TERMINATION.—Consistent with the exist-  
7 ing authorities of the Department, the Director may  
8 terminate an underperforming center for cause dur-  
9 ing the performance period.

10 “(5) ACTIVITIES.—Centers shall undertake re-  
11 search activities to accelerate the production of  
12 biofuels and bioproducts from advanced biomass re-  
13 sources by identifying the most suitable species of  
14 plants for use as energy crops; and improving meth-  
15 ods of breeding, propagation, planting, producing,  
16 harvesting, storage and processing. Activities may  
17 include the following:

18 “(A) Research activities to increase sus-  
19 tainability, including—

20 “(i) advancing knowledge of how bio-  
21 energy crop interactions with biotic and  
22 abiotic environmental factors influence  
23 crop growth, yield, and quality;

1           “(ii) identifying the most impactful  
2           research areas that address the economics  
3           of biofuels and bioproducts production; and

4           “(iii) utilizing multiscale modeling to  
5           advance predictive understanding of biofuel  
6           cropping ecosystems.

7           “(B) Research activities to further feed-  
8           stock development, including lignocellulosic,  
9           algal, gaseous wastes including carbon oxides  
10          and methane, and direct air capture of single  
11          carbon gases via plants and microbes, includ-  
12          ing—

13           “(i) developing genetic and genomic  
14           tools, high-throughput analytical tools, and  
15           biosystems design approaches to enhance  
16           bioenergy feedstocks and their associated  
17           microbiomes;

18           “(ii) conducting field testing of new  
19           potential bioenergy feedstock crops under  
20           environmentally benign and geographically  
21           diverse conditions to assess viability and  
22           robustness; and

23           “(iii) developing quantitative models  
24           informed by experimentation to predict

1           how bioenergy feedstocks perform under  
2           diverse conditions.

3           “(C) Research activities to improve  
4           lignocellulosic deconstruction and separation  
5           methods, including—

6                   “(i) developing feedstock-agnostic  
7                   deconstruction processes capable of effi-  
8                   ciently fractionating biomass into targeted  
9                   output streams;

10                   “(ii) gaining a detailed understanding  
11                   of plant cell wall biosynthesis, composition,  
12                   structure, and properties during  
13                   deconstruction; and

14                   “(iii) improving enzymes and ap-  
15                   proaches for biomass breakdown and cel-  
16                   lulose, hemicellulose, and lignin processing.

17           “(D) Research activities to improve the  
18           feedstock conversion process for advanced  
19           biofuels and bioproducts, including—

20                   “(i) developing high-throughput meth-  
21                   ods to screen or select high-performance  
22                   microbial strains and communities to im-  
23                   prove product formation rates, yields, and  
24                   selectivity;

1           “(ii) establishing a broad set of plat-  
2           form microorganisms and microbial com-  
3           munities suitable for metabolic engineering  
4           to produce biofuels and bioproducts, as  
5           well as high-throughput methods for exper-  
6           imental validation of gene function;

7           “(iii) developing techniques to en-  
8           hance microbial robustness for tolerating  
9           toxins to improve biofuel and bioproduct  
10          yields and to gain a better understanding  
11          of the cellular and molecular bases of toler-  
12          ance for major chemical classes of inhibi-  
13          tors found in these processes;

14          “(iv) advancing technologies for the  
15          use of batch, continuous, as well as con-  
16          solidated bioprocessing;

17          “(v) identifying, creating, and opti-  
18          mizing microbial and chemical pathways to  
19          produce promising, atom-economical inter-  
20          mediates and final bioproducts from bio-  
21          mass with considerations given to environ-  
22          mentally benign processes;

23          “(vi) developing high-throughput,  
24          real-time, in situ analytical techniques to  
25          understand and characterize the pre- and

1 post-bioproduct separation streams in de-  
2 tail;

3 “(vii) creating methodologies for effi-  
4 ciently identifying viable target molecules,  
5 identifying high-value bioproducts in exist-  
6 ing biomass streams, and utilizing current  
7 byproduct streams;

8 “(viii) identifying and improving plant  
9 feedstocks with enhanced extractable levels  
10 of desired bioproducts or bioproduct pre-  
11 cursors, including lignin streams; and

12 “(ix) developing integrated biological  
13 and chemical catalytic approaches to  
14 valorize and produce a diverse portfolio of  
15 advanced fuels and bioproducts.

16 “(6) INDUSTRY PARTNERSHIPS.—Centers shall  
17 establish industry partnerships to translate research  
18 results to commercial applications.

19 “(7) COORDINATION.—In coordination with the  
20 Bioenergy Technologies Office of the Department,  
21 the Director shall support interdisciplinary research  
22 activities to improve the capacity, efficiency, resil-  
23 ience, security, reliability, and affordability, of the  
24 production and use of biofuels and bioproducts, as  
25 well as activities to enable positive impacts and avoid

1 the potential negative impacts that the production  
2 and use of biofuels and bioproducts may have on  
3 ecosystems, people, and historically marginalized  
4 communities.

5 “(8) FUNDING.—Out of funds authorized to be  
6 appropriated under section 306(l) of the Department  
7 of Energy Research and Innovation Act (42 U.S.C.  
8 18644(l)), there are authorized to be appropriated to  
9 the Secretary \$30,000,000, for each center in exist-  
10 ence or established under this subsection, for each of  
11 fiscal years 2022 through 2026.”.

12 (c) LOW-DOSE RADIATION RESEARCH PROGRAM.—  
13 Section 306(e)(8) of the Department of Energy Research  
14 and Innovation Act (42 U.S.C. 18644(e)(8)), as redesign-  
15 nated under subsection (a), is amended—

16 (1) in subparagraph (C), by striking “and”;

17 (2) in subparagraph (D), by striking the period  
18 at the end and inserting a semicolon; and

19 (3) by adding at the end the following:

20 “(E) \$40,000,000 for fiscal year 2025; and

21 “(F) \$50,000,000 for fiscal year 2026.”.

22 (d) LOW-DOSE RADIATION AND SPACE RADIATION  
23 RESEARCH PROGRAM.—Section 306(f) of the Department  
24 of Energy Research and Innovation Act (42 U.S.C.

1 18644(d)), as redesignated under subsection (a), is  
2 amended to read as follows:

3 “(f) LOW-DOSE RADIATION AND SPACE RADIATION  
4 RESEARCH PROGRAM.—

5 “(1) IN GENERAL.—The Secretary of Energy,  
6 in consultation with the Administrator of the Na-  
7 tional Aeronautics and Space Administration, shall  
8 carry out a basic research program on the similar-  
9 ities and differences between the effects of exposure  
10 to low-dose radiation on Earth, in low Earth orbit,  
11 and in the space environment.

12 “(2) PURPOSE.—The purpose of this program  
13 is to accelerate breakthroughs in low-dose and low  
14 dose-rate radiation research and development as de-  
15 scribed in subsection (e) and to inform the advance-  
16 ment of new tools, technologies, and advanced mate-  
17 rials needed to facilitate long-duration space explo-  
18 ration.”.

19 (e) CLIMATE, ENVIRONMENTAL SCIENCE, AND  
20 OTHER ACTIVITIES.—Section 306 of the Department of  
21 Energy Research and Innovation Act (42 U.S.C. 18644)  
22 is further amended by adding at the end the following:

23 “(g) EARTH AND ENVIRONMENTAL SYSTEMS  
24 SCIENCES ACTIVITIES.—

1           “(1) IN GENERAL.—As part of the activities au-  
2           thorized under subsection (a), and in coordination  
3           with activities carried out under subsection (b), the  
4           Director shall carry out earth and environmental  
5           systems science research, in consultation with the  
6           National Oceanic and Atmospheric Administration  
7           and other relevant agencies, which may include ac-  
8           tivities to—

9                   “(A) understand, observe, and model the  
10                  response of Earth’s atmosphere and biosphere  
11                  to increased concentrations of greenhouse gas  
12                  emissions and any associated changes in cli-  
13                  mate, including frequency and intensity of ex-  
14                  treme weather events;

15                  “(B) understand the coupled physical,  
16                  chemical, and biological processes to transform,  
17                  immobilize, remove, or move carbon, nitrogen,  
18                  and other energy production-derived contami-  
19                  nants such as radionuclides and heavy metals,  
20                  and understand the process of sequestration  
21                  and transformation of these, carbon dioxide,  
22                  and other relevant molecules in subsurface envi-  
23                  ronments;

24                  “(C) understand, observe, and model the  
25                  cycling of water, carbon, and nutrients in ter-

1           restrial systems and at scales relevant to re-  
2           sources management;

3           “(D) understand the biological, biogeo-  
4           chemical, and physical processes across the  
5           multiple scales that control the flux of environ-  
6           mentally relevant compounds between the ter-  
7           restrial surface and the atmosphere; and

8           “(E) inform potential natural mitigation  
9           and adaptation options for increased concentra-  
10          tions of greenhouse gas emissions and any asso-  
11          ciated changes in climate.

12          “(2) PRIORITIZATION.—In carrying out the  
13          program authorized under paragraph (1), the Direc-  
14          tor shall prioritize—

15                 “(A) the development of software and algo-  
16                 rithms to enable the productive application of  
17                 environmental systems and extreme weather in  
18                 climate and Earth system prediction models in  
19                 high-performance computing systems; and

20                 “(B) capabilities that support the Depart-  
21                 ment’s mission needs for energy and infrastruc-  
22                 ture security, resilience, and reliability.

23          “(3) ENVIRONMENTAL SYSTEMS SCIENCE RE-  
24          SEARCH.—

1           “(A) IN GENERAL.—As part of the activi-  
2           ties described in paragraph (1), the Director  
3           shall carry out research to advance an inte-  
4           grated, robust, and scale-aware predictive un-  
5           derstanding of environmental systems, including  
6           the role of hydrobiogeochemistry, from the sub-  
7           surface to the top of the vegetative canopy that  
8           considers effects of seasonal to interannual vari-  
9           ability and change.

10           “(B) CLEAN WATER AND WATERSHED RE-  
11           SEARCH.—As part of the activities described in  
12           subparagraph (A), the Director shall—

13                   “(i) support interdisciplinary research  
14                   to significantly advance our understanding  
15                   of water availability, quality, and the im-  
16                   pact of human activity and a changing cli-  
17                   mate on urban and rural watershed sys-  
18                   tems, including in freshwater environ-  
19                   ments;

20                   “(ii) consult with the Interagency Re-  
21                   search, Development, and Demonstration  
22                   Coordination Committee on the Nexus of  
23                   Energy and Water for Sustainability estab-  
24                   lished under section 1010 of the Energy  
25                   Act of 2020 (division Z of the Consolidated

1 Appropriations Act, 2021 (Public Law  
2 116–260)) on energy-water nexus research  
3 activities; and

4 “(iii) engage with representatives of  
5 research and academic institutions, non-  
6 profit organizations, State, territorial,  
7 local, and tribal governments, and indus-  
8 try, who have expertise in technologies,  
9 technological innovations, or practices re-  
10 lating to the energy-water nexus, as appli-  
11 cable.

12 “(C) COORDINATION.—

13 “(i) DIRECTOR.—The Director shall  
14 carry out activities under this paragraph in  
15 accordance with priorities established by  
16 the Secretary to support and accelerate the  
17 decontamination of relevant facilities man-  
18 aged by the Department.

19 “(ii) SECRETARY.—The Secretary  
20 shall ensure the coordination of activities  
21 of the Department, including activities  
22 under this paragraph, to support and ac-  
23 celerate the decontamination of relevant fa-  
24 cilities managed by the Department.

1           “(4) CLIMATE AND EARTH MODELING.—As  
2 part of the activities described in paragraph (1), the  
3 Director, in collaboration with the Advanced Sci-  
4 entific Computing Research program described in  
5 section 304 and other programs carried out by the  
6 Department, as applicable, and in consultation with  
7 the National Oceanic and Atmospheric Administra-  
8 tion and other relevant agencies, shall carry out re-  
9 search to develop, evaluate, and use high-resolution  
10 regional climate, global climate, Earth system, and  
11 other relevant models to inform decisions on reduc-  
12 ing greenhouse gas emissions and the resulting im-  
13 pacts of a changing global climate. Such modeling  
14 shall include—

15           “(A) integrated capabilities for modeling  
16 multisectoral interactions, including socio-  
17 economic factors as appropriate, which may in-  
18 clude the impacts of climate policies on social  
19 and regional equity and well-being, and the  
20 interdependencies and risks at the energy-  
21 water-land nexus;

22           “(B) greenhouse gas emissions, air quality,  
23 energy supply and demand, and other critical  
24 elements; and

1           “(C) interaction among human and Earth  
2 systems informed by interdisciplinary research,  
3 including the economic and social sciences.

4           “(5) MID-SCALE FUNDING MECHANISM.—

5           “(A) IN GENERAL.—Any of the activities  
6 authorized in this subsection may be carried out  
7 by competitively selected mid-scale, multi-insti-  
8 tutional research centers in lieu of individual re-  
9 search grants, or large-scale experiments or  
10 user facilities.

11           “(B) CONSIDERATION.—The Biological  
12 and Environmental Research Advisory Com-  
13 mittee shall provide recommendations to the Di-  
14 rector on projects most suitable for the research  
15 centers described in subparagraph (A).

16           “(h) BIOLOGICAL AND ENVIRONMENTAL RESEARCH  
17 USER FACILITIES.—

18           “(1) IN GENERAL.—The Director shall carry  
19 out a program for the development, construction, op-  
20 eration, and maintenance of user facilities to en-  
21 hance the collection and analysis of observational  
22 data related to complex biological, climate, and envi-  
23 ronmental systems.

24           “(2) FACILITY REQUIREMENTS.—To the max-  
25 imum extent practicable, the user facilities devel-

1       oped, constructed, operated, or maintained under  
2       paragraph (1) shall include—

3               “(A) distributed field research and obser-  
4               vation platforms for understanding earth sys-  
5               tem processes;

6               “(B) analytical techniques, instruments,  
7               and modeling resources for understanding the  
8               physical, chemical, and cellular processes of bio-  
9               logical and environmental systems;

10              “(C) integrated high-throughput sequenc-  
11              ing, advanced bioanalytic techniques, DNA de-  
12              sign and synthesis, metabolomics, and computa-  
13              tional analysis; and

14              “(D) such other facilities as the Director  
15              considers appropriate, consistent with section  
16              209 of the Department of Energy Organization  
17              Act (42 U.S.C. 7139).

18              “(3) EXISTING FACILITIES.—In carrying out  
19              the program established in paragraph (1), the Direc-  
20              tor is encouraged to evaluate the capabilities of ex-  
21              isting user facilities and, to the maximum extent  
22              practicable, invest in modernization of those capa-  
23              bilities to address emerging research priorities.

24              “(4) USER FACILITIES INTEGRATION AND COL-  
25              LABORATION PROGRAM.—

1           “(A) IN GENERAL.—The Director shall  
2 support a program of collaboration between  
3 user facilities as defined under this subsection  
4 to encourage and enable researchers to more  
5 readily integrate the tools, expertise, resources,  
6 and capabilities of multiple Office of Science  
7 user facilities (as described in section 209(d) of  
8 the Department of Energy Organization Act  
9 (42 U.S.C. 7139)) to further research and ad-  
10 vance emerging technologies.

11           “(B) ACTIVITIES.—The program shall ad-  
12 vance the integration of automation, robotics,  
13 computational biology, bioinformatics, bio-  
14 sensing, cellular platforms and other relevant  
15 emerging technologies as determined by the Di-  
16 rector to enhance productivity and scientific im-  
17 pact of user facilities.

18           “(5) EARTH AND ENVIRONMENTAL SYSTEMS  
19 SCIENCES USER FACILITIES.—

20           “(A) IN GENERAL.—In carrying out the  
21 activities authorized under paragraph (1), the  
22 Director shall establish and operate user facili-  
23 ties to advance the collection, validation, and  
24 analysis of atmospheric data, including activi-  
25 ties to advance knowledge and improve model

1           representations and measure the impact of at-  
2           mospheric gases, aerosols, and clouds on earth  
3           and environmental systems.

4           “(B) SELECTION.—The Director shall se-  
5           lect user facilities under paragraph (1) on a  
6           competitive, merit-reviewed basis. The Director  
7           shall consider applications from the National  
8           Laboratories, institutes of higher education,  
9           multi-institutional collaborations, and other ap-  
10          propriate entities.

11          “(C) EXISTING FACILITIES.—To the max-  
12          imum extent practicable, the Director shall uti-  
13          lize existing facilities to carry out this sub-  
14          section.

15          “(6) COORDINATION.—In carrying out the pro-  
16          gram authorized in paragraph (1), the Director shall  
17          ensure that the Office of Science—

18                 “(A) consults and coordinates with the Na-  
19                 tional Oceanic Atmospheric Administration, the  
20                 Environmental Protection Agency, the National  
21                 Aeronautics and Space Administration, the De-  
22                 partment of Agriculture, the Department of the  
23                 Interior, and any other relevant Federal agency  
24                 on the collection, validation, and analysis of at-  
25                 mospheric data; and

1           “(B) coordinates with relevant stake-  
2 holders, including institutes of higher education,  
3 nonprofit research institutions, industry, State,  
4 territorial, local, and tribal governments, and  
5 other appropriate entities to ensure access to  
6 the best available relevant atmospheric and his-  
7 torical weather data.

8           “(i) COASTAL ZONE RESEARCH INITIATIVE.—

9           “(1) IN GENERAL.—The Director shall carry  
10 out a research program, in consultation with the Na-  
11 tional Oceanic and Atmospheric Administration, to  
12 enhance the understanding of coastal ecosystems. In  
13 carrying out this program, the Director shall  
14 prioritize efforts to enhance the collection of obser-  
15 vational data, and shall develop models to analyze  
16 the ecological, biogeochemical, hydrological and  
17 physical processes that interact in coastal zones.

18           “(2) NATIONAL SYSTEM FOR COASTAL DATA  
19 COLLECTION.—The Director shall establish, in con-  
20 sultation with the National Oceanic and Atmospheric  
21 Administration and other relevant agencies, an inte-  
22 grated system of geographically diverse field re-  
23 search sites in order to improve the quantity and  
24 quality of observational data, and that encompass

1 the major land water interfaces of the United  
2 States, including—

3 “(A) the Great Lakes region;

4 “(B) the Pacific coast;

5 “(C) the Atlantic coast;

6 “(D) the Arctic; and

7 “(E) the Gulf coast.

8 “(3) EXISTING INFRASTRUCTURE.—In carrying  
9 out the programs and establishing the field research  
10 sites under paragraph (1) and (2), the Secretary  
11 shall leverage existing research and development in-  
12 frastructure supported by the Department, including  
13 the Department’s existing marine and coastal re-  
14 search lab.

15 “(4) COORDINATION.—For the purposes of car-  
16 rying out the programs and establishing the field re-  
17 search sites under the Initiative, the Secretary may  
18 enter into agreements with Federal Departments  
19 and agencies with complementary capabilities.

20 “(5) REPORT.—Not less than 2 years after the  
21 date of the enactment of the America COMPETES  
22 Act of 2022, the Director shall provide to the Com-  
23 mittee on Science, Space, and Technology and the  
24 Committee on Appropriations of the House of Rep-  
25 resentatives and the Committee on Energy and Nat-

1        ural Resources and the Committee on Appropria-  
2        tions of the Senate a report examining whether the  
3        system described in this section should be estab-  
4        lished as a National User Facility.

5        “(j) TECHNOLOGY DEVELOPMENT.—The Director  
6        shall support a technology research program for the devel-  
7        opment of instrumentation and other research tools re-  
8        quired to meet the missions of the Department and to pro-  
9        vide platform technologies for the broader scientific com-  
10       munity. Technologies shall include but are not limited to—

11                “(1) cryo-electron microscopy;

12                “(2) fabricated ecosystems;

13                “(3) next generation sensors including quantum  
14        sensors for biological integration and bioproduction;

15                “(4) technologies to accelerate data analysis;

16        and

17                “(5) plant and microbial phenotyping for gene  
18        discovery.

19        “(k) EMERGING TECHNOLOGIES.—

20                “(1) IN GENERAL.—The Secretary shall estab-  
21        lish within the Biological and Environmental Re-  
22        search program an initiative focused on the develop-  
23        ment of engineered ecosystems through the applica-  
24        tion of artificial intelligence, novel sensing capabili-  
25        ties, and other emerging technologies.

1           “(2) INTERAGENCY COORDINATION.—The Sec-  
2           retary shall coordinate with the Director of the Na-  
3           tional Science Foundation, the Administrator of the  
4           National Oceanic and Atmospheric Administration,  
5           the Director of the U.S. Geological Survey, and  
6           other relevant officials to avoid duplication of re-  
7           search and observational activities and to ensure  
8           that activities carried out under this initiative are  
9           complimentary to those currently being undertaken  
10          by other agencies.

11          “(3) REPORT.—Not later than 180 days after  
12          the enactment of this Act, the Secretary shall pro-  
13          vide a report to the Committee on Science, Space,  
14          and Technology of the House, and the Committee on  
15          Energy and Natural Resources of the Senate, on the  
16          activity mandated in subsection (k).

17          “(1) AUTHORIZATION OF APPROPRIATIONS.—There  
18          are authorized to be appropriated to the Secretary to carry  
19          out the activities described in this section—

20                 “(1) \$820,360,000 for fiscal year 2022;

21                 “(2) \$886,385,200 for fiscal year 2023;

22                 “(3) \$956,332,164 for fiscal year 2024;

23                 “(4) \$1,020,475,415 for fiscal year 2025; and

24                 “(5) \$1,099,108,695 for fiscal year 2026.”.

1 **SEC. 10104. ADVANCED SCIENTIFIC COMPUTING RESEARCH**  
2 **PROGRAM.**

3 (a) ADVANCED SCIENTIFIC COMPUTING RE-  
4 SEARCH.—Section 304 of the Department of Energy Re-  
5 search and Innovation Act (42 U.S.C. 18642) is amend-  
6 ed—

7 (1) by redesignating subsections (a) through (c)  
8 as subsections (b) through (d), respectively; and

9 (2) by inserting before subsection (b), as so re-  
10 designated, the following:

11 “(a) IN GENERAL.—As part of the activities author-  
12 ized under section 209 of the Department of Energy Orga-  
13 nization Act (42 U.S.C. 7139), the Director shall carry  
14 out, in coordination with academia and relevant public and  
15 private sector entities, a research, development, and dem-  
16 onstration program to—

17 “(1) steward applied mathematics, computa-  
18 tional science, and computer science research rel-  
19 evant to the missions of the Department and the  
20 competitiveness of the United States;

21 “(2) develop modeling, simulation, and other  
22 computational tools relevant to other scientific dis-  
23 ciplines and to the development of new energy tech-  
24 nologies and other technologies;

25 “(3) advance computing and networking capa-  
26 bilities for data-driven discovery; and

1           “(4) develop advanced scientific computing  
2 hardware and software tools for science and engi-  
3 neering.”;

4           (3) in subsection (c) (as redesignated under  
5 paragraph (1))—

6           (A) by striking “The Director” and insert-  
7 ing the following:

8           “(1) DIRECTOR.—The Director”; and

9           (B) by adding at the end the following:

10           “(2) COORDINATION.—The Under Secretary for  
11 Science shall ensure the coordination of the activities  
12 of the Department, including activities under this  
13 section, to determine and meet the computational  
14 and networking research and facility needs of the  
15 Office of Science and all other relevant energy tech-  
16 nology and energy efficiency programs within the  
17 Department and with other Federal agencies as ap-  
18 propriate.”;

19           (4) by amending subsection (d), as so redesign-  
20 ated, to read as follows:

21           “(d) APPLIED MATHEMATICS AND SOFTWARE DE-  
22 VELOPMENT FOR HIGH-END COMPUTING SYSTEMS AND  
23 COMPUTER SCIENCES RESEARCH.—

24           “(1) IN GENERAL.—The Director shall carry  
25 out activities to develop, test, and support—

1           “(A) mathematics, statistics, and algo-  
2 rithms for modeling complex systems relevant  
3 to the missions of the Department, including on  
4 advanced computing architectures; and

5           “(B) tools, languages, programming envi-  
6 ronments, and operations for high-end com-  
7 puting systems (as defined in section 2 of the  
8 American Super Computing Leadership Act (15  
9 U.S.C. 5541).

10       “(2) PORTFOLIO BALANCE.—

11           “(A) IN GENERAL.—The Director shall  
12 maintain a balanced portfolio within the ad-  
13 vanced scientific computing research and devel-  
14 opment program established under section 976  
15 of the Energy Policy Act of 2005 (42 U.S.C.  
16 16316) that supports robust investment in—

17           “(i) applied mathematical, computa-  
18 tional, and computer sciences research  
19 needs relevant to the mission of the De-  
20 partment, including foundational areas  
21 that are critical to the advancement of en-  
22 ergy sciences and technologies and new  
23 and emerging computing technologies; and

24           “(ii) associated high-performance  
25 computing hardware and facilities.

1                   “(B)           EXASCALE           ECOSYSTEM  
2                   SUSTAINMENT.—

3                   “(i) SENSE OF CONGRESS.—It is the  
4                   sense of Congress that the Exascale Com-  
5                   puting Project has successfully created a  
6                   broad ecosystem that provides shared soft-  
7                   ware packages, novel evaluation systems,  
8                   and applications relevant to the science  
9                   and engineering requirements of the De-  
10                  partment, and that such products must be  
11                  maintained and improved in order that the  
12                  full potential of the deployed systems can  
13                  be continuously realized.

14                  “(ii) IN GENERAL.—The Secretary  
15                  shall seek to sustain and evolve the eco-  
16                  system referenced in clause (i) to ensure  
17                  that the exascale software stack and other  
18                  research software will continue to be main-  
19                  tained, hardened, and otherwise optimized  
20                  for long-term use on exascale systems and  
21                  beyond and reliable availability to the user  
22                  community.”; and

23                  (5) by inserting after subsection (d) the fol-  
24                  lowing:

25                  “(e) NEXT GENERATION COMPUTING PROGRAM.—

1           “(1) IN GENERAL.—The Secretary shall estab-  
2           lish a program to develop and implement a strategy  
3           for achieving computing systems with capabilities be-  
4           yond exascale computing systems. In establishing  
5           this program, the Secretary shall—

6                   “(A) maintain foundational research pro-  
7                   grams in mathematical, computational, and  
8                   computer sciences focused on new and emerging  
9                   computing needs within the mission of the De-  
10                  partment, including post-Moore’s law computing  
11                  architectures, novel approaches to modeling and  
12                  simulation, artificial intelligence and scientific  
13                  machine learning, quantum computing, edge  
14                  computing, extreme heterogeneity, and distrib-  
15                  uted high-performance computing;

16                   “(B) retain best practices and maintain  
17                   support for essential hardware, applications,  
18                   and software elements of the Exascale Com-  
19                   puting Program that are necessary for sus-  
20                   taining the vitality of a long-term capable soft-  
21                   ware ecosystem for exascale and beyond; and

22                   “(C) develop a Department-wide strategy  
23                   for balancing on-premises and cloud-based com-  
24                   puting and scientific data management.

1           “(2) REPORT.—Not later than one year after  
2 the date of the enactment of the America COM-  
3 PETES Act of 2022, the Secretary shall submit to  
4 the Committee on Science, Space, and Technology of  
5 the House of Representatives, and the Committee on  
6 Energy and Natural Resources of the Senate, a re-  
7 port on the development and implementation of the  
8 strategy outlined in paragraph (1).

9           “(f) ARCHITECTURAL RESEARCH IN HETERO-  
10 GENEUS COMPUTING SYSTEMS.—

11           “(1) IN GENERAL.—The Secretary shall carry  
12 out a program of research and development in het-  
13 erogeneous and reconfigurable computing systems to  
14 expand understanding of the potential for hetero-  
15 geneous and reconfigurable computing systems to  
16 deliver high performance, high efficiency computing  
17 for Department of Energy mission challenges. This  
18 shall include research and development that explores  
19 the convergence of big data analytics, simulations,  
20 and artificial intelligence to drive the design of het-  
21 erogenous computing system architectures.

22           “(2) COORDINATION.—In carrying out this pro-  
23 gram, the Secretary shall ensure coordination be-  
24 tween research activities undertaken by the Ad-  
25 vanced Scientific Computing Research program and

1 materials research supported by the Basic Energy  
2 Sciences program within the Department of Energy  
3 Office of Science.

4 “(g) ENERGY EFFICIENT COMPUTING PROGRAM.—

5 “(1) IN GENERAL.—The Secretary shall sup-  
6 port a program of fundamental research, develop-  
7 ment, and demonstration of energy efficient com-  
8 puting and data center technologies relevant to ad-  
9 vanced computing applications, including high per-  
10 formance computing, artificial intelligence, and sci-  
11 entific machine learning.

12 “(2) EXECUTION.—

13 “(A) PROGRAM.—In carrying out the pro-  
14 gram under paragraph (1), the Secretary  
15 shall—

16 “(i) establish a partnership for Na-  
17 tional Laboratories, industry partners, and  
18 institutions of higher education for co-  
19 design of energy efficient hardware, tech-  
20 nology, software, and applications across  
21 all applicable program offices of the De-  
22 partment, and provide access to energy ef-  
23 ficient computing resources to such part-  
24 ners;

1           “(ii) develop hardware and software  
2 technologies that decrease the energy needs  
3 of advanced computing practices, including  
4 through data center co-design;

5           “(iii) consider multiple heterogeneous  
6 computing architectures in collaboration  
7 with the program established under sub-  
8 section (f) including neuromorphic com-  
9 puting, persistent computing, and ultrafast  
10 networking; and

11           “(iv) provide, as appropriate, on a  
12 competitive, merit-reviewed basis, access  
13 for researchers from institutions of higher  
14 education, National Laboratories, industry,  
15 and other Federal agencies to the energy  
16 efficient computing technologies developed  
17 pursuant to clause (i).

18           “(B) SELECTION OF PARTNERS.—In se-  
19 lecting participants for the partnership estab-  
20 lished under subparagraph (A)(i), the Secretary  
21 shall select participants through a competitive,  
22 merit review process.

23           “(C) REPORT.—Not later than one year  
24 after the date of the enactment of the America  
25 COMPETES Act of 2022, the Secretary shall

1 submit to the Committee on Science, Space,  
2 and Technology of the House of Representa-  
3 tives, and the Committee on Energy and Nat-  
4 ural Resources of the Senate, a report on—

5 “(i) the activities conducted under  
6 subparagraph (A); and

7 “(ii) the coordination and manage-  
8 ment of the program under subparagraph  
9 (A) to ensure an integrated research pro-  
10 gram across the Department.

11 “(h) ENERGY SCIENCES NETWORK.—

12 “(1) IN GENERAL.—The Secretary shall provide  
13 for upgrades to the Energy Sciences Network user  
14 facility in order to meet the research needs of the  
15 Department for highly reliable data transport capa-  
16 bilities optimized for the requirements of large-scale  
17 science.

18 “(2) CAPABILITIES.—In carrying out paragraph  
19 (1), the Secretary shall ensure the following capabili-  
20 ties:

21 “(A) To provide high bandwidth scientific  
22 networking across the continental United States  
23 and the Atlantic Ocean.

24 “(B) To ensure network reliability.

1           “(C) To protect the network infrastructure  
2           from cyber-attacks.

3           “(D) To manage transport of exponentially  
4           increasing levels of data from the Department’s  
5           National Laboratories and sites, user facilities,  
6           experiments, and sensors.

7           “(E) To contribute to the integration of  
8           heterogeneous computing frameworks and sys-  
9           tems.

10          “(i) COMPUTATIONAL SCIENCE GRADUATE FELLOW-  
11          SHIP.—

12                 “(1) IN GENERAL.—The Secretary shall sup-  
13                 port the Computational Science Graduate Fellowship  
14                 program in order to facilitate collaboration between  
15                 graduate students and researchers at the National  
16                 Laboratories, and contribute to the development of  
17                 a diverse and inclusive computational workforce to  
18                 help advance research in areas relevant to the mis-  
19                 sion of the Department.

20                 “(2) FUNDING.—From within funds authorized  
21                 to be appropriated for Advanced Scientific Com-  
22                 puting Research Program, there are authorized to be  
23                 appropriated to the Secretary for carrying out the  
24                 activities under this section—

25                         “(A) \$21,000,000 for fiscal year 2022;

- 1           “(B) \$22,050,000 for fiscal year 2023;  
2           “(C) \$23,152,500 for fiscal year 2024;  
3           “(D) \$24,310,125 for fiscal year 2025;  
4           and  
5           “(E) \$25,525,631 for fiscal year 2026.

6           “(j) AUTHORIZATION OF APPROPRIATIONS.—There  
7 are authorized to be appropriated to the Secretary to carry  
8 out the activities described in this section—

- 9           “(1) \$1,126,350,000 for fiscal year 2022;  
10           “(2) \$1,222,674,500 for fiscal year 2023;  
11           “(3) \$1,324,320,715 for fiscal year 2024;  
12           “(4) \$1,431,660,115 for fiscal year 2025; and  
13           “(5) \$1,535,090,121 for fiscal year 2026.”.

14           (b) QUANTUM SCIENCE NETWORK.—

15           (1) DEFINITIONS.—Section 2 of the National  
16 Quantum Initiative Act (15 U.S.C. 8801) is amend-  
17 ed—

18           (A) by redesignating paragraph (7) as  
19 paragraph (8); and

20           (B) by inserting after paragraph (6) the  
21 following:

22           “(7) QUANTUM NETWORK INFRASTRUCTURE.—  
23 The term ‘quantum network infrastructure’ means  
24 any facility, expertise, or capability that is necessary

1 to enable the development and deployment of scal-  
2 able and diverse quantum network technologies.”.

3 (2) DEPARTMENT OF ENERGY QUANTUM NET-  
4 WORK INFRASTRUCTURE RESEARCH AND DEVELOP-  
5 MENT PROGRAM.—(A) Title IV of the National  
6 Quantum Initiative Act (15 U.S.C. 8851 et seq.) is  
7 amended by adding at the end the following:

8 **“SEC. 403. DEPARTMENT OF ENERGY QUANTUM NETWORK**  
9 **INFRASTRUCTURE RESEARCH AND DEVELOP-**  
10 **MENT PROGRAM.**

11 “(a) IN GENERAL.—The Secretary of Energy (re-  
12 ferred to in this section as the ‘Secretary’) shall carry out  
13 a research, development, and demonstration program to  
14 accelerate innovation in quantum network infrastructure  
15 in order to—

16 “(1) facilitate the advancement of distributed  
17 quantum computing systems through the internet  
18 and intranet;

19 “(2) improve the precision of measurements of  
20 scientific phenomena and physical imaging tech-  
21 nologies;

22 “(3) develop secure national quantum commu-  
23 nications technologies and strategies; and

1           “(4) demonstrate these capabilities utilizing the  
2 Department of Energy’s Energy Sciences Network  
3 User Facility.

4           “(b) PROGRAM.—In carrying out this section, the  
5 Secretary shall—

6           “(1) coordinate with—

7           “(A) the Director of the National Science  
8 Foundation;

9           “(B) the Director of the National Institute  
10 of Standards and Technology;

11           “(C) the Chair of the Subcommittee on  
12 Quantum Information Science of the National  
13 Science and Technology Council established  
14 under section 103(a); and

15           “(D) the Chair of the Subcommittee on the  
16 Economic and Security Implications of Quan-  
17 tum Science;

18           “(2) conduct cooperative research with indus-  
19 try, National Laboratories, institutions of higher  
20 education, and other research institutions to facili-  
21 tate new quantum infrastructure methods and tech-  
22 nologies, including—

23           “(A) quantum-limited detectors, ultra-low  
24 loss optical channels, space-to-ground connec-

1 tions, and classical networking and cybersecu-  
2 rity protocols;

3 “(B) entanglement and hyper-entangled  
4 state sources and transmission, control, and  
5 measurement of quantum states;

6 “(C) quantum interconnects that allow  
7 short range local connections between quantum  
8 processors;

9 “(D) transducers for quantum sources and  
10 signals between optical and telecommunications  
11 regimes and quantum computer-relevant do-  
12 mains, including microwaves;

13 “(E) development of quantum memory  
14 buffers and small-scale quantum computers  
15 that are compatible with photon-based quantum  
16 bits in the optical or telecommunications wave-  
17 lengths;

18 “(F) long-range entanglement distribution  
19 at both the terrestrial and space-based level  
20 using quantum repeaters, allowing entangle-  
21 ment-based protocols between small- and large  
22 scale quantum processors;

23 “(G) quantum routers, multiplexers, re-  
24 peaters, and related technologies necessary to

1 create secure long-distance quantum commu-  
2 nication; and

3 “(H) integration of systems across the  
4 quantum technology stack into traditional com-  
5 puting networks, including the development of  
6 remote controlled, high performance, and reli-  
7 able implementations of key quantum network  
8 components by leveraging the expertise, infra-  
9 structure and supplemental investments in the  
10 Energy Sciences Network User Facility;

11 “(3) engage with the Quantum Economic De-  
12 velopment Consortium (QED-C) to transition com-  
13 ponent technologies to help facilitate as appropriate  
14 the development of a quantum supply chain for  
15 quantum network technologies;

16 “(4) advance basic research in advanced sci-  
17 entific computing, particle and nuclear physics, and  
18 material science to enhance the understanding, pre-  
19 diction, and manipulation of materials, processes,  
20 and physical phenomena relevant to quantum net-  
21 work infrastructure;

22 “(5) develop experimental tools and testbeds in  
23 collaboration with the Department of Energy’s En-  
24 ergy Sciences Network User Facility necessary to  
25 support cross-cutting fundamental research and de-

1 development activities with diverse stakeholders from  
2 industry, National Laboratories, and institutions of  
3 higher education; and

4 “(6) consider quantum network infrastructure  
5 applications that span the Department of Energy’s  
6 missions in energy, environment, and national secu-  
7 rity.

8 “(c) LEVERAGING.—In carrying out this section, the  
9 Secretary shall leverage resources, infrastructure, and ex-  
10 pertise across the Department of Energy and from—

11 “(1) the National Institute of Standards and  
12 Technology;

13 “(2) the National Science Foundation;

14 “(3) the National Aeronautics and Space Ad-  
15 ministration;

16 “(4) other relevant Federal agencies;

17 “(5) the National Laboratories;

18 “(6) industry stakeholders;

19 “(7) institutions of higher education; and

20 “(8) the National Quantum Information  
21 Science Research Centers.

22 “(d) RESEARCH PLAN.—Not later than 180 days  
23 after the date of the enactment of the America COM-  
24 PETES Act of 2022, the Secretary shall submit to the  
25 Committee on Science, Space, and Technology of the

1 House of Representatives and the Committee on Energy  
2 and Natural Resources of the Senate, a 4-year research  
3 plan that identifies and prioritizes basic research needs re-  
4 lating to quantum network infrastructure.

5 “(e) STANDARD OF REVIEW.—The Secretary shall  
6 review activities carried out under this section to deter-  
7 mine the achievement of technical milestones.

8 “(f) FUNDING.—Out of funds authorized to be appro-  
9 priated for the Department of Energy’s Office of Science,  
10 there shall be made available to the Secretary to carry out  
11 the activities under this section, \$100,000,000 for each  
12 of fiscal years 2022 through 2026.

13 **“SEC. 404. DEPARTMENT OF ENERGY QUANTUM USER EX-**  
14 **PANSION FOR SCIENCE AND TECHNOLOGY**  
15 **PROGRAM.**

16 “(a) IN GENERAL.—The Secretary of Energy (re-  
17 ferred to in this section as the ‘Secretary’) shall establish  
18 and carry out a program (to be known as the ‘Quantum  
19 User Expansion for Science and Technology program’ or  
20 ‘QUEST program’) to encourage and facilitate access to  
21 United States quantum computing hardware and quantum  
22 computing clouds for research purposes to—

23 “(1) enhance the United States quantum re-  
24 search enterprise;

1           “(2) educate the future quantum computing  
2 workforce; and

3           “(3) accelerate the advancement of United  
4 States quantum computing capabilities.

5           “(b) PROGRAM.—In carrying out this section, the  
6 Secretary shall—

7           “(1) coordinate with—

8                 “(A) the Director of the National Science  
9 Foundation;

10                “(B) the Director of the National Institute  
11 of Standards and Technology;

12                “(C) the Chair of the Subcommittee on  
13 Quantum Information Science of the National  
14 Science and Technology Council established  
15 under section 103(a); and

16                “(D) the Chair of the Subcommittee on the  
17 Economic and Security Implications of Quan-  
18 tum Science;

19           “(2) provide researchers based within the  
20 United States with access to, and use of, United  
21 States quantum computing resources through a com-  
22 petitive, merit-reviewed process;

23           “(3) consider applications from the National  
24 Laboratories, multi-institutional collaborations, insti-  
25 tutions of higher education, industry stakeholders,

1 and any other entities that the Secretary determines  
2 are appropriate to provide national leadership on  
3 quantum computing related issues; and

4 “(4) consult and coordinate with private sector  
5 stakeholders, the user community, and interagency  
6 partners on program development and best manage-  
7 ment practices.

8 “(c) LEVERAGING.—In carrying out this section, the  
9 Secretary shall leverage resources and expertise across the  
10 Department of Energy and from—

11 “(1) the National Institute of Standards and  
12 Technology;

13 “(2) the National Science Foundation;

14 “(3) the National Aeronautics and Space Ad-  
15 ministration;

16 “(4) other relevant Federal agencies;

17 “(5) the National Laboratories;

18 “(6) industry stakeholders;

19 “(7) institutions of higher education; and

20 “(8) the National Quantum Information  
21 Science Research Centers.

22 “(d) SECURITY.—In carrying out the activities au-  
23 thorized by this section, the Secretary, in consultation  
24 with the Director of the National Science Foundation and  
25 the Director of the National Institute of Standards and

1 Technology, shall ensure proper security controls are in  
2 place to protect sensitive information, as appropriate.

3 “(e) FUNDING.—Out of funds authorized to be ap-  
4 propriated for the Department of Energy’s Office of  
5 Science, there are authorized to be appropriated to the  
6 Secretary to carry out the activities under this section—

7 “(1) \$30,000,000 for fiscal year 2022;

8 “(2) \$50,000,000 for fiscal year 2023;

9 “(3) \$70,000,000 for fiscal year 2024;

10 “(4) \$90,000,000 for fiscal year 2025; and

11 “(5) \$100,000,000 for fiscal year 2026.

12 “(f) EQUITABLE USE OF HIGH-PERFORMANCE COM-  
13 PUTING CAPABILITIES.—

14 “(1) SENSE OF CONGRESS.—It is the sense of  
15 Congress that machine learning algorithms can ex-  
16 hibit biases that cause harm to historically  
17 marginalized communities.

18 “(2) POLICY.—In leveraging high-performance  
19 computing systems for research purposes, including  
20 through the use of machine learning algorithms for  
21 data analysis, the Secretary shall ensure that such  
22 capabilities are employed in a manner that mitigates  
23 and, to the maximum extent practicable, avoids  
24 harmful algorithmic bias and equitably addresses

1 challenges impacting different populations, including  
2 historically marginalized communities.”.

3 (B) The table of contents in section 1(b) of the  
4 National Quantum Initiative Act is amended by in-  
5 serting after the item relating to section 402 the fol-  
6 lowing items:

“Sec. 403. Department of energy quantum network infrastructure research and  
development program.

“Sec. 404. Department of energy quantum user expansion for science and tech-  
nology program.”.

7 **SEC. 10105. FUSION ENERGY RESEARCH.**

8 (a) FUSION ENERGY RESEARCH.—Section 307 of the  
9 Department of Energy Research and Innovation Act (42  
10 U.S.C. 18645) is amended—

11 (1) in subsection (b)—

12 (A) in the matter preceding paragraph (1),  
13 by striking “As part of” and inserting the fol-  
14 lowing:

15 “(1) IN GENERAL.—As part of”;

16 (B) by redesignating—

17 (i) paragraphs (1) and (2) as sub-  
18 paragraphs (A) and (B), respectively (and  
19 by adjusting the margins of such subpara-  
20 graphs accordingly); and

21 (ii) in subparagraph (B) (as redesign-  
22 ated by clause (i)), subparagraphs (A)  
23 and (B) as clauses (i) and (ii), respectively

1 (and by adjusting the margins of such  
2 clauses accordingly); and

3 (C) by adding at the end the following:

4 “(2) AUTHORIZATION OF APPROPRIATIONS.—

5 Out of funds authorized to be appropriated under  
6 subsection (r), there are authorized to be appro-  
7 priated to the Secretary to carry out activities de-  
8 scribed in paragraph (1) \$100,000,000 for each of  
9 fiscal years 2022 through 2026.”;

10 (2) in subsection (d)(3)—

11 (A) by striking the period at the end and  
12 inserting “and \$40,000,000 for fiscal year  
13 2026.”; and

14 (B) by striking “(o)” and inserting “(r)”;  
15 and

16 (3) in subsection (e)(4)—

17 (A) by striking the period at the end and  
18 inserting “and \$75,000,000 for fiscal year  
19 2026.”; and

20 (B) by striking “(o)” and inserting “(r)”;

21 (4) in subsection (i)(10)—

22 (A) In the matter preceding subparagraph  
23 (A), by striking “(o)” and inserting “(r)”;

24 (B) in subparagraph (C), strike  
25 “\$105,000,000” and insert “\$150,000,000”;

1 (C) in subparagraph (D), strike  
2 “65,000,000 for fiscal year 2024; and” and in-  
3 sert “\$250,000,000 for fiscal year 2024;”;

4 (D) in subparagraph (E), strike  
5 “\$45,000,000 for fiscal year 2025.” and insert  
6 “\$250,000,000 for fiscal year 2025; and”; and

7 (E) by adding at the end the following:

8 “(F) \$150,000,000 for fiscal year 2026.”;  
9 (5) in subsection (j)—

10 (A) by striking “The Director” and all  
11 that follows through the period and inserting  
12 the following:

13 “(1) IN GENERAL.—

14 “(A) ESTABLISHMENT.—Within 180 days  
15 of enactment of the America COMPETES Act  
16 of 2022, the Director shall establish at least 2  
17 national teams, including public-private part-  
18 nerships, that will develop conceptual pilot plant  
19 designs and technology roadmaps and lead to  
20 an engineering design of a pilot plant that will  
21 bring fusion to commercial viability.

22 “(B) COMPOSITION.—The national teams  
23 shall be composed of developers, manufacturers,  
24 universities, national laboratories, and engineer-

1 ing, procurement, and construction industries.”;

2 and

3 (B) by adding at the end the following:

4 “(2) AUTHORIZATION OF APPROPRIATIONS.—

5 There are authorized to be appropriated to carry out  
6 activities described in paragraph (1)—

7 “(A) \$20,000,000 for fiscal year 2022;

8 “(B) \$35,000,000 for fiscal year 2023;

9 “(C) \$50,000,000 for fiscal year 2024;

10 “(D) \$65,000,000 for fiscal year 2025;

11 and

12 “(E) \$80,000,000 for fiscal year 2026.”;

13 (6) in subsection (l)—

14 (A) by striking “sense of Congress that the  
15 United States should support” and inserting  
16 “sense of Congress that—”;

17 “(1) the United States should support”;

18 (B) in paragraph (1) (as so designated by  
19 subparagraph (A) of this paragraph), by strik-  
20 ing the period at the end and inserting “; and”;

21 and

22 (C) by adding at the end the following:

23 “(2) the Director shall incorporate the findings  
24 and recommendations of the report of the Fusion  
25 Energy Sciences Advisory Committee entitled

1 ‘Powering the Future: Fusion and Plasmas’ and the  
2 report of the National Academies of Science, Engi-  
3 neering, and Medicine entitled “Bringing Fusion to  
4 the U.S. Grid” into the planning process of the De-  
5 partment, including the development of future budg-  
6 et requests to Congress.”;

7 (7) by redesignating subsection (o) as sub-  
8 section (r);

9 (8) by inserting after subsection (n) the fol-  
10 lowing:

11 “(o) HIGH-PERFORMANCE COMPUTATION COLLABO-  
12 RATIVE RESEARCH PROGRAM.—

13 “(1) IN GENERAL.—The Secretary shall carry  
14 out a program to conduct and support collaborative  
15 research, development, and demonstration of fusion  
16 energy technologies, through high-performance com-  
17 putation modeling and simulation techniques, in  
18 order to—

19 “(A) support fundamental research in plas-  
20 mas and matter at very high temperatures and  
21 densities;

22 “(B) inform the development of a broad  
23 range of fusion energy systems; and

24 “(C) facilitate the translation of research  
25 results in fusion energy science to industry.

1           “(2) COORDINATION.—In carrying out the pro-  
2           gram under paragraph (1), the Secretary shall co-  
3           ordinate with relevant Federal agencies, and  
4           prioritize the following objectives:

5                   “(A) Using expertise from the private sec-  
6                   tor, institutions of higher education, and the  
7                   National Laboratories to leverage existing, and  
8                   develop new, computational software and capa-  
9                   bilities that prospective users may use to accel-  
10                  erate research and development of fusion energy  
11                  systems.

12                  “(B) Developing computational tools to  
13                  simulate and predict fusion energy science phe-  
14                  nomena that may be validated through physical  
15                  experimentation.

16                  “(C) Increasing the utility of the research  
17                  infrastructure of the Department by coordi-  
18                  nating with the Advanced Scientific Computing  
19                  Research program within the Office of Science.

20                  “(D) Leveraging experience from existing  
21                  modeling and simulation entities sponsored by  
22                  the Department.

23                  “(E) Ensuring that new experimental and  
24                  computational tools are accessible to relevant  
25                  research communities, including private sector

1 entities engaged in fusion energy technology de-  
2 velopment.

3 “(F) Ensuring that newly developed com-  
4 putational tools are compatible with modern vir-  
5 tual engineering and visualization capabilities to  
6 accelerate the realization of fusion energy tech-  
7 nologies and systems.

8 “(3) DUPLICATION.—The Secretary shall en-  
9 sure the coordination of, and avoid unnecessary du-  
10 plication of, the activities of this program with the  
11 activities of—

12 “(A) other research entities of the Depart-  
13 ment, including the National Laboratories, the  
14 Advanced Research Projects Agency–Energy,  
15 the Advanced Scientific Computing Research  
16 program; and

17 “(B) industry.

18 “(4) HIGH-PERFORMANCE COMPUTING FOR FU-  
19 SION INNOVATION CENTER.—In carrying out the  
20 program under paragraph (1), the Secretary shall,  
21 in coordination with the Innovation Network for Fu-  
22 sion Energy, establish and operate a national High-  
23 Performance Computing for Fusion Innovation Cen-  
24 ter (referred to in this subsection as the ‘Center’),  
25 to support the program under paragraph (1) by pro-

1       viding, to the extent practicable, a centralized entity  
2       for multidisciplinary, collaborative, fusion energy re-  
3       search and development through high performance  
4       computing and advanced data analytics technologies  
5       and processes.

6           “(5) SELECTION.—The Secretary shall select  
7       the Center under this subsection on a competitive,  
8       merit-reviewed basis. The Secretary shall consider  
9       applications from National Laboratories, institutions  
10      of higher education, multi-institutional collabora-  
11      tions, and other appropriate entities.

12          “(6) EXISTING ACTIVITIES.—The Center may  
13      incorporate existing research activities that are con-  
14      sistent with the program described in paragraph (1).

15          “(7) DURATION.—The Center established under  
16      this subsection shall receive support for a period of  
17      not more than 5 years, subject to the availability of  
18      appropriations.

19          “(8) RENEWAL.—Upon the expiration of any  
20      period of support of the Center, the Secretary may  
21      renew support for the Center, on a merit-reviewed  
22      basis, for a period of not more than 5 years.

23          “(9) TERMINATION.—Consistent with the exist-  
24      ing authorities of the Department, the Secretary

1 may terminate the Center for cause during the per-  
2 formance period.

3 “(p) MATERIAL PLASMA EXPOSURE EXPERIMENT.—

4 “(1) IN GENERAL.—The Secretary shall con-  
5 struct a Material Plasma Exposure Experiment fa-  
6 cility as described in the 2020 publication approved  
7 by the Fusion Energy Sciences Advisory Committee  
8 titled ‘Powering the Future: Fusion and Plasmas’.  
9 The Secretary shall consult with the private sector,  
10 universities, National Laboratories, and relevant  
11 Federal agencies to ensure that this facility is capa-  
12 ble of meeting Federal research needs for steady  
13 state, high-heat-flux and plasma-material interaction  
14 testing of fusion materials over a range of fusion en-  
15 ergy relevant parameters.

16 “(2) FACILITY CAPABILITIES.—The Secretary  
17 shall ensure that the facility described in paragraph  
18 (1) will provide the following capabilities:

19 “(A) A magnetic field at the target of 1  
20 Tesla.

21 “(B) An energy flux at the target of 10  
22 MW/m<sup>2</sup>.

23 “(C) The ability to expose previously irra-  
24 diated plasma facing material samples to plas-  
25 ma.

1           “(3) START OF OPERATIONS.—The Secretary  
2 shall, subject to the availability of appropriations,  
3 ensure that the start of full operations of the facility  
4 under this section occurs before December 31, 2027.

5           “(4) FUNDING.—Out of funds authorized to be  
6 appropriated for Fusion Energy Sciences, there are  
7 funds authorized to be appropriated to the Secretary  
8 for the Office of Fusion Energy Sciences to carry  
9 out to completion the construction of the facility  
10 under this section:

11                   “(A) \$32,800,000 for fiscal year 2022;

12                   “(B) \$13,400,000 for fiscal year 2023;

13                   “(C) \$12,600,000 for fiscal year 2024; and

14                   “(D) \$400,000 for fiscal year 2025.

15           “(q) MATTER IN EXTREME CONDITIONS INSTRU-  
16 MENT UPGRADE.—

17           “(1) IN GENERAL.—The Secretary shall provide  
18 for the upgrade to the Matter in Extreme Conditions  
19 endstation at the Linac Coherent Light Source as  
20 described in the 2020 publication approved by the  
21 Fusion Energy Sciences Advisory Committee titled  
22 ‘Powering the Future: Fusion and Plasmas’. The  
23 Secretary shall consult with the private sector, uni-  
24 versities, National Laboratories, and relevant Fed-  
25 eral agencies to ensure that this facility is capable

1 of meeting Federal research needs for understanding  
2 physical and chemical changes to plasmas at funda-  
3 mental timescales, and explore new regimes of dense  
4 material physics, astrophysics, planetary physics,  
5 and short-pulse laser-plasma interactions.

6 “(2) START OF OPERATIONS.—The Secretary  
7 shall, subject to the availability of appropriations,  
8 ensure that the start of full operations of the facility  
9 under this section occurs before December 31,  
10 2028.”; and

11 (9) in subsection (r), as so redesignated, by  
12 striking paragraphs (2) through (5) and inserting  
13 the following:

14 “(2) \$1,002,900,000 for fiscal year 2022;

15 “(3) \$1,190,707,000 for fiscal year 2023;

16 “(4) \$1,364,368,490 for fiscal year 2024;

17 “(5) \$1,404,042,284 for fiscal year 2025; and

18 “(6) \$1,398,097,244 for fiscal year 2026.”.

19 (b) ITER CONSTRUCTION.—Section 972 of the En-  
20 ergy Policy Act of 2005 (42 U.S.C. 16312) is amended  
21 in subsection (c)(3)—

22 (1) in subparagraph (A), by striking “and” at  
23 the end; and

24 (2) by striking subparagraph (B) and inserting  
25 the following:

1           “(B) \$300,000,000 for fiscal year 2022;  
2           “(C) \$325,000,000 for fiscal year 2023;  
3           “(D) \$350,000,000 for fiscal year 2024;  
4           “(E) \$350,000,000 for fiscal year 2025;  
5           and  
6           “(F) \$350,000,000 for fiscal year 2026.”.

7 **SEC. 10106. HIGH ENERGY PHYSICS PROGRAM.**

8           (a) PROGRAM.—Section 305 of the Department of  
9 Energy Research and Innovation Act (42 U.S.C. 18643)  
10 is amended—

11           (1) by redesignating subsections (b) through (d)  
12 as subsections (d) through (f), respectively; and

13           (2) by inserting the following after subsection  
14 (a):

15           “(b) PROGRAM.—As part of the activities authorized  
16 under section 209 of the Department of Energy Organiza-  
17 tion Act (42 U.S.C. 7139), the Director shall carry out  
18 a research program in elementary particle physics and ad-  
19 vanced technology research and development to improve  
20 the understanding of the fundamental properties of the  
21 universe, including constituents of matter and energy and  
22 the nature of space and time.

23           “(c) HIGH ENERGY FRONTIER RESEARCH.—As part  
24 of the program described in subsection (b), the Director  
25 shall carry out research using high energy accelerators

1 and advanced detectors, including accelerators and detec-  
2 tors that will function as national user facilities, to create  
3 and study interactions of elementary particles and inves-  
4 tigate fundamental forces.”.

5 (b) INTERNATIONAL COLLABORATION.—Section  
6 305(d) of the Department of Energy Research and Inno-  
7 vation Act (42 U.S.C. 18643(d)), as redesignated under  
8 subsection (a), is amended to read as follows:

9 “(d) INTERNATIONAL COLLABORATION.—The Direc-  
10 tor shall—

11 “(1) as practicable and in coordination with  
12 other appropriate Federal agencies as necessary, en-  
13 sure the access of United States researchers to the  
14 most advanced accelerator facilities and research ca-  
15 pabilities in the world, including the Large Hadron  
16 Collider;

17 “(2) to the maximum extent practicable, con-  
18 tinue to leverage United States participation in the  
19 Large Hadron Collider, and prioritize expanding  
20 international partnerships and investments in the  
21 Long-Baseline Neutrino Facility and Deep Under-  
22 ground Neutrino Experiment; and

23 “(3) to the maximum extent practicable,  
24 prioritize engagement in collaborative efforts in sup-  
25 port of future international facilities that would pro-

1       vide access to the most advanced accelerator facili-  
2       ties in the world to United States researchers.”.

3       (c) COSMIC FRONTIER RESEARCH.—Section 305(f)  
4 of the Department of Energy Research and Innovation Act  
5 (42 U.S.C. 18645(f)), as redesignated by subsection (a),  
6 is amended to read as follows:

7       “(f) COSMIC FRONTIER RESEARCH.—The Director  
8 shall carry out research activities on the nature of the pri-  
9 mary contents of the universe, including the nature of  
10 dark energy and dark matter. These activities shall, to the  
11 maximum extent practicable, be consistent with the re-  
12 search priorities identified by the High Energy Physics  
13 Advisory Panel or the National Academy of Sciences, and  
14 may include—

15               “(1) collaborations with the National Aero-  
16 nautics and Space Administration, the National  
17 Science Foundation, or international partners on rel-  
18 evant projects; and

19               “(2) the development of space-based, land-  
20 based, water-based, and underground facilities and  
21 experiments.”.

22       (d) FURTHER ACTIVITIES.—Section 305 of the De-  
23 partment of Energy Research and Innovation Act (42  
24 U.S.C. 18645) is further amended by adding at the end  
25 the following:

1       “(g) FACILITY CONSTRUCTION AND MAJOR ITEMS  
2 OF EQUIPMENT.—

3               “(1) PROJECTS.—Consistent with the Office of  
4 Science’s project management practices, the Director  
5 shall, to the maximum extent practicable, incor-  
6 porate the findings and recommendations of the  
7 2014 Particle Physics Project Prioritization Panel  
8 (P5) report titled ‘Building for Discovery’, and sup-  
9 port construction or fabrication of—

10               “(A) an international Long-Baseline Neu-  
11 trino Facility based in the United States;

12               “(B) the Proton Improvement Plan II;

13               “(C) Second Generation Dark Matter ex-  
14 periments;

15               “(D) the Legacy Survey of Space and  
16 Time camera;

17               “(E) upgrades to detectors and other com-  
18 ponents of the Large Hadron Collider; and

19               “(F) other high priority projects rec-  
20 ommended in the most recent report of the Par-  
21 ticle Physics Project Prioritization Panel of the  
22 High Energy Physics Advisory Panel.

23       “(2) LONG-BASELINE NEUTRINO FACILITY.—

24               “(A) IN GENERAL.—The Secretary shall  
25 support construction of a Long-Baseline Neu-

1 trino Facility to facilitate the international  
2 Deep Underground Neutrino Experiment to ex-  
3 amine the fundamental properties of neutrinos,  
4 explore physics beyond the Standard Model,  
5 and better clarify the existence and nature of  
6 antimatter.

7 “(B) FACILITY CAPABILITIES.—The Sec-  
8 retary shall ensure that the facility described in  
9 subparagraph (A) will provide, at a minimum,  
10 the following capabilities:

11 “(i) A neutrino beam with wideband  
12 capability of 1.2 megawatts (MW) of beam  
13 power and upgradable to 2.4 MW of beam  
14 power.

15 “(ii) Three caverns excavated for a 70  
16 kiloton fiducial detector mass and sup-  
17 porting surface buildings and utilities.

18 “(iii) Cryogenic systems to support  
19 neutrino detectors.

20 “(C) START OF OPERATIONS.—The Sec-  
21 retary shall, subject to the availability of appro-  
22 priations, ensure that the start of full oper-  
23 ations of the facility under this subsection oc-  
24 curs before December 31, 2031.

1           “(D) FUNDING.—Out of funds authorized  
2           to be appropriated under subsection (k), there  
3           are authorized to be appropriated to the Sec-  
4           retary to carry out construction of the facility  
5           under this subsection—

6                   “(i) \$200,000,000 for fiscal year  
7                   2022;

8                   “(ii) \$325,000,000 for fiscal year  
9                   2023;

10                  “(iii) \$400,000,000 for fiscal year  
11                  2024;

12                  “(iv) \$375,000,000 for fiscal year  
13                  2025; and

14                  “(v) \$250,000,000 for fiscal year  
15                  2026.

16           “(3) PROTON IMPROVEMENT PLAN—II ACCEL-  
17           ERATOR UPGRADE PROJECT.—

18                   “(A) IN GENERAL.—The Secretary of En-  
19                   ergy shall support construction of the Proton  
20                   Improvement Plan II, an upgrade to the  
21                   Fermilab accelerator complex identified in the  
22                   2014 Particle Physics Project Prioritization  
23                   Panel (P5) report titled ‘Building for Dis-  
24                   covery’, to provide the world’s most intense  
25                   beam of neutrinos to the international Long

1 Baseline Neutrino Facility as well as abroad  
2 range of future high energy physics experi-  
3 ments. The Secretary of Energy shall work with  
4 international partners to enable further signifi-  
5 cant contributions to the capabilities of this  
6 project.

7 “(B) FACILITY CAPABILITIES.—The Sec-  
8 retary shall ensure that the facility described in  
9 paragraph (1) will provide, at a minimum, the  
10 following capabilities:

11 “(i) A state-of-the-art 800  
12 megaelectron volt (MeV) superconducting  
13 linear accelerator.

14 “(ii) Proton beam power of 1.2 MW  
15 at the start of LBNF/DUNE, upgradeable  
16 to 2.4 MW of beam power.

17 “(iii) A flexible design to enable high  
18 power beam delivery to multiple users si-  
19 multaneously and customized beams tai-  
20 lored to specific scientific needs.

21 “(iv) Sustained high reliability oper-  
22 ation of the Fermilab accelerator complex.

23 “(C) START OF OPERATIONS.—The Sec-  
24 retary shall, subject to the availability of appro-  
25 priations, ensure that the start of full oper-

1           ations of the facility under this section occurs  
2           before December 31, 2028.

3           “(D) FUNDING.—Out of funds authorized  
4           to be appropriated under subsection (k), there  
5           are authorized to be appropriated to the Sec-  
6           retary to carry out construction of the facility  
7           under this subsection—

8                   “(i) \$191,000,000 for fiscal year  
9                   2022;

10                   “(ii) \$150,000,000 for fiscal year  
11                   2023;

12                   “(iii) \$120,000,000 for fiscal year  
13                   2024;

14                   “(iv) \$120,000,000 for fiscal year  
15                   2025; and

16                   “(v) \$100,000,000 for fiscal year  
17                   2026.

18           “(4) COSMIC MICROWAVE BACKGROUND STAGE

19           4.—

20                   “(A) IN GENERAL.—The Secretary of En-  
21                   ergy, in partnership with the Director of the  
22                   National Science Foundation, shall support con-  
23                   struction of the Cosmic Microwave Background  
24                   Stage 4 project to survey the cosmic microwave  
25                   background to test theories of cosmic inflation

1 as described in the 2014 Particle Physics  
2 Prioritization Panel (P5) report titled ‘Building  
3 for Discovery: Strategic Plan for U.S. Particle  
4 Physics in the Global Context.’.

5 “(B) CONSULTATION.—The Secretary  
6 shall consult with the private sector, univer-  
7 sities, National Laboratories, and relevant Fed-  
8 eral agencies to ensure that this experiment is  
9 capable of meeting Federal research needs in  
10 accessing the ultra-high energy physics of infla-  
11 tion and important neutrino properties.

12 “(C) EXPERIMENTAL CAPABILITIES.—The  
13 Secretary shall ensure to the maximum extent  
14 practicable that the facility described in sub-  
15 section (a) will provide at minimum, 500,000  
16 superconducting detectors deployed on an array  
17 of mm wave telescopes with the required range  
18 in frequency, sensitivity, and survey speed  
19 which will provide sufficient capability to enable  
20 an order of magnitude advance in observations  
21 of the Cosmic Microwave Background, deliv-  
22 ering transformative discoveries in fundamental  
23 physics, cosmology, and astrophysics.

24 “(D) START OF OPERATIONS.—The Sec-  
25 retary shall, subject to the availability of appro-

1           priations, ensure that the start of full oper-  
2           ations of the facility under this section occurs  
3           before December 31, 2030.

4           “(E) FUNDING.—Out of funds authorized  
5           to be appropriated under subsection (k), there  
6           are authorized to be appropriated to the Sec-  
7           retary to carry out construction of the facility  
8           under this subsection—

9                     “(i) \$37,000,000 for fiscal year 2022;

10                    “(ii) \$50,000,000 for fiscal year 2023;

11                    “(iii) \$70,000,000 for fiscal year  
12                    2024;

13                    “(iv) \$80,000,000 for fiscal year  
14                    2025; and

15                    “(v) \$90,000,000 for fiscal year 2026.

16           “(h) ACCELERATOR AND DETECTOR UPGRADES.—

17   The Director shall upgrade accelerator facilities and detec-  
18   tors, as necessary and appropriate, to increase beam  
19   power, sustain high reliability, and improve precision  
20   measurement to advance the highest priority particle phys-  
21   ics research programs. In carrying out facility upgrades,  
22   the Director shall continue to work with international  
23   partners, when appropriate and in the United States’ in-  
24   terest, to leverage investments and expertise in critical

1 technologies to help build and upgrade accelerator and de-  
2 tector facilities in the United States.

3       “(i) ACCELERATOR AND DETECTOR RESEARCH AND  
4 DEVELOPMENT.—As part of the program described in  
5 subsection (b), the Director shall carry out research and  
6 development in particle beam physics, accelerator science  
7 and technology, and particle and radiation detection with  
8 relevance to the specific needs of the High Energy Physics  
9 program, in coordination with the Accelerator Research  
10 and Development program authorized in section 310.

11       “(j) UNDERGROUND SCIENCE.—The Director shall—

12               “(1) support an underground science program  
13 consistent with the missions of the Department and  
14 the scientific needs of the High Energy Physics pro-  
15 gram, including those articulated in the most recent  
16 report of the Particle Physics Project Prioritization  
17 Panel of the High Energy Physics Advisory Panel,  
18 that leverages the capabilities of relevant under-  
19 ground science and engineering facilities; and

20               “(2) carry out a competitive grant program to  
21 award scientists and engineers at institutions of  
22 higher education, nonprofit institutions, and Na-  
23 tional Laboratories to conduct research in under-  
24 ground science and engineering.

1 “(k) AUTHORIZATION OF APPROPRIATIONS.—There  
2 are authorized to be appropriated to the Secretary to carry  
3 out the activities described in this section—

4 “(1) \$1,355,690,000 for fiscal year 2022;

5 “(2) \$1,517,628,300 for fiscal year 2023;

6 “(3) \$1,652,112,281 for fiscal year 2024;

7 “(4) \$1,711,460,141 for fiscal year 2025; and

8 “(5) \$1,656,012,351 for fiscal year 2026.”.

9 **SEC. 10107. NUCLEAR PHYSICS PROGRAM.**

10 (a) PROGRAM.—Section 308 of the Department of  
11 Energy Research and Innovation Act (42 U.S.C. 18646)  
12 is amended—

13 (1) by redesignating subsection (b) as sub-  
14 section (d); and

15 (2) by striking subsection (a) and inserting the  
16 following:

17 “(a) PROGRAM.—As part of the activities authorized  
18 under section 209 of the Department of Energy Organiza-  
19 tion Act (42 U.S.C. 7139), the Director shall carry out  
20 a research program, and support relevant facilities, to dis-  
21 cover and understand various forms of nuclear matter.

22 “(b) USER FACILITIES.—

23 “(1) FACILITY FOR RARE ISOTOPE BEAMS.—

24 “(A) IN GENERAL.—The Secretary shall  
25 support construction of a Facility for Rare Iso-

1           tope Beams to advance the understanding of  
2           rare nuclear isotopes and the evolution of the  
3           cosmos.

4           “(B) FUNDING.—Out of funds authorized  
5           to be appropriated under subsection (c), there  
6           are authorized to be appropriated to the Sec-  
7           retary to carry out construction of the facility  
8           under this subsection \$2,000,000 for fiscal year  
9           2022.

10          “(C) START OF OPERATIONS.—The Sec-  
11          retary shall, subject to the availability of appro-  
12          priations, ensure that the start of full oper-  
13          ations of the facility under this section occurs  
14          before March 1, 2022.

15          “(2) ELECTRON-ION COLLIDER.—

16          “(A) IN GENERAL.—The Secretary shall  
17          support construction of an Electron Ion Collider  
18          as described in the 2015 Long Range Plan of  
19          the Nuclear Science Advisory Committee and  
20          the report from the National Academies of  
21          Science, Engineering, and Medicine titled ‘An  
22          Assessment of U.S.-Based Electron-Ion Collider  
23          Science’, in order to measure the internal struc-  
24          ture of the proton and the nucleus and answer

1 fundamental questions about the nature of visi-  
2 ble matter.

3 “(B) FACILITY CAPABILITY.—The Sec-  
4 retary shall ensure that the facility meets the  
5 requirements in the 2015 Long Range Plan, in-  
6 cluding—

7 “(i) at least 70 percent polarized  
8 beams of electrons and light ions;

9 “(ii) ion beams from deuterium to the  
10 heaviest stable nuclei;

11 “(iii) variable center of mass energy  
12 from 20 to 140 GeV;

13 “(iv) high collision luminosity of  
14  $10^{33-34}\text{cm}^{-2}\text{s}^{-1}$ ; and

15 “(v) the possibility of more than one  
16 interaction region.

17 “(C) START OF OPERATIONS.—The Sec-  
18 retary shall, subject to the availability of appro-  
19 priations, ensure that the start of full oper-  
20 ations of the facility under this section occurs  
21 before December 31, 2030.

22 “(D) FUNDING.—Out of funds authorized  
23 to be appropriated under subsection (c), there  
24 are authorized to be appropriated to the Sec-

1           retary to carry out construction of the facility  
2           under this subsection—

3                   “(i) \$101,000,000 for fiscal year  
4                   2022;

5                   “(ii) \$155,000,000 for fiscal year  
6                   2023;

7                   “(iii) \$250,000,000 for fiscal year  
8                   2024;

9                   “(iv) \$300,000,000 for fiscal year  
10                  2025; and

11                  “(v) \$305,000,000 for fiscal year  
12                  2026.

13           “(c) AUTHORIZATION OF APPROPRIATIONS.—There  
14 are authorized to be appropriated to the Secretary to carry  
15 out the activities described in this section—

16                   “(1) \$780,000,000 for fiscal year 2022;

17                   “(2) \$879,390,000 for fiscal year 2023;

18                   “(3) \$1,025,097,300 for fiscal year 2024;

19                   “(4) \$1,129,354,111 for fiscal year 2025; and

20                   “(5) \$1,192,408,899 for fiscal year 2026.”.

21 **SEC. 10108. ACCELERATOR RESEARCH AND DEVELOPMENT.**

22           The Department of Energy Research and Innovation  
23 Act (42 U.S.C. 18601 et seq.) is amended by adding after  
24 section 309 the following:

1 **“SEC. 310. ACCELERATOR RESEARCH AND DEVELOPMENT.**

2 “(a) PROGRAM.—As part of the activities authorized  
3 under section 209 of the Department of Energy Organiza-  
4 tion Act (42 U.S.C. 7139), the Director shall carry out  
5 a research program to—

6 “(1) advance accelerator science and technology  
7 relevant to the Department, other Federal agencies,  
8 and U.S. industry;

9 “(2) foster partnerships to develop, dem-  
10 onstrate, and enable the commercial application of  
11 accelerator technologies;

12 “(3) support the development of a skilled, di-  
13 verse, and inclusive accelerator workforce; and

14 “(4) provide access to accelerator design and  
15 engineering resources.

16 “(b) ACCELERATOR RESEARCH.—In carrying out the  
17 program authorized under subsection (a), the Director  
18 shall support—

19 “(1) research activities in cross-cutting accel-  
20 erator technologies including superconducting  
21 magnets and accelerators, beam physics, data ana-  
22 lytics-based accelerator controls, simulation software,  
23 new particle sources, advanced laser technology, and  
24 transformative research; and

25 “(2) optimal operation of the Accelerator Test  
26 Facility.

1           “(c) ACCELERATOR DEVELOPMENT.—In carrying out  
2 the program authorized under subsection (a), the Director  
3 shall support partnerships to foster the development, dem-  
4 onstration, and commercial application of accelerator tech-  
5 nologies including, advanced superconducting wire and  
6 cable, superconducting RF cavities, and high efficiency ra-  
7 diofrequency power sources for accelerators.

8           “(d) RESEARCH COLLABORATIONS.—In developing  
9 accelerator technologies under the program authorized in  
10 subsection (a), the Director shall—

11                 “(1) consider the requirements necessary to  
12 support translational research and development for  
13 medical, industrial, security, and defense applica-  
14 tions; and

15                 “(2) leverage investments in accelerator tech-  
16 nologies and fundamental research in particle phys-  
17 ics by partnering with institutes of higher education,  
18 industry, and other Federal agencies to enable the  
19 commercial application of advanced accelerator tech-  
20 nologies.

21           “(e) AUTHORIZATION OF APPROPRIATIONS.—There  
22 are authorized to be appropriated to the Secretary to carry  
23 out the activities described in this section—

24                 “(1) \$24,000,000 for fiscal year 2022;

25                 “(2) \$25,680,000 for fiscal year 2023;

- 1           “(3) \$27,477,600 for fiscal year 2024;  
2           “(4) \$29,401,032 for fiscal year 2025; and  
3           “(5) \$31,459,104 for fiscal year 2026.”.

4 **SEC. 10109. ISOTOPE DEVELOPMENT AND PRODUCTION**  
5 **FOR RESEARCH APPLICATIONS.**

6           The Department of Energy Research and Innovation  
7 Act (42 U.S.C. 18601 et seq.) is amended by adding after  
8 section 310 as added by this title, the following:

9 **“SEC. 311. ISOTOPE DEVELOPMENT AND PRODUCTION FOR**  
10 **RESEARCH APPLICATIONS.**

11           “(a) IN GENERAL.—The Director—

12                   “(1) shall carry out a program in coordination  
13 with other relevant programs across the Department  
14 for the production of isotopes, including the develop-  
15 ment of techniques to produce isotopes, that the Sec-  
16 retary determines are needed for research, medical,  
17 industrial, or related purposes, to the maximum ex-  
18 tent practicable, in accordance with the 2015 Nu-  
19 clear Science Advisory Committee ‘Meeting Isotope  
20 Needs and Capturing Opportunities For The Fu-  
21 ture’ report; and

22                   “(2) shall ensure that isotope production activi-  
23 ties carried out under the program under this para-  
24 graph do not compete with private industry unless  
25 the Director determines that critical national inter-

1       ests require the involvement of the Federal Govern-  
2       ment.

3       “(b) AUTHORIZATION OF APPROPRIATIONS.—There  
4       are authorized to be appropriated to carry out the pro-  
5       gram under this section—

6               “(1) \$90,000,000 for fiscal year 2022;

7               “(2) \$96,300,000 for fiscal year 2023;

8               “(3) \$103,041,000 for fiscal year 2024;

9               “(4) \$110,253,870 for fiscal year 2025; and

10              “(5) \$117,971,641 for fiscal year 2026.”.

11 **SEC. 10110. SCIENCE LABORATORIES INFRASTRUCTURE**  
12 **PROGRAM.**

13       (a) PROGRAM.—Section 309 of the Department of  
14       Energy Research and Innovation Act (42 U.S.C. 18647)  
15       is amended by adding at the end the following:

16       “(c) APPROACH.—In carrying out this section, the  
17       Director shall utilize all available approaches and mecha-  
18       nisms, including capital line items, minor construction  
19       projects, energy savings performance contracts, and utility  
20       energy service contracts, alternative financing and expense  
21       funding, as appropriate.

22       “(d) ALTERNATIVE FINANCING OF RESEARCH FA-  
23       CILITIES AND INFRASTRUCTURE.—

24               “(1) IN GENERAL.—Consistent with section  
25       161(g) of the Atomic Energy Act of 1954 (42

1 U.S.C. 2201(g)), the Management and Operating  
2 contractors of the Department may enter into the  
3 lease-purchase of research facilities and infrastruc-  
4 ture under the scope of their contract with the De-  
5 partment with the approval of the Secretary or their  
6 designee.

7 “(2) LIMITATIONS.—To carry out lease-pur-  
8 chases approved by the Secretary under subsection  
9 (a), the Department shall only be required to have  
10 budget authority in an amount sufficient to cover  
11 the minimum required lease payments through the  
12 period required to exercise a termination provision in  
13 the lease agreement, plus any associated lease termi-  
14 nation penalties, regardless of whether such leased  
15 facility and infrastructure is on or off Government  
16 land, and if—

17 “(A) the Department has established a  
18 mission need for the facility or infrastructure to  
19 be leased;

20 “(B) the facility or infrastructure is gen-  
21 eral purpose, including offices, laboratories,  
22 cafeterias, utilities, and data centers;

23 “(C) the Department is not a party to and  
24 has no financial obligations under the lease-pur-  
25 chase transaction entered into by the Manage-

1           ment and Operating contractor, other than al-  
2           lowability of the lease cost and conveyance of  
3           Government land, if needed;

4           “(D) the lease-purchase has an advance  
5           notice termination provision with reasonable  
6           pre-defined penalties that the Management and  
7           Operating contractor may exercise, at the direc-  
8           tion of the Department, if funding for the lease  
9           is no longer available or the mission need ceases  
10          to exist;

11          “(E) there is an option for a no cost trans-  
12          fer of ownership to the Government once the  
13          underlying financing is retired, but neither the  
14          Management and Operating contractor nor the  
15          Department are obligated to purchase the facil-  
16          ity or infrastructure at any time during or after  
17          the lease term;

18          “(F) the lease-purchase transaction, as-  
19          suming exercise of the ownership option, is  
20          demonstrated to be the lowest lifecycle cost al-  
21          ternative for the Government; and

22          “(G) the cumulative annual base rent for  
23          all lease-purchases of facilities and infrastruc-  
24          ture, inclusive of any transactions under consid-  
25          eration, does not exceed 2 percent of the Man-

1           agement and Operating contract operating  
2           budget for the year the commitment is made for  
3           the lease.

4           “(3) REPORTING.—Not later than 1 year after  
5           the date of the enactment of the America COM-  
6           PETES Act of 2022, and biennially thereafter, the  
7           Department shall submit to the Committee on  
8           Science, Space, and Technology and the Committee  
9           on Appropriations of the House of Representatives,  
10          and the Committee on Energy and Natural Re-  
11          sources and the Committee on Appropriations of the  
12          Senate, a report on the lease-purchase transactions  
13          that the Management and Operating contractors of  
14          the Department entered into under subsection (a)  
15          that includes—

16                 “(A) a list of the lease-purchase trans-  
17                 actions entered into by each Management and  
18                 Operating contractor and their respective costs;

19                 “(B) the annual percentage of each Man-  
20                 agement and Operating contract operating  
21                 budget that is used for lease-purchase trans-  
22                 actions for the year the commitments were  
23                 made; and

24                 “(C) any other information the Secretary  
25                 determines to be appropriate.

1           “(4) AUTHORIZATION PERIOD.—The lease-pur-  
2           chases authorized under paragraph (1) may be en-  
3           tered into only during fiscal years 2022 through  
4           2026.

5           “(e) MID-SCALE INSTRUMENTATION PROGRAM.—  
6           The Director, in coordination with each of the programs  
7           carried out by the Office of Science, shall establish a mid-  
8           scale instrumentation program to enable the development  
9           and acquisition of novel, state-of-the-art instruments rang-  
10          ing in cost from \$1 million to \$20 million each that would  
11          significantly accelerate scientific breakthroughs at user fa-  
12          cilities.

13          “(f) AUTHORIZATION OF APPROPRIATIONS.—There  
14          are authorized to be appropriated to the Secretary to carry  
15          out the activities described in this section \$500,000,000  
16          for each of fiscal years 2022 through 2026.”.

17       **SEC. 10111. INCREASED COLLABORATION WITH TEACHERS**  
18                               **AND SCIENTISTS.**

19          (a) IN GENERAL.—The Department of Energy Re-  
20          search and Innovation Act (42 U.S.C. 18601 et seq.) is  
21          amended by adding after section 311, as added by this  
22          title, the following:

1 **“SEC. 312. INCREASED COLLABORATION WITH TEACHERS**  
2 **AND SCIENTISTS.**

3 “The Director shall support the development of a sci-  
4 entific workforce through programs that facilitate collabo-  
5 ration between K–12, university students, early-career re-  
6 searchers, faculty, and the National Laboratories, includ-  
7 ing through the use of proven techniques to expand the  
8 number of individuals from underrepresented groups pur-  
9 suing and attaining skills or undergraduate and graduate  
10 degrees relevant to the Office’s mission.”.

11 (b) **AUTHORIZATION OF APPROPRIATIONS.**—Section  
12 3169 of the Department of Energy Science Education En-  
13 hancement Act (42 U.S.C. 7381e) is amended—

14 (1) by striking, “programs”, and inserting  
15 “programs, including the NSF INCLUDES Na-  
16 tional Network,”; and

17 (2) by striking, “year 1991”, and inserting  
18 “years 2022 through 2026”.

19 (c) **BROADENING PARTICIPATION IN WORKFORCE**  
20 **DEVELOPMENT FOR TEACHERS AND SCIENTISTS.**—

21 (1) **IN GENERAL.**—The Department of Energy  
22 Science Education Enhancement Act (42 U.S.C.  
23 7381 et seq.) is amended by inserting the following  
24 sections after section 3167 (42 U.S.C. 7381c–1):

1 **“SEC. 3167A. BROADENING PARTICIPATION FOR TEACHERS**  
2 **AND SCIENTISTS.**

3 “(a) IN GENERAL.—The Secretary shall expand op-  
4 portunities to increase the number and the diversity, eq-  
5 uity, and inclusion of highly skilled science, technology, en-  
6 gineering, and mathematics (STEM) professionals work-  
7 ing in Department of Energy mission-relevant disciplines  
8 and broaden the recruitment pool to increase diversity, in-  
9 cluding expanded partnerships with Historically Black  
10 Colleges, Tribal Colleges, Minority Serving Institutions,  
11 emerging research institutions, institutions in rural and  
12 remote areas, and scientific societies.

13 “(b) PLAN.—Not later than 1 year after the date of  
14 enactment of the America COMPETES Act of 2022, the  
15 Secretary shall submit to the Committee on Science,  
16 Space, and Technology of the House of Representatives  
17 and the Committee on Energy and Natural Resources and  
18 the Committee on Commerce, Science, and Transportation  
19 of the Senate and make available to the public a plan for  
20 broadening participation of underrepresented groups in  
21 science, technology, engineering, and mathematics in pro-  
22 grams supported by the Department programs, includ-  
23 ing—

24 “(1) a plan for supporting and leveraging the  
25 National Science Foundation INCLUDES National  
26 Network;

1           “(2) metrics for assessing the participation of  
2           underrepresented groups in Department programs;

3           “(3) experienced and potential barriers to  
4           broadening participation of underrepresented groups  
5           in Department programs, including recommended  
6           solutions; and

7           “(4) any other activities the Secretary finds ap-  
8           propriate.

9           “(c) AUTHORIZATION OF APPROPRIATIONS.—Of the  
10          amounts authorized to be appropriated in section 3169  
11          (42 U.S.C. 7381e), at least \$2,000,000 are authorized to  
12          be appropriated each fiscal year for the activities described  
13          under this subsection.

14       **“SEC. 3167B. EXPANDING OPPORTUNITIES TO INCREASE**  
15                               **THE DIVERSITY, EQUITY, AND INCLUSION OF**  
16                               **HIGHLY SKILLED SCIENCE, TECHNOLOGY,**  
17                               **ENGINEERING, AND MATHEMATICS (STEM)**  
18                               **PROFESSIONALS.**

19          “(a) IN GENERAL.—The Secretary shall expand op-  
20          portunities to increase the number and the diversity, eq-  
21          uity, and inclusion of highly skilled science, technology, en-  
22          gineering, and mathematics (STEM) professionals work-  
23          ing in Department of Energy mission-relevant disciplines  
24          and broaden the recruitment pool to increase diversity, in-  
25          cluding expanded partnerships with Historically Black

1 Colleges, Tribal Colleges, Minority Serving Institutions,  
2 emerging research institutions, and scientific societies.

3 “(b) PLAN AND OUTREACH STRATEGY.—

4 “(1) PLAN.—Not later than 6 months after the  
5 date of enactment of the America COMPETES Act  
6 of 2022, the Secretary shall submit to the Com-  
7 mittee on Science, Space, and Technology of the  
8 House of Representatives and the Committee on En-  
9 ergy and Natural Resources of the Senate a 10-year  
10 educational plan to fund and expand new or existing  
11 programs administered by the Office of Science and  
12 sited at the National Laboratories and Department  
13 of Energy user facilities to expand educational and  
14 workforce opportunities for underrepresented high  
15 school, undergraduate, and graduate students as  
16 well as recent graduates, teachers and faculty in  
17 STEM fields. This may include paid internships, fel-  
18 lowships, temporary employment, training programs,  
19 visiting student and faculty programs, sabbaticals,  
20 and research support.

21 “(2) OUTREACH CAPACITY.—The Secretary  
22 shall include in the plan under paragraph (1) an  
23 outreach strategy to improve the advertising, recruit-  
24 ment, and promotion of educational and workforce  
25 programs to community colleges, Historically Black

1 Colleges and Universities, Tribal Colleges, Minority  
2 Serving Institutions, and emerging research institu-  
3 tions.

4 “(c) BUILDING RESEARCH CAPACITY.—The Sec-  
5 retary shall develop programs that strengthen the research  
6 capacity relevant to Office of Science disciplines at emerg-  
7 ing research institutions, including minority-serving insti-  
8 tutions, tribal colleges and universities, Historically Black  
9 Colleges and Universities, and colleges and universities.  
10 This may include enabling mutually beneficial and jointly  
11 managed partnerships between research-intensive institu-  
12 tions and emerging research institutions, and soliciting re-  
13 search proposals, fellowships, training programs, and re-  
14 search support directly from emerging research institu-  
15 tions.

16 “(d) TRAINEESHIPS.—The Secretary shall establish  
17 a university-led Traineeship Program to address workforce  
18 training needs in STEM fields relevant to the Depart-  
19 ment. The focus should be on supporting training and re-  
20 search experiences for underrepresented undergraduate  
21 and graduate students and increasing participation from  
22 underrepresented populations. The traineeships should in-  
23 clude opportunities to build the next-generation workforce  
24 in research areas critical to maintaining core competencies  
25 across the Office of Science’s programs.

1       “(e) EVALUATION.—The Secretary shall establish key  
2 performance indicators to measure and monitor progress  
3 of education and workforce programs and expand Depart-  
4 mental activities for data collection and analysis. The Sec-  
5 retary shall submit a report 2 years after the date of en-  
6 actment of the America COMPETES Act of 2022, and  
7 every 2 years thereafter, to the Committee on Science,  
8 Space, and Technology of the House of Representatives  
9 and the Committee on Energy and Natural Resources of  
10 the Senate summarizing progress toward meeting key per-  
11 formance indicators.

12       “(f) DEFINITIONS.—In this section:

13           “(1) MINORITY-SERVING INSTITUTION.—The  
14 term ‘minority-serving institution’ includes the enti-  
15 ties described in any of paragraphs (1) through (7)  
16 of section 371(a) of the Higher Education Act of  
17 1965 (20 U.S.C. 1067q(a)).

18           “(2) HISTORICALLY BLACK COLLEGE AND UNI-  
19 VERSITIES.—The term ‘Historically Black Colleges  
20 and Universities’ has the meaning given in ‘part B  
21 institution’ in section 322 of the Higher Education  
22 Act of 1965 (20 U.S.C. 1061).

23           “(3) STEM.—The term ‘STEM’ means the  
24 field or disciplines listed in section 2 of the STEM  
25 Education Act of 2015 (42 U.S.C. 6621 note).

1           “(4) TRIBAL COLLEGES AND UNIVERSITIES.—  
2           The term ‘Tribal College or University’ has the  
3           meaning given in section 316 of the Higher Edu-  
4           cation Act of 1965 (20 U.S.C. 1059c).”.

5           (2) CLERICAL AMENDMENT.—The table of con-  
6           tents in section 2(b) of the National Defense Au-  
7           thorization Act for Fiscal Year 1991 is amended by  
8           inserting after the item relating to section 3167 the  
9           following:

“Sec. 3167A. Broadening participation for teachers and scientists.

“Sec. 3167B. Expanding opportunities to increase the diversity, equity, and in-  
          clusion of highly skilled science, technology, engineering, and  
          mathematics (STEM) professionals.”.

10 **SEC. 10112. HIGH INTENSITY LASER RESEARCH INITIATIVE;**  
11                           **OFFICE OF SCIENCE EMERGING INFECTIOUS**  
12                           **DISEASE COMPUTING RESEARCH INITIATIVE;**  
13                           **HELIUM CONSERVATION PROGRAM; AUTHOR-**  
14                           **IZATION OF APPROPRIATIONS.**

15           (a) IN GENERAL.—The Department of Energy Re-  
16           search and Innovation Act (42 U.S.C. 18601 et seq.) is  
17           amended by adding at the end the following:

18 **“SEC. 313. HIGH INTENSITY LASER RESEARCH INITIATIVE.**

19           “(a) IN GENERAL.—The Director shall establish a  
20           high intensity laser research initiative consistent with the  
21           recommendations of the National Academies report, ‘Op-  
22           portunities in Intense Ultrafast Lasers: Reaching for the  
23           Brightest Light’, and the report from the Brightest Light

1 Initiative workshop on ‘The Future of Intense Ultrafast  
2 Lasers in the U.S.’. This initiative should include research  
3 and development of petawatt-scale and of high average  
4 power laser technologies necessary for future facility needs  
5 in discovery science and to advance energy technologies,  
6 as well as support for a user network of academic and  
7 national laboratory high intensity laser facilities.

8 “(b) LEVERAGE.—The Director shall leverage new  
9 laser technologies for more compact, less complex, and  
10 low-cost accelerator systems needed for science applica-  
11 tions.

12 “(c) COORDINATION.—The Director shall coordinate  
13 this initiative among all relevant programs within the Of-  
14 fice of Science, and the Under Secretary for Science shall  
15 coordinate this initiative with other relevant programs  
16 within the Department as well as within other Federal  
17 agencies.

18 “(d) AUTHORIZATION OF APPROPRIATIONS.—Out of  
19 funds authorized to be appropriated for the Office of  
20 Science there are authorized to be appropriated to the Sec-  
21 retary to carry out the activities described in this sec-  
22 tion—

23 “(1) \$50,000,000 for fiscal year 2022;

24 “(2) \$100,000,000 for fiscal year 2023;

25 “(3) \$150,000,000 for fiscal year 2024;

1           “(4) \$200,000,000 for fiscal year 2025; and

2           “(5) \$250,000,000 for fiscal year 2026.

3 **“SEC. 314. HELIUM CONSERVATION PROGRAM.**

4           “(a) IN GENERAL.—The Secretary shall establish a  
5 program to reduce the consumption of helium for Depart-  
6 ment grant recipients and facilities and encourage helium  
7 recycling and reuse. The program shall competitively  
8 award grants for—

9           “(1) the purchase of equipment to capture,  
10       reuse, and recycle helium;

11           “(2) the installation, maintenance, and repair  
12       of new and existing helium capture, reuse, and recy-  
13       cling equipment; and

14           “(3) helium alternatives research and develop-  
15       ment activities.

16           “(b) REPORT.—In carrying out the program under  
17 this section, the Director shall submit to the Committee  
18 on Science, Space, and Technology of House of Represent-  
19 atives and the Committee on Energy and Natural Re-  
20 sources of the Senate a report, not later than two years  
21 after the date of enactment of the America COMPETES  
22 Act of 2022, and every 3 years thereafter, on the purchase  
23 of helium as part of research projects and facilities sup-  
24 ported by the Department. The report shall include—

1           “(1) the quantity of helium purchased for  
2 projects and facilities supported by Department  
3 grants;

4           “(2) a cost-analysis for such helium;

5           “(3) the predominant production sources for  
6 such helium;

7           “(4) expected or experienced impacts of helium  
8 supply shortages or prices on the research projects  
9 and facilities supported by the Department; and

10           “(5) recommendations for reducing Department  
11 grant recipients’ exposure to volatile helium prices.

12           “(c) COORDINATION.—In carrying out the program  
13 under this section, the Director shall coordinate with the  
14 National Science Foundation and other relevant Federal  
15 agencies on helium conservation activities.

16           “(d) DURATION.—The program established under  
17 this section shall receive support for a period of not more  
18 than 5 years, subject to the availability of appropriations.

19           “(e) RENEWAL.—Upon expiration of any period of  
20 support of the program under this section, the Director  
21 may renew support for the program for a period of not  
22 more than 5 years.

1 **“SEC. 315. OFFICE OF SCIENCE EMERGING INFECTIOUS**  
2 **DISEASE COMPUTING RESEARCH INITIATIVE.**

3 “(a) IN GENERAL.—The Secretary, in coordination  
4 with the Director of the National Science Foundation, the  
5 Secretary of Health and Human Services, and the Admin-  
6 istrator of the National Aeronautics and Space Adminis-  
7 tration, shall establish within the Office of Science, a  
8 cross-cutting research initiative to leverage the Federal  
9 Government’s innovative analytical resources and tools,  
10 user facilities, and advanced computational and net-  
11 working capabilities in order to prevent, prepare for, and  
12 respond to emerging infectious diseases, including  
13 COVID–19. The Secretary shall carry out this initiative  
14 through a competitive, merit-reviewed process, and con-  
15 sider applications from National Laboratories, institutions  
16 of higher education, multi-institutional collaborations, in-  
17 dustry partners and other appropriate entities.

18 “(b) ACTIVITIES.—In carrying out the initiative es-  
19 tablished under subsection (a), the Secretary shall coordi-  
20 nate with programs across the Office of Science and with  
21 relevant Federal agencies to determine a comprehensive  
22 set of technical milestones for these research activities and  
23 prioritize the following objectives—

24 “(1) supporting fundamental research and de-  
25 velopment in advanced analytics, experimental stud-  
26 ies, materials synthesis, high-performance computing

1 technologies needed to characterize, model, simulate,  
2 and predict complex phenomena and biological mate-  
3 rials related to emerging infectious diseases, includ-  
4 ing COVID–19 challenges, including a focus on test-  
5 ing and diagnostics, experimental data acquisition,  
6 sharing and management, advanced manufacturing,  
7 and molecular design and modeling;

8 “(2) using expertise from the private sector, in-  
9 stitutions of higher education, and the National  
10 Laboratories to develop computational software and  
11 capabilities that prospective users may accelerate  
12 emerging infectious diseases research and develop-  
13 ment;

14 “(3) leveraging the research infrastructure of  
15 the Department, including scientific computing user  
16 facilities, x-ray light sources, neutron scattering fa-  
17 cilities, nanoscale science research centers, and se-  
18 quencing and bio-characterization facilities by co-  
19 ordinating with the Advanced Scientific Computing  
20 Research, Basic Energy Sciences, and Biological and  
21 Environmental Research programs within the Office  
22 of Science;

23 “(4) leveraging experience from existing mod-  
24 eling and simulation research and work sponsored by  
25 the Department and promoting collaboration and

1 data sharing between National Laboratories, re-  
2 search entities, and user facilities of the Department  
3 by providing the necessary access and secure data  
4 transfer capabilities; and

5 “(5) ensuring that new experimental and com-  
6 putational tools are accessible to relevant research  
7 communities, including private sector entities to ad-  
8 dress emerging infectious diseases, including  
9 COVID–19 challenges.

10 “(c) COORDINATION.—In carrying out this initiative,  
11 the Secretary shall ensure, to the maximum extent prac-  
12 ticable, coordination of these activities with the Depart-  
13 ment of Energy National Laboratories, institutions of  
14 higher education, and the private sector.

15 “(d) EMERGING INFECTIOUS DISEASES HIGH PER-  
16 FORMANCE COMPUTING RESEARCH CONSORTIUM.—

17 “(1) IN GENERAL.—The Secretary in coordina-  
18 tion with the Director of the National Science Foun-  
19 dation, the Secretary of Health and Human Serv-  
20 ices, and the Director of the Office of Science and  
21 Technology Policy shall establish and operate an  
22 Emerging Infectious Diseases High Performance  
23 Computing Research Consortium (referred to in this  
24 section as the ‘Consortium’), to support the initiative  
25 under subsection (a) by providing, to the extent

1       practicable, a centralized entity for multidisciplinary,  
2       collaborative, emerging infectious disease research  
3       and development through high performance com-  
4       puting and advanced data analytics technologies and  
5       processes.

6               “(2) MEMBERSHIP.—The members of such con-  
7       sortium may include representatives from relevant  
8       Federal agencies, the private sector, institutions of  
9       higher education, which can each contribute relevant  
10      compute time, capabilities, or other resources.

11              “(3) ACTIVITIES.—The Consortium shall—

12                      “(A) match applicants with available Fed-  
13                      eral and private sector computing resources;

14                      “(B) consider supplemental awards for  
15                      computing partnerships with Consortium mem-  
16                      bers to qualifying entities on a competitive  
17                      merit-review basis;

18                      “(C) encourage collaboration and commu-  
19                      nication among member representatives of the  
20                      consortium and awardees;

21                      “(D) make available the high-performance  
22                      computing capabilities, expertise, and user fa-  
23                      cilities of the Department and the National  
24                      Laboratories; and

1           “(E) submit an annual report to the Sec-  
2           retary summarizing the activities of the Consor-  
3           tium, including—

4                   “(i) describing each project under-  
5                   taken by the Consortium;

6                   “(ii) detailing organizational expendi-  
7                   tures; and

8                   “(iii) evaluating contribution to the  
9                   achievement of technical milestones as de-  
10                  termined in subsection (a).

11           “(4) COORDINATION.—The Secretary shall en-  
12           sure the coordination of, and avoid unnecessary du-  
13           plication of, the activities of the Consortium with the  
14           activities of other research entities of the Depart-  
15           ment, institutions of higher education and the pri-  
16           vate sector.

17           “(e) REPORT.—Not later than 2 years after the date  
18           of enactment of the America COMPETES Act of 2022,  
19           the Secretary shall submit to the Committee on Science,  
20           Space, and Technology of the House of Representatives,  
21           the Committee on Energy and Commerce of the House  
22           of Representatives, the Committee on Energy and Natural  
23           Resources of the Senate, and the Committee on Com-  
24           merce, Science, and Transportation of the Senate a report  
25           detailing the effectiveness of—

1           “(1) the interagency coordination between each  
2 Federal agency involved in the research initiative  
3 carried out under this section;

4           “(2) the collaborative research achievements of  
5 the initiative, including the achievement of the tech-  
6 nical milestones determined under subsection (a);  
7 and

8           “(3) potential opportunities to expand the tech-  
9 nical capabilities of the Department.

10          “(f) FUNDING.—From within funds authorized to be  
11 appropriated for the Department’s Office of Science, there  
12 are authorized to be appropriated to the Secretary to carry  
13 out the activities under this subsection, \$50,000,000 for  
14 fiscal years 2022 and 2023.

15          “(g) PROHIBITION.—

16           “(1) IN GENERAL.—In carrying out this Act,  
17 the Secretary may not carry out gain-of-function re-  
18 search of concern.

19           “(2) GAIN-OF-FUNCTION RESEARCH DE-  
20 FINED.—For the purposes of this subsection, ‘gain-  
21 of-function research of concern’ means research ac-  
22 tivities with the potential to generate pathogens with  
23 high transmissibility and high virulence in humans.

1 **“SEC. 316. AUTHORIZATION OF APPROPRIATIONS.**

2 “There are authorized to be appropriated to the Sec-  
3 retary to carry out the activities described in this title—

4 “(1) \$8,801,915,000 for fiscal year 2022;

5 “(2) \$9,546,015,300 for fiscal year 2023;

6 “(3) \$10,395,677,621 for fiscal year 2024;

7 “(4) \$10,948,625,004 for fiscal year 2025; and

8 “(5) \$11,300,798,345 for fiscal year 2026.”.

9 (b) TABLE OF CONTENTS.—Section 1(b) of the De-  
10 partment of Energy Research and Innovation Act is  
11 amended in the table of contents by inserting after the  
12 item relating to section 309 the following:

“Sec. 310. Accelerator research and development.

“Sec. 311. Isotope Development and Production for Research Applications.

“Sec. 312. Increased collaboration with teachers and scientists.

“Sec. 313. High intensity laser research initiative.

“Sec. 314. Helium conservation program.

“Sec. 315. Office of Science Emerging Infectious Disease Computing Research  
Initiative.

“Sec. 316. Authorization of appropriations.”.

13 **SEC. 10113. STATE-OWNED ENTERPRISES PROHIBITION.**

14 (a) INNOVATE IN AMERICA.—In carrying out this  
15 title or the amendments made by this title, the Secretary  
16 may not award a contract, subcontract, grant, or loan to  
17 an entity that—

18 (1) is owned or controlled by, is a subsidiary of,  
19 or is otherwise related legally or financially to a cor-  
20 poration based in a country that—

21 (A) is identified as a nonmarket economy  
22 country (as defined in section 771(18) of the

1           Tariff Act of 1930 (19 U.S.C. 1677(18))) as of  
2           the date of enactment of this Act;

3           (B) was identified by the United States  
4           Trade Representative in the most recent report  
5           required by section 182 of the Trade Act of  
6           1974 (19 U.S.C. 2242) as a priority foreign  
7           country under subsection (a)(2) of that section;  
8           and

9           (C) is subject to monitoring by the Trade  
10          Representative under section 306 of the Trade  
11          Act of 1974 (19 U.S.C. 2416); or

12          (2) is listed pursuant to section 9(b)(3) of the  
13          Uyghur Human Rights Policy Act of 2020 (Public  
14          Law 116–145).

15          (b) EXCEPTION.—For purposes of subsection (a), the  
16          Secretary may issue a waiver, to be made publicly avail-  
17          able, to an entity in which the legal or financial connection  
18          to a corporation is a minority relationship or investment.

19          (c) INTERNATIONAL AGREEMENTS.—This section  
20          shall be applied in a manner consistent with the obliga-  
21          tions of the United States under international agreements.

22          **SEC. 10114. DETERMINATION OF BUDGETARY EFFECTS.**

23          The budgetary effects of this title, for the purpose  
24          of complying with the Statutory Pay-As-You-Go Act of  
25          2010, shall be determined by reference to the latest state-

1 ment titled “Budgetary Effects of PAYGO Legislation”  
2 for this title, submitted for printing in the Congressional  
3 Record by the Chairman of the House Budget Committee,  
4 provided that such statement has been submitted prior to  
5 the vote on passage.

6 **SEC. 10115. NATIONAL VIRTUAL BIOTECHNOLOGY LABORA-**  
7 **TORY.**

8 The Office of Science may allocate any funds author-  
9 ized under this title to the National Virtual Biotechnology  
10 Laboratory so long as such allocation is in conformity with  
11 the purpose and any other requirements of such authoriza-  
12 tion.

13 **SEC. 10116. ADDITIONAL RESEARCH.**

14 (a) IN GENERAL.—The Secretary of Energy shall  
15 support research to advance adoption of integrated rooftop  
16 solar, distributed solar, and microgrid technologies.

17 (b) FUNDING.—There is authorized to be appro-  
18 priated to carry out this section \$50,000,000.

19 **TITLE II—NATIONAL INSTITUTE**  
20 **OF STANDARDS AND TECH-**  
21 **NOLOGY FOR THE FUTURE**  
22 **ACT OF 2021**

23 **SEC. 10201. DEFINITIONS.**

24 In this title:

1           (1) DIRECTOR.—The term “Director” means  
2 the Director of the National Institute of Standards  
3 and Technology.

4           (2) FRAMEWORK.—The term “Framework”  
5 means the Framework for Improving Critical Infra-  
6 structure Cybersecurity developed by the National  
7 Institute of Standards and Technology and referred  
8 to in Executive Order No. 13800 issued on May 11,  
9 2017 (82 Fed. Reg. 22391 et seq.).

10          (3) HISTORICALLY BLACK COLLEGES AND UNI-  
11 VERSITIES.—The term “historically Black colleges  
12 and universities” has the same meaning given to the  
13 term “part B institutions” in section 322 of the  
14 Higher Education Act of 1965 (20 U.S.C. 1061).

15          (4) INSTITUTE.—The term “Institute” means  
16 the National Institute of Standards and Technology.

17          (5) INSTITUTION OF HIGHER EDUCATION.—The  
18 term “institution of higher education” has the  
19 meaning given such term in section 101 of the High-  
20 er Education Act of 1965 (20 U.S.C. 1001).

21          (6) INTERNATIONAL STANDARDS ORGANIZA-  
22 TION.—The term “International Standards Organi-  
23 zation” has the meaning given such term in section  
24 451 of the Trade Agreements Act of 1979 (19  
25 U.S.C. 2571).

1           (7) **MINORITY SERVING INSTITUTION.**—The  
2 term “minority-serving institution’” means a His-  
3 panic-serving institution, an Alaska Native-serving  
4 institution, a Native Hawaiian-serving institutions, a  
5 Predominantly Black Institution, an Asian American  
6 and Native American Pacific Islander-serving insti-  
7 tution, or a Native American-serving nontribal insti-  
8 tution as described in section 371 of the Higher  
9 Education Act of 1965 (20 U.S.C. 1067q(a)).

10           (8) **SECRETARY.**—The term “Secretary” means  
11 the Secretary of Commerce.

12           (9) **TECHNICAL STANDARDS.**—The term “tech-  
13 nical standard” has the meaning given such term in  
14 section 12(d)(5) of the National Technology Trans-  
15 fer and Advancement Act of 1995.

## 16           **Subtitle A—Appropriations**

### 17 **SEC. 10211. AUTHORIZATION OF APPROPRIATIONS.**

18           (a) **FISCAL YEAR 2022.**—

19           (1) **IN GENERAL.**—There are authorized to be  
20 appropriated to the Secretary of Commerce  
21 \$1,409,070,000 for the National Institute of Stand-  
22 ards and Technology for fiscal year 2022.

23           (2) **SPECIFIC ALLOCATIONS.**—Of the amount  
24 authorized by paragraph (1)—

1           (A) \$915,570,000 is authorized to be ap-  
2           propriated for scientific and technical research  
3           and services laboratory activities, of which  
4           \$9,000,000 is authorized to be appropriated for  
5           the Working Capital Fund;

6           (B) \$22,000,000 is authorized to be appro-  
7           priated to the Director for the purpose of inves-  
8           tigating the building collapse that occurred in  
9           Surfside, Florida on June 24, 2021, to under-  
10          stand the source of failure, to provide rec-  
11          ommendations for how to rectify any short-  
12          comings in existing building standards in order  
13          to prevent future similar disasters, and to in-  
14          form future building codes for similar struc-  
15          tures, in coordination with State and local of-  
16          fices and other Federal agencies as appropriate,  
17          consistent with the Institute's responsibilities  
18          under the National Construction Safety Team  
19          Act of 2002 (Public Law 107-231);

20          (C) \$140,000,000 is authorized to be ap-  
21          propriated for the construction and mainte-  
22          nance of facilities, of which \$80,000,000 is au-  
23          thorized to be appropriated for Safety, Capac-  
24          ity, Maintenance, and Major Repairs; and

1 (D) \$331,500,000 is authorized to be ap-  
2 propriated for industrial technology services ac-  
3 tivities, of which \$275,000,000 is authorized to  
4 be appropriated for the Manufacturing Exten-  
5 sion Partnership program under sections 25  
6 and 26 of the National Institute of Standards  
7 and Technology Act (15 U.S.C. 278k and 278l)  
8 and \$56,500,000 is authorized to be appro-  
9 priated for the Network for Manufacturing In-  
10 novation Program under section 34 of the Na-  
11 tional Institute of Standards and Technology  
12 Act (15 U.S.C. 278s).

13 (b) FISCAL YEAR 2023.—

14 (1) IN GENERAL.—There are authorized to be  
15 appropriated to the Secretary of Commerce  
16 \$1,518,800,000 for the National Institute of Stand-  
17 ards and Technology for fiscal year 2023.

18 (2) SPECIFIC ALLOCATIONS.—Of the amount  
19 authorized by paragraph (1)—

20 (A) \$979,100,000 is authorized to be ap-  
21 propriated for scientific and technical research  
22 and services laboratory activities, of which  
23 \$10,000,000 is authorized to be appropriated  
24 for the Working Capital Fund;

1 (B) \$200,000,000 is authorized to be ap-  
2 propriated for the construction and mainte-  
3 nance of facilities, of which \$80,000,000 is au-  
4 thorized to be appropriated for Safety, Capac-  
5 ity, Maintenance, and Major Repairs, including  
6 \$20,000,000 for IT infrastructure; and

7 (C) \$339,800,000 is authorized to be ap-  
8 propriated for industrial technology services ac-  
9 tivities, of which \$283,300,000 is authorized to  
10 be appropriated for the Manufacturing Exten-  
11 sion Partnership program under sections 25  
12 and 26 of the National Institute of Standards  
13 and Technology Act (15 U.S.C. 278k and 278l)  
14 and \$56,500,000 is authorized to be appro-  
15 priated for the Network for Manufacturing In-  
16 novation Program under section 34 of the Na-  
17 tional Institute of Standards and Technology  
18 Act (15 U.S.C. 278s).

19 (c) FISCAL YEAR 2024.—

20 (1) IN GENERAL.—There are authorized to be  
21 appropriated to the Secretary of Commerce  
22 \$1,595,800,000 for the National Institute of Stand-  
23 ards and Technology for fiscal year 2024.

24 (2) SPECIFIC ALLOCATIONS.—Of the amount  
25 authorized by paragraph (1)—

1           (A) \$1,047,600,000 is authorized to be ap-  
2           propriated for scientific and technical research  
3           and services laboratory activities, of which  
4           \$12,000,000 is authorized to be appropriated  
5           for the Working Capital Fund;

6           (B) \$200,000,000 is authorized to be ap-  
7           propriated for the construction and mainte-  
8           nance of facilities, of which \$80,000,000 is au-  
9           thorized to be appropriated for Safety, Capac-  
10          ity, Maintenance, and Major Repairs, including  
11          \$20,000,000 for IT infrastructure; and

12          (C) \$348,200,000 is authorized to be ap-  
13          propriated for industrial technology services ac-  
14          tivities, of which \$291,700,000 is authorized to  
15          be appropriated for the Manufacturing Exten-  
16          sion Partnership program under sections 25  
17          and 26 of the National Institute of Standards  
18          and Technology Act (15 U.S.C. 278k and 278l)  
19          and \$56,500,000 is authorized to be appro-  
20          priated for the Network for Manufacturing In-  
21          novation Program under section 34 of the Na-  
22          tional Institute of Standards and Technology  
23          Act (15 U.S.C. 278s).

24          (d) FISCAL YEAR 2025.—

1           (1) IN GENERAL.—There are authorized to be  
2 appropriated to the Secretary of Commerce  
3 \$1,677,900,000 for the National Institute of Stand-  
4 ards and Technology for fiscal year 2025.

5           (2) SPECIFIC ALLOCATIONS.—Of the amount  
6 authorized by paragraph (1)—

7           (A) \$1,120,900,000 is authorized to be ap-  
8 propriated for scientific and technical research  
9 and services laboratory activities, of which  
10 \$15,000,000 is authorized to be appropriated  
11 for the Working Capital Fund;

12           (B) \$200,000,000 is authorized to be ap-  
13 propriated for the construction and mainte-  
14 nance of facilities, of which \$80,000,000 is au-  
15 thorized to be appropriated for Safety, Capac-  
16 ity, Maintenance, and Major Repairs, including  
17 \$20,000,000 for IT infrastructure; and

18           (C) \$357,000,000 is authorized to be ap-  
19 propriated for industrial technology services ac-  
20 tivities, of which \$300,500,000 is authorized to  
21 be appropriated for the Manufacturing Exten-  
22 sion Partnership program under sections 25  
23 and 26 of the National Institute of Standards  
24 and Technology Act (15 U.S.C. 278k and 278l)  
25 and \$56,500,000 is authorized to be appro-

1           appropriated for the Network for Manufacturing In-  
2           novation Program under section 34 of the Na-  
3           tional Institute of Standards and Technology  
4           Act (15 U.S.C. 278s).

5           (e) FISCAL YEAR 2026.—

6           (1) IN GENERAL.—There are authorized to be  
7           appropriated to the Secretary of Commerce  
8           \$1,765,400,000 for the National Institute of Stand-  
9           ards and Technology for fiscal year 2026.

10          (2) SPECIFIC ALLOCATIONS.—Of the amount  
11          authorized by paragraph (1)—

12                 (A) \$1,199,400,000 is authorized to be ap-  
13                 propriated for scientific and technical research  
14                 and services laboratory activities, of which  
15                 \$18,000,000 is authorized to be appropriated  
16                 for the Working Capital Fund;

17                 (B) \$200,000,000 is authorized to be ap-  
18                 propriated for the construction and mainte-  
19                 nance of facilities, of which \$80,000,000 is au-  
20                 thorized to be appropriated for Safety, Capac-  
21                 ity, Maintenance, and Major Repairs, including  
22                 \$20,000,000 for IT infrastructure; and

23                 (C) \$366,000,000 is authorized to be ap-  
24                 propriated for industrial technology services ac-  
25                 tivities, of which \$309,500,000 is authorized to

1 be appropriated for the Manufacturing Exten-  
2 sion Partnership program under sections 25  
3 and 26 of the National Institute of Standards  
4 and Technology Act (15 U.S.C. 278k and 23  
5 278l) and \$56,500,000 is authorized to be ap-  
6 propriated for the Network for Manufacturing  
7 Innovation Program under section 34 of the  
8 National Institute of Standards and Technology  
9 Act (15 U.S.C. 278s).

## 10 **Subtitle B—Measurement Research**

### 11 **SEC. 10221. ENGINEERING BIOLOGY AND BIOMETROLOGY.**

12 (a) IN GENERAL.—The Director shall—

13 (1) support basic measurement science, tech-  
14 nology research for engineering biology, biomanufac-  
15 turing, and biometrology to advance—

16 (A) measurement technologies to support  
17 foundational understanding of the mechanisms  
18 of conversion of DNA information into cellular  
19 function, including both the natural and engi-  
20 neered production of biomolecules;

21 (B) technologies for measurement of such  
22 biomolecular components and for complex engi-  
23 neered biological systems;

1           (C) new data tools, techniques, and proc-  
2           esses to improve engineering biology, biomanu-  
3           facturing, and biometrology research; and

4           (D) all other areas deemed by the Director  
5           to be critical to the development and deploy-  
6           ment of engineering biology, biomanufacturing  
7           and biometrology;

8           (2) support activities to inform and expand the  
9           development of measurements infrastructure needed  
10          to develop technical standards to establish interoper-  
11          ability and facilitate commercial development of bio-  
12          molecular measurement technology and engineering  
13          biology applications;

14          (3) convene industry, institutions of higher edu-  
15          cation, nonprofit organizations, Federal laboratories,  
16          and other Federal agencies engaged in engineering  
17          biology research and development to develop coordi-  
18          nated technical roadmaps for authoritative measure-  
19          ment of the molecular components of the cell;

20          (4) provide access to user facilities with ad-  
21          vanced or unique equipment, services, materials, and  
22          other resources to industry, institutions of higher  
23          education, nonprofit organizations, and government  
24          agencies to perform research and testing;

1           (5) establish or expand collaborative partner-  
2           ships or consortia with other Federal agencies en-  
3           gaged in engineering biology research and develop-  
4           ment, institutions of higher education, Federal lab-  
5           oratories, and industry to advance engineering biol-  
6           ogy applications; and

7           (6) support graduate and post graduate re-  
8           search and training in biometrology, biomanufac-  
9           turing, and engineering biology.

10          (b) DEFINITIONS.—For purposes of this section, the  
11          term “Engineering Biology” means the application of en-  
12          gineering design principles and practices to biological sys-  
13          tems, including molecular and cellular systems, to advance  
14          fundamental understanding of complex natural systems  
15          and to enable novel or optimized functions and capabili-  
16          ties.

17          (c) RULE OF CONSTRUCTION.—Nothing in this sec-  
18          tion shall be construed to alter the policies, processes, or  
19          practices of individual Federal agencies in effect on the  
20          day before the date of the enactment of this Act relating  
21          to the conduct of biomedical research and advanced devel-  
22          opment, including the solicitation and review of extra-  
23          mural research proposals.

24          (d) CONTROLS.—In carrying out activities authorized  
25          by this section, the Secretary shall ensure proper security

1 controls are in place to protect sensitive information, as  
2 appropriate.

3 **SEC. 10222. GREENHOUSE GAS MEASUREMENT RESEARCH.**

4 (a) GREENHOUSE GAS MEASUREMENT PROGRAM.—

5 (1) IN GENERAL.—The Director, in consulta-  
6 tion with the Administrator of the National Oceanic  
7 and Atmospheric Administration, the Administrator  
8 of the Environmental Protection Agency, the Na-  
9 tional Aeronautics and Space Administration, the  
10 National Science Foundation, and other Federal  
11 agencies, as appropriate, shall carry out a measure-  
12 ment research program to inform the development of  
13 best practices, benchmarks, methodologies, proce-  
14 dures, and technical standards for the measurement  
15 of greenhouse gas emissions and to assess and im-  
16 prove the performance of greenhouse gas emissions  
17 measurement systems placed in-situ and on space-  
18 based platforms.

19 (2) ACTIVITIES.—In carrying out such a pro-  
20 gram, the Director may—

21 (A) conduct research and testing to im-  
22 prove the accuracy, efficacy, and reliability of  
23 the measurement of greenhouse gas emissions  
24 at a range of scales that covers direct measure-

1           ment at the component or process level through  
2           atmospheric observations;

3           (B) conduct research to create novel meas-  
4           urement technologies and techniques for the  
5           measurement of greenhouse gas emissions;

6           (C) convene and engage with relevant Fed-  
7           eral agencies and stakeholders to establish com-  
8           mon definitions and characterizations for the  
9           measurement of greenhouse gas emissions, tak-  
10          ing into account any existing United States and  
11          international technical standards and guidance;

12          (D) conduct outreach and coordination to  
13          share technical expertise with relevant industry  
14          and non-industry stakeholders and standards  
15          development organizations to assist such enti-  
16          ties in the development of best practices and  
17          technical standards for greenhouse gas emis-  
18          sions measurements;

19          (E) in coordination with the Administrator  
20          of the National Oceanic and Atmospheric Ad-  
21          ministration and the Administrator of the Envi-  
22          ronmental Protection Agency, develop such  
23          standard reference materials as the Director de-  
24          termines is necessary to further the develop-  
25          ment of such technical standards, taking into

1 account any existing United States or inter-  
2 national standards;

3 (F) coordinate with the National Oceanic  
4 and Atmospheric Administration to ensure data  
5 are managed, stewarded, and archived at all  
6 levels and promote full and open exchange at  
7 Federal and State levels, and with academia,  
8 industry, and other users; and

9 (G) coordinate with international partners,  
10 including international standards organizations,  
11 to maintain global greenhouse gas measurement  
12 technical standards.

13 (3) TEST BEDS.—In coordination with the pri-  
14 vate sector, institutions of higher education, State  
15 and local governments, the National Oceanic and At-  
16 mospheric Administration, the Environmental Pro-  
17 tection Agency, and other Federal agencies, as ap-  
18 propriate, the Director may continue to develop and  
19 manage testbeds to advance research and standards  
20 development for greenhouse gas emissions measure-  
21 ments from in-situ and space-based platforms.

22 (4) GREENHOUSE GAS MEASUREMENT CENTER  
23 OF EXCELLENCE.—

24 (A) IN GENERAL.—The Director, in col-  
25 laboration with the Administrator of the Na-

1           tional Oceanic and Atmospheric Administration,  
2           the Administrator of the Environmental Protec-  
3           tion Agency, and the heads of other Federal  
4           agencies, as appropriate, shall award to an in-  
5           stitution of higher education or an eligible non-  
6           profit organization (or a consortium thereof),  
7           on a merit-reviewed, competitive basis, funds to  
8           establish a Center of Excellence in Greenhouse  
9           Gas Measurement.

10           (B) COLLABORATIONS.—The Director  
11           shall require, as a condition of receipt of the  
12           award under this paragraph, that the activities  
13           of the Center of Excellence include collaboration  
14           among public and private organizations, includ-  
15           ing institutions of higher education, nonprofit  
16           organizations, private sector entities, and State,  
17           tribal, territorial, and local officials.

18           (C) PURPOSE.—The purpose of the Center  
19           of Excellence shall be to—

20                   (i) advance measurement science, data  
21                   analytics, and modeling at a range of  
22                   scales that covers direct measurement at  
23                   the component or process level through at-  
24                   mospheric observations to improve the ac-  
25                   curacy of greenhouse gas emissions meas-

1           urement, validation, and attribution to spe-  
2           cific underlying activities and processes;

3           (ii) test and evaluate the performance  
4           of existing capabilities, and inform and im-  
5           prove best practices, benchmarks, meth-  
6           odologies, procedures, and technical stand-  
7           ards, for the measurement and validation  
8           of greenhouse gas emissions at scales  
9           noted in clause (i);

10          (iii) educate and train students in  
11          measurement science, computational  
12          science, and systems engineering research  
13          relevant to greenhouse gas emissions meas-  
14          urements;

15          (iv) foster collaboration among aca-  
16          demic researchers, private sector stake-  
17          holders, and State, Tribal, territorial, and  
18          local officials;

19          (v) support Institute test beds as de-  
20          scribed in subsection (a)(3); and

21          (vi) collaborate with other Federal  
22          agencies to conduct outreach and coordina-  
23          tion to share technical expertise with rel-  
24          evant public and private sector stake-  
25          holders, including academia, State, Tribal,

1 territorial, local officials, and international  
2 partners to assist such entities in meas-  
3 uring greenhouse gas emissions.

4 (D) REQUIREMENTS.—

5 (i) IN GENERAL.—An institution of  
6 higher education or an eligible nonprofit  
7 organization (or a consortium thereof)  
8 seeking funding under this subsection shall  
9 submit an application to the Director at  
10 such time, in such manner, and containing  
11 such information as the Director may re-  
12 quire.

13 (ii) APPLICATIONS.—Each application  
14 made under clause (i) shall include a de-  
15 scription of—

16 (I) how the Center will work with  
17 other research institutions, industry  
18 partners, and State and local officials  
19 to identify research, testing, and tech-  
20 nical standards needs relevant to  
21 greenhouse gas emissions;

22 (II) how the Center will promote  
23 active collaboration among researchers  
24 in multiple disciplines involved in the

1 measurement of greenhouse gas emis-  
2 sions; and

3 (III) how the Center will share  
4 technical expertise with relevant pub-  
5 lic and private sector stakeholders, in-  
6 cluding state and local officials, to as-  
7 sist such entities in measuring green-  
8 house gas emissions.

9 (iii) SELECTION AND DURATION.—

10 Each Center established under this section  
11 is authorized to carry out activities for a  
12 period of 5 years, renewable for an addi-  
13 tional 5 years at the discretion of the Di-  
14 rector, in consultation with other Federal  
15 agencies as appropriate.

16 **SEC. 10223. NIST AUTHORITY FOR CYBERSECURITY AND**  
17 **PRIVACY ACTIVITIES.**

18 Section 2 of the National Institute of Standards and  
19 Technology Act (15 U.S.C. 272 et seq.) is amended—

20 (1) in subsection (c)—

21 (A) in paragraph (16), by striking the pe-  
22 riod at the end and inserting a semicolon;

23 (B) by redesignating paragraphs (16)  
24 through (27) as paragraphs (21) through (32),  
25 respectively; and

1 (C) by inserting after paragraph (15) the  
2 following:

3 “(16) support information security measures  
4 for the development and lifecycle of software and the  
5 software supply chain, including development of vol-  
6 untary, consensus-based technical standards, best  
7 practices, frameworks, methodologies, procedures,  
8 processes, and software engineering toolkits and con-  
9 figurations;

10 “(17) support information security measures,  
11 including voluntary, consensus-based technical  
12 standards, best practices, and guidelines, for the de-  
13 sign, adoption and deployment of cloud computing  
14 services;

15 “(18) support research, development, and prac-  
16 tical application to improve the usability of cyberse-  
17 curity processes and technologies;

18 “(19) facilitate and support the development of  
19 a voluntary, consensus-based set of technical stand-  
20 ards, guidelines, best practices, methodologies, pro-  
21 cedures, and processes to cost-effectively ensure ap-  
22 propriate privacy protections for personally identifi-  
23 able information in systems, technologies, and proc-  
24 esses used by both the public and private sector;

1           “(20) support privacy measures, including vol-  
2           untary, consensus-based technical standards, best  
3           practices, guidelines, metrology, and testbeds for the  
4           design, adoption and deployment of privacy enhanc-  
5           ing technologies;” and

6           (2) in subsection (e)(1)(A)—

7           (A) in clause (viii), by striking “and” at  
8           the end;

9           (B) by redesignating clause (ix) as clause  
10          (xi); and

11          (C) by inserting after clause (viii) the fol-  
12          lowing:

13                   “(ix) conduct reviews of and create  
14                   impact metrics for cybersecurity solutions  
15                   and capabilities developed by the Institute  
16                   for purposes of improvement;”.

17 **SEC. 10224. SOFTWARE SECURITY AND AUTHENTICATION.**

18          (a) **VULNERABILITIES IN OPEN SOURCE SOFT-**  
19 **WARE.**—The Director shall assess and assign severity  
20 metrics to identified vulnerabilities with open source soft-  
21 ware and produce voluntary guidance to assist the entities  
22 that maintain open source software repositories to discover  
23 and mitigate vulnerabilities.

24          (b) **ARTIFICIAL INTELLIGENCE-ENABLED DE-**  
25 **FENSES.**—The Director shall carry out research and test-

1 ing to improve the effectiveness of artificial intelligence-  
2 enabled cybersecurity, including by generating optimized  
3 data sets to train artificial intelligence defense systems  
4 and evaluating the performance of varying network archi-  
5 tectures at strengthening network security.

6 (c) AUTHENTICATION OF INSTITUTE SOFTWARE.—  
7 The Director shall ensure all software released by the In-  
8 stitute is digitally signed and maintained to enable stake-  
9 holders to verify its authenticity and integrity upon instal-  
10 lation and execution.

11 (d) ASSISTANCE TO INSPECTORS GENERAL.—The  
12 Director shall provide technical assistance to improve the  
13 education and training of individual Federal agency In-  
14 spectors General and staff who are responsible for the an-  
15 nual independent evaluation they are required to perform  
16 of the information security program and practices of Fed-  
17 eral Agencies under section 3555 of title 44, United States  
18 Code.

19 (e) SOFTWARE SUPPLY CHAIN SECURITY PRAC-  
20 TICES.—

21 (1) IN GENERAL.—The Director shall, in co-  
22 ordination with industry, academia, and other Fed-  
23 eral agencies, as appropriate, develop a set of secu-  
24 rity outcomes and practices, including security con-  
25 trols, control enhancements, supplemental guidance,

1 or other supporting information to enable software  
2 developers and operators to identify, assess, and  
3 manage cyber risks over the full lifecycle of software  
4 products.

5 (2) OUTREACH.—The Director shall conduct  
6 outreach and coordination activities to share tech-  
7 nical expertise with Federal agencies, relevant indus-  
8 try stakeholders, and standards development organi-  
9 zations, as appropriate, to encourage the voluntary  
10 adoption of the software lifecycle security practices  
11 by Federal agencies and industry stakeholders.

12 **SEC. 10225. DIGITAL IDENTITY MANAGEMENT RESEARCH.**

13 Section 504 of the Cybersecurity Enhancement Act  
14 of 2014 (15 U.S.C. 7464) is amended to read as follows:

15 **“SEC. 504. IDENTITY MANAGEMENT RESEARCH AND DEVEL-**  
16 **OPMENT.**

17 “(a) IN GENERAL.—The Director shall carry out a  
18 program of research to support the development of vol-  
19 untary, consensus-based technical standards, best prac-  
20 tices, benchmarks, methodologies, metrology, testbeds,  
21 and conformance criteria for identity management, taking  
22 into account appropriate user concerns—

23 “(1) to improve interoperability and portability  
24 among identity management technologies;

1           “(2) to strengthen identity proofing and  
2 verification methods used in identity management  
3 systems, including identity and attribute validation  
4 services provided by Federal, State, and local gov-  
5 ernments;

6           “(3) to improve privacy protection in identity  
7 management systems through authentication and se-  
8 curity protocols; and

9           “(4) to monitor and improve the accuracy,  
10 usability, and inclusivity of identity management  
11 systems.

12       “(b) DIGITAL IDENTITY TECHNICAL ROADMAP.—

13 The Director, in consultation with other relevant Federal  
14 agencies and stakeholders from the private sector, shall  
15 develop and maintain a technical roadmap for digital iden-  
16 tity management research and development focused on en-  
17 abling the voluntary use and adoption of modern digital  
18 identity solutions that align with the four criteria in sub-  
19 section (a).

20       “(c) DIGITAL IDENTITY MANAGEMENT GUIDANCE.—

21           “(1) IN GENERAL.—The Director shall develop,  
22 and periodically update, in collaboration with other  
23 public and private sector organizations, common  
24 definitions and voluntary guidance for digital iden-  
25 tity management systems, including identity and at-

1       tribute validation services provided by Federal,  
2       State, and local governments.

3               “(2) GUIDANCE.—The Guidance shall—

4                       “(A) align with the four criteria in sub-  
5                       section (a), as practicable;

6                       “(B) provide case studies of implementa-  
7                       tion of guidance;

8                       “(C) incorporate voluntary technical stand-  
9                       ards and industry best practices; and

10                      “(D) not prescribe or otherwise require the  
11                      use of specific technology products or services.

12               “(3) CONSULTATION.—In carrying out this sub-  
13       section, the Director shall consult with—

14                      “(A) Federal and State agencies;

15                      “(B) industry;

16                      “(C) potential end-users and individuals  
17                      that will use services related to digital identity  
18                      verification; and

19                      “(D) experts with relevant experience in  
20                      the systems that enable digital identity  
21                      verification, as determined by the Director.”.

22       **SEC. 10226. BIOMETRICS RESEARCH AND TESTING.**

23               (a) IN GENERAL.—The Secretary, acting through the  
24       Director, shall establish a program to support measure-  
25       ment research to inform the development of best practices,

1 benchmarks, methodologies, procedures, and voluntary,  
2 consensus-based technical standards for biometric identi-  
3 fication systems, including facial recognition systems, to  
4 assess and improve the performance of such systems. In  
5 carrying out such program, the Director may—

6           (1) conduct research to support efforts to im-  
7 prove the performance of biometric identification  
8 systems, including in areas related to conformity as-  
9 sessment, image quality and interoperability,  
10 contactless biometric capture technologies, and  
11 human-in-the-loop biometric identification systems  
12 and processes;

13           (2) convene and engage with relevant stake-  
14 holders to establish common definitions and charac-  
15 terizations for biometric identification systems, in-  
16 cluding accuracy, fairness, bias, privacy, consent,  
17 and other properties, taking into account definitions  
18 in relevant international technical standards and  
19 other publications;

20           (3) carry out research and testing on a range  
21 of biometric modalities, such as fingerprints, voice,  
22 iris, face, vein, behavioral biometrics, genetics,  
23 multimodal biometrics, and emerging applications of  
24 biometric identification technology;

1           (4) study the use of privacy-enhancing tech-  
2           nologies and other technical protective controls to fa-  
3           cilitate access to public data sets for biometric re-  
4           search;

5           (5) conduct outreach and coordination to share  
6           technical expertise with relevant industry and non-  
7           industry stakeholders and standards development or-  
8           ganizations to assist such entities in the development  
9           of best practices and voluntary technical standards;  
10          and

11          (6) develop such standard reference artifacts as  
12          the Director determines is necessary to further the  
13          development of such voluntary technical standards.

14          (b) BIOMETRICS VENDOR TEST PROGRAM.—

15           (1) IN GENERAL.—The Secretary, acting  
16           through the Director, shall carry out a test program  
17           to provide biometrics vendors the opportunity to test  
18           biometric identification technologies across a range  
19           of modalities.

20           (2) ACTIVITIES.—In carrying out the program  
21           under this subsection, the Director shall—

22                   (A) conduct research and regular testing to  
23                   improve and benchmark the accuracy, efficacy,  
24                   and bias of biometric identification systems, in-  
25                   cluding research and testing on demographic

1 variations, capture devices, presentation attack  
2 detection, partially occluded or computer gen-  
3 erated images, privacy and security designs and  
4 controls, template protection, de-identification,  
5 and comparison of algorithm, human, and com-  
6 bined algorithm-human recognition capability;

7 (B) develop an approach for testing soft-  
8 ware and cloud-based biometrics applications,  
9 including remote systems, in Institute test fa-  
10 cilities;

11 (C) establish reference use cases for bio-  
12 metric applications and performance criteria for  
13 assessing each use case, including accuracy and  
14 bias metrics;

15 (D) produce public-facing reports of the  
16 findings from such testing for a general audi-  
17 ence; and

18 (E) conduct such other activities as  
19 deemed necessary by the Director.

20 (c) GAO REPORT TO CONGRESS.—Not later than  
21 180 days after the date of enactment of this Act, the  
22 Comptroller General of the United States shall submit a  
23 detailed report to Congress on the impact of biometric  
24 identification systems on historically marginalized commu-  
25 nities, including low-income communities and minority re-

1 ligious, racial, and ethnic groups. Such report should be  
2 made publicly available on an internet website.

3 **SEC. 10227. FEDERAL BIOMETRIC PERFORMANCE STAND-**  
4 **ARDS.**

5 Section 20 of the National Institute of Standards and  
6 Technology Act (15 U.S.C. 278g-3) is amended in sub-  
7 section (b)—

8 (1) in paragraph (2), by striking “and” after  
9 the semicolon;

10 (2) in paragraph (3), by striking the period and  
11 inserting “; and”; and

12 (3) by adding at the end the following:

13 “(4) performance standards and guidelines for  
14 high risk biometric identification systems, including  
15 facial recognition systems, accounting for various  
16 use cases, types of biometric identification systems,  
17 and relevant operational conditions.”.

18 **SEC. 10228. PROTECTING RESEARCH FROM CYBER THEFT.**

19 Section 2(e)(1)(A) of the National Institute of Stand-  
20 ards and Technology Act (15 U.S.C. 272(e)(1)(A)), as  
21 amended by section 10223(2), is further amended by in-  
22 serting after clause (ix), as added by section 10223(2)(C),  
23 the following:

24 “(x) consider institutions of higher  
25 education (as defined in section 101 of the

1 Higher Education Act of 1965 (20 U.S.C.  
2 1001)); and”.

3 **SEC. 10229. DISSEMINATION OF RESOURCES FOR RE-**  
4 **SEARCH INSTITUTIONS.**

5 (a) DISSEMINATION OF RESOURCES FOR RESEARCH  
6 INSTITUTIONS.—

7 (1) IN GENERAL.—Not later than one year  
8 after the date of the enactment of this Act, the Di-  
9 rector shall, using the authorities of the Director  
10 under subsections (c)(15) and (e)(1)(A)(ix) of sec-  
11 tion 2 of the National Institute of Standards and  
12 Technology Act (15 U.S.C. 272), as amended by sec-  
13 tion 10228, disseminate and make publicly available  
14 resources to help qualifying institutions identify, as-  
15 sess, manage, and reduce their cybersecurity risk re-  
16 lated to conducting research.

17 (2) REQUIREMENTS.—The Director shall en-  
18 sure that the resources disseminated pursuant to  
19 paragraph (1)—

20 (A) are generally applicable and usable by  
21 a wide range of qualifying institutions;

22 (B) vary with the nature and size of the  
23 qualifying institutions, and the nature and sen-  
24 sitivity of the data collected or stored on the in-

1 formation systems or devices of the qualifying  
2 institutions;

3 (C) include elements that promote aware-  
4 ness of simple, basic controls, a workplace cy-  
5 bersecurity culture, and third-party stakeholder  
6 relationships, to assist qualifying institutions in  
7 mitigating common cybersecurity risks;

8 (D) include case studies, examples, and  
9 scenarios of practical application;

10 (E) are technology-neutral and can be im-  
11 plemented using technologies that are commer-  
12 cial and off-the-shelf; and

13 (F) to the extent practicable, are based on  
14 international technical standards.

15 (3) NATIONAL CYBERSECURITY AWARENESS  
16 AND EDUCATION PROGRAM.—The Director shall en-  
17 sure that the resources disseminated under para-  
18 graph (1) are consistent with the efforts of the Di-  
19 rector under section 303 of the Cybersecurity En-  
20 hancement Act of 2014 (15 U.S.C. 7451).

21 (4) UPDATES.—The Director shall review peri-  
22 odically and update the resources under paragraph  
23 (1) as the Director determines appropriate.

1           (5) VOLUNTARY RESOURCES.—The use of the  
2           resources disseminated under paragraph (1) shall be  
3           considered voluntary.

4           (b) OTHER FEDERAL CYBERSECURITY REQUIRE-  
5           MENTS.—Nothing in this section may be construed to su-  
6           persede, alter, or otherwise affect any cybersecurity re-  
7           quirements applicable to Federal agencies.

8           (c) DEFINITIONS.—In this section:

9           (1) QUALIFYING INSTITUTIONS.—The term  
10          “qualifying institutions” means institutions of high-  
11          er education that are classified as either very-high  
12          research intensive (R1) or high research intensive  
13          (R2) status universities by the Carnegie Classifica-  
14          tion of Academic Institutions.

15          (2) RESOURCES.—The term “resources” means  
16          guidelines, tools, best practices, technical standards,  
17          methodologies, and other ways of providing informa-  
18          tion.

19 **SEC. 10230. ADVANCED COMMUNICATIONS RESEARCH.**

20          The National Institute of Standards and Technology  
21          Act (15 U.S.C. 271 et seq.) is amended—

22                 (1) by redesignating section 35 as section 36;

23                 and

24                 (2) by inserting after section 34 the following:

1 **“SEC. 35. ADVANCED COMMUNICATIONS RESEARCH ACTIVI-**  
2 **TIES.**

3 “(a) ADVANCED COMMUNICATIONS RESEARCH.—

4 “(1) IN GENERAL.—The Director, in consulta-  
5 tion with the Administrator of the National Tele-  
6 communications and Information Administration,  
7 the Director of the National Science Foundation,  
8 and heads of other Federal agencies, as appropriate,  
9 shall carry out a program of measurement research  
10 for advanced communications technologies.

11 “(2) RESEARCH AREAS.—Research areas may  
12 include—

13 “(A) radio frequency emissions and inter-  
14 ference, including technologies and techniques  
15 to mitigate such emissions;

16 “(B) advanced antenna arrays and artifi-  
17 cial intelligence systems capable of operating  
18 advanced antenna arrays;

19 “(C) artificial intelligence systems to en-  
20 able internet of things networks, immersive  
21 technology, and other advanced communications  
22 technologies;

23 “(D) network sensing and monitoring tech-  
24 nologies;

25 “(E) technologies to enable spectrum flexi-  
26 bility and agility;

1           “(F) optical and quantum communications  
2 technologies;

3           “(G) security of advanced communications  
4 systems;

5           “(H) public safety communications;

6           “(I) resilient internet of things applications  
7 for advanced manufacturing; and

8           “(J) other research areas deemed nec-  
9 essary by the Director.

10          “(3) TEST BEDS.—In coordination with the As-  
11 sistant Secretary for Communications and Informa-  
12 tion, the private sector, and other Federal agencies  
13 as appropriate, the Director may develop and man-  
14 age testbeds for research and development of ad-  
15 vanced communications technologies, avoiding dupli-  
16 cation of existing testbeds run by other agencies or  
17 the private sector.

18          “(4) OUTREACH.—In carrying out the activities  
19 under this subsection, the Director shall seek input  
20 from other Federal agencies and from private sector  
21 stakeholders, on an ongoing basis, to help inform re-  
22 search and development priorities, including through  
23 workshops and other multi-stakeholder activities.

24          “(5) TECHNICAL ROADMAPS.—In carrying out  
25 the activities under this subsection, the Director

1 shall convene industry, institutions of higher edu-  
2 cation, nonprofit organizations, Federal laboratories,  
3 and other Federal agencies engaged in advanced  
4 communications research and development to de-  
5 velop, and periodically update, coordinated technical  
6 roadmaps for advanced communications research in  
7 priority areas, such as those described in paragraph  
8 (2).

9 “(b) NATIONAL ADVANCED SPECTRUM AND COMMU-  
10 NICATIONS TEST NETWORK.—

11 “(1) IN GENERAL.—The Director, in coordina-  
12 tion with the Administrator of the National Tele-  
13 communications and Information Administration  
14 and heads of other Federal agencies, as appropriate,  
15 shall operate a national network of government, aca-  
16 demic, and commercial test capabilities and facilities  
17 to be known as the National Advanced Spectrum  
18 and Communications Test Network (referred to in  
19 this section as ‘NASCTN’).

20 “(2) PURPOSES.—NASCTN shall be for the  
21 purposes of facilitating and coordinating the use of  
22 intellectual capacity, modeling and simulation, lab-  
23 oratory facilities, and test facilities to meet national  
24 spectrum interests and challenges, including—

1           “(A) measurements and analyses of elec-  
2           tromagnetic propagation, radio systems charac-  
3           teristics, and operating techniques affecting the  
4           utilization of the electromagnetic spectrum in  
5           coordination with specialized, related research  
6           and analysis performed by other Federal agen-  
7           cies in their areas of responsibility;

8           “(B) conducting research and analysis in  
9           the general field of telecommunications sciences  
10          in support of the Institute’s mission and in sup-  
11          port of other Government agencies;

12          “(C) developing methodologies for testing,  
13          measuring, and setting guidelines for inter-  
14          ference;

15          “(D) conducting interference tests to bet-  
16          ter understand the impact of Federal and com-  
17          mercial spectrum activities;

18          “(E) conducting research and testing to  
19          improve spectrum interference tolerance, flexi-  
20          bility, agility, and interference mitigation meth-  
21          ods; and

22          “(F) other activities as deemed necessary  
23          by the Director.”.

1 **SEC. 10231. NEUTRON SCATTERING.**

2 (a) STRATEGIC PLAN FOR THE INSTITUTE NEUTRON  
3 REACTOR.—The Director shall develop a strategic plan for  
4 the future of the NIST Center for Neutron Research after  
5 the current neutron reactor is decommissioned, includ-  
6 ing—

7 (1) a succession plan for the reactor, including  
8 a roadmap with timeline and milestones;

9 (2) conceptual design of a new reactor and ac-  
10 companying facilities, as appropriate; and

11 (3) a plan to minimize disruptions to the user  
12 community during the transition.

13 (b) COORDINATION WITH THE DEPARTMENT OF EN-  
14 ERGY.—The Secretary, acting through the Director, shall  
15 coordinate with the Secretary of Energy on issues related  
16 to Federal support for neutron science, including esti-  
17 mation of long-term needs for research using neutron  
18 sources, and planning efforts for future facilities to meet  
19 such needs.

20 (c) REPORT TO CONGRESS.—Not later than 18  
21 months after the enactment of this Act, the Director shall  
22 submit to Congress the plan required under subsection  
23 (a), and shall notify Congress of any substantial updates  
24 to such plan in subsequent years.

1 **SEC. 10232. QUANTUM INFORMATION SCIENCE.**

2 (a) IN GENERAL.—The Director shall continue to  
3 prioritize and carry out activities authorized in the Na-  
4 tional Quantum Initiative Act (15 U.S.C. 8801).

5 (b) QUANTUM RESEARCH.—Section 201(a) of the  
6 National Quantum Initiative Act (15 U.S.C. 8831) is  
7 amended—

8 (1) by redesignating paragraphs (3) through  
9 (4) as paragraphs (6) through (7); and

10 (2) by inserting after paragraph (2) the fol-  
11 lowing:

12 “(3) shall carry out research to facilitate the  
13 development and standardization of quantum cryp-  
14 tography and post-quantum classical cryptography;

15 “(4) shall carry out research to facilitate the  
16 development and standardization of quantum net-  
17 working and communications technologies and appli-  
18 cations, including—

19 “(A) quantum repeater technology;

20 “(B) quantum network traffic manage-  
21 ment;

22 “(C) quantum transduction;

23 “(D) long baseline entanglement and  
24 teleportation; and

1           “(E) such other technologies, processes, or  
2           applications as the Director considers appro-  
3           priate;

4           “(5) for quantum technologies deemed by the  
5           Director to be at a readiness level sufficient for  
6           standardization, shall provide technical review and  
7           assistance to such other Federal agencies as the Di-  
8           rector considers appropriate for the development of  
9           quantum network infrastructure standards;”.

10 **SEC. 10233. ARTIFICIAL INTELLIGENCE.**

11           (a) IN GENERAL.—The Director shall continue to  
12           support the development of artificial intelligence and data  
13           science, and carry out the activities of the National Artifi-  
14           cial Intelligence Initiative Act of 2020 authorized in divi-  
15           sion E of the National Defense Authorization Act for Fis-  
16           cal Year 2021 (Public Law 116–283), including  
17           through—

18           (1) expanding the Institute’s capabilities, in-  
19           cluding scientific staff and research infrastructure;

20           (2) supporting measurement research and de-  
21           velopment for advanced computer chips and hard-  
22           ware designed for artificial intelligence systems;

23           (3) supporting the development of technical  
24           standards and guidelines that promote safe and  
25           trustworthy artificial intelligence systems;

1           (4) creating a framework for managing risks  
2 associated with artificial intelligence systems;

3           (5) developing and publishing cybersecurity  
4 tools, encryption methods, and best practices for ar-  
5 tificial intelligence and data science; and

6           (6) creating an office to study bias in the use  
7 of artificial intelligence systems and publish guid-  
8 ance to reduce disparate impacts on historically  
9 marginalized communities.

10       (b) TESTBEDS.—In coordination with other Federal  
11 agencies as appropriate, the private sector, and institu-  
12 tions of higher education, the Director may establish  
13 testbeds to examine artificial intelligence and machine  
14 learning systems in virtual environments for  
15 vulnerabilities that may lead to failure, malfunction, or at-  
16 tacks under a wide range of conditions.

17 **SEC. 10234. SUSTAINABLE CHEMISTRY RESEARCH AND**  
18 **EDUCATION.**

19       In accordance with section 263 of the National De-  
20 fense Authorization Act for Fiscal Year 2021, the Director  
21 shall carry out activities in support of sustainable chem-  
22 istry, including coordinating and partnering with aca-  
23 demia, industry, non-profits, and other entities in activi-  
24 ties to support clean, safe, and economic alternatives,

1 technologies, and methodologies to traditional chemical  
2 products and processes.

3 **SEC. 10235. PREMISE PLUMBING RESEARCH.**

4 (a) IN GENERAL.—The Secretary, acting through the  
5 Director, shall create a program, in consultation with the  
6 Environmental Protection Agency, for premise plumbing  
7 research, including to—

8 (1) conduct metrology research on premise  
9 plumbing in relation to water safety, security, effi-  
10 ciency, sustainability, and resilience; and

11 (2) coordinate research activities with aca-  
12 demia, the private sector, nonprofits, and other Fed-  
13 eral agencies.

14 (b) DEFINITIONS.—For purposes of this section, the  
15 term “premise plumbing” means the water distribution  
16 system located within the property lines of a property, in-  
17 cluding all buildings and permanent structures on such  
18 property. Such term includes building supply and distribu-  
19 tion pipes, fixtures, fittings, water heaters, water-treating  
20 and water-using equipment, and all respective joints, con-  
21 nections, devices, and appurtenances.

## 1           **Subtitle C—General Activities**

### 2   **SEC. 10241. EDUCATIONAL OUTREACH AND SUPPORT FOR** 3                   **UNDERREPRESENTED COMMUNITIES.**

4           Section 18 of the National Institute of Standards and  
5   Technology Act (15 U.S.C. 278g–1) is amended—

6           (1) in subsection (a), in the second sentence—

7                   (A) by striking “may” and inserting  
8                   “shall”; and

9                   (B) by striking “academia” and inserting  
10                  “diverse types of institutions of higher edu-  
11                  cation, including minority-serving institutions  
12                  and community colleges”; and

13          (2) in subsection (e)—

14                  (A) in paragraph (4), by striking “and” at  
15                  the end;

16                  (B) in paragraph (5), by striking the pe-  
17                  riod at the end and inserting “; and”; and

18                  (C) by inserting after paragraph (5) the  
19                  following:

20                  “(6) conduct outreach to and develop research  
21                  collaborations with historically Black colleges and  
22                  universities and minority-serving institutions, includ-  
23                  ing through the recruitment of students and faculty  
24                  at such institutions to participate in programs devel-  
25                  oped under paragraph (3);

1           “(7) conduct outreach to and develop research  
2           collaborations with community colleges, including  
3           through the recruitment of students and faculty at  
4           such institutions to participate in programs devel-  
5           oped under paragraph (3);

6           “(8) carry out other activities to increase the  
7           participation of persons historically underrep-  
8           resented in STEM in the Institute’s programs; and

9           “(9) conduct outreach to and develop collabora-  
10          tions with nontraditional educational organizations,  
11          including those that offer training through non-prof-  
12          it associations and professional associations or pro-  
13          fessional societies, to engage persons historically  
14          underrepresented in STEM through programs devel-  
15          oped under this subsection.”.

16 **SEC. 10242. OTHER TRANSACTIONS AUTHORITY.**

17          Section 2(b)(4) of the National Institute of Stand-  
18          ards and Technology Act (15 U.S.C. 272(b)(4)) is amend-  
19          ed to read as follows:

20                 “(4) to enter into and perform such contracts,  
21                 including cooperative research and development ar-  
22                 rangements and grants and cooperative agreements  
23                 or other transactions, as may be necessary in the  
24                 conduct of its work and on such terms as it may

1       deem appropriate, in furtherance of the purposes of  
2       this Act;”.

3   **SEC. 10243. REPORT TO CONGRESS ON COLLABORATIONS**  
4                   **WITH GOVERNMENT AGENCIES.**

5       Not later than 6 months after the date of the enact-  
6       ment of this Act, the Director shall submit a report to  
7       the Committee on Science, Space, and Technology and the  
8       Committee on Appropriations of the House of Representa-  
9       tives and the Committee on Commerce, Science, and  
10      Transportation and the Committee on Appropriations of  
11      the Senate describing the Institute’s challenges with re-  
12      spect to collaboration between the Institute and other Fed-  
13      eral agencies. The report shall include, at a minimum—

14               (1) an assessment of the challenges that arise  
15               with interagency collaboration, including transfer of  
16               funds with a limited period of availability to the In-  
17               stitute and issues with sharing personnel, associates,  
18               facilities, and property with collaborating agencies;  
19               and

20               (2) descriptions of projects that were disrupted  
21               due to the challenges outlined in paragraph (1).

22   **SEC. 10244. HIRING CRITICAL TECHNICAL EXPERTS.**

23       Section 6 of the National Institute of Standards and  
24       Technology Act is amended to read as follows:

1 **“SEC. 6. HIRING CRITICAL TECHNICAL EXPERTS.**

2       “(a) IN GENERAL.—The officers and employees of  
3 the Institute, except the director, shall be appointed by  
4 the Secretary at such time as their respective services may  
5 become necessary.

6       “(b) HIRING CRITICAL TECHNICAL EXPERTS.—Not-  
7 withstanding section 3104 of title 5 or the provisions of  
8 any other law relating to the appointment, number, classi-  
9 fication, or compensation of employees, the Secretary shall  
10 have the authority to make appointments of scientific, en-  
11 gineering, and professional personnel, and to fix the basic  
12 pay of such personnel at a rate to be determined by the  
13 Secretary at rates not in excess of the highest total annual  
14 compensation payable at the rate determined under sec-  
15 tion 104 of title 3. The Director shall appoint not more  
16 than 15 personnel under this section.

17       “(c) SUNSET.—The authority under section (b) shall  
18 expire on the date that is 5 years after the date of enact-  
19 ment of this section.”.

20 **SEC. 10245. INTERNATIONAL STANDARDS DEVELOPMENT.**

21       (a) INTERNATIONAL STANDARDS ENGAGEMENT.—

22               (1) IN GENERAL.—The Director shall lead in-  
23 formation exchange and coordination among Federal  
24 agencies and communication from Federal agencies  
25 to the private sector of the United States to ensure

1 effective Federal engagement in the development  
2 and use of international technical standards.

3 (2) REQUIREMENTS.—To support private sec-  
4 tor-led engagement and ensure effective Federal en-  
5 gagement in the development and use of inter-  
6 national technical standards, the Director shall con-  
7 sider—

8 (A) the role and needs of the Federal Gov-  
9 ernment with respect to international technical  
10 standards;

11 (B) organizations developing international  
12 technical standards of interest to the United  
13 States, United States representation and influ-  
14 ence in these organizations, and key contribu-  
15 tors for technical and leadership expertise in  
16 these organizations;

17 (C) support for persons with domain sub-  
18 ject matter expertise, especially from small  
19 businesses located in the United States, to in-  
20 fluence and engage in technical standards lead-  
21 ership positions, working groups and meetings;

22 (D) opportunities for partnerships for sup-  
23 porting international technical standards from  
24 across the Federal Government, Federally fund-  
25 ed research and development centers, univer-

1           city-affiliated research centers, institutions of  
2           higher education, industry, industry associa-  
3           tions, nonprofit organizations, and other key  
4           contributors;

5           (E) support for activities to encourage the  
6           adoption of technical standards developed in the  
7           United States to be adopted by international  
8           standards organizations; and

9           (F) other activities determined by the Di-  
10          rector to be necessary to support United States  
11          participation in international standards develop-  
12          ment, economic competitiveness, and national  
13          security in the development and use of inter-  
14          national technical standards.

15          (b) CAPACITY BUILDING GUIDANCE.—The Director  
16          shall support education and workforce development efforts  
17          to promote United States participation in international  
18          standards organizations. The Director shall—

19               (1) identify and create, as appropriate, tech-  
20               nical standards education and training resources for  
21               interested businesses, industry associations, aca-  
22               demia, nonprofits, Federal agencies, and other rel-  
23               evant standards contributors, including activities  
24               targeted at integrating standards content into un-

1       dergraduate and graduate curricula in science, engi-  
2       neering, business, public policy, and law;

3           (2) conduct outreach, including to private sec-  
4       tor leaders, to support engagement by more United  
5       States stakeholders in international technical stand-  
6       ards development; and

7           (3) other activities deemed necessary by the Di-  
8       rector to support increased engagement, influence,  
9       and leadership of United States organizations in the  
10      development of international technical standards.

11      (c) CAPACITY BUILDING PILOT PROGRAM.—

12           (1) IN GENERAL.—The Director, in coordina-  
13      tion with the Director of the National Science Foun-  
14      dation, the Administrator of the Small Business Ad-  
15      ministration and the heads of other relevant Federal  
16      agencies, as appropriate, shall establish a 5-year  
17      pilot program to award grants, on a merit-reviewed,  
18      competitive basis, to private sector entities, institu-  
19      tions of higher education, or nonprofit institutions  
20      based in the United States to support increased par-  
21      ticipation by small business and academic interests  
22      in international standards organizations.

23           (2) ACTIVITIES.—In carrying out the pilot pro-  
24      grams established in subsection (c), the Director  
25      shall award competitive, merit-reviewed grants to

1 covered entities to cover the reasonable costs, up to  
2 a specified ceiling set by the Director, of activities  
3 supporting increased engagement and leadership of  
4 employees of small businesses and faculty of institu-  
5 tions of higher education or other nonprofit research  
6 institutions with subject matter and technical exper-  
7 tise necessary to be contributors in international  
8 standards organizations.

9 (3) AWARD CRITERIA.—The Director may only  
10 provide a grant under this section to an eligible re-  
11 cipient that—

12 (A) demonstrates deep technical standards  
13 expertise;

14 (B) demonstrates knowledge with the proc-  
15 esses of the standards development organization  
16 in which the recipient intends to engage using  
17 grant funds;

18 (C) proposes a feasible set of standard  
19 deliverables to be completed over the period of  
20 the grant;

21 (D) explains how the recipient will fund  
22 the standards work supported by the grant if  
23 the grant funds are insufficient to cover all  
24 costs of the work; and

1           (E) commits personnel with appropriate  
2           expertise to engage in relevant international or-  
3           ganizations responsible for developing technical  
4           standards over the period of the grant.

5           (4) ELIGIBILITY.—A small business concern (as  
6           defined in section 3 of the Small Business Act (15  
7           U.S.C. 632) based in the United States, an institu-  
8           tion of higher education (as defined by section 102  
9           of the Higher Education Act of 1965 (20 U.S. C.  
10          1002)), or a nonprofit institution as defined in sec-  
11          tion 4(5) of the Stevenson-Wydler Act (15 U.S.C.  
12          3703) shall be eligible to receive grants under this  
13          program.

14          (5) PRIORITIZATION.—The Director may  
15          prioritize grants awarded under this section to eligi-  
16          ble recipients for standards development proposals  
17          that address clearly defined current or anticipated  
18          market needs or gaps that would not be met without  
19          the grant.

20          (6) APPLICATION.—An eligible recipient seeking  
21          funding under subsection (c) shall submit an appli-  
22          cation to the Director at such time, in such manner,  
23          and containing such information as the Director  
24          may require.

1           (7) MERIT REVIEW PROCESS.—Not later than  
2           90 days after the enactment of this Act, the Direc-  
3           tor shall establish a merit review process, including  
4           the creation of merit review panels made of experts  
5           from government and the private sector, to evaluate  
6           the application under paragraph (6) to ensure appli-  
7           cations submitted are reviewed in a fair, competitive,  
8           transparent, and in-depth manner.

9           (8) CONSULTATION.—In carrying out the pilot  
10          program established under subsection (c), the Direc-  
11          tor shall consult with other Federal agencies, private  
12          sector organizations, institutions of higher edu-  
13          cation, and nonprofit organizations to help inform  
14          the pilot program, including selection criteria, appli-  
15          cant disclosure requirements, grant amount and du-  
16          ration, and the merit review process.

17          (9) REPORT TO CONGRESS.—The Director shall  
18          brief Congress after the second year of the pilot pro-  
19          gram and each year following that includes the fol-  
20          lowing:

21                 (A) An assessment of the effectiveness of  
22                 the pilot program for improving the participa-  
23                 tion of United States small businesses, United  
24                 States institutions of higher education, or other

1 nonprofit research institutions in international  
2 standards organizations, including—

3 (i) the type of activities supported, in-  
4 cluding leadership roles;

5 (ii) the international standards orga-  
6 nizations participated in; and

7 (iii) the technical areas covered by the  
8 activities.

9 (B) If deemed effective, a plan for perma-  
10 nent implementation of the pilot program.

11 (d) REAFFIRMING THE IMPORTANCE OF VOLUNTARY

12 CONSENSUS-BASED INTERNATIONAL STANDARDS BOD-

13 IES.—To the extent applicable, the Institute, when pre-

14 paring standards, participating in voluntary consensus

15 standard bodies, and engaging in a standards development

16 process that is open to participation from Chinese firms

17 and state-owned enterprises of the People's Republic of

18 China, the process should include the following attributes

19 that are easily accessible, clear, and unambiguous:

20 (1) Transparency.

21 (2) Openness.

22 (3) Impartiality and Consensus.

23 (4) Effectiveness and Relevance.

24 (5) Coherence.

25 (6) Development Dimension.

1 **SEC. 10246. STANDARD TECHNICAL UPDATE.**

2 (a) NATIONAL INSTITUTE OF STANDARDS AND  
3 TECHNOLOGY ACT UPDATES.—The National Institute of  
4 Standards and Technology Act (15 U.S.C. 271) is amend-  
5 ed—

6 (1) in section 15—

7 (A) in subsection (b), by striking the pe-  
8 riod at the end and inserting a semicolon;

9 (B) in subsection (g), by striking “and”  
10 after the semicolon; and

11 (C) by striking the period at the end and  
12 inserting “; and (i) the protection of Institute  
13 buildings and other plant facilities, equipment,  
14 and property, and of employees, associates, or  
15 visitors, located therein or associated therewith,  
16 notwithstanding any other provision of law, the  
17 direction of such of the officers and employees  
18 of the Institute as the Secretary deems nec-  
19 essary in the public interest hereafter to carry  
20 firearms while in the conduct of their official  
21 duties, and the authorization of employees of  
22 contractors and subcontractors of the Institute  
23 who are engaged in the protection of property  
24 owned by the United States, and located at fa-  
25 cilities owned by, leased, used or under the con-  
26 trol of the United States, to carry firearms

1 while in the conduct of their official duties, and,  
2 under regulations prescribed by the Secretary  
3 and approved by the Attorney General, the au-  
4 thorization of officers and employees of the In-  
5 stitute and of its contractors and subcontrac-  
6 tors authorized to carry firearms hereafter to  
7 arrest without warrant for any offense against  
8 the United States committed in their presence,  
9 or for any felony cognizable under the laws of  
10 the United States if they have reasonable  
11 grounds to believe that the person to be ar-  
12 rested has committed or is committing such fel-  
13 ony, provided that such authority to make ar-  
14 rests may be exercised only while guarding and  
15 protecting buildings and other plant facilities,  
16 equipment, and property owned or leased by,  
17 used or under the control of, the United States  
18 under the administration and control of the  
19 Secretary.”; and

20 (2) by amending section 17(a) to read as fol-  
21 lows:

22 “(a) The Secretary is authorized, notwithstanding  
23 any other provision of law, to expend such sums, within  
24 the limit of appropriated funds, as the Secretary may  
25 deem desirable through direct support for activities of

1 international organizations and foreign national metrology  
2 institutes with which the Institute cooperates to advance  
3 measurement methods, technical standards, and related  
4 basic technologies, for official representation, to host offi-  
5 cial receptions, dinners, and similar events, and to other-  
6 wise extend official courtesies, including transportation of  
7 foreign dignitaries and representatives of foreign national  
8 metrology institutes to and from the Institute, for the pur-  
9 pose of maintaining the standing and prestige of the De-  
10 partment of Commerce and the Institute, through the  
11 grant of fellowships or other appropriate form of financial  
12 or logistical assistance or support to foreign nationals not  
13 in service to the Government of the United States while  
14 they are performing scientific or engineering work at the  
15 Institute or participating in the exchange of scientific or  
16 technical information at the Institute.”.

17 (b) STEVENSON-WYDLER UPDATES.—Section  
18 17(c)(1) of the Stevenson-Wydler Technology Innovation  
19 Act of 1980 (15 U.S.C. 3711a(c)(1)) is amended—

20 (1) by moving each of subparagraphs (D) and  
21 (E) two ems to the left; and

22 (2) by adding at the end the following:

23 “(G) Community.”.

24 (c) AMERICAN INNOVATION AND COMPETITIVENESS  
25 ACT UPDATE.—Section 113 of the American Innovation

1 and Competitiveness Act (15 U.S.C. 278e note) is re-  
2 pealed.

3 (d) CLERICAL AMENDMENT.—The item relating to  
4 section 113 in the table of contents in section 1(b) of the  
5 American Innovation and Competitiveness Act is repealed.

6 (e) FEDERAL ENERGY MANAGEMENT IMPROVEMENT  
7 ACT UPDATE.—Section 4 of the Federal Energy Manage-  
8 ment Improvement Act of 1988 (15 U.S.C. 5001) is  
9 amended—

10 (1) by striking “Secretary of Commerce” and  
11 “Secretary” each place either such term appears and  
12 inserting “Consumer Product Safety Commission”;

13 (2) by redesignating the second subsection (c)  
14 as subsection (e); and

15 (3) in subsection (g), by redesignating clauses  
16 (i) and (ii) as paragraphs (1) and (2), respectively.

17 **SEC. 10247. GAO STUDY OF NIST RESEARCH SECURITY**  
18 **POLICIES AND PROTOCOLS.**

19 (a) EVALUATION.—Not later than 1 year after the  
20 date of enactment of this Act, the Comptroller General  
21 of the United States shall conduct a study of the Insti-  
22 tute’s policies and protocols to protect its research and  
23 combat undue foreign influence.

1 (b) MATTERS TO BE INCLUDED.—The study con-  
2 ducted under subsection (a) shall include, to the extent  
3 practicable, the following:

4 (1) An analysis of steps taken by the Institute  
5 to address foreign threats to Institute-funded re-  
6 search over the previous 5 years.

7 (2) An analysis of the coordination and engage-  
8 ment between the Department of Commerce’s Office  
9 of Inspector General, the Department of Commerce’s  
10 Office of Intelligence, the National Counterintel-  
11 ligence and Security Center of the Office of the Di-  
12 rector of National Intelligence, and the Institute in  
13 identifying and addressing concerning findings.

14 (3) An assessment of the Institute’s review  
15 process for Foreign National associates.

16 (4) An assessment of the Institute’s policies as  
17 it relates to employees and associates participating  
18 in foreign talent recruitment programs.

19 (5) An assessment of the Institute’s implemen-  
20 tation of conflict-of-interest and disclosure policies  
21 and requirements, including the disclosure require-  
22 ments authorized in section 223 of the National De-  
23 fense Authorization Act for Fiscal Year 2021 (Pub-  
24 lic Law 116–283).

1           (6) An assessment of the Institute’s, the De-  
2           partment of Commerce’s Office of Security, the De-  
3           partment of Commerce’s Office of Intelligence, and  
4           the Department of Commerce’s Office of Inspector  
5           General’s ability to monitor and enforce conflict-of-  
6           interest and disclosure policies and requirements, in-  
7           cluding the disclosure requirements authorized in  
8           section 223 of the National Defense Authorization  
9           Act for Fiscal Year 2021 (Public Law 116–283).

10           (7) An assessment of the Institute’s, the De-  
11           partment of Commerce’s, and the Department of  
12           Commerce’s Office of Inspector General’s ability to  
13           conduct risk assessments of research and develop-  
14           ment award applications and disclosures to the Insti-  
15           tute.

16           (8) An assessment of the Institute’s research  
17           security training programs for both internal and ex-  
18           ternally-supported researchers and associates, in-  
19           cluding training focused on international collabora-  
20           tion, and international travel, foreign interference,  
21           and rules for proper use of funds, disclosure, conflict  
22           of commitment, and conflict of interest.

23           (9) An analysis and summary of incidents of  
24           undue foreign influence at Institute-supported re-

1 search facilities and programs over the past 10  
2 years.

3 (10) Recommendations for the Institute to bol-  
4 ster its research security policies and protocols.

5 (11) Other matters the Comptroller General de-  
6 termines appropriate.

7 (c) CONGRESSIONAL BRIEFING.—Not later than 180  
8 days after the date of enactment of this Act, the Comp-  
9 troller General shall brief the Committee on Science,  
10 Space, and Technology and the Permanent Select Com-  
11 mittee on Intelligence of the House of Representatives and  
12 the Committee of Commerce, Science, and Transportation  
13 and the Select Committee on Intelligence of the Senate  
14 on the findings available from the evaluation conducted  
15 under subsection (a).

16 (d) REPORT.—Not later than 18 months after the  
17 date of enactment of this Act, the Comptroller General  
18 shall submit to the congressional committees specified in  
19 subsection (c) a report on the findings and recommenda-  
20 tions of the evaluation conducted under subsection (a).

21 **SEC. 10248. STANDARDS DEVELOPMENT ORGANIZATION**  
22 **GRANTS.**

23 (a) NONGOVERNMENTAL STANDARDS DEVELOPMENT  
24 ORGANIZATION DEFINED.—In this section, the term  
25 “nongovernmental standards development organization”

1 means a nongovernmental standards development organi-  
2 zation (as defined in section 2(e) of the Office of Manage-  
3 ment and Budget Circular A–119 (relating to Federal par-  
4 ticipation in the development and use of voluntary con-  
5 sensus standards in conformity assessment activities), or  
6 any successor document) that adheres to the American  
7 National Standards Institute (ANSI) Essential Require-  
8 ments for Due Process for American National Standards.

9 (b) GRANT AUTHORITY.—The Secretary of Com-  
10 merce, acting through the Director, shall establish a com-  
11 petitive program of grants for nongovernmental standards  
12 development organizations for the purposes described in  
13 subsection (c).

14 (c) PURPOSES.—A grant awarded under subsection  
15 (b) shall be used to develop, approve, disseminate, main-  
16 tain, and review forensic science voluntary consensus  
17 standards and best practices that shall be available to the  
18 public free of charge.

19 (d) ADDITIONAL REQUIREMENTS.—The Director  
20 may promulgate such requirements, guidelines, and proce-  
21 dures as may be necessary to carry out this section.

22 (e) AUTHORIZATION OF APPROPRIATIONS.—There  
23 are authorized to be appropriated to carry out this section  
24 \$2,000,000 for each of fiscal years 2022 through 2026.

7 The National Institute of Standards and Technology  
8 Act (15 U.S.C. 271 et seq.) is amended by inserting after  
9 section 25A (15 U.S.C. 278k–1) the following:

10 **“SEC. 25B. EXPANSION AWARDS PILOT PROGRAM.**

11 “(a) DEFINITIONS.—The terms used in this section  
12 have the meanings given the terms in section 25.

13 “(b) ESTABLISHMENT.—The Director shall establish  
14 as a part of the Hollings Manufacturing Extension Part-  
15 nership a pilot program of expansion awards among par-  
16 ticipants described in subsection (c) of this section for the  
17 purposes described in subsection (e) of this section.

18 “(c) PARTICIPANTS.—Participants receiving awards  
19 under this section shall be Centers, or a consortium of  
20 Centers.

21 “(d) AWARD AMOUNTS.—Subject to the availability  
22 of appropriations, an award for a recipient under this sec-  
23 tion shall be in an amount equal to the sum of the fol-  
24 lowing:

1           “(1) Such amount as the Director considers ap-  
2           propriate as a minimum base funding level for each  
3           award under this section.

4           “(2) Such additional amount as the Director  
5           considers in proportion to the manufacturing density  
6           of the region of the recipient.

7           “(3) Such supplemental amounts as the Direc-  
8           tor considers appropriate.

9           “(e) PURPOSE OF AWARDS.—An award under this  
10          section shall be made for one or more of the following pur-  
11          poses:

12           “(1) To provide coordinating services on em-  
13          ployee engagement, including employee ownership  
14          and workforce training, including connecting manu-  
15          facturers with career and technical education enti-  
16          ties, institutions of higher education (including com-  
17          munity colleges), workforce development boards,  
18          labor organizations, and nonprofit job training pro-  
19          viders to develop and support training and job place-  
20          ment services, including apprenticeship and online  
21          learning platforms, for new and incumbent workers,  
22          programming to prevent job losses when adopting  
23          new technologies and processes, and development of  
24          employee ownership practices.

1           “(2) To provide services to improve the resil-  
2           iency of domestic supply chains and to mitigate  
3           vulnerabilities to cyberattacks, including helping to  
4           offset the cost of cybersecurity projects for small  
5           manufacturers.

6           “(3) To expand advanced technology services to  
7           United States-based small- and medium-sized manu-  
8           facturers, which may include—

9                   “(A) developing advanced technology dem-  
10                  onstration laboratories for training and dem-  
11                  onstration in areas of supply chain and critical  
12                  technology needs, including a focus on the dem-  
13                  onstration of technologies developed by compa-  
14                  nies based in the United States;

15                   “(B) services for the adoption of advanced  
16                  technologies, including smart manufacturing  
17                  technologies and practices; and

18                   “(C) establishing partnerships, for the de-  
19                  velopment, demonstration, and deployment of  
20                  advanced technologies, between United States-  
21                  based small- and medium-sized manufacturers  
22                  and—

23                           “(i) national laboratories (as defined  
24                           in section 2 of the Energy Policy Act of  
25                           2005 (42 U.S.C. 15801));

1                   “(ii) Federal laboratories;

2                   “(iii) Manufacturing USA institutes

3                   (as described in section 34(d)); and

4                   “(iv) institutions of higher education.

5                   “(4) To build capabilities across the Hollings

6                   Manufacturing Extension Partnership for domestic

7                   supply chain resiliency and optimization, including—

8                   “(A) assessment of domestic manufac-

9                   turing capabilities, expanded capacity for re-

10                  searching and deploying information on supply

11                  chain risk, hidden costs of reliance on offshore

12                  suppliers, redesigning products and processes to

13                  encourage reshoring, and other relevant topics;

14                  and

15                  “(B) expanded services to provide indus-

16                  try-wide support that assists United States

17                  manufacturers with reshoring manufacturing to

18                  strengthen the resiliency of domestic supply

19                  chains, including in critical technology areas

20                  and foundational manufacturing capabilities

21                  that are key to domestic manufacturing com-

22                  petitiveness and resiliency, including forming,

23                  casting, machining, joining, surface treatment,

24                  and tooling.

1       “(f) REIMBURSEMENT.—The Director may reim-  
2       burse Centers for costs incurred by the Centers under this  
3       section.

4       “(g) APPLICATIONS.—Applications for awards under  
5       this section shall be submitted in such manner, at such  
6       time, and containing such information as the Director  
7       shall require in consultation with the Manufacturing Ex-  
8       tension Partnership Advisory Board.

9       “(h) SELECTION.—

10           “(1) REVIEWED AND MERIT-BASED.—The Di-  
11       rector shall ensure that awards under this section  
12       are reviewed and merit-based.

13           “(2) GEOGRAPHIC DIVERSITY.—The Director  
14       shall endeavor to have broad geographic diversity  
15       among selected proposals.

16           “(3) CRITERIA.—The Director shall select ap-  
17       plications consistent with the purposes identified  
18       pursuant to subsection (e) to receive awards that the  
19       Director determines will achieve one or more of the  
20       following:

21           “(A) Improvement of the competitiveness  
22       of industries in the region in which the Center  
23       or Centers are located.

24           “(B) Creation of jobs or training of newly  
25       hired employees.

1           “(C) Promotion of the transfer and com-  
2           mercialization of research and technology from  
3           institutions of higher education, national lab-  
4           oratories, or other Federally funded research  
5           programs, and nonprofit research institutes.

6           “(D) Recruitment of a diverse manufac-  
7           turing workforce, including through outreach to  
8           underrepresented populations, including individ-  
9           uals identified in section 33 or section 34 of the  
10          Science and Engineering Equal Opportunities  
11          Act (42 U.S.C. 1885a, 1885b).

12          “(E) Any other result the Director deter-  
13          mines will advance the objective set forth in  
14          section 25(c) or 26.

15          “(i) PROGRAM CONTRIBUTION.—Recipients of  
16          awards under this section shall not be required to provide  
17          a matching contribution.

18          “(j) GLOBAL MARKETPLACE PROJECTS.—In making  
19          an award under this section, the Director, in consultation  
20          with the Manufacturing Extension Partnership Advisory  
21          Board and the Secretary, may take into consideration  
22          whether an application has significant potential for en-  
23          hancing the competitiveness of small and medium-sized  
24          United States manufacturers in the global marketplace.

1       “(k) DURATION.—The Director shall ensure that the  
2 duration of an award under this section is aligned and  
3 consistent with a Center’s cooperative agreement estab-  
4 lished in section 25(e).

5       “(l) REPORT.—After the completion of the pilot pro-  
6 gram under subsection (b) and not later than October 1,  
7 2024, the Director shall submit to Congress a report that  
8 includes—

9           “(1) a summary description of what activities  
10 were funded and the measurable outcomes of such  
11 activities;

12           “(2) a description of which types of activities  
13 under paragraph (1) could be integrated into, and  
14 supported under, the program under section 25;

15           “(3) a description of which types of activities  
16 under paragraph (1) could be integrated into, and  
17 supported under, the competitive awards program  
18 under section 25A; and

19           “(4) a recommendation, supported by a clear  
20 explanation, as to whether the pilot program should  
21 be continued.”.

1 **SEC. 10252. UPDATE TO MANUFACTURING EXTENSION**  
2 **PARTNERSHIP.**

3 (a) ACCEPTANCE OF FUNDS.—Section 25(l) of the  
4 National Institute of Standards and Technology Act (15  
5 U.S.C. 278k(l)) is amended to read as follows:

6 “(l) ACCEPTANCE OF FUNDS.—

7 “(1) IN GENERAL.—In addition to such sums  
8 as may be appropriated to the Secretary and Direc-  
9 tor to operate the Program, the Secretary and Di-  
10 rector may also accept funds from other Federal de-  
11 partments and agencies, as well as funds provided  
12 by the private sector pursuant to section 2(c)(7) of  
13 this Act (15 U.S.C. 272(c)(7)), to be available to the  
14 extent provided by appropriations Acts, for the pur-  
15 pose of strengthening United States manufacturing.

16 “(2) COMPETITIVE AWARDS.—Funds accepted  
17 from other Federal departments and agencies and  
18 from the private sector under paragraph (1) shall be  
19 awarded competitively by the Secretary and by the  
20 Director to Manufacturing Extension Partnership  
21 Centers, provided that the Secretary and Director  
22 may make non-competitive awards, pursuant to this  
23 section or section 25A, or as a non-competitive con-  
24 tract, as appropriate, if the Secretary and the Direc-  
25 tor determine that—

1           “(A) the manufacturing market or sector  
2 targeted is limited geographically or in scope;

3           “(B) the number of States (or territory, in  
4 the case of Puerto Rico) with Manufacturing  
5 Extension Partnership Centers serving manu-  
6 facturers of such market or sector is five or  
7 fewer; and

8           “(C) such Manufacturing Extension Part-  
9 nership Center or Centers has received a posi-  
10 tive evaluation in the most recent evaluation  
11 conducted pursuant to subsection (g).”.

12           (b) SUPPORTING AMERICAN MANUFACTURING.—Sec-  
13 tion 25 of the National Institute of Standards and Tech-  
14 nology Act (15 U.S.C. 278k) is amended—

15           (1) in subsection (a)(5)—

16           (A) by striking “or consortium thereof,”;

17           and

18           (B) by inserting “or a consortium thereof”

19           before the period at the end of the sentence;

20           (2) in subsection (c)(4), by inserting “United  
21 States-based” before “industrial”;

22           (3) in subsection (d)—

23           (A) in paragraph (1), by inserting “at

24           United States-based industrial facilities, includ-

1 ing small and medium manufacturing compa-  
2 nies” before “based”;

3 (B) in paragraph (2), by inserting “United  
4 States-based” before “companies”; and

5 (C) in paragraph (3), by inserting “United  
6 States-based” before “small”;

7 (4) in subsection (f)(5)(B)(i), by inserting “in  
8 the United States” before the semicolon at the end  
9 of the clause; and

10 (5) in subsection (n)(1)(A), by inserting  
11 “United States-based” before “small”.

12 (c) AMENDING THE MEP COMPETITIVE AWARDS  
13 PROGRAM.—Section 25A(c)(2) of the National Institute of  
14 Standards and Technology Act (15 U.S.C. 278k-1(c)(2))  
15 is amended by inserting “United States” before “manu-  
16 facturers”.

17 **SEC. 10253. NATIONAL SUPPLY CHAIN DATABASE.**

18 (a) ESTABLISHMENT OF NATIONAL SUPPLY CHAIN  
19 DATABASE.—The Director shall establish and maintain a  
20 National Supply Chain Database, subject to the avail-  
21 ability of appropriations.

22 (b) PURPOSE.—The purpose of the National Supply  
23 Chain Database shall be to assist the Federal government  
24 and industry sectors in minimizing disruptions to the

1 United States supply chain by having an assessment of  
2 United States manufacturers' capabilities.

3 (c) STUDY ON NATIONAL SUPPLY CHAIN DATA-  
4 BASE.—In establishing the National Supply Chain Data-  
5 base, the Director shall consider the findings and rec-  
6 ommendations from the study authorized in section 9413  
7 of the National Defense Authorization Act for Fiscal Year  
8 2021 (Public Law 116–283), including measures to secure  
9 and protect the National Supply Chain Database from ad-  
10 versarial attacks and vulnerabilities.

11 (d) DATABASE AND MANUFACTURING EXTENSION  
12 PARTNERSHIP.—

13 (1) IN GENERAL.—The National Supply Chain  
14 Database shall be carried out and managed through  
15 the Hollings Manufacturing Extension Partnership  
16 program or its designee and the Director shall en-  
17 sure that the Hollings Manufacturing Extension  
18 Partnership Centers are connected to the National  
19 Supply Chain Database.

20 (2) CAPABILITIES.—The National Supply Chain  
21 Database shall be capable of providing a national  
22 view of the supply chain and enable authorized data-  
23 base users to determine in near real-time the United  
24 States manufacturing capabilities for critical prod-

1 ucts, including defense supplies, food, and medical  
2 devices, including personal protective equipment.

3 (3) DATABASE CONTENT.—The Database may  
4 include the following:

5 (A) Basic company information.

6 (B) An overview of capabilities, accredita-  
7 tions, and products.

8 (C) Proprietary information.

9 (D) Such other items as the Director con-  
10 siders necessary.

11 (4) STANDARD CLASSIFICATION SYSTEM.—The  
12 Database may use the North American Industry  
13 Classification System (NAICS) Codes as follows:

14 (A) Sector 31-33 — Manufacturing.

15 (B) Sector 54 — Professional, Scientific,  
16 and Technical Services.

17 (C) Sector 48-49 — Transportation and  
18 Warehousing.

19 (5) LEVELS.—The Database may be multi-lev-  
20 eled as agreed to under terms of mutual disclosure  
21 as follows:

22 (A) Level 1 may have basic company infor-  
23 mation and shall be available to the public.

24 (B) Level 2 may have a deeper, nonpropri-  
25 etary overview into capabilities, products, and

1           accreditations and shall be available to all com-  
2           panies that contribute to the Database.

3           (C) Level 3 may hold proprietary informa-  
4           tion.

5           (6) INDIVIDUAL STATE DATABASES.—Each  
6           State’s supply chain database maintained by the In-  
7           stitute-recognized Manufacturing Extension Partner-  
8           ship Center within the State shall be complementary  
9           in design to the National Supply Chain Database.

10          (e) MAINTENANCE OF NATIONAL SUPPLY CHAIN  
11         DATABASE.—The Director, acting through the Hollings  
12         Manufacturing Extension Partnership program, shall  
13         maintain the National Supply Chain Database as an inte-  
14         gration of the State level databases from each State’s  
15         Manufacturing Extension Partnership Center and may be  
16         populated with information from past, current, or poten-  
17         tial Center clients.

18          (f) EXEMPT FROM PUBLIC DISCLOSURE.—The Na-  
19         tional Supply Chain Database and any information related  
20         to it not publicly released by the Institute shall be exempt  
21         from public disclosure under section 552 of title 5, United  
22         States Code, and access to non-public content shall be lim-  
23         ited to the contributing company and Manufacturing Ex-  
24         tension Partnership Center staff who sign an appropriate  
25         non-disclosure agreement. The Director may make aggre-

1 gated, de-identified information available to contributing  
2 companies, Centers, or the public, as the Director con-  
3 sidered appropriate, in support of the purposes of this sec-  
4 tion.

5 (g) AUTHORIZATION OF APPROPRIATIONS.—There  
6 are authorized to be appropriated—

7 (1) \$31,000,000 for fiscal year 2022 to develop  
8 and launch the Database; and

9 (2) \$26,000,000 for each of fiscal years 2023  
10 through 2026 to maintain, update, and support Fed-  
11 eral coordination of the State supply chain databases  
12 maintained by the Centers.

13 **SEC. 10254. HOLLINGS MANUFACTURING EXTENSION PART-**  
14 **nership ACTIVITIES.**

15 Section 70924(b) of the Infrastructure Investment  
16 and Jobs Act (Public Law 117–58) is amended to read  
17 as follows:

18 “(b) AUTOMATIC ENROLLMENT IN GSA ADVAN-  
19 TAGE!.—The Administrator of the General Services Ad-  
20 ministration and the Secretary of Commerce, acting  
21 through the Under Secretary of Commerce for Standards  
22 and Technology, shall jointly ensure that businesses that  
23 participate in the Hollings Manufacturing Extension Part-  
24 nership may, as the business considers appropriate, enroll  
25 in General Services Administration Advantage!.”

1       **Subtitle E—Manufacturing USA**  
 2                                   **Program**

3       **SEC. 10261. SUPPORTING GEOGRAPHIC DIVERSITY.**

4           Section 34(e) of the National Institute of Standards  
 5 and Technology Act (15 U.S.C. 278s(e)) is amended by  
 6 adding at the end the following:

7                   “(8) DIVERSITY PREFERENCES.—In awarding  
 8 financial assistance under paragraph (1) for plan-  
 9 ning or establishing a Manufacturing USA institute,  
 10 an agency head shall give special consideration to  
 11 Manufacturing USA institutes that—

12                                   “(A) contribute to the geographic diversity  
 13 of the Manufacturing USA Program;

14                                   “(B) are located in an area with a low per  
 15 capita income; or

16                                   “(C) are located in an area with a high  
 17 proportion of socially disadvantaged residents.”.

18       **Subtitle F—Manufacturing USA**  
 19                                   **Program**

20       **SEC. 10271. EXPANDING OPPORTUNITIES THROUGH THE**  
 21                                   **MANUFACTURING USA PROGRAM.**

22           (a) PARTICIPATION OF MINORITY-SERVING INSTITU-  
 23 TIONS, HISTORICALLY BLACK COLLEGES AND UNIVER-  
 24 SITIES, AND TRIBAL COLLEGES AND UNIVERSITIES.—

1           (1) IN GENERAL.—The Secretary of Commerce,  
2           in consultation with the Secretary of Energy, the  
3           Secretary of Defense, and the heads of such other  
4           Federal agencies as the Secretary of Commerce con-  
5           siders relevant, shall coordinate with existing and  
6           new Manufacturing USA institutes to integrate cov-  
7           ered entities as active members of the Manufac-  
8           turing USA institutes, including through the devel-  
9           opment of preferences in selection criteria for pro-  
10          posals to create new Manufacturing USA institutes  
11          or renew existing Manufacturing USA institutes that  
12          include one or more covered entities.

13          (2) COVERED ENTITIES.—For purposes of this  
14          subsection, a covered entity is—

15                 (A) an historically Black college or univer-  
16                 sity;

17                 (B) a Tribal college or university;

18                 (C) a minority-serving institution; or

19                 (D) a minority business enterprise (as de-  
20                 fined in section 1400.2 of title 15, Code of Fed-  
21                 eral Regulations, or successor regulation).

22         **TITLE III—NATIONAL SCIENCE**  
23         **FOUNDATION FOR THE FUTURE**

24         **SEC. 10301. FINDINGS.**

25                 Congress finds the following:

1           (1) Over the past seven decades, the National  
2           Science Foundation has played a critical role in ad-  
3           vancing the United States academic research enter-  
4           prise by supporting fundamental research and edu-  
5           cation across science and engineering disciplines.

6           (2) Discoveries enabled by sustained investment  
7           in fundamental research and the education of the  
8           United States science and engineering workforce  
9           have led to transformational innovations and  
10          spawned new industries.

11          (3) While the traditional approach to invest-  
12          ment in research has delivered myriad benefits to so-  
13          ciety, a concerted effort is needed to ensure the ben-  
14          efits of federally funded science and engineering are  
15          enjoyed by all Americans.

16          (4) As countries around the world increase in-  
17          vestments in research and STEM education, United  
18          States global leadership in science and engineering is  
19          eroding, posing significant risks to economic com-  
20          petitiveness, national security, and public well-being.

21          (5) To address major societal challenges and  
22          sustain United States leadership in innovation, the  
23          Federal Government must increase investments in  
24          research, broaden participation in the STEM work-  
25          force, and bolster collaborations among universities,

1 National Laboratories, field stations and marine lab-  
2 oratories, companies, labor organizations, non-profit  
3 funders of research, local policymakers, civil societies  
4 and stakeholder communities, and international  
5 partners.

6 **SEC. 10302. DEFINITIONS.**

7 In this title:

8 (1) **ACADEMIES.**—The term “Academies”  
9 means the National Academies of Sciences, Engi-  
10 neering, and Medicine.

11 (2) **ARTIFICIAL INTELLIGENCE.**—The term “ar-  
12 tificial intelligence” has the meaning given such  
13 term in section 5002 of the William M. (MAC)  
14 Thornberry National Defense Authorization Act for  
15 Fiscal Year 2021.

16 (3) **AWARDEE.**—The term “awardee” means  
17 the legal entity to which Federal assistance is  
18 awarded and that is accountable to the Federal Gov-  
19 ernment for the use of the funds provided.

20 (4) **BOARD.**—The term “Board” means the Na-  
21 tional Science Board.

22 (5) **DIRECTOR.**—The term “Director” means  
23 the Director of the National Science Foundation.

24 (6) **EMERGING RESEARCH INSTITUTION.**—The  
25 term “emerging research institution” means an in-

1       stitution of higher education with an established un-  
2       dergraduate student program that has, on average  
3       for 3 years prior to the time of application for an  
4       award, received less than \$35,000,000 in Federal re-  
5       search funding.

6               (7) FEDERAL RESEARCH AGENCY.—The term  
7       “Federal research agency” means any Federal agen-  
8       cy with an annual extramural research expenditure  
9       of over \$100,000,000.

10              (8) FOUNDATION.—The term “Foundation”  
11       means the National Science Foundation.

12              (9) HISTORICALLY BLACK COLLEGE AND UNI-  
13       VERSITY.—The term “historically Black college and  
14       university” has the meaning given the term “part B  
15       institution” in section 322 of the Higher Education  
16       Act of 1965 (20 U.S.C. 1061).

17              (10) INSTITUTION OF HIGHER EDUCATION.—  
18       The term “institution of higher education” has the  
19       meaning given the term in section 101(a) of the  
20       Higher Education Act of 1965 (20 U.S.C. 1001(a)).

21              (11) LABOR ORGANIZATION.—The term “labor  
22       organization” has the meaning given the term in  
23       section 2(5) of the National Labor Relations Act (29  
24       U.S.C. 152(5)), except that such term shall also in-  
25       clude—

1 (A) any organization composed of labor or-  
2 ganizations, such as a labor union federation or  
3 a State or municipal labor body; and

4 (B) any organization which would be in-  
5 cluded in the definition for such term under  
6 such section 2(5) but for the fact that the orga-  
7 nization represents—

8 (i) individuals employed by the United  
9 States, any wholly owned Government cor-  
10 poration, any Federal Reserve Bank, or  
11 any State or political subdivision thereof;

12 (ii) individuals employed by persons  
13 subject to the Railway Labor Act (45  
14 U.S.C. 151 et seq.); or

15 (iii) individuals employed as agricul-  
16 tural laborers.

17 (12) MINORITY-SERVING INSTITUTION.—The  
18 term “minority-serving institution” means a His-  
19 panic-serving institution, an Alaska Native-serving  
20 institution, a Native Hawaiian-serving institutions, a  
21 Predominantly Black Institution, an Asian American  
22 and Native American Pacific Islander-serving insti-  
23 tution, or a Native American-serving nontribal insti-  
24 tution as described in section 371 of the Higher  
25 Education Act of 1965 (20 U.S.C. 1067q(a)).

1           (13) NON-PROFIT ORGANIZATION.—The term  
2           “non-profit organization” means an organization  
3           which is described in section 501(c)(3) of the Inter-  
4           nal Revenue Code of 1986 and exempt from tax  
5           under section 501(a) of such code.

6           (14) NSF INCLUDES.—The term “NSF in-  
7           cludes” means the initiative carried out under sec-  
8           tion 10306(c).

9           (15) PREK-12.—The term “preK-12” means  
10          pre-kindergarten through grade 12.

11          (16) RESEARCH AND DEVELOPMENT AWARD.—  
12          The term “research and development award” means  
13          support provided to an individual or entity by a Fed-  
14          eral research agency to carry out research and devel-  
15          opment activities, which may include support in the  
16          form of a grant, contract, cooperative agreement, or  
17          other such transaction. The term does not include a  
18          grant, contract, agreement or other transaction for  
19          the procurement of goods or services to meet the ad-  
20          ministrative needs of a Federal research agency.

21          (17) SKILLED TECHNICAL WORK.—The term  
22          “skilled technical work” means an occupation that  
23          requires a high level of knowledge in a technical do-  
24          main and does not require a bachelor’s degree for  
25          entry.

1           (18) STEM.—The term “STEM” has the  
2 meaning given the term in section 2 of the America  
3 COMPETES Reauthorization Act of 2010 (42  
4 U.S.C. 6621 note).

5           (19) STEM EDUCATION.—The term “STEM  
6 education” has the meaning given the term in sec-  
7 tion 2 of the STEM Education Act of 2015 (42  
8 U.S.C. 6621 note).

9           (20) TRIBAL COLLEGE OR UNIVERSITY.—The  
10 term “Tribal College or University” has the meaning  
11 given such term in section 316 of the Higher Edu-  
12 cation Act of 1965 (20 U.S.C. 1059e).

13 **SEC. 10303. AUTHORIZATION OF APPROPRIATIONS.**

14           (a) FISCAL YEAR 2022.—

15           (1) IN GENERAL.—There are authorized to be  
16 appropriated to the Foundation \$12,504,890,000 for  
17 fiscal year 2022.

18           (2) SPECIFIC ALLOCATIONS.—Of the amount  
19 authorized under paragraph (1)—

20           (A) \$10,025,000,000 is authorized to be  
21 appropriated to carry out research and related  
22 activities, of which—

23           (i) \$55,000,000 is authorized to be  
24 appropriated for the Mid-Scale Research  
25 Infrastructure Program; and

1                   (ii) \$1,400,000,000 is authorized to  
2                   be appropriated for the Directorate for  
3                   Science and Engineering Solutions;

4                   (B) \$1,583,160,000 is authorized to be ap-  
5                   propriated for education and human resources,  
6                   of which—

7                   (i) \$73,700,000 is authorized to be  
8                   appropriated for the Robert Noyce Teacher  
9                   Scholarship Program;

10                  (ii) \$59,500,000 is authorized to be  
11                  appropriated for the NSF Research  
12                  Traineeship Program;

13                  (iii) \$416,300,000 is authorized to be  
14                  appropriated for the Graduate Research  
15                  Fellowship Program; and

16                  (iv) \$70,000,000 is authorized to be  
17                  appropriated for the Cybercorps Scholar-  
18                  ship for Service Program;

19                  (C) \$249,000,000 is authorized to be ap-  
20                  propriated for major research equipment and  
21                  facilities construction, of which \$76,250,000 is  
22                  authorized to be appropriated for the Mid-Scale  
23                  Research Infrastructure Program;

1 (D) \$620,000,000 is authorized to be ap-  
2 propriated for agency operations and award  
3 management;

4 (E) \$4,620,000 is authorized to be appro-  
5 priated for the Office of the National Science  
6 Board; and

7 (F) \$23,120,000 is authorized to be appro-  
8 priated for the Office of the Inspector General.

9 (b) FISCAL YEAR 2023.—

10 (1) IN GENERAL.—There are authorized to be  
11 appropriated to the Foundation \$14,620,800,000 for  
12 fiscal year 2023.

13 (2) SPECIFIC ALLOCATIONS.—Of the amount  
14 authorized under paragraph (1)—

15 (A) \$11,870,000,000 is authorized to be  
16 appropriated to carry out research and related  
17 activities, of which—

18 (i) \$60,000,000 is authorized to be  
19 appropriated for the Mid-Scale Research  
20 Infrastructure Program; and

21 (ii) \$2,300,000,000 is authorized to  
22 be appropriated for the Directorate for  
23 Science and Engineering Solutions;

1 (B) \$1,654,520,000 is authorized to be ap-  
2 propriated for education and human resources,  
3 of which—

4 (i) \$80,400,000 is authorized to be  
5 appropriated for the Robert Noyce Teacher  
6 Scholarship Program;

7 (ii) \$64,910,000 is authorized to be  
8 appropriated for the NSF Research  
9 Traineeship Program;

10 (iii) \$454,140,000 is authorized to be  
11 appropriated for the Graduate Research  
12 Fellowship Program; and

13 (iv) \$72,000,000 is authorized to be  
14 appropriated for the Cybercorps Scholar-  
15 ship for Service Program;

16 (C) \$355,000,000 is authorized to be ap-  
17 propriated for major research equipment and  
18 facilities construction, of which \$80,000,000 is  
19 authorized to be appropriated for the Mid-Scale  
20 Research Infrastructure Program;

21 (D) \$710,000,000 is authorized to be ap-  
22 propriated for agency operations and award  
23 management;

1 (E) \$4,660,000 is authorized to be appro-  
2 priated for the Office of the National Science  
3 Board; and

4 (F) \$26,610,000 is authorized to be appro-  
5 priated for the Office of the Inspector General.

6 (c) FISCAL YEAR 2024.—

7 (1) IN GENERAL.—There are authorized to be  
8 appropriated to the Foundation \$15,945,020,000 for  
9 fiscal year 2024.

10 (2) SPECIFIC ALLOCATIONS.—Of the amount  
11 authorized under paragraph (1)—

12 (A) \$13,050,000,000 is authorized to be  
13 appropriated to carry out research and related  
14 activities, of which—

15 (i) \$70,000,000 is authorized to be  
16 appropriated for the Mid-Scale Research  
17 Infrastructure Program; and

18 (ii) \$2,900,000,000 is authorized to  
19 be appropriated for the Directorate for  
20 Science and Engineering Solutions;

21 (B) \$1,739,210,000 is authorized to be ap-  
22 propriated for education and human resources,  
23 of which—

1 (i) \$87,100,000 is authorized to be  
2 appropriated for the Robert Noyce Teacher  
3 Scholarship Program;

4 (ii) \$70,320,000 is authorized to be  
5 appropriated for the NSF Research  
6 Traineeship Program;

7 (iii) \$491,990,000 is authorized to be  
8 appropriated for the Graduate Research  
9 Fellowship Program; and

10 (iv) \$78,000,000 is authorized to be  
11 appropriated for the Cybercorps Scholar-  
12 ship for Service Program;

13 (C) \$370,000,000 is authorized to be ap-  
14 propriated for major research equipment and  
15 facilities construction, of which \$85,000,000 is  
16 authorized to be appropriated for the Mid-Scale  
17 Research Infrastructure Program;

18 (D) \$750,000,000 is authorized to be ap-  
19 propriated for agency operations and award  
20 management;

21 (E) \$4,700,000 is authorized to be appro-  
22 priated for the Office of the National Science  
23 Board; and

24 (F) \$31,110,000 is authorized to be appro-  
25 priated for the Office of the Inspector General.

1 (d) FISCAL YEAR 2025.—

2 (1) IN GENERAL.—There are authorized to be  
3 appropriated to the Foundation \$17,004,820,000 for  
4 fiscal year 2025.

5 (2) SPECIFIC ALLOCATIONS.—Of the amount  
6 authorized under paragraph (1)—

7 (A) \$14,000,000,000 is authorized to be  
8 appropriated to carry out research and related  
9 activities, of which—

10 (i) \$75,000,000 is authorized to be  
11 appropriated for the Mid-Scale Research  
12 Infrastructure Program; and

13 (ii) \$3,250,000,000 is authorized to  
14 be appropriated for the Directorate for  
15 Science and Engineering Solutions;

16 (B) \$1,823,470,000 is authorized to be ap-  
17 propriated for education and human resources,  
18 of which—

19 (i) \$93,800,000 is authorized to be  
20 appropriated for the Robert Noyce Teacher  
21 Scholarship Program;

22 (ii) \$75,730,000 is authorized to be  
23 appropriated for the NSF Research  
24 Traineeship Program;

1 (iii) \$529,830,000 is authorized to be  
2 appropriated for the Graduate Research  
3 Fellowship Program; and

4 (iv) \$84,000,000 is authorized to be  
5 appropriated for the Cybercorps Scholar-  
6 ship for Service Program;

7 (C) \$372,000,000 is authorized to be ap-  
8 propriated for major research equipment and  
9 facilities construction, of which \$90,000,000 is  
10 authorized to be appropriated for the Mid-Scale  
11 Research Infrastructure Program;

12 (D) \$770,000,000 is authorized to be ap-  
13 propriated for agency operations and award  
14 management;

15 (E) \$4,740,000 is authorized to be appro-  
16 priated for the Office of the National Science  
17 Board; and

18 (F) \$34,610,000 is authorized to be appro-  
19 priated for the Office of the Inspector General.

20 (e) FISCAL YEAR 2026.—

21 (1) IN GENERAL.—There are authorized to be  
22 appropriated to the Foundation \$17,939,490,000 for  
23 fiscal year 2026.

24 (2) SPECIFIC ALLOCATIONS.—Of the amount  
25 authorized under paragraph (1)—

1 (A) \$14,800,000,000 is authorized to be  
2 appropriated to carry out research and related  
3 activities, of which—

4 (i) \$80,000,000 is authorized to be  
5 appropriated for the Mid-Scale Research  
6 Infrastructure Program; and

7 (ii) \$3,400,000,000 is authorized to  
8 be appropriated for the Directorate for  
9 Science and Engineering Solutions;

10 (B) \$1,921,600,000 is authorized to be ap-  
11 propriated for education and human resources,  
12 of which—

13 (i) \$100,500,000 is authorized to be  
14 appropriated for the Robert Noyce Teacher  
15 Scholarship Program;

16 (ii) \$81,140,000 is authorized to be  
17 appropriated for the NSF Research  
18 Traineeship Program;

19 (iii) \$567,680,000 is authorized to be  
20 appropriated for the Graduate Research  
21 Fellowship Program; and

22 (iv) \$90,000,000 is authorized to be  
23 appropriated for the Cybercorps Scholar-  
24 ship for Service Program;

1 (C) \$375,000,000 is authorized to be ap-  
2 propriated for major research equipment and  
3 facilities construction, of which \$100,000,000 is  
4 authorized to be appropriated for the Mid-Scale  
5 Research Infrastructure Program;

6 (D) \$800,000,000 is authorized to be ap-  
7 propriated for agency operations and award  
8 management;

9 (E) \$4,780,000 is authorized to be appro-  
10 priated for the Office of the National Science  
11 Board; and

12 (F) \$38,110,000 is authorized to be appro-  
13 priated for the Office of the Inspector General.

14 **SEC. 10304. STEM EDUCATION.**

15 (a) PREK–12 STEM EDUCATION.—

16 (1) DECADAL SURVEY OF STEM EDUCATION RE-  
17 SEARCH.—Not later than 45 days after the date of  
18 enactment of this Act, the Director shall enter into  
19 a contract with the Academies to review and assess  
20 the status and opportunities for PreK–12 STEM  
21 education research and make recommendations for  
22 research priorities over the next decade.

23 (2) SCALING INNOVATIONS IN PREK–12 STEM  
24 EDUCATION.—

1           (A) IN GENERAL.—The Director shall es-  
2           tablish a program to award grants, on a com-  
3           petitive basis, to institutions of higher edu-  
4           cation or non-profit organizations (or consortia  
5           of such institutions or organizations) to estab-  
6           lish no fewer than 3 multidisciplinary Centers  
7           for Transformative Education Research and  
8           Translation (in this section referred to as “Cen-  
9           ters”) to support research and development on  
10          widespread and sustained implementation of  
11          STEM education innovations.

12          (B) APPLICATION.—An institution of high-  
13          er education or non-profit organization (or a  
14          consortium of such institutions or organiza-  
15          tions) seeking funding under subparagraph (A)  
16          shall submit an application to the Director at  
17          such time, in such manner, and containing such  
18          information as the Director may require. The  
19          application shall include, at a minimum, a de-  
20          scription of how the proposed Center will—

21                 (i) establish partnerships among aca-  
22                 demic institutions, local or State education  
23                 agencies, and other relevant stakeholders  
24                 in supporting programs and activities to  
25                 facilitate the widespread and sustained im-

1 plementation of promising, evidence-based  
2 STEM education practices, models, pro-  
3 grams, curriculum, and technologies;

4 (ii) support enhanced STEM edu-  
5 cation infrastructure, including  
6 cyberlearning technologies, to facilitate the  
7 widespread adoption of promising, evi-  
8 dence-based practices;

9 (iii) support research and development  
10 on scaling practices, partnerships, and al-  
11 ternative models to current approaches, in-  
12 cluding approaches sensitive to the unique  
13 combinations of capabilities, resources, and  
14 needs of varying localities, educators, and  
15 learners;

16 (iv) include a focus on the learning  
17 needs of under resourced schools and  
18 learners in low-resource or underachieving  
19 local education agencies in urban and rural  
20 communities and the development of high-  
21 quality curriculum that engages these  
22 learners in the knowledge and practices of  
23 STEM fields;

1 (v) include a focus on the learning  
2 needs and unique challenges facing stu-  
3 dents with disabilities; and

4 (vi) support research and development  
5 on scaling practices and models to support  
6 and sustain highly-qualified STEM edu-  
7 cators in urban and rural communities.

8 (C) ADDITIONAL CONSIDERATIONS.—In  
9 awarding a grant under this paragraph, the Di-  
10 rector may also consider the extent to which the  
11 proposed Center will—

12 (i) leverage existing collaborations,  
13 tools, and strategies supported by the  
14 Foundation, including NSF INCLUDES  
15 and the Convergence Accelerators;

16 (ii) support research on and the devel-  
17 opment and scaling of innovative ap-  
18 proaches to distance learning and edu-  
19 cation for various student populations;

20 (iii) support education innovations  
21 that leverage new technologies or deepen  
22 understanding of the impact of technology  
23 on educational systems; and

24 (iv) include a commitment from local  
25 or State education administrators to mak-

1           ing the proposed reforms and activities a  
2           priority.

3           (D) PARTNERSHIP.—In carrying out the  
4           program under subparagraph (A), the Director  
5           shall explore opportunities to partner with the  
6           Department of Education, including through  
7           jointly funding activities under this paragraph.

8           (E) ANNUAL MEETING.—The Director  
9           shall encourage and facilitate an annual meet-  
10          ing of the Centers to foster collaboration among  
11          the Centers and to further disseminate the re-  
12          sults of the Centers' activities.

13          (F) REPORT.—Not later than 5 years after  
14          the date of enactment of this Act, the Director  
15          shall submit to Congress a report describing the  
16          activities carried out pursuant to this para-  
17          graph that includes—

18                 (i) a description of the focus and pro-  
19                 posed goals of each Center; and

20                 (ii) an assessment of the program's  
21                 success in helping to promote scalable solu-  
22                 tions in PreK–12 STEM education.

23          (3) NATIONAL ACADEMIES STUDY.—Not later  
24          than 45 days after the date of enactment of this

1 Act, the Director shall enter into an agreement with  
2 the Academies to conduct a study to—

3 (A) review the research literature and iden-  
4 tify research gaps regarding the interconnected  
5 factors that foster and hinder successful imple-  
6 mentation of promising, evidence-based PreK–  
7 12 STEM education innovations at the local,  
8 regional, and national level;

9 (B) present a compendium of promising,  
10 evidence-based PreK–12 STEM education prac-  
11 tices, models, programs, and technologies;

12 (C) identify barriers to widespread and  
13 sustained implementation of such innovations;  
14 and

15 (D) make recommendations to the Founda-  
16 tion, the Department of Education, the Na-  
17 tional Science and Technology Council’s Com-  
18 mittee on Science, Technology, Engineering,  
19 and Mathematics Education, State and local  
20 educational agencies, and other relevant stake-  
21 holders on measures to address such barriers.

22 (4) SUPPORTING PRE-K–8 INFORMAL STEM OP-  
23 PORTUNITIES.—Section 3 of the STEM Education  
24 Act of 2015 (42 U.S.C. 1862q) is amended by add-  
25 ing at the end the following:

1 “(c) PRE-K–8 INFORMAL STEM PROGRAM.—

2 “(1) IN GENERAL.—The Director of the Na-  
3 tional Science Foundation shall provide grants to in-  
4 stitutions of higher education or a non-profit organi-  
5 zations (or a consortia of such intuitions or organi-  
6 zation) on a merit-reviewed, competitive basis for re-  
7 search on programming that engages students in  
8 grades PREK–8, including underrepresented and  
9 rural students, in STEM in order to prepare such  
10 students to pursue degrees or careers in STEM.

11 “(2) USE OF FUNDS.—

12 “(A) IN GENERAL.—Grants awarded under  
13 this section shall be used toward research to ad-  
14 vance the engagement of students, including  
15 underrepresented and rural students, in grades  
16 PREK–8 in STEM through providing before-  
17 school, after-school, out-of-school, or summer  
18 activities, including in single-gender environ-  
19 ments or programming, that are designed to en-  
20 courage interest, engagement, and skills devel-  
21 opment for students in STEM.

22 “(B) PERMITTED ACTIVITIES.—The activi-  
23 ties described in subparagraph (A) may in-  
24 clude—

1           “(i) the provision of programming de-  
2           scribed in such subparagraph for the pur-  
3           pose of research described in such subpara-  
4           graph;

5           “(ii) the use of a variety of engage-  
6           ment methods, including cooperative and  
7           hands-on learning;

8           “(iii) exposure of students to role  
9           models in the fields of STEM and near-  
10          peer mentors;

11          “(iv) training of informal learning  
12          educators, youth-serving professionals, and  
13          volunteers who lead informal STEM pro-  
14          grams in using evidence-based methods  
15          consistent with the target student popu-  
16          lation being served;

17          “(v) education of students on the rel-  
18          evance and significance of STEM careers,  
19          provision of academic advice and assist-  
20          ance, and activities designed to help stu-  
21          dents make real-world connections to  
22          STEM content;

23          “(vi) the attendance of students at  
24          events, competitions, and academic pro-  
25          grams to provide content expertise and en-

1 courage career exposure in STEM, which  
2 may include the purchase of parts and sup-  
3 plies needed to participate in such competi-  
4 tions;

5 “(vii) activities designed to engage  
6 parents and families of students in grades  
7 PREK–8 in STEM;

8 “(viii) innovative strategies to engage  
9 students, such as using leadership skills  
10 and outcome measures to impart youth  
11 with the confidence to pursue STEM  
12 coursework and academic study;

13 “(ix) coordination with STEM-rich  
14 environments, including other nonprofit,  
15 nongovernmental organizations, out-of-  
16 classroom settings, single-gender environ-  
17 ments, institutions of higher education, vo-  
18 cational facilities, corporations, museums,  
19 or science centers; and

20 “(x) the acquisition of instructional  
21 materials or technology-based tools to con-  
22 duct applicable grant activity.

23 “(3) APPLICATION.—An applicant seeking  
24 funding under the section shall submit an applica-  
25 tion at such time, in such manner, and containing

1 such information as may be required. Applications  
2 that include or partner with a nonprofit, nongovern-  
3 mental organization that has extensive experience  
4 and expertise in increasing the participation of stu-  
5 dents in PREK–8 in STEM are encouraged. The  
6 application may include the following:

7 “(A) A description of the target audience  
8 to be served by the research activity or activi-  
9 ties for which such funding is sought.

10 “(B) A description of the process for re-  
11 cruitment and selection of students to partici-  
12 pate in such activities.

13 “(C) A description of how such activity or  
14 activities may inform programming that en-  
15 engages students in grades PREK–8 in STEM.

16 “(D) A description of how such activity or  
17 activities may inform programming that pro-  
18 motes student academic achievement in STEM.

19 “(E) An evaluation plan that includes, at  
20 a minimum, the use of outcome-oriented meas-  
21 ures to determine the impact and efficacy of  
22 programming being researched.

23 “(4) EVALUATIONS.—Each recipient of a grant  
24 under this section shall provide, at the conclusion of  
25 every year during which the grant funds are re-

1       ceived, an evaluation in a form prescribed by the Di-  
2       rector.

3           “(5) ACCOUNTABILITY AND DISSEMINATION.—

4           “(A) EVALUATION REQUIRED.—The Direc-  
5       tor shall evaluate the activities established  
6       under this section. Such evaluation shall—

7           “(i) use a common set of benchmarks  
8       and tools to assess the results of research  
9       conducted under such grants; and

10          “(ii) to the extent practicable, inte-  
11       grate the findings of the research resulting  
12       from the activity or activities funded  
13       through the grant with the current re-  
14       search on serving students with respect to  
15       the pursuit of degrees or careers in STEM,  
16       including underrepresented and rural stu-  
17       dents, in grades PREK–8.

18          “(B) REPORT ON EVALUATIONS.—Not  
19       later than 180 days after the completion of the  
20       evaluation under subparagraph (A), the Direc-  
21       tor shall submit to Congress and make widely  
22       available to the public a report that includes—

23          “(i) the results of the evaluation; and

24          “(ii) any recommendations for admin-  
25       istrative and legislative action that could

1           optimize the effectiveness of the program  
2           under this section.

3           “(6) COORDINATION.—In carrying out this sec-  
4           tion, the Director shall, for purposes of enhancing  
5           program effectiveness and avoiding duplication of ac-  
6           tivities, consult, cooperate, and coordinate with the  
7           programs and policies of other relevant Federal  
8           agencies.”.

9           (b) UNDERGRADUATE STEM EDUCATION.—

10           (1) RESEARCH ON STEM EDUCATION AND  
11           WORKFORCE NEEDS.—The Director shall award  
12           grants, on a competitive basis, to four-year institu-  
13           tions of higher education or non-profit organizations  
14           (or consortia of such institutions or organizations) to  
15           support research and development activities to—

16           (A) encourage greater collaboration and  
17           coordination between institutions of higher edu-  
18           cation and industry to enhance education, foster  
19           hands-on learn experiences, and improve align-  
20           ment with workforce needs;

21           (B) understand the current composition of  
22           the STEM workforce and the factors that influ-  
23           ence growth, retention, and development of that  
24           workforce;

1           (C) increase the size, diversity, capability,  
2           and flexibility of the STEM workforce; and

3           (D) increase dissemination and widespread  
4           adoption of effective practices in undergraduate  
5           education and workforce development.

6           (2) ADVANCED TECHNOLOGICAL EDUCATION  
7           PROGRAM UPDATE.—Section 3(b) of the Scientific  
8           and Advanced-Technology Act of 1992 (42 U.S.C.  
9           1862i(b)) is amended to read as follows:

10          “(b) NATIONAL COORDINATION NETWORK FOR  
11          SCIENCE AND TECHNICAL EDUCATION.—The Director  
12          shall award grants to institutions of higher education,  
13          non-profit organizations, and associate-degree granting  
14          colleges (or consortia of such institutions or organizations)  
15          to establish a network of centers for science and technical  
16          education. The centers shall—

17                 “(1) coordinate research, training, and edu-  
18                 cation activities funded by awards under subsection  
19                 (a) and share information and best practices across  
20                 the network of awardees;

21                 “(2) serve as a national and regional clearing-  
22                 house and resource to communicate and coordinate  
23                 research, training, and educational activities across  
24                 disciplinary, organizational, geographic, and inter-

1 national boundaries and disseminate best practices;  
2 and

3 “(3) develop national and regional partnerships  
4 between PreK–12 schools, two-year colleges, institu-  
5 tions of higher education, workforce development  
6 programs, labor organizations, and industry to meet  
7 workforce needs.”.

8 (3) INNOVATIONS IN STEM EDUCATION AT COM-  
9 MUNITY COLLEGES.—

10 (A) IN GENERAL.—The Director shall  
11 award grants on a merit-reviewed, competitive  
12 basis to institutions of higher education or non-  
13 profit organizations (or consortia of such insti-  
14 tutions or organizations) to advance research on  
15 the nature of learning and teaching at commu-  
16 nity colleges and to improve outcomes for stu-  
17 dents who enter the workforce upon completion  
18 of their STEM degree or credential or transfer  
19 to 4-year institutions, including by—

20 (i) examining how to scale up success-  
21 ful programs at Community Colleges that  
22 are improving student outcomes in  
23 foundational STEM courses;

- 1                   (ii) supporting research on effective  
2                   STEM teaching practices in community  
3                   college settings;
- 4                   (iii) designing and developing new  
5                   STEM curricula;
- 6                   (iv) providing STEM students with  
7                   hands-on training and research experi-  
8                   ences, internships, and other experiential  
9                   learning opportunities;
- 10                  (v) increasing access to high quality  
11                  STEM education through new tech-  
12                  nologies;
- 13                  (vi) re-skilling or up-skilling incum-  
14                  bent workers for new STEM jobs;
- 15                  (vii) building STEM career and seam-  
16                  less transfer pathways; and
- 17                  (viii) developing novel mechanisms to  
18                  identify and recruit talent into STEM pro-  
19                  grams, in particular talent from groups  
20                  historically underrepresented in STEM.
- 21                  (B) PARTNERSHIPS.—In carrying out ac-  
22                  tivities under this paragraph, the Director shall  
23                  encourage applications to develop, enhance, or  
24                  expand cooperative STEM education and train-

1           ing partnerships between institutions of higher  
2           education, industry, and labor organizations.

3           (4) IMPROVING ACCESS TO STEM EDUCATION  
4           AT CTE INSTITUTIONS.—

5                   (A) IN GENERAL.—The Director shall  
6           award grants, on a competitive basis, to institu-  
7           tions of higher education (including  
8           postsecondary vocational institutions) to support  
9           career and technical education in STEM and  
10          computer science related fields.

11                   (B) PRIORITY.—In awarding grants under  
12          subparagraph (A), the Director shall give pri-  
13          ority to institutions that demonstrate effective  
14          strategies to recruit and provide career and  
15          technical education to veterans and members of  
16          the Armed Forces transitioning to the private  
17          sector workforce.

18                   (C) CAREER AND TECHNICAL EDUCATION  
19          DEFINED.—In this paragraph, the term “career  
20          and technical education” has the meaning given  
21          that term in section 3 of the Carl D. Perkins  
22          Career and Technical Education Act of 2006  
23          (20 U.S.C. 2302).

24           (5) COURSE-BASED UNDERGRADUATE RE-  
25          SEARCH EXPERIENCES.—

1           (A) IN GENERAL.—The Director shall  
2 carry out a 4-year pilot program under which  
3 the Director shall award grants, on a competi-  
4 tive basis, to institutions of higher education  
5 and non-profit organizations (or consortia of  
6 such institutions or organizations) to establish  
7 a total of not fewer than five Centers to develop  
8 and scale up successful models for providing  
9 undergraduate students with hands-on, dis-  
10 covery-based research courses.

11           (B) USE OF FUNDS.—Grants made under  
12 this paragraph shall be used to—

13           (i) develop, assess, and disseminate  
14 models for providing undergraduate stu-  
15 dents with course-based research experi-  
16 ences across STEM disciplines and edu-  
17 cation levels;

18           (ii) identify and address opportunities  
19 and challenges in facilitating implementa-  
20 tion across a broad range of institution  
21 types, including minority-serving institu-  
22 tions and community colleges;

23           (iii) identify and develop best prac-  
24 tices to address barriers for faculty, includ-

1           ing institutional culture, resources, and in-  
2           centive structures;

3                   (iv) identify and address factors that  
4           may facilitate or discourage participation  
5           by students from all backgrounds;

6                   (v) provide faculty with curriculum,  
7           professional development, training, net-  
8           working opportunities, and other support  
9           to enable the development, adaptation, or  
10          expansion of a discovery-based research  
11          course; and

12                   (vi) collect data and carry out re-  
13          search to evaluate the impacts of course-  
14          based undergraduate research experiences  
15          on the STEM workforce.

16           (C) PARTNERSHIPS.—In making awards  
17          under this paragraph, the Director shall con-  
18          sider the extent to which the proposed Center  
19          will establish partnerships among multiple types  
20          of academic institutions, including community  
21          colleges, emerging research institutions, histori-  
22          cally Black colleges and universities, Tribal Col-  
23          leges or Universities, and minority serving insti-  
24          tutions, the private sector, and other relevant  
25          stakeholders in supporting programs and activi-

1 ties to facilitate faculty training and the wide-  
2 spread and sustained implementation of prom-  
3 ising, evidence-based practices, models, pro-  
4 grams, and curriculum.

5 (D) REPORT.—Not later than 180 days  
6 after the date on which the pilot program is  
7 completed, the Director shall submit to Con-  
8 gress a report that includes—

9 (i) an assessment, that includes feed-  
10 back from the research community, of the  
11 effectiveness of the pilot program in in-  
12 creasing the number, diversity, and work-  
13 force readiness of STEM graduates; and

14 (ii) if determined to be effective, a  
15 plan for permanent implementation of the  
16 pilot program.

17 (c) ADVANCED TECHNOLOGICAL MANUFACTURING  
18 ACT.—

19 (1) FINDINGS AND PURPOSE.—Section 2 of the  
20 Scientific and Advanced-Technology Act of 1992 (42  
21 U.S.C. 1862h) is amended—

22 (A) in subsection (a)—

23 (i) in paragraph (3), by striking  
24 “science, mathematics, and technology”

1 and inserting “science, technology, engi-  
2 neering, and mathematics or STEM”;

3 (ii) in paragraph (4), by inserting  
4 “educated” and before “trained”; and

5 (iii) in paragraph (5), by striking  
6 “scientific and technical education and  
7 training” and inserting “STEM education  
8 and training”; and

9 (B) in subsection (b)—

10 (i) in paragraph (2), by striking  
11 “mathematics and science” and inserting  
12 “STEM fields”; and

13 (ii) in paragraph (4), by striking  
14 “mathematics and science instruction” and  
15 inserting “STEM instruction”.

16 (2) MODERNIZING REFERENCES TO STEM.—

17 Section 3 of the Scientific and Advanced-Technology  
18 Act of 1992 (42 U.S.C. 1862i) is amended—

19 (A) in the section heading, by striking  
20 “**SCIENTIFIC AND TECHNICAL EDUCATION**  
21 ” and inserting “**STEM EDUCATION**”;

22 (B) in subsection (a)—

23 (i) in the subsection heading, by strik-  
24 ing “**SCIENTIFIC AND TECHNICAL EDU-**

1           CATION ” and inserting “STEM EDU-  
2           CATION”;

3           (ii) in the matter preceding paragraph  
4           (1)—

5                 (I) by inserting “and education  
6                 to prepare the skilled technical work-  
7                 force to meet workforce demands” be-  
8                 fore “, and to improve”;

9                 (II) by striking “core education  
10                courses in science and mathematics”  
11                and inserting “core education courses  
12                in STEM fields”;

13                (III) by inserting “veterans and  
14                individuals engaged in” before “work  
15                in the home”; and

16                (IV) by inserting “and on build-  
17                ing a pathway from secondary schools,  
18                to associate-degree-granting institu-  
19                tions, to careers that require technical  
20                training” before “, and shall be de-  
21                signed”;

22           (iii) in paragraph (1)—

23                 (I) by inserting “and study”  
24                 after “development”; and

1 (II) by striking “core science and  
2 mathematics courses” and inserting  
3 “core STEM courses”;

4 (iv) in paragraph (2), by striking  
5 “science, mathematics, and advanced-tech-  
6 nology fields” and inserting “STEM and  
7 advanced-technology fields”;

8 (v) in paragraph (3)(A), by inserting  
9 “to support the advanced-technology indus-  
10 tries that drive the competitiveness of the  
11 United States in the global economy” be-  
12 fore the semicolon at the end;

13 (vi) in paragraph (4), by striking “sci-  
14 entific and advanced-technology fields” and  
15 inserting “STEM and advanced-technology  
16 fields”; and

17 (vii) in paragraph (5), by striking  
18 “advanced scientific and technical edu-  
19 cation” and inserting “advanced STEM  
20 and advanced-technology”;

21 (C) in subsection (c)—

22 (i) in paragraph (1)—

23 (I) in subparagraph (A)—

24 (aa) in the matter preceding  
25 clause (i), by striking “to encour-

1 age” and all that follows through  
2 “such means as—” and inserting  
3 “to encourage the development of  
4 career and educational pathways  
5 with multiple entry and exit  
6 points leading to credentials and  
7 degrees, and to assist students  
8 pursuing pathways in STEM  
9 fields to transition from asso-  
10 ciate-degree-granting colleges to  
11 bachelor-degree-granting institu-  
12 tions, through such means as—”;

13 (bb) in clause (i), by striking  
14 “to ensure” and inserting “to de-  
15 velop articulation agreements  
16 that ensure”; and

17 (cc) in clause (ii), by strik-  
18 ing “courses at the bachelor-de-  
19 gree-granting institution” and in-  
20 sserting “the career and edu-  
21 cational pathways supported by  
22 the articulation agreements”;

23 (II) in subparagraph (B)—

24 (aa) in clause (i), by insert-  
25 ing “veterans and individuals en-

1 gaged in” before “work in the  
2 home”;

3 (bb) in clause (iii)—

4 (AA) by striking “bach-  
5 elor’s-degree-granting insti-  
6 tutions” and inserting “in-  
7 stitutions or work sites”;  
8 and

9 (BB) by inserting “or  
10 industry internships” after  
11 “summer programs”; and

12 (cc) by striking the flush  
13 text following clause (iv); and

14 (III) by striking subparagraph  
15 (C);

16 (ii) in paragraph (2)—

17 (I) by striking “mathematics and  
18 science programs” and inserting  
19 “STEM programs”;

20 (II) by inserting “and, as appro-  
21 priate, elementary schools,” after  
22 “with secondary schools”;

23 (III) by striking “mathematics  
24 and science education” and inserting  
25 “STEM education”;

1 (IV) by striking “secondary  
2 school students” and inserting “stu-  
3 dents at these schools”;

4 (V) by striking “science and ad-  
5 vanced-technology fields” and insert-  
6 ing “STEM and advanced-technology  
7 fields”; and

8 (VI) by striking “agreements  
9 with local educational agencies” and  
10 inserting “articulation agreements or  
11 dual credit courses with local sec-  
12 ondary schools, or other means as the  
13 Director determines appropriate,”;  
14 and

15 (iii) in paragraph (3)—

16 (I) by striking subparagraph (B);

17 (II) by striking “shall—”and all  
18 that follows through “establish a” and  
19 inserting “shall establish a”;

20 (III) by striking “the fields of  
21 science, technology, engineering, and  
22 mathematics” and inserting “STEM  
23 fields”; and

1 (IV) by striking “; and” and in-  
2 serting “, including jobs at Federal  
3 and academic laboratories.”;

4 (D) in subsection (d)(2)—

5 (i) in subparagraph (D), by striking  
6 “and” after the semicolon;

7 (ii) in subparagraph (E), by striking  
8 the period at the end and inserting a “;  
9 and”; and

10 (iii) by adding at the end the fol-  
11 lowing:

12 “(F) as appropriate, applications that  
13 apply the best practices for STEM education  
14 and technical skills education through distance  
15 learning or in a simulated work environment, as  
16 determined by research described in subsection  
17 (f); and”;

18 (E) in subsection (g), by striking the sec-  
19 ond sentence;

20 (F) in subsection (h)(1)—

21 (i) in subparagraph (A), by striking  
22 “2022” and inserting “2026”;

23 (ii) in subparagraph (B), by striking  
24 “2022” and inserting “2026”; and

25 (iii) in subparagraph (C)—

1 (I) by striking “up to  
2 \$2,500,000” and inserting “not less  
3 than \$3,000,000”; and

4 (II) by striking “2022” and in-  
5 serting “2026”;

6 (G) in subsection (i)—

7 (i) by striking paragraph (3); and

8 (ii) by redesignating paragraphs (4)  
9 and (5) as paragraphs (3) and (4), respec-  
10 tively; and

11 (H) in subsection (j)—

12 (i) by striking paragraph (1) and in-  
13 serting the following:

14 “(1) the term advanced-technology includes  
15 technological fields such as advanced manufacturing,  
16 agricultural-, biological- and chemical-technologies,  
17 energy and environmental technologies, engineering  
18 technologies, information technologies, micro and  
19 nano-technologies, cybersecurity technologies,  
20 geospatial technologies, and new, emerging tech-  
21 nology areas;”;

22 (ii) in paragraph (4), by striking  
23 “separate bachelor-degree-granting institu-  
24 tions” and inserting “other entities”;

25 (iii) by striking paragraph (7);

1 (iv) by redesignating paragraphs (8)  
2 and (9) as paragraphs (7) and (8), respec-  
3 tively;

4 (v) in paragraph (7), as redesignated  
5 by subparagraph (D), by striking “and”  
6 after the semicolon;

7 (vi) in paragraph (8), as redesignated  
8 by subparagraph (D)—

9 (I) by striking “mathematics,  
10 science, engineering, or technology”  
11 and inserting “science, technology, en-  
12 gineering, or mathematics”; and

13 (II) by striking the period at the  
14 end and inserting “; and”; and

15 (vii) by adding at the end the fol-  
16 lowing:

17 “(9) the term skilled technical workforce means  
18 workers—

19 “(A) in occupations that use significant  
20 levels of science and engineering expertise and  
21 technical knowledge; and

22 “(B) whose level of educational attainment  
23 is less than a bachelor degree.”.

24 (3) AUTHORIZATION OF APPROPRIATIONS.—

25 Section 5 of the Scientific and Advanced-Technology

1 Act of 1992 (42 U.S.C. 1862j) is amended to read  
2 as follows:

3 **“SEC. 5. AUTHORIZATION OF APPROPRIATIONS.**

4 “There are authorized to be appropriated to the Di-  
5 rector for carrying out sections 2 through 4, \$150,000,000  
6 for fiscal years 2022 through 2026.”.

7 (d) GRADUATE STEM EDUCATION.—

8 (1) MENTORING AND PROFESSIONAL DEVELOP-  
9 MENT.—

10 (A) MENTORING PLANS.—

11 (i) UPDATE.—Section 7008 of the  
12 America Creating Opportunities to Mean-  
13 ingfully Promote Excellence in Technology,  
14 Education, and Science Act (42 U.S.C.  
15 1862o) is amended by—

16 (I) inserting “and graduate stu-  
17 dent” after “postdoctoral”; and

18 (II) inserting “The requirement  
19 may be satisfied by providing such in-  
20 dividuals with access to mentors, in-  
21 cluding individuals not listed on the  
22 grant.” after “review criterion.”.

23 (ii) EVALUATION.—Not later than 45  
24 days after the date of enactment of this  
25 Act, the Director shall enter into an agree-

1           ment with a qualified independent organi-  
2           zation to evaluate the effectiveness of the  
3           postdoctoral mentoring plan requirement  
4           for improving mentoring for Foundation-  
5           supported postdoctoral researchers.

6           (B) CAREER EXPLORATION.—

7           (i) IN GENERAL.—The Director shall  
8           award grants, on a competitive basis, to in-  
9           stitutions of higher education and non-  
10          profit organizations (or consortia of such  
11          institutions or organizations) to develop in-  
12          novative approaches for facilitating career  
13          exploration of academic and non-academic  
14          career options and for providing oppor-  
15          tunity-broadening experiences, including  
16          work-integrated opportunities, for graduate  
17          students and postdoctoral scholars that  
18          can then be considered, adopted, or adapt-  
19          ed by other institutions and to carry out  
20          research on the impact and outcomes of  
21          such activities.

22          (ii) REVIEW OF PROPOSALS.—In se-  
23          lecting grant recipients under this subpara-  
24          graph, the Director shall consider, at a  
25          minimum—

1 (I) the extent to which the ad-  
2 ministrators of the institution are  
3 committed to making the proposed ac-  
4 tivity a priority; and

5 (II) the likelihood that the insti-  
6 tution or organization will sustain or  
7 expand the proposed activity effort be-  
8 yond the period of the grant.

9 (C) DEVELOPMENT PLANS.—The Director  
10 shall require that annual project reports for  
11 awards that support graduate students and  
12 postdoctoral scholars include certification by the  
13 principal investigator that each graduate stu-  
14 dent and postdoctoral scholar receiving substan-  
15 tial support from such award, as determined by  
16 the Director, in consultation with faculty advi-  
17 sors, has developed and annually updated an in-  
18 dividual development plan to map educational  
19 goals, career exploration, and professional de-  
20 velopment.

21 (D) PROFESSIONAL DEVELOPMENT SUP-  
22 PLEMENT.—The Director shall carry out a five-  
23 year pilot initiative to award up to 2,500 ad-  
24 ministrative supplements of up to \$2,000 to ex-  
25 isting research grants annually, on a competi-

1           tive basis, to support professional development  
2           experiences for graduate students and  
3           postdoctoral researchers who receive a substan-  
4           tial portion of their support under such grants,  
5           as determined by the Director. Not more than  
6           10 percent of supplements awarded under this  
7           subparagraph may be used to support profes-  
8           sional development experiences for postdoctoral  
9           researchers.

10                   (E) GRADUATE EDUCATION RESEARCH.—

11           The Director shall award grants, on a competi-  
12           tive basis, to institutions of higher education or  
13           non-profit organizations (or consortia of such  
14           institutions or organizations) to support re-  
15           search on the graduate education system and  
16           outcomes of various interventions and policies,  
17           including—

18                   (i) the effects of traineeships, fellow-  
19                   ships, internships, and teaching and re-  
20                   search assistantships on outcomes for  
21                   graduate students;

22                   (ii) the effects of graduate education  
23                   and mentoring policies and procedures on  
24                   degree completion, including differences  
25                   by—

1 (I) gender, race and ethnicity,  
2 sexual orientation, gender identity,  
3 and citizenship; and

4 (II) student debt load;

5 (iii) the development and assessment  
6 of new or adapted interventions, including  
7 approaches that improve mentoring rela-  
8 tionships, develop conflict management  
9 skills, and promote healthy research teams;  
10 and

11 (iv) research, data collection, and as-  
12 sessment of the state of graduate student  
13 mental health and wellbeing, factors con-  
14 tributing to and consequences of poor  
15 graduate student mental health, and the  
16 development, adaptation, and assessment  
17 of evidence-based strategies and policies to  
18 support emotional wellbeing and mental  
19 health.

20 (2) GRADUATE RESEARCH FELLOWSHIP PRO-  
21 GRAM UPDATE.—

22 (A) SENSE OF CONGRESS.—It is the sense  
23 of Congress that the Foundation should in-  
24 crease the number of new graduate research fel-

1            lows supported annually over the next 5 years  
2            to no fewer than 3,000 fellows.

3            (B) PROGRAM UPDATE.—Section 10 of the  
4            National Science Foundation Act of 1950 (42  
5            U.S.C. 1869) is amended—

6                    (i) in subsection (a), by inserting  
7                    “and as will address national workforce de-  
8                    mand in critical STEM fields” after  
9                    “throughout the United States”;

10                    (ii) in subsection (b), by striking “of  
11                    \$12,000” and inserting “of at least  
12                    \$16,000”; and

13                    (iii) by adding at the end the fol-  
14                    lowing:

15            “(c) OUTREACH.—The Director shall ensure program  
16            outreach to recruit fellowship applicants from fields of  
17            study that are in areas of critical national need, from all  
18            regions of the country, and from historically underrep-  
19            resented populations in STEM.”.

20            (C) CYBERSECURITY SCHOLARSHIPS AND  
21            GRADUATE FELLOWSHIPS.—The Director shall  
22            ensure that students pursuing master’s degrees  
23            and doctoral degrees in fields relating to cyber-  
24            security are considered as applicants for schol-  
25            arships and graduate fellowships under the

1 Graduate Research Fellowship Program under  
2 section 10 of the National Science Foundation  
3 Act of 1950 (42 U.S.C. 1869).

4 (3) STUDY ON GRADUATE STUDENT FUND-  
5 ING.—

6 (A) IN GENERAL.—Not later than 45 days  
7 after the date of enactment of this Act, the Di-  
8 rector shall enter into an agreement with a  
9 qualified independent organization to evalu-  
10 ate—

11 (i) the role of the Foundation in sup-  
12 porting graduate student education and  
13 training through fellowships, traineeships,  
14 and other funding models; and

15 (ii) the impact of different funding  
16 mechanisms on graduate student experi-  
17 ences and outcomes, including whether  
18 such mechanisms have differential impacts  
19 on subsets of the student population.

20 (B) REPORT.—Not later than 1 year after  
21 the date of enactment of this Act, the organiza-  
22 tion charged with carrying out the study under  
23 subparagraph (A) shall publish the results of its  
24 evaluation, including a recommendation for the

1           appropriate balance between fellowships,  
2           traineeships, and other funding models.

3           (4) FELLOWSHIPS AND TRAINEESHIPS FOR  
4           EARLY-CAREER AI RESEARCHERS.—

5                   (A)       ARTIFICIAL       INTELLIGENCE  
6           TRAINEESHIPS.—

7                           (i) IN GENERAL.—The Director shall  
8                           award grants to institutions of higher edu-  
9                           cation to establish traineeship programs  
10                          for graduate students who pursue artificial  
11                          intelligence-related research leading to a  
12                          masters or doctorate degree by providing  
13                          funding and other assistance, and by pro-  
14                          viding graduate students opportunities for  
15                          research experiences in government or in-  
16                          dustry related to the students' artificial in-  
17                          telligence studies.

18                           (ii) USE OF FUNDS.—A institution of  
19                           higher education shall use grant funds pro-  
20                           vided under clause (i) for the purposes  
21                           of—

22                                   (I) providing traineeships to stu-  
23                                   dents who are pursuing research in  
24                                   artificial intelligence leading to a mas-  
25                                   ters or doctorate degree;

1 (II) paying tuition and fees for  
2 students receiving traineeships;

3 (III) creating and requiring  
4 courses or training programs in tech-  
5 nology ethics for students receiving  
6 traineeships;

7 (IV) creating opportunities for  
8 research in technology ethics for stu-  
9 dents receiving traineeships;

10 (V) establishing scientific intern-  
11 ship programs for students receiving  
12 traineeships in artificial intelligence at  
13 for-profit institutions, nonprofit re-  
14 search institutions, or government lab-  
15 oratories; and

16 (VI) other costs associated with  
17 the administration of the program.

18 (B) ARTIFICIAL INTELLIGENCE FELLOW-  
19 SHIPS.—The Director shall award fellowships to  
20 masters and doctoral students and postdoctoral  
21 researchers who are pursuing degrees or re-  
22 search in artificial intelligence and related  
23 fields, including in the field of technology eth-  
24 ics. In making such awards, the Director shall  
25 conduct outreach, including through formal so-

1           licitations, to solicit proposals from students  
2           and postdoctoral researchers seeking to carry  
3           out research in aspects of technology ethics  
4           with relevance to artificial intelligence systems.

5           (e) STEM WORKFORCE DATA.—

6           (1) SKILLED TECHNICAL WORKFORCE PORT-  
7           FOLIO REVIEW.—

8           (A) IN GENERAL.—Not later than 1 year  
9           after the date of enactment of this Act, the Di-  
10          rector shall conduct a full portfolio analysis of  
11          the Foundation’s skilled technical workforce in-  
12          vestments across all Directorates in the areas of  
13          education, research, infrastructure, data collec-  
14          tion, and analysis.

15          (B) REPORT.—Not later than 180 days  
16          after the date of the review under subparagraph  
17          (A) is complete, the Director shall submit to  
18          Congress and make widely available to the pub-  
19          lic a summary report of the portfolio review.

20          (2) SURVEY DATA.—

21          (A) ROTATING TOPIC MODULES.—To meet  
22          evolving needs for data on the state of the  
23          science and engineering workforce, the Director  
24          shall assess, through coordination with other  
25          Federal statistical agencies and drawing on

1 input from relevant stakeholders, the feasibility  
2 and benefits of incorporating questions or topic  
3 modules to existing National Center for Science  
4 and Engineering Statistics surveys that would  
5 vary from cycle to cycle.

6 (B) NEW DATA.—Not later than 1 year  
7 after the date of enactment of this Act, the Di-  
8 rector shall submit to Congress and the Board  
9 the results of an assessment, carried out in co-  
10 ordination with other Federal agencies and with  
11 input from relevant stakeholders, of the feasi-  
12 bility and benefits of incorporating new ques-  
13 tions or topic modules to existing National Cen-  
14 ter for Science and Engineering Statistics sur-  
15 veys on—

- 16 (i) the skilled technical workforce;  
17 (ii) working conditions and work-life  
18 balance;  
19 (iii) harassment and discrimination;  
20 (iv) sexual orientation and gender  
21 identity;  
22 (v) immigration and emigration; and  
23 (vi) any other topics at the discretion  
24 of the Director.

1           (C) LONGITUDINAL DESIGN.—The Direc-  
2           tor shall continue and accelerate efforts to en-  
3           hance the usefulness of National Center for  
4           Science and Engineering Statistics survey data  
5           for longitudinal research and analysis.

6           (D) GOVERNMENT ACCOUNTABILITY OF-  
7           FICE REVIEW.—Not later than 1 year after the  
8           date of enactment of this Act, the Comptroller  
9           General of the United States shall submit a re-  
10          port to Congress that—

11                 (i) evaluates Foundation processes for  
12                 ensuring the data and analysis produced  
13                 by the National Center for Science and  
14                 Engineering Statistics meets current and  
15                 future needs; and

16                 (ii) includes such recommendations as  
17                 the Comptroller General determines are  
18                 appropriate to improve such processes.

19          (f) CYBER WORKFORCE DEVELOPMENT RESEARCH  
20          AND DEVELOPMENT.—

21                 (1) IN GENERAL.—The Director shall award  
22                 grants on a merit-reviewed, competitive basis to in-  
23                 stitutions of higher education or non-profit organiza-  
24                 tions (or a consortia of such institutions or organiza-  
25                 tions) to carry out research on the cyber workforce.

1           (2) RESEARCH.—In carrying out research pur-  
2           suant to paragraph (1), the Director shall support  
3           research and development activities to—

4                   (A) understand the current state of the  
5                   cyber workforce, including factors that influence  
6                   growth, retention, and development of that  
7                   workforce;

8                   (B) examine paths to entry and re-entry  
9                   into the cyber workforce;

10                  (C) understand trends of the cyber work-  
11                  force, including demographic representation,  
12                  educational and professional backgrounds  
13                  present, competencies available, and factors  
14                  that shape employee recruitment, development,  
15                  and retention and how to increase the size, di-  
16                  versity, and capability of the cyber workforce;

17                  (D) examine and evaluate training prac-  
18                  tices, models, programs, and technologies; and

19                  (E) other closely related topics as the Di-  
20                  rector determines appropriate.

21           (3) REQUIREMENTS.—In carrying out the ac-  
22           tivities described in paragraph (2), the Director  
23           shall—

24                   (A) collaborate with the National Institute  
25                   of Standards and Technology, including the Na-

1           tional Initiative for Cybersecurity Education,  
2           the Department of Homeland Security, the De-  
3           partment of Defense, the Office of Personnel  
4           Management, and other Federal departments  
5           and agencies, as appropriate;

6           (B) align with or build on the National  
7           Initiative on Cybersecurity Education Cyberse-  
8           curity Workforce Framework wherever prac-  
9           ticable and applicable;

10          (C) leverage the collective body of knowl-  
11          edge from existing cyber workforce development  
12          research and education activities; and

13          (D) engage with other Federal depart-  
14          ments and agencies, research communities, and  
15          potential users of information produced under  
16          this subsection.

17          (g) FEDERAL CYBER SCHOLARSHIP-FOR-SERVICE  
18 PROGRAM.—

19           (1) SENSE OF CONGRESS.—It is the sense of  
20 Congress that—

21           (A) since cybersecurity risks are constant  
22           in the growing digital world, it is critical that  
23           the United States stay ahead of malicious cyber  
24           activity with a workforce that can safeguard

1 our innovation, research, and work environ-  
2 ments; and

3 (B) Federal investments in the Federal  
4 Cyber Scholarship-for-Service Program at the  
5 National Science Foundation play a critical role  
6 in preparing and sustaining a strong, talented,  
7 and much-needed national cybersecurity work-  
8 force and should be strengthened.

9 (2) IN GENERAL.—Section 302(b)(1) of the Cy-  
10 bersecurity Enhancement Act of 2014 (15 U.S.C.  
11 7442(b)(1)) is amended by striking the semicolon at  
12 the end and inserting the following “and cybersecu-  
13 rity-related aspects of other related fields as appro-  
14 priate, including artificial intelligence, quantum com-  
15 puting and aerospace;”.

16 (h) CYBERSECURITY WORKFORCE DATA INITIA-  
17 TIVE.—The Director, acting through the National Center  
18 for Science and Engineering Statistics established in sec-  
19 tion 505 of the America COMPETES Reauthorization Act  
20 of 2010 (42 U.S.C. 1862p) and in coordination with the  
21 Director of the National Institute of Standards and Tech-  
22 nology and other appropriate Federal statistical agencies,  
23 shall establish a cybersecurity workforce data initiative  
24 that—

1           (1) assesses the feasibility of providing nation-  
2           ally representative estimates and statistical informa-  
3           tion on the cybersecurity workforce;

4           (2) utilizes the National Initiative for Cyberse-  
5           curity Education (NICE) Cybersecurity Workforce  
6           Framework (NIST Special Publication 800–181), or  
7           other frameworks, as appropriate, to enable a con-  
8           sistent measurement of the cybersecurity workforce;

9           (3) utilizes and complements existing data on  
10          employer requirements and unfilled positions in the  
11          cybersecurity workforce;

12          (4) consults key stakeholders and the broader  
13          community of practice in cybersecurity workforce de-  
14          velopment to determine data requirements needed to  
15          strengthen the cybersecurity workforce;

16          (5) evaluates existing Federal survey data for  
17          information pertinent to developing national esti-  
18          mates of the cybersecurity workforce;

19          (6) evaluates administrative data and other  
20          supplementary data sources, as available, to describe  
21          and measure the cybersecurity workforce; and

22          (7) collects statistical data, to the greatest ex-  
23          tent practicable, on credential attainment and em-  
24          ployment outcomes information for the cybersecurity  
25          workforce.

1 (i) INCORPORATION OF ART AND DESIGN INTO CER-  
2 TAIN STEM EDUCATION.—Section 9(a) of the National  
3 Science Foundation Authorization Act of 2002 (42 U.S.C.  
4 1862n(a)) is amended—

5 (1) in paragraph (3)—

6 (A) in subparagraph (M), by striking  
7 “and” at the end;

8 (B) by redesignating subparagraph (N) as  
9 subparagraph (O); and

10 (C) after subparagraph (M), by inserting  
11 the following new subparagraph:

12 “(N) developing science, technology, engi-  
13 neering, and mathematics educational cur-  
14 riculum that incorporates art and design to pro-  
15 mote creativity and innovation; and”;

16 (2) in paragraph (10)(A)—

17 (A) in clause (xi), by striking “and” at the  
18 end;

19 (B) in clause (xii), by striking the period  
20 and inserting “; and”; and

21 (C) after clause (xii), by inserting the fol-  
22 lowing new clause:

23 “(xiii) have a component that includes  
24 the integration of art and design principles  
25 and processes.”.

1 (j) MANDATORY COST-SHARING.—

2 (1) WAIVER.—The cost-sharing requirements  
3 under section 7036(c) of the America Creating Op-  
4 portunities to Meaningfully Promote Excellence in  
5 Technology, Education, and Science Act (42 U.S.C.  
6 1862o–14(c)) for the Major Research Instrumenta-  
7 tion Program and under section 10A(i) of the Na-  
8 tional Science Foundation Authorization Act of 2002  
9 (42 U.S.C. 1862n–1a(i)) for teaching fellowships ad-  
10 ministered within the Robert Noyce Teacher Schol-  
11 arship Program are waived for a period of 5 years  
12 following the date of enactment of this Act.

13 (2) ASSESSMENT.—Not later than 5 years fol-  
14 lowing the date of enactment of this Act, the Direc-  
15 tor shall submit to Congress an assessment, that in-  
16 cludes feedback from the research community, of the  
17 impacts of the waivers provided under paragraph  
18 (1), including—

19 (A) programmatic and scientific goals;

20 (B) institutional commitment and steward-  
21 ship of Federal resources;

22 (C) institutional strategic planning and ad-  
23 ministrative burden;

24 (D) equity among grantee institutions; and

1 (E) recommendations for or against ex-  
2 tending or making permanent such waivers.

3 (k) INTEGRATING ART AND DESIGN INTO NATIONAL  
4 SCIENCE FOUNDATION INFORMAL STEM EDUCATION  
5 PROGRAM.—Section 3 of the STEM Education Act of  
6 2015 (42 U.S.C. 1862q) is amended—

7 (1) in subsection (a)—

8 (A) in paragraph (2), by striking “and” at  
9 the end;

10 (B) in paragraph (3), by striking the pe-  
11 riod and inserting “; and”; and

12 (C) by adding at the end the following:

13 “(4) the integration of art and design in STEM  
14 educational programs.”;

15 (2) in subsection (b)—

16 (A) in paragraph (3), by striking “and” at  
17 the end;

18 (B) in paragraph (4), by striking the pe-  
19 riod and inserting “; and”; and

20 (C) by adding at the end the following:

21 “(5) design and testing of programming that  
22 integrates art and design in STEM education to pro-  
23 mote creativity and innovation.”; and

24 (3) in subsection (c)(2)(B), as added by sub-  
25 section (a)(4) of this section—

1 (A) in clause (ix), by striking “and” at the  
2 end;

3 (B) in clause (x), by striking the period  
4 and inserting “; and;”; and

5 (C) by adding at the end the following:

6 “(xi) the design and testing of pro-  
7 gramming that integrates art and design  
8 in STEM education to promote creativity  
9 and innovation.”.

10 **SEC. 10305. BROADENING PARTICIPATION.**

11 (a) PRESIDENTIAL AWARDS FOR EXCELLENCE IN  
12 MATHEMATICS AND SCIENCE TEACHING.—

13 (1) IN GENERAL.—Section 117(a) of the Na-  
14 tional Science Foundation Authorization Act of 1988  
15 (42 U.S.C. 1881b(a)) is amended—

16 (A) in subparagraph (B)—

17 (i) by striking “108” and inserting  
18 “110”;

19 (ii) by striking clause (iv);

20 (iii) in clause (v), by striking the pe-  
21 riod at the end and inserting “; and”;

22 (iv) by redesignating clauses (i), (ii),  
23 (iii), and (v) as subclauses (I), (II), (III),  
24 and (IV), respectively, and moving the

1 margins of such subclauses (as so redesignated) two ems to the right; and

2  
3 (v) by striking “In selecting teachers”  
4 and all that follows through “two teachers—” and inserting the following:

5  
6 “(C) In selecting teachers for an award authorized  
7 by this subsection, the President shall select—

8 “(i) at least two teachers—”; and

9 (B) in subparagraph (C), as designated by  
10 paragraph (1)(A)(v), by adding at the end the  
11 following:

12 “(ii) at least one teacher—

13 “(I) from the Commonwealth of the Northern  
14 Mariana Islands;

15 “(II) from American Samoa;

16 “(III) from the Virgin Islands of the  
17 United States; and

18 “(IV) from Guam.”.

19 (2) EFFECTIVE DATE.—The amendments made  
20 by paragraph (1) shall apply with respect to awards  
21 made on or after the date of the enactment of this  
22 Act.

23 (b) ROBERT NOYCE TEACHER SCHOLARSHIP PROGRAM  
24 UPDATE.—

1           (1) SENSE OF CONGRESS.—It is the sense of  
2 Congress that over the next five years the Founda-  
3 tion should increase the number of scholarships  
4 awarded under the Robert Noyce Teacher Scholar-  
5 ship program established under section 10 of the  
6 National Science Foundation Authorization Act of  
7 2002 (42 U.S.C. 1862n-1) by 50 percent.

8           (2) OUTREACH.—To increase the diversity of  
9 participants, the Director shall support symposia, fo-  
10 rums, conferences, and other activities to expand  
11 and enhance outreach to—

12                   (A) historically Black colleges and univer-  
13 sities that are part B institutions, as defined in  
14 section 322(2) of the Higher Education Act of  
15 1965 (20 U.S.C. 1061(2));

16                   (B) Tribal Colleges or Universities;

17                   (C) Minority serving institutions;

18                   (D) institutions of higher education that  
19 are located near or serve rural communities;

20                   (E) labor organizations;

21                   (F) emerging research institutions; and

22                   (G) higher education programs that serve  
23 or support veterans.

24           (c) NSF INCLUDES INITIATIVE.—The Director  
25 shall award grants and cooperative agreements, on a com-

1 petitive basis, to institutions of higher education or non-  
2 profit organizations (or consortia of such institutions or  
3 organizations) to carry out a comprehensive national ini-  
4 tiative to facilitate the development of networks and part-  
5 nerships to build on and scale up effective practices in  
6 broadening participation in STEM studies and careers of  
7 groups historically underrepresented in such studies and  
8 careers.

9 (d) BROADENING PARTICIPATION ON MAJOR FACILI-  
10 TIES AWARDS.—The Director shall require organizations  
11 seeking a cooperative agreement for the management of  
12 the operations and maintenance of a Foundation project  
13 to demonstrate prior experience and current capabilities  
14 in employing best practices in broadening participation in  
15 science and engineering and ensure implementation of  
16 such practices is considered in oversight of the award.

17 (e) PARTNERSHIPS WITH EMERGING RESEARCH IN-  
18 STITUTIONS.—The Director shall establish a five-year  
19 pilot program to enhance partnerships between emerging  
20 research institutions and institutions classified as very  
21 high research activity by the Carnegie Classification of In-  
22 stitutions of Higher Education at the time of application.  
23 In carrying out this program, the Director shall—

24 (1) require that each proposal submitted by a  
25 multi-institution collaboration for an award, includ-

1 ing those under section 10309, that exceeds  
2 \$1,000,000, as appropriate, specify how the appli-  
3 cants will support substantive, meaningful, and mu-  
4 tually-beneficial partnerships with one or more  
5 emerging research institutions;

6 (2) require awardees funded under paragraph  
7 (1) to direct no less than 25 percent of the total  
8 award to one or more emerging research institutions  
9 to build research capacity, including through support  
10 for faculty salaries and training, field and laboratory  
11 research experiences for undergraduate and grad-  
12 uate students, and maintenance and repair of re-  
13 search equipment and instrumentation;

14 (3) require awardees funded under paragraph  
15 (1) to report on the partnership activities as part of  
16 the annual reporting requirements of the Founda-  
17 tion;

18 (4) solicit feedback on the partnership directly  
19 from partner emerging research institutions, in such  
20 form as the Director deems appropriate; and

21 (5) submit a report to Congress after the third  
22 year of the pilot program that includes—

23 (A) an assessment, drawing on feedback  
24 from the research community and other sources  
25 of information, of the effectiveness of the pilot

1 program for improving the quality of partner-  
2 ships with emerging research institutions; and

3 (B) if deemed effective, a plan for perma-  
4 nent implementation of the pilot program.

5 (f) TRIBAL COLLEGES AND UNIVERSITIES PROGRAM  
6 UPDATE.—

7 (1) IN GENERAL.—Section 525 of the America  
8 COMPETES Reauthorization Act of 2010 (42  
9 U.S.C. 1862p–13) is amended—

10 (A) in subsection (a) by—

11 (i) striking “Native American” and  
12 inserting “American Indian, Alaska Na-  
13 tive, and Native Hawaiian”;

14 (ii) inserting “post-secondary creden-  
15 tials and” before “associate’s”; and

16 (iii) striking “or baccalaureate de-  
17 grees” and inserting “, baccalaureate, and  
18 graduate degrees”; and

19 (B) in subsection (b) by striking “under-  
20 graduate”; and

21 (C) in subsection (c) by inserting “and  
22 STEM” after “laboratory”.

23 (2) AUTHORIZATION OF APPROPRIATIONS.—  
24 There is authorized to be appropriated to the Direc-

1       tor to carry out this program \$107,250,000 for fis-  
2       cal year 2022 through fiscal year 2026.

3       (g) DIVERSITY IN TECH RESEARCH.—The Director  
4 shall award grants, on a competitive basis, to institutions  
5 of higher education or non-profit organizations (or con-  
6 sortia of such institutions or organizations) to support  
7 basic and applied research that yields a scientific evidence  
8 base for improving the design and emergence, development  
9 and deployment, and management and ultimate effective-  
10 ness of organizations of all kinds, including research re-  
11 lated to diversity, equity, and inclusion in the technology  
12 sector.

13       (h) CONTINUING SUPPORT FOR EPSCoR.—

14             (1) SENSE OF CONGRESS.—

15                 (A) IN GENERAL.—It is the sense of Con-  
16                 gress that—

17                     (i) since maintaining the Nation’s sci-  
18                     entific and economic leadership requires  
19                     the participation of talented individuals na-  
20                     tionwide, EPSCoR investments into State  
21                     research and education capacities are in  
22                     the Federal interest and should be sus-  
23                     tained; and

24                     (ii) EPSCoR should maintain its ex-  
25                     perimental component by supporting inno-

1           vative methods for improving research ca-  
2           pacity and competitiveness.

3           (B) DEFINITION OF EPSCOR.—In this sub-  
4           section, the term “EPSCoR” has the meaning  
5           given the term in section 502 of the America  
6           COMPETES Reauthorization Act of 2010 (42  
7           U.S.C. 1862p note).

8           (2) UPDATE OF EPSCOR.—Section 517(f)(2) of  
9           the America COMPETES Reauthorization Act of  
10          2010 (42 U.S.C. 1862p–9(f)(2)) is amended—

11           (A) in subparagraph (A), by striking  
12           “and” at the end; and

13           (B) by adding at the end the following:

14           “(C) to increase the capacity of rural com-  
15           munities to provide quality STEM education  
16           and STEM workforce development program-  
17           ming to students, and teachers; and”.

18          (i) FOSTERING STEM RESEARCH DIVERSITY AND  
19          CAPACITY PROGRAM.—

20           (1) IN GENERAL.—The Director shall establish  
21           a program to make awards on a competitive, merit-  
22           reviewed basis to eligible institutions to implement  
23           and study innovative approaches for building re-  
24           search capacity in order to engage and retain stu-

1 dents from a range of institutions and diverse back-  
2 grounds in STEM.

3 (2) ELIGIBLE INSTITUTION DEFINED.—In this  
4 subsection the term “eligible institution” means an  
5 institution of higher education that, according to the  
6 data published by the National Center for Science  
7 and Engineering Statistics, is not, on average,  
8 among the top 100 institutions in Federal research  
9 and development expenditures during the 3 year pe-  
10 riod prior to the year of the award.

11 (3) PURPOSE.—The program established in  
12 paragraph (1) shall be focused on achieving simulta-  
13 neous impacts at the student, faculty, and institu-  
14 tional levels by increasing the research capacity at  
15 eligible institutions and the number of under-  
16 graduate and graduate students pursuing STEM de-  
17 grees from eligible institutions.

18 (4) REQUIREMENTS.—In carrying out this pro-  
19 gram, the Director shall—

20 (A) require eligible institutions seeking  
21 funding under this subsection to submit an ap-  
22 plication to the Director at such time, in such  
23 manner, containing such information and assur-  
24 ances as the Director may require. The applica-  
25 tion shall include, at a minimum a description

1 of how the eligible institution plans to sustain  
2 the proposed activities beyond the duration of  
3 the grant;

4 (B) require applicants to identify dis-  
5 ciplines and focus areas in which the eligible in-  
6 stitution can excel, and explain how the appli-  
7 cant will use the award to build capacity to bol-  
8 ster the institutional research competitiveness  
9 of eligible entities to support grants awarded by  
10 the Foundation and increase regional and na-  
11 tional capacity in STEM;

12 (C) require the awards funded under this  
13 subsection to support research and related ac-  
14 tivities, which may include—

15 (i) development or expansion of re-  
16 search programs in disciplines and focus  
17 areas in subparagraph (B);

18 (ii) faculty recruitment and profes-  
19 sional development in disciplines and focus  
20 areas in subparagraph (B), including for  
21 early-career researchers;

22 (iii) stipends for undergraduate and  
23 graduate students participating in research  
24 in disciplines and focus areas in subpara-  
25 graph (B);

1 (iv) acquisition of instrumentation  
2 necessary to build research capacity at an  
3 eligible institution in disciplines and focus  
4 areas in subparagraph (B);

5 (v) an assessment of capacity-building  
6 and research infrastructure needs;

7 (vi) administrative research develop-  
8 ment support; and

9 (vii) other activities necessary to build  
10 research capacity; and

11 (D) require that no eligible institution  
12 should receive more than \$10,000,000 in any  
13 single year of funds made available under this  
14 section.

15 (5) ADDITIONAL CONSIDERATIONS.—In award-  
16 ing a grant under this subsection, the Director may  
17 also consider—

18 (A) the extent to which the applicant will  
19 support students from diverse backgrounds, in-  
20 cluding first-generation undergraduate stu-  
21 dents;

22 (B) the geographic and institutional diver-  
23 sity of the applying institutions; and

1           (C) how the applicants can leverage public-  
2 private partnerships and existing partnerships  
3 with Federal Research Agencies.

4           (6) DUPLICATION.—The Director shall ensure  
5 the awards made under this subsection are com-  
6 plementary and not duplicative of existing programs.

7           (7) REPORT.—The Director shall submit a re-  
8 port to Congress after the third year of the program  
9 that includes—

10           (A) an assessment of the effectiveness of  
11 the program for growing the geographic and in-  
12 stitutional diversity of institutions of higher  
13 education receiving research awards from the  
14 Foundation;

15           (B) an assessment of the quality, quantity  
16 and geographic and institutional diversity of in-  
17 stitutions of higher education conducting Foun-  
18 dation-sponsored research since the establish-  
19 ment of the program in this subsection;

20           (C) an assessment of the quantity and di-  
21 versity of undergraduate and graduate students  
22 graduating from eligible institutions with  
23 STEM degrees; and

24           (D) statistical summary data on the pro-  
25 gram, including the geographic and institutional

1 allocation of award funding, the number and di-  
2 versity of supported graduate and under-  
3 graduate students, and how it contributes to ca-  
4 pacity building at eligible entities.

5 (8) AUTHORIZATION OF APPROPRIATIONS.—

6 There is authorized to be appropriated to the Direc-  
7 tor \$150,000,000 for each of the fiscal years 2022  
8 through 2026 to carry out the activities under this  
9 subsection.

10 (j) CAPACITY-BUILDING PROGRAM FOR DEVELOPING  
11 UNIVERSITIES.—

12 (1) IN GENERAL.—

13 (A) The Director shall make awards, on a  
14 competitive basis, to eligible institutions de-  
15 scribed in paragraph (2) to support the mission  
16 of the Foundation and to build institutional re-  
17 search capacity at eligible institutions.

18 (B) The Director shall administer separate  
19 competitions for each category of eligible insti-  
20 tution described in subclauses (I) through (IV)  
21 of paragraph (2)(A)(i).

22 (2) ELIGIBLE INSTITUTION.—

23 (A) IN GENERAL.—To be eligible to receive  
24 an award under this subsection, an institu-  
25 tion—

1 (i) shall be—

2 (I) a historically Black college or  
3 university;

4 (II) a Tribal College or Univer-  
5 sity;

6 (III) a minority-serving institu-  
7 tion; or

8 (IV) an institution of higher edu-  
9 cation with an established STEM ca-  
10 pacity building program focused on  
11 traditionally underrepresented popu-  
12 lations in STEM, including Native  
13 Hawaiians, Alaska Natives, and Indi-  
14 ans; and

15 (ii) shall—

16 (I) have not more than  
17 \$50,000,000 in annual federally fi-  
18 nanced research and development ex-  
19 penditures for science and engineering  
20 as reported through the National  
21 Science Foundation Higher Education  
22 Research and Development Survey; or

23 (II) not be an institution classi-  
24 fied as having very high research ac-

1                   tivity by the Carnegie Classification of  
2                   Institutions of Higher Education.

3                   (B) PARTNERSHIPS.—An eligible institu-  
4                   tion receiving a grant under this subsection  
5                   may carry out the activities of the grant  
6                   through a partnership with other entities, in-  
7                   cluding community colleges and other eligible  
8                   institutions.

9                   (3) PROPOSALS.—To receive an award under  
10                  this subsection, an eligible institution shall submit  
11                  an application to the Director at such time, in such  
12                  manner, and containing such information as the Di-  
13                  rector may require, including a plan that describes  
14                  how the eligible institution will establish or expand  
15                  research office capacity and how such award would  
16                  be used to—

17                  (A) conduct an assessment of capacity-  
18                  building and research infrastructure needs of  
19                  an eligible institution;

20                  (B) enhance institutional resources to pro-  
21                  vide administrative research development sup-  
22                  port to faculty at an eligible institution;

23                  (C) bolster the institutional research com-  
24                  petitiveness of an eligible institution to support  
25                  grants awarded by the Foundation;

1 (D) support the acquisition of instrumen-  
2 tation necessary to build research capacity at  
3 an eligible institution in research areas directly  
4 associated with the Foundation;

5 (E) increase capability of an eligible insti-  
6 tution to move technology into the marketplace;

7 (F) increase engagement with industry to  
8 execute research through the SBIR and STTR  
9 programs (as defined in section 9(e) of the  
10 Small Business Act (15 U.S.C. 638(e)) and di-  
11 rect contracts at an eligible institution;

12 (G) provide student engagement and re-  
13 search training opportunities at the under-  
14 graduate, graduate, and postdoctoral levels at  
15 an eligible institution;

16 (H) further faculty development initiatives  
17 and strengthen institutional research training  
18 infrastructure, capacity, and competitiveness of  
19 an eligible institution; or

20 (I) address plans and prospects for long-  
21 term sustainability of institutional enhance-  
22 ments at an eligible institution resulting from  
23 the award including, if applicable, how the  
24 award may be leveraged by an eligible institu-  
25 tion to build a broader base of support.

1           (4) AWARDS.—Awards made under this sub-  
2           section shall be for periods of 3 years, and may be  
3           extended for periods of not more than 5 years.

4           (5) AUTHORIZATION OF APPROPRIATIONS.—  
5           There are authorized to be appropriated to the Di-  
6           rector \$200,000,000 for fiscal year 2022 and  
7           \$250,000,000 for each of fiscal years 2023 through  
8           2026 to carry out the activities in this title.

9           (k) CHIEF DIVERSITY OFFICER OF THE NSF.—

10          (1) CHIEF DIVERSITY OFFICER.—

11           (A) APPOINTMENT.—The Director shall  
12           appoint a senior agency official within the Of-  
13           fice of the Director as a Chief Diversity Officer.

14           (B) QUALIFICATIONS.—The Chief Diver-  
15           sity Officer shall have significant experience,  
16           within the Federal Government and the science  
17           community, with diversity- and inclusion-related  
18           matters, including—

19                   (i) civil rights compliance;

20                   (ii) harassment policy, reviews, and  
21                   investigations;

22                   (iii) equal employment opportunity;

23                   and

24                   (iv) disability policy.

1 (C) OVERSIGHT.—The Chief Diversity Of-  
2 ficer shall direct the Office of Diversity and In-  
3 clusion of the Foundation and report directly to  
4 the Director in the performance of the duties of  
5 the Chief Diversity Officer under this sub-  
6 section.

7 (2) DUTIES.—The Chief Diversity Officer is re-  
8 sponsible for providing advice on policy, oversight,  
9 guidance, and coordination with respect to matters  
10 of the Foundation related to diversity and inclusion,  
11 including ensuring the geographic diversity of the  
12 Foundation programs. Other duties may include—

13 (A) establishing and maintaining a stra-  
14 tegic plan that publicly states a diversity defini-  
15 tion, vision, and goals for the Foundation;

16 (B) defining a set of strategic metrics that  
17 are—

18 (i) directly linked to key organiza-  
19 tional priorities and goals;

20 (ii) actionable; and

21 (iii) actively used to implement the  
22 strategic plan under paragraph (1);

23 (C) advising in the establishment of a stra-  
24 tegic plan for diverse participation by individ-  
25 uals and institutions of higher education, in-

1 including community colleges, historically Black  
2 colleges and universities, Tribal colleges or uni-  
3 versities, minority-serving institutions, institu-  
4 tions of higher education with an established  
5 STEM capacity building program focused on  
6 traditionally underrepresented populations in  
7 STEM, including Native Hawaiians, Alaska  
8 Natives, and Indians, and institutions from ju-  
9 risdictions eligible to participate under section  
10 113 of the National Science Foundation Au-  
11 thorization Act of 1988 (42 U.S.C. 1862g);

12 (D) advising in the establishment of a  
13 strategic plan for outreach to, and recruiting  
14 from, untapped locations and underrepresented  
15 populations;

16 (E) advising on a diversity and inclusion  
17 strategy for the Foundation's portfolio of  
18 PreK–12 STEM education focused programs  
19 and activities, including goals for addressing  
20 barriers to participation;

21 (F) advising on the application of the  
22 Foundation's broader impacts review criterion;  
23 and

1 (G) performing such additional duties and  
2 exercise such powers as the Director may pre-  
3 scribe.

4 (3) FUNDING.—From any amounts appro-  
5 priated for the Foundation for each of fiscal years  
6 2022 through 2026, the Director shall allocate  
7 \$5,000,000 to carry out this subsection for each  
8 such year.

9 (I) GRANT PROGRAM TO INCREASE THE PARTICIPA-  
10 TION OF WOMEN AND UNDERREPRESENTED MINORITIES  
11 IN STEM FIELDS.—

12 (1) PROGRAM AUTHORIZED.—The Director of  
13 the National Science Foundation shall award grants  
14 to eligible entities, on a competitive basis, to enable  
15 such eligible entities to carry out the activities de-  
16 scribed in paragraph (4), in order to increase the  
17 participation of women and underrepresented mi-  
18 norities in the fields of science, technology, engineer-  
19 ing, and mathematics.

20 (2) APPLICATION.—Each eligible entity that de-  
21 sires to receive a grant under this subsection shall  
22 submit an application to the National Science Foun-  
23 dation at such time, in such manner, and containing  
24 such information as the Director of the National  
25 Science Foundation may reasonably require.

1           (3) AUTHORIZED ACTIVITIES.—An eligible enti-  
2           ty that receives a grant under this subsection shall  
3           use such grant funds to carry out one or more of the  
4           following activities designed to increase the partici-  
5           pation of women or minorities underrepresented in  
6           science and engineering, or both:

7                   (A) Online workshops.

8                   (B) Mentoring programs that partner  
9                   science, technology, engineering, or mathe-  
10                  matics professionals with students.

11                  (C) Internships for undergraduate and  
12                  graduate students in the fields of science, tech-  
13                  nology, engineering, and mathematics.

14                  (D) Conducting outreach programs that  
15                  provide elementary school and secondary school  
16                  students with opportunities to increase their ex-  
17                  posure to the fields of science, technology, engi-  
18                  neering, or mathematics.

19                  (E) Programs to increase the recruitment  
20                  and retention of underrepresented faculty.

21                  (F) Such additional programs as the Di-  
22                  rector of the National Science Foundation may  
23                  determine.

24           (4) DEFINITIONS.—In this subsection—

1 (A) the term “minority” means American  
2 Indian, Alaskan Native, Black (not of Hispanic  
3 origin), Hispanic (including persons of Mexican,  
4 Puerto Rican, Cuban, and Central or South  
5 American origin), Asian (including underrep-  
6 resented subgroups), Native Hawaiian, Pacific  
7 Islander origin subgroup, or other ethnic group  
8 underrepresented in science and engineering;  
9 and

10 (B) the term “underrepresented in science  
11 and engineering” means a minority group  
12 whose number of scientists and engineers per  
13 10,000 population of that group is substantially  
14 below the comparable figure for scientists and  
15 engineers who are White and not of Hispanic  
16 origin, as determined by the Secretary of Edu-  
17 cation under section 637.4(b) of title 34, Code  
18 of Federal Regulations.

19 (5) AUTHORIZATION OF APPROPRIATIONS.—

20 There are authorized to be appropriated to carry out  
21 this subsection \$15,000,000 for each of fiscal years  
22 2023, 2024, 2025, 2026, and 2027.

23 **SEC. 10306. FUNDAMENTAL RESEARCH.**

24 (a) DEFINITIONS.—In this section:

1           (1) COVERED INDIVIDUAL.—The term “covered  
2 individual” means the principal investigator, co-prin-  
3 cipal investigators, and any other person at the in-  
4 stitution who is responsible for the design, conduct,  
5 or reporting of research or educational activities  
6 funded or proposed for funding by the Foundation.

7           (2) FOREIGN COUNTRY OF CONCERN.—The  
8 term “foreign country of concern” means the Peo-  
9 ple’s Republic of China, the Democratic People’s Re-  
10 public of Korea, the Russian Federation, the Islamic  
11 Republic of Iran, or any other country deemed to be  
12 a country of concern as determined by the Depart-  
13 ment of State.

14           (3) MALIGN FOREIGN GOVERNMENT TALENT  
15 RECRUITMENT PROGRAM.—The term “malign for-  
16 eign government talent recruitment program” means  
17 any program or activity that includes compensation,  
18 including cash, research funding, honorific titles,  
19 promised future compensation, or other types of re-  
20 munerations, provided by the foreign state or an enti-  
21 ty sponsored by the foreign state to the targeted in-  
22 dividual in exchange for the individual transferring  
23 knowledge and expertise to the foreign country.

24           (b) BROADER IMPACTS.—

1           (1) ASSESSMENT.—Not later than 45 days  
2 after the date of enactment of this Act, the Director  
3 shall enter into an agreement with a qualified inde-  
4 pendent organization to assess how the Broader Im-  
5 pacts review criterion is applied across the Founda-  
6 tion and make recommendations for improving the  
7 effectiveness for meeting the goals established in sec-  
8 tion 526 of the America Creating Opportunities to  
9 Meaningfully Promote Excellence in Technology,  
10 Education, and Science Reauthorization Act of 2010  
11 (42 U.S.C. 1862p–14).

12           (2) ACTIVITIES.—The Director shall award  
13 grants on a competitive basis, to institutions of high-  
14 er education or non-profit organizations (or con-  
15 sortia of such institutions or organizations) to sup-  
16 port activities to increase the efficiency, effective-  
17 ness, and availability of resources for implementing  
18 the Broader Impacts review criterion, including—

19           (A) training and workshops for program  
20 officers, merit review panelists, grant office ad-  
21 ministrators, faculty, and students to improve  
22 understanding of the goals and the full range of  
23 potential broader impacts available to research-  
24 ers to satisfy this criterion;

1 (B) repositories and clearinghouses for  
2 sharing best practices and facilitating collabora-  
3 tion; and

4 (C) tools for evaluating and documenting  
5 societal impacts of research.

6 (c) SENSE OF CONGRESS.—It is the sense of Con-  
7 gress that the Director should continue to identify oppor-  
8 tunities to reduce the administrative burden on research-  
9 ers.

10 (d) RESEARCH INTEGRITY AND SECURITY.—

11 (1) OFFICE OF RESEARCH SECURITY AND POL-  
12 ICY.—The Director shall maintain a Research Secu-  
13 rity and Policy office within the Office of the Direc-  
14 tor with no fewer than 4 full-time equivalent posi-  
15 tions, in addition to the Chief of Research Security  
16 established in paragraph (2) of this subsection. The  
17 functions of the Research Security and Policy office  
18 shall be to coordinate all research security policy  
19 issues across the Foundation, including by—

20 (A) consulting and coordinating with the  
21 Foundation Office of Inspector General and  
22 with other Federal research agencies and intel-  
23 ligence and law enforcement agencies, as appro-  
24 priate, through the National Science and Tech-  
25 nology Council in accordance with the authority

1 provided under section 1746 of the National  
2 Defense Authorization Act for Fiscal Year 2020  
3 (Public Law 116–92; 42 U.S.C. 6601 note), to  
4 identify and address potential security risks  
5 that threaten research integrity and other risks  
6 to the research enterprise;

7 (B) serving as the Foundation’s primary  
8 resource for all issues related to the security  
9 and integrity of the conduct of Foundation-sup-  
10 ported research;

11 (C) conducting outreach and education ac-  
12 tivities for awardees on research policies and  
13 potential security risks;

14 (D) educating Foundation program man-  
15 agers and other directorate staff on evaluating  
16 Foundation awards and awardees for potential  
17 security risks; and

18 (E) communicating reporting and diselo-  
19 sure requirements to awardees and applicants  
20 for funding.

21 (2) CHIEF OF RESEARCH SECURITY.—The Di-  
22 rector shall appoint a senior agency official within  
23 the Office of the Director as a Chief of Research Se-  
24 curity, whose primary responsibility is to manage the  
25 office established under paragraph (1).

1           (3) REPORT TO CONGRESS.—No later than 180  
2 days after the date of enactment of this Act, the Di-  
3 rector shall provide a report to the Committee on  
4 Science, Space, and Technology of the House of  
5 Representatives, the Committee on Commerce,  
6 Science, and Transportation of the Senate, the Com-  
7 mittee on Appropriations of the House of Represent-  
8 atives, and the Committee on Appropriations of the  
9 Senate on the resources and the number of full time  
10 employees needed to carry out the functions of the  
11 Office established in paragraph (1).

12           (4) ONLINE RESOURCE.—The Director shall de-  
13 velop an online resource hosted on the Foundation’s  
14 website containing up-to-date information, tailored  
15 for institutions and individual researchers, includ-  
16 ing—

17                   (A) an explanation of Foundation research  
18 security policies;

19                   (B) unclassified guidance on potential se-  
20 curity risks that threaten scientific integrity  
21 and other risks to the research enterprise;

22                   (C) examples of beneficial international  
23 collaborations and how such collaborations dif-  
24 fer from foreign government interference efforts  
25 that threaten research integrity;

1 (D) promising practices for mitigating se-  
2 curity risks that threaten research integrity;  
3 and

4 (E) additional reference materials, includ-  
5 ing tools that assist organizations seeking  
6 Foundation funding and awardees in informa-  
7 tion disclosure to the Foundation.

8 (5) RISK ASSESSMENT CENTER.—The Director  
9 shall enter into an agreement with a qualified inde-  
10 pendent organization to create a new risk assess-  
11 ment center to—

12 (A) help the Foundation develop the online  
13 resources under paragraph (4); and

14 (B) help awardees in assessing and identi-  
15 fying issues related to nondisclosure of current  
16 and pending research funding, risks to the  
17 Foundation merit review process, and other  
18 issues that may negatively affect the Founda-  
19 tion proposal and award process due to undue  
20 foreign interference.

21 (6) RESEARCH GRANTS.—The Director shall  
22 continue to award grants, on a competitive basis, to  
23 institutions of higher education or non-profit organi-  
24 zations (or consortia of such institutions or organi-  
25 zations) to support research on the conduct of re-

1 search and the research environment, including re-  
2 search on research misconduct or breaches of re-  
3 search integrity and detrimental research practices.

4 (7) AUTHORITIES.—

5 (A) IN GENERAL.—In addition to existing  
6 authorities for preventing waste, fraud, abuse,  
7 and mismanagement of federal funds, the Di-  
8 rector, acting through the Office of Research  
9 Security and Policy and in coordination with  
10 the Foundation’s Office of Inspector General,  
11 shall have the authority to—

12 (i) conduct risk assessments, including  
13 through the use of open-source analysis  
14 and analytical tools, of research and devel-  
15 opment award applications and disclosures  
16 to the Foundation, in coordination with the  
17 Risk Assessment Center established in  
18 paragraph (5);

19 (ii) request the submission to the  
20 Foundation, by an institution of higher  
21 education or other organization applying  
22 for a research and development award, of  
23 supporting documentation, including copies  
24 of contracts, grants, or any other agree-  
25 ment specific to foreign appointments, em-

1           ployment with a foreign institution, partici-  
2           pation in a foreign talent program and  
3           other information reported as current and  
4           pending support for all covered individuals  
5           in a research and development award ap-  
6           plication; and

7                   (iii) upon receipt and review of the in-  
8           formation provided under clause (ii) and in  
9           consultation with the institution of higher  
10          education or other organization submitting  
11          such information, initiate the substitution  
12          or removal of a covered individual from a  
13          research and development award, reduce  
14          the award funding amount, or suspend or  
15          terminate the award if the Director deter-  
16          mines such contracts, grants, or agree-  
17          ments include obligations that—

18                   (I) interfere with the capacity for  
19           Foundation-supported activities to be  
20           carried out; or

21                   (II) create duplication with  
22           Foundation-supported activities.

23           (B) LIMITATIONS.—In exercising the au-  
24          thorities under this paragraph, the Director  
25          shall—

1 (i) take necessary steps, as prac-  
2 ticable, to protect the privacy of all covered  
3 individuals and other parties involved in  
4 the application and disclosure assessments  
5 under clause (A)(i);

6 (ii) endeavor to provide justification  
7 for requests for supporting documentation  
8 made under clause (A)(ii);

9 (iii) require that allegations be proven  
10 by a preponderance of evidence; and

11 (iv) as practicable, afford subjects an  
12 opportunity to provide comments and re-  
13 buttal and an opportunity to appeal before  
14 final administrative action is taken.

15 (8) MALIGN FOREIGN TALENT RECRUITMENT  
16 PROGRAM PROHIBITION.—

17 (A) IN GENERAL.—Not later than 12  
18 months after the date of enactment of this Act,  
19 the Director shall establish a requirement that,  
20 as part of an application for a research and de-  
21 velopment award from the agency—

22 (i) each covered individual listed on  
23 the application for a research and develop-  
24 ment award certify that they are not an  
25 active participant of a malign foreign tal-

1 ent recruitment program from a foreign  
2 country of concern and will not be a par-  
3 ticipant in such a program for the duration  
4 of the award; and

5 (ii) each institution of higher edu-  
6 cation or other organization applying for  
7 such an award certify that each covered in-  
8 dividual who is employed by the institution  
9 of higher education or other organization  
10 has been made aware of the requirement  
11 under this subsection.

12 (B) INTERNATIONAL COLLABORATION.—

13 Each policy developed under subparagraph (A)  
14 shall not prohibit—

15 (i) making scholarly presentations re-  
16 garding scientific information not other-  
17 wise controlled under current law;

18 (ii) participation in international con-  
19 ferences or other international exchanges,  
20 partnerships or programs that involve open  
21 and reciprocal exchange of scientific infor-  
22 mation, and which are aimed at advancing  
23 international scientific understanding; and

24 (iii) other international activities  
25 deemed appropriate by the Director.

1           (C) LIMITATION.—The policy developed  
2 under subparagraph (A) shall not apply retro-  
3 actively to research and development awards  
4 made prior to the establishment of the policy by  
5 the Director.

6           (9) SECURITY TRAINING MODULES.—

7           (A) IN GENERAL.—Not later than 90 days  
8 after the date of enactment of this Act, the Di-  
9 rector, in collaboration with the Director of the  
10 National Institutes of Health and other relevant  
11 Federal research agencies, shall enter into an  
12 agreement or contract with a qualified entity  
13 for the development of online research security  
14 training modules for the research community,  
15 including modules focused on international col-  
16 laboration and international travel, foreign in-  
17 terference, and rules for proper use of funds,  
18 disclosure, conflict of commitment, and conflict  
19 of interest.

20           (B) STAKEHOLDER INPUT.—Prior to en-  
21 tering into the agreement under clause (A), the  
22 Director shall seek input from academic, private  
23 sector, intelligence, and law enforcement stake-  
24 holders regarding the scope and content of  
25 training modules, including the diversity of

1 needs across institutions of higher education  
2 and other grantees of different sizes and types,  
3 and recommendations for minimizing adminis-  
4 trative burden on institutions of higher edu-  
5 cation and researchers.

6 (C) DEVELOPMENT.—The Director shall  
7 ensure that the entity identified in (A)—

8 (i) develops modules that can be  
9 adapted and utilized across Federal re-  
10 search agencies; and

11 (ii) develops and implements a plan  
12 for regularly updating the modules as  
13 needed.

14 (D) GUIDELINES.—The Director, in col-  
15 laboration with the Director of the National In-  
16 stitutes of Health, shall develop guidelines for  
17 institutions of higher education and other orga-  
18 nizations receiving Federal research and devel-  
19 opment funds to use in developing their own  
20 training programs to address the unique needs,  
21 challenges, and risk profiles of such institu-  
22 tions, including adoption of training modules  
23 developed under this paragraph.

24 (E) IMPLEMENTATION.—Drawing on  
25 stakeholder input under subparagraph (B), not

1 later than 12 months after the date of enact-  
2 ment of this Act, the Director shall establish a  
3 requirement that, as part of an application for  
4 a research and development award from the  
5 Foundation—

6 (i) each covered individual listed on  
7 the application for a research and develop-  
8 ment award certify that they have com-  
9 pleted research security training that  
10 meets the guidelines developed under  
11 clause (D) within one year of the applica-  
12 tion; and

13 (ii) each institution of higher edu-  
14 cation or other organization applying for  
15 such award certify that each covered indi-  
16 vidual who is employed by the institution  
17 or organization and listed on the applica-  
18 tion has been made aware of the require-  
19 ment under this subparagraph.

20 (10) RESPONSIBLE CONDUCT IN RESEARCH  
21 TRAINING.—Section 7009 of the America Creating  
22 Opportunities to Meaningfully Promote Excellence in  
23 Technology, Education, and Science Act (42 U.S.C.  
24 1862o-1) is amended by—

1 (A) striking “and postdoctoral research-  
2 ers” and inserting “postdoctoral researchers,  
3 faculty, and other senior personnel”; and

4 (B) by inserting before the period at the  
5 end the following “, including mentor training”.

6 (11) NATIONAL ACADEMIES GUIDE TO RESPON-  
7 SIBLE CONDUCT IN RESEARCH.—

8 (A) IN GENERAL.—Not later than 180  
9 days after the date of enactment of this Act,  
10 the Director shall enter into an agreement with  
11 the Academies to update the report entitled  
12 “On Being a Scientist: A Guide to Responsible  
13 Conduct in Research” issued by the Academies.  
14 The report, as so updated, shall include—

15 (i) updated professional standards of  
16 conduct in research;

17 (ii) promising practices for preventing,  
18 addressing, and mitigating the negative  
19 impact of harassment, including sexual  
20 harassment and gender harassment as de-  
21 fined in the 2018 Academies report enti-  
22 tled “Sexual Harassment of Women: Cli-  
23 mate, Culture, and Consequences in Aca-  
24 demic Sciences, Engineering, and Medi-  
25 cine”; and

1 (iii) promising practices for mitigating  
2 potential security risks that threaten re-  
3 search integrity.

4 (B) REPORT.—Not later than 18 months  
5 after the effective date of the agreement under  
6 subparagraph (A), the Academies, as part of  
7 such agreement, shall submit to the Director  
8 and the Committee on Science, Space, and  
9 Technology of the House of Representatives  
10 and the Committee on Commerce, Science, and  
11 Transportation of the Senate the report re-  
12 ferred to in such subparagraph, as updated pur-  
13 suant to such subparagraph.

14 (e) RESEARCH ETHICS.—

15 (1) SENSE OF CONGRESS.—It is the sense of  
16 Congress that—

17 (A) a number of emerging areas of re-  
18 search have potential ethical, social, safety, and  
19 security implications that might be apparent as  
20 early as the basic research stage;

21 (B) the incorporation of ethical, social,  
22 safety, and security considerations into the re-  
23 search design and review process for Federal  
24 awards, may help mitigate potential harms be-  
25 fore they happen;

1 (C) the Foundation’s agreement with the  
2 Academies to conduct a study and make rec-  
3 ommendations with respect to governance of re-  
4 search in emerging technologies is a positive  
5 step toward accomplishing this goal; and

6 (D) the Foundation should continue to  
7 work with stakeholders to understand and  
8 adopt policies that promote best practices for  
9 governance of research in emerging technologies  
10 at every stage of research.

11 (2) ETHICS STATEMENTS.—Drawing on stake-  
12 holder input, not later than 18 months after the  
13 date of enactment of this Act, the Director shall  
14 amend award proposal instructions to include a re-  
15 quirement for an ethics statement to be included as  
16 part of any proposal for funding prior to making the  
17 award. Such statement shall be considered by the  
18 Director in the review of proposals, taking into con-  
19 sideration any relevant input from the peer-reviewers  
20 for the proposal, and shall factor into award deci-  
21 sions as deemed necessary by the Director. Such  
22 statements may include, as appropriate—

23 (A) any foreseeable or quantifiable risks to  
24 society, including how the research could enable  
25 products, technologies, or other outcomes that

1           could intentionally or unintentionally cause sig-  
2           nificant societal harm;

3           (B) how technical or social solutions can  
4           mitigate such risks and, as appropriate, a plan  
5           to implement such mitigation measures; and

6           (C) how partnerships and collaborations in  
7           the research can help mitigate potential harm  
8           and amplify potential societal benefits.

9           (3) GUIDANCE.—The Director shall solicit  
10          stakeholder input to develop clear guidance on what  
11          constitutes a foreseeable or quantifiable risk as de-  
12          scribed in paragraph (2)(A), and to the extent prac-  
13          ticable harmonize this policy with existing ethical  
14          policies or related requirements for human subjects.

15          (4) RESEARCH.—The Director shall award  
16          grants, on a competitive basis, to institutions of  
17          higher education or non-profit organizations (or con-  
18          sortia of such institutions or organizations) to sup-  
19          port—

20                 (A) research to assess the potential ethical  
21                 and societal implications of Foundation-sup-  
22                 ported research and products or technologies  
23                 enabled by such research, including the benefits  
24                 and risks identified pursuant to paragraph  
25                 (2)(A); and

1 (B) the development and verification of ap-  
2 proaches to proactively mitigate foreseeable  
3 risks to society, including the technical and so-  
4 cial solutions identified pursuant to paragraph  
5 (2)(B).

6 (5) ANNUAL REPORT.—The Director shall en-  
7 courage awardees to update their ethics statements  
8 as appropriate as part of the annual reports re-  
9 quired by all awardees under the award terms and  
10 conditions.

11 (f) RESEARCH REPRODUCIBILITY AND  
12 REPLICABILITY.—Consistent with existing Federal law for  
13 privacy, intellectual property, and security, the Director  
14 shall facilitate the public access to research products, in-  
15 cluding data, software, and code, developed as part of  
16 Foundation-supported projects.

17 (1) DATA MANAGEMENT PLANS.—

18 (A) The Director shall require that every  
19 proposal for funding for research include a ma-  
20 chine-readable data management plan that in-  
21 cludes a description of how the awardee will ar-  
22 chive and preserve public access to data, soft-  
23 ware, and code developed as part of the pro-  
24 posed project.

1 (B) In carrying out the requirement in  
2 subparagraph (A), the Director shall—

3 (i) provide necessary resources, in-  
4 cluding trainings and workshops, to edu-  
5 cate researchers and students on how to  
6 develop and review high quality data man-  
7 agement plans;

8 (ii) ensure program officers and merit  
9 review panels are equipped with the re-  
10 sources and training necessary to review  
11 the quality of data management plans; and

12 (iii) ensure program officers and  
13 merit review panels treat data management  
14 plans as essential elements of grant pro-  
15 posals, where appropriate.

16 (2) OPEN REPOSITORIES.—The Director  
17 shall—

18 (A) coordinate with the heads of other  
19 Federal research agencies, and solicit input  
20 from the scientific community, to develop and  
21 widely disseminate a set of criteria for trusted  
22 open repositories, accounting for discipline-spe-  
23 cific needs and necessary protections for sen-  
24 sitive information, to be used by federally fund-

1 ed researchers for the sharing of data, software,  
2 and code;

3 (B) work with stakeholders to identify sig-  
4 nificant gaps in available repositories meeting  
5 the criteria developed under subparagraph (A)  
6 and options for supporting the development of  
7 additional or enhanced repositories;

8 (C) award grants on a competitive basis to  
9 institutions of higher education or non-profit  
10 organizations (or consortia of such institutions  
11 or organizations) for the development, up-  
12 grades, and maintenance of open data reposi-  
13 tories that meet the criteria developed under  
14 subparagraph (A);

15 (D) work with stakeholders and build on  
16 existing models, where appropriate, to establish  
17 a single, public, web-based point of access to  
18 help users locate repositories storing data, soft-  
19 ware, and code resulting from or used in Foun-  
20 dation-supported projects;

21 (E) work with stakeholders to establish the  
22 necessary policies and procedures and allocate  
23 the necessary resources to ensure, as prac-  
24 ticable, data underlying published findings re-  
25 sulting from Foundation-supported projects are

1 deposited in repositories meeting the criteria  
2 developed under subparagraph (A) at the time  
3 of publication;

4 (F) incentivize the deposition of data, soft-  
5 ware, and code into repositories that meet the  
6 criteria developed under subparagraph (A); and

7 (G) coordinate with the scientific pub-  
8 lishing community to develop uniform consensus  
9 standards around data archiving and sharing.

10 (3) RESEARCH, DEVELOPMENT, AND EDU-  
11 CATION.—The Director shall award grants, on a  
12 competitive basis to institutions of higher education  
13 or non-profit organizations (or consortia of such in-  
14 stitutions or organizations) to—

15 (A) support research and development of  
16 open source, sustainable, usable tools and infra-  
17 structure that support reproducibility for a  
18 broad range of studies across different dis-  
19 ciplines;

20 (B) support research on computational re-  
21 producibility, including the limits of reproduc-  
22 ibility and the consistency of computational re-  
23 sults in the development of new computation  
24 hardware, tools, and methods; and

1           (C) support the education and training of  
2           students, faculty, and researchers on computa-  
3           tional methods, tools, and techniques to improve  
4           the quality and sharing of data, code, and sup-  
5           porting metadata to produce reproducible re-  
6           search.

7           (g) CLIMATE CHANGE RESEARCH.—

8           (1) IN GENERAL.—The Director shall award  
9           grants, on a competitive basis, to institutions of  
10          higher education or non-profit organizations (or con-  
11          sortia of such institutions or organizations) to sup-  
12          port research to improve our understanding of the  
13          climate system and related human and environ-  
14          mental systems.

15          (2) USE OF FUNDS.—Activities funded by a  
16          grant under this subsection may include—

17               (A) fundamental research on climate  
18               forcings, feedbacks, responses, and thresholds  
19               in the earth system, including impacts on and  
20               contributions from local and regional systems;

21               (B) research on climate-related human be-  
22               haviors and institutions;

23               (C) research on climate-related risk, vul-  
24               nerability, resilience, and adaptive capacity of  
25               coupled human-environment systems, including

1 risks to ecosystem stability and risks to vulner-  
2 able populations;

3 (D) research to support the development  
4 and implementation of effective strategies and  
5 tools for mitigating and adapting to climate  
6 change, including social strategies and research  
7 focused on local level forecasting, impacts, and  
8 challenges;

9 (E) research on the design, development,  
10 and assessment of effective information and de-  
11 cision-support systems, including understanding  
12 and developing effective dissemination path-  
13 ways;

14 (F) improved modeling, projections, anal-  
15 yses, and assessments of climate and other  
16 Earth system changes;

17 (G) research to understand the atmos-  
18 pheric processes related to solar radiation man-  
19 agement strategies and technologies and exam-  
20 ine related economic, geopolitical, societal, envi-  
21 ronmental, and ethical implications, not includ-  
22 ing research designed to advance future deploy-  
23 ment of these strategies and technologies;

24 (H) the development of effective strategies  
25 for educating and training future climate

1 change researchers, and climate change re-  
2 sponse and mitigation professionals, in both re-  
3 search and development methods, as well as  
4 community engagement and science commu-  
5 nication;

6 (I) the development of effective strategies  
7 for public and community engagement in the all  
8 stages of the research and development process;  
9 and

10 (J) partnerships with other agencies to ad-  
11 dress climate related challenges for specific  
12 agency missions.

13 (h) VIOLENCE RESEARCH.—

14 (1) IN GENERAL.—The Director shall award  
15 grants, on a competitive basis, to institutions of  
16 higher education or non-profit organizations (or con-  
17 sortia of such institutions or organizations) to sup-  
18 port research to improve our understanding of the  
19 nature, scope, causes, consequences, prevention, and  
20 response to all forms of violence.

21 (2) USE OF FUNDS.—Activities funded by a  
22 grant under this subsection may include—

23 (A) research on the magnitude and dis-  
24 tribution of fatal and nonfatal violence;

25 (B) research on risk and protective factors;

1 (C) research on the design, development,  
2 implementation, and evaluation of interventions  
3 for preventing and responding to violence;

4 (D) research on scaling up effective inter-  
5 ventions; and

6 (E) one or more interdisciplinary research  
7 centers to conduct violence research, foster new  
8 and expanded collaborations, and support ca-  
9 pacity building activities to increase the number  
10 and diversity of new researchers trained in  
11 cross-disciplinary violence research.

12 (i) SOCIAL, BEHAVIORAL, AND ECONOMIC  
13 SCIENCES.—The Director shall—

14 (1) actively communicate opportunities and so-  
15 licit proposals for social, behavioral, and economic  
16 science researchers to participate in cross-cutting  
17 and interdisciplinary programs, including the Con-  
18 vergence Accelerator and agency priority activities,  
19 and the Mid-Scale Research Infrastructure program;  
20 and

21 (2) ensure social, behavioral, and economic  
22 science researchers are represented on relevant merit  
23 review panels for such activities.

24 (j) MEASURING IMPACTS OF FEDERALLY FUNDED  
25 R&D.—The Director shall award grants on a competitive,

1 merit-reviewed basis to institutions of higher education or  
2 non-profit organizations (or consortia of such institutions  
3 or organizations) to support research and development of  
4 data, models, indicators, and associated analytical tools to  
5 improve our understanding of the impacts of Federally  
6 funded research on society, the economy, and the work-  
7 force, including domestic job creation.

8 (k) FOOD-ENERGY-WATER RESEARCH.—The Direc-  
9 tor shall award grants on a competitive basis to institu-  
10 tions of higher education or non-profit organizations (or  
11 consortia of such institutions or organizations) to—

12 (1) support research to significantly advance  
13 our understanding of the food-energy-water system  
14 through quantitative and computational modeling,  
15 including support for relevant cyberinfrastructure;

16 (2) develop real-time, cyber-enabled interfaces  
17 that improve understanding of the behavior of food-  
18 energy-water systems and increase decision support  
19 capability;

20 (3) support research that will lead to innovative  
21 solutions to critical food-energy-water system prob-  
22 lems; and

23 (4) grow the scientific workforce capable of  
24 studying and managing the food-energy-water sys-

1       tem, through education and other professional devel-  
2       opment.

3       (l) BIOLOGICAL FIELD STATIONS AND MARINE LAB-  
4       ORATORIES.—The Director shall continue to support en-  
5       hancing, repairing and maintaining research instrumenta-  
6       tion, laboratories, telecommunications and housing at bio-  
7       logical field stations and marine laboratories.

8       (m) SUSTAINABLE CHEMISTRY RESEARCH AND EDU-  
9       CATION.—In accordance with section 263 of the National  
10      Defense Authorization Act for Fiscal Year 2021, the Di-  
11      rector shall carry out activities in support of sustainable  
12      chemistry, including—

13           (1) establishing a program to award grants, on  
14           a competitive basis, to institutions of higher edu-  
15           cation or non-profit organizations (or consortia of  
16           such institutions or organizations) to support—

17                   (A) individual investigators and teams of  
18                   investigators, including to the extent prac-  
19                   ticable, early career investigators for research  
20                   and development;

21                   (B) collaborative research and development  
22                   partnerships among universities, industry, and  
23                   non-profit organizations; and

24                   (C) integrating sustainable chemistry prin-  
25                   ciples into elementary, secondary, under-

1 graduate, and graduate chemistry and chemical  
2 engineering curriculum and research training,  
3 as appropriate to that level of education and  
4 training; and

5 (2) incorporating sustainable chemistry into ex-  
6 isting Foundation research and development pro-  
7 grams.

8 (n) RISK AND RESILIENCE RESEARCH.—The Direc-  
9 tor shall award grants on a competitive basis to institu-  
10 tions of higher education or non-profit organizations (or  
11 consortia of such institutions or organizations) to advance  
12 knowledge of risk assessment and predictability and to  
13 support the creation of tools and technologies, including  
14 advancing data analytics and utilization of artificial intel-  
15 ligence, for increased resilience through—

16 (1) improvements in our ability to understand,  
17 model, and predict extreme events and natural haz-  
18 ards, including pandemics;

19 (2) the creation of novel engineered systems so-  
20 lutions for resilient complex infrastructures, particu-  
21 larly those that address critical interdependence  
22 among infrastructures and leverage the growing in-  
23 fusion of cyber-physical-social components into the  
24 infrastructures;

1           (3) development of equipment and instrumenta-  
2           tion for innovation in resilient engineered infrastruc-  
3           tures;

4           (4) multidisciplinary research on the behaviors  
5           individuals and communities engage in to detect,  
6           perceive, understand, predict, assess, mitigate, and  
7           prevent risks and to improve and increase resilience;  
8           and

9           (5) advancements in multidisciplinary wildfire  
10          science, including those related to air quality im-  
11          pacts, human behavior, and early detection and  
12          warning.

13          (o) UAV TECHNOLOGIES.—The Director shall carry  
14          out a program of research and related activities for un-  
15          manned aerial vehicle technologies, which may include a  
16          prize competition pursuant to section 24 of the Stevenson-  
17          Wydler Technology Innovation Act of 1980 (15 U.S.C.  
18          3719) and support for undergraduate and graduate cur-  
19          riculum development.

20          (p) LEVERAGING INTERNATIONAL EXPERTISE IN RE-  
21          SEARCH.—The Director shall explore and advance oppor-  
22          tunities for leveraging international capabilities and re-  
23          sources that align with the Foundation and United States  
24          research community priorities and have the potential to  
25          benefit United States prosperity, security, health, and

1 well-being, including through binational research and de-  
2 velopment organizations and foundations and by sending  
3 teams of Foundation scientific staff for site visits of sci-  
4 entific facilities and agencies in other countries.

5 (q) BIOLOGICAL RESEARCH COLLECTIONS.—

6 (1) IN GENERAL.—The Director shall continue  
7 to support databases, tools, methods, and other ac-  
8 tivities that secure and improve existing physical and  
9 digital biological research collections, improve the ac-  
10 cessibility of collections and collection-related data  
11 for research and educational purposes, develop ca-  
12 pacity for curation and collection management, and  
13 to transfer ownership of collections that are signifi-  
14 cant to the biological research community, including  
15 to museums and universities.

16 (2) SPECIMEN MANAGEMENT PLAN.—In con-  
17 sultation with other relevant Federal research agen-  
18 cies, the Director shall require that every proposal  
19 for funding for research that involves collecting or  
20 generating specimens include a specimen manage-  
21 ment plan that includes a description of how the  
22 specimens and associated data will be accessioned  
23 into and permanently maintained in an established  
24 biological collection.

1           (3) ACTION CENTER FOR BIOLOGICAL COLLEC-  
2           TIONS.—The Director shall award grants on a com-  
3           petitive basis to institutions of higher education or  
4           non-profit organizations (or consortia of such insti-  
5           tutions or organizations) to establish an Action Cen-  
6           ter for Biological Collections to facilitate coordina-  
7           tion and data sharing among communities of prac-  
8           tice for research, education, workforce training, eval-  
9           uation, and business model development.

10          (r) CLEAN WATER RESEARCH AND TECHNOLOGY  
11          ACCELERATION.—The Director shall award grants on a  
12          competitive, merit-reviewed basis to institutions of higher  
13          education or non-profit organizations (or consortia of such  
14          institutions or organizations) to—

15                (1) support transdisciplinary research to signifi-  
16                cantly advance our understanding of water avail-  
17                ability, quality, and dynamics and the impact of  
18                human activity and a changing climate on urban and  
19                rural water and wastewater systems, including in  
20                low-income, underserved, and disadvantaged commu-  
21                nities;

22                (2) develop, pilot and deploy innovative tech-  
23                nologies, systems, and other approaches to identi-  
24                fying and addressing challenges that affect water  
25                availability, quality, and security, including through

1 direct engagement with affected communities and  
2 partnerships with the private sector, State, terri-  
3 torial, tribal, and local governments, non-profit orga-  
4 nizations and water management professionals; and

5 (3) grow the scientific workforce capable of  
6 studying and managing water and wastewater sys-  
7 tems, through education, training, and other profes-  
8 sional development.

9 (s) TECHNOLOGY AND BEHAVIORAL SCIENCE RE-  
10 SEARCH.—The Director shall award grants on a merit-  
11 based, competitive basis for research to—

12 (1) increase understanding of social media and  
13 consumer technology access and use patterns and re-  
14 lated psychological and behavioral issues, particu-  
15 larly for adolescents; and

16 (2) explore the role of social media and con-  
17 sumer technology in rising rates of depressive symp-  
18 toms, suicidal ideation, drug use, and deaths of de-  
19 spair, particularly for communities experiencing  
20 long-term economic distress.

21 (t) MANUFACTURING RESEARCH AMENDMENT.—  
22 Section 506(a) of the America COMPETES Reauthoriza-  
23 tion Act of 2010 (42 U.S.C. 1862p–1(a)) is amended—

24 (1) in paragraph (5), by striking “and” at the  
25 end;

1 (2) in paragraph (6)—

2 (A) by striking “and” before “virtual man-  
3 ufacturing”; and

4 (B) by striking the period at the end and  
5 inserting “; and artificial intelligence and ma-  
6 chine learning;”; and

7 (3) by adding at the end the following:

8 “(7) additive manufacturing, including new ma-  
9 terial designs, complex materials, rapid printing  
10 techniques, and real-time process controls; and

11 “(8) continuous manufacturing of biological  
12 products and similar innovative monitoring and con-  
13 trol techniques.”.

14 (u) CRITICAL MINERALS MINING RESEARCH AND  
15 DEVELOPMENT.—

16 (1) IN GENERAL.—The Director shall award  
17 grants, on a competitive basis, to institutions of  
18 higher education or nonprofit organizations (or con-  
19 sortium of such institutions or organizations) to sup-  
20 port basic research that will accelerate innovation to  
21 advance critical minerals mining strategies and tech-  
22 nologies for the purpose of making better use of do-  
23 mestic resources and eliminating national reliance on  
24 minerals and mineral materials that are subject to  
25 supply disruptions.

1           (2) USE OF FUNDS.—Activities funded by a  
2 grant under this subsection may include—

3           (A) advancing mining research and devel-  
4 opment activities to develop new mapping and  
5 mining technologies and techniques, including  
6 advanced critical mineral extraction, production,  
7 separation, alloying, or processing techniques  
8 and technologies that can decrease energy in-  
9 tensity, potential environmental impact and  
10 costs of those activities;

11           (B) conducting long-term Earth observa-  
12 tion of reclaimed mine sites, including the study  
13 of the evolution of microbial diversity at such  
14 sites;

15           (C) examining the application of artificial  
16 intelligence for geological exploration of critical  
17 minerals, including what the size and diversity  
18 of data sets would be required;

19           (D) examining the application of machine  
20 learning for detection and sorting of critical  
21 minerals, including what the size and diversity  
22 of data sets would be required;

23           (E) conducting detailed isotope studies of  
24 critical minerals and the development of more  
25 refined geologic models;

1 (F) improved understanding of the geologi-  
2 cal and geochemical processes through which  
3 critical minerals form and are concentrated into  
4 economically viable deposits; or

5 (G) providing training and researcher op-  
6 portunities to undergraduate and graduate stu-  
7 dents to prepare the next generation of mining  
8 engineers and researchers.

9 (3) EXISTING PROGRAMS.—The Director shall  
10 ensure awards made under this subsection are com-  
11plementary and not duplicative of existing programs  
12 across the foundation and Federal Government.

13 (v) STUDY OF AI RESEARCH CAPACITY.—

14 (1) IN GENERAL.—The Director shall conduct a  
15 study, or support the development of a study  
16 through the Science and Technology Policy Institute  
17 or by any other appropriate organization as deter-  
18 mined by the Director, on artificial intelligence re-  
19 search capacity at U.S. institutions of higher edu-  
20 cation.

21 (2) STUDY CONTENTS.—The Director shall en-  
22 sure that, at a minimum, the study under subsection  
23 (a) addresses the following topics:

24 (A) Which universities are putting out sig-  
25 nificant peer-reviewed artificial intelligence re-

1 search, including based on quantity and number  
2 of citations.

3 (B) For each of the universities described  
4 in paragraph (1), what specific factors enable  
5 their AI research, including computing power,  
6 data sets and availability, specialized cur-  
7 riculum, and industry and other partnerships.

8 (C) Promising practices at universities de-  
9 scribed in paragraph (1) for advancing diver-  
10 sity, equity, and inclusion in AI research pro-  
11 grams.

12 (D) How universities not included in para-  
13 graph (1) could implement the factors in para-  
14 graph (2) to produce AI research, as well as  
15 case studies that universities can look to as ex-  
16 amples and potential pilot programs that the  
17 Federal Government could develop or support  
18 to help universities produce AI research.

19 (3) WORKSHOPS.—The Director may support  
20 workshops to help inform the study required under  
21 this subsection.

22 (4) PUBLICATION.—The Director shall ensure  
23 that the study carried out under this subsection is  
24 made publicly available not later than 12 months  
25 after the date of enactment of this Act.

1 (w) ADVANCING IOT FOR PRECISION AGRI-  
2 CULTURE.—

3 (1) NATIONAL SCIENCE FOUNDATION DIREC-  
4 TIVE ON AGRICULTURAL SENSOR RESEARCH.—In  
5 awarding grants under its sensor systems and  
6 networked systems programs, and in consultation  
7 with the Secretary of Agriculture, the Director shall  
8 include in consideration of portfolio balance research  
9 and development on sensor connectivity in environ-  
10 ments of intermittent connectivity and intermittent  
11 computation—

12 (A) to improve the reliable use of advance  
13 sensing systems in rural and agricultural areas;  
14 and

15 (B) that considers—

16 (i) direct gateway access for locally  
17 stored data;

18 (ii) attenuation of signal transmission;

19 (iii) loss of signal transmission; and

20 (iv) at-scale performance for wireless  
21 power.

22 (2) UPDATING CONSIDERATIONS FOR PRECI-  
23 SION AGRICULTURE TECHNOLOGY WITHIN THE NSF  
24 ADVANCED TECHNICAL EDUCATION PROGRAM.—Sec-  
25 tion 3 of the Scientific and Advanced-Technology

1 Act of 1992 (42 U.S.C. 1862i) is amended in sub-  
2 section (e)(3)—

3 (A) in subparagraph (C), by striking  
4 “and” after the semicolon;

5 (B) in subparagraph (D), by striking the  
6 period at the end and inserting “; and”; and

7 (C) by adding at the end the following:

8 “(E) applications that incorporate distance  
9 learning tools and approaches.”.

10 (3) GAO REVIEW.—Not later than 18 months  
11 after the date of enactment of this Act, the Comp-  
12 troller General of the United States shall provide—

13 (A) a technology assessment of precision  
14 agriculture technologies, such as the existing  
15 use of—

16 (i) sensors, scanners, radio-frequency  
17 identification, and related technologies that  
18 can monitor soil properties, irrigation con-  
19 ditions, and plant physiology;

20 (ii) sensors, scanners, radio-frequency  
21 identification, and related technologies that  
22 can monitor livestock activity and health;

23 (iii) network connectivity and wireless  
24 communications that can securely support

1 digital agriculture technologies in rural  
2 and remote areas;

3 (iv) aerial imagery generated by sat-  
4 ellites or unmanned aerial vehicles;

5 (v) ground-based robotics;

6 (vi) control systems design and  
7 connectivity, such as smart irrigation con-  
8 trol systems;

9 (vii) Global Positioning System-based  
10 applications; and

11 (viii) data management software and  
12 advanced analytics that can assist decision  
13 making and improve agricultural outcomes;  
14 and

15 (B) a review of Federal programs that pro-  
16 vide support for precision agriculture research,  
17 development, adoption, education, or training,  
18 in existence on the date of enactment of this  
19 Act.

20 (x) ASTRONOMY AND SATELLITE CONSTELLA-  
21 TIONS.—The Director shall support research into and the  
22 design, development, and testing of mitigation measures  
23 to address the impact of satellite constellations on Foun-  
24 dation scientific programs by—

1           (1) awarding grants on a competitive basis to  
2 support investigations into the impacts of satellite  
3 constellations on ground-based optical, infrared, and  
4 radio astronomy, including through existing pro-  
5 grams such as Spectrum and Wireless Innovation en-  
6 abled by Future Technologies (SWIFT) and the  
7 Spectrum Innovation Initiative;

8           (2) supporting research on satellite impacts and  
9 benefits and mitigation strategies to be carried out  
10 at one or more Foundation supported Federally  
11 Funded Research and Development Centers or large  
12 facilities, as appropriate; and

13           (3) supporting workshops related to the impact  
14 of satellite constellations on scientific research and  
15 how those constellations could be used to improve  
16 scientific research.

17           (y) GAO TECHNOLOGY ASSESSMENT TO ADDRESS  
18 THE OPIOID EPIDEMIC.—

19           (1) IN GENERAL.—The Comptroller General of  
20 the United States shall conduct a technology assess-  
21 ment on the use of current and emerging predictive  
22 analytic tools and technologies to address the opioid  
23 epidemic. Such assessment shall address the fol-  
24 lowing:

1           (A) The prevention of deaths occurring  
2           from overdoses of opioid drugs.

3           (B) The improvement of Federal, State,  
4           and local government responses to the opioid  
5           epidemic and the quality of interventions, treat-  
6           ments, and resources for opioid use disorder.

7           (C) The identification of challenges and  
8           risks related to the use of predictive analytic  
9           tools and technologies.

10          (2) RECOMMENDATIONS.—Not later than 1  
11          year after the date of the enactment of this Act, the  
12          Comptroller General of the United States shall sub-  
13          mit to Congress recommendations based on the find-  
14          ings of the technology assessment conducted under  
15          paragraph (1). Not later than 180 days after such  
16          date of enactment, the Comptroller General shall  
17          provide a briefing to Congress on the progress of  
18          such recommendations.

19          (3) DEFINITIONS.—In this subsection:

20               (A) OPIOID DRUG.—The term “opioid  
21               drug” means a class of drugs that contains an  
22               opioid and includes heroin, synthetic opioids  
23               (including fentanyl), and prescription pain re-  
24               lievers.

1 (B) OPIOID EPIDEMIC.—The term “opioid  
2 epidemic” means the misuse of and addiction to  
3 opioid drugs.

4 (z) NATIONAL SCIENCE FOUNDATION STUDY ON IN-  
5 FLATION.—

6 (1) IN GENERAL.—Not later than 45 days after  
7 the date of enactment of this Act, the Director shall  
8 commission a study to—

9 (A) measure the economic impact of infla-  
10 tion on the American people, including an anal-  
11 ysis of cost-of-living impacts;

12 (B) assess how the increase in inflation  
13 has harmed the American workforce through  
14 decreased, less valuable wages;

15 (C) consider the impact of inflation on  
16 American international competitiveness, par-  
17 ticularly as it relates to offshoring jobs in the  
18 manufacturing industry;

19 (D) evaluate the impact of inflation on  
20 rural and underserved communities throughout  
21 the country;

22 (E) assess the ways inflation at its current  
23 trajectory could impact future American gen-  
24 erations; and

1 (F) make recommendations to Congress on  
2 the impact of further government spending in  
3 regards to inflation.

4 (2) FUNDING.—Of the funds authorized to  
5 carry out this section, \$1,000,000 shall be used to  
6 carry out the study under paragraph (1).

7 **SEC. 10307. RESEARCH INFRASTRUCTURE.**

8 (a) FACILITY OPERATION AND MAINTENANCE.—

9 (1) IN GENERAL.—The Director shall continue  
10 the Facility Operation Transition pilot program for  
11 a total of 5 years.

12 (2) COST SHARING.—The Facility Operation  
13 Transition program shall provide funding for 10–50  
14 percent of the operations and maintenance costs for  
15 major research facilities that are within the first five  
16 years of operation, where the share is determined  
17 based on—

18 (A) the operations and maintenance costs  
19 of the major research facility; and

20 (B) the capacity of the managing direc-  
21 torate or division to absorb such costs.

22 (3) REPORT.—After the fifth year of the pilot  
23 program, the Director shall transmit a report to  
24 Congress that includes—

1 (A) an assessment, that includes feedback  
2 from the research community, of the effective-  
3 ness of the pilot program for—

4 (i) supporting research directorates  
5 and divisions in balancing investments in  
6 research grants and funding for the initial  
7 operation and maintenance of major facili-  
8 ties;

9 (ii) incentivizing the development of  
10 new world-class facilities;

11 (iii) facilitating interagency and inter-  
12 national partnerships;

13 (iv) funding core elements of multi-  
14 disciplinary facilities; and

15 (v) supporting facility divestment  
16 costs; and

17 (B) if deemed effective, a plan for perma-  
18 nent implementation of the pilot program.

19 (b) REVIEWS.—The Director shall periodically carry  
20 out reviews within each of the directorates and divisions  
21 to assess the cost and benefits of extending the operations  
22 of research facilities that have exceeded their planned  
23 operational lifespan.

24 (c) HELIUM CONSERVATION.—

1           (1) MAJOR RESEARCH INSTRUMENTATION SUP-  
2           PORT.—

3                   (A) IN GENERAL.—The Director shall sup-  
4                   port, through the Major Research Instrumenta-  
5                   tion program, proposal requests that include  
6                   the purchase, installation, operation, and main-  
7                   tenance of equipment and instrumentation to  
8                   reduce consumption of helium.

9                   (B) COST SHARING.—The Director may  
10                  waive the cost-sharing requirement for helium  
11                  conservation measures for non-Ph.D.-granting  
12                  institutions of higher education and Ph.D.-  
13                  granting institutions of higher education that  
14                  are not ranked among the top 100 institutions  
15                  receiving Federal research and development  
16                  funding, as documented by the National Center  
17                  for Science and Engineering Statistics.

18           (2) ANNUAL REPORT.—No later than 1 year  
19           after the date of enactment of this Act and annually  
20           for the subsequent two years, the Director shall sub-  
21           mit an annual report to Congress on the use of  
22           funding awarded by the Foundation for the purchase  
23           and conservation of helium. The report should in-  
24           clude—

1 (A) the volume and price of helium pur-  
2 chased;

3 (B) changes in pricing and availability of  
4 helium; and

5 (C) any supply disruptions impacting a  
6 substantial number of institutions.

7 (d) ADVANCED COMPUTING.—

8 (1) COMPUTING NEEDS.—To gather informa-  
9 tion about the computational needs of Foundation-  
10 funded projects, the Director shall require grant pro-  
11 posals submitted to the Foundation, as appropriate,  
12 to include estimates of computational resource needs  
13 for projects that require use of advanced computing.  
14 The Director shall encourage and provide access to  
15 tools that facilitate the inclusion of these measures,  
16 including those identified in the 2016 Academies re-  
17 port entitled “Future Directions for NSF Advanced  
18 Computing Infrastructure to Support U.S. Science  
19 and Engineering in 2017–2020”.

20 (2) REPORTS.—The Director shall document  
21 and publish every two years a summary of the  
22 amount and types of advanced computing capabili-  
23 ties that are needed to fully meet the Foundation’s  
24 project needs as identified under paragraph (1).

1           (3) ROADMAP.—To set priorities and guide  
2           strategic decisions regarding investments in ad-  
3           vanced computing capabilities, the Director shall de-  
4           velop, publish, and regularly update a 5-year ad-  
5           vanced computing roadmap that—

6                   (A) describes the advanced computing re-  
7                   sources and capabilities that would fully meet  
8                   anticipated project needs, including through in-  
9                   vestments in the Mid-Scale Research Infra-  
10                  structure program and the Major Research  
11                  Equipment and Facilities Construction account;

12                  (B) draws on community input, informa-  
13                  tion contained in research proposals, allocation  
14                  requests, insights from Foundation-funded  
15                  cyber-infrastructure operators, and Foundation-  
16                  wide information gathering regarding commu-  
17                  nity needs;

18                  (C) considers computational needs of  
19                  planned major facilities;

20                  (D) reflects anticipated technology trends;

21                  (E) informs users and potential partners  
22                  about future facilities and services;

23                  (F) addresses the needs of groups histori-  
24                  cally underrepresented in STEM and geo-

1 graphic regions with low availability and high  
2 demand for advanced computing resources;

3 (G) considers how Foundation-supported  
4 advanced computing capabilities can be lever-  
5 aged for activities through the Directorate for  
6 Science and Engineering Solutions; and

7 (H) provides an update to Congress about  
8 the level of funding necessary to fully meet  
9 computational resource needs for the research  
10 community.

11 (4) SECURING AMERICAN RESEARCH FROM  
12 CYBER THEFT.—

13 (A) NETWORKING AND INFORMATION  
14 TECHNOLOGY RESEARCH AND DEVELOPMENT  
15 UPDATE.—Section 101(a)(1) of the High-Per-  
16 formance Computing Act of 1991 (15 U.S.C.  
17 5511) is amended—

18 (i) by moving the margins of subpara-  
19 graphs (D) and (J) through (O) two ems  
20 to the left;

21 (ii) by redesignating subparagraphs  
22 (J) through (O) as subparagraphs (K)  
23 through (P), respectively; and

24 (iii) by inserting after subparagraph  
25 (I) the following:

1           “(J) provide for improving the security, reli-  
2           ability, and resiliency of computing and networking  
3           systems used by institutions of higher education and  
4           other nonprofit research institutions for the proc-  
5           essing, storage and transmission of sensitive feder-  
6           ally funded research and associated data;”.

7                   (B) COMPUTING ENCLAVE PILOT PRO-  
8           GRAM.—

9                   (i) IN GENERAL.—The Director, in  
10           consultation with the Director of the Na-  
11           tional Institute of Standards and Tech-  
12           nology and the Secretary of Energy, shall  
13           establish a pilot program to award grants  
14           to ensure the security of federally-sup-  
15           ported research data and to assist regional  
16           institutions of higher education and their  
17           researchers in compliance with regulations  
18           regarding the safeguarding of sensitive in-  
19           formation and other relevant regulations  
20           and Federal guidelines.

21                   (ii) STRUCTURE.—In carrying out the  
22           pilot program established pursuant to  
23           clause (i), the Director shall select three  
24           institutions of higher education from  
25           among institutions classified under the In-

1           diana University Center for Postsecondary  
2           Research Carnegie Classification as a doc-  
3           torate-granting university with a very high  
4           level of research activity, and with a his-  
5           tory of working with secure information for  
6           the development, installation, maintenance,  
7           or sustainment of secure computing en-  
8           claves.

9                   (iii) REGIONALIZATION.—

10                   (I) IN GENERAL.—In selecting  
11                   universities pursuant to clause (ii),  
12                   the Director shall give preference to  
13                   institutions of higher education with  
14                   the capability of serving other regional  
15                   universities.

16                   (II) GEOGRAPHIC DISPERSAL.—

17                   The enclaves should be geographically  
18                   dispersed to better meet the needs of  
19                   regional interests.

20                   (iv) PROGRAM ELEMENTS.—The Di-  
21                   rector shall work with institutions of high-  
22                   er education selected pursuant to clause  
23                   (ii) to—

1 (I) develop an approved design  
2 blueprint for compliance with Federal  
3 data protection protocols;

4 (II) develop a comprehensive and  
5 confidential list, or a bill of materials,  
6 of each binary component of the soft-  
7 ware, firmware, or product that is re-  
8 quired to deploy additional secure  
9 computing enclaves;

10 (III) develop templates for all  
11 policies and procedures required to  
12 operate the secure computing enclave  
13 in a research setting;

14 (IV) develop a system security  
15 plan template; and

16 (V) develop a process for man-  
17 aging a plan of action and milestones  
18 for the secure computing enclave.

19 (v) DURATION.—Subject to other  
20 availability of appropriations, the pilot pro-  
21 gram established pursuant to clause (i)  
22 shall operate for not less than 3 years.

23 (vi) REPORT.—

24 (I) IN GENERAL.—The Director  
25 shall report to Congress not later than

1                   6 months after the completion of the  
2 pilot program under clause (i).

3                   (II) CONTENTS.—The report re-  
4 quired under subclause (I) shall in-  
5 clude—

6                   (aa) an assessment of the  
7 pilot program under clause (i),  
8 including an assessment of the  
9 security benefits provided by such  
10 secure computing enclaves;

11                   (bb) recommendations re-  
12 lated to the value of expanding  
13 the network of secure computing  
14 enclaves; and

15                   (cc) recommendations on the  
16 efficacy of the use of secure com-  
17 puting enclaves by other Federal  
18 agencies in a broader effort to  
19 expand security of Federal re-  
20 search.

21                   (vii) AUTHORIZATION OF APPROPRIA-  
22 TIONS.—There is authorized to be appro-  
23 priated to the Director, \$38,000,000 for  
24 fiscal years 2022 through 2024, to carry  
25 out the activities outlined in this section.

1 (e) NATIONAL SECURE DATA SERVICE.—

2 (1) IN GENERAL.—The Director, in consulta-  
3 tion with the Chief Statistician of the United States,  
4 shall establish a demonstration project to develop,  
5 refine and test models to inform the full implemen-  
6 tation of the Commission on Evidence-Based Policy-  
7 making recommendation for a government-wide data  
8 linkage and access infrastructure for statistical ac-  
9 tivities conducted for statistical purposes, as defined  
10 in chapter 35 of title 44, United States Code.

11 (2) ESTABLISHMENT.—Not later than one year  
12 after the date of enactment of this Act, the Director  
13 shall establish a National Secure Data Service dem-  
14 onstration project. The National Secure Data Serv-  
15 ice demonstration project shall be—

16 (A) aligned with the principles, best prac-  
17 tices, and priority actions recommended by the  
18 Advisory Committee on Data for Evidence  
19 Building, to the extent feasible; and

20 (B) operated directly by or via a contract  
21 that is managed by the National Center for  
22 Science and Engineering Statistics.

23 (3) DATA.—In carrying out this subsection, the  
24 Director shall engage with Federal and State agen-  
25 cies to collect, acquire, analyze, report, and dissemi-

1 nate statistical data in the United States and other  
2 nations to support government-wide evidence-build-  
3 ing activities consistent with the Foundations for  
4 Evidence-Based Policymaking Act of 2018.

5 (4) PRIVACY AND CONFIDENTIALITY PROTEC-  
6 TIONS.—If the Director issues a management con-  
7 tract under paragraph (2), the awardee shall be des-  
8 ignated as an “agent” under chapter 35 of title 44,  
9 United States Code, subchapter III, section 3561 et  
10 seq., with all requirements and obligations for pro-  
11 tecting confidential information delineated in the  
12 Confidential Information Protection and Statistical  
13 Efficiency Act of 2018 and the Privacy Act of 1974.

14 (5) TECHNOLOGY AND PRIVACY STANDARDS.—  
15 In carrying out this subsection, the Director shall—

16 (A) consider application and use of sys-  
17 tems and technologies that incorporate protec-  
18 tion measures to reasonably ensure confidential  
19 data and statistical products are protected in  
20 accordance with obligations under chapter 35 of  
21 title 44, United States Code, subchapter III,  
22 section 3561 et seq., including systems and  
23 technologies that ensure raw data and other  
24 sensitive inputs are not accessible to recipients

1 of statistical outputs from the National Secure  
2 Data Service demonstration project; and

3 (B) to the extent feasible, consider apply-  
4 ing privacy-enhancing technologies to approved  
5 projects when appropriate, or take appropriate  
6 measures to minimize re-identification risks  
7 consistent with any applicable guidance or regu-  
8 lations issued under chapter 35 of title 44,  
9 United States Code, subchapter III, section  
10 3561 et seq.

11 (6) TRANSPARENCY.—The National Secure  
12 Data Service established under paragraph (2) shall  
13 maintain a public website with up-to-date informa-  
14 tion on supported projects.

15 (7) REPORT.—Not later than 2 years after the  
16 date of enactment of this Act, the National Secure  
17 Data Service demonstration project established  
18 under paragraph (2) shall submit a report to Con-  
19 gress that includes—

20 (A) a description of policies for protecting  
21 data, consistent with applicable Federal law;

22 (B) a comprehensive description of all  
23 completed or active data linkage activities and  
24 projects;

1 (C) an assessment of the effectiveness of  
2 the demonstration project for mitigating risks  
3 and removing barriers to a sustained implemen-  
4 tation of the National Secure Data Service as  
5 recommended by the Commission on Evidence-  
6 Based Policymaking; and

7 (D) if deemed effective by the Director, a  
8 plan for scaling up the demonstration project to  
9 facilitate data access for evidence building while  
10 ensuring transparency and privacy.

11 (8) AUTHORIZATION OF APPROPRIATIONS.—

12 There are authorized to be appropriated to the Di-  
13 rector to carry out this subsection \$9,000,000 for  
14 each of fiscal years 2022 through 2026.

15 **SEC. 10308. DIRECTORATE FOR SCIENCE AND ENGINEER-**  
16 **ING SOLUTIONS.**

17 (a) ESTABLISHMENT.—Subject to the availability of  
18 appropriated funds, there is established within the Foun-  
19 dation the Directorate for Science and Engineering Solu-  
20 tions to advance research and development solutions to ad-  
21 dress societal and national challenges for the benefit of  
22 all Americans.

23 (b) PURPOSE.—The purpose of the Directorate estab-  
24 lished under subsection (a) is to support use-inspired re-  
25 search, accelerate the translation of Foundation-supported

1 fundamental research and to advance technologies, facili-  
2 tate commercialization and use of federally funded re-  
3 search, and expand the pipeline of United States students  
4 and researchers in areas of societal and national impor-  
5 tance.

6 (c) ACTIVITIES.—The Director shall achieve the pur-  
7 poses described in subsection (b) by awarding financial as-  
8 sistance through the Directorate to—

9 (1) support transformational advances in use-  
10 inspired and translational research through diverse  
11 funding mechanisms and models, including conver-  
12 gence accelerators;

13 (2) translate research into science and engineer-  
14 ing innovations, including through developing inno-  
15 vative approaches to connect research with societal  
16 outcomes, developing approaches to technology  
17 transfer that do not rely only on traditional market  
18 and commercialization tools, education and training  
19 for students and researchers on engaging with end  
20 users and the public, partnerships that facilitate re-  
21 search uptake, application, and scaling, prototype  
22 development, entrepreneurial education, developing  
23 tech-to-market strategies, and partnerships that con-  
24 nect research products to businesses, accelerators,

1 and incubators and encourage the formation and  
2 growth of new companies;

3 (3) develop and expand sustainable and mutu-  
4 ally-beneficial use-inspired and translational research  
5 and development partnerships and collaborations  
6 among institutions of higher education, including  
7 minority serving institutions and emerging research  
8 institutions, non-profit organizations, labor organiza-  
9 tions, businesses and other for-profit entities, Fed-  
10 eral or State agencies, community organizations,  
11 other Foundation directorates, national labs, field  
12 stations and marine laboratories, international enti-  
13 ties as appropriate, binational research and develop-  
14 ment foundations and funds, excluding foreign enti-  
15 ties of concern, and other organizations;

16 (4) build capacity for use-inspired and  
17 translational research at institutions of higher edu-  
18 cation, including necessary administrative support;

19 (5) expand opportunities for researchers to con-  
20 tribute to use-inspired and translational research in-  
21 cluding through support for workshops and con-  
22 ferences, targeted incentives and training, and multi-  
23 disciplinary research centers;

24 (6) support the education, mentoring, and  
25 training of undergraduate students, graduate stu-

1 dents, and postdoctoral researchers in use-inspired  
2 and translational approaches to research and entre-  
3 preneurship in key focus areas identified under sub-  
4 section (g) through scholarships, fellowships, and  
5 traineeships;

6 (7) support translational research infrastruc-  
7 ture, including platforms and testbeds, data manage-  
8 ment and software tools, and networks and commu-  
9 nication platforms for interactive and collective  
10 learning and information sharing;

11 (8) identify social, behavioral, and economic  
12 drivers and consequences of technological innova-  
13 tions; and

14 (9) ensure the programmatic work of the Direc-  
15 torate and Foundation incorporates a worker per-  
16 spective through participation by labor organizations  
17 and workforce training organizations.

18 (d) ASSISTANT DIRECTOR.—

19 (1) IN GENERAL.—The Director shall appoint  
20 an Assistant Director responsible for the manage-  
21 ment of the Directorate established under this sec-  
22 tion.

23 (2) TERM LIMIT.—The Assistant Director ap-  
24 pointed under paragraph (1) shall serve a term last-  
25 ing no longer than 4 years.

1           (3) QUALIFICATIONS.—The Assistant Director  
2 shall be an individual, who by reason of professional  
3 background and experience, is specially qualified  
4 to—

5           (A) advise the Director on all matters per-  
6 taining to use-inspired and translational re-  
7 search, development, and commercialization at  
8 the Foundation, including partnership with the  
9 private sector and other users of Foundation  
10 funded research; and

11           (B) develop and implement the necessary  
12 policies and procedures to promote a culture of  
13 use-inspired and translational research within  
14 the Directorate and across the Foundation and  
15 carry out the responsibilities under paragraph  
16 (4).

17           (4) RESPONSIBILITIES.—The responsibilities of  
18 the Assistant Director shall include—

19           (A) advising the Director on all matters  
20 pertaining to use-inspired and translational re-  
21 search and development activities at the Foun-  
22 dation, including effective practices for conver-  
23 gence research;

24           (B) identifying opportunities for and facili-  
25 tating coordination and collaboration, where ap-

1           appropriate, on use-inspired and translational re-  
2           search, development, commercialization, and so-  
3           cietal application activities—

4                   (i) among the offices, directorates,  
5                   and divisions within the Foundation; and

6                   (ii) between the Foundation and  
7                   stakeholders in academia, the private sec-  
8                   tor, including non-profit entities, labor or-  
9                   ganizations, Federal or State agencies, and  
10                  international entities, as appropriate;

11                (C) ensuring that the activities carried out  
12                under this section are not duplicative of activi-  
13                ties supported by other parts of the Foundation  
14                or other relevant Federal agencies;

15                (D) approving all new programs within the  
16                Directorate;

17                (E) developing and testing diverse merit-  
18                review models and mechanisms for selecting  
19                and providing awards for use-inspired and  
20                translational research and development at dif-  
21                ferent scales, from individual investigator  
22                awards to large multi-institution collaborations;

23                (F) assessing the success of programs;

24                (G) administering awards to achieve the  
25                purposes described in subsection (b); and

1           (H) performing other such duties per-  
2           taining to the purposes in subsection (b) as are  
3           required by the Director.

4           (5) RELATIONSHIP TO THE DIRECTOR.—The  
5           Assistant Director shall report to the Director.

6           (6) RELATIONSHIP TO OTHER PROGRAMS.—No  
7           other directorate within the Foundation shall report  
8           to the Assistant Director.

9           (e) ADVISORY COMMITTEE.—

10           (1) IN GENERAL.—In accordance with the Fed-  
11           eral Advisory Committee Act (5 U.S.C. App.) the  
12           Director shall establish an advisory committee to as-  
13           sess, and make recommendations regarding, the ac-  
14           tivities carried out under this section.

15           (2) MEMBERSHIP.—The advisory committee  
16           members shall—

17           (A) be individuals with relevant experience  
18           or expertise, including individuals from industry  
19           and national labs, educators, academic subject  
20           matter experts, including individuals with  
21           knowledge of the technical and social dimen-  
22           sions of science and technology, technology  
23           transfer experts, labor organizations, and rep-  
24           resentatives of civil society, community organi-

1           zations, and other nongovernmental organiza-  
2           tions; and

3           (B) consist of at least 10 members broadly  
4           representative of stakeholders, including no less  
5           than 3 members from the private sector, none  
6           of whom shall be an employee of the Federal  
7           Government.

8           (3) RESPONSIBILITIES.—The Committee shall  
9           be responsible for—

10           (A) reviewing and evaluating activities car-  
11           ried out under this section; and

12           (B) assessing the success of the Direc-  
13           torate in and proposing new strategies for ful-  
14           filling the purposes in subsection (b).

15           (f) EXISTING PROGRAMS.—The Convergence Accel-  
16           erator, the Growing Convergence Research Big Idea, and  
17           any other program, at the discretion of the Director, may  
18           be managed by the Directorate.

19           (g) FOCUS AREAS.—In consultation with the Assist-  
20           ant Director, the Board, and other Federal agencies and  
21           taking into account advice under subsection (e), the Direc-  
22           tor shall identify, and regularly update, up to 5 focus  
23           areas to guide activities under this section. In selecting  
24           such focus areas, the Director shall consider the following  
25           societal challenges:

1           (1) Climate change and environmental sustain-  
2           ability.

3           (2) Global competitiveness and domestic job  
4           creation in critical technologies.

5           (3) Cybersecurity.

6           (4) National security.

7           (5) STEM education and workforce.

8           (6) Social and economic inequality.

9           (h) ELIGIBILITY.—Recipients of funds under this  
10          section may include institutions of higher education, re-  
11          search institutions, non-profit organizations, private sector  
12          entities, consortia, or other entities, as defined by the Di-  
13          rector.

14          (i) TECHNOLOGY RESEARCH INSTITUTES.—

15           (1) IN GENERAL.—The Director may award  
16           grants and cooperative agreements to institutions of  
17           higher education, or consortia thereof, for the plan-  
18           ning, establishment, and support of Technology Re-  
19           search Institutes in key technology areas, as deter-  
20           mined by the Director.

21           (2) USES OF FUNDS.—Funds awarded under  
22           this section may be used by a Technology Research  
23           Institute to—

24                   (A) conduct fundamental research to ad-  
25                   vance innovation in a key technology;

1           (B) conduct research involving a key tech-  
2 nology to solve challenges with social, economic,  
3 health, scientific, and national security implica-  
4 tions;

5           (C) further the development, adoption, and  
6 commercialization of innovations in key tech-  
7 nology focus areas, including through partner-  
8 ship with other Federal agencies and Federal  
9 laboratories, industry, including startup compa-  
10 nies, labor organizations, civil society organiza-  
11 tions, and State, territorial, local, and Tribal  
12 governments;

13          (D) develop and manage multi-user re-  
14 search testbeds and instrumentation for key  
15 technologies;

16          (E) develop and manage an accessible re-  
17 pository, as appropriate, for research data and  
18 computational models relevant to the relevant  
19 key technology field, consistent with applicable  
20 privacy and intellectual property laws;

21          (F) convene national workshops for re-  
22 searchers and other stakeholders in that tech-  
23 nology area;

24          (G) establish traineeship programs for  
25 graduate students who pursue research related

1 to the technology leading to a masters or doc-  
2 torate degree by providing funding and other  
3 assistance, and by providing graduate students  
4 opportunities for research experiences in gov-  
5 ernment or industry related to the students'  
6 studies in that technology area;

7 (H) engage in outreach and engagement to  
8 broaden participation in technology research  
9 and education; and

10 (I) support such other activities that the  
11 Director determines appropriate.

12 (3) CONSIDERATIONS.—In making awards  
13 under this section, the Director may consider the ex-  
14 tent to which the activities proposed—

15 (A) have the potential to create an innova-  
16 tion ecosystem, or enhance existing ecosystems,  
17 to translate Technology Research Institute re-  
18 search into applications and products, as appro-  
19 priate to the topic of each Institute;

20 (B) support transdisciplinary research and  
21 development across multiple institutions of  
22 higher education and organizations;

23 (C) support transdisciplinary education ac-  
24 tivities, including curriculum development, re-  
25 search experiences, and faculty professional de-

1           velopment across undergraduate, graduate, and  
2           professional academic programs;

3           (D) involve partnerships with multiple  
4           types of institutions, including emerging re-  
5           search institutions, historically Black colleges  
6           and universities, Tribal Colleges or Universities,  
7           and minority serving institutions, and with  
8           other Federal agencies, Federal laboratories, in-  
9           dustry, State, territorial, local, and Tribal gov-  
10          ernments, labor organizations, civil society or-  
11          ganizations, and other entities that may use or  
12          be affected by the technology; and

13          (E) include a component that addresses  
14          the ethical, societal, safety, and security impli-  
15          cations relevant to the application of the tech-  
16          nology.

17          (4) DURATION.—

18           (A) INITIAL PERIOD.—An award under  
19           this section shall be for an initial period of 5  
20           years.

21           (B) RENEWAL.—An established Tech-  
22           nology Institute may apply for, and the Direc-  
23           tor may grant, extended funding for periods of  
24           5 years on a merit-reviewed basis.

1           (5) APPLICATION.—An institution of higher  
2 education or consortia thereof seeking financial as-  
3 sistance under this section shall submit to the Direc-  
4 tor an application at such time, in such manner, and  
5 containing such information as the Director may re-  
6 quire.

7           (6) COMPETITIVE, MERIT-REVIEW.—In making  
8 awards under the section, the Director shall—

9                   (A) use a competitive, merit review process  
10 that includes peer review by a diverse group of  
11 individuals with relevant expertise from both  
12 the private and public sectors; and

13                   (B) ensure the focus areas of the Institute  
14 do not substantially and unnecessarily duplicate  
15 the efforts of any other Technology Research  
16 Institute or any other similar effort at another  
17 Federal agency.

18           (7) COLLABORATION.—In making awards under  
19 this section, the Director may collaborate with Fed-  
20 eral departments and agencies whose missions con-  
21 tribute to or are affected by the technology focus  
22 area of the institute.

23           (j) PLANNING AND CAPACITY BUILDING GRANTS.—  
24 Section 602 of the American Innovation and Competitive-  
25 ness Act (42 U.S.C. 1862s–9) is amended—

1           (1) by redesignating subsection (e) as sub-  
2           section (f); and

3           (2) by inserting after subsection (d), the fol-  
4           lowing:

5           “(e) PLANNING AND CAPACITY BUILDING GRANTS.—

6           “(1) IN GENERAL.—Under the program estab-  
7           lished in section 508 of the America COMPETES  
8           Reauthorization Act of 2010 (42 U.S.C. 1862p-2)  
9           and the activities authorized under this section, the  
10          Director shall award grants to eligible entities for  
11          planning and capacity building at institutions of  
12          higher education.

13          “(2) ELIGIBLE ENTITY DEFINED.—In this sub-  
14          section, the term ‘eligible entity’ means an institu-  
15          tion of higher education (or a consortium of such in-  
16          stitutions) that, according to the data published by  
17          the National Center for Science and Engineering  
18          Statistics, is not, on average, among the top 100 in-  
19          stitutions in Federal R&D expenditures during the 3  
20          year period prior to the year of the award.

21          “(3) USE OF FUNDS.—In addition to activities  
22          listed under subsection (c), an eligible entity receiv-  
23          ing a grant under this subsection may use funds  
24          to—

1           “(A) ensure the availability of staff, includ-  
2           ing technology transfer professionals, entre-  
3           preneurs in residence, and other mentors as re-  
4           quired to accomplish the purpose of this sub-  
5           section;

6           “(B) revise institution policies, including  
7           policies related to intellectual property and fac-  
8           ulty entrepreneurship, and taking other nec-  
9           essary steps to implement relevant best prac-  
10          tices for academic technology transfer;

11          “(C) develop new local and regional part-  
12          nerships among institutions of higher education  
13          and between institutions of higher education  
14          and private sector entities and other relevant  
15          organizations with the purpose of building net-  
16          works, expertise, and other capacity to identify  
17          promising research that may have potential  
18          market value and enable researchers to pursue  
19          further development and transfer of their ideas  
20          into possible commercial or other use;

21          “(D) develop seminars, courses, and other  
22          educational opportunities for students, post-doc-  
23          toral researchers, faculty, and other relevant  
24          staff at institutions of higher education to in-  
25          crease awareness and understanding of entre-

1           preneurship, patenting, business planning, and  
2           other areas relevant to technology transfer, and  
3           connect students and researchers to relevant re-  
4           sources, including mentors in the private sector;  
5           and

6                   “(E) create and fund competitions to allow  
7           entrepreneurial students and faculty to illus-  
8           trate the commercialization potential of their  
9           ideas.

10           “(4) MINIMUM DURATION AND SIZE OF  
11           AWARD.—Grants awarded under this subsection  
12           shall be at least 3 years in duration and \$500,000  
13           in total amount.

14           “(5) APPLICATION.—An eligible entity seeking  
15           funding under this subsection shall submit an appli-  
16           cation to the Director of the Foundation at such  
17           time, in such manner, and containing such informa-  
18           tion and assurances as such Director may require.  
19           The application shall include, at a minimum, a de-  
20           scription of how the eligible entity submitting an ap-  
21           plication plans to sustain the proposed activities be-  
22           yond the duration of the grant.

23           “(6) AUTHORIZATION OF APPROPRIATIONS.—  
24           From within funds authorized for the Directorate  
25           for Science and Engineering Solutions, there are au-

1       thorized to carry out the activities under this sub-  
2       section \$40 million for each of fiscal years 2022  
3       through 2026.”.

4       (k) ENTREPRENEURIAL FELLOWSHIPS.—

5           (1) IN GENERAL.—The Director shall award  
6       fellowships to Ph.D.-trained scientists and engineers  
7       to help develop leaders capable of maturing prom-  
8       ising ideas and technologies from lab to market and  
9       forge connections between academic research and  
10      government, industry, and finance.

11          (2) APPLICATIONS.—An applicant for a fellow-  
12      ship under this subsection shall submit to the Direc-  
13      tor an application at such time, in such manner, and  
14      containing such information as the Director may re-  
15      quire. At a minimum, the Director shall require that  
16      applicants—

17           (A) have completed a doctoral degree in a  
18      STEM field no more than 5 years prior to the  
19      date of the application; and

20           (B) have included in the application a let-  
21      ter of support from the intended host institu-  
22      tion that describes how the fellow will be em-  
23      bedded in that institution’s research environ-  
24      ment.

1           (3) OUTREACH.—The Director shall conduct  
2 program outreach to recruit fellowship applicants—

3           (A) from diverse research institutions;

4           (B) from all regions of the country; and

5           (C) from groups historically underrep-  
6 resented in STEM fields;

7           (4) The Director may enter into an agreement  
8 with a third-party entity to administer the fellow-  
9 ships, subject to the provisions of this subsection.

10          (5) AUTHORIZATION OF APPROPRIATIONS.—  
11 There is authorized to be appropriated to the Direc-  
12 tor \$100,000,000 for fiscal years 2022 through  
13 2026, to carry out the activities outlined in this sub-  
14 section.

15          (1) LOW-INCOME SCHOLARSHIP PROGRAM.—

16           (1) IN GENERAL.—The Director shall award  
17 scholarships to low-income individuals to enable such  
18 individuals to pursue associate, undergraduate, or  
19 graduate level degrees in mathematics, engineering,  
20 or computer science.

21           (2) ELIGIBILITY.—

22           (A) IN GENERAL.—To be eligible to receive  
23 a scholarship under this section, an indi-  
24 vidual—

1 (i) must be a citizen of the United  
2 States, a national of the United States (as  
3 defined in section 1101(a) of title 8), an  
4 alien admitted as a refugee under section  
5 1157 of title 8, or an alien lawfully admit-  
6 ted to the United States for permanent  
7 residence;

8 (ii) shall prepare and submit to the  
9 Director an application at such time, in  
10 such manner, and containing such infor-  
11 mation as the Director may require; and

12 (iii) shall certify to the Director that  
13 the individual intends to use amounts re-  
14 ceived under the scholarship to enroll or  
15 continue enrollment at an institution of  
16 higher education (as defined in section  
17 1001(a) of title 20) in order to pursue an  
18 associate, undergraduate, or graduate level  
19 degree in mathematics, engineering, com-  
20 puter science, or other technology and  
21 science programs designated by the Direc-  
22 tor.

23 (B) ABILITY.—Awards of scholarships  
24 under this section shall be made by the Director  
25 solely on the basis of the ability of the appli-

1           cant, except that in any case in which 2 or  
2           more applicants for scholarships are deemed by  
3           the Director to be possessed of substantially  
4           equal ability, and there are not sufficient schol-  
5           arships available to grant one to each of such  
6           applicants, the available scholarship or scholar-  
7           ships shall be awarded to the applicants in a  
8           manner that will tend to result in a geographi-  
9           cally wide distribution throughout the United  
10          States of recipients' places of permanent resi-  
11          dence.

12           (3) SCHOLARSHIP AMOUNT AND RENEWAL.—  
13          The amount of a scholarship awarded under this  
14          section shall be determined by the Director. The Di-  
15          rector may renew scholarships for up to 5 years.

16           (4) AUTHORIZATION.—Of amounts authorized  
17          for the Directorate for Science and Engineering So-  
18          lutions, \$100,000,000 shall be authorized for this  
19          program.

20           (m) AUTHORITIES.—In addition to existing authori-  
21          ties available to the Foundation, the Director may exercise  
22          the following authorities in carrying out the activities  
23          under this section:

24           (1) AWARDS.—In carrying out this section, the  
25          Director may provide awards in the form of grants,

1 contracts, cooperative agreements, cash prizes, and  
2 other transactions.

3 (2) APPOINTMENTS.—The Director shall have  
4 the authority to make appointments of scientific, en-  
5 gineering, and professional personnel for carrying  
6 out research and development functions which re-  
7 quire the services of specially qualified personnel re-  
8 lating to the focus areas identified under subsection  
9 (g) and such other areas of national research prior-  
10 ities as the Director may determine.

11 (n) ETHICAL, LEGAL, AND SOCIETAL CONSIDER-  
12 ATIONS.—The Director shall establish policies regarding  
13 engagement with experts in the social dimensions of  
14 science and technology and set up formal avenues for pub-  
15 lic input, as appropriate, to ensure that ethical, legal, and  
16 societal considerations are explicitly integrated into the  
17 priorities for the Directorate, including the selection of  
18 focus areas under subsection (g), the award-making proc-  
19 ess, and throughout all stages of supported projects.

20 (o) REPORTS AND ROADMAPS.—

21 (1) ANNUAL REPORT.—The Director shall pro-  
22 vide to the relevant authorizing and appropriations  
23 committees of Congress an annual report describing  
24 projects supported by the Directorate during the  
25 previous year.

1           (2) ROADMAP.—Not later than 1 year after the  
2           date of enactment of this Act, the Director shall pro-  
3           vide to the relevant authorizing and appropriations  
4           committees of Congress a roadmap describing the  
5           strategic vision that the Directorate will use to guide  
6           investment decisions over the following 3 years.

7           (p) EVALUATION.—

8           (1) IN GENERAL.—After the Directorate has  
9           been in operation for 6 years, the National Science  
10          Board shall evaluate how well the Directorate is  
11          achieving the purposes identified in subsection (b),  
12          including an assessment of the impact of Directorate  
13          activities on the Foundation’s primary science mis-  
14          sion.

15          (2) INCLUSIONS.—The evaluation shall in-  
16          clude—

17                  (A) a recommendation on whether the Di-  
18                  rectorate should be continued or terminated;  
19                  and

20                  (B) a description of lessons learned from  
21                  operation of the Directorate.

22          (3) AVAILABILITY.—On completion of the eval-  
23          uation, the evaluation shall be made available to  
24          Congress and the public.

1 **SEC. 10309. ADMINISTRATIVE AMENDMENTS.**

2 (a) SUPPORTING VETERANS IN STEM CAREERS.—

3 Section 3(c) of the Supporting Veterans in STEM Careers  
4 Act is amended by striking “annual” and inserting “bien-  
5 nial”.

6 (b) SUNSHINE ACT COMPLIANCE.—Section 15 of the  
7 National Science Foundation Authorization Act of 2002  
8 is amended—

9 (1) so that paragraph (3) reads as follows:

10 “(3) COMPLIANCE REVIEW.—The Inspector  
11 General of the Foundation shall conduct a review of  
12 the compliance by the Board with the requirements  
13 described in paragraph (2) as necessary based on a  
14 triennial risk assessment. Any review deemed nec-  
15 essary shall examine the proposed and actual con-  
16 tent of closed meetings and determine whether the  
17 closure of the meetings was consistent with section  
18 552b of title 5, United States Code.”; and

19 (2) by striking paragraphs (4) and (5) and in-  
20 serting the following:

21 “(4) MATERIALS RELATING TO CLOSED POR-  
22 TIONS OF MEETING.—To facilitate the risk assess-  
23 ment required under paragraph (3) of this sub-  
24 section, and any subsequent review conducted by the  
25 Inspector General, the Office of the National Science  
26 Board shall maintain the General Counsel’s certifi-

1       cate, the presiding officer’s statement, and a tran-  
2       script or recording of any closed meeting, for at  
3       least 3 years after such meeting.”.

4       (c) SCIENCE AND ENGINEERING INDICATORS RE-  
5       PORT SUBMISSION.—Section 4(j)(1) of the National  
6       Science Foundation Act of 1950 (42 U.S.C. 1863(j)(1))  
7       is amended by striking “January 15” and inserting  
8       “March 15”.

9       (d) OTHER REQUIREMENTS.—All laborers and me-  
10      chanics employed by contractors or subcontractors in the  
11      performance of construction, alteration or repair work as-  
12      sisted in whole or in part under this title shall be paid  
13      wages at rates not less than those prevailing on projects  
14      of a similar character in the locality as determined by the  
15      Secretary of Labor in accordance with subchapter IV of  
16      chapter 31 of title 40, United States Code. With respect  
17      to the labor standards specified in this section, the Sec-  
18      retary of Labor shall have the authority and functions set  
19      forth in Reorganization Plan Numbered 14 of 1950 (64  
20      Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40,  
21      United States Code.

22      **SEC. 10310. MICROGRAVITY UTILIZATION POLICY.**

23      (a) SENSE OF CONGRESS.—It is the sense of Con-  
24      gress that space technology and the utilization of the  
25      microgravity environment for science, engineering, and

1 technology development is critical to long-term competi-  
2 tiveness with near-peer competitors, including China.

3 (b) POLICY.—To the greatest extent appropriate, the  
4 National Science Foundation (in this section referred to  
5 as the “Foundation”) shall facilitate access to the micro-  
6 gravity environment for awardees of funding from the  
7 Foundation, including in private sector platforms, for the  
8 development of science, engineering, and technology.

9 (c) REPORT.—Not later than 180 days after the date  
10 of enactment of this Act, the Director of the Foundation  
11 shall provide to the appropriate committees of Congress  
12 a report on the Foundation’s plan for facilitating awardee  
13 access to the microgravity environment.

14 **SEC. 10311. RECOGNITION OF THE ARECIBO OBSERVATORY.**

15 (a) FINDINGS.—Congress finds the following:

16 (1) The Department of Defense began devel-  
17 oping the Arecibo Observatory located in Barrio  
18 Esperanza, Arecibo, Puerto Rico, during the 1950s,  
19 and its characteristic instrument, a large radio tele-  
20 scope of 305 meters in diameter was completed in  
21 1963.

22 (2) The facility was later owned by the National  
23 Science Foundation, and supported by the National  
24 Aeronautics and Space Administration and various  
25 university partners.

1           (3) The Arecibo Observatory’s 305-meter fixed  
2 spherical radio telescope, was the world’s largest sin-  
3 gular-dish radio telescope until the Five-Hundred-  
4 Meter Aperture Spherical Radio Telescope located in  
5 Gishou, China, began observing in 2016.

6           (4) The 305-meter radio telescope made unpar-  
7 alleled contributions to the fields of radio astronomy,  
8 planetary, and atmospheric sciences, and played a  
9 role in inspiring thousands of students in Puerto  
10 Rico, the Nation, and the world to pursue careers in  
11 STEM fields through the Arecibo Observatory Edu-  
12 cation and Public Outreach Programs.

13           (5) The radio telescope significantly advanced  
14 the field of radio astronomy, including the first indi-  
15 rect detection of gravitational waves, the first detec-  
16 tion of extrasolar planets, innumerable contributions  
17 to the field of time domain astronomy and the study  
18 of the interstellar medium, and played a key role in  
19 the search for extraterrestrial intelligence.

20           (6) The Arecibo Observatory had the best plan-  
21 etary radar system in the world, used by the Na-  
22 tional Aeronautics and Space Administration for  
23 near-Earth object detection and was an essential  
24 part of the agency’s planetary defense program.

1           (7) The planetary radar at the Arecibo Observ-  
2           atory has contributed fundamentally and signifi-  
3           cantly to the knowledge of the solar system.

4           (8) The Arecibo Observatory’s Incoherent Scat-  
5           ter Radar and supporting facilities have provided  
6           fundamental understanding of the ionosphere and  
7           upper atmosphere, and the interface between the at-  
8           mosphere and space that protects the planet from  
9           solar wind, meteors, and other potential threats.

10          (9) December 1, 2021, marks the 1-year anni-  
11          versary of the uncontrolled collapse sustained by the  
12          radio telescope after a series of cable failures in  
13          tower 4.

14          (b) SENSE OF CONGRESS.—It is the sense of Con-  
15          gress that the Congress—

16               (1) acknowledges the loss of the Arecibo Ob-  
17               servatory’s radio telescope due to its collapse and its  
18               implications for the loss of a unique world-class mul-  
19               tidisciplinary science facility which conducted re-  
20               search in the areas of space and atmospheric  
21               sciences, radar astronomy and planetary sciences,  
22               astronomy, and astrophysics;

23               (2) acknowledges that the uncontrolled collapse  
24               of the 305-meter radio telescope represents a loss of  
25               astronomical observation capabilities, scientific re-

1 search and development, planetary defense capabili-  
2 ties, and applied science capabilities for the United  
3 States;

4 (3) recognizes the rich scientific, educational,  
5 and economic benefits that the Arecibo Telescope  
6 has made to the people of Puerto Rico, the Nation,  
7 and the world;

8 (4) recognizes the work and contributions made  
9 by the thousands of dedicated staff who have sup-  
10 ported the Arecibo Observatory for close to 6 dec-  
11 ades;

12 (5) commends the National Science Foundation  
13 for convening a virtual workshop in June 2021, to  
14 explore ideas for future scientific and educational ac-  
15 tivities at the Arecibo Observatory; and

16 (6) encourages the National Science Founda-  
17 tion, the National Aeronautics and Space Adminis-  
18 tration, and other agencies to explore opportunities  
19 for strengthening and expanding the role of the Arecibo  
20 Observatory in Puerto Rico through education,  
21 outreach, and diversity programs, and future re-  
22 search capabilities and technology at the site.

23 **SEC. 10312. HANDS-ON LEARNING OPPORTUNITIES IN STEM**  
24 **EDUCATION.**

25 (a) DEFINITIONS.—In this section:

1           (1) ESEA TERMS.—The terms “elementary  
2 school”, “high school”, “secondary school”, and  
3 “State” have the meanings given the terms in sec-  
4 tion 8101 of the Elementary and Secondary Edu-  
5 cation Act of 1965 (20 U.S.C. 7801).

6           (2) ELIGIBLE NONPROFIT PROGRAM.—The  
7 term “eligible nonprofit program”—

8           (A) means a nonprofit program serving  
9 prekindergarten, elementary school, or sec-  
10 ondary school students; and

11           (B) includes a program described in sub-  
12 paragraph (A) that covers the continuum of  
13 education from prekindergarten through high  
14 school and is available in every State.

15           (3) DIRECTOR.—The term “Director” means  
16 the Director of the National Science Foundation.

17           (4) STEM.—The term “STEM” means science,  
18 technology, engineering, and mathematics.

19           (b) PURPOSES.—The purposes of this section are  
20 to—

21           (1) provide effective, compelling, and engaging  
22 means for teaching and reinforcing fundamental  
23 STEM concepts and inspiring the youth of the  
24 United States to pursue careers in STEM-related  
25 fields;

1           (2) expand the STEM workforce pipeline by de-  
2     veloping and training students for careers in United  
3     States STEM fields; and

4           (3) broaden participation in the STEM work-  
5     force by underrepresented population groups.

6     (c) PROGRAM AUTHORIZED.—

7           (1) IN GENERAL.—The Director shall, subject  
8     to the availability of appropriations for such pur-  
9     poses, make awards to eligible nonprofit programs  
10    for supporting hands-on learning opportunities in  
11    STEM education, including via after-school activities  
12    and innovative learning opportunities such as robot-  
13    ics competitions and for the purposes of evaluating  
14    the impact of such programs on STEM learning and  
15    disseminating the results of such evaluations.

16          (2) PRIORITY.—In making awards under the  
17    program, the Director shall give priority to eligible  
18    nonprofit programs serving students that attend ele-  
19    mentary schools or secondary schools (including high  
20    schools) that—

21           (A) are implementing comprehensive sup-  
22           port and improvement activities or targeted  
23           support and improvement activities under para-  
24           graph (1) or (2) of section 1111(d) of the Ele-

1 elementary and Secondary Education Act of 1965  
2 (20 U.S.C. 6311(d)); or

3 (B) serve high percentages of students who  
4 are eligible for a free or reduced price lunch  
5 under the Richard B. Russell National School  
6 Lunch Act (42 U.S.C. 1751 et seq.) (which, in  
7 the case of a high school, may be calculated  
8 using comparable data from the schools that  
9 feed into the high school).

## 10 **TITLE IV—BIOECONOMY** 11 **RESEARCH AND DEVELOPMENT**

### 12 **SEC. 10401. FINDINGS.**

13 The Congress makes the following findings:

14 (1) Cellular and molecular processes may be  
15 used, mimicked, or redesigned to develop new prod-  
16 ucts, processes, and systems that improve societal  
17 well-being, strengthen national security, and con-  
18 tribute to the economy.

19 (2) Engineering biology relies on a workforce  
20 with a diverse and unique set of skills combining the  
21 biological, physical, chemical, and information  
22 sciences and engineering.

23 (3) Long-term research and development is nec-  
24 essary to create breakthroughs in engineering biol-  
25 ogy. Such research and development requires govern-

1       ment investment as many of the benefits are too dis-  
2       tant or uncertain for industry to support alone.

3           (4) Research is necessary to inform evidence-  
4       based governance of engineering biology and to sup-  
5       port the growth of the engineering biology industry.

6           (5) The Federal Government has an obligation  
7       to ensure that ethical, legal, environmental, safety,  
8       security, and societal implications of its science and  
9       technology research and investment follows policies  
10      of responsible innovation and fosters public trans-  
11      parency.

12          (6) The Federal Government can play an im-  
13      portant role by facilitating the development of tools  
14      and technologies to further advance engineering biol-  
15      ogy, including user facilities, by facilitating public-  
16      private partnerships, by supporting risk research,  
17      and by facilitating the commercial application in the  
18      United States of research funded by the Federal  
19      Government.

20          (7) The United States led the development of  
21      the science and engineering techniques that created  
22      the field of engineering biology, but due to increas-  
23      ing international competition, the United States is  
24      at risk of losing its competitive advantage if it does  
25      not strategically invest the necessary resources.

1           (8) A National Engineering Biology Initiative  
2           can serve to establish new research directions and  
3           technology goals, improve interagency coordination  
4           and planning processes, drive technology transfer to  
5           the private sector, and help ensure optimal returns  
6           on the Federal investment.

7 **SEC. 10402. DEFINITIONS.**

8           In this title:

9           (1) **BIOMANUFACTURING.**—The term “bio-  
10           manufacturing” means the utilization of biological  
11           systems to develop new and advance existing prod-  
12           ucts, tools, and processes at commercial scale.

13           (2) **ENGINEERING BIOLOGY.**—The term “engi-  
14           neering biology” means the application of engineer-  
15           ing design principles and practices to biological sys-  
16           tems, including molecular and cellular systems, to  
17           advance fundamental understanding of complex nat-  
18           ural systems and to enable novel or optimize func-  
19           tions and capabilities.

20           (3) **INITIATIVE.**—The term “Initiative” means  
21           the National Engineering Biology Research and De-  
22           velopment Initiative established under section  
23           10403.

24           (4) **OMICS.**—The term “omics” refers to the  
25           collective technologies used to explore the roles, rela-

1        tionships, and actions of the various types of mol-  
2        ecules that make up the cells and systems of an or-  
3        ganism and the systems level analysis of their func-  
4        tions.

5        **SEC. 10403. NATIONAL ENGINEERING BIOLOGY RESEARCH**  
6                                    **AND DEVELOPMENT INITIATIVE.**

7            (a) IN GENERAL.—The President, acting through the  
8        Office of Science and Technology Policy, shall implement  
9        a National Engineering Biology Research and Develop-  
10       ment Initiative to advance societal well-being, national se-  
11       curity, sustainability, and economic productivity and com-  
12       petitiveness through—

13            (1) advancing areas of research at the intersec-  
14       tion of the biological, physical, chemical, data, and  
15       computational and information sciences and engi-  
16       neering to accelerate scientific understanding and  
17       technological innovation in engineering biology;

18            (2) advancing areas of biomanufacturing re-  
19       search to optimize, standardize, scale, and deliver  
20       new products and solutions;

21            (3) supporting social and behavioral sciences  
22       and economics research that advances the field of  
23       engineering biology and contributes to the develop-  
24       ment and public understanding of new products,  
25       processes, and technologies;

1           (4) improving the understanding of engineering  
2           biology of the scientific and lay public and sup-  
3           porting greater evidence-based public discourse  
4           about its benefits and risks;

5           (5) supporting research relating to the risks  
6           and benefits of engineering biology, including under  
7           subsection (d);

8           (6) supporting the development of novel tools  
9           and technologies to accelerate scientific under-  
10          standing and technological innovation in engineering  
11          biology;

12          (7) expanding the number of researchers, edu-  
13          cators, and students and a retooled workforce with  
14          engineering biology training, including from tradi-  
15          tionally underrepresented and underserved popu-  
16          lations;

17          (8) accelerating the translation and commer-  
18          cialization of engineering biology and biomanufac-  
19          turing research and development by the private sec-  
20          tor; and

21          (9) improving the interagency planning and co-  
22          ordination of Federal Government activities related  
23          to engineering biology.

24          (b) INITIATIVE ACTIVITIES.—The activities of the  
25 Initiative shall include—

1           (1) sustained support for engineering biology  
2 research and development through—

3           (A) grants to fund the work of individual  
4 investigators and teams of investigators, includ-  
5 ing interdisciplinary teams;

6           (B) projects funded under joint solicita-  
7 tions by a collaboration of no fewer than two  
8 agencies participating in the Initiative; and

9           (C) interdisciplinary research centers that  
10 are organized to investigate basic research  
11 questions, carry out technology development  
12 and demonstration activities, and increase un-  
13 derstanding of how to scale up engineering biol-  
14 ogy processes, including biomanufacturing;

15          (2) sustained support for databases and related  
16 tools, including—

17           (A) support for the establishment,  
18 curation, and maintenance of curated genomics,  
19 epigenomics, and other relevant omics data-  
20 bases, including plant, animal, and microbial  
21 databases, that are available to researchers to  
22 carry out engineering biology research in a  
23 manner that does not compromise national se-  
24 curity or the privacy or security of information  
25 within such databases;

1 (B) development of standards for such  
2 databases, including for curation, interoper-  
3 ability, and protection of privacy and security;

4 (C) support for the development of com-  
5 putational tools, including artificial intelligence  
6 tools, that can accelerate research and innova-  
7 tion using such databases; and

8 (D) an inventory and assessment of all  
9 Federal government omics databases to identify  
10 opportunities to improve the utility of such  
11 databases, as appropriate and in a manner that  
12 does not compromise national security or the  
13 privacy and security of information within such  
14 databases, and inform investment in such data-  
15 bases as critical infrastructure for the engineer-  
16 ing biology research enterprise;

17 (3) sustained support for the development, opti-  
18 mization, and validation of novel tools and tech-  
19 nologies to enable the dynamic study of molecular  
20 processes in situ, including through—

21 (A) research conducted at Federal labora-  
22 tories;

23 (B) grants to fund the work of investiga-  
24 tors at institutions of higher education and  
25 other nonprofit research institutions;

1           (C) incentivized development of retooled in-  
2           dustrial sites across the country that foster a  
3           pivot to modernized engineering biology initia-  
4           tives; and

5           (D) awards under the Small Business In-  
6           novation Research Program and the Small  
7           Business Technology Transfer Program, as de-  
8           scribed in section 9 of the Small Business Act  
9           (15 U.S.C. 638);

10          (4) support for education and training of un-  
11          dergraduate and graduate students in engineering  
12          biology, biomanufacturing, bioprocess engineering,  
13          and computational science applied to engineering bi-  
14          ology and in the related ethical, legal, environmental,  
15          safety, security, and other societal domains;

16          (5) support for a national network of testbeds  
17          based on open standards, interfaces, and processes,  
18          including by repurposing existing facilities such as  
19          those in paragraph 3(C), that would enable scale up  
20          of laboratory engineering biology research;

21          (6) activities to develop robust mechanisms for  
22          documenting and quantifying the outputs and eco-  
23          nomic benefits of engineering biology; and

1           (7) activities to accelerate the translation and  
2           commercialization of new products, processes, and  
3           technologies by—

4                   (A) identifying precompetitive research op-  
5                   portunities;

6                   (B) facilitating public-private partnerships  
7                   in engineering biology research and develop-  
8                   ment, including to address barriers to scaling  
9                   up innovations in engineering biology;

10                  (C) connecting researchers, graduate stu-  
11                  dents, and postdoctoral fellows with entrepre-  
12                  neurship education and training opportunities;  
13                  and

14                  (D) supporting proof of concept activities  
15                  and the formation of startup companies includ-  
16                  ing through programs such as the Small Busi-  
17                  ness Innovation Research Program and the  
18                  Small Business Technology Transfer Program.

19           (c) EXPANDING PARTICIPATION.—The Initiative  
20 shall include, to the maximum extent practicable, outreach  
21 to primarily undergraduate and minority-serving institu-  
22 tions about Initiative opportunities, and shall encourage  
23 the development of research collaborations between re-  
24 search-intensive universities and primarily undergraduate  
25 and minority-serving institutions.

1 (d) ETHICAL, LEGAL, ENVIRONMENTAL, SAFETY,  
2 SECURITY, AND SOCIETAL ISSUES.—Initiative activities  
3 shall take into account ethical, legal, environmental, safe-  
4 ty, security, and other appropriate societal issues by—

5 (1) supporting research, including in the social  
6 sciences, and other activities addressing ethical,  
7 legal, environmental, and other appropriate societal  
8 issues related to engineering biology, including inte-  
9 grating research on such topics with the research  
10 and development in engineering biology, and encour-  
11 aging the dissemination of the results of such re-  
12 search, including through interdisciplinary engineer-  
13 ing biology research centers described in subsection  
14 (b)(1);

15 (2) supporting research and other activities re-  
16 lated to the safety and security implications of engi-  
17 neering biology, including outreach to increase  
18 awareness among Federal researchers and Federally-  
19 funded researchers at institutions of higher edu-  
20 cation about potential safety and security implica-  
21 tions of engineering biology research, as appropriate;

22 (3) ensuring that input from Federal and non-  
23 Federal experts on the ethical, legal, environmental,  
24 safety, security, and other appropriate societal issues

1 related to engineering biology is integrated into the  
2 Initiative;

3 (4) ensuring, through the agencies and depart-  
4 ments that participate in the Initiative, that public  
5 input and outreach are integrated into the Initiative  
6 by the convening of regular and ongoing public dis-  
7 cussions through mechanisms such as workshops,  
8 consensus conferences, and educational events, as  
9 appropriate; and

10 (5) complying with all applicable provisions of  
11 Federal law.

12 **SEC. 10404. INITIATIVE COORDINATION.**

13 (a) INTERAGENCY COMMITTEE.—The President, act-  
14 ing through the Office of Science and Technology Policy,  
15 shall designate an interagency committee to coordinate ac-  
16 tivities of the Initiative as appropriate, which shall be co-  
17 chaired by the Office of Science and Technology Policy.  
18 The Director of the Office of Science and Technology Pol-  
19 icy shall select an additional co-chairperson from among  
20 the members of the Interagency Committee. The Inter-  
21 agency Committee shall oversee the planning, manage-  
22 ment, and coordination of the Initiative. The Interagency  
23 Committee shall—

24 (1) provide for interagency coordination of Fed-  
25 eral engineering biology research, development, and

1 other activities undertaken pursuant to the Initia-  
2 tive;

3 (2) establish and periodically update goals and  
4 priorities for the Initiative;

5 (3) develop, not later than 12 months after the  
6 date of the enactment of this Act, and update every  
7 5 years thereafter, a strategic plan submitted to the  
8 Committee on Science, Space, and Technology, the  
9 Committee on Agriculture, and the Committee on  
10 Energy and Commerce of the House of Representa-  
11 tives and the Committee on Commerce, Science, and  
12 Transportation, the Committee on Agriculture, Nu-  
13 trition, and Forestry, and the Committee on Health,  
14 Education, Labor, and Pensions of the Senate  
15 that—

16 (A) guides the activities of the Initiative  
17 for purposes of meeting the goals and priorities  
18 established under (and updated pursuant to)  
19 paragraph (2); and

20 (B) describes—

21 (i) the Initiative's support for long-  
22 term funding for interdisciplinary engineer-  
23 ing biology research and development;

24 (ii) the Initiative's support for edu-  
25 cation and public outreach activities;

1 (iii) the Initiative’s support for re-  
2 search and other activities on ethical, legal,  
3 environmental, safety, security, and other  
4 appropriate societal issues related to engi-  
5 neering biology including—

6 (I) an applied biorisk manage-  
7 ment research plan;

8 (II) recommendations for inte-  
9 grating security into biological data  
10 access and international reciprocity  
11 agreements;

12 (III) recommendations for manu-  
13 facturing restructuring to support en-  
14 gineering biology research, develop-  
15 ment, and scaling-up initiatives; and

16 (IV) an evaluation of existing  
17 biosecurity governance policies, guid-  
18 ance, and directives for the purposes  
19 of creating an adaptable, evidence-  
20 based framework to respond to emerg-  
21 ing biosecurity challenges created by  
22 advances in engineering biology;

23 (iv) how the Initiative will contribute  
24 to moving results out of the laboratory and

1           into application for the benefit of society  
2           and United States competitiveness; and

3                   (v) how the Initiative will measure  
4           and track the contributions of engineering  
5           biology to United States economic growth  
6           and other societal indicators;

7           (4) develop a national genomic sequencing  
8           strategy to ensure engineering biology research fully  
9           leverages plant, animal, and microbe biodiversity, as  
10          appropriate and in a manner that does not com-  
11          promise economic competitiveness, national security,  
12          or the privacy or security of human genetic informa-  
13          tion, to enhance long-term innovation and competi-  
14          tiveness in engineering biology in the United States;

15          (5) develop a plan to utilize Federal programs,  
16          such as the Small Business Innovation Research  
17          Program and the Small Business Technology Trans-  
18          fer Program as described in section 9 of the Small  
19          Business Act (15 U.S.C. 638), in support of the ac-  
20          tivities described in section 10403(b)(3); and

21          (6) in carrying out this section, take into con-  
22          sideration the recommendations of the advisory com-  
23          mittee established under section 10405, the results  
24          of the workshop convened under section 10406, ex-  
25          isting reports on related topics, and the views of aca-

1       demic, State, industry, and other appropriate  
2       groups.

3       (b) QUINQUENNIAL REPORT.—Beginning with fiscal  
4       year 2022 and ending in fiscal year 2028, not later than  
5       90 days after submission of the President’s annual budget  
6       request and every fifth fiscal year thereafter, the Inter-  
7       agency Committee shall prepare and submit to the Com-  
8       mittee on Science, Space, and Technology and the Com-  
9       mittee on Agriculture of the House of Representatives and  
10      the Committee on Commerce, Science, and Transportation  
11      and the Committee on Agriculture, Nutrition, and For-  
12      estry of the Senate a report that includes—

13             (1) a summarized agency budget in support of  
14             the Initiative for the fiscal year to which such budg-  
15             et request applies, for the following 2 fiscal years,  
16             for the then current fiscal year, including a breakout  
17             of spending for each agency participating in the Pro-  
18             gram, and for the development and acquisition of  
19             any research facilities and instrumentation; and

20             (2) an assessment of how Federal agencies are  
21             implementing the plan described in subsection  
22             (a)(3), including—

23                     (A) a description of the amount and num-  
24                     ber of awards made under the Small Business  
25                     Innovation Research Program and the Small

1 Business Technology Transfer Program (as de-  
2 scribed in section 9 of the Small Business Act  
3 (15 U.S.C. 638)) in support of the Initiative;

4 (B) a description of the amount and num-  
5 ber of projects funded under joint solicitations  
6 by a collaboration of no fewer than 2 agencies  
7 participating in the Initiative; and

8 (C) a description of the effect of the newly  
9 funded projects by the Initiative.

10 (c) INITIATIVE OFFICE.—

11 (1) IN GENERAL.—The President shall establish  
12 an Initiative Coordination Office, with a Director  
13 and full-time staff, which shall—

14 (A) provide technical and administrative  
15 support to the interagency committee and the  
16 advisory committee established under section  
17 10405;

18 (B) serve as the point of contact on Fed-  
19 eral engineering biology activities for govern-  
20 ment organizations, academia, industry, profes-  
21 sional societies, State governments, interested  
22 citizen groups, and others to exchange technical  
23 and programmatic information;

24 (C) oversee interagency coordination of the  
25 Initiative, including by encouraging and sup-

1           porting joint agency solicitation and selection of  
2           applications for funding of activities under the  
3           Initiative, as appropriate;

4           (D) conduct public outreach, including dis-  
5           semination of findings and recommendations of  
6           the advisory committee established under sec-  
7           tion 10405, as appropriate;

8           (E) serve as the coordinator of ethical,  
9           legal, environmental, safety, security, and other  
10          appropriate societal input; and

11          (F) promote access to, and early applica-  
12          tion of, the technologies, innovations, and ex-  
13          pertise derived from Initiative activities to agen-  
14          cy missions and systems across the Federal  
15          Government, and to United States industry, in-  
16          cluding startup companies.

17          (2) FUNDING.—The Director of the Office of  
18          Science and Technology Policy, in coordination with  
19          each participating Federal department and agency,  
20          as appropriate, shall develop and annually update an  
21          estimate of the funds necessary to carry out the ac-  
22          tivities of the Initiative Coordination Office and sub-  
23          mit such estimate with an agreed summary of con-  
24          tributions from each agency to Congress as part of  
25          the President’s annual budget request to Congress.

1           (3) **TERMINATION.**—The Initiative Coordination  
2           Office established under this subsection shall termi-  
3           nate on the date that is 10 years after the date of  
4           the enactment of this Act.

5           (d) **RULE OF CONSTRUCTION.**—Nothing in this sec-  
6           tion shall be construed to alter the policies, processes, or  
7           practices of individual Federal agencies in effect on the  
8           day before the date of the enactment of this Act relating  
9           to the conduct of biomedical research and advanced devel-  
10          opment, including the solicitation and review of extra-  
11          mural research proposals.

12 **SEC. 10405. ADVISORY COMMITTEE.**

13          (a) **IN GENERAL.**—The agency co-chair of the inter-  
14          agency committee established in section 10404 shall, in  
15          consultation with the Office of Science and Technology  
16          Policy, designate or establish an advisory committee on  
17          engineering biology research and development (in this sec-  
18          tion referred to as the “advisory committee”) to be com-  
19          posed of not fewer than 12 members, including representa-  
20          tives of research and academic institutions, industry, and  
21          nongovernmental entities, who are qualified to provide ad-  
22          vice on the Initiative.

23          (b) **ASSESSMENT.**—The advisory committee shall as-  
24          sess—

1           (1) the current state of United States competi-  
2           tiveness in engineering biology, including the scope  
3           and scale of United States investments in engineer-  
4           ing biology research and development in the inter-  
5           national context;

6           (2) current market barriers to commercializa-  
7           tion of engineering biology products, processes, and  
8           tools in the United States;

9           (3) progress made in implementing the Initia-  
10          tive;

11          (4) the need to revise the Initiative;

12          (5) the balance of activities and funding across  
13          the Initiative;

14          (6) whether the strategic plan developed or up-  
15          dated by the interagency committee established  
16          under section 10404 is helping to maintain United  
17          States leadership in engineering biology; and

18          (7) whether ethical, legal, environmental, safety,  
19          security, and other appropriate societal issues are  
20          adequately addressed by the Initiative.

21          (c) REPORTS.—Beginning not later than 2 years  
22          after the date of enactment of this Act, and not less fre-  
23          quently than once every 5 years thereafter, the advisory  
24          committee shall submit to the President, the Committee  
25          on Science, Space, and Technology and the Committee on

1 Agriculture of the House of Representatives, and the Com-  
2 mittee on Commerce, Science, and Transportation and the  
3 Committee on Agriculture, Nutrition, and Forestry of the  
4 Senate, a report on—

5 (1) the findings of the advisory committee's as-  
6 sessment under subsection (b); and

7 (2) the advisory committee's recommendations  
8 for ways to improve the Initiative.

9 (d) APPLICATION OF FEDERAL ADVISORY COM-  
10 MITTEE ACT.—Section 14 of the Federal Advisory Com-  
11 mittee Act (5 U.S.C. App.) shall not apply to the Advisory  
12 Committee.

13 (e) TERMINATION.—The advisory committee estab-  
14 lished under subsection (a) shall terminate on the date  
15 that is 10 years after the date of the enactment of this  
16 Act.

17 **SEC. 10406. EXTERNAL REVIEW OF ETHICAL, LEGAL, ENVI-**  
18 **RONMENTAL, SAFETY, SECURITY, AND SOCI-**  
19 **ETAL ISSUES.**

20 (a) IN GENERAL.—Not later than 6 months after the  
21 date of enactment of this Act, the Director of the National  
22 Science Foundation shall seek to enter into an agreement  
23 with the National Academies of Sciences, Engineering,  
24 and Medicine to conduct a review, and make recommenda-  
25 tions with respect to, the ethical, legal, environmental,

1 safety, security, and other appropriate societal issues re-  
2 lated to engineering biology research and development.

3 The review shall include—

4 (1) an assessment of the current research on  
5 such issues;

6 (2) a description of the research gaps relating  
7 to such issues;

8 (3) recommendations on how the Initiative can  
9 address the research needs identified pursuant to  
10 paragraph (2); and

11 (4) recommendations on how researchers en-  
12 gaged in engineering biology can best incorporate  
13 considerations of ethical, legal, environmental, safe-  
14 ty, security, and other societal issues into the devel-  
15 opment of research proposals and the conduct of re-  
16 search.

17 (b) REPORT TO CONGRESS.—The agreement entered  
18 into under subsection (a) shall require the National Acad-  
19 emies of Sciences, Engineering, and Medicine to, not later  
20 than 2 years after the date of the enactment of this Act—

21 (1) submit to the Committee on Science, Space,  
22 and Technology and the Committee on Agriculture  
23 of the House of Representatives and the Committee  
24 on Commerce, Science, and Transportation and the  
25 Committee on Agriculture, Nutrition, and Forestry

1 of the Senate a report containing the findings and  
2 recommendations of the review conducted under sub-  
3 section (a); and

4 (2) make a copy of such report available on a  
5 publicly accessible website.

6 **SEC. 10407. AGENCY ACTIVITIES.**

7 (a) NATIONAL SCIENCE FOUNDATION.—As part of  
8 the Initiative, the National Science Foundation shall—

9 (1) support research in engineering biology and  
10 biomanufacturing through individual grants, collabo-  
11 rative grants, and through interdisciplinary research  
12 centers;

13 (2) support research on the environmental,  
14 legal, ethical, and social implications of engineering  
15 biology;

16 (3) provide support for research instrumenta-  
17 tion, equipment, and cyberinfrastructure for engi-  
18 neering biology disciplines, including support for re-  
19 search, development, optimization and validation of  
20 novel technologies to enable the dynamic study of  
21 molecular processes in situ;

22 (4) support curriculum development and re-  
23 search experiences for secondary, undergraduate,  
24 and graduate students in engineering biology and  
25 biomanufacturing, including through support for

1 graduate fellowships and traineeships in engineering  
2 biology; and

3 (5) award grants, on a competitive basis, to en-  
4 able institutions to support graduate students and  
5 postdoctoral fellows who perform some of their engi-  
6 neering biology research in an industry setting.

7 (b) DEPARTMENT OF COMMERCE.—

8 (1) NATIONAL INSTITUTE OF STANDARDS AND  
9 TECHNOLOGY.—As part of the Initiative, the Direc-  
10 tor of the National Institute of Standards and Tech-  
11 nology shall—

12 (A) advance the development of standard  
13 reference materials and measurements, includ-  
14 ing to promote interoperability between new  
15 component technologies and processes for engi-  
16 neering biology and biomanufacturing discovery,  
17 innovation, and production processes;

18 (B) create new data tools, techniques, and  
19 processes necessary to advance engineering biol-  
20 ogy and biomanufacturing;

21 (C) provide access to user facilities with  
22 advanced or unique equipment, services, mate-  
23 rials, and other resources to industry, institu-  
24 tions of higher education, nonprofit organiza-

1           tions, and government agencies to perform re-  
2           search and testing; and

3                   (D) provide technical expertise to inform  
4           the potential development of guidelines or safe-  
5           guards for new products, processes, and sys-  
6           tems of engineering biology.

7           (2) NATIONAL OCEANIC AND ATMOSPHERIC AD-  
8           MINISTRATION.—As part of the initiative, the Ad-  
9           ministrators of the National Oceanic and Atmos-  
10          pheric Administration shall—

11                   (A) conduct and support research in omics  
12          and associated bioinformatic sciences and de-  
13          velop tools and products to improve ecosystem  
14          stewardship, monitoring, management, assess-  
15          ments and forecasts, consistent with the mis-  
16          sion of the agency; and

17                   (B) collaborate with other agencies to un-  
18          derstand potential environmental threats and  
19          safeguards related to engineering biology.

20          (c) DEPARTMENT OF ENERGY.—As part of the Ini-  
21          tiative, the Secretary of Energy shall—

22                   (1) conduct and support research, development,  
23          demonstration, and commercial application activities  
24          in engineering biology, including in the areas of syn-  
25          thetic biology, advanced biofuel and bioproduct de-

1       velopment, biobased materials, and environmental  
2       remediation;

3           (2) support the development, optimization and  
4       validation of novel, scalable tools and technologies to  
5       enable the dynamic study of molecular processes in  
6       situ;

7           (3) provide access to user facilities with ad-  
8       vanced or unique equipment, services, materials, and  
9       other resources, including secure access to high-per-  
10      formance computing, as appropriate, to industry, in-  
11      stitutions of higher education, nonprofit organiza-  
12      tions, and government agencies to perform research  
13      and testing; and

14          (4) strengthen collaboration between the Office  
15      of Science and the Energy Efficiency and Renewable  
16      Energy Office to help transfer fundamental research  
17      results to industry and accelerate commercial appli-  
18      cations.

19      (d) NATIONAL AERONAUTICS AND SPACE ADMINIS-  
20      TRATION.—As part of the Initiative, the National Aero-  
21      nautics and Space Administration shall—

22          (1) conduct and support research in engineering  
23      biology, including in synthetic biology, and related to  
24      Earth and space sciences, aeronautics, space tech-  
25      nology, and space exploration and experimentation,

1 consistent with the priorities established in the Na-  
2 tional Academies' decadal surveys; and

3 (2) award grants, on a competitive basis, that  
4 enable institutions to support graduate students and  
5 postdoctoral fellows who perform some of their engi-  
6 neering biology research in an industry setting.

7 (e) DEPARTMENT OF AGRICULTURE.—As part of the  
8 Initiative, the Secretary of Agriculture shall support re-  
9 search and development in engineering biology, including  
10 in synthetic biology, alternative proteins, and biomaterials,  
11 through the Agricultural Research Service, the National  
12 Institute of Food and Agriculture programs, and the Of-  
13 fice of the Chief Scientist.

14 (f) ENVIRONMENTAL PROTECTION AGENCY.—As  
15 part of the Initiative, the Environmental Protection Agen-  
16 cy shall support research on how products, processes, and  
17 systems of engineering biology will affect or can protect  
18 the environment.

19 (g) DEPARTMENT OF HEALTH AND HUMAN SERV-  
20 ICES.—As part of the Initiative, the Secretary of Health  
21 and Human Services, as appropriate and consistent with  
22 activities of the Department of Health and Human Serv-  
23 ices in effect on the day before the date of the enactment  
24 of this Act, shall—

1           (1) support research and development to ad-  
2           vance the understanding and application of engineer-  
3           ing biology for human health;

4           (2) support relevant interdisciplinary research  
5           and coordination; and

6           (3) support activities necessary to facilitate  
7           oversight of relevant emerging biotechnologies.

8 **SEC. 10408. RULE OF CONSTRUCTION.**

9           Nothing in this title shall be construed to require  
10          public disclosure of information that is exempt from man-  
11          datory disclosure under section 552 of title 5, United  
12          States Code.

13                   **TITLE V—BROADENING**  
14                   **PARTICIPATION IN SCIENCE**  
15                   **Subtitle A—STEM Opportunities**

16 **SEC. 10501. FINDINGS.**

17          The Congress finds the following:

18           (1) Many reports over the past decade have  
19           found that it is critical to our Nation’s economic  
20           leadership and global competitiveness that the  
21           United States educates and trains more scientists  
22           and engineers.

23           (2) Research shows that women and minorities  
24           who are interested in STEM careers are disproport-

1 tionately lost at nearly every educational transition  
2 and at every career milestone.

3 (3) The National Center for Science and Engi-  
4 neering Statistics at the National Science Founda-  
5 tion collects, compiles, analyzes, and publishes data  
6 on the demographics of STEM degrees and STEM  
7 jobs in the United States.

8 (4) Women now earn nearly 37 percent of all  
9 STEM bachelor's degrees, but major variations per-  
10 sist among fields. In 2017, women earned only 20  
11 percent of all bachelor's degrees awarded in engi-  
12 neering and 19 percent of bachelor's degrees award-  
13 ed in computer sciences. Based on Bureau of Labor  
14 Statistics data, jobs in computing occupations are  
15 expected to account for nearly 60 percent of the pro-  
16 jected annual growth of newly created STEM job  
17 openings from 2016 to 2026.

18 (5) In 2017, underrepresented minority groups  
19 comprised 39 percent of the college-age population  
20 of the United States, but only 18 percent of stu-  
21 dents who earned bachelor's degrees in STEM fields.  
22 The Higher Education Research Institute at the  
23 University of California, Los Angeles, found that,  
24 while freshmen from underrepresented minority  
25 groups express an interest in pursuing a STEM un-

1       dergraduate degree at the same rate as all other  
2       freshmen, only 22.1 percent of Latino students, 18.4  
3       percent of African-American students, and 18.8 per-  
4       cent of Native American students studying in STEM  
5       fields complete their degree within 5 years, com-  
6       pared to approximately 33 percent of White students  
7       and 42 percent of Asian students who complete their  
8       degree within 5 years.

9               (6) In some STEM fields, including the com-  
10       puter sciences, women persist at about the same rate  
11       through doctorate degrees. In other STEM fields,  
12       women persist through doctorate degrees at a lower  
13       rate. In mathematics, women earn just 26 percent of  
14       doctorate degrees compared with 42 percent of un-  
15       dergraduate degrees. Overall, women earned 38 per-  
16       cent of STEM doctorate degrees in 2016. The rate  
17       of minority students earning STEM doctorate de-  
18       grees in physics is 9 percent, compared with 15 per-  
19       cent for bachelor's degree. Students from underrep-  
20       resented minority groups accounted for only 11.5  
21       percent of STEM doctorate degrees awarded in  
22       2016.

23               (7) The representation of women in STEM  
24       drops significantly from the doctorate degree level to  
25       the faculty level. Overall, women hold only 26 per-

1 cent of all tenured and tenure-track positions and 27  
2 percent of full professor positions in STEM fields in  
3 our Nation's universities and 4-year colleges. Black  
4 and Hispanic faculty together hold about 6.8 percent  
5 of all tenured and tenure-track positions and 7.5  
6 percent of full professor positions. Many of the num-  
7 bers in the American Indian or Alaskan Native and  
8 Native Hawaiian or Other Pacific Islander cat-  
9 egories for different faculty ranks were too small for  
10 the National Science Foundation to report publicly  
11 without potentially compromising confidential infor-  
12 mation about the individuals being surveyed.

13 (8) The representation of women is especially  
14 low at our Nation's top research universities. Even  
15 in the biological sciences, in which women now earn  
16 more than 50 percent of the doctorates and passed  
17 the 25 percent level 37 years ago, women make up  
18 only 25 percent of the full professors at the approxi-  
19 mately 100 most research-intensive universities in  
20 the United States. In the physical sciences and  
21 mathematics, women make up only 11 percent of full  
22 professors, in computer sciences only 10 percent,  
23 and across engineering fields only 7 percent. The  
24 data suggest that approximately 6 percent of all ten-  
25 ure-track STEM faculty members at the most re-

1 search-intensive universities are from underrep-  
2 resented minority groups, but in some fields the  
3 numbers are too small to report publicly.

4 (9) By 2050, underrepresented minorities will  
5 comprise 52 percent of the college-age population of  
6 the United States. If the percentage of female stu-  
7 dents and students from underrepresented minority  
8 groups earning bachelor's degrees in STEM fields  
9 does not significantly increase, the United States  
10 will face an acute shortfall in the overall number of  
11 students who earn degrees in STEM fields just as  
12 United States companies are increasingly seeking  
13 students with those skills. With this impending  
14 shortfall, the United States will almost certainly lose  
15 its competitive edge in the 21st century global econ-  
16 omy.

17 (10) According to a 2014 Association for  
18 Women in Science survey of over 4,000 scientists  
19 across the globe, 70 percent of whom were men,  
20 STEM researchers face significant challenges in  
21 work-life integration. Researchers in the United  
22 States were among the most likely to experience a  
23 conflict between work and their personal life at least  
24 weekly. One-third of researchers surveyed said that  
25 ensuring good work-life integration has negatively

1 impacted their careers, and, of researchers intending  
2 to leave their current job within the next year, 9  
3 percent indicated it was because they were unable to  
4 balance work and life demands.

5 (11) Female students and students from under-  
6 represented minority groups at institutions of higher  
7 education who see few others “like themselves”  
8 among faculty and student populations often do not  
9 experience the social integration that is necessary for  
10 success in all disciplines, including STEM.

11 (12) One in five children in the United States  
12 attend school in a rural community. The data shows  
13 that rural students are at a disadvantage with re-  
14 spect to STEM readiness. Among STEM-interested  
15 students, 17 percent of students in rural high  
16 schools and 18 percent of students in town-located  
17 high schools meet the ACT STEM Benchmark, com-  
18 pared with 33 percent of students in suburban high  
19 schools and 27 percent of students in urban high  
20 schools.

21 (13) A substantial body of evidence establishes  
22 that most people hold implicit biases. Decades of  
23 cognitive psychology research reveal that most peo-  
24 ple carry prejudices of which they are unaware but  
25 that nonetheless play a large role in evaluations of

1 people and their work. Unintentional biases and out-  
2 moded institutional structures are hindering the ac-  
3 cess and advancement of women, minorities, and  
4 other groups historically underrepresented in STEM.

5 (14) Workshops held to educate faculty about  
6 unintentional biases have demonstrated success in  
7 raising awareness of such biases.

8 (15) In 2012, the Office of Diversity and Equal  
9 Opportunity of the National Aeronautics and Space  
10 Administration (in this subtitle referred to as  
11 “NASA”) completed a report that—

12 (A) is specifically designed to help NASA  
13 grant recipients identify why the dearth of  
14 women in STEM fields continues and to ensure  
15 that it is not due to discrimination; and

16 (B) provides guidance that is usable by all  
17 institutions of higher education receiving sig-  
18 nificant Federal research funding on how to  
19 conduct meaningful self-evaluations of campus  
20 culture and policies.

21 (16) The Federal Government provides 55 per-  
22 cent of research funding at institutions of higher  
23 education and, through its grant-making policies,  
24 has had significant influence on institution of higher

1 education policies, including policies related to insti-  
2 tutional culture and structure.

3 **SEC. 10502. PURPOSES.**

4 The purposes of this subtitle are as follows:

5 (1) To ensure that Federal science agencies and  
6 institutions of higher education receiving Federal re-  
7 search and development funding are fully engaging  
8 the entire talent pool of the United States.

9 (2) To promote research on, and increase un-  
10 derstanding of, the participation and trajectories of  
11 women, minorities, and other groups historically  
12 underrepresented in STEM studies and careers, in-  
13 cluding persons with disabilities, older learners, vet-  
14 erans, and rural, poor, and tribal populations, at in-  
15 stitutions of higher education and Federal science  
16 agencies, including Federal laboratories.

17 (3) To raise awareness within Federal science  
18 agencies, including Federal laboratories, and institu-  
19 tions of higher education about cultural and institu-  
20 tional barriers limiting the recruitment, retention,  
21 promotion, and other indicators of participation and  
22 achievement of women, minorities, and other groups  
23 historically underrepresented in academic and Gov-  
24 ernment STEM research careers at all levels.

1           (4) To identify, disseminate, and implement  
2           best practices at Federal science agencies, including  
3           Federal laboratories, and at institutions of higher  
4           education to remove or reduce cultural and institu-  
5           tional barriers limiting the recruitment, retention,  
6           and success of women, minorities, and other groups  
7           historically underrepresented in academic and Gov-  
8           ernment STEM research careers.

9           (5) To provide grants to institutions of higher  
10          education to recruit, retain, and advance STEM fac-  
11          ulty members from underrepresented minority  
12          groups and to implement or expand reforms in un-  
13          dergraduate STEM education in order to increase  
14          the number of students from underrepresented mi-  
15          nority groups receiving degrees in these fields.

16 **SEC. 10503. FEDERAL SCIENCE AGENCY POLICIES FOR**  
17 **CAREGIVERS.**

18          (a) OSTP GUIDANCE.—Not later than 6 months  
19          after the date of enactment of this Act, the Director, in  
20          consultation with relevant agencies, shall provide guidance  
21          to each Federal science agency to establish policies that—

22                  (1) apply to all—

23                          (A) research awards granted by such agen-  
24                          cy; and

1           (B) principal investigators of such research  
2           and their trainees, including postdoctoral re-  
3           searchers and graduate students, who have  
4           caregiving responsibilities, including care for a  
5           newborn or newly adopted child and care for an  
6           immediate family member who is sick or dis-  
7           abled; and

8           (2) provide—

9           (A) flexibility in timing for the initiation of  
10          approved research awards granted by such  
11          agency;

12          (B) no-cost extensions of such research  
13          awards;

14          (C) grant supplements, as appropriate, to  
15          research awards for research technicians or  
16          equivalent positions to sustain research activi-  
17          ties conducted under such awards; and

18          (D) any other appropriate accommodations  
19          at the discretion of the director of each such  
20          agency.

21          (b) UNIFORMITY OF GUIDANCE.—In providing guid-  
22          ance under subsection (a), the Director shall encourage  
23          uniformity and consistency in the policies established pur-  
24          suant to such guidance across all Federal science agencies.

1 (c) ESTABLISHMENT OF POLICIES.—Consistent with  
2 the guidance under subsection (a), Federal science agen-  
3 cies shall—

4 (1) maintain or develop and implement policies  
5 for individuals described in paragraph (1)(B) of  
6 such subsection; and

7 (2) broadly disseminate such policies to current  
8 and potential grantees.

9 (d) DATA ON USAGE.—Federal science agencies  
10 shall—

11 (1) collect data on the usage of the policies  
12 under subsection (c), by gender, at both institutions  
13 of higher education and Federal laboratories; and

14 (2) report such data on an annual basis to the  
15 Director in such form as required by the Director.

16 **SEC. 10504. COLLECTION AND REPORTING OF DATA ON**  
17 **FEDERAL RESEARCH GRANTS.**

18 (a) COLLECTION OF DATA.—

19 (1) IN GENERAL.—Each Federal science agency  
20 shall collect, as practicable, with respect to all appli-  
21 cations for merit-reviewed research and development  
22 grants to institutions of higher education and Fed-  
23 eral laboratories supported by that agency, the  
24 standardized record-level annual information on de-  
25 mographics, primary field, award type, institution

1 type, review rating, budget request, funding out-  
2 come, and awarded budget.

3 (2) UNIFORMITY AND STANDARDIZATION.—The  
4 Director, in consultation with the Director of the  
5 National Science Foundation, shall establish a policy  
6 to ensure uniformity and standardization of the data  
7 collection required under paragraph (1).

8 (3) RECORD-LEVEL DATA.—

9 (A) REQUIREMENT.—Beginning not later  
10 than 2 years after the date of the enactment of  
11 this Act, and on an annual basis thereafter,  
12 each Federal science agency shall submit to the  
13 Director of the National Science Foundation  
14 record-level data collected under paragraph (1)  
15 in the form required by such Director.

16 (B) PREVIOUS DATA.—As part of the first  
17 submission under subparagraph (A), each Fed-  
18 eral science agency, to the extent practicable,  
19 shall also submit comparable record-level data  
20 for the 5 years preceding the date of such sub-  
21 mission.

22 (b) REPORTING OF DATA.—The Director of the Na-  
23 tional Science Foundation shall publish statistical sum-  
24 mary data, as practicable, collected under this section,  
25 disaggregated and cross-tabulated by race, ethnicity, gen-

1 der, and years since completion of doctoral degree, includ-  
2 ing in conjunction with the National Science Foundation’s  
3 report required by section 37 of the Science and Tech-  
4 nology Equal Opportunities Act (42 U.S.C. 1885d; Public  
5 Law 96–516).

6 **SEC. 10505. POLICIES FOR REVIEW OF FEDERAL RESEARCH**  
7 **GRANTS.**

8 (a) IN GENERAL.—Each Federal science agency shall  
9 implement the policy recommendations with respect to re-  
10 ducing the impact of implicit bias at Federal science agen-  
11 cies and grantee institutions as developed by the Office  
12 of Science and Technology Policy in the 2016 report enti-  
13 tled “Reducing the Impact of Bias in the STEM Work-  
14 force” and any subsequent updates.

15 (b) PILOT ACTIVITY.—In consultation with the Na-  
16 tional Science Foundation and consistent with policy rec-  
17 ommendations referenced in subsection (a), each Federal  
18 science agency shall implement a 2-year pilot orientation  
19 activity for program officers and members of standing re-  
20 view committees to educate reviewers on research related  
21 to, and minimize the effects of, implicit bias in the review  
22 of extramural and intramural Federal research grants.

23 (c) ESTABLISHMENT OF POLICIES.—Drawing upon  
24 lessons learned from the pilot activity under subsection  
25 (b), each Federal science agency shall maintain or develop

1 and implement evidence-based policies and practices to  
2 minimize the effects of implicit bias in the review of extra-  
3 mural and intramural Federal research grants.

4 (d) ASSESSMENT OF POLICIES.—Federal science  
5 agencies shall regularly assess, and amend as necessary,  
6 the policies and practices implemented pursuant to sub-  
7 section (c) to ensure effective measures are in place to  
8 minimize the effects of implicit bias in the review of extra-  
9 mural and intramural Federal research grants.

10 **SEC. 10506. COLLECTION OF DATA ON DEMOGRAPHICS OF**  
11 **FACULTY.**

12 (a) COLLECTION OF DATA.—

13 (1) IN GENERAL.—Not later than 3 years after  
14 the date of enactment of this Act, and at least every  
15 5 years thereafter, the Director of the National  
16 Science Foundation shall carry out a survey to col-  
17 lect data from grantees on the demographics of  
18 STEM faculty, by broad fields of STEM, at dif-  
19 ferent types of institutions of higher education.

20 (2) CONSIDERATIONS.—To the extent prac-  
21 ticable, the Director of the National Science Foun-  
22 dation shall consider, by gender, race, ethnicity, citi-  
23 zenship status, and years since completion of doc-  
24 toral degree—

25 (A) the number and percentage of faculty;

1 (B) the number and percentage of faculty  
2 at each rank;

3 (C) the number and percentage of faculty  
4 who are in nontenure-track positions, including  
5 teaching and research;

6 (D) the number and percentage of faculty  
7 who are reviewed for promotion, including ten-  
8 ure, and the percentage of that number who are  
9 promoted, including being awarded tenure;

10 (E) faculty years in rank;

11 (F) the number and percentage of faculty  
12 to leave tenure-track positions;

13 (G) the number and percentage of faculty  
14 hired, by rank; and

15 (H) the number and percentage of faculty  
16 in leadership positions.

17 (b) EXISTING SURVEYS.—The Director of the Na-  
18 tional Science Foundation, may, in modifying or expand-  
19 ing existing Federal surveys of higher education (as nec-  
20 essary)—

21 (1) take into account the considerations under  
22 subsection (a)(2) by collaborating with statistical  
23 centers at other Federal agencies; or

1 (2) award a grant or contract to an institution  
2 of higher education or other nonprofit organization  
3 to take such considerations into account.

4 (c) REPORTING DATA.—The Director of the National  
5 Science Foundation shall publish statistical summary data  
6 collected under this section, including as part of the Na-  
7 tional Science Foundation’s report required by section 37  
8 of the Science and Technology Equal Opportunities Act  
9 (42 U.S.C. 1885d; Public Law 96–516).

10 (d) AUTHORIZATION OF APPROPRIATIONS.—There  
11 are authorized to be appropriated to the Director of the  
12 National Science Foundation \$3,000,000 in each of fiscal  
13 years 2022 through 2024 to develop and carry out the  
14 initial survey required under subsection (a).

15 **SEC. 10507. CULTURAL AND INSTITUTIONAL BARRIERS TO**  
16 **EXPANDING THE ACADEMIC AND FEDERAL**  
17 **STEM WORKFORCE.**

18 (a) BEST PRACTICES AT INSTITUTIONS OF HIGHER  
19 EDUCATION AND FEDERAL LABORATORIES.—

20 (1) DEVELOPMENT OF GUIDANCE.—Not later  
21 than 12 months after the date of enactment of this  
22 Act, the Director, in consultation with the inter-  
23 agency working group on inclusion in STEM, shall  
24 develop written guidance for institutions of higher

1 education and Federal laboratories on the best prac-  
2 tices for—

3 (A) conducting periodic climate surveys of  
4 STEM departments and divisions, with a par-  
5 ticular focus on identifying any cultural or in-  
6 stitutional barriers to the recruitment, reten-  
7 tion, or advancement of women, racial and eth-  
8 nic minorities, and other groups historically  
9 underrepresented in STEM studies and careers;  
10 and

11 (B) providing educational opportunities, in-  
12 cluding workshops as described in subsection  
13 (b), for STEM faculty, research personnel, and  
14 administrators to learn about current research  
15 on implicit bias in recruitment, evaluation, and  
16 promotion of undergraduate and graduate stu-  
17 dents and research personnel.

18 (2) EXISTING GUIDANCE.—In developing the  
19 guidance under paragraph (1), the Director shall  
20 utilize guidance already developed by Federal science  
21 agencies.

22 (3) DISSEMINATION OF GUIDANCE.—Federal  
23 science agencies shall broadly disseminate the guid-  
24 ance developed under paragraph (1) to institutions

1 of higher education that receive Federal research  
2 funding and Federal laboratories.

3 (4) ESTABLISHMENT OF POLICIES.—Consistent  
4 with the guidance developed under paragraph (1)—

5 (A) the Director of the National Science  
6 Foundation shall develop a policy that—

7 (i) applies to, at a minimum, doctoral  
8 degree granting institutions that receive  
9 Federal research funding; and

10 (ii) requires each such institution, not  
11 later than 3 years after the date of enact-  
12 ment of this Act, to report to the Director  
13 of the National Science Foundation on ac-  
14 tivities and policies developed and imple-  
15 mented based on the guidance developed  
16 under paragraph (1); and

17 (B) each Federal science agency with a  
18 Federal laboratory shall maintain or develop  
19 and implement practices and policies for the  
20 purposes described in paragraph (1) for such  
21 laboratory.

22 (b) WORKSHOPS TO ADDRESS CULTURAL BARRIERS  
23 TO EXPANDING THE ACADEMIC AND FEDERAL STEM  
24 WORKFORCE.—

1           (1) IN GENERAL.—Not later than 6 months  
2 after the date of enactment of this Act, the Director,  
3 in consultation with the interagency working group  
4 on inclusion in STEM, shall recommend a uniform  
5 policy for Federal science agencies to carry out a  
6 program of workshops that educate STEM depart-  
7 ment chairs at institutions of higher education, sen-  
8 ior managers at Federal laboratories, and other fed-  
9 erally funded researchers about methods that mini-  
10 mize the effects of implicit bias in the career ad-  
11 vancement, including hiring, tenure, promotion, and  
12 selection for any honor based in part on the recipi-  
13 ent’s research record, of academic and Federal  
14 STEM researchers.

15           (2) INTERAGENCY COORDINATION.—The Direc-  
16 tor shall, to the extent practicable, ensure that work-  
17 shops supported under this subsection are coordi-  
18 nated across Federal science agencies and jointly  
19 supported as appropriate.

20           (3) MINIMIZING COSTS.—To the extent prac-  
21 ticable, workshops shall be held in conjunction with  
22 national or regional STEM disciplinary meetings to  
23 minimize costs associated with participant travel.

24           (4) PRIORITY FIELDS FOR ACADEMIC PARTICI-  
25 PANTS.—In considering the participation of STEM

1 department chairs and other academic researchers,  
2 the Director shall prioritize workshops for the broad  
3 fields of STEM in which the national rate of rep-  
4 resentation of women among tenured or tenure-track  
5 faculty or nonfaculty researchers at doctorate-grant-  
6 ing institutions of higher education is less than 25  
7 percent, according to the most recent data available  
8 from the National Center for Science and Engineer-  
9 ing Statistics.

10 (5) ORGANIZATIONS ELIGIBLE TO CARRY OUT  
11 WORKSHOPS.—A Federal science agency may carry  
12 out the program of workshops under this subsection  
13 by making grants to organizations made eligible by  
14 the Federal science agency and any of the following  
15 organizations:

16 (A) Nonprofit scientific and professional  
17 societies and organizations that represent one  
18 or more STEM disciplines.

19 (B) Nonprofit organizations that have the  
20 primary mission of advancing the participation  
21 of women, minorities, or other groups histori-  
22 cally underrepresented in STEM.

23 (6) CHARACTERISTICS OF WORKSHOPS.—The  
24 workshops shall have the following characteristics:

1 (A) Invitees to workshops shall include at  
2 least—

3 (i) the chairs of departments in the  
4 relevant STEM discipline or disciplines  
5 from doctoral degree granting institutions  
6 that receive Federal research funding; and

7 (ii) in the case of Federal laboratories,  
8 individuals with personnel management re-  
9 sponsibilities comparable to those of an in-  
10 stitution of higher education department  
11 chair.

12 (B) Activities at the workshops shall in-  
13 clude research presentations and interactive dis-  
14 cussions or other activities that increase the  
15 awareness of the existence of implicit bias in re-  
16 cruitment, hiring, tenure review, promotion, and  
17 other forms of formal recognition of individual  
18 achievement for faculty and other federally  
19 funded STEM researchers and shall provide  
20 strategies to overcome such bias.

21 (C) Research presentations and other  
22 workshop programs, as appropriate, shall in-  
23 clude a discussion of the unique challenges  
24 faced by different underrepresented groups, in-  
25 cluding minority women, minority men, persons

1 from rural and underserved areas, persons with  
2 disabilities, gender and sexual minority individ-  
3 uals, and first generation graduates in research.

4 (D) Workshop programs shall include in-  
5 formation on best practices for mentoring un-  
6 dergraduate, graduate, and postdoctoral  
7 women, minorities, and other students from  
8 groups historically underrepresented in STEM.

9 (7) DATA ON WORKSHOPS.—Any proposal for  
10 funding by an organization seeking to carry out a  
11 workshop under this subsection shall include a de-  
12 scription of how such organization will—

13 (A) collect data on the rates of attendance  
14 by invitees in workshops, including information  
15 on the home institution and department of  
16 attendees, and the rank of faculty attendees;

17 (B) conduct attitudinal surveys on work-  
18 shop attendees before and after the workshops;  
19 and

20 (C) collect follow-up data on any relevant  
21 institutional policy or practice changes reported  
22 by attendees not later than 1 year after attend-  
23 ance in such a workshop.

24 (8) REPORT TO NSF.—Organizations receiving  
25 funding to carry out workshops under this sub-

1 section shall report the data required in paragraph  
2 (7) to the Director of the National Science Founda-  
3 tion in such form as required by such Director.

4 (c) REPORT TO CONGRESS.—Not later than 4 years  
5 after the date of enactment of this Act, the Director of  
6 the National Science Foundation shall submit a report to  
7 Congress that includes—

8 (1) a summary and analysis of the types and  
9 frequency of activities and policies developed and  
10 carried out under subsection (a) based on the re-  
11 ports submitted under paragraph (4) of such sub-  
12 section; and

13 (2) a description and evaluation of the status  
14 and effectiveness of the program of workshops re-  
15 quired under subsection (b), including a summary of  
16 any data reported under paragraph (8) of such sub-  
17 section.

18 (d) AUTHORIZATION OF APPROPRIATIONS.—There  
19 are authorized to be appropriated to the Director of the  
20 National Science Foundation \$1,000,000 in each of fiscal  
21 years 2022 through 2026 to carry out this section.

22 **SEC. 10508. RESEARCH AND DISSEMINATION AT THE NA-**  
23 **TIONAL SCIENCE FOUNDATION.**

24 (a) IN GENERAL.—The Director of the National  
25 Science Foundation shall award research grants and carry

1 out dissemination activities consistent with the purposes  
2 of this subtitle, including—

3 (1) research grants to analyze the record-level  
4 data collected under section 10504 and section  
5 10506, consistent with policies to ensure the privacy  
6 of individuals identifiable by such data;

7 (2) research grants to study best practices for  
8 work-life accommodation;

9 (3) research grants to study the impact of poli-  
10 cies and practices that are implemented under this  
11 subtitle or that are otherwise consistent with the  
12 purposes of this subtitle;

13 (4) collaboration with other Federal science  
14 agencies and professional associations to exchange  
15 best practices, harmonize work-life accommodation  
16 policies and practices, and overcome common bar-  
17 riers to work-life accommodation; and

18 (5) collaboration with institutions of higher  
19 education in order to clarify and catalyze the adop-  
20 tion of a coherent and consistent set of work-life ac-  
21 commodation policies and practices.

22 (b) AUTHORIZATION OF APPROPRIATIONS.—There  
23 are authorized to be appropriated to the Director of the  
24 National Science Foundation \$5,000,000 in each of fiscal  
25 years 2022 through 2026 to carry out this section.

1 **SEC. 10509. RESEARCH AND RELATED ACTIVITIES TO EX-**  
2 **PAND STEM OPPORTUNITIES.**

3 (a) NATIONAL SCIENCE FOUNDATION SUPPORT FOR  
4 INCREASING DIVERSITY AMONG STEM FACULTY AT IN-  
5 STITUTIONS OF HIGHER EDUCATION.—Section 305 of the  
6 American Innovation and Competitiveness Act (42 U.S.C.  
7 1862s–5) is amended—

8 (1) by redesignating subsections (e) and (f) as  
9 subsections (f) and (g), respectively; and

10 (2) by inserting after subsection (d) the fol-  
11 lowing:

12 “(e) SUPPORT FOR INCREASING DIVERSITY AMONG  
13 STEM FACULTY AT INSTITUTIONS OF HIGHER EDU-  
14 CATION.—

15 “(1) IN GENERAL.—The Director of the Foun-  
16 dation shall award grants to institutions of higher  
17 education (or consortia thereof) for the development  
18 and assessment of innovative reform efforts designed  
19 to increase the recruitment, retention, and advance-  
20 ment of individuals from underrepresented minority  
21 groups in academic STEM careers.

22 “(2) MERIT REVIEW; COMPETITION.—Grants  
23 shall be awarded under this subsection on a merit-  
24 reviewed, competitive basis.

25 “(3) USE OF FUNDS.—Activities supported by  
26 grants under this subsection may include—

1           “(A) institutional assessment activities,  
2           such as data analyses and policy review, in  
3           order to identify and address specific issues in  
4           the recruitment, retention, and advancement of  
5           faculty members from underrepresented minor-  
6           ity groups;

7           “(B) implementation of institution-wide  
8           improvements in workload distribution, such  
9           that faculty members from underrepresented  
10          minority groups are not disadvantaged in the  
11          amount of time available to focus on research,  
12          publishing papers, and engaging in other activi-  
13          ties required to achieve tenure status and run  
14          a productive research program;

15          “(C) development and implementation of  
16          training courses for administrators and search  
17          committee members to ensure that candidates  
18          from underrepresented minority groups are not  
19          subject to implicit biases in the search and hir-  
20          ing process;

21          “(D) development and hosting of intra- or  
22          inter-institutional workshops to propagate best  
23          practices in recruiting, retaining, and advancing  
24          faculty members from underrepresented minor-  
25          ity groups;

1           “(E) professional development opportuni-  
2 ties for faculty members from underrepresented  
3 minority groups;

4           “(F) activities aimed at making under-  
5 graduate STEM students from underrep-  
6 resented minority groups aware of opportunities  
7 for academic careers in STEM fields;

8           “(G) activities to identify and engage ex-  
9 ceptional graduate students and postdoctoral  
10 researchers from underrepresented minority  
11 groups at various stages of their studies and to  
12 encourage them to enter academic careers; and

13           “(H) other activities consistent with para-  
14 graph (1), as determined by the Director of the  
15 Foundation.

16           “(4) SELECTION PROCESS.—

17           “(A) APPLICATION.—An institution of  
18 higher education (or a consortium of such insti-  
19 tutions) seeking funding under this subsection  
20 shall submit an application to the Director of  
21 the Foundation at such time, in such manner,  
22 and containing such information and assur-  
23 ances as such Director may require. The appli-  
24 cation shall include, at a minimum, a descrip-  
25 tion of—

1           “(i) the reform effort that is being  
2           proposed for implementation by the insti-  
3           tution of higher education;

4           “(ii) any available evidence of specific  
5           difficulties in the recruitment, retention,  
6           and advancement of faculty members from  
7           underrepresented minority groups in  
8           STEM academic careers within the institu-  
9           tion of higher education submitting an ap-  
10          plication, and how the proposed reform ef-  
11          fort would address such issues;

12          “(iii) how the institution of higher  
13          education submitting an application plans  
14          to sustain the proposed reform effort be-  
15          yond the duration of the grant; and

16          “(iv) how the success and effective-  
17          ness of the proposed reform effort will be  
18          evaluated and assessed in order to con-  
19          tribute to the national knowledge base  
20          about models for catalyzing institutional  
21          change.

22          “(B) REVIEW OF APPLICATIONS.—In se-  
23          lecting grant recipients under this subsection,  
24          the Director of the Foundation shall consider,  
25          at a minimum—

1           “(i) the likelihood of success in under-  
2           taking the proposed reform effort at the  
3           institution of higher education submitting  
4           the application, including the extent to  
5           which the administrators of the institution  
6           are committed to making the proposed re-  
7           form effort a priority;

8           “(ii) the degree to which the proposed  
9           reform effort will contribute to change in  
10          institutional culture and policy such that  
11          greater value is placed on the recruitment,  
12          retention, and advancement of faculty  
13          members from underrepresented minority  
14          groups;

15          “(iii) the likelihood that the institu-  
16          tion of higher education will sustain or ex-  
17          pand the proposed reform effort beyond  
18          the period of the grant; and

19          “(iv) the degree to which evaluation  
20          and assessment plans are included in the  
21          design of the proposed reform effort.

22          “(C) GRANT DISTRIBUTION.—The Director  
23          of the Foundation shall ensure, to the extent  
24          practicable, that grants awarded under this sec-

1           tion are made to a variety of types of institu-  
2           tions of higher education.

3           “(5) AUTHORIZATION OF APPROPRIATIONS.—

4           There are authorized to be appropriated to carry out  
5           this subsection \$8,000,000 for each of fiscal years  
6           2022 through 2026.”.

7           (b) NATIONAL SCIENCE FOUNDATION SUPPORT FOR  
8           BROADENING PARTICIPATION IN UNDERGRADUATE  
9           STEM EDUCATION.—Section 305 of the American Inno-  
10          vation and Competitiveness Act (42 U.S.C. 1862s–5), as  
11          amended by subsection (b), is further amended by insert-  
12          ing after subsection (e) the following:

13          “(f) SUPPORT FOR BROADENING PARTICIPATION IN  
14          UNDERGRADUATE STEM EDUCATION.—

15                 “(1) IN GENERAL.—The Director of the Foun-  
16                 dation shall award grants to institutions of higher  
17                 education (or a consortium of such institutions) to  
18                 implement or expand research-based reforms in un-  
19                 dergraduate STEM education for the purpose of re-  
20                 cruiting and retaining students from minority  
21                 groups who are underrepresented in STEM fields.

22                 “(2) MERIT REVIEW; COMPETITION.—Grants  
23                 shall be awarded under this subsection on a merit-  
24                 reviewed, competitive basis.

1           “(3) USE OF FUNDS.—Activities supported by  
2 grants under this subsection may include—

3           “(A) implementation or expansion of inno-  
4 vative, research-based approaches to broaden  
5 participation of underrepresented minority  
6 groups in STEM fields;

7           “(B) implementation or expansion of  
8 bridge, cohort, tutoring, or mentoring pro-  
9 grams, including those involving community col-  
10 leges and technical schools, designed to enhance  
11 the recruitment and retention of students from  
12 underrepresented minority groups in STEM  
13 fields;

14           “(C) implementation or expansion of out-  
15 reach programs linking institutions of higher  
16 education and K–12 school systems in order to  
17 heighten awareness among pre-college students  
18 from underrepresented minority groups of op-  
19 portunities in college-level STEM fields and  
20 STEM careers;

21           “(D) implementation or expansion of fac-  
22 ulty development programs focused on improv-  
23 ing retention of undergraduate STEM students  
24 from underrepresented minority groups;

1           “(E) implementation or expansion of  
2 mechanisms designed to recognize and reward  
3 faculty members who demonstrate a commit-  
4 ment to increasing the participation of students  
5 from underrepresented minority groups in  
6 STEM fields;

7           “(F) expansion of successful reforms  
8 aimed at increasing the number of STEM stu-  
9 dents from underrepresented minority groups  
10 beyond a single course or group of courses to  
11 achieve reform within an entire academic unit,  
12 or expansion of successful reform efforts beyond  
13 a single academic unit or field to other STEM  
14 academic units or fields within an institution of  
15 higher education;

16           “(G) expansion of opportunities for stu-  
17 dents from underrepresented minority groups to  
18 conduct STEM research in industry, at Federal  
19 labs, and at international research institutions  
20 or research sites;

21           “(H) provision of stipends for students  
22 from underrepresented minority groups partici-  
23 pating in research;

24           “(I) development of research collaborations  
25 between research-intensive universities and pri-

1           marily undergraduate minority-serving institu-  
2           tions;

3           “(J) support for graduate students and  
4           postdoctoral fellows from underrepresented mi-  
5           nority groups to participate in instructional or  
6           assessment activities at primarily under-  
7           graduate institutions, including primarily un-  
8           dergraduate minority-serving institutions and 2-  
9           year institutions of higher education; and

10           “(K) other activities consistent with para-  
11           graph (1), as determined by the Director of the  
12           Foundation.

13           “(4) SELECTION PROCESS.—

14           “(A) APPLICATION.—An institution of  
15           higher education (or a consortia thereof) seek-  
16           ing a grant under this subsection shall submit  
17           an application to the Director of the Founda-  
18           tion at such time, in such manner, and con-  
19           taining such information and assurances as  
20           such Director may require. The application  
21           shall include, at a minimum—

22                   “(i) a description of the proposed re-  
23                   form effort;

24                   “(ii) a description of the research  
25                   findings that will serve as the basis for the

1 proposed reform effort or, in the case of  
2 applications that propose an expansion of a  
3 previously implemented reform, a descrip-  
4 tion of the previously implemented reform  
5 effort, including data about the recruit-  
6 ment, retention, and academic achievement  
7 of students from underrepresented minor-  
8 ity groups;

9 “(iii) evidence of an institutional com-  
10 mitment to, and support for, the proposed  
11 reform effort, including a long-term com-  
12 mitment to implement successful strategies  
13 from the current reform beyond the aca-  
14 demic unit or units included in the grant  
15 proposal;

16 “(iv) a description of existing or  
17 planned institutional policies and practices  
18 regarding faculty hiring, promotion, ten-  
19 ure, and teaching assignment that reward  
20 faculty contributions to improving the edu-  
21 cation of students from underrepresented  
22 minority groups in STEM; and

23 “(v) how the success and effectiveness  
24 of the proposed reform effort will be evalu-  
25 ated and assessed in order to contribute to

1           the national knowledge base about models  
2           for catalyzing institutional change.

3           “(B) REVIEW OF APPLICATIONS.—In se-  
4           lecting grant recipients under this subsection,  
5           the Director of the Foundation shall consider,  
6           at a minimum—

7                   “(i) the likelihood of success of the  
8                   proposed reform effort at the institution  
9                   submitting the application, including the  
10                  extent to which the faculty, staff, and ad-  
11                  ministrators of the institution are com-  
12                  mitted to making the proposed institu-  
13                  tional reform a priority of the participating  
14                  academic unit or units;

15                   “(ii) the degree to which the proposed  
16                   reform effort will contribute to change in  
17                   institutional culture and policy such that  
18                   greater value is placed on faculty engage-  
19                   ment in the retention of students from  
20                   underrepresented minority groups;

21                   “(iii) the likelihood that the institu-  
22                   tion will sustain or expand the proposed  
23                   reform effort beyond the period of the  
24                   grant; and

1                   “(iv) the degree to which evaluation  
2                   and assessment plans are included in the  
3                   design of the proposed reform effort.

4                   “(C) GRANT DISTRIBUTION.—The Director  
5                   of the Foundation shall ensure, to the extent  
6                   practicable, that grants awarded under this  
7                   subsection are made to a variety of types of in-  
8                   stitutions of higher education, including 2-year  
9                   and minority-serving institutions of higher edu-  
10                  cation.

11                  “(5) EDUCATION RESEARCH.—

12                  “(A) IN GENERAL.—All grants made under  
13                  this subsection shall include an education re-  
14                  search component that will support the design  
15                  and implementation of a system for data collec-  
16                  tion and evaluation of proposed reform efforts  
17                  in order to build the knowledge base on prom-  
18                  ising models for increasing recruitment and re-  
19                  tention of students from underrepresented mi-  
20                  nority groups in STEM education at the under-  
21                  graduate level across a diverse set of institu-  
22                  tions.

23                  “(B) DISSEMINATION.—The Director of  
24                  the Foundation shall coordinate with relevant  
25                  Federal agencies in disseminating the results of

1 the research under this paragraph to ensure  
2 that best practices in broadening participation  
3 in STEM education at the undergraduate level  
4 are made readily available to all institutions of  
5 higher education, other Federal agencies that  
6 support STEM programs, non-Federal funders  
7 of STEM education, and the general public.

8 “(6) AUTHORIZATION OF APPROPRIATIONS.—  
9 There are authorized to be appropriated to carry out  
10 this subsection \$15,000,000 for each of fiscal years  
11 2022 through 2026.”.

12 **SEC. 10510. TRIBAL COLLEGES AND UNIVERSITIES PRO-**  
13 **GRAM.**

14 (a) GRANTS TO BROADEN TRIBAL COLLEGE AND  
15 UNIVERSITY STUDENT PARTICIPATION IN COMPUTER  
16 SCIENCE.—Section 525 of the America COMPETES Re-  
17 authorization Act of 2010 (42 U.S.C. 1862p–13) is  
18 amended by inserting after subsection (c) the following:

19 “(d) GRANTS TO BROADEN TRIBAL COLLEGE AND  
20 UNIVERSITY STUDENT PARTICIPATION IN COMPUTER  
21 SCIENCE.—

22 “(1) IN GENERAL.—The Director, as part of  
23 the program authorized under this section, shall  
24 award grants on a competitive, merit-reviewed basis  
25 to eligible entities to increase the participation of

1 tribal populations in computer science and computa-  
2 tional thinking education programs to enable stu-  
3 dents to develop skills and competencies in coding,  
4 problem-solving, critical thinking, creativity and col-  
5 laboration.

6 “(2) PURPOSE.—Grants awarded under this  
7 subsection shall support—

8 “(A) research and development needed to  
9 bring computer science and computational  
10 thinking courses and degrees to tribal colleges  
11 and universities;

12 “(B) research and development of instruc-  
13 tional materials needed to integrate computer  
14 science and computational thinking into pro-  
15 grams that are culturally relevant to students  
16 attending tribal colleges and universities;

17 “(C) research, development and evaluation  
18 of distance education for computer science and  
19 computational thinking courses and degree pro-  
20 grams for students attending tribal colleges and  
21 universities; and

22 “(D) other activities consistent with the  
23 activities described in paragraphs (1) through  
24 (4) of subsection (b), as determined by the Di-  
25 rector.

1           “(3) PARTNERSHIPS.—A tribal college or uni-  
2           versity seeking a grant under this subsection, or a  
3           consortia thereof, may partner with an institution of  
4           higher education or nonprofit organization with dem-  
5           onstrated expertise in academic program develop-  
6           ment.

7           “(4) COORDINATION.—In carrying out this sub-  
8           section, the Director shall consult and cooperate  
9           with the programs and policies of other relevant  
10          Federal agencies to avoid duplication with and en-  
11          hance the effectiveness of the program under this  
12          subsection.

13          “(5) AUTHORIZATION OF APPROPRIATIONS.—  
14          There are authorized to be appropriated to the Di-  
15          rector of the Foundation \$2,000,000 in each of fis-  
16          cal years 2022 through 2026 to carry out this sub-  
17          section.”.

18          (b) EVALUATION.—

19                 (1) IN GENERAL.—Not later than 2 years after  
20                 the date of enactment of this Act, the Director of  
21                 the National Science Foundation shall evaluate the  
22                 grant program authorized under section 525 of the  
23                 America COMPETES Reauthorization Act of 2010  
24                 (42 U.S.C. 1862p–13), as amended.

1           (2) REQUIREMENTS.—In conducting the evalua-  
2           tion under paragraph (1), the Director of the Na-  
3           tional Science Foundation shall, as practicable—

4                   (A) use a common set of benchmarks and  
5                   assessment tools to identify best practices and  
6                   materials developed or demonstrated by the re-  
7                   search conducted pursuant to grants programs  
8                   under section 525 of the America COMPETES  
9                   Reauthorization Act of 2010 (42 U.S.C.  
10                  1862p–13);

11                  (B) include an assessment of the effective-  
12                  ness of such grant programs in expanding ac-  
13                  cess to high quality STEM education, research,  
14                  and outreach at tribal colleges and universities,  
15                  as applicable;

16                  (C) assess the number of students who  
17                  participated in such grant programs; and

18                  (D) assess the percentage of students par-  
19                  ticipating in such grant programs who success-  
20                  fully complete their education programs.

21           (3) REPORT.—Not later than 180 days after  
22           the date on which the evaluation under paragraph  
23           (1) is completed, the Director of the National  
24           Science Foundation shall submit to Congress and  
25           make available to the public, a report on the results

1 of the evaluation, including any recommendations for  
2 legislative action that could optimize the effective-  
3 ness of the grant program authorized under section  
4 525 of the America COMPETES Reauthorization  
5 Act of 2010, as amended by subsection (a).

6 **SEC. 10511. REPORT TO CONGRESS.**

7 Not later than 4 years after the date of enactment  
8 of this Act, the Director shall submit a report to Congress  
9 that includes—

10 (1) a description and evaluation of the status  
11 and usage of policies implemented pursuant to sec-  
12 tion 10503 at all Federal science agencies, including  
13 any recommendations for revising or expanding such  
14 policies;

15 (2) with respect to efforts to minimize the ef-  
16 fects of implicit bias in the review of extramural and  
17 intramural Federal research grants under section  
18 10505—

19 (A) what steps all Federal science agencies  
20 have taken to implement policies and practices  
21 to minimize such effects;

22 (B) a description of any significant up-  
23 dates to the policies for review of Federal re-  
24 search grants required under such section; and

1 (C) any evidence of the impact of such  
2 policies on the review or awarding of Federal  
3 research grants; and

4 (3) a description and evaluation of the status of  
5 institution of higher education and Federal labora-  
6 tory policies and practices required under section  
7 10507(a), including any recommendations for revis-  
8 ing or expanding such policies.

9 **SEC. 10512. MERIT REVIEW.**

10 Nothing in this subtitle shall be construed as altering  
11 any intellectual or broader impacts criteria at Federal  
12 science agencies for evaluating grant applications.

13 **SEC. 10513. DETERMINATION OF BUDGETARY EFFECTS.**

14 The budgetary effects of this subtitle, for the purpose  
15 of complying with the Statutory Pay-As-You-Go Act of  
16 2010, shall be determined by reference to the latest state-  
17 ment titled “Budgetary Effects of PAYGO Legislation”  
18 for this subtitle, submitted for printing in the Congres-  
19 sional Record by the Chairman of the House Budget Com-  
20 mittee, provided that such statement has been submitted  
21 prior to the vote on passage.

22 **SEC. 10514. DEFINITIONS.**

23 In this subtitle:

1           (1) DIRECTOR.—The term “Director” means  
2 the Director of the Office of Science and Technology  
3 Policy.

4           (2) FEDERAL LABORATORY.—The term “Fed-  
5 eral laboratory” has the meaning given such term in  
6 section 4 of the Stevenson-Wydler Technology Inno-  
7 vation Act of 1980 (15 U.S.C. 3703).

8           (3) FEDERAL SCIENCE AGENCY.—The term  
9 “Federal science agency” means any Federal agency  
10 with an annual extramural research expenditure of  
11 over \$100,000,000.

12           (4) INSTITUTION OF HIGHER EDUCATION.—The  
13 term “institution of higher education” has the  
14 meaning given such term in section 101(a) of the  
15 Higher Education Act of 1965 (20 U.S.C. 1001(a)).

16           (5) INTERAGENCY WORKING GROUP ON INCLU-  
17 SION IN STEM.—The term “interagency working  
18 group on inclusion in STEM” means the interagency  
19 working group established by section 308 of the  
20 American Innovation and Competitiveness Act (42  
21 U.S.C. 6626).

22           (6) STEM.—The term “STEM” means science,  
23 technology, engineering, and mathematics, including  
24 computer science.

1 **Subtitle B—Rural STEM Education**  
2 **Research**

3 **SEC. 10521. FINDINGS.**

4 Congress finds the following:

5 (1) The supply of STEM workers is not keeping  
6 pace with the rapidly evolving needs of the public  
7 and private sector, resulting in a deficit often re-  
8 ferred to as a STEM skills shortage.

9 (2) According to the Bureau of Labor Statis-  
10 tics, the United States will need one million addi-  
11 tional STEM professionals than it is on track to  
12 produce in the coming decade.

13 (3) Many STEM occupations offer higher  
14 wages, more opportunities for advancement, and a  
15 higher degree of job security than non-STEM jobs.

16 (4) The 60,000,000 individuals in the United  
17 States who live in rural settings are significantly  
18 under-represented in STEM.

19 (5) According to the National Center for Edu-  
20 cation Statistics, nine million students in the United  
21 States—nearly 20 percent of the total K–12 popu-  
22 lation—attend rural schools, and for reasons rang-  
23 ing from teacher quality to shortages of resources,  
24 these students often have fewer opportunities for

1 high-quality STEM learning than their peers in the  
2 Nation's urban and suburban schools.

3 (6) Rural areas represent one of the most  
4 promising, yet underutilized, opportunities for  
5 STEM education to impact workforce development  
6 and regional innovation, including agriculture.

7 (7) The study of agriculture, food, and natural  
8 resources involves biology, engineering, physics,  
9 chemistry, math, geology, computer science, and  
10 other scientific fields.

11 (8) Employment in computer and information  
12 technology occupations is projected to grow 11 per-  
13 cent from 2019 to 2029. To help meet this demand,  
14 it is important rural students have the opportunity  
15 to acquire computing skills through exposure to com-  
16 puter science learning in grades Pre-K through 12  
17 and in informal learning settings.

18 (9) More than 293,000,000 individuals in the  
19 United States use high-speed broadband to work,  
20 learn, access healthcare, and operate their busi-  
21 nesses, while 19,000,000 individuals in the United  
22 States still lack access to high-speed broadband.  
23 Rural areas are hardest hit, with over 26 percent of  
24 individuals in rural areas in the United States lack-  
25 ing access to high-speed broadband compared to 1.7

1 percent of individuals in urban areas in the United  
2 States.

3 **SEC. 10522. NIST ENGAGEMENT WITH RURAL COMMU-**  
4 **NITIES.**

5 (a) MEP OUTREACH.—Section 25 of the National  
6 Institute of Standards and Technology Act (15 U.S.C.  
7 278k) is amended—

8 (1) in subsection (c)—

9 (A) in paragraph (6), by striking “commu-  
10 nity colleges and area career and technical edu-  
11 cation schools” and inserting the following:  
12 “secondary schools (as defined in section 8101  
13 of the Elementary and Secondary Education  
14 Act of 1965 (20 U.S.C. 7801)), community col-  
15 leges, and area career and technical education  
16 schools, including those in underserved and  
17 rural communities,”; and

18 (B) in paragraph (7)—

19 (i) by striking “and local colleges”  
20 and inserting the following: “local high  
21 schools and local colleges, including histori-  
22 cally Black colleges and universities, Tribal  
23 Colleges or Universities, minority serving  
24 institutions, and those in underserved and  
25 rural communities,”; and

1 (ii) by inserting “or other applied  
2 learning opportunities” after “apprentice-  
3 ships”; and

4 (2) in subsection (d)(3) by striking “, commu-  
5 nity colleges, and area career and technical edu-  
6 cation schools,” and inserting the following: “and  
7 local high schools, community colleges, and area ca-  
8 reer and technical education schools, including those  
9 in underserved and rural communities,”.

10 (b) RURAL CONNECTIVITY PRIZE COMPETITION.—

11 (1) PRIZE COMPETITION.—Pursuant to section  
12 24 of the Stevenson-Wydler Technology Innovation  
13 Act of 1980 (15 U.S.C. 3719), the Secretary of  
14 Commerce, acting through the Under Secretary of  
15 Commerce for Standards and Technology (referred  
16 to in this subsection as the “Secretary”), shall, sub-  
17 ject to appropriations, carry out a program to award  
18 prizes competitively to stimulate research and devel-  
19 opment of creative technologies in order to deploy  
20 affordable and reliable broadband connectivity to un-  
21 derserved rural communities.

22 (2) PLAN FOR DEPLOYMENT IN RURAL COMMU-  
23 NITIES.—Each proposal submitted pursuant to para-  
24 graph (1) shall include a plan for deployment of the

1 technology that is the subject of such proposal in an  
2 underserved rural community.

3 (3) PRIZE AMOUNT.—In carrying out the pro-  
4 gram under paragraph (1), the Secretary may award  
5 not more than a total of \$5,000,000 to one or more  
6 winners of the prize competition.

7 (4) REPORT.—Not later than 60 days after the  
8 date on which a prize is awarded under the prize  
9 competition, the Secretary shall submit to the rel-  
10 evant committees of Congress a report that describes  
11 the winning proposal of the prize competition.

12 (5) CONSULTATION.—In carrying out the pro-  
13 gram under subsection (a), the Secretary may con-  
14 sult with the heads of relevant departments and  
15 agencies of the Federal Government.

16 **SEC. 10523. NITR-D BROADBAND WORKING GROUP.**

17 Title I of the High-Performance Computing Act of  
18 1991 (15 U.S.C. 5511 et seq.) is amended by adding at  
19 the end the following:

20 **“SEC. 103. BROADBAND RESEARCH AND DEVELOPMENT**  
21 **WORKING GROUP.**

22 “(a) IN GENERAL.—The Director shall establish a  
23 broadband research and development working group to ad-  
24 dress national research challenges and opportunities for

1 improving broadband access and adoption across the  
2 United States.

3 “(b) ACTIVITIES.—The working group shall identify  
4 and coordinate key research priorities for addressing  
5 broadband access and adoption, including—

6 “(1) promising research areas;

7 “(2) requirements for data collection and shar-  
8 ing;

9 “(3) opportunities for better alignment and co-  
10 ordination across Federal agencies and external  
11 stakeholders; and

12 “(4) input on the development of new Federal  
13 policies and programs to enhance data collection and  
14 research.

15 “(c) COORDINATION.—The working group shall co-  
16 ordinate, as appropriate, with the Rural Broadband Inte-  
17 gration Working Group established under section 6214 of  
18 the Agriculture Improvement Act of 2018 (Public Law  
19 115–334) and the National Institute of Food and Agri-  
20 culture of the Department of Agriculture.

21 “(d) REPORT.—The working group shall report to  
22 Congress on their activities as part of the annual report  
23 submitted under section 101(a)(2)(D).

24 “(e) SUNSET.—The authority to carry out this sec-  
25 tion shall terminate on the date that is 5 years after the

1 date of enactment of the America COMPETES Act of  
2 2022.”.

3 **SEC. 10524. NATIONAL ACADEMY OF SCIENCES EVALUA-**  
4 **TION.**

5 (a) STUDY.—Not later than 12 months after the date  
6 of enactment of this Act, the Director shall enter into an  
7 agreement with the National Academy of Sciences under  
8 which the National Academy agrees to conduct an evalua-  
9 tion and assessment that—

10 (1) evaluates the quality and quantity of cur-  
11 rent Federal programming and research directed at  
12 examining STEM education for students in grades  
13 Pre–K through 12 and workforce development in  
14 rural areas;

15 (2) assesses the impact of the scarcity of  
16 broadband connectivity in rural communities has on  
17 STEM and technical literacy for students in grades  
18 Pre–K through 12 in rural areas;

19 (3) assesses the core research and data needed  
20 to understand the challenges rural areas are facing  
21 in providing quality STEM education and workforce  
22 development; and

23 (4) makes recommendations for action at the  
24 Federal, State, and local levels for improving STEM

1 education for students in grades Pre–K through 12  
2 and workforce development in rural areas.

3 (b) REPORT TO DIRECTOR.—The agreement entered  
4 into under subsection (a) shall require the National Acad-  
5 emy of Sciences, not later than 24 months after the date  
6 of enactment of this Act, to submit to the Director a re-  
7 port on the study conducted under such subsection, includ-  
8 ing the National Academy’s findings and recommenda-  
9 tions.

10 (c) AUTHORIZATION OF APPROPRIATIONS.—There  
11 are authorized to be appropriated to the Director to carry  
12 out this section \$1,000,000 for fiscal year 2022.

13 **SEC. 10525. GAO REVIEW.**

14 Not later than 3 years after the date of enactment  
15 of this Act, the Comptroller General of the United States  
16 shall conduct a study on the engagement of rural popu-  
17 lations in Federal STEM programs and submit to Con-  
18 gress a report that includes—

19 (1) an assessment of how Federal STEM edu-  
20 cation programs are serving rural populations;

21 (2) a description of initiatives carried out by  
22 Federal agencies that are targeted at supporting  
23 STEM education in rural areas;

24 (3) an assessment of what is known about the  
25 impact and effectiveness of Federal investments in

1 STEM education programs that are targeted to  
2 rural areas; and

3 (4) an assessment of challenges that state and  
4 Federal STEM education programs face in reaching  
5 rural population centers.

6 **SEC. 10526. CAPACITY BUILDING THROUGH EPSCOR.**

7 Section 517(f)(2) of the America COMPETES Reau-  
8 thorization Act of 2010 (42 U.S.C. 1862p–9(f)(2)) is  
9 amended—

10 (1) in subparagraph (A), by striking “and” at  
11 the end; and

12 (2) by adding at the end the following:

13 “(C) to increase the capacity of rural com-  
14 munities to provide quality STEM education  
15 and STEM workforce development program-  
16 ming to students, and teachers; and”.

17 **SEC. 10527. NATIONAL SCIENCE FOUNDATION RURAL STEM**  
18 **RESEARCH ACTIVITIES.**

19 (a) PREPARING RURAL STEM EDUCATORS.—

20 (1) IN GENERAL.—The Director shall provide  
21 grants on a merit-reviewed, competitive basis to in-  
22 stitutions of higher education or nonprofit organiza-  
23 tions (or a consortium thereof) for research and de-  
24 velopment to advance innovative approaches to sup-

1 port and sustain high-quality STEM teaching in  
2 rural schools.

3 (2) USE OF FUNDS.—

4 (A) IN GENERAL.—Grants awarded under  
5 this section shall be used for the research and  
6 development activities referred to in paragraph  
7 (1), which may include—

8 (i) engaging rural educators of stu-  
9 dents in grades Pre-K through 12 in pro-  
10 fessional learning opportunities to enhance  
11 STEM knowledge, including computer  
12 science, and develop best practices;

13 (ii) supporting research on effective  
14 STEM teaching practices in rural settings,  
15 including the use of rubrics and mastery-  
16 based grading practices to assess student  
17 performance when employing the transdis-  
18 ciplinary teaching approach for STEM dis-  
19 ciplines;

20 (iii) designing and developing pre-  
21 service and in-service training resources to  
22 assist such rural educators in adopting  
23 transdisciplinary teaching practices across  
24 STEM courses;

1 (iv) coordinating with local partners  
2 to adapt STEM teaching practices to lever-  
3 age local natural and community assets in  
4 order to support in-place learning in rural  
5 areas;

6 (v) providing hands-on training and  
7 research opportunities for rural educators  
8 described in clause (i) at Federal Labora-  
9 tories, institutions of higher education, or  
10 in industry;

11 (vi) developing training and best prac-  
12 tices for educators who teach multiple  
13 grade levels within a STEM discipline;

14 (vii) designing and implementing pro-  
15 fessional development courses and experi-  
16 ences, including mentoring, for rural edu-  
17 cators described in clause (i) that combine  
18 face-to-face and online experiences; and

19 (viii) any other activity the Director  
20 determines will accomplish the goals of this  
21 subsection.

22 (B) RURAL STEM COLLABORATIVE.—The  
23 Director may establish a pilot program of re-  
24 gional cohorts in rural areas that will provide  
25 peer support, mentoring, and hands-on research

1 experiences for rural STEM educators of stu-  
2 dents in grades Pre–K through 12, in order to  
3 build an ecosystem of cooperation among edu-  
4 cators, researchers, academia, and local indus-  
5 try.

6 (b) BROADENING PARTICIPATION OF RURAL STU-  
7 DENTS IN STEM.—

8 (1) IN GENERAL.—The Director shall provide  
9 grants on a merit-reviewed, competitive basis to in-  
10 stitutions of higher education or nonprofit organiza-  
11 tions (or a consortium thereof) for—

12 (A) research and development of program-  
13 ming to identify the barriers rural students face  
14 in accessing high-quality STEM education; and

15 (B) development of innovative solutions to  
16 improve the participation and advancement of  
17 rural students in grades Pre–K through 12 in  
18 STEM studies.

19 (2) USE OF FUNDS.—

20 (A) IN GENERAL.—Grants awarded under  
21 this section shall be used for the research and  
22 development activities referred to in paragraph  
23 (1), which may include—

24 (i) developing partnerships with com-  
25 munity colleges to offer advanced STEM

- 1 course work, including computer science, to  
2 rural high school students;
- 3 (ii) supporting research on effective  
4 STEM practices in rural settings;
- 5 (iii) implementing a school-wide  
6 STEM approach;
- 7 (iv) improving the National Science  
8 Foundation's Advanced Technology Edu-  
9 cation program's coordination and engage-  
10 ment with rural communities;
- 11 (v) collaborating with existing commu-  
12 nity partners and networks, such as the co-  
13 operative research and extension services  
14 of the Department of Agriculture and  
15 youth serving organizations like 4-H, after  
16 school STEM programs, and summer  
17 STEM programs, to leverage community  
18 resources and develop place-based pro-  
19 gramming;
- 20 (vi) connecting rural school districts  
21 and institutions of higher education, to im-  
22 prove precollegiate STEM education and  
23 engagement;
- 24 (vii) supporting partnerships that  
25 offer hands-on inquiry-based science activi-

1 ties, including coding, and access to lab re-  
2 sources for students studying STEM in  
3 grades Pre–K through 12 in a rural area;

4 (viii) evaluating the role of broadband  
5 connectivity and its associated impact on  
6 the STEM and technology literacy of rural  
7 students;

8 (ix) building capacity to support ex-  
9 tracurricular STEM programs in rural  
10 schools, including mentor-led engagement  
11 programs, STEM programs held during  
12 nonschool hours, STEM networks, maker-  
13 spaces, coding activities, and competitions;

14 (x) creating partnerships with local in-  
15 dustries and local educational agencies to  
16 tailor STEM curricula and educational ex-  
17 periences to the needs of a particular local  
18 or regional economy; and

19 (xi) any other activity the Director de-  
20 termines will accomplish the goals of this  
21 subsection.

22 (c) APPLICATION.—An applicant seeking a grant  
23 under subsection (a) or (b) shall submit an application at  
24 such time, in such manner, and containing such informa-

1 tion as the Director may require. The application may in-  
2 clude the following:

3 (1) A description of the target population to be  
4 served by the research activity or activities for which  
5 such grant is sought.

6 (2) A description of the process for recruitment  
7 and selection of students, educators, or schools from  
8 rural areas to participate in such activity or activi-  
9 ties.

10 (3) A description of how such activity or activi-  
11 ties may inform efforts to promote the engagement  
12 and achievement of rural students in grades Pre–K  
13 through 12 in STEM studies.

14 (4) In the case of a proposal consisting of a  
15 partnership or partnerships with one or more rural  
16 schools and one or more researchers, a plan for es-  
17 tablishing a sustained partnership that is jointly de-  
18 veloped and managed, draws from the capacities of  
19 each partner, and is mutually beneficial.

20 (d) PARTNERSHIPS.—In awarding grants under sub-  
21 section (a) or (b), the Director shall—

22 (1) encourage applicants which, for the purpose  
23 of the activity or activities funded through the grant,  
24 include or partner with a nonprofit organization or  
25 an institution of higher education (or a consortium

1       thereof) that has extensive experience and expertise  
2       in increasing the participation of rural students in  
3       grades Pre–K through 12 in STEM;

4               (2) encourage applicants which, for the purpose  
5       of the activity or activities funded through the grant,  
6       include or partner with a consortium of rural schools  
7       or rural school districts; and

8               (3) encourage applications which, for the pur-  
9       pose of the activity or activities funded through the  
10       grant, include commitments from school principals  
11       and administrators to making reforms and activities  
12       proposed by the applicant a priority.

13       (e) EVALUATIONS.—All proposals for grants under  
14       subsections (a) and (b) shall include an evaluation plan  
15       that includes the use of outcome oriented measures to as-  
16       sess the impact and efficacy of the grant. Each recipient  
17       of a grant under this section shall include results from  
18       these evaluative activities in annual and final projects.

19       (f) ACCOUNTABILITY AND DISSEMINATION.—

20               (1) EVALUATION REQUIRED.—The Director  
21       shall evaluate the portfolio of grants awarded under  
22       subsections (a) and (b). Such evaluation shall—

23                       (A) use a common set of benchmarks and  
24       tools to assess the results of research conducted

1 under such grants and identify best practices;  
2 and

3 (B) to the extent practicable, integrate the  
4 findings of research resulting from the activity  
5 or activities funded through such grants with  
6 the findings of other research on rural student's  
7 pursuit of degrees or careers in STEM.

8 (2) REPORT ON EVALUATIONS.—Not later than  
9 180 days after the completion of the evaluation  
10 under paragraph (1), the Director shall submit to  
11 Congress and make widely available to the public a  
12 report that includes—

13 (A) the results of the evaluation; and

14 (B) any recommendations for administra-  
15 tive and legislative action that could optimize  
16 the effectiveness of the grants awarded under  
17 this section.

18 (g) REPORT BY COMMITTEE ON EQUAL OPPORTUNI-  
19 TIES IN SCIENCE AND ENGINEERING.—

20 (1) IN GENERAL.—As part of the first report  
21 required by section 36(e) of the Science and Engi-  
22 neering Equal Opportunities Act (42 U.S.C.  
23 1885c(e)) transmitted to Congress after the date of  
24 enactment of this Act, the Committee on Equal Op-

1 opportunities in Science and Engineering shall in-  
2 clude—

3 (A) a description of past and present poli-  
4 cies and activities of the Foundation to encour-  
5 age full participation of students in rural com-  
6 munities in science, mathematics, engineering,  
7 and computer science fields; and

8 (B) an assessment of trends in participa-  
9 tion of rural students in grades Pre-K through  
10 12 in Foundation activities, and an assessment  
11 of the policies and activities of the Foundation,  
12 along with proposals for new strategies or the  
13 broadening of existing successful strategies to-  
14 wards facilitating the goals of this subtitle.

15 (2) TECHNICAL CORRECTION.—

16 (A) IN GENERAL.—Section 313 of the  
17 American Innovation and Competitiveness Act  
18 (Public Law 114–329) is amended by striking  
19 “Section 204(e) of the National Science Foun-  
20 dation Authorization Act of 1988” and insert-  
21 ing “Section 36(e) of the Science and Engineer-  
22 ing Equal Opportunities Act”.

23 (B) APPLICABILITY.—The amendment  
24 made by paragraph (1) shall take effect as if  
25 included in the enactment of section 313 of the

1 American Innovation and Competitiveness Act  
2 (Public Law 114–329).

3 (h) COORDINATION.—In carrying out this section, the  
4 Director shall, for purposes of enhancing program effec-  
5 tiveness and avoiding duplication of activities, consult, co-  
6 operate, and coordinate with the programs and policies of  
7 other relevant Federal agencies.

8 (i) AUTHORIZATION OF APPROPRIATIONS.—There  
9 are authorized to be appropriated to the Director—

10 (1) \$8,000,000 to carry out the activities under  
11 subsection (a) for each of fiscal years 2022 through  
12 2026; and

13 (2) \$12,000,000 to carry out the activities  
14 under subsection (b) for each of fiscal years 2022  
15 through 2026.

16 **SEC. 10528. RESEARCHING OPPORTUNITIES FOR ONLINE**  
17 **EDUCATION.**

18 (a) IN GENERAL.—The Director shall, subject to ap-  
19 propriations, award competitive grants to institutions of  
20 higher education or nonprofit organizations (or a consor-  
21 tium thereof, which may include a private sector partner)  
22 to conduct research on online STEM education courses for  
23 rural communities.

24 (b) RESEARCH AREAS.—The research areas eligible  
25 for funding under this subsection shall include—

1           (1) evaluating the learning and achievement of  
2 rural students in grades Pre–K through 12 in  
3 STEM subjects;

4           (2) understanding how computer-based and on-  
5 line professional development courses and mentor ex-  
6 periences can be integrated to meet the needs of  
7 educators of rural students in grades Pre–K through  
8 12;

9           (3) combining computer-based and online  
10 STEM education and training with apprenticeships,  
11 mentoring, or other applied learning arrangements;

12           (4) leveraging online programs to supplement  
13 STEM studies for rural students that need physical  
14 and academic accommodation; and

15           (5) any other activity the Director determines  
16 will accomplish the goals of this subsection.

17       (c) EVALUATIONS.—All proposals for grants under  
18 this section shall include an evaluation plan that includes  
19 the use of outcome oriented measures to assess the impact  
20 and efficacy of the grant. Each recipient of a grant under  
21 this section shall include results from these evaluative ac-  
22 tivities in annual and final projects.

23       (d) ACCOUNTABILITY AND DISSEMINATION.—

1           (1) EVALUATION REQUIRED.—The Director  
2 shall evaluate the portfolio of grants awarded under  
3 this section. Such evaluation shall—

4           (A) use a common set of benchmarks and  
5 tools to assess the results of research conducted  
6 under such grants and identify best practices;  
7 and

8           (B) to the extent practicable, integrate  
9 findings from activities carried out pursuant to  
10 research conducted under this section, with re-  
11 spect to the pursuit of careers and degrees in  
12 STEM, with those activities carried out pursu-  
13 ant to other research on serving rural students  
14 and communities.

15          (2) REPORT ON EVALUATIONS.—Not later than  
16 180 days after the completion of the evaluation  
17 under paragraph (1), the Director shall submit to  
18 Congress and make widely available to the public a  
19 report that includes—

20           (A) the results of the evaluation; and

21           (B) any recommendations for administra-  
22 tive and legislative action that could optimize  
23 the effectiveness of the grants awarded under  
24 this section.

1 (e) COORDINATION.—In carrying out this section, the  
2 Director shall, for purposes of enhancing program effec-  
3 tiveness and avoiding duplication of activities, consult, co-  
4 operate, and coordinate with the programs and policies of  
5 other relevant Federal agencies.

6 **SEC. 10529. DEFINITIONS.**

7 In this subtitle:

8 (1) DIRECTOR.—The term “Director” means  
9 the Director of the National Science Foundation es-  
10 tablished under section 2 of the National Science  
11 Foundation Act of 1950 (42 U.S.C. 1861).

12 (2) FEDERAL LABORATORY.—The term “Fed-  
13 eral laboratory” has the meaning given such term in  
14 section 4 of the Stevenson-Wydler Technology Inno-  
15 vation Act of 1980 (15 U.S.C. 3703).

16 (3) FOUNDATION.—The term “Foundation”  
17 means the National Science Foundation established  
18 under section 2 of the National Science Foundation  
19 Act of 1950 (42 U.S.C. 1861).

20 (4) INSTITUTION OF HIGHER EDUCATION.—The  
21 term “institution of higher education” has the  
22 meaning given such term in section 101(a) of the  
23 Higher Education Act of 1965 (20 U.S.C. 1001(a)).

24 (5) STEM.—The term “STEM” has the mean-  
25 ing given the term in section 2 of the America COM-

1 PETES Reauthorization Act of 2010 (42 U.S.C.  
2 6621 note).

3 (6) STEM EDUCATION.—The term “STEM  
4 education” has the meaning given the term in sec-  
5 tion 2 of the STEM Education Act of 2015 (42  
6 U.S.C. 6621 note).

## 7 **Subtitle C—MSI STEM** 8 **Achievement**

### 9 **SEC. 10531. FINDINGS.**

10 Congress makes the following findings:

11 (1) Evidence suggests that the supply of STEM  
12 workers is not keeping pace with the rapidly evolving  
13 needs of the public and private sector, resulting in  
14 a deficit often referred to as a STEM skills short-  
15 age.

16 (2) According to the Bureau of Labor Statis-  
17 tics, the United States will need one million addi-  
18 tional STEM professionals than it is on track to  
19 produce in the coming decade.

20 (3) STEM occupations offer higher wages, more  
21 opportunities for advancement, and a higher degree  
22 of job security than non-STEM occupations.

23 (4) The composition of the STEM workforce  
24 does not reflect the current or projected diversity of  
25 the Nation, with Hispanics, African Americans, and

1 other racial and ethnic minorities, significantly  
2 underrepresented in the STEM workforce compared  
3 to their presence in the workforce more generally.

4 (5) A stronger national commitment to increas-  
5 ing the diversity of the STEM workforce is needed  
6 to help address the STEM skills shortage.

7 (6) According to a 2019 National Academies of  
8 Sciences, Engineering, and Medicine report entitled  
9 “Minority Serving Institutions: America’s Underuti-  
10 lized Resource for Strengthening the STEM Work-  
11 force”, 2- and 4-year minority serving institutions  
12 enroll nearly 30 percent of all undergraduate stu-  
13 dents—a percentage that is expected to grow in the  
14 coming years—in the United States higher education  
15 system and play a critical role in providing impor-  
16 tant pathways to STEM-related education, training,  
17 and careers for students of color.

18 (7) HBCUs, TCUs, and MSIs are highly suc-  
19 cessful at educating underrepresented minority stu-  
20 dents in STEM fields and can serve as best practice  
21 models for other colleges and universities to further  
22 expand participation of underrepresented minorities  
23 in the STEM workforce.

24 (8) Increased investment in STEM infrastruc-  
25 ture at HBCUs, TCUs, and MSIs has the potential

1 to increase these institutions' ability to educate even  
2 more students in the STEM disciplines.

3 (9) With the demand for STEM skills exceeding  
4 the supply of STEM graduates, success of HBCUs,  
5 TCUs, and MSIs in educating and training science  
6 and engineering leaders is increasingly important for  
7 United States economic growth and competitiveness.

8 **SEC. 10532. GOVERNMENT ACCOUNTABILITY OFFICE RE-**  
9 **VIEW.**

10 Not later than 3 years after the date of enactment  
11 of this Act, the Comptroller General of the United States  
12 shall report to Congress—

13 (1) an inventory of competitive funding pro-  
14 grams and initiatives carried out by Federal science  
15 agencies that are targeted to HBCUs, TCUs, and  
16 MSIs or partnerships with HBCUs, TCUs, and  
17 MSIs;

18 (2) an assessment of Federal science agency  
19 outreach activities to increase the participation and  
20 competitiveness of HBCUs, TCUs, and MSIs in the  
21 funding programs and initiatives identified in para-  
22 graph (1); and

23 (3) recommendations of the Comptroller Gen-  
24 eral to increase the participation of and the rate of  
25 success of HBCUs, TCUs, and MSIs in competitive

1 funding programs offered by Federal science agen-  
2 cies.

3 **SEC. 10533. RESEARCH AND CAPACITY BUILDING.**

4 (a) IN GENERAL.—The Director of the National  
5 Science Foundation shall award grants, on a competitive  
6 basis, to institutions of higher education or nonprofit orga-  
7 nizations (or consortia thereof) to—

8 (1) conduct research described in subsection (b)  
9 with respect to HBCUs, TCUs, and MSIs;

10 (2) conduct activities described in subsection (c)  
11 to build the capacity of HBCUs, TCUs, and MSIs  
12 to graduate students who are competitive in attain-  
13 ing and advancing in the STEM workforce;

14 (3) build the research capacity and competitive-  
15 ness of HBCUs, TCUs, and MSIs in STEM dis-  
16 ciplines; and

17 (4) identify and broadly disseminate effective  
18 models for programs and practices at HBCUs,  
19 TCUs, and MSIs that promote the education and  
20 workforce preparation of minority students pursuing  
21 STEM studies and careers in which such students  
22 are underrepresented.

23 (b) RESEARCH.—Research described in this sub-  
24 section is research on the contribution of HBCUs, TCUs,  
25 and MSIs to the education and training of underrep-

1 resented minority students in STEM fields and to the  
2 meeting of national STEM workforce needs, including—

3           (1) the diversity with respect to local context,  
4           cultural differences, and institutional structure  
5           among HBCUs, TCUs, and MSIs and any associ-  
6           ated impact on education and research endeavors;

7           (2) effective practices at HBCUs, TCUs, and  
8           MSIs and associated outcomes on student recruit-  
9           ment, retention, and advancement in STEM fields,  
10          including the ability for students to compete for fel-  
11          lowships, employment, and advancement in the  
12          workforce;

13          (3) contributions made by HBCUs, TCUs, and  
14          MSIs to local, regional, and national workforces;

15          (4) the unique challenges and opportunities for  
16          HBCUs, TCUs, and MSIs in attaining the resources  
17          needed for integrating effective practices in STEM  
18          education, including providing research experiences  
19          for underrepresented minority students;

20          (5) the access of students at HBCUs, TCUs,  
21          and MSIs to STEM infrastructure and any associ-  
22          ated outcomes for STEM competency;

23          (6) models of STEM curriculum, learning, and  
24          teaching successful at HBCUs, TCUs, and MSIs for

1 increasing participation, retention, and success of  
2 underrepresented minority students; and

3 (7) successful or promising partnerships be-  
4 tween HBCUs, TCUs, and MSIs and other institu-  
5 tions of higher education, private sector and non-  
6 profit organizations, Federal laboratories, and inter-  
7 national research institutions.

8 (c) CAPACITY BUILDING.—Activities described in this  
9 subsection include the design, development, implementa-  
10 tion, expansion, and assessment of—

11 (1) metrics of success to best capture the  
12 achievements of HBCUs, TCUs, and MSIs and stu-  
13 dents of such institutions to account for institutional  
14 context and missions, faculty investment, student  
15 populations, student needs, and institutional re-  
16 source constraints;

17 (2) enhancements to undergraduate STEM cur-  
18 riculum at HBCUs, TCUs, and MSIs to increase the  
19 participation, retention, degree completion, and suc-  
20 cess of underrepresented students;

21 (3) professional development programs to in-  
22 crease the numbers and the high-quality preparation  
23 of STEM faculty at HBCUs, TCUs, and MSIs, in-  
24 cluding programs to encourage STEM doctoral stu-  
25 dents to teach at HBCUs, TCUs, and MSIs; and

1           (4) mechanisms for institutions of higher edu-  
2           cation that are not HBCUs, TCUs, or MSIs to part-  
3           ner with HBCUs, TCUs, and MSIs on STEM edu-  
4           cation, including the facilitation of student transfer,  
5           mentoring programs for students and junior faculty,  
6           joint research projects, and student access to grad-  
7           uate education.

8           (d) RESEARCH EXPERIENCES.—Grants under this  
9           section may fund the development or expansion of oppor-  
10          tunities for the exchange of students and faculty to con-  
11          duct research, facilitate professional development, and  
12          provide mentorship including through partnerships with  
13          institutions of higher education that are not HBCUs,  
14          TCUs, or MSIs, private sector and non-profit organiza-  
15          tions, Federal laboratories, and international research in-  
16          stitutions.

17          (e) PARTNERSHIPS.—In awarding grants under this  
18          section, the Director of the National Science Foundation  
19          shall—

20               (1) encourage HBCUs, TCUs, and MSIs and  
21               consortia thereof and partnerships with one or more  
22               HBCU, TCU, or MSI, to submit proposals;

23               (2) require proposals submitted in partnership  
24               with one or more HBCU, TCU, or MSI include a  
25               plan for establishing a sustained partnership that is

1 jointly developed and managed, draws from the ca-  
2 pacities of each institution, and is mutually bene-  
3 ficial; and

4 (3) encourage proposals submitted in partner-  
5 ship with the private sector, non-profit organiza-  
6 tions, Federal laboratories, and international re-  
7 search institutions, as appropriate.

8 (f) MSI CENTERS OF INNOVATION.—Grants under  
9 this section may fund the establishment of no more than  
10 five MSI Centers of Innovation to leverage successes of  
11 HBCUs, TCUs, and MSIs in STEM education and re-  
12 search training of underrepresented minority students as  
13 models for other institutions, including both HBCUs,  
14 TCUs, and MSIs and institutions of higher education that  
15 are not HBCUs, TCUs, or MSIs. Such centers will be lo-  
16 cated on campuses of selected institutions of higher edu-  
17 cation and serve as incubators to allow institutions of  
18 higher education to experiment, pilot, evaluate, and scale  
19 up promising practices.

20 (g) AUTHORIZATION OF APPROPRIATIONS.—There  
21 are authorized to be appropriated to the Director of the  
22 National Science Foundation \$170,000,000 for fiscal year  
23 2022, \$175,000,000 for fiscal year 2023, \$180,000,000  
24 for fiscal year 2024, \$185,000,000 for fiscal year 2025,

1 and \$190,000,000 fiscal year 2026 to carry out this sec-  
2 tion.

3 **SEC. 10534. AGENCY RESPONSIBILITIES.**

4 (a) IN GENERAL.—In consultation with outside  
5 stakeholders and the heads of the Federal science agen-  
6 cies, the Director shall develop a uniform set of policy  
7 guidelines for Federal science agencies to carry out a sus-  
8 tained program of outreach activities to increase clarity,  
9 transparency, and accountability for Federal science agen-  
10 cy investments in STEM education and research activities  
11 at HBCUs, TCUs, and MSIs.

12 (b) OUTREACH ACTIVITIES.—In developing policy  
13 guidelines under subsection (a) the Director shall include  
14 guidelines that require each Federal science agency—

15 (1) to designate a liaison for HBCUs, TCUs,  
16 and MSIs responsible for—

17 (A) enhancing direct communication with  
18 HBCUs, TCUs, and MSIs to increase the Fed-  
19 eral science agency’s understanding of the ca-  
20 pacity and needs of such institutions and to  
21 raise awareness of available Federal funding op-  
22 portunities at such institutions;

23 (B) coordinating programs, activities, and  
24 initiatives while accounting for the capacity and  
25 needs of HBCUs, TCUs, and MSIs;

1 (C) tracking Federal science agency invest-  
2 ments in and engagement with HBCUs, TCUs,  
3 and MSIs; and

4 (D) reporting progress toward increasing  
5 participation of HBCUs, TCUs, and MSIs in  
6 grant programs;

7 (2) to publish annual forecasts of funding op-  
8 portunities and proposal deadlines, including for  
9 grants, contracts, subcontracts, and cooperative  
10 agreements;

11 (3) to conduct on-site reviews of research facili-  
12 ties at HBCUs, TCUs, and MSIs, as practicable,  
13 and make recommendations regarding strategies for  
14 becoming more competitive in research;

15 (4) to hold geographically accessible or virtual  
16 workshops on research priorities of the Federal  
17 science agency and on how to write competitive  
18 grant proposals and how to bolster grant manage-  
19 ment capacity for the entire grant lifecycle, from ap-  
20 plication to completion;

21 (5) to ensure opportunities for HBCUs, TCUs,  
22 and MSIs to directly communicate with Federal  
23 science agency officials responsible for managing  
24 competitive grant programs in order to receive feed-  
25 back on research ideas and proposals, including

1 guidance on the Federal science agency's peer review  
2 process;

3 (6) to foster mutually beneficial public-private  
4 collaboration among Federal science agencies, indus-  
5 try, Federal laboratories, academia, and nonprofit  
6 organizations to—

7 (A) identify alternative sources of funding  
8 for STEM education and research at HBCUs,  
9 TCUs, and MSIs;

10 (B) provide access to high-quality, relevant  
11 research experiences for students and faculty of  
12 HBCUs, TCUs, and MSIs;

13 (C) expand the professional networks of  
14 students and faculty of HBCUs, TCUs, and  
15 MSIs;

16 (D) broaden STEM educational opportuni-  
17 ties for students and faculty of HBCUs, TCUs,  
18 and MSIs; and

19 (E) support the transition of students of  
20 HBCUs, TCUs, and MSIs into the STEM  
21 workforce; and

22 (7) to publish an annual report that provides an  
23 account of Federal science agency investments in  
24 HBCUs, TCUs, and MSIs, including data on the  
25 level of participation of HBCUs, TCUs, and MSIs

1 as prime recipients/contractors or subrecipients/sub-  
2 contractors.

3 (c) STRATEGIC PLAN.—

4 (1) IN GENERAL.—Not later than 1 year after  
5 the date of enactment of this Act, the Director, in  
6 collaboration with the head of each Federal science  
7 agency, shall submit to Congress a report containing  
8 a strategic plan for each Federal science agency to  
9 increase the capacity of HBCUs, TCUs, and MSIs  
10 to compete effectively for grants, contracts, or coop-  
11 erative agreements and to encourage HBCUs,  
12 TCUs, and MSIs to participate in Federal programs.

13 (2) CONSIDERATIONS.—In developing a stra-  
14 tegic plan under paragraph (1), the Director and  
15 each head of each Federal science agency shall con-  
16 sider—

17 (A) issuing new or expanding existing  
18 funding opportunities targeted to HBCUs,  
19 TCUs, and MSIs;

20 (B) modifying existing research and devel-  
21 opment program solicitations to incentivize ef-  
22 fective partnerships with HBCUs, TCUs, and  
23 MSIs;

24 (C) offering planning grants for HBCUs,  
25 TCUs, and MSIs to develop or equip grant of-

1           fices with the requisite depth of knowledge to  
2           submit competitive grant proposals and manage  
3           awarded grants;

4           (D) offering additional training programs  
5           and individualized and timely guidance to grant  
6           officers faculty and postdoctoral researchers at  
7           HBCUs, TCUs, and MSIs to ensure they un-  
8           derstand the requirements for an effective grant  
9           proposal; and

10           (E) other approaches for making current  
11           competitive funding models more accessible for  
12           under-resourced HBCUs, TCUs, and MSIs.

13           (d) REPORT TO CONGRESS.—Not later than 2 years  
14           after the date of enactment of this Act, and every 5 years  
15           thereafter, the Director shall report to Congress on the  
16           implementation by Federal science agencies of the policy  
17           guidelines developed under this section.

18   **SEC. 10535. DEFINITIONS.**

19           In this subtitle:

20           (1) DIRECTOR.—The term “Director” means  
21           the Director of the Office of Science and Technology  
22           Policy.

23           (2) FEDERAL LABORATORY.—The term “Fed-  
24           eral laboratory” has the meaning given such term in

1 section 4 of the Stevenson-Wydler Technology Inno-  
2 vation Act of 1980 (15 U.S.C. 3703).

3 (3) FEDERAL SCIENCE AGENCY.—The term  
4 “Federal science agency” means any Federal agency  
5 with an annual extramural research expenditure of  
6 over \$100,000,000.

7 (4) HBCU.—The term “HBCU” has the mean-  
8 ing given the term “part B institution” in section  
9 322 of the Higher Education Act of 1965 (20  
10 U.S.C. 1061).

11 (5) INSTITUTION OF HIGHER EDUCATION.—The  
12 term “institution of higher education” has the  
13 meaning given such term in section 101 of the High-  
14 er Education Act of 1965 (20 U.S.C. 1001).

15 (6) MINORITY SERVING INSTITUTION.—The  
16 term “minority serving institution” or “MSI” means  
17 Hispanic-Serving Institutions as defined in section  
18 502 of the Higher Education Act of 1965 (20  
19 U.S.C. 1101a); Alaska Native Serving Institutions  
20 and Native Hawaiian-Serving Institutions as defined  
21 in section 317 of the Higher Education Act of 1965  
22 (20 U.S.C. 1059d); and Predominantly Black Insti-  
23 tutions, Asian American and Native American Pa-  
24 cific Islander-Serving Institutions, and Native Amer-  
25 ican-Serving Nontribal Institutions as defined in sec-

1 tion 371 of the Higher Education Act of 1965 (20  
2 U.S.C. 1067q(c)).

3 (7) STEM.—The term “STEM” has the mean-  
4 ing given the term in the STEM Education Act of  
5 2015 (42 U.S.C. 1861 et seq.).

6 (8) TCU.—The term “TCU” has the meaning  
7 given the term “Tribal College or University” in sec-  
8 tion 316 of the Higher Education Act of 1965 (20  
9 U.S.C. 1059e).

## 10 **Subtitle D—Combating Sexual** 11 **Harassment in Science**

### 12 **SEC. 10541. FINDINGS.**

13 Congress makes the following findings:

14 (1) According to the report issued by the Na-  
15 tional Academies of Sciences, Engineering, and Med-  
16 icine in 2018 entitled “Sexual Harassment of  
17 Women: Climate, Culture, and Consequences in Aca-  
18 demic Sciences, Engineering, and Medicine”—

19 (A) sexual harassment is pervasive in insti-  
20 tutions of higher education;

21 (B) the most common type of sexual har-  
22 assment is gender harassment, which includes  
23 verbal and nonverbal behaviors that convey in-  
24 sulting, hostile, and degrading attitudes about  
25 members of one gender;

1 (C) 58 percent of individuals in the aca-  
2 demic workplace experience sexual harassment,  
3 the second highest rate when compared to the  
4 military, the private sector, and Federal, State,  
5 and local government;

6 (D) women who are members of racial or  
7 ethnic minority groups are more likely to expe-  
8 rience sexual harassment and to feel unsafe at  
9 work than White women, White men, or men  
10 who are members of such groups;

11 (E) the training for each individual who  
12 has a doctor of philosophy in the science, tech-  
13 nology, engineering, and mathematics fields is  
14 estimated to cost approximately \$500,000; and

15 (F) attrition of an individual so trained re-  
16 sults in a loss of talent and money.

17 (2) Sexual harassment undermines career ad-  
18 vancement for women.

19 (3) According to a 2017 University of Illinois  
20 study, among astronomers and planetary scientists,  
21 18 percent of women who are members of racial or  
22 ethnic minority groups and 12 percent of White  
23 women skipped professional events because they did  
24 not feel safe attending.

1           (4) Many women report leaving employment at  
2 institutions of higher education due to sexual har-  
3 assment.

4           (5) Research shows the majority of individuals  
5 do not formally report experiences of sexual harass-  
6 ment due to a justified fear of retaliation or other  
7 negative professional or personal consequences.

8           (6) Reporting procedures with respect to such  
9 harassment are inconsistent among Federal science  
10 agencies and have varying degrees of accessibility.

11           (7) There is not adequate communication  
12 among Federal science agencies and between such  
13 agencies and grantees regarding reports of sexual  
14 harassment, which has resulted in harassers receiv-  
15 ing Federal funding after moving to a different in-  
16 stitution.

17 **SEC. 10542. DEFINITIONS.**

18 In this subtitle:

19           (1) **ACADEMIES.**—The term “Academies”  
20 means the National Academies of Sciences, Engi-  
21 neering, and Medicine.

22           (2) **DIRECTOR.**—The term “Director” means  
23 the Director of the National Science Foundation.

24           (3) **FEDERAL SCIENCE AGENCY.**—The term  
25 “Federal science agency” means any Federal agency

1 with an annual extramural research expenditure of  
2 over \$100,000,000.

3 (4) FINDING OR DETERMINATION.—The term  
4 “finding or determination” means the final disposi-  
5 tion of a matter involving a violation of organiza-  
6 tional policies and processes, to include the exhaus-  
7 tion of permissible appeals, or a conviction of a sex-  
8 ual offense in a criminal court of law.

9 (5) GENDER HARASSMENT.—The term “gender  
10 harassment” means verbal and nonverbal behaviors  
11 that convey hostility, objectification, exclusion, or  
12 second-class status about one’s gender, gender iden-  
13 tity, gender presentation, sexual orientation, or preg-  
14 nancy status.

15 (6) GRANTEE.—The term “grantee” means the  
16 legal entity to which a grant is awarded and that is  
17 accountable to the Federal Government for the use  
18 of the funds provided.

19 (7) GRANT PERSONNEL.—The term “grant per-  
20 sonnel” means principal investigators, co-principal  
21 investigators, postdoctoral researchers and other em-  
22 ployees supported by a grant award, cooperative  
23 agreement, or contract under Federal law.

24 (8) INSTITUTION OF HIGHER EDUCATION.—The  
25 term “institution of higher education” has the

1 meaning given such term in section 101 of the High-  
2 er Education Act of 1965 (20 U.S.C. 1001).

3 (9) SEXUAL HARASSMENT.—The term “sexual  
4 harassment” means conduct that encompasses—

5 (A) unwelcome sexual advances;

6 (B) unwanted physical contact that is sex-  
7 ual in nature, including assault;

8 (C) unwanted sexual attention, including  
9 sexual comments and propositions for sexual ac-  
10 tivity;

11 (D) conditioning professional or edu-  
12 cational benefits on sexual activity; and

13 (E) retaliation for rejecting unwanted sex-  
14 ual attention.

15 (10) STEM.—The term “STEM” means  
16 science, technology, engineering, and mathematics,  
17 including computer science.

18 **SEC. 10543. RESEARCH GRANTS.**

19 (a) IN GENERAL.—The Director shall establish a pro-  
20 gram to award grants, on a competitive basis, to institu-  
21 tions of higher education or nonprofit organizations (or  
22 consortia of such institutions or organizations)—

23 (1) to expand research efforts to better under-  
24 stand the factors contributing to, and consequences  
25 of, sexual harassment and gender harassment affect-

1 ing individuals in the STEM workforce, including  
2 students and trainees; and

3 (2) to examine interventions to reduce the inci-  
4 dence and negative consequences of such harass-  
5 ment.

6 (b) USE OF FUNDS.—Activities funded by a grant  
7 under this section may include—

8 (1) research on the sexual harassment and gen-  
9 der harassment experiences of individuals in under-  
10 represented or vulnerable groups, including racial  
11 and ethnic minority groups, disabled individuals, for-  
12 eign nationals, sexual- and gender-minority individ-  
13 uals, and others;

14 (2) development and assessment of policies,  
15 procedures, trainings, and interventions, with respect  
16 to sexual harassment and gender harassment, con-  
17 flict management, and ways to foster respectful and  
18 inclusive climates;

19 (3) research on approaches for remediating the  
20 negative impacts and outcomes of such harassment  
21 on individuals experiencing such harassment;

22 (4) support for institutions of higher education  
23 to develop, adapt, and assess the impact of innova-  
24 tive, evidence-based strategies, policies, and ap-

1 proaches to policy implementation to prevent and  
2 address sexual harassment and gender harassment;

3 (5) research on alternatives to the hierarchical  
4 and dependent relationships, including but not lim-  
5 ited to the mentor-mentee relationship, in academia  
6 that have been shown to create higher levels of risk  
7 for sexual harassment and gender harassment; and

8 (6) establishing a center for the ongoing com-  
9 pilation, management, and analysis of campus cli-  
10 mate survey data.

11 **SEC. 10544. DATA COLLECTION.**

12 Not later than 180 days after the date of enactment  
13 of this Act, the Director shall convene a working group  
14 composed of representatives of Federal statistical agen-  
15 cies—

16 (1) to develop questions on sexual harassment  
17 and gender harassment in STEM departments to  
18 gather national data on the prevalence, nature, and  
19 implications of sexual harassment and gender har-  
20 assment in institutions of higher education; and

21 (2) to include such questions as appropriate,  
22 with sufficient protections of the privacy of respon-  
23 dents, in relevant surveys conducted by the National  
24 Center for Science and Engineering Statistics and  
25 other relevant entities.

1 **SEC. 10545. RESPONSIBLE CONDUCT GUIDE.**

2 (a) IN GENERAL.—Not later than 180 days after the  
3 date of enactment of this Act, the Director shall enter into  
4 an agreement with the Academies to update the report en-  
5 titled “On Being a Scientist: A Guide to Responsible Con-  
6 duct in Research” issued by the Academies. The report,  
7 as so updated, shall include—

8 (1) updated professional standards of conduct  
9 in research;

10 (2) standards of treatment individuals can ex-  
11 pect to receive under such updated standards of con-  
12 duct;

13 (3) evidence-based practices for fostering a cli-  
14 mate intolerant of sexual harassment and gender  
15 harassment;

16 (4) methods, including bystander intervention,  
17 for identifying and addressing incidents of sexual  
18 harassment and gender harassment; and

19 (5) professional standards for mentorship and  
20 teaching with an emphasis on preventing sexual har-  
21 assment and gender harassment.

22 (b) RECOMMENDATIONS.—In updating the report  
23 under subsection (a), the Academies shall take into ac-  
24 count recommendations made in the report issued by the  
25 Academies in 2018 entitled “Sexual Harassment of  
26 Women: Climate, Culture, and Consequences in Academic

1 Sciences, Engineering, and Medicine” and other relevant  
2 studies and evidence.

3 (c) REPORT.—Not later than 18 months after the ef-  
4 fective date of the contract under subsection (a), the Acad-  
5 emies, as part of such agreement, shall submit to the Di-  
6 rector and the Committee on Science, Space, and Tech-  
7 nology of the House of Representatives and the Committee  
8 on Commerce, Science, and Transportation of the Senate  
9 the report referred to in such subsection, as updated pur-  
10 suant to such subsection.

11 **SEC. 10546. INTERAGENCY WORKING GROUP.**

12 (a) IN GENERAL.—The Director of the Office of  
13 Science and Technology Policy, acting through the Na-  
14 tional Science and Technology Council, shall establish an  
15 interagency working group for the purpose of coordinating  
16 Federal science agency efforts to reduce the prevalence of  
17 sexual harassment and gender harassment involving grant  
18 personnel. The working group shall be chaired by the Di-  
19 rector of the Office of Science and Technology Policy (or  
20 the Director’s designee) and shall include a representative  
21 from each Federal science agency with annual extramural  
22 research expenditures totaling over \$1,000,000,000, a rep-  
23 resentative from the Department of Education, and a rep-  
24 resentative from the U.S. Equal Employment Opportunity  
25 Commission.

1 (b) RESPONSIBILITIES OF WORKING GROUP.—The  
2 interagency working group established under subsection  
3 (a) shall coordinate Federal science agency efforts to im-  
4 plement the policy guidelines developed under subsection  
5 (c)(2).

6 (c) RESPONSIBILITIES OF OSTP.—The Director of  
7 the Office of Science and Technology Policy shall—

8 (1) not later than 90 days after the date of the  
9 enactment of this Act, submit to the Committee on  
10 Science, Space, and Technology of the House of  
11 Representatives and the Committee on Commerce,  
12 Science, and Transportation of the Senate an inven-  
13 tory of policies, procedures, and resources dedicated  
14 to preventing and responding to reports of sexual  
15 harassment and gender harassment at Federal agen-  
16 cies that provide legal definitions to which institu-  
17 tions of higher education must comply;

18 (2) not later than 6 months after the date on  
19 which the inventory is submitted under paragraph  
20 (1)—

21 (A) in consultation with outside stake-  
22 holders and Federal science agencies, develop a  
23 uniform set of policy guidelines for Federal  
24 science agencies; and

1 (B) submit a report to the committees re-  
2 ferred to in paragraph (1) containing such  
3 guidelines;

4 (3) encourage and monitor efforts of Federal  
5 science agencies to develop or maintain and imple-  
6 ment policies based on the guidelines developed  
7 under paragraph (2), including the extent to which  
8 Federal science agency policies depart from the uni-  
9 form policy guidelines;

10 (4) not later than 1 year after the date on  
11 which the inventory under paragraph (1) is sub-  
12 mitted, and every 5 years thereafter, the Director of  
13 the Office of Science and Technology Policy shall re-  
14 port to Congress on the implementation by Federal  
15 science agencies of the policy guidelines developed  
16 under paragraph (2); and

17 (5) update such policy guidelines as needed.

18 (d) REQUIREMENTS.—In developing policy guidelines  
19 under subsection (c)(2), the Director of the Office of  
20 Science and Technology Policy shall include guidelines  
21 that require—

22 (1) grantees to submit to the Federal science  
23 agency or agencies from which the grantees receive  
24 funding reports relating to—

1 (A) administrative action, related to an al-  
2 legation against grant personnel of any sexual  
3 harassment or gender harassment, as set forth  
4 in organizational policies or codes of conduct,  
5 statutes, regulations, or executive orders, that  
6 affects the ability of grant personnel or their  
7 trainees to carry out the activities of the grant;  
8 and

9 (B) findings or determinations against  
10 grant personnel of sexual harassment or gender  
11 harassment, as set forth in organizational poli-  
12 cies or codes of conduct, statutes, regulations,  
13 or Executive orders, including any findings or  
14 determinations related to reports submitted  
15 under subparagraph (A) and any disciplinary  
16 action that was taken;

17 (2) the sharing, updating, and archiving of re-  
18 ports of sexual harassment and gender harassment  
19 from grantees submitted under paragraph (1)(B)  
20 with relevant Federal science agencies on a quarterly  
21 basis; and

22 (3) to the extent practicable, ensure consistency  
23 among Federal agencies with regards to the policies  
24 and procedures for receiving reports submitted pur-  
25 suant to paragraph (1), which may include the des-

1       ignation of a single agency to field reports so sub-  
2       mitted.

3       (e) CONSIDERATIONS.—In developing policy guide-  
4 lines under subsection (c)(2), the Director of the Office  
5 of Science and Technology Policy shall consider guidelines  
6 that require or incentivize—

7           (1) grantees to periodically assess their organi-  
8           zational climate, which may include the use of cli-  
9           mate surveys, focus groups, or exit interviews;

10          (2) grantees to publish on a publicly available  
11 internet website the results of assessments con-  
12 ducted pursuant to paragraph (1), disaggregated by  
13 gender and, if possible, race, ethnicity, disability sta-  
14 tus, and sexual orientation;

15          (3) grantees to make public on an annual basis  
16 the number of reports of sexual harassment and  
17 gender harassment at each such institution;

18          (4) grantees to regularly assess and improve  
19 policies, procedures, and interventions to reduce the  
20 prevalence of sexual harassment and gender harass-  
21 ment;

22          (5) each grantee to demonstrate in its proposal  
23 for a grant award, cooperative agreement, or con-  
24 tract that a code of conduct is in place for maintain-

1       ing a healthy and welcoming workplace for grant  
2       personnel and their trainees;

3               (6) the diffusion of the hierarchical and depend-  
4       ent relationships between grant personnel and their  
5       trainees;

6               (7) each grantee and Federal science agency to  
7       have in place mechanisms for the re-integration of  
8       individuals who have experienced sexual harassment  
9       and gender harassment; and

10              (8) grantees to work to create a climate intoler-  
11      ant of sexual harassment and gender harassment.

12      (f) FEDERAL SCIENCE AGENCY IMPLEMENTATION.—

13   Each Federal science agency shall—

14              (1) develop or maintain and implement policies  
15      with respect to sexual harassment and gender har-  
16      assment that are consistent with policy guidelines  
17      under subsection (c)(2) and that protect the privacy  
18      of all parties involved in any report and investigation  
19      of sexual harassment and gender harassment, except  
20      to the extent necessary to carry out an investigation;

21              (2) broadly disseminate such policies to current  
22      and potential recipients of research grants, coopera-  
23      tive agreements, or contracts awarded by such agen-  
24      cy; and

1           (3) take into consideration any reports filed  
2           under subsection (d)(1) when issuing grant awards,  
3           cooperative agreements, or contracts.

4           (g) FERPA.—The Director of the Office of Science  
5           and Technology Policy shall ensure that such guidelines  
6           and requirements are consistent with the requirements of  
7           section 444 of the General Education Provisions Act (20  
8           U.S.C. 1232g) (commonly referred to as the “Family Edu-  
9           cational Rights and Privacy Act of 1974”).

10          (h) SUNSET.—The interagency working group estab-  
11          lished under subsection (a) shall terminate on the date  
12          that is 7 years after the date of the enactment of this  
13          Act.

14          **SEC. 10547. NATIONAL ACADEMIES ASSESSMENT.**

15          (a) IN GENERAL.—Not later than 3 years after the  
16          date of enactment of this Act, the Director shall enter into  
17          an agreement with the Academies to undertake a study  
18          of the influence of sexual harassment and gender harass-  
19          ment in institutions of higher education on the career ad-  
20          vancement of individuals in the STEM workforce. The  
21          study shall assess—

22                  (1) the state of research on sexual harassment  
23                  and gender harassment in such workforce;

1           (2) whether research demonstrates a change in  
2           the prevalence of sexual harassment and gender har-  
3           assment in such workforce;

4           (3) the progress made with respect to imple-  
5           menting recommendations promulgated in the Acad-  
6           emies consensus study report entitled “Sexual Har-  
7           assment of Women: Climate, Culture, and Con-  
8           sequences in Academic Sciences, Engineering, and  
9           Medicine”; and

10          (4) where to focus future efforts with respect to  
11          decreasing sexual harassment and gender harass-  
12          ment in such institutions.

13 **SEC. 10548. AUTHORIZATION OF APPROPRIATIONS.**

14          There is authorized to be appropriated to the Direc-  
15          tor to carry out this subtitle, \$17,500,000.

16 **TITLE VI—MISCELLANEOUS**  
17 **SCIENCE AND TECHNOLOGY**  
18 **PROVISIONS**

19 **Subtitle A—Supporting Early-**  
20 **Career Researchers**

21 **SEC. 10601. FINDINGS.**

22          Congress finds the following:

23           (1) The Nation’s universities and industrial re-  
24           search labs are facing unprecedented budget pres-  
25           sure as part of the COVID–19 health crisis, result-

1 ing in considerably fewer openings for research and  
2 teaching positions.

3 (2) Emergency funding is needed to forestall  
4 the loss of research talent likely to occur if early-ca-  
5 reer researchers are forced to seek employment out-  
6 side of research due to the sharp economic decline  
7 caused by the COVID–19 health crisis.

8 (3) The future of America’s defense will rely on  
9 advanced technologies to maintain its military supe-  
10 riority over its rivals, including China. These tech-  
11 nologies will require new levels of scientific and engi-  
12 neering aptitude and understanding. Early career re-  
13 searchers will play a critical role in the development  
14 of these technologies, and the loss of an entire gen-  
15 eration of researchers due to the COVID–19 pan-  
16 demic will be detrimental to the United States na-  
17 tional security.

18 **SEC. 10602. EARLY-CAREER RESEARCH FELLOWSHIP PRO-**  
19 **GRAM.**

20 (a) IN GENERAL.—The Director of the National  
21 Science Foundation may establish a 2-year pilot program  
22 to award grants to highly qualified early-career investiga-  
23 tors to carry out an independent research program at the  
24 qualified institution of higher education chosen by such  
25 investigator, to last for a period not greater than 2 years.

1           (b) SELECTION PROCESS.—The Director of the Na-  
2 tional Science Foundation shall select grantees under sub-  
3 section (a) from among citizens, nationals, and lawfully  
4 admitted permanent resident aliens of the United States.

5           (c) OUTREACH.—The Director shall conduct program  
6 outreach to recruit fellowship applicants—

7                 (1) from all regions of the country;

8                 (2) from historically underrepresented popu-  
9 lations in the fields of science, technology, engineer-  
10 ing, and mathematics; and

11                (3) who graduate from or intend to carry out  
12 research at a variety of types of institutions of high-  
13 er education, including—

14                     (A) Historically Black Colleges and Uni-  
15 versities;

16                     (B) Hispanic-Serving Institutions;

17                     (C) Tribal Colleges and Universities; and

18                     (D) institutions of higher education that  
19 are not among the top 50 institutions in annual  
20 Federal funding for research.

21           (d) SPECIAL CONSIDERATION.—The Director shall  
22 give special consideration to an application from an indi-  
23 vidual who graduated from or is intending to carry out  
24 research at an institution of the type listed in subsection  
25 (c)(3).

1 (e) REPORT.—Not later than 90 days after the con-  
2 clusion of the second year of the pilot program, the Direc-  
3 tor shall submit a report to Congress that includes—

4 (1) statistical summary data on fellowship  
5 awardees disaggregated by race, ethnicity, gender,  
6 age, years since completion of doctoral degree, and  
7 institution type;

8 (2) an assessment, drawing on feedback from  
9 the research community and other sources of infor-  
10 mation, of the effectiveness of the pilot program for  
11 mitigating the loss of research talent due to the pan-  
12 demic; and

13 (3) if determined effective, a plan for perma-  
14 nent implementation of the pilot program.

15 (f) QUALIFIED INSTITUTION OF HIGHER EDUCATION  
16 DEFINED.—The term “qualified institution of higher edu-  
17 cation” has the meaning given the term in section 102  
18 of the Higher Education of Act of 1965, except that such  
19 term does not include an institution described in sub-  
20 section (a)(1)(C) of such section.

21 **SEC. 10603. AUTHORIZATION OF APPROPRIATIONS.**

22 There is authorized to be appropriated to the Direc-  
23 tor of the National Science Foundation \$250,000,000 for  
24 each of fiscal years 2021 through 2022 to carry out the  
25 activities in this subtitle.

1     **Subtitle B—National Science and**  
2                     **Technology Strategy**

3     **SEC. 10611. NATIONAL SCIENCE AND TECHNOLOGY STRAT-**  
4                     **EGY.**

5             Section 206 of the National Science and Technology  
6 Policy, Organization, and Priorities Act of 1976 (42  
7 U.S.C. 6615) is amended to read as follows:

8     **“SEC. 206. NATIONAL SCIENCE AND TECHNOLOGY STRAT-**  
9                     **EGY.**

10            “(a) IN GENERAL.—Not later than the end of each  
11 calendar year immediately after the calendar year in which  
12 a review under section 206b is completed, the Director of  
13 the Office of Science and Technology Policy, in consulta-  
14 tion with the National Science and Technology Council,  
15 shall develop and submit to Congress a comprehensive na-  
16 tional science and technology strategy of the United States  
17 to meet national research and development objectives for  
18 the following 4-year period (in this Act referred to as ‘the  
19 national science and technology strategy’).

20            “(b) REQUIREMENTS.—Each national science and  
21 technology strategy required by subsection (a) shall delin-  
22 eate a national science and technology strategy consistent  
23 with—

24                    “(1) the recommendations and priorities devel-  
25                    oped by the review established in section 206b;

1           “(2) the most recent national security strategy  
2 report submitted pursuant to section 1032 of the  
3 National Defense Authorization Act for Fiscal Year  
4 2012 (50 U.S.C. 3043);

5           “(3) other relevant national plans; and

6           “(4) the strategic plans of relevant Federal de-  
7 partments and agencies.

8           “(c) CONSULTATION.—The Director shall consult as  
9 necessary with the Office of Management and Budget and  
10 other appropriate elements of the Executive Office of the  
11 President to ensure that the recommendations and prior-  
12 ities delineated in the science and technology strategy are  
13 incorporated in the development of annual budget re-  
14 quests.

15          “(d) REPORT.—The President shall submit to Con-  
16 gress each year a comprehensive report on the national  
17 science and technology strategy of the United States. Each  
18 report on the national science and technology strategy of  
19 the United States shall include a description of—

20           “(1) strategic objectives and priorities necessary  
21 to maintain the leadership of the United States in  
22 science and technology and to advance science and  
23 technology to address societal and national chal-  
24 lenges, including near-term, medium-term, and long-  
25 term research priorities;

1           “(2) programs, policies, and activities that the  
2           President recommends across all Federal agencies to  
3           achieve the strategic objectives in paragraph (1);  
4           and

5           “(3) global trends in science and technology, in-  
6           cluding potential threats to the leadership of the  
7           United States in science and technology and oppor-  
8           tunities for international collaboration in science and  
9           technology.

10          “(e) PUBLICATION.—The Director shall, consistent  
11         with the protection of national security and other sensitive  
12         matters to the maximum extent practicable, make each re-  
13         port submitted under subsection (d) publicly available on  
14         an internet website of the Office.”.

15         **SEC. 10612. QUADRENNIAL SCIENCE AND TECHNOLOGY RE-**  
16                 **VIEW.**

17         The National Science and Technology Policy, Organi-  
18         zation, and Priorities Act of 1976 (42 U.S.C. 6601 et seq.)  
19         is amended by inserting after section 206 the following:

20         **“SEC. 206b. QUADRENNIAL SCIENCE AND TECHNOLOGY RE-**  
21                 **VIEW.**

22                 “(a) REQUIREMENTS.—

23                         “(1) QUADRENNIAL REVIEWS REQUIRED.—Not  
24                         later than December 31, 2022, and every 4 years  
25                         thereafter, the Director of the Office of Science and

1 Technology Policy shall complete a review of the  
2 science and technology enterprise of the United  
3 States (in this section referred to as the ‘quadren-  
4 nial science and technology review’).

5 “(2) SCOPE.—The quadrennial science and  
6 technology review shall be a comprehensive examina-  
7 tion of the science and technology strategy of the  
8 United States, including recommendations for main-  
9 taining global leadership in science and technology  
10 and advancing science and technology to address the  
11 societal and national challenges and guidance on the  
12 coordination of programs, assets, capabilities, budg-  
13 et, policies, and authorities across all Federal re-  
14 search and development programs.

15 “(3) CONSULTATION.—The Director of the Of-  
16 fice of Science and Technology Policy shall conduct  
17 each quadrennial science and technology review  
18 under this subsection in consultation with—

19 “(A) the National Science and Technology  
20 Council;

21 “(B) the heads of other relevant Federal  
22 agencies;

23 “(C) the President’s Council of Advisors  
24 on Science and Technology;

25 “(D) the National Science Board;

1                   “(E) the National Security Council; and

2                   “(F) other relevant governmental and non-  
3 governmental entities, including representatives  
4 from industry, institutions of higher education,  
5 nonprofit organizations, Members of Congress,  
6 and other policy experts.

7                   “(4) COORDINATION.—The Director shall en-  
8 sure that each quadrennial science and technology  
9 review conducted under this section is coordinated  
10 with other relevant statutorily required reviews, and  
11 to the maximum extent practicable incorporates in-  
12 formation and recommendations from existing re-  
13 views to avoid duplication.

14                  “(b) CONTENTS.—In each quadrennial science and  
15 technology review, the Director shall—

16                   “(1) provide an integrated view of, and rec-  
17 ommendations for, science and technology policy  
18 across the Federal Government, while considering  
19 economic and national security and other societal  
20 and national challenges;

21                   “(2) assess and recommend priorities for re-  
22 search, development and demonstration programs to  
23 maintain American leadership in science and tech-  
24 nology;

1           “(3) assess and recommend priorities for re-  
2           search, development, and demonstration programs to  
3           address societal and national challenges;

4           “(4) assess the global competition in science  
5           and technology and identify potential threats to the  
6           leadership of the United States in science and tech-  
7           nology and opportunities for international collabora-  
8           tion;

9           “(5) assess and make recommendations on the  
10          science, technology, engineering, mathematics and  
11          computer science workforce in the United States;

12          “(6) assess and make recommendations to im-  
13          prove regional innovation across the United States;

14          “(7) assess and make recommendations to im-  
15          prove translation of basic research and the enhance-  
16          ment of technology transfer of federally funded re-  
17          search;

18          “(8) identify, assess, and make recommenda-  
19          tions to address science and technology gaps that  
20          would not be met without federal investment;

21          “(9) review administrative and legislative poli-  
22          cies and funding opportunities that affect private  
23          sector science and technology activities, and identify  
24          and make recommendations on policies that ensure

1 a level playing field for the participation and com-  
2 petitiveness of small- and medium-sized businesses;

3 “(10) assess and identify the infrastructure and  
4 tools needed to maintain the leadership of the  
5 United States in science and technology and address  
6 other societal and national challenges; and

7 “(11) review administrative or legislative poli-  
8 cies that affect the science and technology enterprise  
9 and identify and make recommendations on policies  
10 that hinder research and development in the United  
11 States.

12 “(c) REPORTING.—

13 “(1) IN GENERAL.—Not later than December  
14 31 of the year in which a quadrennial science and  
15 technology review is conducted, the Director shall  
16 submit a report of the review to Congress.

17 “(2) PUBLICATION.—The Director shall, con-  
18 sistent with the protection of national security and  
19 other sensitive matters to the maximum extent pos-  
20 sible, make each report submitted under paragraph  
21 (1) publicly available on an internet website of the  
22 Office of Science and Technology Policy.”.

23 **SEC. 10613. NATIONAL CIRCULAR ECONOMY ROADMAP.**

24 (a) DEFINITIONS.—In this section:

1           (1) CIRCULAR ECONOMY.—The term “circular  
2           economy” means an economy that uses a systems-fo-  
3           cused approach and involves industrial processes and  
4           economic activities that—

5                   (A) are restorative or regenerative by de-  
6           sign;

7                   (B) enable resources used in such proc-  
8           esses and activities to maintain their highest  
9           values for as long as possible; and

10                  (C) aim for the elimination of waste  
11           through the superior design of materials, prod-  
12           ucts, and systems (including business models).

13           (2) DIRECTOR.—The term “Director” means  
14           the Director of the Office of Science and Technology  
15           Policy.

16           (b) NATIONAL CIRCULAR ECONOMY ROADMAP.—

17                   (1) IN GENERAL.—Not later than 2 years after  
18           the date of the enactment of this section, the Direc-  
19           tor shall develop a national circular economy road-  
20           map that includes—

21                   (A) a vision for how the science and tech-  
22           nology enterprise should support the develop-  
23           ment of a circular economy in the United  
24           States;

1 (B) identification of key public and private  
2 stakeholders that may contribute to or benefit  
3 from a transition to a circular economy; and

4 (C) recommendations on specific Federal  
5 policies needed to drive this transition.

6 (2) COORDINATION.—In developing the road-  
7 map under paragraph (1), the Director shall, as ap-  
8 propriate, coordinate with—

9 (A) the Secretary of Energy;

10 (B) the Administrator of the Environ-  
11 mental Protection Agency;

12 (C) the Secretary of Commerce;

13 (D) the Director of the National Institutes  
14 of Standards and Technology; and

15 (E) the head of any other relevant Federal  
16 agency.

17 (3) LEVERAGING EXISTING AGENCY PRO-  
18 GRAMS.—In developing the roadmap under para-  
19 graph (1), the Director shall, as appropriate, lever-  
20 age efforts from existing Federal agency programs  
21 relevant to a circular economy.

22 (4) CONSULTATION.—In developing the road-  
23 map under paragraph (1), the Director may consult  
24 academic, nonprofit, and industry stakeholders.

1 **Subtitle C—Energizing Technology**  
2 **Transfer**

3 **SEC. 10621. DEFINITIONS.**

4 In this subtitle:

5 (1) **CLEAN ENERGY TECHNOLOGY.**—The term  
6 “clean energy technology” means a technology that  
7 significantly reduces energy use, increases energy ef-  
8 ficiency, reduces greenhouse gas emissions, reduces  
9 emissions of other pollutants, or mitigates other neg-  
10 ative environmental consequences of energy produc-  
11 tion, transmission or use.

12 (2) **DEPARTMENT.**—The term “Department”  
13 means the Department of Energy.

14 (3) **DIRECTOR.**—The term “Director” means  
15 the Director of each National Laboratory and the  
16 Director of each Department of Energy single-pur-  
17 pose research facility.

18 (4) **ECONOMICALLY DISTRESSED AREA.**—The  
19 term “economically distressed area” has the mean-  
20 ing described in section 301(a) of the Public Works  
21 and Economic Development Act of 1965 (42 U.S.C.  
22 3161(a)).

23 (5) **GRANT.**—The term “grant” means a grant  
24 award, cooperative agreement award, or any other fi-

1 nancial assistance arrangement that the Secretary of  
2 Energy determines to be appropriate.

3 (6) INSTITUTION OF HIGHER EDUCATION.—The  
4 term “institution of higher education” has the  
5 meaning given such term in the Higher Education  
6 Act of 1965, as amended (20 U.S.C. 1001).

7 (7) NATIONAL LABORATORY.—The term “Na-  
8 tional Laboratory” has the meaning given that term  
9 in section 2 of the Energy Policy Act of 2005 (42  
10 U.S.C. 15801).

11 (8) SECRETARY.—The term “Secretary” means  
12 the Secretary of Energy.

### 13 **PART 1—NATIONAL CLEAN ENERGY**

#### 14 **TECHNOLOGY TRANSFER PROGRAMS**

##### 15 **SEC. 10623. NATIONAL CLEAN ENERGY INCUBATOR PRO-** 16 **GRAM.**

17 (a) CLEAN ENERGY INCUBATOR DEFINED.—In this  
18 section, the term “clean energy incubator”—

19 (1) means any entity that is designed to accel-  
20 erate the commercial application of clean energy  
21 technologies by providing—

22 (A) physical workspace, labs, and proto-  
23 typing facilities to support clean energy  
24 startups or established clean energy companies;  
25 or

1 (B) companies developing such tech-  
2 nologies with support, resources, and services,  
3 including—

4 (i) access to business education and  
5 counseling;

6 (ii) mentorship opportunities; and

7 (iii) other services rendered for the  
8 purpose of aiding the development and  
9 commercial application of a clean energy  
10 technology; and

11 (2) may include a program within or established  
12 by a National Laboratory, an institution of higher  
13 education or a State, territorial, local, or tribal gov-  
14 ernment.

15 (b) PROGRAM ESTABLISHMENT.—Not later than 180  
16 days after the enactment of this Act, the Secretary, acting  
17 through the Chief Commercialization Officer established  
18 in section 1001(a) of the Energy Policy Act of 2005 (42  
19 U.S.C. 16391(a)), shall establish a Clean Energy Incu-  
20 bator Program (herein referred to as the “program”) to  
21 competitively award grants to clean energy incubators.

22 (c) CLEAN ENERGY INCUBATOR SELECTION.—In  
23 awarding grants to clean energy incubators under sub-  
24 section (b), the Secretary shall, to the maximum extent

1 practicable, prioritize funding clean energy incubators  
2 that—

3           (1) partner with entities that carry out activi-  
4 ties relevant to the activities of such incubator and  
5 that operate at the local, State, and regional levels;

6           (2) support the commercial application activi-  
7 ties of startup companies focused on physical hard-  
8 ware, computational, or integrated hardware and  
9 software technologies;

10           (3) are located in geographically diverse regions  
11 of the United States, such as the Great Lakes re-  
12 gion;

13           (4) are located in, or partner with entities lo-  
14 cated in, economically-distressed areas;

15           (5) support the development of entities focused  
16 on expanding clean energy tools and technologies to  
17 rural, Tribal, and low-income communities;

18           (6) support the commercial application of tech-  
19 nologies being developed by clean energy entre-  
20 preneurs from underrepresented backgrounds; and

21           (7) have a plan for sustaining activities of the  
22 incubator after grant funds received under this pro-  
23 gram have been expended.

1 (d) AWARD LIMITS.—The Secretary shall not award  
2 more than \$4,000,000 to one or more incubators in one  
3 given State, per fiscal year.

4 (e) DURATION.—Each grant under subsection (b)  
5 shall be for a period of no longer than 5 years, subject  
6 to the availability of appropriations.

7 (f) USE OF FUNDS.—An entity receiving a grant  
8 under this section may use grant amounts for operating  
9 expenses.

10 (g) RENEWAL.—An award made to a clean energy  
11 incubator under this section may be renewed for a period  
12 of not more than 3 years, subject to merit review.

13 (h) EVALUATION.—In accordance with section 9007  
14 of division Z of the Consolidated Appropriations Act, 2021  
15 (Public Law 116–260), the Secretary shall submit to the  
16 Committee on Science, Space, and Technology of the  
17 House of Representatives and the Committee on Energy  
18 and Natural Resources of the Senate an evaluation of the  
19 program established under this section that includes anal-  
20 yses of the performance of the clean energy incubators.

21 (i) AUTHORIZATION OF APPROPRIATIONS.—There  
22 are authorized to be appropriated to the Secretary to carry  
23 out this section \$15,000,000 for each of fiscal years 2022  
24 through 2026.

1 **SEC. 10624. CLEAN ENERGY TECHNOLOGY UNIVERSITY**  
2 **PRIZE COMPETITION.**

3 (a) DEFINITIONS.—In this section:

4 (1) ELIGIBLE ENTITY.—The term “eligible enti-  
5 ty” means a nonprofit entity, an institution of high-  
6 er education, or an entity working with one or more  
7 institutes of higher education.

8 (2) MINORITY-SERVING INSTITUTION.—The  
9 term “minority-serving institution” means an insti-  
10 tution described in section 371(a) of the Higher  
11 Education Act of 1965 (20 U.S.C. 1067q(a)).

12 (b) IN GENERAL.—The Secretary shall establish a  
13 program, known as the “Clean Energy Technology Uni-  
14 versity Prize”, to award funding for eligible entities to  
15 carry out regional and one national clean energy tech-  
16 nology prize competitions, under section 24 of the Steven-  
17 son-Wylder Technology Innovation Act of 1980 (15 U.S.C.  
18 3719). In carrying out such prize competitions, students  
19 shall compete to develop a business model for furthering  
20 the commercial application of an innovative clean energy  
21 technology.

22 (c) TRAINING FUNDING.—In carrying out this pro-  
23 gram, the Secretary may provide funding to train partici-  
24 pating students in skills needed for the successful commer-  
25 cial application of clean energy technologies, including  
26 through virtual training sessions.

1           (d) PRIORITIZATION.—In awarding grants under this  
2 section, the Secretary shall prioritize awarding grants to  
3 eligible entities that work with students at minority-serv-  
4 ing institutions.

5           (e) COORDINATION.—In carrying out this program,  
6 the Secretary shall coordinate and partner with other  
7 clean energy technology prize competitions. In doing so,  
8 the Secretary may develop and disseminate best practices  
9 for administering prize competitions under this section.

10          (f) REPORT.—In accordance with section 9007 of di-  
11 vision Z of the Consolidated Appropriations Act, 2021  
12 (Public Law 116–260), the Secretary shall report annually  
13 on the progress and implementation of the program estab-  
14 lished under section (b).

15          (g) EVALUATION.—In accordance with section 9007  
16 of division Z of the Consolidated Appropriations Act, 2021  
17 (Public Law 116–260), the Secretary shall submit to the  
18 Committee on Science, Space, and Technology of the  
19 House of Representatives and the Committee on Energy  
20 and Natural Resources of the Senate an evaluation on the  
21 long-term outcomes of the program established under this  
22 section and the progress towards achieving the purposes  
23 of the program in subsection (b).

24          (h) AUTHORIZATION OF APPROPRIATIONS.—There  
25 are authorized to be appropriated to the Secretary to carry

1 out the activities authorized in this section \$1,000,000 for  
2 each of fiscal years 2022 through 2026.

3 **SEC. 10625. CLEAN ENERGY TECHNOLOGY TRANSFER CO-**  
4 **ORDINATION.**

5 (a) IN GENERAL.—The Secretary, acting through the  
6 Chief Commercialization Officer established in section  
7 1001 (a) of the Energy Policy Act of 2005 (42 U.S.C.  
8 16391 (a)), shall support the coordination of relevant  
9 technology transfer programs that advance the commercial  
10 application of clean energy technologies nationally and  
11 across all energy sectors. In particular, the Secretary may  
12 support activities to—

13 (1) facilitate the sharing of information on best  
14 practices for successful operation of clean energy  
15 technology transfer programs;

16 (2) coordinate resources and improve coopera-  
17 tion among clean energy technology transfer pro-  
18 grams;

19 (3) facilitate connections between entrepreneurs  
20 and start-up companies and the variety of programs  
21 related to clean energy technology transfer under the  
22 Department; and

23 (4) facilitate the development of metrics to  
24 measure the impact of clean energy technology  
25 transfer programs on—

1 (A) advancing the development, demonstra-  
2 tion, and commercial application of clean en-  
3 ergy technologies;

4 (B) increasing the competitiveness of  
5 United States in the clean energy sector, in-  
6 cluding in manufacturing; and

7 (C) commercial application of clean energy  
8 technologies being developed by entrepreneurs  
9 from under-represented backgrounds.

10 (b) AUTHORIZATION OF APPROPRIATIONS.—There  
11 are authorized to be appropriated to the Secretary to carry  
12 out the activities in this section \$3,000,000 for each of  
13 fiscal years 2022 through 2026.

14 **PART 2—SUPPORTING TECHNOLOGY DEVELOP-**  
15 **MENT AT THE NATIONAL LABORATORIES**

16 **SEC. 10626. LAB PARTNERING SERVICE PILOT PROGRAM.**

17 Section 9002 of division Z of the Consolidated Appro-  
18 priations Act, 2021 (Public Law 116–260) is amended by  
19 adding at the end the following:

20 “(h) AUTHORIZATION OF APPROPRIATIONS.—There  
21 are authorized to be appropriated to the Secretary  
22 \$2,000,000 for each of fiscal years 2022 through 2024  
23 to carry out subsections (a), (b), and (c), and \$1,700,000  
24 for each of fiscal years 2022 through 2024 for National

1 Laboratory employees to provide services under subsection  
2 (d).”.

3 **SEC. 10627. LAB-EMBEDDED ENTREPRENEURSHIP PRO-**  
4 **GRAM.**

5 (a) IN GENERAL.—The Secretary shall competitively  
6 award grants to National Laboratories for the purpose of  
7 establishing or supporting Lab-Embedded Entrepreneur-  
8 ship Programs.

9 (b) PURPOSES.—The purposes of such programs are  
10 to provide entrepreneurial fellows with access to National  
11 Laboratory research facilities, National Laboratory exper-  
12 tise, and mentorship to perform research and development  
13 and gain expertise that may be required or beneficial for  
14 the commercial application of research ideas.

15 (c) ENTREPRENEURIAL FELLOWS.—An entrepre-  
16 neurial fellow participating in a program described in sub-  
17 section (a) shall be provided with—

18 (1) opportunities for entrepreneurial training,  
19 professional development, and exposure to leaders  
20 from academia, industry, government, and finance  
21 who may serve as advisors to or partners of the fel-  
22 low;

23 (2) financial and technical support for research,  
24 development, and commercial application activities;

1           (3) fellowship awards to cover costs of living,  
2           health insurance, and travel stipends for the dura-  
3           tion of the fellowship; and

4           (4) any other resources determined appropriate  
5           by the Secretary.

6           (d) PROGRAM ACTIVITIES.—Each National Labora-  
7           tory that receives funding under this section shall support  
8           entrepreneurial fellows by providing—

9           (1) access to facilities and expertise within the  
10          National Laboratory;

11          (2) engagement with external stakeholders; and

12          (3) market and customer development opportu-  
13          nities.

14          (e) ADMINISTRATION.—National Laboratories that  
15          receive grants under this section shall prioritize the sup-  
16          port and success of the entrepreneurial fellow with regards  
17          to professional development and development of a relevant  
18          technology.

19          (f) PARTNERSHIPS.—In carrying out a Lab-Embed-  
20          ded Entrepreneurship Program, a National Laboratory  
21          may partner with an external entity, including—

22          (1) a nonprofit organization;

23          (2) an institution of higher education;

24          (3) a federally-owned corporation; or

1           (4) a consortium of 2 or more entities described  
2           in paragraphs (1) through (3).

3           (g) METRICS.—The Secretary shall support the de-  
4           velopment of short-term and long-term metrics to assess  
5           the effectiveness of programs receiving a grant under sub-  
6           section (a) in achieving the purposes of the program in  
7           subsection (a).

8           (h) EVALUATION.—In accordance with section 9007  
9           of division Z of the Consolidated Appropriations Act, 2021  
10          (Public Law 116–260), not later than 3 years after the  
11          date of the enactment of this Act, and every 3 years there-  
12          after, the Secretary shall submit to the Committee on  
13          Science, Space, and Technology of the House of Rep-  
14          resentatives and the Committee on Energy and Natural  
15          Resources of the Senate an evaluation of the effectiveness  
16          of the programs under subsection (a) based on the metrics  
17          developed pursuant to subsection (g).

18          (i) COORDINATION.—The Secretary shall oversee the  
19          planning and coordination of grants under subsection (a)  
20          and shall identify and disseminate best practices for  
21          achieving the purposes of subsection (a) to National Lab-  
22          oratories that receive grants under this section.

23          (j) INTERAGENCY COLLABORATION.—The Secretary  
24          shall collaborate with other executive branch agencies, in-  
25          cluding the Department of Defense and other agencies

1 with Federal laboratories, regarding opportunities to part-  
2 ner with National Laboratories receiving a grant under  
3 subsection (a).

4 (k) AUTHORIZATION OF APPROPRIATIONS.—There  
5 are authorized to be appropriated to the Secretary to carry  
6 out the activities authorized in this section \$25,000,000  
7 for each of fiscal years 2022 through 2026.

8 **SEC. 10628. SMALL BUSINESS VOUCHER PROGRAM.**

9 Section 1003 of the Energy Policy Act of 2005 (42  
10 U.S.C. 16393) is amended—

11 (1) in subsection (a)—

12 (A) in the matter preceding paragraph (1),  
13 by striking “, and may require the Director of  
14 a single-purpose research facility,” and insert-  
15 ing “(as defined in section 2) and the Director  
16 of each single-purpose research facility”;

17 (B) in paragraph (1)—

18 (i) by striking “increase” and insert-  
19 ing “encourage”; and

20 (ii) by striking “collaborative re-  
21 search,” and inserting “research, develop-  
22 ment, demonstration, and commercial ap-  
23 plication activities, including product devel-  
24 opment,”;

1 (C) in paragraph (2), by striking “procure-  
2 ment and collaborative research” and inserting  
3 “the activities described in paragraph (1)”;

4 (D) in paragraph (3)—

5 (i) by inserting “facilities,” before  
6 “training”; and

7 (ii) by striking “procurement and col-  
8 laborative research activities” and insert-  
9 ing “the activities described in paragraph  
10 (1)”;

11 (E) in paragraph (5), by striking “for the  
12 program under subsection (b)” and inserting  
13 “and metrics for the programs under sub-  
14 sections (b) and (c)”;

15 (2) by redesignating subsections (c) and (d) as  
16 subsections (d) and (e), respectively;

17 (3) by inserting after subsection (b) the fol-  
18 lowing:

19 “(c) SMALL BUSINESS VOUCHER PROGRAM.—

20 “(1) DEFINITIONS.—In this subsection:

21 “(A) DIRECTOR.—The term ‘Director’  
22 means—

23 “(i) the Director of each National  
24 Laboratory; and

1                   “(ii) the Director of each single-pur-  
2                   pose research facility.

3                   “(B) NATIONAL LABORATORY.—The term  
4                   ‘National Laboratory’ has the meaning given  
5                   the term in section 2.

6                   “(C) PROGRAM.—The term ‘program’  
7                   means the program established under para-  
8                   graph (2).

9                   “(D) SMALL BUSINESS CONCERN.—The  
10                  term ‘small business concern’ has the meaning  
11                  given such term in section 3 of the Small Busi-  
12                  ness Act (15 U.S.C. 632).

13                  “(2) ESTABLISHMENT.—The Secretary, acting  
14                  through the Chief Commercialization Officer ap-  
15                  pointed under section 1001(a), and in consultation  
16                  with the Directors, shall establish a program to pro-  
17                  vide small business concerns with vouchers under  
18                  paragraph (3)—

19                  “(A) to achieve the goal described in sub-  
20                  section (a)(1); and

21                  “(B) to improve the products, services, and  
22                  capabilities of small business concerns in the  
23                  mission space of the Department.

24                  “(3) VOUCHERS.—Under the program, the Di-  
25                  rectors are authorized to provide to small business

1 concerns vouchers to be used at National Labora-  
2 tories and single-purpose research facilities for—

3 “(A) research, development, demonstra-  
4 tion, technology transfer, skills training and  
5 workforce development, or commercial applica-  
6 tion activities; or

7 “(B) any other activities that the applica-  
8 ble Director determines appropriate.

9 “(4) EXPEDITED APPROVAL.—The Secretary,  
10 working with the Directors, shall establish a stream-  
11 lined approval process for financial assistance agree-  
12 ments signed between—

13 “(A) small business concerns selected to  
14 receive a voucher under the program; and

15 “(B) the National Laboratories and single-  
16 purpose research facilities.

17 “(5) COST-SHARING REQUIREMENT.—In car-  
18 rying out the program, the Secretary shall require  
19 cost-sharing in accordance with section 988.

20 “(6) REPORT.—In accordance with section  
21 9007 of division Z of the Consolidated Appropria-  
22 tions Act, 2021 (Public Law 116–260), the Sec-  
23 retary shall report annually on the progress and im-  
24 plementation of the small business voucher program  
25 established under this section, including the number

1 and locations of small businesses that received  
2 grants under this program.”; and

3 (4) in subsection (e) (as so redesignated), by  
4 striking “for activities under this section” and in-  
5 serting “for activities under subsection (b)” and in-  
6 serting before the period at the end “and for activi-  
7 ties under subsection (c) \$25,000,000 for each of  
8 fiscal years 2022 through 2026”.

9 **SEC. 10629. ENTREPRENEURIAL LEAVE PROGRAM.**

10 (a) **IN GENERAL.**—The Secretary shall delegate to  
11 Directors the authority to carry out an entrepreneurial  
12 leave program (referred to in this section as the “pro-  
13 gram”) to allow National Laboratory employees to take  
14 a full leave of absence from their position, with the option  
15 to return to that or a comparable position up to 3 years  
16 later, or a partial leave of absence, to advance the commer-  
17 cial application of energy and related technologies relevant  
18 to the mission of the Department.

19 (b) **TERMINATION AUTHORITY.**—Directors shall re-  
20 tain the authority to terminate National Laboratory em-  
21 ployees that participate in the program if such employees  
22 are found to violate terms prescribed by the National Lab-  
23 oratory at which such employee is employed.

24 (c) **LICENSING.**—To reduce barriers to participation  
25 in the program, the Secretary shall delegate to the Direc-

1 tors the requirement to establish streamlined mechanisms  
2 for facilitating the licensing of technology that is the focus  
3 of National Laboratory employees who participate in the  
4 program.

5 (d) REPORT.—In accordance with section 9007 of di-  
6 vision Z of the Consolidated Appropriations Act, 2021  
7 (Public Law 116–260), the Secretary shall report annually  
8 on the utilization of this authority at National Labora-  
9 tories, including the number of employees who participate  
10 in this program at each National Laboratory and the num-  
11 ber of employees who take a permanent leave from their  
12 positions at National Laboratories as a result of partici-  
13 pating in this program.

14 (e) FEDERAL ETHICS.—Nothing in this section shall  
15 affect existing Federal ethics rules applicable to Federal  
16 personnel.

17 **SEC. 10630. NATIONAL LABORATORY NON-FEDERAL EM-**  
18 **PLOYEE OUTSIDE EMPLOYMENT AUTHORITY.**

19 (a) IN GENERAL.—The Secretary shall delegate to  
20 Directors of National Laboratories the authority to allow  
21 their non-Federal employees—

22 (1) to engage in outside employment, including  
23 start-up companies based on licensing technologies  
24 developed at National Laboratories and consulting in

1 their areas of expertise, and receive compensation  
2 from such entities; and

3 (2) to engage in outside activities related to  
4 their areas of expertise at the National Laboratory  
5 and may allow employees, in their employment ca-  
6 pacity at such outside employment, to access the  
7 National Laboratories under the same contracting  
8 mechanisms as non-Laboratory employees and enti-  
9 ties, in accordance with appropriate conflict of inter-  
10 est protocols.

11 (b) REQUIREMENTS.—If a Director elects to use the  
12 authority granted by subsection (a) of this section, the Di-  
13 rector, or their designee, shall—

14 (1) require employees to disclose to and obtain  
15 approval from the Director or their designee prior to  
16 engaging in any outside employment;

17 (2) develop and require appropriate conflict of  
18 interest protocols for employees that engage in out-  
19 side employment;

20 (3) maintain the authority to terminate employ-  
21 ees engaging in outside employment if they are  
22 found to violate terms, including conflict of interest  
23 protocols, mandated by the Director; and

1           (4) ensure that any such programs or activities  
2           are in conformance with the Department’s research  
3           security policies, including DOE Order 486.1.

4           (c) ADDITIONAL RESTRICTIONS.—Employees engag-  
5           ing in outside employment may not—

6           (1) allow such activities to interfere with or im-  
7           pede their duties at the National Laboratory;

8           (2) engage in activities related to outside em-  
9           ployment using National Laboratory government  
10          equipment, property, or resources, unless such ac-  
11          tivities are performed under National Laboratory  
12          contracting mechanisms, such as Cooperative Re-  
13          search and Development Agreements or Strategic  
14          Partnership Projects, whereby all conflicts of inter-  
15          est requirements apply; or

16          (3) use their position at a National Laboratory  
17          to provide an unfair competitive advantage to an  
18          outside employer or start-up activity.

19          (d) FEDERAL ETHICS.—Nothing in this section shall  
20          affect existing Federal ethics rules applicable to Federal  
21          personnel.

22   **SEC. 10631. NATIONAL LABORATORIES RESTORATION AND**  
23                           **MODERNIZATION.**

24          (a) DEFINITIONS.—In this section:

1           (1) NATIONAL LABORATORY.—The term “Na-  
2           tional Laboratory” has the meaning given the term  
3           in section 2 of the Energy Policy Act of 2005 (42  
4           U.S.C. 15801).

5           (2) SECRETARY.—The term “Secretary” means  
6           the Secretary of Energy.

7           (b) RESTORATION AND MODERNIZATION  
8           PROJECTS.—The Secretary shall fund projects described  
9           in subsection (c) as needed to address the deferred mainte-  
10          nance, critical infrastructure needs, and modernization of  
11          National Laboratories.

12          (c) PROJECTS DESCRIBED.—The projects referred to  
13          in subsection (b) are, as determined by the Secretary—

14               (1) priority deferred maintenance projects at  
15               National Laboratories, including facilities  
16               sustainment for, upgrade of, and construction of re-  
17               search laboratories, administrative and support  
18               buildings, utilities, roads, power plants, and any  
19               other critical infrastructure; and

20               (2) lab modernization projects at National Lab-  
21               oratories, including lab modernization projects relat-  
22               ing to core infrastructure needed—

23                       (A) to support existing and emerging  
24                       science missions with new and specialized re-

1            requirements for world-leading scientific user fa-  
2            cilities and computing capabilities; and

3            (B) to maintain safe, efficient, reliable,  
4            and environmentally responsible operations.

5            (d) SUBMISSION TO CONGRESS.—For each fiscal year  
6 through fiscal year 2026, at the same time as the annual  
7 budget submission of the President, the Secretary shall  
8 submit to the Committees on Appropriations and Energy  
9 and Natural Resources of the Senate and the Committees  
10 on Appropriations and Science, Space, and Technology of  
11 the House of Representatives a list of projects for which  
12 the Secretary will provide funding under this section, in-  
13 cluding a description of each project and the funding pro-  
14 file for the project.

15            (e) AUTHORIZATION OF APPROPRIATIONS.—

16            (1) IN GENERAL.—There is authorized to be  
17 appropriated to the Secretary to carry out this sec-  
18 tion \$6,100,000,000 for each of fiscal years 2022  
19 through 2026.

20            (2) OFFICE OF SCIENCE.—Not less than  $\frac{1}{3}$  of  
21 the amounts made available to carry out this section  
22 each fiscal year shall be managed by the Office of  
23 Science of the Department of Energy.

1                   **PART 3—DEPARTMENT OF ENERGY**  
2                   **MODERNIZATION**

3 **SEC. 10632. OFFICE OF TECHNOLOGY TRANSITIONS.**

4           Section 1001(a) of the Energy Policy Act of 2005  
5 (42 U.S.C. 16391) is amended by adding at the end the  
6 following:

7                   “(6) **HIRING AND MANAGEMENT.**—To carry out  
8 the program authorized in this section, the Under  
9 Secretary for Science may appoint personnel using  
10 the authorities in section 10636 of the America  
11 **COMPETES Act of 2022.**

12                   “(7) **AUTHORIZATION OF APPROPRIATIONS.**—  
13 There are authorized to be appropriated to the Sec-  
14 retary to carry out the activities authorized in this  
15 section \$20,000,000 for each of fiscal years 2022  
16 through 2026.”.

17 **SEC. 10633. MANAGEMENT OF DEPARTMENT OF ENERGY**  
18                   **DEMONSTRATION PROJECTS.**

19           Section 41201 of the Infrastructure Investment and  
20 Jobs Act (42 U.S.C. 18861) is amended—

21                   (1) in subsection (b), by inserting “including  
22 the Office of Technology Transitions, the Loan Pro-  
23 gram Office, and all applied program offices,” after  
24 “Department,”;

25                   (2) in subsection (d), by inserting “, including  
26 by using the authorities in section 10636 of the

1 America COMPETES Act of 2022,” after “per-  
2 sonnel”;

3 (3) by redesignating subsections (e), (f), and  
4 (g) as subsections (g), (h), and (i), respectively;

5 (4) by adding after subsection (d) the following:

6 “(e) ADDITIONAL AUTHORITY.—The Secretary may  
7 carry out and manage covered projects directly through  
8 the program.

9 “(f) PROJECT TERMINATION.—Should an ongoing  
10 covered project receive an unfavorable review under sub-  
11 section (e)(5), the Secretary or their designee may cease  
12 funding the covered project and reallocate the remaining  
13 funds to new or existing covered projects carried out by  
14 that program office.”; and

15 (5) in subsection (h)(1) (as so redesignated), by  
16 striking “The Secretary” and inserting “In accord-  
17 ance with section 9007 of division Z of the Consoli-  
18 dated Appropriations Act, 2021 (Public Law 116–  
19 260), the Secretary”.

20 **SEC. 10634. STREAMLINING PRIZE COMPETITIONS.**

21 (a) REPORTING.—Section 1008 of the Energy Policy  
22 Act of 2005 (42 U.S.C. 16396) is amended by adding at  
23 the end the following:

24 “(h) REPORT.—In accordance with section 9007 of  
25 division Z of the Consolidated Appropriations Act, 2021

1 (Public Law 116–260), the Secretary shall report annually  
2 on a description of any prize competitions carried out  
3 using the authority under this section, the total amount  
4 of prizes awarded along with any private sector contribu-  
5 tions, the methods used for solicitation and evaluation,  
6 and a description of how each prize competition advanced  
7 the mission of the Department.”.

8 (b) **TECHNICAL AMENDMENT.**—Section 1008 of the  
9 Energy Policy Act of 2005 (42 U.S.C. 16396) is amended  
10 by redesignating the second subsection (e) (relating to au-  
11 thorization of appropriations) as subsection (f).

12 **SEC. 10635. COST-SHARE WAIVER EXTENSION.**

13 (a) **IN GENERAL.**—Section 988 of the Energy Policy  
14 Act of 2005 (42 U.S.C. 16352) is amended in subsection  
15 (b)(4)(B) by striking “this paragraph” and inserting “the  
16 America COMPETES Act of 2022”.

17 (b) **REPORT.**—Section 108(b) of the Department of  
18 Energy Research and Innovation Act is amended in sub-  
19 section (b) by striking “this Act” each place it appears  
20 and inserting “the America COMPETES Act of 2022”.

21 **SEC. 10636. SPECIAL HIRING AUTHORITY FOR SCIENTIFIC,**  
22 **ENGINEERING, AND PROJECT MANAGEMENT**  
23 **PERSONNEL.**

24 (a) **IN GENERAL.**—The Under Secretary for Science  
25 shall have the authority to—

1           (1) make appointments of not more than 60  
2           scientific, engineering, and professional personnel,  
3           without regard to civil service laws, to assist the De-  
4           partment in meeting specific project or research  
5           needs;

6           (2) fix the basic pay of any employee appointed  
7           under this section at a rate to be determined by the  
8           Under Secretary at rates not in excess of Level II  
9           of the Executive Schedule (EX-II) under section  
10          5311 of title 5, United States Code without regard  
11          to the civil service laws; and

12          (3) pay any employee appointed under this sec-  
13          tion payments in addition to basic pay, except that  
14          the total amount of additional payments paid to an  
15          employee under this subsection for any 12-month pe-  
16          riod shall not exceed the lesser of the following  
17          amounts:

18                   (A) \$25,000.

19                   (B) The amount equal to 25 percent of the  
20                   annual rate of basic pay of that employee.

21                   (C) The amount of the limitation that is  
22                   applicable for a calendar year under section  
23                   5307(a)(1) of title 5, United States Code.

24          (b) TERM.—

1           (1) IN GENERAL.—The term of any employee  
2           appointed under this section shall not exceed 3 years  
3           unless otherwise authorized in law.

4           (2) TERMINATION.—The Under Secretary for  
5           Science shall have the authority to terminate any  
6           employee appointed under this section at any time  
7           based on performance or changing project or re-  
8           search needs of the Department.

9   **SEC. 10637. TECHNOLOGY TRANSFER REPORTS AND EVAL-**  
10                                   **UATION.**

11           Section 9007 of division Z of the Consolidated Appro-  
12           priations Act, 2021 (Public Law 116–260) is amended as  
13           follows:

14           “(a) ANNUAL REPORT.—As part of the updated tech-  
15           nology transfer execution plan required each year under  
16           section 1001(h)(2) of the Energy Policy Act of 2005 (42  
17           U.S.C. 16391(g)(2)), the Secretary of Energy (in this sec-  
18           tion referred to as the ‘Secretary’) shall submit to the  
19           Committee on Science, Space, and Technology of the  
20           House of Representatives and the Committee on Energy  
21           and Natural Resources of the Senate a report on the  
22           progress and implementation of programs established  
23           under sections 9001, 9002, 9003, 9004, and 9005 of this  
24           Act and under sections 10624, 10628, 10629, 10630,

1 10631, and 10633 of the America COMPETES Act of  
2 2022.

3 “(b) EVALUATION.—Not later than 3 years after the  
4 enactment of this Act and every 3 years thereafter the  
5 Secretary shall submit to the Committee on Science,  
6 Space, and Technology of the House of Representatives  
7 and the Committee on Energy and Natural Resources of  
8 the Senate an evaluation on the extent to which programs  
9 established under sections 9001, 9002, 9003, 9004, and  
10 9005 of this Act and sections 10623, 10624, 10625, and  
11 10627 of the America COMPETES Act of 2022 are  
12 achieving success based on relevant short-term and long-  
13 term metrics.”.

14 **SEC. 10638. ARPA-E AUTHORIZATION OF APPROPRIATIONS.**

15 Paragraph (2) of section 5012(o) of the America  
16 Competes Act (42 U.S.C. 16538(o)) is amended—

17 (1) in subparagraph (D), by striking “and”;

18 (2) in subparagraph (E), by striking the period  
19 and inserting “; and”; and

20 (3) by inserting after subparagraph (E) the fol-  
21 lowing:

22 “(F) \$1,000,000,000 for fiscal year  
23 2026.”.

## 1     **Subtitle D—Regional Innovation**

### 2     **SEC. 10641. REGIONAL INNOVATION CAPACITY.**

3           (a) IN GENERAL.—The Stevenson-Wydler Tech-  
4 nology Innovation Act of 1980 (Public Law 96–480; 15  
5 U.S.C. 3701 et seq.) is amended—

6                 (1) by redesignating section 28 as section 29;

7           and

8                 (2) by inserting after section 27 the following:

#### 9     **“SEC. 28. REGIONAL TECHNOLOGY AND INNOVATION HUB**

#### 10                           **PROGRAM.**

11           “(a) DEFINITIONS.—In this section:

12                 “(1) APPROPRIATE COMMITTEES OF CON-  
13 GRESS.—The term ‘appropriate committees of Con-  
14 gress’ means—

15                         “(A) the Committee on Commerce,  
16 Science, and Transportation, the Committee on  
17 Environment and Public Works, and the Com-  
18 mittee on Appropriations of the Senate; and

19                         “(B) the Committee on Science, Space,  
20 and Technology and the Committee on Appro-  
21 priations of the House of Representatives.

22                 “(2) COOPERATIVE EXTENSION SERVICES.—

23           The term ‘cooperative extension services’ has the  
24 meaning given the term in section 1404 of the Food  
25 and Agriculture Act of 1977 (7 U.S.C. 3103).

1           “(3) HISTORICALLY BLACK COLLEGES AND  
2           UNIVERSITIES.—The term ‘historically Black col-  
3           leges and universities’ has the meaning given the  
4           term ‘part B institution’ in section 322 of the High-  
5           er Education Act of 1965 (20 U.S.C. 1061).

6           “(4) LABOR ORGANIZATION.—The term ‘labor  
7           organization’ has the meaning given the term in sec-  
8           tion 2(5) of the National Labor Relations Act (29  
9           U.S.C. 152(5)), except that such term shall also in-  
10          clude—

11                   “(A) any organization composed of labor  
12                   organizations, such as a labor union federation  
13                   or a State or municipal labor body; and

14                   “(B) any organization which would be in-  
15                   cluded in the definition for such term under  
16                   such section 2(5) but for the fact that the orga-  
17                   nization represents—

18                           “(i) individuals employed by the  
19                           United States, any wholly owned Govern-  
20                           ment corporation, any Federal Reserve  
21                           Bank, or any State or political subdivision  
22                           thereof;

23                           “(ii) individuals employed by persons  
24                           subject to the Railway Labor Act (45  
25                           U.S.C. 151 et seq.); or

1                   “(iii) individuals employed as agricul-  
2                   tural laborers.

3                   “(5) MANUFACTURING EXTENSION CENTER.—  
4                   The term ‘manufacturing extension center’ has the  
5                   meaning given the term ‘Center’ in section 25(a) of  
6                   the National Institute of Standards and Technology  
7                   Act (15 U.S.C. 278k(a)).

8                   “(6) MANUFACTURING USA INSTITUTE.—The  
9                   term ‘Manufacturing USA institute’ means a Manu-  
10                  facturing USA institute described in section 34(d) of  
11                  the National Institute of Standards and Technology  
12                  Act (15 U.S.C. 278s(d)).

13                  “(7) MINORITY-SERVING INSTITUTION.—The  
14                  term ‘minority-serving institution’ means a His-  
15                  panic-serving institution, an Alaska Native-serving  
16                  institution, a Native Hawaiian-serving institutions, a  
17                  Predominantly Black Institution, an Asian American  
18                  and Native American Pacific Islander-serving insti-  
19                  tution, or a Native American-serving nontribal insti-  
20                  tution as described in section 371(a) of the Higher  
21                  Education Act of 1965 (20 U.S.C. 1067q(a)).

22                  “(8) SITE CONNECTIVITY INFRASTRUCTURE.—  
23                  The term ‘site connectivity infrastructure’ means lo-  
24                  calized driveways and access roads to a facility as  
25                  well as hookups to the new facility for drinking

1 water, waste water, broadband, and other basic in-  
2 frastructure services already present in the area.

3 “(9) STATE.—The term ‘state’ has the meaning  
4 given such term in section 27(a) of the Stevenson-  
5 Wydler Act of 1980 (15 U.S.C. 3722(a)).

6 “(10) TRIBAL GOVERNMENT.—The term ‘Tribal  
7 Government’ means the governing body of any In-  
8 dian or Alaska Native Tribe, band, nation, pueblo,  
9 village, community, component band or component  
10 reservation, individually identified (including par-  
11 enthetically) in the list published most recently as of  
12 the date of enactment of this Act pursuant to sec-  
13 tion 104 of the Federally Recognized Indian Tribe  
14 List Act of 1994 (25 U.S.C. 5131).

15 “(11) TRIBAL COLLEGE OR UNIVERSITY.—The  
16 term ‘Tribal College or University’ has the meaning  
17 given such term in section 316 of the Higher Edu-  
18 cation Act of 1965 (20 U.S.C. 1059e).

19 “(12) VENTURE DEVELOPMENT ORGANIZA-  
20 TION.—The term ‘venture development organization’  
21 has the meaning given such term in section 27(a) of  
22 the Stevenson-Wydler Act of 1980 (15 U.S.C.  
23 3722(a)).

24 “(13) COMMUNITY DEVELOPMENT FINANCIAL  
25 INSTITUTION.—The term ‘community development

1 financial institution' has the meaning given in sec-  
2 tion 103 of the Community Development Banking  
3 and Financial Institutions Act of 1994 (12 U.S.C.  
4 4702).

5 “(14) MINORITY DEPOSITORY INSTITUTION.—  
6 The term ‘minority depository institution’ means an  
7 entity that is—

8 “(A) a minority depository institution, as  
9 defined in section 308 of the Financial Institu-  
10 tions Reform, Recovery, and Enforcement Act  
11 of 1989 (12 U.S.C. 1463 note); or

12 “(B) considered to be a minority depository  
13 institution by—

14 “(i) the appropriate Federal banking  
15 agency; or

16 “(ii) the National Credit Union Ad-  
17 ministration, in the case of an insured  
18 credit union.

19 “(b) REGIONAL TECHNOLOGY AND INNOVATION HUB  
20 PROGRAM.—

21 “(1) IN GENERAL.—Subject to the availability  
22 of appropriations, the Secretary shall carry out a  
23 program—

24 “(A) to encourage new and constructive  
25 collaboration among local, State, Tribal, and

1 Federal government entities, institutions of  
2 higher education, the private sector, economic  
3 development organizations, labor organizations,  
4 worker cooperative membership associations,  
5 State or local employee ownership and coopera-  
6 tive development centers, nonprofit organiza-  
7 tions, and community organizations to promote  
8 inclusive regional innovation initiatives;

9 “(B) to support eligible consortia in the  
10 development and implementation of regional in-  
11 novation strategies;

12 “(C) to designate eligible consortia as re-  
13 gional technology and innovation hubs and fa-  
14 cilitate activities by consortia designated as re-  
15 gional technology and innovation hubs in imple-  
16 menting their regional innovation strategies—

17 “(i) to enable United States leader-  
18 ship in technology and innovation sectors  
19 critical to national and economic security;

20 “(ii) to support regional economic de-  
21 velopment and resilience, including in  
22 small cities and rural areas, and promote  
23 increased geographic diversity of innova-  
24 tion across the United States;

1           “(iii) to promote the benefits of tech-  
2           nology development and innovation for all  
3           Americans, including underserved commu-  
4           nities and vulnerable communities;

5           “(iv) to support the modernization  
6           and expansion of United States manufac-  
7           turing based on advances in technology  
8           and innovation;

9           “(v) to support domestic job creation  
10          and broad-based economic growth; and

11          “(vi) to improve the pace of market  
12          readiness, industry maturation, and overall  
13          commercialization and domestic production  
14          of innovative research;

15          “(D) to ensure that the regional tech-  
16          nology and innovation hubs address the inter-  
17          section of emerging technologies and either re-  
18          gional challenges or national challenges; and

19          “(E) to conduct ongoing research, evalua-  
20          tion, analysis, and dissemination of best prac-  
21          tices for regional development and competitive-  
22          ness in technology and innovation.

23          “(2) AWARDS.—The Secretary shall carry out  
24          the program required by paragraph (1) through the  
25          award of the following:

1           “(A) Strategy development grants or coop-  
2           erative agreements to eligible consortia under  
3           subsection (e).

4           “(B) Strategy implementation grants or  
5           cooperative agreements to regional technology  
6           and innovation hubs under subsection (f).

7           “(c) ELIGIBLE CONSORTIA.—For purposes of this  
8           section, an eligible consortium is a consortium that—

9           “(1) includes 1 or more of each of the fol-  
10          lowing—

11           “(A) institutions of higher education,  
12           which may include Historically Black Colleges  
13           and Universities, Tribal Colleges and Univer-  
14           sities, and minority-serving institutions;

15           “(B) State, territorial, local, or Tribal gov-  
16           ernments or other political subdivisions of a  
17           State, including State and local agencies, or a  
18           consortia thereof;

19           “(C) industry or firms in relevant tech-  
20           nology, innovation, or manufacturing sectors;

21           “(D) labor organizations or workforce  
22           training organizations, which may include State  
23           and local workforce development boards as es-  
24           tablished under sections 101 and 107 of the

1 Workforce Investment and Opportunity Act (29  
2 U.S.C. 3111; 3122); and

3 “(E) organizations that contribute to in-  
4 creasing the participation of underserved popu-  
5 lations in science, technology, innovation, and  
6 entrepreneurship; and

7 “(2) may include 1 or more—

8 “(A) economic development entities with  
9 relevant expertise, including a district organiza-  
10 tion (as defined in section 300.3 of title 13,  
11 Code of Federal Regulations, or successor regu-  
12 lation);

13 “(B) economic development organizations  
14 or similar entities that are focused primarily on  
15 improving science, technology, innovation, en-  
16 trepreneurship, or access to capital;

17 “(C) venture development organizations;

18 “(D) worker cooperative membership asso-  
19 ciations and state or local employee ownership  
20 and cooperative development centers;

21 “(E) financial institutions and investment  
22 funds, including community development finan-  
23 cial institutions and minority depository institu-  
24 tions;

1           “(F) elementary schools and secondary  
2 schools, including area career and technical  
3 education schools (as defined in section 3 of the  
4 Carl D. Perkins Career and Technical Edu-  
5 cation Act of 2006 (29 U.S.C. 2302));

6           “(G) National Laboratories (as defined in  
7 section 2 of the Energy Policy Act of 2005 (42  
8 U.S.C. 15801));

9           “(H) Federal laboratories;

10           “(I) Manufacturing extension centers;

11           “(J) Manufacturing USA institutes;

12           “(K) transportation planning organiza-  
13 tions;

14           “(L) a cooperative extension services; and

15           “(M) organizations that represent the per-  
16 spectives of underserved communities in eco-  
17 nomic development initiatives.

18           “(d) DESIGNATION OF REGIONAL TECHNOLOGY AND  
19 INNOVATION HUBS.—

20           “(1) IN GENERAL.—In carrying out subsection  
21 (b)(1)(C), the Secretary shall use a competitive,  
22 merit-review process to designate not fewer than 10  
23 eligible consortia as regional technology and innova-  
24 tion hubs.

1           “(2) GEOGRAPHIC DISTRIBUTION.—In con-  
2           ducting the competitive process under paragraph  
3           (1), the Secretary shall ensure geographic distribu-  
4           tion in the designation of regional technology and in-  
5           novation hubs by—

6                   “(A) focusing on localities that are not the  
7                   top five leading technology centers;

8                   “(B) ensuring that not fewer than one  
9                   third of eligible consortia designated as regional  
10                  technology and innovation hubs significantly  
11                  benefit a rural or other underserved community;

12                  “(C) ensuring that at least one eligible  
13                  consortium designated as a regional technology  
14                  and innovation hub is headquartered in a State  
15                  that is eligible to receive funding from the Es-  
16                  tablished Program to Stimulate Competitive Re-  
17                  search of the National Science Foundation;

18                  “(D) ensuring that at least one eligible  
19                  consortium designated as a regional technology  
20                  and innovation hub is headquartered in a region  
21                  that has a high density of institutions of higher  
22                  education serving populations historically  
23                  underrepresented in STEM, including histori-  
24                  cally Black Colleges and Universities, Tribal

1 Colleges and Universities, and minority-serving  
2 institutions; and

3 “(E) ensuring that at least 1 eligible con-  
4 sortium designated as a regional technology and  
5 innovation hub significantly benefits an area or  
6 region whose economy significantly relies on or  
7 has recently relied on coal, oil, or natural gas  
8 production, development, or utilization.

9 “(3) RELATION TO CERTAIN GRANT AWARDS.—

10 The Secretary shall not require an eligible consor-  
11 tium to receive a grant or cooperative agreement  
12 under subsection (e) in order to be designated as a  
13 regional technology and innovation hub under para-  
14 graph (1) of this subsection.

15 “(e) STRATEGY DEVELOPMENT GRANTS AND COOP-  
16 ERATIVE AGREEMENTS.—

17 “(1) IN GENERAL.—The Secretary shall use a  
18 competitive, merit-review process to award grants or  
19 cooperative agreements to eligible consortia for the  
20 development of regional innovation strategies.

21 “(2) NUMBER OF RECIPIENTS.—The Secretary  
22 shall award a grant or cooperative agreement under  
23 paragraph (1) to not fewer than 20 eligible con-  
24 sortia.

1           “(3) GEOGRAPHIC DIVERSITY AND REPRESENTATION.—

2  
3           “(A) IN GENERAL.—The Secretary shall  
4           carry out paragraph (1) in a manner that en-  
5           sures geographic diversity and representation  
6           from communities of differing populations.

7           “(B) AWARDS TO RURAL COMMUNITIES  
8           AND UNDERSERVED COMMUNITIES.—In car-  
9           rying out paragraph (1), the Secretary shall  
10          award not fewer than one-half of the grants and  
11          cooperative agreements under such paragraph  
12          to eligible consortia that significantly benefit a  
13          rural state, rural community, or other under-  
14          served community.

15          “(4) USE OF FUNDS.—The amount of a grant  
16          or cooperative agreement awarded under paragraph  
17          (1) shall be as follows:

18                 “(A) To coordinate locally defined planning  
19                 processes, across jurisdictions and agencies, re-  
20                 lating to developing a comprehensive regional  
21                 technology strategy.

22                 “(B) To identify regional partnerships for  
23                 developing and implementing a comprehensive  
24                 regional technology strategy.

1           “(C) To conduct or update assessments to  
2 determine regional needs and capabilities.

3           “(D) To develop or update goals and strat-  
4 egies to implement an existing comprehensive  
5 regional plan.

6           “(E) To identify or implement planning  
7 and local zoning and other code changes nec-  
8 essary to implement a comprehensive regional  
9 technology strategy.

10           “(F) To develop or update goals for ensur-  
11 ing that any new regional technology strategy  
12 mitigates and does not exacerbate economic or  
13 social inequities in a region.

14           “(5) FEDERAL SHARE.—The Federal share of  
15 the cost of an effort carried out using a grant or co-  
16 operative agreement awarded under this subsection  
17 may not exceed 80 percent—

18           “(A) where in-kind contributions may be  
19 used for all or part of the non-Federal share,  
20 but Federal funding from other government  
21 sources may not count towards the non-Federal  
22 share;

23           “(B) except in the case of an eligible con-  
24 sortium that represents all or part of a rural or  
25 other underserved community, the Federal

1 share may be up to 90 percent of the total cost,  
2 subject to subparagraph (A); and

3 “(C) except in the case of an eligible con-  
4 sortium that is led by a Tribal government, the  
5 Federal share may be up to 100 percent of the  
6 total cost of the project.

7 “(f) STRATEGY IMPLEMENTATION GRANTS AND CO-  
8 OPERATIVE AGREEMENTS.—

9 “(1) IN GENERAL.—The Secretary shall use a  
10 competitive, merit-review process to award grants or  
11 cooperative agreements to regional technology and  
12 innovation hubs for the implementation of regional  
13 innovation strategies, including regional strategies  
14 for infrastructure and site development, in support  
15 of the regional innovation and technology and inno-  
16 vation hub’s plans and programs. The Secretary  
17 should determine the size and number of awards  
18 based on appropriations available to ensure the suc-  
19 cess of regional technology and innovation hubs as  
20 outlined in subsection (h).

21 “(2) USE OF FUNDS.—Financial assistance  
22 awarded under paragraph (1) to a regional tech-  
23 nology and innovation hub may be used by the re-  
24 gional technology and innovation hub to support any  
25 of the following activities, consistent with the most

1 current regional innovation strategy of the regional  
2 technology and innovation hub:

3 “(A) WORKFORCE DEVELOPMENT ACTIVITIES.—Workforce development activities, in-  
4 cluding activities relating to the following:  
5

6 “(i) The creation of partnerships be-  
7 tween industry, workforce, nonprofit, and  
8 educational institutions to create and align  
9 technical training and educational pro-  
10 grams.

11 “(ii) The design, development, and  
12 updating of educational and training cur-  
13 riculum tied to demonstrated regional  
14 workforce needs.

15 “(iii) The procurement of facilities  
16 and equipment, as required to train a tech-  
17 nical workforce.

18 “(iv) The development and execution  
19 of programs to rapidly award certificates  
20 or credentials recognized by regional indus-  
21 tries or other organizations.

22 “(v) The matching of regional employ-  
23 ers with a potential new entrant, under-  
24 employed, underrepresented, or incumbent  
25 workforce.

1           “(vi) The expansion of successful  
2 training programs at a scale required by  
3 the region served by the regional tech-  
4 nology and innovation hub, including  
5 through the use of online education and  
6 mentoring.

7           “(vii) The development and expansion  
8 of programs with the goal of increasing the  
9 participation of persons historically under-  
10 represented in STEM and manufacturing  
11 in the workforce development plans of the  
12 regional technology and innovation hub.

13           “(B) BUSINESS AND ENTREPRENEUR DE-  
14 VELOPMENT ACTIVITIES.—Business and entre-  
15 preneur development activities, including activi-  
16 ties relating to the following:

17           “(i) The development and growth of  
18 local regional businesses and the training  
19 of entrepreneurs.

20           “(ii) The support of technology com-  
21 mercialization, including funding for activi-  
22 ties relevant for advancing high growth po-  
23 tential ventures such as acceleration, incu-  
24 bation, early-stage production and other  
25 relevant programming.

1           “(iii) The development of local and re-  
2           gional capital networks and consortia to  
3           attract necessary private funding to busi-  
4           nesses and entrepreneurs in the region.

5           “(iv) The development of local and re-  
6           gional networks for business and entre-  
7           preneur mentorship.

8           “(v) The expansion of employee and  
9           worker ownership and participation in  
10          business decisionmaking, including through  
11          coordination and collaboration with worker  
12          cooperative membership associations and  
13          existing local and state employee ownership  
14          and cooperative development centers, or  
15          the creation of such centers where they do  
16          not yet exist, in order to provide informa-  
17          tion, technical assistance, access to financ-  
18          ing, and training to startups, contractors,  
19          and businesses that are considering em-  
20          ployee ownership as a model, and to facili-  
21          tate the creation of and conversion to em-  
22          ployee-owned startups, businesses, and co-  
23          operatives.

24           “(C) TECHNOLOGY DEVELOPMENT AND  
25          MATURATION ACTIVITIES.—Technology matura-

1           tion activities, including activities relating to  
2           the following:

3                   “(i) The development and deployment  
4                   of technologies in sectors critical to the re-  
5                   gion served by the regional technology and  
6                   innovation hub or to national and economic  
7                   security, including industry-university re-  
8                   search cooperation, proof of concept, proto-  
9                   type development, testing, and scale-up for  
10                  manufacturing.

11                  “(ii) The development of program-  
12                  ming to support the creation and transfer  
13                  of intellectual property into private use,  
14                  such as through startup creation.

15                  “(iii) The provision of facilities for  
16                  technology maturation, including incuba-  
17                  tors and production testbeds for collabo-  
18                  rative development of technologies by pri-  
19                  vate sector, academic, nonprofit, and other  
20                  entities.

21                  “(iv) Activities to provide or ensure  
22                  access to capital for new business and co-  
23                  operative formation and business expan-  
24                  sion, or preservation of existing businesses  
25                  through conversion to employee ownership

1 and cooperatives, including by attracting  
2 new private, public, and philanthropic in-  
3 vestment and by establishing local and re-  
4 gional venture and loan funds, community  
5 development financial institutions, and mi-  
6 nority depository institutions.

7 “(D) INFRASTRUCTURE-RELATED ACTIVI-  
8 TIES.—The building of facilities and site  
9 connectivity infrastructure necessary to carry  
10 out activities described in subparagraphs (A),  
11 (B), and (C), including activities relating to the  
12 following:

13 “(i) Establishing a center with re-  
14 quired tools and instrumentation for work-  
15 force development.

16 “(ii) Establishing a facility for tech-  
17 nology development, demonstration, and  
18 testing.

19 “(iii) Establishing collaborative incu-  
20 bators to support technology commer-  
21 cialization and entrepreneur training.

22 “(3) TERM.—

23 “(A) INITIAL PERFORMANCE PERIOD.—  
24 The term of an initial grant or cooperative  
25 agreement awarded under this subsection shall

1 be for a period that the Secretary deems appro-  
2 priate for the proposed activities but not less  
3 than 2 years.

4 “(B) SUBSEQUENT PERFORMANCE PE-  
5 RIOD.—The Secretary may renew a grant or co-  
6 operative agreement awarded to a regional tech-  
7 nology and innovation hub under paragraph (1)  
8 for such period as the Secretary considers ap-  
9 propriate, if the Secretary determines that the  
10 regional technology and innovation hub has  
11 made satisfactory progress towards the metrics  
12 agreed to under subsection (j).

13 “(C) FLEXIBLE APPROACH.—In renewing  
14 a grant or cooperative agreement under sub-  
15 paragraph (B), the Secretary and the eligible  
16 consortium may agree to new or additional uses  
17 of funds in order to meet changes in the needs  
18 of the region.

19 “(4) LIMITATION ON AMOUNT OF AWARDS.—

20 “(A) INITIAL PERFORMANCE PERIOD.—  
21 The amount of an initial grant or cooperative  
22 agreements awarded to a regional technology  
23 and innovation hub under paragraph (3)(A)  
24 shall be no more than \$150,000,000.

1           “(B) SUBSEQUENT PERFORMANCE PE-  
2           RIOD.—Upon renewal of a grant or cooperative  
3           agreement under paragraph (3)(B), the Sec-  
4           retary may award funding in the amount that  
5           the Secretary considers appropriate, ensuring  
6           that no single regional technology and innova-  
7           tion hub receives more than 15 percent of the  
8           aggregate amount of the grants and cooperative  
9           agreements awarded under this subsection.

10          “(5) MATCHING REQUIRED.—

11                 “(A) INITIAL PERFORMANCE PERIOD.—Ex-  
12                 cept in the case of a regional technology and in-  
13                 novation hub described in subparagraph (C),  
14                 the total amount of all grants awarded to a re-  
15                 gional technology and innovation hub under this  
16                 subsection in phase one shall not exceed 90 per-  
17                 cent of the total operating costs of the regional  
18                 technology and innovation hub during the initial  
19                 performance period.

20                 “(B) SUBSEQUENT PERFORMANCE PE-  
21                 RIOD.—Except in the case of a regional tech-  
22                 nology and innovation hub described in sub-  
23                 paragraph (C), the total amount of all grants  
24                 awarded to a regional technology and innova-  
25                 tion hub in subsequent performance periods

1 shall not exceed 75 percent of the total oper-  
2 ating costs of the regional technology and inno-  
3 vation hub in each year of the grant or coopera-  
4 tive agreement.

5 “(C) RURAL COMMUNITIES OR UNDER-  
6 SERVED COMMUNITIES AND INDIAN TRIBES.—

7 “(i) IN GENERAL.—The total Federal  
8 financial assistance awarded in a given  
9 year to a regional technology and innova-  
10 tion hub under this subsection shall not ex-  
11 ceed amounts as follows:

12 “(I) In the case of a regional  
13 technology and innovation hub that  
14 primarily serves a rural community or  
15 other underserved community, in a  
16 fiscal year, 90 percent of the total  
17 funding of the regional technology and  
18 innovation hub in that fiscal year.

19 “(II) In the case of a regional  
20 technology and innovation hub that is  
21 led by a Tribal government, in a fiscal  
22 year, 100 percent of the total funding  
23 of the regional technology and innova-  
24 tion hub in that fiscal year.

1                   “(ii) MINIMUM THRESHOLD OF RURAL  
2                   REPRESENTATION.—For purposes of  
3                   clause (i)(I), the Secretary shall establish a  
4                   minimum threshold of rural representation  
5                   and other underserved community rep-  
6                   resentation in the regional technology and  
7                   innovation hub.

8                   “(D) IN-KIND CONTRIBUTIONS.—For pur-  
9                   poses of this paragraph, in-kind contributions  
10                  may be used for part of the non-Federal share  
11                  of the total funding of a regional technology  
12                  and innovation hub in a fiscal year.

13                  “(6) GRANTS FOR INFRASTRUCTURE.—Any  
14                  grant or cooperative agreement awarded under this  
15                  subsection to support the construction of facilities  
16                  and site connectivity infrastructure shall be awarded  
17                  pursuant to section 201 of the Public Works and  
18                  Economic Development Act of 1965 (42 U.S.C.  
19                  3141) and subject to the provisions of such Act, ex-  
20                  cept that subsection (b) of such section and sections  
21                  204 and 301 of such Act (42 U.S.C. 3144; 3161)  
22                  shall not apply.

23                  “(7) RELATION TO CERTAIN GRANT AWARDS.—  
24                  The Secretary shall not require a regional tech-  
25                  nology and innovation hub to receive a grant or co-

1       operative agreement under subsection (e) in order to  
2       receive a grant or cooperative agreement under this  
3       subsection.

4       “(g) APPLICATIONS.—An eligible consortium seeking  
5       designation as a regional technology and innovation hub  
6       under subsection (d) or a grant or cooperative agreement  
7       under subsection (e) or (f) shall submit to the Secretary  
8       an application therefore at such time, in such manner, and  
9       containing such information as the Secretary may specify.

10       “(h) CONSIDERATIONS FOR DESIGNATION AND  
11       AWARD OF STRATEGY IMPLEMENTATION GRANTS AND  
12       COOPERATIVE AGREEMENTS.—In selecting an eligible  
13       consortium that submitted an application under sub-  
14       section (g) for designation under subsection (d) or for a  
15       grant or cooperative agreement under subsection (f), the  
16       Secretary shall consider the following:

17               “(1) The potential of the eligible consortium to  
18       advance the research, development, deployment, and  
19       domestic manufacturing of technologies in a tech-  
20       nology or innovation sector critical to national and  
21       economic security.

22               “(2) The likelihood of positive regional eco-  
23       nomic effect, including increasing the number of  
24       high wage domestic jobs, creating new economic op-  
25       portunities for economically disadvantaged and

1 underrepresented populations, promoting employee  
2 and worker ownership, and advancing models of  
3 local and cooperative economic development that  
4 build and retain wealth in the region.

5 “(3) How the eligible consortium plans to inte-  
6 grate with and leverage the resources of 1 or more  
7 federally funded research and development centers,  
8 National Laboratories, Federal laboratories, Manu-  
9 facturing USA institutes, Hollings Manufacturing  
10 Extension Partnership centers, or other Federal en-  
11 tities.

12 “(4) How the eligible consortium will engage  
13 with the private sector, including small- and me-  
14 dium-sized businesses and cooperatives, and em-  
15 ployee-owned businesses and cooperatives, to com-  
16 mercialize new technologies and improve the resil-  
17 iency and sustainability of domestic supply chains in  
18 a technology or innovation sector critical to national  
19 and economic security.

20 “(5) How the eligible consortium will carry out  
21 workforce development and skills acquisition pro-  
22 gramming, including through partnerships with enti-  
23 ties that include State and local workforce develop-  
24 ment boards, institutions of higher education, in-  
25 cluding community colleges, historically Black col-

1 leges and universities, Tribal colleges and univer-  
2 sities, and minority-serving institutions, labor orga-  
3 nizations, worker cooperative membership associa-  
4 tions, state or local employee ownership and coopera-  
5 tive development centers, workforce development  
6 programs, and other related activities authorized by  
7 the Secretary, to support the development of a  
8 skilled technical workforce for the regional tech-  
9 nology and innovation hub.

10 “(6) How the eligible consortium will improve  
11 or expand science, technology, engineering, and  
12 mathematics education programs and opportunities  
13 in the identified region in elementary and secondary  
14 school and higher education institutions located in  
15 the identified region.

16 “(7) How the eligible consortium plans to de-  
17 velop partnerships with venture development organi-  
18 zations, community development financial institu-  
19 tions and minority depository institutions, and  
20 sources of private investment in support of private  
21 sector activity, including launching new or expanding  
22 existing companies.

23 “(8) How the eligible consortium plans to orga-  
24 nize the activities of regional partners across sectors

1 in support of a regional technology and innovation  
2 hub.

3 “(9) How the eligible consortium plans to pro-  
4 cure as many goods, services, food, and supplies as  
5 is practicable from locally-owned, employee-owned,  
6 minority-owned, and women-owned businesses and  
7 cooperatives in conducting hub activities, and how  
8 individual consortium members, as applicable, plan  
9 to do the same.

10 “(10) How the consortium plans to collaborate  
11 with local and community development financial in-  
12 stitutions and minority depository institutions to ex-  
13 pand the supply of such procurement options, in-  
14 cluding by creating business plans and plans for fi-  
15 nancing businesses and cooperatives that do not yet  
16 exist, and how the consortium plans to encourage  
17 entities created as a result of hub activities to follow  
18 such practices.

19 “(11) How the eligible consortium will ensure  
20 that growth in technology, innovation, and advanced  
21 manufacturing sectors produces opportunity across  
22 the identified region, including for economically dis-  
23 advantaged, minority, and rural populations, includ-  
24 ing consideration of how the eligible consortium

1 takes into account the relevant impact of regional  
2 status and plans for—

3 “(A) available affordable housing stock  
4 and housing policies;

5 “(B) local and regional transportation sys-  
6 tems;

7 “(C) high speed internet access; and

8 “(D) primary and secondary education.

9 “(12) How much the regions educational insti-  
10 tutions are committed to aligning their activities, in-  
11 cluding research and education, as appropriate, to a  
12 region’s economic strengths and areas of focus.

13 “(13) The likelihood efforts served by the con-  
14 sortium will be sustained once Federal support ends.

15 “(i) COORDINATION AND COLLABORATION.—

16 “(1) COORDINATION WITH REGIONAL INNOVA-  
17 TION PROGRAM.—The Secretary shall ensure the ac-  
18 tivities under this section do not duplicate activities  
19 or efforts under section 27.

20 “(2) COORDINATION AMONG HUBS.—The Sec-  
21 retary shall ensure eligible consortia that receive a  
22 grant or cooperative agreement under this section  
23 coordinate and share best practices for regional eco-  
24 nomic development.

1           “(3) COORDINATION WITH PROGRAMS OF THE  
2           NATIONAL INSTITUTE OF STANDARDS AND TECH-  
3           NOLOGY.—The Secretary shall coordinate the activi-  
4           ties of regional technology and innovation hubs des-  
5           ignated under this section, the Hollings Manufac-  
6           turing Extension Partnership, and the Manufac-  
7           turing USA Program, as the Secretary considers ap-  
8           propriate, to maintain the effectiveness of a manu-  
9           facturing extension center or a Manufacturing USA  
10          institute.

11          “(4) COORDINATION WITH DEPARTMENT OF  
12          ENERGY PROGRAMS.—The Secretary shall, in col-  
13          laboration with the Secretary of Energy, coordinate  
14          the activities and selection of regional technology  
15          and innovation hubs designated under this section,  
16          as the Secretaries consider appropriate, to maintain  
17          the effectiveness of activities at the Department of  
18          Energy and the National Laboratories.

19          “(5) INTERAGENCY COLLABORATION.—In des-  
20          ignating regional technology and innovation hubs  
21          under subsection (d) and awarding grants or cooper-  
22          ative agreements under subsection (f), the Sec-  
23          retary—

24                  “(A) shall collaborate with Federal depart-  
25                  ments and agencies whose missions contribute

1 to the goals of the regional technology and in-  
2 novation hub, and relevant interagency initia-  
3 tives such as the Interagency Working Group  
4 for Cooperative Development;

5 “(B) shall consult with the Director of the  
6 National Science Foundation for the purpose of  
7 ensuring that the regional technology and inno-  
8 vation hubs are aligned with relevant science,  
9 technology, and engineering expertise; and

10 “(C) may accept funds from other Federal  
11 agencies to support grants, cooperative agree-  
12 ments, and activities under this section.

13 “(j) PERFORMANCE MEASUREMENT, TRANS-  
14 PARENCY, AND ACCOUNTABILITY.—

15 “(1) METRICS, STANDARDS, AND ASSESS-  
16 MENT.—For each grant and cooperative agreement  
17 awarded under subsection (f) for a regional tech-  
18 nology and innovation hub, the Secretary shall—

19 “(A) in consultation with the regional tech-  
20 nology and innovation hub, develop metrics,  
21 which may include metrics relating to domestic  
22 job creation, patent awards, increases in re-  
23 search funding, business formation and expan-  
24 sion, and participation of individuals or commu-  
25 nities historically underrepresented in STEM,

1 to assess the effectiveness of the activities fund-  
2 ed in making progress toward the purposes set  
3 forth under subsection (b)(1);

4 “(B) establish standards for the perform-  
5 ance of the regional technology and innovation  
6 hub that are based on the metrics developed  
7 under subparagraph (A); and

8 “(C) prior to any award made under a  
9 subsequent performance period in subsection (f)  
10 and every 2 years thereafter until Federal fi-  
11 nancial assistance under this section for the re-  
12 gional technology and innovation hub is discon-  
13 tinued, conduct an assessment of the regional  
14 technology and innovation hub to confirm  
15 whether the performance of the regional tech-  
16 nology and innovation hub is meeting the stand-  
17 ards for performance established under sub-  
18 paragraph (B) of this paragraph.

19 “(2) FINAL REPORTS BY RECIPIENTS OF  
20 STRATEGY IMPLEMENTATION GRANTS AND COOPER-  
21 ATIVE AGREEMENTS.—

22 “(A) IN GENERAL.—The Secretary shall  
23 require each eligible consortium that receives a  
24 grant or cooperative agreement under sub-  
25 section (f) for activities of a regional technology

1 and innovation hub, as a condition of receipt of  
2 such grant or cooperative agreement, to submit  
3 to the Secretary, not later than 120 days after  
4 the last day of the term of the grant or cooper-  
5 ative agreement, a report on the activities of  
6 the regional technology and innovation hub sup-  
7 ported by the grant or cooperative agreement.

8 “(B) CONTENTS OF REPORT.—Each report  
9 submitted by an eligible consortium under sub-  
10 paragraph (A) shall include the following:

11 “(i) A detailed description of the ac-  
12 tivities carried out by the regional tech-  
13 nology and innovation hub using the grant  
14 or cooperative agreement described in sub-  
15 paragraph (A), including the following:

16 “(I) A description of each project  
17 the regional technology and innovation  
18 hub completed using such grant or co-  
19 operative agreement.

20 “(II) An explanation of how each  
21 project described in subclause (I)  
22 achieves a specific goal under this sec-  
23 tion in the region of the regional tech-  
24 nology and innovation hub with re-  
25 spect to—

1                   “(aa) the resiliency and sus-  
2                   tainability of a supply chain;

3                   “(bb) research, development,  
4                   and deployment of a critical tech-  
5                   nology;

6                   “(cc) workforce training and  
7                   development;

8                   “(dd) domestic job creation;

9                   “(ee) entrepreneurship and  
10                  company formation, including the  
11                  number of businesses created or  
12                  preserved through employee own-  
13                  ership and cooperative develop-  
14                  ment;

15                  “(ff) commercialization;

16                  “(gg) access to private cap-  
17                  ital; or

18                  “(hh) participation of indi-  
19                  viduals or communities histori-  
20                  cally underrepresented in STEM.

21                  “(ii) A discussion of any obstacles en-  
22                  countered by the regional technology and  
23                  innovation hub in the implementation of  
24                  the regional technology and innovation hub

1 and how the regional technology and inno-  
2 vation hub overcame those obstacles.

3 “(iii) An evaluation of the success of  
4 the projects of the regional technology and  
5 innovation hub using the performance  
6 standards and measures established under  
7 paragraph (1), including an evaluation of  
8 the planning process and how the project  
9 contributes to carrying out the regional in-  
10 novation strategy of the regional tech-  
11 nology and innovation hub.

12 “(iv) The effectiveness of the regional  
13 technology and innovation hub in ensuring  
14 that, in the region of the regional tech-  
15 nology and innovation hub, growth in tech-  
16 nology and innovation sectors produces  
17 broadly shared opportunity across the re-  
18 gion, including for economic disadvantaged  
19 and underrepresented populations and  
20 rural areas.

21 “(v) Information regarding such other  
22 matters as the Secretary may require.

23 “(3) INTERIM REPORTS BY RECIPIENTS OF  
24 GRANTS AND COOPERATIVE AGREEMENTS.—In addi-  
25 tion to requiring submittal of final reports under

1 paragraph (2)(A), the Secretary may require a re-  
2 gional technology and innovation hub described in  
3 such paragraph to submit to the Secretary such in-  
4 terim reports as the Secretary considers appropriate.

5 “(4) ANNUAL REPORTS TO CONGRESS.—Not  
6 less frequently than once each year, the Secretary  
7 shall submit to the appropriate committees of Con-  
8 gress an annual report on the results of the assess-  
9 ments conducted by the Secretary under paragraph  
10 (1)(C) during the period covered by the report.

11 “(k) AUTHORIZATION OF APPROPRIATIONS.—There  
12 is authorized to be appropriated to the Secretary—

13 “(1) \$50,000,000 to award grants and coopera-  
14 tive agreements under subsection (e) for the period  
15 of fiscal years 2022 through 2026;

16 “(2) \$2,000,000,000 to award grants and coop-  
17 erative agreements under subsection (f) for the pe-  
18 riod of fiscal years 2022 and 2023; and

19 “(3) \$4,800,000,000 to award grants and coop-  
20 erative agreements under subsection (f) for the pe-  
21 riod of fiscal years 2024 through 2026.

22 “(l) ADMINISTRATION.—The Secretary may use  
23 funds made available to carry out this section for adminis-  
24 trative costs under this section.”.

25 (b) INITIAL DESIGNATIONS AND AWARDS.—

1           (1) COMPETITION REQUIRED.—Not later than 1  
2           year after the date of the enactment of this section,  
3           subject to the availability of appropriations, the Sec-  
4           retary of Commerce shall commence a competition  
5           under subsection (d)(1) of section 28 of the Steven-  
6           son-Wydler Technology Innovation Act of 1980 (15  
7           U.S.C. 3723) as added by subsection (a).

8           (2) DESIGNATION AND AWARD.—Not later than  
9           1 year after the date of the enactment of this sec-  
10          tion, if the Secretary has received at least 1 applica-  
11          tion under subsection (g) of section 28 of the Ste-  
12          venson-Wydler Technology Innovation Act of 1980  
13          (15 U.S.C. 3723) from an eligible consortium whom  
14          the Secretary considers suitable for designation  
15          under subsection (d)(1) of such section, the Sec-  
16          retary shall—

17                 (A) designate at least 1 regional tech-  
18                 nology and innovation hub under subsection  
19                 (d)(1) of such section; and

20                 (B) award a grant or cooperative agree-  
21                 ment under subsection (f)(1) of such section to  
22                 each regional technology and innovation hub  
23                 designated pursuant to subparagraph (A) of  
24                 this paragraph.

1 **SEC. 10642. REGIONAL CLEAN ENERGY INNOVATION PRO-**  
2 **GRAM.**

3 Subtitle C of title IX of the Energy Independence and  
4 Security Act of 2007 is amended by adding at the end  
5 the following:

6 **“SEC. 936. REGIONAL CLEAN ENERGY INNOVATION PRO-**  
7 **GRAM.**

8 “(a) DEFINITIONS.—In this section:

9 “(1) REGIONAL CLEAN ENERGY INNOVATION  
10 PARTNERSHIP.—The term ‘regional clean energy in-  
11 novation partnership’ means a group of one or more  
12 persons, including a covered consortium, who per-  
13 form a collection of activities that are coordinated by  
14 such covered consortium to carry out the purposes  
15 of the program under subsection (c) in a region of  
16 the United States.

17 “(2) COVERED CONSORTIUM.—The term ‘cov-  
18 ered consortium’ means an individual or group of in-  
19 dividuals in partnership with a government entity,  
20 including a State, territorial, local, or tribal govern-  
21 ment or unit of such government, and at least 2 or  
22 more of the following additional entities—

23 “(A) an institution of higher education or  
24 a consortium of institutions of higher education;

25 “(B) a workforce training provider, includ-  
26 ing vocational schools and community colleges;

- 1           “(C) a private sector entity;
- 2           “(D) a nonprofit organization;
- 3           “(E) a community group;
- 4           “(F) a labor organization;
- 5           “(G) a National Laboratory;
- 6           “(H) a venture development organization;
- 7           “(I) a community development financial in-
- 8           stitution or minority depository institution;
- 9           “(J) a worker cooperative membership as-
- 10          sociation or state or local employee ownership
- 11          or cooperative development center;
- 12          “(K) an organization focused on clean en-
- 13          ergy technology innovation or entrepreneurship;
- 14          “(L) a business accelerator or incubator;
- 15          “(M) a private sector entity or group of
- 16          entities, including a trade or industry associa-
- 17          tion;
- 18          “(N) an economic development organiza-
- 19          tion;
- 20          “(O) a manufacturing facility or organiza-
- 21          tion;
- 22          “(P) a clean energy incubator or accel-
- 23          erator;
- 24          “(Q) a multi-institutional collaboration; or

1                   “(R) any other entity that the Secretary  
2                   determines to be relevant.

3                   “(3) PROGRAM.—The term ‘program’ means  
4                   the Regional Clean Energy Innovation Program au-  
5                   thorized in subsection (b).

6                   “(4) INSTITUTION OF HIGHER EDUCATION.—  
7                   The term ‘institution of higher education’ has the  
8                   meaning given such term in the Higher Education  
9                   Act of 1965, as amended (20 U.S.C. 1001).

10                  “(5) NATIONAL LABORATORY.—The term ‘Na-  
11                  tional Laboratory’ has the meaning given that term  
12                  in section 2 of the Energy Policy Act of 2005 (42  
13                  2 U.S.C. 15801).

14                  “(6) CLEAN ENERGY TECHNOLOGY.—The term  
15                  ‘clean energy technology’ means a technology that  
16                  significantly reduces energy use, increases energy ef-  
17                  ficiency, reduces greenhouse gas emissions, reduces  
18                  emissions of other pollutants, or mitigates other neg-  
19                  ative environmental consequences of energy produc-  
20                  tion, transmission or use.

21                  “(b) IN GENERAL.—The Secretary shall establish a  
22                  Regional Clean Energy Innovation Program, a research,  
23                  development, demonstration, and commercial application  
24                  program designed to enhance the economic, environ-  
25                  mental, and energy security of the United States and ac-

1 celerate the pace of innovation of diverse clean energy  
2 technologies through the formation or support of regional  
3 clean energy innovation partnerships that—

4 “(1) account for the diverse domestic energy re-  
5 sources available throughout the United States;

6 “(2) are responsive to the needs of industry,  
7 workforce, policy landscape, and clean energy inno-  
8 vation capabilities of the region in which such part-  
9 nership is located;

10 “(3) enhance and accelerate clean energy inno-  
11 vation;

12 “(4) are located in diverse geographic regions of  
13 the United States, including United States terri-  
14 tories; and

15 “(5) maximize the opportunities for cooperation  
16 between institutes of higher education, industry,  
17 State and local governments, and nonprofit research  
18 institutions with shared areas of energy expertise.

19 “(c) PURPOSES OF THE PROGRAM.—The purposes of  
20 the Program established under subsection (b) are to—

21 “(1) improve the competitiveness of United  
22 States’ clean energy technology research, develop-  
23 ment, demonstration, and commercial application;  
24 and

1           “(2) support the development of tools and tech-  
2           nologies best suited for use in diverse regions of the  
3           United States, including in rural, tribal, and low-in-  
4           come communities.

5           “(d) REGIONAL CLEAN ENERGY INNOVATION PART-  
6           NERSHIPS.—

7           “(1) IN GENERAL.—The Secretary shall com-  
8           petitively award grants to covered consortia to estab-  
9           lish or support regional clean energy innovation  
10          partnerships that achieve the purposes of the Pro-  
11          gram in subsection (c).

12          “(2) PERMISSIBLE ACTIVITIES.—Grants award-  
13          ed under this subsection shall be used for activities  
14          determined appropriate by the Secretary to achieve  
15          the purposes of the Program in subsection (c), in-  
16          cluding—

17                 “(A) facilitating the commercial applica-  
18                 tion of clean energy products, processes, and  
19                 services, including through research, develop-  
20                 ment, demonstration, or technology transfer;

21                 “(B) planning among participants of a re-  
22                 gional clean energy innovation partnership to  
23                 improve the strategic and cost-effective coordi-  
24                 nation of the partnership;

1           “(C) improving stakeholder involvement in  
2           the development of goals and activities of a re-  
3           gional clean energy innovation partnership;

4           “(D) assessing different incentive mecha-  
5           nisms for clean energy development and com-  
6           mercial application in the region;

7           “(E) hosting events and conferences; and

8           “(F) establishing and updating roadmaps  
9           to measure progress on relevant goals, such as  
10          those relevant to metrics developed under sub-  
11          section (g).

12          “(3) APPLICATIONS.—Each application sub-  
13          mitted to the Secretary under paragraph (1) may in-  
14          clude—

15                 “(A) a list of members and roles of mem-  
16                 bers of the covered consortia, as well as any  
17                 other stakeholders supporting the activities of  
18                 the regional clean energy innovation partner-  
19                 ship;

20                 “(B) a description of the proposed out-  
21                 comes of the regional clean energy innovation  
22                 partnership;

23                 “(C) an assessment of the relevant clean  
24                 energy innovation assets needed in a region to  
25                 achieve proposed outcomes, such as education

1 and training programs, research facilities, infra-  
2 structure or site development, access to capital,  
3 manufacturing capabilities, or other assets;

4 “(D) a description of proposed activities  
5 that the regional clean energy innovation part-  
6 nership plans to undertake and how the pro-  
7 posed activities will achieve the purposes de-  
8 scribed in subsection (c) and the proposed out-  
9 comes in subparagraph (B);

10 “(E) a description of the geographical re-  
11 gion that will engage in the regional clean en-  
12 ergy innovation partnership;

13 “(F) a plan for attracting additional funds  
14 and identification of funding sources from non-  
15 Federal sources to deliver the proposed out-  
16 comes of the regional clean energy innovation  
17 partnership;

18 “(G) a plan for partnering and collabo-  
19 rating with community development financial  
20 institutions and minority depository institu-  
21 tions, labor organizations and community  
22 groups, worker cooperative membership associa-  
23 tions, local and state employee ownership and  
24 cooperative development centers, and other local  
25 institutions in order to promote employee, com-

1 community, and public ownership in the clean en-  
2 ergy sector, and advance models of local eco-  
3 nomic development that build and retain wealth  
4 in the region;

5 “(H) a plan for sustaining activities of the  
6 regional clean energy innovation partnership  
7 after funds received under this program have  
8 been expended; and

9 “(I) a proposed budget, including financial  
10 contributions from non-Federal sources.

11 “(4) CONSIDERATIONS.—In selecting covered  
12 consortia for funding under the Program, the Sec-  
13 retary shall, to the maximum extent practicable—

14 “(A) give special consideration to applica-  
15 tions from rural, tribal, and low-income commu-  
16 nities; and

17 “(B) ensure that there is geographic diver-  
18 sity among the covered consortia selected to re-  
19 ceive funding.

20 “(5) AWARD AMOUNT.—Grants given out under  
21 this Program shall be in an amount not greater than  
22 \$10,000,000, with the total grant award in any year  
23 less than that in the previous year.

24 “(6) COST SHARE.—For grants that are dis-  
25 bursed over the course of three or more years, the

1 Secretary shall require, as a condition of receipt of  
2 funds under this section, that a covered consortium  
3 provide not less than 50 percent of the funding for  
4 the activities of the regional clean energy partner-  
5 ship under this section for years 3, 4, and 5.

6 “(7) DURATION.—Each grant under paragraph  
7 shall be for a period of not longer than 5 years.

8 “(8) RENEWAL.—A grant awarded under this  
9 section may be renewed for a period of not more  
10 than 5 years, subject to a rigorous merit review  
11 based on the progress of a regional clean energy in-  
12 novation partnership towards achieving the purposes  
13 of the program in subsection (c) and the metrics de-  
14 veloped under subsection (g).

15 “(9) TERMINATION.—Consistent with the exist-  
16 ing authorities of the Department, the Secretary  
17 may terminate grant funding under this subsection  
18 to covered consortia during the performance period  
19 if the Secretary determines that the regional clean  
20 energy innovation partnership is underperforming.

21 “(10) ADMINISTRATIVE COSTS.—The Secretary  
22 may allow a covered consortium that receives funds  
23 under this section to allocate a portion of the fund-  
24 ing received to be used for administrative or indirect  
25 costs.

1           “(11) FUNDING.—The Secretary may accept  
2 funds from other Federal agencies to support fund-  
3 ing and activities under this section.

4           “(e) PLANNING FUNDS.—The Secretary may com-  
5 petitively award grants in an amount no greater than  
6 \$2,000,000 for a period not longer than 2 years to an enti-  
7 ty consisting of a government entity, including a State,  
8 territorial, local, or tribal government or unit of such gov-  
9 ernment or any entity listed under subsection (a)(2) to  
10 plan a regional clean energy innovation partnership or es-  
11 tablish a covered consortium for the purpose of applying  
12 for funds under subsection (b).

13           “(f) INFORMATION SHARING.—As part of the pro-  
14 gram, the Secretary shall support the gathering, analysis,  
15 and dissemination of information on best practices for de-  
16 veloping and operating successful regional clean energy in-  
17 novation partnerships.

18           “(g) METRICS.—In evaluating a grant renewals  
19 under subsection (d)(8), the Secretary shall work with pro-  
20 gram evaluation experts to develop and make publicly  
21 available metrics to assess the progress of a regional clean  
22 energy innovation partnership towards achieving the pur-  
23 poses of the program in subsection (c). Such metrics may  
24 include—

25           “(1) the number and quality of—

1           “(A) new clean energy companies created  
2           in the region as a result of activities carried out  
3           under the regional clean energy innovation part-  
4           nership, including those created or preserved  
5           through employee ownership and cooperative  
6           development;

7           “(B) new or expanded workforce develop-  
8           ment or training programs; and

9           “(C) support services provided to clean en-  
10          ergy technology developers in the region;

11          “(2) changes in clean energy employment in the  
12          region as a result of activities carried out under the  
13          regional clean energy innovation partnership; and

14          “(3) the amount of capital investment in clean  
15          energy companies in the region as a result of activi-  
16          ties carried out under the regional clean energy in-  
17          novation partnership grant.

18          “(h) COORDINATION.—In carrying out the program,  
19          the Secretary shall coordinate with, and avoid unnecessary  
20          duplication of, the activities carried out under this section  
21          with the activities of—

22                 “(1) other research entities of the Department,  
23                 including the National Laboratories, the Office of  
24                 Science, the Advanced Research Projects Agency-  
25                 Energy, the Office of Technology Transitions, En-

1 energy Innovation Hubs, and Energy Frontier Re-  
2 search Centers; and

3 “(2) relevant programs at other Federal agen-  
4 cies, including—

5 “(A) the Office of Innovation and Entre-  
6 preneurship under the Economic Development  
7 Administration, including the Regional Innova-  
8 tion Program under section 27 of the Steven-  
9 son-Wydler Technology Innovation Act of 1980  
10 (15 U.S.C. 3722);

11 “(B) the Hollings Manufacturing Exten-  
12 sion Partnership Program under section 25 of  
13 the National Institute of Standards and Tech-  
14 nology Act (15 U.S.C. 278k);

15 “(C) the Manufacturing USA Program  
16 under section 34 of the National Institute of  
17 Standards and Technology Act (15 U.S.C.  
18 278s);

19 “(D) the Defense Manufacturing Commu-  
20 nities Support Program under section 846 of  
21 the John S. McCain National Defense Author-  
22 ization Act for Fiscal Year 2019 (10 U.S.C.  
23 2501 note);

24 “(E) the Office of Economic Adjustment  
25 at the Department of Defense; and

1                   “(F) Rural Development at the United  
2                   States Department of Agriculture.

3           “(i) CONFLICTS OF INTEREST.—In carrying out the  
4 program, the Secretary shall maintain conflict of interest  
5 procedures, consistent with the conflict of interest proce-  
6 dures of the Department.

7           “(j) EVALUATION BY COMPTROLLER GENERAL.—  
8 Not later than 3 years after the date of the enactment  
9 of the America COMPETES Act of 2022, and again 3  
10 years later, the Comptroller General shall submit to the  
11 Committee on Science, Space, and Technology of the  
12 House of Representatives and the Committee on Energy  
13 and Natural Resources of the Senate an evaluation on the  
14 operation of the program during the most recent 3-year  
15 period, including—

16                   “(1) an assessment of the progress made to-  
17 wards achieving the purposes specified in subsection  
18 (c) based on the metrics developed under subsection  
19 (g);

20                   “(2) the short-term and long-term metrics used  
21 to determine the success of the program under sub-  
22 section (g), and any changes recommended to the  
23 metrics used;

24                   “(3) the regional clean energy innovation part-  
25 nerships established or supported by covered con-

1       sortia that have received grants under subsection  
2       (d); and

3               “(4) any recommendations on how the program  
4       may be improved.

5       “(k) NATIONAL LABORATORIES.—In supporting  
6       technology transfer activities at the National Laboratories,  
7       the Secretary shall encourage partnerships with entities  
8       that are located in the same region or State as the Na-  
9       tional Laboratory.

10       “(l) SECURITY.—In carrying out the activities under  
11       this section, the Secretary shall ensure proper security  
12       controls are in place to protect sensitive information, as  
13       appropriate.

14       “(m) NO FUNDS FOR CONSTRUCTION.—No funds  
15       provided to the Department of Energy under this section  
16       shall be used for construction.

17       “(n) AUTHORIZATION OF APPROPRIATIONS.—There  
18       are authorized to be appropriated to the Secretary to carry  
19       out this section \$50,000,000 for each of fiscal years 2022  
20       through 2026.”.

21       **SEC. 10643. CRITICAL TECHNOLOGY AND INNOVATION ANA-**  
22                               **LYTICS PROGRAM.**

23       (a) IN GENERAL.—The Secretary of Commerce shall  
24       carry out a program of data collection and analysis of  
25       technology and innovation sectors critical to realizing na-

1 tional objectives, including national security, economic  
2 prosperity, and social welfare.

3 (b) PURPOSE.—The purpose of the program shall  
4 be—

5 (1) to serve as a central Federal clearinghouse  
6 for the collection, interpretation, analysis, and dis-  
7 semination of objective data on the nation’s tech-  
8 nology, innovation, and advanced manufacturing ca-  
9 pacity;

10 (2) to improve assessment of the nation’s re-  
11 search, technology, and manufacturing assistance  
12 programs, including the regional innovation pro-  
13 grams established in section 27 and 28 of the Ste-  
14 venson-Wydler Technology Innovation Act of 1980  
15 (Public Law 96–480; 15 U.S.C. 3701 et seq.);

16 (3) to assess U.S. competitiveness in technology  
17 and innovation sectors; and

18 (4) to support national policy and decision mak-  
19 ing in both the public and private sectors to ensure  
20 United States leadership in technology and innova-  
21 tion sectors critical to national security, economic  
22 prosperity and social welfare.

23 (c) ACTIVITIES.—In carrying out this section, the  
24 Secretary shall—

1           (1) collect, acquire, analyze, report, and dis-  
2           seminate data related to critical technology, innova-  
3           tion, and production capacity in the United States  
4           and other nations that is relevant and useful to  
5           practitioners, researchers, policymakers, and the  
6           public, including data on—

7                   (A) regional technology and innovation ca-  
8                   pacity, including research and development ac-  
9                   tivity, entrepreneurship, intellectual property  
10                  generation, company formation, advanced tech-  
11                  nology capital equipment investment, and tech-  
12                  nology transfer;

13                  (B) supply chains, including domestic and  
14                  international production capacity, inter-firm  
15                  transactions, and resiliency for select end-prod-  
16                  ucts and their intermediate inputs;

17                  (C) the skilled technical and production  
18                  workforce required in different critical tech-  
19                  nology and innovation sectors;

20                  (D) the participation of individuals and  
21                  communities historically underrepresented in  
22                  STEM; and

23                  (E) any other area the Secretary deter-  
24                  mines appropriate;

1           (2) request from any person or entity informa-  
2           tion, data, and reports as may be required to carry  
3           out the purposes of this subtitle;

4           (3) support research using the data it collects,  
5           and on methodologies in areas related to the activi-  
6           ties carried out under the program; and

7           (4) conduct other activities deemed by the Sec-  
8           retary to be critical for the development of analytic  
9           capabilities, statistics, datasets, and metrics related  
10          to critical technologies and innovation.

11          (d) OTHER TRANSACTIONS AUTHORITIES.—In car-  
12          rying out this section, the Secretary may enter into and  
13          perform such contracts, including cooperative research  
14          and development arrangements and grants and coopera-  
15          tive agreements or other transactions, as may be necessary  
16          in the conduct of the work of the program and on such  
17          terms as the Secretary considers appropriate.

18          (e) COORDINATION.—The Secretary shall collaborate  
19          with Federal statistical agencies, as appropriate, to carry  
20          out the purposes of this section, including by entering into  
21          cooperative data sharing agreements that comply with all  
22          laws and regulations applicable to the disclosure and use  
23          of data.

24          (f) CONSULTATION.—In conducting the activities re-  
25          quired under subsection (c), the Secretary shall solicit

1 input from relevant stakeholders on critical technology  
2 and sector needs, practices, and goals related to creating  
3 statistics, metrics, data sets, and modeling.

4 (g) ADMINISTRATION.—The Secretary may carry out  
5 this program through existing programs and bureaus of  
6 the Department of Commerce, as appropriate.

7 (h) ACCESS TO FEDERAL DATA.—In carrying out  
8 subsection (c), the Secretary shall be given access to all  
9 information, data, or reports that the Secretary deter-  
10 mines necessary to carry out this section by any Federal  
11 agency upon written request and subject to any statutory  
12 or regulatory restrictions. Where practicable, the Sec-  
13 retary should incorporate data collection into existing sur-  
14 vey instruments.

15 (i) AUTHORIZATION OF APPROPRIATIONS.—There is  
16 authorized to be appropriated to the Secretary  
17 \$100,000,000 to conduct activities under this section for  
18 the period of fiscal years 2022 through 2026.

19 **SEC. 10644. SUPPORT FOR COMMERCIAL DEPLOYMENT.**

20 Section 454 of the Energy Independence and Security  
21 Act of 2007 (42 U.S.C. 17113) is amended—

22 (1) in subsection (b)(1), by inserting “commer-  
23 cial deployment,” after “demonstration,”;

24 (2) in subsection (d)—

1 (A) in the heading, by inserting “and com-  
2 mercial deployment” after “demonstration”;  
3 and

4 (B) in paragraph (3)—

5 (i) in the heading, by inserting “and  
6 commercial deployment” after “demonstra-  
7 tion”; and

8 (ii) by inserting “and commercial de-  
9 ployment” after “demonstration”; and

10 (3) in subsection (e)—

11 (A) by striking “There are authorized”  
12 and inserting “(1) DEMONSTRATION AND COM-  
13 Mercial DEPLOYMENT PROJECTS.—There are  
14 authorized”;

15 (B) by redesignating paragraphs (1)  
16 through (5) as subparagraphs (A) through (E),  
17 respectively; and

18 (C) by adding at the end the following:

19 “(2) GRANTS.—There are authorized to be ap-  
20 propriated to the Secretary to carry out activities  
21 under subsection (d)(1) \$1,000,000,000 for each of  
22 fiscal years 2022 through 2026 to fund the commer-  
23 cial deployment of technologies to achieve emissions  
24 reduction at high emitting non-power industrial fa-  
25 cilities.”.

1 **Subtitle E—Malign Foreign Talent**  
2 **Recruitment Program Prohibition**

3 **SEC. 10651. MALIGN FOREIGN TALENT RECRUITMENT PRO-**  
4 **GRAM PROHIBITION.**

5 (a) IN GENERAL.—Not later than 18 months after  
6 the date of enactment of this Act, each Federal research  
7 agency shall establish a policy that, as part of a proposal  
8 for a research and development award from the agency—

9 (1) each covered individual listed in the pro-  
10 posal for a research and development award certify  
11 that they are not a party to a malign foreign talent  
12 recruitment program from a foreign country of con-  
13 cern in their proposal submission and annually  
14 thereafter for the duration of the award; and

15 (2) each institution of higher education or other  
16 organization applying for such an award certify that  
17 each covered individual who is employed by the insti-  
18 tution of higher education or other organization has  
19 been made aware of the requirement under this sec-  
20 tion.

21 (b) STAKEHOLDER INPUT.—In establishing a policy  
22 under subsection (a), agencies shall go through a notice  
23 and comment process.

24 (c) COMPLIANCE WITH EXISTING LAW.—Each Fed-  
25 eral research agency and grantee shall comply with title

1 VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et  
2 seq.) in the development and implementation of policies  
3 developed under subsection (a).

4 (d) INTERNATIONAL COLLABORATION.—Each policy  
5 developed under subsection (a) shall not prohibit—

6 (1) making scholarly presentations and pub-  
7 lishing written materials regarding scientific infor-  
8 mation not otherwise controlled under current law;

9 (2) participation in international conferences or  
10 other international exchanges, research projects or  
11 programs that involve open and reciprocal exchange  
12 of scientific information, and which are aimed at ad-  
13 vancing international scientific understanding;

14 (3) advising a foreign student enrolled at the  
15 covered individual's institution of higher education  
16 or writing a recommendation for such a student, at  
17 the student's request; and

18 (4) other international activities deemed appro-  
19 priate by the Federal research agency head or their  
20 designee.

21 (e) LIMITATION.—The certifications required under  
22 subsection (a) shall not apply retroactively to research and  
23 development awards made or applied for prior to the es-  
24 tablishment of the policy by the Federal research agency.

25 (f) DEFINITIONS.—In this section:

1           (1) The term “covered individual” means an in-  
2           dividual who—

3                   (A) contributes in a substantive, meaning-  
4                   ful way to the scientific development or execu-  
5                   tion of a research and development project pro-  
6                   posed to be carried out with a research and de-  
7                   velopment award from a Federal research agen-  
8                   cy; and

9                   (B) is designated as a covered individual  
10                  by the Federal research agency concerned.

11           (2) The term “Federal research agency” means  
12           any Federal agency with an annual extramural re-  
13           search expenditure of over \$100,000,000.

14           (3) The term “foreign country of concern”  
15           means the People’s Republic of China, the Demo-  
16           cratic People’s Republic of Korea, the Russian Fed-  
17           eration, the Islamic Republic of Iran, or any other  
18           country deemed to be a country of concern as deter-  
19           mined by the Department of State.

20           (4) The term “malign foreign talent program”  
21           means any program, position, or activity that in-  
22           cludes compensation in the form of cash, research  
23           funding, promised future compensation, or things of  
24           non de minimis value, directly provided by a foreign  
25           country of concern at any level (national, provincial

1 or local) or an entity based in a foreign country of  
2 concern, whether or not directly sponsored by the  
3 foreign country of concern, to the targeted individual  
4 in exchange for the individual—

5 (A) engaging in the unauthorized transfer  
6 of intellectual property, materials, or data prod-  
7 ucts owned by a U.S. entity or developed with  
8 a federal research and development award to  
9 the government of a foreign country of concern  
10 or an entity based in a foreign country of con-  
11 cern regardless of whether that government or  
12 entity provided support for the development of  
13 the intellectual property, materials, or data  
14 products;

15 (B) being required to recruit trainees or  
16 researchers to enroll in malign foreign talent  
17 programs sponsored by a foreign country of  
18 concern or an entity based in a foreign country  
19 of concern; or

20 (C) establishing a laboratory and/or com-  
21 pany, accepting a faculty position, or under-  
22 taking any other employment or appointment in  
23 a foreign country of concern or an entity based  
24 in a foreign country of concern if such activities  
25 are contrary to the standard terms and condi-

1           tions of a federal research and development  
2           award.

3           (5) The term “research and development  
4           award” means support provided to an individual or  
5           entity by a Federal research agency to carry out re-  
6           search and development activities, which may include  
7           support in the form of a grant, contract, cooperative  
8           agreement, or other such transaction. The term does  
9           not include a grant, contract, agreement or other  
10          transaction for the procurement of goods or services  
11          to meet the administrative needs of a Federal re-  
12          search agency.

13                   **Subtitle F—Microelectronics**  
14           **Research for Energy Innovation**

15   **SEC. 10661. DEFINITIONS.**

16           In this subtitle:

17                   (1) DEPARTMENT.—The term “Department”  
18                   means the Department of Energy.

19                   (2) HISTORICALLY BLACK COLLEGE AND UNI-  
20                   VERSITY.—The term “historically Black college and  
21                   university” has the meaning given the term “part B  
22                   institution” in section 322 of the Higher Education  
23                   Act of 1965 (20 U.S.C. 1061).

24                   (3) INSTITUTION OF HIGHER EDUCATION.—The  
25                   term “institution of higher education” has the

1 meaning given the term in section 101(a) of the  
2 Higher Education Act of 1965 (20 U.S.C. 1001(a)).

3 (4) MICROELECTRONICS.—The term “micro-  
4 electronics” refers to semiconductors and related  
5 materials, processing chemistries, design, fabrica-  
6 tion, lithography, packaging, sensors, devices, inte-  
7 grated circuits, processors, computing architectures,  
8 modeling and simulation, software tools, and related  
9 technologies.

10 (5) MINORITY SERVING INSTITUTION.—The  
11 term “minority serving institution” includes the en-  
12 tities described in any of the paragraphs (1) through  
13 (7) of section 371(a) of the Higher Education Act  
14 of 1965 (20 U.S.C. 1067q(a)).

15 (6) NATIONAL LABORATORY.—The term “Na-  
16 tional Laboratory” has the meaning given the term  
17 in section 2 of the Energy Policy Act of 2005 (42  
18 U.S.C. 15801).

19 (7) SECRETARY.—The term “Secretary” means  
20 the Secretary of Energy.

21 (8) SKILLED TECHNICAL WORKFORCE.—The  
22 term “skilled technical workforce” has the meaning  
23 given such term in section 4(b) of the Innovations  
24 in Mentoring, Training, and Apprenticeships Act (42  
25 U.S.C. 1862p).

1           (9) STEM.—The term “STEM” means the  
2 field or disciplines listed in section 2 of the STEM  
3 Education Act of 2015 (42 U.S.C. 6621 note).

4           (10) TRIBAL COLLEGE AND UNIVERSITY.—The  
5 term “Tribal College and University” has the mean-  
6 ing given in section 316 of the Higher Education  
7 Act of 1965 (20 U.S.C. 1059c).

8 **SEC. 10662. FINDINGS.**

9 Congress finds that—

10           (1) the coming end of Moore’s Law presents  
11 major technological challenges and opportunities for  
12 the United States and important implications for na-  
13 tional security, economic competitiveness, and sci-  
14 entific discovery;

15           (2) future progress and innovation in microelec-  
16 tronics, and maintaining a robust domestic micro-  
17 electronics supply chain, will require an approach  
18 that advances relevant materials science, electronic  
19 and photonic device technologies, processing and  
20 packaging technologies, manufacturing technologies,  
21 circuit, chip, and system architecture, and software  
22 system and algorithm development in a co-design  
23 fashion;

24           (3) the National Laboratories possess unique  
25 technical expertise and user facilities that are essen-

1        tial to overcoming foundational research challenges  
2        relevant to the topics described in paragraph (2),  
3        and translating and transferring research outcomes  
4        to industry; and

5            (4) the assets described in paragraph (3) will  
6        enable the Department to drive advances in micro-  
7        electronics that are essential to meeting future needs  
8        in areas critical to its missions as well as the future  
9        competitiveness of the domestic microelectronics in-  
10        dustry, including high-performance computing,  
11        emerging data-centric computing approaches, and  
12        energy-efficient computing; optical sensors, sources,  
13        and wireless networks; and power electronics and  
14        electricity delivery systems.

15 **SEC. 10663. MICROELECTRONICS RESEARCH PROGRAM.**

16        (a) IN GENERAL.—The Secretary shall carry out a  
17        cross-cutting program of research, development, and dem-  
18        onstration of microelectronics relevant to the missions of  
19        the Department and in the service of the Nation’s global  
20        competitiveness in the field of microelectronics. In car-  
21        rying out this program, the Secretary shall coordinate  
22        across all relevant programs and offices of the Depart-  
23        ment.

24        (b) RESEARCH AREAS.—In carrying out the program  
25        under subsection (a), the Secretary shall award financial

1 assistance to eligible entities under subsection (c) to carry  
2 out research projects in—

3 (1) foundational science areas, including—

4 (A) materials sciences, chemical sciences,  
5 and plasma science synthesis, and fabrication;

6 (B) novel microelectronics devices, includ-  
7 ing emerging memory and storage technologies;

8 (C) diverse computing architectures and  
9 paradigms, including analog computing and  
10 edge computing;

11 (D) data-driven modeling and simulation;

12 (E) integrated sensing, power harvesting,  
13 and communications;

14 (F) component integration and subsystems;

15 (G) photonic integration; and

16 (H) development of co-design frameworks  
17 for all stages of microelectronics design, devel-  
18 opment, fabrication, and application;

19 (2) cybersecurity by design to result in trusted  
20 and resilient microelectronics;

21 (3) methods for leveraging advanced simulation  
22 and artificial intelligence to enhance co-design and  
23 discovery in microelectronics;

24 (4) in consultation with the Director of the Na-  
25 tional Institute of Standards and Technology, fab-

1       rication and processing science and metrology associ-  
2       ated with microelectronics manufacturing, including  
3       lithography, patterning, surface deposition, etching,  
4       and cleaning;

5           (5) approaches for optimizing system-level en-  
6       ergy efficiency of advanced computing systems, the  
7       electrical grid, power electronics, and other energy  
8       infrastructure;

9           (6) approaches for enhancing the durability and  
10      lifetime of radiation-hardened electronics;

11          (7) enhancement of microelectronics security,  
12      including the development of integrated devices,  
13      packages, and thermal management for severe envi-  
14      ronments and national security;

15          (8) in coordination with other relevant initia-  
16      tives at the Department, methods to improve the  
17      lifetime, maintenance, decommissioning, recycling,  
18      reuse, and sustainability of microelectronics compo-  
19      nents and systems, including technologies and strat-  
20      egies that reduce the use of energy, water, critical  
21      materials, and other commodities that are deter-  
22      mined to be vulnerable to disruption; and

23          (9) methods and techniques for domestic proc-  
24      essing of materials for microelectronics and their  
25      components.

1 (c) ELIGIBLE ENTITIES.—The entities eligible to re-  
2 ceive financial assistance under this section include—

3 (1) an institution of higher education, including  
4 historically Black colleges and universities, Tribal  
5 colleges and universities, and minority serving insti-  
6 tutions;

7 (2) a nonprofit research organization;

8 (3) a State research agency;

9 (4) a National Laboratory;

10 (5) a private commercial entity;

11 (6) a partnership or consortium of 2 or more  
12 entities described in paragraphs (1) through (5); and

13 (7) any other entities the Secretary deems ap-  
14 propriate.

15 (d) TECHNOLOGY TRANSFER.—In carrying out the  
16 program described in subsection (a), the Secretary, in co-  
17 ordination with the Director of the Office of Technology  
18 Transitions, and in consultation with the private sector,  
19 shall support translational research and transfer of micro-  
20 electronics technologies and identify emerging research  
21 and development needs of industry and government for the  
22 benefit of United States economic competitiveness.

23 (e) WORKFORCE DEVELOPMENT.—In carrying out  
24 the program under subsection (a), the Secretary shall sup-  
25 port—

1           (1) workforce development through the existing  
2           authorities and mechanisms available to the Depart-  
3           ment, including internships, fellowships, individual  
4           investigator grants, and other activities the Sec-  
5           retary deems appropriate; and

6           (2) education and outreach activities to dissemi-  
7           nate information and promote understanding of  
8           microelectronics and related fields among students  
9           at K–12, undergraduate, and graduate levels. Such  
10          activities may include educational programming with  
11          an emphasis on experiential and project-based learn-  
12          ing. The Secretary shall consult with the Director of  
13          the National Science Foundation on activities car-  
14          ried out this paragraph.

15          (f) OUTREACH.—In carrying out activities under sub-  
16          section (e), the Secretary shall ensure program outreach  
17          to recruit applicants and engage participants from all re-  
18          gions of the country, especially underserved communities  
19          and groups historically underrepresented in STEM.

20          (g) REPORT.—Not less than 180 days after the en-  
21          actment of this Act, the Secretary shall submit to the  
22          Committee on Science, Space, and Technology of the  
23          House of Representatives, and the Committee on Energy  
24          and Natural Resources of the Senate, a report describing

1 the goals, priorities, and anticipated outcomes of the pro-  
2 gram described in subsection (a).

3 (h) FUNDING.—There are authorized to be appro-  
4 priated to the Secretary to carry out the activities de-  
5 scribed in this section—

6 (1) \$75,000,000 for fiscal year 2022;

7 (2) \$100,000,000 for fiscal year 2023;

8 (3) \$100,000,000 for fiscal year 2024;

9 (4) \$100,000,000 for fiscal year 2025; and

10 (5) \$100,000,000 for fiscal year 2026.

11 **SEC. 10664. MICROELECTRONICS SCIENCE RESEARCH CEN-**  
12 **TERS.**

13 (a) IN GENERAL.—In carrying out the program  
14 under section 10663, the Secretary, acting through the  
15 Director of the Office of Science, shall establish up to four  
16 Microelectronics Science Research Centers (referred to in  
17 this section as “Centers”) to conduct mission-driven re-  
18 search to address foundational challenges in the design,  
19 development, characterization, prototyping, demonstra-  
20 tion, and fabrication of microelectronics and to facilitate  
21 the translation of research results to industry.

22 (b) ACTIVITIES.—The activities of the Centers au-  
23 thorized under this section shall include research, develop-  
24 ment, and demonstration activities for—

1           (1) accelerating the development of new micro-  
2 electronics science and technology, including mate-  
3 rials, devices, circuits, systems, architectures, fab-  
4 rication tools, processes, diagnostics, modeling, syn-  
5 thesis, and, in consultation with the National Insti-  
6 tute of Standards and Technology, metrology;

7           (2) advancing the sustainability and energy effi-  
8 ciency of new microelectronics devices, packages, and  
9 systems;

10          (3) application-driven co-design and prototyping  
11 of novel devices to facilitate laboratory-to-fabrication  
12 transition;

13          (4) advancing knowledge and experimental ca-  
14 pabilities in surface and materials science, plasma  
15 science, and computational and theoretical methods,  
16 including artificial intelligence, multi-scale co-design,  
17 and advanced supercomputing capabilities to invent  
18 and manufacture revolutionary microelectronic de-  
19 vices;

20          (5) creating technology testbeds for prototyping  
21 platforms for validation and verification of new ca-  
22 pabilities and sharing of ideas, intellectual property,  
23 and the unique facilities of the Department;

24          (6) supporting development of cybersecurity ca-  
25 pabilities for computing architectures that measur-

1 ably improve safety and security, and that are  
2 adaptable for existing and future applications; and

3 (7) supporting long-term and short-term work-  
4 force development in microelectronics.

5 (c) REQUIREMENTS.—

6 (1) SELECTION AND DURATION.—The Director  
7 of the Office of Science shall select Centers on a  
8 competitive, merit-reviewed basis for a period of not  
9 more than 5 years, subject to the availability of ap-  
10 propriations, beginning on the date of establishment  
11 of that Center.

12 (2) APPLICATIONS.—An eligible applicant under  
13 this subsection shall submit to the Director of the  
14 Office of Science an application at such time, in  
15 such manner, and containing such information as  
16 the Director deems appropriate.

17 (3) ELIGIBLE APPLICANTS.—The Director of  
18 the Office of Science shall consider applications  
19 from—

20 (A) National Laboratories;

21 (B) institutions of higher education, in-  
22 cluding historically Black colleges and univer-  
23 sities, Tribal colleges and universities, and mi-  
24 nority serving institutions;

25 (C) private industry;

1 (D) research centers;

2 (E) consortia of 2 or more of the entities  
3 described in subparagraphs (A) through (D);  
4 and

5 (F) any other entity that the Secretary  
6 deems appropriate.

7 (4) RENEWAL.—After the end of either period  
8 described in paragraph (1), the Director of the Of-  
9 fice of Science may renew support for the Center for  
10 a period of not more than 5 years on a merit-re-  
11 viewed basis. For a Center in operation for 10 years  
12 after its previous selection on a competitive, merit-  
13 reviewed basis, the Director may renew support for  
14 the center on a competitive, merit-reviewed basis for  
15 a period of not more than 5 years, and may subse-  
16 quently provide an additional renewal on a merit-re-  
17 viewed basis for a period of not more than 5 years.

18 (5) TERMINATION.—Consistent with the exist-  
19 ing authorities of the Department, the Director of  
20 the Office of Science may terminate an underper-  
21 forming center for cause during the performance pe-  
22 riod.

23 (d) TECHNOLOGY TRANSFER.—The Director of the  
24 Office of Science, in coordination with the Director of the  
25 Office of Technology Transitions, shall implement part-

1 nerships with industry groups for the purpose of facili-  
2 tating the translation and transfer of research results pro-  
3 duced by the Centers.

4 (e) COORDINATION.—The Secretary shall—

5 (1) establish a coordinating network to coordi-  
6 nate cross-cutting research and foster communica-  
7 tion and collaboration among the Centers; and

8 (2) ensure the coordination, and avoid unneces-  
9 sary duplication, of the activities of each Center with  
10 the activities of—

11 (A) other research entities of the Depart-  
12 ment, including—

13 (i) the Nanoscale Science Research  
14 Centers;

15 (ii) the National Quantum Informa-  
16 tion Science Research Centers;

17 (iii) the Energy Frontier Research  
18 Centers;

19 (iv) the Energy Innovation Hubs;

20 (v) the National Laboratories; and

21 (vi) other offices of the Department;

22 (B) the National Semiconductor Tech-  
23 nology Center authorized in title XCIX of divi-  
24 sion H of the William M. (Mac) Thornberry

1 National Defense Authorization Act for Fiscal  
2 Year 2021 (Public Law 116–283);

3 (C) institutions of higher education;

4 (D) industry; and

5 (E) research activities carried out by other  
6 Federal agencies.

7 (f) WORKFORCE DEVELOPMENT.—Centers estab-  
8 lished under this section shall support workforce develop-  
9 ment through—

10 (1) incorporation of undergraduate students,  
11 postdoctoral fellows, graduate students, and early  
12 career researchers, as well as K–12 students through  
13 opportunities such as dual-enrollment programs and  
14 work-based learning programs, as applicable;

15 (2) hand-on research and equipment training  
16 programs;

17 (3) technical training and certificate programs  
18 for the skilled technical workforce;

19 (4) facilitation of engagement between aca-  
20 demic, industry, and laboratory researchers; and

21 (5) public outreach activities, including to stu-  
22 dents at K–12, undergraduate, and graduate levels.  
23 Such activities may include educational program-  
24 ming with an emphasis on experiential and project-  
25 based learning.

1 (g) OUTREACH.—In carrying out activities under  
2 subsection (e), the Director shall ensure program outreach  
3 to recruit applicants and engage participants from all re-  
4 gions of the country, especially underserved communities  
5 and groups historically underrepresented in STEM.

6 (h) INTELLECTUAL PROPERTY.—The Secretary shall  
7 ensure that the intellectual property and value proposition  
8 created by the Centers are retained within the United  
9 States.

10 (i) FUNDING.—The Secretary shall allocate up to  
11 \$25,000,000 for each Center established under this sec-  
12 tion for each of fiscal years 2022 through 2026, subject  
13 to the availability of appropriations.

14 **SEC. 10665. MISCELLANEOUS OTHER REQUIREMENTS.**

15 All laborers and mechanics employed by contractors  
16 or subcontractors in the performance of construction, al-  
17 teration, or repair work assisted in whole or in part under  
18 the program under sections 10663 and 10664 shall be  
19 paid wages at rates not less than those prevailing on  
20 projects of a similar character in the locality as deter-  
21 mined by the Secretary of Labor in accordance with sub-  
22 chapter IV of chapter 31 of title 40, United States Code.  
23 With respect to the labor standards specified in this sec-  
24 tion, the Secretary of Labor shall have the authority and  
25 functions set forth in Reorganization Plan Numbered 14

1 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145  
2 of title 40, United States Code.

### 3 **Subtitle G—Reports**

#### 4 **SEC. 10671. REPORT ON METHANE REMOVAL TECHNOLOGY.**

5 (a) IN GENERAL.—Not later than 360 days after the  
6 date of the enactment of this Act, the Secretary shall sub-  
7 mit to the Committee on Science, Space, and Technology  
8 of the House of Representatives and the Committee on  
9 Energy and Natural Resources of the Senate a report on  
10 the potential for, and technical and economic viability of,  
11 direct methane removal to significantly mitigate climate  
12 change, with special consideration given to natural meth-  
13 ane sources, such as melting permafrost, and non-energy  
14 sector methane sources.

15 (b) CONTENTS.—The report under subsection (a)  
16 shall include a summary of research, development, and  
17 demonstration needs, including an estimate of Federal  
18 funding requirements, to further examine and validate the  
19 technical and economic viability, and potential ancillary  
20 impacts, of direct methane removal technologies and ap-  
21 proaches over the 10-year period beginning on the date  
22 of the enactment of this Act.

23 (c) COORDINATION.—In carrying out the report  
24 under subsection (a), the Secretary shall coordinate across

1 all relevant programs and offices of the Department and  
2 other relevant Federal agencies.

3 **Subtitle H—Better Energy Storage**  
4 **Technology**

5 **SEC. 10681. LONG-DURATION DEMONSTRATION INITIATIVE**  
6 **AND JOINT PROGRAM.**

7 (a) AUTHORIZATION OF APPROPRIATIONS.—Section  
8 3201(h)(3) of the Energy Act of 2020 (42 U.S.C.  
9 17232(h)(3)) is amended by striking “\$30,000,000 for  
10 each of fiscal years 2021 through 2025” and inserting  
11 “\$45,000,000 for each of fiscal years 2022 through  
12 2026”.

13 (b) TECHNICAL CORRECTION.—Effective as of the  
14 enactment of the Infrastructure Investment and Jobs Act,  
15 section 40334 of such Act is amended by striking “Energy  
16 Policy Act of 2020” and inserting “Energy Act of 2020”.

17 **Subtitle I—SBIR, STTR, and Pilot**  
18 **Extensions**

19 **SEC. 10691. SMALL BUSINESS INNOVATION PROGRAMS AND**  
20 **PILOT EXTENSIONS.**

21 Section 9 of the Small Business Act (15 U.S.C. 638)  
22 is amended by striking “2022” each place it appears and  
23 inserting “2027”.

1 **Subtitle J—Coastal and Ocean**  
2 **Acidification Stressors and**  
3 **Threats Research**

4 **SEC. 10701. SHORT TITLE.**

5 This subtitle may be cited as the “Coastal and Ocean  
6 Acidification Stressors and Threats Research Act of  
7 2021” or the “COAST Research Act of 2021”.

8 **SEC. 10702. PURPOSES.**

9 (a) IN GENERAL.—Section 12402(a) of the Federal  
10 Ocean Acidification Research and Monitoring Act of 2009  
11 (33 U.S.C. 3701(a)) is amended—

12 (1) in paragraph (1)—

13 (A) in the matter preceding subparagraph  
14 (A), by striking “development and coordina-  
15 tion” and inserting “coordination and imple-  
16 mentation”;

17 (B) in subparagraph (A), by striking  
18 “acidification on marine organisms” and insert-  
19 ing “acidification and coastal acidification on  
20 marine organisms”; and

21 (C) in subparagraph (B), by striking “es-  
22 tablish” and all that follows through the semi-  
23 colon and inserting “maintain and advise an  
24 interagency research, monitoring, and public

1 outreach program on ocean acidification and  
2 coastal acidification;”;

3 (2) in paragraph (2), by striking “establish-  
4 ment” and inserting “maintenance”;

5 (3) in paragraph (3), by inserting “and coastal  
6 acidification” after “ocean acidification”; and

7 (4) in paragraph (4), by inserting “and coastal  
8 acidification that take into account other environ-  
9 mental and anthropogenic stressors” after “ocean  
10 acidification”.

11 (b) TECHNICAL AND CONFORMING AMENDMENT.—  
12 Section 12402 of the Federal Ocean Acidification Re-  
13 search and Monitoring Act of 2009 (33 U.S.C. 3701(a))  
14 is amended by striking “(a) PURPOSES.—”.

15 **SEC. 10703. DEFINITIONS.**

16 Section 12403 of the Federal Ocean Acidification Re-  
17 search and Monitoring Act of 2009 (33 U.S.C. 3702) is  
18 amended—

19 (1) in paragraph (1), by striking “of the  
20 Earth’s oceans” and all that follows before the pe-  
21 riod at the end and inserting “and changes in the  
22 water chemistry of the Earth’s oceans, coastal estu-  
23 aries, and waterways caused by carbon dioxide from  
24 the atmosphere and the breakdown of organic mat-  
25 ter”;

1           (2) in paragraph (3), by striking “Joint Sub-  
2           committee on Ocean Science and Technology of the  
3           National Science and Technology Council” and in-  
4           serting “National Science and Technology Council  
5           Subcommittee on Ocean Science and Technology”;

6           (3) by redesignating paragraphs (1), (2), and  
7           (3) as paragraphs (2), (3), and (4), respectively;

8           (4) by inserting before paragraph (2), as so re-  
9           designated, the following new paragraph:

10           “(1) COASTAL ACIDIFICATION.—The term  
11           ‘coastal acidification’ means the combined decrease  
12           in pH and changes in the water chemistry of coastal  
13           oceans, estuaries, and other bodies of water from  
14           chemical inputs (including carbon dioxide from the  
15           atmosphere), freshwater inputs, and excess nutrient  
16           run-off from land and coastal atmospheric pollution  
17           that result in processes that release carbon dioxide,  
18           acidic nitrogen, and sulfur compounds as byproducts  
19           which end up in coastal waters.”; and

20           (5) by adding at the end the following new  
21           paragraph:

22           “(5) STATE.—The term ‘State’ means each  
23           State of the United States, the District of Columbia,  
24           the Commonwealth of Puerto Rico, American  
25           Samoa, Guam, the Commonwealth of the Northern

1 Mariana Islands, the Virgin Islands of the United  
2 States, and any other territory or possession of the  
3 United States.”.

4 **SEC. 10704. INTERAGENCY WORKING GROUP.**

5 Section 12404 of the Federal Ocean Acidification Re-  
6 search and Monitoring Act of 2009 (33 U.S.C. 3703) is  
7 amended—

8 (1) in the heading, by striking “**SUB-**  
9 **COMMITTEE**” and inserting “**WORKING GROUP**”;

10 (2) in subsection (a)—

11 (A) in paragraph (1), by striking “Joint  
12 Subcommittee on Ocean Science and Tech-  
13 nology of the National Science and Technology  
14 Council shall coordinate Federal activities on  
15 ocean acidification and establish” and insert  
16 “Subcommittee shall establish and maintain”;

17 (B) in paragraph (2), by striking “Wildlife  
18 Service,” and inserting “Wildlife Service, the  
19 Bureau of Ocean Energy Management, the En-  
20 vironmental Protection Agency, the Department  
21 of Agriculture, the Department of State, the  
22 Department of Energy, the Department of the  
23 Navy, the National Park Service, the Bureau of  
24 Indian Affairs, the National Institute of Stand-

1 ards and Technology, the Smithsonian Institu-  
2 tion,”; and

3 (C) in paragraph (3), in the heading, by  
4 striking “CHAIRMAN” and inserting “CHAIR”;  
5 (3) in subsection (b)—

6 (A) in paragraph (1), by inserting “, in-  
7 cluding the efforts of the National Oceanic and  
8 Atmospheric Administration to facilitate such  
9 implementation” after “of the plan”;

10 (B) in paragraph (2)—

11 (i) in subparagraph (A), by inserting  
12 “and coastal acidification” after “ocean  
13 acidification”; and

14 (ii) in subparagraph (B), by inserting  
15 “and coastal acidification” after “ocean  
16 acidification”;

17 (C) in paragraph (4), by striking “; and”  
18 and inserting a semicolon;

19 (D) in paragraph (5)—

20 (i) by striking “developed” and insert-  
21 ing “and coastal acidification developed”;  
22 and

23 (ii) by striking the period at the end  
24 and inserting “and coastal acidification;  
25 and”; and

1 (E) by adding at the end the following new  
2 paragraph:

3 “(6) ensure that each of the Federal agencies  
4 represented on the interagency working group—

5 “(A) participates in the Ocean Acidifica-  
6 tion Information Exchange established under  
7 paragraph (5); and

8 “(B) delivers data and information to sup-  
9 port the data archive system established under  
10 section 12406(d).”;

11 (4) in subsection (c), in paragraph (2)—

12 (A) by inserting “, and to the Office of  
13 Management and Budget,” after “House of  
14 Representatives”; and

15 (B) in subparagraph (B), by striking “the  
16 interagency research” and inserting “inter-  
17 agency strategic research”;

18 (5) by redesignating subsection (c) as sub-  
19 section (d); and

20 (6) by inserting after subsection (b) the fol-  
21 lowing:

22 “(c) ADVISORY BOARD.—

23 “(1) ESTABLISHMENT.—The Chair of the Sub-  
24 committee shall establish an Ocean Acidification Ad-  
25 visory Board.

1 “(2) DUTIES.—The Advisory Board shall—

2 “(A) not later than 180 days before the  
3 Subcommittee submits the most recent report  
4 under subsection (d)(2)—

5 “(i) review such report;

6 “(ii) submit an analysis of such report  
7 to the Subcommittee for consideration in  
8 the final report submitted under subsection  
9 (d)(2); and

10 “(iii) concurrently with the Sub-  
11 committee’s final submission of the report  
12 under subsection (d)(2), the Advisory  
13 Board shall submit a copy of the analysis  
14 provided to the Subcommittee to the Com-  
15 mittee on Commerce, Science, and Trans-  
16 portation of the Senate, the Committee on  
17 Science, Space, and Technology of the  
18 House of Representatives, and the Com-  
19 mittee on Natural Resources of the House  
20 of Representatives;

21 “(B) not later than 180 days before the  
22 Subcommittee submits the most recent strategic  
23 research plan under subsection (d)(3) to Con-  
24 gress—

25 “(i) review such plan;

1           “(ii) submit an analysis of such plan  
2           and the implementation thereof to the Sub-  
3           committee for consideration in the final  
4           strategic research plan submitted under  
5           subsection (d)(3); and

6           “(iii) concurrently with the Sub-  
7           committee’s final submission of the stra-  
8           tegic research plan under subsection  
9           (d)(3), the Advisory Board shall submit a  
10          copy of the analysis provided to the Sub-  
11          committee to the Committee on Commerce,  
12          Science, and Transportation of the Senate,  
13          the Committee on Science, Space, and  
14          Technology of the House of Representa-  
15          tives, and the Committee on Natural Re-  
16          sources of the House of Representatives;

17          “(C) provide ongoing advice to the Sub-  
18          committee and the interagency working group  
19          on matters related to Federal activities on  
20          ocean acidification and coastal acidification;

21          “(D) advise the Subcommittee and the  
22          interagency working group on—

23                 “(i) efforts to coordinate research and  
24                 monitoring activities related to ocean acidi-  
25                 fication and coastal acidification; and

1           “(ii) the best practices for the stand-  
2           ards developed for data archiving under  
3           section 12406(e);

4           “(E) publish in the Federal Register a  
5           charter;

6           “(F) provide the Library of Congress  
7           with—

8           “(i) the charter described in subpara-  
9           graph (E);

10           “(ii) any schedules and minutes for  
11           meetings of the Advisory Board;

12           “(iii) any documents that are ap-  
13           proved by the Advisory Board; and

14           “(iv) any reports and analysis pre-  
15           pared by the Advisory Board; and

16           “(G) establish a publicly accessible web  
17           page on the website of the National Oceanic  
18           and Atmospheric Administration, that contains  
19           the information described in clauses (i) through  
20           (iv) of subparagraph (F).

21           “(3) MEMBERSHIP.—The Advisory Board shall  
22           consist of 24 members as follows:

23           “(A) Two representatives of the shellfish  
24           and crab industry.

1           “(B) One representative of the finfish in-  
2 industry.

3           “(C) One representative of seafood proc-  
4 essors.

5           “(D) Three representatives from academia,  
6 including both natural and social sciences.

7           “(E) One representative of recreational  
8 fishing.

9           “(F) One representative of a relevant non-  
10 governmental organization.

11           “(G) Six representatives from relevant  
12 State, local, and Tribal governments.

13           “(H) One representative from the Alaska  
14 Ocean Acidification Network or a subsequent  
15 entity that represents the same geographical re-  
16 gion and has a similar purpose.

17           “(I) One representative from the California  
18 Current Acidification Network or a subsequent  
19 entity that represents the same geographical re-  
20 gion and has a similar purpose.

21           “(J) One representative from the North-  
22 east Coastal Acidification Network or a subse-  
23 quent entity that represents the same geo-  
24 graphical region and has a similar purpose.

1           “(K) One representative from the South-  
2 east Coastal Acidification Network or a subse-  
3 quent entity that represents the same geo-  
4 graphical region and has a similar purpose.

5           “(L) One representative from the Gulf of  
6 Mexico Coastal Acidification Network or a sub-  
7 sequent entity that represents the same geo-  
8 graphical region and has a similar purpose.

9           “(M) One representative from the Mid-At-  
10 lantic Coastal Acidification Network or a subse-  
11 quent entity that represents the same geo-  
12 graphical region and has a similar purpose.

13           “(N) One representative from the Pacific  
14 Islands Ocean Observing System or a subse-  
15 quent entity that represents the island terri-  
16 tories and possessions of the United States in  
17 the Pacific Ocean, and the State of Hawaii and  
18 has a similar purpose.

19           “(O) One representative from the Carib-  
20 bean Regional Association for Coastal Ocean  
21 Observing or a subsequent entity that rep-  
22 represents Puerto Rico and the United States Vir-  
23 gin Islands and has a similar purpose.

24           “(P) One representative from the National  
25 Oceanic and Atmospheric Administration shall

1           serve as an ex-officio member of the Advisory  
2           Board without a vote.

3           “(4) APPOINTMENT OF MEMBERS.—The Chair  
4           of the Subcommittee shall—

5                   “(A) appoint members to the Advisory  
6           Board (taking into account the geographical in-  
7           terests of each individual to be appointed as a  
8           member of the Advisory Board to ensure that  
9           an appropriate balance of geographical interests  
10          are represented by the members of the Advisory  
11          Board) who—

12                           “(i) represent the interest group for  
13                           which each seat is designated;

14                           “(ii) demonstrate expertise on ocean  
15                           acidification or coastal acidification and its  
16                           scientific, economic, industry, cultural, and  
17                           community impacts; and

18                           “(iii) have a record of distinguished  
19                           service with respect to ocean acidification  
20                           or coastal acidification, and such impacts;

21                           “(B) give consideration to nominations and  
22           recommendations from the members of the  
23           interagency working group and the public for  
24           such appointments; and

1           “(C) ensure that an appropriate balance of  
2           scientific, industry, and geographical interests  
3           are represented by the members of the Advisory  
4           Board.

5           “(5) TERM OF MEMBERSHIP.—Each member of  
6           the Advisory Board—

7           “(A) shall be appointed for a 5-year term;  
8           and

9           “(B) may be appointed to more than one  
10          term.

11          “(6) CHAIR.—The Chair of the Subcommittee  
12          shall appoint one member of the Advisory Board to  
13          serve as the Chair of the Advisory Board.

14          “(7) MEETINGS.—Not less than once each cal-  
15          endar year, the Advisory Board shall meet at such  
16          times and places as may be designated by the Chair  
17          of the Advisory Board, in consultation with the  
18          Chair of the Subcommittee and the Chair of the  
19          interagency working group.

20          “(8) BRIEFING.—The Chair of the Advisory  
21          Board shall brief the Subcommittee and the inter-  
22          agency working group on the progress of the Advi-  
23          sory Board as necessary or at the request of the  
24          Subcommittee.

1           “(9) FEDERAL ADVISORY COMMITTEE ACT.—  
2           Section 14 of the Federal Advisory Committee Act  
3           shall not apply to the Advisory Board.”.

4 **SEC. 10705. STRATEGIC RESEARCH PLAN.**

5           Section 12405 of the Federal Ocean Acidification Re-  
6 search and Monitoring Act of 2009 (33 U.S.C. 3704) is  
7 amended—

8           (1) in subsection (a)—

9                   (A) by striking “acidification” each place it  
10                   appears and inserting “acidification and coastal  
11                   acidification”;

12                   (B) in the first sentence—

13                           (i) by inserting “, and not later than  
14                           every 5 years thereafter” after “the date of  
15                           enactment of this Act”;

16                           (ii) by inserting “address the socio-  
17                           economic impacts of ocean acidification  
18                           and coastal acidification and to” after  
19                           “mitigation strategies to”; and

20                           (iii) by striking “marine ecosystems”  
21                           each place it appears and inserting “eco-  
22                           systems”; and

23                   (C) in the second sentence, by inserting  
24                   “and recommendations made by the Advisory  
25                   Board in the review of the plan required under

1 section 12404(c)(2)(B)(i)” after “subsection  
2 (d)”;

3 (2) in subsection (b)—

4 (A) in paragraph (1), by inserting “and so-  
5 cial sciences” after “among the ocean sciences”;

6 (B) in paragraph (2)—

7 (i) in subparagraph (A), by striking  
8 “impacts” and inserting “impacts, includ-  
9 ing trends of changes in ocean chemistry,”;

10 (ii) in subparagraph (B)—

11 (I) by striking “improve the abil-  
12 ity to assess the” and inserting “as-  
13 sess the short-term and long-term”;  
14 and

15 (II) by striking “; and” at the  
16 end and inserting a semicolon;

17 (iii) by amending subparagraph (C) to  
18 read as follows:

19 “(C) provide information for the—

20 “(i) development of adaptation and  
21 mitigation strategies to address the socio-  
22 economic impacts of ocean acidification  
23 and coastal acidification;

24 “(ii) conservation of marine organisms  
25 and ecosystems;

1 “(iii) assessment of the effectiveness  
2 of such adaptation and mitigation strate-  
3 gies; and”; and

4 (iv) by adding at the end the following  
5 new subparagraph:

6 “(D) improve research on—

7 “(i) ocean acidification and coastal  
8 acidification;

9 “(ii) the interactions between and ef-  
10 fects of multiple combined stressors includ-  
11 ing changes in water chemistry, changes in  
12 sediment delivery, hypoxia, and harmful  
13 algal blooms, on ocean acidification and  
14 coastal acidification; and

15 “(iii) the effect of environmental  
16 stressors on marine resources and eco-  
17 systems;”;

18 (C) in paragraph (3)—

19 (i) in subparagraph (F), by striking  
20 “database development” and inserting  
21 “data management”;

22 (ii) in subparagraph (H) by striking  
23 “and” at the end; and

24 (iii) by adding at the end the fol-  
25 lowing new subparagraphs:

1           “(J) assessment of adaptation and mitiga-  
2           tion strategies; and

3           “(K) education and outreach activities;”;

4           (D) in paragraph (4), by striking “set  
5           forth” and inserting “ensure an appropriate  
6           balance of contribution in establishing”;

7           (E) in paragraph (5), by striking “reports”  
8           and inserting “the best available peer-reviewed  
9           scientific reports”;

10          (F) in paragraph (6)—

11           (i) by inserting “and coastal acidifica-  
12           tion” after “ocean acidification”; and

13           (ii) by striking “of the United States”  
14           and inserting “within the United States”;

15          (G) in paragraph (7), by striking “outline  
16           budget requirements” and inserting “estimate  
17           costs associated for full implementation of each  
18           element of the plan by fiscal year”;

19          (H) in paragraph (8)—

20           (i) by inserting “and coastal acidifica-  
21           tion” after “ocean acidification” each place  
22           it appears;

23           (ii) by striking “its” and inserting  
24           “their”; and

1 (iii) by striking “; and” at the end  
2 and inserting a semicolon;

3 (I) in paragraph (9), by striking the period  
4 at the end and inserting “; and”; and

5 (J) by adding at the end the following new  
6 paragraph:

7 “(11) describe monitoring needs necessary to  
8 support potentially affected industry members,  
9 coastal stakeholders, fishery management councils  
10 and commissions, non-Federal resource managers,  
11 and scientific experts on decision-making and adap-  
12 tation related to ocean acidification and coastal  
13 acidification.”;

14 (3) in subsection (c)—

15 (A) in paragraph (1)(C), by striking “sur-  
16 face”;

17 (B) in paragraph (2), by inserting “and  
18 coastal acidification” after “ocean acidification”  
19 each place it appears;

20 (C) in paragraph (3)—

21 (i) by striking “input, and” and in-  
22 sserting “inputs,”;

23 (ii) by inserting “, marine food webs,”  
24 after “marine ecosystems”; and

1 (iii) by inserting “, and modeling that  
2 supports fisheries management” after  
3 “marine organisms”;

4 (D) in paragraph (5), by inserting “and  
5 coastal acidification” after “ocean acidifica-  
6 tion”; and

7 (E) by adding at the end the following new  
8 paragraph:

9 “(8) Research to understand related and cumu-  
10 lative stressors and other biogeochemical processes  
11 occurring in conjunction with ocean acidification and  
12 coastal acidification.”; and

13 (4) by striking subsection (e) and inserting the  
14 following:

15 “(e) ADVISORY BOARD EVALUATION.—Not later  
16 than 180 days before a plan is submitted to Congress, the  
17 Subcommittee shall provide the Advisory Board estab-  
18 lished under section 12404(c) a copy of the plan for pur-  
19 poses of review under paragraph (2)(B)(i) of such section.

20 “(f) PUBLICATION AND PUBLIC COMMENT.—Not  
21 later than 90 days before the strategic research plan, or  
22 any revision thereof, is submitted to Congress, the Sub-  
23 committee shall publish the plan in the Federal Register  
24 and provide an opportunity for submission of public com-  
25 ments for a period of not less than 60 days.”.

1 **SEC. 10706. NOAA OCEAN ACIDIFICATION ACTIVITIES.**

2 Section 12406 of the Federal Ocean Acidification Re-  
3 search and Monitoring Act of 2009 (33 U.S.C. 3705) is  
4 amended—

5 (1) in subsection (a)—

6 (A) in the matter preceding paragraph (1),  
7 by inserting “coordination,” after “research,  
8 monitoring,”;

9 (B) in paragraph (1)—

10 (i) in subparagraph (B)—

11 (I) by inserting “including the  
12 Integrated Ocean Observing System  
13 and the ocean observing assets of  
14 other Federal, State, and Tribal agen-  
15 cies,” after “ocean observing assets,”;  
16 and

17 (II) by inserting “and agency  
18 and department missions, prioritizing  
19 the location of monitoring instru-  
20 ments, assets, and projects to maxi-  
21 mize the efficiency of resources and to  
22 optimize understanding of socio-  
23 economic impacts and ecosystem  
24 health” after “research program”;

25 (ii) in subparagraph (C)—

1 (I) by striking “adaptation” and  
2 inserting “adaptation and mitigation”;  
3 and

4 (II) by inserting “and supporting  
5 socioeconomically vulnerable States,  
6 local governments, Tribes, commu-  
7 nities, and industries through tech-  
8 nical assistance and mitigation strate-  
9 gies” after “marine ecosystems”;

10 (iii) in subparagraph (E), by striking  
11 “its impacts” and inserting “their respec-  
12 tive impacts”;

13 (iv) in subparagraph (F), by striking  
14 “monitoring and impacts research” and in-  
15 sserting “research, monitoring, and adapta-  
16 tion and mitigation strategies”; and

17 (v) by adding at the end the following  
18 new subparagraph:

19 “(G) research to improve understanding of  
20 the effect of—

21 “(i) other environmental stressors on  
22 ocean acidification and coastal acidifica-  
23 tion;

1                   “(ii) multiple environmental stressors  
2                   on living marine resources and coastal eco-  
3                   systems; and

4                   “(iii) adaptation and mitigation strat-  
5                   egies to address the socioeconomic impacts  
6                   of ocean acidification and coastal acidifica-  
7                   tion.”;

8                   (C) in paragraph (2), by striking “critical  
9                   research projects that explore” and inserting  
10                  “critical research, education, and outreach  
11                  projects that explore and communicate”; and

12                  (D) in paragraphs (1) and (2), by striking  
13                  “acidification” each place it appears and insert-  
14                  ing “acidification and coastal acidification”;  
15                  and

16                  (2) by adding at the end the following new sub-  
17                  sections:

18                  “(c) RELATIONSHIP TO INTERAGENCY WORKING  
19                  GROUP.—The National Oceanic and Atmospheric Admin-  
20                  istration shall serve as the lead Federal agency responsible  
21                  for coordinating the Federal response to ocean acidifica-  
22                  tion and coastal acidification, by—

23                         “(1) leading the interagency working group in  
24                         implementing the strategic research plan under sec-  
25                         tion 12405;

1           “(2) coordinating monitoring and research ef-  
2           forts among Federal agencies in cooperation with  
3           State, local, and Tribal government and inter-  
4           national partners;

5           “(3) maintaining an Ocean Acidification Infor-  
6           mation Exchange described under section  
7           12404(b)(5) to allow for information to be electroni-  
8           cally accessible, including information—

9                   “(A) on ocean acidification developed  
10                  through or used by the ocean acidification pro-  
11                  gram described under section 12406(a); or

12                   “(B) that would be useful to State govern-  
13                  ments, local governments, Tribal governments,  
14                  resource managers, policymakers, researchers,  
15                  and other stakeholders in mitigating or adapt-  
16                  ing to the impacts of ocean acidification and  
17                  coastal acidification; and

18           “(4) establishing and maintaining the data ar-  
19           chive system under subsection (d).

20           “(d) DATA ARCHIVE SYSTEM.—

21                   “(1) MANAGEMENT.—The Secretary, in coordi-  
22                  nation with members of the interagency working  
23                  group, shall provide for the long-term stewardship  
24                  of, and access to, data relating to ocean acidification  
25                  and coastal acidification by establishing and main-

1       taining a data archive system that the National Cen-  
2       ter for Environmental Information uses to process,  
3       store, archive, provide access to, and incorporate to  
4       the extent possible, such data collected—

5               “(A) through relevant federally-funded re-  
6               search; and

7               “(B) by a Federal agency, State agency,  
8               local agency, Tribe, academic scientist, citizen  
9               scientist, or industry organization.

10              “(2) EXISTING GLOBAL OR NATIONAL DATA AS-  
11              SETS.—In establishing and maintaining the data ar-  
12              chive system under paragraph (1), the Secretary  
13              shall ensure that existing global or national data as-  
14              sets (including the data assets maintained by the  
15              National Centers for Environmental Information,  
16              the Integrated Ocean Observing System, and other  
17              existing data systems within Federal agencies) are  
18              incorporated to the greatest extent possible.

19              “(e) STANDARDS, PROTOCOLS, AND PROCEDURES.—  
20              With respect to the data described in subsection (d), the  
21              Secretary, in coordination with members of the inter-  
22              agency working group, shall establish and revise as nec-  
23              essary the standards, protocols, or procedures for—

24                      “(1) processing, storing, archiving, and pro-  
25                      viding access to such data;

1           “(2) the interoperability and intercalibration of  
2 such data;

3           “(3) the collection of any metadata underlying  
4 such data; and

5           “(4) sharing such data with State, local, and  
6 Tribal government programs, potentially affected in-  
7 dustry members, coastal stakeholders, fishery man-  
8 agement councils and commissions, non-Federal re-  
9 source managers, and academia.

10          “(f) DISSEMINATION OF OCEAN ACIDIFICATION  
11 DATA AND COASTAL ACIDIFICATION DATA.—The Sec-  
12 retary, in coordination with members of the interagency  
13 working group, shall disseminate the data described under  
14 subsection (d) to the greatest extent practicable by sharing  
15 such data on full and open access exchanges.

16          “(g) REQUIREMENT.—Recipients of grants from the  
17 National Oceanic and Atmospheric Administration under  
18 this subtitle that collect data described under subsection  
19 (d) shall—

20           “(1) collect such data in accordance with the  
21 standards, protocols, or procedures established pur-  
22 suant to subsection (e); and

23           “(2) submit such data to the data archive sys-  
24 tem under subsection (d) after publication, in ac-

1 cordance with any rules promulgated by the Sec-  
2 retary.”.

3 **SEC. 10707. NSF OCEAN ACIDIFICATION ACTIVITIES.**

4 Section 12407 of the Federal Ocean Acidification Re-  
5 search and Monitoring Act of 2009 (33 U.S.C. 3706) is  
6 amended—

7 (1) by striking “ocean acidification” each place  
8 it appears and inserting “ocean acidification and  
9 coastal acidification”;

10 (2) in subsection (a)—

11 (A) in the matter preceding paragraph (1),  
12 by striking “its impacts” and inserting “their  
13 respective impacts”;

14 (B) in paragraph (3), by striking “and its  
15 impacts” and inserting “and their respective  
16 impacts”;

17 (C) in paragraph (4), by striking the pe-  
18 riod at the end and inserting “; and”; and

19 (D) by adding at the end the following new  
20 paragraph:

21 “(5) adaptation and mitigation strategies to ad-  
22 dress socioeconomic effects of ocean acidification and  
23 coastal acidification.”; and

24 (3) by adding at the end the following:

1       “(d) REQUIREMENT.—Recipients of grants from the  
2 National Science Foundation under this subtitle that col-  
3 lect data described under section 12406(d) shall—

4               “(1) collect data in accordance with the stand-  
5 ards, protocols, or procedures established pursuant  
6 to section 12406(e); and

7               “(2) submit such data to the Director and the  
8 Secretary after publication, in accordance with any  
9 rules promulgated by the Director or the Sec-  
10 retary.”.

11 **SEC. 10708. NASA OCEAN ACIDIFICATION ACTIVITIES.**

12       Section 12408 of the Federal Ocean Acidification Re-  
13 search and Monitoring Act of 2009 (33 U.S.C. 3707) is  
14 amended—

15               (1) by striking “ocean acidification” each place  
16 it appears and inserting “ocean acidification and  
17 coastal acidification”;

18               (2) in subsection (a), by striking “its impacts”  
19 and inserting “their respective impacts”; and

20               (3) by adding at the end the following new sub-  
21 section:

22       “(d) REQUIREMENT.—Researchers from the National  
23 Aeronautics and Space Administration under this subtitle  
24 that collect data described under section 12406(d) shall—

1           “(1) collect such data in accordance with the  
2 standards, protocols, or procedures established pur-  
3 suant to section 12406(e); and

4           “(2) submit such data to the Administrator and  
5 the Secretary, in accordance with any rules promul-  
6 gated by the Administrator or the Secretary.”.

7 **SEC. 10709. AUTHORIZATION OF APPROPRIATIONS.**

8           Section 12409 of the Federal Ocean Acidification Re-  
9 search and Monitoring Act of 2009 (33 U.S.C. 3708) is  
10 amended—

11           (1) in subsection (a), by striking “subtitle—”  
12 and all that follows through paragraph (4) and in-  
13 serting the following: “subtitle—

14           “(1) \$30,500,000 for fiscal year 2022;

15           “(2) \$35,000,000 for fiscal year 2023;

16           “(3) \$40,000,000 for fiscal year 2024;

17           “(4) \$45,000,000 for fiscal year 2025; and

18           “(5) \$50,000,000 for fiscal year 2026.”; and

19           (2) in subsection (b), by striking “subtitle—”  
20 and all that follows through paragraph (4) and in-  
21 serting the following: “subtitle \$20,000,000 for each  
22 of the fiscal years 2022 through 2026.”.

1 **Subtitle K—National Nuclear Uni-**  
2 **versity Research Infrastructure**  
3 **Reinvestment**

4 **SEC. 10711. SHORT TITLE.**

5 This subtitle may be cited as the “National Nuclear  
6 University Research Infrastructure Reinvestment Act of  
7 2021”.

8 **SEC. 10712. PURPOSES.**

9 The purposes of this subtitle are—

10 (1) to upgrade the nuclear research capabilities  
11 of universities in the United States to meet the re-  
12 search requirements of advanced nuclear energy sys-  
13 tems;

14 (2) to ensure the continued operation of univer-  
15 sity research reactors;

16 (3) to coordinate available resources to enable  
17 the establishment, including the start and efficient  
18 completion of construction, of new nuclear science  
19 and engineering facilities; and

20 (4) to support—

21 (A) workforce development critical to  
22 maintaining United States leadership in nuclear  
23 science and engineering and related disciplines;  
24 and

1 (B) the establishment or enhancement of  
2 nuclear science and engineering capabilities and  
3 other, related capabilities at historically Black  
4 colleges and universities, Tribal colleges or uni-  
5 versities, minority-serving institutions, EPSCoR  
6 universities, junior or community colleges, and  
7 associate-degree-granting colleges.

8 **SEC. 10713. UNIVERSITY INFRASTRUCTURE COLLABORA-**  
9 **TION.**

10 Section 954(a) of the Energy Policy Act of 2005 (42  
11 U.S.C. 16274(a)) is amended—

12 (1) in paragraph (2) by amending subpara-  
13 graph (D) to read as follows:

14 “(D) promote collaborations, partnerships,  
15 and knowledge sharing between institutions of  
16 higher education, National Laboratories, other  
17 Federal agencies, industry, and associated labor  
18 unions; and”.

19 (2) by amending paragraph (4) to read as fol-  
20 low:

21 “(4) **STRENGTHENING UNIVERSITY RESEARCH**  
22 **AND TRAINING REACTORS AND ASSOCIATED INFRA-**  
23 **STRUCTURE.—**

1           “(A) IN GENERAL.—In carrying out the  
2 program under this subsection, the Secretary  
3 may support—

4           “(i) converting research reactors from  
5 high-enrichment fuels to low-enrichment  
6 fuels and upgrading operational instrumen-  
7 tation;

8           “(ii) revitalizing and upgrading exist-  
9 ing nuclear science and engineering infra-  
10 structure that support the development of  
11 advanced nuclear technologies and applica-  
12 tions;

13           “(iii) regional or subregional univer-  
14 sity-led consortia to—

15           “(I) broaden access to university  
16 research reactors;

17           “(II) enhance existing university-  
18 based nuclear science and engineering  
19 infrastructure; and

20           “(III) provide project manage-  
21 ment, technical support, quality engi-  
22 neering and inspections, manufac-  
23 turing, and nuclear material support;

24           “(iv) student training programs, in  
25 collaboration with the United States nu-

1 clear industry, in relicensing and upgrad-  
2 ing reactors, including through the provi-  
3 sion of technical assistance; and

4 “(v) reactor improvements that em-  
5 phasize research, training, and education,  
6 including through the Innovations in Nu-  
7 clear Infrastructure and Education Pro-  
8 gram or any similar program.

9 “(B) Of any amounts appropriated to  
10 carry out the program under this subsection,  
11 there is authorized to be appropriated to the  
12 Secretary to carry out clauses (ii) and (iii) of  
13 subparagraph (A) \$55,000,000 for each of fis-  
14 cal years 2022 through 2026.”.

15 **SEC. 10714. ADVANCED NUCLEAR RESEARCH INFRASTRUC-**  
16 **TURE ENHANCEMENT SUBPROGRAM.**

17 Section 954(a) of the Energy Policy Act of 2005 (42  
18 U.S.C. 16274(a)), as amended by section 3, is further  
19 amended—

20 (1) by redesignating paragraphs (5) through  
21 (8) as paragraphs (6) through (9), respectively;

22 (2) by inserting after paragraph (4) the fol-  
23 lowing:

24 “(5) **ADVANCED NUCLEAR RESEARCH INFRA-**  
25 **STRUCTURE ENHANCEMENT.**—

1           “(A) IN GENERAL.—The Secretary shall  
2 carry out a subprogram to be known as the Ad-  
3 vanced Nuclear Research Infrastructure En-  
4 hancement Subprogram in order to—

5                   “(i) demonstrate various advanced nu-  
6 clear reactor and nuclear microreactor con-  
7 cepts;

8                   “(ii) establish medical isotope produc-  
9 tion reactors or other specialized applica-  
10 tions; and

11                   “(iii) advance other research infra-  
12 structure that, in the determination of the  
13 Secretary, is consistent with the mission of  
14 the Department.

15           “(B) NEW NUCLEAR SCIENCE AND ENGI-  
16 NEERING FACILITIES.—In carrying out the sub-  
17 program, the Secretary shall establish—

18                   “(i) not more than 4 new research re-  
19 actors; and

20                   “(ii) new nuclear science and engi-  
21 neering facilities, as required to address re-  
22 search demand and identified infrastruc-  
23 ture gaps.

1           “(C) LOCATIONS.—New research reactors  
2 and facilities established under subparagraph  
3 (B) shall be established in a manner that—

4           “(i) supports the regional or sub-  
5 regional consortia described in paragraph  
6 (4)(C); and

7           “(ii) encourages the participation of—

8           “(I) historically Black colleges  
9 and universities;

10           “(II) Tribal colleges or univer-  
11 sities;

12           “(III) minority-serving institu-  
13 tions;

14           “(IV) EPSCoR universities;

15           “(V) junior or community col-  
16 leges; and

17           “(VI) associate-degree-granting  
18 colleges.

19           “(D) FUEL REQUIREMENTS.—New re-  
20 search reactors established under subparagraph  
21 (B) shall not use high-enriched uranium, as de-  
22 fined in section 2001 of division Z of the Con-  
23 solidated Appropriations Act of 2021.

24           “(E) AUTHORIZATION OF APPROPRIA-  
25 TIONS.—Of any amounts appropriated to carry

1 out the program under this section, there are  
2 authorized to be appropriated to the Secretary  
3 to carry out the subprogram under this para-  
4 graph—

5 “(i) \$10,000,000 for fiscal year 2022;

6 “(ii) \$45,000,000 for fiscal year 2023;

7 “(iii) \$60,000,000 for fiscal year  
8 2024;

9 “(iv) \$65,000,000 for fiscal year  
10 2025;

11 “(v) \$80,000,000 for fiscal year 2026;

12 “(vi) \$140,000,000 for fiscal year  
13 2027;

14 “(vii) \$120,000,000 for fiscal year  
15 2028; and

16 “(viii) \$80,000,000 for fiscal year  
17 2029.”; and

18 (3) by amending paragraph (9), as redesignated  
19 by paragraph (1) of this section, to read as follows:

20 “(9) DEFINITIONS.—In this subsection:

21 “(A) ASSOCIATE-DEGREE-GRANTING COL-  
22 LEGE.—The term ‘associate-degree- granting  
23 college’ means an institution of higher edu-  
24 cation (as determined under section 101 of the

1 Higher Education Act of 1965 20 U.S.C. 1001)  
2 that—

3 “(i) is a nonprofit institution that of-  
4 fers a 2-year associate-degree program or a  
5 2-year certificate program; or

6 “(ii) is a proprietary institution that  
7 offers a 2-year associate degree program.

8 “(B) JUNIOR FACULTY.—The term ‘junior  
9 faculty’ means a faculty member who was  
10 awarded a doctorate less than 10 years before  
11 receipt of an award from the grant program de-  
12 scribed in paragraph (2)(B).

13 “(C) JUNIOR OR COMMUNITY COLLEGE.—  
14 The term ‘junior or community college’ has the  
15 meaning given the term in section 312 of the  
16 Higher Education Act of 1965 (20 U.S.C.  
17 1058).

18 “(D) EPSCOR UNIVERSITY.—The term  
19 ‘EPSCoR university’ means an institution of  
20 higher education located in a State eligible to  
21 participate in the program defined in section  
22 502 of the America COMPETES Reauthoriza-  
23 tion Act of 2010 (42 U.S.C. 1862p note).

24 “(E) HISTORICALLY BLACK COLLEGE OR  
25 UNIVERSITY.—The term ‘historically Black col-

1           lege or university’ has the meaning given the  
 2           term ‘part B institution’ in section 322 of the  
 3           Higher Education Act of 1965 (20 U.S.C.  
 4           1061).

5           “(F) MINORITY-SERVING INSTITUTION.—  
 6           The term ‘minority-serving institution’ means a  
 7           Hispanic-serving institution, an Alaska Native-  
 8           serving institution, a Native Hawaiian-serving  
 9           institutions, a Predominantly Black Institution,  
 10          an Asian American and Native American Pa-  
 11          cific Islander-serving institution, or a Native  
 12          American-serving nontribal institution as de-  
 13          scribed in section 371 of the Higher Education  
 14          Act of 1965 (20 U.S.C. 1067q(a)).

15          “(G) TRIBAL COLLEGE OR UNIVERSITY.—  
 16          The term ‘Tribal College or University’ has the  
 17          meaning given such term in section 316 of the  
 18          Higher Education Act of 1965 (20 U.S.C.  
 19          1059c).”.

20 **SEC. 10715. SCIENCE EDUCATION AND HUMAN RESOURCES**  
 21                   **SCHOLARSHIPS, FELLOWSHIPS, AND RE-**  
 22                   **SEARCH AND DEVELOPMENT PROJECTS.**

23          (a) IN GENERAL.—The purpose of this section is to  
 24          support a diverse workforce for the complex landscape as-  
 25          sociated with effective and equitable development of ad-

1 vanced nuclear energy technologies, including interdiscipli-  
2 nary research to enable positive impacts and avoid poten-  
3 tial negative impacts across the lifespan of nuclear energy  
4 technologies.

5 (b) NONTECHNICAL NUCLEAR RESEARCH.—Section  
6 313 of the Omnibus Appropriations Act, 2009 (Public  
7 Law 111–8; 42 U.S.C. 16274a) is amended—

8 (1) in subsection (b)(2), after “engineering”, by  
9 inserting “, which may include nontechnical nuclear  
10 research.”;

11 (2) in subsection (c), by inserting after para-  
12 graph (2) the following:

13 “(3) NONTECHNICAL NUCLEAR RESEARCH.—  
14 The term ‘nontechnical nuclear research’ means re-  
15 search with specializations such as social sciences or  
16 law that can support an increase in community en-  
17 gagement, participation, and confidence in nuclear  
18 energy systems, including the navigation of the li-  
19 censing required for advanced reactor deployment,  
20 aligned with the objectives in section 951(a)(2) of  
21 the Energy Policy Act of 2005 (42 U.S.C.  
22 16271(a)(2)).”; and

23 (3) in subsection (d)(1), by striking  
24 “\$30,000,000” and inserting “\$45,000,000”.

1 **Subtitle L—Steel Upgrading Part-**  
2 **nerships and Emissions Reduc-**  
3 **tion**

4 **SEC. 10721. LOW-EMISSIONS STEEL MANUFACTURING RE-**  
5 **SEARCH PROGRAM.**

6 (a) PROGRAM.—Subtitle D of title IV of the Energy  
7 Independence and Security Act of 2007 (42 U.S.C. 17111  
8 et seq.) is amended by inserting after section 454 the fol-  
9 lowing:

10 **“SEC. 454A. LOW-EMISSIONS STEEL MANUFACTURING RE-**  
11 **SEARCH PROGRAM.**

12 “(a) PURPOSE.—The purpose of this section is to en-  
13 courage the research and development of innovative tech-  
14 nologies aimed at—

15 “(1) increasing the technological and economic  
16 competitiveness of industry and manufacturing in  
17 the United States; and

18 “(2) achieving significant net nonwater green-  
19 house emissions reductions in the production proc-  
20 esses for iron, steel, and steel mill products.

21 “(b) DEFINITIONS.—In this section:

22 “(1) **COMMERCIALLY AVAILABLE**  
23 **STEELMAKING.**—The term ‘commercially available  
24 steelmaking’ means the current production method  
25 of iron, steel, and steel mill products.

1           “(2) CRITICAL MATERIAL.—The term ‘critical  
2 material’ has the meaning given such term in section  
3 7002 of division Z of the Consolidated Appropria-  
4 tions Act, 2021 (Public Law 116–260).

5           “(3) CRITICAL MINERAL.—The term ‘critical  
6 mineral’ has the meaning given such term in section  
7 7002 of division Z of the Consolidated Appropria-  
8 tions Act, 2021 (Public Law 116–260).

9           “(4) ELIGIBLE ENTITY.—The term ‘eligible en-  
10 tity’ means—

11                   “(A) an institution of higher education;

12                   “(B) an appropriate State or Federal enti-  
13 ty, including a federally funded research and  
14 development center of the Department;

15                   “(C) a nonprofit research institution;

16                   “(D) a private entity;

17                   “(E) any other relevant entity the Sec-  
18 retary determines appropriate; and

19                   “(F) a partnership or consortium of two or  
20 more entities described in subparagraphs (A)  
21 through (E).

22           “(5) LOW-EMISSIONS STEEL MANUFAC-  
23 TURING.—The term ‘low-emissions steel manufac-  
24 turing’ means advanced or commercially available  
25 steelmaking with the reduction, to the maximum ex-

1 tent practicable, of net nonwater greenhouse gas  
2 emissions to the atmosphere from the production of  
3 iron, steel, and steel mill products.

4 “(c) IN GENERAL.—Not later than 180 days after  
5 the date of enactment of the America COMPETES Act  
6 of 2022, the Secretary shall establish a program of re-  
7 search, development, demonstration, and commercial ap-  
8 plication of advanced tools, technologies, and methods for  
9 low-emissions steel manufacturing.

10 “(d) REQUIREMENTS.—In carrying out the program  
11 under subsection (c), the Secretary shall—

12 “(1) coordinate this program with the programs  
13 and activities authorized in title VI of division Z of  
14 the Consolidated Appropriations Act, 2021;

15 “(2) coordinate across all relevant program of-  
16 fices of the Department, including the Office of  
17 Science, Office of Energy Efficiency and Renewable  
18 Energy, the Office of Fossil Energy, and the Office  
19 of Nuclear Energy;

20 “(3) leverage, to the extent practicable, the re-  
21 search infrastructure of the Department, including  
22 scientific computing user facilities, x-ray light  
23 sources, neutron scattering facilities, and nanoscale  
24 science research centers; and

1           “(4) conduct research, development, and dem-  
2           onstration of low-emissions steel manufacturing  
3           technologies that have the potential to increase do-  
4           mestic production and employment in advanced and  
5           commercially available steelmaking.

6           “(e) STRATEGIC PLAN.—

7           “(1) IN GENERAL.—Not later than 180 days  
8           after the date of enactment of the America COM-  
9           PETES Act of 2022, the Secretary shall develop a  
10          5-year strategic plan identifying research, develop-  
11          ment, demonstration, and commercial application  
12          goals for the program established in subsection (c).  
13          The Secretary shall submit this plan to the Com-  
14          mittee on Science, Space, and Technology of the  
15          House of Representatives and the Committee on En-  
16          ergy and Natural Resources of the Senate.

17          “(2) CONTENTS.—The strategic plan submitted  
18          under paragraph (1) shall—

19                 “(A) identify programs at the Department  
20                 related to low-emissions steel manufacturing  
21                 that support the research, development, dem-  
22                 onstration, and commercial application activities  
23                 described in this section, and the demonstration  
24                 projects under subsection (h);

1           “(B) establish technological and pro-  
2           grammatic goals to achieve the requirements of  
3           subsection (d); and

4           “(C) include timelines for the accomplish-  
5           ment of goals developed under the plan.

6           “(3) UPDATES TO PLAN.—Not less than once  
7           every two years, the Secretary shall submit to the  
8           Committee on Science, Space, and Technology of the  
9           House of Representatives and the Committee on En-  
10          ergy and Natural Resources of the Senate an up-  
11          dated version of the plan under paragraph (1).

12          “(f) FOCUS AREAS.—In carrying out the program es-  
13          tablished in subsection (c), the Secretary shall focus on—

14               “(1) medium- and high-temperature heat gen-  
15               eration technologies used for low-emissions steel  
16               manufacturing, which may include—

17                       “(A) alternative fuels, including hydrogen  
18                       and biomass;

19                       “(B) alternative reducing agents, including  
20                       hydrogen;

21                       “(C) renewable heat generation technology,  
22                       including solar and geothermal;

23                       “(D) electrification of heating processes,  
24                       including through electrolysis; and

25                       “(E) other heat generation sources;

1           “(2) carbon capture technologies for advanced  
2           and commercially available steelmaking processes,  
3           which may include—

4                   “(A) combustion and chemical looping  
5                   technologies;

6                   “(B) use of slag to reduce carbon dioxide  
7                   emissions;

8                   “(C) pre-combustion technologies; and

9                   “(D) post-combustion technologies;

10           “(3) smart manufacturing technologies and  
11           principles, digital manufacturing technologies, and  
12           advanced data analytics to develop advanced tech-  
13           nologies and practices in information, automation,  
14           monitoring, computation, sensing, modeling, and  
15           networking to—

16                   “(A) model and simulate manufacturing  
17                   production lines;

18                   “(B) monitor and communicate production  
19                   line status; and

20                   “(C) model, simulate, and optimize the en-  
21                   ergy efficiency of manufacturing processes;

22           “(4) technologies and practices that minimize  
23           energy and natural resource consumption, which  
24           may include—

1           “(A) designing products that enable reuse,  
2 refurbishment, remanufacturing, and recycling;

3           “(B) minimizing waste from advanced and  
4 commercially available steelmaking processes,  
5 including through the reuse of waste as re-  
6 sources in other industrial processes for mutual  
7 benefit;

8           “(C) increasing resource efficiency; and

9           “(D) increasing the energy efficiency of  
10 advanced and commercially available  
11 steelmaking processes;

12          “(5) alternative materials and technologies that  
13 produce fewer emissions during production and re-  
14 sult in fewer emissions during use, which may in-  
15 clude—

16           “(A) innovative raw materials;

17           “(B) high-performance lightweight mate-  
18 rials;

19           “(C) substitutions for critical materials  
20 and critical minerals; and

21           “(D) other technologies that achieve sig-  
22 nificant carbon emission reductions in low-emis-  
23 sions steel manufacturing, as determined by the  
24 Secretary; and

1           “(6) high-performance computing to develop ad-  
2           vanced materials and manufacturing processes con-  
3           tributing to the focus areas described in paragraphs  
4           (1) through (5), including—

5                   “(A) modeling, simulation, and optimiza-  
6                   tion of the design of energy efficient and sus-  
7                   tainable products; and

8                   “(B) the use of digital prototyping and ad-  
9                   ditive manufacturing to enhance product de-  
10                  sign.

11          “(g) TESTING AND VALIDATION.—The Secretary, in  
12          consultation with the Director of the National Institute  
13          of Standards and Technology, shall support the develop-  
14          ment of standardized testing and technical validation of  
15          advanced and commercially available steelmaking and low-  
16          emissions steel manufacturing through collaboration with  
17          one or more National Laboratories, and one or more eligi-  
18          ble entities.

19          “(h) DEMONSTRATION.—

20                  “(1) ESTABLISHMENT.—Not later than 180  
21                  days after the date of enactment of the America  
22                  COMPETES Act of 2022, the Secretary, in carrying  
23                  out the program established in subsection (c), and in  
24                  collaboration with industry partners, institutions of  
25                  higher education, and the National Laboratories,

1 shall support an initiative for the demonstration of  
2 low-emissions steel manufacturing, as identified by  
3 the Secretary, that uses either—

4 “(A) a single technology; or

5 “(B) a combination of multiple tech-  
6 nologies.

7 “(2) SELECTION REQUIREMENTS.—Under the  
8 initiative established under paragraph (1), the Sec-  
9 retary shall select eligible entities to carry out dem-  
10 onstration projects and to the maximum extent prac-  
11 ticable—

12 “(A) encourage regional diversity among  
13 eligible entities, including participation by rural  
14 States;

15 “(B) encourage technological diversity  
16 among eligible entities; and

17 “(C) ensure that specific projects se-  
18 lected—

19 “(i) expand on the existing technology  
20 demonstration programs of the Depart-  
21 ment; and

22 “(ii) prioritize projects that leverage  
23 matching funds from non-Federal sources.

24 “(3) REPORTS.—The Secretary shall submit to  
25 the Committee on Science, Space, and Technology of

1 the House of Representatives and the Committee on  
2 Energy and Natural Resources of the Senate—

3 “(A) not less frequently than once every  
4 two years for the duration of the demonstration  
5 initiative under this subsection, a report de-  
6 scribing the performance of the initiative; and

7 “(B) if the initiative established under this  
8 subsection is terminated, an assessment of the  
9 success of, and education provided by, the  
10 measures carried out by recipients of financial  
11 assistance under the initiative.

12 “(i) ADDITIONAL COORDINATION.—

13 “(1) MANUFACTURING U.S.A.—In carrying out  
14 this section the Secretary shall consider—

15 “(A) leveraging the resources of relevant  
16 existing Manufacturing USA Institutes de-  
17 scribed in section 34(d) of the National Insti-  
18 tute of Standards and Technology Act (15  
19 U.S.C. 278s(d));

20 “(B) integrating program activities into a  
21 relevant existing Manufacturing USA Institute;  
22 or

23 “(C) establishing a new institute focused  
24 on low-emissions steel manufacturing.

1           “(2) OTHER FEDERAL AGENCIES.—In carrying  
2           out this section, the Secretary shall coordinate with  
3           other Federal agencies that are carrying out re-  
4           search and development initiatives to increase indus-  
5           trial competitiveness and achieve significant net  
6           nonwater greenhouse emissions reductions through  
7           low-emissions steel manufacturing, including the De-  
8           partment of Defense, Department of Transportation,  
9           and the National Institute of Standards and Tech-  
10          nology.

11          “(j) OTHER REQUIREMENTS.—All laborers and me-  
12          chanics employed by contractors or subcontractors in the  
13          performance of construction, alteration or repair work car-  
14          ried out, in whole or in part, with assistance made avail-  
15          able under this section shall be paid wages at rates not  
16          less than those prevailing on projects of a character simi-  
17          lar in the locality as determined by the Secretary of Labor  
18          in accordance with subchapter IV of chapter 31 of title  
19          40, United States Code. With respect to the labor stand-  
20          ards specified in this section, the Secretary of Labor shall  
21          have the authority and functions set forth in Reorganiza-  
22          tion Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C.  
23          App.) and section 3145 of title 40, United States Code.”.

24          (b) CLERICAL AMENDMENT.—Section 1(b) of the  
25          Energy Independence and Security Act of 2007 (42

1 U.S.C. 17001 note) is amended in the table of contents  
2 by inserting after the item relating to section 454 the fol-  
3 lowing:

“Sec. 454A. Low-Emissions Steel Manufacturing Research Program.”.

4 **Subtitle M—National Academies**  
5 **Science, Technology, and Secu-**  
6 **urity Roundtable**

7 **SEC. 10731. AD-HOC COMMITTEE ON RESEARCH SECURITY.**

8 Section 1746(b) of the National Defense Authoriza-  
9 tion Act for Fiscal Year 2020 (Public Law 116–92; 42  
10 U.S.C. 6601 note) is amended—

11 (1) in paragraph (3)(B), by striking “involving  
12 federally funded research and development” and in-  
13 serting “facing the United States research enter-  
14 prise”;

15 (2) by redesignating paragraph (5) as para-  
16 graph (6);

17 (3) by inserting after paragraph (4) the fol-  
18 lowing new paragraph:

19 “(5) AD-HOC COMMITTEE.—

20 “(A) IN GENERAL.—The roundtable shall  
21 convene an ad-hoc committee to study and  
22 make recommendations on research security  
23 issues consistent with paragraph (3).

24 “(B) STUDY AND REPORT.—Not later than  
25 180 days after the first meeting of the ad-hoc

1 committee convened under subparagraph (A),  
2 such committee shall—

3 “(i) complete a fast-track consensus  
4 study on the feasibility of establishing an  
5 independent, non-profit entity (referred to  
6 in this paragraph as the ‘entity’) to further  
7 protect the United States research enter-  
8 prise against foreign interference, theft,  
9 and espionage; and

10 “(ii) submit to the relevant commit-  
11 tees a report on the results of the study.

12 “(C) ELEMENTS.—The report required  
13 under subparagraph (B)(ii) shall include anal-  
14 ysis and recommendations with respect to each  
15 of the following:

16 “(i) The organizational structure of  
17 the entity.

18 “(ii) The appropriate relationship be-  
19 tween the entity and the Federal govern-  
20 ment, including the interagency working  
21 group established under subsection (a).

22 “(iii) The appropriate level of finan-  
23 cial resources needed to establish the enti-  
24 ty.

1           “(iv) A self-sustaining funding model  
2 for the entity.

3           “(v) Whether and how the entity  
4 can—

5                   “(I) enable informed, proactive,  
6 and unbiased risk assessment for and  
7 by the United States research enter-  
8 prise;

9                   “(II) in coordination with the  
10 interagency working group established  
11 under subsection (a), the Federal  
12 agencies that comprise the working  
13 group, and the roundtable under this  
14 subsection, promote actionable and  
15 timely information sharing among the  
16 United States research enterprise  
17 about foreign interference, theft, and  
18 espionage of research and develop-  
19 ment;

20                   “(III) provide non-punitive, non-  
21 legally binding advice to the United  
22 States research enterprise, including  
23 frontline researchers, about foreign in-  
24 ference, theft, and espionage including  
25 advice with respect to risks associated

1 with international partnerships and  
2 foreign talent recruitment programs;

3 “(IV) secure the trust and active  
4 participation of the United States re-  
5 search enterprise;

6 “(V) regularly conduct open-  
7 source intelligence analysis to provide  
8 actionable and timely unclassified in-  
9 formation to the United States re-  
10 search enterprise about foreign inter-  
11 ference, theft, and espionage, includ-  
12 ing analysis to be tailored specifically  
13 for the purpose of assisting frontline  
14 researchers in making security-in-  
15 formed decisions; and

16 “(VI) offer products and services  
17 to the United States research enter-  
18 prise to help inform research security  
19 efforts such as analyses of global re-  
20 search and development trends, advice  
21 regarding intellectual property pro-  
22 duction and protection, market anal-  
23 yses, and risk assessment for day-to-  
24 day activities such as collaboration,  
25 travel, and hiring.

1           “(vi) Such other information and rec-  
2           ommendations as the committee considers  
3           necessary to ensure that the entity oper-  
4           ates effectively.”; and

5           (4) in paragraph (6), as so redesignated, by  
6           striking “2024” and inserting “2025”.

## 7       **Subtitle N—Additional Provisions**

### 8       **SEC. 10741. ESTABLISHMENT OF BLOCKCHAIN AND** 9                               **CRYPTOCURRENCY SPECIALIST POSITION** 10                              **WITHIN OSTP.**

11           The Director of the Office of Science and Technology  
12       Policy shall establish a blockchain and cryptocurrencies  
13       advisory specialist position within the Office to advise the  
14       President on matters relating to blockchain and  
15       cryptocurrencies.

## 16       **Subtitle O—Partnerships for** 17       **Energy Security and Innovation**

### 18       **SEC. 10751. FOUNDATION FOR ENERGY SECURITY AND IN-** 19                              **NOVATION.**

20           (a) DEFINITIONS.—In this section:

21               (1) BOARD.—The term “Board” means the  
22       Board of Directors described in subsection  
23       (b)(2)(A).

24               (2) DEPARTMENT.—The term “Department”  
25       means the Department of Energy.

1           (3) EXECUTIVE DIRECTOR.—The term “Execu-  
2           tive Director” means the Executive Director de-  
3           scribed in subsection (b)(5)(A).

4           (4) FOUNDATION.—The term “Foundation”  
5           means the Foundation for Energy Security and In-  
6           novation established under subsection (b)(1).

7           (5) HISTORICALLY BLACK COLLEGE AND UNI-  
8           VERSITY.—The term “historically Black college and  
9           university” has the meaning given the term “part B  
10          institution” in section 322 of the Higher Education  
11          Act of 1965 (20 U.S.C. 1061).

12          (6) INDIVIDUAL LABORATORY-ASSOCIATED  
13          FOUNDATION.—The term “Individual Laboratory-  
14          Associated Foundation” means a Laboratory Foun-  
15          dation established by an operating contractor of a  
16          National Laboratory.

17          (7) MINORITY SERVING INSTITUTION.—The  
18          term “minority serving institution” includes the en-  
19          tities described in any of the paragraphs (1) through  
20          (7) of section 371(a) of the Higher Education Act  
21          of 1965 (20 U.S.C. 1067q(a)).

22          (8) NATIONAL LABORATORY.—The term “Na-  
23          tional Laboratory” has the meaning given the term  
24          in section 2 of the Energy Policy Act of 2005 (42  
25          U.S.C. 15801).

1           (9) SECRETARY.—The term “Secretary” means  
2           the Secretary of Energy.

3           (10) TRIBAL COLLEGE AND UNIVERSITY.—The  
4           term “Tribal College and University” has the mean-  
5           ing given in section 316 of the Higher Education  
6           Act of 1965 (20 U.S.C. 1059c).

7           (b) FOUNDATION FOR ENERGY SECURITY AND INNO-  
8           VATION.—

9           (1) ESTABLISHMENT.—

10           (A) IN GENERAL.—Not later than 180  
11           days after the date of enactment of this Act,  
12           the Secretary shall establish a nonprofit cor-  
13           poration to be known as the “Foundation for  
14           Energy Security and Innovation”.

15           (B) MISSION.—The mission of the Foun-  
16           dation shall be—

17           (i) to support the mission of the De-  
18           partment; and

19           (ii) to advance collaboration with en-  
20           ergy researchers, institutions of higher  
21           education, industry, and nonprofit and  
22           philanthropic organizations to enable the  
23           commercialization of energy technologies.

1 (C) LIMITATION.—The Foundation shall  
2 not be an agency or instrumentality of the Fed-  
3 eral Government.

4 (D) TAX-EXEMPT STATUS.—The Board  
5 shall take all necessary and appropriate steps to  
6 ensure that the Foundation is an organization  
7 that is described in section 501(c) of the Inter-  
8 nal Revenue Code of 1986 and exempt from  
9 taxation under section 501(a) of that Code.

10 (E) COLLABORATION WITH EXISTING OR-  
11 GANIZATIONS.—The Secretary may collaborate  
12 with 1 or more organizations to establish the  
13 Foundation and carry out the activities of the  
14 Foundation.

15 (2) BOARD OF DIRECTORS.—

16 (A) ESTABLISHMENT.—The Foundation  
17 shall be governed by a Board of Directors.

18 (B) COMPOSITION.—

19 (i) IN GENERAL.—The Board shall be  
20 composed of the ex officio nonvoting mem-  
21 bers described in clause (ii) and the ap-  
22 pointed voting members described in clause  
23 (iii).

24 (ii) EX OFFICIO MEMBERS.—The ex  
25 officio members of the Board shall be the

1 following individuals or designees of those  
2 individuals:

3 (I) The Secretary.

4 (II) The Under Secretary for  
5 Science and Energy.

6 (III) The Under Secretary for  
7 Nuclear Security.

8 (IV) The Chief Commercializa-  
9 tion Officer.

10 (iii) APPOINTED MEMBERS.—

11 (I) INITIAL MEMBERS.—The Sec-  
12 retary and the other ex officio mem-  
13 bers of the Board shall—

14 (aa) seek to enter into an  
15 agreement with the National  
16 Academies of Sciences, Engineer-  
17 ing, and Medicine to develop a  
18 list of individuals to serve as  
19 members of the Board who are  
20 well-qualified and will meet the  
21 requirements of subclauses (II)  
22 and (III); and

23 (bb) appoint the initial  
24 members of the Board from that  
25 list, if applicable, in consultation

1 with the National Academies of  
2 Sciences, Engineering, and Medi-  
3 cine.

4 (II) REPRESENTATION.—The ap-  
5 pointed members of the Board shall  
6 reflect a broad cross-section of stake-  
7 holders from academia, National Lab-  
8 oratories, industry, nonprofit organi-  
9 zations, State or local governments,  
10 the investment community, and the  
11 philanthropic community.

12 (III) EXPERIENCE.—The Sec-  
13 retary shall ensure that a majority of  
14 the appointed members of the  
15 Board—

16 (aa)(AA) has experience in  
17 the energy sector;

18 (BB) has research experi-  
19 ence in the energy field; or

20 (CC) has experience in tech-  
21 nology commercialization or foun-  
22 dation operations; and

23 (bb) to the extent prac-  
24 ticable, represents diverse re-  
25 gions, sectors, and communities.

1 (C) CHAIR AND VICE CHAIR.—

2 (i) IN GENERAL.—The Board shall  
3 designate from among the members of the  
4 Board—

5 (I) an individual to serve as  
6 Chair of the Board; and

7 (II) an individual to serve as Vice  
8 Chair of the Board.

9 (ii) TERMS.—The term of service of  
10 the Chair and Vice Chair of the Board  
11 shall end on the earlier of—

12 (I) the date that is 3 years after  
13 the date on which the Chair or Vice  
14 Chair of the Board, as applicable, is  
15 designated for the position; and

16 (II) the last day of the term of  
17 service of the member, as determined  
18 under subparagraph (D)(i), who is  
19 designated to be Chair or Vice Chair  
20 of the Board, as applicable.

21 (iii) REPRESENTATION.—The Chair  
22 and Vice Chair of the Board—

23 (I) shall not be representatives of  
24 the same area of subject matter ex-

1           pertise, or entity, as applicable, under  
2           subparagraph (B)(iii)(II); and

3           (II) shall not be representatives  
4           of any area of subject matter exper-  
5           tise, or entity, as applicable, rep-  
6           resented by the immediately preceding  
7           Chair and Vice Chair of the Board.

8           (D) TERMS AND VACANCIES.—

9           (i) TERMS.—

10           (I) IN GENERAL.—The term of  
11           service of each appointed member of  
12           the Board shall be not more than 5  
13           years.

14           (II) INITIAL APPOINTED MEM-  
15           BERS.—Of the initial members of the  
16           Board appointed under subparagraph  
17           (B)(iii)(I), half of the members shall  
18           serve for 4 years and half of the mem-  
19           bers shall serve for 5 years, as deter-  
20           mined by the Chair of the Board.

21           (ii) VACANCIES.—Any vacancy in the  
22           membership of the appointed members of  
23           the Board—

24           (I) shall be filled in accordance  
25           with the bylaws of the Foundation by

1 an individual capable of representing  
2 the same area or entity, as applicable,  
3 as represented by the vacating board  
4 member under subparagraph  
5 (B)(iii)(II);

6 (II) shall not affect the power of  
7 the remaining appointed members to  
8 execute the duties of the Board; and

9 (III) shall be filled by an indi-  
10 vidual selected by the Board.

11 (E) MEETINGS; QUORUM.—

12 (i) INITIAL MEETING.—Not later than  
13 60 days after the Board is established, the  
14 Secretary shall convene a meeting of the ex  
15 officio and appointed members of the  
16 Board to incorporate the Foundation.

17 (ii) QUORUM.—A majority of the ap-  
18 pointed members of the Board shall con-  
19 stitute a quorum for purposes of con-  
20 ducting the business of the Board.

21 (F) DUTIES.—The Board shall—

22 (i) establish bylaws for the Founda-  
23 tion in accordance with subparagraph (G);

1 (ii) provide overall direction for the  
2 activities of the Foundation and establish  
3 priority activities;

4 (iii) carry out any other necessary ac-  
5 tivities of the Foundation; and

6 (iv) evaluate the performance of the  
7 Executive Director.

8 (G) BYLAWS.—

9 (i) IN GENERAL.—The bylaws estab-  
10 lished under subparagraph (F)(i) may in-  
11 clude—

12 (I) policies for the selection of  
13 Board members, officers, employees,  
14 agents, and contractors of the Foun-  
15 dation;

16 (II) policies, including ethical  
17 standards, for—

18 (aa) the acceptance, sollicita-  
19 tion, and disposition of donations  
20 and grants to the Foundation, in-  
21 cluding appropriate limits on the  
22 ability of donors to designate, by  
23 stipulation or restriction, the use  
24 or recipient of donated funds;  
25 and

1 (bb) the disposition of assets  
2 of the Foundation;

3 (III) policies that subject all em-  
4 ployees, fellows, trainees, and other  
5 agents of the Foundation (including  
6 ex officio and appointed members of  
7 the Board) to conflict of interest  
8 standards; and

9 (IV) the specific duties of the Ex-  
10 ecutive Director.

11 (ii) REQUIREMENTS.—The Board  
12 shall ensure that the bylaws of the Foun-  
13 dation and the activities carried out under  
14 those bylaws shall not—

15 (I) reflect unfavorably on the  
16 ability of the Foundation to carry out  
17 activities in a fair and objective man-  
18 ner; or

19 (II) compromise, or appear to  
20 compromise, the integrity of any gov-  
21 ernmental agency or program, or any  
22 officer or employee employed by, or  
23 involved in, a governmental agency or  
24 program.

25 (H) COMPENSATION.—

1 (i) IN GENERAL.—No member of the  
2 Board shall receive compensation for serv-  
3 ing on the Board.

4 (ii) CERTAIN EXPENSES.—In accord-  
5 ance with the bylaws of the Foundation,  
6 members of the Board may be reimbursed  
7 for travel expenses, including per diem in  
8 lieu of subsistence, and other necessary ex-  
9 penses incurred in carrying out the duties  
10 of the Board.

11 (I) RESTRICTION ON MEMBERSHIP.—No  
12 employee of the Department shall be appointed  
13 as a member of the Board of Directors.

14 (3) PURPOSES.—The purposes of the Founda-  
15 tion are—

16 (A) to support the Department in carrying  
17 out the mission of the Department to ensure  
18 the security and prosperity of the United States  
19 by addressing civilian energy and environmental  
20 challenges through transformative science and  
21 technology solutions; and

22 (B) to increase private and philanthropic  
23 sector investments that support efforts to cre-  
24 ate, characterize, develop, test, validate, and  
25 commercialize innovative technologies that ad-

1 dress crosscutting national energy challenges,  
2 including those affecting minority, rural, and  
3 other underserved communities, by methods  
4 that include—

5 (i) fostering collaboration and part-  
6 nerships with researchers from the Federal  
7 Government, State governments, institu-  
8 tions of higher education, including histori-  
9 cally Black colleges and universities, Tribal  
10 Colleges or Universities, and minority-serv-  
11 ing institutions, federally funded research  
12 and development centers, industry, and  
13 nonprofit organizations for the research,  
14 development, or commercialization of  
15 transformative energy and associated tech-  
16 nologies;

17 (ii) strengthening and sharing best  
18 practices relating to regional economic de-  
19 velopment through scientific and energy in-  
20 novation, including in partnership with an  
21 Individual Laboratory-Associated Founda-  
22 tion;

23 (iii) promoting new product develop-  
24 ment that supports job creation;

1 (iv) administering prize competi-  
2 tions—

3 (I) to accelerate private sector  
4 competition and investment; and

5 (II) that complement the use of  
6 prize authority by the Department;

7 (v) supporting programs that advance  
8 technology maturation, especially where  
9 there may be gaps in Federal or private  
10 funding in the commercialization of a pro-  
11 totype technology;

12 (vi) supporting efforts to broaden par-  
13 ticipation in energy technology develop-  
14 ment among individuals from historically  
15 underrepresented groups or regions; and

16 (vii) facilitating access to Department  
17 facilities, equipment, and expertise to as-  
18 sist in tackling national challenges.

19 (4) ACTIVITIES.—

20 (A) STUDIES, COMPETITIONS, AND  
21 PROJECTS.—The Foundation may conduct and  
22 support studies, competitions, projects, and  
23 other activities that further the purposes of the  
24 Foundation described in paragraph (3).

25 (B) FELLOWSHIPS AND GRANTS.—

1 (i) IN GENERAL.—The Foundation  
2 may award fellowships and grants for ac-  
3 tivities relating to research, development,  
4 demonstration, or commercialization of en-  
5 ergy and other Department-supported  
6 technologies.

7 (ii) FORM OF AWARD.—A fellowship  
8 or grant under clause (i) may consist of a  
9 stipend, health insurance benefits, funds  
10 for travel, and funds for other appropriate  
11 expenses.

12 (iii) SELECTION.—In selecting a re-  
13 cipient for a fellowship or grant under  
14 clause (i), the Foundation—

15 (I) shall make the selection based  
16 on the technical and commercializa-  
17 tion merits of the proposed project of  
18 the potential recipient; and

19 (II) may consult with a potential  
20 recipient regarding the ability of the  
21 potential recipient to carry out various  
22 projects that would further the pur-  
23 poses of the Foundation described in  
24 paragraph (3).

1 (iv) NATIONAL LABORATORIES.—A  
2 National Laboratory that applies for or ac-  
3 cepts an award under clause (i) shall not  
4 be considered to be engaging in a competi-  
5 tive process.

6 (C) ACCESSING FACILITIES AND EXPER-  
7 TISE.—The Foundation may work with the De-  
8 partment—

9 (i) to leverage the capabilities and fa-  
10 cilities of National Laboratories to com-  
11 mercialize technology; and

12 (ii) to assist with resources, including  
13 by providing information on the assets of  
14 each National Laboratory that may enable  
15 the commercialization of technology.

16 (D) TRAINING AND EDUCATION.—The  
17 Foundation may support programs that provide  
18 training to researchers, scientists, other rel-  
19 evant personnel at National Laboratories and  
20 institutions of higher education, and previous or  
21 current recipients of or applicants for Depart-  
22 ment funding to help research, develop, dem-  
23 onstrate, and commercialize federally funded  
24 technology.

1           (E) MATURATION FUNDING.—The Foun-  
2           dation shall support programs that provide  
3           maturation funding to researchers to advance  
4           the technology of those researchers for the pur-  
5           pose of moving products from a prototype stage  
6           to a commercial stage.

7           (F) STAKEHOLDER ENGAGEMENT.—The  
8           Foundation shall convene, and may consult  
9           with, representatives from the Department, in-  
10          stitutions of higher education, National Labora-  
11          tories, the private sector, and commercialization  
12          organizations to develop programs for the pur-  
13          poses of the Foundation described in paragraph  
14          (3) and to advance the activities of the Founda-  
15          tion.

16          (G) INDIVIDUAL AND FEDERAL LABORA-  
17          TORY-ASSOCIATED FOUNDATIONS.—

18                 (i) DEFINITION OF COVERED FOUN-  
19                 DATION.—In this subparagraph, the term  
20                 “covered foundation” means each of the  
21                 following:

22                         (I) An Individual Laboratory-As-  
23                         sociated Foundation.

1 (II) A Federal Laboratory-Asso-  
2 ciated Foundation established pursu-  
3 ant to subsection (c)(1).

4 (ii) SUPPORT.—The Foundation shall  
5 provide support to and collaborate with  
6 covered foundations.

7 (iii) GUIDELINES AND TEMPLATES.—  
8 For the purpose of providing support  
9 under clause (ii), the Secretary shall estab-  
10 lish suggested guidelines and templates for  
11 covered foundations, including—

12 (I) a standard adaptable organi-  
13 zational design for responsible man-  
14 agement;

15 (II) standard and legally tenable  
16 bylaws and money-handling proce-  
17 dures; and

18 (III) a standard training cur-  
19 riculum to orient and expand the op-  
20 erating expertise of personnel em-  
21 ployed by covered foundations.

22 (iv) AFFILIATIONS.—Nothing in this  
23 subparagraph requires—

24 (I) an existing Individual Labora-  
25 tory-Associated Foundation to modify

1 current practices or affiliate with the  
2 Foundation; or

3 (II) a covered foundation to be  
4 bound by charter or corporate bylaws  
5 as permanently affiliated with the  
6 Foundation.

7 (H) SUPPLEMENTAL PROGRAMS.—The  
8 Foundation may carry out supplemental pro-  
9 grams—

10 (i) to conduct and support forums,  
11 meetings, conferences, courses, and train-  
12 ing workshops consistent with the purposes  
13 of the Foundation described in paragraph  
14 (3);

15 (ii) to support and encourage the un-  
16 derstanding and development of data that  
17 promotes the translation of technologies  
18 from the research stage, through the devel-  
19 opment and maturation stage, and ending  
20 in the market stage;

21 (iii) for writing, editing, printing, pub-  
22 lishing, and vending books and other mate-  
23 rials relating to research carried out under  
24 the Foundation and the Department; and

1 (iv) to conduct other activities to  
2 carry out and support the purposes of the  
3 Foundation described in paragraph (3).

4 (I) EVALUATIONS.—The Foundation shall  
5 support the development of an evaluation meth-  
6 odology, to be used as part of any program sup-  
7 ported by the Foundation, that shall—

8 (i) consist of qualitative and quan-  
9 titative metrics; and

10 (ii) include periodic third-party eval-  
11 uation of those programs and other activi-  
12 ties of the Foundation.

13 (J) COMMUNICATIONS.—The Foundation  
14 shall develop an expertise in communications to  
15 promote the work of grant and fellowship re-  
16 cipients under subparagraph (B), the commer-  
17 cialization successes of the Foundation, oppor-  
18 tunities for partnership with the Foundation,  
19 and other activities.

20 (K) AUTHORITY OF FOUNDATION.—The  
21 Foundation shall be the sole entity responsible  
22 for carrying out the activities described in this  
23 paragraph.

24 (5) ADMINISTRATION.—

1           (A) EXECUTIVE DIRECTOR.—The Board  
2 shall hire an Executive Director of the Founda-  
3 tion, who shall serve at the pleasure of the  
4 Board. Subject to the compliance with the poli-  
5 cies and bylaws established by the Board pursu-  
6 ant to paragraph (2)(G), the Executive Director  
7 shall be responsible for the daily operations of  
8 the Foundation in carrying out the activities of  
9 the Foundation described in paragraph (4).

10           (B) ADMINISTRATIVE CONTROL.—No  
11 member of the Board, officer or employee of the  
12 Foundation or of any program established by  
13 the Foundation, or participant in a program es-  
14 tablished by the Foundation, shall exercise ad-  
15 ministrative control over any Federal employee.

16           (C) STRATEGIC PLAN.—Not later than 1  
17 year after the date of enactment of this Act, the  
18 Foundation shall submit to the Committee on  
19 Energy and Natural Resources of the Senate  
20 and the Committee on Science, Space, and  
21 Technology of the House of Representatives a  
22 strategic plan that contains—

23           (i) a plan for the Foundation to be-  
24 come financially self-sustaining in fiscal  
25 year 2023 and thereafter (except for the

1 amounts provided each fiscal year under  
2 paragraph (12)(A)(iii));

3 (ii) a forecast of major crosscutting  
4 energy challenge opportunities, including  
5 short- and long-term objectives, identified  
6 by the Board, with input from commu-  
7 nities representing the entities and areas  
8 of subject matter expertise, as applicable,  
9 described in paragraph (2)(B)(iii)(II);

10 (iii) a description of the efforts that  
11 the Foundation will take to be transparent  
12 in the processes of the Foundation, includ-  
13 ing processes relating to—

14 (I) grant awards, including selec-  
15 tion, review, and notification;

16 (II) communication of past, cur-  
17 rent, and future research priorities;  
18 and

19 (III) solicitation of and response  
20 to public input on the opportunities  
21 identified under clause (ii);

22 (iv) a description of the financial  
23 goals and benchmarks of the Foundation  
24 for the following 10 years;

1           (v) a description of the efforts under-  
2           taken by the Foundation to engage histori-  
3           cally underrepresented groups or regions,  
4           including through collaborations with his-  
5           torically Black colleges and universities,  
6           Tribal Colleges and Universities, minority-  
7           serving institutions, and minority-owned  
8           and women-owned businesses; and

9           (vi) a description of the efforts under-  
10          taken by the Foundation to ensure max-  
11          imum complementarity and minimum re-  
12          dundancy with investments made by the  
13          Department.

14          (D) ANNUAL REPORT.—Not later than 1  
15          year after the date on which the Foundation is  
16          established, and every 2 years thereafter, the  
17          Foundation shall submit to the Committee on  
18          Energy and Natural Resources of the Senate,  
19          the Committee on Science, Space, and Tech-  
20          nology of the House of Representatives, and the  
21          Secretary a report that, for the year covered by  
22          the report—

23                 (i) describes the activities of the  
24                 Foundation and the progress of the Foun-

1            dation in furthering the purposes of the  
2            Foundation described in paragraph (3);

3            (ii) provides a specific accounting of  
4            the source and use of all funds made avail-  
5            able to the Foundation to carry out those  
6            activities to ensure transparency in the  
7            alignment of Department missions and  
8            policies with national security;

9            (iii) describes how the results of the  
10           activities of the Foundation could be incor-  
11           porated into the procurement processes of  
12           the General Services Administration; and

13           (iv) includes a summary of each eval-  
14           uation conducted using the evaluation  
15           methodology described in paragraph (4)(I).

16           (E) EVALUATION BY COMPTROLLER GEN-  
17           ERAL.—Not later than 5 years after the date on  
18           which the Foundation is established, the Comp-  
19           troller General of the United States shall sub-  
20           mit to the Committee on Energy and Natural  
21           Resources of the Senate and the Committee on  
22           Science, Space, and Technology of the House of  
23           Representatives—

24           (i) an evaluation of—

1 (I) the extent to which the Foun-  
2 dation is achieving the mission of the  
3 Foundation; and

4 (II) the operation of the Founda-  
5 tion; and

6 (ii) any recommendations on how the  
7 Foundation may be improved.

8 (F) AUDITS.—The Foundation shall—

9 (i) provide for annual audits of the fi-  
10 nancial condition of the Foundation; and

11 (ii) make the audits, and all other  
12 records, documents, and papers of the  
13 Foundation, available to the Secretary and  
14 the Comptroller General of the United  
15 States for examination or audit.

16 (G) SEPARATE FUND ACCOUNTS.—The  
17 Board shall ensure that any funds received  
18 under paragraph (12)(A) are held in a separate  
19 account from any other funds received by the  
20 Foundation.

21 (H) INTEGRITY.—

22 (i) IN GENERAL.—To ensure integrity  
23 in the operations of the Foundation, the  
24 Board shall develop and enforce procedures  
25 relating to standards of conduct, financial

1 disclosure statements, conflicts of interest  
2 (including recusal and waiver rules), au-  
3 dits, and any other matters determined ap-  
4 propriate by the Board.

5 (ii) FINANCIAL CONFLICTS OF INTER-  
6 EST.—To mitigate conflicts of interest and  
7 risks from malign foreign influence, any  
8 individual who is an officer, employee, or  
9 member of the Board is prohibited from  
10 any participation in deliberations by the  
11 Foundation of a matter that would directly  
12 or predictably affect any financial interest  
13 of—

14 (I) the individual;

15 (II) a relative (as defined in sec-  
16 tion 109 of the Ethics in Government  
17 Act of 1978 (5 U.S.C. App.)) of that  
18 individual; or

19 (III) a business organization or  
20 other entity in which the individual  
21 has an interest, including an organiza-  
22 tion or other entity with which the in-  
23 dividual is negotiating employment.

24 (I) INTELLECTUAL PROPERTY.—The  
25 Board shall adopt written standards to govern

1 the ownership and licensing of any intellectual  
2 property rights developed by the Foundation or  
3 derived from the collaborative efforts of the  
4 Foundation.

5 (J) LIABILITY.—

6 (i) IN GENERAL.—The United States  
7 shall not be liable for any debts, defaults,  
8 acts, or omissions of—

9 (I) the Foundation;

10 (II) a Federal entity with respect  
11 to an agreement of that Federal enti-  
12 ty with the Foundation; or

13 (III) an Individual Laboratory-  
14 Associated Foundation with respect to  
15 an agreement of that Federal entity  
16 with the Foundation.

17 (ii) FULL FAITH AND CREDIT.—The  
18 full faith and credit of the United States  
19 shall not extend to any obligations of the  
20 Foundation.

21 (K) NONAPPLICABILITY OF FACA.—The  
22 Federal Advisory Committee Act (5 U.S.C.  
23 App.) shall not apply to the Foundation or an  
24 Individual Laboratory-Associated Foundation.

25 (6) DEPARTMENT COLLABORATION.—

1 (A) NATIONAL LABORATORIES.—The Sec-  
2 retary shall collaborate with the Foundation to  
3 develop a process to ensure collaboration and  
4 coordination between the Department, the  
5 Foundation, and National Laboratories—

6 (i) to streamline contracting processes  
7 between National Laboratories and the  
8 Foundation, including by—

9 (I) streamlining the ability of the  
10 Foundation to transfer equipment and  
11 funds to National Laboratories;

12 (II) standardizing contract mech-  
13 anisms to be used by the Foundation  
14 in engaging with National Labora-  
15 tories; and

16 (III) streamlining the ability of  
17 the Foundation to fund endowed posi-  
18 tions at National Laboratories;

19 (ii) to allow a National Laboratory or  
20 site of a National Laboratory—

21 (I) to accept and perform work  
22 for the Foundation, consistent with  
23 provided resources, notwithstanding  
24 any other provision of law governing  
25 the administration, mission, use, or

1 operations of the National Laboratory  
2 or site, as applicable; and

3 (II) to perform that work on a  
4 basis equal to other missions at the  
5 National Laboratory; and

6 (iii) to permit the director of any Na-  
7 tional Laboratory or site of a National  
8 Laboratory to enter into a cooperative re-  
9 search and development agreement or ne-  
10 gotiate a licensing agreement with the  
11 Foundation pursuant to section 12 of the  
12 Stevenson-Wydler Technology Innovation  
13 Act of 1980 (15 U.S.C. 3710a).

14 (B) DEPARTMENT LIAISONS.—The Sec-  
15 retary shall appoint liaisons from across the  
16 Department to collaborate and coordinate with  
17 the Foundation, including not less than 1 liai-  
18 son from the Office of Technology Transitions,  
19 who shall ensure that the Foundation works in  
20 conjunction with and does not duplicate existing  
21 activities and programs carried out by the De-  
22 partment including the Technology Commer-  
23 cialization Fund.

24 (C) ADMINISTRATION.—The Secretary  
25 shall leverage appropriate arrangements, con-

1           tracts, and directives to carry out the process  
2           developed under subparagraph (A).

3           (7) NATIONAL SECURITY.—Nothing in this sub-  
4           section exempts the Foundation from any national  
5           security policy of the Department.

6           (8) SUPPORT SERVICES.—The Secretary may  
7           provide facilities, utilities, and support services to  
8           the Foundation if it is determined by the Secretary  
9           to be advantageous to the research programs of the  
10          Department.

11          (9) ANTI-DEFICIENCY ACT.—Subsection (a)(1)  
12          of section 1341 of title 31, United States Code  
13          (commonly referred to as the “Anti-Deficiency  
14          Act”), shall not apply to any Federal officer or em-  
15          ployee carrying out any activity of the Foundation  
16          using funds of the Foundation.

17          (10) PREEMPTION OF AUTHORITY.—This sub-  
18          section shall not preempt any authority or responsi-  
19          bility of the Secretary under any other provision of  
20          law.

21          (11) TRANSFER FUNDS.—The Foundation may  
22          transfer funds to the Department, which shall be  
23          subject to all applicable Federal limitations relating  
24          to federally funded research.

25          (12) AUTHORIZATION OF APPROPRIATIONS.—

1 (A) IN GENERAL.—There is authorized to  
2 be appropriated—

3 (i) not less than \$1,500,000 for the  
4 Secretary for fiscal year 2022 to establish  
5 the Foundation;

6 (ii) not less than \$30,000,000 for the  
7 Foundation for fiscal year 2023 to carry  
8 out the activities of the Foundation; and

9 (iii) not less than \$3,000,000 for the  
10 Foundation for each of the fiscal years  
11 2024 through 2026, for administrative and  
12 operational costs.

13 (B) LIMITATION.—None of the funds au-  
14 thorized to be appropriated to the Secretary by  
15 subparagraph (A)(i) of this paragraph shall be  
16 used for construction.

17 (C) COST SHARE.—Funds made available  
18 under subparagraph (A)(ii) shall be required to  
19 be cost-shared by a partner of the Foundation  
20 other than the Department or a National Lab-  
21 oratory.

22 (c) NATIONAL ENERGY TECHNOLOGY LABORATORY-  
23 ASSOCIATED FOUNDATION.—

24 (1) ESTABLISHMENT.—

1 (A) IN GENERAL.—Notwithstanding any  
2 other provision of law, the National Energy  
3 Technology Laboratory may establish, or enter  
4 into an agreement with a nonprofit organization  
5 to establish, a Federal Laboratory-Associated  
6 Foundation (referred to in this subsection as a  
7 “Laboratory Foundation”) to support the mis-  
8 sion of the National Energy Technology Lab-  
9 oratory.

10 (B) NOT AGENCY OR INSTRUMEN-  
11 TILITY.—A Laboratory Foundation shall not be  
12 an agency or instrumentality of the Federal  
13 Government.

14 (C) GOVERNANCE STRUCTURE.—A Lab-  
15 oratory Foundation established under subpara-  
16 graph (A) shall have a separate governance  
17 structure from, and shall be managed independ-  
18 ently of, the National Energy Technology Lab-  
19 oratory.

20 (2) ACTIVITIES.—Activities of a Laboratory  
21 Foundation may include—

22 (A) conducting support studies, competi-  
23 tions, projects, research, and other activities  
24 that further the purpose of the Laboratory  
25 Foundation;

1 (B) carrying out programs to foster col-  
2 laboration and partnership among researchers  
3 from the Federal Government, State govern-  
4 ments, institutions of higher education, feder-  
5 ally funded research and development centers,  
6 and industry and nonprofit organizations relat-  
7 ing to the research, development, and commer-  
8 cialization of federally supported technologies;

9 (C) carrying out programs to leverage  
10 technologies to support new product develop-  
11 ment that supports regional economic develop-  
12 ment;

13 (D) administering prize competitions—

14 (i) to accelerate private sector com-  
15 petition and investment; and

16 (ii) that complement the use of prize  
17 authority by the Department;

18 (E) providing fellowships and grants to re-  
19 search and development personnel at, or affili-  
20 ated with, federally funded centers, in accord-  
21 ance with paragraph (3); and

22 (F) carrying out programs—

23 (i) that allow scientists from foreign  
24 countries to serve in research capacities in  
25 the United States or other countries in as-

1                   society with the National Energy Tech-  
2                   nology Laboratory;

3                   (ii) that provide opportunities for em-  
4                   ployees of the National Energy Technology  
5                   Laboratory to serve in research capacities  
6                   in foreign countries;

7                   (iii) to conduct studies, projects, or  
8                   research in collaboration with national and  
9                   international nonprofit and for-profit orga-  
10                  nizations, which may include the provision  
11                  of stipends, travel, and other support for  
12                  personnel;

13                  (iv)(I) to hold forums, meetings, con-  
14                  ferences, courses, and training workshops  
15                  that may include undergraduate, graduate,  
16                  post-graduate, and post-doctoral accredited  
17                  courses; and

18                  (II) for the accreditation of those  
19                  courses by the Laboratory Foundation at  
20                  the State and national level for college de-  
21                  grees or continuing education credits;

22                  (v) to support and encourage teachers  
23                  and students of science at all levels of edu-  
24                  cation;

1 (vi) to promote an understanding of  
2 science amongst the general public;

3 (vii) for writing, editing, printing,  
4 publishing, and vending of relevant books  
5 and other materials; and

6 (viii) for the conduct of other activi-  
7 ties to carry out and support the purpose  
8 of the Laboratory Foundation.

9 (3) FELLOWSHIPS AND GRANTS.—

10 (A) SELECTION.—Recipients of fellowships  
11 and grants described in paragraph (2)(E) shall  
12 be selected—

13 (i) by a Laboratory Foundation and  
14 the donors to a Laboratory Foundation;

15 (ii) subject to the agreement of the  
16 head of the agency the mission of which is  
17 supported by a Laboratory Foundation;  
18 and

19 (iii) in the case of a fellowship, based  
20 on the recommendation of the employees of  
21 the National Energy Technology Labora-  
22 tory at which the fellow would serve.

23 (B) EXPENSES.—Fellowships and grants  
24 described in paragraph (2)(E) may include sti-

1           pends, travel, health insurance, benefits, and  
2           other appropriate expenses.

3           (4) LIABILITY.—The United States shall not be  
4           liable for any debts, defaults, acts, or omissions of  
5           a Laboratory Foundation.

6           (5) OTHER LAWS.—This subsection shall not  
7           alter or supersede any other provision of law gov-  
8           erning the authority, scope, establishment, or use of  
9           nonprofit organizations by a Federal agency.

10           **DIVISION C—ENERGY AND**  
11           **COMMERCE**  
12           **TITLE I—COMMUNICATIONS AND**  
13           **TECHNOLOGY**

14           **SEC. 20101. APPROPRIATIONS FOR WIRELESS SUPPLY**  
15           **CHAIN INNOVATION.**

16           (a) DIRECT APPROPRIATIONS.—In addition to  
17           amounts otherwise available for such purposes, there is  
18           appropriated to the Public Wireless Supply Chain Innova-  
19           tion Fund established under section 9202(a)(1) of the Wil-  
20           liam M. (Mac) Thornberry National Defense Authoriza-  
21           tion Act for Fiscal Year 2021 (Public Law 116–283), out  
22           of amounts in the Treasury not otherwise appropriated,  
23           \$1,500,000,000 for fiscal year 2022, to remain available  
24           through September 30, 2031.

1 (b) USE OF FUNDS, ADMINISTRATION, AND OVER-  
2 SIGHT.—Of the amounts made available under subsection  
3 (a)—

4 (1) not more than 5 percent of the amounts al-  
5 located pursuant to subsection (c) in a given fiscal  
6 year may be used by the Assistant Secretary of  
7 Commerce for Communications and Information to  
8 administer the programs funded from the Public  
9 Wireless Supply Chain Innovation Fund; and

10 (2) not less than \$2,000,000 per fiscal year  
11 shall be transferred to the Office of Inspector Gen-  
12 eral of the Department of Commerce for oversight  
13 related to activities conducted using amounts pro-  
14 vided under this section.

15 (c) ALLOCATION AUTHORITY.—

16 (1) SUBMISSION OF COST ESTIMATES.—The  
17 President shall submit to Congress detailed account,  
18 program, and project allocations of the amount rec-  
19 ommended for allocation in a fiscal year from  
20 amounts made available under subsection (a)—

21 (A) for fiscal years 2022 and 2023, not  
22 later than 90 days after the date of enactment  
23 of this Act; and

24 (B) for each subsequent fiscal year  
25 through 2031, as part of the annual budget

1 submission of the President under section  
2 1105(a) of title 31, United States Code.

3 (2) ALTERNATE ALLOCATION.—

4 (A) IN GENERAL.—The Committees on  
5 Appropriations of the House of Representatives  
6 and the Senate may provide for alternate allo-  
7 cation of amounts recommended for allocation  
8 in a given fiscal year from amounts made avail-  
9 able under subsection (a), including by account,  
10 program, and project.

11 (B) ALLOCATION BY PRESIDENT.—

12 (i) NO ALTERNATE ALLOCATIONS.—If  
13 Congress has not enacted legislation estab-  
14 lishing alternate allocations, including by  
15 account, program, and project, by the date  
16 on which the Act making full-year appro-  
17 priations for the Departments of Com-  
18 merce and Justice, Science, and Related  
19 Agencies for the applicable fiscal year is  
20 enacted into law, only then shall amounts  
21 recommended for allocation for that fiscal  
22 year from amounts made available under  
23 subsection (a) be allocated by the Presi-  
24 dent or apportioned or allotted by account,

1 program, and project pursuant to title 31,  
2 United States Code.

3 (ii) INSUFFICIENT ALTERNATE ALLO-  
4 CATION.—If Congress enacts legislation es-  
5 tablishing alternate allocations, including  
6 by account, program, and project, for  
7 amounts recommended for allocation in a  
8 given fiscal year from amounts made avail-  
9 able under subsection (a) that are less  
10 than the full amount recommended for al-  
11 location for that fiscal year, the difference  
12 between the amount recommended for allo-  
13 cation and the alternate allocation shall be  
14 allocated by the President and apportioned  
15 and allotted by account, program, and  
16 project pursuant to title 31, United States  
17 Code.

18 (d) SEQUESTRATION.—Section 255(g)(1)(A) of the  
19 Balanced Budget and Emergency Deficit Control Act of  
20 1985 (2 U.S.C. 905(g)(1)(A)) is amended by inserting  
21 after “Postal Service Fund (18–4020–0–3–372).” the fol-  
22 lowing:

23 “Public Wireless Supply Chain Innovation  
24 Fund.”.

1 (e) STATUTORY PAYGO SCORECARDS.—The budg-  
2 etary effects of this section shall not be entered on either  
3 PAYGO scorecard maintained pursuant to section 4(d) of  
4 the Statutory Pay-As-You-Go Act of 2010.

5 (f) CONSTRUCTION PROJECTS.—Section 602 of the  
6 Public Works and Economic Development Act of 1965 (42  
7 U.S.C. 3212) shall apply to a construction project that  
8 receives financial assistance from amounts made available  
9 under subsection (a).

10 (g) WIRELESS SUPPLY CHAIN INNOVATION AND  
11 MULTILATERAL SECURITY CONSTRUCTION PROJECTS.—  
12 Section 9202(a)(1)(B) of the William M. (Mac) Thorn-  
13 berry National Defense Authorization Act for Fiscal Year  
14 2021 (Public Law 116–283) is amended by adding at the  
15 end the following:

16 “(iii) CONSTRUCTION PROJECTS.—  
17 Section 602 of the Public Works and Eco-  
18 nomic Development Act of 1965 (42  
19 U.S.C. 3212) shall apply to a construction  
20 project that receives financial assistance  
21 under this paragraph.”.

22 **SEC. 20102. UNDERSTANDING CYBERSECURITY OF MOBILE**  
23 **NETWORKS.**

24 (a) IN GENERAL.—Not later than 1 year after the  
25 date of the enactment of this Act, the Assistant Secretary,

1 in consultation with the Department of Homeland Secu-  
2 rity, shall submit to the Committee on Energy and Com-  
3 merce and the Permanent Select Committee on Intel-  
4 ligence of the House of Representatives and the Com-  
5 mittee on Commerce, Science, and Transportation and the  
6 Select Committee on Intelligence of the Senate a report  
7 examining the cybersecurity of mobile service networks  
8 and the vulnerability of such networks and mobile devices  
9 to cyberattacks and surveillance conducted by adversaries.

10 (b) MATTERS TO BE INCLUDED.—The report re-  
11 quired by subsection (a) shall include the following:

12 (1) An assessment of the degree to which pro-  
13 viders of mobile service have addressed, are address-  
14 ing, or have not addressed cybersecurity  
15 vulnerabilities (including vulnerabilities the exploi-  
16 tation of which could lead to surveillance conducted  
17 by adversaries) identified by academic and inde-  
18 pendent researchers, multistakeholder standards and  
19 technical organizations, industry experts, and Fed-  
20 eral agencies, including in relevant reports of—

21 (A) the National Telecommunications and  
22 Information Administration;

23 (B) the National Institute of Standards  
24 and Technology; and

1 (C) the Department of Homeland Security,  
2 including—

3 (i) the Cybersecurity and Infrastruc-  
4 ture Security Agency; and

5 (ii) the Science and Technology Direc-  
6 torate.

7 (2) A discussion of—

8 (A) the degree to which customers (includ-  
9 ing consumers, companies, and government  
10 agencies) consider cybersecurity as a factor  
11 when considering the purchase of mobile service  
12 and mobile devices; and

13 (B) the commercial availability of tools,  
14 frameworks, best practices, and other resources  
15 for enabling such customers to evaluate cyber-  
16 security risk and price tradeoffs.

17 (3) A discussion of the degree to which pro-  
18 viders of mobile service have implemented cybersecu-  
19 rity best practices and risk assessment frameworks.

20 (4) An estimate and discussion of the preva-  
21 lence and efficacy of encryption and authentication  
22 algorithms and techniques used in each of the fol-  
23 lowing:

24 (A) Mobile service.

1 (B) Mobile communications equipment or  
2 services.

3 (C) Commonly used mobile phones and  
4 other mobile devices.

5 (D) Commonly used mobile operating sys-  
6 tems and communications software and applica-  
7 tions.

8 (5) A discussion of the barriers for providers of  
9 mobile service to adopt more efficacious encryption  
10 and authentication algorithms and techniques and to  
11 prohibit the use of older encryption and authentica-  
12 tion algorithms and techniques with established  
13 vulnerabilities in mobile service, mobile communica-  
14 tions equipment or services, and mobile phones and  
15 other mobile devices.

16 (6) An estimate and discussion of the preva-  
17 lence, usage, and availability of technologies that au-  
18 thenticate legitimate mobile service and mobile com-  
19 munications equipment or services to which mobile  
20 phones and other mobile devices are connected.

21 (7) An estimate and discussion of the preva-  
22 lence, costs, commercial availability, and usage by  
23 adversaries in the United States of cell site simula-  
24 tors (often known as international mobile subscriber

1 identity-catchers) and other mobile service surveil-  
2 lance and interception technologies.

3 (c) CONSULTATION.—In preparing the report re-  
4 quired by subsection (a), the Assistant Secretary shall, to  
5 the degree practicable, consult with—

6 (1) the Federal Communications Commission;

7 (2) the National Institute of Standards and  
8 Technology;

9 (3) the intelligence community;

10 (4) the Cybersecurity and Infrastructure Secu-  
11 rity Agency of the Department of Homeland Secu-  
12 rity;

13 (5) the Science and Technology Directorate of  
14 the Department of Homeland Security;

15 (6) academic and independent researchers with  
16 expertise in privacy, encryption, cybersecurity, and  
17 network threats;

18 (7) participants in multistakeholder standards  
19 and technical organizations (including the 3rd Gen-  
20 eration Partnership Project and the Internet Engi-  
21 neering Task Force);

22 (8) international stakeholders, in coordination  
23 with the Department of State as appropriate;

24 (9) providers of mobile service, including small  
25 providers (or the representatives of such providers)

1 and rural providers (or the representatives of such  
2 providers);

3 (10) manufacturers, operators, and providers of  
4 mobile communications equipment or services and  
5 mobile phones and other mobile devices;

6 (11) developers of mobile operating systems and  
7 communications software and applications; and

8 (12) other experts that the Assistant Secretary  
9 considers appropriate.

10 (d) SCOPE OF REPORT.—The Assistant Secretary  
11 shall—

12 (1) limit the report required by subsection (a)  
13 to mobile service networks;

14 (2) exclude consideration of 5G protocols and  
15 networks in the report required by subsection (a);

16 (3) limit the assessment required by subsection  
17 (b)(1) to vulnerabilities that have been shown to  
18 be—

19 (A) exploited in non-laboratory settings; or

20 (B) feasibly and practicably exploitable in  
21 real-world conditions; and

22 (4) consider in the report required by sub-  
23 section (a) vulnerabilities that have been effectively  
24 mitigated by manufacturers of mobile phones and  
25 other mobile devices.

1 (e) FORM OF REPORT.—

2 (1) CLASSIFIED INFORMATION.—The report re-  
3 quired by subsection (a) shall be produced in unclas-  
4 sified form but may contain a classified annex.

5 (2) POTENTIALLY EXPLOITABLE UNCLASSIFIED  
6 INFORMATION.—The Assistant Secretary shall re-  
7 dact potentially exploitable unclassified information  
8 from the report required by subsection (a) but shall  
9 provide an unredacted form of the report to the  
10 committees described in such subsection.

11 (f) AUTHORIZATION OF APPROPRIATIONS.—There is  
12 authorized to be appropriated to carry out this section  
13 \$500,000 for fiscal year 2022. Such amount is authorized  
14 to remain available through fiscal year 2023.

15 (g) DEFINITIONS.—In this section:

16 (1) ADVERSARY.—The term “adversary” in-  
17 cludes—

18 (A) any unauthorized hacker or other in-  
19 truder into a mobile service network; and

20 (B) any foreign government or foreign  
21 nongovernment person engaged in a long-term  
22 pattern or serious instances of conduct signifi-  
23 cantly adverse to the national security of the  
24 United States or security and safety of United  
25 States persons.

1           (2) ASSISTANT SECRETARY.—The term “Assist-  
2           ant Secretary” means the Assistant Secretary of  
3           Commerce for Communications and Information.

4           (3) ENTITY.—The term “entity” means a part-  
5           nership, association, trust, joint venture, corpora-  
6           tion, group, subgroup, or other organization.

7           (4) INTELLIGENCE COMMUNITY.—The term  
8           “intelligence community” has the meaning given  
9           that term in section 3 of the National Security Act  
10          of 1947 (50 U.S.C. 3003).

11          (5) MOBILE COMMUNICATIONS EQUIPMENT OR  
12          SERVICE.—The term “mobile communications equip-  
13          ment or service” means any equipment or service  
14          that is essential to the provision of mobile service.

15          (6) MOBILE SERVICE.—The term “mobile serv-  
16          ice” means, to the extent provided to United States  
17          customers, either or both of the following services:

18                 (A) Commercial mobile service (as defined  
19                 in section 332(d) of the Communications Act of  
20                 1934 (47 U.S.C. 332(d))).

21                 (B) Commercial mobile data service (as de-  
22                 fined in section 6001 of the Middle Class Tax  
23                 Relief and Job Creation Act of 2012 (47 U.S.C.  
24                 1401)).

1           (7) PERSON.—The term “person” means an in-  
2           dividual or entity.

3           (8) UNITED STATES PERSON.—The term  
4           “United States person” means—

5                   (A) an individual who is a United States  
6                   citizen or an alien lawfully admitted for perma-  
7                   nent residence to the United States;

8                   (B) an entity organized under the laws of  
9                   the United States or any jurisdiction within the  
10                  United States, including a foreign branch of  
11                  such an entity; or

12                  (C) any person in the United States.

13 **SEC. 20103. INFORMATION AND COMMUNICATION TECH-**  
14 **NOLOGY STRATEGY.**

15           (a) REPORT.—Not later than 1 year after the date  
16 of the enactment of this Act, the Secretary shall submit  
17 to the Committee on Energy and Commerce and the Per-  
18 manent Select Committee on Intelligence and the Com-  
19 mittee on Foreign Affairs of the House of Representatives  
20 and the Committee on Commerce, Science, and Transpor-  
21 tation and the Select Committee on Intelligence and the  
22 Committee on Foreign Relations of the Senate a report  
23 on the information and communication technology supply  
24 chain that—

25                   (1) identifies—

1 (A) information and communication tech-  
2 nology critical to the economic competitiveness  
3 of the United States; and

4 (B) the industrial capacity of—

5 (i) United States vendors that  
6 produce information and communication  
7 technology identified under subparagraph  
8 (A); and

9 (ii) trusted information and commu-  
10 nication technology vendors that produce  
11 information and communication technology  
12 identified under subparagraph (A);

13 (2) assesses the economic competitiveness of  
14 vendors described under paragraph (1)(B);

15 (3) assesses whether, and to what extent, there  
16 is a dependence by providers of advanced tele-  
17 communications capability in the United States on  
18 information and communication technology identified  
19 under paragraph (1)(A) that is not trusted;

20 (4) identifies—

21 (A) what actions by the Federal Govern-  
22 ment are needed to support, and bolster the  
23 economic competitiveness of, trusted informa-  
24 tion and communication technology vendors;  
25 and

1 (B) what Federal resources are needed to  
2 reduce dependence by providers of advanced  
3 telecommunications capability in the United  
4 States on companies that—

5 (i) produce information and commu-  
6 nication technology; and

7 (ii) are not trusted; and

8 (5) defines lines of effort and assigns respon-  
9 sibilities for a whole-of-Government response to en-  
10 suring the competitiveness of the information and  
11 communication technology supply chain in the  
12 United States.

13 (b) WHOLE-OF-GOVERNMENT STRATEGY.—

14 (1) IN GENERAL.—The Secretary shall develop,  
15 on the basis of the report required by subsection (a),  
16 a whole-of-Government strategy to ensure the eco-  
17 nomic competitiveness of trusted information and  
18 communication technology vendors that includes—

19 (A) recommendations on how—

20 (i) to strengthen the structure, re-  
21 sources, and authorities of the Federal  
22 Government to support the economic com-  
23 petitiveness of trusted information and  
24 communication technology vendors, includ-  
25 ing United States vendors that are trusted

1 information and communication technology  
2 vendors; and

3 (ii) the Federal Government can ad-  
4 dress any barriers to a market-based solu-  
5 tion for increasing the economic competi-  
6 tiveness of such information and commu-  
7 nication technology vendors;

8 (B) defined lines of effort and responsibil-  
9 ities for Federal agencies to implement the  
10 strategy; and

11 (C) a description of—

12 (i) any change to a Federal program,  
13 Federal law, or structure of the Federal  
14 Government necessary to implement any  
15 recommendation under subparagraph (A);  
16 and

17 (ii) any additional Federal resource  
18 necessary to implement any recommenda-  
19 tion under subparagraph (A).

20 (2) REPORT.—Not later than 180 days after  
21 the submission of the report required by subsection  
22 (a), the Secretary shall submit to the Committee on  
23 Energy and Commerce and the Permanent Select  
24 Committee on Intelligence of the House of Rep-  
25 resentatives and the Committee on Commerce,

1 Science, and Transportation and the Select Com-  
2 mittee on Intelligence of the Senate a report con-  
3 taining the strategy developed under paragraph (1).

4 (c) CONSULTATION REQUIRED.—In carrying out sub-  
5 sections (a) and (b), the Secretary shall consult with—

6 (1) a cross-section of trusted information and  
7 communication technology vendors; and

8 (2) the Secretary of State, the Secretary of  
9 Homeland Security, the Attorney General, the Direc-  
10 tor of National Intelligence, the Chair of the Federal  
11 Communications Commission and any other head of  
12 an agency the Secretary determines necessary.

13 (d) DEFINITIONS.—In this section:

14 (1) ADVANCED TELECOMMUNICATIONS CAPA-  
15 BILITY.—The term “advanced telecommunications  
16 capability” has the meaning given that term in sec-  
17 tion 706 of the Telecommunications Act of 1996 (47  
18 U.S.C. 1302).

19 (2) INFORMATION AND COMMUNICATION TECH-  
20 NOLOGY SUPPLY CHAIN.—The term “information  
21 and communication technology supply chain” means  
22 all of the companies that produce information and  
23 communication technology.

24 (3) INFORMATION AND COMMUNICATION TECH-  
25 NOLOGY.—The term “information and communica-

1       tion technology” means a technology (including soft-  
2       ware), component, or material that enables commu-  
3       nications by radio or wire.

4           (4) NOT TRUSTED.—The term “not trusted”  
5       means, with respect to a company or information  
6       and communication technology, that the company or  
7       information and communication technology is deter-  
8       mined by the Secretary to pose an unacceptable risk  
9       to the national security of the United States, or the  
10      security and safety of United States persons, based  
11      solely on one or more determination described under  
12      paragraphs (1) through (4) of section 2(c) of the Se-  
13      cure and Trusted Communications Networks Act of  
14      2019 (47 U.S.C. 1601(c)).

15          (5) SECRETARY.—The term “Secretary” means  
16      the Secretary of Commerce, acting through the As-  
17      sistant Secretary of Commerce for Communications  
18      and Information.

19          (6) TRUSTED.—The term “trusted” means,  
20      with respect to a company, that the Secretary has  
21      not determined that the company is not trusted.

22          (7) TRUSTED INFORMATION AND COMMUNICA-  
23      TION TECHNOLOGY VENDOR.—The term “trusted in-  
24      formation and communication technology vendor”  
25      means a company—

1 (A) that produces information and commu-  
2 nication technology; and

3 (B) that is trusted.

4 **SEC. 20104. OPEN RAN OUTREACH.**

5 (a) IN GENERAL.—The Assistant Secretary shall con-  
6 duct outreach and provide technical assistance to small  
7 communications network providers—

8 (1) to raise awareness regarding the uses, bene-  
9 fits, and challenges of Open RAN networks and  
10 other open network architectures; and

11 (2) regarding participation in the Wireless Sup-  
12 ply Chain Innovation Grant Program established  
13 under section 9202(a)(1) of the William M. (Mac)  
14 Thornberry National Defense Authorization Act for  
15 Fiscal Year 2021 (Public Law 116–283).

16 (b) DEFINITIONS.—In this section:

17 (1) ASSISTANT SECRETARY.—The term “Assist-  
18 ant Secretary” means the Assistant Secretary of  
19 Commerce for Communications and Information,  
20 acting through the head of the Office of Internet  
21 Connectivity and Growth.

22 (2) OPEN NETWORK ARCHITECTURE.—The  
23 term “open network architecture” means Open RAN  
24 networks and other network elements that follow a  
25 set of published open standards for multi-vendor

1 network equipment interoperability, including open  
2 core and open transport.

3 (3) OPEN RAN NETWORK.—The term “Open  
4 RAN network” means a wireless network that fol-  
5 lows the Open Radio Access Network approach to  
6 standardization adopted by the O-RAN Alliance,  
7 Telecom Infra Project, or Third Generation Partner-  
8 ship Project (3GPP), or any similar set of published  
9 open standards for multi-vendor network equipment  
10 interoperability.

11 **SEC. 20105. FUTURE NETWORKS.**

12 (a) ESTABLISHMENT.—Not later than 120 days after  
13 the date of the enactment of this Act, the Commission  
14 shall establish a task force to be known as the “6G Task  
15 Force”.

16 (b) MEMBERSHIP.—

17 (1) APPOINTMENT.—The members of the Task  
18 Force shall be appointed by the Chair.

19 (2) COMPOSITION.—To the extent practicable,  
20 the membership of the Task Force shall be com-  
21 posed of the following:

22 (A) Representatives of companies in the  
23 communications industry, except companies  
24 that are determined by the Chair to be not  
25 trusted.

1           (B) Representatives of public interest orga-  
2           nizations or academic institutions, except public  
3           interest organizations or academic institutions  
4           that are determined by the Chair to be not  
5           trusted.

6           (C) Representatives of the Federal Govern-  
7           ment, State governments, local governments, or  
8           Tribal Governments, with at least one member  
9           representing each such type of government.

10       (c) REPORT.—

11           (1) IN GENERAL.—Not later than 1 year after  
12           the date on which the Task Force is established  
13           under subsection (a), the Task Force shall publish  
14           in the Federal Register and on the website of the  
15           Commission, and submit to the Committee on En-  
16           ergy and Commerce of the House of Representatives  
17           and the Committee on Commerce, Science, and  
18           Transportation of the Senate, a report on sixth-gen-  
19           eration wireless technology, including—

20                   (A) the status of industry-led standards-  
21                   setting bodies in setting standards for such  
22                   technology;

23                   (B) possible uses of such technology identi-  
24                   fied by industry-led standards-setting bodies  
25                   that are setting standards for such technology;

1 (C) any limitations of such technology (in-  
2 cluding any supply chain or cybersecurity limi-  
3 tations) identified by industry-led standards-set-  
4 ting bodies that are setting standards for such  
5 technology; and

6 (D) how to best work with entities across  
7 the Federal Government, State governments,  
8 local governments, and Tribal Governments to  
9 leverage such technology, including with regard  
10 to siting, deployment, and adoption.

11 (2) DRAFT REPORT; PUBLIC COMMENT.—The  
12 Task Force shall—

13 (A) not later than 180 days after the date  
14 on which the Task Force is established under  
15 subsection (a), publish in the Federal Register  
16 and on the website of the Commission a draft  
17 of the report required by paragraph (1); and

18 (B) accept public comments on such draft  
19 and take such comments into consideration in  
20 preparing the final version of such report.

21 (d) DEFINITIONS.—In this section:

22 (1) CHAIR.—The term “Chair” means the  
23 Chair of the Commission.

24 (2) COMMISSION.—The term “Commission”  
25 means the Federal Communications Commission.

1 (3) NOT TRUSTED.—

2 (A) IN GENERAL.—The term “not trusted”  
3 means, with respect to an entity, that—

4 (i) the Chair has made a public deter-  
5 mination that such entity is owned by, con-  
6 trolled by, or subject to the influence of a  
7 foreign adversary; or

8 (ii) the Chair otherwise determines  
9 that such entity poses a threat to the na-  
10 tional security of the United States.

11 (B) CRITERIA FOR DETERMINATION.—In  
12 making a determination under subparagraph  
13 (A)(ii), the Chair shall use the criteria de-  
14 scribed in paragraphs (1) through (4) of section  
15 2(c) of the Secure and Trusted Communica-  
16 tions Networks Act of 2019 (47 U.S.C.  
17 1601(c)), as appropriate.

18 (4) STATE.—The term “State” has the mean-  
19 ing given such term in section 3 of the Communica-  
20 tions Act of 1934 (47 U.S.C. 153).

21 (5) TASK FORCE.—The term “Task Force”  
22 means the 6G Task Force established under sub-  
23 section (a).

1 **SEC. 20106. NTIA POLICY AND CYBERSECURITY COORDINA-**  
2 **TION.**

3 (a) OFFICE OF POLICY DEVELOPMENT AND CYBER-  
4 SECURITY.—Part A of title I of the National Tele-  
5 communications and Information Administration Organi-  
6 zation Act (47 U.S.C. 901 et seq.) is amended by adding  
7 at the end the following:

8 **“SEC. 106. OFFICE OF POLICY DEVELOPMENT AND CYBER-**  
9 **SECURITY.**

10 “(a) ESTABLISHMENT.—There shall be within the  
11 NTIA an office to be known as the Office of Policy Devel-  
12 opment and Cybersecurity (in this section referred to as  
13 the ‘Office’).

14 “(b) ASSOCIATE ADMINISTRATOR.—The head of the  
15 Office shall be an Associate Administrator for Policy De-  
16 velopment and Cybersecurity (in this section referred to  
17 as the ‘Associate Administrator’), who shall report to the  
18 Assistant Secretary.

19 “(c) DUTIES.—

20 “(1) IN GENERAL.—The Associate Adminis-  
21 trator shall oversee and conduct national commu-  
22 nications and information policy analysis and devel-  
23 opment for the internet and communications tech-  
24 nologies.

25 “(2) PARTICULAR DUTIES.—In carrying out  
26 paragraph (1), the Office shall—

1           “(A) develop, analyze, and advocate for  
2 market-based policies that promote innovation,  
3 competition, consumer access, digital inclusion,  
4 workforce development, and economic growth in  
5 the communications, media, and technology  
6 markets;

7           “(B) issue studies, as delegated by the As-  
8 sistant Secretary or required by Congress, on  
9 how individuals in the United States access and  
10 use the internet, wireline and wireless teleph-  
11 ony, mass media, other digital services, and  
12 video services;

13           “(C) coordinate transparent, consensus-  
14 based, multistakeholder processes to create  
15 guidance or to support the development and im-  
16 plementation of cybersecurity and privacy poli-  
17 cies with respect to the internet and other com-  
18 munications networks;

19           “(D) promote increased collaboration be-  
20 tween security researchers and providers of  
21 communications services and software system  
22 developers;

23           “(E) perform such duties as the Assistant  
24 Secretary considers appropriate relating to the  
25 program for preventing future vulnerabilities es-

1           tablished under section 8(a) of the Secure and  
2           Trusted Communications Networks Act of 2019  
3           (47 U.S.C. 1607(a));

4           “(F) advocate for policies that promote the  
5           security and resilience to cybersecurity incidents  
6           of communications networks while fostering in-  
7           novation, including policies that promote secure  
8           communications network supply chains;

9           “(G) at the direction of the Assistant Sec-  
10          retary, present security of the digital economy  
11          and infrastructure and cybersecurity policy ef-  
12          forts before the Commission, Congress, and  
13          elsewhere;

14          “(H) provide advice and assistance to the  
15          Assistant Secretary in carrying out the policy  
16          responsibilities of the NTIA with respect to cy-  
17          bersecurity policy matters, including the evalua-  
18          tion of the impact of cybersecurity matters  
19          pending before the Commission, other Federal  
20          agencies, and Congress;

21          “(I) in addition to the duties described in  
22          subparagraph (H), perform such other duties  
23          regarding the policy responsibilities of the  
24          NTIA with respect to cybersecurity policy mat-

1           ters as the Assistant Secretary considers appro-  
2           priate;

3           “(J) develop policies to accelerate innova-  
4           tion and commercialization with respect to ad-  
5           vances in technological understanding of com-  
6           munications technologies;

7           “(K) identify barriers to trust, security, in-  
8           novation, and commercialization with respect to  
9           communications technologies, including access  
10          to capital and other resources, and ways to  
11          overcome such barriers;

12          “(L) provide public access to relevant data,  
13          research, and technical assistance on innovation  
14          and commercialization with respect to commu-  
15          nications technologies, consistent with the pro-  
16          tection of classified information;

17          “(M) strengthen collaboration on and co-  
18          ordination of policies relating to innovation and  
19          commercialization with respect to communica-  
20          tions technologies, including policies focused on  
21          the needs of small businesses and rural commu-  
22          nities—

23                  “(i) within the Department of Com-  
24                  merce;

1           “(ii) between the Department of Com-  
2           merce and State government agencies, as  
3           appropriate; and

4           “(iii) between the Department of  
5           Commerce and the Commission or any  
6           other Federal agency the Assistant Sec-  
7           retary determines to be necessary; and

8           “(N) solicit and consider feedback from  
9           small and rural communications service pro-  
10          viders, as appropriate.”.

11       (b) TRANSITIONAL RULES.—

12           (1) REDESIGNATION OF ASSOCIATE ADMINIS-  
13          TRATOR; CONTINUATION OF SERVICE.—

14           (A) REDESIGNATION.—The position of As-  
15          sociate Administrator for Policy Analysis and  
16          Development at the NTIA is hereby redesi-  
17          gnated as the position of Associate Adminis-  
18          trator for Policy Development and Cybersecu-  
19          rity.

20           (B) CONTINUATION OF SERVICE.—The in-  
21          dividual serving as Associate Administrator for  
22          Policy Analysis and Development at the NTIA  
23          on the date of the enactment of this Act shall  
24          become, as of such date, the Associate Adminis-

1           trator for Policy Development and Cybersecu-  
2           rity.

3           (2) NTIA DEFINED.—In this subsection, the  
4           term “NTIA” means the National Telecommuni-  
5           cations and Information Administration.

6 **SEC. 20107. AMERICAN CYBERSECURITY LITERACY.**

7           (a) IN GENERAL.—The Secretary of Commerce, in  
8           consultation with the Director of the Cybersecurity and  
9           Infrastructure Security Agency, shall develop and conduct  
10          a cybersecurity literacy campaign (which shall be available  
11          in multiple languages and formats, if practicable) to in-  
12          crease the knowledge and awareness of the American peo-  
13          ple of best practices to reduce cybersecurity risks.

14          (b) CAMPAIGN.—To reduce cybersecurity risks, the  
15          Secretary of Commerce, in consultation with the Director  
16          of the Cybersecurity and Infrastructure Security Agency,  
17          shall—

18                  (1) educate the American people on how to pre-  
19          vent and mitigate cyberattacks and cybersecurity  
20          risks, including by—

21                          (A) instructing the American people on  
22                          how to identify—

23                                  (i) phishing emails and messages; and

24                                  (ii) secure websites;

1 (B) instructing the American people about  
2 the benefits of changing default passwords on  
3 hardware and software technology;

4 (C) encouraging the use of cybersecurity  
5 tools, including—

- 6 (i) multi-factor authentication;
- 7 (ii) complex passwords;
- 8 (iii) anti-virus software;
- 9 (iv) patching and updating software  
10 and applications; and

11 (v) virtual private networks;

12 (D) identifying the devices that could pose  
13 possible cybersecurity risks, including—

- 14 (i) personal computers;
- 15 (ii) smartphones;
- 16 (iii) tablets;
- 17 (iv) Wi-Fi routers;
- 18 (v) smart home appliances;
- 19 (vi) webcams;
- 20 (vii) internet-connected monitors; and
- 21 (viii) any other device that can be con-

22 nected to the internet, including mobile de-  
23 vices other than smartphones and tablets;

24 (E) encouraging Americans to—

- 1 (i) regularly review mobile application  
2 permissions;
- 3 (ii) decline privilege requests from mo-  
4 bile applications that are unnecessary;
- 5 (iii) download applications only from  
6 trusted vendors or sources; and
- 7 (iv) consider a product's life cycle and  
8 the developer or manufacturer's commit-  
9 ment to providing security updates during  
10 a connected device's expected period of use;  
11 and
- 12 (F) identifying the potential cybersecurity  
13 risks of using publicly available Wi-Fi networks  
14 and the methods a user may utilize to limit  
15 such risks; and
- 16 (2) encourage the American people to use re-  
17 sources to help mitigate the cybersecurity risks iden-  
18 tified in this subsection.

19 **SEC. 20108. COMMUNICATIONS SECURITY ADVISORY COUN-**  
20 **CIL.**

21 (a) ESTABLISHMENT.—

- 22 (1) IN GENERAL.—Not later than 90 days after  
23 the date of the enactment of this Act, the Commis-  
24 sion shall establish a council, to advise the Commis-

1 sion on issues including the security, reliability, and  
2 interoperability of communications networks.

3 (2) EXISTING ADVISORY COMMITTEES.—A Fed-  
4 eral advisory committee of the Commission that is  
5 operating, on the date of the enactment of this Act,  
6 under a charter for the purpose of addressing the  
7 issues described in paragraph (1), satisfies the re-  
8 quirements of such paragraph if the membership of  
9 such committee complies with subsection (b) or is  
10 modified to comply with such subsection not later  
11 than 90 days after the date of the enactment of this  
12 Act.

13 (b) MEMBERSHIP.—

14 (1) APPOINTMENT.—The members of the coun-  
15 cil shall be appointed by the Chair.

16 (2) COMPOSITION.—To the extent practicable,  
17 the membership of the council shall be composed of  
18 the following:

19 (A) Representatives of companies in the  
20 communications industry, except companies  
21 that are determined by the Chair to be not  
22 trusted.

23 (B) Representatives of public interest orga-  
24 nizations or academic institutions, except public  
25 interest organizations or academic institutions

1 that are determined by the Chair to be not  
2 trusted.

3 (C) Representatives of the Federal Govern-  
4 ment, State governments, local governments, or  
5 Tribal Governments, with at least one member  
6 representing each such type of government.

7 (3) KNOWLEDGE AND EXPERIENCE.—Each  
8 member of the council shall have knowledge and ex-  
9 perience relevant to the purpose and goals of the  
10 council.

11 (4) TERMS.—

12 (A) IN GENERAL.—Each member of the  
13 council shall be appointed for a term of 2 years,  
14 except as provided in subparagraph (B).

15 (B) VACANCIES.—Any member appointed  
16 to fill a vacancy occurring before the expiration  
17 of the term for which the member's predecessor  
18 was appointed shall be appointed only for the  
19 remainder of that term. A member may serve  
20 after the expiration of that member's term until  
21 a successor has taken office.

22 (c) REPORTS.—

23 (1) IN GENERAL.—Not later than 2 years after  
24 the date on which the council is established under  
25 subsection (a), and every 2 years thereafter, the

1 council shall submit to the Chair each report adopt-  
2 ed by the council during the preceding 2-year period,  
3 and any report adopted by any working group of the  
4 council during such period, including any such re-  
5 port of the council or a working group containing  
6 recommendations on ways to increase the security,  
7 reliability, and interoperability of communications  
8 networks, and on other relevant issues as appro-  
9 priate.

10 (2) AVAILABILITY ON COMMISSION WEBSITE.—

11 The Commission shall make each report submitted  
12 under paragraph (1) publicly available on the  
13 website of the Commission.

14 (d) DURATION.—Section 14(a)(2)(B) of the Federal  
15 Advisory Committee Act (5 U.S.C. App.; relating to the  
16 termination of advisory committees) shall not apply to the  
17 council.

18 (e) DEFINITIONS.—In this section:

19 (1) CHAIR.—The term “Chair” means the  
20 Chair of the Commission.

21 (2) COMMISSION.—The term “Commission”  
22 means the Federal Communications Commission.

23 (3) COUNCIL.—The term “council” means the  
24 council established under subsection (a).

25 (4) NOT TRUSTED.—

1 (A) IN GENERAL.—The term “not trusted”  
2 means, with respect to an entity, that—

3 (i) the Chair has made a public deter-  
4 mination that such entity is owned by, con-  
5 trolled by, or subject to the influence of a  
6 foreign adversary; or

7 (ii) the Chair otherwise determines  
8 that such entity poses a threat to the na-  
9 tional security of the United States.

10 (B) CRITERIA FOR DETERMINATION.—In  
11 making a determination under subparagraph  
12 (A)(ii), the Chair shall use the criteria de-  
13 scribed in paragraphs (1) through (4) of section  
14 2(e) of the Secure and Trusted Communica-  
15 tions Networks Act of 2019 (47 U.S.C.  
16 1601(c)), as appropriate.

17 (5) STATE.—The term “State” has the mean-  
18 ing given such term in section 3 of the Communica-  
19 tions Act of 1934 (47 U.S.C. 153).

20 **SEC. 20109. PROMOTING UNITED STATES WIRELESS LEAD-**  
21 **ERSHIP.**

22 (a) IN GENERAL.—In order to enhance the represen-  
23 tation of the United States and promote United States  
24 leadership in standards-setting bodies that set standards  
25 for 5G networks and for future generations of wireless

1 communications networks, the Assistant Secretary shall,  
2 in consultation with the National Institute of Standards  
3 and Technology—

4           (1) equitably encourage participation by compa-  
5 nies and a wide variety of relevant stakeholders, but  
6 not including any company or relevant stakeholder  
7 that the Assistant Secretary has determined to be  
8 not trusted, (to the extent such standards-setting  
9 bodies allow such stakeholders to participate) in  
10 such standards-setting bodies; and

11           (2) equitably offer technical expertise to compa-  
12 nies and a wide variety of relevant stakeholders, but  
13 not including any company or relevant stakeholder  
14 that the Assistant Secretary has determined to be  
15 not trusted, (to the extent such standards-setting  
16 bodies allow such stakeholders to participate) to fa-  
17 cilitate such participation.

18           (b) STANDARDS-SETTING BODIES.—The standards-  
19 setting bodies referred to in subsection (a) include—

20           (1) the International Organization for Stand-  
21 ardization;

22           (2) the voluntary standards-setting bodies that  
23 develop protocols for wireless devices and other  
24 equipment, such as the 3GPP and the Institute of  
25 Electrical and Electronics Engineers; and

1           (3) any standards-setting body accredited by  
2           the American National Standards Institute or Alli-  
3           ance for Telecommunications Industry Solutions.

4           (c) BRIEFING.—Not later than 60 days after the date  
5           of the enactment of this Act, the Assistant Secretary shall  
6           brief the Committees on Energy and Commerce and For-  
7           eign Affairs of the House of Representatives and the Com-  
8           mittees on Commerce, Science, and Transportation and  
9           Foreign Relations of the Senate on a strategy to carry  
10          out subsection (a).

11          (d) DEFINITIONS.—In this section:

12           (1) 3GPP.—The term “3GPP” means the 3rd  
13           Generation Partnership Project.

14           (2) 5G NETWORK.—The term “5G network”  
15           means a fifth-generation mobile network as de-  
16           scribed by 3GPP Release 15 or higher.

17           (3) ASSISTANT SECRETARY.—The term “Assist-  
18           ant Secretary” means the Assistant Secretary of  
19           Commerce for Communications and Information.

20           (4) CLOUD COMPUTING.—The term “cloud  
21           computing” has the meaning given the term in Spe-  
22           cial Publication 800–145 of the National Institute of  
23           Standards and Technology, entitled “The NIST Def-  
24           inition of Cloud Computing”, published in Sep-  
25           tember 2011, or any successor publication.

1           (5) COMMUNICATIONS NETWORK.—The term  
2 “communications network” means any of the fol-  
3 lowing:

4           (A) A system enabling the transmission,  
5 between or among points specified by the user,  
6 of information of the user’s choosing.

7           (B) Cloud computing resources.

8           (C) A network or system used to access  
9 cloud computing resources.

10          (6) NOT TRUSTED.—The term “not trusted”  
11 means, with respect to a company or stakeholder,  
12 that the company or stakeholder is determined by  
13 the Assistant Secretary to pose a threat to the na-  
14 tional security of the United States. In making such  
15 a determination, the Assistant Secretary shall rely  
16 solely on one or more of the following determina-  
17 tions:

18           (A) A specific determination made by any  
19 executive branch interagency body with appro-  
20 priate national security expertise, including the  
21 Federal Acquisition Security Council estab-  
22 lished under section 1322(a) of title 41, United  
23 States Code.

24           (B) A specific determination made by the  
25 Department of Commerce pursuant to Execu-

1           tive Order No. 13873 (84 Fed. Reg. 22689; re-  
2           lating to securing the information and commu-  
3           nications technology and services supply chain).

4           (C) Whether a company or stakeholder  
5           produces or provides covered telecommuni-  
6           cations equipment or services, as defined in sec-  
7           tion 889(f)(3) of the John S. McCain National  
8           Defense Authorization Act for Fiscal Year 2019  
9           (Public Law 115–232; 132 Stat. 1918).

10 **SEC. 20110. CRITICAL INFRASTRUCTURE MANUFACTURING**  
11 **FEASIBILITY.**

12           (a) STUDY.—Not later than 1 year after the date of  
13 enactment of this Act, the Secretary of Commerce shall  
14 conduct a study to—

15           (1) identify any product that is in high demand  
16           within each critical infrastructure sector that is  
17           being imported due to a manufacturing, material, or  
18           supply chain constraint in the United States;

19           (2) analyze the costs and benefits of manufac-  
20           turing the product in the United States, including  
21           any effects on—

22           (A) jobs, employment rates, and labor con-  
23           ditions in the United States; and

24           (B) the cost of the product;

1           (3) identify any product described in paragraph  
2           (1) that feasibly may be manufactured in the United  
3           States; and

4           (4) analyze the feasibility of, and any impedi-  
5           ments to, manufacturing any product identified in  
6           paragraph (3) in—

7                   (A) a rural area;

8                   (B) an industrial park; or

9                   (C) an industrial park in a rural area.

10          (b) REPORT TO THE CONGRESS.—Not later than 18  
11 months after the date of enactment of this Act, the Sec-  
12 retary shall—

13           (1) submit to the Congress a report containing  
14           the results of the study required by subsection (a)  
15           with recommendations for products described in sub-  
16           section (a)(1) that feasibly may be manufactured in  
17           the United States; and

18           (2) make the report available to the public on  
19           the website of the Department of Commerce.

20          (c) LIMITATION ON AUTHORITY.—This section shall  
21 not be interpreted to provide the Secretary of Commerce  
22 with authority to compel a person or company to provide  
23 information described in this section.

24          (d) DEFINITION OF CRITICAL INFRASTRUCTURE  
25 SECTOR.—In this Act, the term “critical infrastructure

1 sector” means each of the 16 designated critical infra-  
2 structure sectors identified in Presidential Policy Directive  
3 21 of February 12, 2013 (Critical Infrastructure Security  
4 and Resilience).

5 **TITLE II—CONSUMER**  
6 **PROTECTION AND COMMERCE**  
7 **Subtitle A—Supply Chain**  
8 **Resilience**

9 **SEC. 20201. OFFICE OF MANUFACTURING SECURITY AND**  
10 **RESILIENCE.**

11 (a) ESTABLISHMENT.—Not later than 180 days after  
12 the date of the enactment of this Act, the Secretary shall  
13 establish an Office of Manufacturing Security and Resil-  
14 ience.

15 (b) MISSION.—The mission of the Office shall be the  
16 following:

17 (1) Help to promote the leadership of the  
18 United States with respect to critical industries and  
19 supply chains that—

20 (A) strengthen the national security of the  
21 United States; and

22 (B) have a significant effect on the eco-  
23 nomic security of the United States.

24 (2) Encourage a Governmentwide approach  
25 through partnerships and collaboration with the pri-

1 vate sector, labor organizations, the governments of  
2 countries that are allies or key international part-  
3 ners of the United States, States or political subdivi-  
4 sions thereof, and Tribal governments in order to—

5 (A) promote the resilience of supply  
6 chains; and

7 (B) identify, prepare for, and respond to  
8 supply chain shocks to—

9 (i) critical industries; and

10 (ii) supply chains.

11 (3) Monitor the resilience, diversity, security,  
12 and strength of supply chains and critical industries.

13 (4) Support the availability of critical goods  
14 from domestic manufacturers, domestic enterprises,  
15 and manufacturing operations in the United States  
16 and in countries that are allies or key international  
17 partners.

18 (5) Assist the Federal Government in preparing  
19 for and responding to supply chain shocks, including  
20 by improving the flexible manufacturing capacities  
21 and capabilities in the United States.

22 (6) Encourage and incentivize the reduced reli-  
23 ance of domestic entities and domestic manufactur-  
24 ers on critical goods from countries of concern.

1           (7) Encourage the relocation of manufacturing  
2 facilities that manufacture critical goods from coun-  
3 tries of concern to the United States and countries  
4 that are allies and key international partners to  
5 strengthen the resilience, diversity, security, and  
6 strength of supply chains.

7           (8) Support the creation of jobs with competi-  
8 tive wages in the United States manufacturing sec-  
9 tor.

10          (9) Encourage manufacturing growth and op-  
11 portunities in economically distressed areas and un-  
12 derserved communities.

13          (10) Promote the health of the economy of the  
14 United States and the competitiveness of manufac-  
15 turing in the United States.

16          (11) Coordinate executive branch actions nec-  
17 cessary to carry out the functions described in para-  
18 graphs (1) through (10).

19          (c) ASSISTANT SECRETARY OF THE OFFICE.—

20           (1) APPOINTMENT AND TERM.—The head of  
21 the Office shall be the Assistant Secretary of Manu-  
22 facturing Security and Resilience, appointed by the  
23 President, by and with the advice and consent of the  
24 Senate, for a term of not more than 5 years. The  
25 Assistant Secretary of Manufacturing Security and

1 Resilience may function as and be known as the  
2 United States Chief Manufacturing Officer.

3 (2) PAY.—The Assistant Secretary shall be  
4 compensated at the rate in effect for level II of the  
5 Executive Schedule under section 5313 of title 5,  
6 United States Code.

7 (3) ADMINISTRATIVE AUTHORITIES.—The As-  
8 sistant Secretary may appoint officers and employ-  
9 ees in accordance with chapter 51 and subchapter  
10 III of chapter 53 of title 5, United States Code.

11 **SEC. 20202. UNITED STATES STRATEGY TO COUNTER**  
12 **THREATS TO SUPPLY CHAINS.**

13 (a) IN GENERAL.—In accordance with Executive  
14 Order No. 14017 (86 Fed. Reg. 11849 relating to Amer-  
15 ica’s supply chains), the Assistant Secretary shall, not  
16 later than 1 year after the date of the enactment of this  
17 Act, develop and implement a strategy taking a Govern-  
18 mentwide approach to support the resilience, diversity, se-  
19 curity, and strength of supply chains.

20 (b) ELEMENTS.—The strategy required under sub-  
21 section (a) shall include the following:

22 (1) A plan to do the following:

23 (A) Execute a unified national effort to re-  
24 duce reliance on concentrated supply chains and

1 protect against threats from countries of con-  
2 cern relating to supply chains.

3 (B) Support sufficient access to critical  
4 goods by mitigating supply chain vulnerabilities,  
5 including supply chains concentrated in coun-  
6 tries of concern.

7 (C) Collaborate with other relevant Federal  
8 agencies to assist allies or key international  
9 partners build capacity for manufacturing crit-  
10 ical goods.

11 (D) Incentivize (through grants, loans,  
12 loan guarantees, and equity investment author-  
13 ized under section 20204) and identify other  
14 means, as appropriate—

15 (i) for domestic manufacturers that  
16 manufacture critical goods to—

17 (I) relocate manufacturing facili-  
18 ties, industrial equipment, or oper-  
19 ations related to the production of  
20 critical goods from countries of con-  
21 cern to the United States or to other  
22 allies or key international partners;  
23 and

24 (II) to support manufacturing fa-  
25 cilities, industrial equipment, or oper-

1                   ations to increase the production of  
2                   critical goods and meet demand for  
3                   such goods; and

4                   (ii) for domestic manufacturers that  
5                   do not manufacture critical goods to make  
6                   necessary or appropriate modifications to  
7                   existing manufacturing facilities, industrial  
8                   equipment, manufacturing technology, or  
9                   operations in order to manufacture 1 or  
10                  more critical goods.

11                  (E) Describe the manner and processes  
12                  through which the Assistant Secretary will im-  
13                  plement the program under section 20204, in-  
14                  cluding through consultation with, or requests  
15                  for information from, the heads of any relevant  
16                  Federal agencies, including those with jurisdic-  
17                  tion over supply chains, for the purposes of en-  
18                  suring the program authorized under section  
19                  20204—

20                         (i) supports the resilience, diversity,  
21                         security and strength of a supply chain;  
22                         and

23                         (ii) meets the national security and  
24                         economic security needs of the United  
25                         States.

1 (F) Strengthen and increase trade through  
2 new and revised trade agreements and other  
3 forms of engagement between the United States  
4 and allies or key international partners in order  
5 to mitigate—

6 (i) supply chain vulnerabilities; and

7 (ii) the effects of supply chain shocks.

8 (G) Recover from supply chain shocks.

9 (H) Identify, in coordination with other  
10 relevant Federal agencies, actions relating to  
11 supply chains with which the United States  
12 might—

13 (i) raise living standards;

14 (ii) increase employment opportuni-  
15 ties;

16 (iii) address the underlying causes of  
17 irregular migration; and

18 (iv) improve critical industry supply  
19 chain response to supply chain shocks.

20 (I) Protect against supply chain shocks  
21 from countries of concern relating to supply  
22 chains.

23 (J) Provide recommendations to effectuate  
24 the strategy under this section.

25 (2) An assessment of the following:

1           (A) The extent to which any office or bu-  
2           reau within the Department of Commerce that  
3           the Assistant Secretary determines has duties,  
4           responsibilities, resources, or expertise that sup-  
5           port or duplicate the mission of the Office.

6           (B) The purpose of each office and bureau  
7           identified under subparagraph (A).

8           (C) Whether the Assistant Secretary will  
9           coordinate with each such office and bureau in  
10          implementing the requirements of this Act.

11          (D) If the Assistant Secretary makes a  
12          positive determination under subparagraph (C),  
13          the effectiveness and efficiency of the Assistant  
14          Secretary and each such office and bureau at  
15          implementing the requirements of this Act.

16          (3) Recommendations, if applicable and con-  
17          sistent with the objectives of this Act, on consoli-  
18          dating functions amongst the Office and each such  
19          office and bureau identified under paragraph (2)(A).

20          (c) SUBMISSION OF STRATEGY.—

21           (1) IN GENERAL.—Not later than 450 days  
22          after the date of the enactment of this Act, the As-  
23          sistant Secretary shall submit to the Committee on  
24          Energy and Commerce of the House of Representa-  
25          tives and the Committee on Commerce, Science, and

1 Transportation of the Senate, and publish on the  
2 website of the Office, a report containing the strat-  
3 egy developed under this section.

4 (2) UPDATE.—Not less than once every 4 years  
5 after the date on which the strategy is submitted  
6 under paragraph (1), the Assistant Secretary shall  
7 submit to Congress an update to such strategy.

8 (3) FORM.—The report submitted under para-  
9 graph (1), and any update submitted under para-  
10 graph (2), shall be submitted in unclassified form  
11 and may include a classified annex.

12 **SEC. 20203. CRITICAL SUPPLY CHAIN MONITORING PRO-**  
13 **GRAM.**

14 (a) ACTIVITIES.—The Assistant Secretary shall carry  
15 out the following activities:

16 (1) In consultation with the coordination group  
17 established under subsection (c)—

18 (A) map, monitor, and model supply  
19 chains, including by—

20 (i) monitoring the financial and oper-  
21 ational conditions of domestic manufactur-  
22 ers and domestic enterprises;

23 (ii) performing stress tests for critical  
24 industries, supply chains, domestic enter-  
25 prises, and domestic manufacturers;

1 (iii) monitoring the demand and sup-  
2 ply of critical goods and services, industrial  
3 equipment, and manufacturing technology;  
4 and

5 (iv) monitoring manufacturing,  
6 warehousing, transportation, and distribu-  
7 tion; and

8 (B) identify high priority supply chain  
9 gaps and vulnerabilities in critical industries  
10 and supply chains that—

11 (i) exist as of the date of the enact-  
12 ment of this section; or

13 (ii) are anticipated in the future.

14 (2) Identify and evaluate the following:

15 (A) Supply chain shocks that may disrupt,  
16 strain, compromise, or eliminate a supply chain,  
17 including the effect on consumer prices, job  
18 losses, national security, or economic competi-  
19 tiveness.

20 (B) The manufacturing needs critical to  
21 the national security and economic security of  
22 the United States.

23 (C) The diversity, security, reliability, and  
24 strength of—

1 (i) supply chains, including single  
2 point of failure, single producer, or consoli-  
3 dated manufacturing; and

4 (ii) the sources of critical goods, in-  
5 dustrial equipment, or manufacturing tech-  
6 nology, including those obtained or pur-  
7 chased from a person outside of the United  
8 States or imported into the United States.

9 (D) The availability, capability, and capac-  
10 ity of domestic manufacturers or manufacturers  
11 located in countries that are allies or key inter-  
12 national partners to serve as a source of a crit-  
13 ical good, industrial equipment, or manufac-  
14 turing technology.

15 (E) The effect on the economic security of  
16 the United States, including jobs and wages,  
17 that may result from the disruption, strain,  
18 compromise, or elimination of a supply chain.

19 (F) The effect on the national security of  
20 the United States that may result from the dis-  
21 ruption, strain, compromise, or elimination of a  
22 supply chain.

23 (G) The state of the manufacturing work-  
24 force, including—

1 (i) the needs of domestic manufactur-  
2 ers; and

3 (ii) opportunities to create high-qual-  
4 ity manufacturing jobs.

5 (H) Investments in critical goods, indus-  
6 trial equipment, or manufacturing technology  
7 from non-Federal sources.

8 (3) In consultation with the coordination group  
9 established under subsection (c), States or political  
10 subdivisions thereof, and Tribal governments, and,  
11 as appropriate, in cooperation with the governments  
12 of countries that are allies or key international part-  
13 ners of the United States, the following:

14 (A) Identify opportunities to reduce supply  
15 chain gaps and vulnerabilities in critical indus-  
16 tries and supply chains.

17 (B) Encourage partnerships between the  
18 Federal Government and industry, labor organi-  
19 zations, States and political subdivisions there-  
20 of, and territorial and Tribal governments to  
21 better respond to supply chain shocks to critical  
22 industries and supply chains and coordinate re-  
23 sponse efforts.

24 (C) Encourage partnerships between the  
25 Federal Government and the governments of

1 countries that are allies or key international  
2 partners of the United States.

3 (D) Develop or identify opportunities to  
4 build the capacity of the United States in crit-  
5 ical industries and supply chains.

6 (E) Develop or identify opportunities to  
7 build the capacity of countries that are allies or  
8 key international partners of the United States  
9 in critical industries and supply chains.

10 (4) In coordination with the Secretary of State  
11 and the United States Trade Representative work  
12 with governments of countries that are allies or key  
13 international partners of the United States to pro-  
14 mote diversified and resilient supply chains that en-  
15 sure the supply of critical goods, industrial equip-  
16 ment, and manufacturing technology to the United  
17 States and companies of countries that are allies or  
18 key international partners of the United States.

19 (5) Coordinate with other offices and divisions  
20 of the Department of Commerce and other Federal  
21 agencies to use authorities, as of the date of the en-  
22 actment of this section, to encourage the resilience  
23 of supply chains of critical industries.

24 (b) CONTINUOUS MONITORING.—The Assistant Sec-  
25 retary, in consultation with the head of any relevant Fed-

1 eral agency, including those with jurisdiction over supply  
2 chains, shall continuously monitor the resilience, diversity,  
3 security, and strength of supply chains.

4 (c) COORDINATION GROUP.—

5 (1) IN GENERAL.—In carrying out the applica-  
6 ble activities under subsection (a), the Assistant Sec-  
7 retary shall establish a unified coordination group  
8 led by the Assistant Secretary which shall include  
9 private sector partners, labor organizations, and, as  
10 appropriate, federally funded research and develop-  
11 ment centers, to serve as a method for consultation  
12 between and among Federal agencies described  
13 under subsection (g) to plan for and respond to sup-  
14 ply chain shocks and support the resilience, diver-  
15 sity, security, and strength of supply chains.

16 (2) IMPLEMENTATION.—In consultation with  
17 the unified coordination group established under  
18 paragraph (1), the Assistant Secretary shall do the  
19 following:

20 (A) Acquire on a voluntary basis technical,  
21 engineering, and operational supply chain infor-  
22 mation from the private sector in a manner  
23 that ensures any supply chain information pro-  
24 vided by the private sector is kept confidential  
25 and is exempt from disclosure under section

1           552(b)(3) of title 5, United States Code (com-  
2           monly known as the “Freedom of Information  
3           Act”).

4           (B) Study the supply chain information ac-  
5           quired under subparagraph (A) to—

6                   (i) identify supply chains;

7                   (ii) assess the resilience of supply  
8           chains;

9                   (iii) identify supply chains vulnerable  
10          to disruption, strain, compromise, or elimi-  
11          nation; and

12                  (iv) inform planning.

13          (C) Convene with relevant private sector  
14          entities to share best practices, planning, and  
15          capabilities to respond to potential supply chain  
16          shocks.

17          (D) Develop contingency plans and coordi-  
18          nation mechanisms to ensure an effective and  
19          coordinated response to potential supply chain  
20          shocks.

21          (3) SUBGROUPS.—In carrying out the activities  
22          described in paragraph (2), the Assistant Secretary  
23          may establish subgroups of the unified coordination  
24          group established under paragraph (1) led by the  
25          head of an appropriate Federal agency.

1           (4) INTERNATIONAL COOPERATION.—The Sec-  
2           retary, in consultation with other relevant Federal  
3           agencies, may cooperate with governments of coun-  
4           tries that are allies or key international partners of  
5           the United States relating to enhancing the security  
6           and resilience of supply chains in response to supply  
7           chain shocks.

8           (d) DESIGNATIONS.—The Assistant Secretary shall—

9           (1) not later than 270 days after the date of  
10          the enactment of this Act, designate—

11                   (A) critical industries;

12                   (B) supply chains; and

13                   (C) critical goods;

14          (2) provide for a period of public comment and  
15          review in carrying out paragraph (1); and

16          (3) update the designations made under para-  
17          graph (1) not less frequently than once every four  
18          years.

19          (e) QUADRENNIAL REPORT ON SUPPLY CHAIN RE-  
20          SILIENCE AND DOMESTIC MANUFACTURING.—

21          (1) IN GENERAL.—Not later than four years  
22          after the date on which the final Sectoral Supply  
23          Chain Assessments report on supply chains required  
24          under section 4(a) of Executive Order No. 14017  
25          (relating to America’s supply chains) is submitted,

1 and not later than once every four years thereafter,  
2 the Assistant Secretary, in coordination with the  
3 head of each relevant Federal agency and relevant  
4 private sector entities, labor organizations, States  
5 and political subdivisions thereof, and territorial and  
6 Tribal governments, shall submit to the relevant  
7 committees of Congress and post on the website of  
8 the Assistant Secretary a report on supply chain re-  
9 silience and domestic manufacturing (in this sub-  
10 section referred to as the “report”) to strengthen,  
11 improve, and preserve the resilience, diversity, secu-  
12 rity, and strength of supply chains.

13 (2) CONTENTS OF REPORT.—The report shall  
14 include the following:

15 (A) An identification of—

16 (i) the critical industries, supply  
17 chains, and critical goods designated under  
18 subsection (d);

19 (ii) supplies that are critical to the  
20 crisis preparedness of the United States;

21 (iii) substitutes for critical goods, in-  
22 dustrial equipment, and manufacturing  
23 technology;

24 (iv) the matters identified and evalu-  
25 ated pursuant to subsection (a)(2); and

1 (v) countries that are critical to ad-  
2 dressing international and domestic supply  
3 chain weaknesses and vulnerabilities.

4 (B) A description of—

5 (i) the manufacturing base and supply  
6 chains in the United States, including the  
7 manufacturing base and supply chains  
8 for—

9 (I) industrial equipment;

10 (II) critical goods, including raw  
11 materials, semiconductors, and rare  
12 earth permanent magnets, that are es-  
13 sential to the production of tech-  
14 nologies and supplies for critical in-  
15 dustries; and

16 (III) manufacturing technology;

17 and

18 (ii) the ability of the United States

19 to—

20 (I) maintain readiness with re-  
21 spect to preparing for and responding  
22 to supply chain shocks; and

23 (II) in response to a supply chain  
24 shock—

1 (aa) surge production in  
2 critical industries;

3 (bb) surge production of  
4 critical goods and industrial  
5 equipment; and

6 (cc) maintain access to crit-  
7 ical goods, industrial equipment,  
8 and manufacturing technology.

9 (C) An assessment and description of—

10 (i) demand and supply of critical  
11 goods, industrial equipment, and manufac-  
12 turing technology;

13 (ii) production of critical goods, indus-  
14 trial equipment, and manufacturing tech-  
15 nology by domestic manufacturers;

16 (iii) the capability and capacity of do-  
17 mestic manufacturers and manufacturers  
18 in countries that are allies or key inter-  
19 national partners of the United States to  
20 manufacture critical goods, industrial  
21 equipment, and manufacturing technology;  
22 and

23 (iv) how supply chain shocks could af-  
24 fect rural, Tribal, and underserved commu-  
25 nities.

1           (D) An identification of defense, intel-  
2           ligence, homeland, economic, domestic labor  
3           supply, natural, geopolitical, or other contin-  
4           gencies and other supply chain shocks that may  
5           disrupt, strain, compromise, or eliminate a sup-  
6           ply chain.

7           (E) An assessment of—

8           (i) the resilience and capacity of the  
9           manufacturing base, supply chains, and  
10          workforce of the United States and allies  
11          and key international partners that can  
12          sustain critical industries through a supply  
13          chain shock;

14          (ii) the flexible manufacturing capac-  
15          ity and capabilities available in the United  
16          States in the case of a supply chain shock;  
17          and

18          (iii) the effect innovation has on do-  
19          mestic manufacturing.

20          (F) Specific recommendations to improve  
21          the security and resilience of manufacturing ca-  
22          pacity and supply chains through the following:

23               (i) Developing long-term strategies.

1           (ii) Increasing visibility into the net-  
2 works and capabilities of suppliers and do-  
3 mestic manufacturers.

4           (iii) Identifying industry best prac-  
5 tices.

6           (iv) Evaluating how diverse supplier  
7 networks, multi-platform and multi-region  
8 production capabilities and sources, and in-  
9 tegrated global and regional supply chains  
10 can—

11                   (I) enhance the resilience of crit-  
12 ical industries and manufacturing ca-  
13 pabilities in the United States;

14                   (II) support and create jobs in  
15 the United States; and

16                   (III) support access of the  
17 United States to critical goods during  
18 a supply chain shock.

19           (v) Identifying and mitigating risks,  
20 including—

21                   (I) the financial and operational  
22 risks of a supply chain;

23                   (II) significant vulnerabilities to  
24 supply chain shocks and other emer-  
25 gencies; and

1 (III) exposure to gaps and  
2 vulnerabilities in—

3 (aa) domestic capacity or ca-  
4 pabilities; and

5 (bb) sources of imports  
6 needed to sustain critical indus-  
7 tries and supply chains.

8 (vi) Identifying enterprise resource  
9 planning systems that are—

10 (I) compatible across supply  
11 chain tiers; and

12 (II) affordable for small and me-  
13 dium-sized businesses.

14 (vii) Understanding the total cost of  
15 ownership, total value contribution, and  
16 other best practices that encourage stra-  
17 tegic partnerships throughout supply  
18 chains.

19 (viii) Understanding Federal procure-  
20 ment opportunities to increase resilience of  
21 supply chains and fill gaps in domestic  
22 purchasing of critical goods.

23 (ix) Identifying policies that maximize  
24 job retention and creation in the United

1 States, including workforce development  
2 programs.

3 (x) Identifying opportunities to work  
4 with allies or key international partners of  
5 the United States to build more resilient  
6 critical industry supply chains and mitigate  
7 risks.

8 (xi) Identifying areas requiring fur-  
9 ther investment in research and develop-  
10 ment or workforce education.

11 (xii) Identifying such other services as  
12 the Assistant Secretary determines nec-  
13 essary.

14 (xiii) Identifying opportunities to  
15 reuse and recycle critical goods, including  
16 raw materials, to increase resilience of sup-  
17 ply chains.

18 (G) Guidance to the National Science  
19 Foundation and other relevant Federal agencies  
20 with respect to critical goods, industrial equip-  
21 ment, and manufacturing technologies that  
22 should be prioritized.

23 (H) With respect to countries that are al-  
24 lies or key international partners of the United  
25 States—

1 (i) a review of and, if appropriate,  
2 recommendations for expanding the  
3 sourcing of critical goods, industrial equip-  
4 ment, and manufacturing technology asso-  
5 ciated with critical industries from those  
6 countries; and

7 (ii) a recommendation to coordinate  
8 with those countries on—

9 (I) sourcing critical goods, indus-  
10 trial equipment, and manufacturing  
11 technology; and

12 (II) developing, sustaining, and  
13 expanding production and availability  
14 of supply chains, critical goods, indus-  
15 trial equipment, and manufacturing  
16 technology during a supply chain  
17 shock.

18 (I) Recommendations for strengthening the  
19 financial and operational health of small and  
20 medium-sized businesses in supply chains of the  
21 United States and countries that are allies or  
22 key international partners of the United States  
23 to mitigate risks and ensure diverse and com-  
24 petitive supplier markets that are less vulner-  
25 able to failure.

1           (J) An assessment of policies, rules, and  
2 regulations that impact the operating costs of  
3 domestic manufacturers and inhibit the ability  
4 for domestic manufacturers to compete with  
5 global competitors.

6           (K) Recommendations regarding freight  
7 and logistics necessary to support supply  
8 chains.

9           (3) PROHIBITION.—The report may not in-  
10 clude—

11           (A) supply chain information that is not  
12 aggregated; or

13           (B) confidential business information of a  
14 private sector entity.

15           (4) COLLABORATION.—The head of any Fed-  
16 eral agency with jurisdiction over any supply chain  
17 shall collaborate with the Assistant Secretary and  
18 provide any information, data, or assistance that the  
19 Assistant Secretary determines to be necessary for  
20 developing the report.

21           (5) FORM.—The report, and any update sub-  
22 mitted thereafter, shall be submitted in unclassified  
23 form and may include a classified annex.

1           (6) PUBLIC COMMENT.—The Assistant Sec-  
2           retary shall provide for a period of public comment  
3           and review in developing the report.

4           (f) REPORT TO CONGRESS.—Concurrent with the an-  
5           nual submission by the Secretary of the budget under sec-  
6           tion 1105 of title 31, United States Code, the Secretary  
7           shall submit to the relevant committees of Congress and  
8           post on the website of the Assistant Secretary a report  
9           that contains a summary of the activities required under  
10          subsection (a) carried out under this section during the  
11          fiscal year covered by the report. Such report shall be sub-  
12          mitted in unclassified form and may include a classified  
13          annex.

14          (g) COORDINATION.—

15                (1) IN GENERAL.—In implementing the require-  
16                ments under subsection (e), the Assistant Secretary  
17                shall, as appropriate coordinate with—

18                        (A) the heads of appropriate Federal agen-  
19                        cies, including—

20                                (i) the Secretary of State; and

21                                (ii) the United States Trade Rep-  
22                                resentative; and

23                        (B) the Attorney General and the Federal  
24                        Trade Commission with respect to—

1 (i) advice on the design and activities  
2 of the unified coordination group described  
3 in subsection (c)(1); and

4 (ii) ensuring compliance with Federal  
5 antitrust law.

6 (2) SPECIFIC COORDINATION.—In carrying out  
7 the requirements under this section, with respect to  
8 supply chains involving specific sectors, the Assist-  
9 ant Secretary shall, as appropriate, coordinate  
10 with—

11 (A) the Secretary of Defense;

12 (B) the Secretary of Homeland Security;

13 (C) the Secretary of the Treasury;

14 (D) the Secretary of Energy;

15 (E) the Secretary of Transportation;

16 (F) the Secretary of Agriculture;

17 (G) the Director of National Intelligence;

18 (H) the Secretary of Health and Human

19 Services;

20 (I) the Small Business Administration;

21 (J) the Secretary of Labor; and

22 (K) the head of any other relevant Federal  
23 agency, as appropriate.

24 (h) RULE OF CONSTRUCTION.—Nothing in this sec-  
25 tion shall be construed to require any private entity—

1           (1) to share information with the Secretary or  
2           Assistant Secretary;

3           (2) to request assistance from the Secretary or  
4           Assistant Secretary; or

5           (3) that requests assistance from the Secretary  
6           or Assistant Secretary to implement any measure or  
7           recommendation suggested by the Secretary or As-  
8           sistant Secretary.

9           (i) PROTECTIONS.—

10           (1) IN GENERAL.—Supply chain information  
11           that is voluntarily and lawfully submitted by a pri-  
12           vate entity and accompanied by an express state-  
13           ment described in paragraph (2) of this subsection—

14                   (A) shall be exempt from disclosure under  
15                   section 552(b)(3) of title 5, United States Code;

16                   (B) shall not be made available by any  
17                   Federal, State, local, or Tribal authority pursu-  
18                   ant to any Federal, State, local, or Tribal law  
19                   requiring public disclosure of information or  
20                   records; and

21                   (C) shall not, without the written consent  
22                   of the person or entity submitting such infor-  
23                   mation, be used directly by the Assistant Sec-  
24                   retary, or any other Federal, State, or local au-

1           thority in any civil enforcement action brought  
2           by a Federal, State, or local authority.

3           (2) EXPRESS STATEMENT.—The express state-  
4           ment described in this paragraph, with respect to in-  
5           formation or records, is—

6                   (A) in the case of written information or  
7                   records, a written marking on the information  
8                   or records substantially similar to the following:  
9                   “This information is voluntarily submitted to  
10                  the Federal Government in expectation of pro-  
11                  tection from disclosure as provided by the provi-  
12                  sions of section 20203(i) of the America COM-  
13                  PETES Act of 2022.”; or

14                   (B) in the case of oral information, a writ-  
15                  ten statement similar to the statement de-  
16                  scribed in subparagraph (A) submitted within a  
17                  reasonable period following the oral communica-  
18                  tion.

19           (3) INAPPLICABILITY TO SEMICONDUCTOR IN-  
20           CENTIVE PROGRAM.—This subsection shall not apply  
21           to the voluntary submission of supply chain informa-  
22           tion by a private entity in an application for Federal  
23           financial assistance under section 9902 of the Wil-  
24           liam M. (Mac) Thornberry National Defense Author-

1        ization Act for Fiscal Year 2021 (Public Law 116–  
2        283).

3        (j) NO EFFECT ON DISCOVERY.—Subject to sub-  
4        section (i), nothing in this section, nor any rule, regula-  
5        tion, or amendment shall be construed to create a defense  
6        to a discovery request, or otherwise limit or affect the dis-  
7        covery of supply chain information from a private entity  
8        arising from a cause of action authorized under any under  
9        Federal, State, local, or Tribal law.

10        (k) CONSISTENCY WITH INTERNATIONAL AGREE-  
11        MENTS.—This section shall be applied in a manner con-  
12        sistent with United States obligations under international  
13        agreements.

14        (l) AUTHORIZATION OF APPROPRIATIONS.—There is  
15        authorized to be appropriated to the Assistant Secretary  
16        \$500,000,000 for fiscal years 2022 through 2027, to re-  
17        main available until expended, to carry out this section,  
18        of which not more than 2 percent per fiscal year may be  
19        used for administrative costs.

20        **SEC. 20204. MANUFACTURING SECURITY AND RESILIENCE**  
21        **PROGRAM.**

22        (a) IN GENERAL.—The Assistant Secretary shall  
23        support the resilience, diversity, security, and strength of  
24        supply chains by providing grants, loans, and loan guaran-  
25        tees for eligible activities to eligible entities.

1 (b) APPLICATION.—The Assistant Secretary may not  
2 provide a grant, loan, or loan guarantee under this section  
3 to an eligible entity unless the eligible entity submits to  
4 the Assistant Secretary an application at such time, in  
5 such form, and containing such information as the Assist-  
6 ant Secretary may require, including—

7 (1) a description of the eligible activity to be  
8 carried out with the grant, loan, or loan guarantee;

9 (2) a description of the supply chain supported  
10 by the eligible activity;

11 (3) an estimate of the total costs of the eligible  
12 activity; and

13 (4) in the case of an application submitted for  
14 an eligible activity described in subparagraph (B) or  
15 (C) of subsection (c)(2), a description of domestic  
16 manufacturing operations for the production of the  
17 critical good.

18 (c) ELIGIBLE ACTIVITIES.—

19 (1) ACTIVITIES IN THE UNITED STATES.—The  
20 following activities may be carried out with a grant,  
21 loan, or loan guarantee under this section:

22 (A) The development, diversification, pres-  
23 ervation, improvement, support, restoration, or  
24 expansion of supply chains and the domestic  
25 manufacturing of critical goods, industrial

1 equipment, and manufacturing technology, in-  
2 cluding activities that support any of the fol-  
3 lowing:

4 (i) The manufacturing of a critical  
5 good or industrial equipment in the United  
6 States.

7 (ii) The commercialization, adoption,  
8 deployment, or use of manufacturing tech-  
9 nology by domestic manufacturers in the  
10 United States.

11 (iii) The design, engineering, con-  
12 struction, expansion, improvement, repair,  
13 or maintenance of critical infrastructure or  
14 a manufacturing facility in the United  
15 States.

16 (iv) The purchase, lease, acquisition,  
17 enhancement, or retooling of industrial  
18 equipment for use in the United States.

19 (v) The purchase, lease, or other ac-  
20 quisition of critical goods, industrial equip-  
21 ment, or manufacturing technology from  
22 reliable sources.

23 (vi) The relocation of manufacturing  
24 facilities or operations related to the pro-

1                   duction of a critical good out of a country  
2                   of concern and into the United States.

3                   (vii) The modification of manufac-  
4                   turing facilities, industrial equipment, or  
5                   operations related to the manufacture of  
6                   critical goods to—

7                   (I) create new capabilities for an  
8                   eligible entity to manufacture critical  
9                   goods in the United States;

10                  (II) expand existing operations to  
11                  increase the manufacture of critical  
12                  goods in the United States; or

13                  (III) accommodate any manufac-  
14                  turing operations related to critical  
15                  goods that are being relocated to the  
16                  United States.

17                  (viii) The development of tools or  
18                  processes that relate to procuring, trans-  
19                  porting, or storing critical goods.

20                  (B) The manufacture or acquisition of a  
21                  substitute for a critical good, industrial equip-  
22                  ment, or manufacturing technology.

23                  (C) The establishment, improvement, de-  
24                  velopment, expansion, or preservation of surge  
25                  capacity or stockpiling of a critical good or in-

1 industrial equipment, as appropriate and nec-  
2 essary.

3 (D) The establishment, improvement, or  
4 preservation of diverse, secure, reliable, and  
5 strong sources and locations of a critical good  
6 in the United States.

7 (2) ACTIVITIES RELATING TO ALLIES AND KEY  
8 INTERNATIONAL PARTNERS.—The following activi-  
9 ties may be carried out with a loan or loan guar-  
10 antee under this section:

11 (A) The design, engineering, construction,  
12 expansion, improvement, repair, or maintenance  
13 of critical infrastructure or a manufacturing fa-  
14 cility in an ally or key international partner.

15 (B) The relocation of manufacturing facili-  
16 ties or operations related to the production of  
17 a critical good out of a country of concern and  
18 into an ally or key international partner, with  
19 a priority for countries—

20 (i) in the covered Western Hemi-  
21 sphere countries;

22 (ii) that are member states of the  
23 North Atlantic Treaty Organization  
24 (NATO);

1 (iii) that are designated as a major  
2 non-NATO ally pursuant to section 517(a)  
3 of the Foreign Assistance Act of 1961 (22  
4 U.S.C. 2321k(a)); and

5 (iv) identified under section  
6 20203(e)(2)(A)(v).

7 (C) The modification of manufacturing fa-  
8 cilities, industrial equipment, or operations re-  
9 lated to the manufacture of critical goods to—

10 (i) create new capabilities for an eligi-  
11 ble entity to manufacture critical goods in  
12 an ally or key international partner;

13 (ii) expand existing operations to in-  
14 crease the manufacture of critical goods in  
15 an ally or key international partner; or

16 (iii) accommodate any manufacturing  
17 operations related to critical goods that are  
18 being relocated to an ally or key inter-  
19 national partner.

20 (d) ELIGIBLE ENTITIES.—The following entities are  
21 eligible to receive grants, loans, and loan guarantees under  
22 this section:

23 (1) A domestic manufacturer.

24 (2) A domestic enterprise.

1           (3) A State or a county, city, or other political  
2 subdivision of a State.

3           (4) A Tribal government.

4           (5) A manufacturing extension center estab-  
5 lished as part of the Hollings Manufacturing Exten-  
6 sion Partnership.

7           (6) A Manufacturing USA institute as de-  
8 scribed in section 34(d) of the National Institute of  
9 Standards and Technology Act (15 U.S.C. 278s(d)).

10          (7) An institution of higher education acting as  
11 part of a consortium, partnership, or joint venture  
12 with another eligible entity described in paragraphs  
13 (1) through (6).

14          (8) A public or private nonprofit organization  
15 or association acting as part of a consortium, part-  
16 nership, or joint venture with another eligible entity  
17 described in paragraphs (1) through (6).

18          (9) A consortium, partnership, or joint venture  
19 of two or more eligible entities described under para-  
20 graphs (1) through (8).

21          (e) REQUIREMENTS.—The Assistant Secretary may  
22 only provide a grant, loan, or loan guarantee to an eligible  
23 entity if the Assistant Secretary makes a determination  
24 of the following:

1           (1) The grant, loan, or loan guarantee is for an  
2 eligible activity.

3           (2) Without the grant, loan, or loan guarantee,  
4 the eligible entity would not be able to fund or fi-  
5 nance the eligible activity under reasonable terms  
6 and conditions.

7           (3) The grant, loan, or loan guarantee is a cost  
8 effective, expedient, and practical form of financial  
9 assistance for the eligible activity.

10          (4) There is a reasonable assurance that—

11               (A) the eligible entity will implement the  
12 eligible activity in accordance with the applica-  
13 tion submitted under subsection (b); and

14               (B) the eligible activity will support—

15                     (i) the resilience, diversity, security, or  
16 strength of a supply chain; and

17                     (ii) the national security or economic  
18 security of the United States.

19          (5) The eligible entity agrees to provide the in-  
20 formation required under subsection (m)(3).

21          (6) For an eligible activity described in sub-  
22 paragraph (B) or (C) of subsection (c)(2), relocation  
23 of a manufacturing facility or operations into the  
24 United States is uneconomical.

1           (7) The eligible activity does not support the  
2           production of a critical good subject to an anti-  
3           dumping or countervailing duty order imposed by  
4           the United States.

5           (f) CRITERIA.—The Assistant Secretary shall estab-  
6           lish criteria for the awarding of grants, loans, and loan  
7           guarantees that meet the requirements of subsection (e),  
8           including the following:

9           (1) The extent to which the eligible activity sup-  
10          ports the resilience, diversity, security, and strength  
11          of a supply chain.

12          (2) The extent to which the eligible activity is  
13          funded or financed by non-Federal sources.

14          (3) The extent to which the grant, loan, or loan  
15          guarantee will assist small and medium-sized domes-  
16          tic manufacturers.

17          (4) The amount of appropriations that are re-  
18          quired to fund or finance the grant, loan, or loan  
19          guarantee.

20          (g) RELOCATION CONSIDERATION.—In making a de-  
21          termination to provide a loan or loan guarantee to an eligi-  
22          ble entity for an eligible activity described in subparagraph  
23          (B) or (C) of subsection (c)(2), the Assistant Secretary—

24               (1) shall—

1           (A) consult with the Secretary of State and  
2           the heads of other relevant Federal agencies, as  
3           appropriate; and

4           (B) to the extent practicable, ensure no  
5           single ally or key international partner benefits  
6           from an outsized amount of Federal funding  
7           provided under this section; and

8           (2) may take into considerations labor and envi-  
9           ronmental standards of the ally or key international  
10          partner when considering the siting locations for the  
11          eligible activity.

12          (h) RELOCATION LIMITATIONS.—As a condition of  
13          receiving a loan or loan guarantee for an eligible activity  
14          described under subparagraph (B) or (C) of subsection  
15          (c)(2), the Assistant Secretary shall prohibit an eligible  
16          entity from making capital or labor investments in the  
17          manufacturing facility or operation in the country of con-  
18          cern for the duration of the grant, loan, or loan guarantee.

19          (i) GRANT COST SHARE.—

20               (1) IN GENERAL.—The amount of a grant  
21               under this section may not exceed 80 percent of the  
22               reasonably anticipated costs of the eligible activity  
23               for which the grant is made.

24               (2) WAIVER.—Upon providing written justifica-  
25               tion for a determination made pursuant to this para-

1 graph, which may be submitted with a classified  
2 annex to the Committee on Energy and Commerce  
3 of the House of Representatives and the Committee  
4 on Commerce, Science, and Transportation of the  
5 Senate, the Assistant Secretary may waive the cost  
6 share requirement of paragraph (1)—

7 (A) during a period of national emergency  
8 declared by an Act of Congress or the Presi-  
9 dent; and

10 (B) upon making a determination that a  
11 grant is necessary to avert the disruption,  
12 strain, compromise, or elimination of a supply  
13 chain that would severely affect the national se-  
14 curity or economic security of the United  
15 States.

16 (3) USE OF OTHER FEDERAL ASSISTANCE.—  
17 Federal assistance other than a grant under this  
18 section may be used to satisfy the non-Federal share  
19 of the cost of the eligible activity.

20 (j) LOANS AND LOAN GUARANTEES.—

21 (1) IN GENERAL.—The Assistant Secretary  
22 may enter into an agreement with an eligible entity  
23 to make a loan, the proceeds of which shall be used  
24 to finance an eligible activity.

1           (2) MAXIMUM AMOUNT.—The amount of a loan  
2           under this section may not exceed 80 percent of the  
3           reasonably anticipated costs of the eligible activity  
4           for which the loan is made.

5           (3) WAIVER.—Upon providing written justifica-  
6           tion for a determination made pursuant to this para-  
7           graph, which may be submitted with a classified  
8           annex to the Committee on Energy and Commerce  
9           of the House of Representatives and the Committee  
10          on Commerce, Science, and Transportation of the  
11          Senate, the Assistant Secretary may waive the re-  
12          quirement of paragraph (2)—

13                 (A) during a period of national emergency  
14                 declared by an Act of Congress or the Presi-  
15                 dent; or

16                 (B) upon making a determination that a  
17                 loan is necessary to avert the disruption, strain,  
18                 compromise, or elimination of a supply chain  
19                 that would severely affect the national security  
20                 or economic security of the United States.

21          (4) LOAN GUARANTEES.—

22                 (A) IN GENERAL.—The Assistant Sec-  
23                 retary may provide a loan guarantee to a lender  
24                 in lieu of making a loan under this section.

1           (B) TERMS.—The terms of a loan guar-  
2           antee provided under this section shall be con-  
3           sistent with the terms established in this sub-  
4           section for a loan.

5           (k) MANUFACTURING INVESTMENT COMPANIES.—

6           (1) IN GENERAL.—The Assistant Secretary  
7           may provide a loan or loan guarantee to a manufac-  
8           turing investment company.

9           (2) EQUITY CAPITAL.—A manufacturing invest-  
10          ment company shall use the proceeds of a loan or  
11          loan guarantee provided under this subsection to  
12          provide a source of equity capital for eligible entities  
13          to carry out eligible activities.

14          (3) APPLICATION.—The Assistant Secretary  
15          may not provide a loan or loan guarantee to a man-  
16          ufacturing investment company unless the manufac-  
17          turing investment company submits to the Assistant  
18          Secretary an application at such time, in such form,  
19          and containing such information as the Assistant  
20          Secretary may require, which shall include the fol-  
21          lowing:

22                  (A) A plan describing how the manufac-  
23                  turing investment company intends to provide  
24                  equity capital to eligible entities to support the

1 resilience, diversity, security, and strength of  
2 supply chains.

3 (B) Information regarding the relevant  
4 qualifications and general reputation of the  
5 management of the manufacturing investment  
6 company.

7 (C) A description of how the manufac-  
8 turing investment company intends to address  
9 the unmet capital needs of eligible entities.

10 (D) A description of whether and to what  
11 extent the manufacturing investment company  
12 meets the criteria established under paragraph  
13 (4).

14 (E) For a manufacturing investment com-  
15 pany seeking to provide equity capital for an el-  
16 igible activity described in subparagraph (B) or  
17 (C) of subsection (c)(2), a description of domes-  
18 tic manufacturing operations for the production  
19 of the critical good.

20 (4) CRITERIA.—The Secretary shall establish  
21 criteria for the awarding of a loan or loan guarantee  
22 under this subsection to a manufacturing investment  
23 company, including the following:

24 (A) The extent to which the equity capital  
25 to be provided under paragraph (2) will support

1 the resilience, diversity, security, and strength  
2 of supply chains.

3 (B) The extent to which the plan sub-  
4 mitted under paragraph (3)(A) will be funded  
5 or financed by non-Federal sources.

6 (C) The extent to which the manufacturing  
7 investment company will assist small and me-  
8 dium-sized domestic manufacturers.

9 (D) The amount of appropriations that are  
10 required to fund or finance the loan or loan  
11 guarantee.

12 (5) REQUIREMENTS.—As a condition for pro-  
13 viding a loan or loan guarantee under this sub-  
14 section, the Assistant Secretary shall require a man-  
15 ufacturing investment company to certify the fol-  
16 lowing:

17 (A) The equity capital is for an eligible ac-  
18 tivity.

19 (B) Without the equity capital, the eligible  
20 entity would not be able to fund or finance the  
21 eligible activity under reasonable terms and  
22 conditions.

23 (C) The equity capital is a cost effective,  
24 expedient, and practical form of financial assist-  
25 ance for the eligible activity.

1 (D) There is a reasonable assurance  
2 that—

3 (i) the eligible entity will implement  
4 the eligible activity; and

5 (ii) the eligible activity will support—

6 (I) the resilience, diversity, secu-  
7 rity, or strength of a supply chain;  
8 and

9 (II) the national security or eco-  
10 nomic security of the United States.

11 (E) The manufacturing investment com-  
12 pany will provide the information required  
13 under paragraph (6)(C).

14 (F) In the case of an eligible activity de-  
15 scribed in subsection (c)(2) (B) or (C), reloca-  
16 tion of a manufacturing facility or operations  
17 into the United States is uneconomical.

18 (G) The eligible activity does not support  
19 the production of a critical good subject to an  
20 anti-dumping or countervailing duty order im-  
21 posed by the United States.

22 (6) PERFORMANCE MEASURES.—For loans and  
23 loan guarantees provided under this subsection, the  
24 Assistant Secretary shall—

1 (A) develop metrics to assess the extent to  
2 which manufacturing investment companies  
3 meet the criteria established under paragraph  
4 (4);

5 (B) assess the extent to which each manu-  
6 facturing investment company awarded a loan  
7 or loan guarantee is meeting the criteria estab-  
8 lished under paragraph (4); and

9 (C) require the manufacturing investment  
10 company to provide to the Assistant Secretary  
11 any information relating to the loan or loan  
12 guarantee that the Assistant Secretary deter-  
13 mines to be necessary to conduct the assess-  
14 ment under subparagraph (B).

15 (7) EQUITY CAPS.—The Assistant Secretary  
16 may, as a condition of providing a loan or loan guar-  
17 antee under this subsection, establish limits on—

18 (A) the maximum amount of equity or  
19 quasi-equity securities, shares, or financial in-  
20 terests a manufacturing investment company  
21 may purchase, make and fund commitments to  
22 purchase, invest in, make pledges in respect of,  
23 or otherwise acquire from an eligible entity; and

24 (B) the maximum amount of assets a man-  
25 ufacturing investment company may hold to be

1 eligible for a loan or loan guarantee under this  
2 subsection.

3 (8) CONDITIONS.—The Assistant Secretary may  
4 prescribe either specifically or by maximum limits or  
5 otherwise, rates of interest, guarantee and commit-  
6 ment fees, and other charges which may be made in  
7 connection with equity capital made under this sub-  
8 section.

9 (9) RELOCATION CONSIDERATION.—In making  
10 a determination to provide a loan or loan guarantee  
11 to a manufacturing investment company for an eligi-  
12 ble activity described under subparagraph (B) or (C)  
13 of subsection (c)(2), the Assistant Secretary may  
14 take into consideration labor and environmental  
15 standards of the ally or key international partner  
16 when considering the siting locations for the eligible  
17 activity.

18 (10) RELOCATION LIMITATIONS.—As a condi-  
19 tion of receiving a loan or loan guarantee from a  
20 manufacturing investment company for an eligible  
21 activity described under subparagraph (B) or (C) of  
22 subsection (c)(2), the manufacturing investment  
23 company shall prohibit an eligible entity from mak-  
24 ing capital or labor investments in the manufac-

1 turing facility or operation in the country of concern  
2 for the duration of the equity capital.

3 (l) CREDITWORTHINESS.—

4 (1) IN GENERAL.—For a loan or loan guar-  
5 antee provided under this section, the manufacturing  
6 investment company or eligible entity and eligible ac-  
7 tivity receiving such loan or loan guarantee shall be  
8 creditworthy, which shall be determined by the As-  
9 sistant Secretary.

10 (2) CONSIDERATIONS.—In determining the  
11 creditworthiness of a manufacturing investment  
12 company or an eligible entity and eligible activity  
13 under paragraph (1), the Assistant Secretary shall  
14 take into consideration relevant factors, including  
15 the following:

16 (A) The terms, conditions, financial struc-  
17 ture, and security features of the loan or loan  
18 guarantee.

19 (B) The revenue sources that will secure or  
20 fund any note, bond, debenture, or other debt  
21 obligation issued in connection with the loan or  
22 loan guarantee.

23 (C) The financial assumptions upon which  
24 the loan or loan guarantee is based.

25 (D) The ability of—

1 (i) the manufacturing investment  
2 company to provide a source of equity cap-  
3 ital for eligible entities; or

4 (ii) the eligible entity to successfully  
5 achieve the goal of the eligible activity.

6 (E) The financial soundness and credit his-  
7 tory of the manufacturing investment company  
8 or eligible entity.

9 (m) CONDITIONS.—The Assistant Secretary may pre-  
10 scribe—

11 (1) either specifically or by maximum limits or  
12 otherwise, rates of interest, guarantee and commit-  
13 ment fees, and other charges which may be made in  
14 connection with a loan or loan guarantee made  
15 under this section; and

16 (2) regulations governing the forms and proce-  
17 dures (which shall be uniform to the extent prac-  
18 ticable) to be used in connection with such loans and  
19 loan guarantees.

20 (n) SELECTION OF RECIPIENTS.—

21 (1) ABILITY TO MEET CRITERIA.—To the ex-  
22 tent practicable, in awarding grants, loans, and loan  
23 guarantees under this section, the Assistant Sec-  
24 retary shall—

25 (A) select—

1 (i) manufacturing investment compa-  
2 nies that best meet the criteria established  
3 under subsection (k)(4); and

4 (ii) eligible entities and eligible activi-  
5 ties that best meet the criteria established  
6 under subsection (f); and

7 (B) serve the greatest needs for a diverse  
8 array of critical industries.

9 (2) PRIORITY.—In awarding grants, loans, and  
10 loan guarantees under this section, the Assistant  
11 Secretary shall prioritize—

12 (A) eligible activities that—

13 (i) are within the United States and  
14 employ citizens of the United States; and

15 (ii) will result in the production of  
16 critical goods that relate to the strategic  
17 needs of the Federal Government in pre-  
18 paring for and responding to supply chain  
19 shocks;

20 (B) eligible entities that agree to coordi-  
21 nate with the Assistant Secretary to assist the  
22 United States in preparing for and responding  
23 to supply chain shocks, including through the  
24 manufacture of critical goods, as necessary; and

1 (C) small and medium sized manufactur-  
2 ers.

3 (o) PERFORMANCE MEASURES.—For grants, loans,  
4 and loan guarantees provided under this section to eligible  
5 entities, the Assistant Secretary shall—

6 (1) develop metrics to assess the extent to  
7 which the criteria established under subsection (f)  
8 are met;

9 (2) assess the extent to which the criteria estab-  
10 lished under subsection (f) are met; and

11 (3) require the eligible entity to provide to the  
12 Assistant Secretary any information that the Assist-  
13 ant Secretary determines to be necessary to conduct  
14 the assessment under paragraph (2).

15 (p) CONSTRUCTION PROJECTS.—The requirements  
16 of section 602 of the Public Works and Economic Develop-  
17 ment Act of 1965 (42 U.S.C. 3212) shall apply to a con-  
18 struction project that receives financial assistance from  
19 the Assistant Secretary under this section in the same  
20 manner as such requirements apply to a project assisted  
21 by the Secretary under such Act.

22 (q) WORKFORCE PROTECTIONS.—Any eligible entity  
23 and manufacturing investment company applying for a  
24 grant, loan, or loan guarantee under this section, in any  
25 case in which the eligible entity has 100 or more employ-

ees, shall make a good-faith certification to the Assistant Secretary that—

(1) the eligible entity will not abrogate existing collective bargaining agreements, as applicable, for—

(A) the term of the grant; or

(B) the term of the loan or loan guarantee and 2 years after completing repayment of the loan; and

(2) the eligible entity will remain neutral in any union organizing effort for the term of the grant, loan, or loan guarantee.

(r) CONSISTENCY WITH INTERNATIONAL AGREEMENTS.—This section shall be applied in a manner consistent with United States obligations under international agreements.

(s) LIMITATION.—To the extent practicable, none of the funds made available to carry out this section may be used to support manufacturing in a country of concern.

(t) REGULATIONS.—The Assistant Secretary may promulgate such regulations as the Assistant Secretary determines to be appropriate to carry out this section.

(u) SUPPLY CHAINS FOR CRITICAL MANUFACTURING INDUSTRIES FUND.—

(1) ESTABLISHMENT.—There is established in the Treasury of the United States a fund to be

1 known as the “Supply Chains for Critical Manufac-  
2 turing Industries Fund” (in this section referred to  
3 as the “Fund”), which shall solely be used by the  
4 Assistant Secretary to carry out this section.

5 (2) REVOLVING LOAN FUND.—The proceeds of  
6 any conditions prescribed under subsection (k)(1)  
7 shall be deposited into the Fund.

8 (v) RULE OF CONSTRUCTION.—Nothing in this sec-  
9 tion may be construed to permit the proceeds of a grant,  
10 loan, loan guarantee, or equity investment to support ac-  
11 tivities that offshore manufacturing capacity from the  
12 United States.

13 (w) AUTHORIZATION OF APPROPRIATIONS.—

14 (1) IN GENERAL.—There is authorized to be  
15 appropriated to the Fund \$45,000,000,000 for fiscal  
16 years 2022 through 2027. Such amount is author-  
17 ized to remain available until expended.

18 (2) PURPOSES.—Of the amount authorized to  
19 be appropriated under paragraph (1), not more  
20 than—

21 (A) \$31,000,000,000 is authorized to be  
22 appropriated for loans and loan guarantees to  
23 eligible entities;

24 (B) \$10,000,000,000 is authorized to be  
25 appropriated for grants to eligible entities; and

1 (C) \$4,000,000,000 is authorized to be ap-  
2 propriated for loans and loan guarantees to  
3 manufacturing investment companies.

4 (3) ADMINISTRATIVE COSTS.—Of the amounts  
5 authorized to be appropriated under paragraph (2),  
6 up to 2 percent per fiscal year is authorized to be  
7 appropriated for administrative costs associated with  
8 carrying out this section.

9 **SEC. 20205. SUPPLY CHAIN INNOVATION AND BEST PRAC-**  
10 **TICES.**

11 (a) IN GENERAL.—The Assistant Secretary, in con-  
12 sultation with the Director of the National Institute of  
13 Standards and Technology, shall, on an ongoing basis, fa-  
14 cilitate and support the development of a voluntary set of  
15 standards, guidelines, best practices, management strate-  
16 gies, methodologies, procedures, and processes for domes-  
17 tic manufacturers and entities manufacturing, purchasing,  
18 or using a critical good to—

19 (1) measure the resilience, diversity, security,  
20 and strength of supply chains;

21 (2) evaluate the value of the resilience, diver-  
22 sity, security, and strength of supply chains; and

23 (3) design organizational processes and incen-  
24 tives to reduce the risks of disruption, strain, com-  
25 promise, or elimination of a supply chain.

1 (b) REQUIREMENTS.—In carrying out subsection (a),  
2 the Assistant Secretary shall do the following:

3 (1) Coordinate closely and regularly with rel-  
4 evant private sector personnel and entities, manufac-  
5 turing extension centers established as part of the  
6 Hollings Manufacturing Extension Partnership,  
7 Manufacturing USA institutes as described in sec-  
8 tion 34(d) of the National Institute of Standards  
9 and Technology Act (15 U.S.C. 278s(d)), and other  
10 relevant stakeholders and incorporate industry ex-  
11 pertise.

12 (2) Consult with the head of any relevant Fed-  
13 eral agency, including those with jurisdiction over  
14 supply chains, States, local governments, Tribal gov-  
15 ernments, the governments of other nations, and  
16 international organizations, as necessary.

17 (3) Collaborate with private sector stakeholders  
18 to identify a prioritized, flexible, repeatable, per-  
19 formance-based, and cost-effective approach that  
20 may be voluntarily adopted by domestic manufactur-  
21 ers and entities purchasing or using a critical good  
22 to help them—

23 (A) identify, assess, and manage risks to  
24 supply chains; and

1           (B) value the resilience, diversity, security,  
2           and strength of their supply chain.

3           (4) Facilitate the design of—

4           (A) voluntary processes for selecting sup-  
5           pliers that support the resilience, diversity, se-  
6           curity, and strength of supply chains; and

7           (B) methodologies to identify and mitigate  
8           the effects of a disruption, strain, compromise,  
9           or elimination of a supply chain.

10          (5) Disseminate research and information to as-  
11          sist domestic manufacturers redesign products, ex-  
12          pand manufacturing capacity, and improve capabili-  
13          ties to meet domestic needs for critical goods and  
14          supply chains.

15          (6) Incorporate relevant voluntary standards  
16          and industry best practices.

17          (7) Consider small business concerns.

18          (8) Any other elements the Assistant Secretary  
19          determines to be necessary.

20          (9) Leverage existing mechanisms for the Fed-  
21          eral Government to provide supply chain solutions,  
22          including manufacturing technology, in collaboration  
23          with the Manufacturing USA institutes and Manu-  
24          facturing Extension Partnerships described in para-  
25          graph (1). The Manufacturing USA institutes and

1 Manufacturing Extension Partnerships may provide  
2 products, tools, and workforce development solutions  
3 related to critical supply chain resiliency for United  
4 States manufacturers, with allocated resources spe-  
5 cific to small and medium sized manufacturers.

6 (c) AUTHORIZATION OF APPROPRIATIONS.—There is  
7 authorized to be appropriated to the Office \$500,000,000  
8 for fiscal years 2022 through 2027, to remain available  
9 until expended, for the Assistant Secretary to carry out  
10 this section, of which not more than 2 percent per fiscal  
11 year may be used for administrative costs.

12 **SEC. 20206. PROGRAM EVALUATION BY THE INSPECTOR**  
13 **GENERAL OF THE DEPARTMENT OF COM-**  
14 **MERCE.**

15 (a) PROGRAM EVALUATION.—Not later than 4 years  
16 after the date of the enactment of this Act, and every 4  
17 years thereafter, the Inspector General of the Department  
18 of Commerce shall conduct an audit of the Office to—

19 (1) evaluate the performance of the activities  
20 supported by a grant, loan, or loan guarantee under  
21 section 20204;

22 (2) evaluate the extent to which the require-  
23 ments and criteria under this subtitle are met; and

24 (3) provide recommendations on any proposed  
25 changes to improve the effectiveness of the Office on

1 meeting the mission described under section  
2 20201(b).

3 (b) AUTHORIZATION OF APPROPRIATIONS.—There is  
4 authorized to be appropriated to the Inspector General of  
5 the Department of Commerce \$5,000,000 for fiscal years  
6 2022 through 2027, to remain available until expended,  
7 to carry out subsection (a).

8 **SEC. 20207. SUPPLY CHAIN DATABASE AND TOOLKIT.**

9 (a) ESTABLISHMENT.—

10 (1) IN GENERAL.—Not later than 180 days  
11 after the date of the enactment of this Act, the Sec-  
12 retary of Commerce shall establish a database and  
13 online toolkit under which—

14 (A) United States businesses may volun-  
15 tarily submit to the Secretary information on—

16 (i) the products produced by such  
17 businesses in the United States, which may  
18 be finished goods or inputs for other  
19 goods;

20 (ii) the inputs required for such prod-  
21 ucts, which may include, with respect to  
22 such an input—

23 (I) the specific geographic loca-  
24 tion of the production of the input, in-  
25 cluding if the input is sourced from

1 the United States or a foreign coun-  
2 try;

3 (II) the business name of a sup-  
4 plier of the input;

5 (III) information related to per-  
6 ceived or realized challenges in secur-  
7 ing the input;

8 (IV) information related to the  
9 suspected vulnerabilities or implica-  
10 tions of a disruption in securing the  
11 input, whether related to national se-  
12 curity or the effect on the United  
13 States business; or

14 (V) in the case of an input  
15 sourced from a foreign country, infor-  
16 mation on—

17 (aa) why the input is  
18 sourced from a foreign country  
19 rather than in the United States;  
20 and

21 (bb) if the United States  
22 business would be interested in  
23 identifying an alternative pro-  
24 duced in the United States;

1 (B) United States businesses may request  
2 and receive contact information or general in-  
3 formation about a United States source or a  
4 foreign source for an input;

5 (C) United States businesses are able to  
6 specify—

7 (i) what information can be shared  
8 with other United States businesses;

9 (ii) what information should be shared  
10 only with the Department of Commerce;  
11 and

12 (iii) what information could be sub-  
13 mitted to Congress or made available to  
14 the public; and

15 (D) the Secretary makes information pro-  
16 vided under this paragraph available, subject to  
17 subparagraph (C), to enable other United  
18 States businesses to identify inputs for their  
19 products produced in the United States.

20 (2) **FORMAT; PUBLIC AVAILABILITY.**—The Sec-  
21 retary shall—

22 (A) provide the database and online toolkit  
23 established under paragraph (1) on a publicly  
24 available website of the Department of Com-  
25 merce; and

1 (B) ensure that the database and online  
2 toolkit are—

- 3 (i) searchable and filterable according  
4 to the type of information; and  
5 (ii) presented in a user-friendly for-  
6 mat.

7 (3) EXEMPTION FROM PUBLIC DISCLOSURE.—  
8 Information submitted to the Secretary in relation to  
9 the database and online toolkit established under  
10 paragraph (1)—

11 (A) shall be exempt from disclosure under  
12 section 552(b)(3) of title 5, United States Code;  
13 and

14 (B) shall not be made available by any  
15 Federal, State, political subdivision, or Tribal  
16 authority pursuant to any Federal, State, polit-  
17 ical subdivision, or Tribal law requiring public  
18 disclosure of information or records.

19 (4) REPORTING.—

20 (A) REPORT TO CONGRESS.—Not later  
21 than 180 days after the date of the enactment  
22 of this Act, and every days thereafter, the Sec-  
23 retary shall submit to Congress a report that  
24 includes—

1 (i) an assessment of the effectiveness  
2 of the database and online toolkit estab-  
3 lished under paragraph (1), including sta-  
4 tistics regarding the number of new en-  
5 tries, total businesses involved, and any  
6 change in participation rate during the  
7 preceding 180-day period;

8 (ii) recommendations for additional  
9 actions to improve the database and online  
10 toolkit and participation in the database  
11 and online toolkit; and

12 (iii) such other information as the  
13 Secretary considers appropriate.

14 (B) PUBLIC REPORT.—Not later than one  
15 year after the date of the enactment of this Act,  
16 and annually thereafter, the Secretary shall  
17 post on a publicly available website of the De-  
18 partment of Commerce a report that sets  
19 forth—

20 (i) general statistics related to foreign  
21 and domestic sourcing of inputs used by  
22 United States businesses;

23 (ii) an estimate of the percentage of  
24 total inputs used by United States busi-  
25 nesses obtained from foreign countries;

1 (iii) data on such inputs  
2 disaggregated by industry, geographical lo-  
3 cation, and size of operation; and

4 (iv) a description of the methodology  
5 used to calculate the statistics and esti-  
6 mates required by this paragraph.

7 (b) PUBLIC OUTREACH CAMPAIGN.—

8 (1) IN GENERAL.—The Secretary shall carry  
9 out a national public outreach campaign—

10 (A) to educate United States businesses  
11 about the existence of the database and online  
12 toolkit established under subsection (a); and

13 (B) to facilitate and encourage the partici-  
14 pation of such businesses in the database and  
15 online toolkit.

16 (2) OUTREACH REQUIREMENT.—In carrying  
17 out the campaign under paragraph (1), the Sec-  
18 retary shall—

19 (A) establish an advertising and outreach  
20 program directed to businesses, industries,  
21 State and local agencies, chambers of com-  
22 merce, and labor organizations—

23 (i) to facilitate understanding of the  
24 value of an aggregated demand mapping  
25 system; and

1 (ii) to advertise that the database and  
2 online toolkit established under subsection  
3 (a) are available for that purpose;

4 (B) notify appropriate State agencies not  
5 later than 10 days after the date of the enact-  
6 ment of this Act regarding the development of  
7 the database and online toolkit; and

8 (C) post a notice on a publicly available  
9 website of the Department of Commerce and es-  
10 tablish a social media awareness campaign to  
11 advertise the database and online toolkit.

12 (3) COORDINATION.—In carrying out the cam-  
13 paign under paragraph (1), the Secretary may co-  
14 ordinate with other Federal agencies and State or  
15 local agencies as appropriate.

16 (4) SEPARATE ACCOUNTING.—

17 (A) BUDGETARY LINE ITEM.—The Sec-  
18 retary shall include in the budget justification  
19 materials submitted to Congress in support of  
20 the Department of Commerce budget for fiscal  
21 years 2023 and 2024 (as submitted with the  
22 budget of the President under section 1105(a)  
23 of title 31, United States Code) specific identi-  
24 fication, as a budgetary line item, of the

1 amounts required to carry out the campaign  
2 under paragraph (1).

3 (B) PROHIBITION ON COMMINGLING.—

4 Amounts appropriated to carry out this sub-  
5 section may not be commingled with any other  
6 amounts appropriated to the Department of  
7 Commerce.

8 (c) USE OF DEPARTMENT OF COMMERCE RE-  
9 SOURCES.—

10 (1) IN GENERAL.—The Secretary—

11 (A) shall, to the maximum extent prac-  
12 ticable, construct the database and online tool-  
13 kit required by subsection (a), and related ana-  
14 lytical features, using expertise within the De-  
15 partment of Commerce; and

16 (B) may, as appropriate, adopt new tech-  
17 nologies and hire additional employees to carry  
18 out this section.

19 (2) MINIMIZATION OF CONTRACTING.—If the  
20 activities described in subparagraphs (A) and (B) of  
21 paragraph (1) cannot be completed without the em-  
22 ployment of contractors, the Secretary should seek  
23 to minimize the number of contractors and the scope  
24 of the contract.

1 (d) TERMINATION.—This section shall terminate on  
2 September 30, 2025.

3 **SEC. 20208. AGRICULTURE AND FOOD SYSTEM SUPPLY**  
4 **CHAIN MONITORING AND ASSESSMENT.**

5 (a) ACTIVITIES.—Not later than 270 days after the  
6 date of the enactment of this Act, the Assistant Secretary,  
7 in consultation with the Secretary of Agriculture, shall  
8 identify and evaluate the stability and reliability of the ag-  
9 riculture and food system supply chain, including—

10 (1) the state of the agriculture and food system  
11 workforce and any supply chain vulnerabilities re-  
12 lated to the agriculture and food system workforce;

13 (2) transportation bottlenecks in the distribu-  
14 tion of agricultural inputs, processed and unproc-  
15 essed food and food input products, and consumer-  
16 ready food products; and

17 (3) opportunities to create training and edu-  
18 cation programs focused on high-quality jobs in the  
19 agriculture and food system that—

20 (A) increase the stability of the agriculture  
21 and food system; and

22 (B) alleviate supply chain bottlenecks in  
23 the distribution of agricultural inputs, proc-  
24 essed and unprocessed food and food input  
25 products, and consumer-ready food products.

1 (b) REPORT TO CONGRESS.—In carrying out sub-  
2 section (a), the Assistant Secretary shall submit to the  
3 Committee on Energy and Commerce and the Committee  
4 on Agriculture of the House of Representatives and the  
5 Committee on Commerce, Science, and Transportation  
6 and the Committee on Agriculture, Nutrition, and For-  
7 estry of the Senate a report that contains the following:

8 (1) An identification of the strengths, weak-  
9 nesses, critical bottlenecks, workforce challenges and  
10 opportunities, and overall stability and reliability of  
11 the agriculture and food system supply chain.

12 (2) An assessment of Federal, State, and local  
13 laws and regulations that—

14 (A) increase the stability and reliability of  
15 the agriculture and food system supply chain;

16 or

17 (B) decrease or otherwise negatively im-  
18 pact, both in the present moment and in the fu-  
19 ture, the stability and reliability of the agri-  
20 culture and food system supply chain.

21 (3) Specific recommendations to improve the se-  
22 curity, safety, and resilience of the agriculture and  
23 food system supply chain. The recommendations  
24 shall contain—

25 (A) long-term strategies;

1 (B) industry best practices;

2 (C) risk mitigation actions to prevent fu-  
3 ture bottlenecks and vulnerabilities at all levels  
4 of the agriculture and food system supply chain;  
5 and

6 (D) legislative and regulatory actions that  
7 would positively impact the security and resil-  
8 ience of the agriculture and food system supply  
9 chain.

10 **SEC. 20209. DEFINITIONS.**

11 In this subtitle:

12 (1) **ALLY OR KEY INTERNATIONAL PARTNER.**—

13 The term “ally or key international partner” does  
14 not include—

15 (A) a country that poses a significant na-  
16 tional security or economic security risk to the  
17 United States; or

18 (B) a country of concern.

19 (2) **ASSISTANT SECRETARY.**—The term “Assist-  
20 ant Secretary” means the Assistant Secretary of  
21 Manufacturing Security and Resilience appointed  
22 pursuant to section 20201(c).

23 (3) **COUNTRY OF CONCERN.**—The term “coun-  
24 try of concern” means a country in which a con-  
25 centrated supply chain is located and—

1 (A) that poses a significant national secu-  
2 rity or economic security threat to the United  
3 States;

4 (B) is a covered nation (as defined under  
5 section 2533c(d) of title 10, United States  
6 Code); or

7 (C) whose government, or elements of such  
8 government, has proven to have, or has been  
9 credibly alleged to have, committed crimes  
10 against humanity or genocide.

11 (4) COVERED WESTERN HEMISPHERE COUN-  
12 TRIES.—The term “covered Western Hemisphere  
13 countries” means the following countries: Anguilla,  
14 Antigua and Barbuda, Argentina, Aruba, The Baha-  
15 mas, Barbados, Belize, Bermuda, Bolivia, Brazil, the  
16 British Virgin Islands, Canada, Chile, Colombia,  
17 Costa Rica, Dominica, Dominican Republic, Ecu-  
18 dor, El Salvador, Grenada, Guatemala, Guyana,  
19 Haiti, Honduras, Jamaica, Mexico, Montserrat,  
20 Netherlands Antilles, Panama, Paraguay, Peru,  
21 Saint Kitts and Nevis, Saint Lucia, Saint Vincent  
22 and the Grenadines, Suriname, Trinidad and To-  
23 bago, Turks and Caicos Islands, Uruguay, and the  
24 sovereign government recognized by the United  
25 States in Venezuela.

1           (5) CRITICAL GOOD.—The term “critical good”  
2 means any raw, in process, or manufactured mate-  
3 rial (including any mineral, metal, or advanced proc-  
4 essed material), article, commodity, supply, product,  
5 or item of supply the absence of which would have  
6 a significant effect on—

7                   (A) the national security or economic secu-  
8 rity of the United States; and

9                   (B) critical infrastructure.

10           (6) CRITICAL INDUSTRY.—The term “critical  
11 industry” means an industry that is critical for the  
12 national security or economic security of the United  
13 States, considering key technology focus areas and  
14 critical infrastructure.

15           (7) CRITICAL INFRASTRUCTURE.—The term  
16 “critical infrastructure” has the meaning given to  
17 that term in the Critical Infrastructures Protection  
18 Act of 2001 (42 U.S.C. 5195c).

19           (8) DOMESTIC ENTERPRISE.—The term “do-  
20 mestic enterprise” means an enterprise that con-  
21 ducts business in the United States and procures a  
22 critical good.

23           (9) DOMESTIC MANUFACTURER.—The term  
24 “domestic manufacturer” means a business that—

1           (A) conducts in the United States the re-  
2           search and development, engineering, or pro-  
3           duction activities necessary or incidental to  
4           manufacturing; or

5           (B) if provided a grant, loan, loan guar-  
6           antee, or equity investment under section  
7           20204, will conduct in the United States the re-  
8           search and development, engineering, or pro-  
9           duction activities necessary or incidental to  
10          manufacturing.

11          (10) ECONOMICALLY DISTRESSED AREA.—The  
12          term “economically distressed area” means an area  
13          that meets 1 or more of the requirements described  
14          in section 301(a) of the Public Works and Economic  
15          Development Act of 1965 (42 U.S.C. 3161(a)).

16          (11) ELIGIBLE ACTIVITY.—The term “eligible  
17          activity” means an activity described under section  
18          20204(e).

19          (12) ELIGIBLE ENTITY.—The term “eligible en-  
20          tity” means an entity described under section  
21          20204(d).

22          (13) FEDERAL AGENCY.—The term “Federal  
23          agency” has the meaning given the term “agency”  
24          in section 551 of title 5, United States Code.

1           (14) INDUSTRIAL EQUIPMENT.—The term “in-  
2           dustrial equipment” means any component, sub-  
3           system, system, equipment, tooling, accessory, part,  
4           or assembly necessary for the manufacturing of a  
5           critical good.

6           (15) INSTITUTION OF HIGHER EDUCATION.—  
7           The term “institution of higher education” has the  
8           meaning given that term under section 101(a) of the  
9           Higher Education Act of 1965 (20 U.S.C. 1001(a)).

10          (16) KEY TECHNOLOGY FOCUS AREAS.—The  
11          term “key technology focus areas” means the fol-  
12          lowing:

13                 (A) Artificial intelligence, machine learn-  
14                 ing, autonomy, and related advances.

15                 (B) High performance computing, semi-  
16                 conductors, and advanced computer hardware  
17                 and software.

18                 (C) Quantum information science and  
19                 technology.

20                 (D) Robotics, automation, and advanced  
21                 manufacturing.

22                 (E) Natural and anthropogenic disaster  
23                 prevention or mitigation.

1           (F) Advanced communications technology  
2           (including optical transmission components)  
3           and immersive technology.

4           (G) Advanced communications technology  
5           (including optical transmission components)  
6           and educational technology.

7           (H) Biotechnology, medical technology,  
8           genomics, and synthetic biology.

9           (I) Data storage, data management, dis-  
10          tributed ledger technologies, and cybersecurity,  
11          including biometrics.

12          (J) Advanced energy and industrial effi-  
13          cacy technologies, such as batteries, advanced  
14          nuclear technologies, and polysilicon for use in  
15          solar photovoltaics, including for the purposes  
16          of electric generation (consistent with section  
17          15 of the National Science Foundation Act of  
18          1950 (42 U.S.C. 1874)).

19          (K) Advanced materials science, including  
20          composites and 2D materials and equipment,  
21          aerospace grade metals, and aerospace specific  
22          manufacturing enabling chemicals.

23          (17) LABOR ORGANIZATION.—The term “labor  
24          organization” has the meaning given the term in  
25          section 2(5) of the National Labor Relations Act (29

1 U.S.C. 152(5)), except that such term shall also in-  
2 clude—

3 (A) any organization composed of labor or-  
4 ganizations, such as a labor union federation or  
5 a State or municipal labor body; and

6 (B) any organization which would be in-  
7 cluded in the definition for such term under  
8 such section 2(5) but for the fact that the orga-  
9 nization represents—

10 (i) individuals employed by the United  
11 States, any wholly owned Government cor-  
12 poration, any Federal Reserve Bank, or  
13 any State or political subdivision thereof;

14 (ii) individuals employed by persons  
15 subject to the Railway Labor Act (45  
16 U.S.C. 151 et seq.); or

17 (iii) individuals employed as agricul-  
18 tural laborers.

19 (18) LENDER.—The term “lender” means any  
20 non-Federal qualified institutional buyer (as defined  
21 in section 230.144A(a) of title 17, Code of Federal  
22 Regulations or a successor regulation).

23 (19) LOAN.—The term “loan” means a direct  
24 loan or other debt obligation issued by an eligible en-  
25 tity or a manufacturing investment company and

1 funded by the Assistant Secretary in connection with  
2 the financing of an eligible activity under section  
3 20204.

4 (20) LOAN GUARANTEE.—The term “loan guar-  
5 antee” means any guarantee or other pledge by the  
6 Assistant Secretary under section 20204 to pay all  
7 or part of the principal of, and interest on, a loan  
8 or other debt obligation entered into by an eligible  
9 entity or a manufacturing investment company and  
10 funded by a lender.

11 (21) MANUFACTURE.—The term “manufac-  
12 ture” means any activity that is necessary for or in-  
13 cidental to the development, production, processing,  
14 distribution, or delivery of any raw, in process, or  
15 manufactured material (including any mineral,  
16 metal, and advanced processed material), article,  
17 commodity, supply, product, critical good, or item of  
18 supply.

19 (22) MANUFACTURING FACILITY.—The term  
20 “manufacturing facility” means any type of building,  
21 structure, or real property necessary or incidental to  
22 the manufacturing of a critical good.

23 (23) MANUFACTURING INVESTMENT COM-  
24 PANY.—The term “manufacturing investment com-  
25 pany” means an incorporated body, a limited liabil-

1       ity company, or a limited partnership, including a  
2       consortium of public and private entities, organized  
3       and chartered or otherwise existing under State law.

4           (24) MANUFACTURING TECHNOLOGY.—The  
5       term “manufacturing technology” means tech-  
6       nologies that are necessary or incidental to the man-  
7       ufacturing of a critical good.

8           (25) NONPROFIT ORGANIZATION.—The term  
9       “nonprofit organization” means an organization that  
10      is described in section 501(c)(3) of the Internal Rev-  
11      enue Code of 1986 and exempt from taxation under  
12      section 501(a) of such Code.

13          (26) OFFICE.—The term “Office” means the  
14      Office of Manufacturing Security and Resilience es-  
15      tablished under section 20201.

16          (27) OFFSHORE.—The term “offshore” means  
17      the transfer or relocation of manufacturing capacity  
18      that is occurring or otherwise would occur in the  
19      United States to another country.

20          (28) RELEVANT COMMITTEES OF CONGRESS.—  
21      The term “relevant committees of Congress” means  
22      the following:

23            (A) The Committee on Commerce, Science,  
24            and Transportation of the Senate.

1           (B) The Committee on Appropriations of  
2 the Senate.

3           (C) The Committee on Finance of the Sen-  
4 ate.

5           (D) The Committee on Homeland Security  
6 and Governmental Affairs of the Senate.

7           (E) The Committee on Armed Services of  
8 the Senate.

9           (F) The Committee on Energy and Nat-  
10 ural Resources of the Senate.

11          (G) The Select Committee on Intelligence  
12 of the Senate.

13          (H) The Committee on Science, Space, and  
14 Technology of the House of Representatives.

15          (I) The Committee on Energy and Com-  
16 merce of the House of Representatives.

17          (J) The Committee on Appropriations of  
18 the House of Representatives.

19          (K) The Committee on Ways and Means of  
20 the House of Representatives.

21          (L) The Committee on Homeland Security  
22 of the House of Representatives.

23          (M) The Committee on Armed Services of  
24 the House of Representatives.

1 (N) The Permanent Select Committee on  
2 Intelligence of the House of Representatives.

3 (O) The Committee on Agriculture of the  
4 House of Representatives.

5 (P) The Committee on Agriculture, Nutri-  
6 tion, and Forestry of the Senate.

7 (29) RESILIENT SUPPLY CHAIN.—The term  
8 “resilient supply chain” means a supply chain  
9 that—

10 (A) ensures that the United States can  
11 sustain critical industry production, supply  
12 chains, services, and access to critical goods, in-  
13 dustrial equipment, and manufacturing tech-  
14 nology during supply chain shocks; and

15 (B) has key components of resilience that  
16 include—

17 (i) effective private sector risk man-  
18 agement and mitigation planning to sus-  
19 tain supply chains and supplier networks  
20 during a supply chain shock;

21 (ii) minimized or managed exposure to  
22 supply chain shocks; and

23 (iii) the financial and operational ca-  
24 pacity to—

1 (I) sustain supply chains during  
2 supply chain shocks; and

3 (II) recover from supply chain  
4 shocks.

5 (30) SECRETARY.—The term “Secretary”  
6 means the Secretary of Commerce.

7 (31) SMALL BUSINESS CONCERN.—The term  
8 “small business concern” has the meaning given  
9 that term in section 3(a) of the Small Business Act  
10 (15 U.S.C. 632(a)).

11 (32) STATE.—The term “State” means each  
12 State of the United States, the District of Columbia,  
13 American Samoa, Guam, the Commonwealth of the  
14 Northern Mariana Islands, Puerto Rico, the Virgin  
15 Islands of the United States, and any other territory  
16 of the United States.

17 (33) SUPPLY CHAIN.—The term “supply chain”  
18 means a supply chain for a critical good.

19 (34) SUPPLY CHAIN INFORMATION.—The term  
20 “supply chain information” means information that  
21 is not customarily in the public domain and relating  
22 to—

23 (A) sustaining and adapting supply chains  
24 during a supply chain shock;

1 (B) supply chain risk mitigation and recov-  
2 ery planning with respect to a supply chain  
3 shock, including any planned or past assess-  
4 ment, projection, or estimate of a vulnerability  
5 within the supply chain, including testing, sup-  
6 plier network assessments, production flexi-  
7 bility, risk evaluations thereto, risk manage-  
8 ment planning, or risk audits; or

9 (C) operational best practices, planning,  
10 and supplier partnerships that enable enhanced  
11 resilience of supply chains during a supply  
12 chain shock, including response, repair, recov-  
13 ery, reconstruction, insurance, or continuity.

14 (35) SUPPLY CHAIN SHOCK.—The term “supply  
15 chain shock” includes the following:

16 (A) A natural disaster or extreme weather  
17 event.

18 (B) An accidental or human-caused event.

19 (C) An economic disruption.

20 (D) A pandemic.

21 (E) A biological threat.

22 (F) A cyber attack.

23 (G) A great power conflict.

24 (H) A terrorist or geopolitical attack.

1 (I) A public health emergency declared by  
2 the Secretary of Health and Human Services  
3 pursuant to section 319 of the Public Health  
4 Service Act (42 U.S.C. 247d).

5 (J) An event for which the President de-  
6 clares a major disaster or an emergency under  
7 section 401 or 501, respectively, of the Robert  
8 T. Stafford Disaster Relief and Emergency As-  
9 sistance Act (42 U.S.C. 5170 and 5191).

10 (K) A national emergency declared by the  
11 President under the National Emergencies Act  
12 (50 U.S.C. 1601 et seq.).

13 (L) Any other supply chain disruption or  
14 threat that affects the national security or eco-  
15 nomic security of the United States.

16 (36) TRIBAL GOVERNMENT.—The term “Tribal  
17 government” means the governing body of a feder-  
18 ally recognized Indian Tribe, an Alaska Native tribal  
19 entity, or a Native Hawaiian community.

20 **SEC. 20210. DEPARTMENTS OF COMMERCE AND TRANSPOR-**  
21 **TATION SUPPLY CHAIN REPORT.**

22 Not later than 30 days after the date of the enact-  
23 ment of this Act, the Secretary of Commerce, in consulta-  
24 tion with the Secretary of Transportation, shall publish

1 and submit to Congress a report on the following, related  
2 to supply chains in the United States:

3 (1) Points of congestion or blockages.

4 (2) Underlying causes of supply chain interrup-  
5 tions, shortages, and delays.

6 (3) Other supply chain shortcomings which,  
7 with public or private investment, could be remedied  
8 to result in more efficient movement of goods into  
9 and within the United States.

10 **SEC. 20211. SUPPLY CHAIN REPORT REQUIRED.**

11 Not later than 60 days after the date of the enact-  
12 ment of this Act, the Secretary shall conduct a govern-  
13 mentwide study and submit to Congress a report on the  
14 steps that can be implemented within 30 days after sub-  
15 mitting the report to immediately address the supply chain  
16 crisis.

17 **SEC. 20212. NATIONAL COMMISSION ON CRITICAL SUPPLY**  
18 **CHAINS.**

19 (a) ESTABLISHMENT.—Congress shall establish a  
20 National Commission on Critical Supply Chains (referred  
21 to in this section as the “Commission”).

22 (b) PURPOSES.—The purposes of the Commission  
23 shall be to—

24 (1) convene an independent entity that brings  
25 together national experts in a highly visible forum to

1       conduct a systematic study and give guidance to  
2       Congress on the complex and strategically important  
3       issues related to rebuilding critical American supply  
4       chains;

5           (2) identify the critical supply chains in which  
6       the United States is dependent on materials, prod-  
7       ucts, equipment, or services from foreign countries  
8       and in which substantial harm would come to U.S.  
9       economic security, national defense, or way of life if  
10      those supply chains were compromised or no longer  
11      available;

12          (3) investigate in depth and report on existing  
13      dependencies, limitations, and risks to the United  
14      States for each of these critical supply chains, in-  
15      cluding considerations for medical supplies, equip-  
16      ment, and medications; rare earth materials; preci-  
17      sion-integrated circuits and microchips; machine  
18      tools and production equipment; defense components  
19      and homeland security capabilities; scientific equip-  
20      ment needed for advanced technology research and  
21      development; clothing and textiles; and food and ag-  
22      ricultural products;

23          (4) assess and provide guidance on key ques-  
24      tions, including—

1 (A) which driving forces are pushing U.S.  
2 companies to offshore their procurement or  
3 their manufacturing operations;

4 (B) how the United States can predict and  
5 prevent future supply chain disruptions;

6 (C) what the United States can do to re-  
7 duce future vulnerabilities and risks;

8 (D) whether the United States can make  
9 the American supply chain resilient enough to  
10 protect necessary capabilities and resources;

11 (E) which manufacturing activities should  
12 be performed strictly within the United States  
13 to ensure economic and national security;

14 (F) what actions should be taken by the  
15 United States to increase domestic manufac-  
16 turing to meet critical supply chain needs and  
17 improve its terms of trade; and

18 (G) what would be the effects of a new na-  
19 tional manufacturing strategy on employment,  
20 growth, innovation, and national security; and

21 (5) develop and propose specific recommenda-  
22 tions, submit a biannual comprehensive report (and  
23 intermediate updates as necessary to maintain time-  
24 ly and relevant information), and provide Congres-  
25 sional oversight to Congress to be used as a resource

1 for legislative actions to mitigate the risks of future  
2 American supply chain disruptions.

3 (c) MEMBERSHIP.—

4 (1) MEMBERS.—The Commission shall be com-  
5 posed of 12 members, of whom—

6 (A) three members shall be appointed by  
7 the Speaker of the House of Representatives, in  
8 consultation with the chairpersons of relevant  
9 committees, including the Committee on Ways  
10 and Means, Committee on Energy and Com-  
11 merce, Committee on Science, Space, and Tech-  
12 nology, Committee on Transportation and In-  
13 frastructure, Committee on Armed Services,  
14 Committee on Natural Resources, Committee  
15 on Small Business, Committee on Homeland  
16 Security, and Committee on Agriculture of the  
17 House of Representatives;

18 (B) three members shall be appointed by  
19 the minority leader of the House of Representa-  
20 tives, in consultation with the ranking minority  
21 Members of relevant committees, including the  
22 Committees described in subparagraph (A);

23 (C) three members shall be appointed by  
24 the President pro tempore of the Senate upon  
25 the recommendation of the majority leader of

1 the Senate, in consultation with the chair-  
2 persons of relevant committees, including the  
3 Committee on Finance, Committee on Com-  
4 merce, Science, and Technology, Committee on  
5 Armed Services, Committee on Energy and  
6 Natural Resources, Committee on Small Busi-  
7 ness and Entrepreneurship, Committee on  
8 Homeland Security and Governmental Affairs,  
9 Committee on Environment and Public Works,  
10 and Committee on Agriculture, Nutrition, and  
11 Forestry of the Senate; and

12 (D) three members shall be appointed by  
13 the President pro tempore of the Senate upon  
14 the recommendation of the minority leader of  
15 the Senate, in consultation with the ranking mi-  
16 nority Members of relevant committees, includ-  
17 ing the Committees described in subparagraph  
18 (C).

19 (2) CHAIR; VICE CHAIR.—

20 (A) APPOINTMENT.—Not later than 30  
21 days after the initial meeting of the Commis-  
22 sion, the Commission shall elect a Chair and  
23 Vice Chair from among the Commission's mem-  
24 bers by a simple majority vote, and such Chair  
25 and Vice Chair shall be members of the Com-

1 mission who were appointed by appointing au-  
2 thorities from different political parties under  
3 paragraph (1).

4 (B) PRESENCE.—For purposes of appoint-  
5 ing the Chair, all 12 members must be present.  
6 If all 12 members are not present, appointment  
7 of the chair shall be delayed until the next  
8 meeting of the Commission at which all 12  
9 members are present.

10 (C) TIMING.—If a quorum is not present  
11 at that initial meeting, the Chair shall be ap-  
12 pointed at the first meeting after that at which  
13 a quorum is present. If a Vice Chair is elected  
14 before the Chair and no Chair is elected, the  
15 Vice Chair shall serve as acting Chair until the  
16 Chair is elected.

17 (D) NEW CHAIR AND VICE CHAIR EACH  
18 CONGRESS.—A new Chair and Vice Chair shall  
19 be elected with respect to each Congress. Any  
20 member that was a Chair or Vice Chair in a  
21 Congress may not be elected to be a Chair or  
22 Vice Chair in a subsequent Congress.

23 (3) QUALIFICATIONS.—

24 (A) AREAS OF EXPERTISE.—

1 (i) IN GENERAL.—Each individual ap-  
2 pointed to the Commission shall have sub-  
3 stantial expertise in one or more of the fol-  
4 lowing areas:

5 (I) Supply chain expertise, in-  
6 cluding the following:

7 (aa) Advanced manufactur-  
8 ing, with a focus on distrib-  
9 uted operations and supply chain  
10 management.

11 (bb) Economics of U.S.  
12 manufacturing.

13 (cc) Supply chain logistics.

14 (dd) Supplier certification  
15 and quality assurance processes.

16 (ee) Raw materials sourcing  
17 and distribution.

18 (ff) Metrics used by Original  
19 Equipment Manufacturer pur-  
20 chasing managers and chief fi-  
21 nancial officers to make pur-  
22 chasing decisions.

23 (II) Critical domain expertise, in-  
24 cluding the following:

1 (aa) Health care, medical  
2 device, and pharmaceutical man-  
3 ufacturing.

4 (bb) Mining, supply, and  
5 usage of rare earth materials.

6 (cc) Precision-integrated cir-  
7 cuits, microchips, and semicon-  
8 ductor manufacturing.

9 (dd) Defense component  
10 manufacturing and homeland se-  
11 curity products.

12 (ee) Advanced machine tools  
13 and production equipment.

14 (ff) Scientific equipment for  
15 high-precision research and devel-  
16 opment.

17 (gg) Clothing and textiles  
18 manufacturing.

19 (hh) Food production and  
20 agricultural products manufac-  
21 turing.

22 (III) Industrial policy expertise,  
23 including knowledge of industrial or-  
24 ganization, development economics,  
25 and policy tools that have been used

1 by the United States and other devel-  
2 oping or industrial economies in the  
3 world.

4 (ii) COMPOSITION.—The composition  
5 of the members of the Commission shall  
6 ensure the Commission has substantial ex-  
7 pertise in all areas described in clause (i).

8 (B) NONGOVERNMENT APPOINTEES.—An  
9 individual appointed to the Commission may  
10 not be an officer or employee of the Federal  
11 Government.

12 (4) APPOINTMENT REQUIREMENTS.—

13 (A) INITIAL APPOINTMENTS.—Members of  
14 the Commission shall be appointed not later  
15 than 45 days after the date of the enactment of  
16 this Act.

17 (B) TERM OF APPOINTMENTS.—The term  
18 of each member of the Commission shall expire  
19 on December 31 of the second session of the  
20 Congress in which the member is appointed to  
21 the Commission.

22 (C) APPOINTMENTS WITH EACH CON-  
23 GRESS.—Appointments to the Commission  
24 made after the initial appointments to the Com-  
25 mission under subparagraph (A) shall be made

1 not later than 30 days after the date on which  
2 each Congress convenes.

3 (D) RENEWAL OF APPOINTMENTS.—A  
4 member of the Commission may be reappointed  
5 for additional terms of service upon mutual  
6 agreement between such member and the ap-  
7 pointing authority that appointed such member  
8 to the Commission.

9 (E) VACANCIES.—A vacancy in the Com-  
10 mission shall not affect the powers of the Com-  
11 mission and shall be filled by the same appoint-  
12 ing authority that made the original appoint-  
13 ment. Any member appointed to fill a vacancy  
14 occurring before the expiration of the term for  
15 which the member's predecessor was appointed  
16 shall be appointed only for the remainder of  
17 that term. A member may serve after the expi-  
18 ration of that member's term until a successor  
19 has taken office. A vacancy in the Commission  
20 shall be filled in the manner in which the origi-  
21 nal appointment was made by not later than 30  
22 days after the date such vacancy occurs.

23 (F) REMOVAL.—A member of the Commis-  
24 sion may be removed from the Commission at  
25 any time by the appointing authority that ap-

1           pointed such member to the Commission should  
2           the member fail to meet Commission respon-  
3           sibilities.

4           (5) COMPENSATION; TRAVEL EXPENSES.—Each  
5           member of the Commission may be compensated at  
6           a rate not to exceed the daily equivalent of the an-  
7           nual rate of basic pay in effect for a position at level  
8           IV of the Executive Schedule under section 5315 of  
9           title 5, United States Code, for each day during  
10          which the member is engaged in the actual perform-  
11          ance of the duties of the Commission. Travel ex-  
12          penses of members of the Commission shall be al-  
13          lowed at rates authorized for employees of agencies  
14          under subchapter I of chapter 57 of title 5, United  
15          States Code, except that foreign travel for official  
16          purposes by members of the Commission is not au-  
17          thorized.

18          (d) MEETING REQUIREMENTS.—

19               (1) INITIAL MEETING.—The Commission shall  
20               convene for an initial meeting not later than 45 days  
21               after the initial members of the Commission are all  
22               appointed. An initial meeting may be convened so  
23               long as at least 10 members are present.

24               (2) SUBSEQUENT MEETINGS.—After the initial  
25               meeting under paragraph (1), the Commission shall

1 meet upon the call of the Chair or as determined by  
2 a majority of Commission members.

3 (3) EXPECTATIONS FOR ATTENDANCE BY MEM-  
4 BERS.—Members are expected to attend all Commis-  
5 sion meetings. In the case of an absence, members  
6 are expected to report to the Chair prior to the  
7 meeting and allowance may be made for an absent  
8 member to participate remotely. Members will still  
9 be responsible for fulfilling prior commitments, re-  
10 gardless of attendance status. If a member is absent  
11 from multiple meetings, the member may be re-  
12 viewed by the Chair and appointing authority that  
13 appointed such member to the Commission and fur-  
14 ther action will be considered, including removal and  
15 replacement on the Commission.

16 (4) QUORUM.—A majority of the members of  
17 the Commission shall constitute a quorum.

18 (5) VOTING.—Each member of the Commission  
19 shall be entitled to one vote, which shall be equal to  
20 the vote of every other member of the Commission.

21 (6) MEETING NOTES.—Meetings notes shall be  
22 made available to the congressional committees of  
23 jurisdiction.

24 (e) SUBCOMMITTEES AND WORKING GROUPS.—The  
25 Commission may choose, at the discretion of the Chair and

1 Vice Chair, to establish subcommittees and working  
2 groups for any purpose consistent with the duties of the  
3 Commission. Any findings, conclusions, or recommenda-  
4 tions made by a subcommittee or working group shall be  
5 considered by the full Commission, which shall be respon-  
6 sible for determining any final findings, conclusions, and  
7 recommendations. Each such subcommittee or working  
8 group shall operate only for the Congressional Session  
9 with respect to which such subcommittee or group was es-  
10 tablished.

11 (f) ADMINISTRATION AND POWERS OF COMMIS-  
12 SION.—

13 (1) HEARINGS.—The Commission may, for the  
14 purpose of carrying out this Act—

15 (A) hold such hearings, sit and act at such  
16 times and places, take such testimony, receive  
17 such evidence, and administer such oaths as the  
18 Commission considers appropriate; and

19 (B) subject to paragraph (2), require the  
20 attendance and testimony of witnesses and the  
21 production of books, records, correspondence,  
22 memoranda, papers, and documents.

23 (2) OBTAINING OFFICIAL DATA.—

24 (A) IN GENERAL.—The Commission may  
25 secure directly from any executive department,

1 bureau, agency, board, commission, office, inde-  
2 pendent establishment, or other instrumentality  
3 of the Federal Government or a State, local,  
4 Tribal, or territorial government any informa-  
5 tion, suggestions, estimates, and statistics to  
6 enable the Commission to carry out this Act.  
7 Each such department, bureau, agency, board,  
8 commission, office, independent establishment,  
9 or instrumentality shall, to the extent author-  
10 ized by law, furnish such information, sugges-  
11 tions, estimates, and statistics directly to the  
12 Commission, upon request of the Chair of the  
13 Commission and the Vice Chair of the Commis-  
14 sion or any member designated by a majority of  
15 the Commission.

16 (B) RECEIPT, HANDLING, STORAGE, AND  
17 DISSEMINATION.—Any information, sugges-  
18 tions, estimates, and statistics submitted under  
19 subparagraph (A) shall only be received, han-  
20 dled, stored, and disseminated by members of  
21 the Commission and its staff, consistent with  
22 applicable Federal law.

23 (3) PUBLIC HEARINGS AND MEETINGS.—

1 (A) IN GENERAL.—The Commission shall  
2 hold public hearings and meetings as deter-  
3 mined appropriate by the Commission.

4 (B) PROTECTION OF CERTAIN INFORMA-  
5 TION.—Any public hearings and meetings of the  
6 Commission shall be conducted in a manner  
7 consistent with applicable Federal law regard-  
8 ing the protection of data submitted to the  
9 Commission under paragraph (3).

10 (4) PERSONNEL.—

11 (A) STAFF.—

12 (i) APPOINTMENT; COMPENSATION;  
13 TRAVEL EXPENSES.—The Chair of the  
14 Commission, in consultation with Vice  
15 Chair of the Commission, and in accord-  
16 ance with rules agreed upon by the Com-  
17 mission, may appoint and fix the com-  
18 pensation of an executive director and  
19 other additional technical and administra-  
20 tive personnel as may be necessary to en-  
21 able the Commission to carry out its du-  
22 ties, without regard to the provisions of  
23 title 5, United States Code, governing ap-  
24 pointments in the competitive service, and  
25 without regard to the provisions of chapter

1           51 and subchapter III of chapter 53 of  
2           such title relating to classification and  
3           General Schedule pay rates, except that no  
4           rate of pay fixed under this clause may ex-  
5           ceed the equivalent of that payable for a  
6           position at level V of the Executive Sched-  
7           ule under section 5316 of title 5, United  
8           States Code. Travel expenses of the execu-  
9           tive director and other additional technical  
10          and administrative personnel of the Com-  
11          mission shall be allowed at rates author-  
12          ized for employees of agencies under sub-  
13          chapter I of chapter 57 of title 5, United  
14          States Code, except that foreign travel for  
15          official purposes by such director and per-  
16          sonnel of the Commission is not author-  
17          ized.

18                 (ii) TECHNICAL STAFF EXPERTISE  
19                 REQUIREMENT.—Technical staff of the  
20                 Commission shall be individuals with sub-  
21                 stantial expertise in one or more of the  
22                 areas described in subsection (c)(2). The  
23                 expertise of such technical staff shall aug-  
24                 ment the ability of the Commission to have

1 substantial expertise in all areas so de-  
2 scribed.

3 (iii) PERSONNEL AS FEDERAL EM-  
4 PLOYEES.—

5 (I) IN GENERAL.—The executive  
6 director and any other personnel of  
7 the Commission shall be treated as  
8 employees under section 2105 of title  
9 5, United States Code, for purposes of  
10 chapters 63, 81, 83, 84, 85, 87, 89,  
11 and 90 of such title.

12 (II) MEMBERS OF COMMIS-  
13 SION.—Subclause (I) shall not be con-  
14 strued to apply to members of the  
15 Commission.

16 (iv) DETAILEES.—Any Federal Gov-  
17 ernment employee may be detailed to the  
18 Commission without reimbursement from  
19 the Commission, and such detailee shall re-  
20 tain the rights, status, and privileges of his  
21 or her regular employment without inter-  
22 ruption.

23 (v) EXPERTS AND CONSULTANTS.—  
24 The Commission may procure temporary  
25 and intermittent services of experts and

1 consultants in accordance with section  
2 3109 of title 5, United States Code, but at  
3 a rate not to exceed the daily equivalent of  
4 the annual rate of basic pay in effect for  
5 a position at level IV of the Executive  
6 Schedule under section 5315 of title 5,  
7 United States Code.

8 (B) ASSISTANCE FROM FEDERAL AGEN-  
9 CIES.—

10 (i) GENERAL SERVICES ADMINISTRA-  
11 TION.—The Administrator of General  
12 Services shall provide to the Commission,  
13 on a reimbursable basis, administrative  
14 support and other services necessary to  
15 carry out the duties of the Commission.

16 (ii) OTHER DEPARTMENTS AND AGEN-  
17 CIES.—In addition to the assistance de-  
18 scribed in subparagraph (A), departments  
19 and agencies of the Federal Government  
20 may provide to the Commission such serv-  
21 ices, funds, facilities, and staff as such de-  
22 partments and agencies determine appro-  
23 priate and as authorized by Federal law.

24 (g) SECURITY CLEARANCES.—The members and  
25 staff of the Commission shall obtain, if necessary to carry

1 out the functions of the Commission, appropriate security  
2 clearances for access to any classified briefing, records,  
3 and materials to be reviewed by such members or staff.  
4 The appropriate Federal agencies or departments shall co-  
5 operate with the Commission in expeditiously providing to  
6 the members and staff of the Commission security clear-  
7 ances pursuant to existing procedures and requirements,  
8 except that no person may be provided with access to clas-  
9 sified information under this Act without the appropriate  
10 security clearance.

11 (h) REPORTS.—

12 (1) REPORTS.—Not later than December 1 of  
13 each year that the Commission remains active and  
14 in operation, the Commission shall submit to the  
15 majority and minority leaders of the House of Rep-  
16 resentatives and Senate a comprehensive report on  
17 the findings, conclusions, and recommendations of  
18 the Commission with respect to such year and in-  
19 cluding an executive summary of the Commission's  
20 purposes and activities and any relevant references  
21 and materials with respect to such year. Notwith-  
22 standing the previous sentence, the Commission  
23 shall not be required to submit a report under this  
24 paragraph with respect to the first year in which  
25 such Commission is active and in operation if the

1 Commission is so active and in operation for fewer  
2 than six months of such first year.

3 (2) CLASSIFIED INFORMATION.—In the case  
4 that a report submitted under this subsection in-  
5 cludes classified information, the Commission shall  
6 also submit to the majority and minority leaders of  
7 the House of Representatives and Senate a redacted  
8 version of such report with such classified informa-  
9 tion included as a classified annex to such report.

10 (3) PUBLIC AVAILABILITY.—Reports submitted  
11 under this subsection, or the redacted versions of  
12 such reports (if applicable), shall be made publicly  
13 available on a centralized Federal internet website.

14 (i) APPLICABILITY OF FACCA.—Except as provided in  
15 subsection (j), the provisions of the Federal Advisory  
16 Committee Act (5 U.S.C. App.) shall apply to the activi-  
17 ties of the Commission.

18 (j) TERMINATION.—

19 (1) IN GENERAL.—The Commission, and all the  
20 authorities of the Commission under this Act, shall  
21 remain active and in operation until the last day of  
22 the 10-year period beginning on the date of the en-  
23 actment of this Act.

24 (2) ADMINISTRATIVE ACTIVITIES.—The Com-  
25 mission may use the 60-day period following the

1 date of termination of the Commission for the pur-  
2 pose of concluding its activities, including providing  
3 testimony to Congress concerning its results and dis-  
4 seminating the final report of the Commission.

5 (k) AUTHORIZATION OF APPROPRIATIONS.—For pur-  
6 poses of carrying out this section, there is authorized to  
7 be appropriated to the Commission \$6,000,000 for fiscal  
8 year 2022 and such sums as may be necessary for each  
9 fiscal year thereafter through fiscal year 2032, to be avail-  
10 able until expended.

11 **Subtitle B—Strengthening Con-**  
12 **sumer Protections, Tourism,**  
13 **and Manufacturing**

14 **SEC. 20211. NATIONAL MANUFACTURING ADVISORY COUN-**  
15 **CIL.**

16 (a) DEFINITIONS.—In this section:

17 (1) ADVISORY COUNCIL.—The term “Advisory  
18 Council” means the National Manufacturing Advi-  
19 sory Council established under subsection (b)(1).

20 (2) APPROPRIATE COMMITTEES OF CON-  
21 GRESS.—The term “appropriate committees of Con-  
22 gress” means—

23 (A) the Committee on Health, Education,  
24 Labor, and Pensions, the Committee on Com-  
25 merce, Science, and Transportation, the Com-

1           mittee on Energy and Natural Resources, the  
2           Committee on Armed Services, and the Com-  
3           mittee on Appropriations of the Senate; and

4                   (B) the Committee on Education and  
5           Labor, the Committee on Science, Space, and  
6           Technology, the Committee on Energy and  
7           Commerce, the Committee on Armed Services,  
8           and the Committee on Appropriations of the  
9           House of Representatives.

10           (3) SECRETARY.—The term “Secretary” means  
11           the Secretary of Commerce.

12           (b) ESTABLISHMENT.—

13                   (1) IN GENERAL.—The Secretary, in consulta-  
14           tion with the Secretary of Labor, the Secretary of  
15           Defense, the Secretary of Energy, the United States  
16           Trade Representative, and the Secretary of Edu-  
17           cation, shall establish within the Department of  
18           Commerce the National Manufacturing Advisory  
19           Council.

20                   (2) PURPOSE.—The purpose of the Advisory  
21           Council shall be to provide recommendations to the  
22           Secretary and Federal Government on ways to—

23                           (A) provide worker education, training, de-  
24           velopment, and entrepreneurship training;

1 (B) connect individuals and business with  
2 the services described in subparagraph (A) that  
3 are offered in the community of the individuals  
4 or businesses;

5 (C) coordinate services relating to em-  
6 ployee engagement, including employee owner-  
7 ship and workforce training;

8 (D) connect manufacturers with career and  
9 technical education entities, institutions of high-  
10 er education, community colleges, workforce de-  
11 velopment boards, labor organizations, and non-  
12 profit job training providers to develop and sup-  
13 port training and job placement services and  
14 apprenticeship and online learning platforms for  
15 new and incumbent workers;

16 (E) develop programming to prevent job  
17 losses as entities adopt new technologies and  
18 processes; and

19 (F) develop best practices for employee  
20 ownership.

21 (c) MISSION.—The mission of the Advisory Council  
22 shall be to—

23 (1) provide a forum for regular communication  
24 between the Federal Government and the manufac-  
25 turing sector in the United States;

1           (2) advise the Federal Government regarding  
2 policies and programs of the Federal Government  
3 that affect manufacturing in the United States;

4           (3) provide a forum for discussing and pro-  
5 posing solutions to problems relating to the manu-  
6 facturing industry in the United States; and

7           (4) provide advice and recommendations to the  
8 Federal Government to help the United States re-  
9 mains the preeminent destination throughout the  
10 world for investment in manufacturing.

11       (d) DUTIES.—The duties of the Advisory Council  
12 shall include—

13           (1) meeting not less frequently than every 180  
14 days to provide independent advice and rec-  
15 ommendations to the Secretary regarding issues in-  
16 volving manufacturing in the United States;

17           (2) completing specific tasks requested by the  
18 Secretary;

19           (3) conveying input to the Assistant Secretary  
20 of the Office of Supply Chain Resiliency and Crisis  
21 Response from key industry, labor, academic, de-  
22 fense, governmental, and other stakeholders to aid in  
23 the development of a national strategic plan for  
24 manufacturing in the United States;

1           (4) monitoring the status of technological devel-  
2           opments, critical production capacity, skill avail-  
3           ability, investment patterns, emerging defense needs,  
4           and other key indicators of manufacturing competi-  
5           tiveness to provide foresight for periodic updates to  
6           the national strategic plan for manufacturing devel-  
7           oped under paragraph (3);

8           (5) soliciting input from the public and private  
9           sectors and academia relating to emerging trends in  
10          manufacturing, the responsiveness of Federal pro-  
11          gramming with respect to manufacturing, and sug-  
12          gestions for areas of increased Federal attention  
13          with respect to manufacturing;

14          (6) monitoring global manufacturing trends and  
15          global threats to manufacturing sectors in the  
16          United States;

17          (7) providing advice and recommendations to  
18          the Federal Government on matters relating to in-  
19          vestment in and support of the manufacturing work-  
20          force relating to—

21                 (A) worker participation, including through  
22                 labor organizations and through other methods  
23                 determined by the Advisory Council, in the  
24                 planning for deployment of new technologies  
25                 across an industry and within workplaces;

1           (B) training and education priorities for  
2           the Federal Government and for employers to  
3           assist workers in adapting the skills and experi-  
4           ences of those workers to fit the demands of the  
5           21st century economy;

6           (C) innovative suggestions from workers on  
7           the development of new technologies and proc-  
8           esses and, as appropriate, assessing the impact  
9           of those technologies and processes on the  
10          workforce and economy of the United States;

11          (D) management practices that lead to  
12          worker employment, job quality, worker protec-  
13          tion, worker participation and power in decision  
14          making, and investment in worker career suc-  
15          cess;

16          (E) policies and procedures to prioritize di-  
17          versity and inclusion in the manufacturing and  
18          technology workforce by expanding access to  
19          job, career advancement, and management op-  
20          portunities for underrepresented populations;  
21          and

22          (F) advice on how to improve access to de-  
23          mand-driven education, training, and re-train-  
24          ing for workers, including community and tech-

1 nical colleges, higher education, apprenticeships  
2 and work-based learning opportunities;

3 (8) with respect to the manufacturing.gov  
4 website, or any successor thereto, providing advice  
5 and recommendations to the Secretary in order to—

6 (A) make that website more user-friendly  
7 to enhance the ability of that website to—

8 (i) provide information to manufactur-  
9 ers; and

10 (ii) receive feedback from manufactur-  
11 ers;

12 (B) assist that website in becoming the  
13 principal place of interaction between manufac-  
14 turers in the United States and Federal pro-  
15 grams relating to manufacturing; and

16 (C) enable that website to provide assist-  
17 ance to manufacturers relating to—

18 (i) international trade and investment  
19 matters;

20 (ii) research and technology develop-  
21 ment opportunities;

22 (iii) workforce development and train-  
23 ing programs and opportunities;

24 (iv) small and medium manufacturer  
25 needs; and

1 (v) industrial commons and supply  
2 chain needs; and

3 (9) soliciting input from—

4 (A) economically disadvantaged areas (as  
5 defined in section 20209); or

6 (B) areas in which foreign competition re-  
7 sulted in mass factory layoffs.

8 (e) MEMBERSHIP.—

9 (1) IN GENERAL.—The Advisory Council  
10 shall—

11 (A) consist of individuals appointed by the  
12 Secretary with a balance of backgrounds, expe-  
13 riences, and viewpoints; and

14 (B) include an equal proportion of individ-  
15 uals with manufacturing experience who rep-  
16 resent private industry, academia, and labor or-  
17 ganizations.

18 (2) PUBLIC PARTICIPATION.—The Secretary  
19 shall, to the maximum extent practicable, accept rec-  
20 ommendations from the public regarding the ap-  
21 pointment of individuals under paragraph (1).

22 (3) PERIOD OF APPOINTMENT; VACANCIES.—

23 (A) IN GENERAL.—Each member of the  
24 Advisory Council shall be appointed by the Sec-  
25 retary for a term of 3 years.

1           (B) RENEWAL.—The Secretary may renew  
2           an appointment made under subparagraph (A)  
3           not more than 2 additional terms.

4           (C) STAGGER TERMS.—The Secretary may  
5           stagger the terms of the members of the Advi-  
6           sory Council to ensure that the terms of the  
7           members expire during different years.

8           (D) VACANCIES.—Any member appointed  
9           to fill a vacancy on the Advisory Council occur-  
10          ring before the expiration of the term for which  
11          the member's predecessor was appointed shall  
12          be appointed only for the remainder of that  
13          term. A member may serve after the expiration  
14          of that term until a successor has been ap-  
15          pointed.

16       (f) TRANSFER OF FUNCTIONS.—

17           (1) IN GENERAL.—All functions of the United  
18          States Advanced Manufacturing Council of the  
19          International Trade Administration of the Depart-  
20          ment of Commerce, including the personnel, assets,  
21          and obligations of the United States Manufacturing  
22          Council of the International Trade Administration of  
23          the Department of Commerce, as in existence on the  
24          day before the date of the enactment of this Act,  
25          shall be transferred to the Advisory Council.

1           (2) DEEMING OF NAME.—Any reference in law,  
2           regulation, document, paper, or other record of the  
3           United States to the United States Advanced Manu-  
4           facturing Council of the International Trade Admin-  
5           istration of the Department of Commerce shall be  
6           deemed a reference to the Advisory Council.

7           (3) UNEXPENDED BALANCES.—Unexpended  
8           balances of appropriations, authorization, alloca-  
9           tions, or other funds related to the United States  
10          Advanced Manufacturing Council of the Inter-  
11          national Trade Administration of the Department of  
12          Commerce shall be available for use by the Advisory  
13          Council for the purpose for which the appropria-  
14          tions, authorizations, allocations, or other funds  
15          were originally made available.

16          (g) REPORT.—Not later than 180 days after the date  
17          on which the Advisory Council holds the initial meeting  
18          of the Advisory Council and annually thereafter, the Advi-  
19          sory Council shall submit to the appropriate committees  
20          of Congress a report containing a detailed statement of  
21          the advice and recommendations of the Advisory Council  
22          required under subsection (d)(7).

23          (h) DEPARTMENTAL SUPPORT.—Notwithstanding  
24          any other provision of law and subject to confidentiality  
25          requirements, the Secretary shall furnish to the advisory

1 committee relevant information in the possession of the  
2 Department of Commerce relating to the mission of the  
3 Advisory Council.

4 **SEC. 20212. AVAILABILITY OF TRAVEL PROMOTION FUND**  
5 **FOR BRAND USA.**

6 (a) IN GENERAL.—Not later than 30 days after the  
7 date of the enactment of this Act, the Secretary of the  
8 Treasury, subject to subsection (b), and notwithstanding  
9 any other provision of law, shall make available, from un-  
10 obligated balances remaining available from fees collected  
11 before October 1, 2020, and credited to Travel Promotion  
12 Fund established under subsection (d) of the Travel Pro-  
13 motion Act of 2009 (22 U.S.C. 2131(d)), \$250,000,000  
14 for the Corporation for Travel Promotion (commonly  
15 known as “Brand USA”). Such amounts shall remain  
16 available until expended.

17 (b) INAPPLICABILITY OF CERTAIN REQUIREMENTS  
18 AND LIMITATIONS.—The limitations and requirements set  
19 forth in paragraphs (2)(B) and (3) of subsection (d) of  
20 such Act shall not apply to amounts made available under  
21 subsection (a).

22 (c) USE OF FUNDS.—The Corporation may only use  
23 funds provided under subsection (a) to promote travel  
24 from countries the citizens and nationals of which are per-  
25 mitted to enter into the United States.

1 (d) REPORT REQUIRED.—Not later than 60 days  
2 after the date of the enactment of this Act, Brand USA  
3 shall submit to Congress a plan for obligating and expend-  
4 ing the amounts described in subsection (a).

5 **SEC. 20213. COLLECTION, VERIFICATION, AND DISCLOSURE**  
6 **OF INFORMATION BY ONLINE MARKET-**  
7 **PLACES TO INFORM CONSUMERS.**

8 (a) COLLECTION AND VERIFICATION OF INFORMA-  
9 TION.—

10 (1) COLLECTION.—

11 (A) IN GENERAL.—An online marketplace  
12 shall require any high-volume third party seller  
13 on such online marketplace’s platform to pro-  
14 vide, not later than 10 days after qualifying as  
15 a high-volume third party seller on the plat-  
16 form, the following information to the online  
17 marketplace:

18 (i) BANK ACCOUNT.—

19 (I) IN GENERAL.—A bank ac-  
20 count number, or, if such seller does  
21 not have a bank account, the name of  
22 the payee for payments issued by the  
23 online marketplace to such seller.

24 (II) PROVISION OF INFORMA-  
25 TION.—The bank account or payee in-

1 formation required under subclause  
2 (I) may be provided by the seller in  
3 the following ways:

4 (aa) To the online market-  
5 place.

6 (bb) To a payment processor  
7 or other third party contracted  
8 by the online marketplace to  
9 maintain such information, pro-  
10 vided that the online marketplace  
11 ensures that it can obtain such  
12 information on demand from  
13 such payment processor or other  
14 third party.

15 (ii) CONTACT INFORMATION.—Contact  
16 information for such seller as follows:

17 (I) With respect to a high-volume  
18 third party seller that is an individual,  
19 the individual's name.

20 (II) With respect to a high-vol-  
21 ume third party seller that is not an  
22 individual, one of the following forms  
23 of contact information:

24 (aa) A copy of a valid gov-  
25 ernment-issued identification for

1 an individual acting on behalf of  
2 such seller that includes the indi-  
3 vidual's name.

4 (bb) A copy of a valid gov-  
5 ernment-issued record or tax doc-  
6 ument that includes the business  
7 name and physical address of  
8 such seller.

9 (iii) TAX ID.—A business tax identi-  
10 fication number, or, if such seller does not  
11 have a business tax identification number,  
12 a taxpayer identification number.

13 (iv) WORKING EMAIL AND PHONE  
14 NUMBER.—A current working email ad-  
15 dress and phone number for such seller.

16 (B) NOTIFICATION OF CHANGE; ANNUAL  
17 CERTIFICATION.—An online marketplace  
18 shall—

19 (i) periodically, but not less than an-  
20 nually, notify any high-volume third party  
21 seller on such online marketplace's plat-  
22 form of the requirement to keep any infor-  
23 mation collected under subparagraph (A)  
24 current; and

1           (ii) require any high-volume third  
2 party seller on such online marketplace's  
3 platform to, not later than 10 days after  
4 receiving the notice under clause (i), elec-  
5 tronically certify that—

6           (I) the seller has provided any  
7 changes to such information to the  
8 online marketplace, if any such  
9 changes have occurred;

10           (II) there have been no changes  
11 to such seller's information; or

12           (III) such seller has provided any  
13 changes to such information to the  
14 online marketplace.

15           (C) SUSPENSION.—In the event that a  
16 high-volume third party seller does not provide  
17 the information or certification required under  
18 this paragraph, the online marketplace shall,  
19 after providing the seller with written or elec-  
20 tronic notice and an opportunity to provide  
21 such information or certification not later than  
22 10 days after the issuance of such notice, sus-  
23 pend any future sales activity of such seller  
24 until such seller provides such information or  
25 certification.

1 (2) VERIFICATION.—

2 (A) IN GENERAL.—An online marketplace  
3 shall—

4 (i) verify the information collected  
5 under paragraph (1)(A) not later than 10  
6 days after such collection; and

7 (ii) verify any change to such informa-  
8 tion not later than 10 days after being no-  
9 tified of such change by a high-volume  
10 third party seller under paragraph (1)(B).

11 (B) PRESUMPTION OF VERIFICATION.—In  
12 the case of a high-volume third party seller that  
13 provides a copy of a valid government-issued  
14 tax document, any information contained in  
15 such document shall be presumed to be verified  
16 as of the date of issuance of such document.

17 (3) DATA USE LIMITATION.—Data collected  
18 solely to comply with the requirements of this sec-  
19 tion may not be used for any other purpose unless  
20 required by law.

21 (4) DATA SECURITY REQUIREMENT.—An online  
22 marketplace shall implement and maintain reason-  
23 able security procedures and practices, including ad-  
24 ministrative, physical, and technical safeguards, ap-  
25 propriate to the nature of the data and the purposes

1 for which the data will be used, to protect the data  
2 collected to comply with the requirements of this  
3 section from unauthorized use, disclosure, access, de-  
4 struction, or modification.

5 (b) DISCLOSURE REQUIRED.—

6 (1) REQUIREMENT.—

7 (A) IN GENERAL.—An online marketplace  
8 shall—

9 (i) require any high-volume third  
10 party seller with an aggregate total of  
11 \$20,000 or more in annual gross revenues  
12 on such online marketplace, and that uses  
13 such online marketplace’s platform, to pro-  
14 vide the information described in subpara-  
15 graph (B) to the online marketplace; and

16 (ii) disclose the information described  
17 in subparagraph (B) to consumers in a  
18 clear and conspicuous manner—

19 (I) in the order confirmation  
20 message or other document or com-  
21 munication made to a consumer after  
22 a purchase is finalized; and

23 (II) in the consumer’s account  
24 transaction history.

1 (B) INFORMATION DESCRIBED.—The in-  
2 formation described in this subparagraph is the  
3 following:

4 (i) Subject to paragraph (2), the iden-  
5 tity of the high-volume third party seller,  
6 including—

7 (I) the full name of the seller,  
8 which may include the seller name or  
9 seller's company name, or the name  
10 by which the seller or company oper-  
11 ates on the online marketplace;

12 (II) the physical address of the  
13 seller; and

14 (III) contact information for the  
15 seller, to allow for the direct,  
16 unhindered communication with high-  
17 volume third party sellers by users of  
18 the online marketplace, including—

19 (aa) a current working  
20 phone number;

21 (bb) a current working email  
22 address; or

23 (cc) other means of direct  
24 electronic messaging (which may

1 be provided to such seller by the  
2 online marketplace).

3 (ii) Whether the high-volume third  
4 party seller used a different seller to sup-  
5 ply the consumer product to the consumer  
6 upon purchase, and, upon the request of  
7 an authenticated purchaser, the informa-  
8 tion described in clause (i) relating to any  
9 such seller that supplied the consumer  
10 product to the purchaser, if such seller is  
11 different than the high-volume third party  
12 seller listed on the product listing prior to  
13 purchase.

14 (2) EXCEPTION.—

15 (A) IN GENERAL.—Subject to subpara-  
16 graph (B), upon the request of a high-volume  
17 third party seller, an online marketplace may  
18 provide for partial disclosure of the identity in-  
19 formation required under paragraph (1)(B)(i)  
20 in the following situations:

21 (i) If such seller certifies to the online  
22 marketplace that the seller does not have  
23 a business address and only has a residen-  
24 tial street address, or has a combined busi-

1           ness and residential address, the online  
2           marketplace may—

3                   (I) disclose only the country and,  
4                   if applicable, the State in which such  
5                   seller resides; and

6                   (II) inform consumers that there  
7                   is no business address available for  
8                   the seller and that consumer inquiries  
9                   should be submitted to the seller by  
10                  phone, email, or other means of elec-  
11                  tronic messaging provided to such  
12                  seller by the online marketplace.

13               (ii) If such seller certifies to the online  
14               marketplace that the seller is a business  
15               that has a physical address for product re-  
16               turns, the online marketplace may disclose  
17               the seller's physical address for product re-  
18               turns.

19               (iii) If such seller certifies to the on-  
20               line marketplace that the seller does not  
21               have a phone number other than a per-  
22               sonal phone number, the online market-  
23               place shall inform consumers that there is  
24               no phone number available for the seller  
25               and that consumer inquiries should be sub-

1           mitted to the seller's email address or  
2           other means of electronic messaging pro-  
3           vided to such seller by the online market-  
4           place.

5           (B) LIMITATION ON EXCEPTION.—If an  
6           online marketplace becomes aware that a high-  
7           volume third party seller has made a false rep-  
8           resentation to the online marketplace in order  
9           to justify the provision of a partial disclosure  
10          under subparagraph (A) or that a high-volume  
11          third party seller who has requested and re-  
12          ceived a provision for a partial disclosure under  
13          subparagraph (A) has not provided responsive  
14          answers within a reasonable time frame to con-  
15          sumer inquiries submitted to the seller by  
16          phone, email, or other means of electronic mes-  
17          saging provided to such seller by the online  
18          marketplace, the online marketplace shall, after  
19          providing the seller with written or electronic  
20          notice and an opportunity to respond not later  
21          than 10 days after the issuance of such notice,  
22          suspend any future sales activity of such seller  
23          unless such seller consents to the disclosure of  
24          the identity information required under para-  
25          graph (1)(B)(i).

1           (3) REPORTING MECHANISM.—An online mar-  
2           ketplace shall disclose to consumers in a clear and  
3           conspicuous manner on the product listing of any  
4           high-volume third party seller a reporting mecha-  
5           nism that allows for electronic and telephonic report-  
6           ing of suspicious marketplace activity to the online  
7           marketplace.

8           (4) COMPLIANCE.—If a high-volume third party  
9           seller does not comply with the requirements to pro-  
10          vide and disclose information under this subsection,  
11          the online marketplace shall, after providing the sell-  
12          er with written or electronic notice and an oppor-  
13          tunity to provide or disclose such information not  
14          later than 10 days after the issuance of such notice,  
15          suspend any future sales activity of such seller until  
16          the seller complies with such requirements.

17          (c) ENFORCEMENT BY FEDERAL TRADE COMMIS-  
18          SION.—

19               (1) UNFAIR AND DECEPTIVE ACTS OR PRAC-  
20               TICES.—A violation of subsection (a) or (b) by an  
21               online marketplace shall be treated as a violation of  
22               a rule defining an unfair or deceptive act or practice  
23               prescribed under section 18(a)(1)(B) of the Federal  
24               Trade Commission Act (15 U.S.C. 57a(a)(1)(B)).

25               (2) POWERS OF THE COMMISSION.—

1           (A) IN GENERAL.—The Commission shall  
2           enforce subsections (a) and (b) in the same  
3           manner, by the same means, and with the same  
4           jurisdiction, powers, and duties as though all  
5           applicable terms and provisions of the Federal  
6           Trade Commission Act (15 U.S.C. 41 et seq.)  
7           were incorporated into and made a part of this  
8           section.

9           (B) PRIVILEGES AND IMMUNITIES.—Any  
10          person that violates subsection (a) or (b) shall  
11          be subject to the penalties, and entitled to the  
12          privileges and immunities, provided in the Fed-  
13          eral Trade Commission Act (15 U.S.C. 41 et  
14          seq.).

15          (3) REGULATIONS.—The Commission may pro-  
16          mulgate regulations under section 553 of title 5,  
17          United States Code, with respect to the collection,  
18          verification, or disclosure of information under this  
19          section, provided that such regulations are limited to  
20          what is necessary to collect, verify, and disclose such  
21          information.

22          (4) AUTHORITY PRESERVED.—Nothing in this  
23          section shall be construed to limit the authority of  
24          the Commission under any other provision of law.

1 (d) ENFORCEMENT BY STATE ATTORNEYS GEN-  
2 ERAL.—

3 (1) IN GENERAL.—If the attorney general of a  
4 State has reason to believe that any online market-  
5 place has violated or is violating this section or a  
6 regulation promulgated under this section that af-  
7 fects one or more residents of that State, the attor-  
8 ney general of the State may bring a civil action in  
9 any appropriate district court of the United States,  
10 to—

11 (A) enjoin further such violation by the de-  
12 fendant;

13 (B) enforce compliance with this section or  
14 such regulation;

15 (C) obtain civil penalties in the amount  
16 provided for under subsection (c);

17 (D) obtain other remedies permitted under  
18 State law; and

19 (E) obtain damages, restitution, or other  
20 compensation on behalf of residents of the  
21 State.

22 (2) NOTICE.—The attorney general of a State  
23 shall provide prior written notice of any action under  
24 paragraph (1) to the Commission and provide the  
25 Commission with a copy of the complaint in the ac-

1       tion, except in any case in which such prior notice  
2       is not feasible, in which case the attorney general  
3       shall serve such notice immediately upon instituting  
4       such action.

5           (3) INTERVENTION BY THE FTC.—Upon receiv-  
6       ing notice under paragraph (2), the Commission  
7       shall have the right—

8                   (A) to intervene in the action;

9                   (B) upon so intervening, to be heard on all  
10       matters arising therein; and

11                   (C) to file petitions for appeal.

12           (4) LIMITATION ON STATE ACTION WHILE FED-  
13       ERAL ACTION IS PENDING.—If the Commission has  
14       instituted a civil action for violation of this section  
15       or a regulation promulgated under this section, no  
16       State attorney general, or official or agency of a  
17       State, may bring a separate action under paragraph  
18       (1) during the pendency of that action against any  
19       defendant named in the complaint of the Commis-  
20       sion for any violation of this section or a regulation  
21       promulgated under this section that is alleged in the  
22       complaint. A State attorney general, or official or  
23       agency of a State, may join a civil action for a viola-  
24       tion of this section or regulation promulgated under  
25       this section filed by the Commission.

1           (5) RULE OF CONSTRUCTION.—For purposes of  
2 bringing a civil action under paragraph (1), nothing  
3 in this section shall be construed to prevent the chief  
4 law enforcement officer, or official or agency of a  
5 State, from exercising the powers conferred on such  
6 chief law enforcement officer, official or agency of a  
7 State, by the laws of the State to conduct investiga-  
8 tions, administer oaths or affirmations, or compel  
9 the attendance of witnesses or the production of doc-  
10 umentary and other evidence.

11           (6) ACTIONS BY OTHER STATE OFFICIALS.—

12           (A) IN GENERAL.—In addition to civil ac-  
13 tions brought by attorneys general under para-  
14 graph (1), any other officer of a State who is  
15 authorized by the State to do so, except for any  
16 private person on behalf of the State attorney  
17 general, may bring a civil action under para-  
18 graph (1), subject to the same requirements  
19 and limitations that apply under this subsection  
20 to civil actions brought by attorneys general.

21           (B) SAVINGS PROVISION.—Nothing in this  
22 subsection may be construed to prohibit an au-  
23 thorized official of a State from initiating or  
24 continuing any proceeding in a court of the

1 State for a violation of any civil or criminal law  
2 of the State.

3 (e) SEVERABILITY.—If any provision of this section,  
4 or the application thereof to any person or circumstance,  
5 is held invalid, the remainder of this section and the appli-  
6 cation of such provision to other persons not similarly situ-  
7 ated or to other circumstances shall not be affected by  
8 the invalidation.

9 (f) DEFINITIONS.—In this section:

10 (1) COMMISSION.—The term “Commission”  
11 means the Federal Trade Commission.

12 (2) CONSUMER PRODUCT.—The term “con-  
13 sumer product” has the meaning given such term in  
14 section 101 of the Magnuson-Moss Warranty—Fed-  
15 eral Trade Commission Improvement Act (15 U.S.C.  
16 2301) and section 700.1 of title 16, Code of Federal  
17 Regulations.

18 (3) HIGH-VOLUME THIRD PARTY SELLER.—

19 (A) IN GENERAL.—The term “high-volume  
20 third party seller” means a participant on an  
21 online marketplace’s platform who is a third  
22 party seller and who, in any continuous 12-  
23 month period during the previous 24 months,  
24 has entered into 200 or more discrete sales or  
25 transactions of new or unused consumer prod-

1           ucts and an aggregate total of \$5,000 or more  
2           in gross revenues.

3           (B) CLARIFICATION.—For purposes of cal-  
4           culating the number of discrete sales or trans-  
5           actions or the aggregate gross revenues under  
6           subparagraph (A), an online marketplace shall  
7           only be required to count sales or transactions  
8           made through the online marketplace and for  
9           which payment was processed by the online  
10          marketplace, either directly or through its pay-  
11          ment processor.

12          (4) ONLINE MARKETPLACE.—The term “online  
13          marketplace” means any person or entity that oper-  
14          ates a consumer-directed electronically based or  
15          accessed platform that—

16                (A) includes features that allow for, facili-  
17                tate, or enable third party sellers to engage in  
18                the sale, purchase, payment, storage, shipping,  
19                or delivery of a consumer product in the United  
20                States;

21                (B) is used by one or more third party sell-  
22                ers for such purposes; and

23                (C) has a contractual or similar relation-  
24                ship with consumers governing their use of the  
25                platform to purchase consumer products.

1           (5) SELLER.—The term “seller” means a per-  
2           son who sells, offers to sell, or contracts to sell a  
3           consumer product through an online marketplace’s  
4           platform.

5           (6) THIRD PARTY SELLER.—

6           (A) IN GENERAL.—The term “third party  
7           seller” means any seller, independent of an on-  
8           line marketplace, who sells, offers to sell, or  
9           contracts to sell a consumer product in the  
10          United States through such online market-  
11          place’s platform.

12          (B) EXCLUSIONS.—The term “third party  
13          seller” does not include, with respect to an on-  
14          line marketplace—

15               (i) a seller who operates the online  
16               marketplace’s platform; or

17               (ii) a business entity that has—

18                       (I) made available to the general  
19                       public the entity’s name, business ad-  
20                       dress, and working contact informa-  
21                       tion;

22                       (II) an ongoing contractual rela-  
23                       tionship with the online marketplace  
24                       to provide the online marketplace with  
25                       the manufacture, distribution, whole-

1 saling, or fulfillment of shipments of  
2 consumer products; and

3 (III) provided to the online mar-  
4 ketplace identifying information, as  
5 described in subsection (a), that has  
6 been verified in accordance with that  
7 subsection.

8 (7) VERIFY.—The term “verify” means to con-  
9 firm information provided to an online marketplace  
10 pursuant to this section, which may include the use  
11 of one or more methods that enable the online mar-  
12 ketplace to reliably determine that any information  
13 and documents provided are valid, corresponding to  
14 the seller or an individual acting on the seller’s be-  
15 half, not misappropriated, and not falsified.

16 (g) RELATIONSHIP TO STATE LAWS.—No State or  
17 political subdivision of a State, or territory of the United  
18 States, may establish or continue in effect any law, regula-  
19 tion, rule, requirement, or standard that conflicts with the  
20 requirements of this section.

21 (h) EFFECTIVE DATE.—This section shall take effect  
22 180 days after the date of the enactment of this Act.

23 **SEC. 20214. SUPERCOMPUTING FOR SAFER CHEMICALS**  
24 **(SUPERSAFE) CONSORTIUM.**

25 (a) ESTABLISHMENT.—

1           (1) IN GENERAL.—The Secretary of Health and  
2           Human Services (referred to in this section as the  
3           “Secretary”), through the Director of the National  
4           Toxicology Program, and in collaboration with the  
5           heads of any other relevant Federal agencies (includ-  
6           ing the Administrator of the Environmental Protec-  
7           tion Agency and the Secretary of Energy), shall  
8           form a consortium, to be known as the “Supercom-  
9           puting for Safer Chemicals (SUPERSAFE) Consor-  
10          tium” (referred to in this section as the “Consorti-  
11          um”) with the National Laboratories of the De-  
12          partment of Energy and public research institutions  
13          to carry out the activities described in subsection  
14          (b).

15           (2) INCLUSION OF STATE AGENCIES.—The Sec-  
16          retary shall allow the head of a relevant State agen-  
17          cy to join the Consortium on request of the State  
18          agency.

19          (b) CONSORTIUM ACTIVITIES.—

20           (1) IN GENERAL.—The Consortium, working  
21          through the National Laboratories and public re-  
22          search institutions, shall use supercomputing, ma-  
23          chine learning, and other similar capabilities—

24                   (A) to establish rapid approaches for large-  
25                   scale identification of toxic substances and the

1 development of safer alternatives to toxic sub-  
2 stances by developing and validating computa-  
3 tional toxicology methods based on unique high-  
4 performance computing, artificial intelligence,  
5 machine learning, and precision measurements;

6 (B) to address the need to identify safer  
7 chemicals for use in consumer and industrial  
8 products and in their manufacture to support  
9 the move away from toxic substances and to-  
10 ward safer-by-design alternatives; and

11 (C) to make recommendations on how the  
12 information produced can be applied in risk as-  
13 sessments and other characterizations for use  
14 by the Environmental Protection Agency and  
15 other agencies in regulatory decisions, and by  
16 industry in identifying toxic and safer chemi-  
17 cals.

18 (2) MODELS.—In carrying out paragraph (1),  
19 the Consortium—

20 (A) shall use supercomputers and other  
21 virtual tools to develop, validate, and run mod-  
22 els to predict adverse health effects caused by  
23 toxic substances and to identify safe chemicals  
24 for use in products and manufacturing; and

1 (B) may utilize, as needed, appropriate bi-  
2 ological test systems to test and evaluate ap-  
3 proaches and improve their predictability and  
4 reliability in industrial and regulatory applica-  
5 tions.

6 (c) PUBLIC RESULTS.—The Consortium shall make  
7 model predictions, along with supporting documentation,  
8 available to the public in an accessible format.

9 (d) AUTHORIZATION OF APPROPRIATIONS.—

10 (1) IN GENERAL.—There is authorized to be  
11 appropriated to the Secretary to carry out this sec-  
12 tion—

13 (A) for fiscal year 2022, \$20,000,000;

14 (B) for fiscal year 2023, \$30,000,000; and

15 (C) for each of fiscal years 2024 through  
16 2026, \$35,000,000.

17 (2) AVAILABILITY.—From the amounts made  
18 available under paragraph (1) for a fiscal year, not  
19 less than \$5,000,000 shall be available to the Envi-  
20 ronmental Protection Agency.

21 **SEC. 20215. GAO REPORT ON GLOBAL SEMICONDUCTOR**  
22 **SHORTAGE.**

23 Not later than 1 year after the date of the enactment  
24 of this Act, the Comptroller General of the United States  
25 shall submit to Congress a report on the global semicon-

1 ductor supply shortage and the impact of that shortage  
2 on manufacturing in the United States.

3 **Subtitle C—Defense Supply Chain**  
4 **Risk Management**

5 **SEC. 20221. RISK MANAGEMENT FOR DEPARTMENT OF DE-**  
6 **FENSE SUPPLY CHAINS.**

7 (a) RISK MANAGEMENT FOR ALL DEPARTMENT OF  
8 DEFENSE SUPPLY CHAINS.—Not later than 180 days  
9 after the date of the enactment of this Act, the Under  
10 Secretary of Defense for Acquisition and Sustainment  
11 shall—

12 (1) develop and issue implementing guidance  
13 for risk management for Department of Defense  
14 supply chains for materiel for the Department, in-  
15 cluding pharmaceuticals;

16 (2) identify, in coordination with the Commis-  
17 sioner of Food and Drugs, supply chain information  
18 gaps regarding reliance on foreign suppliers of  
19 drugs, including active pharmaceutical ingredients  
20 and final drug products; and

21 (3) submit to Congress a report regarding—

22 (A) existing information streams, if any,  
23 that may be used to assess the reliance by the  
24 Department of Defense on high-risk foreign  
25 suppliers of drugs;

1 (B) vulnerabilities in the drug supply  
2 chains of the Department of Defense; and

3 (C) any recommendations to address—

4 (i) information gaps identified under  
5 paragraph (2); and

6 (ii) any risks related to such reliance  
7 on foreign suppliers.

8 (b) RISK MANAGEMENT FOR DEPARTMENT OF DE-  
9 FENSE PHARMACEUTICAL SUPPLY CHAIN.—The Director  
10 of the Defense Health Agency shall—

11 (1) not later than one year after the issuance  
12 of the guidance required by subsection (a)(1), de-  
13 velop and publish implementing guidance for risk  
14 management for the Department of Defense supply  
15 chain for pharmaceuticals; and

16 (2) establish a working group—

17 (A) to assess risks to the pharmaceutical  
18 supply chain;

19 (B) to identify the pharmaceuticals most  
20 critical to beneficiary care at military treatment  
21 facilities; and

22 (C) to establish policies for allocating  
23 scarce pharmaceutical resources in case of a  
24 supply disruption.

1 (c) RESPONSIVENESS TESTING OF DEFENSE LOGIS-  
2 TICS AGENCY PHARMACEUTICAL CONTRACTS.—The Di-  
3 rector of the Defense Logistics Agency shall modify De-  
4 fense Logistics Agency Instructions 5025.03 and  
5 3110.01—

6 (1) to require Defense Logistics Agency Troop  
7 Support to coordinate annually with customers in  
8 the military departments to conduct responsiveness  
9 testing of the Defense Logistics Agency’s contin-  
10 gency contracts for pharmaceuticals; and

11 (2) to include the results of that testing, as re-  
12 ported by customers in the military departments, in  
13 the annual reports of the Warstopper Program.

### 14 **TITLE III—ENERGY**

#### 15 **SEC. 20301. STRATEGIC TRANSFORMER RESERVE AND RE-** 16 **SILIENCE PROGRAM.**

17 (a) ESTABLISHMENT.—The Secretary shall establish  
18 a program to reduce the vulnerability of the electric grid  
19 to physical attack, cyber attack, electromagnetic pulse,  
20 geomagnetic disturbances, severe weather, climate change,  
21 and seismic events, including by—

22 (1) ensuring that large power transformers,  
23 generator step-up transformers, power conversion  
24 equipment, and other critical electric grid equipment  
25 are strategically located to ensure timely replace-

1       ment of such equipment as may be necessary to re-  
2       store electric grid function rapidly in the event of se-  
3       vere damage to the electric grid due to physical at-  
4       tack, cyber attack, electromagnetic pulse, geo-  
5       magnetic disturbances, severe weather, climate  
6       change, or seismic events; and

7               (2) establishing a coordinated plan to facilitate  
8       transportation of large power transformers, gener-  
9       ator step-up transformers, power conversion equip-  
10      ment, and other critical electric grid equipment.

11      (b) TRANSFORMER RESILIENCE.—In carrying out  
12      the program established under subsection (a), the Sec-  
13      retary shall—

14              (1) improve large power transformers, gener-  
15      ator step-up transformers, power conversion equip-  
16      ment, and other critical electric grid equipment by  
17      reducing their vulnerabilities;

18              (2) develop, test, and deploy innovative equip-  
19      ment designs that are more flexible and offer greater  
20      resiliency of electric grid functions;

21              (3) coordinate with industry and manufacturers  
22      to standardize large power transformers, generator  
23      step-up transformers, power conversion equipment,  
24      and other critical electric grid equipment;

1           (4) monitor and test large power transformers,  
2 generator step-up transformers, power conversion  
3 equipment, and other critical electric grid equipment  
4 that the Secretary determines may pose a risk to the  
5 bulk-power system or national security; and

6           (5) facilitate the domestic manufacturing of  
7 large power transformers, generator step-up trans-  
8 formers, power conversion equipment, and other crit-  
9 ical electric grid equipment through the issuance of  
10 grants and loans, and through the provision of tech-  
11 nical support.

12       (c) STRATEGIC EQUIPMENT RESERVES.—

13           (1) AUTHORIZATION.—In carrying out the pro-  
14 gram established under subsection (a), the Secretary  
15 may establish one or more federally owned strategic  
16 equipment reserves, as appropriate, to ensure na-  
17 tionwide access to large power transformers, gener-  
18 ator step-up transformers, power conversion equip-  
19 ment, and other critical electric grid equipment.

20           (2) CONSIDERATION.—In establishing any fed-  
21 erally owned strategic equipment reserve, the Sec-  
22 retary may consider existing spare transformer and  
23 equipment programs and requirements established  
24 by the private sector, Regional Transmission Organi-

1 zations, Independent System Operators, and State  
2 regulatory authorities.

3 (d) CONSULTATION.—The program established under  
4 subsection (a) shall be carried out in consultation with the  
5 Federal Energy Regulatory Commission, the Electricity  
6 Subsector Coordinating Council, the Electric Reliability  
7 Organization, manufacturers, and owners and operators of  
8 critical electric infrastructure and defense and military in-  
9 stallations.

10 (e) AUTHORIZATION OF APPROPRIATIONS.—There is  
11 authorized to be appropriated to carry out this section  
12 \$75,000,000 for each of fiscal years 2022 through 2026.  
13 Such amounts shall remain available until expended.

14 (f) CONSTRUCTION PROJECTS.—All laborers and me-  
15 chanics employed by contractors or subcontractors in the  
16 performance of construction, alteration or repair work car-  
17 ried out, in whole or in part, with financial assistance  
18 made available under this section shall be paid wages at  
19 rates not less than those prevailing on projects of a char-  
20 acter similar in the locality as determined by the Secretary  
21 of Labor in accordance with subchapter IV of chapter 31  
22 of title 40, United States Code. With respect to the labor  
23 standards specified in this section, the Secretary of Labor  
24 shall have the authority and functions set forth in Reorga-  
25 nization Plan Numbered 14 of 1950 (64 Stat. 1267; 5

1 U.S.C. App.) and section 3145 of title 40, United States  
2 Code.

3 (g) DEFINITIONS.—In this section:

4 (1) BULK-POWER SYSTEM; ELECTRIC RELI-  
5 ABILITY ORGANIZATION.—The terms “bulk-power  
6 system” and “Electric Reliability Organization”  
7 have the meaning given such terms in section 215  
8 of the Federal Power Act (16 U.S.C. 824o)).

9 (2) INDEPENDENT SYSTEM OPERATOR; RE-  
10 GIONAL TRANSMISSION ORGANIZATION STATE REGU-  
11 LATORY AUTHORITY.—The terms “Regional Trans-  
12 mission Organization”, “Independent System Oper-  
13 ator”, and “State regulatory authority” have the  
14 meaning given such terms in section 3 of the Fed-  
15 eral Power Act (16 U.S.C. 796).

16 (3) SECRETARY.—The term “Secretary” means  
17 the Secretary of Energy.

18 **SEC. 20302. SOLAR COMPONENT MANUFACTURING SUPPLY**

19 **CHAIN ASSISTANCE.**

20 (a) FINDINGS.—The Congress finds that it is in the  
21 interest of the United States—

22 (1) to have a viable solar component manufac-  
23 turing supply chain; and

1           (2) to reduce the reliance of United States  
2           manufacturers on solar components made in the  
3           People’s Republic of China.

4           (b) ESTABLISHMENT.—Not later than 180 days after  
5           the date of enactment of this Act, the Secretary shall es-  
6           tablish and carry out a program to award grants and di-  
7           rect loans to eligible entities to carry out projects in the  
8           United States for—

9           (1) the construction of new facilities that manu-  
10          facture solar components; and

11          (2) retooling, retrofitting, or expanding existing  
12          facilities that manufacture, or have the ability to  
13          manufacture, solar components.

14          (c) CONSIDERATIONS.—In awarding grants and di-  
15          rect loans under the program, the Secretary shall take into  
16          consideration whether a project—

17          (1) is strategically located near manufacturers  
18          in the solar component manufacturing supply chain  
19          to create a geographic concentration of manufactur-  
20          ers in the solar component manufacturing supply  
21          chain;

22          (2) has the potential to materially reduce the  
23          reliance of United States manufacturers on solar  
24          components, including photovoltaic cells and photo-

1       voltaic wafers, made in the People’s Republic of  
2       China;

3               (3) will provide the potential for both direct and  
4       indirect domestic job creation, including jobs for  
5       low-income communities, dislocated workers, and  
6       workers from groups that are underrepresented in  
7       the manufacturing industry; and

8               (4) will result in economic development or eco-  
9       nomic diversification in economically distressed re-  
10      gions or localities, including any region or locality—

11              (A) with a high proportion of residential  
12              and commercial properties that are vacant due  
13              to foreclosure, eviction, abandonment, or other  
14              causes;

15              (B) with racial disparities in homeowner-  
16              ship rates;

17              (C) with population loss;

18              (D) where economic inequities have grown  
19              substantially due to job dislocation and out-  
20              sourcing; and

21              (E) in the case of a census tract located  
22              within a metropolitan area, where the median  
23              family income for such census tract does not ex-  
24              ceed 80 percent of the greater of statewide me-

1           dian family income or the metropolitan area  
2           median family income.

3           (d) **ADVANCED SOLAR TECHNOLOGY.**—The Sec-  
4 retary may issue a written finding on whether any ad-  
5 vanced solar technology has significant potential to reduce  
6 the reliance of United States manufacturers on traditional  
7 solar components made in the People’s Republic of China.

8           (e) **PROHIBITION.**—In carrying out the program, the  
9 Secretary may not award grants or direct loans for  
10 projects that will source solar components from, or supply  
11 their solar components to, any facility that—

12                   (1) uses forced labor; or

13                   (2) is located in—

14                           (A) an area controlled by the Taliban or  
15 any entity designated by the Secretary of State  
16 as a foreign terrorist organization; or

17                           (B) a foreign country of concern, as de-  
18 fined in section 10306 of this Act.

19           (f) **APPLICATION.**—To be eligible to receive a grant  
20 or direct loan under the program, an eligible entity shall  
21 submit to the Secretary an application at such time, in  
22 such manner, and containing such information as the Sec-  
23 retary may require.

24           (g) **DIRECT LOAN CONDITIONS.**—A direct loan made  
25 under the program shall—

1           (1) bear interest at a rate that does not exceed  
2           a level that the Secretary determines appropriate;  
3           and

4           (2) be subject to such other terms and condi-  
5           tions as the Secretary determines appropriate.

6           (h) COST SHARING FOR GRANTS.—Section 988(c) of  
7 the Energy Policy Act of 2005 (42 U.S.C. 16352(c)) shall  
8 apply to a grant made under this section.

9           (i) PREVAILING WAGES.—Any laborer or mechanic  
10 employed by any contractor or subcontractor in the per-  
11 formance of work funded directly, or assisted in whole or  
12 in part, by the Federal Government pursuant to this sec-  
13 tion shall be paid wages at rates not less than those pre-  
14 vailing on work of a similar character in the locality, as  
15 determined by the Secretary of Labor under subchapter  
16 IV of chapter 31 of title 40, United States Code (com-  
17 monly referred to as the Davis-Bacon Act). With respect  
18 to the labor standards in this subsection, the Secretary  
19 of Labor shall have the authority and functions set forth  
20 in Reorganization Plan Numbered 14 of 1950 (64 Stat.  
21 1267; 5 U.S.C. App.) and section 3145 of title 40, United  
22 States Code.

23           (j) LABOR-MANAGEMENT COOPERATION.—

24           (1) IN GENERAL.—Notwithstanding any con-  
25           trary provision of law, including the National Labor

1 Relations Act (29 U.S.C. 151 et seq.), paragraphs  
2 (2) through (7) shall apply with respect to any fund-  
3 ing recipient who is an employer and any labor orga-  
4 nization who represents or seeks to represent em-  
5 ployees of a funding recipient, as those terms are de-  
6 fined in section 2 of the National Labor Relations  
7 Act (29 U.S.C. 152).

8 (2) LABOR PEACE.—Any employer receiving  
9 funds under this section shall recognize for purposes  
10 of collective bargaining a labor organization that  
11 demonstrates that a majority of the employees in a  
12 unit appropriate for bargaining who perform or will  
13 perform funded work have signed valid authoriza-  
14 tions designating the labor organization as their bar-  
15 gaining representative and that no other labor orga-  
16 nization is currently certified or recognized as the  
17 exclusive representative of any of the employees in  
18 the unit pursuant to the National Labor Relations  
19 Act (29 U.S.C. 151 et seq.). Upon such showing of  
20 majority status, the employer shall notify the labor  
21 organization and the National Labor Relations  
22 Board (the Board) that it has determined that the  
23 labor organization represents a majority of the em-  
24 ployees and that it is recognizing the labor organiza-  
25 tion as the exclusive representative of the employees

1 for the purposes of collective bargaining pursuant to  
2 section 9 of the National Labor Relations Act (29  
3 U.S.C. 159).

4 (3) CERTIFICATION.—Should a dispute over  
5 majority status or the appropriateness of the unit  
6 arise between the employer and the labor organiza-  
7 tion, either party may request that the Board inves-  
8 tigate and resolve the dispute. If the Board finds  
9 that a majority of the employees in a unit appro-  
10 priate for bargaining has signed valid authorizations  
11 designating the labor organization as their bar-  
12 gaining representative and that no other individual  
13 or labor organization is currently certified or recog-  
14 nized as the exclusive representative of any of the  
15 employees in the unit, the Board shall not direct an  
16 election but shall certify the labor organization as  
17 the representative described in section 9(a) of the  
18 National Labor Relations Act (29 U.S.C. 159(a)).

19 (4) COMMENCEMENT OF BARGAINING.—Not  
20 later than 10 days after receiving a written request  
21 for collective bargaining from a recognized or cer-  
22 tified labor organization, or within such period as  
23 the parties agree upon, the labor organization and  
24 employer shall meet and commence to bargain collec-

1           tively and shall make every reasonable effort to con-  
2           clude and sign a collective bargaining agreement.

3           (5) MEDIATION.—If after the expiration of the  
4           90-day period beginning on the date on which bar-  
5           gaining is commenced, or such additional period as  
6           the parties may agree upon, the parties have failed  
7           to reach an agreement, either party may notify the  
8           Federal Mediation and Conciliation Service of the  
9           existence of a dispute and request mediation. When-  
10          ever such a request is received, it shall be the duty  
11          of the Service promptly to put itself in communica-  
12          tion with the parties and to use its best efforts, by  
13          mediation and conciliation, to bring them to agree-  
14          ment.

15          (6) ARBITRATION.—If after the expiration of  
16          the 30-day period beginning on the date on which  
17          the request for mediation is made under paragraph  
18          (5), or such additional period as the parties may  
19          agree upon, the Service is not able to bring the par-  
20          ties to agreement by conciliation, the Service shall  
21          refer the dispute to a tripartite arbitration panel es-  
22          tablished in accordance with such regulations as may  
23          be prescribed by the Service, with one member se-  
24          lected by the labor organization, one member se-  
25          lected by the employer, and one neutral member mu-

1 tually agreed to by the parties. The labor organiza-  
2 tion and employer must each select the members of  
3 the tripartite arbitration panel within 14 days of the  
4 Service's referral; if the labor organization or em-  
5 ployer fail to do so, the Service shall designate any  
6 members not selected by the labor organization or  
7 the employer. A majority of the tripartite arbitration  
8 panel shall render a decision settling the dispute as  
9 soon as practicable and not later than within 120  
10 days, absent extraordinary circumstances or by  
11 agreement or permission of the parties, and such de-  
12 cision shall be binding upon the parties for a period  
13 of 2 years, unless amended during such period by  
14 written consent of the parties. Such decision shall be  
15 based on—

16 (A) the employer's financial status and  
17 prospects;

18 (B) the size and type of the employer's op-  
19 erations and business;

20 (C) the employees' cost of living;

21 (D) the employees' ability to sustain them-  
22 selves, their families, and their dependents on  
23 the wages and benefits they earn from the em-  
24 ployer; and

1                   (E) the wages and benefits other employers  
2                   in the same business provide their employees.

3                   (7) SUBCONTRACTORS.—Any employer receiv-  
4                   ing funds under this section shall require any sub-  
5                   contractor whose employees perform or will perform  
6                   funded work to comply with the requirements set  
7                   forth in paragraphs (1) through (6) above.

8                   (k) COSTS OF DIRECT LOANS.—The Secretary may  
9                   use any amounts made available under this section to pay  
10                  the costs of providing direct loans under the program.

11                  (l) AUTHORIZATION OF APPROPRIATIONS.—There is  
12                  authorized to be appropriated to carry out this section  
13                  \$600,000,000 for each of fiscal years 2022 through 2026.

14                  (m) SET ASIDE.—Not less than \$20,000,000 of the  
15                  amount made available to carry out this section each fiscal  
16                  year shall be used to award grants or direct loans under  
17                  the program to eligible entities that are small businesses  
18                  located in economically disadvantaged communities.

19                  (n) DEFINITIONS.—In this section:

20                   (1) ADVANCED SOLAR TECHNOLOGY.—The  
21                   term “advanced solar technology” means any new or  
22                   emerging technology, system, or mechanism that  
23                   uses solar radiation to generate electrical energy,  
24                   and any component thereof.

1           (2) DIRECT CURRENT OPTIMIZER.—The term  
2           “direct current optimizer” means a product which  
3           converts direct current electricity from one or more  
4           solar modules or advanced solar technologies to a  
5           different direct current voltage that is matched to  
6           the input requirements of an inverter.

7           (3) DIRECT LOAN.—The term “direct loan”  
8           means a disbursement of funds by the Government  
9           to a non-Federal borrower under a contract that re-  
10          quires the repayment of such funds with or without  
11          interest. The term includes the purchase of, or par-  
12          ticipation in, a loan made by another lender and fi-  
13          nancing arrangements that defer payment for more  
14          than 90 days, including the sale of a Government  
15          asset on credit terms.

16          (4) ELIGIBLE ENTITY.—The term “eligible enti-  
17          ty” means a private entity, including a manufac-  
18          turer, or a partnership of private entities.

19          (5) FORCED LABOR.—The term “forced labor”  
20          has the meaning given such term in section 307 of  
21          the Tariff Act of 1930 (19 U.S.C. 1307).

22          (6) INTEGRATED MODULE.—The term “inte-  
23          grated module” means a solar module produced by  
24          a single manufacturer through the conversion of a

1 photovoltaic wafer or other semiconductor material  
2 into an end product which is—

3 (A) suitable to generate electricity when  
4 exposed to sunlight; and

5 (B) ready for installation without addi-  
6 tional manufacturing processes.

7 (7) INVERTER.—The term “inverter” means a  
8 product which converts direct current electricity  
9 from one or more solar modules or advanced solar  
10 technologies into alternating current electricity.

11 (8) LABOR ORGANIZATION.—The term “labor  
12 organization” has the meaning given the term in  
13 section 2 of the National Labor Relations Act (29  
14 U.S.C. 152).

15 (9) PARTIES.—The term “parties” means a  
16 labor organization that is newly recognized or cer-  
17 tified as a representative under section 9(a) of the  
18 National Labor Relations Act (29 U.S.C. 159(a))  
19 and the employer of the employees represented by  
20 such organization.

21 (10) PHOTOVOLTAIC CELL.—The term “photo-  
22 voltaic cell” means the smallest semiconductor ele-  
23 ment of a solar module which performs the imme-  
24 diate conversion of light into electricity.

1           (11) PHOTOVOLTAIC WAFER.—The term “pho-  
2           tovoltaic wafer” means a thin slice, sheet, or layer  
3           of semiconductor material of at least 240 square  
4           centimeters produced by a single manufacturer—

5                   (A) either—

6                           (i) directly from molten or evaporated  
7                           solar grade polysilicon or deposition of  
8                           solar grade thin film semiconductor photon  
9                           absorber layer; or

10                           (ii) through formation of an ingot  
11                           from molten polysilicon and subsequent  
12                           slicing; and

13                   (B) which comprises the substrate or ab-  
14                   sorber layer of one or more photovoltaic cells.

15           (12) PROGRAM.—The term “program” means  
16           the program established under subsection (b).

17           (13) RACKING.—The term “racking” means a  
18           structural steel or aluminum support element, of any  
19           cross-section shape and which may be assembled  
20           from individually manufactured segments, spanning  
21           longitudinally, on which solar modules are sup-  
22           ported.

23           (14) SECRETARY.—The term “Secretary”  
24           means the Secretary of Energy.

1           (15) SOLAR COMPONENT.—The term “solar  
2           component” includes an integrated module, a photo-  
3           voltaic cell, a photovoltaic wafer, solar grade  
4           polysilicon, a solar module, an inverter, racking, a  
5           tracker, a direct current optimizer, and any ad-  
6           vanced solar technology for which the Secretary has  
7           issued a written finding under subsection (d) that  
8           such advanced solar technology has significant po-  
9           tential to reduce the reliance of United States manu-  
10          facturers on traditional solar components made in  
11          the People’s Republic of China.

12          (16) SOLAR GRADE POLYSILICON.—The term  
13          “solar grade polysilicon” means silicon which is—

14                 (A) suitable for use in photovoltaic manu-  
15                 facturing; and

16                 (B) purified to a minimum purity of  
17                 99.999999 percent silicon by mass.

18          (17) SOLAR MODULE.—The term “solar mod-  
19          ule” means the connection and lamination of photo-  
20          voltaic cells into an environmentally protected final  
21          assembly which is—

22                 (A) suitable to generate electricity when  
23                 exposed to sunlight; and

24                 (B) ready for installation without an addi-  
25                 tional manufacturing process.

1 (18) TRACKER.—The term “tracker” means—

2 (A) a structural steel support on which  
3 solar modules are supported; and

4 (B) the mechanism by which that support  
5 is oriented to varying angles with respect to the  
6 sun’s position.

7 (19) TRADITIONAL SOLAR COMPONENT.—The  
8 term “traditional solar component” means an inte-  
9 grated module, a photovoltaic cell, a photovoltaic  
10 wafer, solar grade polysilicon, and a solar module.

11 **SEC. 20303. SUPPORT FOR THE FIRST THREE COMMERCIAL-**  
12 **SCALE IMPLEMENTATIONS OF TRANS-**  
13 **FORMATIVE INDUSTRIAL TECHNOLOGIES.**

14 (a) IN GENERAL.—Subject to the availability of ap-  
15 propriations, the Secretary shall establish and carry out  
16 a program under which the Secretary provides grants and  
17 loan guarantees to eligible entities to carry out eligible  
18 projects.

19 (b) APPLICATIONS.—

20 (1) IN GENERAL.—To apply for a grant or loan  
21 guarantee under the program, an eligible entity shall  
22 submit to the Secretary an application at such time,  
23 in such manner, and containing such information as  
24 the Secretary may require.

1           (2) SELECTION.—In evaluating applications  
2 submitted under paragraph (1), the Secretary shall  
3 select applications that will result in the greatest—

4           (A) improvement to the competitiveness of

5 United States industry in global markets;

6           (B) reduction in energy use; or

7           (C) reduction in greenhouse gas emissions.

8           (3) CONSULTATION.—In evaluating applications  
9 submitted under paragraph (1), the Secretary shall  
10 solicit input from outside technical and industry ex-  
11 perts on the specific industry sectors in which eligi-  
12 ble technologies would be implemented.

13 (c) GRANTS AND LOAN GUARANTEES.—

14           (1) IN GENERAL.—In carrying out the program,  
15 the Secretary may not provide grants or loan guar-  
16 antees to carry out more than three eligible projects  
17 for any category of eligible technology.

18           (2) GRANT AMOUNTS.—The amounts of the  
19 grants that may be provided to carry out eligible  
20 projects for each category of eligible technology shall  
21 be not more than the following:

22           (A) 60 percent of the total eligible project

23 costs for the first eligible project for the cat-  
24 egory of eligible technology.

1 (B) 45 percent of the total eligible project  
2 costs for the second eligible project for the cat-  
3 egory of eligible technology.

4 (C) 30 percent of the total eligible project  
5 costs for the third eligible project for the cat-  
6 egory of eligible technology.

7 (3) LOAN GUARANTEE AMOUNTS.—

8 (A) IN GENERAL.—In carrying out the  
9 program, the Secretary may not provide a loan  
10 guarantee for an amount that is greater than  
11 80 percent of the applicable eligible project  
12 costs.

13 (B) GRANT AND LOAN GUARANTEE.—In  
14 any case in which an eligible entity is provided  
15 a grant and a loan guarantee under the pro-  
16 gram, such loan guarantee may not exceed the  
17 amount that is equal to 80 percent of the  
18 amount that is equal to the difference be-  
19 tween—

20 (i) the eligible project cost; and

21 (ii) the amount of the grant.

22 (4) PROJECT MILESTONES.—The Secretary  
23 shall work with the grant or loan guarantee recipient  
24 to develop project milestones and shall issue pay-

1       ments after the recipient demonstrates that the eligi-  
2       ble project has reached such milestones.

3       (d) MONITORING AND REPORTING.—

4             (1) IN GENERAL.—The Secretary shall annually  
5       submit to Congress a report on how grants and loan  
6       guarantees provided under the program were used.

7             (2) PROPRIETARY AND COMPETITIVE INFORMA-  
8       TION.—Each report submitted under paragraph (1)  
9       shall exclude any proprietary or competitive informa-  
10      tion relating to eligible entities that were provided a  
11      grant or loan guarantee, or eligible technologies that  
12      were implemented, under the program.

13      (e) AUTHORIZATION OF APPROPRIATIONS.—There is  
14      authorized to be appropriated to carry out this section  
15      \$500,000,000 for fiscal year 2022 and \$1,000,000,000 for  
16      each of fiscal years 2023 through 2031, to remain avail-  
17      able until expended.

18      (f) DEFINITIONS.—In this section:

19             (1) ELIGIBLE ENTITY.—The term “eligible enti-  
20      ty” means any of the following entities, including a  
21      consortium or partnership of such entities:

22                (A) An owner of an industrial plant at  
23                which an eligible technology would be imple-  
24                mented.

25                (B) A provider that—

1 (i) manufactures an eligible tech-  
2 nology; or

3 (ii) implements or integrates an eligi-  
4 ble technology at an industrial plant.

5 (C) Another entity involved in the imple-  
6 mentation of the eligible technology at an in-  
7 dustrial plant.

8 (2) ELIGIBLE PROJECT.—The term “eligible  
9 project” means the implementation of an eligible  
10 technology at an industrial plant within the United  
11 States or its territories.

12 (3) ELIGIBLE PROJECT COSTS.—The term “eli-  
13 gible project costs” includes any capital, installation,  
14 engineering, construction, and permitting costs re-  
15 lated to carrying out an eligible project.

16 (4) ELIGIBLE TECHNOLOGY.—The term “eligi-  
17 ble technology” means, as determined by the Sec-  
18 retary, any technology that—

19 (A) is an innovative technology described  
20 in section 454(b)(1) of the Energy Independ-  
21 ence and Security Act of 2007 (42 U.S.C.  
22 17113(b)(1));

23 (B) is demonstrated to be technically viable  
24 at pilot scale and ready for commercial-scale  
25 implementation;

1 (C) is able to significantly reduce the en-  
2 ergy use or greenhouse gas emissions of the  
3 process with respect to which the eligible tech-  
4 nology is implemented, relative to the tech-  
5 nology available on the date of enactment of  
6 this Act; and

7 (D) has the potential to significantly re-  
8 duce annual United States industrial energy use  
9 or greenhouse gas emissions, relative to the  
10 United States industrial energy use or green-  
11 house gas emissions in calendar year 2021, if  
12 the eligible technology is widely implemented at  
13 appropriate existing and new industrial plants  
14 in the United States.

15 (5) PROGRAM.—The term “program” means  
16 the program established under subsection (a).

17 (6) SECRETARY.—The term “Secretary” means  
18 the Secretary of Energy.

19 **SEC. 20304. IMPROVING THE NATURAL GAS DISTRIBUTION**  
20 **SYSTEM.**

21 (a) PROGRAM.—The Secretary of Energy shall estab-  
22 lish a grant program to provide financial assistance to  
23 States to offset the incremental rate increases paid by low-  
24 income households resulting from the implementation of  
25 infrastructure replacement, repair, and maintenance pro-

1 grams that are approved by the rate-setting entity and de-  
2 signed to accelerate the necessary replacement, repair, or  
3 maintenance of natural gas distribution systems.

4 (b) DATE OF ELIGIBILITY.—Awards may be provided  
5 under this section to offset rate increases described in sub-  
6 section (a) occurring on or after the date of enactment  
7 of this Act.

8 (c) PRIORITIZATION.—The Secretary shall collabo-  
9 rate with States to prioritize the distribution of grants  
10 made under this section. At a minimum, the Secretary  
11 shall consider prioritizing the distribution of grants to  
12 States which have—

13 (1) authorized or adopted enhanced infrastruc-  
14 ture replacement programs or innovative rate recov-  
15 ery mechanisms, such as infrastructure cost trackers  
16 and riders, infrastructure base rate surcharges, de-  
17 ferred regulatory asset programs, and earnings sta-  
18 bility mechanisms; and

19 (2) a viable means for delivering financial as-  
20 sistance to low-income households.

21 (d) AUDITING AND REPORTING REQUIREMENTS.—  
22 The Secretary shall establish auditing and reporting re-  
23 quirements for States with respect to the performance of  
24 eligible projects funded pursuant to grants awarded under  
25 this section.

1           (e) PREVAILING WAGES.—All laborers and mechanics  
2 employed by contractors or subcontractors in the perform-  
3 ance of construction, alteration, or repair work assisted,  
4 in whole or in part, by a grant under this section shall  
5 be paid wages at rates not less than those prevailing on  
6 similar construction in the locality as determined by the  
7 Secretary of Labor in accordance with subchapter IV of  
8 chapter 31 of title 40. With respect to the labor standards  
9 in this subsection, the Secretary of Labor shall have the  
10 authority and functions set forth in Reorganization Plan  
11 Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and  
12 section 3145 of title 40.

13           (f) DEFINITIONS.—In this section:

14           (1) INNOVATIVE RATE RECOVERY MECHA-  
15 NISMS.—The term “innovative rate recovery mecha-  
16 nisms” means rate structures that allow State public  
17 utility commissions to modify tariffs and recover  
18 costs of investments in utility replacement incurred  
19 between rate cases.

20           (2) LOW-INCOME HOUSEHOLD.—The term  
21 “low-income household” means a household that is  
22 eligible to receive payments under section 2605(b)(2)  
23 of the Low-Income Home Energy Assistance Act of  
24 1981 (42 U.S.C. 8624(b)(2)).

1 (g) AUTHORIZATION OF APPROPRIATIONS.—There  
2 are authorized to be appropriated to the Secretary to carry  
3 out this section \$250,000,000 in each of fiscal years 2022  
4 through 2031.

5 **SEC. 20305. CONSIDERATION OF ENERGY STORAGE SYS-**  
6 **TEMS.**

7 (a) IN GENERAL.—Section 111(d) of the Public Util-  
8 ity Regulatory Policies Act of 1978 (16 U.S.C. 2621(d))  
9 is amended by adding at the end the following:

10 “(22) CONSIDERATION OF ENERGY STORAGE  
11 SYSTEMS.—Each State shall consider requiring that,  
12 as part of a supply side resource planning process,  
13 an electric utility of the State demonstrate to the  
14 State that the electric utility considered an invest-  
15 ment in energy storage systems based on appro-  
16 priate factors, including—

17 “(A) total costs and normalized life cycle  
18 costs;

19 “(B) cost effectiveness;

20 “(C) improved reliability;

21 “(D) security; and

22 “(E) system performance and efficiency.”.

23 (b) TIME LIMITATIONS.—Section 112(b) of the Pub-  
24 lic Utility Regulatory Policies Act of 1978 (16 U.S.C.  
25 2622(b)) is amended by adding at the end the following:

1           “(9)(A) Not later than 1 year after the date of  
2           enactment of this paragraph, each State regulatory  
3           authority (with respect to each electric utility for  
4           which the State regulatory authority has ratemaking  
5           authority) and each nonregulated electric utility  
6           shall commence the consideration referred to in sec-  
7           tion 111, or set a hearing date for consideration,  
8           with respect to the standard established by para-  
9           graph (22) of section 111(d).

10           “(B) Not later than 2 years after the date of  
11           enactment of this paragraph, each State regulatory  
12           authority (with respect to each electric utility for  
13           which the State regulatory authority has ratemaking  
14           authority), and each nonregulated electric utility,  
15           shall complete the consideration, and shall make the  
16           determination, referred to in section 111 with re-  
17           spect to the standard established by paragraph (22)  
18           of section 111(d).”.

19           (c) FAILURE TO COMPLY.—Section 112(c) of the  
20           Public Utility Regulatory Policies Act of 1978 (16 U.S.C.  
21           2622(c)) is amended—

22           (1) by striking “subsection (b)(2)” and insert-  
23           ing “subsection (b)”; and

24           (2) by adding at the end the following: “In the  
25           case of the standard established by paragraph (22)

1 of section 111(d), the reference contained in this  
2 subsection to the date of enactment of this Act shall  
3 be deemed to be a reference to the date of enact-  
4 ment of that paragraph.”.

5 (d) PRIOR STATE ACTIONS.—Section 112 of the Pub-  
6 lic Utility Regulatory Policies Act of 1978 (16 U.S.C.  
7 2622) is amended by adding at the end the following:

8 “(i) PRIOR STATE ACTIONS.—Subsections (b) and  
9 (c) of this section shall not apply to the standard estab-  
10 lished by paragraph (22) of section 111(d) in the case of  
11 any electric utility in a State if, before the enactment of  
12 this subsection—

13 “(1) the State has implemented for such utility  
14 the standard concerned (or a comparable standard);

15 “(2) the State regulatory authority for such  
16 State or relevant nonregulated electric utility has  
17 conducted a proceeding to consider implementation  
18 of the standard concerned (or a comparable stand-  
19 ard) for such utility; or

20 “(3) the State legislature has voted on the im-  
21 plementation of such standard (or a comparable  
22 standard) for such utility.”.

23 (e) PRIOR AND PENDING PROCEEDINGS.—Section  
24 124 of the Public Utility Regulatory Policies Act of 1978  
25 (16 U.S.C. 2634) is amended by adding at the end the

1 following: “In the case of the standard established by  
2 paragraph (22) of section 111(d), the reference contained  
3 in this section to the date of the enactment of this Act  
4 shall be deemed to be a reference to the date of enactment  
5 of such paragraph (22).”.

6 **SEC. 20306. COORDINATION OF PROGRAMS.**

7 To the maximum extent practicable, the Secretary of  
8 Energy shall ensure that the funding and administration  
9 of the different offices within the Grid Modernization Ini-  
10 tiative of the Department of Energy and other programs  
11 conducting energy storage research are coordinated and  
12 streamlined.

13 **SEC. 20307. STATE FLEX-TECH ENERGY PROGRAM.**

14 (a) IN GENERAL.—Part D of title III of the Energy  
15 Policy and Conservation Act (42 U.S.C. 6321 et seq.) is  
16 amended by adding at the end the following:

17 **“SEC. 367. FLEX-TECH ENERGY PROGRAM TO ENHANCE**  
18 **MANUFACTURING COMPETITIVENESS.**

19 “(a) FINANCIAL ASSISTANCE.—Upon request from  
20 the State energy agency of a State that has in effect an  
21 approved State energy conservation plan under this part,  
22 or an Indian Tribe, the Secretary shall provide financial  
23 assistance to such State energy agency or Indian Tribe  
24 to be used for the development, implementation, improve-  
25 ment, or expansion of a flex-tech energy program de-

1 scribed in subsection (b) to enhance manufacturing com-  
2 petitiveness.

3 “(b) FLEX-TECH ENERGY PROGRAM ELEMENTS.—

4 “(1) IN GENERAL.—A flex-tech energy program  
5 may include—

6 “(A) provision of technical and administra-  
7 tive assistance to manufacturers through quali-  
8 fied engineering firms, as determined by the  
9 State energy agency or Indian Tribe;

10 “(B) provision of financial assistance to  
11 manufacturers—

12 “(i) for energy studies of manufac-  
13 turing facilities that are conducted by  
14 qualified engineering firms; and

15 “(ii) to support the implementation of  
16 the measures and recommendations identi-  
17 fied in energy studies conducted pursuant  
18 to clause (i), including the design, acquisi-  
19 tion, installation, testing, operation, main-  
20 tenance, and repair of energy- and water-  
21 using systems, resiliency-related measures,  
22 emissions reduction-related measures, util-  
23 ity cost savings measures, and measures  
24 related to advanced manufacturing tech-  
25 nologies and artificial intelligence; and

1           “(C) reporting on monitoring, tracking,  
2           and success metrics of the program.

3           “(2) STUDIES.—An energy study of a manufac-  
4           turing facility conducted pursuant to paragraph  
5           (1)(B) may include—

6           “(A) an evaluation of the energy-using sys-  
7           tems of the facility, including evaluation of the  
8           performance of such systems relative to design  
9           intent, operational needs of the facility and its  
10          occupants, and operation and maintenance pro-  
11          cedures;

12          “(B) an evaluation of emissions related to  
13          the facility, including greenhouse gas emissions,  
14          and recommendations on sustainability planning  
15          and practices;

16          “(C) an evaluation of potential energy effi-  
17          ciency, water efficiency, greenhouse gas emis-  
18          sions mitigation, and load reduction measures  
19          for the facility;

20          “(D) an evaluation of potential on-site en-  
21          ergy measures, including grid-interactive effi-  
22          ciency systems, combined heat and power, effi-  
23          cient compressed air systems, energy storage,  
24          energy management systems, renewable thermal

1 systems, and electrification or other forms of  
2 fuel switching;

3 “(E) recommendations on the use of new  
4 technologies by the applicable manufacturer;  
5 and

6 “(F) detailed estimates of potential imple-  
7 mentation costs, operating cost savings, energy  
8 savings, emissions reductions, and simple pay-  
9 back periods, for measures and recommenda-  
10 tions identified in such study.

11 “(3) QUALIFIED ENGINEERING FIRMS.—A  
12 State energy agency or Indian Tribe administering  
13 a flex-tech energy program shall maintain and regu-  
14 larly update a publicly available list of qualified engi-  
15 neering firms that are approved by the State energy  
16 agency or Indian Tribe to provide assistance to man-  
17 ufacturers pursuant to this section.

18 “(c) FUNDING.—

19 “(1) ALLOCATION.—Except as provided in  
20 paragraph (2), to the extent practicable, the Sec-  
21 retary shall allocate funding made available to carry  
22 out this section in accordance with the formula used  
23 for distribution of Federal financial assistance pro-  
24 vided pursuant to this part to States that have in ef-

1       fect an approved State energy conservation plan  
2       under this part.

3               “(2) INDIAN TRIBES.—The Secretary shall set  
4       aside and distribute not less than 5 percent of  
5       amounts made available for each fiscal year to carry  
6       out this section to provide financial assistance—

7                       “(A) to Indian Tribes; or

8                       “(B) directly to manufacturers located in  
9       Indian Country or, in the case of Alaska, an  
10       Alaska Native Village Statistical Area, as iden-  
11       tified by the U.S. Census Bureau, for energy  
12       studies and implementation of the measures  
13       and recommendations identified in such energy  
14       studies, as described in subsection (b)(1)(B).

15               “(3) USE OF FUNDS.—

16                       “(A) ENERGY STUDIES; ADMINISTRATIVE  
17       EXPENSES.—A State energy agency or Indian  
18       Tribe that receives financial assistance pursu-  
19       ant to this section for a fiscal year may not—

20                               “(i) use more than 50 percent of such  
21       financial assistance for energy studies;

22                               “(ii) use more than 50 percent of such  
23       financial assistance to support the imple-  
24       mentation of recommendations from such  
25       energy studies; and

1           “(iii) use more than 10 percent of  
2           such financial assistance for administrative  
3           expenses, including for outreach and tech-  
4           nical assistance.

5           “(B) INDIVIDUAL MANUFACTURING FACIL-  
6           ITY.—A State energy agency that receives fi-  
7           nancial assistance pursuant to this section for  
8           a fiscal year may not use more than 5 percent  
9           of such financial assistance with respect to an  
10          individual manufacturing facility.

11          “(4) SUPPLEMENT.—Financial assistance pro-  
12          vided to a State energy agency or Indian Tribe pur-  
13          suant to this section shall be used to supplement,  
14          not supplant, any Federal, State, or other funds oth-  
15          erwise made available to such State under this part.

16          “(5) FINANCING.—To the extent practicable, a  
17          State energy agency or Indian Tribe shall implement  
18          a flex-tech energy program described in subsection  
19          (b) using funding provided under this Act, public fi-  
20          nancing, private financing, or any other sources of  
21          funds.

22          “(d) TECHNICAL ASSISTANCE.—

23          “(1) IN GENERAL.—Upon request of a State  
24          energy agency or Indian Tribe, the Secretary shall  
25          provide information and technical assistance in the

1 development, implementation, improvement, or ex-  
2 pansion of a flex-tech energy program described in  
3 subsection (b).

4 “(2) INCLUSIONS.—Technical assistance pro-  
5 vided pursuant to paragraph (1) may include pro-  
6 gram design options to, with respect to manufactur-  
7 ers that employ fewer than 500 full-time equivalent  
8 employees at a manufacturing facility—

9 “(A) meet the needs of such manufactur-  
10 ers; and

11 “(B) encourage the use of advanced manu-  
12 facturing processes by such manufacturers, in-  
13 cluding use of additive manufacturing, ad-  
14 vanced sensors and controls, techniques to re-  
15 duce embedded emissions, and advanced com-  
16 posite materials.

17 “(e) DEFINITIONS.—In this section:

18 “(1) INDIAN COUNTRY.—The term ‘Indian  
19 Country’ means—

20 “(A) all land within the limits of any In-  
21 dian reservation under the jurisdiction of the  
22 United States Government, notwithstanding the  
23 issuance of any patent, and, including rights-of-  
24 way running through the reservation;

1           “(B) all dependent Indian communities  
2           within the borders of the United States whether  
3           within the original or subsequently acquired ter-  
4           ritory thereof, and whether within or without  
5           the limits of a State; and

6           “(C) all Indian allotments, the Indian ti-  
7           tles to which have not been extinguished, in-  
8           cluding rights-of-way running through the  
9           same.

10          “(2) INDIAN TRIBE.—The term ‘Indian Tribe’  
11          has the meaning given the term in section 4 of the  
12          Indian Self-Determination and Education Assistance  
13          Act (25 U.S.C. 5304).

14          “(3) STATE ENERGY AGENCY.—The term ‘State  
15          energy agency’ has the meaning given such term in  
16          section 391(10).”.

17          (b) CONFORMING AMENDMENT.—The table of con-  
18          tents for the Energy Policy and Conservation Act is  
19          amended by adding after the item related to section 366  
20          the following:

            “Sec. 367. Flex-tech energy program to enhance manufacturing competitive-  
            ness.”.

21          (c) AUTHORIZATION OF APPROPRIATIONS.—Section  
22          365(f) of the Energy Policy and Conservation Act (42  
23          U.S.C. 6325(f)) is amended by adding at the end the fol-  
24          lowing:

1           “(3) FLEX-TECH ENERGY PROGRAM TO EN-  
2 HANCE MANUFACTURING COMPETITIVENESS.—In  
3 addition to the authorization of appropriations under  
4 paragraph (1), for the purposes of carrying out sec-  
5 tion 367, there is authorized to be appropriated  
6 \$100,000,000 for each of fiscal years 2022 through  
7 2026.”.

8           **TITLE IV—MEDICAL PRODUCT**  
9           **SUPPLY CHAIN IMPROVEMENTS**  
10          **Subtitle A—Medical Product Inno-**  
11          **vation, Transparency, and Safe-**  
12          **ty**

13          **SEC. 20401. NATIONAL CENTERS OF EXCELLENCE IN AD-**  
14                           **VANCED AND CONTINUOUS PHARMA-**  
15                           **CEUTICAL MANUFACTURING.**

16           (a) IN GENERAL.—Section 3016 of the 21st Century  
17 Cures Act (21 U.S.C. 399h) is amended to read as follows:

18          **“SEC. 3016. NATIONAL CENTERS OF EXCELLENCE IN AD-**  
19                           **VANCED AND CONTINUOUS PHARMA-**  
20                           **CEUTICAL MANUFACTURING.**

21           “(a) IN GENERAL.—The Secretary of Health and  
22 Human Services, acting through the Commissioner of  
23 Food and Drugs—

24                           “(1) shall solicit and, beginning not later than  
25                           one year after the date of enactment of the America

1       COMPETES Act of 2022, receive requests from in-  
2       stitutions of higher education, or consortia of insti-  
3       tutions of higher education, to be designated as a  
4       National Center of Excellence in Advanced and Con-  
5       tinuous Pharmaceutical Manufacturing (in this sec-  
6       tion referred to as a ‘National Center of Excellence’)  
7       to support the advancement, development, and im-  
8       plementation of advanced and continuous pharma-  
9       ceutical manufacturing; and

10               “(2) shall so designate not more than 5 institu-  
11       tions of higher education or consortia of such insti-  
12       tutions that—

13                       “(A) request such designation; and

14                       “(B) meet the criteria specified in sub-  
15       section (c).

16       “(b) REQUEST FOR DESIGNATION.—A request for  
17       designation under subsection (a) shall be made to the Sec-  
18       retary at such time, in such manner, and containing such  
19       information as the Secretary may require. Any such re-  
20       quest shall include a description of how the institution of  
21       higher education, or consortium of institutions of higher  
22       education, meets or plans to meet each of the criteria spec-  
23       ified in subsection (c).

24       “(c) CRITERIA FOR DESIGNATION DESCRIBED.—The  
25       criteria specified in this subsection with respect to an in-

1 stitution of higher education, or consortium of institutions  
2 of higher education, are that the institution or consortium  
3 has, as of the date of the submission of a request under  
4 subsection (a) by such institution or consortium—

5           “(1) physical and technical capacity for re-  
6 search, development, implementation, and dem-  
7 onstration of advanced and continuous pharma-  
8 ceutical manufacturing;

9           “(2) manufacturing knowledge-sharing net-  
10 works with other institutions of higher education,  
11 large and small pharmaceutical manufacturers, ge-  
12 neric and nonprescription manufacturers, contract  
13 manufacturers, and other relevant entities;

14           “(3) proven capacity to design, develop, imple-  
15 ment, and demonstrate new, highly effective tech-  
16 nologies for use in advanced and continuous phar-  
17 maceutical manufacturing;

18           “(4) a track record for creating, preserving,  
19 and transferring knowledge with respect to advanced  
20 and continuous pharmaceutical manufacturing;

21           “(5) the proven ability to facilitate training of  
22 an adequate future workforce for research on, and  
23 implementation of, advanced and continuous phar-  
24 maceutical manufacturing; and

1           “(6) experience in participating in and leading  
2           advanced and continuous pharmaceutical manufac-  
3           turing technology partnerships with other institu-  
4           tions of higher education, large and small pharma-  
5           ceutical manufacturers, generic and nonprescription  
6           manufacturers, contract manufacturers, and other  
7           relevant entities—

8                   “(A) to support companies seeking to im-  
9                   plement advanced and continuous pharma-  
10                  ceutical manufacturing in the United States;

11                  “(B) to support Federal agencies with  
12                  technical assistance and employee training,  
13                  which may include regulatory and quality met-  
14                  ric guidance as applicable, and hands-on train-  
15                  ing, for advanced and continuous pharma-  
16                  ceutical manufacturing;

17                  “(C) with respect to advanced and contin-  
18                  uous pharmaceutical manufacturing, to orga-  
19                  nize and conduct research and development ac-  
20                  tivities needed to create new and more effective  
21                  technology, develop and share knowledge, create  
22                  intellectual property, and maintain technological  
23                  leadership;

1           “(D) to develop best practices for design-  
2           ing and implementing advanced and continuous  
3           pharmaceutical manufacturing processes; and

4           “(E) to assess and respond to the national  
5           workforce needs for advanced and continuous  
6           pharmaceutical manufacturing, including the  
7           development and implementing of training pro-  
8           grams.

9           “(d) TERMINATION OF DESIGNATION.—The Sec-  
10          retary may terminate the designation of any National Cen-  
11          ter of Excellence designated under this section if the Sec-  
12          retary determines such National Center of Excellence no  
13          longer meets the criteria specified in subsection (c). Not  
14          later than 90 days before the effective date of such a ter-  
15          mination, the Secretary shall provide written notice to the  
16          National Center of Excellence, including the rationale for  
17          such termination.

18          “(e) CONDITIONS FOR DESIGNATION.—As a condi-  
19          tion of designation as a National Center of Excellence  
20          under this section, the Secretary shall require that an in-  
21          stitution of higher education or consortium of institutions  
22          of higher education enter into an agreement with the Sec-  
23          retary under which the institution or consortium agrees—

1           “(1) to collaborate directly with the Food and  
2 Drug Administration to publish the reports required  
3 by subsection (g);

4           “(2) to share data with the Food and Drug Ad-  
5 ministration regarding best practices and research  
6 generated through the funding under subsection (f);

7           “(3) to develop, along with industry partners  
8 (which may include large and small biopharma-  
9 ceutical manufacturers, generic and nonprescription  
10 manufacturers, and contract research organizations  
11 or contract manufacturers that carry out drug devel-  
12 opment and manufacturing activities) and another  
13 institution or consortium designated under this sec-  
14 tion, if any, a roadmap for developing an advanced  
15 and continuous pharmaceutical manufacturing work-  
16 force;

17           “(4) to develop, along with industry partners  
18 and other institutions or consortia of such institu-  
19 tions designated under this section, a roadmap for  
20 strengthening existing, and developing new, relation-  
21 ships with other institutions of higher education or  
22 consortia thereof; and

23           “(5) to provide an annual report to the Food  
24 and Drug Administration regarding the institution’s  
25 or consortium’s activities under this section, includ-

1 ing a description of how the institution or consor-  
2 tium continues to meet and make progress on the  
3 criteria specified in subsection (e).

4 “(f) FUNDING.—

5 “(1) IN GENERAL.—The Secretary shall award  
6 funding, through grants, contracts, or cooperative  
7 agreements, to the National Centers of Excellence  
8 designated under this section for the purpose of  
9 studying and recommending improvements to ad-  
10 vanced and continuous pharmaceutical manufac-  
11 turing, including such improvements as may enable  
12 the Centers—

13 “(A) to continue to meet the conditions  
14 specified in subsection (e);

15 “(B) to expand capacity for research on,  
16 and development of, advanced and continuous  
17 pharmaceutical manufacturing; and

18 “(C) to implement research infrastructure  
19 in advanced and continuous pharmaceutical  
20 manufacturing suitable for accelerating the de-  
21 velopment of drug products needed to respond  
22 to emerging medical threats, such as emerging  
23 drug shortages, quality issues disrupting the  
24 supply chain, epidemics and pandemics, and  
25 other such situations requiring the rapid devel-

1           opment of new products or new manufacturing  
2           processes.

3           “(2) CONSISTENCY WITH FDA MISSION.—As a  
4           condition on receipt of funding under this sub-  
5           section, a National Center of Excellence shall agree  
6           to consider any input from the Secretary regarding  
7           the use of funding that would—

8                   “(A) help to further the advancement of  
9                   advanced and continuous pharmaceutical manu-  
10                  facturing through the National Center of Excel-  
11                  lence; and

12                   “(B) be relevant to the mission of the  
13                  Food and Drug Administration.

14           “(3) RULE OF CONSTRUCTION.—Nothing in  
15           this section shall be construed as precluding a Na-  
16           tional Center for Excellence designated under this  
17           section from receiving funds under any other provi-  
18           sion of this Act or any other Federal law.

19           “(g) ANNUAL REVIEW AND REPORTS.—

20                   “(1) ANNUAL REPORT.—Beginning not later  
21                   than one year after the date on which the first des-  
22                   ignation is made under subsection (a), and annually  
23                   thereafter, the Secretary shall—

24                   “(A) submit to Congress a report describ-  
25                   ing the activities, partnerships and collabora-

1 tions, Federal policy recommendations, previous  
2 and continuing funding, and findings of, and  
3 any other applicable information from, the Na-  
4 tional Centers of Excellence designated under  
5 this section;

6 “(B) include in such report an accounting  
7 of the Federal administrative expenses de-  
8 scribed in subsection (i)(2) over the reporting  
9 period; and

10 “(C) make such report available to the  
11 public in an easily accessible electronic format  
12 on the website of the Food and Drug Adminis-  
13 tration.

14 “(2) REVIEW OF NATIONAL CENTERS OF EX-  
15 CELLENCE AND POTENTIAL DESIGNEES.—The Sec-  
16 retary shall periodically review the National Centers  
17 of Excellence designated under this section to ensure  
18 that such National Centers of Excellence continue to  
19 meet the criteria for designation under this section.

20 “(3) REPORT ON LONG-TERM VISION OF FDA  
21 ROLE.—Not later than 2 years after the date on  
22 which the first designation is made under subsection  
23 (a), the Secretary, in consultation with the National  
24 Centers of Excellence designated under this section,  
25 shall submit a report to the Congress on the long-

1 term vision of the Department of Health and  
2 Human Services on the role of the Food and Drug  
3 Administration in supporting advanced and contin-  
4 uous pharmaceutical manufacturing, including—

5 “(A) a national framework of principles re-  
6 lated to the implementation and regulation of  
7 advanced and continuous pharmaceutical manu-  
8 facturing;

9 “(B) a plan for the development of Federal  
10 regulations and guidance for how advanced and  
11 continuous pharmaceutical manufacturing can  
12 be incorporated into the development of phar-  
13 maceuticals and regulatory responsibilities of  
14 the Food and Drug Administration;

15 “(C) a plan for development of Federal  
16 regulations or guidance for how advanced and  
17 continuous pharmaceutical manufacturing will  
18 be reviewed by the Food and Drug Administra-  
19 tion; and

20 “(D) appropriate feedback solicited from  
21 the public, which may include other institutions  
22 of higher education, large and small biopharma-  
23 ceutical manufacturers, generic and non-  
24 prescription manufacturers, and contract manu-  
25 facturers.

1 “(h) DEFINITIONS.—In this section:

2 “(1) ADVANCED.—The term ‘advanced’, with  
3 respect to pharmaceutical manufacturing, refers to  
4 an approach that incorporates novel technology, or  
5 uses an established technique or technology in a new  
6 or innovative way, that enhances drug quality or im-  
7 proves the performance of a manufacturing process.

8 “(2) CONTINUOUS.—The term ‘continuous’,  
9 with respect to pharmaceutical manufacturing, re-  
10 fers to a process—

11 “(A) where the input materials are con-  
12 tinuously fed into and transformed within the  
13 process, and the processed output materials are  
14 continuously removed from the system; and

15 “(B) that consists of an integrated process  
16 that consists of a series of two or more simulta-  
17 neous unit operations.

18 “(3) INSTITUTION OF HIGHER EDUCATION.—  
19 The term ‘institution of higher education’ has the  
20 meaning given such term in section 101(a) of the  
21 Higher Education Act of 1965 (20 U.S.C. 1001(a)).

22 “(4) SECRETARY.—The term ‘Secretary’ means  
23 the Secretary of Health and Human Services, acting  
24 through the Commissioner of Food and Drugs.

25 “(i) AUTHORIZATION OF APPROPRIATIONS.—

1 “(1) IN GENERAL.—There is authorized to be  
2 appropriated to carry out this section \$100,000,000  
3 for the period of fiscal years 2022 through 2026.

4 “(2) FEDERAL ADMINISTRATIVE EXPENSES.—  
5 Of the amounts made available to carry out this sec-  
6 tion for a fiscal year, the Secretary shall not use  
7 more than eight percent for Federal administrative  
8 expenses, including training, technical assistance, re-  
9 porting, and evaluation.”.

10 (b) TRANSITION RULE.—Section 3016 of the 21st  
11 Century Cures Act (21 U.S.C. 399h), as in effect on the  
12 day before the date of the enactment of this section, shall  
13 apply with respect to grants awarded under such section  
14 before such date of enactment.

15 (c) CLERICAL AMENDMENT.—The item relating to  
16 section 3016 in the table of contents in section 1(b) of  
17 the 21st Century Cures Act (Public Law 114–255) is  
18 amended to read as follows:

“Sec. 3016. National Centers of Excellence in Advanced and Continuous Phar-  
maceutical Manufacturing.”.

19 **SEC. 20402. NOTIFICATION, NONDISTRIBUTION, AND RE-**  
20 **CALL OF DRUGS.**

21 (a) ORDER TO CEASE DISTRIBUTION AND RECALL.—  
22 Section 569D of the Federal Food, Drug, and Cosmetic  
23 Act (21 U.S.C. 360bbb–8d) is amended—

1 (1) in the section heading, by striking “**CON-**  
2 **TROLLED SUBSTANCES**” and inserting “**DRUGS**”;

3 (2) by striking “controlled substance” each  
4 place such term appears and inserting “drug”;

5 (3) in subsection (b)—

6 (A) by striking “controlled substances”  
7 and inserting “drugs”; and

8 (B) by inserting “of subsection (a)” after  
9 “an order pursuant to paragraph (1) or an  
10 amended order pursuant to subparagraph (B)  
11 or (C) of paragraph (3)”;

12 (4) in subsection (c), by striking “or an official  
13 senior to such Director” and inserting “or the Direc-  
14 tor of the Center for Biologics Evaluation and Re-  
15 search (or an official senior to either such Direc-  
16 tor)”.

17 (b) **IMPORTS AND EXPORTS.**—Section 801(a) of the  
18 Federal Food, Drug, and Cosmetic Act (21 U.S.C. 381(a))  
19 is amended by striking “is a controlled substance subject  
20 to an order under section 569D” and inserting “is a drug  
21 subject to an order under section 569D”.

22 **SEC. 20403. REPORTING REQUIREMENT FOR DRUG MANU-**  
23 **FACTURERS.**

24 (a) **ESTABLISHMENTS IN A FOREIGN COUNTRY.**—  
25 Section 510(i) of the Federal Food, Drug, and Cosmetic

1 Act (21 U.S.C. 360(i)) is amended by inserting at the end  
2 the following:

3       “(5) The requirements of paragraphs (1) and (2)  
4 shall apply to establishments within a foreign country en-  
5 gaged in the manufacture, preparation, propagation,  
6 compounding, or processing of any drug, including the ac-  
7 tive pharmaceutical ingredient, that is required to be listed  
8 pursuant to subsection (j). Such requirements shall apply  
9 regardless of whether the drug or active pharmaceutical  
10 ingredient undergoes further manufacture, preparation,  
11 propagation, compounding, or processing at a separate es-  
12 tablishment or establishments outside the United States  
13 prior to being imported or offered for import into the  
14 United States.”.

15       (b) LISTING OF DRUGS.—Section 510(j)(1) of the  
16 Federal Food, Drug, and Cosmetic Act (21 U.S.C.  
17 360(j)(1)) is amended—

18           (1) in subparagraph (D), by striking “and” at  
19 the end;

20           (2) in subparagraph (E), by striking the period  
21 at the end and inserting “; and”; and

22           (3) by adding at the end the following:

23           “(F) in the case of a drug contained in the ap-  
24 plicable list, a certification that the registrant has—

1           “(i) identified every other establishment  
2           where manufacturing is performed for the drug;  
3           and

4           “(ii) notified each known foreign establish-  
5           ment engaged in the manufacture, preparation,  
6           propagation, compounding, or processing of the  
7           drug, including the active pharmaceutical ingre-  
8           dient, of the inclusion of the drug in the list  
9           and the obligation to register.”.

10       (c) QUARTERLY REPORTING ON AMOUNT OF DRUGS  
11 MANUFACTURED.—Section 510(j)(3)(A) of the Federal  
12 Food, Drug, and Cosmetic Act (as added by section 3112  
13 of the CARES Act (Public Law 116–136)) is amended  
14 by striking “annually” and inserting “once during the  
15 month of March of each year, once during the month of  
16 June of each year, once during the month of September  
17 of each year, and once during the month of December of  
18 each year”.

19 **SEC. 20404. ENHANCED PENALTIES FOR FALSE INFORMA-**  
20 **TION AND RECORDS DESTRUCTION.**

21       (a) PROHIBITION OF FALSE INFORMATION AND  
22 RECORD DESTRUCTION.—Section 301 of the Federal  
23 Food, Drug, and Cosmetic Act (21 U.S.C. 331) is amend-  
24 ed by adding at the end the following:

1 “(fff) The intentional material falsification, fabrica-  
2 tion, destruction, omission, or removal of the whole or any  
3 part of records or information that is—

4 “(1) required under this Act—

5 “(A) to be produced during the develop-  
6 ment or manufacture of a drug; or

7 “(B) to be produced or maintained by the  
8 sponsor of an application for the approval of a  
9 drug under section 505 or the holder of an ap-  
10 proved application for a drug under section  
11 505; or

12 “(2) subject to inspection under this Act by the  
13 Secretary.”.

14 (b) PENALTIES.—Section 303(f) of the Federal Food,  
15 Drug, and Cosmetic Act (21 U.S.C. 333(f)) is amended—

16 (1) in subparagraphs (A) and (C) of paragraph  
17 (5), by striking or “or (9)” each place it appears  
18 and inserting “(9), or (10)”; and

19 (2) by adding at the end the following:

20 “(10) Notwithstanding subsection (a), any person  
21 who violates section 301(fff) shall be subject to—

22 “(A) a civil monetary penalty not to exceed—

23 “(i) \$1,000,000 per violation; and

1           “(ii) \$10,000,000 for all violations (exclud-  
2           ing those described in subparagraph (B)) adju-  
3           dicated in a single proceeding; and

4           “(B) in the case of a violation that continues  
5           after the Secretary provides written notice to such  
6           person, if such person does not sufficiently remedy  
7           the violation, including by producing corrected  
8           records or information, additional civil penalties not  
9           to exceed—

10           “(i) \$1,000,000 for the first 30-day period  
11           (or any portion thereof) following such notice  
12           during which such person continues to be in  
13           violation;

14           “(ii) for each such 30-day period there-  
15           after, the amount that is double the amount ac-  
16           tually imposed for the preceding 30-day period,  
17           not to exceed \$2,000,000 for any 30-day period;  
18           and

19           “(iii) \$20,000,000 for all violations de-  
20           scribed in this subparagraph adjudicated in a  
21           single proceeding.”.

3 **pile**

4 **SEC. 20411. REIMBURSABLE TRANSFERS.**

5 Section 319F–2(a) of the Public Health Service Act  
6 (42 U.S.C. 247d–6b(a)) is amended by amending para-  
7 graph (6) to read as follows:

8 “(6) TRANSFERS AND REIMBURSEMENTS.—

9 “(A) IN GENERAL.—Without regard to  
10 chapter 5 of title 40, United States Code, the  
11 Secretary may transfer to any Federal depart-  
12 ment or agency, on a reimbursable basis, any  
13 drugs, vaccines and other biological products,  
14 medical devices, and other supplies in the stock-  
15 pile if—

16 “(i) the transferred supplies are less  
17 than one year from expiry;

18 “(ii) the stockpile is able to replenish  
19 the supplies, as appropriate; and

20 “(iii) the Secretary decides the trans-  
21 fer is in the best interest of the United  
22 States Government.

23 “(B) USE OF REIMBURSEMENT.—Reim-  
24 bursement derived from the transfer of supplies  
25 pursuant to subparagraph (A) may, to the ex-

1           tent and in the amounts made available in ad-  
2           vance in appropriations Acts, be used by the  
3           Secretary to carry out this section. Funds made  
4           available pursuant to the preceding sentence are  
5           in addition to any other funds that may be  
6           made available for such purpose.

7           “(C) RULE OF CONSTRUCTION.—This  
8           paragraph shall not be construed to preclude  
9           transfers of products in the stockpile under  
10          other authorities.

11          “(D) REPORT.—Not later than September  
12          30, 2023, the Secretary shall submit to the  
13          Committee on Energy and Commerce of the  
14          House of Representatives and the Committee  
15          on Health, Education, Labor, and Pensions of  
16          the Senate a report on each transfer made  
17          under this paragraph and the amount received  
18          by the Secretary in exchange for that transfer.

19          “(E) SUNSET.—The authority to make  
20          transfers under this paragraph shall cease to be  
21          effective on September 30, 2024.”.

22 **SEC. 20412. EQUIPMENT MAINTENANCE.**

23          Section 319F–2 of the Public Health Service Act (42  
24          U.S.C. 247d–6b) is amended—

25                 (1) in subsection (a)(3)—

1 (A) in subparagraph (I), by striking “;  
2 and” and inserting a semicolon;

3 (B) in subparagraph (J), by striking the  
4 period at the end and inserting a semicolon;  
5 and

6 (C) by inserting the following new subpara-  
7 graph at the end:

8 “(K) ensure contents of the stockpile re-  
9 main in good working order and, as appro-  
10 priate, conduct maintenance services on con-  
11 tents of the stockpile; and”; and

12 (2) in subsection (c)(7)(B), by adding at the  
13 end the following new clause:

14 “(ix) EQUIPMENT MAINTENANCE  
15 SERVICE.—In carrying out this section, the  
16 Secretary may enter into contracts for the  
17 procurement of equipment maintenance  
18 services.”.

19 **SEC. 20413. SUPPLY CHAIN FLEXIBILITY MANUFACTURING**  
20 **PILOT.**

21 (a) IN GENERAL.—Section 319F–2(a)(3) of the Pub-  
22 lic Health Service Act (42 U.S.C. 247d–6b(a)(3)), as  
23 amended by section 20412, is further amended by adding  
24 at the end the following new subparagraph:

1           “(L) enhance medical supply chain elas-  
2           ticity and establish and maintain domestic re-  
3           serves of critical medical supplies (including  
4           personal protective equipment, ancillary medical  
5           supplies, and other applicable supplies required  
6           for the administration of drugs, vaccines and  
7           other biological products, and other medical de-  
8           vices (including diagnostic tests)) by—

9                   “(i) increasing emergency stock of  
10                   critical medical supplies;

11                   “(ii) geographically diversifying do-  
12                   mestic production of such medical supplies,  
13                   as appropriate;

14                   “(iii) entering into cooperative agree-  
15                   ments or partnerships with respect to man-  
16                   ufacturing lines, facilities, and equipment  
17                   for the domestic production of such med-  
18                   ical supplies, taking into consideration en-  
19                   tering into such cooperative agreements or  
20                   partnerships with small and medium man-  
21                   ufacturers of such medical supplies; and

22                   “(iv) managing, either directly or  
23                   through cooperative agreements with man-  
24                   ufacturers and distributors, domestic re-  
25                   serves established under this subparagraph

1 by refreshing and replenishing stock of  
2 such medical supplies.”.

3 (b) REPORTING; SUNSET.—Section 319F–2(a) of the  
4 Public Health Service Act (42 U.S.C. 247d–6b(a)), as  
5 amended by section 20411, is further amended by adding  
6 at the end the following:

7 “(7) REPORTING.—Not later than September  
8 30, 2023, the Secretary shall submit to the Com-  
9 mittee on Energy and Commerce of the House of  
10 Representatives and the Committee on Health, Edu-  
11 cation, Labor and Pensions of the Senate a report  
12 on the details of each cooperative agreement or part-  
13 nership entered into under paragraph (3)(L), includ-  
14 ing the amount expended by the Secretary on each  
15 such cooperative agreement or partnership.

16 “(8) SUNSET.—The authority to enter into co-  
17 operative agreements or partnerships pursuant to  
18 paragraph (3)(L) shall cease to be effective on Sep-  
19 tember 30, 2024.”.

20 (c) FUNDING.—Section 319F–2(f) of the Public  
21 Health Service Act (42 U.S.C. 247d–6b(f)) is amended by  
22 adding at the end the following:

23 “(3) SUPPLY CHAIN ELASTICITY.—

24 “(A) IN GENERAL.—For the purpose of  
25 carrying out subsection (a)(3)(L), there is au-

1           thorized to be appropriated \$500,000,000 for  
2           each of fiscal years 2022 through 2024, to re-  
3           main available until expended.

4           “(B) RELATION TO OTHER AMOUNTS.—  
5           The amount authorized to be appropriated by  
6           subparagraph (A) for the purpose of carrying  
7           out subsection (a)(3)(L) is in addition to any  
8           other amounts available for such purpose.”.

9   **SEC. 20414. GAO STUDY ON THE FEASIBILITY AND BENE-**  
10                           **FITS OF A USER FEE AGREEMENT.**

11           (a) IN GENERAL.—The Comptroller General of the  
12   United States shall conduct a study to investigate the fea-  
13   sibility of establishing user fees to offset certain Federal  
14   costs attributable to the procurement of single-source ma-  
15   terials for the Strategic National Stockpile under section  
16   319F–2 of the Public Health Service Act (42 U.S.C.  
17   247d–6b) and distributions of such materials from the  
18   Stockpile. In conducting this study, the Comptroller Gen-  
19   eral shall consider, to the extent information is available—

20           (1) whether entities receiving such distributions  
21           generate profits from those distributions;

22           (2) any Federal costs attributable to such dis-  
23           tributions;

24           (3) whether such user fees would provide the  
25           Secretary with funding to potentially offset procure-

1 ment costs of such materials for the Strategic Na-  
2 tional Stockpile; and

3 (4) any other issues the Comptroller General  
4 identifies as relevant.

5 (b) REPORT.—Not later than February 1, 2024, the  
6 Comptroller General of the United States shall submit to  
7 the Congress a report on the findings and conclusions of  
8 the study under subsection (a).

9 **SEC. 20415. GRANTS FOR STATE STRATEGIC STOCKPILES.**

10 Title III of the Public Health Service Act is amended  
11 by inserting after section 319F–4 of such Act (42 U.S.C.  
12 247d–6e) the following new section:

13 **“SEC. 319F-5. GRANTS FOR STATE STRATEGIC STOCKPILES.**

14 “(a) IN GENERAL.—The Secretary may establish a  
15 pilot program consisting of awarding grants to States to  
16 expand or maintain a strategic stockpile of commercially  
17 available drugs, devices, personal protective equipment,  
18 and other products deemed by the State to be essential  
19 in the event of a public health emergency.

20 “(b) ALLOWABLE USE OF FUNDS.—

21 “(1) USES.—A State receiving a grant under  
22 this section may use the grant funds to—

23 “(A) acquire commercially available prod-  
24 ucts listed pursuant to paragraph (2) for inclu-  
25 sion in the State’s strategic stockpile;

1           “(B) store, maintain, and distribute prod-  
2           ucts in such stockpile; and

3           “(C) conduct planning in connection with  
4           such activities.

5           “(2) LIST.—The Secretary shall develop and  
6           publish a list of the products that are eligible, as de-  
7           scribed in subsection (a), for inclusion in a State’s  
8           strategic stockpile using funds received under this  
9           section.

10          “(3) CONSULTATION.—In developing the list  
11          under paragraph (2) and otherwise determining the  
12          allowable uses of grant funds under this section, the  
13          Secretary shall consult with States and relevant  
14          stakeholders, including public health organizations.

15          “(c) FUNDING REQUIREMENT.—The Secretary may  
16          not obligate or expend any funds to award grants or fund  
17          any previously awarded grants under this section for a fis-  
18          cal year unless the total amount made available to carry  
19          out section 319F–2 for such fiscal year is equal to or  
20          greater than the total amount of funds made available to  
21          carry out section 319F–2 for fiscal year 2022.

22          “(d) MATCHING FUNDS.—

23                 “(1) IN GENERAL.—With respect to the costs of  
24                 expanding and maintaining a strategic stockpile  
25                 through a grant under this section, as a condition on

1 receipt of the grant, a State shall make available (di-  
2 rectly) non-Federal contributions in cash toward  
3 such costs in an amount that is equal to not less  
4 than the amount of Federal funds provided through  
5 the grant.

6 “(2) WAIVER.—The Secretary may waive the  
7 requirement of paragraph (1) with respect to a State  
8 for the first two years of the State receiving a grant  
9 under this section if the Secretary determines that  
10 such waiver is needed for the State to establish a  
11 strategic stockpile described in subsection (a).

12 “(e) TECHNICAL ASSISTANCE.—The Secretary shall  
13 provide technical assistance to States in establishing, ex-  
14 panding, and maintaining a stockpile described in sub-  
15 section (a).

16 “(f) DEFINITION.—In this section, the term ‘drug’  
17 has the meaning given to that term in section 201 of the  
18 Federal Food, Drug, and Cosmetic Act.

19 “(g) AUTHORIZATION OF APPROPRIATIONS.—To  
20 carry out this section, there is authorized to be appro-  
21 priated \$3,500,000,000 for each of fiscal years 2022  
22 through 2024, to remain available until expended.

23 “(h) SUNSET.—The authority vested by this section  
24 terminates at the end of fiscal year 2024.”.

1 **SEC. 20416. ACTION REPORTING.**

2 (a) IN GENERAL.—The Secretary of Health and  
3 Human Services or the Assistant Secretary for Prepared-  
4 ness and Response, in consultation with the Administrator  
5 of the Federal Emergency Management Agency, shall—

6 (1) not later than 30 days after the date of en-  
7 actment of this Act, issue a report to the Committee  
8 on Energy and Commerce of the House of Rep-  
9 resentatives and the Committee on Health, Edu-  
10 cation, Labor, and Pensions of the Senate regarding  
11 all State, local, Tribal, and territorial requests for  
12 supplies from the Strategic National Stockpile re-  
13 lated to COVID–19; and

14 (2) not less than every 30 days thereafter  
15 through the end of the emergency period (as such  
16 term is defined in section 1135(g)(1)(B) of the So-  
17 cial Security Act (42 U.S.C. 1320b–5(g)(1)(B))),  
18 submit to such committees an updated version of  
19 such report.

20 (b) REPORTING PERIOD.—

21 (1) INITIAL REPORT.—The initial report under  
22 subsection (a) shall address all requests described in  
23 such subsection made during the period—

24 (A) beginning on January 31, 2020; and

25 (B) ending on the date that is 30 days be-  
26 fore the date of submission of the report.

1           (2) UPDATES.—Each update to the report  
2 under subsection (a) shall address all requests de-  
3 scribed in such subsection made during the period—

4           (A) beginning at the end of the previous  
5 reporting period under this section; and

6           (B) ending on the date that is 30 days be-  
7 fore the date of submission of the updated re-  
8 port.

9           (c) CONTENTS OF REPORT.—The report under sub-  
10 section (a) (and updates thereto) shall include—

11           (1) the details of each request described in such  
12 subsection, including—

13           (A) the specific medical countermeasures,  
14 devices, personal protective equipment, and  
15 other materials requested; and

16           (B) the amount of such materials re-  
17 quested; and

18           (2) the outcomes of each request described in  
19 subsection (a), including—

20           (A) whether the request was wholly ful-  
21 filled, partially fulfilled, or denied;

22           (B) if the request was wholly or partially  
23 fulfilled, the fulfillment amount; and

24           (C) if the request was partially fulfilled or  
25 denied, a rationale for such outcome.

1 **SEC. 20417. IMPROVED, TRANSPARENT PROCESSES.**

2 (a) IN GENERAL.—Not later than January 1, 2023,  
3 the Secretary of Health and Human Services shall develop  
4 and implement improved, transparent processes for the  
5 use and distribution of drugs, vaccines and other biological  
6 products, medical devices, and other supplies (including  
7 personal protective equipment, ancillary medical supplies,  
8 and other applicable supplies required for the administra-  
9 tion of drugs, vaccines and other biological products, med-  
10 ical devices, and diagnostic tests) in the Strategic National  
11 Stockpile under section 319F–2 of the Public Health Serv-  
12 ice Act (42 U.S.C. 247d–6b) (in this section referred to  
13 as the “Stockpile”).

14 (b) PROCESSES.—The processes developed under  
15 subsection (a) shall include—

16 (1) the form and manner in which States, local-  
17 ities, Tribes, and territories are required to submit  
18 requests for supplies from the Stockpile;

19 (2) the criteria used by the Secretary of Health  
20 and Human Services in responding to such requests,  
21 including the reasons for fulfilling or denying such  
22 requests;

23 (3) what circumstances result in prioritization  
24 of distribution of supplies from the Stockpile to  
25 States, localities, Tribes, or territories;

1           (4) clear plans for future, urgent communica-  
2           tion between the Secretary and States, localities,  
3           Tribes, and territories regarding the outcome of  
4           such requests; and

5           (5) any differences in the processes developed  
6           under subsection (a) for geographically related emer-  
7           gencies, such as weather events, and national emer-  
8           gencies, such as pandemics.

9           (c) CLASSIFICATION.—The processes developed under  
10          subsection (a) shall be unclassified to the greatest extent  
11          possible consistent with national security. The Secretary  
12          of Health and Human Services may classify portions of  
13          such processes as necessary to protect national security.

14          (d) REPORT TO CONGRESS.—Not later than January  
15          1, 2024, the Secretary of Health and Human Services  
16          shall—

17               (1) submit a report to the Committee on En-  
18               ergy and Commerce of the House of Representatives  
19               and the Committee on Health, Education, Labor,  
20               and Pensions of the Senate regarding the improved,  
21               transparent processes developed under this section;

22               (2) include in such report recommendations for  
23               opportunities for communication (by telebriefing,  
24               phone calls, or in-person meetings) between the Sec-

1       retary and States, localities, Tribes, and territories  
2       regarding such improved, transparent processes; and  
3               (3) submit such report in unclassified form to  
4       the greatest extent possible, except that the Sec-  
5       retary may include a classified appendix if necessary  
6       to protect national security.

7       **SEC. 20418. AUTHORIZATION OF APPROPRIATIONS.**

8       Section 319F–2(f)(1) of the Public Health Service  
9       Act (42 U.S.C. 247d–6b(f)(1)) is amended by striking  
10      “\$610,000,000 for each of fiscal years 2019 through  
11      2023” and inserting “\$705,000,000 for each of fiscal  
12      years 2022 through 2024”.

13      **SEC. 20419. GAO REPORT ON AUTOMATED SUPPLY-CHAIN**  
14                                      **TRACKING APPLICATION.**

15      Not later than 180 days after the date of the enact-  
16      ment of this Act, the Comptroller General of the United  
17      States shall report to Congress on the possibility of the  
18      establishment of an automated supply-chain tracking ap-  
19      plication that provides near real-time insight into the  
20      amount of critical medical and health supplies available  
21      in the stockpile under section 319F–2(a) of the Public  
22      Health Service Act (42 U.S.C. 247d–6b(a)). Such report  
23      shall contain an evaluation of—

- 24                      (1) the feasibility of such an application; and  
25                      (2) the potential benefits of such an application.

1 **SEC. 20420. HIGH-QUALITY MASKS FOR CHILDREN.**

2 (a) INCLUSION IN STOCKPILE.—Section 319F–  
3 2(a)(1) of the Public Health Service Act (42 U.S.C. 247d–  
4 6b(a)(1)) is amended by inserting after “shall maintain  
5 a stockpile or stockpiles of drugs, vaccines and other bio-  
6 logical products, medical devices, and other supplies (in-  
7 cluding personal protective equipment” the following:  
8 “(which may include high-quality pediatric masks, a per-  
9 centage of which may be small adult masks for pediatric  
10 use)”.

11 (b) GUIDANCE FOR PEDIATRIC MASKS.—The Sec-  
12 retary of Health and Human Services, in consultation with  
13 the Director of the National Institute for Occupational  
14 Safety and Health, pediatricians, child health care pro-  
15 vider organizations, manufacturers, and other relevant  
16 stakeholders, shall—

17 (1) develop guidelines for the use of respirators,  
18 barrier face coverings, or masks for use in pediatric  
19 populations, which may be made available through  
20 the Strategic National Stockpile under section  
21 319F–2 of the Public Health Service Act (42 U.S.C.  
22 247d–6b) for public health emergencies declared  
23 under section 319 of such Act (42 U.S.C. 247d);  
24 and

25 (2) not later than 180 days after the date of  
26 enactment of this Act, submit to the Committee on

1 Energy and Commerce of the House of Representa-  
2 tives and the Committee on Health, Education,  
3 Labor and Pensions of the Senate a report on pedi-  
4 atric masks that includes the guidelines developed  
5 under paragraph (1).

6 **DIVISION D—COMMITTEE ON**  
7 **FOREIGN AFFAIRS**

8 **SEC. 30000. SHORT TITLE.**

9 (a) **SHORT TITLE.**—This division may be cited as the  
10 “Ensuring American Global Leadership and Engagement  
11 Act” or the “EAGLE Act”.

12 **SEC. 30001. DEFINITIONS.**

13 In this division:

14 (1) **APPROPRIATE CONGRESSIONAL COMMIT-**  
15 **TEES.**—Unless otherwise defined, the term “appro-  
16 priate congressional committees” means—

17 (A) the Committee on Foreign Affairs of  
18 the House of Representatives; and

19 (B) the Committee on Foreign Relations of  
20 the Senate.

21 (2) **CCP.**—The term “CCP” means the Chinese  
22 Communist Party.

23 (3) **PEOPLE’S LIBERATION ARMY; PLA.**—The  
24 terms “People’s Liberation Army” and “PLA” mean  
25 the armed forces of the People’s Republic of China.

1           (4) PRC; CHINA.—The terms “PRC” and  
2           “China” mean the People’s Republic of China.

3 **SEC. 30002. FINDINGS.**

4           Congress makes the following findings:

5           (1) The People’s Republic of China (PRC) is  
6           leveraging its political, diplomatic, economic, mili-  
7           tary, technological, and ideological power to become  
8           a strategic, near-peer, global competitor of the  
9           United States. The policies increasingly pursued by  
10          the PRC in these domains are contrary to the inter-  
11          ests and values of the United States, its partners,  
12          and much of the rest of the world.

13          (2) A number of policies being pursued by the  
14          PRC—

15                 (A) threaten the future character of the  
16                 international order and are shaping the rules,  
17                 norms, and institutions that govern relations  
18                 among states;

19                 (B) will put at risk the ability of the  
20                 United States to secure its national interests;  
21                 and

22                 (C) will put at risk the future peace, pros-  
23                 perity, and freedom of the international commu-  
24                 nity in the coming decades.

1           (3) After normalizing diplomatic relations with  
2           the PRC in 1979, the United States actively worked  
3           to advance the PRC's economic and social develop-  
4           ment to ensure that it participated in, and benefited  
5           from, the free and open international order. The  
6           United States pursued these goals and contributed  
7           to the welfare of the Chinese people by—

8                   (A) increasing the PRC's access to global  
9                   capital markets;

10                   (B) promoting the PRC's accession to the  
11                   World Trade Organization;

12                   (C) providing development finance and  
13                   technical assistance;

14                   (D) promoting research collaboration;

15                   (E) educating the PRC's top students;

16                   (F) permitting transfers of cutting-edge  
17                   technologies and scientific knowledge; and

18                   (G) providing intelligence and military as-  
19                   sistance.

20           (4) It is now clear that the PRC has chosen to  
21           pursue state-led, mercantilist economic policies, an  
22           increasingly authoritarian governance model at home  
23           through increased restrictions on personal freedoms,  
24           and an aggressive and assertive foreign policy. These  
25           policies frequently and deliberately undermine

1 United States interests and are contrary to core  
2 United States values and the values of other nations,  
3 both in the Indo-Pacific and beyond. In response to  
4 this strategic decision of the CCP, the United States  
5 has been compelled to reexamine and revise its strat-  
6 egy towards the PRC and reanimate its defense of  
7 the international order.

8 (5) The General Secretary of the CCP and the  
9 Chairman of the People’s Republic of China, Xi  
10 Jinping, has elevated the “Great Rejuvenation of the  
11 Chinese Nation” as central to the domestic and for-  
12 eign policy of the PRC. His program demands—

13 (A) strong, centralized CCP leadership;

14 (B) concentration of military power;

15 (C) a dominant role for the CCP in the  
16 state and the economy;

17 (D) an aggressive foreign policy seeking  
18 control over broadly asserted territorial claims;

19 and

20 (E) the denial of any universal values and  
21 individual rights that are deemed to threaten  
22 the CCP.

23 (6) The PRC views its Leninist model of gov-  
24 ernance as superior to, and at odds with, the con-  
25 stitutional models of the United States and other de-

1       mocracies. This approach to governance is lauded by  
2       the CCP as essential to securing the PRC’s status  
3       as a global leader, and to shaping the future of the  
4       world. In a 2013 speech, General Secretary Xi said,  
5       “‘We firmly believe that as socialism with Chinese  
6       characteristics develops further \* \* \* it is \* \* \* in-  
7       evitable that the superiority of our socialist system  
8       will be increasingly apparent \* \* \* [and] our coun-  
9       try’s road of development will have increasingly  
10      greater influence on the world.’”.

11           (7) The PRC’s objectives are to first establish  
12      regional hegemony over the Indo-Pacific and then to  
13      use that dominant position to propel the PRC to be-  
14      come the “leading world power”, shaping an inter-  
15      national order that is conducive to its interests.  
16      Achieving these objectives requires turning the PRC  
17      into a wealthy nation under strict CCP rule by using  
18      a strong military and advanced technological capa-  
19      bility to pursue the PRC’s objectives, regardless of  
20      other countries’ interests.

21           (8) The PRC is reshaping the current inter-  
22      national order, which is built upon the rule of law  
23      and free and open ideals and principles, by con-  
24      ducting global information and influence operations,  
25      seeking to redefine international laws and norms to

1 align with the objectives of the CCP, rejecting the  
2 legitimacy of internationally recognized human  
3 rights, and seeking to co-opt the leadership and  
4 agenda of multinational organizations for the benefit  
5 of the PRC and other authoritarian regimes at the  
6 expense of the interests of the United States and the  
7 international community.

8 (9) The PRC is encouraging other countries to  
9 follow its model of development and governance.  
10 During the 19th Party Congress in 2017, General  
11 Secretary Xi said that the PRC could serve as a  
12 model of development for other countries by utilizing  
13 “Chinese wisdom” and a “Chinese approach to solv-  
14 ing problems”.

15 (10) The PRC is promoting its governance  
16 model and attempting to weaken other models of  
17 governance by—

18 (A) undermining democratic institutions;

19 (B) subverting financial institutions;

20 (C) coercing businesses to accommodate  
21 the policies of the PRC; and

22 (D) using disinformation to disguise the  
23 nature of the actions described in subpara-  
24 graphs (A) through (C).

1           (11) The PRC is progressing toward becoming  
2 the global leader in science and technology. In May  
3 2018, General Secretary Xi said that for the PRC  
4 to reach “prosperity and rejuvenation”, it needs to  
5 “endeavor to be a major world center for science and  
6 innovation”. The PRC has invested the equivalent of  
7 billions of dollars into education and research and  
8 development and established joint scientific research  
9 centers and science universities.

10           (12) The PRC’s drive to become a “manufac-  
11 turing and technological superpower” and to pro-  
12 mote “innovation with Chinese characteristics” is  
13 coming at the expense of human rights and long-  
14 standing international rules and norms with respect  
15 to economic competition, and presents a challenge to  
16 United States national security and the security of  
17 allies and like-minded countries. In particular, the  
18 PRC advances its illiberal political and social policies  
19 through mass surveillance, social credit systems, and  
20 a significant role of the state in internet governance.  
21 Through these means, the PRC increases direct and  
22 indirect government control over its citizens’ every-  
23 day lives. Its national strategy of “civil-military fu-  
24 sion” mandates that civil and commercial research,

1 which increasingly drives global innovation, is leveraged to develop new military capabilities.

2  
3 (13) The PRC is using legal and illegal means  
4 to achieve its objective of becoming a manufacturing  
5 and technological superpower. The PRC uses state-  
6 directed industrial policies in anticompetitive ways to  
7 ensure the dominance of PRC companies. The CCP  
8 engages in and encourages actions that actively un-  
9 dermine a free and open international market, such  
10 as intellectual property theft, forced technology  
11 transfers, regulatory and financial subsidies, and  
12 mandatory CCP access to proprietary data as part  
13 of business and commercial agreements between Chi-  
14 nese and foreign companies.

15 (14) The policies referred to in paragraph (13)  
16 are designed to freeze United States and other for-  
17 eign firms out of the PRC market, while eroding  
18 competition in other important markets. The heavy  
19 subsidization of Chinese companies includes poten-  
20 tial violation of its World Trade Organization com-  
21 mitments. In May 2018, General Secretary Xi said  
22 that the PRC aims to keep the “initiatives of inno-  
23 vation and development security \* \* \* in [China’s]  
24 own hands”.

1           (15) The PRC is advancing its global objectives  
2 through a variety of avenues, including its signature  
3 initiative, the Belt and Road Initiative (referred to  
4 in this subsection as “BRI”), which is enshrined in  
5 the Chinese Constitution and includes the Digital  
6 Silk Road and Health Silk Road. The PRC describes  
7 BRI as a straightforward and wholly beneficial plan  
8 for all countries. Eventually, it seeks to create a web  
9 of economic relations with the PRC at its center,  
10 making it the most concrete geographical represen-  
11 tation of the PRC’s global ambitions. BRI increases  
12 the economic influence of state-owned PRC firms in  
13 global markets, enhances the PRC’s political lever-  
14 age with government leaders around the world, and  
15 provides greater access to strategic nodes such as  
16 ports and railways. Through BRI, the PRC seeks  
17 political deference through economic dependence.

18           (16) The PRC is executing a plan to establish  
19 regional hegemony over the Indo-Pacific and dis-  
20 place the United States from the region. As a Pa-  
21 cific power, the United States has built and sup-  
22 ported enduring alliances and economic partnerships  
23 that secure peace and prosperity and promote the  
24 rule of law and political pluralism in a free and open  
25 Indo-Pacific. In contrast, the PRC uses economic

1 and military coercion in the region to secure its own  
2 interests.

3 (17) The PRC's military strategy seeks to keep  
4 the United States military from operating in the  
5 Western Pacific and erodes United States security  
6 guarantees.

7 (18) The PRC is aggressively pursuing exclu-  
8 sive control of critical land routes, sea lanes, and air  
9 space in the Indo-Pacific in the hopes of eventually  
10 exercising greater influence beyond the region. This  
11 includes lanes crucial to commercial activity, energy  
12 exploration, transport, and the exercise of security  
13 operations in areas permitted under international  
14 law.

15 (19) The PRC seeks so-called "reunification"  
16 with Taiwan through whatever means may ulti-  
17 mately be required. The CCP's insistence that so-  
18 called "reunification" is Taiwan's only option makes  
19 this goal inherently coercive. In January 2019, Gen-  
20 eral Secretary Xi stated that the PRC "make[s] no  
21 promise to renounce the use of force and reserve[s]  
22 the option of taking all necessary means". Taiwan's  
23 embodiment of democratic values and economic lib-  
24 eralism challenges General Secretary Xi's goal of  
25 achieving national rejuvenation. The PRC plans to

1 exploit Taiwan’s dominant strategic position in the  
2 First Island Chain and to project power into the  
3 Second Island Chain and beyond.

4 (20) In the South China Sea, the PRC has exe-  
5 cuted an illegal island-building campaign that  
6 threatens freedom of navigation and the free-flow of  
7 commerce, damages the environment, bolsters the  
8 PLA power projection capabilities, and coerces and  
9 intimidates other regional claimants in an effort to  
10 advance its unlawful claims and control the waters  
11 around neighboring countries. Despite General Sec-  
12 retary Xi’s September 2015 speech, in which he said  
13 the PRC was not militarizing the South China Sea,  
14 during the 2017 19th Party Congress, General Sec-  
15 retary Xi announced that “construction on islands  
16 and reefs in the South China Sea have seen steady  
17 progress”.

18 (21) The PRC is rapidly modernizing the PLA  
19 to attain a level of capacity and capability superior  
20 to the United States in terms of equipment and con-  
21 duct of modern military operations by shifting its  
22 military doctrine from having a force “adequate  
23 [for] China’s defensive needs” to having a force  
24 “commensurate with China’s international status”.  
25 Ultimately, this transformation could enable China

1 to impose its will in the Indo-Pacific region through  
2 the threat of military force. In 2017, General Sec-  
3 retary Xi established the following developmental  
4 benchmarks for the advancement of the PLA:

5 (A) A mechanized force with increased  
6 informatized and strategic capabilities by 2020.

7 (B) The complete modernization of China's  
8 national defense by 2035.

9 (C) The full transformation of the PLA  
10 into a world-class force by 2050.

11 (22) The PRC's strategy and supporting poli-  
12 cies described in this subsection undermine United  
13 States interests, such as—

14 (A) upholding a free and open inter-  
15 national order;

16 (B) maintaining the integrity of inter-  
17 national institutions with liberal norms and val-  
18 ues;

19 (C) preserving a favorable balance of  
20 power in the Indo-Pacific;

21 (D) ensuring the defense of its allies;

22 (E) preserving open sea and air lanes;

23 (F) fostering the free flow of commerce  
24 through open and transparent markets; and

1 (G) promoting individual freedom and  
2 human rights.

3 (23) The global COVID–19 pandemic has in-  
4 tensified and accelerated these trends in the PRC’s  
5 behavior and therefore increased the need for United  
6 States global leadership and a competitive posture.  
7 The PRC has capitalized on the world’s focus on the  
8 COVID–19 pandemic by—

9 (A) moving rapidly to undermine Hong  
10 Kong’s autonomy, including imposing a so-  
11 called “national security law” on Hong Kong;

12 (B) aggressively imposing its will in the  
13 East and South China Seas;

14 (C) increasing its territorial aggression in  
15 South Asia, including against India; and

16 (D) engaging in a widespread and govern-  
17 ment-directed disinformation campaign to ob-  
18 scure the PRC Government’s efforts to cover up  
19 the seriousness of COVID–19, sow confusion  
20 about the origination of the outbreak, and dis-  
21 credit the United States, its allies, and global  
22 health efforts.

23 (24) The CCP’s disinformation campaign re-  
24 ferred to in paragraph (23)(D) has included—

1 (A) concerted efforts, in the early days of  
2 the pandemic, to downplay the nature and  
3 scope of the outbreak in Wuhan in the PRC, as  
4 well as cases of person-to-person transmission;

5 (B) claims that the virus originated in  
6 United States biological defense research at  
7 Fort Detrick, Maryland;

8 (C) Chinese state media reports insinu-  
9 ating a possible link between the virus and  
10 other United States biological facilities; and

11 (D) efforts to block access to qualified  
12 international infectious disease experts who  
13 might contradict the CCP's narrative.

14 (25) In response to the PRC's strategy and  
15 policies, the United States must adopt a policy of  
16 strategic competition with the PRC to protect and  
17 promote our vital interests and values.

18 (26) The United States policy of strategic com-  
19 petition with respect to the People's Republic of  
20 China is part of a broader strategic approach to the  
21 Indo-Pacific and the world that aligns with coopera-  
22 tion with United States allies and partners to ad-  
23 vance shared values and interests and to preserve  
24 and enhance a free, open, democratic, inclusive,  
25 rules-based, stable, and diverse region.

1           (27) The Asia Reassurance Initiative Act of  
2           2018 (Public Law 115–409) contributed to a com-  
3           prehensive framework for promoting United State  
4           security interests, economic interests, and values in  
5           the Indo-Pacific region, investing \$7,500,000,000  
6           over 5 years—

7                   (A) to support greater security and defense  
8                   cooperation between the United States and al-  
9                   lies and partners in the Indo-Pacific region;

10                   (B) to advance democracy and the protec-  
11                   tion and promotion of human rights in the  
12                   Indo-Pacific region;

13                   (C) to enhance cybersecurity cooperation  
14                   between the United States and partners in the  
15                   Indo-Pacific;

16                   (D) to deepen people-to-people engagement  
17                   through programs such as the Young Southeast  
18                   Asian Leaders Initiative and the ASEAN Youth  
19                   Volunteers program; and

20                   (E) to enhance energy cooperation and en-  
21                   ergy security in the Indo-Pacific region.

22 **SEC. 30003. STATEMENT OF POLICY.**

23           (a) OBJECTIVES.—It is the policy of the United  
24           States to pursue the following objectives:

1           (1) The United States global leadership role is  
2           sustained and its political system and major founda-  
3           tions of national power are secured for the long-term  
4           in the political, economic, technological, and military  
5           domains.

6           (2) The United States position as an indispen-  
7           sable power in the Indo-Pacific and globally is sus-  
8           tained through diplomacy, multilateralism, and en-  
9           gagement.

10          (3) The United States deters military con-  
11          frontation with the PRC and both nations work to  
12          reduce the risk of conflict.

13          (4) The United States and its allies maintain a  
14          stable balance of power in the Indo-Pacific with  
15          China. The United States and its allies maintain un-  
16          fettered access to the region, including through free-  
17          dom of navigation, consistent with international law  
18          and practice.

19          (5) The allies and partners of the United  
20          States—

21                 (A) maintain confidence in United States  
22                 leadership and its commitment to the Indo-Pa-  
23                 cific region;

24                 (B) can withstand and combat subversion  
25                 by the PRC; and

1           (C) work closely with the United States in  
2           setting global rules, norms, and standards that  
3           benefit the international community.

4           (6) The combined economic and military  
5           strength of the United States and its allies and part-  
6           ners demonstrates to the PRC that the risks of at-  
7           tempts to dominate other states outweigh the poten-  
8           tial benefits.

9           (7) The United States leads the free, open, and  
10          rules-based international order, which comprises re-  
11          silient states and institutions that uphold and defend  
12          principles, such as sovereignty, rule of law, indi-  
13          vidual freedom, and human rights. The international  
14          order is strong enough to withstand attempts at de-  
15          stabilization by illiberal and authoritarian actors.

16          (8) The key rules, norms, and standards of  
17          international engagement in the 21st century are  
18          maintained, including—

19                 (A) the protection of human rights, com-  
20                 mercial engagement and investment, and tech-  
21                 nology; and

22                 (B) that such rules, norms, and standards  
23                 are in alignment with the values and interests  
24                 of the United States, its allies and partners,

1           and other stakeholders in the liberal inter-  
2           national order.

3           (9) The United States counters attempts by the  
4           PRC to—

5                   (A) undermine open and democratic soci-  
6           eties;

7                   (B) distort global markets;

8                   (C) coerce other nations via economic,  
9           cyber, and military means; or

10                   (D) use its technological advantages to un-  
11           dermine individual freedoms or other states' na-  
12           tional security interests.

13           (10) The United States deters military con-  
14           frontation with the PRC and both nations work to  
15           reduce the risk of conflict.

16           (b) POLICY.—It is the policy of the United States,  
17           in pursuit of the objectives set forth in subsection (a)—

18                   (1) to strengthen the United States domestic  
19           foundation by reinvesting in market-based economic  
20           growth, education, scientific and technological inno-  
21           vation, democratic institutions, and other areas that  
22           improve the ability of the United States to pursue  
23           its vital economic, foreign policy, and national secu-  
24           rity interests;

1           (2) to pursue a strategy of strategic competition  
2           with the PRC in the political, diplomatic, economic,  
3           development, security, informational, and techno-  
4           logical realms to maximize the United States'  
5           strengths and increase the costs for the PRC of  
6           harming the interests and values of the United  
7           States and its partners and allies;

8           (3) to lead a free, open, and secure inter-  
9           national system characterized by the rule of law,  
10          open markets and the free flow of commerce, and a  
11          shared commitment to security and peaceful resolu-  
12          tion of disputes, human rights, good and transparent  
13          governance, freedom from coercion, and a unified re-  
14          sponse to the threat of climate change;

15          (4) to strengthen and deepen United States alli-  
16          ances and partnerships by pursuing greater bilateral  
17          and multilateral cooperative initiatives that advance  
18          shared interests and values and bolster partner  
19          countries' confidence that the United States is and  
20          will remain a strong, committed, and reliable partner  
21          that respects the views and interests of its allies and  
22          friends;

23          (5) to encourage and collaborate with United  
24          States allies and partners in boosting their own ca-  
25          pabilities and resiliency to pursue, defend, and pro-

1 tect shared interests and values, free from coercion  
2 and external pressure;

3 (6) to pursue fair, reciprocal treatment and  
4 healthy, constructive competition in United States-  
5 China economic relations by improving United  
6 States laws and regulations as necessary to prevent  
7 any PRC attempts to harm United States economic  
8 competitiveness;

9 (7) to demonstrate the value of private sector-  
10 led growth in emerging markets around the world,  
11 including through the use of United States Govern-  
12 ment tools that—

13 (A) support greater private sector invest-  
14 ment and advance capacity-building initiatives  
15 that are grounded in the rule of law;

16 (B) promote open markets;

17 (C) establish clear policy and regulatory  
18 frameworks;

19 (D) improve the management of key eco-  
20 nomic sectors;

21 (E) combat corruption;

22 (F) foster and support greater collabora-  
23 tion with and among partner countries and the  
24 United States private sector to develop secure  
25 and sustainable infrastructure; and

1 (G) support American workers and create  
2 American jobs;

3 (8) to conduct vigorous commercial diplomacy  
4 in support of United States companies and busi-  
5 nesses in partner countries that seek fair competi-  
6 tion;

7 (9) to ensure that the United States is second  
8 to none in the innovation of critical and emerging  
9 technologies, such as next-generation telecommuni-  
10 cations, artificial intelligence, quantum computing,  
11 semiconductors, and biotechnology, by—

12 (A) providing necessary investment and  
13 concrete incentives for the private sector to ac-  
14 celerate development of such technologies;

15 (B) modernizing export controls and in-  
16 vestment screening regimes and associated poli-  
17 cies and regulations;

18 (C) enhancing the role of the United  
19 States in technical standards-setting bodies;

20 (D) reducing United States barriers and  
21 increasing incentives for collaboration with al-  
22 lies and partners on the research and co-devel-  
23 opment of critical technologies;

24 (E) collaborating with allies and partners  
25 to protect critical technologies by—

- 1 (i) coordinating and aligning export  
2 control measures;
- 3 (ii) building capacity for defense tech-  
4 nology security;
- 5 (iii) safeguarding chokepoints in stra-  
6 tegically critical supply chains; and
- 7 (iv) ensuring diversification; and
- 8 (F) designing major defense capabilities  
9 for export to vetted allies and partners;
- 10 (10) to collaborate with like-minded democ-  
11 racies and other willing partners to promote ideals  
12 and principles that—
- 13 (A) advance a free and open international  
14 order;
- 15 (B) strengthen democratic institutions;
- 16 (C) protect and promote human rights;
- 17 and
- 18 (D) uphold a free press and fact-based re-  
19 porting;
- 20 (11) to develop comprehensive strategies and  
21 policies to counter PRC disinformation campaigns;
- 22 (12) to demonstrate effective leadership at the  
23 United Nations, its associated agencies, and other  
24 multilateral organizations and ensure the integrity

1 and effectiveness of these organizations in facili-  
2 tating solutions to global challenges;

3 (13) to advocate for the defense of fundamental  
4 freedoms and human rights in the United States re-  
5 lationship with the PRC;

6 (14) to cooperate with allies, partners, and mul-  
7 tilateral organizations that sustain and strengthen a  
8 free and open order and address regional and global  
9 challenges posed by the Government of the PRC re-  
10 garding—

11 (A) violations and abuses of human rights;

12 (B) restrictions on religious practices; and

13 (C) the undermining and abrogation of  
14 treaties, other international agreements, and  
15 other international norms related to human  
16 rights;

17 (15) to expose the PRC's use of corruption, re-  
18 pression, and coercion to attain unfair economic ad-  
19 vantages or compel other nations to defer to its po-  
20 litical and strategic objectives in ways that threaten  
21 the United States or its allies and partners;

22 (16) to maintain United States access to the  
23 Western Pacific, including through necessary invest-  
24 ments in United States military capabilities, policies,  
25 and concepts in the Indo-Pacific, as well as robust

1 cooperation, exercises, and interoperability with al-  
2 lies and partners;

3 (17) to deter the PRC from—

4 (A) initiating armed conflict;

5 (B) coercing nations; or

6 (C) using grey-zone tactics below the level  
7 of armed conflict;

8 (18) to strengthen United States-PRC military-  
9 to-military communication and improve both military  
10 and civilian crisis avoidance and management proce-  
11 dures to de-conflict operations and reduce the risk of  
12 unwanted conflict, including through high-level visits  
13 and recurrent exchanges between civilian and mili-  
14 tary officials and other measures, in alignment with  
15 United States interests; and

16 (19) to strengthen stability and reduce sus-  
17 picions, cooperate with the PRC when interests  
18 align, including through bilateral or multilateral  
19 means and at the United Nations, as appropriate,  
20 and especially in the following areas—

21 (A) global fight against climate change;

22 (B) nuclear security; and

23 (C) global financial stability.

1 **SEC. 30004. SENSE OF CONGRESS.**

2 (a) IN GENERAL.—It is the sense of Congress that  
3 the execution of the policy described in section 30003(b)  
4 requires the following actions:

5 (1) Revitalizing American leadership globally  
6 and in the Indo-Pacific will require the United  
7 States—

8 (A) to marshal sustained political will to  
9 protect its vital interests, promote its values,  
10 and advance its economic and national security  
11 objectives; and

12 (B) to achieve this sustained political will,  
13 persuade the American people and United  
14 States allies and partners of—

15 (i) the current challenges facing the  
16 international rules based order; and

17 (ii) the need for long-term invest-  
18 ments and engagement to defend shared  
19 interests and values.

20 (2) The United States must coordinate closely  
21 with allies and partners to compete effectively with  
22 the PRC, including to encourage allies and partners  
23 to assume, as appropriate, greater roles in balancing  
24 and checking aggressive PRC behavior.

25 (3) Effective United States strategy toward  
26 China requires—

1           (A) bipartisan cooperation within Con-  
2           gress; and

3           (B) frequent, sustained, and meaningful  
4           collaboration and consultation between the execu-  
5           tive branch and Congress.

6           (4) The United States must ensure close inte-  
7           gration among economic and foreign policymakers  
8           and provide support to the private sector, civil soci-  
9           ety, universities and academic institutions, and other  
10          relevant actors in free and open societies to enable  
11          such actors—

12           (A) to collaborate to advance common in-  
13          terests; and

14           (B) to identify appropriate policies—

15           (i) to strengthen the United States  
16          and its allies; and

17           (ii) to promote a compelling vision of  
18          a free and open order.

19          (5) The United States must ensure that all  
20          Federal departments, agencies, and overseas mis-  
21          sions are organized and resourced to effectively de-  
22          fend and advance United States interests, by—

23           (A) dedicating more personnel in the Indo-  
24          Pacific region, at posts around the world, and  
25          in Washington, DC;

1 (B) placing greater numbers of foreign  
2 service officers, international development pro-  
3 fessionals, members of the foreign commercial  
4 service, intelligence professionals, and other  
5 United States Government personnel in the  
6 Indo-Pacific region; and

7 (C) ensuring that this workforce has the  
8 training, demonstrated proficiency in language  
9 and culture, technical skills, and other com-  
10 petencies required to advance a successful strat-  
11 egy in relation to the PRC.

12 (6) The United States must place renewed pri-  
13 ority and emphasis on strengthening the nonmilitary  
14 instruments of national power, including diplomacy,  
15 information, technology, economics, foreign assist-  
16 ance and development finance, commerce, intel-  
17 ligence, and law enforcement, which are crucial for  
18 addressing the challenges posed by the PRC.

19 (7) The United States must sustain military ca-  
20 pabilities necessary to achieve United States political  
21 objectives in the Indo-Pacific, including—

22 (A) promoting regional security in the  
23 Indo-Pacific;

24 (B) reassuring allies and partners while  
25 protecting them from coercion; and

1 (C) deterring PRC aggression and pre-  
2 venting unwanted conflict.

3 (8) Competition with the PRC requires skillful  
4 adaptation to the information environment of the  
5 21st century. United States public diplomacy and  
6 messaging efforts must effectively—

7 (A) promote the value of partnership with  
8 the United States; and

9 (B) counter CCP propaganda and  
10 disinformation that threatens United States in-  
11 terests.

12 (9) The United States must ensure key environ-  
13 mental, energy management, labor, and social re-  
14 sponsibility standards are maintained across the  
15 technology supply chain, including—

16 (A) prohibitions on human trafficking and  
17 fundamental rights outlined in the International  
18 Labor Organization (ILO) Declaration on the  
19 Fundamental Principles and Rights at Work  
20 and as defined by the ILO Conventions; and

21 (B) that such rules, norms, and standards  
22 are in alignment with the values and interests  
23 of the United States, its allies and partners,  
24 and other stakeholders in the liberal inter-  
25 national order.

1 (b) FURTHER SENSE.—It is further the sense of Con-  
2 gress that—

3 (1) it is in the national interest for the United  
4 States to become a formal signatory of the United  
5 Nations Convention on the Law of the Sea  
6 (UNCLOS), done at Montego Bay, Jamaica, Decem-  
7 ber 10, 1982; and

8 (2) the ratification of the UNCLOS remains a  
9 top priority of the United States Navy and the  
10 United States Coast Guard, the importance of which  
11 was most recently underscored by the strategic chal-  
12 lenges the United States faces in the Asia-Pacific,  
13 the Arctic, and the Black Sea regions.

14 **SEC. 30005. RULES OF CONSTRUCTION.**

15 (a) APPLICABILITY OF EXISTING RESTRICTIONS ON  
16 ASSISTANCE TO FOREIGN SECURITY FORCES.—Nothing  
17 in this division shall be construed to diminish, supplant,  
18 supersede, or otherwise restrict or prevent responsibilities  
19 of the United States Government under section 620M of  
20 the Foreign Assistance Act of 1961 (22 U.S.C. 2378d)  
21 or section 362 of title 10, United States Code.

22 (b) NO AUTHORIZATION FOR THE USE OF MILITARY  
23 FORCE.—Nothing in this division may be construed as au-  
24 thorizing the use of military force.

1           **TITLE I—INVESTING IN**  
2           **AMERICAN COMPETITIVENESS**  
3           **Subtitle A—Science and**  
4           **Technology**

5   **SEC. 30101. AUTHORIZATION TO ASSIST UNITED STATES**  
6                   **COMPANIES WITH GLOBAL SUPPLY CHAIN DI-**  
7                   **VERSIFICATION AND MANAGEMENT.**

8           (a) **AUTHORIZATION TO CONTRACT SERVICES.**—The  
9 Secretary of State, in coordination with the Secretary of  
10 Commerce, is authorized to establish a program to facili-  
11 tate the contracting by the Department of State for the  
12 professional services of qualified experts, on a reimburs-  
13 able fee for service basis, to assist interested United States  
14 persons and business entities with supply chain manage-  
15 ment issues related to the People’s Republic of China  
16 (PRC), including—

17                   (1) exiting from the PRC market or relocating  
18 certain production facilities to locations outside the  
19 PRC;

20                   (2) diversifying sources of inputs, and other ef-  
21 forts to diversify supply chains to locations outside  
22 of the PRC;

23                   (3) navigating legal, regulatory, or other chal-  
24 lenges in the course of the activities described in  
25 paragraphs (1) and (2); and

1           (4) identifying alternative markets for produc-  
2           tion or sourcing outside of the PRC, including  
3           through providing market intelligence, facilitating  
4           contact with reliable local partners as appropriate,  
5           and other services.

6           (b) CHIEF OF MISSION OVERSIGHT.—The persons  
7           contracted to perform the services described in subsection  
8           (a) shall—

9           (1) be under the authority of the United States  
10          Chief of Mission in the country in which they are  
11          hired, in accordance with existing United States  
12          laws;

13          (2) coordinate with Department of State and  
14          Department of Commerce officers; and

15          (3) coordinate with United States missions and  
16          relevant local partners in other countries as needed  
17          to carry out the services described in subsection (a).

18          (c) PRIORITIZATION OF MICRO-, SMALL-, AND ME-  
19          DIUM-SIZED ENTERPRISES.—The services described in  
20          subsection (a) shall be prioritized for assisting micro-,  
21          small-, and medium-sized enterprises with regard to the  
22          matters described in subsection (a).

23          (d) AUTHORIZATION OF APPROPRIATIONS.—There is  
24          authorized to be appropriated \$15,000,000 for each of fis-

1 cal years 2022 through 2026 for the purposes of carrying  
2 out this section.

3 (e) PROHIBITION ON ACCESS TO ASSISTANCE BY  
4 FOREIGN ADVERSARIES.—None of the funds appropriated  
5 pursuant to this section may be provided to an entity—

6 (1) under the foreign ownership, control, or in-  
7 fluence of the Government of the PRC or the CCP,  
8 or other foreign adversary;

9 (2) determined to have beneficial ownership  
10 from foreign individuals subject to the jurisdiction,  
11 direction, or influence of foreign adversaries; and

12 (3) that has any contract in effect at the time  
13 of the receipt of such funds, or has had a contract  
14 within the previous one year that is no longer in ef-  
15 fect, with—

16 (A) the Government of the PRC;

17 (B) the CCP;

18 (C) the PLA;

19 (D) an entity majority-owned, majority-  
20 controlled, or majority-financed by the Govern-  
21 ment of the PRC, the CCP, or the PLA; or

22 (E) a parent, subsidiary, or affiliate of an  
23 entity described in subparagraph (D).

24 (f) DEFINITIONS.—The terms “foreign ownership,  
25 control, or influence” and “FOCI” have the meanings

1 given to those terms in part 117 of title 32, Code of Fed-  
2 eral Regulations, or a successor document.

3 **SEC. 30102. REPORT ON NATIONAL TECHNOLOGY AND IN-**  
4 **DUSTRIAL BASE.**

5 (a) SENSE OF CONGRESS.—It is the sense of Con-  
6 gress that—

7 (1) a more streamlined, shared, and coordinated  
8 approach, which leverages economies of scale with  
9 major allies, is necessary for the United States to re-  
10 tain its lead in defense technology;

11 (2) allowing for the export, re-export, or trans-  
12 fer of defense-related technologies and services to  
13 members of the national technology and industrial  
14 base (as defined in section 2500 of title 10, United  
15 States Code) would advance United States security  
16 interests by helping to leverage the defense-related  
17 technologies and skilled workforces of trusted allies  
18 to reduce the dependence on other countries, includ-  
19 ing countries that pose challenges to United States  
20 interests around the world, for defense-related inno-  
21 vation and investment; and

22 (3) it is in the interest of the United States to  
23 continue to increase cooperation with Australia,  
24 Canada, and the United Kingdom of Great Britain  
25 and Northern Ireland to protect critical defense-re-

1       lated technology and services and leverage the in-  
2       vestments of like-minded, major ally nations in order  
3       to maximize the strategic edge afforded by defense  
4       technology innovation.

5       (b) REPORT.—

6           (1) IN GENERAL.—Not later than 90 days after  
7       the date of the enactment of this Act, the Secretary  
8       of State shall submit a report to the Committee on  
9       Foreign Relations of the Senate and the Committee  
10      on Foreign Affairs of the House of Representatives,  
11      the Committees on Armed Services of the Senate  
12      and the House of Representatives, the Permanent  
13      Select Committee on Intelligence of the House of  
14      Representatives and the Select Committee on Intel-  
15      ligence of the Senate, and any other appropriate  
16      congressional committees that—

17           (A) describes the Department of State's ef-  
18      forts to facilitate access among the national  
19      technology and industrial base to defense arti-  
20      cles and services subject to the United States  
21      Munitions List under section 38(a)(1) of the  
22      Arms Export Control Act (22 U.S.C.  
23      2778(a)(1)); and

24           (B) identifies foreign legal, regulatory, for-  
25      eign policy, or other challenges or consider-

1           ations that prevent or frustrate these efforts, to  
2           include any gaps in the respective export con-  
3           trol regimes implemented by United Kingdom  
4           of Great Britain and Northern Ireland, Aus-  
5           tralia, or Canada.

6           (2) FORM.—This report required under para-  
7           graph (1) shall be unclassified, but may include a  
8           classified annex.

9           **Subtitle B—Global Infrastructure**  
10           **and Energy Development**

11           **SEC. 30111. APPROPRIATE COMMITTEES OF CONGRESS DE-**  
12           **FINED.**

13           In this subtitle, the term “appropriate committees of  
14 Congress” means—

15           (1) the Committee on Foreign Relations and  
16           the Committee on Appropriations of the Senate; and

17           (2) the Committee on Foreign Affairs and the  
18           Committee on Appropriations of the House of Rep-  
19           resentatives.

20           **SEC. 30112. SENSE OF CONGRESS ON INTERNATIONAL**  
21           **QUALITY INFRASTRUCTURE INVESTMENT**  
22           **STANDARDS.**

23           (a) SENSE OF CONGRESS ON COLLABORATIVE  
24 STANDARDS.—It is the sense of Congress that the United  
25 States should initiate collaboration among governments,

1 the private sector, and civil society to encourage the adop-  
2 tion of the standards for quality global infrastructure de-  
3 velopment advanced by the G20 at Osaka in 2018, includ-  
4 ing with respect to the following issues:

5 (1) Respect for the sovereignty of countries in  
6 which infrastructure investments are made.

7 (2) Anti-corruption.

8 (3) Rule of law.

9 (4) Human rights and labor rights.

10 (5) Fiscal and debt sustainability.

11 (6) Social and governance safeguards.

12 (7) Transparency.

13 (8) Environmental and energy standards.

14 (b) SENSE OF CONGRESS ON COMMITMENT TO CO-  
15 OPERATION.—It is the sense of Congress that the United  
16 States should launch a series of fora around the world  
17 showcasing the commitment of the United States and  
18 partners of the United States to high-quality development  
19 cooperation, including with respect to the issues described  
20 in subsection (a).

21 **SEC. 30113. SUPPORTING ECONOMIC INDEPENDENCE FROM**  
22 **THE PEOPLE’S REPUBLIC OF CHINA.**

23 (a) FINDING.—It is in the national interest of the  
24 United States to establish a coordinated interagency strat-  
25 egy to marshal the resources of the United States Govern-

1 ment to provide foreign countries with financing that  
2 strengthens independent economic capacity and therefore  
3 reduces a foreign government's need to enter into agree-  
4 ments with the People's Republic of China (PRC), includ-  
5 ing to obtain support from its Belt and Road Initiative.

6 (b) STRATEGY.—

7 (1) AUTHORITY.—Not later than 180 days  
8 after the date of the enactment of this Act, the  
9 President shall develop and submit a strategy to the  
10 relevant congressional committees to use the re-  
11 sources of Federal agencies to counteract offers of  
12 assistance and financing from the PRC to foreign  
13 governments that are of strategic importance to the  
14 United States.

15 (2) COMPONENTS OF STRATEGY.—The strategy  
16 shall—

17 (A) identify primary sectors where the  
18 United States could provide a competitive ad-  
19 vantage to increase a country's economic inde-  
20 pendence;

21 (B) select countries with corresponding  
22 economic needs, with priority given to those  
23 who are vulnerable to Chinese economic influ-  
24 ence;

1 (C) identify any corresponding existing fi-  
2 nancing available from United States Govern-  
3 ment entities to prioritize and devise specific fi-  
4 nancing tailored to the needs of such foreign  
5 governments if none are currently available;

6 (D) identify any cooperative and com-  
7 plementary assistance and financing from  
8 friendly foreign governments, including coordi-  
9 nated assistance and co-financing;

10 (E) create a streamlined decision-making  
11 process, directed by the National Security  
12 Council, to devise financing and make agency  
13 decisions and commitments on a timely basis to  
14 support United States competitive offers;

15 (F) establish a formal G7+European Com-  
16 mission Working Group to develop a com-  
17 prehensive strategy to develop alternatives to  
18 the PRC's Belt and Road Initiative for develop-  
19 ment finance; and

20 (G) integrate existing efforts into the  
21 strategy, including efforts to address the Gov-  
22 ernment of the PRC's use of the United Na-  
23 tions to advance the Belt and Road Initiative,  
24 including the proliferation of memoranda of un-  
25 derstanding between the PRC and United Na-

1           tions funds and programs regarding the imple-  
2           mentation of the Belt and Road Initiative.

3           (3) PARTICIPATING AGENCIES.—Participating  
4           Federal agencies should include the Department of  
5           State, Department of the Treasury, United States  
6           Agency for International Development (USAID),  
7           United States International Development Finance  
8           Corporation, Millennium Challenge Corporation,  
9           United States Trade and Development Agency, De-  
10          partment of Commerce, the Office of the Director of  
11          National Intelligence, and other Federal depart-  
12          ments and agencies as appropriate.

13          (4) EXECUTION OF STRATEGY.—The President  
14          should issue an Executive order to implement the  
15          strategy and make such changes in agency regula-  
16          tions and procedures as are necessary to put the  
17          strategy into effect.

18          (5) RELEVANT CONGRESSIONAL COMMIT-  
19          TEES.—In this section, the term “relevant congress-  
20          sional committees” means—

21                 (A) the Committee on Appropriations, the  
22                 Committee on Foreign Affairs, the Committee  
23                 on Financial Services, and the Permanent Se-  
24                 lect Committee on Intelligence of the House of  
25                 Representatives; and

1 (B) the Committee on Appropriations, the  
2 Committee on Foreign Relations, the Com-  
3 mittee on Banking, Housing, and Urban Af-  
4 fairs, and the Select Committee on Intelligence  
5 of the Senate.

6 (c) AUTHORITY.—The Secretary of State, in coordi-  
7 nation with the Administrator of the USAID, is author-  
8 ized to establish or continue an initiative, to be known as  
9 the “Infrastructure Transaction and Assistance Net-  
10 work”, under which the Secretary of State, in consultation  
11 with other relevant Federal agencies, including those rep-  
12 resented on the Global Infrastructure Coordinating Com-  
13 mittee, may carry out various programs to advance the  
14 development of sustainable, transparent, and high-quality  
15 infrastructure worldwide in the Indo-Pacific region by—

16 (1) strengthening capacity-building programs to  
17 improve project evaluation processes, regulatory and  
18 procurement environments, and project preparation  
19 capacity of countries that are partners of the United  
20 States in such development;

21 (2) providing transaction advisory services and  
22 project preparation assistance to support sustainable  
23 infrastructure; and

24 (3) coordinating the provision of United States  
25 assistance for the development of infrastructure, in-

1 including infrastructure that uses United States man-  
2 ufactured goods and services, and catalyzing invest-  
3 ment led by the private sector.

4 (d) TRANSACTION ADVISORY FUND.—As part of the  
5 “Infrastructure Transaction and Assistance Network” de-  
6 scribed under subsection (c), the Secretary of State is au-  
7 thorized to provide support, including through the Trans-  
8 action Advisory Fund, for advisory services to help boost  
9 the capacity of partner countries to evaluate contracts and  
10 assess the financial and environmental impacts of poten-  
11 tial infrastructure projects, including through providing  
12 services such as—

- 13 (1) legal services;
- 14 (2) project preparation and feasibility studies;
- 15 (3) debt sustainability analyses;
- 16 (4) bid or proposal evaluation; and
- 17 (5) other services relevant to advancing the de-  
18 velopment of sustainable, transparent, and high-  
19 quality infrastructure.

20 (e) STRATEGIC INFRASTRUCTURE FUND.—

21 (1) IN GENERAL.—As part of the “Infrastruc-  
22 ture Transaction and Assistance Network” described  
23 under subsection (c), the Secretary of State is au-  
24 thorized to provide support, including through the  
25 Strategic Infrastructure Fund, for technical assist-

1       ance, project preparation, pipeline development, and  
2       other infrastructure project support.

3               (2)    JOINT    STRATEGIC    INFRASTRUCTURE  
4       PROJECTS.—Funds authorized for the Strategic In-  
5       frastructure Fund should be used in coordination  
6       with the Department of Defense, the International  
7       Development Finance Corporation, like-minded  
8       donor partners, and multilateral banks, as appro-  
9       priate, to support joint infrastructure projects that  
10      are in the national security interest of the United  
11      States and vulnerable to strategic competitors.

12      (f) AUTHORIZATION OF APPROPRIATIONS.—There is  
13      authorized to be appropriated, for each of fiscal years  
14      2022 to 2026, \$75,000,000 to the Infrastructure Trans-  
15      action and Assistance Network, of which \$20,000,000  
16      should be made available for the Transaction Advisory  
17      Fund.

18   **SEC. 30114. STRATEGY FOR ADVANCED AND RELIABLE EN-**  
19                           **ERGY INFRASTRUCTURE.**

20      (a) IN GENERAL.—The President shall direct a com-  
21      prehensive, multi-year, whole of government effort, in con-  
22      sultation with the private sector, to counter predatory  
23      lending and financing, including in the form of providing  
24      support to companies incorporated in the People’s Repub-  
25      lic of China (PRC) that engage in such activities, by the

1 Government of the PRC in the energy sectors of devel-  
2 oping countries.

3 (b) POLICY.—It is the policy of the United States  
4 to—

5 (1) regularly evaluate current and forecasted  
6 energy needs and capacities of developing countries,  
7 and analyze the presence and involvement of PRC  
8 state-owned industries and other companies incor-  
9 porated in the PRC, Chinese nationals providing  
10 labor, and financing of energy projects, including di-  
11 rect financing by the PRC government, PRC finan-  
12 cial institutions, or direct state support to state-  
13 owned enterprises and other companies incorporated  
14 in the PRC;

15 (2) pursue strategic support and investment op-  
16 portunities, and diplomatic engagement on power  
17 sector reforms, to expand the development and de-  
18 ployment of advanced energy technologies in devel-  
19 oping countries;

20 (3) offer financing, loan guarantees, grants,  
21 and other financial products on terms that advance  
22 domestic economic and local employment opportuni-  
23 ties, utilize advanced energy technologies, encourage  
24 private sector growth, and, when appropriate United  
25 States equity and sovereign lending products as al-

1        alternatives to the predatory lending tools offered by  
2        Chinese financial institutions;

3            (4) pursue partnerships with likeminded inter-  
4        national financial and multilateral institutions to le-  
5        verage investment in advanced energy technologies  
6        in developing countries; and

7            (5) pursue bilateral partnerships focused on the  
8        cooperative development of advanced energy tech-  
9        nologies with countries of strategic significance, par-  
10      ticularly in the Indo-Pacific region, to address the  
11      effects of energy engagement by the PRC through  
12      predatory lending or other actions that negatively  
13      impact other countries.

14      (c) **ADVANCED ENERGY TECHNOLOGIES EXPORTS.**—

15      Not later than 180 days after the date of the enactment  
16      of this Act, and annually thereafter for 5 years, the Sec-  
17      retary of State, in consultation with the Secretary of En-  
18      ergy, shall submit to the appropriate committees of Con-  
19      gress a United States Government strategy to increase  
20      United States exports of advanced energy technologies  
21      to—

22            (1) improve energy security in allied and devel-  
23      oping countries;

24            (2) create open, efficient, rules-based, and  
25      transparent energy markets;

1           (3) improve free, fair, and reciprocal energy  
2 trading relationships; and

3           (4) expand access to affordable, reliable energy.

4 **SEC. 30115. REPORT ON THE PEOPLE'S REPUBLIC OF CHI-**  
5 **NA'S INVESTMENTS IN FOREIGN ENERGY DE-**  
6 **VELOPMENT.**

7           (a) IN GENERAL.—No later than 180 days after the  
8 date of the enactment of this Act, and annually thereafter  
9 for 5 years, the Secretary of State shall submit to the ap-  
10 propriate committees of Congress (including the Perma-  
11 nent Select Committee on Intelligence of the House of  
12 Representatives and the Select Committee on Intelligence  
13 of the Senate) a report that—

14           (1) identifies priority countries for deepening  
15 United States engagement on energy matters, in ac-  
16 cordance with the economic and national security in-  
17 terests of the United States and where deeper en-  
18 ergy partnerships are most achievable;

19           (2) describes the involvement of the Govern-  
20 ment of the People's Republic of China (PRC) and  
21 companies incorporated in the PRC in the develop-  
22 ment, operation, financing, or ownership of energy  
23 generation facilities, transmission infrastructure, or  
24 energy resources in the countries identified in para-  
25 graph (1);

1           (3) evaluates strategic or security concerns and  
2           implications for United States national interests and  
3           the interests of the countries identified in paragraph  
4           (1), with respect to the PRC's involvement and in-  
5           fluence in developing country energy production or  
6           transmission; and

7           (4) outlines current and planned efforts by the  
8           United States to partner with the countries identi-  
9           fied in paragraph (1) on energy matters that sup-  
10          port shared interests between the United States and  
11          such countries.

12          (b) PUBLICATION.—The assessment required in sub-  
13          section (a) shall be published on the Department of State's  
14          website.

15     **SEC. 30116. REPORT ON FOREIGN INVESTMENT IN THE AG-**  
16                     **RICULTURE SECTOR OF THE UNITED STATES.**

17          (a) IN GENERAL.—Not later than 90 days after the  
18          date of the enactment of this Act, and annually thereafter  
19          for 10 years, the Secretary of State, in consultation with  
20          the Secretary of Agriculture, shall submit to Congress a  
21          report on foreign investment in the agriculture sector of  
22          the United States and the impact of such investment on  
23          the national security of the United States.

24          (b) PRIORITY.—In preparing the report required by  
25          subsection (a), the Secretaries shall prioritize investment

1 by the People’s Republic of China in the agriculture sector  
2 of the United States.

3 **Subtitle C—Economic Diplomacy**  
4 **and Leadership**

5 **SEC. 30121. FINDINGS ON REGIONAL ECONOMIC ORDER.**

6 Congress makes the following findings:

7 (1) The United States played a leadership role  
8 in constructing the architecture, rules, and norms  
9 governing the international economic order following  
10 the Second World War, yielding decades of domestic  
11 economic and geopolitical prosperity and stability.

12 (2) It is in the United States’ vital interest to  
13 upgrade its economic engagement and leadership in  
14 the Indo-Pacific and develop concrete steps to  
15 strengthen its commercial diplomacy to fully par-  
16 ticipate in the region’s economic dynamism.

17 **SEC. 30122. REPORT ON ENTRENCHING AMERICAN ECO-**  
18 **NOMIC DIPLOMACY IN THE INDO-PACIFIC.**

19 (a) SENSE OF CONGRESS.—It is the sense of Con-  
20 gress that United States national interests and the pri-  
21 macy of United States power in the Indo-Pacific are inti-  
22 mately tied to the following economic objectives:

23 (1) Confirming American leadership and par-  
24 ticipation in global regional economic organizations  
25 and fora, including the Asia-Pacific Economic Co-

1 operation (APEC) and the World Trade Organiza-  
2 tion (WTO).

3 (2) Building secure and resilient supply chains  
4 for industries critical for United States national in-  
5 terest, including semiconductors, vaccines, and per-  
6 sonal protective equipment.

7 (3) Showcasing the benefits and appeal of a  
8 market-based economic model.

9 (b) REPORTING.—Not later than 180 days after the  
10 date of the enactment of this Act, the Secretary of State,  
11 in coordination with the United States Trade Representa-  
12 tive and the Secretary of Commerce, shall submit a report  
13 to the appropriate committees of Congress that presents  
14 the steps the United States is taking and plans to take  
15 to achieve the objectives outlined in subsection (a) and in-  
16 cludes specific action plans for the following:

17 (1) Reenergizing APEC as a critical component  
18 of the region's economic architecture.

19 (2) Working with allies and partners to build  
20 resilient and trusted supply chains especially for  
21 critical and emerging technologies, including semi-  
22 conductors, and products and components critical  
23 for national health, including vaccines and related  
24 materials and personal protective equipment.

1 (c) APPROPRIATE COMMITTEES OF CONGRESS DE-  
2 FINED.—In this section, the term “appropriate commit-  
3 tees of Congress” means—

4 (1) the Committee on Foreign Relations, the  
5 Committee on Banking, Housing and Urban Affairs,  
6 and the Committee on Finance of the Senate; and

7 (2) the Committee on Foreign Affairs, the  
8 Committee on Energy and Commerce, and the Com-  
9 mittee on Ways and Means of the House of Rep-  
10 resentatives.

11 **SEC. 30123. SENSE OF CONGRESS ON THE NEED TO BOL-**  
12 **STER AMERICAN LEADERSHIP IN THE ASIA**  
13 **PACIFIC ECONOMIC COOPERATION.**

14 It is the sense of Congress that—

15 (1) the United States has benefitted from the  
16 regional economic integration agenda of the Asia Pa-  
17 cific Economic Cooperation (APEC) forum since its  
18 inception in 1989;

19 (2) APEC is a hub of commerce for 21 member  
20 economies that, as of 2018, accounted for 60 percent  
21 of global GDP and 48 percent of global trade;

22 (3) APEC has contributed to the economic  
23 growth in the region and enhanced access to global  
24 value chains, while raising the profile of critical top-

1       ics such as fair trade, sustainability, gender parity,  
2       and inclusive growth;

3               (4) it is in the United States interest to engage  
4       and lead at APEC to push for an open and inclusive  
5       regional economy that benefits United States work-  
6       ers, consumers, and businesses and better integrates  
7       the United States economy with others in the region;

8               (5) when the United States last hosted APEC  
9       in 2011, it was able to promote United States inter-  
10      ests, while reassuring allies and partners about its  
11      strong commitment to the region in the economic  
12      arena;

13              (6) today, APEC can again be used as a forum  
14      to make progress on several United States priorities,  
15      that are shared by United States allies and partners,  
16      including—

17                      (A) making regional commerce more inclu-  
18                      sive;

19                      (B) fostering innovation and digitization;  
20                      and

21                      (C) addressing climate change and environ-  
22                      mental protection;

23              (7) hosting APEC would provide a tremendous  
24      opportunity to leverage American leadership to  
25      shape the regional economic agenda;

1           (8) hosting APEC would allow the United  
2 States to advance several of its own priorities in the  
3 region, including to—

4           (A) expand the participation of APEC  
5 stakeholders to include labor groups, environ-  
6 mental advocates, and other part of civil soci-  
7 ety;

8           (B) upgrade APEC’s work to empower and  
9 promote small and medium enterprises;

10          (C) spotlight best practices and plans to  
11 upgrade skills for the next-generation of tech-  
12 nology jobs;

13          (D) advance a climate and sustainable  
14 trade and development agenda with a focus on  
15 green technologies, infrastructure and finance;  
16 and

17          (E) advance work on digital issues; and

18           (9) with no host confirmed for 2023, the United  
19 States should immediately announce its interest to  
20 host APEC in 2023 and work with the APEC Secre-  
21 tariat and like-minded APEC members to build sup-  
22 port.

1 **SEC. 30124. TASK FORCE TO COUNTER CHINA'S ECONOMIC**  
2 **COERCION.**

3 (a) SENSE OF CONGRESS.—It is the sense of Con-  
4 gress that—

5 (1) the People's Republic of China's (PRC) in-  
6 creasing use of economic coercion against foreign  
7 governments, companies, organizations, other enti-  
8 ties, and individuals requires that the United States  
9 better understand these measures in order to devise  
10 a comprehensive, effective, and multilateral response;

11 (2) the private sector is a crucial partner in  
12 helping the United States Government understand  
13 the PRC's coercive economic measures and hold the  
14 PRC accountable, and that additional business  
15 transparency would help the United States Govern-  
16 ment and private sector stakeholders conduct early  
17 assessments of potential pressure points and  
18 vulnerabilities; and

19 (3) PRC coercive economic measures create  
20 pressures for the private sector to behave in ways  
21 antithetical to United States national interests and  
22 competitiveness.

23 (b) ESTABLISHMENT OF TASK FORCE.—Not later  
24 than 180 days after the date of the enactment of this Act,  
25 the President shall establish an interagency task force to

1 be known as the “Countering Economic Coercion Task  
2 Force” (referred to in this section as the “Task Force”).

3 (c) DUTIES.—

4 (1) IN GENERAL.—The Task Force shall—

5 (A) oversee the development and imple-  
6 mentation of an integrated United States Gov-  
7 ernment strategy to respond to People’s Repub-  
8 lic of China (PRC) coercive economic measures,  
9 which shall include—

10 (i) systematically monitoring and eval-  
11 uating—

12 (I) the costs of such measures on  
13 United States businesses and overall  
14 United States economic performance;

15 (II) instances in which such  
16 measures taken against a non-PRC  
17 entity has benefitted other parties;  
18 and

19 (III) the impacts such measures  
20 have had on United States national  
21 interests; and

22 (ii) facilitating coordination among  
23 Federal departments and agencies when  
24 responding to such measures as well as  
25 proactively deterring such economic coer-

1            cion; including by clarifying the roles for  
2            departments and agencies identified in  
3            subsection (d) in implementing the strat-  
4            egy;

5            (B) consult with United States allies and  
6            partners on the feasibility and desirability of  
7            collectively identifying, assessing, and respond-  
8            ing to PRC coercive economic measures, as well  
9            as actions that could be taken to expand coordi-  
10          nation with the goal of ensuring a consistent,  
11          coherent, and collective response to such meas-  
12          ures and establishing long-term deterrence to  
13          such measures;

14          (C) effectively engage the United States  
15          private sector, particularly sectors, groups, or  
16          other entities that are susceptible to such PRC  
17          coercive economic measures, on concerns related  
18          to such measures; and

19          (D) develop and implement a process for  
20          regularly sharing relevant information, includ-  
21          ing classified information to the extent appro-  
22          priate and practicable, on such PRC coercive  
23          economic measures with United States allies,  
24          partners, and the private sector.

1           (2) CONSULTATION.—In carrying out its duties  
2 under this subsection, the Task Force should regu-  
3 larly consult, to the extent necessary and appro-  
4 priate, with the following:

5           (A) Relevant stakeholders in the private  
6 sector.

7           (B) Federal departments and agencies that  
8 are not represented on the Task Force.

9           (C) United States allies and partners.

10       (d) MEMBERSHIP.—The President shall—

11           (1) appoint the chair of the Task Force from  
12 among the staff of the National Security Council;

13           (2) appoint the vice chair of the Task Force  
14 from among the staff of the National Economic  
15 Council; and

16           (3) direct the head of each of the following Fed-  
17 eral departments and agencies to appoint personnel  
18 at the level of Assistant Secretary or above to par-  
19 ticipate in the Task Force:

20           (A) The Department of State.

21           (B) The Department of Commerce.

22           (C) The Department of the Treasury.

23           (D) The Department of Justice.

24           (E) The Office of the United States Trade  
25 Representative.

1 (F) The Department of Agriculture.

2 (G) The Office of the Director of National  
3 Intelligence and other appropriate elements of  
4 the intelligence community (as defined in sec-  
5 tion 3 of the National Security Act of 1947 (50  
6 U.S.C. 3003)).

7 (H) The Securities and Exchange Commis-  
8 sion.

9 (I) The United States International Devel-  
10 opment Finance Corporation.

11 (J) Any other department or agency des-  
12 ignated by the President.

13 (e) REPORTS.—

14 (1) INITIAL REPORT.—Not later than one year  
15 after the date of the enactment of this Act, the Task  
16 Force shall submit to the appropriate congressional  
17 committees a report that includes the following ele-  
18 ments:

19 (A) A comprehensive review of the array of  
20 economic tools the Government of the People's  
21 Republic of China (PRC) employs or could em-  
22 ploy in the future to coerce other governments,  
23 non-PRC companies (including United States  
24 companies), and multilateral institutions and  
25 organizations, including the Government of the

1 PRC's continued efforts to codify informal  
2 practices into its domestic law.

3 (B) The strategy required by subsection  
4 (c)(1)(A).

5 (C) An interagency definition of PRC coer-  
6 cive economic measures that captures both—

7 (i) the use of informal or extralegal  
8 PRC coercive economic measures; and

9 (ii) the illegitimate use of formal eco-  
10 nomic tools.

11 (D) A comprehensive review of the array of  
12 economic and diplomatic tools the United  
13 States Government employs or could employ to  
14 respond to economic coercion against the  
15 United States and United States allies and  
16 partners.

17 (E) A list of unilateral or multilateral—

18 (i) proactive measures to defend or  
19 deter against PRC coercive economic meas-  
20 ures; and

21 (ii) actions taken in response to the  
22 Government of the PRC's general use of  
23 coercive economic measures, including the  
24 imposition of reputational costs on the  
25 PRC.

1 (F) An assessment of areas in which  
2 United States allies and partners are vulnerable  
3 to PRC coercive economic measures.

4 (G) A description of gaps in existing re-  
5 sources or capabilities for United States Gov-  
6 ernment departments and agencies to respond  
7 effectively to PRC coercive economic measures  
8 directed at United States entities and assist  
9 United States allies and partners in their re-  
10 sponses to PRC coercive economic measures.

11 (H) An analysis of the circumstances  
12 under which the PRC employs different types of  
13 economic coercion and against what kinds of  
14 targets.

15 (I) An assessment, as appropriate, of inter-  
16 national norms and regulations as well as any  
17 treaty obligations the PRC has stretched, cir-  
18 cumvented, or broken through its economically  
19 coercive practices.

20 (2) INTERIM REPORTS.—

21 (A) FIRST INTERIM REPORT.—Not later  
22 than one year after the date on which the re-  
23 port required by paragraph (1) is submitted to  
24 the appropriate congressional committees, the  
25 Task Force shall submit to the appropriate con-

1           gressional committees a report that includes the  
2           following elements:

3                   (i) Updates to information required by  
4                   subparagraphs (A) through (G) of para-  
5                   graph (1).

6                   (ii) A description of activities con-  
7                   ducted by the Task Force to implement  
8                   the strategy required by subsection  
9                   (c)(1)(A).

10                  (iii) An assessment of the implemen-  
11                  tation and effectiveness of the strategy,  
12                  lessons learned from the past year and  
13                  planned changes to the strategy.

14                  (B) SECOND INTERIM REPORT.—Not later  
15                  than one year after the date on which the re-  
16                  port required by subparagraph (A) is submitted  
17                  to the appropriate congressional committees,  
18                  the Task Force shall submit to the appropriate  
19                  congressional committees a report that includes  
20                  an update to the elements required under the  
21                  report required by subparagraph (A).

22                  (3) FINAL REPORT.—Not later than 30 days  
23                  after the date on which the report required by para-  
24                  graph (2)(B) is submitted to the appropriate con-  
25                  gressional committees, the Task Force shall submit

1 to the appropriate congressional committees and also  
2 make available to the public on the website of the  
3 Executive Office of the President a final report that  
4 includes the following elements:

5 (A) An analysis of PRC coercive economic  
6 measures and the cost of such coercive meas-  
7 ures to United States businesses.

8 (B) A description of areas of possible vul-  
9 nerability for United States businesses and  
10 businesses of United States partners and allies.

11 (C) Recommendations on how to continue  
12 the effort to counter PRC coercive economic  
13 measures, including through further coordina-  
14 tion with United States allies and partners.

15 (D) A list of cases made public under sub-  
16 section (f).

17 (4) FORM.—

18 (A) INITIAL AND INTERIM REPORTS.—The  
19 reports required by paragraphs (1), (2)(A), and  
20 (2)(B) shall be submitted in unclassified form,  
21 but may include a classified annex.

22 (B) FINAL REPORT.—The report required  
23 by paragraph (3) shall be submitted in unclassi-  
24 fied form, but may include a classified annex.

25 (f) PUBLICLY AVAILABLE LIST.—

1           (1) IN GENERAL.—Not later than 120 days  
2 after the date of the enactment of this Act, the Task  
3 Force shall to the extent practicable make available  
4 to the public on the website of the Executive Office  
5 of the President a list of cases in the past six  
6 months in which open source reporting indicates  
7 that the PRC has directed coercive economic meas-  
8 ures against a non-PRC entity.

9           (2) UPDATES.—The list required by paragraph  
10 (1) should be updated every 180 days, and shall be  
11 managed by the Department of State after the ter-  
12 mination of the Task Force under subsection (g).

13 (g) SUNSET.—

14           (1) IN GENERAL.—The Task Force shall termi-  
15 nate at the end of the 60-day period beginning on  
16 the date on which the final report required by sub-  
17 section (e)(3) is submitted to the appropriate con-  
18 gressional committees and made publicly available.

19           (2) ADDITIONAL ACTIONS.—The Task force  
20 may use the 60-day period referred to in paragraph  
21 (1) for the purposes of concluding its activities, in-  
22 cluding providing testimony to Congress concerning  
23 the final report required by subsection (e)(3).

24 (h) DEFINITIONS.—In this section:

1           (1) APPROPRIATE CONGRESSIONAL COMMIT-  
2           TEES.—The term “appropriate congressional com-  
3           mittees” means—

4                   (A) the Committee on Foreign Affairs of  
5           the House of Representatives; and

6                   (B) the Committee on Foreign Relations of  
7           the Senate.

8           (2) COERCIVE ECONOMIC MEASURES.—The  
9           term “coercive economic measures” includes formal  
10          or informal restrictions or conditions, such as on  
11          trade, investment, development aid, and financial  
12          flows, intended to impose economic costs on a non-  
13          People’s Republic of China target in order to achieve  
14          strategic political objectives, including influence over  
15          the policy decisions of a foreign government, com-  
16          pany, organization, or individual.

17 **SEC. 30125. SENSE OF CONGRESS ON DIGITAL TECH-**  
18 **NOLOGY ISSUES.**

19          (a) LEADERSHIP IN INTERNATIONAL STANDARDS  
20          SETTING.—It is the sense of Congress that the United  
21          States must lead in international bodies that set the gov-  
22          ernance norms and rules for critical digitally enabled tech-  
23          nologies in order to ensure that these technologies operate  
24          within a free, secure, interoperable, and stable digital do-  
25          main.

1 (b) COUNTERING DIGITAL AUTHORITARIANISM.—It  
2 is the sense of Congress that the United States, along with  
3 allies and partners, should lead an international effort to  
4 combat the expanding use of information and communica-  
5 tions technology products and services to surveil, repress,  
6 and manipulate populations (also known as “digital  
7 authoritarianism”).

8 (c) FREEDOM OF INFORMATION IN THE DIGITAL  
9 AGE.—It is the sense of Congress that the United States  
10 should lead a global effort to ensure that freedom of infor-  
11 mation, including the ability to safely consume or publish  
12 information without fear of undue reprisals, is maintained  
13 as the digital domain becomes an increasingly integral  
14 mechanism for communication.

15 (d) EFFORTS TO ENSURE TECHNOLOGICAL DEVEL-  
16 OPMENT DOES NOT THREATEN DEMOCRATIC GOVERN-  
17 ANCE OR HUMAN RIGHTS.—It is the sense of Congress  
18 that the United States should lead a global effort to de-  
19 velop and adopt a set of common principles and standards  
20 for critical technologies to ensure that the use of such  
21 technologies cannot be abused by malign actors, whether  
22 they are governments or other entities, and that they do  
23 not threaten democratic governance or human rights.

24 **SEC. 30126. DIGITAL DIALOGUE AND COOPERATION.**

25 It is the sense of Congress that—

1           (1) as the COVID–19 pandemic accelerated  
2           United States dependence on digital tools, inter-  
3           national rules around digital rules have remained  
4           largely piecemeal; and

5           (2) the People’s Republic of China is operating  
6           under and advancing a set of digital rules that are  
7           contrary to United States values and interests, and  
8           those of United States allies and partners.

9   **SEC. 30127. DIGITAL CONNECTIVITY AND CYBERSECURITY**  
10                           **PARTNERSHIP.**

11           (a) **DIGITAL CONNECTIVITY AND CYBERSECURITY**  
12   **PARTNERSHIP.**—The President is authorized to establish  
13   a program, to be known as the “Digital Connectivity and  
14   Cybersecurity Partnership” to help foreign countries—

15           (1) expand and increase secure Internet access  
16           and digital infrastructure;

17           (2) promote and protect human rights and  
18           counter corruption and predatory behavior through-  
19           out communications and cybersecurity policy and im-  
20           plementation;

21           (3) guard against privacy abuses, cybercrime,  
22           disinformation and misinformation, and the use of  
23           digital technology and services to carry out criminal  
24           activity or human rights violations;

1           (4) bolster the role of civil society in informing  
2           ICT policy and regulations;

3           (5) promote exports of United States ICT  
4           goods and services and increase United States com-  
5           pany market share in target markets;

6           (6) promote the innovation and diversification  
7           of ICT goods and supply chain services to be less re-  
8           liant on imports from the People's Republic of  
9           China;

10          (7) build cybersecurity capacity, expand inter-  
11          operability, and promote best practices for a national  
12          approach to cybersecurity; and

13          (8) enhance the security of their digital infra-  
14          structure to facilitate better information sharing  
15          with the United States and United States allies and  
16          partners, as appropriate.

17          (b) IMPLEMENTATION PLAN.—Not later than 180  
18          days after the date of the enactment of this Act, the Sec-  
19          retary of State and the Administrator of the United States  
20          Agency for International Development, in consultation  
21          with the United States Trade Representative and the Na-  
22          tional Cyber Director, shall jointly submit to the appro-  
23          priate congressional committees an implementation plan  
24          for the 3-year period beginning on the date of the submis-  
25          sion of the plan to advance the goals identified in sub-

1 section (a). The implementation plan shall also include a  
2 description of interagency responsibilities to carry out im-  
3 plementation, a description of any barriers to successful  
4 implementation, and a description of any additional re-  
5 sources or authorities needed for successful implementa-  
6 tion.

7 (c) CONSULTATION.—In developing the implementa-  
8 tion plan required by subsection (b), the Secretary of State  
9 and the Administrator of the United States Agency for  
10 International Development shall consult with—

- 11 (1) the appropriate congressional committees;
- 12 (2) the Committee on Ways and Means, the  
13 Committee on Oversight and Reform, and the Per-  
14 manent Select Committee on Intelligence of the  
15 House of Representatives;
- 16 (3) the Committee on Finance, the Committee  
17 on Homeland Security and Governmental Affairs,  
18 and the Select Committee on Intelligence of the Sen-  
19 ate;
- 20 (4) leaders of the United States industry;
- 21 (5) civil society leaders with expertise in tech-  
22 nology, telecommunications, cybersecurity, economic  
23 development and competitiveness, and human rights,  
24 including from the Open Technology Fund;

1           (6) representatives from relevant United States  
2       Government agencies; and

3           (7) representatives from like-minded allies and  
4       partners.

5       (d) **AUTHORIZATION OF APPROPRIATIONS.**—There is  
6       authorized to be appropriated such sums as necessary for  
7       each of fiscal years 2022 through 2026 to carry out this  
8       section.

9       **SEC. 30128. SENSE OF CONGRESS ON IDEOLOGICAL COM-**  
10                                   **PETITION.**

11       It is the sense of Congress that National Security Ad-  
12       visor Jake Sullivan correctly observed that the United  
13       States and likeminded democracies are in an ideological  
14       competition with the People’s Republic of China, under  
15       the direction and control of the Chinese Communist Party,  
16       when he stated, “China is essentially making the case that  
17       the Chinese model is better than the American model \*  
18       \* \* \* This is not any longer some kind of implied contrast.  
19       It is an explicit statement that there is an alternative  
20       model to the democratic market economy model that the  
21       United States has been advancing over the course of dec-  
22       ades.”.

1 **SEC. 30129. REPORT ON COOPERATION BETWEEN CHINA**  
2 **AND UNITED ARAB EMIRATES.**

3 (a) REQUIREMENT.—Not later than 60 days after the  
4 date of the enactment of this Act, the Director of National  
5 Intelligence, in consultation with the heads of elements of  
6 the intelligence community that the Director determines  
7 appropriate, shall submit to the congressional intelligence  
8 committees a report containing the following:

9 (1) Details on the cooperation between China  
10 and the United Arab Emirates regarding defense,  
11 security, technology, and other strategically sensitive  
12 matters that implicate the national security interests  
13 of the United States.

14 (2) The most recent, as of the date of the re-  
15 port, quarterly assessment by the intelligence com-  
16 munity of measures that the United Arab Emirates  
17 has implemented to safeguard technology of the  
18 United States and the reliability of any assurances  
19 by the United Arab Emirates (with respect to both  
20 current assurances and assurances being considered  
21 as of the date of the report).

22 (3) A certification by the Director regarding  
23 whether such assurances described in paragraph (2)  
24 are viable and sufficient to protect technology of the  
25 United States from being transferred to China or  
26 other third parties.

1 (b) FORM.—The report under subsection (a) may be  
2 submitted in classified form, but if so submitted shall in-  
3 clude an unclassified executive summary.

4 (c) DEFINITIONS.—In this section, the terms “intel-  
5 ligence community” and “congressional intelligence com-  
6 mittees” have the meanings given such terms in section  
7 3 of the National Security Act of 1947 (50 U.S.C. 3003).

8 **SEC. 30129A. AUTHORIZATION TO HIRE ADDITIONAL STAFF**  
9 **FOR THE OFFICE OF FOREIGN ASSET CON-**  
10 **TROL OF THE DEPARTMENT OF THE TREAS-**  
11 **URY.**

12 The Secretary of the Treasury, acting through the  
13 Director of the Office of Foreign Assets Control, is au-  
14 thorized to hire an additional 10 full-time employees to  
15 carry out activities of the Office associated with the Peo-  
16 ple’s Republic of China.

17 **Subtitle D—Financial Diplomacy**  
18 **and Leadership**

19 **SEC. 30131. FINDINGS ON CHINESE FINANCIAL INDUSTRIAL**  
20 **POLICY.**

21 Congress makes the following findings:

22 (1) The People’s Republic of China operates a  
23 system of state-owned financial institutions including  
24 retail banks, investment banks, asset managers, and  
25 insurers which are given favorable treatment under

1 Chinese law while foreign financial institutions have  
2 strict restrictions on their ability to operate in the  
3 PRC.

4 (2) In order to join the World Trade Organiza-  
5 tion (WTO) in 2001, the PRC Government com-  
6 mitted to opening the credit card payment business  
7 to foreign firms by 2006.

8 (3) The PRC continues to maintain aggressive  
9 capital controls, limiting access to the Chinese mar-  
10 ket to foreign investors while hamstringing its own  
11 citizens ability to control their money.

12 (4) On November 5, 2018, Chinese President  
13 Xi Jinping announced that the PRC would launch a  
14 technology innovation stock exchange. The Shanghai  
15 Stock Exchange STAR Market launched on July 22,  
16 2019.

17 (5) On October 24, 2020, Chinese billionaire  
18 Jack Ma referred to “pawnshop mentality” of state-  
19 owned banks. Shortly thereafter, the initial public  
20 offering of his firm Ant Financial was canceled by  
21 Chinese regulators.

22 (6) The PRC Government is pioneering the use  
23 of a fully digitized yuan, which is set to be the  
24 world’s first central bank backed digital currency,  
25 and the People’s Bank of China and the Hong Kong

1 Monetary Authority have already begun testing the  
2 cross-border functionality of the digital currency.

3 **SEC. 30132. REPORT ON IMPORTANCE OF AMERICAN FINAN-**  
4 **CIAL STRENGTH FOR GLOBAL LEADERSHIP.**

5 (a) SENSE OF CONGRESS.—It is the sense of Con-  
6 gress that—

7 (1) the dominance of the dollar as the global re-  
8 serve currency has yielded significant benefits to the  
9 United States and the American people by allowing  
10 the United States to maintain economic independ-  
11 ence, better control its monetary policy, and finance  
12 government outlays;

13 (2) American global leadership has benefited  
14 from the United States monetary stability, credit-  
15 worthiness, deep capital markets, and financial tech-  
16 nology innovations;

17 (3) effective diplomacy and safeguarding of  
18 American national security rely on the United States  
19 role as the global financial leader, hub of global  
20 trade, and source of economic opportunity;

21 (4) by cracking down on dissent in the key fi-  
22 nancial center of Hong Kong, driving the creation of  
23 a technology focused stock exchange, and pushing  
24 forward a Central Bank digital currency, the Peo-

1        ple’s Republic of China is attempting to become the  
2        leading hub of finance in the world; and

3            (5) the United States must maintain its posi-  
4        tion as a global financial leader to continue its  
5        broader global leadership role around the world.

6        (b) REPORT.—Not later than 180 days after the date  
7        of the enactment of this Act, the Secretary of State, in  
8        coordination with the Secretary of the Treasury, shall sub-  
9        mit to the appropriate committees of Congress a report  
10       that—

11            (1) lists and examines the benefits to American  
12        foreign policy that derive from the United States fi-  
13        nancial leadership and the dollar’s status as the  
14        world’s global reserve currency;

15            (2) describes the actions taken by the People’s  
16        Republic of China that could cement China’s role as  
17        the world’s leading financial center;

18            (3) analyzes the possible impact on American  
19        national security and foreign policy were the yuan to  
20        supplant the dollar as the world’s leading reserve  
21        currency;

22            (4) outlines how the United States can work  
23        diplomatically with allies, partners, and other na-  
24        tions to preserve a financial system that is free,  
25        open, and fair; and

1           (5) identifies steps the United States can take  
2           to preserve its status as the world’s leading financial  
3           center and maintain the dollar’s position as the glob-  
4           al reserve currency.

5           (c) APPROPRIATE COMMITTEES OF CONGRESS DE-  
6 FINED.—In this section, the term “appropriate commit-  
7 tees of Congress” means—

8           (1) the Committee on Foreign Affairs, the  
9           Committee on Financial Services, the Committee on  
10          Ways and Means, and the Permanent Select Com-  
11          mittee on Intelligence of the House of Representa-  
12          tives; and

13          (2) the Committee on Foreign Relations, the  
14          Committee on Banking, Housing, and Urban Af-  
15          fairs, the Committee on Finance, and the Select  
16          Committee on Intelligence of the Senate.

17 **SEC. 30133. REVIEW OF CHINESE COMPANIES ON UNITED**  
18 **STATES CAPITAL MARKETS.**

19          (a) REPORT.—

20           (1) IN GENERAL.—Not later than 180 days  
21           after the date of the enactment of this Act, the Sec-  
22           retary of the Treasury, in consultation with the Sec-  
23           retary of State and in consultation with and with  
24           support from the Securities and Exchange Commis-  
25           sion, shall submit a report to the Committees on Fi-

1 nancial Services, Foreign Affairs, and the Perma-  
2 nent Select Committee on Intelligence of the House  
3 of Representatives and the Committees on Banking,  
4 Housing, and Urban Affairs, Foreign Relations, and  
5 the Select Committee on Intelligence of the Senate  
6 that describes the capital raising activities in the  
7 United States of companies incorporated in the PRC  
8 and companies incorporated outside PRC that pre-  
9 dominantly invest in companies incorporated in the  
10 PRC. The report should discuss risks to the United  
11 States national security posed by the capital raising  
12 activities of these companies.

13 (2) MATTERS TO BE INCLUDED.—The report  
14 shall—

15 (A) identify companies that—

16 (i) are incorporated in the PRC that  
17 issue registered securities or are listed or  
18 traded on one or several stock exchanges  
19 within the United States, including  
20 through the use of American depository re-  
21 cepts, variable interest entity structures,  
22 over-the-counter market, or “A Shares”, or  
23 are otherwise added to indexes and ex-  
24 change-traded funds out of mainland ex-  
25 changes in the PRC;

1 (ii) are incorporated in the PRC that  
2 issue unregistered securities within the  
3 United States;

4 (iii) are incorporated outside of PRC  
5 but predominantly invest in companies in-  
6 corporated within the PRC, including com-  
7 panies that raise capital through the var-  
8 ious exemptions available under the securi-  
9 ties laws of the United States; or

10 (iv) based on the factors for consider-  
11 ation described in paragraph (3), have  
12 knowingly and materially contributed to—

13 (I) activities that undermine  
14 United States national security;

15 (II) serious abuses of internation-  
16 ally recognized human rights; or

17 (III) a substantially increased fi-  
18 nancial risk exposure for United  
19 States-based investors;

20 (B) describe the activities of the companies  
21 identified pursuant to subparagraph (A), and  
22 their implications for the United States; and

23 (C) develop policy recommendations for the  
24 United States Government and State govern-

1           ments to address the risks posed by companies  
2           identified pursuant to subparagraph (A).

3           (3) FACTORS FOR INCLUSION OF A COMPANY.—

4           In completing the report under paragraph (1), the  
5           Secretary shall consider whether a company identi-  
6           fied pursuant to paragraph (2)(A)—

7                   (A) has materially contributed to the devel-  
8                   opment or manufacture, or sold or facilitated  
9                   procurement by the People’s Liberation Army,  
10                  of lethal military equipment or component parts  
11                  of such equipment;

12                  (B) has contributed to the construction  
13                  and militarization of features in the South  
14                  China Sea;

15                  (C) has been sanctioned by the United  
16                  States or has been determined to have con-  
17                  ducted business with sanctioned entities;

18                  (D) has engaged in an act or a series of  
19                  acts of intellectual property theft;

20                  (E) has engaged in corporate or economic  
21                  espionage;

22                  (F) has contributed to the proliferation of  
23                  nuclear or missile technology in violation of  
24                  United Nations Security Council resolutions or  
25                  United States sanctions;

1 (G) has contributed to the repression of re-  
2 ligious and ethnic minorities within the PRC,  
3 including in the Xinjiang Uyghur Autonomous  
4 Region or the Tibet Autonomous Region;

5 (H) has contributed to the development of  
6 technologies that enable censorship directed or  
7 directly supported by the Government of the  
8 PRC; and

9 (I) has contributed to other activities or  
10 behavior determined to be relevant by the Presi-  
11 dent.

12 (b) REPORT FORM.—The report required under this  
13 section shall be submitted in unclassified form.

14 (c) PUBLICATION.—The unclassified portion of the  
15 report required under this section shall be made accessible  
16 to the public online through relevant United States Gov-  
17 ernment websites.

18 **SEC. 30134. REPORT ON THE IMPLICATIONS OF CHANGES**  
19 **TO CROSS-BORDER PAYMENT AND FINAN-**  
20 **CIAL MESSAGING SYSTEMS.**

21 (a) REPORT.—

22 (1) IN GENERAL.—Not later than 180 days  
23 after the date of the enactment of this Act, the Sec-  
24 retary of the Treasury, in coordination with the Sec-  
25 retary of State, shall submit a report to the Commit-

1       tees on Financial Services and Foreign Affairs of  
2       the House of Representatives and the Committees  
3       on Banking, Housing, and Urban Affairs and For-  
4       eign Relations of the Senate on the implications of  
5       cross-border payment systems.

6               (2) MATTERS TO BE INCLUDED.—The report  
7       shall—

8                       (A) examine the benefits and concerns re-  
9                       lated to the use of the current cross-border pay-  
10                      ments system, including the messaging systems;

11                     (B) review and analyze ways in which the  
12                     Cross Border Interbank Payment Systems  
13                     (CIPS), cryptocurrencies, and foreign central  
14                     bank digital currencies could erode this system;  
15                     and

16                     (C) analyze how changes to global cross-  
17                     border payment systems could undermine  
18                     United States national security interests includ-  
19                     ing impacts on the efficacy of sanctions, the  
20                     countering of terrorist finance, and the enforce-  
21                     ment of anti-money laundering provisions.

22               (b) REPORT FORM.—The report required under sub-  
23       section (a)(1) shall be submitted in classified form.

1 **SEC. 30135. REPORT ON LINKS BETWEEN PRIVATE SECTOR**  
2 **CHINESE TECHNOLOGY AND SOCIAL MEDIA**  
3 **COMPANIES AND THE PEOPLE'S LIBERATION**  
4 **ARMY, CHINESE INTELLIGENCE, AND THE**  
5 **CHINESE COMMUNIST PARTY.**

6 (a) IN GENERAL.—The President shall prepare and  
7 submit to Congress a report on links between private sec-  
8 tor Chinese technology and social media companies and  
9 the People's Liberation Army, Chinese intelligence, and  
10 the Chinese Communist Party.

11 (b) MATTERS TO BE INCLUDED.—The report re-  
12 quired by subsection (a) shall include a discussion and  
13 analysis of—

14 (1) national security risks from illicit or coer-  
15 cive technology transfer;

16 (2) Chinese investment in private sector United  
17 States and allied nation technology companies in  
18 fields such as artificial intelligence, biotechnology,  
19 next-generation energy technology and other areas  
20 determined to be vital to the national security of the  
21 United States by Secretaries of Commerce, Energy,  
22 and Defense; and

23 (3) key technology focus areas (as such term is  
24 defined in section 20209(16) of this Act).

1 (c) FORM.—The report required by subsection (a)  
2 shall be submitted in unclassified form and made available  
3 to the public, but may contain a classified annex.

4 **TITLE II—INVESTING IN**  
5 **ALLIANCES AND PARTNERSHIPS**  
6 **Subtitle A—Strategic and**  
7 **Diplomatic Matters**

8 **SEC. 30201. APPROPRIATE COMMITTEES OF CONGRESS DE-**  
9 **FINED.**

10 In this subtitle, the term “appropriate committees of  
11 Congress” means—

12 (1) the Committee on Foreign Relations, the  
13 Committee on Armed Services, the Committee on  
14 Appropriations, and the Select Committee on Intel-  
15 ligence of the Senate; and

16 (2) the Committee on Foreign Affairs, the  
17 Committee on Armed Services, the Committee on  
18 Appropriations, and the Permanent Select Com-  
19 mittee on Intelligence of the House of Representa-  
20 tives.

21 **SEC. 30202. UNITED STATES COMMITMENT AND SUPPORT**  
22 **FOR ALLIES AND PARTNERS IN THE INDO-PA-**  
23 **CIFIC.**

24 (a) SENSE OF CONGRESS.—It is the sense of Con-  
25 gress that—

1           (1) the United States treaty alliances in the  
2 Indo-Pacific provide a unique strategic advantage to  
3 the United States and are among the Nation's most  
4 precious assets, enabling the United States to ad-  
5 vance its vital national interests, defend its territory,  
6 establish enduring cooperation with allies while seek-  
7 ing to establish new partnerships, prevent the domi-  
8 nation of the Indo-Pacific and its surrounding mari-  
9 time and air lanes by a hostile power or powers, and  
10 deter potential aggressors;

11           (2) the Governments of the United States,  
12 Japan, South Korea, Australia, the Philippines, and  
13 Thailand are critical allies in advancing a free and  
14 open order in the Indo-Pacific region and tackling  
15 challenges with unity of purpose, and have collabo-  
16 rated to advance specific efforts of shared interest in  
17 areas such as defense and security, infrastructure  
18 connectivity, and fundamental freedoms;

19           (3) the United States greatly values other part-  
20 nerships in the Indo-Pacific region, including with  
21 India, Singapore, Indonesia, Taiwan, New Zealand,  
22 and Vietnam, as well as its trilateral and quadrilat-  
23 eral dialogues, and regional architecture such as the  
24 Association of Southeast Asian Nations (ASEAN),

1 and the Asia-Pacific Economic Cooperation, which  
2 are essential to further shared interests;

3 (4) the security environment in the Indo-Pacific  
4 demands consistent United States and allied com-  
5 mitment to strengthening and advancing alliances so  
6 that they are postured to meet these challenges, and  
7 will require sustained political will, concrete partner-  
8 ships, economic, commercial, technological, and secu-  
9 rity cooperation, consistent and tangible commit-  
10 ments, high-level and extensive consultations on  
11 matters of mutual interest, mutual and shared co-  
12 operation in the acquisition of key capabilities im-  
13 portant to allied defenses, and unified mutual sup-  
14 port in the face of political, economic, or military co-  
15 ercion;

16 (5) fissures in the United States alliance rela-  
17 tionships and partnerships benefit United States ad-  
18 versaries and weaken the collective ability to advance  
19 shared interests;

20 (6) the United States must work with allies to  
21 prioritize human rights throughout the Indo-Pacific  
22 region;

23 (7) as the report released in August 2020 by  
24 the Expert Group of the International Military  
25 Council on Climate and Security (IMCCS), entitled

1 “Climate and Security in the Indo-Asia Pacific”  
2 noted, the Indo-Pacific region is one of the regions  
3 most vulnerable to climate impacts, and as former  
4 Deputy Under Secretary of Defense for Installations  
5 and Environment Sherri Goodman, Secretary Gen-  
6 eral of IMCCS, noted, climate shocks act as a threat  
7 multiplier in the Indo-Pacific region, increasing hu-  
8 manitarian response costs and impacting security  
9 throughout the region as sea levels rise, fishing pat-  
10 terns shift, food insecurity rises, and storms grow  
11 stronger and more frequent;

12 (8) the United State should continue to engage  
13 on and deepen cooperation with allies and partners  
14 of the United States in the Indo-Pacific region, as  
15 laid out in the Asia Reassurance Initiative Act (Pub-  
16 lic Law 115–409), in the areas of—

17 (A) forecasting environmental challenges;

18 (B) assisting with transnational coopera-  
19 tion on sustainable uses of forest and water re-  
20 sources with the goal of preserving biodiversity  
21 and access to safe drinking water;

22 (C) fisheries and marine resource conserva-  
23 tion; and

24 (D) meeting environmental challenges and  
25 developing resilience;

1           (9) the Secretary of State, in coordination with  
2 the Secretary of Defense and the Administrator of  
3 the United States Agency for International Develop-  
4 ment, should facilitate a robust interagency Indo-Pa-  
5 cific climate resiliency and adaptation strategy fo-  
6 cusing on internal and external actions needed—

7           (A) to facilitate regional early recovery,  
8 risk reduction, and resilience to weather-related  
9 impacts on strategic interests of the United  
10 States and partners and allies of the United  
11 States in the region; and

12           (B) to address humanitarian and food se-  
13 curity impacts of weather-related changes in the  
14 region; and

15           (10) ASEAN centrality and ASEAN-led mecha-  
16 nisms remain essential to the evolving institutional  
17 architecture of the Indo-Pacific region.

18           (b) STATEMENT OF POLICY.—It shall be the policy  
19 of the United States—

20           (1) to deepen diplomatic, economic, and secu-  
21 rity cooperation with and among United States allies  
22 in the Indo-Pacific, as appropriate, including  
23 through diplomatic engagement, regional develop-  
24 ment, energy security and development, scientific  
25 and health partnerships, educational and cultural ex-

1 changes, intelligence-sharing, and other diplomatic  
2 and defense-related initiatives;

3 (2) to uphold the United States multilateral  
4 and bilateral treaty obligations, including—

5 (A) defending Japan consistent with the  
6 Treaty of Mutual Cooperation and Security Be-  
7 tween the United States of America and Japan,  
8 done at Washington, January 19, 1960, and all  
9 related and subsequent bilateral security agree-  
10 ments and arrangements concluded on or before  
11 the date of enactment of this Act;

12 (B) defending the Republic of Korea con-  
13 sistent with the Mutual Defense Treaty Be-  
14 tween the United States and the Republic of  
15 Korea, done at Washington, October 1, 1953,  
16 and all related and subsequent bilateral security  
17 agreements and arrangements concluded on or  
18 before the date of enactment of this Act;

19 (C) defending the Philippines consistent  
20 with article IV of the Mutual Defense Treaty  
21 Between the United States and the Republic of  
22 the Philippines, done at Washington, August  
23 30, 1951, and all related and subsequent bilat-  
24 eral security agreements and arrangements con-

1           cluded on or before the date of enactment of  
2           this Act;

3           (D) defending Thailand consistent with the  
4           Southeast Asia Collective Defense Treaty (“Ma-  
5           nila Pact”), done at Manila, September 8,  
6           1954, understanding thereto the Thanat-Rusk  
7           communique of 1962, and all related and subse-  
8           quent bilateral security agreements and ar-  
9           rangements concluded on or before the date of  
10          enactment of this Act; and

11          (E) defending Australia consistent with the  
12          Security Treaty Between Australia and the  
13          United States of America, done at San Fran-  
14          cisco, September 1, 1951, and all related and  
15          subsequent bilateral security agreements and  
16          arrangements concluded on or before the date  
17          of enactment of this Act;

18          (3) to strengthen and deepen the United States’  
19          bilateral and regional partnerships, including with  
20          India, Taiwan, ASEAN, and New Zealand;

21          (4) to cooperate with allies and partners to pro-  
22          mote human rights across the Indo-Pacific region bi-  
23          laterally and through regional and multilateral fora  
24          and pacts;

1           (5) to strengthen and advance diplomatic, eco-  
2           nomic, and security cooperation with regional part-  
3           ners, such as Taiwan, Vietnam, Malaysia, Singapore,  
4           Indonesia, and India; and

5           (6) to collaborate and cooperate on the sustain-  
6           able development of the Mekong River Basin, includ-  
7           ing by providing support for environmental conserva-  
8           tion and protection initiatives in the Mekong sub-re-  
9           gion and through assistance to Cambodia, Laos,  
10          Thailand, and Vietnam, whose governments com-  
11          prise the Mekong River Commission (MRC). United  
12          States efforts should focus on increasing MRC mem-  
13          ber countries' capacity in the sustainable conserva-  
14          tion and management of natural resources.

15 **SEC. 30203. BOOSTING QUAD COOPERATION.**

16          (a) SENSE OF CONGRESS.—It is the sense of Con-  
17          gress that—

18               (1) as a Pacific power, the United States should  
19               continue to strengthen its cooperation with Aus-  
20               tralia, India, and Japan, (commonly referred to as  
21               the Quadrilateral Security Dialogue or “Quad”) to  
22               enhance and implement a shared vision to meet re-  
23               gional challenges and to promote a free, open, inclu-  
24               sive, resilient, and healthy Indo-Pacific, character-  
25               ized by respect for democratic norms, rule of law,

1 and market-driven economic growth, and that is free  
2 from undue influence and coercion;

3 (2) the United States should expand dialogue  
4 and cooperation through the Quad with a range of  
5 partners to support the rule of law, freedom of navi-  
6 gation and overflight, peaceful resolution of disputes,  
7 democratic values, and territorial integrity, and to  
8 uphold peace and prosperity and strengthen demo-  
9 cratic resilience in the Indo-Pacific;

10 (3) the recent pledge from the first-ever Quad  
11 leaders meeting on March 12, 2021, to respond to  
12 the economic and health impacts of COVID–19, in-  
13 cluding expanding safe, affordable, and effective vac-  
14 cine production and equitable access, and to address  
15 shared challenges, including in cyberspace, critical  
16 technologies, counterterrorism, quality infrastructure  
17 investment, and humanitarian assistance and dis-  
18 aster relief, as well as maritime domains, further ad-  
19 vances the important cooperation among Quad na-  
20 tions that is so critical to the Indo-Pacific region;

21 (4) building upon their announced commitment  
22 to finance 1,000,000,000 or more COVID–19 vac-  
23 cines by the end of 2022 for use in the Indo-Pacific  
24 region, the United States International Development  
25 Finance Corporation, the Japan International Co-

1 operation Agency, and the Japan Bank for Inter-  
2 national Cooperation, including through partnerships  
3 other multilateral development banks, should also  
4 venture to finance development and infrastructure  
5 projects in the Indo-Pacific region that are competi-  
6 tive, transparent, and sustainable;

7 (5) the United States should participate in the  
8 Resilient Supply Chain Initiative launched by Aus-  
9 tralia, Japan, and India in 2020, along with similar  
10 initiatives that relocate supply chains in the health,  
11 economic, and national security sectors to the  
12 United States, its Quad partners, and other like-  
13 minded countries; and

14 (6) the formation of a Quad Intra-Parliamen-  
15 tary Working Group could—

16 (A) sustain and deepen engagement be-  
17 tween senior officials of the Quad countries on  
18 a full spectrum of issues; and

19 (B) be modeled on the successful and long-  
20 standing bilateral intra-parliamentary groups  
21 between the United States and Mexico, Canada,  
22 and the United Kingdom, as well as other for-  
23 mal and informal parliamentary exchanges.

24 (b) REPORTING REQUIREMENT.—

1           (1) IN GENERAL.—Not later than 180 days  
2 after the date of the enactment of this Act, the Sec-  
3 retary of State shall submit to the appropriate con-  
4 gressional committees (including the Permanent Se-  
5 lect Committee on Intelligence of the House of Rep-  
6 resentatives and the Select Committee on Intel-  
7 ligence of the Senate) a strategy for bolstering en-  
8 gagement and cooperation with the Quad.

9           (2) MATTERS TO BE INCLUDED.—The strategy  
10 required by paragraph (1) shall include the fol-  
11 lowing:

12                   (A) A description of how the United States  
13 intends to demonstrate democratic leadership in  
14 the Indo-Pacific through quadrilateral engage-  
15 ment with India, Japan, and Australia on  
16 shared interests and common challenges.

17                   (B) A summary of—

18                           (i) current and past Quad initiatives  
19 across the whole of the United States Gov-  
20 ernment, including to promote broad based  
21 and inclusive economic growth and invest-  
22 ment, and to advance technology coopera-  
23 tion, energy innovation, climate mitigation  
24 and adaptation, physical and digital infra-

1 structure development, education, disaster  
2 management, and global health security;

3 (ii) proposals shared among Quad  
4 countries to deepen existing security co-  
5 operation, intelligence sharing, economic  
6 partnerships, and multilateral coordination;  
7 and

8 (iii) initiatives and agreements under-  
9 taken jointly with Quad countries, in addi-  
10 tion to other like-minded partners in the  
11 Indo-Pacific, on areas of shared interest.

12 (C) A description of efforts to jointly—

13 (i) expand ongoing COVID–19 co-  
14 operation to prepare for the next pandemic  
15 by focusing on medium-term vaccine and  
16 medical supply production and building a  
17 broader dialogue on global public health;

18 (ii) combat economic coercion, deepen  
19 regional economic engagement and integra-  
20 tion, and strengthen regional rules and  
21 standards around investment;

22 (iii) strengthen climate actions on  
23 mitigation, adaptation, resilience, tech-  
24 nology, capacity-building, and climate fi-  
25 nance;

1 (iv) facilitate the development of qual-  
2 ity infrastructure in the Indo-Pacific  
3 through joint financing, investment, tech-  
4 nical assistance, and standards setting;

5 (v) enhance joint maritime security  
6 and maritime domain awareness initiatives  
7 to protect the maritime commons and sup-  
8 port international law and freedom of navi-  
9 gation in the Indo-Pacific; and

10 (vi) develop international technology  
11 standards and share or co-develop new in-  
12 novative technologies of the future.

13 **SEC. 30204. ESTABLISHMENT OF QUAD INTRA-PARLIAMEN-**  
14 **TARY WORKING GROUP.**

15 (a) ESTABLISHMENT.—Not later than 30 days after  
16 the date of the enactment of this Act, the Secretary of  
17 State shall seek to enter into negotiations with the govern-  
18 ments of Japan, Australia, and India (collectively, with the  
19 United States, known as the “Quad”) with the goal of  
20 reaching a written agreement to establish a Quad Intra-  
21 Parliamentary Working Group to facilitate closer coopera-  
22 tion on shared interests and values.

23 (b) UNITED STATES GROUP.—

24 (1) IN GENERAL.—At such time as the govern-  
25 ments of the Quad countries enter into a written

1 agreement described in subsection (a) to establish a  
2 Quad Intra-Parliamentary Working Group, there  
3 shall be established a United States Group, which  
4 shall represent the United States at the Quad Intra-  
5 Parliamentary Working Group.

6 (2) MEMBERSHIP.—

7 (A) IN GENERAL.—The United States  
8 Group shall be comprised of not more than 24  
9 Members of Congress.

10 (B) APPOINTMENT.—Of the Members of  
11 Congress appointed to the United States Group  
12 under subparagraph (A)—

13 (i) half shall be appointed by the  
14 Speaker of the House of Representatives  
15 from among Members of the House, not  
16 fewer than four of whom shall be members  
17 of the Committee on Foreign Affairs; and

18 (ii) half shall be appointed by the  
19 President Pro Tempore of the Senate,  
20 based on recommendations of the majority  
21 leader and minority leader of the Senate,  
22 from among Members of the Senate, not  
23 fewer than four of whom shall be members  
24 of the Committee on Foreign Relations

1 (unless the majority leader and minority  
2 leader determine otherwise).

3 (3) MEETINGS.—

4 (A) IN GENERAL.—The United States  
5 Group shall seek to meet not less frequently  
6 than annually with representatives and appro-  
7 priate staff of the legislatures of Japan, Aus-  
8 tralia, and India, and any other country invited  
9 by mutual agreement of the Quad countries.

10 (B) LIMITATION.—A meeting described in  
11 subparagraph (A) may be held—

12 (i) in the United States;

13 (ii) in another Quad country during  
14 periods when Congress is not in session; or

15 (iii) virtually.

16 (4) CHAIRPERSON AND VICE CHAIRPERSON.—

17 (A) HOUSE DELEGATION.—The Speaker of  
18 the House of Representatives shall designate  
19 the chairperson or vice chairperson of the dele-  
20 gation of the United States Group from the  
21 House from among members of the Committee  
22 on Foreign Affairs.

23 (B) SENATE DELEGATION.—The President  
24 Pro Tempore of the Senate shall designate the  
25 chairperson or vice chairperson of the delega-

1 tion of the United States Group from the Sen-  
2 ate from among members of the Committee on  
3 Foreign Relations.

4 (5) AUTHORIZATION OF APPROPRIATIONS.—

5 (A) IN GENERAL.—There is authorized to  
6 be appropriated \$1,000,000 for each fiscal  
7 years 2022 through 2025 for the United States  
8 Group.

9 (B) DISTRIBUTION OF APPROPRIATIONS.—

10 (i) IN GENERAL.—For each fiscal year  
11 for which an appropriation is made for the  
12 United States Group, half of the amount  
13 appropriated shall be available to the dele-  
14 gation from the House of Representatives  
15 and half of the amount appropriated shall  
16 be available to the delegation from the  
17 Senate.

18 (ii) METHOD OF DISTRIBUTION.—The  
19 amounts available to the delegations of the  
20 House of Representatives and the Senate  
21 under clause (i) shall be disbursed on  
22 vouchers to be approved by the chairperson  
23 of the delegation from the House of Rep-  
24 resentatives and the chairperson of the del-  
25 egation from the Senate, respectively.

1           (6) PRIVATE SOURCES.—The United States  
2           Group may accept gifts or donations of services or  
3           property, subject to the review and approval, as ap-  
4           propriate, of the Committee on Ethics of the House  
5           of Representatives and the Committee on Ethics of  
6           the Senate.

7           (7) CERTIFICATION OF EXPENDITURES.—The  
8           certificate of the chairperson of the delegation from  
9           the House of Representatives or the delegation of  
10          the Senate of the United States Group shall be final  
11          and conclusive upon the accounting officers in the  
12          auditing of the accounts of the United States Group.

13          (8) ANNUAL REPORT.—The United States  
14          Group shall submit to the Committee on Foreign Af-  
15          fairs of the House of Representatives and the Com-  
16          mittee on Foreign Relations of the Senate a report  
17          for each fiscal year for which an appropriation is  
18          made for the United States Group, including a de-  
19          scription of its expenditures under such appropria-  
20          tion.

21 **SEC. 30205. STATEMENT OF POLICY ON COOPERATION**  
22 **WITH ASEAN.**

23           It is the policy of the United States to—

24           (1) stand with the nations of the Association of  
25           Southeast Asian Nations (ASEAN) as they respond

1 to COVID–19 and support greater cooperation in  
2 building capacity to prepare for and respond to  
3 pandemics and other public health challenges;

4 (2) support high-level United States participa-  
5 tion in the annual ASEAN Summit held each year;

6 (3) reaffirm the importance of United States-  
7 ASEAN economic engagement and support the  
8 ASEAN Economic Community’s (AEC) goals, in-  
9 cluding strong, inclusive, and sustainable long-term  
10 economic growth and cooperation with the United  
11 States that focuses on innovation and capacity-build-  
12 ing efforts in technology, education, disaster man-  
13 agement, food security, and human rights, particu-  
14 larly for ASEAN’s poorest countries;

15 (4) urge ASEAN to continue its efforts to fos-  
16 ter greater integration and unity within the ASEAN  
17 community, as well as to foster greater integration  
18 and unity with non-ASEAN economic, political, and  
19 security partners, including Japan, the Republic of  
20 Korea, Australia, the European Union, and India;

21 (5) recognize the value of strategic economic  
22 initiatives such as United States-ASEAN Connect,  
23 which demonstrates a commitment to ASEAN and  
24 the AEC and builds upon economic relationships in  
25 the region;

1           (6) support ASEAN nations in addressing mar-  
2           itime and territorial disputes in a constructive man-  
3           ner and in pursuing claims through peaceful, diplo-  
4           matic, and, as necessary, legitimate regional and  
5           international arbitration mechanisms, consistent  
6           with international law, including through the adop-  
7           tion of a code of conduct in the South China Sea  
8           that represents the interests of all parties and pro-  
9           motes peace and stability in the region;

10          (7) urge all parties involved in the maritime  
11          and territorial disputes in the Indo-Pacific region,  
12          including the Government of the People’s Republic  
13          of China—

14                (A) to cease any current activities, and  
15                avoid undertaking any actions in the future,  
16                that undermine stability, or complicate or esca-  
17                late disputes through the use of coercion, in-  
18                timidation, or military force;

19                (B) to demilitarize islands, reefs, shoals,  
20                and other features, and refrain from new ef-  
21                forts to militarize, including the construction of  
22                new garrisons and facilities and the relocation  
23                of additional military personnel, material, or  
24                equipment;

1           (C) to oppose actions by any country that  
2           prevent other countries from exercising their  
3           sovereign rights to the resources in their exclu-  
4           sive economic zones and continental shelves by  
5           enforcing claims to those areas in the South  
6           China Sea that lack support in international  
7           law; and

8           (D) to oppose unilateral declarations of ad-  
9           ministrative and military districts in contested  
10          areas in the South China Sea;

11          (8) urge parties to refrain from unilateral ac-  
12          tions that cause permanent physical damage to the  
13          marine environment and support the efforts of the  
14          National Oceanic and Atmospheric Administration  
15          and ASEAN to implement guidelines to address the  
16          illegal, unreported, and unregulated fishing in the  
17          region;

18          (9) urge ASEAN nations to develop a common  
19          approach to encourage China and the Philippines to  
20          comply with the decision of the Permanent Court of  
21          Arbitration's 2016 ruling in favor of the Republic of  
22          the Philippines in the case against the People's Re-  
23          public of China's excessive maritime claims;

24          (10) reaffirm the commitment of the United  
25          States to continue joint efforts with ASEAN to halt

1 human smuggling and trafficking in persons and  
2 urge ASEAN to create and strengthen regional  
3 mechanisms to provide assistance and support to  
4 refugees and migrants;

5 (11) support the Mekong-United States Part-  
6 nership;

7 (12) support newly created initiatives with  
8 ASEAN nations, including the United States-  
9 ASEAN Smart Cities Partnership, the ASEAN Pol-  
10 icy Implementation Project, the United States-  
11 ASEAN Innovation Circle, and the United States-  
12 ASEAN Health Futures;

13 (13) encourage the President to communicate  
14 to ASEAN leaders the importance of promoting the  
15 rule of law and open and transparent government,  
16 strengthening civil society, and protecting human  
17 rights, including releasing political prisoners, ceasing  
18 politically motivated prosecutions and arbitrary  
19 killings, and safeguarding freedom of the press, free-  
20 dom of assembly, freedom of religion, and freedom  
21 of speech and expression;

22 (14) support efforts by organizations in  
23 ASEAN that address corruption in the public and  
24 private sectors, enhance anti-bribery compliance, en-  
25 force bribery criminalization in the private sector,

1 and build beneficial ownership transparency through  
2 the ASEAN–USAID PROSPECT project partnered  
3 with the South East Asia Parties Against Corrup-  
4 tion (SEA–PAC);

5 (15) support the Young Southeast Asian Lead-  
6 ers Initiative as an example of a people-to-people  
7 partnership that provides skills, networks, and lead-  
8 ership training to a new generation that will create  
9 and fill jobs, foster cross-border cooperation and  
10 partnerships, and rise to address the regional and  
11 global challenges of the future;

12 (16) support the creation of initiatives similar  
13 to the Young Southeast Asian Leaders Initiative for  
14 other parts of the Indo-Pacific to foster people-to-  
15 people partnerships with an emphasis on civil society  
16 leaders;

17 (17) acknowledge those ASEAN governments  
18 that have fully upheld and implemented all United  
19 Nations Security Council resolutions and inter-  
20 national agreements with respect to the Democratic  
21 People’s Republic of Korea’s nuclear and ballistic  
22 missile programs and encourage all other ASEAN  
23 governments to do the same; and

24 (18) allocate appropriate resources across the  
25 United States Government to articulate and imple-

1       ment an Indo-Pacific strategy that respects and sup-  
2       ports the crucial role of ASEAN and supports  
3       ASEAN as a source of well-functioning and prob-  
4       lem-solving regional architecture in the Indo-Pacific  
5       community.

6 **SEC. 30206. YOUNG SOUTHEAST ASIAN LEADERS INITIA-**  
7                   **TIVE.**

8       (a) **SHORT TITLE.**—This section may be cited as the  
9       “Young Southeast Asian Leaders Initiative Act” or the  
10      “YSEALI Act”.

11      (b) **YOUNG SOUTHEAST ASIAN LEADERS INITIA-**  
12      **TIVE.**—

13           (1) **ESTABLISHMENT.**—There is established in  
14      the Department of State the Young Southeast Asian  
15      Leaders Initiative (“YSEALI”) program.

16           (2) **GOALS.**—The YSEALI program shall seek  
17      to build to capacity of young leaders in Southeast  
18      Asia to—

19           (A) support young leaders from Southeast  
20      Asia by offering professional development and a  
21      global network to share expertise, including in  
22      the areas of civic engagement, economic em-  
23      powerment and social entrepreneurship, edu-  
24      cation and environmental issues; and

1 (B) further strengthen the enduring part-  
2 nership between the United States and South-  
3 east Asia and connect United States experts  
4 with YSEALI participants.

5 (3) YSEALI PROGRAMS.—

6 (A) YSEALI ACADEMIC FELLOWS PRO-  
7 GRAM.—There is established the YSEALI Aca-  
8 demic Fellows Program to bring students from  
9 YSEALI partner countries to the United States  
10 for the purposes of building practical expertise,  
11 leadership skills, and professional networks re-  
12 lating to one or more of the YSEALI themes.  
13 The Secretary of State may award fellowships  
14 under the Academic Fellows Program to eligible  
15 individuals based on the following:

16 (i) Citizenship and residency in a  
17 YSEALI partner country.

18 (ii) Status as a full-time under-  
19 graduate student, or recent graduate of  
20 college, university, or other institutions of  
21 higher learning.

22 (iii) Other criteria determined appro-  
23 priate by the Secretary.

24 (B) YSEALI PROFESSIONAL FELLOWS  
25 PROGRAM.—There is established the YSEALI

1 Professional Fellows Program to bring profes-  
2 sionals from YSEALI partner countries to the  
3 United States for the purposes of building prac-  
4 tical expertise, leadership skills, and profes-  
5 sional networks relating to one or more of the  
6 YSEALI themes. The Secretary of State may  
7 award fellowships under the Professional Fel-  
8 lows Program to eligible individuals based on  
9 the following:

10 (i) Citizenship and residency in a  
11 YSEALI partner country.

12 (ii) Status as an emerging leader in  
13 government, civil society, or the private  
14 sector, and demonstrated expertise relating  
15 to one or more of the YSEALI themes.

16 (iii) Current employment, and two or  
17 more years of professional work experience  
18 relevant to one or more YSEALI themes.

19 (iv) Other criteria determined appro-  
20 priate by the Secretary.

21 (C) OTHER INITIATIVES.—The Secretary  
22 of State may designate other initiatives as  
23 YSEALI initiatives under this section if they  
24 advance the goals of the YSEALI program as  
25 described in paragraph (2).

## 1 (4) ACTIVITIES.—

## 2 (A) UNITED STATES-BASED ACTIVITIES.—

3 The Secretary of State shall oversee all United  
4 States-based activities carried out under the  
5 YSEALI program, including the participation  
6 of YSEALI Academic Fellows in a program at  
7 a United States university or college, and the  
8 participation of YSEALI Professional Fellows  
9 at United States private and public sector orga-  
10 nizations for individually-tailored work place-  
11 ments. Both fellowships may include site visits,  
12 professional networking opportunities, leader-  
13 ship training, community service, and organized  
14 cultural activities, as appropriate.

15 (B) SOUTHEAST ASIA-BASED ACTIVI-  
16 TIES.—The Secretary of State should continue  
17 to support overseas initiatives of the program,  
18 including the following:

19 (i) Quality leadership training, profes-  
20 sional development, and networking oppor-  
21 tunities for YSEALI alumni.

22 (ii) Reciprocal exchanges for YSEALI  
23 Professional Fellows Program's United  
24 States professional hosts and interlocutors  
25 to support post-United States exchange ac-

1                   tion plans and other related public diplo-  
2                   macy goals, as appropriate.

3                   (iii) Opportunities for networking with  
4                   YSEALI alumni and professionals and ex-  
5                   perts who are American and Southeast  
6                   Asian.

7                   (iv) The YSEALI Regional Workshop  
8                   program, offering networking, mentoring,  
9                   hands-on training, and the tools necessary  
10                  to lead communities in addressing eco-  
11                  nomic, environmental, educational, and  
12                  civic engagement issues.

13                  (v) The YSEALI Seeds for the Fu-  
14                  ture program, providing small, competitive  
15                  grants to young leaders in Southeast Asia  
16                  to improve their communities, countries,  
17                  and the region towards one or more of the  
18                  themes of civic engagement, economic em-  
19                  powerment and social entrepreneurship,  
20                  education, or environmental issues.

21                  (vi) The YSEALI Academy at Ful-  
22                  bright University Vietnam, offering execu-  
23                  tive-level seminars for entry to mid-level  
24                  professionals around the themes of tech-

1 nology and innovation, public policy, and  
2 entrepreneurship.

3 (vii) The YSEALI Women’s Leader-  
4 ship Academy Program, enhancing people-  
5 to-people ties and engagement with young  
6 and emerging leaders by promoting gender  
7 equality and advancing the status of  
8 women and girls, such as in the public  
9 health sector.

10 (C) ALUMNI PLATFORM.—The Secretary of  
11 State is authorized to convene current YSEALI  
12 participants and YSEALI alumni through a  
13 platform to promote networking opportunities  
14 within the YSEALI community.

15 (D) IMPLEMENTATION.—To carry out this  
16 paragraph, United States diplomatic and con-  
17 sular posts, the Secretary of State, and agency  
18 external partners managing and implementing  
19 the YSEALI program—

20 (i) shall promote United States policy  
21 goals in Southeast Asia by providing tools  
22 and resources to help young Southeast  
23 Asian leaders develop important skills and  
24 connections, including through online cam-  
25 paigns and public diplomacy initiatives;

1 (ii) shall establish a system for moni-  
2 toring, evaluating, and improving the  
3 YSEALI program; and

4 (iii) may accept financial contribu-  
5 tions from foundations, corporations, pri-  
6 vate donors, program partners, and imple-  
7 menting agency external partners intended  
8 to foster the goals of the YSEALI pro-  
9 gram.

10 (5) REPORTS.—

11 (A) STRATEGY.—The Secretary of State  
12 shall submit to the appropriate congressional  
13 committees a strategy for implementing the  
14 YSEALI program, including the following:

15 (i) YSEALI program goals, targets,  
16 and planned outcomes for each year and,  
17 separately, for the YSEALI program gen-  
18 erally during the duration of its implemen-  
19 tation.

20 (ii) The continuation of YSEALI pro-  
21 gram monitoring and evaluation plan, in-  
22 cluding metrics for measuring YSEALI  
23 program progress identification of annual  
24 YSEALI program goals, and targets.

1 (B) ANNUAL REPORTS.—Not later than 1  
2 year after the date of the enactment of this sec-  
3 tion, and annually thereafter for 4 years, the  
4 Secretary of State shall submit to the appro-  
5 priate congressional committees and publish on  
6 a publicly available website of the Department  
7 a report on—

8 (i) YSEALI program progress and an  
9 assessment of the metrics, goals, targets,  
10 and outcomes described in subparagraph  
11 (A)(i), including information relating to  
12 YSEALI program implementation and out-  
13 come activities during the year covered by  
14 each report; and

15 (ii) recommendations for improve-  
16 ments or amendments to the YSEALI pro-  
17 gram and strategy, if any, that would im-  
18 prove their effectiveness during subsequent  
19 years of YSEALI program implementation.

20 (C) FINAL REPORT.—Not later than the  
21 date of the submission of the last report re-  
22 quired under subparagraph (B), the Secretary  
23 of State shall submit to the appropriate con-  
24 gressional committees a final assessment report  
25 that evaluates YSEALI program implementa-

1 tion and outcomes during the entire duration of  
2 YSEALI program operation, including rec-  
3 ommendations regarding whether the YSEALI  
4 program should be reauthorized and any  
5 changes that would improve its effectiveness.

6 (6) DEFINITIONS.—In this section:

7 (A) APPROPRIATE CONGRESSIONAL COM-  
8 MITTEES.—The term “appropriate congres-  
9 sional committees” means—

10 (i) the Committee on Foreign Affairs  
11 of the House of Representatives;

12 (ii) the Committee on Appropriations  
13 of the House of Representatives;

14 (iii) the Committee on Foreign Rela-  
15 tions of the Senate; and

16 (iv) the Committee on Appropriations  
17 of the Senate.

18 (B) IMPLEMENTING AGENCY EXTERNAL  
19 PARTNERS.—The term “implementing agency  
20 external partners” means any external partner  
21 that is not a United States Government agency,  
22 and may include one or more of the following  
23 entities:

24 (i) Local or multinational corpora-  
25 tions.

1 (ii) Nongovernmental organizations.

2 (iii) Universities.

3 (iv) Regional institutions.

4 (C) YSEALI THEME.—The term  
5 “YSEALI theme” means—

6 (i) civic engagement;

7 (ii) economic empowerment and social  
8 entrepreneurship;

9 (iii) education;

10 (iv) environmental issues; or

11 (v) any other theme included by the  
12 Secretary of State.

13 (D) YSEALI PARTNER COUNTRIES.—The  
14 term “YSEALI partner countries” includes  
15 each member country of the Association of  
16 Southeast Asian Nations and each other coun-  
17 try or political entity the Secretary of State de-  
18 termines appropriate to include in the programs  
19 established under this section.

20 **SEC. 30207. SENSE OF CONGRESS ON ENGAGEMENT WITH**  
21 **G7 AND G20 COUNTRIES.**

22 It is the sense of Congress that the President, acting  
23 through the Secretary of State, should initiate an agenda  
24 with G7 and G20 countries on matters relevant to eco-

1 nomic and democratic freedoms, including relating to the  
2 following:

3 (1) Building support for international infra-  
4 structure standards, including standards agreed to  
5 at the G20 summit in Osaka in 2018.

6 (2) The erosion of democracy and human  
7 rights.

8 (3) The security of 5G telecommunications.

9 (4) Anti-competitive behavior, such as intellec-  
10 tual property theft, massive subsidization of compa-  
11 nies, and other policies and practices.

12 (5) Predatory international sovereign lending  
13 that is inconsistent with Organisation for Economic  
14 Cooperation and Development and Paris Club prin-  
15 ciples.

16 (6) International influence campaigns.

17 (7) Environmental standards.

18 (8) Coordination with like-minded regional part-  
19 ners that are not in the G7 and G20.

20 **SEC. 30208. ENHANCING THE UNITED STATES-TAIWAN**  
21 **PARTNERSHIP.**

22 (a) STATEMENT OF POLICY.—It is the policy of the  
23 United States—

24 (1) to support the close economic, political, and  
25 security relationship between Taiwan and the United

1 States and recognize Taiwan as a vital part of the  
2 approach to the United States Indo-Pacific;

3 (2) to advance the security of Taiwan and its  
4 democracy a vital national security interest of the  
5 United States;

6 (3) to reinforce all existing United States Gov-  
7 ernment commitments to Taiwan, consistent with  
8 the Taiwan Relations Act (Public Law 96–8) and  
9 the “Six Assurances”;

10 (4) to support Taiwan’s implementation of its  
11 asymmetric defense strategy, including the priorities  
12 identified in Taiwan’s Overall Defense Concept;

13 (5) to urge Taiwan to increase its defense  
14 spending in order to fully resource its defense strat-  
15 egy;

16 (6) to conduct regular transfers of defense arti-  
17 cles to Taiwan in order to enhance Taiwan’s self-de-  
18 fense capabilities, particularly its efforts to develop  
19 and integrate asymmetric capabilities, such as anti-  
20 ship, coastal defense, anti-armor, air defense, ad-  
21 vanced command, control, communications, com-  
22 puters, intelligence, surveillance, and reconnaissance,  
23 and resilient command and control capabilities, into  
24 its military forces;

1           (7) to advocate and actively advance Taiwan’s  
2 meaningful participation in international organiza-  
3 tions, including the World Health Assembly, the  
4 International Civil Aviation Organization, the Inter-  
5 national Criminal Police Organization, and other  
6 international bodies as appropriate;

7           (8) to advocate for information sharing with  
8 Taiwan in the International Agency for Research on  
9 Cancer;

10          (9) to promote meaningful cooperation among  
11 the United States, Taiwan, and other like-minded  
12 partners;

13          (10) to enhance bilateral trade, through re-  
14 sumption of talks under the Trade and Investment  
15 Framework Agreement;

16          (11) to expand bilateral economic and techno-  
17 logical cooperation, including improving supply chain  
18 security;

19          (12) to support United States educational and  
20 exchange programs with Taiwan, including by pro-  
21 moting the study of Chinese language, culture, his-  
22 tory, and politics in Taiwan; and

23          (13) to expand people-to-people exchanges be-  
24 tween the United States and Taiwan.

1 (b) SUPPORTING UNITED STATES EDUCATIONAL  
2 AND EXCHANGE PROGRAMS WITH TAIWAN.—

3 (1) ESTABLISHMENT OF THE UNITED STATES-  
4 TAIWAN CULTURAL EXCHANGE FOUNDATION.—The  
5 Secretary of State should consider establishing an  
6 independent nonprofit entity that—

7 (A) is dedicated to deepening ties between  
8 the future leaders of Taiwan and the United  
9 States; and

10 (B) works with State and local school dis-  
11 tricts and educational institutions in the United  
12 States to send high school and university stu-  
13 dents to Taiwan to study the Chinese language,  
14 culture, history, politics, and other relevant sub-  
15 jects.

16 (2) PARTNER.—State and local school districts  
17 and educational institutions, including public univer-  
18 sities, in the United States are encouraged to part-  
19 ner with the Taipei Economic and Cultural Rep-  
20 resentative Office in the United States to establish  
21 programs to promote an increase in educational and  
22 cultural exchanges.

23 **SEC. 30209. TAIWAN DIPLOMATIC REVIEW.**

24 (a) FINDINGS.—Congress finds the following:

1           (1) Pursuant to the Taiwan Relations Act (22  
2 U.S.C. 3301(b)(1)), it is the policy of the United  
3 States to “promote extensive, close, and friendly  
4 commercial, cultural, and other relations between  
5 the people of the United States and the people of  
6 Taiwan”.

7           (2) In May 2019, the Taiwanese counterpart to  
8 the American Institute in Taiwan, the Coordination  
9 Council for North American Affairs, was renamed  
10 the “Taiwan Council for U.S. Affairs”.

11           (3) It is the policy of the United States to refer  
12 to Taiwan as “Taiwan”, not “Taipei” or “Chinese  
13 Taipei”.

14           (4) The Taipei Economic and Cultural Rep-  
15 resentative Office is inaptly named as it works to  
16 cultivate the extensive, close, and friendly commer-  
17 cial, cultural, and other relations between the people  
18 of the United States and the people, organizations,  
19 and enterprises of Taiwan, not merely those in Tai-  
20 pei.

21           (b) NEGOTIATIONS TO RENAME TECRO.—Reflective  
22 of the substantively deepening ties between Taiwan and  
23 the United States, the Secretary of State shall seek to  
24 enter into negotiations with appropriate officials of the  
25 Taipei Economic and Cultural Representative Office in the

1 United States with the objective of renaming its office in  
2 Washington, DC, the Taiwan Representative Office in the  
3 United States, and its subsidiary offices in the United  
4 States, accordingly.

5 **SEC. 30210. TAIWAN PEACE AND STABILITY ACT.**

6 (a) **SHORT TITLE.**—This section may be cited as the  
7 “Taiwan Peace and Stability Act”.

8 (b) **DEFINITIONS.**—In this section:

9 (1) **APPROPRIATE CONGRESSIONAL COMMIT-**  
10 **TEES.**—The term “appropriate congressional com-  
11 mittees” means—

12 (A) the Committee on Foreign Affairs of  
13 the House of Representatives; and

14 (B) the Committee on Foreign Relations of  
15 the Senate.

16 (2) **INTERNATIONAL ORGANIZATION.**—The term  
17 “international organization” includes United Na-  
18 tions funds, programs, specialized agencies, entities,  
19 and bodies, as well as other organizations outside of  
20 the United Nations system that the Secretary of  
21 State determines appropriate, in consultation with  
22 other relevant Federal departments and agencies.

23 (3) **ONE-CHINA PRINCIPLE.**—The term “One-  
24 China Principle” means only the PRC’s policy to-  
25 ward Taiwan.

1           (4) CIVIL SOCIETY ORGANIZATIONS.—The term  
2           “civil society organizations” means international  
3           civil society organizations that are critical to main-  
4           taining Taiwan’s international space and enabling  
5           Taiwan to play a positive and constructive role in  
6           the global community.

7           (5) POTENTIAL PLA CAMPAIGNS.—The term  
8           “potential PLA campaigns” means—

9                   (A) a naval blockade of Taiwan;

10                   (B) an amphibious assault and ground in-  
11           vasion of Taiwan, especially such invasion de-  
12           signed to accomplish a fiat accompli before  
13           intervention is possible; or

14                   (C) a seizure of one or more of Taiwan’s  
15           outlying islands.

16           (c) FINDINGS.—Congress makes the following find-  
17   ings:

18                   (1) The United States has consistently sought  
19           to advance peace and stability in East Asia as a cen-  
20           tral element of United States foreign policy toward  
21           the region.

22                   (2) The Government of the People’s Republic of  
23           China (PRC), especially since the election of Tsai  
24           Ing-Wen in 2016, has conducted a coordinated cam-  
25           paign to weaken Taiwan diplomatically, economi-

1 cally, and militarily in a manner that threatens to  
2 erode United States policy and create a fait accompli  
3 on questions surrounding Taiwan's future.

4 (3) In order to ensure the longevity of United  
5 States policy and preserve the ability of the people  
6 of Taiwan to determine their future independently,  
7 it is necessary to reinforce Taiwan's diplomatic, eco-  
8 nomic, and physical space.

9 (4) Taiwan has provided monetary, humani-  
10 tarian, and medical assistance to combat diseases  
11 such as AIDS, tuberculosis, Ebola, and dengue fever  
12 in countries around the world. During the COVID-  
13 19 pandemic, Taiwan donated millions of pieces of  
14 personal protective equipment and COVID-19 tests  
15 to countries in need.

16 (5) Since 2016, the Gambia, São Tomé and  
17 Príncipe, Panama, the Dominican Republic, Burkina  
18 Faso, El Salvador, the Solomon Islands, and  
19 Kiribati have severed diplomatic relations with Tai-  
20 wan in favor of diplomatic relations with China.

21 (6) Taiwan was invited to participate in the  
22 World Health Assembly (WHA), the decision-making  
23 body of the World Health Organization, as an ob-  
24 server annually between 2009 and 2016. Since the  
25 2016 election of President Tsai, the PRC has in-

1       creasingly resisted Taiwan’s participation in the  
2       WHA. Taiwan was not invited to attend the WHA  
3       in 2017, 2018, 2019, 2020, or 2021.

4               (7) The Taipei Flight Information Region re-  
5       portedly served 1,750,000 flights and 68,900,000  
6       passengers in 2018 and is home to Taiwan Taoyuan  
7       International Airport, the 11th busiest airport in the  
8       world. Taiwan has been excluded from participating  
9       at the International Civil Aviation Organization  
10       since 2013.

11              (8) United Nations General Assembly Resolu-  
12       tion 2758 (1971) does not address the issue of rep-  
13       resentation of Taiwan and its people at the United  
14       Nations, nor does it give the PRC the right to rep-  
15       resent the people on Taiwan.

16       (d) STATEMENT OF POLICY.—It is the policy of the  
17       United States to—

18              (1) maintain the position that peace and sta-  
19       bility in the Western Pacific are in the political, se-  
20       curity, and economic interests of the United States,  
21       and are matters of international concern; and

22              (2) work with allies and partners to promote  
23       peace and stability in the Indo-Pacific and deter  
24       military acts or other forms of coercive behavior that  
25       would undermine regional stability.

1 (e) SENSE OF CONGRESS ON TAIWAN'S MEANINGFUL  
2 PARTICIPATION IN THE INTERNATIONAL COMMUNITY.—

3 It is the sense of Congress that—

4 (1) Taiwan is free, democratic, and prosperous,  
5 is home to 23,500,000 people, and is an important  
6 contributor to the global community;

7 (2) multiple United States Government Admin-  
8 istrations have taken important steps to advance  
9 Taiwan's meaningful participation in international  
10 organizations and to enhance cooperation with Tai-  
11 wan to provide global public goods, including  
12 through development assistance, humanitarian as-  
13 sistance, and disaster relief in trilateral and multi-  
14 lateral fora;

15 (3) nonetheless, significant structural, policy,  
16 and legal barriers remain to advancing Taiwan's  
17 meaningful participation in the international com-  
18 munity; and

19 (4) efforts to share Taiwan's expertise with  
20 other parts of the global community could be further  
21 enhanced through a systematic approach, along with  
22 greater attention from Congress and the American  
23 public to such efforts.

24 (f) STRATEGY TO SUPPORT TAIWAN'S MEANINGFUL  
25 PARTICIPATION IN INTERNATIONAL ORGANIZATIONS.—

1           (1) IN GENERAL.—Not later than 180 days  
2 after the date of the enactment of this section, the  
3 Secretary of State, in consultation with other Fed-  
4 eral departments and agencies as appropriate, shall  
5 submit to the appropriate congressional committees  
6 a strategy—

7           (A) to advance Taiwan’s meaningful par-  
8 ticipation in a prioritized set of international  
9 organizations; and

10           (B) that responds to growing pressure  
11 from the PRC on foreign governments, inter-  
12 national organizations, commercial actors, and  
13 civil society organizations to comply with its  
14 “One-China Principle” with respect to Taiwan.

15           (2) MATTERS TO BE INCLUDED.—The strategy  
16 required under paragraph (1) shall include—

17           (A) an assessment of the methods the PRC  
18 uses to coerce actors to into adhering to its  
19 “One-China Principle”, including those em-  
20 ployed against governments, international orga-  
21 nizations, and civil society organizations and  
22 pressure on commercial actors, to the extent  
23 relevant in the context of Taiwan’s meaningful  
24 participation international organizations;

1 (B) an assessment of the policies of foreign  
2 governments toward the PRC and Taiwan, to  
3 identify likeminded allies and partners who  
4 might become public or private partners in the  
5 strategy;

6 (C) a systematic analysis of all inter-  
7 national organizations, as practicable, to iden-  
8 tify those that best lend themselves to advanc-  
9 ing Taiwan's participation, including—

10 (i) the organization's policy on the re-  
11 quirements to obtain membership and ob-  
12 server status, as well as the foundational  
13 documents defining membership require-  
14 ments and observer status within the orga-  
15 nization;

16 (ii) the organization's participation  
17 rules;

18 (iii) the processes for developing mem-  
19 bership requirements and participation  
20 rules;

21 (iv) the policies of current members  
22 regarding Taiwan's political status; and

23 (v) the organization's relative reliance  
24 on contributions from the PRC and how it  
25 may affect internal decision-making;

1 (D) an evaluation of the feasibility and ad-  
2 visability of expanding economic, security, and  
3 diplomatic engagement with countries that have  
4 demonstrably strengthened, enhanced, or up-  
5 graded relations with Taiwan, where it aligns  
6 with United States interests;

7 (E) a survey of international organizations  
8 that have allowed Taiwan's meaningful partici-  
9 pation, including an assessment of whether any  
10 erosion in Taiwan's engagement has occurred  
11 within those organizations and how Taiwan's  
12 participation has positively strengthened the ca-  
13 pacity and activity of these organizations, pro-  
14 viding positive models for Taiwan's inclusion in  
15 other similar forums;

16 (F) a list of not more than 20 inter-  
17 national organizations at which the United  
18 States Government will prioritize using its  
19 voice, vote, and influence to advance Taiwan's  
20 meaningful participation over the three-year pe-  
21 riod following the date of enactment of this Act,  
22 to be derived from the organizations identified  
23 pursuant to subparagraph (C); and

24 (G) a description of the diplomatic strate-  
25 gies and the coalitions the United States Gov-

1           ernment plans to develop to implement subpara-  
2           graph (F).

3           (3) FORM.—The strategy required under para-  
4           graph (1) shall be submitted in classified form but  
5           may include an unclassified summary.

6           (4) CONSULTATION.—The Secretary of State  
7           and the heads of other Federal departments and  
8           agencies as appropriate shall consult with the appro-  
9           priate congressional committees and the Committee  
10          on Ways and Means of the House of Representatives  
11          and the Committee on Finance of the Senate—

12                 (A) not later than 90 days after the date  
13                 of enactment of this Act, with respect to the  
14                 international organizations identified pursuant  
15                 to paragraph (2)(C); and

16                 (B) not later than 180 days after the date  
17                 of the submission of the strategy required  
18                 under paragraph (1), and every 180 days there-  
19                 after for 2 years, regarding the development  
20                 and implementation of the strategy required.

21          (g) EXPANDING UNITED STATES-TAIWAN DEVELOP-  
22          MENT COOPERATION.—

23                 (1) IN GENERAL.—No later than 120 days after  
24                 the date of the enactment of this Act, the Adminis-  
25                 trator of the United States Agency for International

1 Development (USAID), in consultation with the  
2 United States International Development Finance  
3 Corporation (DFC), shall submit to the appropriate  
4 congressional committees a report on cooperation  
5 with Taiwan on trilateral and multilateral develop-  
6 ment initiatives, through the American Institute in  
7 Taiwan as appropriate.

8 (2) MATTERS TO BE INCLUDED.—The report  
9 required in paragraph (1) shall include the following:

10 (A) A comprehensive review of existing co-  
11 operation mechanisms and initiatives between  
12 USAID or DFC and relevant departments and  
13 agencies in Taiwan, including, but not limited  
14 to Taiwan’s International Cooperation and De-  
15 velopment Fund (ICDF).

16 (B) An assessment of how USAID and  
17 DFC development cooperation with relevant de-  
18 partments and agencies in Taiwan compares to  
19 comparable cooperation with partners of similar  
20 economic size and foreign assistance capacity.

21 (C) An analysis of the opportunities and  
22 challenges the cooperation described in subpara-  
23 graph (A) has offered to date, including—

24 (i) opportunities collaboration has of-  
25 fered to expand USAID’s and DFC’s abil-

1           ity to deliver assistance into a wider range  
2           communities;

3           (ii) sectors where USAID, DFC,  
4           ICDF, other relevant agencies and depart-  
5           ments in Taiwan, or the organizations' im-  
6           plementing partners, have a comparative  
7           advantage in providing assistance; and

8           (iii) opportunities to transition virtual  
9           capacity building events relevant depart-  
10          ments and agencies in Taiwan, through the  
11          Global Cooperation and Training Frame-  
12          work and other forums, into in-person, en-  
13          during forms of development cooperation.

14          (D) An assessment of any legal, policy,  
15          logistical, financial, or administrative barriers  
16          to expanding cooperation in trilateral or multi-  
17          lateral development, including—

18           (i) availability of personnel at the  
19           American Institute in Taiwan responsible  
20           for coordinating development assistance co-  
21           operation;

22           (ii) volume of current cooperation ini-  
23           tiatives and barriers to expanding it;

24           (iii) diplomatic, policy, or legal bar-  
25           riers facing the United States or other

1 partners to including Taiwan in formal  
2 and informal multilateral development co-  
3 operation mechanisms;

4 (iv) resource or capacity barriers to  
5 expanding cooperation facing the United  
6 States or Taiwan; and

7 (v) geopolitical barriers that com-  
8 plicate United States-Taiwan cooperation  
9 in third countries.

10 (E) Recommendations to address the chal-  
11 lenges identified in subparagraph (D).

12 (F) A description of any additional re-  
13 sources or authorities that expanding coopera-  
14 tion might require.

15 (3) FORM.—The strategy required in paragraph  
16 (1) shall be submitted in unclassified form but may  
17 include a classified annex.

18 (h) SENSE OF CONGRESS ON EXPANDING UNITED  
19 STATES ECONOMIC RELATIONS WITH TAIWAN.—It is the  
20 sense of the Congress that—

21 (1) expanding United States economic relations  
22 with Taiwan has benefited the people of both the  
23 United States and Taiwan; and

1           (2) the United States should explore opportuni-  
2           ties to deepen, and where possible expand, economic  
3           ties between Taiwan and the United States.

4           (i) SENSE OF CONGRESS ON PEACE AND STABILITY  
5           IN THE TAIWAN STRAIT.—It is the sense of Congress  
6           that—

7           (1) PRC attempts to intimidate Taiwan, includ-  
8           ing through high rates of PRC sorties into air space  
9           near Taiwan, and PRC amphibious assault exercises  
10          near Taiwan, jeopardizes the long-standing United  
11          States position that differences in cross-Strait rela-  
12          tions must be resolved peacefully;

13          (2) given the potential for a cross-Strait conflict  
14          to be highly destructive and destabilizing, any in-  
15          crease in the risk of conflict demands attention and  
16          obligates leaders to reinforce deterrence, as the most  
17          viable means to prevent war;

18          (3) Taiwan should continue to implement its  
19          asymmetric defense strategy, including investing in  
20          cost-effective and resilient capabilities, while also  
21          strengthening recruitment and training of its reserve  
22          and civil defense forces, and those capabilities in-  
23          clude, but are not limited to, coastal defense cruise  
24          missiles; and

1           (4) while enhancing deterrence, it is also essen-  
2           tial to maintain open and effective crisis communica-  
3           tion and risk reduction mechanisms, as a means to  
4           reduce the risk of misunderstanding and ultimately,  
5           conflict.

6           (j) STRATEGY TO ENHANCE DETERRENCE OVER A  
7           CROSS-STRAIT CONFLICT.—

8           (1) IN GENERAL.—No later than 90 days after  
9           the date of enactment of this Act, the President  
10          shall submit to the appropriate congressional com-  
11          mittees a whole-of-government strategy to enhance  
12          deterrence over a cross-Strait military conflict be-  
13          tween the PRC and Taiwan.

14          (2) MATTERS TO BE INCLUDED.—The strategy  
15          shall include the following:

16                (A) A comprehensive review of existing  
17                diplomatic, economic, and military tools to es-  
18                tablish deterrence over a cross-Strait conflict  
19                and an assessment of their efficacy.

20                (B) An examination of the present and fu-  
21                ture capabilities of the United States and Tai-  
22                wan to respond to the potential PLA campaigns  
23                against Taiwan in 5, 10, and 15 years. The  
24                analysis shall include an assessment of the  
25                progress Taiwan has made in developing the

1 cost-effective and resilient capabilities needed to  
2 respond to its strategic environment, as well as  
3 any additional personnel, procurement, or train-  
4 ing reforms required.

5 (C) An evaluation of the feasibility of ex-  
6 panding coordination with United States allies  
7 and partners to enhance deterrence over a  
8 cross-Strait conflict. The review shall include a  
9 review of the following matters:

10 (i) Expanding coordination of public  
11 or private messaging on deterrence vis-à-  
12 vis Taiwan.

13 (ii) Coordinating use of economic tools  
14 to raise the costs of PRC military action  
15 that could precipitate a cross-Strait con-  
16 flict.

17 (iii) Enhancing codevelopment and co-  
18 deployment of military capabilities related  
19 to deterrence over a cross-Strait conflict,  
20 or enhancing coordination on training of  
21 Taiwan's military forces.

22 (D) Recommendations on significant addi-  
23 tional diplomatic, economic, and military steps  
24 available to the United States Government, uni-  
25 laterally and in concert with United States al-

1           lies and partners, to enhance the clarity and  
2           credibility of deterrence over a cross-Strait con-  
3           flict.

4                   (E) A description of any additional re-  
5           sources or authorities needed to implement the  
6           recommendations identified in subparagraph  
7           (D).

8           (3) FORM.—The strategy required in paragraph  
9           (1) shall be submitted classified form but may in-  
10          clude an unclassified annex.

11           (4) CONSULTATION.—Not later than 90 days  
12          after the date of enactment of this Act, and not less  
13          frequently than every 180 days thereafter for 7  
14          years, the President (or a designee), as well as rep-  
15          resentatives from the agencies and departments in-  
16          volved in developing the strategy required in para-  
17          graph (1), shall consult with the appropriate con-  
18          gressional committees regarding the development  
19          and implementation of the strategy required in this  
20          subsection. The representatives from the relevant  
21          agencies and departments shall be at the Under Sec-  
22          retary level or above.

23          (k) STRENGTHENING TAIWAN'S CIVILIAN DEFENSE  
24          PROFESSIONALS.—

1           (1) IN GENERAL.—Not later than 180 days  
2 after the date of the enactment of this Act, the Sec-  
3 retary of State, in consultation with the Secretary of  
4 Defense, shall present to the appropriate congress-  
5 sional committees a plan for strengthening the com-  
6 munity of civilian defense professionals in Taiwan,  
7 facilitated through the American Institute in Taiwan  
8 as appropriate.

9           (2) MATTERS TO BE INCLUDED.—The plan re-  
10 quired by paragraph (1) shall include the following:

11           (A) A comprehensive review of existing  
12 United States Government and non-United  
13 States Government programmatic and funding  
14 modalities to support Taiwan’s civilian defense  
15 professionals in pursuing professional develop-  
16 ment, educational, and cultural exchanges in  
17 the United States, including—

18           (i) opportunities through Department  
19 of State-supported programs, such as the  
20 International Visitor Leaders Program;  
21 and

22           (ii) opportunities offered through non-  
23 governmental institutions, such as think  
24 tanks, to the extent the review can prac-  
25 tically make such an assessment.

1           (B) A description of the frequency that ci-  
2           vilian defense professionals from Taiwan pursue  
3           or are selected for the programs reviewed pur-  
4           suant to subparagraph (A).

5           (C) An analysis of any funding, policy, ad-  
6           ministrative, or other barriers preventing great-  
7           er participation from Taiwan's civilian defense  
8           professionals in the opportunities identified pur-  
9           suant to subparagraph (A).

10          (D) An evaluation of the value expanding  
11          the opportunities reviewed pursuant to subpara-  
12          graph (A) would offer for strengthening Tai-  
13          wan's existing civilian defense community, and  
14          for increasing the perceived value of the field  
15          for young professionals in Taiwan.

16          (E) An assessment of options the United  
17          States Government could take individually, with  
18          partners in Taiwan, or with foreign govern-  
19          ments, or nongovernmental partners, to expand  
20          the opportunities reviewed pursuant to subpara-  
21          graph (A).

22          (F) A description of additional resources  
23          and authorities required by the options assessed  
24          pursuant to subparagraph (E).

1           (3) FORM.—The plan required by paragraph  
2           (1) shall be submitted in unclassified form but may  
3           include a classified annex.

4 **SEC. 30211. TAIWAN INTERNATIONAL SOLIDARITY ACT.**

5           (a) SHORT TITLE.—This section may be cited as the  
6 “Taiwan International Solidarity Act”.

7           (b) CLARIFICATION REGARDING UNITED NATIONS  
8 GENERAL ASSEMBLY RESOLUTION 2758.—Subsection (a)  
9 of section 2 of the Taiwan Allies International Protection  
10 and Enhancement Initiative (TAIPEI) Act of 2019 (Pub-  
11 lic Law 116–135) (relating to diplomatic relations with  
12 Taiwan) is amended by adding at the end the following  
13 new paragraphs:

14           “(10) United Nations General Assembly Reso-  
15 lution 2758 (1971) established the representatives of  
16 the Government of the People’s Republic of China as  
17 the only lawful representatives of China to the  
18 United Nations. The resolution did not address the  
19 issue of representation of Taiwan and its people in  
20 the United Nations or any related organizations, nor  
21 did the resolution take a position on the relationship  
22 between the People’s Republic of China and Taiwan  
23 or include any statement pertaining to Taiwan’s sov-  
24 ereignty.

1           “(11) The United States opposes any initiative  
2           that seeks to change Taiwan’s status without the  
3           consent of the people.”.

4           (c) UNITED STATES ADVOCACY FOR INTERNATIONAL  
5 ORGANIZATIONS TO RESIST THE PEOPLE’S REPUBLIC OF  
6 CHINA’S EFFORTS TO DISTORT THE “ONE CHINA” POSI-  
7 TION.—Section 4 of the Taiwan Allies International Pro-  
8 tection and Enhancement Initiative (TAIPEI) Act of 2019  
9 (relating to the policy of the United States regarding Tai-  
10 wan’s participation in international organizations) is  
11 amended—

12           (1) in paragraph (2), by striking “and” after  
13           the semicolon at the end;

14           (2) in paragraph (3), by striking the period at  
15           the end and inserting “; and”; and

16           (3) by adding at the end the following new  
17           paragraph:

18           “(4) to instruct, as appropriate, representatives  
19           of the United States Government in all organizations  
20           described in paragraph (1) to use the voice, vote,  
21           and influence of the United States to advocate such  
22           organizations to resist the People’s Republic of Chi-  
23           na’s efforts to distort the decisions, language, poli-  
24           cies, or procedures of such organizations regarding  
25           Taiwan.”.

1 (d) OPPOSING THE PEOPLE’S REPUBLIC OF CHINA’S  
2 EFFORTS TO UNDERMINE TAIWAN’S TIES AND PARTNER-  
3 SHIPS INTERNATIONALLY.—Subsection (a) of section 5 of  
4 the Taiwan Allies International Protection and Enhance-  
5 ment Initiative (TAIPEI) Act of 2019 (relating to  
6 strengthening ties with Taiwan) is amended—

7 (1) in paragraph (2), by striking “and” after  
8 the semicolon at the end;

9 (2) in paragraph (3), by striking the period at  
10 the end and inserting “; and”; and

11 (3) by adding at the end the following new  
12 paragraph:

13 “(4) encourage, as appropriate, United States  
14 allies and partners to oppose the People’s Republic  
15 of China’s efforts to undermine Taiwan’s official  
16 diplomatic relationships and its partnerships with  
17 countries with which it does not maintain diplomatic  
18 relations.”.

19 (e) REPORT ON THE PEOPLE’S REPUBLIC OF  
20 CHINA’S ATTEMPTS TO PROMOTE ITS “ONE CHINA” PO-  
21 SITION.—

22 (1) IN GENERAL.—Subsection (b) of section 5  
23 of the Taiwan Allies International Protection and  
24 Enhancement Initiative (TAIPEI) Act of 2019 (re-  
25 lating to strengthening ties with Taiwan) is amended

1 by inserting before the period at the end the fol-  
2 lowing: “, as well as information relating to any  
3 prior or ongoing attempts by the People’s Republic  
4 of China to undermine Taiwan’s membership or ob-  
5 server status in all organizations described in section  
6 (4)(1) and Taiwan’s ties and relationships with  
7 other countries in accordance with subsection (a) of  
8 this section”.

9 (2) EFFECTIVE DATE.—The amendment made  
10 by paragraph (1) shall take effect on the date of the  
11 enactment of this Act and apply beginning with the  
12 first report required under subsection (b) of section  
13 5 of the Taiwan Allies International Protection and  
14 Enhancement Initiative (TAIPEI) Act of 2019, as  
15 amended by paragraph (1), that is required after  
16 such date.

17 **SEC. 30212. TAIWAN FELLOWSHIP PROGRAM.**

18 (a) SHORT TITLE.—This section may be cited as the  
19 “Taiwan Fellowship Act”.

20 (b) FINDINGS; PURPOSES.—

21 (1) FINDINGS.—Congress finds the following:

22 (A) The Taiwan Relations Act (Public Law  
23 96–8; 22 U.S.C. 3301 et seq.) affirmed United  
24 States policy “to preserve and promote exten-  
25 sive, close, and friendly commercial, cultural,

1 and other relations between the people of the  
2 United States and the people on Taiwan, as  
3 well as the people on the China mainland and  
4 all other peoples of the Western Pacific area”.

5 (B) Consistent with the Asia Reassurance  
6 Initiative Act of 2018 (Public Law 115–409),  
7 the United States has grown its strategic part-  
8 nership with Taiwan’s vibrant democracy of  
9 23,000,000 people.

10 (C) Despite a concerted campaign by the  
11 People’s Republic of China to isolate Taiwan  
12 from its diplomatic partners and from inter-  
13 national organizations, including the World  
14 Health Organization, Taiwan has emerged as a  
15 global leader in the coronavirus global pandemic  
16 response, including by donating more than  
17 2,000,000 surgical masks and other medical  
18 equipment to the United States.

19 (D) The creation of a United States fellow-  
20 ship program with Taiwan would support—

21 (i) a key priority of expanding people-  
22 to-people exchanges, which was outlined in  
23 President Donald J. Trump’s 2017 Na-  
24 tional Security Strategy;

1 (ii) President Joseph R. Biden’s com-  
2 mitment to Taiwan, “a leading democracy  
3 and a critical economic and security part-  
4 ner”, as expressed in his March 2021 In-  
5 terim National Security Strategic Guid-  
6 ance; and

7 (iii) April 2021 guidance from the De-  
8 partment of State based on a review re-  
9 quired under the Taiwan Assurance Act of  
10 2020 (subtitle B of title III of division FF  
11 of Public Law 116–260) to “encourage  
12 U.S. government engagement with Taiwan  
13 that reflects our deepening unofficial rela-  
14 tionship”.

15 (2) PURPOSES.—The purposes of this section  
16 are—

17 (A) to further strengthen the United  
18 States-Taiwan strategic relationship and broad-  
19 en understanding of the Indo-Pacific region by  
20 temporarily assigning officials of agencies of the  
21 United States Government to Taiwan for inten-  
22 sive study in Mandarin Chinese and placement  
23 as Fellows with the governing authorities on  
24 Taiwan or a Taiwanese civic institution;

1 (B) to expand United States Government  
2 expertise in Mandarin Chinese language skills  
3 and understanding of the politics, history, and  
4 culture of Taiwan and the Indo-Pacific region  
5 by providing eligible United States personnel  
6 the opportunity to acquire such skills and un-  
7 derstanding through the Taiwan Fellowship  
8 Program established under subsection (c); and

9 (C) to better position the United States to  
10 advance its economic, security, and human  
11 rights interests and values in the Indo-Pacific  
12 region.

13 (c) TAIWAN FELLOWSHIP PROGRAM.—

14 (1) DEFINITIONS.—In this section:

15 (A) AGENCY HEAD.—The term “agency  
16 head” means, in the case of the executive  
17 branch of United States Government, or in the  
18 case of a legislative branch agency specified in  
19 subparagraph (B), the head of the respective  
20 agency.

21 (B) AGENCY OF THE UNITED STATES GOV-  
22 ERNMENT.—The term “agency of the United  
23 States Government” includes the Government  
24 Accountability Office, the Congressional Budget  
25 Office, the Congressional Research Service, and

1 the United States-China Economic and Security  
2 Review Commission of the legislative branch, as  
3 well as any agency of the executive branch.

4 (C) APPROPRIATE CONGRESSIONAL COM-  
5 MITTEES.—The term “appropriate congres-  
6 sional committees” means—

7 (i) the Committee on Appropriations,  
8 the Committee on Foreign Affairs, and the  
9 Committee on Armed Services of the  
10 House of Representatives; and

11 (ii) the Committee on Appropriations  
12 and the Committee on Foreign Relations  
13 of the Senate.

14 (D) DETAILEE.—The term “detailee”  
15 means an employee of an agency of the United  
16 States Government on loan to the American In-  
17 stitute in Taiwan, without a change of position  
18 from the agency at which such employee is em-  
19 ployed.

20 (E) IMPLEMENTING PARTNER.—The term  
21 “implementing partner” means any United  
22 States organization described in section  
23 501(c)(3) of the Internal Revenue Code of 1986  
24 and exempt from tax under section 501(a) of  
25 such Code that—

1 (i) is selected through a competitive  
2 process;

3 (ii) performs logistical, administrative,  
4 and other functions, as determined by the  
5 Department of State and the American In-  
6 stitute of Taiwan, in support of the Tai-  
7 wan Fellowship Program; and

8 (iii) enters into a cooperative agree-  
9 ment with the American Institute in Tai-  
10 wan to administer the Taiwan Fellowship  
11 Program.

12 (2) ESTABLISHMENT OF TAIWAN FELLOWSHIP  
13 PROGRAM.—

14 (A) ESTABLISHMENT.—The Secretary of  
15 State shall establish the “Taiwan Fellowship  
16 Program” (referred to in this section as the  
17 “Program”) to provide a fellowship opportunity  
18 in Taiwan of up to two years for eligible United  
19 States citizens through the cooperative agree-  
20 ment established in subparagraph (B). The Sec-  
21 retary of State, in consultation with appropriate  
22 counterparts at the American Institute in Tai-  
23 wan and the implementing partner, may modify  
24 the name of the Program.

25 (B) COOPERATIVE AGREEMENTS.—

1 (i) IN GENERAL.—The American In-  
2 stitute in Taiwan shall use amounts appro-  
3 priated pursuant to the authorization  
4 under paragraph (6)(A) to enter into an  
5 annual or multi-year cooperative agree-  
6 ment with an appropriate implementing  
7 partner.

8 (ii) FELLOWSHIPS.—The Secretary of  
9 State, in consultation with the American  
10 Institute in Taiwan and, as appropriate,  
11 the implementing partner, shall award to  
12 eligible United States citizens, subject to  
13 available funding—

14 (I) not fewer than five fellow-  
15 ships during the first two years of the  
16 Program; and

17 (II) not fewer than ten fellow-  
18 ships during each of the remaining  
19 years of the Program.

20 (C) INTERNATIONAL AGREEMENT; IMPL-  
21 MENTING PARTNER.—Not later than 30 days  
22 after the date of the enactment of this Act, the  
23 American Institute in Taiwan, in consultation  
24 with the Secretary of State, shall—

1 (i) begin negotiations with the Taipei  
2 Economic and Cultural Representative Of-  
3 fice, or with another appropriate entity, for  
4 the purpose of entering into an agreement  
5 to facilitate the placement of fellows in an  
6 agency of the governing authorities on Tai-  
7 wan; and

8 (ii) begin the process of selecting an  
9 implementing partner, which—

10 (I) shall agree to meet all of the  
11 legal requirements required to operate  
12 in Taiwan; and

13 (II) shall be composed of staff  
14 who demonstrate significant experi-  
15 ence managing exchange programs in  
16 the Indo-Pacific region.

17 (D) CURRICULUM.—

18 (i) FIRST YEAR.—During the first  
19 year of each fellowship under this sub-  
20 section, each fellow should study—

21 (I) the Mandarin Chinese lan-  
22 guage;

23 (II) the people, history, and polit-  
24 ical climate on Taiwan; and

1 (III) the issues affecting the rela-  
2 tionship between the United States  
3 and the Indo-Pacific region.

4 (ii) SECOND YEAR.—During the sec-  
5 ond year of each fellowship under this sec-  
6 tion, each fellow, subject to the approval of  
7 the Secretary of State, the American Insti-  
8 tute in Taiwan, and the implementing  
9 partner, and in accordance with the pur-  
10 poses of this section, shall work in—

11 (I) a parliamentary office, min-  
12 istry, or other agency of the governing  
13 authorities on Taiwan; or

14 (II) an organization outside of  
15 the governing authorities on Taiwan,  
16 whose interests are associated with  
17 the interests of the fellow and the  
18 agency of the United States Govern-  
19 ment from which the fellow had been  
20 employed.

21 (E) FLEXIBLE FELLOWSHIP DURATION.—

22 Notwithstanding any requirement under this  
23 section, the Secretary of State, in consultation  
24 with the American Institute in Taiwan and, as  
25 appropriate, the implementing partner, may

1           award fellowships that have a duration of be-  
2           tween nine months and two years, and may  
3           alter the curriculum requirements under sub-  
4           paragraph (D) for such purposes.

5           (F) SUNSET.—The Program shall termi-  
6           nate ten years after the date of the enactment  
7           of this section.

8           (3) PROGRAM REQUIREMENTS.—

9           (A) ELIGIBILITY REQUIREMENTS.—A  
10          United States citizen is eligible for a fellowship  
11          under this section if he or she—

12                 (i) is an employee of the United  
13                 States Government;

14                 (ii) has at least two years of experi-  
15                 ence in any branch of the United States  
16                 Government;

17                 (iii) has received at least one exem-  
18                 plary performance review in his or her cur-  
19                 rent United States Government role within  
20                 at least the last three years prior to begin-  
21                 ning the fellowship;

22                 (iv) has a demonstrated professional  
23                 or educational background in the relation-  
24                 ship between the United States and coun-  
25                 tries in the Indo-Pacific region; and

1 (v) has demonstrated his or her com-  
2 mitment to further service in the United  
3 States Government.

4 (B) RESPONSIBILITIES OF FELLOWS.—

5 Each recipient of a fellowship under this section  
6 shall agree, as a condition of such fellowship—

7 (i) to maintain satisfactory progress  
8 in language training and appropriate be-  
9 havior in Taiwan, as determined by the  
10 Department of State, the American Insti-  
11 tute in Taiwan and, as appropriate, its im-  
12 plementing partner;

13 (ii) to refrain from engaging in any  
14 intelligence or intelligence-related activity  
15 on behalf of the United States Govern-  
16 ment; and

17 (iii) to continue Federal Government  
18 employment for a period of not less than  
19 four years after the conclusion of the fel-  
20 lowship, or for not less than two years for  
21 a fellowship that is one year or shorter.

22 (C) RESPONSIBILITIES OF IMPLEMENTING  
23 PARTNER.—

24 (i) SELECTION OF FELLOWS.—The  
25 implementing partner, in close coordination

1 with the Secretary of State and the Amer-  
2 ican Institute in Taiwan, shall—

3 (I) make efforts to recruit fellow-  
4 ship candidates who reflect the diver-  
5 sity of the United States;

6 (II) select fellows for the Pro-  
7 gram based solely on merit, with ap-  
8 propriate supervision from the De-  
9 partment of State and the American  
10 Institute in Taiwan; and

11 (III) prioritize the selection of  
12 candidates willing to serve a fellow-  
13 ship lasting one year or longer.

14 (ii) FIRST YEAR.—The implementing  
15 partner should provide each fellow in the  
16 first year (or shorter duration, as jointly  
17 determined by the Secretary of State and  
18 the American Institute in Taiwan, for  
19 those who are not serving a two-year fel-  
20 lowship) with—

21 (I) intensive Mandarin Chinese  
22 language training; and

23 (II) courses in the politic, cul-  
24 ture, and history of Taiwan, China,  
25 and the broader Indo-Pacific.

1 (iii) WAIVER OF REQUIRED TRAIN-  
2 ING.—The Secretary of State, in coordina-  
3 tion with the American Institute in Taiwan  
4 and, as appropriate, the implementing  
5 partner, may waive any of the training re-  
6 quired under clause (ii) to the extent that  
7 a fellow has Mandarin Chinese language  
8 skills, knowledge of the topics described in  
9 clause (ii)(II), or for other related reasons  
10 approved by the Secretary of State and the  
11 American Institute in Taiwan. If any of  
12 the training requirements are waived for a  
13 fellow serving a two-year fellowship, the  
14 training portion of his or her fellowship  
15 may be shortened to the extent appro-  
16 priate.

17 (iv) OFFICE; STAFFING.—The imple-  
18 menting partner, in consultation with the  
19 Secretary of State and the American Insti-  
20 tute in Taiwan, shall maintain an office  
21 and at least one full-time staff member in  
22 Taiwan to—

23 (I) liaise with the American In-  
24 stitute in Taiwan and the governing  
25 authorities on Taiwan; and

1 (II) serve as the primary in-coun-  
2 try point of contact for the recipients  
3 of fellowships under this section and  
4 their dependents.

5 (v) OTHER FUNCTIONS.—The imple-  
6 menting partner should perform other  
7 functions in association in support of the  
8 Program, including logistical and adminis-  
9 trative functions, as included in the cooper-  
10 ative agreement entered into pursuant to  
11 paragraph (2)(B) by the Secretary of State  
12 and the American Institute in Taiwan.

13 (D) NONCOMPLIANCE.—

14 (i) IN GENERAL.—Any fellow who  
15 fails to comply with the requirements  
16 under this section shall reimburse the  
17 American Institute in Taiwan for—

18 (I) the Federal funds expended  
19 for the fellow's participation in the  
20 fellowship, as set forth in clauses (ii)  
21 and (iii); and

22 (II) interest accrued on such  
23 funds (calculated at the prevailing  
24 rate).

1 (ii) FULL REIMBURSEMENT.—Any fel-  
2 low who violates clause (i) or (ii) of sub-  
3 paragraph (B) shall reimburse the Amer-  
4 ican Institute in Taiwan in an amount  
5 equal to the sum of—

6 (I) all of the Federal funds ex-  
7 pended for the fellow's participation  
8 in the fellowship; and

9 (II) interest on the amount speci-  
10 fied in subclause (I), which shall be  
11 calculated at the prevailing rate.

12 (iii) PRO RATA REIMBURSEMENT.—  
13 Any fellow who violates subparagraph  
14 (B)(iii) shall reimburse the American Insti-  
15 tute in Taiwan in an amount equal to the  
16 difference between—

17 (I) the amount specified in clause

18 (ii); and

19 (II) the product of—

20 (aa) the amount the fellow  
21 received in compensation during  
22 the final year of the fellowship,  
23 including the value of any allow-  
24 ances and benefits received by  
25 the fellow; multiplied by

1 (bb) the percentage of the  
2 period specified in subparagraph  
3 (B)(iii) during which the fellow  
4 did not remain employed by the  
5 United States Government.

6 (E) ANNUAL REPORT.—Not later than 90  
7 days after the selection of the first class of fel-  
8 lows under this section and annually thereafter  
9 for 10 years, the Secretary of State shall offer  
10 to brief the appropriate congressional commit-  
11 tees regarding the following:

12 (i) An assessment of the performance  
13 of the implementing partner in fulfilling  
14 the purposes of this section.

15 (ii) The number of applicants each  
16 year, the number of applicants willing to  
17 serve a fellowship lasting one year or  
18 longer, and the number of such applicants  
19 selected for a fellowship.

20 (iii) The names and sponsoring agen-  
21 cies of the fellows selected by the imple-  
22 menting partner and the extent to which  
23 such fellows represent the diversity of the  
24 United States.

1 (iv) The names of the parliamentary  
2 offices, ministries, other agencies of the  
3 governing authorities on Taiwan, and non-  
4 governmental institutions to which each  
5 fellow was assigned.

6 (v) Any recommendations, as appro-  
7 priate, to improve the implementation of  
8 the Program, including added flexibilities  
9 in the administration of the program.

10 (vi) An assessment of the Program's  
11 value upon the relationship between the  
12 United States and Taiwan or the United  
13 States and Asian countries.

14 (F) ANNUAL FINANCIAL AUDIT.—

15 (i) IN GENERAL.—The financial  
16 records of any implementing partner shall  
17 be audited annually in accordance with  
18 generally accepted auditing standards by  
19 independent certified public accountants or  
20 independent licensed public accountants  
21 who are certified or licensed by a regu-  
22 latory authority of a State or another po-  
23 litical subdivision of the United States.

24 (ii) LOCATION.—Each audit under  
25 clause (i) shall be conducted at the place

1 or places where the financial records of the  
2 implementing partner are normally kept.

3 (iii) ACCESS TO DOCUMENTS.—The  
4 implementing partner shall make available  
5 to the accountants conducting an audit  
6 under clause (i)—

7 (I) all books, financial records,  
8 files, other papers, things, and prop-  
9 erty belonging to, or in use by, the  
10 implementing partner that are nec-  
11 essary to facilitate the audit; and

12 (II) full facilities for verifying  
13 transactions with the balances or se-  
14 curities held by depositories, fiscal  
15 agents, and custodians.

16 (iv) REPORT.—

17 (I) IN GENERAL.—Not later than  
18 180 days after the end of each fiscal  
19 year, the implementing partner shall  
20 provide a report of the audit con-  
21 ducted for such fiscal year under  
22 clause (i) to the Secretary of State  
23 and the American Institute in Taiwan.

24 (II) CONTENTS.—Each audit re-  
25 port under subclause (I) shall—

1 (aa) set forth the scope of  
2 the audit at issue;

3 (bb) include such state-  
4 ments, along with the auditor's  
5 opinion of those statements, as  
6 may be necessary to present fair-  
7 ly the implementing partner's as-  
8 sets and liabilities, surplus or  
9 deficit, with reasonable detail;

10 (cc) include a statement of  
11 the implementing partner's in-  
12 come and expenses during the  
13 year; and

14 (dd) include a schedule of—  
15 (AA) all contracts and  
16 cooperative agreements re-  
17 quiring payments greater  
18 than \$5,000; and

19 (BB) any payments of  
20 compensation, salaries, or  
21 fees at a rate greater than  
22 \$5,000 per year.

23 (III) COPIES.—Each audit report  
24 shall be produced in sufficient copies  
25 for distribution to the public.

1           (4) TAIWAN FELLOWS ON DETAIL FROM GOV-  
2           ERNMENT SERVICE.—

3           (A) IN GENERAL.—

4           (i) DETAIL AUTHORIZED.—With the  
5           approval of the Secretary of State, an  
6           agency head may detail, for a period of not  
7           more than two years, an employee of the  
8           agency of the United States Government  
9           who has been awarded a fellowship under  
10          this Act, to the American Institute in Tai-  
11          wan for the purpose of assignment to the  
12          governing authorities on Taiwan or an or-  
13          ganization described in paragraph  
14          (2)(D)(ii)(II).

15          (ii) AGREEMENT.—Each detailee shall  
16          enter into a written agreement with the  
17          Federal Government before receiving a fel-  
18          lowship, in which the fellow shall agree—

19                  (I) to continue in the service of  
20                  the sponsoring agency at the end of  
21                  fellowship for a period of at least four  
22                  years (or at least two years if the fel-  
23                  lowship duration is one year or short-  
24                  er) unless such detailee is involun-

1           tarily separated from the service of  
2           such agency; and

3                   (II) to pay to the American Insti-  
4           tute in Taiwan any additional ex-  
5           penses incurred by the United States  
6           Government in connection with the  
7           fellowship if the detailee voluntarily  
8           separates from service with the spon-  
9           soring agency before the end of the  
10          period for which the detailee has  
11          agreed to continue in the service of  
12          such agency.

13                   (iii) EXCEPTION.—The payment  
14          agreed to under clause (ii)(II) may not be  
15          required of a detailee who leaves the serv-  
16          ice of the sponsoring agency to enter into  
17          the service of another agency of the United  
18          States Government unless the head of the  
19          sponsoring agency notifies the detailee be-  
20          fore the effective date of entry into the  
21          service of the other agency that payment  
22          will be required under this subsection.

23                   (B) STATUS AS GOVERNMENT EM-  
24          PLOYEE.—A detailee under this paragraph—

1 (i) is deemed, for the purpose of pre-  
2 serving allowances, privileges, rights, se-  
3 niority, and other benefits, to be an em-  
4 ployee of the sponsoring agency;

5 (ii) is entitled to pay, allowances, and  
6 benefits from funds available to such agen-  
7 cy, which is deemed to comply with section  
8 5536 of title 5, United States Code; and

9 (iii) may be assigned to a position  
10 with an entity described in paragraph  
11 (2)(D)(ii)(I) if acceptance of such position  
12 does not involve—

13 (I) the taking of an oath of alle-  
14 giance to another government; or

15 (II) the acceptance of compensa-  
16 tion or other benefits from any foreign  
17 government by such detailee.

18 (C) RESPONSIBILITIES OF SPONSORING  
19 AGENCY.—

20 (i) IN GENERAL.—The agency of the  
21 United States Government from which a  
22 detailee is detailed should provide the fel-  
23 low allowances and benefits that are con-  
24 sistent with Department of State Stand-

1           ardized Regulations or other applicable  
2           rules and regulations, including—

3                   (I) a living quarters allowance to  
4                   cover the cost of housing in Taiwan;

5                   (II) a cost of living allowance to  
6                   cover any possible higher costs of liv-  
7                   ing in Taiwan;

8                   (III) a temporary quarters sub-  
9                   sistence allowance for up to seven  
10                  days if the fellow is unable to find  
11                  housing immediately upon arriving in  
12                  Taiwan;

13                  (IV) an education allowance to  
14                  assist parents in providing the fellow's  
15                  minor children with educational serv-  
16                  ices ordinarily provided without  
17                  charge by public schools in the United  
18                  States;

19                  (V) moving expenses to transport  
20                  personal belongings of the fellow and  
21                  his or her family in their move to Tai-  
22                  wan, which is comparable to the al-  
23                  lowance given for American Institute  
24                  in Taiwan employees assigned to Tai-  
25                  wan; and

1 (VI) an economy-class airline  
2 ticket to and from Taiwan for each  
3 fellow and the fellow's immediate fam-  
4 ily.

5 (ii) MODIFICATION OF BENEFITS.—  
6 The American Institute in Taiwan and its  
7 implementing partner, with the approval of  
8 the Department of State, may modify the  
9 benefits set forth in clause (i) if such  
10 modification is warranted by fiscal cir-  
11 cumstances.

12 (D) NO FINANCIAL LIABILITY.—The  
13 American Institute in Taiwan, the imple-  
14 menting partner, and any governing authorities  
15 on Taiwan or nongovernmental entities in Tai-  
16 wan at which a fellow is detailed during the sec-  
17 ond year of the fellowship may not be held re-  
18 sponsible for the pay, allowances, or any other  
19 benefit normally provided to the detailee.

20 (E) REIMBURSEMENT.—Fellows may be  
21 detailed under clause (A)(ii) without reimburse-  
22 ment to the United States by the American In-  
23 stitute in Taiwan.

24 (F) ALLOWANCES AND BENEFITS.—  
25 Detailees may be paid by the American Insti-

1           tute in Taiwan for the allowances and benefits  
2           listed in subparagraph (C).

3           (5) GAO REPORT.—Not later than one year be-  
4           fore the sunset of the Program pursuant to para-  
5           graph (2)(F), the Comptroller General of the United  
6           States shall transmit to the Committee on Foreign  
7           Relations of the Senate and the Committee on For-  
8           eign Affairs of the House of Representatives a re-  
9           port that includes the following:

10                   (A) An analysis of United States Govern-  
11                   ment participants in the Program, including the  
12                   number of applicants and the number of fellow-  
13                   ships undertaken, and the places of employ-  
14                   ment.

15                   (B) An assessment of the costs and bene-  
16                   fits for participants in the Program and for the  
17                   United States Government of such fellowships.

18                   (C) An analysis of the financial impact of  
19                   the fellowship on United States Government of-  
20                   fices that have detailed fellows to participate in  
21                   the Program.

22                   (D) Recommendations, if any, on how to  
23                   improve the Program.

24           (6) FUNDING.—

1 (A) AUTHORIZATION OF APPROPRIA-  
2 TIONS.—There are authorized to be appro-  
3 priated to the American Institute in Taiwan—

4 (i) for fiscal year 2022, \$2,900,000,  
5 of which \$500,000 should be made avail-  
6 able to an appropriate implementing part-  
7 ner to launch the Program; and

8 (ii) for fiscal year 2023, and each suc-  
9 ceeding fiscal year, \$2,400,000.

10 (B) PRIVATE SOURCES.—The imple-  
11 menting partner selected to implement the Pro-  
12 gram may accept, use, and dispose of gifts or  
13 donations of services or property in carrying  
14 out such program, subject to the review and ap-  
15 proval of the American Institute in Taiwan.

16 **SEC. 30213. INCREASING DEPARTMENT OF STATE PER-**  
17 **SONNEL AND RESOURCES DEVOTED TO THE**  
18 **INDO-PACIFIC.**

19 (a) FINDINGS.—Congress makes the following find-  
20 ings:

21 (1) In fiscal year 2020, the Department of  
22 State allocated \$1,500,000,000 to the Indo-Pacific  
23 region in bilateral and regional foreign assistance re-  
24 sources, including as authorized by section 201(b) of  
25 the Asia Reassurance Initiative Act of 2018 (Public

1 Law 115–409; 132 Stat. 5391), and \$798,000,000  
2 in the fiscal year 2020 diplomatic engagement budg-  
3 et. These amounts represent only 5 percent of the  
4 diplomatic engagement budget and only 4 percent of  
5 the total Department of State-USAID budget.

6 (2) Over the last 5 years the diplomatic engage-  
7 ment budget and personnel levels in the Indo-Pacific  
8 averaged only 5 percent of the total, while foreign  
9 assistance resources averaged only 4 percent of the  
10 total.

11 (3) In 2020, the Department of State began a  
12 process to realign certain positions at posts to en-  
13 sure that its personnel footprint matches the de-  
14 mands of great-power competition, including in the  
15 Indo-Pacific.

16 (b) SENSE OF CONGRESS.—It is the sense of Con-  
17 gress that—

18 (1) the size of the United States diplomatic  
19 corps must be sufficient to meet the current and  
20 emerging challenges of the 21st century, including  
21 those in the Indo-Pacific region and elsewhere;

22 (2) robust Chinese-language skills are necessary  
23 for the success of the United States diplomatic corps  
24 and integral to its ability to meet national security  
25 objectives;

1           (3) the increase must be designed to meet the  
2 objectives of an Indo-Pacific strategy focused on  
3 strengthening the good governance and sovereignty  
4 of countries that adhere to and uphold the rules-  
5 based international order; and

6           (4) the increase must be implemented with a  
7 focus on increased numbers of economic, political,  
8 and public diplomacy officers, representing a cumu-  
9 lative increase of at least 200 Foreign Service officer  
10 generalists, to—

11           (A) advance free, fair, and reciprocal trade  
12 and open investment environments for United  
13 States entities, and engaged in increased com-  
14 mercial diplomacy in key markets;

15           (B) better articulate and explain United  
16 States policies, strengthen civil society and  
17 democratic principles, enhance reporting on  
18 global activities, promote people-to-people ex-  
19 changes, and advance United States influence;  
20 and

21           (C) increase capacity at small- and me-  
22 dium-sized embassies and consulates in the  
23 Indo-Pacific and other regions around the  
24 world, as necessary.

1 (c) STATEMENT OF POLICY.—It shall be the policy  
2 of the United States to—

3 (1) ensure Department of State funding levels  
4 and personnel footprint in the Indo-Pacific reflect  
5 the region’s high degree of importance and signifi-  
6 cance to United States political, economic, and secu-  
7 rity interests; and

8 (2) increase diplomatic engagement and foreign  
9 assistance funding and the quantity of personnel  
10 dedicated to the Indo-Pacific region respective to the  
11 Department of State’s total budget.

12 (d) ACTION PLAN.—Not later than 180 days after  
13 the date of the enactment of this Act, the Secretary of  
14 State shall provide to the appropriate congressional com-  
15 mittees (including the Permanent Select Committee on In-  
16 telligence of the House of Representatives and the Select  
17 Committee on Intelligence of the Senate) of Congress an  
18 action plan that includes the following elements:

19 (1) Identification of requirements to advance  
20 United States strategic objectives in the Indo-Pacific  
21 and the personnel and budgetary resources for the  
22 Department of State needed to satisfy such objec-  
23 tives, assuming an unconstrained resource environ-  
24 ment.

1           (2) A plan to increase the portion of the De-  
2           partment's budget dedicated to the Indo-Pacific in  
3           terms of DE and FA focused on development, eco-  
4           nomic, and security assistance.

5           (3) A plan to increase the number of positions  
6           at posts in the Indo-Pacific region and bureaus with  
7           responsibility for the Indo-Pacific region, including a  
8           description of increases at each post or bureau, a  
9           breakdown of increases by cone, and a description of  
10          how such increases in personnel will advance United  
11          States strategic objectives in the Indo-Pacific region.

12          (4) A plan to increase the number of Chinese-  
13          language speakers and translation specialists at  
14          posts in the Indo-Pacific region and within bureau  
15          offices with responsibility for the Indo-Pacific region,  
16          including in INR.

17          (5) A description of any staffing or other train-  
18          ing or personnel reforms that may be required to  
19          quickly increase departmental capacity to address  
20          the inter-disciplinary, interconnected opportunities  
21          and challenges presented in the Indo-Pacific, includ-  
22          ing but not limited to issues related to climate  
23          change, public health, supply chains, cybersecurity,  
24          and digital technology issues.

1           (6) Defined concrete and annual benchmarks  
2           that the Department will meet in implementing the  
3           action plan.

4           (7) A description of any barriers to imple-  
5           menting the action plan and recommendations to ad-  
6           dress these barriers, noting whether additional au-  
7           thorities or resources from Congress is needed to ad-  
8           dress these barriers.

9           (e) UPDATES TO REPORT AND BRIEFING.—Every  
10          180 days after the submission of the action plan described  
11          in subsection (d) for not more than 3 years, the Secretary  
12          of State shall submit an update and brief the appropriate  
13          congressional committees (including the Permanent Select  
14          Committee on Intelligence of the House of Representatives  
15          and the Select Committee on Intelligence of the Senate)  
16          on the implementation of such action plan, with sup-  
17          porting data and including a detailed assessment of bench-  
18          marks reached.

19          (f) AUTHORIZATION OF APPROPRIATIONS.—There is  
20          authorized to be appropriated, for fiscal year 2022,  
21          \$2,000,000,000 in bilateral and regional foreign assist-  
22          ance resources to carry out the purposes of part I and  
23          chapter 4 of part II of the Foreign Assistance Act of 1961  
24          (22 U.S.C. 2151 et seq., 2346 et seq.) to the Indo-Pacific

1 region and \$1,250,000,000 in diplomatic engagement re-  
2 sources to the Indo-Pacific region.

3 (g) INCLUSION OF AMOUNTS APPROPRIATED PURSU-  
4 ANT TO ASIA REASSURANCE INITIATIVE ACT OF 2018.—  
5 Amounts authorized to be appropriated under subsection  
6 (f) include funds authorized to be appropriated pursuant  
7 to section 201(b) of the Asia Reassurance Initiative Act  
8 of 2018 (Public Law 115–409).

9 (h) BENCHMARKS UPDATE.—Not later than 2 years  
10 after the date of the enactment of this Act, the Secretary  
11 of State shall report to the appropriate congressional com-  
12 mittees on the extent to which the strategic objectives de-  
13 scribed in the action plan in subsection (d) have been sat-  
14 isfied or progress toward such satisfaction has been made.

15 **SEC. 30214. REPORT ON BILATERAL EFFORTS TO ADDRESS**  
16 **CHINESE FENTANYL TRAFFICKING.**

17 (a) CHINA’S CLASS SCHEDULING OF FENTANYL AND  
18 SYNTHETIC OPIOID PRECURSORS.—Not later than 180  
19 days after the date of the enactment of this Act, the Sec-  
20 retary of State and Attorney General shall submit to the  
21 appropriate congressional committees a written report de-  
22 tailing—

23 (1) a description of United States Government  
24 efforts to gain a commitment from the Government  
25 of the People’s Republic of China (PRC) to submit

1 unregulated fentanyl precursors such as 4-AP to  
2 controls;

3 (2) a plan for future steps the United States  
4 Government will take to urge the PRC to combat il-  
5 licit fentanyl production and trafficking originating  
6 in the PRC;

7 (3) an assessment of the intersection between  
8 illicit fentanyl trafficking originating in China and  
9 illicit environmental trade and possible relationships  
10 of trade-based money laundering;

11 (4) an assessment of the intersection between  
12 illicit fentanyl trafficking originating in China and  
13 counterfeit medicines and medical supplies in the  
14 United States; and

15 (5) an assessment of the intersection between  
16 illicit fentanyl trafficking originating in China and  
17 the illicit fentanyl trafficked over the United States-  
18 Mexico border into the United States.

19 (b) FORM OF REPORT.—The report required under  
20 subsection (a) shall be submitted in unclassified form with  
21 a classified annex.

1 **SEC. 30215. FACILITATION OF INCREASED EQUITY INVEST-**  
2 **MENTS UNDER THE BETTER UTILIZATION OF**  
3 **INVESTMENTS LEADING TO DEVELOPMENT**  
4 **ACT OF 2018.**

5 (a) **APPLICABILITY OF FEDERAL CREDIT REFORM**  
6 **ACT OF 1990.**—Section 1421(c) of the Better Utilization  
7 of Investments Leading to Development Act of 2018 (22  
8 U.S.C. 9621(c)) is amended by adding at the end the fol-  
9 lowing:

10 “(7) **APPLICABILITY OF FEDERAL CREDIT RE-**  
11 **FORM ACT OF 1990.**—

12 “(A) **IN GENERAL.**—Subject to subpara-  
13 graphs (B) and (C), support provided under  
14 paragraph (1) with respect to a project shall be  
15 considered to be a Federal credit program that  
16 is subject to the Federal Credit Reform Act of  
17 1990 (2 U.S.C. 661 et seq.) for purposes of ap-  
18 plying the requirements of such Act to such  
19 support.

20 “(B) **DETERMINATION OF COST.**—

21 “(i) **IN GENERAL.**—For purposes of  
22 section 502(5) of the Federal Credit Re-  
23 form Act of 1990 (2 U.S.C. 661a(5) et  
24 seq.) the cost of support provided under  
25 paragraph (1) with respect to a project  
26 shall be the net present value, at the time

1           when funds are disbursed to provide the  
2           support, of the following estimated cash  
3           flows:

4                   “(I) The purchase price of the  
5                   support.

6                   “(II) Dividends, redemptions,  
7                   and other shareholder distributions  
8                   during the term of the support.

9                   “(III) Proceeds received upon a  
10                  sale, redemption, or other liquidation  
11                  of the support.

12                  “(IV) Adjustments for risk of es-  
13                  timated losses, if any.

14                  “(ii) CHANGES IN TERMS IN-  
15                  CLUDED.—The estimated cash flows de-  
16                  scribed in subclauses (I) through (IV) of  
17                  clause (i) shall include the effects of  
18                  changes in terms resulting from the exer-  
19                  cise of options included in the agreement  
20                  to provide the support.

21                  “(C) REESTIMATE OF COST.—When the  
22                  estimated cost of support provided under para-  
23                  graph (1) with respect to a project made in a  
24                  single fiscal year is reestimated in a subsequent  
25                  year, the difference between the reestimated

1 cost and the previous cost estimate shall be  
2 paid from the balances available in the Cor-  
3 porate Capital Account established under sec-  
4 tion 1434.”.

5 (b) MAXIMUM CONTINGENT LIABILITY.—Section  
6 1433 of the Better Utilization of Investments Leading to  
7 Development Act of 2018 (22 U.S.C. 9633) is amended  
8 by striking “\$60,000,000,000” and inserting  
9 “\$100,000,000,000”.

10 (c) FUNDING FOR CORPORATE CAPITAL ACCOUNT.—  
11 Section 1434(b) of the Better Utilization of Investments  
12 Leading to Development Act of 2018 (22 U.S.C. 9634(b))  
13 is amended—

14 (1) in paragraph (5), by striking “and” at the  
15 end;

16 (2) by redesignating paragraph (6) as para-  
17 graph (7); and

18 (3) by inserting after paragraph (5) the fol-  
19 lowing:

20 “(6) receipts of reestimated costs received pur-  
21 suant to section 1421(c); and”.

22 (d) REPORT.—Not later than 180 days after the date  
23 of the enactment of this Act, the Chief Executive Officer  
24 of the United States International Development Finance  
25 Corporation shall submit to the appropriate congressional

1 committees and the Committee on Appropriations of the  
2 House of Representatives and the Senate a report on—

3           (1) a plan to expand the Corporation’s financ-  
4           ing to support United States national security and  
5           development priorities in critical regions; and

6           (2) the budgetary, staffing, and programmatic  
7           resources that would be required in order to carry  
8           out the plan required by this subsection.

9 **SEC. 30216. EXPANDING INVESTMENT BY UNITED STATES**

10                           **INTERNATIONAL DEVELOPMENT FINANCE**

11                           **CORPORATION FOR VACCINE MANUFAC-**

12                           **TURING, DISTRIBUTION, STORAGE, AND DE-**

13                           **LIVERY.**

14           (a) **IN GENERAL.**—The Development Finance Cor-  
15           poration is authorized to provide financing to entities in  
16           India and in other less developed countries to increase vac-  
17           cine manufacturing, distribution, storage, and delivery ca-  
18           pacity for the following purposes:

19                   (1) Manufacturing Stringent Regulatory Au-  
20                   thorization (SRA) or World Health Organization  
21                   (WHO) Emergency Use Listing COVID–19 vac-  
22                   cines.

23                   (2) Manufacturing SRA or WHO Emergency  
24                   Use Listing therapeutics used to treat symptoms re-  
25                   lated to COVID–19.

1           (3) Manufacturing critical medical supplies  
2           needed for preventing, detecting and treating  
3           COVID–19, including ventilators, personal protective  
4           equipment, oxygen, diagnostics, auto-disable sy-  
5           ringes, therapeutics and vaccines.

6           (4) Enhancing the cold chain necessary for the  
7           production, delivery, storage, and distribution of vac-  
8           cines.

9           (b) REPORTING REQUIREMENT.—Not later than 180  
10          days after the date of the enactment of this Act, the Chief  
11          Executive Officer of the Development Finance Corpora-  
12          tion, in coordination with the Secretary of State, shall pro-  
13          vide a report to the appropriate congressional commit-  
14          tees—

15               (1) outlining the countries where DFC financ-  
16               ing could be most impactful for vaccine manufac-  
17               turing, distribution, storage, and delivery and to  
18               achieve the goal of manufacturing, distributing, and  
19               delivering 1 billion COVID–19 vaccines by 2022;

20               (2) including a detailed explanation of the  
21               United States and partner country interests served  
22               by the United States providing support to such  
23               projects;

24               (3) including a detailed description of any sup-  
25               port provided by other United States allies and part-

1       ners to expand the initiatives outlined in subsection  
2       (a); and

3               (4) including a detailed description of any sup-  
4       port provided by the People’s Republic of China in  
5       support of the initiatives outlined in subsection (a).

6       (c) FORM OF REPORT.—The report required by sub-  
7       section (b) shall be submitted in unclassified form with  
8       a classified annex if necessary.

9       **SEC. 30217. ACTIONS TO PREVENT THE SPREAD OF THE**  
10                               **COVID-19 PANDEMIC.**

11       The Secretary of State, in coordination with the Ad-  
12       ministrators for the US Agency for International Develop-  
13       ment, shall to the extent practicable, expand testing capac-  
14       ity, vaccination distribution, and acquisition of needed  
15       medical supplies, including available COVID-19 vaccines  
16       and supporting vaccination efforts, to—

17               (1) ensure continued success in preventing the  
18       spread of the COVID-19 pandemic,

19               (2) achieve swift and widespread vaccinations,  
20       pursuing long-term economic recovery globally, and

21               (3) demonstrate American commitment to glob-  
22       al engagement and diplomatic support.

1 **SEC. 30218. ENSURING UNITED STATES DIPLOMATIC POSTS**  
2 **ALIGN WITH AMERICAN STRATEGIC NA-**  
3 **TIONAL SECURITY AND ECONOMIC OBJEC-**  
4 **TIVES.**

5 (a) **FINDING.**—With 276 embassies and other rep-  
6 resentative offices globally, China now has more diplo-  
7 matic posts around the world than any other country, in-  
8 cluding the United States. Many of Beijing’s new missions  
9 can be found in countries that recently broke ties with Tai-  
10 wan (Burkina Faso, the Dominican Republic, El Salvador,  
11 the Gambia, and São Tomé and Príncipe) or do not have  
12 any United States diplomatic physical presence despite  
13 these countries asking for increased United States engage-  
14 ment and investment (Antigua and Barbuda and Domi-  
15 nica).

16 (b) **SENSE OF CONGRESS.**—It is the sense of Con-  
17 gress, that the Department of State should conduct an  
18 assessment of all United States diplomatic missions and  
19 posts to verify such missions and posts align with United  
20 States national security and economic interests, as well as  
21 ensuring that these locations position the United States  
22 appropriately with its strategic competitors to advance the  
23 national interest in every country worldwide, including  
24 those countries currently lacking any physical United  
25 States diplomatic presence, whether an embassy, consulate  
26 general, or principal officer post.

1           (c) REPORTING.—Not later than 180 days after the  
2 date of the enactment of this Act and biennially thereafter  
3 for 4 years, the Secretary of State shall submit to the ap-  
4 propriate congressional committees (including the Perma-  
5 nent Select Committee on Intelligence of the House of  
6 Representatives and the Select Committee on Intelligence  
7 of the Senate) a report assessing the number, location,  
8 and objectives of each of its diplomatic missions and posts  
9 worldwide, including an assessment of any gaps that exist  
10 compared to other country strategic competitors. The Sec-  
11 retary of State shall coordinate with the heads of other  
12 Federal departments and agencies having an overseas  
13 presence at any United States diplomatic mission or post  
14 to ensure such assessment reflects all Federal Government  
15 equities and viewpoints.

16 **SEC. 30219. AUTHORIZATION OF APPROPRIATIONS FOR**  
17 **THE FULBRIGHT-HAYS PROGRAM.**

18           (a) IN GENERAL.—There are authorized to be appro-  
19 priated, for the 5-year period beginning on October 1,  
20 2021, \$105,500,000, to promote education, training, re-  
21 search, and foreign language skills through the Fulbright-  
22 Hays Program, in accordance with section 102(b) of the  
23 Mutual Educational and Cultural Exchange Act of 1961  
24 (22 U.S.C. 2452(b)).

1 (b) NULLIFICATION.—Section 3(i) of Executive  
2 Order No. 13936 (relating to the termination of the Ful-  
3 bright exchange program with regard to China and Hong  
4 Kong with respect to future exchanges for participants  
5 traveling both from and to China or Hong Kong) is nul-  
6 lified and shall have no force or effect, and Fulbright ex-  
7 changes with China and Hong Kong shall carry on as if  
8 such section had not be included in such Executive Order.

9 **SEC. 30219A. SUPPORTING INDEPENDENT MEDIA AND**  
10 **COUNTERING DISINFORMATION.**

11 (a) AUTHORIZATION OF USAGM APPROPRIA-  
12 TIONS.—There is authorized to be appropriated for the  
13 United States Agency for Global Media \$100,000,000 for  
14 each of fiscal years 2022 through 2026, for ongoing and  
15 new programs to support local media, build independent  
16 media, combat CCP disinformation inside and outside of  
17 the People’s Republic of China, invest in technology to  
18 subvert censorship, and monitor and evaluate such pro-  
19 grams, of which—

20 (1) not less than \$70,000,000 shall be directed  
21 to a grant to Radio Free Asia language services;

22 (2) not less than \$20,000,000 shall be made  
23 available to serve populations in China through  
24 Mandarin, Cantonese, Uyghur, and Tibetan lan-  
25 guage services; and

1           (3) not less than \$5,500,000 shall be made  
2           available for digital media services—

3                   (A) to counter propaganda of non-Chinese  
4                   populations in foreign countries; and

5                   (B) to counter propaganda of Chinese pop-  
6                   ulations in China through “Global Mandarin”  
7                   programming.

8           (b) SUPPORT FOR LOCAL MEDIA.—The Secretary of  
9           State, acting through the Assistant Secretary of State for  
10           Democracy, Human Rights, and Labor, and the Adminis-  
11           trator of the United States Agency for International De-  
12           velopment, acting through the Assistant Administrator for  
13           Development, Democracy, and Innovation, shall jointly  
14           support and train foreign journalists on investigative tech-  
15           niques necessary to ensure public accountability, promote  
16           transparency, fight corruption, and support the ability of  
17           the public to develop informed opinions about pressing  
18           issues facing their countries.

19           (c) INTERNET FREEDOM PROGRAMS.—The Bureau  
20           of Democracy, Human Rights, and Labor shall continue  
21           to support internet freedom programs.

22           (d) AUTHORIZATION OF APPROPRIATIONS.—There is  
23           authorized to be appropriated to the Department of State  
24           and United States Agency for International Development  
25           \$170,000,000 for each of fiscal years 2022 through 2026,

1 for ongoing and new programs in support of press free-  
2 dom, training, and protection of journalists. Amounts ap-  
3 propriated pursuant to this authorization are authorized  
4 to remain available until expended and shall be in addition  
5 to amounts otherwise authorized to be appropriated to  
6 support press freedom, training, and protection of journal-  
7 ists.

8 **SEC. 30219B. GLOBAL ENGAGEMENT CENTER.**

9 (a) FINDING.—Congress established the Global En-  
10 gagement Center to “direct, lead, and coordinate efforts”  
11 of the Federal Government to “recognize, understand, ex-  
12 pose, and counter foreign state and non-state propaganda  
13 and disinformation globally”.

14 (b) EXTENSION.—Section 1287(j) of the National  
15 Defense Authorization Act for Fiscal Year 2017 (22  
16 U.S.C. 2656 note) is amended by striking “the date that  
17 is 8 years after the date of the enactment of this Act”  
18 and inserting “December 31, 2027”.

19 (c) SENSE OF CONGRESS.—It is the sense of Con-  
20 gress that the Global Engagement Center should expand  
21 its coordinating capacity of diplomatic messaging through  
22 the exchange of liaison officers with Federal departments  
23 and agencies that manage aspects of identifying and coun-  
24 tering foreign disinformation, including the Office of the

1 Director of National Intelligence and Special Operations  
2 Command's Joint MISO Web Operations Center.

3 (d) AUTHORIZATION OF APPROPRIATIONS.—There is  
4 authorized to be appropriated \$150,000,000 for fiscal year  
5 2022 for the Global Engagement Center to counter foreign  
6 state and non-state sponsored propaganda and  
7 disinformation.

8 **SEC. 30219C. REPORT ON ORIGINS OF THE COVID-19 PAN-**  
9 **DEMIC.**

10 (a) SENSE OF CONGRESS.—It is the sense of Con-  
11 gress that—

12 (1) understanding the origins of the COVID-19  
13 pandemic may help the United States better pre-  
14 pare, prevent, and respond to pandemic health  
15 threats in the future;

16 (2) given the impact of the COVID-19 pan-  
17 demic on all Americans, the American people deserve  
18 to know what information the United States Govern-  
19 ment possesses about the origins of COVID-19, as  
20 appropriate;

21 (3) it is critical for independent experts to have  
22 full access to all pertinent human, animal, and envi-  
23 ronmental data, biological sample, research, and per-  
24 sonnel involved in the early stages of the outbreak  
25 relevant to determining how this pandemic emerged;

1           (4) Congress shares the concerns expressed by  
2           the United States Government and 13 other foreign  
3           governments that the international team of experts  
4           dispatched to the People’s Republic of China by the  
5           World Health Organization (WHO) to study the ori-  
6           gins of the SARS-CoV-2 virus was “significantly  
7           delayed and lacked access to complete, original data  
8           and samples”;

9           (5) the G7 communique expressing support for  
10          full implementation of the International Health Reg-  
11          ulations, including “a timely, transparent, expert-  
12          led, and science-based WHO-convened Phase 2  
13          COVID-19 Origins study including, as rec-  
14          ommended by the experts’ report, in China” is a val-  
15          uable commitment by the United States and its al-  
16          lies to investigating the origins of COVID-19 in  
17          order to better prepare for future pandemics; and

18          (6) Congress supports the effort announced by  
19          President Biden, directing the intelligence commu-  
20          nity to conduct a 90 day review to further analyze  
21          information pointing to the origins of COVID-19,  
22          which resulted in broad intelligence community  
23          agreement that the “virus was not developed as a bi-  
24          ological weapon” and “two hypotheses remain plau-

1       sible: natural exposure to an infected animal and a  
2       laboratory-associated incident”.

3       (b) REPORT REQUIRED.—Not later than 180 days  
4 after enactment of this Act, the President shall submit  
5 to the appropriate committees of Congress a report con-  
6 sisting of—

7           (1) an assessment of the most likely source or  
8       origin of the SARS-CoV-2 virus, including a de-  
9       tailed review of all information the United States  
10      possesses that it has identified as potentially rel-  
11      evant to the source or origin of the SARS-CoV-2  
12      virus, including zoonotic transmission and spillover,  
13      or other sources of origin, transmission, or spillover,  
14      based on the information the United States Govern-  
15      ment has to date;

16           (2) its level of confidence in its assessment; and

17           (3) challenges identified to its ability to make  
18      such an assessment.

19       (c) FORM.—The report required by subsection (b)  
20 shall be submitted in unclassified form but may include  
21 a classified annex.

22       (d) APPROPRIATE COMMITTEES OF CONGRESS DE-  
23 FINED.—In this section, the term “appropriate commit-  
24 tees of Congress” means—

1 (1) the Committee on Foreign Relations of the  
2 Senate;

3 (2) the Select Committee on Intelligence of the  
4 Senate;

5 (3) the Committee on Health, Education,  
6 Labor, and Pensions of the Senate;

7 (4) the Committee on Energy and Natural Re-  
8 sources of the Senate;

9 (5) the Committee on Foreign Affairs of the  
10 House of Representatives;

11 (6) the Permanent Select Committee on Intel-  
12 ligence of the House of Representatives; and

13 (7) the Committee on Energy and Commerce of  
14 the House of Representatives.

15 **SEC. 30219D. EXTENSION OF ASIA REASSURANCE INITIA-**  
16 **TIVE ACT OF 2018.**

17 (a) SENSE OF CONGRESS.—It is the sense of Con-  
18 gress that—

19 (1) the Indo-Pacific region is home to many of  
20 the world’s most dynamic democracies, economic op-  
21 portunities, as well as many challenges to United  
22 States interests and values as a result of the growth  
23 in authoritarian governance in the region and by  
24 broad challenges posed by nuclear proliferation, the

1 changing environment, and deteriorating adherence  
2 to human rights principles and obligations;

3 (2) the People’s Republic of China poses a par-  
4 ticular threat as it repeatedly violates internationally  
5 recognized human rights, engages in unfair economic  
6 and trade practices, disregards international laws  
7 and norms, coerces its neighbors, engages in malign  
8 influence operations, and enables global digital  
9 authoritarianism;

10 (3) the Asia Reassurance Initiative Act of 2018  
11 (“ARIA”) enhances the United States’ commitment  
12 in the Indo-Pacific region by—

13 (A) expanding its defense cooperation with  
14 its allies and partners;

15 (B) investing in democracy and the protec-  
16 tion of human rights;

17 (C) engaging in cybersecurity initiatives;  
18 and

19 (D) supporting people-to-people engage-  
20 ment and other shared priorities; and

21 (4) the 2019 Department of Defense Indo-Pa-  
22 cific Strategy Report concludes that ARIA “en-  
23 shrines a generational whole-of-government policy  
24 framework that demonstrates U.S. commitment to a  
25 free and open Indo-Pacific region”.

1 (b) AUTHORIZATION OF APPROPRIATIONS.—The  
2 Asia Reassurance Initiative Act of 2018 (Public Law 115–  
3 409) is amended—

4 (1) in section 201(b), by striking  
5 “\$1,500,000,000 for each of the fiscal years 2019  
6 through 2023” and inserting “\$2,000,000,000 for  
7 each of fiscal years 2022 through 2026”;

8 (2) in section 215(b), by striking “2023” and  
9 inserting “2026”;

10 (3) in section 306(a)—

11 (A) in paragraph (1), by striking “5  
12 years” and inserting “8 years”; and

13 (B) in paragraph (2), by striking “2023”  
14 and inserting “2026”;

15 (4) in section 409(a)(1), by striking “2023”  
16 and inserting “2026”;

17 (5) in section 410—

18 (A) in subsection (c), by striking “2023”  
19 and inserting “2026”; and

20 (B) in subsection (d), in the matter pre-  
21 ceding paragraph (1), by striking “2023” and  
22 inserting “2026”; and

23 (6) in section 411, by striking “2023” and in-  
24 serting “2026”.

1 **SEC. 30219E. CHINA WATCHER PROGRAM.**

2 (a) IN GENERAL.—The Secretary of State, acting  
3 through the Assistant Secretary of State for East Asian  
4 and Pacific Affairs, and in coordination with relevant of-  
5 fices and bureaus of the Department of State, shall imple-  
6 ment a “China Watcher Program” within the Department  
7 of State to—

8 (1) monitor and combat Chinese malign influ-  
9 ence across economic and political sectors in foreign  
10 countries; and

11 (2) augment the capacity of United States Gov-  
12 ernment engagement with foreign countries and re-  
13 gional and international economic and political orga-  
14 nizations and institutions relating to policy coordina-  
15 tion regarding China and such Chinese malign influ-  
16 ence.

17 (b) PLACEMENT.—In carrying out the China Watch-  
18 er Program under this section, the Secretary of State shall  
19 place Foreign Service officers in positions in select United  
20 States diplomatic and consular posts, at the discretion of  
21 the Secretary of State, to engage both Chinese and third-  
22 country nationals, including host governments, on the  
23 matters described in subsection (a).

24 (c) ANNUAL REPORT.—Each diplomatic or consular  
25 post with a China Watcher Program shall produce an an-  
26 nual report outlining the steps each such post has taken

1 to advance the mission, trends observed, and the nature  
2 and extent of Chinese foreign direct investment and influ-  
3 ence in key economic and political sectors, including tech-  
4 nology, manufacturing, transportation, energy, metals, ag-  
5 riculture, and real estate.

6 (d) AUTHORIZATION OF ANNUAL APPROPRIA-  
7 TIONS.—There is authorized to be appropriated  
8 \$5,000,000 for fiscal year 2022 and each fiscal year there-  
9 after to carry out this section.

10 **SEC. 30219F. LIU XIAOBO FUND FOR STUDY OF THE CHI-**  
11 **NESE LANGUAGE.**

12 (a) SENSE OF CONGRESS.—It is the sense of Con-  
13 gress that—

14 (1) as a substitute to Confucius Institutes, the  
15 United States Government should invest heavily into  
16 alternative programs and institutions that ensure  
17 there remains a robust pipeline of Americans learn-  
18 ing China’s many languages; and

19 (2) in a 21st century that will be dominated by  
20 a strategic competition between the United States  
21 and China, it is in the national security interests of  
22 the United States to ensure that Americans continue  
23 to invest in Chinese language skills, as well as Ti-  
24 betan, Uyghur, and Mongolian languages, while en-

1           suring they can do so in a context free of malign po-  
2           litical influence from foreign state actors.

3           (b) ESTABLISHMENT OF THE LIU XIAOBO FUND FOR  
4 STUDY OF THE CHINESE LANGUAGE.—The Secretary of  
5 State shall establish in the Department of State the “Liu  
6 Xiaobo Fund for Study of the Chinese Language” to fund  
7 study by United States persons of Mandarin and Can-  
8 tonese Chinese, Tibetan, Uyghur, Mongolian, and other  
9 contemporary spoken languages of China, abroad or in the  
10 United States.

11          (c) AUTHORIZATION OF APPROPRIATIONS.—There  
12 are authorized to be appropriated to the Department of  
13 State for fiscal year 2021 and every fiscal year thereafter,  
14 \$10,000,000 to carry out the Liu Xiaobo Fund for Study  
15 of the Chinese Language.

16          (d) REQUIRED ACTIVITIES.—Amounts authorized to  
17 be appropriated pursuant to subsection (c) shall—

18               (1) be designed to advance the national security  
19               and foreign policy interests of the United States, as  
20               determined by the Secretary of State;

21               (2) favor funding mechanisms that can maxi-  
22               mize the total number of United States persons  
23               given the opportunity to acquire full conversational  
24               linguistic proficiency in Mandarin and Cantonese

1 Chinese, Tibetan, Uyghur, Mongolian, and other  
2 contemporary spoken languages of China;

3 (3) favor funding mechanisms that provide op-  
4 portunities for such language study to areas tradi-  
5 tionally under-served by such opportunities;

6 (4) be shaped by an ongoing consultative proc-  
7 ess taking into account design inputs of—

8 (A) civil society institutions, including Chi-  
9 nese diaspora community organizations;

10 (B) language experts in Mandarin and  
11 Cantonese Chinese, Tibetan, Uyghur, Mongo-  
12 lian, and other contemporary spoken languages  
13 of China;

14 (C) organizations representing historically  
15 disadvantaged socioeconomic groups in the  
16 United States; and

17 (D) human rights organizations; and

18 (5) favor opportunities to fund the study of  
19 Mandarin and Cantonese Chinese, Tibetan, Uyghur,  
20 Mongolian, and other contemporary spoken lan-  
21 guages of China at Alaska Native-serving institu-  
22 tions, Asian American and Native American Pacific  
23 Islander-serving institutions, Hispanic-serving insti-  
24 tutions, historically Black college or universities, Na-  
25 tive American-serving nontribal institutions, Native

1 Hawaiian-serving institutions, Predominantly Black  
2 institutions, Tribal Colleges or Universities.

3 (e) REPORT.—

4 (1) IN GENERAL.—Not later than 120 days  
5 after the date of the enactment of this Act and an-  
6 nually thereafter for five years, the Secretary of  
7 State, in consultation with the heads of appropriate  
8 Federal departments and agencies, as appropriate,  
9 shall submit to the Committee on Foreign Affairs of  
10 the House of Representatives and the Committee on  
11 Foreign Relations of the Senate a report detailing  
12 activities and disbursements made to carry out this  
13 Act over the immediately preceding academic year.

14 (2) REPORT CONTENTS.—Each report required  
15 under paragraph (1) shall include details on—

16 (A) which institutions, programs, or enti-  
17 ties received funds through the Liu Xiaobo  
18 Fund for Study of the Chinese Language;

19 (B) funds distribution disaggregated by in-  
20 stitution, program, or entity, including identi-  
21 fication of the State or country in which such  
22 institution, program, or entity is located;

23 (C) the number of United States persons  
24 who received language study under the Liu  
25 Xiaobo Fund for Study of the Chinese Lan-

1 guage, and the average amount disbursed per  
2 person for such study;

3 (D) a comparative analysis of per dollar  
4 program effectiveness and efficiency in allowing  
5 United States persons to reach conversational  
6 proficiency Mandarin or Cantonese Chinese, Ti-  
7 betan, Uyghur, Mongolian, or other contem-  
8 porary spoken languages of China;

9 (E) an analysis of which of the languages  
10 referred to in subparagraph (D) were studied  
11 through the funding from the Liu Xiaobo Fund  
12 for Study of the Chinese Language; and

13 (F) any recommendations of the Secretary  
14 of State for improvements to the authorities,  
15 priorities, or management of the Liu Xiaobo  
16 Fund for Study of the Chinese Language.

17 (f) INTERAGENCY FUNDS TRANSFERS AUTHORIZA-  
18 TION.—Amounts authorized to be appropriated to the Sec-  
19 retary of State to carry out this Act are authorized to be  
20 transferred to the heads of other appropriate Federal de-  
21 partments and agencies for similar purposes, subject to  
22 prior notification to the Committee on Foreign Affairs of  
23 the House of Representatives and the Committee on For-  
24 eign Relations of the Senate. Such heads shall consult with

1 the Secretary in the preparation of the report required  
2 under subsection (e).

3 (g) LIMITATIONS.—Amounts authorized to be appro-  
4 priated to carry out this Act may only be made available  
5 for the costs of language study funded and administration  
6 incurred by the Department of State or programs carried  
7 out by the Department of State (or by another Federal  
8 department or agency pursuant to subsection (f)) to carry  
9 out this section.

10 (h) DEFINITIONS.—In this section:

11 (1) ALASKA NATIVE-SERVING INSTITUTION.—  
12 The term “Alaska Native-serving institution” has  
13 the meaning given such term in section 317(b) of  
14 the Higher Education Act of 1965 (20 U.S.C.  
15 1059d(b)).

16 (2) ASIAN AMERICAN AND NATIVE AMERICAN  
17 PACIFIC ISLANDER-SERVING INSTITUTION.—The  
18 term “Asian American and Native American Pacific  
19 Islander-serving institution” has the meaning given  
20 such term in section 371(c) of the Higher Education  
21 Act of 1965 (20 U.S.C. 1067q(c)).

22 (3) HISPANIC-SERVING INSTITUTION.—The  
23 term “Hispanic-serving institution” has the meaning  
24 given such term in section 502 of the Higher Edu-  
25 cation Act of 1965 (20 U.S.C. 1101a).

1           (4) HISTORICALLY BLACK COLLEGE OR UNI-  
2           VERSITY.—The term “historically Black college or  
3           university” means a part B institution described in  
4           section 322(2) of the Higher Education Act of 1965  
5           (22 U.S.C. 1061(2)).

6           (5) NATIVE AMERICAN-SERVING NONTRIBAL IN-  
7           STITUTION.—The term “Native American-serving  
8           nontribal institution” has the meaning given such  
9           term in section 371(c) of the Higher Education Act  
10          of 1965 (20 U.S.C. 1067q(c)).

11          (6) NATIVE HAWAIIAN-SERVING INSTITUTION.—  
12          The term “Native Hawaiian-serving institution” has  
13          the meaning given such term in section 317(b) of  
14          the Higher Education Act of 1965 (20 U.S.C.  
15          1059d(b)).

16          (7) PREDOMINANTLY BLACK INSTITUTION.—  
17          The term “Predominantly Black institution” has the  
18          meaning given such term in section 371(c) of the  
19          Higher Education Act of 1965 (20 U.S.C.  
20          1067q(c)).

21          (8) TRIBAL COLLEGE OR UNIVERSITY.—The  
22          term “Tribal College or University” has the meaning  
23          given such term in section 316(b) of the Higher  
24          Education Act of 1965 (20 U.S.C. 1059e(b)).

1 **SEC. 30219G. OVERSIGHT OF FUNDS MADE AVAILABLE**  
2 **THROUGH THE AMERICAN RESCUE PLAN ACT**  
3 **OF 2021.**

4 (a) **AUTHORITIES AND CONDITIONS.**—Amounts au-  
5 thorized and appropriated under title X of the American  
6 Rescue Plan Act of 2021 (Public Law 117–2) to carry  
7 out the Foreign Assistance Act of 1961 (22 U.S.C. 2151  
8 et seq.) shall be subject to the applicable authorities and  
9 conditions for funds made available to carry out the For-  
10 eign Assistance Act of 1961 (22 U.S.C. 2151 et seq.) and  
11 division K of Public Law 116–260.

12 (b) **OVERSIGHT AND ACCOUNTABILITY.**—Amounts  
13 authorized and appropriated under sections 10001 and  
14 10002 of American Rescue Plan Act of 2021 may be  
15 transferred to the Inspector General of the Department  
16 of State and the Inspector General of the United States  
17 Agency for International Development to expand the ca-  
18 pacity of such Inspectors General to conduct effective  
19 oversight of the foreign assistance programs and activities  
20 under such Act.

21 (c) **UNITED STATES CONTRIBUTIONS TO THE GLOB-**  
22 **AL FUND TO FIGHT AIDS, TUBERCULOSIS, AND MALARIA**  
23 **COVID–19 RESPONSE MECHANISM.**—United States con-  
24 tributions to the Global Fund to Fight AIDS, Tuber-  
25 culosis, and Malaria COVID–19 Response Mechanism

1 under section 10003(a)(2) of American Rescue Plan Act  
2 of 2021—

3 (1) shall be meaningfully leveraged in a manner  
4 that incentivizes other public and private donor con-  
5 tributions; and

6 (2) shall be subject to the reporting and with-  
7 holding requirements under subsections (c),  
8 (d)(4)(A)(ii), (d)(4)(C), (d)(5), (d)(6), (f), and (g) of  
9 section 202 of the United States Leadership Against  
10 HIV/AIDS, Tuberculosis, and Malaria Act of 2003  
11 (22 U.S.C. 7622).

12 **SEC. 30219H. REQUIREMENTS RELATING TO VACCINE**  
13 **BRANDING.**

14 The President shall ensure that every vaccine donated  
15 or otherwise procured and financed by the United States  
16 Government shall be clearly branded with the United  
17 States flag.

18 **SEC. 30219I. NATIONAL INTELLIGENCE ESTIMATE ON ESCA-**  
19 **LATION AND DE-ESCALATION OF GRAY ZONE**  
20 **ACTIVITIES IN GREAT POWER COMPETITION.**

21 (a) FINDINGS.—Congress finds the following:

22 (1) The conventional power of the United  
23 States has driven foreign adversaries to a level of  
24 competition that does not always depend on military  
25 confrontation with the United States.

1           (2) Rather than challenging the United States  
2           in a manner that could provoke a kinetic military re-  
3           sponse, foreign adversaries of the United States have  
4           turned to carrying out gray zone activities to ad-  
5           vance the interests of such adversaries, weaken the  
6           power of the United States, and erode the norms  
7           that underpin the United States-led international  
8           order.

9           (3) Gray zone activity falls on a spectrum of at-  
10          tribution and deniability that ranges from covert ad-  
11          versary operations, to detectible covert adversary op-  
12          erations, to unattributable adversary operations, to  
13          deniable adversary operations, to open adversary op-  
14          erations.

15          (4) To adequately address such a shift to gray  
16          zone activity, the United States must understand  
17          what actions tend to either escalate or de-escalate  
18          such activity by our adversaries.

19          (5) The laws, principles, and values of the  
20          United States are strategic advantages in great  
21          power competition with authoritarian foreign adver-  
22          saries that carry out gray zone activities, because  
23          such laws, principles, and values increase the appeal  
24          of the governance model of the United States, and

1 the United States-led international order, to states  
2 and peoples around the world.

3 (6) The international security environment has  
4 demonstrated numerous examples of gray zone ac-  
5 tivities carried out by foreign adversaries, including  
6 the following activities of foreign adversaries:

7 (A) Information operations, such as efforts  
8 by Russia to influence the 2020 United States  
9 Federal elections (as described in the March 15,  
10 2021, intelligence community assessment of the  
11 Office of the Director of National Intelligence  
12 made publicly available on March 15, 2021).

13 (B) Adversary political coercion operations,  
14 such as the wielding of energy by Russia, par-  
15 ticularly in the context of Ukrainian gas pipe-  
16 lines, to coerce its neighbors into compliance  
17 with its policies.

18 (C) Cyber operations, such as the use by  
19 China of cyber tools to conduct industrial espio-  
20 nage.

21 (D) Provision of support to proxy forces,  
22 such as the support provided by Iran to  
23 Hezbollah and Shia militia groups.

24 (E) Provocation by armed forces controlled  
25 by the government of the foreign adversary

1 through measures that do not rise to the level  
2 of an armed attack, such as the use of the  
3 China Coast Guard and maritime militia by  
4 China to harass the fishing vessels of other  
5 countries in the South China Sea.

6 (F) Alleged uses of lethal force on foreign  
7 soil, such as the 2018 attempts by Russia to  
8 poison Sergei Skripal in London.

9 (G) The potential use by an adversary of  
10 technology that causes anomalous health inci-  
11 dents among United States Government per-  
12 sonnel.

13 (b) NATIONAL INTELLIGENCE ESTIMATE.—

14 (1) REQUIREMENT.—The Director of National  
15 Intelligence, acting through the National Intelligence  
16 Council, shall produce a National Intelligence Esti-  
17 mate on how foreign adversaries use gray zone ac-  
18 tivities to advance interests, what responses by the  
19 United States (or the allies or partners of the  
20 United States) would tend to result in the escalation  
21 or de-escalation of such gray zone activities by for-  
22 eign adversaries, and any opportunities for the  
23 United States to minimize the extent to which for-  
24 eign adversaries use gray zone activities in further-  
25 ance of great power competition.

1           (2) MATTERS INCLUDED.—To the extent deter-  
2           mined appropriate by the National Intelligence  
3           Council, the National Intelligence Estimate produced  
4           under paragraph (1) may include an assessment of  
5           the following topics:

6                   (A) Any potential or actual lethal or harm-  
7                   ful gray zone activities carried out against the  
8                   United States by foreign adversaries, including  
9                   against United States Government employees  
10                  and United States persons, whether located  
11                  within or outside of the United States.

12                  (B) To the extent such activities have oc-  
13                  curred, or are predicted to occur—

14                   (i) opportunities to reduce or deter  
15                   any such activities; and

16                   (ii) any actions of the United States  
17                   Government that would tend to result in  
18                   the escalation or de-escalation of such ac-  
19                   tivities.

20                  (C) Any incidents in which foreign adver-  
21                  saries could have used, but ultimately did not  
22                  use, gray zone activities to advance the inter-  
23                  ests of such adversaries, including an assess-  
24                  ment as to why the foreign adversary ultimately  
25                  did not use gray zone activities.

1           (D) The effect of lowering the United  
2 States Government threshold for the public at-  
3 tribution of detectible covert adversary oper-  
4 ations, unattributable adversary operations, and  
5 deniable adversary operations.

6           (E) The effect of lowering the United  
7 States Government threshold for responding to  
8 detectible covert adversary operations,  
9 unattributable adversary operations, and deni-  
10 able adversary operations.

11          (F) The extent to which the governments  
12 of foreign adversaries exercise control over any  
13 proxies or parastate actors used by such gov-  
14 ernments in carrying out gray zone activities.

15          (G) The extent to which gray zone activi-  
16 ties carried out by foreign adversaries affect the  
17 private sector of the United States.

18          (H) The international norms that provide  
19 the greatest deterrence to gray zone activities  
20 carried out by foreign adversaries, and opportu-  
21 nities for strengthening those norms.

22          (I) The effect, if any, of the strengthening  
23 of democratic governance abroad on the resil-  
24 ience of United States allies and partners to  
25 gray zone activities.

1           (J) Opportunities to strengthen the resil-  
2           ience of United States allies and partners to  
3           gray zone activities, and associated tactics, car-  
4           ried out by foreign adversaries.

5           (K) Opportunities for the United States to  
6           improve the detection of, and early warning for,  
7           such activities and tactics.

8           (L) Opportunities for the United States to  
9           galvanize international support in responding to  
10          such activities and tactics.

11         (3) SUBMISSION TO CONGRESS.—

12           (A) SUBMISSION.—Not later than 1 year  
13          after the date of the enactment of this Act, the  
14          Director shall submit to the Select Committee  
15          on Intelligence of the Senate and the Perma-  
16          nent Select Committee on Intelligence of the  
17          House of Representatives the National Intel-  
18          ligence Estimate produced under paragraph (1),  
19          including all intelligence reporting underlying  
20          the Estimate.

21           (B) NOTICE REGARDING SUBMISSION.—If  
22          at any time before the deadline specified in sub-  
23          paragraph (A), the Director determines that the  
24          National Intelligence Estimate produced under  
25          paragraph (1) cannot be submitted by such

1 deadline, the Director shall (before such dead-  
2 line) submit to the Select Committee on Intel-  
3 ligence of the Senate and the Permanent Select  
4 Committee on Intelligence of the House of Rep-  
5 resentatives a report setting forth the reasons  
6 why the National Intelligence Estimate cannot  
7 be submitted by such deadline and an estimated  
8 date for the submission of the National Intel-  
9 ligence Estimate.

10 (C) FORM.—Any report under subpara-  
11 graph (B) shall be submitted in unclassified  
12 form.

13 (4) PUBLIC VERSION.—Consistent with the pro-  
14 tection of intelligence sources and methods, at the  
15 same time as the Director submits to the Select  
16 Committee on Intelligence of the Senate and the  
17 Permanent Select Committee on Intelligence of the  
18 House of Representatives the National Intelligence  
19 Estimate under paragraph (1), the Director shall  
20 make publicly available on the internet website of  
21 the Director an unclassified version of the key find-  
22 ings of the National Intelligence Estimate.

23 (5) DEFINITIONS.—In this subsection:

1 (A) GRAY ZONE ACTIVITY.—The term  
2 “gray zone activity” means an activity to ad-  
3 vance the national interests of a State that—

4 (i) falls between ordinary statecraft  
5 and open warfare;

6 (ii) is carried out with an intent to  
7 maximize the advancement of interests of  
8 the state without provoking a kinetic mili-  
9 tary response by the United States; and

10 (iii) falls on a spectrum that ranges  
11 from covert adversary operations, to  
12 detectible covert adversary operations, to  
13 unattributable adversary operations, to de-  
14 niable adversary operations, to open adver-  
15 sary operations.

16 (B) COVERT ADVERSARY OPERATION.—  
17 The term “covert adversary operation” means  
18 an operation by an adversary that—

19 (i) the adversary intends to remain  
20 below the threshold at which the United  
21 States detects the operation; and

22 (ii) does stay below such threshold.

23 (C) DETECTIBLE COVERT ADVERSARY OP-  
24 ERATION.—The term “detectible covert adver-

1 sary operation” means an operation by an ad-  
2 versary that—

3 (i) the adversary intends to remain  
4 below the threshold at which the United  
5 States detects the operation; but

6 (ii) is ultimately detected by the  
7 United States at a level below the level at  
8 which the United States will publicly at-  
9 tribute the operation to the adversary.

10 (D) UNATTRIBUTABLE ADVERSARY OPER-  
11 ATION.—The term “unattributable adversary  
12 operation” means an operation by an adversary  
13 that the adversary intends to be detected by the  
14 United States, but remain below the threshold  
15 at which the United States will publicly at-  
16 tribute the operation to the adversary.

17 (E) DENIABLE ADVERSARY OPERATION.—  
18 The term “deniable adversary operation” means  
19 an operation by an adversary that—

20 (i) the adversary intends to be de-  
21 tected and publicly or privately attributed  
22 by the United States; and

23 (ii) the adversary intends to deny, to  
24 limit the response by the United States,  
25 and any allies of the United States.

1 (F) OPEN ADVERSARY OPERATION.—The  
2 term “open adversary operation” means an op-  
3 eration by an adversary that the adversary  
4 openly acknowledges as attributable to the ad-  
5 versary.

6 (c) REQUIREMENT TO DEVELOP LEXICON.—

7 (1) REQUIREMENT.—The Director of National  
8 Intelligence, acting through the National Intelligence  
9 Council, shall develop a lexicon of common terms  
10 (and corresponding definitions for such terms) for  
11 concepts associated with gray zone activities.

12 (2) CONSIDERATIONS.—In developing the lexi-  
13 con under paragraph (1), the National Intelligence  
14 Council shall include in the lexicon each term (and  
15 the corresponding definition for each term) specified  
16 in subsection (b)(5), unless the National Intelligence  
17 Council determines that an alternative term (or al-  
18 ternative definition)—

19 (A) more accurately describes a concept as-  
20 sociated with gray zone activities; or

21 (B) is preferable for any other reason.

22 (3) REPORT.—

23 (A) PUBLICATION.—The Director of Na-  
24 tional Intelligence shall publish a report con-

1           taining the lexicon developed under paragraph  
2           (1).

3                   (B) FORM.—The report under subpara-  
4           graph (A) shall be published in unclassified  
5           form.

6 **SEC. 30219J. PRIORITIZING DIGITAL INFRASTRUCTURE**  
7                   **AND CONNECTIVITY.**

8           (a) IN GENERAL.—Section 1451 of the Better Utili-  
9           zation of Investments Leading to Development Act 2018  
10          (22 U.S.C. 9613) is amended by inserting after subsection  
11          (i) the following:

12                   “(j) PRIORITIZING DIGITAL INFRASTRUCTURE AND  
13          CONNECTIVITY.—The Corporation should prioritize sup-  
14          port to projects that—

15                           “(1) increase digital infrastructure and  
16                           connectivity, including operators of voice and data  
17                           networks, development options for countries with the  
18                           greatest need for digital infrastructure investment  
19                           and in cases in which competing digital infrastruc-  
20                           ture financing proposals lack high standards for  
21                           data security and protection of users’ human rights;  
22                           and

23                           “(2) align with the Corporation’s authorities re-  
24                           lating to provisions of support as outlined in section  
25                           1421(a).”.

1 (b) REPORT.—Not later than one year after the date  
2 of the enactment of this Act, the United States Inter-  
3 national Development Financing Corporation shall submit  
4 to the Committee on Foreign Affairs of the House of Rep-  
5 resentatives and the Committee on Foreign Relations of  
6 the Senate a report that includes an identification and de-  
7 scription of—

8 (1) regions and countries with the greatest need  
9 for investment in digital infrastructure, including  
10 the types of such digital infrastructure;

11 (2) regions and countries in which investment  
12 in digital infrastructure will be most effective in pro-  
13 moting high standards for data security and protec-  
14 tion of users' human rights; and

15 (3) efforts of partner governments to provide  
16 digital infrastructure development financing initia-  
17 tives and efforts of the Corporation to coordinate  
18 with such partner governments with respect to such  
19 digital infrastructure development financing.

1 **SEC. 30219K. REPORT ON MULTILATERAL EFFORTS TO AD-**  
2 **DRESS LATIN AMERICAN FENTANYL TRAF-**  
3 **FICKING AND EFFORTS BETWEEN LATIN**  
4 **AMERICA AND CHINA ON FENTANYL TRAF-**  
5 **FICKING.**

6 (a) IN GENERAL.—Not later than 180 days after the  
7 date of the enactment of this Act, the Secretary of State,  
8 in consultation with the Attorney General and the Sec-  
9 retary of the Treasury, shall submit to the appropriate  
10 congressional committees a written report that contains—

11 (1) a description of United States Government  
12 efforts to gain a commitment from the governments  
13 of Latin American countries to combat the produc-  
14 tion and flow of illicit fentanyl products and the  
15 metrics used to measure the success of existing bi-  
16 lateral agreements with individual Latin American  
17 countries;

18 (2) a plan for future steps the United States  
19 Government will take to urge the Latin American  
20 governments to combat illicit fentanyl production  
21 and trafficking originating in their respective coun-  
22 tries;

23 (3) a description of efforts between China and  
24 Latin American countries to combat the production  
25 and flow of illicit fentanyl products originating in  
26 China and Latin America;

1           (4) a description of United States Government  
2 efforts to urge China and Latin American countries  
3 to detect and deter the financing of the production  
4 and flow of illicit fentanyl products originating in  
5 China and Latin America, to trace the proceeds of  
6 their sale, and to combat related corruption; and

7           (5) a plan for future steps the United States  
8 Government will take to urge the Latin American  
9 governments and Chinese Government to address  
10 transnational criminal organizations and combat il-  
11 licit fentanyl production and trafficking originating  
12 in their respective countries.

13       (b) FORM OF REPORT.—The report required by sub-  
14 section (a) shall be submitted in unclassified form with  
15 a classified annex.

16       (c) APPROPRIATE CONGRESSIONAL COMMITTEES DE-  
17 FINED.—In this section, the term “appropriate congres-  
18 sional committees” means—

19           (1) the Committee on Foreign Affairs, the  
20 Committee on the Judiciary, and the Committee on  
21 Financial Services of the House of Representatives;  
22 and

23           (2) the Committee on Foreign Relations, the  
24 Committee on the Judiciary, and the Committee on  
25 Banking, Housing, and Urban Affairs of the Senate.

1 **SEC. 30219L. REPORT GENERATION AND SHARING ON LONG**  
2 **TERM COST OF BELT AND ROAD INITIATIVE**  
3 **TO THIRD COUNTRIES.**

4 The Secretary of State shall coordinate with the Sec-  
5 retary of Treasury and the heads of other Federal agen-  
6 cies as relevant a report for each country participating or  
7 considering participating in the People's Republic of Chi-  
8 na's One Belt, One Road Initiative to show the full spec-  
9 trum of negative costs on participant countries. The report  
10 shall—

11 (1) show the long-term financial costs of such  
12 participation;

13 (2) describe China's use of One Belt, One Road  
14 to enrich Chinese State Owned Enterprises;

15 (3) provide examples of China's imposition of  
16 political cost on participating countries; and

17 (4) contain any additional information deter-  
18 mined necessary to dissuade future participation  
19 with China's debt trap and coercive infrastructure  
20 program.

21 **SEC. 30219M. SENSE OF CONGRESS REGARDING THE STA-**  
22 **TUS OF CHINA.**

23 It is the sense of Congress that—

24 (1) the People's Republic of China is a fully in-  
25 dustrialized nation and no longer a developing na-  
26 tion; and

1           (2) any international agreement that provides  
2           or accords China a favorable status or treatment as  
3           a “developing nation” should be updated to reflect  
4           the status of China.

5 **SEC. 30219N. REPORT ON PROVIDING ACCESS TO UNCEN-**  
6 **SORED MEDIA IN CHINA.**

7           Not later than 180 days after the date of the enact-  
8           ment of this Act, the Secretary of State shall provide to  
9           Congress a classified report on what is needed to provide  
10          access to free and uncensored media in the Chinese mar-  
11          ket.

12 **SEC. 30219O. REPORT ON OPEN RADIO ACCESS NETWORKS.**

13          (a) **IN GENERAL.**—Not later than 180 days after the  
14          date of the enactment of this Act, the Secretary of Com-  
15          merce, in consultation with the Secretary of State, shall  
16          submit to the appropriate congressional committees a re-  
17          port on the national security implications of open radio  
18          access networks (Open RAN or O-RAN) that—

19                (1) provides information on the United States  
20                Government’s international engagement to support  
21                United States leadership in Open RAN, including  
22                the Department of State’s diplomatic efforts to en-  
23                sure United States leadership in international stand-  
24                ard setting bodies for Open RAN;

1           (2) describes the involvement of China  
2 headquartered companies in Open RAN standards  
3 setting bodies such as the O-RAN Alliance;

4           (3) reviews the national security risks posed by  
5 the presence of entities included on the Bureau of  
6 Industry and Security’s “Entity List” in the O-RAN  
7 Alliance;

8           (4) determines whether entities that do business  
9 in the United States can participate in the O-Ran  
10 Alliance under existing sanctions and export control  
11 laws;

12           (5) analyzes whether United States national se-  
13 curity is affected by the limited number of tele-  
14 communications equipment vendors, and examines  
15 whether the advent and deployment of Open RAN  
16 would expand the number of equipment and service  
17 providers;

18           (6) outlines how the United States can work  
19 with allies, partners, and other countries to ensure  
20 that Open RAN maintains the highest security and  
21 privacy standards; and

22           (7) identifies steps the United States can take  
23 to assert leadership in Open RAN.

1 (b) APPROPRIATE COMMITTEES OF CONGRESS DE-  
2 FINED.—In this section, the term “appropriate congres-  
3 sional committees” means—

4 (1) the Committee on Foreign Affairs of the  
5 House of Representatives;

6 (2) the Committee on Foreign Relations of the  
7 Senate;

8 (3) the Committee on Energy and Commerce of  
9 the House of Representatives; and

10 (4) the Committee on Commerce, Science, and  
11 Transportation of the Senate.

12 **Subtitle B—International Security**  
13 **Matters**

14 **SEC. 30221. APPROPRIATE COMMITTEES OF CONGRESS.**

15 In this subtitle, the term “appropriate committees of  
16 Congress” means—

17 (1) the Committee on Foreign Relations, the  
18 Committee on Armed Services, and the Committee  
19 on Appropriations of the Senate; and

20 (2) the Committee on Foreign Affairs, the  
21 Committee on Armed Services, and the Committee  
22 on Appropriations of the House of Representatives.

1 **SEC. 30222. ADDITIONAL FUNDING FOR INTERNATIONAL**  
2 **MILITARY EDUCATION AND TRAINING IN THE**  
3 **INDO-PACIFIC.**

4 (a) IN GENERAL.—There is authorized to be appro-  
5 priated for each of fiscal years 2022 through fiscal year  
6 2026 for the Department of State, out of amounts author-  
7 ized to be appropriated or otherwise made available for  
8 assistance under chapter 5 of part II of the Foreign As-  
9 sistance Act of 1961 (22 U.S.C. 2347 et seq.) (relating  
10 to international military education and training assist-  
11 ance), \$45,000,000 for activities in the Indo-Pacific region  
12 in accordance with this subtitle. Funds may be disbursed  
13 only after vetting of individuals proposed to be trained,  
14 consistent with sections 502B and 620M of the Foreign  
15 Assistance Act of 1961 (22 U.S.C. 2304 and 2378d).

16 (b) LIMITATION.—

17 (1) IN GENERAL.—None of the funds author-  
18 ized to be appropriated by subsection (a) may be  
19 used to provide assistance to any foreign security  
20 force units if the Secretary of State determines that  
21 such forces have engaged in patterns of torture or  
22 cruel, inhuman, or degrading treatment or punish-  
23 ment, prolonged detention without charges and trial,  
24 causing the disappearance of persons by the abduc-  
25 tion and clandestine detention of those persons, au-  
26 thorized by high-ranking officials or other flagrant

1 denial of the right to life, liberty, or the security of  
2 person, authorized by high-ranking officials pursuant  
3 to section 502B of the Foreign Assistance Act of  
4 1961 (22 U.S.C. 2304).

5 (2) WAIVER.—The President may, on a case-  
6 by-case basis and for periods not to exceed 180  
7 days, waive the prohibition in paragraph (1) if the  
8 President certifies to the appropriate congressional  
9 committees not later than 15 days before such waiv-  
10 er is to take effect that the waiver is vital to the na-  
11 tional security interests of the United States or its  
12 partners and allies.

13 **SEC. 30223. STATEMENT OF POLICY.**

14 It shall be the policy of the United States to—

15 (1) prioritize the Indo-Pacific region in United  
16 States foreign policy, and prioritize resources for  
17 achieving United States political and military objec-  
18 tives in the region;

19 (2) exercise freedom of operations in the inter-  
20 national waters and airspace in the Indo-Pacific  
21 maritime domains, which are critical to the pros-  
22 perity, stability, and security of the Indo-Pacific re-  
23 gion;

24 (3) maintain forward-deployed forces in the  
25 Indo-Pacific region, including a rotational bomber

1 presence, integrated missile defense capabilities,  
2 long-range precision fires, undersea warfare capabili-  
3 ties, and diversified and resilient basing and rota-  
4 tional presence, including support for pre-positioning  
5 strategies;

6 (4) strengthen and deepen the alliances and  
7 partnerships of the United States to build capacity  
8 and capabilities, increase multilateral partnerships,  
9 modernize communications architecture, address  
10 anti-access and area denial challenges, and increase  
11 joint exercises and security cooperation efforts;

12 (5) reaffirm the commitment and support of the  
13 United States for allies and partners in the Indo-Pa-  
14 cific region, including longstanding United States  
15 policy regarding—

16 (A) Article V of the Treaty of Mutual Co-  
17 operation and Security between the United  
18 States and Japan, signed at Washington Janu-  
19 ary 19, 1960;

20 (B) Article III of the Mutual Defense  
21 Treaty between the United States and the Re-  
22 public of Korea, signed at Washington October  
23 1, 1953;

24 (C) Article IV of the Mutual Defense Trea-  
25 ty between the United States and the Republic

1 of the Philippines, signed at Washington Au-  
2 gust 30, 1951, including that, as the South  
3 China Sea is part of the Pacific, any armed at-  
4 tack on Philippine forces, aircraft or public ves-  
5 sels in the South China Sea will trigger mutual  
6 defense obligations under Article IV of our mu-  
7 tual defense treaty;

8 (D) Article IV of the Australia, New Zea-  
9 land, United States Security Treaty, done at  
10 San Francisco September 1, 1951; and

11 (E) the Southeast Asia Collective Defense  
12 Treaty, done at Manila September 8, 1954, to-  
13 gether with the Thanat-Rusk Communique of  
14 1962;

15 (6) collaborate with United States treaty allies  
16 in the Indo-Pacific to foster greater multilateral se-  
17 curity and defense cooperation with other regional  
18 partners;

19 (7) ensure the continuity of operations by the  
20 United States Armed Forces in the Indo-Pacific re-  
21 gion, including, as appropriate, in cooperation with  
22 partners and allies, in order to reaffirm the principle  
23 of freedom of operations in international waters and  
24 airspace in accordance with established principles  
25 and practices of international law;

1           (8) sustain the Taiwan Relations Act (Public  
2           Law 96–8; 22 U.S.C. 3301 et seq.) and the “Six As-  
3           surances” provided by the United States to Taiwan  
4           in July 1982 as the foundations for United States-  
5           Taiwan relations, and to deepen, to the fullest extent  
6           possible, the extensive, close, and friendly relations  
7           of the United States and Taiwan, including coopera-  
8           tion to support the development of capable, ready,  
9           and modern forces necessary for the defense of Tai-  
10          wan;

11          (9) enhance security partnerships with India,  
12          across Southeast Asia, and with other nations of the  
13          Indo-Pacific;

14          (10) deter acts of aggression or coercion by the  
15          PRC against United States and allies’ interests, es-  
16          pecially along the First Island Chain and in the  
17          Western Pacific, by showing PRC leaders that the  
18          United States can and is willing to deny them the  
19          ability to achieve their objectives, including by—

20                 (A) consistently demonstrating the political  
21                 will of the United States to deepening existing  
22                 treaty alliances and growing new partnerships  
23                 as a durable, asymmetric, and unmatched stra-  
24                 tegic advantage to the PRC’s growing military  
25                 capabilities and reach;

1 (B) maintaining a system of forward-de-  
2 ployed bases in the Indo-Pacific region as the  
3 most visible sign of United States resolve and  
4 commitment to the region, and as platforms to  
5 ensure United States operational readiness and  
6 advance interoperability with allies and part-  
7 ners;

8 (C) adopting a more dispersed force pos-  
9 ture throughout the region, particularly the  
10 Western Pacific, and pursuing maximum access  
11 for United States mobile and relocatable  
12 launchers for long-range cruise, ballistic, and  
13 hypersonic weapons throughout the Indo-Pacific  
14 region;

15 (D) fielding long-range, precision-strike  
16 networks to United States and allied forces, in-  
17 cluding ground-launched cruise missiles, under-  
18 sea and naval capabilities, and integrated air  
19 and missile defense in the First Island Chain  
20 and the Second Island Chain, in order to deter  
21 and prevent PRC coercion and aggression, and  
22 to maximize the United States ability to oper-  
23 ate;

24 (E) strengthening extended deterrence to  
25 ensure that escalation against key United

1 States interests would be costly, risky, and self-  
2 defeating; and

3 (F) collaborating with allies and partners  
4 to accelerate their roles in more equitably shar-  
5 ing the burdens of mutual defense, including  
6 through the acquisition and fielding of advanced  
7 capabilities and training that will better enable  
8 them to repel PRC aggression or coercion; and

9 (11) maintain the capacity of the United States  
10 to impose prohibitive diplomatic, economic, financial,  
11 reputational, and military costs on the PRC for acts  
12 of coercion or aggression, including to defend itself  
13 and its allies regardless of the point of origin of at-  
14 tacks against them.

15 **SEC. 30224. FOREIGN MILITARY FINANCING IN THE INDO-**  
16 **PACIFIC AND AUTHORIZATION OF APPRO-**  
17 **PRIATIONS FOR SOUTHEAST ASIA MARITIME**  
18 **SECURITY PROGRAMS AND DIPLOMATIC OUT-**  
19 **REACH ACTIVITIES.**

20 (a) FOREIGN MILITARY FINANCING FUNDING.—In  
21 addition to any amount appropriated pursuant to section  
22 23 of the Arms Export Control Act (22 U.S.C. 2763) (re-  
23 lating to foreign military financing assistance), there is  
24 authorized to be appropriated for each of fiscal years 2022

1 through fiscal year 2026 for activities in the Indo-Pacific  
2 region in accordance with this section—

3 (1) \$110,000,000 for fiscal year 2022;

4 (2) \$125,000,000 for fiscal year 2023;

5 (3) \$130,000,000 for fiscal year 2024;

6 (4) \$140,000,000 for fiscal year 2025; and

7 (5) \$150,000,000 for fiscal year 2026.

8 (b) SOUTHEAST MARITIME LAW ENFORCEMENT INI-  
9 TIATIVE.—There is authorized to be appropriated  
10 \$10,000,000 for each of fiscal years 2022 through 2026  
11 for the Department of State for International Narcotics  
12 Control and Law Enforcement (INCLE) for the support  
13 of the Southeast Asia Maritime Law Enforcement Initia-  
14 tive.

15 (c) DIPLOMATIC OUTREACH ACTIVITIES.—There is  
16 authorized to be appropriated to the Department of State  
17 \$1,000,000 for each of fiscal years 2022 through 2026,  
18 which shall be used—

19 (1) to conduct, in coordination with the Depart-  
20 ment of Defense, outreach activities, including con-  
21 ferences and symposia, to familiarize partner coun-  
22 tries, particularly in the Indo-Pacific region, with  
23 the United States' interpretation of international law  
24 relating to freedom of the seas; and

1           (2) to work with allies and partners in the  
2 Indo-Pacific region to better align respective inter-  
3 pretations of international law relating to freedom of  
4 the seas, including on the matters of operations by  
5 military ships in exclusive economic zones, innocent  
6 passage through territorial seas, and transits  
7 through international straits.

8           (d) PROGRAM AUTHORIZATION AND PURPOSE.—

9 Using amounts appropriated pursuant to subsection (a),  
10 the Secretary of State, in coordination with the Secretary  
11 of Defense, is authorized to provide assistance for the pur-  
12 pose of increasing maritime security and domain aware-  
13 ness for countries in the Indo-Pacific region—

14           (1) to provide assistance to national military or  
15 other security forces of such countries that have  
16 maritime security missions among their functional  
17 responsibilities;

18           (2) to provide training to ministry, agency, and  
19 headquarters level organizations for such forces; and

20           (3) to provide assistance and training to other  
21 relevant foreign affairs, maritime, or security-related  
22 ministries, agencies, departments, or offices that  
23 manage and oversee maritime activities and policy  
24 that the Secretary of State may so designate.

1 (e) DESIGNATION OF ASSISTANCE.—Assistance pro-  
2 vided by the Secretary of State under subsection (g) shall  
3 be known as the “Indo-Pacific Maritime Security Initia-  
4 tive” (in this section referred to as the “Initiative”).

5 (f) PROGRAM OBJECTIVES.—Assistance provided  
6 through the Initiative may be used to accomplish the fol-  
7 lowing objectives:

8 (1) Retaining unhindered access to and use of  
9 international waterways in the Indo-Pacific region  
10 that are critical to ensuring the security and free  
11 flow of commerce and to achieving United States na-  
12 tional security objectives.

13 (2) Improving maritime domain awareness in  
14 the Indo-Pacific region.

15 (3) Countering piracy in the Indo-Pacific re-  
16 gion.

17 (4) Disrupting illicit maritime trafficking activi-  
18 ties and other forms of maritime trafficking activity  
19 in the Indo-Pacific that directly benefit organiza-  
20 tions that have been determined to be a security  
21 threat to the United States.

22 (5) Enhancing the maritime capabilities of a  
23 country or regional organization to respond to  
24 emerging threats to maritime security in the Indo-  
25 Pacific region.

1           (6) Strengthening United States alliances and  
2 partnerships in Southeast Asia and other parts of  
3 the Indo-Pacific region.

4           (g) AUTHORIZATION OF APPROPRIATIONS.—

5           (1) IN GENERAL.—Of the amount appropriated  
6 pursuant to subsection (a) (relating to foreign mili-  
7 tary financing assistance), there is authorized to be  
8 appropriated to the Department of State for the  
9 Indo-Pacific Maritime Security Initiative and other  
10 related regional programs exactly—

11                   (A) \$70,000,000 for fiscal year 2022;

12                   (B) \$80,000,000 for fiscal year 2023;

13                   (C) \$90,000,000 for fiscal year 2024;

14                   (D) \$100,000,000 for fiscal year 2025;

15           and

16                   (E) \$110,000,000 for fiscal year 2026.

17           (2) RULE OF CONSTRUCTION.—The “Indo-Pa-  
18 cific Maritime Security Initiative” and funds author-  
19 ized for the Initiative shall include existing regional  
20 programs carried out by the Department of State re-  
21 lated to maritime security, including the Southeast  
22 Asia Maritime Security Initiative.

23           (h) ELIGIBILITY AND PRIORITIES FOR ASSIST-  
24 ANCE.—

1           (1) IN GENERAL.—The Secretary of State shall  
2 use the following considerations when selecting  
3 which countries in the Indo-Pacific region should re-  
4 ceive assistance pursuant to the Initiative:

5           (A) Assistance may be provided to a coun-  
6 try in the Indo-Pacific region to enhance the ca-  
7 pabilities of that country according to the objec-  
8 tives outlined in (f), or of a regional organiza-  
9 tion that includes that country, to conduct—

10           (i) maritime intelligence, surveillance,  
11 and reconnaissance;

12           (ii) littoral and port security;

13           (iii) Coast Guard operations;

14           (iv) command and control; and

15           (v) management and oversight of mar-  
16 itime activities.

17           (B) Priority shall be placed on assistance  
18 to enhance the maritime security capabilities of  
19 the military or security forces of countries in  
20 the Indo-Pacific region that have maritime mis-  
21 sions and the government agencies responsible  
22 for such forces.

23           (2) TYPES OF ASSISTANCE AND TRAINING.—

24           (A) AUTHORIZED ELEMENTS OF ASSIST-  
25 ANCE.—Assistance provided under paragraph

1 (1)(A) may include the provision of equipment,  
2 training, and small-scale military construction.

3 (B) REQUIRED ELEMENTS OF ASSISTANCE  
4 AND TRAINING.—Assistance and training pro-  
5 vided under subparagraph (A) shall include ele-  
6 ments that promote—

7 (i) the observance of and respect for  
8 human rights; and

9 (ii) respect for legitimate civilian au-  
10 thority within the country to which the as-  
11 sistance is provided.

12 **SEC. 30225. FOREIGN MILITARY FINANCING COMPACT**  
13 **PILOT PROGRAM IN THE INDO-PACIFIC.**

14 (a) AUTHORIZATION OF APPROPRIATIONS.—There is  
15 authorized to be appropriated \$20,000,000 for each of fis-  
16 cal years 2022 and 2023 for the creation of a pilot pro-  
17 gram for foreign military financing (FMF) compacts.

18 (b) ASSISTANCE.—

19 (1) IN GENERAL.—The Secretary of State is  
20 authorized to create a pilot program, for a duration  
21 of two years, with an assessment for any additional  
22 or permanent programming, to provide assistance  
23 under this section for each country that enters into  
24 an FMF Challenge Compact with the United States  
25 pursuant to subsection (d) to support policies and

1 programs that advance the progress of the country  
2 in achieving lasting security and civilian-military  
3 governance through respect for human rights, good  
4 governance (including transparency and free and  
5 fair elections), and cooperation with United States  
6 and international counter-terrorism, anti-trafficking,  
7 and counter-crime efforts and programs.

8 (2) FORM OF ASSISTANCE.—Assistance under  
9 this subsection may be provided in the form of  
10 grants, cooperative agreements, contracts, or no-in-  
11 terest loans to the government of an eligible country  
12 described in subsection (c).

13 (c) ELIGIBLE COUNTRIES.—

14 (1) IN GENERAL.—A country shall be a can-  
15 didate country for purposes of eligibility for assist-  
16 ance for fiscal years 2022 and 2023 if—

17 (A) the country is classified as a lower  
18 middle income country in the then-most recent  
19 edition of the World Development Report for  
20 Reconstruction and Development published by  
21 the International Bank for Reconstruction and  
22 Development and has an income greater than  
23 the historical ceiling for International Develop-  
24 ment Association eligibility for the fiscal year  
25 involved; and

1 (B) the Secretary of State determines that  
2 the country is committed to seeking just and  
3 democratic governance, including with a dem-  
4 onstrated commitment to—

5 (i) the promotion of political plu-  
6 ralism, equality, and the rule of law;

7 (ii) respect for human and civil rights;

8 (iii) protection of private property  
9 rights;

10 (iv) transparency and accountability  
11 of government;

12 (v) anti-corruption; and

13 (vi) the institution of effective civilian  
14 control, professionalization, and respect for  
15 human rights by and the accountability of  
16 the armed forces.

17 (2) IDENTIFICATION OF ELIGIBLE COUN-  
18 TRIES.—Not later than 90 days prior to the date on  
19 which the Secretary of State determines eligible  
20 countries for an FMF Challenge Compact, the Sec-  
21 retary—

22 (A) shall prepare and submit to the appro-  
23 priate congressional committees a report that  
24 contains a list of all eligible countries identified

1           that have met the requirements under para-  
2           graph (1) for the fiscal year; and

3                   (B) shall consult with the appropriate con-  
4           gressional committees on the extent to which  
5           such countries meet the criteria described in  
6           paragraph (1).

7           (d) FMF CHALLENGE COMPACT.—

8                   (1) COMPACT.—The Secretary of State may  
9           provide assistance for an eligible country only if the  
10          country enters into an agreement with the United  
11          States, to be known as an “FMF Challenge Com-  
12          pact” (in this subsection referred to as a “Com-  
13          pact”) that establishes a multi-year plan for achiev-  
14          ing shared security objectives in furtherance of the  
15          purposes of this title.

16                   (2) ELEMENTS.—The elements of the Compact  
17          shall be those listed in subsection (c)(1)(B) for de-  
18          termining eligibility, and be designed to significantly  
19          advance the performance of those commitments dur-  
20          ing the period of the Compact.

21                   (3) IN GENERAL.—The Compact should take  
22          into account the national strategy of the eligible  
23          country and shall include—

24                           (A) the specific objectives that the country  
25                           and the United States expect to achieve during

1 the term of the Compact, including both how  
2 the foreign military financing under the Com-  
3 pact will advance shared security interests and  
4 advance partner capacity building efforts as  
5 well as to advance national efforts towards just  
6 and democratic governance;

7 (B) the responsibilities of the country and  
8 the United States in the achievement of such  
9 objectives;

10 (C) regular benchmarks to measure, where  
11 appropriate, progress toward achieving such ob-  
12 jectives; and

13 (D) the strategy of the eligible country to  
14 sustain progress made toward achieving such  
15 objectives after expiration of the Compact.

16 (e) CONGRESSIONAL CONSULTATION PRIOR TO COM-  
17 PACT NEGOTIATIONS.—Not later than 15 days before  
18 commencing negotiations of a Compact with an eligible  
19 country, the Secretary of State shall consult with the ap-  
20 propriate congressional committees with respect to the  
21 proposed Compact negotiation and shall identify the objec-  
22 tives and mechanisms to be used for the negotiation of  
23 the Compact.

24 (f) ASSESSMENT OF PILOT PROGRAM AND REC-  
25 OMMENDATIONS.—Not later than 90 days after the con-

1 clusion of the pilot program, the Secretary of State shall  
2 provide a report to the appropriate congressional commit-  
3 tees with respect to the pilot program, including an assess-  
4 ment of the success and utility of the pilot program estab-  
5 lished under this subsection in meeting United States ob-  
6 jectives and a recommendation with respect to whether to  
7 continue a further foreign military financing compact pro-  
8 gram on a pilot or permanent basis.

9 **SEC. 30226. STATEMENT OF POLICY ON MARITIME FREE-**  
10 **DOM OF OPERATIONS IN INTERNATIONAL**  
11 **WATERWAYS AND AIRSPACE OF THE INDO-**  
12 **PACIFIC AND ON ARTIFICIAL LAND FEA-**  
13 **TURES IN THE SOUTH CHINA SEA.**

14 (a) SENSE OF CONGRESS.—Congress—

15 (1) condemns coercive and threatening actions  
16 or the use of force to impede freedom of navigation  
17 operations in international airspace by military or ci-  
18 vilian aircraft, to alter the status quo, or to desta-  
19 bilize the Indo-Pacific region;

20 (2) urges the Government of the People’s Re-  
21 public of China to refrain from implementing the de-  
22 clared East China Sea Air Defense Identification  
23 Zone (ADIZ), or an ADIZ in the South China Sea,  
24 where contrary to freedom of overflight in inter-  
25 national airspace, and to refrain from taking similar

1 provocative actions elsewhere in the Indo-Pacific re-  
2 gion;

3 (3) reaffirms that the 2016 Permanent Court  
4 of Arbitration decision is final and legally binding on  
5 both parties and that the People’s Republic of Chi-  
6 na’s claims to offshore resources across most of the  
7 South China Sea are unlawful; and

8 (4) condemns the People’s Republic of China  
9 for failing to abide by the 2016 Permanent Court of  
10 Arbitration ruling, despite the PRC’s obligations as  
11 a state party to the United Nations Convention on  
12 the Law of the Sea.

13 (b) STATEMENT OF POLICY.—It shall be the policy  
14 of the United States to—

15 (1) reaffirm its commitment and support for al-  
16 lies and partners in the Indo-Pacific region, includ-  
17 ing with respect to the mutual defense treaties with  
18 Indo-Pacific allies;

19 (2) oppose claims that impinge on the rights,  
20 freedoms, and lawful use of the sea, or the airspace  
21 above it, that are available to all countries, and op-  
22 pose the militarization of new and reclaimed land  
23 features in the South China Sea;

24 (3) continue certain policies with respect to the  
25 PRC claims in the South China Sea, specifically—

1 (A) that PRC claims in the South China  
2 Sea, including to offshore resources across most  
3 of the South China Sea, are unlawful;

4 (B) that the PRC cannot lawfully assert a  
5 maritime claim vis-à-vis the Philippines in areas  
6 that the Permanent Court of Arbitration found  
7 to be in the Philippines' Exclusive Economic  
8 Zone (EEZ) or on its continental shelf;

9 (C) to reject any PRC claim to waters be-  
10 yond a 12 nautical mile territorial sea derived  
11 from islands it claims in the Spratly Islands;  
12 and

13 (D) that the PRC has no lawful territorial  
14 or maritime claim to James Shoal;

15 (4) urge all parties to refrain from engaging in  
16 destabilizing activities, including environmentally  
17 harmful and provocative land reclamation;

18 (5) ensure that disputes are managed without  
19 intimidation, coercion, or force;

20 (6) call on all claimants to clarify or adjust  
21 claims in accordance with international law;

22 (7) uphold the principle that territorial and  
23 maritime claims, including territorial waters or terri-  
24 torial seas, must derive from land features and oth-  
25 erwise comport with international law;

1           (8) oppose the imposition of new fishing regula-  
2           tions covering disputed areas in the South China  
3           Sea, regulations which have raised tensions in the  
4           region;

5           (9) support an effective Code of Conduct, if  
6           that Code of Conduct reflects the interests of South-  
7           east Asian claimant countries and does not serve as  
8           a vehicle for the People's Republic of China to ad-  
9           vance its unlawful maritime claims;

10          (10) reaffirm that an existing body of inter-  
11          national rules and guidelines, including the Inter-  
12          national Regulations for Preventing Collisions at  
13          Sea, done at London October 12, 1972 (COLREGs),  
14          is sufficient to ensure the safety of navigation be-  
15          tween the United States Armed Forces and the  
16          forces of other countries, including the People's Re-  
17          public of China;

18          (11) support the development of regional insti-  
19          tutions and bodies, including the ASEAN Regional  
20          Forum, the ASEAN Defense Minister's Meeting  
21          Plus, the East Asia Summit, and the expanded  
22          ASEAN Maritime Forum, to build practical coopera-  
23          tion in the region and reinforce the role of inter-  
24          national law;

1           (12) encourage the deepening of partnerships  
2 with other countries in the region for maritime do-  
3 main awareness and capacity building, as well as ef-  
4 forts by the United States Government to explore  
5 the development of appropriate multilateral mecha-  
6 nisms for a “common operating picture” in the  
7 South China Sea among Southeast Asian countries  
8 that would serve to help countries avoid destabilizing  
9 behavior and deter risky and dangerous activities;

10           (13) oppose actions by any country to prevent  
11 any other country from exercising its sovereign  
12 rights to the resources of the exclusive economic  
13 zone (EEZ) and continental shelf by making claims  
14 to those areas in the South China Sea that have no  
15 support in international law; and

16           (14) assure the continuity of operations by the  
17 United States in the Indo-Pacific region, including,  
18 when appropriate, in cooperation with partners and  
19 allies, to reaffirm freedom of navigation and over-  
20 flight and other lawful uses of the sea.

21 **SEC. 30227. REPORT ON CAPABILITY DEVELOPMENT OF**  
22 **INDO-PACIFIC ALLIES AND PARTNERS.**

23           (a) SENSE OF CONGRESS.—It is the sense of Con-  
24 gress that—

1           (1) the Secretary of State should expand and  
2           strengthen existing measures under the United  
3           States Conventional Arms Transfer Policy to provide  
4           capabilities to allies and partners consistent with  
5           agreed-on division of responsibility for alliance roles,  
6           missions and capabilities, prioritizing allies and part-  
7           ners in the Indo-Pacific region in accordance with  
8           United States strategic imperatives;

9           (2) the United States should design for export  
10          to Indo-Pacific allies and partners capabilities crit-  
11          ical to maintaining a favorable military balance in  
12          the region, including long-range precision fires, air  
13          and missile defense systems, anti-ship cruise mis-  
14          siles, land attack cruise missiles, conventional  
15          hypersonic systems, intelligence, surveillance, and re-  
16          connaissance capabilities, and command and control  
17          systems consistent with law, regulation, policy, and  
18          international commitments;

19          (3) the United States should pursue, to the  
20          maximum extent possible, anticipatory technology  
21          security and foreign disclosure policy on the systems  
22          described in paragraph (2);

23          (4) the Secretary of State, in coordination with  
24          the Secretary of Defense, should—

1 (A) urge allies and partners to invest in  
2 sufficient quantities of munitions to meet con-  
3 tingency requirements and avoid the need for  
4 accessing United States stocks in wartime; and

5 (B) cooperate with allies to deliver such  
6 munitions, or when necessary, to increase allies'  
7 capacity to produce such munitions; and

8 (5) it is in the United States interest to not au-  
9 thorize arms transfers or security cooperation to  
10 governments that demonstrate patterns of gross vio-  
11 lations of human rights if such arms or security co-  
12 operation could be used to commit or support such  
13 violations.

14 (b) APPROPRIATE COMMITTEES OF CONGRESS.—In  
15 this section, the term “appropriate committees of Con-  
16 gress” means—

17 (1) the Committee on Foreign Relations, the  
18 Committee on Armed Services, and the Committee  
19 on Appropriations of the Senate; and

20 (2) the Committee on Foreign Affairs, the  
21 Committee on Armed Services, and the Committee  
22 on Appropriations of the House of Representatives.

23 (c) REPORT.—

24 (1) IN GENERAL.—Not later than 90 days after  
25 the date of the enactment of this Act, the Secretary

1 of State, in consultation with the Secretary of De-  
2 fense, shall submit to the appropriate committees of  
3 Congress a report that describes United States pri-  
4 orities for building more capable security partners in  
5 the Indo-Pacific region.

6 (2) MATTERS TO BE INCLUDED.—The report  
7 required under paragraph (1) shall—

8 (A) provide a priority list of defense and  
9 military capabilities that Indo-Pacific allies and  
10 partners must possess for the United States to  
11 be able to achieve its military objectives in the  
12 Indo-Pacific region;

13 (B) identify, from the list referred to in  
14 subparagraph (A), the capabilities that are best  
15 provided, or can only be provided, by the  
16 United States;

17 (C) identify—

18 (i) actions required to expedite field-  
19 ing the capabilities identified in subpara-  
20 graph (B); and

21 (ii) steps needed to fully account for  
22 and a plan to integrate all means of  
23 United States foreign military sales, direct  
24 commercial sales, security assistance, and  
25 all applicable authorities of the Depart-

1           ment of State and the Department of De-  
2           fense;

3           (D) assess the requirements for United  
4           States security assistance, including Inter-  
5           national Military Education and Training, in  
6           the Indo-Pacific region, as a part of the means  
7           to deliver critical partner capability require-  
8           ments identified in subparagraph (B);

9           (E) assess the resources necessary to meet  
10          the requirements for United States security as-  
11          sistance, and identify resource gaps;

12          (F) assess the major obstacles to fulfilling  
13          requirements for United States security assist-  
14          ance in the Indo-Pacific region, including re-  
15          sources and personnel limits, foreign legislative  
16          and policy barriers, and factors related to spe-  
17          cific partner countries;

18          (G) identify limitations on the ability of  
19          the United States to provide such capabilities,  
20          including capabilities identified under subpara-  
21          graph (B), because of existing United States  
22          treaty obligations, United States policies, in-  
23          cluding sections 502B and 620M of the Foreign  
24          Assistance Act of 1961 (22 U.S.C. 2304 and  
25          2378d), or other regulations;

1 (H) recommend improvements to the proc-  
2 ess for developing requirements for United  
3 States partner capabilities; and

4 (I) identify required jointly agreed rec-  
5 ommendations for infrastructure and posture,  
6 based on any ongoing mutual dialogues.

7 (3) FORM.—The report required under this  
8 subsection shall be unclassified, but may include a  
9 classified annex.

10 **SEC. 30228. STATEMENT OF POLICY REGARDING THE**  
11 **THREAT POSED BY THE CHINESE COM-**  
12 **MUNIST PARTY TO THE NORTH ATLANTIC**  
13 **TREATY ORGANIZATION.**

14 It is the policy of the United States to—

15 (1) urge NATO allies to work closely with like-  
16 minded partners, in particular with the European  
17 Union, to protect critical infrastructure, strengthen  
18 resilience, maintain a technological edge, and ad-  
19 dress the challenges to the rules-based international  
20 order posed by the Chinese Communist Party;

21 (2) encourage NATO allies to explore how to  
22 monitor and defend against any activity of the Chi-  
23 nese Communist Party that could impact collective  
24 defense, military readiness, or resilience in the Su-  
25 preme Allied Commander Europe's Area of Respon-

1 sibility, including by identifying vulnerabilities of key  
2 sectors and supply chains, in coordination with the  
3 European Union;

4 (3) push for NATO allies to establish a consult-  
5 ative body to bring together such allies, and other  
6 institutions and partners as relevant, to exchange in-  
7 formation, share experiences, and discuss all aspects  
8 of such allies' security interests with respect to the  
9 Chinese Communist Party; and

10 (4) prioritize urging all NATO allies to share  
11 the burden that comes with collective security in an  
12 increasingly complex security environment by reach-  
13 ing by 2024 the pledge set at the 2014 Wales Sum-  
14 mit to spend two percent of GDP on defense spend-  
15 ing and 20 percent of annual defense spending on  
16 major new equipment.

17 **SEC. 30229. IDENTIFICATION OF PLA-SUPPORTED INSTITU-**  
18 **TIONS.**

19 (a) IN GENERAL.—Not later than 60 days after the  
20 date of the enactment of this Act, and annually thereafter,  
21 the Secretary of State shall publish and disseminate to  
22 United States institutions and places of study a list identi-  
23 fying the research, engineering, and scientific institutions  
24 that the Secretary determines are affiliated with, or fund-  
25 ed by, the Chinese People's Liberation Army.

1 (b) FORM.—The list published and disseminated  
2 under subsection (a) shall be unclassified and publicly ac-  
3 cessible, but may include a classified annex.

4 **SEC. 30229A. PROHIBITION ON CERTAIN ASSISTANCE TO**  
5 **THE PHILIPPINES.**

6 (a) IN GENERAL.—No funds authorized to be appro-  
7 priated or otherwise made available by this Act are author-  
8 ized to be made available to provide assistance for the  
9 Philippine National Police, including assistance in the  
10 form of equipment or training, until the Secretary of State  
11 certifies to the Committee on Foreign Affairs of the House  
12 of Representatives and the Committee on Foreign Rela-  
13 tions of the Senate that the Government of the Philippines  
14 has—

15 (1) investigated and successfully prosecuted  
16 members of the Philippine National Police who have  
17 violated human rights, ensured that police personnel  
18 cooperated with judicial authorities in such cases,  
19 and affirmed that such violations have ceased;

20 (2) established that the Philippine National Po-  
21 lice effectively protects the rights of trade unionists,  
22 journalists, human rights defenders, critics of the  
23 government, faith and religious leaders, and other  
24 civil society activists to operate without interference;

1           (3) taken effective steps to guarantee a judicial  
2           system that is capable of investigating, prosecuting,  
3           and bringing to justice members of the police and  
4           military who have committed human rights abuses;  
5           and

6           (4) fully complied with domestic and United  
7           States audits and investigations regarding the im-  
8           proper use of prior security assistance.

9           (b) **WAIVER.**—The President may, on a case-by-case  
10          basis and for periods not to exceed 180 days each, waive  
11          the prohibition under subsection (a) if the President cer-  
12          tifies to the Committee on Foreign Affairs of the House  
13          of Representatives and the Committee on Foreign Rela-  
14          tions of the Senate not later than 15 days before such  
15          waiver is to take effect that such waiver is vital to the  
16          national security interests of the United States or its part-  
17          ners and allies.

18          **SEC. 30229B. PRIORITIZATION AND PROTECTION OF INTER-**  
19                                    **NATIONAL RESEARCH.**

20          (a) **LIST OF ALLIED COUNTRIES.**—The Secretary of  
21          State, in consultation with the Director of the Office of  
22          Science and Technology Policy, the National Security  
23          Council, the Secretary of Energy, the Director of the Na-  
24          tional Science Foundation, and the heads of other relevant  
25          agencies, shall create a list of allied countries with which

1 joint international research and cooperation would ad-  
2 vance United States national interests and advance sci-  
3 entific knowledge in key technology focus areas.

4 (b) ESTABLISHMENT OF SECURITY PROCEDURES.—  
5 The Secretary of State, in consultation with the individ-  
6 uals and entities listed in subsection (a), shall collaborate  
7 with similar entities in the countries appearing on the list  
8 created pursuant to subsection (a) to develop, coordinate,  
9 and agree to general security policies and procedures for  
10 governmental, academic, and private sector research, to  
11 prevent sensitive research from being disclosed to adver-  
12 saries.

13 (c) REPORT.—Not later than 1 year after the date  
14 of the enactment of this Act, the Secretary of State, in  
15 consultation with the individuals and entities listed in sub-  
16 section (a), and allied countries appearing on the list cre-  
17 ated pursuant to subsection (a), shall submit a report to  
18 Congress that identifies the most promising international  
19 research ventures that leverage resources and advance re-  
20 search in key technology focus areas.

21 **Subtitle C—Multilateral Strategies**  
22 **to Bolster American Power**

23 **SEC. 30231. FINDINGS ON MULTILATERAL ENGAGEMENT.**

24 Congress finds the following:

1           (1) Every UN member state is legally required  
2           to finance the UN's core budget in order to ensure  
3           that these missions are properly resourced, and as-  
4           sessment rates are renegotiated every three years by  
5           the UN General Assembly.

6           (2) While the United States is the largest single  
7           financial contributor to the UN system, the current  
8           model is beneficial because it requires all UN mem-  
9           ber states, no matter how big or small, to help  
10          shoulder the UN's regular and peacekeeping budgets  
11          at specified levels.

12          (3) Failing to meet our financial commitments  
13          to the UN also empowers the PRC, which has raised  
14          our annual shortfalls to claim we are not a reliable  
15          partner and is seeking to leverage its own contribu-  
16          tions to the regular budget and peacekeeping in  
17          ways that run counter to United States interests and  
18          values.

19          (4) The People's Republic of China is now the  
20          second largest financial contributor to UN peace-  
21          keeping, having gone from an assessment rate of  
22          just 3 percent in 2008 to more than 15 percent  
23          today, and is the ninth largest troop-contributor to  
24          UN missions, providing more personnel than the

1 other four permanent members of the Security  
2 Council combined.

3 (5) With greater engagement comes greater in-  
4 fluence, and PRC diplomats have sought to use their  
5 expanded clout to push back against the human  
6 rights, civilian protection, and gender-based violence  
7 aspects of UN peacekeeping mandates, using United  
8 States funding shortfalls as a pretext.

9 (6) The PRC has also used its growing clout to  
10 fill key posts at UN agencies: Chinese nationals cur-  
11 rently occupy the top posts of four of the UN's 15  
12 specialized agencies, while the United States occu-  
13 pies only one.

14 (7) From 2021 to 2022, there will be 15 elec-  
15 tions for the heads of UN specialized agencies and  
16 five for major UN funds and programs. With the ex-  
17 ception of the World Food Programme, none are  
18 currently led by Americans.

19 (8) A 2020 Department of State Inspector Gen-  
20 eral Inspection found that the Bureau for Inter-  
21 national Organizations did not have a standard oper-  
22 ating procedure for tracking and promoting the em-  
23 ployment of American Citizens in the UN system,  
24 and their recommendation to the department to es-  
25 tablish one remains open.

1 **SEC. 30232. STATEMENT OF POLICY ON AMERICA'S MULTI-**  
2 **LATERAL ENGAGEMENT.**

3 It is the policy of the United States that—

4 (1) the Permanent Representative of the United  
5 States to the United Nations serves as a standing  
6 member of the cabinet;

7 (2) assessed dues to multilateral organizations  
8 be paid in full in a timely fashion;

9 (3) Federal agencies utilize all the authorities  
10 under section 3343 of title 5, United States Code,  
11 and subpart C of title 5, Code of Federal Regula-  
12 tions (relating to detail and transfer of Federal em-  
13 ployees to international organizations), to detail or  
14 transfer employees to relevant international organi-  
15 zations;

16 (4) the Secretary of State should assist the De-  
17 partment of State and other Federal agencies in car-  
18 rying out paragraph (3) to the fullest extent;

19 (5) the Secretary of State should support quali-  
20 fied American candidates in their bid to win election  
21 to United Nations-related leadership positions; and

22 (6) the Secretary of State should support the  
23 placement of Junior Professional Officers sponsored  
24 by the United States in United Nations-affiliated  
25 agencies.

1 **SEC. 30233. SUPPORT FOR AMERICANS AT THE UNITED NA-**  
2 **TIONS.**

3 (a) ESTABLISHMENT.—The Secretary of State is au-  
4 thorized to establish within the Department of State’s Bu-  
5 reau of International Organization Affairs an Office of  
6 Multilateral Strategy and Personnel.

7 (b) DUTIES.—The office established under subsection  
8 (a) of this section shall be responsible for—

9 (1) promoting United States leadership and  
10 participation in the United Nations system, with a  
11 focus on issue areas where authoritarian nations are  
12 exercising increased influence in and determining the  
13 agenda of the United Nations system;

14 (2) establishing and implementing a standard  
15 operating procedure for the promotion and efficient  
16 tracking of United States citizen employment at the  
17 United Nations and other international organiza-  
18 tions that includes Mission Geneva;

19 (3) monitoring the pipeline of United Nations  
20 jobs and identifying qualified United States citizens  
21 and other qualified nationals to promote for such po-  
22 sitions;

23 (4) tracking leadership changes in United Na-  
24 tions Secretariat, funds, programs, and agencies,  
25 and developing strategies to ensure that coalitions of  
26 like-minded countries are assembled to ensure lead-

1 ership races are not won by countries that do not  
2 share United States interests;

3 (5) eliminating current barriers to the employ-  
4 ment of United States citizens in the United Nations  
5 Secretariat, funds, programs, and agencies; and

6 (6) increasing the number of qualified United  
7 States candidates for leadership and oversight posi-  
8 tions at the United Nations Secretariat, funds, pro-  
9 grams, agencies, and at other international organiza-  
10 tions.

11 **SEC. 30234. JUNIOR PROFESSIONAL OFFICERS.**

12 (a) INCREASE IN JUNIOR PROFESSIONAL OFFICER  
13 POSITIONS.—The Secretary of State should increase the  
14 number of Junior Professional Officer positions sponsored  
15 by the United States within the United Nations system.

16 (b) REPORT.—Not later than December 31 of each  
17 year, the Secretary of State shall provide the appropriate  
18 congressional committees information regarding the  
19 amount of funding each bureau has designated during the  
20 immediately preceding fiscal year for Junior Professional  
21 Officer positions in the United Nations system and the  
22 number of such positions that exist as of the end of the  
23 prior fiscal year.

1 **SEC. 30235. REPORT ON AMERICAN EMPLOYMENT IN**  
2 **INTERNATIONAL ORGANIZATIONS.**

3 (a) IN GENERAL.—Not later than 180 days after the  
4 date of the enactment of this Act and annually thereafter,  
5 the Secretary of State, in consultation with the heads of  
6 other Federal departments and agencies as appropriate,  
7 shall develop and submit to the appropriate congressional  
8 committees a report on how many Federal employees are  
9 currently detailed or transferred to an international orga-  
10 nization during the immediately preceding 1-year period  
11 and a strategy for increasing the number of Federal em-  
12 ployees so detailed or transferred.

13 (b) MATTERS TO BE INCLUDED.—Each report re-  
14 quired by subsection (a) shall include the following:

15 (1) The number of Federal employees detailed  
16 or transferred to an international organization under  
17 section 3343 of title 5, United States Code, and sub-  
18 part C of title 5, Code of Federal Regulations (relat-  
19 ing to the detail and transfer of Federal employees  
20 to international organizations), including—

21 (A) an identification of the Federal agency  
22 from which such employees were detailed or  
23 transferred; and

24 (B) an identification of the international  
25 organizations to and from which such employ-  
26 ees have been so detailed or transferred.

1           (2) A list of international organizations to and  
2           from which the United States previously detailed or  
3           transferred Federal employees.

4           **Subtitle D—Regional Strategies to**  
5           **Bolster American Power**

6           **SEC. 30241. STATEMENT OF POLICY ON COOPERATION**  
7                           **WITH ALLIES AND PARTNERS AROUND THE**  
8                           **WORLD.**

9           It is the policy of the United States—

10           (1) to strengthen alliances and partnerships  
11           with like-minded countries around the globe; and

12           (2) to work in collaboration with such allies and  
13           partners—

14                   (A) to address significant diplomatic, eco-  
15                   nomic, and military challenges posed by the  
16                   People’s Republic of China (PRC);

17                   (B) to deter the PRC from pursuing mili-  
18                   tary aggression;

19                   (C) to promote the peaceful resolution of  
20                   territorial disputes in accordance with inter-  
21                   national law;

22                   (D) to promote private sector-led long-term  
23                   economic development while countering efforts  
24                   by the Government of the PRC to leverage  
25                   predatory economic practices as a means of po-

1           litical and economic coercion in the Indo-Pacific  
2           region and beyond;

3           (E) to promote the values of democracy  
4           and human rights, including through efforts to  
5           end the repression by the PRC of political dis-  
6           sidents, Uyghurs and other Muslim minorities,  
7           Tibetan Buddhists, Christians, and other ethnic  
8           minorities;

9           (F) to respond to the crackdown by the  
10          PRC, in contravention of the commitments  
11          made under the Sino-British Joint Declaration  
12          of 1984 and the Basic Law of Hong Kong, on  
13          the legitimate aspirations of the people of Hong  
14          Kong; and

15          (G) to counter the PRC Government's ef-  
16          forts to spread disinformation in the PRC and  
17          countering their disbursement of vaccines in ex-  
18          change for exploitative concessions in low- to  
19          middle-income countries while maintaining  
20          United States engagement with and support for  
21          multilateral vaccine procurement and equitable  
22          distribution and beyond with respect to its re-  
23          sponse to COVID-19.

1 **SEC. 30241A. REPORT ON INDIGENOUS ENGAGEMENT.**

2 (a) REPORT REQUIRED.—Not later than 180 days  
3 after the date of the enactment of this Act, the Secretary  
4 of State, in coordination with the Secretary of the Interior  
5 and in consultation with other relevant Federal depart-  
6 ments and agencies, shall submit to the appropriate con-  
7 gressional committees a report on international indigenous  
8 engagement.

9 (b) ELEMENTS.—The report required by subsection  
10 (a) shall include the following:

11 (1) a description of existing programs and ef-  
12 forts by the United States Government that promote  
13 international engagement with indigenous peoples by  
14 Native Americans and Native American communities  
15 as well as Native American representation and par-  
16 ticipation in international organizations dedicated to  
17 indigenous communities;

18 (2) a description of existing programs and ef-  
19 forts by other countries, especially United States al-  
20 lies and partners, to promote international diplo-  
21 matic representation, educational and cultural ex-  
22 change, and other people-to-people engagements  
23 among their indigenous peoples;

24 (3) a strategy for enhancing and promoting  
25 greater Native American participation and represen-  
26 tation in United States diplomatic engagement in

1 international organizations and international edu-  
2 cational and cultural exchange programs operated by  
3 the United States Government, including the estab-  
4 lishment of an Office of Indigenous Affairs headed  
5 by a presidentially appointed Special Envoy for In-  
6 digenous Affairs; and

7 (4) steps that the Secretary of State shall take  
8 to enhance cooperation and relationship with Native  
9 Americans in accordance with the Federal trust re-  
10 sponsibility and to promote best practices among the  
11 staff of the Department of State for engagement  
12 with Native Americans.

13 (c) DEFINITIONS.—In this section:

14 (1) APPROPRIATE CONGRESSIONAL COMMIT-  
15 TEES.—The term “appropriate congressional com-  
16 mittees” means—

17 (A) the Committee on Foreign Affairs and  
18 the Committee on Natural Resources of the  
19 House of Representatives; and

20 (B) the Committee on Foreign Relations  
21 and the Committee on Indian Affairs of the  
22 Senate.

23 (2) NATIVE AMERICAN.—The term “Native  
24 American” includes—

1 (A) American Indian as defined in section  
2 4 of the Indian Self-Determination and Edu-  
3 cation Assistance Act (25 U.S.C. 5304);

4 (B) Alaska Native, within the meaning  
5 provided for the term “Native” in section 3(b)  
6 of the Alaska Native Claims Settlement Act (43  
7 23 U.S.C. 1602(b)); and

8 (C) Native Hawaiian as defined in para-  
9 graph (9) of section 801 of the Native Amer-  
10 ican Housing Assistance and Self-Determina-  
11 tion Act (25 U.S.C. 4221(9)).

12 **PART 1—WESTERN HEMISPHERE**

13 **SEC. 30242. SENSE OF CONGRESS REGARDING UNITED**  
14 **STATES-CANADA RELATIONS.**

15 It is the sense of Congress that—

16 (1) the United States and Canada have a  
17 unique relationship based on shared geography, ex-  
18 tensive personal connections, deep economic ties,  
19 mutual defense commitments, and a shared vision to  
20 uphold democracy, human rights, and the rules  
21 based international order established after World  
22 War II;

23 (2) the United States and Canada can better  
24 address the People’s Republic of China’s economic,  
25 political, and security influence through closer co-

1 operation on counternarcotics, environmental stewardship, transparent practices in public procurement  
2 and infrastructure planning, the Arctic, energy and  
3 connectivity issues, commercial relations, bilateral  
4 legal matters, and support for democracy, good governance, and human rights;

5  
6  
7 (3) amidst the COVID–19 pandemic, the  
8 United States and Canada should maintain joint initiatives to address border management, commercial  
9 relations and infrastructure, a shared approach with  
10 respect to the People’s Republic of China, and  
11 transnational challenges, including pandemics, energy security, and environmental stewardship;

12  
13  
14 (4) the United States and Canada should enhance cooperation to counter Chinese disinformation,  
15 influence operations, economic espionage, and propaganda efforts;

16  
17  
18 (5) the People’s Republic of China’s infrastructure investments, particularly in 5G telecommunications technology, extraction of natural resources,  
19 and port infrastructure, pose national security risks  
20 for the United States and Canada;

21  
22  
23 (6) the United States should share, as appropriate, intelligence gathered regarding—

24  
25 (A) Huawei’s 5G capabilities; and

1 (B) the PRC government's intentions with  
2 respect to 5G expansion;

3 (7) the United States and Canada should con-  
4 tinue to advance collaborative initiatives to imple-  
5 ment the January 9, 2020, United States-Canada  
6 Joint Action Plan on Critical Minerals Development  
7 Collaboration; and

8 (8) the United States and Canada should  
9 prioritize cooperation on continental defense and in  
10 the Arctic, including by modernizing the North  
11 American Aerospace Defense Command (NORAD)  
12 sensor architecture to provide effective warning and  
13 tracking of threats by peer competitors, including  
14 long-range missiles and high-precision weapons, to  
15 the Northern Hemisphere.

16 **SEC. 30243. SENSE OF CONGRESS REGARDING CHINA'S AR-**  
17 **BITRARY IMPRISONMENT OF CANADIAN CITI-**  
18 **ZENS.**

19 It is the sense of Congress that—

20 (1) the Government of the People's Republic of  
21 China's apparent arbitrary detention and abusive  
22 treatment of Canadian nationals Michael Spavor and  
23 Michael Kovrig in apparent retaliation for the Gov-  
24 ernment of Canada's arrest of Meng Wanzhou is  
25 deeply concerning;

1           (2) the Government of Canada has shown inter-  
2 national leadership by—

3           (A) upholding the rule of law and com-  
4 plying with its international legal obligations,  
5 including obligations pursuant to the Extra-  
6 dition Treaty Between the United States of  
7 America and Canada, signed at Washington  
8 December 3, 1971; and

9           (B) launching the Declaration Against Ar-  
10 bitrary Detention in State-to-State Relations,  
11 which has been endorsed by 57 countries and  
12 the European Union, and reaffirms well-estab-  
13 lished prohibitions under international human  
14 rights conventions against the arbitrary deten-  
15 tion of foreign nationals to be used as leverage  
16 in country-to-country relations; and

17           (3) the United States continues to join the Gov-  
18 ernment of Canada in calling for the immediate re-  
19 lease of Michael Spavor and Michael Kovrig and for  
20 due process for Canadian national Robert  
21 Schellenberg.

22 **SEC. 30244. STRATEGY TO ENHANCE COOPERATION WITH**  
23 **CANADA.**

24           (a) IN GENERAL.—Not later than 180 days after the  
25 date of the enactment of this Act, the President shall sub-

1 mit to the appropriate congressional committees, and the  
2 Committee on Ways and Means of the House of Rep-  
3 resentatives, the Committee on Finance of the Senate, and  
4 the Committees on Armed Services of the Senate and the  
5 House of Representatives, and the Permanent Select Com-  
6 mittee on Intelligence of the House of Representatives and  
7 the Select Committee on Intelligence of the Senate, a  
8 strategy that describes how the United States will enhance  
9 cooperation with the Government of Canada in managing  
10 relations with the Government of the People’s Republic of  
11 China.

12 (b) ELEMENTS.—The strategy required under sub-  
13 section (a) shall—

14 (1) identify key policy points of convergence  
15 and divergence between the United States and Can-  
16 ada in managing relations with the People’s Repub-  
17 lic of China in the areas of technology, economic  
18 practices, cyber security, secure supply chains and  
19 critical minerals, and illicit narcotics;

20 (2) include a description of United States devel-  
21 opment and coordination efforts with Canadian  
22 counterparts to enhance the cooperation between the  
23 United States and Canada with respect to—

24 (A) managing economic relations with the  
25 People’s Republic of China;

1 (B) democracy and human rights in the  
2 People's Republic of China;

3 (C) technology issues involving the Peo-  
4 ple's Republic of China;

5 (D) defense issues involving the People's  
6 Republic of China; and

7 (E) international law enforcement and  
8 transnational organized crime issues;

9 (3) detail diplomatic efforts and future plans to  
10 work with Canada to counter the People's Republic  
11 of China's projection of an authoritarian governing  
12 model around the world;

13 (4) detail diplomatic, defense, and intelligence  
14 cooperation to date and future plans to support Ca-  
15 nadian efforts to identify cost-effective alternatives  
16 to Huawei's 5G technology;

17 (5) detail diplomatic and defense collabora-  
18 tion—

19 (A) to advance joint United States-Cana-  
20 dian priorities for responsible stewardship in  
21 the Arctic Region; and

22 (B) to counter the People's Republic of  
23 China's efforts to project political, economic,  
24 and military influence into the Arctic Region;  
25 and

1           (6) detail diplomatic efforts to work with Can-  
2           ada to track and counter the People’s Republic of  
3           China’s attempts to exert influence across the multi-  
4           lateral system.

5           (c) FORM.—The strategy required under this section  
6           shall be submitted in an unclassified form that can be  
7           made available to the public, but may include a classified  
8           annex, if necessary.

9           (d) CONSULTATION.—Not later than 90 days after  
10          the date of the enactment of this Act and not less fre-  
11          quently than every 180 days thereafter for five years, the  
12          Secretary of State shall consult with the appropriate con-  
13          gressional committees, and the Committees on Armed  
14          Services of the Senate and the House of Representatives,  
15          regarding the development and implementation of the  
16          strategy required under this section.

17       **SEC. 30245. SENSE OF CONGRESS.**

18          It is the sense of Congress that—

19               (1) United States engagement with the leaders  
20               of the Western Hemisphere is critical to addressing  
21               the region’s shared challenges and opportunities;

22               (2) Congress encourages cooperation and fur-  
23               ther engagement specifically in policy areas on mi-  
24               gration, climate, and economic development, under-  
25               scoring the China-Community of Latin American

1 and Caribbean States Forum Joint Action Plan  
2 (2022–2024) and other initiatives that signal Chi-  
3 na’s growing influence and cooperation in the region;  
4 and

5 (3) Congress encourages the development of an  
6 annual summit that convenes leaders of the Western  
7 Hemisphere on issues relating to root causes of mi-  
8 gration, including the climate crisis, poverty, secu-  
9 rity, and other contributing factors to instability.

10 **SEC. 30246. STRATEGY TO STRENGTHEN ECONOMIC COM-**  
11 **PETITIVENESS, GOVERNANCE, HUMAN**  
12 **RIGHTS, AND THE RULE OF LAW IN LATIN**  
13 **AMERICA AND THE CARIBBEAN.**

14 (a) IN GENERAL.—Not later than 180 days after the  
15 date of the enactment of this Act, the Secretary of State,  
16 in consultation, as appropriate, with the Secretary of the  
17 Treasury, the Secretary of Commerce, the Administrator  
18 of the United States Agency for International Develop-  
19 ment (USAID), the Attorney General, the United States  
20 Trade Representative, and the Chief Executive Officer of  
21 the United States International Development Finance  
22 Corporation, shall submit to the appropriate congressional  
23 committees, the Committee on Ways and Means and the  
24 Committee on Appropriations of the House of Representa-  
25 tives, and the Committee on Finance and the Committee

1 on Appropriations of the Senate a multi-year strategy for  
2 increasing United States economic competitiveness and  
3 promoting good governance, human rights, and the rule  
4 of law in Latin American and Caribbean countries, par-  
5 ticularly in the areas of—

6 (1) investment;

7 (2) equitable, inclusive, and sustainable develop-  
8 ment, including for indigenous and African-descend-  
9 ant communities;

10 (3) commercial relations;

11 (4) anti-corruption activities; and

12 (5) infrastructure projects.

13 (b) ADDITIONAL ELEMENTS.—The strategy required  
14 under subsection (a) shall include a plan of action, includ-  
15 ing benchmarks to achieve measurable progress, to—

16 (1) enhance the technical capacity of Latin  
17 American and Caribbean countries to advance the  
18 sustainable and inclusive development of equitable  
19 economies, including for indigenous and African-de-  
20 scendant communities;

21 (2) facilitate a more open, transparent, and  
22 competitive environment for United States busi-  
23 nesses in the region;

24 (3) establish frameworks or mechanisms to re-  
25 view long term financial sustainability and security

1 implications of foreign investments in strategic sec-  
2 tors or services, including transportation, commu-  
3 nications, natural resources, and energy;

4 (4) establish competitive, transparent, and in-  
5 clusive infrastructure project selection and procure-  
6 ment processes that promote transparency, supplier  
7 diversity, open competition, financial sustainability,  
8 adherence to robust global standards, and the em-  
9 ployment of a diverse local workforce and manage-  
10 ment;

11 (5) strengthen national, regional, and local legal  
12 structures critical to robust democratic governance,  
13 fair competition, combatting corruption, and ending  
14 impunity; and

15 (6) enhance transparent, affordable, and equi-  
16 table access to the internet and digital infrastructure  
17 in the Western Hemisphere.

18 (c) BRIEFING REQUIREMENT.—Not later than one  
19 year after the date of the enactment of this Act and annu-  
20 ally thereafter for five years, the Secretary of State, after  
21 consultation with the Secretary of the Treasury, the Sec-  
22 retary of Commerce, the Attorney General, the United  
23 States Trade Representative, and the leadership of the  
24 United States International Development Finance Cor-  
25 poration, shall brief the congressional committees specified

1 in subsection (a) regarding the implementation of this sec-  
2 tion, including examples of successes and challenges.

3 **SEC. 30247. ENGAGEMENT IN INTERNATIONAL ORGANIZA-**  
4 **TIONS AND THE DEFENSE SECTOR IN LATIN**  
5 **AMERICA AND THE CARIBBEAN.**

6 (a) **APPROPRIATE COMMITTEES OF CONGRESS DE-**  
7 **FINED.**—In this section, the term “appropriate commit-  
8 tees of Congress” means—

9 (1) the Committee on Foreign Relations of the  
10 Senate;

11 (2) the Select Committee on Intelligence of the  
12 Senate;

13 (3) the Committee on Armed Services of the  
14 Senate;

15 (4) the Committee on Foreign Affairs of the  
16 House of Representatives;

17 (5) the Permanent Select Committee on Intel-  
18 ligence of the House of Representatives; and

19 (6) the Committee on Armed Services of the  
20 House of Representatives.

21 (b) **REPORTING REQUIREMENT.**—

22 (1) **IN GENERAL.**—Not later than 90 days after  
23 the date of the enactment of this Act, the Secretary  
24 of State, in coordination with the Director of Na-  
25 tional Intelligence, the Director of the Central Intel-

1       ligence Agency, and the Defense Intelligence Agency,  
2       shall submit to the appropriate committees of Con-  
3       gress a report that assesses the nature, intent, and  
4       impact on United States strategic interests of Chi-  
5       nese diplomatic activity aimed at influencing the de-  
6       cisions, procedures, and programs of multilateral or-  
7       ganizations in Latin America and the Caribbean, in-  
8       cluding the World Bank, International Monetary  
9       Fund, Organization of American States, and the  
10      Inter-American Development Bank.

11           (2) DEFENSE SECTOR.—The report required  
12      under paragraph (1) shall include an assessment of  
13      the nature, intent, and impact on United States  
14      strategic interests of Chinese military activity in  
15      Latin America and the Caribbean, including military  
16      education and training programs, weapons sales, and  
17      space-related activities in the military or civilian  
18      spheres, such as—

19           (A) the satellite and space control station  
20      the People’s Republic of China constructed in  
21      Argentina; and

22           (B) defense and security cooperation car-  
23      ried out by the People’s Republic of China in  
24      Latin America and the Caribbean, including  
25      sales of surveillance and monitoring technology

1 to governments in the region such as Venezuela,  
2 Cuba, Ecuador, and Colombia, and the poten-  
3 tial use of such technologies as tools of Chinese  
4 intelligence services.

5 (3) FORM.—The report required under para-  
6 graph (1) shall be submitted in unclassified form  
7 and include classified annexes.

8 **SEC. 30248. DEFENSE COOPERATION IN LATIN AMERICA**  
9 **AND THE CARIBBEAN.**

10 (a) IN GENERAL.—There is authorized to be appro-  
11 priated to the Department of State \$13,500,000 for the  
12 International Military Education and Training Program  
13 for Latin America and the Caribbean for each of fiscal  
14 years 2022 through 2026.

15 (b) MODERNIZATION.—The Secretary of State shall  
16 modernize and strengthen the programs receiving funding  
17 in accordance with subsection (a) to ensure that such pro-  
18 grams are vigorous, substantive, and the preeminent  
19 choice for international military education and training for  
20 Latin American and Caribbean partners.

21 (c) REQUIRED ELEMENTS.—The programs referred  
22 to in subsection (a) shall—

23 (1) provide training and capacity-building op-  
24 portunities to Latin American and Caribbean secu-  
25 rity services;

1           (2) provide practical skills and frameworks  
2 for—

3           (A) improving the functioning and organi-  
4 zation of security services in Latin America and  
5 the Caribbean;

6           (B) creating a better understanding of the  
7 United States and its values; and

8           (C) using technology for maximum effi-  
9 ciency and organization;

10          (3) promote and ensure that security services in  
11 Latin America and the Caribbean respect civilian  
12 authority and operate in compliance with inter-  
13 national norms, standards, and rules of engagement,  
14 including a respect for human rights, and full com-  
15 pliance with requirements under section 620M of the  
16 Foreign Assistance Act of 1961 (22 U.S.C. 2378d;  
17 commonly referred to as the “Leahy law”); and

18          (4) receive funds only after vetting of individ-  
19 uals proposed to be trained, consistent with sections  
20 502B and 620M of the Foreign Assistance Act of  
21 1961 (22 U.S.C. 2304 and 2378d).

22 (d) REPORT ON IMET ACTIVITIES.—

23          (1) IN GENERAL.—Not later than 180 days  
24 after the date of the enactment of this Act, the Sec-  
25 retary of State shall provide a report to the House

1 and Senate Appropriations Committees, House and  
2 Senate Armed Services Committee, Senate Foreign  
3 Relations Committee, and House Foreign Affairs  
4 Committee a report on the use of the International  
5 Military Education and Training Program (IMET)  
6 in the countries of Latin America since 2012, in-  
7 cluding relating to the following:

8 (A) The number of security units trained  
9 in each country.

10 (B) Which security service units, by coun-  
11 try and unit, received IMET education and  
12 training despite credible allegations of corrup-  
13 tion, impeding democratic processes, or involve-  
14 ment in drug trafficking prior to IMET pro-  
15 gram.

16 (C) Which security service units, by coun-  
17 try and unit, received IMET education and  
18 training, and subsequently had credible allega-  
19 tions of corruption, impeding democratic proc-  
20 esses, or involvement in drug trafficking.

21 (D) Which security service units, by coun-  
22 try and unit, were involved in violations of  
23 human rights subsequent to their involvement  
24 in IMET programs.

1           (2) FORM.—The report required under para-  
2           graph (1) shall be submitted in unclassified form but  
3           may contain a classified annex if necessary.

4 **SEC. 30249. ENGAGEMENT WITH CIVIL SOCIETY IN LATIN**  
5                   **AMERICA AND THE CARIBBEAN REGARDING**  
6                   **ACCOUNTABILITY, HUMAN RIGHTS, AND THE**  
7                   **RISKS OF PERVASIVE SURVEILLANCE TECH-**  
8                   **NOLOGIES.**

9           (a) SENSE OF CONGRESS.—It is the sense of Con-  
10          gress that—

11           (1) the Government of the People’s Republic of  
12          China is exporting its model for internal security  
13          and state control of society through advanced tech-  
14          nology and artificial intelligence; and

15           (2) the inclusion of communication networks  
16          and communications supply chains with equipment  
17          and services from companies with close ties to or  
18          that are susceptible to pressure from governments or  
19          security services without reliable legal checks on gov-  
20          ernmental powers can lead to breaches of citizens’  
21          private information, increased censorship, violations  
22          of human rights, and harassment of political oppo-  
23          nents.

24           (b) DIPLOMATIC ENGAGEMENT.—The Secretary of  
25          State shall conduct diplomatic engagement with govern-

1 ments and civil society organizations in Latin America and  
2 the Caribbean to—

3           (1) help identify and mitigate the risks to civil  
4 liberties posed by technologies and services described  
5 in subsection (a); and

6           (2) offer recommendations on ways to mitigate  
7 such risks.

8           (c) INTERNET FREEDOM PROGRAMS.—The Chief Ex-  
9 ecutive Officer of the United States Agency for Global  
10 Media, who may work through the Open Technology Fund  
11 of the Agency, and the Secretary of State, working  
12 through the Bureau of Democracy, Human Rights, and  
13 Labor’s Internet Freedom and Business and Human  
14 Rights Section, shall expand and prioritize efforts to pro-  
15 vide anti-censorship technology and services to journalists  
16 in Latin America and the Caribbean, in order to enhance  
17 their ability to safely access or share digital news and in-  
18 formation.

19           (d) SUPPORT FOR CIVIL SOCIETY.—The Secretary of  
20 State, in coordination with the Administrator of the  
21 United States Agency for International Development, shall  
22 work through nongovernmental organizations to—

23           (1) support and promote programs that support  
24 internet freedom and the free flow of information  
25 online in Latin America and the Caribbean;

1           (2) protect open, interoperable, secure, and reli-  
2           able access to internet in Latin America and the  
3           Caribbean;

4           (3) provide integrated support to civil society  
5           for technology, digital safety, policy and advocacy,  
6           and applied research programs in Latin America  
7           and the Caribbean;

8           (4) train journalists and civil society leaders in  
9           Latin America and the Caribbean on investigative  
10          techniques necessary to ensure public accountability  
11          and prevent government overreach in the digital  
12          sphere;

13          (5) assist independent media outlets and jour-  
14          nalists in Latin America and the Caribbean to build  
15          their own capacity and develop high-impact, in-depth  
16          news reports covering governance and human rights  
17          topics;

18          (6) provide training for journalists and civil so-  
19          ciety leaders on investigative techniques necessary to  
20          improve transparency and accountability in govern-  
21          ment and the private sector;

22          (7) provide training on investigative reporting  
23          of incidents of corruption and unfair business and  
24          commercial practices;

1           (8) assist nongovernmental organizations to  
2 strengthen their capacity to monitor the incidents  
3 and practices described in paragraph (7);

4           (9) identify local resources to support the pre-  
5 ponderance of activities that would be carried out  
6 under this subsection; and

7           (10) support and promote programs that sup-  
8 port independent judicial sectors, anti-corruption ef-  
9 forts, rule of law activities, and good governance.

10 **SEC. 30250. CARIBBEAN ENERGY INITIATIVE AS ALTER-**  
11 **NATIVE TO CHINA'S BELT AND ROAD INITIA-**  
12 **TIVE.**

13       (a) FINDINGS.—Congress makes the following find-  
14 ings:

15           (1) The countries of the Caribbean are heavily  
16 reliant upon imported oil to provide for approxi-  
17 mately 90 percent of their energy production.

18           (2) The level of dependence is even higher in-  
19 cluding—

20               (A) Jamaica, which relies on oil for 95.9  
21 percent of its electricity;

22               (B) Barbados, which relies on oil for 96  
23 percent of its electricity;

24               (C) The Virgin Islands, which relies on oil  
25 for nearly 100 percent of its electricity; and

1 (D) St. Lucia, which relies on oil for 100  
2 percent of its electricity.

3 (3) Overreliance on imported fossil fuels has  
4 had a detrimental effect on economic development,  
5 growth, and competitiveness in the Caribbean.

6 (4) Since 1970, more than 80 percent of Carib-  
7 bean coral reefs have been lost due to coastal devel-  
8 opment and pollution. Soot particulates and climate  
9 change caused by burning fossil fuels have seriously  
10 damaged coral reefs, which are a significant source  
11 of tourism dollars, fishing, biodiversity, and natural  
12 beauty.

13 (5) Air pollution caused by burning oil for elec-  
14 tricity—

15 (A) has serious health impacts in the form  
16 of higher rates of asthma and other lung ail-  
17 ments; and

18 (B) can also exacerbate climate change.

19 (6) The Caribbean region is particularly vulner-  
20 able to sea level rise and stronger storms.

21 (7) Between 2005 and 2018, the dependence of  
22 the countries of the Caribbean on oil was perpet-  
23 uated by the Venezuelan-led Petrocaribe oil alliance,  
24 which—

1 (A) offered preferential terms for oil sales;  
2 and

3 (B) supplies some countries with up to 40  
4 percent of their energy production needs.

5 (8) The ongoing domestic economic crisis and  
6 political turmoil in Venezuela has forced the Govern-  
7 ment of Venezuela to retract its commitments to the  
8 Petrocaribe oil alliance and step away as a regional  
9 power. Only Cuba still receives preferential  
10 Petrocaribe pricing on fuel exports from Venezuela,  
11 while other Petrocaribe member countries are experi-  
12 encing a destabilized flow of oil.

13 (9) China has spent more than  
14 \$244,000,000,000 on energy projects worldwide  
15 since 2000, 25 percent of which was spent in Latin  
16 America and the Caribbean. Although the majority  
17 of this spending was for oil, gas, and coal, China has  
18 also been the largest investor in clean energy glob-  
19 ally for almost a decade.

20 (10) The World Bank estimates that the Carib-  
21 bean will need \$12,000,000,000 in power invest-  
22 ments through 2035.

23 (11) Renewable energy technology costs have  
24 decreased dramatically in recent years, offering a  
25 more viable economic alternative for energy produc-

1       tion. Solar energy prices have fallen by 80 percent  
2       since 2008, causing significant market growth, and  
3       according to data released by the International Re-  
4       newable Energy Agency,  $\frac{1}{3}$  of global power capacity  
5       is based in renewable energy.

6               (12) In 2016, the International Monetary Fund  
7       estimated that transportation accounted for 36 per-  
8       cent of the total primary energy consumed in the  
9       Caribbean subregion.

10              (13) According to the United Nations Environ-  
11       ment Programme, Latin America and the Caribbean  
12       could achieve annual savings of \$621,000,000,000  
13       and a reduction of 1,100,000,000 tons of CO<sub>2</sub> by  
14       2050 if the region's energy and transport sectors  
15       reach net zero emissions.

16              (14) The Caribbean has an abundance of on-  
17       shore and offshore resources needed for renewable  
18       energy, including sun, wind, geothermal, and some  
19       hydropower production capacity.

20              (15) The United States Government is deeply  
21       engaged in providing technical and policy assistance  
22       to countries of the Caribbean on energy issues  
23       through—

24                      (A) the Energy and Climate Partnership of  
25                      the Americas;

1 (B) Connecting the Americas 2022; and  
2 (C) bilateral assistance programs.

3 (16) On February 19, 2014, at the North  
4 American Leaders' Summit, President Barack  
5 Obama, Prime Minister Stephen Harper of Canada,  
6 and President Enrique Peña Nieto of Mexico re-  
7 affirmed their commitment to bring affordable, reli-  
8 able, and increasingly renewable power to the Carib-  
9 bean, while opening wider markets for clean energy  
10 and green technology.

11 (17) On June 19, 2015, President Barack  
12 Obama announced the Caribbean Energy Security  
13 Initiative, which would partner with individual coun-  
14 tries—

15 (A) to transform its energy sector;

16 (B) to work to increase access to finance,  
17 good governance, and diversification; and

18 (C) to maximize the impact of existing  
19 donor effects.

20 (18) On May 4, 2016, at the United States-  
21 Caribbean-Central American Energy Summit, the  
22 energy security task force formally launched the  
23 Caribbean Sustainable Energy Roadmap and Strat-  
24 egy (C-SERMS) as a mechanism to manage re-  
25 gional coordination and action on energy security

1 and agreed to expand the regional market and trans-  
2 mission system.

3 (19) The United States has an important op-  
4 portunity—

5 (A) to deepen this engagement;

6 (B) to work as a partner with Caribbean  
7 countries on a more regional and coordinated  
8 basis;

9 (C) to help ease the region's dependence  
10 on imported oil; and

11 (D) to promote affordable alternative  
12 sources of energy.

13 (b) DEFINITIONS.—In this section:

14 (1) CARIBBEAN COUNTRIES.—The term “Carib-  
15 bean countries” means countries in the Caribbean  
16 region, but does not include Cuba or Venezuela.

17 (2) CARIBBEAN GOVERNMENTS.—The term  
18 “Caribbean governments” means the national gov-  
19 ernments of the Caribbean countries.

20 (c) STATEMENT OF POLICY.—It is the policy of the  
21 United States to help Caribbean countries—

22 (1) achieve greater energy security and improve  
23 domestic energy resource mobilization;

24 (2) lower their dependence on imported fuels;

1           (3) eliminate the use of diesel, heavy fuel oil,  
2 other petroleum products, and coal for the genera-  
3 tion of electricity;

4           (4) increase production of renewable energy;  
5 and

6           (5) meet the greenhouse gas mitigation goals of  
7 their national determined contributions to the Paris  
8 Agreement.

9 (d) STRATEGY.—

10           (1) SUBMISSION.—Not later than 120 days  
11 after the date of the enactment of this Act, the Sec-  
12 retary of State, in coordination with the Adminis-  
13 trator of the United States Agency for International  
14 Development (USAID), shall submit to the appro-  
15 priate congressional committees a multi-year strat-  
16 egy that describes how the Department of State will  
17 promote regional cooperation with Caribbean coun-  
18 tries—

19                   (A) to lower dependence on imported fuels,  
20 grow domestic clean energy production in the  
21 region, strengthen regional energy security, and  
22 lower energy sector greenhouse gas emissions;

23                   (B) to decrease dependence on oil in the  
24 transportation sector;

1 (C) to increase energy efficiency, energy  
2 conservation, and investment in alternatives to  
3 imported fuels;

4 (D) to improve grid reliability and mod-  
5 ernize electricity transmission networks;

6 (E) to advance deployment of innovative  
7 solutions to expand community and individuals'  
8 access to electricity;

9 (F) to help reform energy markets to en-  
10 courage good regulatory governance and to pro-  
11 mote a climate of private sector investment; and

12 (G) to mitigate greenhouse gas emissions  
13 from the energy and transportation sector.

14 (2) ELEMENTS.—The strategy required under  
15 subsection (a) shall include—

16 (A) a thorough review and inventory of  
17 United States Government activities that are  
18 being carried out bilaterally, regionally, and in  
19 coordination with multilateral institutions—

20 (i) to promote energy and climate se-  
21 curity in the Caribbean region; and

22 (ii) to reduce the region's reliance on  
23 oil for electricity generation;

24 (B) opportunities for marshaling regional  
25 cooperation—

- 1 (i) to overcome market barriers result-  
2 ing from the small size of Caribbean en-  
3 ergy markets;
- 4 (ii) to address the high transportation  
5 and infrastructure costs faced by Carib-  
6 bean countries;
- 7 (iii) to ensure greater donor coordina-  
8 tion between governments, multilateral in-  
9 stitutions, multilateral banks, and private  
10 investors; and
- 11 (iv) to expand regional financing op-  
12 portunities to allow for lower cost energy  
13 entrepreneurship;
- 14 (C) measures to ensure that each Carib-  
15 bean government has—
- 16 (i) an independent utility regulator or  
17 equivalent;
- 18 (ii) affordable access by third party  
19 investors to its electrical grid with minimal  
20 regulatory interference;
- 21 (iii) effective energy efficiency and en-  
22 ergy conservation;
- 23 (iv) programs to address technical and  
24 nontechnical issues;

1 (v) a plan to eliminate major market  
2 distortions; and

3 (vi) other taxes on clean energy solu-  
4 tions; and

5 (D) recommendations for how United  
6 States policy, technical, and economic assist-  
7 ance can be used in the Caribbean region—

8 (i) to advance renewable energy devel-  
9 opment and the incorporation of renewable  
10 technologies into existing energy grids and  
11 the development and deployment of micro-  
12 grids where appropriate and feasible to  
13 boost energy security and reliability, par-  
14 ticularly to underserved communities;

15 (ii) to increase the generation of clean  
16 energy sufficiently to replace and allow for  
17 the retirement of obsolete fossil fuel energy  
18 generation units in Caribbean countries;

19 (iii) to create regional financing op-  
20 portunities to allow for lower cost energy  
21 entrepreneurship;

22 (iv) to deploy transaction advisors in  
23 the region to help attract private invest-  
24 ment and break down any market or regu-  
25 latory barriers; and

1 (v) to establish a mechanism for each  
2 host government to have access to inde-  
3 pendent legal advice—

4 (I) to speed the development of  
5 energy-related contracts; and

6 (II) to better protect the inter-  
7 ests of Caribbean governments and  
8 citizens.

9 (3) CONSULTATION.—In devising the strategy  
10 under this subsection, the Secretary of State shall  
11 work with the Secretary of Energy and shall consult  
12 with—

13 (A) the Secretary of the Interior;

14 (B) the Secretary of Commerce;

15 (C) the Secretary of the Treasury;

16 (D) the Board of Directors of the Export-  
17 Import Bank of the United States;

18 (E) the Board of Directors of the Develop-  
19 ment Finance Corporation;

20 (F) the Administrator of the United States  
21 Agency for International Development;

22 (G) the Caribbean governments;

23 (H) the Inter-American Development  
24 Bank;

25 (I) the World Bank Group; and

1 (J) the Caribbean Electric Utility Services  
2 Corporation.

3 **SEC. 30251. UNITED STATES-CARIBBEAN RESILIENCE PART-**  
4 **NERSHIP.**

5 (a) FINDINGS.—Congress makes the following find-  
6 ings:

7 (1) The United States shares with the Carib-  
8 bean a collective vulnerability to natural disasters,  
9 which affects the lives and the economies of our citi-  
10 zens.

11 (2) The April 9, 2021, eruption of the La  
12 Soufriere volcano is another reminder of the devas-  
13 tation caused by the many natural disasters the Car-  
14ibbean confronts each year and the region’s vulner-  
15 ability to external shocks. Hurricane Dorian, the  
16 largest storm to hit the region, wiped out large parts  
17 of the northern Bahamas in 2019, and Hurricanes  
18 Maria and Irma devastated multiple islands across  
19 the region in 2017, including Puerto Rico. According  
20 to IMF research, of the 511 plus disasters worldwide  
21 to hit small states since 1950, around two-thirds  
22 (324) have been in the Caribbean.

23 (3) This region is seven times more likely to ex-  
24 perience a natural disaster than elsewhere. And,

1 when one occurs, it will incur as much as six times  
2 more damage.

3 (4) Extreme weather events and other environ-  
4 mental impacts will only worsen over the coming  
5 years, and if not addressed, we will see only increas-  
6 ing economic shocks on these countries, driving ir-  
7 regular migration.

8 (5) While the United States has considerable  
9 expertise and capacity in assisting countries with  
10 disaster response, there remains a need for stronger  
11 partnerships that build regional resilience through  
12 efficient and interoperable platforms, protecting peo-  
13 ple and speeding recovery.

14 (6) The People's Republic of China has dra-  
15 matically increased its engagement in the Caribbean  
16 in the past five years, including offering loans and  
17 grants related to disaster response and resilience  
18 and sought to acquire property rights in the Carib-  
19 bean that would be detrimental to United States na-  
20 tional security interests.

21 (7) In 2019, the United States launched a new  
22 U.S.-Caribbean Resilience Partnership to deepen co-  
23 operation and investment to strengthen our disaster  
24 resilience throughout the Caribbean region, includ-  
25 ing—

1 (A) to streamline early warning response  
2 networks and formalize communication chan-  
3 nels;

4 (B) to enhance, encourage, and work col-  
5 laboratively on further developing aviation dis-  
6 aster resilience plans and partnerships;

7 (C) to prioritize regional technical ex-  
8 change in energy planning, risk reduction, and  
9 resilience;

10 (D) to increase communications network  
11 interoperability between Caribbean partners and  
12 the United States;

13 (E) to utilize storm surge mapping data  
14 and share real-time information in preparation  
15 for potential damage resulting from tropical cy-  
16 clones and tsunamis;

17 (F) to use meteorological services to  
18 strengthen and deepen physical and commu-  
19 nications infrastructure, data collection net-  
20 works, and human and technical capacity  
21 throughout the region, as well as interactions  
22 with the public;

23 (G) to understand that while the use of  
24 international and military and civil defense as-  
25 sets in disaster response may only be considered

1 as a last resort, when local, national, and inter-  
2 national civilian capabilities are overwhelmed,  
3 civil-military coordination should occur, in sup-  
4 port of the affected nation;

5 (H) to develop a framework that would  
6 govern the deployment of international military  
7 and civil defense assets in disaster response  
8 when local, national, and international civilian  
9 capabilities are overwhelmed, in support of the  
10 affected nation;

11 (I) to seek common mechanisms for ensur-  
12 ing rapid disaster response and recovery, in-  
13 cluding waiving or expediting diplomatic clear-  
14 ances, waiving of or reducing customs fees,  
15 streamlining overflight and airspace clearance,  
16 and ensuring that the first responders have the  
17 ability to rapidly respond to disasters in other  
18 countries;

19 (J) to promote the integration and coordi-  
20 nation of regional response mechanisms in the  
21 Caribbean, including through the Caribbean  
22 Disaster Emergency Management Agency, the  
23 Regional Security System, United States Gov-  
24 ernment Agencies, and allies in ways that facili-  
25 tate more effective and efficient planning, miti-

1           gation, response, and resilience to natural disas-  
2           ters;

3           (K) to share best practices in improved  
4           building codes with national disaster organiza-  
5           tions, including building better programs, at re-  
6           gional, national and community levels; and

7           (L) to promote community-based disaster  
8           preparedness and mitigation activities, particu-  
9           larly in underserved communities, with the aim  
10          of increasing broad public participation and re-  
11          silience.

12          (b) POLICY.—It is the policy of the United States to  
13          help Caribbean countries—

14           (1) increase their resilience and adapt to nat-  
15           ural disasters and the impacts of severe weather  
16           events and a changing environment;

17           (2) partner with United States Federal, State,  
18           and local agencies and engage in technical coopera-  
19           tion, dialogue, and assistance activities;

20           (3) harmonize standards and practices related  
21           to paragraphs (1) and (2) to promote increased in-  
22           vestment and integration;

23           (4) increase investment from United States  
24           companies in the Caribbean on resilience-building,  
25           adaptation, and climate-related mitigation efforts;

1           (5) promote regional cooperation and ensure ef-  
2           forts by the United States, Caribbean countries, and  
3           international partners complement each other; and

4           (6) further assist with the efforts described in  
5           subsection (a)(7).

6           (c) STRATEGY.—Not later than 180 days after the  
7           date of the enactment of this Act, the Secretary of State,  
8           in coordination with the heads of other Federal depart-  
9           ments and agencies, shall submit to the appropriate con-  
10          gressional committees a multi-year strategy that describes  
11          how the Department of State will achieve the policies de-  
12          scribed in subsection (b).

13          (d) AUTHORIZATION OF APPROPRIATIONS.—There  
14          are authorized to be appropriated for activities, programs,  
15          technical assistance, and engagement under this section  
16          the following:

17               (1) \$20,000,000 for fiscal year 2022.

18               (2) \$25,000,000 for fiscal year 2023.

19               (3) \$30,000,000 for fiscal year 2024 and each  
20          fiscal year thereafter.

21          (e) REPORTING AND MONITORING.—

22               (1) IN GENERAL.—Of the amounts authorized  
23          to be appropriated each fiscal year pursuant to sub-  
24          section (d), at least five percent of all programming  
25          funding allocation shall support and be directed to-

1 ward reporting, monitoring, and assessment of effec-  
2 tiveness.

3 (2) ENGAGEMENT AND COLLABORATION.—The  
4 Department of State shall ensure that at least 20  
5 percent of amounts authorized to be appropriated  
6 pursuant to subsection (d) directly support the  
7 training of, engagement with, collaboration with, and  
8 exchange of expertise on resilience between United  
9 States Federal, State, and local officials and their  
10 Caribbean government counterparts. Such amounts  
11 should also support, as appropriate, increased aca-  
12 demic, civil society, media, and private sector en-  
13 gagement in the fields of resilience-building, adapta-  
14 tion, and mitigation.

15 **SEC. 30252. COUNTERING CHINA'S EDUCATIONAL AND CUL-**  
16 **TURAL DIPLOMACY IN LATIN AMERICA.**

17 (a) FINDINGS.—Congress finds the following:

18 (1) According to a report by the National En-  
19 dowment for Democracy, China has spent the equiv-  
20 alent of billions of dollars to shape public opinion  
21 and perceptions around the world through thousands  
22 of people-to-people exchanges, cultural activities,  
23 educational programs, and the development of media  
24 enterprises and information initiatives with global  
25 reach.

1           (2) Educational and exchange programs are a  
2           core element of United States public diplomacy, ele-  
3           vating our culture, policies, and interests worldwide.

4           (3) These programs provide students with ac-  
5           cess to international knowledge, an opportunity to  
6           learn foreign languages, and a unique environment  
7           for developing cultural understanding, all of which  
8           are valuable skills in today's global economy.

9           (4) 90 percent of ECA's appropriation is spent  
10          in the United States or invested directly in American  
11          citizens or American organizations.

12          (b) SENSE OF CONGRESS.—It is the sense of Con-  
13          gress that—

14               (1) China's efforts to mold public opinion and  
15               influence educational institutions undermine United  
16               States' influence in Latin America and the Carib-  
17               bean and threaten democratic institutions and prac-  
18               tices in the region;

19               (2) the United States Government should ex-  
20               pand current educational and cultural exchange pro-  
21               grams in Latin America and the Caribbean, which  
22               are cost-effective and strengthen people-to-people di-  
23               plomacy, to promote national security and foreign  
24               policy interests of the United States; and

1           (3) educational exchanges foster linguistic, cul-  
2           tural, and educational skills that advance United  
3           States economic competitiveness, strengthen alli-  
4           ances, and support democracies worldwide.

5           (c) STRATEGY.—Not later than 180 days after the  
6           date of the enactment of this Act, the Secretary of State,  
7           acting through the Assistant Secretary of State for Edu-  
8           cational and Cultural Affairs, and in coordination with the  
9           Assistant Administrator for the Bureau of Economic  
10          Growth, Education, and Environment at the United  
11          States Agency for International Development, shall devise  
12          a strategy—

13           (1) to evaluate and expand existing programs  
14           and, as necessary, design and implement new edu-  
15           cational, professional, and cultural exchanges and  
16           other programs to—

17           (A) create and sustain mutual under-  
18           standing with other countries necessary to ad-  
19           vance United States foreign policy goals by cul-  
20           tivating people-to-people ties among current and  
21           future global leaders that build enduring net-  
22           works and personal relationships; and

23           (B) promote United States national secu-  
24           rity interests and values, including through the  
25           expansion of exchange visitor programs such as

1 international visitor leadership programs and  
2 the Young Leaders of the Americas Initiative,  
3 as well as professional capacity building pro-  
4 grams that prioritize building skills in entrepre-  
5 neurship, promoting transparency, and tech-  
6 nology;

7 (2) to ensure that exchange programs for  
8 Americans abroad and international visitors attract  
9 a diverse pool of participants, including from under-  
10 represented, marginalized, and low-income commu-  
11 nities; and

12 (3) to evaluate, expand, and strengthen existing  
13 programs, and, as necessary, design and implement  
14 new basic and higher education programs in Latin  
15 America and the Caribbean, in accordance with the  
16 United States Strategy on International Basic Edu-  
17 cation and the United States Agency for Inter-  
18 national Development Education Policy, to enable all  
19 young adults, youth, and children to acquire the  
20 quality education and skills needed to be productive  
21 members in society, which will lead to better indi-  
22 vidual and societal outcomes.

23 (d) REPORT WITH INTELLIGENCE ASSESSMENT.—  
24 Not later than 180 days after the date of the enactment  
25 of this Act, the Secretary of State shall, in coordination

1 with the Director of National Intelligence, submit to the  
2 appropriate congressional committees (including the Per-  
3 manent Select Committee on Intelligence of the House of  
4 Representatives and the Select Committee on Intelligence  
5 of the Senate) a report that assesses the nature and im-  
6 pact of the People’s Republic of China’s educational and  
7 cultural sector activity in Latin America and the Carib-  
8 bean, its impact on United States’ strategic interests, and  
9 recommendations for the United States Government to ex-  
10 pand people-to-people ties.

11 **SEC. 30253. NARCOTICS TRAFFICKING IN LATIN AMERICA**  
12 **AND THE CARIBBEAN.**

13 It is the sense of Congress that—

14 (1) narcotics trafficking continues to pose a se-  
15 curity threat to the countries and peoples of Latin  
16 America and the Caribbean;

17 (2) other forms of transnational organized  
18 crime, including arms trafficking, human smuggling,  
19 money laundering, and illicit financing, are drivers  
20 of irregular migration;

21 (3) narcotics trafficking is fueled by govern-  
22 ments that fail to curb the illicit drug trade by ade-  
23 quately regulating the legal trade of non-fentanyl  
24 opioids and precursor chemicals used to produce

1 fentanyl, fentanyl analogs, and other synthetic  
2 drugs;

3 (4) further, governments that do not cooperate  
4 sufficiently on financial investigations and prosecu-  
5 tions, withhold information with respect to money  
6 laundering crimes, or are determined to facilitate il-  
7 licit activities, particularly by transnational orga-  
8 nized criminal organizations, should be held account-  
9 able;

10 (5) as noted in the International Narcotics Con-  
11 trol Strategy Report 2020, China “has not cooper-  
12 ated sufficiently on financial investigations and does  
13 not provide adequate responses to requests for finan-  
14 cial investigation information”;

15 (6) the United States should apply economic  
16 and other targeted financial sanctions with respect  
17 to individuals engaged in financial crimes and money  
18 laundering that fosters narcotics trafficking in the  
19 countries of Latin America and the Caribbean; and

20 (7) the United States should look to policies to  
21 hold accountable countries that fail to sufficiently in-  
22 vestigate financial crimes and money laundering that  
23 foster narcotics trafficking in the countries of Latin  
24 America and the Caribbean.

1 **SEC. 30254. REPORT ON MAJOR CHINESE INFRASTRUC-**  
2 **TURE INVESTMENTS.**

3 Not later than 180 days after the date of the enact-  
4 ment of this Act, the Secretary of State shall submit to  
5 Congress a report on major Chinese infrastructure invest-  
6 ments in Latin America and the Caribbean and the extent  
7 to which the countries that host these investments are able  
8 to meet the interest and principal payments associated  
9 with any outstanding loans.

10 **PART 2—TRANSATLANTIC RELATIONSHIPS**

11 **SEC. 30255. SENSE OF CONGRESS ON TRANSATLANTIC RE-**  
12 **LATIONSHIPS.**

13 It is the sense of Congress that—

14 (1) the United States, the European Union, the  
15 United Kingdom, and other European countries are  
16 close partners, sharing values grounded in democ-  
17 racy, human rights, transparency, and the rules-  
18 based international order established after World  
19 War II;

20 (2) without a common approach by the United  
21 States, the European Union, the United Kingdom,  
22 and other European countries on connectivity,  
23 transnational challenges, and support for democracy  
24 and human rights, the People’s Republic of China  
25 will continue to increase its economic, political, and  
26 security leverage in Europe and globally;

1           (3) the People’s Republic of China’s deployment  
2 of assistance to European countries following the  
3 COVID–19 outbreak showcased a coercive approach  
4 to aid, but it also highlighted Europe’s deep eco-  
5 nomic ties to the People’s Republic of China;

6           (4) as European countries seek to recover from  
7 the economic toll of the COVID–19 outbreak, the  
8 United States must stand in partnership with Eu-  
9 rope to support our collective economic recovery, re-  
10 inforce our collective national security, and defend  
11 shared values;

12           (5) the United States, the European Union, the  
13 United Kingdom, and other European countries  
14 should coordinate on joint strategies to diversify reli-  
15 ance on supply chains away from the People’s Re-  
16 public of China, especially in the medical and phar-  
17 maceutical sectors;

18           (6) the United States, the European Union, the  
19 United Kingdom, and other European countries  
20 should leverage their respective economic innovation  
21 capabilities to support the global economic recovery  
22 from the COVID–19 recession and draw a contrast  
23 with the centralized economy of the People’s Repub-  
24 lic of China;

1           (7) the United States, the European Union,  
2           Japan, and other like-minded countries should con-  
3           tinue efforts to address the security, economic, de-  
4           mocracy, and human rights challenges posed by the  
5           People’s Republic of China;

6           (8) the United States, the European Union, the  
7           United Kingdom, and other European countries  
8           should enhance cooperation to counter People’s Re-  
9           public of China disinformation, influence operations,  
10          and propaganda efforts;

11          (9) the United States and Europe share serious  
12          concerns with the repressions being supported and  
13          executed by the Government of the People’s Republic  
14          of China, and should continue implementing meas-  
15          ures to address the Government of the People’s Re-  
16          public of China’s specific abuses in Tibet, Hong  
17          Kong, and Xinjiang, and should build joint mecha-  
18          nisms and programs to prevent the export of China’s  
19          authoritarian governance model to countries around  
20          the world;

21          (10) the United States and Europe should re-  
22          main united in their shared values against attempts  
23          by the Government of the People’s Republic of  
24          China at the United Nations and other multilateral  
25          organizations to promote efforts that erode the Uni-

1       versal Declaration of Human Rights, like the “com-  
2       munity of a shared future for mankind” and “de-  
3       mocratization of international relations”;

4               (11) the People’s Republic of China’s infra-  
5       structure investments around the world, particularly  
6       in 5G telecommunications technology and port infra-  
7       structure, could threaten democracy across Europe  
8       and the national security of key countries;

9               (12) as appropriate, the United States should  
10      share intelligence with European allies and partners  
11      on Huawei’s 5G capabilities and the intentions of  
12      the Government of the People’s Republic of China  
13      with respect to 5G expansion in Europe;

14              (13) the European Union’s Investment Screen-  
15      ing Regulation, which came into force in October  
16      2020, is a welcome development, and member states  
17      should closely scrutinize PRC investments in their  
18      countries through their own national investment  
19      screening measures;

20              (14) the President should actively engage the  
21      European Union on the implementation of the Ex-  
22      port Control Reform Act regulations and to better  
23      harmonize United States and European Union poli-  
24      cies with respect to export controls;

1           (15) the President should strongly advocate for  
2 the listing of more items and technologies to restrict  
3 dual use exports controlled at the National Security  
4 and above level to the People’s Republic of China  
5 under the Wassenaar Arrangement;

6           (16) the United States should explore the value  
7 of establishing a body akin to the Coordinating  
8 Committee for Multilateral Export Controls  
9 (CoCom) that would specifically coordinate United  
10 States and European Union export control policies  
11 with respect to limiting exports of sensitive tech-  
12 nologies to the People’s Republic of China; and

13           (17) the United States should work with coun-  
14 terparts in Europe to—

15           (A) evaluate United States and European  
16 overreliance on goods originating in the Peo-  
17 ple’s Republic of China, including in the med-  
18 ical and pharmaceutical sectors, and develop  
19 joint strategies to diversify supply chains;

20           (B) develop a common strategy for pro-  
21 moting energy security and economic growth in  
22 eastern Europe and the Balkans that addresses  
23 shared concerns related to China’s Belt and  
24 Road Initiative in these regions, including com-  
25plementary investments in the Three Seas Ini-

1           tiative Fund for clean energy and digital  
2           connectivity projects;

3           (C) counter PRC efforts to use COVID–  
4           19-related assistance as a coercive tool to pres-  
5           sure developing countries by offering relevant  
6           United States and European expertise and as-  
7           sistance; and

8           (D) leverage the United States and Euro-  
9           pean private sectors to advance the post-  
10          COVID–19 economic recovery.

11 **SEC. 30256. STRATEGY TO ENHANCE TRANSATLANTIC CO-**  
12                           **OPERATION WITH RESPECT TO THE PEO-**  
13                           **PLE’S REPUBLIC OF CHINA.**

14          (a) IN GENERAL.—Not later than 180 days after the  
15          date of the enactment of this Act, the President shall brief  
16          the appropriate congressional committees, the Committee  
17          on Armed Services of the Senate, and the Committee on  
18          Armed Services of the House of Representatives on a  
19          strategy for how the United States will enhance coopera-  
20          tion with the European Union, NATO, and European  
21          partner countries with respect to the People’s Republic of  
22          China.

23          (b) ELEMENTS.—The briefing required under sub-  
24          section (a) shall include the following elements with re-  
25          spect to the strategy referred to in such subsection:

1           (1) An identification of the senior Senate-con-  
2           firmed Department of State official who leads  
3           United States efforts to cooperate with the Euro-  
4           pean Union, NATO, and European partner countries  
5           to advance a shared approach with respect to the  
6           People’s Republic of China.

7           (2) An identification of key policy points of con-  
8           vergence and divergence between the United States  
9           and European allies and partners with respect to the  
10          People’s Republic of China in the areas of tech-  
11          nology and economic practices.

12          (3) A description of efforts to advance shared  
13          interests with European counterparts on—

14                (A) security and economic challenges with  
15                respect to the People’s Republic of China;

16                (B) democracy and human rights chal-  
17                lenges with respect to the People’s Republic of  
18                China;

19                (C) technology issues with respect to the  
20                People’s Republic of China;

21                (D) defense issues with respect to the Peo-  
22                ple’s Republic of China; and

23                (E) developing a comprehensive strategy to  
24                respond to the Belt and Road Initiative (BRI)

1           established by the Government of the People's  
2           Republic of China.

3           (4) A description of the coordination mecha-  
4           nisms among key regional and functional bureaus  
5           within the Department of State and Department of  
6           Defense tasked with engaging with European allies  
7           and partners on the People's Republic of China.

8           (5) A detailing of diplomatic efforts up to the  
9           date of the briefing and future plans to work with  
10          European allies and partners to counter the Govern-  
11          ment of the People's Republic of China's advance-  
12          ment of an authoritarian governance model around  
13          the world.

14          (6) A detailing of the diplomatic efforts made  
15          up to the date of the briefing and future plans to  
16          support European efforts to identify cost-effective al-  
17          ternatives to Huawei's 5G technology.

18          (7) A detailing of how United States public di-  
19          plomacy tools, including the Global Engagement  
20          Center of the Department of State, will coordinate  
21          efforts with counterpart entities within the Euro-  
22          pean Union to counter Chinese propaganda.

23          (8) A description of the staffing and budget re-  
24          sources the Department of State dedicates to en-  
25          gagement between the United States and the Euro-

1 pean Union on the People’s Republic of China and  
2 provide an assessment of out-year resource needs to  
3 execute such strategy.

4 (9) A detailing of diplomatic efforts to work  
5 with European allies and partners to track and  
6 counter Chinese attempts to exert influence across  
7 multilateral fora, including at the World Health Or-  
8 ganization.

9 (c) FORM.—The briefing required under section (a)  
10 shall be classified.

11 (d) CONSULTATION.—Not later than 180 days after  
12 the date of the enactment of this Act and annually there-  
13 after for three years, the Secretary of State shall consult  
14 with the appropriate congressional committees, the Com-  
15 mittee on Armed Services of the Senate, and the Com-  
16 mittee on Armed Services of the House of Representatives  
17 regarding the development and implementation of the ele-  
18 ments described in subsection (b).

19 **SEC. 30257. ENHANCING TRANSATLANTIC COOPERATION**  
20 **ON PROMOTING PRIVATE SECTOR FINANCE.**

21 (a) IN GENERAL.—The President should work with  
22 transatlantic partners to build on the agreement among  
23 the Development Finance Corporation, FinDev Canada,  
24 and the European Development Finance Institutions (re-  
25 ferred to as the “DFI Alliance”) to enhance coordination

1 on shared objectives to foster private sector-led develop-  
2 ment and provide market-based alternatives to state-di-  
3 rected financing in emerging markets, particularly as re-  
4 lated to the People’s Republic of China’s Belt and Road  
5 Initiative (BRI), including by integrating efforts such  
6 as—

7           (1) the European Union Strategy on Con-  
8           necting Europe and Asia;

9           (2) the Three Seas Initiative and Three Seas  
10          Initiative Fund;

11          (3) the Blue Dot Network among the United  
12          States, Japan, and Australia; and

13          (4) a European Union-Japan initiative that has  
14          leveraged \$65,000,000,000 for infrastructure  
15          projects and emphasizes transparency standards.

16          (b) STANDARDS.—The United States and the Euro-  
17          pean Union should coordinate and develop a strategy to  
18          enhance transatlantic cooperation with the OECD and the  
19          Paris Club on ensuring the highest possible standards for  
20          Belt and Road Initiative contracts and terms with devel-  
21          oping countries.

1 **SEC. 30258. REPORT AND BRIEFING ON COOPERATION BE-**  
2 **TWEEN CHINA AND IRAN AND BETWEEN**  
3 **CHINA AND RUSSIA.**

4 (a) APPROPRIATE COMMITTEES OF CONGRESS DE-  
5 FINED.—In this section, the term “appropriate commit-  
6 tees of Congress” means—

7 (1) the Committee on Foreign Relations, the  
8 Select Committee on Intelligence, the Committee on  
9 Armed Services, the Committee on Commerce,  
10 Science, and Transportation, the Committee on En-  
11 ergy and Natural Resources, the Committee on  
12 Banking, Housing, and Urban Affairs, the Com-  
13 mittee on Finance, and the Committee on Appro-  
14 priations of the Senate; and

15 (2) the Committee on Foreign Affairs, the Per-  
16 manent Select Committee on Intelligence, the Com-  
17 mittee on Armed Services, the Committee on Energy  
18 and Commerce, the Committee on Financial Serv-  
19 ices, the Committee on Ways and Means, and the  
20 Committee on Appropriations of the House of Rep-  
21 resentatives.

22 (b) REPORT AND BRIEFING REQUIRED.—

23 (1) IN GENERAL.—Not later than 180 days  
24 after the date of the enactment of this Act, the Di-  
25 rector of National Intelligence shall, in coordination  
26 with the Secretary of State, the Secretary of De-

1 fense, the Secretary of Commerce, the Secretary of  
2 Energy, the Secretary of the Treasury, and such  
3 other heads of Federal agencies as the Director con-  
4 siders appropriate, submit to the appropriate com-  
5 mittees of Congress a report and brief such commit-  
6 tees on cooperation between—

7 (A) the People’s Republic of China and the  
8 Islamic Republic of Iran; and

9 (B) the People’s Republic of China and the  
10 Russian Federation.

11 (2) CONTENTS.—The report and briefing under  
12 paragraph (1) shall include the following elements:

13 (A) An identification of major areas of dip-  
14 lomatic energy, infrastructure, banking, finan-  
15 cial, economic, military, and space coopera-  
16 tion—

17 (i) between the People’s Republic of  
18 China and the Islamic Republic of Iran;  
19 and

20 (ii) between the People’s Republic of  
21 China and the Russian Federation.

22 (B) An assessment of the effect of the  
23 COVID–19 pandemic on such cooperation.

24 (C) An assessment of the effect that  
25 United States compliance with the Joint Com-

1           prehensive Plan of Action (JCPOA) starting in  
2           January 14, 2016, and United States with-  
3           drawal from the JCPOA on May 8, 2018, had  
4           on the cooperation described in subparagraph  
5           (A)(i).

6                   (D) An assessment of the effect on the co-  
7           operation described in subparagraph (A)(i) that  
8           would be had by the United States reentering  
9           compliance with the JCPOA or a successor  
10          agreement and the effect of the United States  
11          not reentering compliance with the JCPOA or  
12          reaching a successor agreement.

13                  (3) FORM.—The report submitted under para-  
14          graph (1) shall be submitted in unclassified form,  
15          but may include a classified annex.

16                  (c) SENSE OF CONGRESS ON SHARING WITH ALLIES  
17          AND PARTNERS.—It is the sense of Congress that the Di-  
18          rector of National Intelligence and the heads of other ap-  
19          propriate Federal departments and agencies should share  
20          with important allies and partners of the United States,  
21          as appropriate, the findings of the report required under  
22          subsection (b).

1 **SEC. 30259. REPORT AND BRIEFING ON CHINA'S ELECTION**  
2 **INTERFERENCE.**

3 The Director of National Intelligence, in coordination  
4 with the heads of other appropriate Federal departments  
5 and agencies, shall submit to Congress a report on the  
6 existence of any security risks and threats posed by China  
7 to upcoming United States elections for Federal office.

8 **SEC. 30259A. INTELLIGENCE ASSESSMENT.**

9 Not later than 180 days after the date of the enact-  
10 ment of this Act, the Secretary of State, in coordination  
11 with the Director of National Intelligence, shall submit to  
12 the Committee on Foreign Affairs and the Permanent Se-  
13 lect Committee on Intelligence of the House of Represent-  
14 atives and the Committee on Foreign Relations and the  
15 Select Committee on Intelligence of the Senate a classified  
16 report, with an unclassified annex if appropriate, that as-  
17 sesses the degree to which, if any, the Russian Federation  
18 has coordinated with the People's Republic of China  
19 (PRC) regarding a potential further invasion of Ukraine.  
20 Such assessment shall also examine ways in which the  
21 PRC may have promised to help the Russian Federation  
22 offset the costs of prospective economic sanctions, espe-  
23 cially in the financial, technological, and energy sectors.

1                   **PART 3—SOUTH AND CENTRAL ASIA**

2   **SEC. 30261. SENSE OF CONGRESS ON SOUTH AND CENTRAL**  
3                   **ASIA.**

4           It is the sense of Congress that—

5                   (1) the United States should continue to stand  
6           with friends and partners, while also working to es-  
7           tablish new partners in South and Central Asia as  
8           they contend with efforts by the Government of the  
9           People’s Republic of China to interfere in their re-  
10          spective political systems and encroach upon their  
11          sovereign territory; and

12                   (2) the United States should reaffirm its com-  
13          mitment to the Comprehensive Global Strategic  
14          Partnership with India and further deepen bilateral  
15          defense consultations and collaboration with India  
16          commensurate with its status as a major defense  
17          partner.

18   **SEC. 30262. STRATEGY TO ENHANCE COOPERATION WITH**  
19                   **SOUTH AND CENTRAL ASIA.**

20           (a) **IN GENERAL.**—Not later than 180 days after the  
21          date of the enactment of this Act, the President shall sub-  
22          mit to the appropriate congressional committees, the Com-  
23          mittee on Armed Services of the Senate and, the Com-  
24          mittee on Armed Services of the House of Representatives  
25          a strategy for how the United States will engage with the  
26          countries of South and Central Asia, including through

1 the C5+1 mechanism, with respect to the People’s Repub-  
2 lic of China.

3 (b) ELEMENTS.—The strategy required under sub-  
4 section (a) shall include the following elements:

5 (1) A detailed description of the security and  
6 economic challenges that the People’s Republic of  
7 China (PRC) poses to the countries of South and  
8 Central Asia, including border disputes with South  
9 and Central Asian countries that border the People’s  
10 Republic of China, and PRC investments in land  
11 and sea ports, transportation infrastructure, and en-  
12 ergy projects across the region.

13 (2) A detailed description of United States ef-  
14 forts to provide alternatives to PRC investment in  
15 infrastructure and other sectors in South and Cen-  
16 tral Asia.

17 (3) A detailed description of bilateral and re-  
18 gional efforts to work with countries in South Asia  
19 on strategies to build resilience against PRC efforts  
20 to interfere in their political systems and economies.

21 (4) A detailed description of the challenges  
22 posed by PRC investment in the Afghan mineral sec-  
23 tor.

24 (5) A detailed description of United States dip-  
25 lomatic efforts with the Government of Pakistan

1 with respect to matters relevant to the People’s Re-  
2 public of China, including investments by the Peo-  
3 ple’s Republic of China in Pakistan through the Belt  
4 and Road Initiative.

5 (6) In close consultation with the Government  
6 of India, identification of areas with respect to which  
7 the United States Government can provide diplo-  
8 matic and other support as appropriate for India’s  
9 efforts to address economic and security challenges  
10 posed by the People’s Republic of China in the re-  
11 gion.

12 (7) A description of the coordination mecha-  
13 nisms among key regional and functional bureaus  
14 within the Department of State and Department of  
15 Defense tasked with engaging with the countries of  
16 South and Central Asia on issues relating to the  
17 People’s Republic of China.

18 (8) A detailed description of United States dip-  
19 lomatic efforts with Central Asian countries, Turkey,  
20 and any other countries with significant populations  
21 of Uyghurs and other ethnic minorities fleeing perse-  
22 cution in the People’s Republic of China to press  
23 those countries to refrain from deporting ethnic mi-  
24 norities to the People’s Republic of China, protect  
25 ethnic minorities from intimidation by Chinese Gov-

1       ernment authorities, and protect the right to the  
2       freedoms of assembly and expression.

3       (c) FORM.—The strategy required under section (a)  
4 shall be submitted in an unclassified form that can be  
5 made available to the public, but may include a classified  
6 annex as necessary.

7       (d) CONSULTATION.—Not later than 120 days after  
8 the date of the enactment of this Act and not less often  
9 than annually thereafter for five years, the Secretary of  
10 State shall consult with the appropriate congressional  
11 committees, the Committee on Armed Services of the Sen-  
12 ate, and the Committee on Armed Services of the House  
13 of Representatives regarding the development and imple-  
14 mentation of the strategy required under subsection (a).

15 **SEC. 30263. INDIAN OCEAN REGION STRATEGIC REVIEW.**

16       (a) FINDINGS.—Congress makes the following find-  
17 ings:

18               (1) The Indian Ocean region is a vitally impor-  
19 tant part of the Indo-Pacific where the United  
20 States has political, economic, and security interests.

21               (2) The United States has an interest in work-  
22 ing with partners in the Indo-Pacific, including  
23 India, Japan, and Australia, to address regional gov-  
24 ernance, economic connectivity, and security chal-  
25 lenges including threats to freedom of navigation.

1 (b) STATEMENT OF POLICY.—As a part of the  
2 United States engagement in the Indo-Pacific, it shall be  
3 the policy of the United States to strengthen engagement  
4 with the countries in the Indian Ocean region, including  
5 with governments, civil society, and private sectors in such  
6 countries to—

7 (1) promote United States political engagement  
8 with such region, including through active participa-  
9 tion in regional organizations, and strengthened dip-  
10 lomatic relations with United States partners in  
11 such region;

12 (2) enhance United States economic  
13 connectivity and commercial exchange with such re-  
14 gion;

15 (3) defend freedom of navigation in such region  
16 from security challenges, including related to piracy;

17 (4) support the ability of governments and or-  
18 ganizations in such region to respond to natural dis-  
19 asters;

20 (5) support and facilitate the role of regional al-  
21 lies and partners as net providers of security to such  
22 region and as partners to the United States in ad-  
23 dressing security challenges in such region, including  
24 through assistance to such allies and partners to

1 build capacity in maritime security and maritime do-  
2 main awareness;

3 (6) continue to build the United States-India  
4 relationship in order to regularize security coopera-  
5 tion through the negotiation of agreements con-  
6 cerning access, communication, and navigation, in-  
7 cluding through foundational agreements; and

8 (7) promote cooperation with United States al-  
9 lies in the Indo-Pacific, including Japan and Aus-  
10 tralia, and major defense partners, including India,  
11 and NATO allies, including the United Kingdom and  
12 France, to support a rules-based order in such re-  
13 gion.

14 (c) STRATEGY.—

15 (1) IN GENERAL.—Not later than 180 days  
16 after the date of the enactment of this Act, the Sec-  
17 retary of State, in coordination with the Secretary of  
18 Defense and the Administrator of the United States  
19 Agency for International Development (USAID),  
20 shall submit to the appropriate committees of Con-  
21 gress a multi-year strategy for United States en-  
22 gagement to support United States interests in the  
23 Indian Ocean region. Such strategy shall—

1 (A) define United States political, eco-  
2 nomic, and security interests in the Indian  
3 Ocean region;

4 (B) outline challenges to the interests of  
5 the United States in such region;

6 (C) outline efforts to improve cooperation  
7 between the United States and members of the  
8 Quad, including India, Japan, and Australia,  
9 through coordination in diplomacy and develop-  
10 ment priorities, joint military exercises and op-  
11 erations, and other activities that promote  
12 United States political, economic, and security  
13 interests;

14 (D) outline efforts to support economic  
15 connectivity in such region, including through  
16 the United States-India-Japan Trilateral Infra-  
17 structure Working Group, the Asia-Africa  
18 Growth Corridor, and other efforts to expand  
19 and enhance connectivity across the Indo-Pa-  
20 cific, including with the countries of Southeast  
21 Asia, that maintain high standards of invest-  
22 ment and support for civil society and people-  
23 to-people connectivity;

24 (E) describe how the United States can en-  
25 gage with regional intergovernmental organiza-

1 tions and entities, including the Indian Ocean  
2 Rim Association, to promote United States po-  
3 litical, economic, and security interests in such  
4 region;

5 (F) review the United States diplomatic  
6 posture in such region, including an assessment  
7 of United States diplomatic engagement in  
8 countries without a permanent United States  
9 embassy or diplomatic mission, and an assess-  
10 ment of ways to improve the cooperation with  
11 the Maldives, the Seychelles, and Comoros;

12 (G) review United States diplomatic agree-  
13 ments with countries in such region that facili-  
14 tate United States military operations in such  
15 region, including bilateral and multilateral  
16 agreements, and describe efforts to expand  
17 United States cooperation with such countries  
18 through the negotiation of additional agree-  
19 ments; and

20 (H) include a security assistance strategy  
21 for such region that outlines priorities, objec-  
22 tives, and actions for United States security as-  
23 sistance efforts to governments of countries in  
24 such region to promote United States political,  
25 economic, and security interests in such region.

1           (2) INCLUSION.—The strategy required under  
2 paragraph (1) may be submitted as a part of any  
3 other strategy relating to the Indo-Pacific.

4           (3) REPORT ON IMPLEMENTATION.—Not later  
5 than one year after the submission of the strategy  
6 required under paragraph (1) and one year there-  
7 after, the Secretary of State shall submit to the ap-  
8 propriate congressional committees a report on  
9 progress made toward implementing such strategy.

10          (d) UNITED STATES-CHINA ECONOMIC AND SECUR-  
11 RITY REVIEW COMMISSION.—

12           (1) IN GENERAL.—Subparagraph (E) of section  
13 1238(e)(2) of the Floyd D. Spence National Defense  
14 Authorization Act for Fiscal Year 2001 (22 U.S.C.  
15 7002(e)(2)) is amended—

16           (A) by inserting “, including in the Indian  
17 Ocean region” after “deployments of the Peo-  
18 ple’s Republic of China military”; and

19           (B) by adding at the end the following new  
20 sentence: “In this subparagraph, the term ‘In-  
21 dian Ocean region’ means the Indian Ocean, in-  
22 cluding the Arabian Sea and the Bay of Bengal,  
23 and the littoral areas surrounding the Indian  
24 Ocean.”.

1           (2) EFFECTIVE DATE.—The amendments made  
2           by paragraph (1) shall take effect on the date of the  
3           enactment of this Act and apply beginning with the  
4           first report required under section 1238 of the Floyd  
5           D. Spence National Defense Authorization Act for  
6           Fiscal Year 2001 (as amended by such paragraph)  
7           that is submitted after such date.

8           (e) DEFINITIONS.—In this section:

9           (1) APPROPRIATE COMMITTEES OF CON-  
10          GRESS.—The term “appropriate committees of Con-  
11          gress” means the Committee on Foreign Affairs and  
12          the Committee on Armed Services of the House of  
13          Representatives and the Committee on Foreign Re-  
14          lations and the Committee on Armed Services of the  
15          Senate.

16          (2) INDIAN OCEAN REGION.—The term “Indian  
17          Ocean region” means the Indian Ocean, including  
18          the Arabian Sea and the Bay of Bengal, and the lit-  
19          toral areas surrounding the Indian Ocean.

**PART 4—AFRICA****SEC. 30271. ASSESSMENT OF POLITICAL, ECONOMIC, AND  
SECURITY ACTIVITY OF THE PEOPLE’S RE-  
PUBLIC OF CHINA IN AFRICA.**

(a) APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this section, the term “appropriate committees of Congress” means—

(1) the Committee on Foreign Relations, the Committee on Armed Services, and the Select Committee on Intelligence of the Senate; and

(2) the Committee on Foreign Affairs, the Committee on Armed Services, and the Permanent Select Committee on Intelligence of the House of Representatives.

(b) INTELLIGENCE ASSESSMENT.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall, in coordination with the Director of National Intelligence, submit to the appropriate committees of Congress a report that assesses the nature and impact of the People’s Republic of China’s political, economic, socio-cultural, and security sector activity in Africa, and its impact on United States strategic interests, including information relating to—

(1) the amount and impact of direct investment, loans, development financing, oil-for-loans deals, and other preferential trading arrangements;

1           (2) the involvement of People’s Republic of  
2           China (PRC) state-owned enterprises in Africa;

3           (3) the amount of African debt held by the  
4           PRC;

5           (4) the involvement of PRC private security,  
6           technology and media companies in Africa;

7           (5) the scale and impact of PRC arms sales to  
8           African countries;

9           (6) the scope of PRC investment in and control  
10          of African energy resources and minerals critical for  
11          emerging and foundational technologies;

12          (7) an analysis on the linkages between PRC’s  
13          aid and assistance to African countries and African  
14          countries supporting PRC geopolitical goals in inter-  
15          national fora;

16          (8) the methods, tools, and tactics used to fa-  
17          cilitate illegal and corrupt activity, including trade in  
18          counterfeit and illicit goods, to include smuggled ex-  
19          tractive resources and wildlife products, between Af-  
20          rica and the PRC;

21          (9) the methods and techniques that the PRC  
22          uses to exert undue influence on African govern-  
23          ments and facilitate corrupt activity in Africa, in-  
24          cluding through the CCP’s party-to-party training

1 program, and to influence African multilateral orga-  
2 nizations; and

3 (10) an analysis of the soft power, cultural and  
4 educational activities undertaken by the PRC and  
5 CCP to seek to expand its influence in Africa.

6 **SEC. 30272. INCREASING THE COMPETITIVENESS OF THE**  
7 **UNITED STATES IN AFRICA.**

8 (a) **APPROPRIATE COMMITTEES OF CONGRESS DE-**  
9 **FINED.**—In this section, the term “appropriate commit-  
10 tees of Congress” means—

11 (1) the Committee on Foreign Relations, the  
12 Committee on Appropriations, and the Committee on  
13 Finance of the Senate; and

14 (2) the Committee on Foreign Affairs, the  
15 Committee on Appropriations, and the Committee on  
16 Ways and Means of the House of Representatives.

17 (b) **STRATEGY REQUIREMENT.**—Not later than 180  
18 days after the date of the enactment of this Act, the Sec-  
19 retary of State shall, in consultation with the Secretary  
20 of the Treasury, the Secretary of Commerce, the Attorney  
21 General, the United States Trade Representative, the Ad-  
22 ministrator of the United States Agency for International  
23 Development, and the leadership of the United States  
24 International Development Finance Corporation, submit  
25 to the appropriate committees of Congress a report setting

1 forth a multi-year strategy for increasing United States  
2 economic competitiveness and promoting improvements in  
3 the investment climate in Africa, including through sup-  
4 port for—

5           (1) democratic institutions and the rule of law,  
6           including property rights; and

7           (2) improved transparency, anti-corruption ef-  
8           forts, and good governance.

9           (c) ELEMENTS.—The strategy submitted pursuant to  
10 subsection (a) shall include—

11           (1) a description and assessment of barriers to  
12           United States investment in Africa for United States  
13           businesses, including a clear identification of the dif-  
14           ferent barriers facing small-sized and medium-sized  
15           businesses, and an assessment of whether existing  
16           programs effectively address such barriers;

17           (2) a description and assessment of barriers to  
18           African diaspora investment in Africa, and rec-  
19           ommendations to overcome such barriers;

20           (3) an identification of the economic sectors in  
21           the United States that have a comparative advan-  
22           tage in African markets;

23           (4) an assessment of additional foreign assist-  
24           ance needs, including democracy and governance and

1 rule of law support, to promote a conducive oper-  
2 ating environment in priority countries;

3 (5) establishing a dialogue on security, develop-  
4 ment, and environmental issues of mutual interest;  
5 and

6 (6) a plan to regularly host a United States-Af-  
7 rica Leaders Summit to promote strategic engage-  
8 ment and security in Africa.

9 (d) ASSESSMENT OF UNITED STATES GOVERNMENT  
10 HUMAN RESOURCES CAPACITY.—The Comptroller Gen-  
11 eral of the United States shall—

12 (1) conduct a review of the number of Foreign  
13 Commercial Service Officers and Department of  
14 State Economic Officers at United States embassies  
15 in sub-Saharan Africa; and

16 (2) develop and submit to the appropriate con-  
17 gressional committees an assessment of whether  
18 human resource capacity in such embassies is ade-  
19 quate to meet the goals of the various trade and eco-  
20 nomic programs and initiatives in Africa, including  
21 the African Growth and Opportunity Act and Pros-  
22 per Africa.

1 **SEC. 30273. DIGITAL SECURITY COOPERATION WITH RE-**  
2 **SPECT TO AFRICA.**

3 (a) **APPROPRIATE COMMITTEES OF CONGRESS DE-**  
4 **FINED.**—In this section, the term “appropriate commit-  
5 tees of Congress” means—

6 (1) the Committee on Foreign Relations, the  
7 Committee on Armed Services, the Select Committee  
8 on Intelligence of the Senate, and the Committee on  
9 Homeland Security and Governmental Affairs; and

10 (2) the Committee on Foreign Affairs, the  
11 Committee on Armed Services, the Permanent Select  
12 Committee on Intelligence, and the Committee on  
13 Oversight and Reform of the House of Representa-  
14 tives.

15 (b) **INTERAGENCY WORKING GROUP TO COUNTER**  
16 **PRC CYBER AGGRESSION IN AFRICA.**—

17 (1) **IN GENERAL.**—The President shall establish  
18 an interagency Working Group, which shall include  
19 the National Cyber Director and representatives of  
20 the Department of State, the Department of De-  
21 fense, the Office of the Director of National Intel-  
22 ligence, and such other agencies of the United States  
23 Government as the President considers appropriate,  
24 on means to counter PRC cyber aggression with re-  
25 spect to Africa.

1           (2) DUTIES.—The Working Group established  
2 pursuant to this subsection shall develop and submit  
3 to the appropriate congressional committees a set of  
4 recommendations, such as for—

5                   (A) bolstering the capacity of governments  
6 in Africa to ensure the integrity of their data  
7 networks and critical infrastructure, where ap-  
8 plicable;

9                   (B) providing alternatives to Huawei;

10                   (C) an action plan for United States em-  
11 bassies in Africa to provide assistance to host-  
12 country governments with respect to protecting  
13 their vital digital networks and infrastructure  
14 from PRC espionage, including an assessment  
15 of staffing resources needed to implement the  
16 action plan in embassies in Africa;

17                   (D) utilizing interagency resources to  
18 counter PRC disinformation and propaganda in  
19 traditional and digital media targeted to Afri-  
20 can audiences; and

21                   (E) helping civil society in Africa counter  
22 digital authoritarianism and identifying tools  
23 and assistance to enhance and promote digital  
24 democracy.

1 **SEC. 30274. SUPPORT FOR YOUNG AFRICAN LEADERS INI-**  
2 **TIATIVE.**

3 (a) SENSE OF CONGRESS.—It is the sense of Con-  
4 gress that—

5 (1) the Young African Leaders Initiative,  
6 launched in 2010, is a signature effort to invest in  
7 the next generation of African leaders;

8 (2) Africa is a continent of strategic importance  
9 and it is vital for the United States to support  
10 strong and enduring partnerships with the next gen-  
11 eration of African leaders;

12 (3) the United States Government should  
13 prioritize investments to build the capacity of emerg-  
14 ing young African leaders in sub-Saharan Africa, in-  
15 cluding through efforts to—

16 (A) enhance leadership skills;

17 (B) encourage entrepreneurship;

18 (C) strengthen public administration and  
19 the role of civil society;

20 (D) enhance peace and security in their re-  
21 spective countries of origin and across Africa;  
22 and

23 (E) connect young African leaders con-  
24 tinentally and globally across the private, civic,  
25 and public sectors;

1           (4) youth in Africa have a positive impact on  
2 efforts to foster economic growth, improve public  
3 sector transparency and governance, and counter ex-  
4 tremism, and should be an area of focus for United  
5 States outreach on the African continent; and

6           (5) the Secretary of State should—

7           (A) increase the number of fellows from  
8 Africa participating in the Mandela Washington  
9 Fellowship above the estimated 700 fellows who  
10 participated during fiscal year 2021; and

11           (B) identify additional ways to connect  
12 YALI alumni to United States public and pri-  
13 vate resources and institutions.

14       (b) YOUNG AFRICAN LEADERS INITIATIVE PRO-  
15 GRAM.—

16           (1) IN GENERAL.—There is established the  
17 Young African Leaders Initiative (“YALI”), which  
18 shall be carried out by the Secretary of State.

19           (2) PURPOSE.—YALI shall seek to build the ca-  
20 pacity of young African leaders in sub-Saharan Afri-  
21 ca in the areas of business, civic engagement, or  
22 public administration, including through efforts to—

23           (A) support young African leaders by of-  
24 fering professional development, training, and  
25 networking opportunities, particularly in the

1 areas of leadership, innovation, civic engage-  
2 ment, elections, human rights, entrepreneur-  
3 ship, good governance, peace and security, and  
4 public administration; and

5 (B) provide increased economic and tech-  
6 nical assistance to young African leaders to pro-  
7 mote economic growth, strengthen ties between  
8 United States and African businesses, build re-  
9 siliance to predatory lending practices, and im-  
10 prove capacity in key economic areas such as  
11 tendering, bidding, and contract negotiations,  
12 budget management and oversight, anti-corrup-  
13 tion, and establishment of clear policy and reg-  
14 ulatory practices.

15 (3) FELLOWSHIPS.—

16 (A) IN GENERAL.—YALI shall support the  
17 participation in the United States in the  
18 Mandela Washington Fellowship for Young Af-  
19 rican Leaders of fellows from Africa who—

20 (i) are between 25 and 35 years of  
21 age;

22 (ii) have demonstrated strong capa-  
23 bilities in entrepreneurship, innovation,  
24 public service, and leadership; and

1 (iii) have had a positive impact in  
2 their communities, organizations, or insti-  
3 tutions.

4 (B) OVERSIGHT.—The fellowships de-  
5 scribed in paragraph (1) shall be overseen by  
6 the Secretary of State through the Bureau of  
7 Education and Cultural Affairs.

8 (C) ELIGIBILITY.—The Secretary of State  
9 shall establish and publish—

10 (i) eligibility criteria for participation  
11 as a fellow under paragraph (1); and

12 (ii) criteria for determining which eli-  
13 gible applicants will be selected.

14 (4) RECIPROCAL EXCHANGES.—Subject to the  
15 approval of the Secretary of State, United States  
16 citizens may—

17 (A) engage in reciprocal exchanges in con-  
18 nection with alumni of the fellowship described  
19 in subsection (c); and

20 (B) collaborate on projects with such fel-  
21 lowship alumni.

22 (5) REGIONAL LEADERSHIP CENTERS AND NET-  
23 WORKS.—The Administrator of the United States  
24 Agency for International Development shall estab-  
25 lish—

1 (A) not fewer than 4 regional leadership  
2 centers in sub-Saharan Africa to offer in-person  
3 and online training throughout the year on  
4 business and entrepreneurship, civic leadership,  
5 and public management to young African lead-  
6 ers between 18 and 35 years of age who have  
7 demonstrated strong capabilities in entrepre-  
8 neurship, innovation, public service and leader-  
9 ship, and peace-building and conflict resolution,  
10 and who have had a positive impact in their  
11 communities, organizations, or institutions; and

12 (B) an online network that provides infor-  
13 mation and courses on, and connections with  
14 leaders in, the private and public sectors of Af-  
15 rica.

16 (6) ACTIVITIES.—

17 (A) UNITED STATES-BASED ACTIVITIES.—  
18 The Secretary of State, in coordination with the  
19 heads of relevant Federal departments and  
20 agencies, shall oversee all United States-based  
21 activities carried out under YALI, including—

22 (i) the participation of Mandela  
23 Washington Fellows in a six-week Leader-  
24 ship Institute at a United States edu-  
25 cational institution in business, civic en-

1 gagement, or public management, includ-  
2 ing academic sessions, site visits, profes-  
3 sional networking opportunities, leadership  
4 training, community service, and organized  
5 cultural activities; and

6 (ii) the participation by Mandela  
7 Washington fellows in an annual Mandela  
8 Washington Fellowship Summit, to provide  
9 such Fellows the opportunity to meet with  
10 United States leaders from the private,  
11 public, and non-profit sectors.

12 (B) AFRICA-BASED ACTIVITIES.—The Sec-  
13 retary of State, in coordination with the Admin-  
14 istrator for the United States Agency for Inter-  
15 national Development and the heads of other  
16 relevant Federal departments and agencies,  
17 should continue to support YALI activities in  
18 sub-Saharan Africa, including—

19 (i) continued leadership training and  
20 other professional development opportuni-  
21 ties for Mandela Washington Fellowship  
22 for Young African Leaders alumni upon  
23 their return to their home countries, in-  
24 cluding online courses, technical assistance,  
25 and access to funding;

1           (ii) training for young African leaders  
2           at regional leadership centers established  
3           in accordance with subsection (e), and  
4           through online and in-person courses of-  
5           fered by such centers; and

6           (iii) opportunities for networking and  
7           engagement with—

8                   (I) alumni of the Mandela Wash-  
9                   ington Fellowship for Young African  
10                  Leaders;

11                  (II) alumni of programs at re-  
12                  gional leadership centers established  
13                  in accordance with subsection (e);

14                  (III) United States and like-  
15                  minded diplomatic missions, business  
16                  leaders, and others as appropriate;  
17                  and

18                  (IV) where practicable and ap-  
19                  propriate, other United States-funded  
20                  regional leadership programs, includ-  
21                  ing the Young Southeast Asian Lead-  
22                  ers Initiative (YSEALI), the Young  
23                  Leaders of the Americas Initiative  
24                  (YLAI), the Young Pacific Leaders  
25                  (YPL), and the Young Transatlantic

1 Innovation Leaders Initiative  
2 (YTILI), and through Department of  
3 State programs such as the Commu-  
4 nity Engagement Exchange Program  
5 and other initiatives.

6 (C) IMPLEMENTATION.—To carry out this  
7 subsection, the Secretary of State, in coordina-  
8 tion with the Administrator of the United  
9 States Agency for International Development  
10 and the heads of other relevant Federal depart-  
11 ments and agencies shall seek to partner with  
12 the private sector to pursue public-private part-  
13 nerships, leverage private sector expertise, ex-  
14 pand networking opportunities, and identify  
15 funding opportunities as well as fellowship and  
16 employment opportunities for YALI.

17 (7) IMPLEMENTATION PLAN.—Not later than  
18 180 days after the date of the enactment of this Act,  
19 the Secretary of State, in coordination with the Ad-  
20 ministrator of the United States Agency for Inter-  
21 national Development and the heads of other rel-  
22 evant Federal departments and agencies, shall sub-  
23 mit to the appropriate congressional committees a  
24 plan for implementing YALI, including—

1 (A) a description of clearly defined pro-  
2 gram goals, targets, and planned outcomes for  
3 each year and for the duration of implementa-  
4 tion of the program;

5 (B) a strategy to monitor and evaluate the  
6 program and progress made toward achieving  
7 such goals, targets, and planned outcomes; and

8 (C) a strategy to ensure the program is  
9 promoting United States foreign policy goals in  
10 Africa, including ensuring that the program is  
11 clearly branded, paired with robust public diplo-  
12 macy efforts, and incorporates diversity among  
13 participants as practicable, including countries  
14 and communities in Africa facing economic dis-  
15 tress, civil conflict, marginalization, and other  
16 challenges.

17 (8) REPORT.—Not later than 1 year after the  
18 date of the enactment of this Act, and annually  
19 thereafter for 5 years, the Secretary of State, in co-  
20 ordination with the Administrator of the United  
21 States Agency for International Development, shall  
22 submit to the appropriate congressional committees  
23 and publish in a publicly accessible, internet-based  
24 form, a report that includes—

1 (A) a description of the progress made to-  
2 ward achieving the goals, targets, and planned  
3 outcomes described in subsection (g)(1), includ-  
4 ing an overview of the program implemented in  
5 the previous year and an estimated number of  
6 beneficiaries;

7 (B) an assessment of how YALI is contrib-  
8 uting to and promoting United States-Africa re-  
9 lations, particularly in areas of increased pri-  
10 vate sector investment, trade promotion, sup-  
11 port to civil society, improved public adminis-  
12 tration, promoting peace and security, and fos-  
13 tering entrepreneurship and youth empower-  
14 ment;

15 (C) recommendations for improvements or  
16 changes to YALI and the implementation plan,  
17 if any, that would improve their effectiveness  
18 during subsequent years of YALI's implementa-  
19 tion; and

20 (D) for the first report submitted under  
21 this subsection, an assessment of the feasibility  
22 of expanding YALI to Morocco, Algeria, Tuni-  
23 sia, Libya, and Egypt.

1           (9) APPROPRIATE CONGRESSIONAL COMMIT-  
2           TEES DEFINED.—In this section, the term “appro-  
3           priate congressional committees” means—

4                   (A) the Committee on Foreign Relations of  
5           the Senate;

6                   (B) the Committee on Appropriations of  
7           the Senate;

8                   (C) the Committee on Foreign Affairs of  
9           the House of Representatives; and

10                   (D) the Committee on Appropriations of  
11          the House of Representatives.

12           (10) SUNSET.—The requirements of this sec-  
13          tion shall terminate on the date that is 5 years after  
14          the date of the enactment of this Act.

15 **SEC. 30275. AFRICA BROADCASTING NETWORKS.**

16          Not later than 180 days after the date of the enact-  
17          ment of this Act, the Chief Executive Officer of the United  
18          States Agency for Global Media shall submit to the appro-  
19          priate congressional committees a report on the resources  
20          and timeline needed to establish within the Agency an or-  
21          ganization the mission of which shall be to promote demo-  
22          cratic values and institutions in Africa by providing objec-  
23          tive, accurate, and relevant news and information to the  
24          people of Africa and counter disinformation from malign  
25          actors, especially in countries in which a free press is

1 banned by the government or not fully established, about  
2 the region, the world, and the United States through un-  
3 censored news, responsible discussion, and open debate.

4 **SEC. 30276. AFRICA ENERGY SECURITY AND DIVERSIFICA-**  
5 **TION.**

6 (a) STATEMENT OF POLICY.—It is the policy of the  
7 United States to support increased access to energy in Af-  
8 rica and reduce Africa’s energy dependence on countries  
9 that use energy reliance for undue political influence such  
10 as the Russian Federation and the People’s Republic of  
11 China.

12 (b) FINDINGS.—Congress finds the following:

13 (1) Lack of access to energy remains a signifi-  
14 cant barrier to economic advancement and oppor-  
15 tunity in Africa. As of 2018, an estimated  
16 789,000,000 people, the vast majority of them in  
17 sub-Saharan Africa, lacked access to any modern  
18 electricity. Even in the region’s most advanced  
19 economies, average annual per capita electricity con-  
20 sumption is often under 200 kilowatt-hours, less  
21 than what is needed to power a typical refrigerator.  
22 Only a small fraction of the 12,000,000 young Afri-  
23 cans who enter the job market each year find em-  
24 ployment; and the cost and reliability of electricity

1 remain top constraints to job creation and economic  
2 competitiveness.

3 (2) The United States' global strategic competi-  
4 tors have stepped in to address this disparity and fi-  
5 nance energy sector development across Africa.  
6 China is the single largest trading partner for Afri-  
7 can countries in aggregate, and the largest bilateral  
8 lender for public sector loans across Africa. Approxi-  
9 mately 65 percent of Chinese lending to Africa goes  
10 to infrastructure, and between 2013–2020, the en-  
11 ergy sector consistently accounted for the largest  
12 share of all investment under China's Belt and Road  
13 Initiative.

14 (3) Reliable, affordable, and sustainable power  
15 is the foundation for all modern economies and nec-  
16 essary for increasing growth and employment.

17 (4) Increasing energy supply in low- and lower  
18 middle-income countries is necessary in the next dec-  
19 ades in order to meet human, social, security, and  
20 economic needs.

21 (5) Addressing energy poverty, powering inclu-  
22 sive economies, and making energy systems resilient  
23 in low- and lower middle-income countries will re-  
24 quire diversified power systems and a mix of tech-

1 nologies that align with local conditions, resources,  
2 and needs.

3 (c) SENSE OF CONGRESS.—It is the sense of Con-  
4 gress that countries in Africa continue to be important  
5 partners to the United States and the DFC should con-  
6 tinue to make investments in sub-Saharan Africa to facili-  
7 tate technologies that contribute to energy security and  
8 reliable, affordable, and sustainable power in low and  
9 lower middle-income countries.

10 (d) AMENDMENT.—Section 3 of the Electrify Africa  
11 Act of 2015 (Public Law 114–121; 22 U.S.C. 2293 note)  
12 is amended—

13 (1) in paragraph (8), by striking “and” at the  
14 end;

15 (2) in paragraph (9), by striking the period and  
16 inserting a semicolon; and

17 (3) by inserting after paragraph (9) the fol-  
18 lowing:

19 “(10) advance United States foreign policy and  
20 development goals by assisting African countries to  
21 reduce their dependence on energy resources from  
22 countries that use energy dependence for undue po-  
23 litical influence, such as the Russian Federation or  
24 the People’s Republic of China, which have used en-

1 energy and financial resources to influence other coun-  
2 tries;

3 “(11) promote the energy security of allies and  
4 partners of the United States by encouraging the de-  
5 velopment of accessible, transparent, and competitive  
6 energy markets that provide diversified sources and  
7 reliable, affordable, and sustainable power;

8 “(12) encourage United States public and pri-  
9 vate sector investment in African energy infrastruc-  
10 ture projects to bridge the gap between energy secu-  
11 rity requirements and commercial demand in a way  
12 that is consistent with the region’s capacity; and

13 “(13) help facilitate the export of United States  
14 energy resources, technology, and expertise to global  
15 markets in a way that benefits the energy security  
16 of allies and partners of the United States, including  
17 in Africa.”.

18 **PART 5—MIDDLE EAST AND NORTH AFRICA**

19 **SEC. 30281. STRATEGY TO COUNTER CHINESE INFLUENCE**  
20 **IN, AND ACCESS TO, THE MIDDLE EAST AND**  
21 **NORTH AFRICA.**

22 (a) SENSE OF CONGRESS.—It is the sense of Con-  
23 gress that—

24 (1) the People’s Republic of China is upgrading  
25 its influence in the Middle East and North Africa

1 through its energy and infrastructure investments,  
2 technology transfer, and arms sales;

3 (2) the People’s Republic of China seeks to es-  
4 tablish military or dual use facilities in geographi-  
5 cally strategic locations in the Middle East and  
6 North Africa to further its Belt and Road Initiative  
7 at the expense of United States national security in-  
8 terests; and

9 (3) the export of certain communications infra-  
10 structure from the People’s Republic of China de-  
11 grades the security of partner networks, exposes in-  
12 tellectual property to theft, threatens the ability of  
13 the United States to conduct security cooperation  
14 with compromised regional partners, and furthers  
15 China’s authoritarian surveillance model.

16 (b) STRATEGY REQUIRED.—

17 (1) IN GENERAL.—Not later than 180 days  
18 after the date of the enactment of this Act, the Sec-  
19 retary of State, in coordination with the Secretary of  
20 Defense, the Administrator of the United States  
21 Agency for International Development, and the  
22 heads of other appropriate Federal agencies, shall  
23 jointly develop and submit to the appropriate con-  
24 gressional committees and the Committees on Armed  
25 Services of the Senate and the House of Representa-

1 tives a strategy for countering and limiting the Peo-  
2 ple's Republic of China's influence in, and access to,  
3 the Middle East and North Africa.

4 (2) ELEMENTS.—The strategy required under  
5 paragraph (1) shall include—

6 (A) an assessment of the People's Republic  
7 of China's intent with regards to increased co-  
8 operation with Middle East and North African  
9 countries and how such cooperation fits into its  
10 broader global strategic objectives;

11 (B) an assessment of how governments  
12 across the region are responding to the People's  
13 Republic of China's efforts to increase its mili-  
14 tary presence in their countries;

15 (C) efforts to improve regional cooperation  
16 through foreign military sales, financing, and  
17 efforts to build partner capacity and increase  
18 interoperability with the United States;

19 (D) an assessment of the People's Republic  
20 of China's joint research and development with  
21 the Middle East and North Africa, impacts on  
22 the United States' national security interests,  
23 and recommended steps to mitigate the People's  
24 Republic of China's influence in such area;

1           (E) an assessment of arms sales and weap-  
2           ons technology transfers from the People’s Re-  
3           public of China to the Middle East and North  
4           Africa, impacts on United States’ national secu-  
5           rity interests, and recommended steps to miti-  
6           gate the People’s Republic of China’s influence  
7           in such area;

8           (F) an assessment of the People’s Republic  
9           of China’s military sales to the region, including  
10          lethal and non-lethal unmanned aerial systems;

11          (G) an assessment of People’s Republic of  
12          China military basing and dual-use facility ini-  
13          tiatives across the Middle East and North Afri-  
14          ca, impacts on United States’ national security  
15          interests, and recommended steps to mitigate  
16          the People’s Republic of China’s influence in  
17          such area;

18          (H) efforts to improve regional security co-  
19          operation with United States allies and partners  
20          with a focus on—

21                  (i) maritime security in the Arabian  
22                  Gulf, the Red Sea, and the Eastern Medi-  
23                  terranean;

24                  (ii) integrated air and missile defense;

25                  (iii) cyber security;

- 1 (iv) border security; and
- 2 (v) critical infrastructure security, to
- 3 include energy security;
- 4 (I) increased support for government-to-
- 5 government engagement on critical infrastruc-
- 6 ture development projects, including ports and
- 7 water infrastructure;
- 8 (J) efforts to encourage United States pri-
- 9 vate sector and public-private partnerships in
- 10 healthcare technology and foreign direct invest-
- 11 ment in non-energy sectors;
- 12 (K) efforts to expand youth engagement
- 13 and professional education exchanges with key
- 14 partner countries;
- 15 (L) specific steps to counter increased in-
- 16 vestment from the People's Republic of China
- 17 in telecommunications infrastructure and diplo-
- 18 matic efforts to stress the political, economic,
- 19 and social benefits of a free and open internet;
- 20 (M) efforts to promote United States pri-
- 21 vate sector engagement in and public-private
- 22 partnerships on renewable energy development;
- 23 (N) the expansion of public-private part-
- 24 nership efforts on water, desalination, and irri-
- 25 gation projects;

1 (O) efforts to warn United States partners  
2 in the Middle East and North Africa of the  
3 risks associated with the People’s Republic of  
4 China’s telecommunications infrastructure and  
5 provide alternative “clean paths” to the Peo-  
6 ple’s Republic of China’s technology; and

7 (P) opportunities of potential partnership  
8 with Israel and other regional nations in areas  
9 such as technological cooperation in areas crit-  
10 ical to national security.

11 (c) FORM.—The strategy required under section (b)  
12 shall be submitted in an unclassified form that can be  
13 made available to the public, but may include a classified  
14 annex as necessary.

15 **SEC. 30282. SENSE OF CONGRESS ON MIDDLE EAST AND**  
16 **NORTH AFRICA ENGAGEMENT.**

17 (a) FINDINGS.—Congress makes the following find-  
18 ings:

19 (1) The United States and the international  
20 community have long-term interests in the stability,  
21 security, and prosperity of the people of the Middle  
22 East and North Africa.

23 (2) In addition to and apart from military and  
24 security efforts, the United States should harness a  
25 whole of government approach, including bilateral

1 and multilateral statecraft, economic lines of effort,  
2 and public diplomacy to compete with and counter  
3 PRC influence.

4 (3) A clearly articulated positive narrative of  
5 United States engagement, transparent governance  
6 structures, and active civil society engagement help  
7 counter predatory foreign investment and influence  
8 efforts.

9 (b) STATEMENT OF POLICY.—It is the policy of the  
10 United States that the United States and the international  
11 community should continue diplomatic and economic ef-  
12 forts throughout the Middle East and North Africa that  
13 support reform efforts to—

14 (1) promote greater economic opportunity;

15 (2) foster private sector development;

16 (3) strengthen civil society;

17 (4) promote transparent and democratic gov-  
18 ernance and the rule of law; and

19 (5) promote greater regional integration and  
20 intraregional cooperation, including with Israel.

21 **SEC. 30283. SENSE OF CONGRESS ON PEOPLE'S REPUBLIC**  
22 **OF CHINA-IRAN RELATIONSHIP.**

23 It is the sense of Congress that the People's Republic  
24 of China's economic relationship with Iran, including oil  
25 purchases in violation of United States sanctions, under-

1 mines United States efforts to compel Iran to abandon  
2 its malign activities.

3 **PART 6—ARCTIC REGION**

4 **SEC. 30285. ARCTIC DIPLOMACY.**

5 (a) SENSE OF CONGRESS ON ARCTIC SECURITY.—

6 It is the sense of Congress that—

7 (1) the rapidly changing Arctic environment—

8 (A) creates new national and regional secu-  
9 rity challenges due to increased military activity  
10 in the Arctic;

11 (B) heightens the risk of the Arctic emerg-  
12 ing as a major theater of conflict in ongoing  
13 strategic competition;

14 (C) threatens maritime safety as Arctic lit-  
15 toral countries have inadequate capacity to pa-  
16 trol the increased vessel traffic in this remote  
17 region, which is a result of diminished annual  
18 levels of sea ice;

19 (D) impacts public safety due to increased  
20 human activity in the Arctic region where  
21 search and rescue capacity remains very lim-  
22 ited; and

23 (E) threatens the health of the Arctic's  
24 fragile and pristine environment and the unique

1 and highly sensitive species found in the Arc-  
2 tic's marine and terrestrial ecosystems; and

3 (2) the United States should reduce the con-  
4 sequences described in paragraph (1) by—

5 (A) evaluating the wide variety and dy-  
6 namic set of security and safety risks devel-  
7 oping in the Arctic;

8 (B) developing policies and making prep-  
9 arations to mitigate and respond to threats and  
10 risks in the Arctic, including by continuing to  
11 work with allies and partners in the Arctic re-  
12 gion to deter potential aggressive activities and  
13 build Arctic competencies;

14 (C) adequately funding the National Earth  
15 System Prediction Capability to substantively  
16 improve weather, ocean, and ice predictions on  
17 the time scales necessary to ensure regional se-  
18 curity and trans-Arctic shipping;

19 (D) investing in resources, including a sig-  
20 nificantly expanded icebreaker fleet, to ensure  
21 that the United States has adequate capacity to  
22 prevent and respond to security threats in the  
23 Arctic region; and

1 (E) pursuing diplomatic engagements with  
2 all states in the Arctic region to reach an agree-  
3 ment for—

4 (i) maintaining peace and stability in  
5 the Arctic region;

6 (ii) fostering cooperation on steward-  
7 ship and safety initiatives in the Arctic re-  
8 gion;

9 (iii) ensuring safe and efficient man-  
10 agement of commercial maritime traffic in  
11 the Arctic;

12 (iv) promoting responsible natural re-  
13 source management and economic develop-  
14 ment; and

15 (v) countering China's Polar Silk  
16 Road initiative;

17 (vi) examining the possibility of recon-  
18 vening the Arctic Chiefs of Defense  
19 Forum; and

20 (vii) reducing black carbon and meth-  
21 ane emissions in the Arctic Region, includ-  
22 ing by working with observers of the Arctic  
23 Council, including India and the People's  
24 Republic of China, to adopt mitigation  
25 plans consistent with the findings and rec-

1                   ommendations of the Arctic Council's  
2                   Framework for Action on Black Carbon  
3                   and Methane.

4           (b) STATEMENT OF POLICY.—It is the policy of the  
5 United States—

6                   (1) to recognize only the states specified in sub-  
7                   section (c)(1) as Arctic states, and to reject all other  
8                   claims to such status; and

9                   (2) that the militarization of the Arctic poses a  
10                  serious threat to Arctic peace and stability, and the  
11                  interests of United States allies and partners.

12          (c) DEFINITIONS.—In this section:

13                  (1) ARCTIC STATES.—The term “Arctic states”  
14                  means Russia, Canada, the United States, Norway,  
15                  Denmark (including Greenland), Finland, Sweden,  
16                  and Iceland.

17                  (2) ARCTIC REGION.—The term “Arctic Re-  
18                  gion” means the geographic region north of the  
19                  66.56083 parallel latitude north of the equator.

20          (d) DESIGNATION OF AMBASSADOR AT LARGE FOR  
21 ARCTIC AFFAIRS.—There is established within the De-  
22 partment of State an Ambassador at Large for Arctic Af-  
23 fairs (referred to in this section as the “Ambassador”),  
24 appointed in accordance with paragraph (1).

1           (1) APPOINTMENT.—The Ambassador shall be  
2 appointed by the President, by and with the advice  
3 and consent of the Senate.

4           (2) DUTIES.—

5           (A) DIPLOMATIC REPRESENTATION.—Sub-  
6 ject to the direction of the President and the  
7 Secretary of State, the Ambassador is author-  
8 ized to represent the United States in matters  
9 and cases relevant to the Arctic Region in—

10           (i) contacts with foreign governments,  
11           intergovernmental organizations, and spe-  
12           cialized agencies of the United Nations,  
13           the Arctic Council, and other international  
14           organizations of which the United States is  
15           a member; and

16           (ii) multilateral conferences and meet-  
17           ings relating to Arctic affairs.

18           (B) CHAIR OF THE ARCTIC COUNCIL.—The  
19 Ambassador shall serve as the Chair of the Arc-  
20 tic Council when the United States holds the  
21 Chairmanship of the Arctic Council.

22           (3) POLICIES AND PROCEDURES.—The Amba-  
23 sador shall coordinate United States policies related  
24 to the Arctic Region, including—

1 (A) meeting national security, economic,  
2 and commercial needs pertaining to Arctic af-  
3 fairs;

4 (B) protecting the Arctic environment and  
5 conserving its biological resources;

6 (C) promoting environmentally sustainable  
7 natural resource management and economic de-  
8 velopment;

9 (D) strengthening institutions for coopera-  
10 tion among the Arctic states;

11 (E) involving Arctic indigenous people in  
12 decisions that affect them;

13 (F) enhancing scientific monitoring and re-  
14 search on local, regional, and global environ-  
15 mental issues;

16 (G) integrating scientific data on the cur-  
17 rent and projected effects of climate change in  
18 the Arctic Region and ensure that such data is  
19 applied to the development of security strategies  
20 for the Arctic Region;

21 (H) making available the methods and ap-  
22 proaches on the integration of climate science  
23 to other regional security planning programs in  
24 the Department of State to better ensure that  
25 broader decision-making processes may more

1 adequately account for the effects of climate  
2 change; and

3 (I) reducing black carbon and methane  
4 emissions in the Arctic Region.

5 (e) ARCTIC REGION SECURITY POLICY.—The Am-  
6 bassador shall develop a policy, to be known as the “Arctic  
7 Region Security Policy”, to assess, develop, budget for,  
8 and implement plans, policies, and actions—

9 (1) to bolster the diplomatic presence of the  
10 United States in Arctic states, including through en-  
11 hancements to diplomatic missions and facilities,  
12 participation in regional and bilateral dialogues re-  
13 lated to Arctic security, and coordination of United  
14 States initiatives and assistance programs across  
15 agencies to protect the national security of the  
16 United States and its allies and partners;

17 (2) to enhance the resilience capacities of Arctic  
18 states to the effects of environmental change and in-  
19 creased civilian and military activity by Arctic states  
20 and other states that may result from increased ac-  
21 cessibility of the Arctic Region;

22 (3) to assess specific added risks to the Arctic  
23 Region and Arctic states that—

24 (A) are vulnerable to the changing Arctic  
25 environment; and

1           (B) are strategically significant to the  
2           United States;

3           (4) to coordinate the integration of environ-  
4           mental change and national security risk and vulner-  
5           ability assessments into the decision making process  
6           on foreign assistance awards with Greenland;

7           (5) to advance principles of good governance by  
8           encouraging and cooperating with Arctic states on  
9           collaborative approaches—

10           (A) to responsibly manage natural re-  
11           sources in the Arctic Region;

12           (B) to share the burden of ensuring mari-  
13           time safety in the Arctic Region;

14           (C) to prevent the escalation of security  
15           tensions by mitigating against the militarization  
16           of the Arctic Region;

17           (D) to develop mutually agreed upon mul-  
18           tilateral policies among Arctic states on the  
19           management of maritime transit routes through  
20           the Arctic Region and work cooperatively on the  
21           transit policies for access to and transit in the  
22           Arctic Region by non-Arctic states; and

23           (E) to facilitate the development of Arctic  
24           Region Security Action Plans to ensure stability

1 and public safety in disaster situations in a hu-  
2 mane and responsible fashion;

3 (6) to evaluate the vulnerability, security, sur-  
4 vivability, and resiliency of United States interests  
5 and non-defense assets in the Arctic Region; and

6 (7) to reduce black carbon and methane emis-  
7 sions in the Arctic.

8 **SEC. 30286. STATEMENT OF POLICY REGARDING OBSERVER**  
9 **STATUS FOR TAIWAN ON THE ARCTIC COUN-**  
10 **CIL.**

11 It is the policy of the United States to urge that Tai-  
12 wan be given observer status on the Arctic Council.

13 **PART 7—OCEANIA**

14 **SEC. 30291. STATEMENT OF POLICY ON UNITED STATES EN-**  
15 **GAGEMENT IN OCEANIA.**

16 It shall be the policy of the United States—

17 (1) to elevate the countries of Oceania as a  
18 strategic national security and economic priority of  
19 the United States Government;

20 (2) to promote civil society, the rule of law, and  
21 democratic governance across Oceania as part of a  
22 free and open Indo-Pacific region;

23 (3) to broaden and deepen relationships with  
24 the Freely Associated States of the Republic of  
25 Palau, the Republic of the Marshall Islands, and the

1 Federated States of Micronesia through robust de-  
2 fense, diplomatic, economic, and development ex-  
3 changes that promote the goals of individual coun-  
4 tries and the entire region;

5 (4) to work with the Governments of Australia,  
6 New Zealand, and Japan to advance shared alliance  
7 goals of the Oceania region concerning health, envi-  
8 ronmental protection, disaster resilience and pre-  
9 paredness, illegal, unreported and unregulated fish-  
10 ing, maritime security, and economic development;

11 (5) to participate, wherever possible and appro-  
12 priate, in existing regional organizations and inter-  
13 national structures to promote the national security  
14 and economic goals of the United States and coun-  
15 tries of Oceania;

16 (6) to invest in a whole-of-government United  
17 States strategy that will enhance youth engagement  
18 and advance long-term growth and development  
19 throughout the region, especially as such relates to  
20 protecting marine resources that are critical to liveli-  
21 hoods and strengthening the resilience of the coun-  
22 tries of Oceania against current and future threats  
23 resulting from extreme weather and severe changes  
24 in the environment;

1           (7) to deter and combat acts of malign foreign  
2 influence and corruption aimed at undermining the  
3 political, environmental, social, and economic sta-  
4 bility of the people and governments of the countries  
5 of Oceania;

6           (8) to improve the local capacity of the coun-  
7 tries of Oceania to address public health challenges  
8 and improve global health security;

9           (9) to help the countries of Oceania access mar-  
10 ket-based private sector investments that adhere to  
11 best practices regarding transparency, debt sustain-  
12 ability, and environmental and social safeguards as  
13 an alternative to state-directed investments by au-  
14 thoritarian governments;

15           (10) to ensure the people and communities of  
16 Oceania remain safe from the risks of old and de-  
17 grading munitions hazards and other debris that  
18 threaten health and livelihoods;

19           (11) to cooperate with Taiwan by offering  
20 United States support for maintaining Taiwan's dip-  
21 lomatic partners in Oceania; and

22           (12) to work cooperatively with all governments  
23 in Oceania to promote the dignified return of the re-  
24 mains of members of the United States Armed

1 Forces who are missing in action from previous con-  
2 flicts in the Indo-Pacific region.

3 **SEC. 30292. OCEANIA STRATEGIC ROADMAP.**

4 (a) OCEANIA STRATEGIC ROADMAP.—Not later than  
5 180 days after the date of the enactment of this Act, the  
6 Secretary of State shall submit to the appropriate congres-  
7 sional committees a strategic roadmap for strengthening  
8 United States engagement with the countries of Oceania,  
9 including an analysis of opportunities to cooperate with  
10 Australia, New Zealand, and Japan, to address shared  
11 concerns and promote shared goals in pursuit of security  
12 and resiliency in the countries of Oceania.

13 (b) ELEMENTS.—The strategic roadmap required by  
14 subsection (a) shall include the following:

15 (1) A description of United States regional  
16 goals and concerns with respect to Oceania and in-  
17 creasing engagement with the countries of Oceania.

18 (2) An assessment, based on paragraph (1), of  
19 United States regional goals and concerns that are  
20 shared by Australia, New Zealand, and Japan, in-  
21 cluding a review of issues related to anti-corruption  
22 efforts, maritime and other security issues, environ-  
23 mental protection, fisheries management, economic  
24 growth and development, and disaster resilience and  
25 preparedness.

1           (3) A review of ongoing programs and initia-  
2           tives by the Governments of the United States, Aus-  
3           tralia, New Zealand, and Japan in pursuit of shared  
4           regional goals and concerns.

5           (4) A review of ongoing programs and initia-  
6           tives by regional organizations and other related  
7           intergovernmental structures aimed at addressing  
8           shared regional goals and concerns.

9           (5) A plan for aligning United States programs  
10          and resources in pursuit of shared regional goals  
11          and concerns, as appropriate.

12          (6) Recommendations for additional United  
13          States authorities, personnel, programs, or resources  
14          necessary to execute the strategic roadmap.

15          (7) Any other elements the Secretary of State  
16          considers appropriate.

17 **SEC. 30293. OCEANIA SECURITY DIALOGUE.**

18          (a) IN GENERAL.—Not later than one year after the  
19          date of the enactment of this Act, the Secretary of State  
20          shall brief the appropriate committees of Congress on the  
21          feasibility and advisability of establishing a United States-  
22          based public-private sponsored security dialogue (to be  
23          known as the “Oceania Security Dialogue”) among the  
24          countries of Oceania for the purposes of jointly exploring  
25          and discussing issues affecting the economic, diplomatic,

1 and national security of the Indo-Pacific countries of Oce-  
2 ania.

3 (b) REPORT REQUIRED.—The briefing required by  
4 subsection (a) shall, at a minimum, include the following:

5 (1) A review of the ability of the Department  
6 of State to participate in a public-private sponsored  
7 security dialogue.

8 (2) An assessment of the potential locations for  
9 conducting an Oceania Security Dialogue in the ju-  
10 risdiction of the United States.

11 (3) Consideration of dates for conducting an  
12 Oceania Security Dialogue that would maximize par-  
13 ticipation of representatives from the Indo-Pacific  
14 countries of Oceania.

15 (4) A review of the funding modalities available  
16 to the Department of State to help finance an Oce-  
17 ania Security Dialogue, including grant-making au-  
18 thorities available to the Department of State.

19 (5) An assessment of any administrative, statu-  
20 tory, or other legal limitations that would prevent  
21 the establishment of an Oceania Security Dialogue  
22 with participation and support of the Department of  
23 State.

24 (6) An analysis of how an Oceania Security  
25 Dialogue could help to advance the Boe Declaration

1 on Regional Security, including its emphasis on the  
2 changing environment as the greatest existential  
3 threat to countries of Oceania.

4 (7) An evaluation of how an Oceania Security  
5 Dialogue could help amplify the issues and work of  
6 existing regional structures and organizations dedi-  
7 cated to the security of the Oceania region, such as  
8 the Pacific Island Forum and Pacific Environmental  
9 Security Forum.

10 (8) An analysis of how an Oceania Security  
11 Dialogue would help with implementation of the  
12 strategic roadmap required by section 30292 and  
13 advance the National Security Strategy of the  
14 United States.

15 (c) INTERAGENCY CONSULTATION.—To the extent  
16 practicable, the Secretary of State may consult with the  
17 Secretary of Defense and, where appropriate, evaluate the  
18 lessons learned of the Regional Centers for Security Stud-  
19 ies of the Department of Defense to determine the feasi-  
20 bility and advisability of establishing the Oceania Security  
21 Dialogue.

22 **SEC. 30294. OCEANIA PEACE CORPS PARTNERSHIPS.**

23 (a) IN GENERAL.—Not later than one year after the  
24 date of the enactment of this Act, the Director of the  
25 Peace Corps shall submit to the appropriate congressional

1 committees a report on strategies to reasonably and safely  
2 expand the number of Peace Corps volunteers in Oceania,  
3 with the goals of—

4 (1) expanding the presence of the Peace Corps  
5 to all currently feasible locations in Oceania; and

6 (2) working with regional and international  
7 partners of the United States to expand the presence  
8 of Peace Corps volunteers in low-income Oceania  
9 communities in support of climate resilience initia-  
10 tives.

11 (b) ELEMENTS.—The report required by subsection  
12 (a) shall—

13 (1) assess the factors contributing to the cur-  
14 rent absence of the Peace Corps and its volunteers  
15 in Oceania;

16 (2) examine potential remedies that include  
17 working with United States Government agencies  
18 and regional governments, including governments of  
19 United States allies—

20 (A) to increase the health infrastructure  
21 and medical evacuation capabilities of the coun-  
22 tries of Oceania to better support the safety of  
23 Peace Corps volunteers while in such countries;

1 (B) to address physical safety concerns  
2 that have decreased the ability of the Peace  
3 Corps to operate in Oceania; and

4 (C) to increase transportation infrastruc-  
5 ture in the countries of Oceania to better sup-  
6 port the travel of Peace Corps volunteers and  
7 their access to necessary facilities;

8 (3) evaluate the potential to expand the deploy-  
9 ment of Peace Corps Response volunteers to help the  
10 countries of Oceania address social, economic, and  
11 development needs of their communities that require  
12 specific professional expertise; and

13 (4) explore potential new operational models to  
14 address safety and security needs of Peace Corps  
15 volunteers in the countries of Oceania, including—

16 (A) changes to volunteer deployment dura-  
17 tions; and

18 (B) scheduled redeployment of volunteers  
19 to regional or United States-based healthcare  
20 facilities for routine physical and behavioral  
21 health evaluation.

22 (c) VOLUNTEERS IN LOW-INCOME OCEANIA COMMU-  
23 NITIES.—

24 (1) IN GENERAL.—In examining the potential  
25 to expand the presence of Peace Corps volunteers in

1 low-income Oceania communities under subsection  
2 (a)(2), the Director of the Peace Corps shall con-  
3 sider the development of initiatives described in  
4 paragraph (2).

5 (2) INITIATIVES DESCRIBED.—Initiatives de-  
6 scribed in this paragraph are volunteer initiatives  
7 that help the countries of Oceania address social,  
8 economic, and development needs of their commu-  
9 nities, including by—

10 (A) addressing, through appropriate resil-  
11 ience-based interventions, the vulnerability that  
12 communities in Oceania face as result of ex-  
13 treme weather, severe environmental change,  
14 and other climate related trends; and

15 (B) improving, through smart infrastruc-  
16 ture principles, access to transportation and  
17 connectivity infrastructure that will help ad-  
18 dress the economic and social challenges that  
19 communities in Oceania confront as a result of  
20 poor or nonexistent infrastructure.

21 (d) OCEANIA DEFINED.—In this section, the term  
22 “Oceania” includes the following:

- 23 (1) Easter Island of Chile.  
24 (2) Fiji.  
25 (3) French Polynesia of France.

- 1 (4) Kiribati.
- 2 (5) New Caledonia of France.
- 3 (6) Nieu of New Zealand.
- 4 (7) Papua New Guinea.
- 5 (8) Samoa.
- 6 (9) Vanuatu.
- 7 (10) The Ashmore and Cartier Islands of Aus-
- 8 tralia.
- 9 (11) The Cook Islands of New Zealand.
- 10 (12) The Coral Islands of Australia.
- 11 (13) The Federated States of Micronesia.
- 12 (14) The Norfolk Island of Australia.
- 13 (15) The Pitcairn Islands of the United King-
- 14 dom.
- 15 (16) The Republic of the Marshal Islands.
- 16 (17) The Republic of Palau.
- 17 (18) The Solomon Islands.
- 18 (19) Tokelau of New Zealand.
- 19 (20) Tonga.
- 20 (21) Tuvalu.
- 21 (22) Wallis and Futuna of France.

**PART 8—PACIFIC ISLANDS****SEC. 30295. SHORT TITLE.**

This part may be cited as the “Boosting Long-term U.S. Engagement in the Pacific Act” or the “BLUE Pacific Act”.

**SEC. 30296. FINDINGS.**

Congress finds the following:

(1) The Pacific Islands—

(A) are home to roughly 10 million residents, including over 8.6 million in Papua New Guinea, constituting diverse and dynamic cultures and peoples;

(B) are spread across an expanse of the Pacific Ocean equivalent to 15 percent of the Earth’s surface, including the three sub-regions of Melanesia, Micronesia, and Polynesia; and

(C) face shared challenges in development that have distinct local contexts, including climate change and rising sea levels, geographic distances from major markets, and vulnerability to external shocks such as natural disasters.

(2) The United States is a Pacific country with longstanding ties and shared values and interests with the Pacific Islands, including through the Compacts of Free Association with the Freely Associated States, the Republic of the Marshall Islands, the

1 Federated States of Micronesia, and the Republic of  
2 Palau.

3 (3) The United States has vital national secu-  
4 rity interests in the Pacific Islands, including—

5 (A) protecting regional peace and security  
6 that fully respects the sovereignty of all nations;

7 (B) advancing economic prosperity free  
8 from coercion through sustainable development;  
9 and

10 (C) supporting democracy, good govern-  
11 ance, the rule of law, and human rights and  
12 fundamental freedoms.

13 (4) Successive United States administrations  
14 have recognized the importance of the Pacific region,  
15 including the Pacific Islands, in high-level strategic  
16 documents, including the following:

17 (A) The 2015 National Security Strategy,  
18 which first declared the rebalance to Asia and  
19 the Pacific, affirmed the United States as a Pa-  
20 cific nation, and paved the way for subsequent  
21 United States engagement with the Pacific Is-  
22 lands, including several new policies focused on  
23 conservation and resilience to climate change  
24 announced in September 2016.

1           (B) The 2017 National Security Strategy,  
2           which includes a commitment to “shore up  
3           fragile partner states in the Pacific Islands re-  
4           gion to reduce their vulnerability to economic  
5           fluctuations and natural disasters”.

6           (C) The 2019 Indo-Pacific Strategy Re-  
7           port, which identified the Pacific Islands as  
8           “critical to U.S. strategy because of our shared  
9           values, interests, and commitments” and com-  
10          mitted the United States to “building capacity  
11          and resilience to address maritime security; Ille-  
12          gal, Unreported, and Unregulated fishing; drug  
13          trafficking; and resilience to address climate  
14          change and disaster response”.

15          (5) The United States has deepened its diplo-  
16          matic engagement with the Pacific Islands through  
17          several recent initiatives, including—

18               (A) the Pacific Pledge, which provided an  
19               additional \$100,000,000 in 2019 and  
20               \$200,000,000 in 2020, on top of the approxi-  
21               mately \$350,000,000 that the United States  
22               provides annually to the region to support  
23               shared priorities in economic and human devel-  
24               opment, climate change, and more; and

1 (B) the Small and Less Populous Island  
2 Economies (SALPIE) Initiative launched in  
3 March 2021 to strengthen United States col-  
4 laboration with island countries and territories,  
5 including in the Pacific Islands, on COVID–19  
6 economic challenges, long-term economic devel-  
7 opment, climate change, and other shared inter-  
8 ests.

9 (6) The Boe Declaration on Regional Security,  
10 signed by leaders of the Pacific Islands Forum in  
11 2018, affirmed that climate change “remains the  
12 single greatest threat to the livelihoods, security, and  
13 wellbeing of the peoples of the Pacific” and asserted  
14 “the sovereign right of every Member to conduct its  
15 national affairs free of external interference and co-  
16 ercion”.

17 (7) The Asian Development Bank has estimated  
18 that the Pacific Islands region needs upwards of  
19 \$2.8 billion a year in investment needs through  
20 2030, in addition to \$300 million a year for climate  
21 mitigation and adaptation over the same period.

22 (8) The Pacific Islands swiftly enacted effective  
23 policies to prevent and contain the spread of the  
24 Coronavirus Disease 2019 (commonly referred to as  
25 “COVID–19”) pandemic to their populations. The

1 United States has provided over \$130,000,000 in as-  
2 sistance to the Pacific Islands for their COVID–19  
3 response. However, priorities must be met to ensure  
4 continued success in preventing the spread of the  
5 COVID–19 pandemic, achieving swift and wide-  
6 spread vaccinations, and pursuing long-term eco-  
7 nomic recovery in the Pacific Islands, including  
8 through—

9 (A) expanding testing capacity and acquisi-  
10 tion of needed medical supplies, including avail-  
11 able COVID–19 vaccines and supporting vac-  
12 cination efforts, through a reliable supply chain;

13 (B) planning for lifting of lockdowns and  
14 reopening of economic and social activities; and

15 (C) mitigating and recovering from the im-  
16 pacts of the COVID–19 pandemic on the health  
17 system and the reliance on food and energy im-  
18 ports as well as lost tourism revenue and other  
19 economic and food security damages caused by  
20 the pandemic.

21 (9) Since 1966, thousands of Peace Corps vol-  
22 unteers have proudly served in the Pacific Islands,  
23 building strong people-to-people relationships and  
24 demonstrating the United States commitment to  
25 peace and development in the region. Prior to the

1 COVID–19 pandemic, the Peace Corps maintained  
2 presence in four countries of the Pacific Islands.  
3 Peace Corps volunteers continue to be in high de-  
4 mand in the Pacific Islands and have been requested  
5 across the region.

6 **SEC. 30297. STATEMENT OF POLICY.**

7 It is the policy of the United States—

8 (1) to develop and commit to a comprehensive,  
9 multifaceted, and principled United States policy in  
10 the Pacific Islands that—

11 (A) promotes peace, security, and pros-  
12 perity for all countries through a rules-based  
13 regional order that respects the sovereignty and  
14 political independence of all nations;

15 (B) preserves the Pacific Ocean as an open  
16 and vibrant corridor for international maritime  
17 trade and sustainable development that sup-  
18 ports inclusive economic growth and autonomy  
19 for all nations and addresses socioeconomic  
20 challenges related to public health, education,  
21 renewable energy, digital connectivity, and  
22 more;

23 (C) supports regional efforts to address the  
24 challenges posed by climate change, including  
25 by strengthening resilience to natural disasters

1 and through responsible stewardship of natural  
2 resources;

3 (D) improves civil society, strengthens  
4 democratic governance and the rule of law, and  
5 promotes human rights and the preservation of  
6 the region’s unique cultural heritages;

7 (E) assists the Pacific Islands in pre-  
8 venting and containing the spread of the  
9 COVID–19 pandemic and in pursuing long-  
10 term economic recovery; and

11 (F) supports existing regional architecture  
12 and international norms;

13 (2) to support the vision, values, and objectives  
14 of existing regional multilateral institutions and  
15 frameworks, such as the Pacific Islands Forum and  
16 the Pacific Community, including—

17 (A) the 2014 Framework for Pacific Re-  
18 gionalism;

19 (B) the 2018 Boe Declaration on Regional  
20 Security; and

21 (C) the Boe Declaration Action Plan;

22 (3) to extend and renew the provisions of the  
23 Compacts of Free Association and related United  
24 States law that will expire in 2023 for the Republic  
25 of the Marshall Islands and the Federated States of

1 Micronesia and in 2024 for the Republic of Palau  
2 unless they are extended and renewed; and

3 (4) to work closely with United States allies  
4 and partners with existing relationships and inter-  
5 ests in the Pacific Islands, such as Australia, Japan,  
6 New Zealand, and Taiwan, in advancing common  
7 goals.

8 **SEC. 30298. DEFINITION.**

9 In this part, the terms “Pacific Islands” means the  
10 Cook Islands, the Republic of Fiji, the Republic of  
11 Kiribati, the Republic of the Marshall Islands, the Fed-  
12 erated States of Micronesia, the Republic of Nauru, Niue,  
13 the Republic of Palau, the Independent State of Papua  
14 New Guinea, the Independent State of Samoa, the Sol-  
15 omon Islands, the Kingdom of Tonga, Tuvalu, and the Re-  
16 public of Vanuatu.

17 **SEC. 30299. AUTHORITY TO CONSOLIDATE REPORTS; FORM**  
18 **OF REPORTS.**

19 (a) **AUTHORITY TO CONSOLIDATE REPORTS.**—Any  
20 reports required to be submitted to the appropriate con-  
21 gressional committees under this part that are subject to  
22 deadlines for submission consisting of the same units of  
23 time may be consolidated into a single report that is sub-  
24 mitted to the appropriate congressional committees pursu-

1 ant to such deadlines and that contains all information  
2 required under such reports.

3 (b) FORM OF REPORTS.—Each report required by  
4 this part shall be submitted in unclassified form but may  
5 contain a classified annex.

6 **SEC. 30299A. DIPLOMATIC PRESENCE IN THE PACIFIC IS-**  
7 **LANDS.**

8 (a) SENSE OF CONGRESS.—It is the sense of Con-  
9 gress that—

10 (1) the strategic importance of the Pacific Is-  
11 lands necessitates an examination of whether United  
12 States diplomatic, economic, and development en-  
13 gagement and presence in the Pacific Islands region  
14 is sufficient to effectively support United States ob-  
15 jectives and meaningful participation in regional  
16 fora;

17 (2) improving shared understanding of and  
18 jointly combatting the transnational challenges perti-  
19 nent to the Pacific Islands region with countries of  
20 the Pacific Islands and regional partners such as  
21 Australia, New Zealand, Japan, and Taiwan is vi-  
22 tally important to our shared long-term interests of  
23 stability, security, and prosperity;

24 (3) the United States should seek to participate  
25 in and support efforts to coordinate a regional re-

1 sponse toward maritime security, including through  
2 continued United States and Pacific Islands partici-  
3 pation in the Pacific Fusion Centre in Vanuatu and  
4 Information Fusion Centre in Singapore, and robust  
5 cooperation with regional allies and partners; and

6 (4) the United States Government should com-  
7 mit to sending appropriate levels of representation to  
8 regional events.

9 (b) REPORT.—

10 (1) IN GENERAL.—Not later than 180 days  
11 after the date of the enactment of this Act and an-  
12 nually thereafter for five years, the Secretary of  
13 State, in consultation with the Secretary of Com-  
14 merce and the Administrator of the United States  
15 Agency for International Development, shall submit  
16 to the appropriate congressional committees a report  
17 on the diplomatic and development presence of the  
18 United States in the Pacific Islands.

19 (2) ELEMENTS.—The report required by para-  
20 graph (1) shall include the following:

21 (A) A description of the Department of  
22 State, United States Agency for International  
23 Development, United States International De-  
24 velopment Finance Corporation, Millennium  
25 Challenge Corporation, and United States Com-

1           mercial Service presence, staffing, program-  
2           ming, and resourcing of operations in the Pa-  
3           cific Islands, including programming and  
4           resourcing not specifically allocated to the Pa-  
5           cific Islands.

6                   (B) A description of gaps in such presence,  
7           including unfilled full-time equivalent positions.

8                   (C) A description of limitations and chal-  
9           lenges such gaps pose to United States stra-  
10          tegic objectives, including—

11                   (i) gaps in support of the Pacific Is-  
12           lands due to operations being conducted  
13           from the United States Agency for Inter-  
14           national Development offices in Manila and  
15           Suva; and

16                   (ii) gaps in programming and  
17           resourcing.

18                   (D) A strategy to expand and elevate such  
19           presence to fill such gaps, including by estab-  
20           lishing new missions, expanding participation in  
21           regional forums, and elevating United States  
22           representation in regional forums.

23           (e) **AUTHORITY TO ENHANCE DIPLOMATIC AND ECO-**  
24           **NOMIC ENGAGEMENT.**—The Secretary of State and the  
25           Secretary of Commerce are authorized to hire locally em-

1 ployed staff in the Pacific Islands for the purpose of pro-  
2 moting increased diplomatic engagement and economic  
3 and commercial engagement between the United States  
4 and the Pacific Islands.

5 (d) REGIONAL DEVELOPMENT COOPERATION STRAT-  
6 EGY.—Not later than 180 days after the date of the enact-  
7 ment of this Act, and every five years thereafter, the Ad-  
8 ministrator of the United States Agency for International  
9 Development shall submit to the appropriate congressional  
10 committees a regional development cooperation strategy  
11 for the Pacific Islands.

12 **SEC. 30299B. COORDINATION WITH REGIONAL ALLIES AND**  
13 **PARTNERS.**

14 (a) IN GENERAL.—The Secretary of State shall con-  
15 sult and coordinate with regional allies and partners, such  
16 as Australia, Japan, New Zealand, Taiwan, and regional  
17 institutions such as the Pacific Islands Forum and the Pa-  
18 cific Community, with respect to programs to provide as-  
19 sistance to the Pacific Islands, including programs estab-  
20 lished by this Act, including for purposes of—

21 (1) deconflicting programming;

22 (2) ensuring that any programming does not  
23 adversely affect the absorptive capacity of the Pa-  
24 cific Islands; and

1           (3) ensuring complementary programs benefit  
2           the Pacific Islands to the maximum extent prac-  
3           ticable.

4           (b) FORMAL CONSULTATIVE PROCESS.—The Sec-  
5           retary of State shall establish a formal consultative proc-  
6           ess with such regional allies and partners to coordinate  
7           with respect to such programs and future-years program-  
8           ming.

9           (c) REPORT.—Not later than 180 days after the date  
10          of the enactment of this Act and annually thereafter, the  
11          Secretary of State shall submit to the appropriate congres-  
12          sional committees and the Armed Services Committees of  
13          the Senate and the House of Representatives a report that  
14          includes—

15                (1) a review of ongoing efforts, initiatives, and  
16                programs undertaken by regional allies and part-  
17                ners, including multilateral organizations, to advance  
18                priorities identified in this Act;

19                (2) a review of ongoing efforts, initiatives, and  
20                programs undertaken by non-allied foreign actors  
21                that are viewed as being potentially harmful or in  
22                any way detrimental to one or more countries of the  
23                Pacific Islands;

24                (3) an assessment of United States programs in  
25                the Pacific Islands and their alignment and

1 complementarity with the efforts of regional allies  
2 and partners identified in paragraph (1); and

3 (4) a review of the formal consultative process  
4 required in subsection (b) to summarize engage-  
5 ments held and identify opportunities to improve co-  
6 ordination with regional allies and partners.

7 **SEC. 30299C. CLIMATE RESILIENT DEVELOPMENT IN THE**  
8 **PACIFIC ISLANDS.**

9 (a) SENSE OF CONGRESS.—It is the sense of Con-  
10 gress that—

11 (1) the United States Government should lever-  
12 age the full range of authorities and programs avail-  
13 able to assist the Pacific Islands in achieving their  
14 development goals;

15 (2) United States development assistance  
16 should seek to build on existing public and private  
17 sector investments while creating new opportunities  
18 toward a favorable environment for additional such  
19 investments; and

20 (3) United States development efforts should be  
21 coordinated with and seek to build on existing ef-  
22 forts by like-minded partners and allies and regional  
23 and international multilateral organizations.

24 (b) STRATEGY.—The Secretary of State, in coordina-  
25 tion with the Administrator of the United States Agency

1 for International Development, the Secretary of the Treas-  
2 ury, and the Chief Executive Officer of the United States  
3 International Development Finance Corporation, shall de-  
4 velop and implement a strategy to—

5           (1) invest in and improve critical infrastructure,  
6           including transport connectivity, information and  
7           communications technology, food security, coastal  
8           zone management, marine and water resource man-  
9           agement, and energy security and access to elec-  
10          tricity in the Pacific Islands, with an emphasis on  
11          climate resiliency and sustainable development;

12          (2) provide technical assistance to assist local  
13          government and civil society leaders assess risks to  
14          local infrastructure, especially those posed by climate  
15          change, consider and implement risk mitigation ef-  
16          forts and policies to strengthen resilience, and evalu-  
17          ate proposed projects and solutions for their efficacy  
18          and sustainability; and

19          (3) support investment and improvement in eco-  
20          system conservation and protection for the long-term  
21          sustainable use of ecosystem services, especially  
22          those that mitigate effects of climate change and  
23          those that support food security and livelihoods.

24          (c) CONDUCT OF STRATEGY.—The strategy devel-  
25          oped under this section shall be coordinated with like-

1 minded partners and allies, regional and international  
2 multilateral organizations, and regional frameworks for  
3 development in the Pacific Islands.

4 (d) INTERNATIONAL FINANCIAL INSTITUTIONS.—  
5 The Secretary of the Treasury shall direct the representa-  
6 tives of the United States to the World Bank Group, the  
7 International Monetary Fund, and the Asian Development  
8 Bank to use the voice and vote of the United States to  
9 support climate resilient infrastructure projects in the Pa-  
10 cific Islands.

11 (e) REPORT.—

12 (1) IN GENERAL.—Not later than 180 days  
13 after the date of the enactment this Act and annu-  
14 ally thereafter, the Secretary of State shall submit  
15 to the appropriate congressional committees, the  
16 Committee on Natural Resources of the House of  
17 Representatives, and the Committee on Energy and  
18 Natural Resources of the Senate a report on foreign  
19 infrastructure developments in the Pacific Islands.

20 (2) MATTERS TO BE INCLUDED.—The report  
21 required by paragraph (1) shall include—

22 (A) a review of foreign infrastructure de-  
23 velopments in the Pacific Islands by non-United  
24 States allies and partners;

1 (B) assessments of the environmental im-  
2 pact and sustainability of such developments;  
3 and

4 (C) an analysis of the financial sustain-  
5 ability of such developments and their impacts  
6 on the debt of host countries in the Pacific Is-  
7 lands.

8 (f) AUTHORIZATION OF APPROPRIATIONS.—There  
9 are authorized to be appropriated \$50,000,000 for each  
10 of the fiscal years 2022 through 2026 to carry out this  
11 section.

12 **SEC. 30299D. INTERNATIONAL LAW ENFORCEMENT ACAD-**  
13 **EMY FOR THE PACIFIC ISLANDS.**

14 (a) IN GENERAL.—The Secretary of State shall de-  
15 velop and implement a plan to expand coverage of the  
16 International Law Enforcement Academies (ILEA) pro-  
17 gram for the Pacific Islands, including by—

18 (1) expanding coverage of the regional program  
19 located in Bangkok, Thailand, to the Pacific Islands;  
20 or

21 (2) establishing a new regional program for the  
22 Pacific Islands.

23 (b) MATTERS TO BE INCLUDED.—The plan required  
24 by subsection (a) shall include consultation and coordina-  
25 tion with existing regional law enforcement entities, in-

1 cluding the Pacific Islands Chiefs of Police and civil soci-  
2 ety, including those focused on human rights and special-  
3 izing in victim-centered approaches, and take into consid-  
4 eration costs of implementation, effectiveness, and capac-  
5 ity of the Pacific Islands to participate in the ILEA pro-  
6 gram.

7 (c) BRIEFING REQUIRED.—Not later than 180 days  
8 after the date of the enactment of this Act, the Secretary  
9 of State shall provide the appropriate congressional com-  
10 mittees a briefing on the plan developed under this section.

11 **SEC. 30299E. SECURITY ASSISTANCE FOR THE PACIFIC IS-**  
12 **LANDS.**

13 (a) STRATEGY.—

14 (1) IN GENERAL.—The Secretary of State, with  
15 the concurrence of the Secretary of Defense and in  
16 coordination with the Secretary of Homeland Secu-  
17 rity, shall develop and implement a comprehensive  
18 strategy to provide assistance to and build the ca-  
19 pacity of local civilian and national security institu-  
20 tions of the Pacific Islands for purposes of—

21 (A) enhancing maritime security and mari-  
22 time domain awareness to address challenges  
23 such as illegal, unreported, and unregulated  
24 fishing;

1 (B) assisting local law enforcement in de-  
2 tecting, preventing, and combatting human and  
3 drug trafficking and other forms of  
4 transnational crime;

5 (C) participating in efforts by regional in-  
6 stitutions and frameworks to coordinate and fa-  
7 cilitate cooperation on shared security chal-  
8 lenges; and

9 (D) expanding information sharing and to  
10 work toward operational coordination and inter-  
11 operability among Pacific Island maritime secu-  
12 rity forces, including through regional fusion  
13 centers.

14 (2) PROGRAMS AND AUTHORITIES DE-  
15 SCRIBED.—The strategy required by this subsection  
16 shall build on but not be limited to the following  
17 programs and authorities:

18 (A) The International Military Education  
19 and Training program.

20 (B) The Foreign Military Financing pro-  
21 gram.

22 (C) The authority to build the capacity of  
23 foreign security forces under section 333 of title  
24 10, United States Code.

1           (D) The authority to provide excess de-  
2           fense articles under section 516 of the Foreign  
3           Assistance Act of 1961 (22 U.S.C. 2321j).

4           (E) The Department of Defense State  
5           Partnership Program.

6           (3) NATIONAL POLICE FORCES AND COAST  
7           GUARDS.—The national police forces and coast  
8           guards of the Pacific Islands are eligible to receive  
9           assistance under the programs and authorities de-  
10          scribed in paragraph (2) (other than the programs  
11          and authorities described in subparagraphs (A), (D),  
12          and (F) of paragraph (2)) for purposes of the strat-  
13          egy required by this subsection.

14          (b) MATTERS TO BE INCLUDED.—The strategy re-  
15          quired by subsection (a) shall seek to preserve peace and  
16          regional stability in the Pacific Islands and take into con-  
17          sideration and seek to build upon but not duplicate exist-  
18          ing assistance provided by United States allies and part-  
19          ners.

20          (c) REPORT.—

21                 (1) IN GENERAL.—Not later than 180 days  
22                 after the date of the enactment of this Act, the Sec-  
23                 retary shall submit to the appropriate congressional  
24                 committees a report that contains the strategy devel-  
25                 oped under this section.

1           (2) MATTERS TO BE INCLUDED.—The report  
2 required by paragraph (1) shall include—

3           (A) an assessment of security challenges to  
4 the Pacific Islands;

5           (B) an analysis of demonstrated needs of  
6 the Pacific Islands for assistance;

7           (C) a review of existing security assistance  
8 programs in the Pacific Islands, including pro-  
9 grams and efforts provided by United States al-  
10 lies and partners;

11           (D) a plan for programs for training,  
12 equipping, and sustainment, including excess  
13 defense equipment and related materials;

14           (E) a list of militaries, national police  
15 forces, coast guards, and other national security  
16 forces of the Pacific Islands receiving assistance  
17 under the strategy;

18           (F) a review of existing cross-border mari-  
19 time law enforcement operations (commonly  
20 known as “shiprider agreements”) with the Pa-  
21 cific Islands, an assessment of additional  
22 resourcing needs to enhance operational capac-  
23 ity, and a plan to improve on these programs  
24 and operations;

1 (G) a review of existing Department of De-  
2 fense State Partnership Programs with the Pa-  
3 cific Islands and an assessment of additional  
4 opportunities to leverage Department of De-  
5 fense State Partnership Programs to address  
6 national security, law enforcement, disaster re-  
7 lief and emergency management, and related  
8 priorities;

9 (H) a review of current efforts and  
10 progress in removing unexploded ordnance in  
11 the Pacific Islands and an assessment of addi-  
12 tional resourcing needed to ensure continued  
13 progress, including to support coordination with  
14 regional efforts and those of United States al-  
15 lies and partners;

16 (I) a review of existing regional fusion cen-  
17 ters and other cooperative intelligence sharing  
18 efforts in the Pacific Islands to address mari-  
19 time security, transnational crime, natural dis-  
20 asters, and other security challenges and an as-  
21 sessment of opportunities for the United States  
22 to participate in such efforts, including by allo-  
23 cating staff and supplying resourcing;

24 (J) measures to evaluate success for the  
25 strategy;

1 (K) a detailed assessment of appropria-  
2 tions required to achieve the objectives for the  
3 strategy in future years; and

4 (L) an analysis of national security threats  
5 posed to the Pacific Islands by climate change.

6 (3) APPROPRIATE CONGRESSIONAL COMMIT-  
7 TEES DEFINED.—In this subsection, the term “ap-  
8 propriate congressional committees” means—

9 (A) the Committee on Foreign Affairs, the  
10 Committee on Armed Services, and the Com-  
11 mittee on Transportation and Infrastructure of  
12 the House of Representatives; and

13 (B) the Committee on Foreign Relations,  
14 the Committee on Armed Services, and the  
15 Committee on Commerce, Science, and Trans-  
16 portation of the Senate.

17 **SEC. 30299F. COUNTERING TRANSNATIONAL CRIME.**

18 (a) RATIFICATION OF INTERNATIONAL LEGAL IN-  
19 STRUMENTS.—

20 (1) IN GENERAL.—The Secretary of State shall  
21 prioritize efforts to assist the Pacific Islands in rati-  
22 fying and implementing international legal conven-  
23 tions related to transnational crime, such as—

1 (A) the Convention on International Trade  
2 in Endangered Species of Wildlife Fauna and  
3 Flora;

4 (B) the Agreement on Port State Meas-  
5 ures; and

6 (C) relevant protocols supplementing the  
7 United Nations Convention Against  
8 Transnational Organized Crime, such as—

9 (i) the Protocol to Prevent, Suppress,  
10 and Punish Trafficking in Person, Espe-  
11 cially Women and Children; and

12 (ii) the Protocol Against the Smug-  
13 gling of Migrants by Land, Sea, and Air.

14 (2) BIENNIAL REPORT.—Not later than 180  
15 days after the date of the enactment of this Act and  
16 every two years thereafter as appropriate, the Sec-  
17 retary of State shall submit to the appropriate con-  
18 gressional committees a report on—

19 (A) the status of the progress of each  
20 country of the Pacific Islands toward ratifying  
21 and implementing international legal conven-  
22 tions related to transnational crime; and

23 (B) United States plans for assisting those  
24 countries that have yet to fully ratify such con-

1           ventions with their respective ratification ef-  
2           forts.

3           (b) UPDATES OF CERTAIN REPORTS.—The Secretary  
4 of State, in coordination with other Federal agencies as  
5 appropriate, shall identify and update existing reports to  
6 include forms of transnational crime affecting the Pacific  
7 Islands, such as—

8           (1) the International Narcotics Control Strat-  
9           egy report;

10           (2) the Improving International Fisheries Man-  
11           agement report; and

12           (3) the Trafficking in Persons report.

13           (c) ILLEGAL LOGGING AND ASSOCIATED TRADE.—

14           (1) IN GENERAL.—Not later than 180 days  
15 after the date of the enactment of this Act and an-  
16 nually thereafter, the Secretary of State, in coordi-  
17 nation with the heads of relevant Federal agencies,  
18 shall submit to appropriate congressional committees  
19 a report that identifies countries of the Pacific Is-  
20 lands that are countries of concern with respect to  
21 illegal logging and associated trade.

22           (2) ELEMENTS.—The report required by para-  
23           graph (1) shall include the following:

24                   (A) A description of the impact illegal log-  
25                   ging and associated trade have had on local

1 communities, good governance, and biodiversity,  
2 including an identification of those foreign  
3 countries that may be financing or in any other  
4 manner supporting illegal logging activities.

5 (B) A description of efforts taken by coun-  
6 tries identified under paragraph (1) to comply  
7 and take appropriate corrective action to miti-  
8 gate illegal logging, and an evaluation of the  
9 progress of those efforts.

10 (C) A description of steps taken by the  
11 heads of relevant Federal agencies to assist the  
12 Pacific Islands in adopting and implementing  
13 international measures comparable to those of  
14 the United States, such as the Lacey Act, to re-  
15 duce impacts of illicit logging.

16 (3) APPROPRIATE CONGRESSIONAL COMMIT-  
17 TEES DEFINED.—In this subsection, the term “ap-  
18 propriate congressional committees” means—

19 (A) the Committee on Foreign Affairs and  
20 the Committee on Ways and Means of the  
21 House of Representatives; and

22 (B) the Committee on Foreign Relations  
23 and the Committee on Finance of the Senate.

24 (d) ILLEGAL, UNREPORTED, AND UNREGULATED  
25 FISHING.—Section 3553 of the National Defense Author-

1 ization Act for Fiscal Year 2020 (16 U.S.C. 8033) is  
2 amended—

3 (1) in paragraph (7), by striking “and” at the  
4 end;

5 (2) by redesignating paragraph (8) as para-  
6 graph (9); and

7 (3) by inserting after paragraph (7) (as amend-  
8 ed) the following:

9 “(8) an assessment of gaps or limitations in the  
10 ability of the United States to effectively assist pri-  
11 ority regions and priority flag states relating to IUU  
12 fishing due to resource constraints and the addi-  
13 tional resources necessary to overcome those con-  
14 straints; and”.

15 **SEC. 30299G. EMERGENCY PREPAREDNESS INITIATIVE FOR**  
16 **THE PACIFIC ISLANDS.**

17 (a) IN GENERAL.—The Administrator of the United  
18 States Agency for International Development shall develop  
19 and implement an initiative to assist the Pacific Islands  
20 in enhancing their preparedness for and resilience to nat-  
21 ural disasters and other emergencies.

22 (b) CONDUCT OF PROGRAM.—The program devel-  
23 oped under this section shall include—

24 (1) education and training programs on natural  
25 disaster prevention and preparedness for emergency

1 management professionals in the Pacific Islands, in-  
2 cluding by leveraging the expertise of nonprofit orga-  
3 nizations and institutions of higher education in the  
4 United States;

5 (2) technical assistance, including through  
6 grants and cooperative agreements for qualified  
7 United States and local nongovernmental organiza-  
8 tions, to enhance early warning systems, emergency  
9 management and preparedness procedures, and post-  
10 disaster relief and recovery; and

11 (3) coordination of existing disaster mitigation  
12 and response plans in the region, including by  
13 United States allies and partners in the region.

14 (c) REPORT.—

15 (1) IN GENERAL.—Not later than one year  
16 after the date of the enactment of this Act, the Ad-  
17 ministrator shall submit to the appropriate congres-  
18 sional committees a report on the program developed  
19 under this section.

20 (2) MATTERS TO BE INCLUDED.—The report  
21 required by paragraph (1) shall include—

22 (A) an assessment of disaster risks in the  
23 Pacific Islands and existing local and regional  
24 capacity to respond to such risks;

1 (B) a review of existing efforts by United  
2 States allies and partners to provide assistance  
3 and training for natural disaster preparedness  
4 and emergency management; and

5 (C) objectives, means of implementation,  
6 and measures of success for the initiative.

7 (3) APPROPRIATE CONGRESSIONAL COMMIT-  
8 TEES DEFINED.—In this subsection, the term “ap-  
9 propriate congressional committees” means—

10 (A) the Committee on Foreign Affairs and  
11 the Committee on Natural Resources of the  
12 House of Representatives; and

13 (B) the Committee on Foreign Relations  
14 and the Committee on Energy and Natural Re-  
15 sources of the Senate.

16 (d) AUTHORIZATION OF APPROPRIATIONS.—There  
17 are authorized to be appropriated \$40,000,000 for each  
18 of the fiscal years 2022 through 2026 to carry out this  
19 section.

20 **SEC. 30299H. PEACE CORPS IN THE PACIFIC ISLANDS.**

21 (a) SENSE OF CONGRESS.—It is the sense of Con-  
22 gress that—

23 (1) the presence of the Peace Corps in the Pa-  
24 cific Islands should be expanded and the Peace  
25 Corps should reopen its programs in as many of the

1 Pacific Islands as possible, including where it has  
2 previously operated but has suspended operations;

3 (2) consulting like-minded regional allies and  
4 partners, such as Australia, New Zealand, Japan,  
5 and Taiwan is crucial for identifying and overcoming  
6 challenges for increased Peace Corps presence in the  
7 Pacific Islands;

8 (3) the Peace Corps, whose mission is to pro-  
9 mote world peace and friendship in part by helping  
10 the people of interested countries in meeting their  
11 need for trained men and women, provides an in-  
12 valuable opportunity to connect the American people  
13 with the people of the Republic of the Marshall Is-  
14 lands, the Federated States of Micronesia, and the  
15 Republic of Palau; and

16 (4) the Peace Corps should promptly reopen its  
17 programs in the Republic of the Marshall Islands,  
18 the Federated States of Micronesia, and the Repub-  
19 lic of Palau.

20 (b) REPORT.—Not later than 180 days after the date  
21 of the enactment of this Act, the Director of the Peace  
22 Corps shall submit to the appropriate congressional com-  
23 mittees a report that includes—

24 (1) a comparative analysis of the Peace Corps  
25 presence in the Pacific Islands region to other re-

1 regions of the world, including a cost-benefit analysis  
2 of placement in the region versus elsewhere globally;

3 (2) analysis of current impediments to Peace  
4 Corps expansion in the Pacific Islands region;

5 (3) outcomes of consultations among United  
6 States agencies, and with regional allies and part-  
7 ners, on areas in which cooperation can reduce fac-  
8 tors limiting Peace Corps expansion, particularly  
9 those related to medical transportation and personal  
10 safety; and

11 (4) a plan and timeline for implementing out-  
12 comes identified in paragraph (3) to facilitate expan-  
13 sion of Peace Corps presence in the region, where  
14 appropriate.

15 **SEC. 30299I. PACIFIC ISLANDS LEADERSHIP DEVELOPMENT**  
16 **INITIATIVE.**

17 (a) SENSE OF CONGRESS.—It is the sense of Con-  
18 gress that routinized people-to-people exchange programs  
19 to bring Pacific Islands religious leaders, journalists, civil  
20 society members, politicians, and others to the United  
21 States strengthens existing relationships and advances  
22 United States interests and shared values in the region.

23 (b) IN GENERAL.—The Secretary of State shall de-  
24 velop and implement a program to promote educational  
25 and professional development for young adult leaders and

1 professionals in the Pacific Islands with a demonstrated  
2 passion to contribute to the continued development of the  
3 Pacific Islands.

4 (c) CONDUCT OF PROGRAM.—The program developed  
5 under this section shall be implemented on a routine basis  
6 and may be carried out through—

7 (1) grants provided on a competitive basis to  
8 qualified organizations with demonstrated expertise  
9 relating to the Pacific Islands;

10 (2) grants in amounts not to exceed \$50,000  
11 provided on a competitive basis to qualified young  
12 leaders from the Pacific Islands for the purpose of  
13 carrying out projects dedicated to the improvement  
14 of their communities in the Pacific Islands;

15 (3) regional workshops and professional and  
16 academic fellowships; and

17 (4) people-to-people exchanges.

18 (d) REPORT.—

19 (1) IN GENERAL.—Not later than 180 days  
20 after the date of the enactment of this Act, the Sec-  
21 retary of State, acting through the Assistant Sec-  
22 retary of State for Educational and Cultural Affairs,  
23 shall submit to the appropriate congressional com-  
24 mittees a report on exchange programs for the Pa-  
25 cific Islands region.

1           (2) ELEMENTS.—The report required by para-  
2 graph (1) shall include—

3           (A) an assessment of factors constraining  
4 the number and frequency of International Vis-  
5 itor Leadership Program participants from  
6 countries of the Pacific Islands;

7           (B) an identification of resources that are  
8 necessary to address the factors described in  
9 subparagraph (A); and

10          (C) a strategy for connecting alumni and  
11 participants of the Department of State’s pro-  
12 fessional development exchange programs in  
13 East Asia, such as the Young Southeast Asian  
14 Leaders Initiative (YSEALI) and the Young  
15 Pacific Leaders programs, to enhance inter and  
16 intra region people-to-people ties.

17          (e) AUTHORIZATION OF APPROPRIATIONS.—There  
18 are authorized to be appropriated \$10,000,000 for each  
19 of the fiscal years 2022 through 2026 to carry out this  
20 section.

1     **TITLE III—INVESTING IN OUR**  
2                     **VALUES**

3     **SEC. 30301. SENSE OF CONGRESS ON THE CONTINUED VIO-**  
4                     **LATION OF RIGHTS AND FREEDOMS OF THE**  
5                     **PEOPLE OF HONG KONG.**

6             (a) FINDINGS.—Congress finds the following:

7                     (1) Despite international condemnation, the  
8             Government of the People’s Republic of China  
9             (“PRC”) continues to disregard its international  
10            legal obligations under the Joint Declaration of the  
11            Government of the United Kingdom of Great Britain  
12            and Northern Ireland and the Government of the  
13            People’s Republic of China on the Question of Hong  
14            Kong (“Joint Declaration”), in which the PRC com-  
15            mitted that—

16                     (A) Hong Kong would enjoy a high degree  
17             of autonomy;

18                     (B) for at least 50 years the “social and  
19             economic systems in Hong Kong” would remain  
20             unchanged; and

21                     (C) the personal rights and freedoms of  
22             the people of Hong Kong would be protected by  
23             law.

24                     (2) As part of its continued efforts to under-  
25             mine the established rights of the Hong Kong peo-

1 ple, the PRC National People’s Congress Standing  
2 Committee (“Standing Committee”) passed and im-  
3 posed upon Hong Kong oppressive and intentionally  
4 vague national security legislation on June 30, 2020,  
5 that grants Beijing sweeping powers to punish acts  
6 of “separating the country, subverting state power,  
7 and organizing terroristic activities”.

8 (3) The legislative process by which the Stand-  
9 ing Committee imposed the national security law on  
10 Hong Kong bypassed Hong Kong’s local government  
11 in a potential violation of the Basic Law of the  
12 Hong Kong Special Administrative Region of the  
13 People’s Republic of China (“Basic Law”), and in-  
14 volved unusual secrecy, as demonstrated by the fact  
15 that the legislation was only the second law since  
16 2008 that the Standing Committee has passed with-  
17 out releasing a draft for public comment.

18 (4) On July 30, 2020, election officials of the  
19 Hong Kong Special Administrative Region  
20 (HKSAR) disqualified twelve pro-democracy can-  
21 didates from participating in the September 6 Legis-  
22 lative Council elections, which were subsequently  
23 postponed for a year until September 5, 2021, by  
24 citing the public health risk of holding elections dur-  
25 ing the COVID–19 pandemic.

1           (5) On July 31, 2020, in an attempt to assert  
2 extraterritorial jurisdiction, the HKSAR Govern-  
3 ment announced indictments of and arrest warrants  
4 for six Hong Kong activists living overseas, includ-  
5 ing United States citizen Samuel Chu, for alleged  
6 violations of the national security law.

7           (6) On November 11, 2020, the HKSAR Gov-  
8 ernment removed four lawmakers from office for al-  
9 legedly violating the law after the Standing Com-  
10 mittee passed additional legislation barring those  
11 who promoted or supported Hong Kong independ-  
12 ence and refused to acknowledge PRC sovereignty  
13 over Hong Kong, or otherwise violates the national  
14 security law, from running for or serving in the Leg-  
15 islative Council.

16           (7) On December 2, 2020, pro-democracy activ-  
17 ists Joshua Wong, Agnes Chow, and Ivan Lam were  
18 sentenced to prison for participating in 2019 pro-  
19 tests.

20           (8) Ten of the twelve Hong Kong residents  
21 (also known as “the Hong Kong 12”) who sought to  
22 flee by boat from Hong Kong to Taiwan on August  
23 23, 2020, were taken to mainland China and sen-  
24 tenced on December 30, 2020, to prison terms rang-

1       ing from seven months to three years for illegal bor-  
2       der crossing.

3           (9) On December 31, 2020, Hong Kong’s high-  
4       est court revoked bail for Jimmy Lai Chee-Ying, a  
5       pro-democracy figure and publisher, who was  
6       charged on December 12 with colluding with foreign  
7       forces and endangering national security under the  
8       national security legislation.

9           (10) On January 4, 2021, the Departments of  
10      Justice in Henan and Sichuan province threatened  
11      to revoke the licenses of two lawyers hired to help  
12      the Hong Kong 12.

13          (11) On January 5, 2021, the Hong Kong Po-  
14      lice Force arrested more than fifty opposition fig-  
15      ures, including pro-democracy officials, activists, and  
16      an American lawyer, for their involvement in an in-  
17      formal July 2020 primary to select candidates for  
18      the general election originally scheduled for Sep-  
19      tember 2020, despite other political parties having  
20      held similar primaries without retribution.

21          (12) On April 22, 2021, a Hong Kong court  
22      convicted Choy Yuk-ling, a video producer with  
23      Radio Television Hong Kong, in relation to her in-  
24      vestigative reporting on the Hong Kong police.

1           (13) On June 24, 2021, Apple Daily, Hong  
2           Kong’s only surviving pro-democracy newspaper,  
3           published its final edition following months of intimi-  
4           dation and repression by the HKSAR Government,  
5           including through the arrest of its senior editors, po-  
6           lice raids on its offices, and the freezing of its finan-  
7           cial assets.

8           (b) STATEMENT OF CONGRESS.—Congress—

9           (1) condemns the actions taken by the Govern-  
10          ment of the People’s Republic of China (“PRC”)  
11          and the Government of the Hong Kong Special Ad-  
12          ministrative Region (“HKSAR”), including the  
13          adoption and implementation of national security  
14          legislation for Hong Kong through irregular proce-  
15          dures, that violate the rights and freedoms of the  
16          people of Hong Kong that are guaranteed by the  
17          Joint Declaration and its implementing document,  
18          the Basic Law;

19          (2) reaffirms its support for the people of Hong  
20          Kong, who face grave threats to their rights and  
21          freedoms;

22          (3) calls on the Governments of the PRC and  
23          HKSAR to—

24                 (A) respect and uphold—

1 (i) commitments made to the inter-  
2 national community and the people of  
3 Hong Kong under the Joint Declaration;  
4 and

5 (ii) the judicial independence of the  
6 Hong Kong legal system; and

7 (B) release pro-democracy activists and  
8 politicians arrested under the national security  
9 law; and

10 (4) encourages the President, the Secretary of  
11 State, and the Secretary of the Treasury to coordi-  
12 nate with allies and partners and continue United  
13 States efforts to respond to developments in Hong  
14 Kong, including by—

15 (A) providing protection for Hong Kong  
16 residents who fear persecution;

17 (B) supporting those who may seek to file  
18 a case before the International Court of Justice  
19 to hold the Government of the PRC accountable  
20 for violating its binding legal commitments  
21 under the Joint Declaration;

22 (C) encouraging allies and partner coun-  
23 tries to instruct, as appropriate, their respective  
24 representatives to the United Nations to use  
25 their voice, vote, and influence to press for the

1 appointment of a United Nations special man-  
2 date holder to monitor and report on human  
3 rights developments in Hong Kong;

4 (D) ensuring the private sector, particu-  
5 larly United States companies with economic in-  
6 terests in Hong Kong, is aware of risks the na-  
7 tional security legislation poses to the security  
8 of United States citizens and to the medium  
9 and long-term interest of United States busi-  
10 nesses in Hong Kong;

11 (E) continuing to implement sanctions au-  
12 thorities, especially authorities recently enacted  
13 to address actions undermining the rights and  
14 freedoms of the Hong Kong people, such as the  
15 Hong Kong Autonomy Act (Public Law 116–  
16 149) and the Hong Kong Human Rights and  
17 Democracy Act of 2019 (Public Law 116–76),  
18 with respect to officials of the Chinese Com-  
19 munist Party, the Government of the PRC, or  
20 the Government of the HKSAR who are respon-  
21 sible for undermining such rights and freedoms;  
22 and

23 (F) coordinating with allies and partners  
24 to ensure that such implementation of sanctions  
25 is multilateral.

1 **SEC. 30302. AUTHORIZATION OF APPROPRIATIONS FOR**  
2 **PROMOTION OF DEMOCRACY IN HONG KONG.**

3 (a) AUTHORIZATION OF APPROPRIATIONS.—There is  
4 authorized to be appropriated \$10,000,000 for fiscal year  
5 2022 for the Bureau of Democracy, Human Rights, and  
6 Labor of the Department of State to promote democracy  
7 in Hong Kong.

8 (b) ADMINISTRATION.—The Secretary of State shall  
9 designate an office with the Department of State to ad-  
10 minister and coordinate the provision of such funds de-  
11 scribed in subsection (a) within the Department of State  
12 and across the United States Government.

13 **SEC. 30303. HONG KONG PEOPLE'S FREEDOM AND CHOICE.**

14 (a) DEFINITIONS.—For purposes of this section:

15 (1) JOINT DECLARATION.—The term “Joint  
16 Declaration” means the Joint Declaration of the  
17 Government of the United Kingdom of Great Britain  
18 and Northern Ireland and the Government of the  
19 People’s Republic of China on the Question of Hong  
20 Kong, signed on December 19, 1984, and entered  
21 into force on May 27, 1985.

22 (2) PRIORITY HONG KONG RESIDENT.—The  
23 term “Priority Hong Kong resident” means—

24 (A) a permanent resident of Hong Kong  
25 who—

1 (i) holds no right to citizenship in any  
2 country or jurisdiction other than the Peo-  
3 ple’s Republic of China (referred to in this  
4 section as the “PRC”), Hong Kong, or  
5 Macau as of the date of enactment of this  
6 Act;

7 (ii) has resided in Hong Kong for not  
8 less than the last ten years as of the date  
9 of enactment of this Act; and

10 (iii) has been designated by the Sec-  
11 retary of State or Secretary of Homeland  
12 Security as having met the requirements of  
13 this subparagraph, in accordance with the  
14 procedures described in subsection (f) of  
15 this section; or

16 (B) the spouse of a person described in  
17 subparagraph (A), or the child of such person  
18 as such term is defined in section 101(b)(1) of  
19 the Immigration and Nationality Act (8 U.S.C.  
20 1101(b)(1)), except that a child shall be an un-  
21 married person under twenty-seven years of  
22 age.

23 (3) HONG KONG NATIONAL SECURITY LAW.—  
24 The term “Hong Kong National Security Law”  
25 means the Law of the People’s Republic of China on

1 Safeguarding National Security in the Hong Kong  
2 Special Administrative Region that was passed  
3 unanimously by the National People’s Congress and  
4 signed by President Xi Jinping on June 30, 2020,  
5 and promulgated in the Hong Kong Special Admin-  
6 istrative Region (referred to in this section as  
7 “Hong Kong SAR”) on July 1, 2020.

8 (4) APPROPRIATE CONGRESSIONAL COMMIT-  
9 TEES.—The term “appropriate congressional com-  
10 mittees” means—

11 (A) the Committee on Foreign Affairs and  
12 the Committee on the Judiciary of the House of  
13 Representatives; and

14 (B) the Committee on Foreign Relations  
15 and the Committee on the Judiciary of the Sen-  
16 ate.

17 (b) FINDINGS.—Congress finds the following:

18 (1) The Hong Kong National Security Law pro-  
19 mulgated on July 1, 2020—

20 (A) contravenes the Basic Law of the  
21 Hong Kong Special Administrative Region (re-  
22 ferred to in this Act as “the Basic Law”) that  
23 provides in Article 23 that the Legislative  
24 Council of Hong Kong shall enact legislation re-  
25 lated to national security;

1 (B) violates the PRC's commitments under  
2 international law, as defined by the Joint Dec-  
3 laration; and

4 (C) causes severe and irreparable damage  
5 to the "one country, two systems" principle and  
6 further erodes global confidence in the PRC's  
7 commitment to international law.

8 (2) On July 14, 2020, in response to the pro-  
9 mulgation of the Hong Kong National Security Law,  
10 President Trump signed an Executive order on  
11 Hong Kong normalization that, among other policy  
12 actions, suspended the special treatment of Hong  
13 Kong persons under U.S. law with respect to the  
14 issuance of immigrant and nonimmigrant visas.

15 (3) The United States has a long and proud  
16 history as a destination for refugees and asylees flee-  
17 ing persecution based on race, religion, nationality,  
18 political opinion, or membership in a particular so-  
19 cial group.

20 (4) The United States also shares deep social,  
21 cultural, and economic ties with the people of Hong  
22 Kong, including a shared commitment to democracy,  
23 to the rule of law, and to the protection of human  
24 rights.

1           (5) The United States has sheltered, protected,  
2           and welcomed individuals who have fled authori-  
3           tarian regimes, including citizens from the PRC fol-  
4           lowing the violent June 4, 1989, crackdown in  
5           Tiananmen Square, deepening ties between the peo-  
6           ple of the United States and those individuals seek-  
7           ing to contribute to a free, open society founded on  
8           democracy, human rights, and the respect for the  
9           rule of law.

10           (6) The United States has reaped enormous  
11           economic, cultural, and strategic benefits from wel-  
12           coming successive generations of scientists, doctors,  
13           entrepreneurs, artists, intellectuals, and other free-  
14           dom-loving people fleeing fascism, communism, vio-  
15           lent Islamist extremism, and other repressive  
16           ideologies, including in the cases of Nazi Germany,  
17           the Soviet Union, and Soviet-controlled Central Eu-  
18           rope, Cuba, Vietnam, and Iran.

19           (7) A major asymmetric advantage of the  
20           United States in its long-term strategic competition  
21           with the Communist Party of China is the ability of  
22           people from every country in the world, irrespective  
23           of their race, ethnicity, or religion, to immigrate to  
24           the United States and become American citizens.

1 (c) STATEMENT OF POLICY.—It is the policy of the  
2 United States—

3 (1) to reaffirm the principles and objectives set  
4 forth in the United States-Hong Kong Policy Act of  
5 1992 (Public Law 102–383), specifically that—

6 (A) the United States has “a strong inter-  
7 est in the continued vitality, prosperity, and  
8 stability of Hong Kong”;

9 (B) “support for democratization is a fun-  
10 damental principle of United States foreign pol-  
11 icy”, and therefore “naturally applies to United  
12 States policy toward Hong Kong”;

13 (C) “the human rights of the people of  
14 Hong Kong are of great importance to the  
15 United States and are directly relevant to  
16 United States interests in Hong Kong and  
17 serve as a basis for Hong Kong’s continued eco-  
18 nomic prosperity”; and

19 (D) Hong Kong must remain sufficiently  
20 autonomous from the PRC to “justify treat-  
21 ment under a particular law of the United  
22 States, or any provision thereof, different from  
23 that accorded the People’s Republic of China”;

1           (2) to continue to support the high degree of  
2           autonomy and fundamental rights and freedoms of  
3           the people of Hong Kong, as enumerated by—

4                   (A) the Joint Declaration;

5                   (B) the International Covenant on Civil  
6                   and Political Rights, done at New York, De-  
7                   cember 19, 1966; and

8                   (C) the Universal Declaration of Human  
9                   Rights, done at Paris, December 10, 1948;

10           (3) to continue to support the democratic aspi-  
11           rations of the people of Hong Kong, including the  
12           “ultimate aim” of the selection of the Chief Execu-  
13           tive and all members of the Legislative Council by  
14           universal suffrage, as articulated in the Basic Law;

15           (4) to urge the Government of the PRC, despite  
16           its recent actions, to uphold its commitments to  
17           Hong Kong, including allowing the people of Hong  
18           Kong to govern Hong Kong with a high degree of  
19           autonomy and without undue interference, and en-  
20           suring that Hong Kong voters freely enjoy the right  
21           to elect the Chief Executive and all members of the  
22           Hong Kong Legislative Council by universal suf-  
23           frage;

24           (5) to support the establishment of a genuine  
25           democratic option to freely and fairly nominate and

1 elect the Chief Executive of Hong Kong, and the es-  
2 tablishment of open and direct democratic elections  
3 for all members of the Hong Kong Legislative Coun-  
4 cil;

5 (6) to support the robust exercise by residents  
6 of Hong Kong of the rights to free speech, the press,  
7 and other fundamental freedoms, as provided by the  
8 Basic Law, the Joint Declaration, and the Inter-  
9 national Covenant on Civil and Political Rights;

10 (7) to support freedom from arbitrary or unlaw-  
11 ful arrest, detention, or imprisonment for all Hong  
12 Kong residents, as provided by the Basic Law, the  
13 Joint Declaration, and the International Covenant  
14 on Civil and Political Rights;

15 (8) to draw international attention to any viola-  
16 tions by the Government of the PRC of the funda-  
17 mental rights of the people of Hong Kong, as pro-  
18 vided by the International Covenant on Civil and Po-  
19 litical Rights, and any encroachment upon the au-  
20 tonomy guaranteed to Hong Kong by the Basic Law  
21 and the Joint Declaration;

22 (9) to protect United States citizens and long-  
23 term permanent residents living in Hong Kong, as  
24 well as people visiting and transiting through Hong  
25 Kong;

1           (10) to maintain the economic and cultural ties  
2 that provide significant benefits to both the United  
3 States and Hong Kong, including the reinstatement  
4 of the Fulbright exchange program with regard to  
5 Hong Kong at the earliest opportunity;

6           (11) to coordinate with allies, including the  
7 United Kingdom, Australia, Canada, Japan, and the  
8 Republic of Korea, to promote democracy and  
9 human rights in Hong Kong; and

10          (12) to welcome and protect in the United  
11 States residents of Hong Kong fleeing persecution or  
12 otherwise seeking a safe haven from violations by  
13 the Government of the PRC of the fundamental  
14 rights of the people of Hong Kong.

15          (d) TEMPORARY PROTECTED STATUS FOR HONG  
16 KONG RESIDENTS IN THE UNITED STATES.—

17           (1) DESIGNATION.—

18           (A) IN GENERAL.—For purposes of section  
19 244 of the Immigration and Nationality Act (8  
20 U.S.C. 1254a), Hong Kong shall be treated as  
21 if it had been designated under subsection  
22 (b)(1)(C) of such section, subject to the provi-  
23 sions of this section.

24           (B) PERIOD OF DESIGNATION.—The initial  
25 period of the designation referred to in sub-

1 paragraph (A) shall be for the 18-month period  
2 beginning on the date of enactment of this Act.

3 (2) ALIENS ELIGIBLE.—As a result of the des-  
4 ignation made under subsection (a), an alien is  
5 deemed to satisfy the requirements under paragraph  
6 (1) of section 244(c) of the Immigration and Nation-  
7 ality Act (8 U.S.C. 1254a(c)), subject to paragraph  
8 (3) of such section, if the alien—

9 (A) was a permanent resident of Hong  
10 Kong at the time such individual arrived into  
11 the United States and is a national of the PRC  
12 (or in the case of an individual having no na-  
13 tionality, is a person who last habitually resided  
14 in Hong Kong);

15 (B) has been continuously physically  
16 present in the United States since the date of  
17 the enactment of this Act;

18 (C) is admissible as an immigrant, except  
19 as otherwise provided in paragraph (2)(A) of  
20 such section, and is not ineligible for temporary  
21 protected status under paragraph (2)(B) of  
22 such section; and

23 (D) registers for temporary protected sta-  
24 tus in a manner established by the Secretary of  
25 Homeland Security.

1 (3) CONSENT TO TRAVEL ABROAD.—

2 (A) IN GENERAL.—The Secretary of  
3 Homeland Security shall give prior consent to  
4 travel abroad, in accordance with section  
5 244(f)(3) of the Immigration and Nationality  
6 Act (8 U.S.C. 1254a(f)(3)), to an alien who is  
7 granted temporary protected status pursuant to  
8 the designation made under paragraph (1) if  
9 the alien establishes to the satisfaction of the  
10 Secretary of Homeland Security that emergency  
11 and extenuating circumstances beyond the con-  
12 trol of the alien require the alien to depart for  
13 a brief, temporary trip abroad.

14 (B) TREATMENT UPON RETURN.—An alien  
15 returning to the United States in accordance  
16 with an authorization described in subpara-  
17 graph (A) shall be treated as any other return-  
18 ing alien provided temporary protected status  
19 under section 244 of the Immigration and Na-  
20 tionality Act (8 U.S.C. 1254a).

21 (e) TREATMENT OF HONG KONG RESIDENTS FOR  
22 IMMIGRATION PURPOSES.—Notwithstanding any other  
23 provision of law, during the five fiscal year period begin-  
24 ning on the first day of the first full fiscal year after the  
25 date of enactment of this Act, Hong Kong shall continue

1 to be considered a foreign state separate and apart from  
2 the PRC as mandated under section 103 of the Immigra-  
3 tion and Nationality Act of 1990 (Public Law 101–649)  
4 for purposes of the numerical limitations on immigrant  
5 visas under sections 201, 202, and 203 of the Immigration  
6 and Nationality Act (8 U.S.C. 1151, 1152, and 1153).

7 (f) VERIFICATION OF PRIORITY HONG KONG RESI-  
8 DENTS.—

9 (1) IN GENERAL.—Not later than 180 days  
10 after the date of the enactment of this Act, the Sec-  
11 retary of State, in consultation with the Secretary of  
12 Homeland Security, shall publish in the Federal  
13 Register, an interim final rule establishing proce-  
14 dures for designation of Priority Hong Kong Resi-  
15 dents. Notwithstanding section 553 of title 5, United  
16 States Code, the rule shall be effective, on an in-  
17 terim basis, immediately upon publication, but may  
18 be subject to change and revision after public notice  
19 and opportunity for comment. The Secretary of  
20 State shall finalize such rule not later than one year  
21 after the date of the enactment of this Act. Such  
22 rule shall establish procedures—

23 (A) for individuals to register with any  
24 United States embassy or consulate outside of  
25 the United States, or with the Department of

1 Homeland Security in the United States, and  
2 request designation as a Priority Hong Kong  
3 Resident; and

4 (B) for the appropriate Secretary to verify  
5 the residency of registered individuals and des-  
6 ignate those who qualify as Priority Hong Kong  
7 Residents.

8 (2) DOCUMENTATION.—The procedures de-  
9 scribed in paragraph (1) shall include the collection  
10 of—

11 (A) biometric data;

12 (B) copies of birth certificates, residency  
13 cards, and other documentation establishing  
14 residency; and

15 (C) other personal information, data, and  
16 records deemed appropriate by the Secretary.

17 (3) GUIDANCE.—Not later than 90 days after  
18 the date of the enactment of this Act, the Secretary  
19 of State shall issue guidance outlining actions to en-  
20 hance the ability of the Secretary to efficiently send  
21 and receive information to and from the United  
22 Kingdom and other like-minded allies and partners  
23 for purposes of rapid verification of permanent resi-  
24 dency in Hong Kong and designation of individuals  
25 as Priority Hong Kong Residents.

1           (4) REPORT.—Not later than 90 days after the  
2           date of the enactment of this Act, the Secretary of  
3           State shall submit to the appropriate congressional  
4           committees, the Committee on the Judiciary of the  
5           House of Representatives, and the Committee on the  
6           Judiciary of the Senate a report detailing plans to  
7           implement the requirements described in this sub-  
8           section.

9           (5) PROTECTION FOR REFUGEES.—Nothing in  
10          this section may be construed to prevent a Priority  
11          Hong Kong Resident from seeking refugee status  
12          under section 207 of the Immigration and Nation-  
13          ality Act (8 U.S.C. 1157) or requesting asylum  
14          under section 208 of such Act (8 U.S.C. 1158).

15          (g) REPORTING REQUIREMENTS.—

16               (1) IN GENERAL.—On an annual basis, the Sec-  
17               retary of State and the Secretary of Homeland Secu-  
18               rity, in consultation with other Federal agencies, as  
19               appropriate, shall submit to the appropriate congress-  
20               sional committees, the Committee on the Judiciary  
21               of the House of Representatives, and the Committee  
22               on the Judiciary of the Senate a report detailing for  
23               the previous fiscal year—

24                       (A) the number of Hong Kong SAR resi-  
25                       dents who have applied for United States visas

1 or immigration benefits, disaggregated by visa  
2 type or immigration benefit, including asylum,  
3 refugee status, temporary protected status, and  
4 lawful permanent residence;

5 (B) the number of approvals, denials, or  
6 rejections of applicants for visas or immigration  
7 benefits described in subparagraph (A),  
8 disaggregated by visa type or immigration ben-  
9 efit and basis for denial;

10 (C) the number of pending refugee and  
11 asylum applications for Hong Kong SAR resi-  
12 dents, and the length of time and reason for  
13 which such applications have been pending; and

14 (D) other matters determined relevant by  
15 the Secretaries relating to efforts to protect and  
16 facilitate the resettlement of refugees and vic-  
17 tims of persecution in Hong Kong.

18 (2) FORM.—Each report under paragraph (1)  
19 shall be submitted in unclassified form and pub-  
20 lished on a text-searchable, publicly available website  
21 of the Department of State and the Department of  
22 Homeland Security.

23 (h) STRATEGY FOR INTERNATIONAL COOPERATION  
24 ON HONG KONG.—

1           (1) IN GENERAL.—It is the policy of the United  
2 States—

3           (A) to support the people of Hong Kong by  
4 providing safe haven to Hong Kong SAR resi-  
5 dents who are nationals of the PRC following  
6 the enactment of the Hong Kong National Se-  
7 curity Law that places certain Hong Kong per-  
8 sons at risk of persecution; and

9           (B) to encourage like-minded nations to  
10 make similar accommodations for Hong Kong  
11 people fleeing persecution by the Government of  
12 the PRC.

13           (2) PLAN.—The Secretary of State, in consulta-  
14 tion with the heads of other Federal agencies, as ap-  
15 propriate, shall develop a plan to engage with other  
16 countries, including the United Kingdom, on cooper-  
17 ative efforts to—

18           (A) provide refugee and asylum protections  
19 for victims of, and individuals with a fear of,  
20 persecution in Hong Kong, either by Hong  
21 Kong authorities or other authorities acting on  
22 behalf of the PRC;

23           (B) enhance protocols to facilitate the re-  
24 settlement of refugees and displaced persons  
25 from Hong Kong;

1 (C) identify and prevent the exploitation of  
2 immigration and visa policies and procedures by  
3 corrupt officials; and

4 (D) expedite the sharing of information, as  
5 appropriate, related to the refusal of individual  
6 applications for visas or other travel documents  
7 submitted by residents of the Hong Kong SAR  
8 based on—

9 (i) national security or related  
10 grounds under section 212(a)(3) of the Im-  
11 migration and Nationality Act (8 U.S.C.  
12 1182(a)(3)); or

13 (ii) fraud or misrepresentation under  
14 section 212(a)(6)(C) of the Immigration  
15 and Nationality Act (8 U.S.C.  
16 1182(a)(6)(C)).

17 (3) REPORT.—Not later than 90 days after the  
18 date of the enactment of this Act, the Secretary of  
19 State, in consultation with the heads of other Fed-  
20 eral agencies, as appropriate, shall submit to the ap-  
21 propriate congressional committees, the Committee  
22 on the Judiciary of the House of Representatives,  
23 and the Committee on the Judiciary of the Senate  
24 a report on the plan described in paragraph (2).

1 (i) REFUGEE STATUS FOR CERTAIN RESIDENTS OF  
2 HONG KONG.—

3 (1) IN GENERAL.—Aliens described in para-  
4 graph (2) may establish, for purposes of admission  
5 as a refugee under sections 207 of the Immigration  
6 and Nationality Act (8 U.S.C. 1157) or asylum  
7 under section 208 of such Act (8 U.S.C. 1158), that  
8 such alien has a well-founded fear of persecution on  
9 account of race, religion, nationality, membership in  
10 a particular social group, or political opinion by as-  
11 serting such a fear and a credible basis for concern  
12 about the possibility of such persecution.

13 (2) ALIENS DESCRIBED.—

14 (A) IN GENERAL.—An alien is described in  
15 this subsection if such alien—

16 (i) is a Priority Hong Kong Resident  
17 and—

18 (I) had a significant role in a  
19 civil society organization supportive of  
20 the protests in 2019 and 2020 related  
21 to the Hong Kong National Security  
22 Law and the encroachment on the au-  
23 tonomy of Hong Kong by the PRC;

24 (II) was arrested, charged, de-  
25 tained, or convicted of an offense aris-

1           ing from their participation in an ac-  
2           tion as described in section 206(b)(2)  
3           of the United States-Hong Kong Pol-  
4           icy Act of 1992 (22 U.S.C.  
5           5726(b)(2)) that was not violent in  
6           nature; or

7                   (III) has had their citizenship,  
8           nationality, or residency revoked for  
9           having submitted to any United  
10          States Government agency a nonfrivo-  
11          lous application for refugee status,  
12          asylum, or any other immigration ben-  
13          efit under the immigration laws (as  
14          defined in section 101(a) of the Immi-  
15          gration and Nationality Act (8 U.S.C.  
16          1101(a)));

17                   (ii) is a Priority Hong Kong Resident  
18          spouse or child of an alien described in  
19          clause (i); or

20                   (iii) is the parent of an alien described  
21          in clause (i), if such parent is a citizen of  
22          the PRC and no other foreign state.

23           (B) OTHER CATEGORIES.—The Secretary  
24          of Homeland Security, in consultation with the  
25          Secretary of State, may designate other cat-

1 egories of aliens for purposes of establishing a  
2 well-founded fear of persecution under para-  
3 graph (1) if such aliens share common charac-  
4 teristics that identify them as targets of perse-  
5 cution in the PRC on account of race, religion,  
6 nationality, membership in a particular social  
7 group, or political opinion.

8 (C) SIGNIFICANT ROLE.—For purposes of  
9 subclause (I) of paragraph (2)(A)(i), a signifi-  
10 cant role shall include, with respect to the pro-  
11 tests described in such clause—

12 (i) an organizing role;

13 (ii) a first aid responder;

14 (iii) a journalist or member of the  
15 media covering or offering public com-  
16 mentary;

17 (iv) a provider of legal services to one  
18 or more individuals arrested for partici-  
19 pating in such protests; or

20 (v) a participant who during the pe-  
21 riod beginning on June 9, 2019, and end-  
22 ing on June 30, 2020, was arrested,  
23 charged, detained, or convicted as a result  
24 of such participation.

1           (3) AGE OUT PROTECTIONS.—For purposes of  
2 this subsection, a determination of whether an alien  
3 is a child shall be made using the age of the alien  
4 on the date an application for refugee or asylum sta-  
5 tus in which the alien is a named beneficiary is filed  
6 with the Secretary of Homeland Security.

7           (4) EXCLUSION FROM NUMERICAL LIMITA-  
8 TIONS.—Aliens provided refugee status under this  
9 subsection shall not be counted against the numer-  
10 ical limitation on refugees established in accordance  
11 with the procedures described in section 207 of the  
12 Immigration and Nationality Act (8 U.S.C. 1157).

13           (5) REPORTING REQUIREMENTS.—

14           (A) IN GENERAL.—Not later than 90 days  
15 after the date of the enactment of this Act and  
16 every 90 days thereafter, the Secretary of State  
17 and the Secretary of Homeland Security shall  
18 submit to the appropriate congressional com-  
19 mittees, the Committee on the Judiciary of the  
20 House of Representatives, and the Committee  
21 on the Judiciary of the Senate a report on the  
22 matters described in subparagraph (B).

23           (B) MATTERS TO BE INCLUDED.—Each  
24 report required by subparagraph (A) shall in-

1           clude, with respect to applications submitted  
2           under this section—

3                   (i) the total number of refugee and  
4                   asylum applications that are pending at  
5                   the end of the reporting period;

6                   (ii) the average wait-times for all ap-  
7                   plicants for refugee status or asylum pend-  
8                   ing—

9                           (I) a prescreening interview with  
10                           a resettlement support center;

11                           (II) an interview with United  
12                           States Citizenship and Immigration  
13                           Services; and

14                           (III) the completion of security  
15                           checks;

16                   (iii) the number of approvals, referrals  
17                   including the source of the referral, denials  
18                   of applications for refugee status or asy-  
19                   lum, disaggregated by the reason for each  
20                   such denial; and

21                   (iv) the number of refugee circuit  
22                   rides to interview populations that would  
23                   include Hong Kong SAR completed in the  
24                   last 90 days, and the number planned for  
25                   the subsequent 90-day period.

1 (C) FORM.—Each report required by sub-  
2 paragraph (A) shall be submitted in unclassi-  
3 fied form, but may include a classified annex.

4 (D) PUBLIC REPORTS.—The Secretary of  
5 State shall make each report submitted under  
6 this paragraph available to the public on the  
7 internet website of the Department of State.

8 (j) ADMISSION FOR CERTAIN HIGHLY SKILLED  
9 HONG KONG RESIDENTS.—

10 (1) IN GENERAL.—Subject to subsection (c),  
11 the Secretary of Homeland Security, or, notwith-  
12 standing any other provision of law, the Secretary of  
13 State in consultation with the Secretary of Home-  
14 land Security, may provide an alien described in sub-  
15 section (b) with the status of a special immigrant  
16 under section 101(a)(27) of the Immigration and  
17 Nationality Act (8 U.S.C. 1101(a)(27)), if the  
18 alien—

19 (A) or an agent acting on behalf of the  
20 alien, submits a petition for classification under  
21 section 203(b)(4) of such Act (8 U.S.C.  
22 1153(b)(4));

23 (B) is otherwise eligible to receive an im-  
24 migrant visa;

1 (C) is otherwise admissible to the United  
2 States for permanent residence (excluding the  
3 grounds for inadmissibility specified in section  
4 212(a)(4) of such Act (8 U.S.C. (a)(4))); and

5 (D) clears a background check and appro-  
6 priate screening, as determined by the Sec-  
7 retary of Homeland Security.

8 (2) ALIENS DESCRIBED.—

9 (A) PRINCIPAL ALIENS.—An alien is de-  
10 scribed in this subsection if—

11 (i) the alien—

12 (I) is a Priority Hong Kong Resi-  
13 dent; and

14 (II) has earned a bachelor's or  
15 higher degree from an institution of  
16 higher education; and

17 (ii) the Secretary of Homeland Secu-  
18 rity determines that such alien's relocation  
19 to the United States would provide a sig-  
20 nificant benefit to the United States.

21 (B) SPOUSES AND CHILDREN.—An alien is  
22 described in this subsection if the alien is the  
23 spouse or child of a principal alien described in  
24 paragraph (1).

25 (3) NUMERICAL LIMITATIONS.—

1           (A) IN GENERAL.—The total number of  
2           principal aliens who may be provided special  
3           immigrant status under this section may not  
4           exceed 5,000 per year for each of the five fiscal  
5           years beginning after the date of the enactment  
6           of this Act. The Secretary of Homeland Secu-  
7           rity may, in consultation with the Secretary of  
8           State, prioritize the issuance of visas to individ-  
9           uals with a bachelor’s or higher degree in  
10          science, technology, engineering, mathematics,  
11          medicine, or health care.

12          (B) EXCLUSION FROM NUMERICAL LIMITA-  
13          TIONS.—Aliens provided immigrant status  
14          under this section shall not be counted against  
15          any numerical limitation under section 201,  
16          202, 203, or 207 of the Immigration and Na-  
17          tionality Act (8 U.S.C. 1151, 1152, 1153, and  
18          1157).

19          (4) ELIGIBILITY FOR ADMISSION UNDER OTHER  
20          CLASSIFICATION.—No alien shall be denied the op-  
21          portunity to apply for admission under this section  
22          solely because such alien qualifies as an immediate  
23          relative or is eligible for any other immigrant classi-  
24          fication.

1           (5) TIMELINE FOR PROCESSING APPLICA-  
2 TIONS.—

3           (A) IN GENERAL.—The Secretary of State  
4 and the Secretary of Homeland Security shall  
5 ensure that all steps under the control of the  
6 United States Government incidental to the ap-  
7 proval of such applications, including required  
8 screenings and background checks, are com-  
9 pleted not later than one year after the date on  
10 which an eligible applicant submits an applica-  
11 tion under subsection (a).

12           (B) EXCEPTION.—Notwithstanding para-  
13 graph (1), the relevant Federal agencies may  
14 take additional time to process applications de-  
15 scribed in paragraph (1) if satisfaction of na-  
16 tional security concerns requires such additional  
17 time, provided that the Secretary of Homeland  
18 Security, or the designee of the Secretary, has  
19 determined that the applicant meets the re-  
20 quirements for status as a special immigrant  
21 under this section and has so notified the appli-  
22 cant.

23           (k) TERMINATION.—Except as provided in section  
24 30300(f) of this Act, this section shall cease to have effect

1 on the date that is five years after the date of the enact-  
2 ment of this Act.

3 **SEC. 30304. EXPORT PROHIBITION OF MUNITIONS ITEMS TO**  
4 **THE HONG KONG POLICE FORCE.**

5 Section 3 of the Act entitled “An Act to prohibit the  
6 commercial export of covered munitions items to the Hong  
7 Kong Police Force”, approved November 27, 2019 (Public  
8 Law 116–77; 133 Stat. 1173), is amended by striking “on  
9 December 31, 2021.” and inserting the following: “on the  
10 date on which the President certifies to the appropriate  
11 congressional committees that—

12 “(1) the Secretary of State has, on or after the  
13 date of the enactment of this paragraph, certified  
14 under section 205 of the United States-Hong Kong  
15 Policy Act of 1992 that Hong Kong warrants treat-  
16 ment under United States law in the same manner  
17 as United States laws were applied to Hong Kong  
18 before July 1, 1997;

19 “(2) the Hong Kong Police have not engaged in  
20 gross violations of human rights during the 1-year  
21 period ending on the date of such certification; and

22 “(3) there has been an independent examina-  
23 tion of human rights concerns related to the crowd  
24 control tactics of the Hong Kong Police and the  
25 Government of the Hong Kong Special Administra-

1       tive Region has adequately addressed those con-  
2       cerns.”.

3 **SEC. 30305. SENSE OF CONGRESS ON TREATMENT OF**  
4                   **UYGHURS AND OTHER ETHNIC MINORITIES**  
5                   **IN THE XINJIANG UYGHUR AUTONOMOUS RE-**  
6                   **GION.**

7       (a) FINDINGS.—Congress makes the following find-  
8       ings:

9               (1) The Uyghurs are one of several predomi-  
10              nantly Muslim Turkic groups living in the Xinjiang  
11              Uyghur Autonomous Region (XUAR) in the north-  
12              west of the People’s Republic of China (PRC).

13             (2) Following Uyghur demonstrations and un-  
14             rest in 2009 and clashes with government security  
15             personnel and other violent incidents in subsequent  
16             years, PRC leaders sought to “stabilize” the XUAR  
17             through large-scale arrests and extreme security  
18             measures, under the pretext of combatting alleged  
19             terrorism, religious extremism, and ethnic sepa-  
20             ratism.

21             (3) In May 2014, the PRC launched its “Strike  
22             Hard Against Violent Extremism” campaign, which  
23             placed further restrictions on and facilitated addi-  
24             tional human rights violations against minorities in  
25             the XUAR under the pretext of fighting terrorism.

1           (4) In August 2016, Chinese Communist Party  
2           (CCP) Politburo member Chen Quanguo, former  
3           Tibet Autonomous Region (TAR) Party Secretary,  
4           known for overseeing intensifying security operations  
5           and human rights abuses in the TAR, was appointed  
6           as Party Secretary of the XUAR.

7           (5) Beginning in 2017, XUAR authorities have  
8           sought to forcibly “assimilate” Uyghurs and other  
9           Turkic minorities into Chinese society through a pol-  
10          icy of cultural erasure known as “Sinicization”.

11          (6) Since 2018, credible reporting including  
12          from the BBC, France24, and the New York Times  
13          has shown that the Government of the PRC has  
14          built mass internment camps in the XUAR, which it  
15          calls “vocational training” centers, and detained  
16          Uyghurs and other groups in them and other facili-  
17          ties.

18          (7) Since 2015, XUAR authorities have arbi-  
19          trarily detained an estimated 1,500,000 Uyghurs—  
20          12.5 percent of the XUAR’s official Uyghur popu-  
21          lation of 12,000,000—and a smaller number of  
22          other ethnic minorities in the “vocational training”  
23          centers and other detention and pre-detention facili-  
24          ties.

1           (8) In 2017, the XUAR accounted for less than  
2           two percent of the PRC's total population but 21  
3           percent of all arrests in China.

4           (9) The Atlantic, Radio Free Asia, and other  
5           sources have revealed that detainees are forced to re-  
6           nounce many of their Islamic beliefs and customs  
7           and repudiate Uyghur culture, language, and iden-  
8           tity.

9           (10) Investigations by Human Rights Watch  
10          and other human rights organizations have docu-  
11          mented how detainees are subject to political indoc-  
12          trination, forced labor, crowded and unsanitary con-  
13          ditions, involuntary biometric data collection, both  
14          medical neglect and intrusive medical interventions,  
15          food and water deprivation, beatings, sexual violence,  
16          and torture.

17          (11) Research by the Australian Strategic Pol-  
18          icy Institute suggests that, since late 2019, many  
19          detainees have been placed in higher security facili-  
20          ties and convicted of formal crimes.

21          (12) Human Rights Watch has reported that  
22          the PRC uses data collection programs, including fa-  
23          cial recognition technology, to surveil Uyghurs in the  
24          XUAR and to identify individuals whom authorities  
25          may detain.

1           (13) PRC authorities have placed countless  
2 children whose parents are detained or in exile in  
3 state-run institutions and boarding schools without  
4 the consent of their parents.

5           (14) New York Times reporting revealed that  
6 numerous local PRC officials who did not agree with  
7 the policies carried out in XUAR have been fired  
8 and imprisoned.

9           (15) Associated Press reporting documented  
10 widespread and systemic efforts by PRC authorities  
11 to force Uyghur women to take contraceptives or to  
12 subject them to sterilization or abortion, threatening  
13 to detain those who do not comply.

14           (16) PRC authorities prohibit family members  
15 and advocates inside and outside China from having  
16 regular communications with relatives and friends  
17 imprisoned in the XUAR, such as journalist and en-  
18 trepreneur Ekpar Asat.

19           (17) PRC authorities have imposed pervasive  
20 restrictions on the peaceful practice of Islam in the  
21 XUAR, to the extent that Human Rights Watch as-  
22 serts the PRC “has effectively outlawed the practice  
23 of Islam”.

24           (18) Individuals who are not detained in camps  
25 have been forced to attend political indoctrination

1 sessions, subjected to movement restrictions, mass  
2 surveillance systems, involuntary biometric data col-  
3 lection, and other human rights abuses.

4 (19) International media, nongovernmental or-  
5 ganizations, scholars, families, and survivors have  
6 reported on the systemic nature of many of these  
7 abuses.

8 (20) On June 26, 2020, a group of 50 inde-  
9 pendent United Nations experts jointly expressed  
10 alarm over China’s deteriorating human rights  
11 record, including its repression in Xinjiang, and  
12 called on the international community “to act collec-  
13 tively and decisively to ensure China respects human  
14 rights and abides by its international obligations”.

15 (21) On October 6, 2020, 39 United Nations  
16 member countries issued a public statement con-  
17 demning human rights violations by PRC authorities  
18 and calling on the PRC to allow the United Nations  
19 High Commissioner for Human Rights unfettered  
20 access to Xinjiang.

21 (22) The United States Congress passed the  
22 Uyghur Human Rights Policy Act of 2020 (Public  
23 Law 116–145).

24 (23) The United States Congress passed the  
25 Global Magnitsky Human Rights Accountability Act

1 (subtitle F of title XII of Public Law 114–328; 22  
2 U.S.C. 2656 note), which has been used to sanction  
3 PRC officials and entities for their activities in the  
4 XUAR.

5 (24) The United States Government has imple-  
6 mented additional targeted restrictions on trade with  
7 Xinjiang and imposed visa and economic sanctions  
8 on PRC officials and entities for their activities in  
9 the XUAR.

10 (25) The United States Government has docu-  
11 mented human rights abuses and violations of indi-  
12 vidual freedoms in the XUAR, including in the 2019  
13 Department of State Report on International Reli-  
14 gious Freedom.

15 (26) On January 19, 2021, during his con-  
16 firmation hearing, Secretary of State Antony  
17 Blinken testified that “forcing men, women, and  
18 children into concentration camps, trying to in effect  
19 reeducate them to be adherents to the Chinese Com-  
20 munist Party—all of that speaks to an effort to  
21 commit genocide”.

22 (27) On January 19, 2021, Secretary of the  
23 Treasury Janet L. Yellen, during her confirmation  
24 hearing, publicly stated that China is guilty of “hor-  
25 rendous human rights abuses”.

1           (28) On January 27, 2021, in response to a  
2 question from the press regarding the Uyghurs, Sec-  
3 retary Blinken stated that his “judgement remains  
4 that genocide was committed against the Uyghurs”.

5           (29) On March 10, 2021, in response to a ques-  
6 tion on Xinjiang during his testimony before the  
7 Committee on Foreign Affairs of the House of Rep-  
8 resentatives, Secretary Blinken reiterated, “We’ve  
9 been clear, and I’ve been clear, that I see it as geno-  
10 cide, other egregious abuses of human rights, and  
11 we’ll continue to make that clear.”.

12           (30) The 2020 Department of State Country  
13 Reports on Human Rights Practices: China states  
14 that “[g]enocide and crimes against humanity oc-  
15 curred during the year against the predominantly  
16 Muslim Uyghurs and other ethnic and religious mi-  
17 nority groups in Xinjiang”.

18           (b) SENSE OF CONGRESS.—It is the sense of Con-  
19 gress that—

20           (1) the atrocities committed by the PRC  
21 against Uyghurs and other predominantly Muslim  
22 Turkic groups in Xinjiang, including forced labor,  
23 sexual violence, the internment of over 1,000,000 in-  
24 dividuals, and other horrific abuses must be con-  
25 demned;

1           (2) the President, the Secretary of State, and  
2           the United States Ambassador to the United Na-  
3           tions should speak publicly about the ongoing  
4           human rights abuses in the XUAR, including in for-  
5           mal speeches at the United Nations and other inter-  
6           national fora;

7           (3) the President, the Secretary of State, and  
8           the United States Ambassador to the United Na-  
9           tions should appeal to the United Nations Secretary-  
10          General to take a more proactive and public stance  
11          on the situation in the XUAR, including by sup-  
12          porting calls for an investigation and accountability  
13          for individuals and entities involved in abuses  
14          against the people of the XUAR;

15          (4) the United States should continue to use  
16          targeted sanctions and all diplomatic tools available  
17          to hold those responsible for the atrocities in  
18          Xinjiang to account;

19          (5) United States agencies engaged with China  
20          on trade, climate, defense, or other bilateral issues  
21          should include human rights abuses in the XUAR as  
22          a consideration in developing United States policy;

23          (6) the United States supports Radio Free Asia  
24          Uyghur, the only Uyghur-language news service in

1 the world independent of Chinese government influ-  
2 ence; and

3 (7) the United States recognizes the repeated  
4 requests from the United Nations High Commis-  
5 sioner for Human Rights for unfettered access to  
6 the XUAR and the PRC's refusal to comply, and  
7 therefore—

8 (A) PRC authorities must allow unfettered  
9 access by the United Nations Office of the High  
10 Commissioner for Human Rights to the XUAR;

11 (B) the United States should urge collabo-  
12 rative action between the United States Govern-  
13 ment and international partners to pressure  
14 PRC authorities to allow unfettered access to  
15 the XUAR;

16 (C) the President, the Secretary of State,  
17 and the United States Ambassador to the  
18 United Nations should simultaneously outline a  
19 strategy to investigate the human rights abuses  
20 and crimes that have taken place in the XUAR,  
21 collect evidence, and transfer the evidence to a  
22 competent court; and

23 (D) United States partners and allies  
24 should undertake similar strategies in an effort  
25 to build an international investigation outside of

1           the PRC if PRC authorities do not comply with  
2           a United Nations investigation in the XUAR.

3 **SEC. 30306. UYGHUR HUMAN RIGHTS PROTECTION.**

4           (a) **SHORT TITLE.**—This section may be cited as the  
5 “Uyghur Human Rights Protection Act”.

6           (b) **FINDINGS.**—Congress makes the following find-  
7 ings:

8           (1) The Government of the People’s Republic of  
9           China (PRC) has a long history of repressing Turkic  
10           Muslims and other Muslim minority groups, particu-  
11           larly Uyghurs, in the Xinjiang Uyghur Autonomous  
12           Region (commonly referred to as “Xinjiang” or  
13           “XUAR”), also known as East Turkestan. Central  
14           and regional PRC government policies have system-  
15           atically discriminated against these minority groups  
16           by denying them a range of civil and political rights,  
17           particularly freedom of religion. Senior Chinese  
18           Communist Party (CCP) officials bear direct respon-  
19           sibility for these gross human rights violations.

20           (2) PRC government abuses include the arbi-  
21           trary detention of more than 1,000,000 Uyghurs,  
22           ethnic Kazakhs, Kyrgyz, and members of other Mus-  
23           lim minority groups, separation of working age  
24           adults from their children and elderly parents, and  
25           the integration of forced labor into supply chains.

1 Those held in detention facilities and internment  
2 camps in the XUAR have described forced political  
3 indoctrination, torture, beatings, food deprivation,  
4 sexual assault, coordinated campaigns to reduce  
5 birth rates among Uyghurs and other Turkic Mus-  
6 lims through forced sterilization, and denial of reli-  
7 gious, cultural, and linguistic freedoms. Recent  
8 media reports indicate that since 2019, the PRC  
9 government has newly constructed, expanded, or for-  
10 tified at least 60 detention facilities with higher se-  
11 curity or prison-like features in Xinjiang.

12 (3) The PRC government's actions against  
13 Uyghurs, ethnic Kazakhs, Kyrgyz, and members of  
14 other Muslim minority groups in the XUAR violate  
15 international human rights laws and norms, includ-  
16 ing—

17 (A) the International Convention on the  
18 Elimination of All Forms of Racial Discrimina-  
19 tion, to which the PRC has acceded;

20 (B) the Convention against Torture and  
21 Other Cruel, Inhuman or Degrading Treatment  
22 or Punishment, which the PRC has signed and  
23 ratified;

1 (C) the Convention on the Prevention and  
2 Punishment of the Crime of Genocide, which  
3 the PRC has signed and ratified;

4 (D) the International Covenant on Civil  
5 and Political Rights, which the PRC has signed;  
6 and

7 (E) the Universal Declaration of Human  
8 Rights and the International Labor Organiza-  
9 tion's Force Labor Convention (no. 29) and the  
10 Abolition of Forced Labor Convention (no.  
11 105).

12 (c) REFUGEE PROTECTIONS FOR CERTAIN RESI-  
13 DENTS OF THE XUAR.—

14 (1) POPULATIONS OF SPECIAL HUMANITARIAN  
15 CONCERN.—The Secretary of State, in consultation  
16 with the Secretary of Homeland Security, shall des-  
17 ignate, as Priority 2 refugees of special humani-  
18 tarian concern—

19 (A) aliens who were nationals of the PRC  
20 and residents of the XUAR on January 1,  
21 2021;

22 (B) aliens who fled the XUAR after June  
23 30, 2009, and reside in other provinces of the  
24 PRC or in a third country where such alien is  
25 not firmly resettled; and

1 (C) the spouses, children, and parents (as  
2 such terms are defined in subsections (a) and  
3 (b) of section 101 of the Immigration and Na-  
4 tionality Act (8 U.S.C. 1101)) of individuals de-  
5 scribed in subparagraphs (A) and (B), except  
6 that a child shall be an unmarried person under  
7 27 years of age.

8 (2) PROCESSING OF XUAR REFUGEES.—The  
9 processing of individuals described in paragraph (1)  
10 for classification as refugees may occur in the PRC  
11 or a third country.

12 (3) ELIGIBILITY FOR ADMISSION AS A REF-  
13 UGEE.—

14 (A) IN GENERAL.—Aliens described in sub-  
15 paragraph (B) may establish, for purposes of  
16 admission as a refugee under section 207 of the  
17 Immigration and Nationality Act (8 U.S.C.  
18 1157) or asylum under section 208 of such Act  
19 (8 U.S.C. 1158), that such alien has a well-  
20 founded fear of persecution on account of race,  
21 religion, nationality, membership in a particular  
22 social group, or political opinion by asserting  
23 such a fear and asserting a credible basis for  
24 concern about the possibility of such persecu-  
25 tion.

1 (B) ALIENS DESCRIBED.—An alien is de-  
2 scribed in this subsection if such alien has been  
3 identified as a person of special humanitarian  
4 concern pursuant to paragraph (1) and—

5 (i) has experienced persecution in the  
6 XUAR by the PRC government, includ-  
7 ing—

8 (I) forced and arbitrary detention  
9 including in an internment or re-educ-  
10 ation camp;

11 (II) forced political indoctrina-  
12 tion, torture, beatings, food depriva-  
13 tion, and denial of religious, cultural,  
14 and linguistic freedoms;

15 (III) forced labor;

16 (IV) forced separation from fam-  
17 ily members;

18 (V) other forms of systemic  
19 threats, harassment, and gross human  
20 rights violations; or

21 (VI) has been formally charged,  
22 detained, or convicted on account of  
23 their peaceful actions as described in  
24 the Uyghur Human Rights Policy Act  
25 of 2020 (Public Law 116–145);

1 (ii) is currently a national of the PRC  
2 whose residency in the XUAR, or any  
3 other area within the jurisdiction of the  
4 PRC, was revoked for having submitted to  
5 any United States Government agency a  
6 nonfrivolous application for refugee status,  
7 asylum, or any other immigration benefit  
8 under United States law.

9 (C) ELIGIBILITY FOR ADMISSION UNDER  
10 OTHER CLASSIFICATION.—An alien may not be  
11 denied the opportunity to apply for admission  
12 as a refugee or asylum under this section solely  
13 because such alien qualifies as an immediate  
14 relative of a national of the United States or is  
15 eligible for admission to the United States  
16 under any other immigrant classification.

17 (4) PRIORITY.—The Secretary of State shall  
18 prioritize bilateral diplomacy with third countries  
19 hosting former residents of the XUAR and who face  
20 significant diplomatic pressures from the PRC gov-  
21 ernment.

22 (5) REPORTING REQUIREMENTS.—

23 (A) IN GENERAL.—Not later than 180  
24 days after the date of the enactment of this Act  
25 and every 90 days thereafter, the Secretary of

1 State and the Secretary of Homeland Security  
2 shall submit to the appropriate congressional  
3 committees, the Committee on the Judiciary of  
4 the House of Representatives, and the Com-  
5 mittee on the Judiciary of the Senate a report  
6 on the matters described in subparagraph (B).

7 (B) MATTERS TO BE INCLUDED.—Each  
8 report required by subparagraph (A) shall in-  
9 clude, with respect to applications submitted  
10 under this section—

11 (i) the total number of applications  
12 that are pending at the end of the report-  
13 ing period;

14 (ii) the average wait-times and num-  
15 ber of applicants who are currently pend-  
16 ing—

17 (I) a pre-screening interview with  
18 a resettlement support center;

19 (II) an interview with United  
20 States Citizenship and Immigration  
21 Services;

22 (III) the completion of security  
23 checks;

24 (IV) receipt of a final decision  
25 after completion of an interview with

1 United States Citizenship and Immi-  
2 gration Services; and

3 (iii) the number of denials of applica-  
4 tions for refugee status, disaggregated by  
5 the reason for each such denial.

6 (C) FORM.—Each report required by para-  
7 graph (1) shall be submitted in unclassified  
8 form, but may include a classified annex.

9 (D) PUBLIC REPORTS.—The Secretary of  
10 State shall make each report submitted under  
11 this subsection available to the public on the  
12 internet website of the Department of State.

13 (6) EXEMPTION FROM NUMERICAL LIMITA-  
14 TIONS.—The numerical limitations established in ac-  
15 cordance with section 207 of the Immigration and  
16 Nationality Act (8 U.S.C. 1157) in any fiscal year  
17 shall not apply to aliens seeking refugee status pur-  
18 suant to such section who are nationals of the PRC  
19 and residents of the XUAR.

20 (d) STATEMENT OF POLICY ON ENCOURAGING AL-  
21 LIES AND PARTNERS TO MAKE SIMILAR ACCOMMODA-  
22 TIONS.—It is the policy of the United States to encourage  
23 United States allies and partners to make accommoda-  
24 tions similar to the accommodations made in this section

1 for residents of the XUAR who are fleeing oppression by  
2 the PRC Government.

3 (e) TERMINATION.—This section shall terminate on  
4 the date that is ten years after the date of the enactment  
5 of this Act.

6 **SEC. 30307. REMOVAL OF MEMBERS OF THE UNITED NA-**  
7 **TIONS HUMAN RIGHTS COUNCIL THAT COM-**  
8 **MIT HUMAN RIGHTS ABUSES.**

9 The President shall direct the Permanent Represent-  
10 ative of the United States to the United Nations to use  
11 the voice, vote, and influence of the United States to—

12 (1) reform the process for removing Member  
13 States of the United Nations Human Rights Council  
14 that commit gross and systemic violations of human  
15 rights, including—

16 (A) lowering the threshold vote at the  
17 United Nations General Assembly for removal  
18 to a simple majority;

19 (B) ensuring information detailing the  
20 Member State’s human rights record is publicly  
21 available before the vote on removal; and

22 (C) making the vote of each country on the  
23 removal from the United Nations Human  
24 Rights Council publicly available;

1           (2) remove Israel as a permanent agenda item  
2           and to bring an end to the “Commission of Inquiry”  
3           to investigate the State of Israel;

4           (3) reform the rules on electing members to the  
5           United Nations Human Rights Council to ensure  
6           United Nations Member States that have committed  
7           gross and systemic violations of human rights are  
8           not elected to the Human Rights Council; and

9           (4) oppose the election to the United Nations  
10          Human Rights Council of any United Nations Mem-  
11          ber State—

12                   (A) currently designated as a country en-  
13                   gaged in a consistent pattern of gross violations  
14                   of internationally recognized human rights pur-  
15                   suant to section 116 or section 502B of the  
16                   Foreign Assistance Act of 1961 (22 U.S.C.  
17                   2151n or 2304);

18                   (B) the government of which the Secretary  
19                   of State currently determines has repeatedly  
20                   provided support for international terrorism  
21                   pursuant to—

22                           (i) section 1754(e) of the National  
23                           Defense Authorization Act for Fiscal Year  
24                           2019;

1 (ii) section 620A of the Foreign As-  
2 sistance Act of 1961 (22 U.S.C. 2371);

3 (iii) section 40 of the Arms Export  
4 Control Act (22 U.S.C. 2779A); or

5 (iv) any other provision of law;

6 (C) currently designated as a Tier 3 coun-  
7 try under the Trafficking Victims Protection  
8 Act of 2000 (22 U.S.C. 7101 et seq.);

9 (D) the government of which is identified  
10 on the list published by the Secretary of State  
11 pursuant to section 404(b) of the Child Soldiers  
12 Prevention Act of 2008 (22 U.S.C. 2370c–1(b))  
13 as a government that recruits and uses child  
14 soldiers; or

15 (E) the government of which the United  
16 States determines to have committed genocide  
17 or crimes against humanity.

18 **SEC. 30308. POLICY WITH RESPECT TO TIBET.**

19 (a) RANK OF UNITED STATES SPECIAL COORDI-  
20 NATOR FOR TIBETAN ISSUES.—Section 621 of the Ti-  
21 betan Policy Act of 2002 (22 U.S.C. 6901 note) is amend-  
22 ed—

23 (1) by redesignating subsections (b), (c), (d),  
24 and (e), as subsections (c), (d), (e), and (f), respec-  
25 tively; and

1           (2) by inserting after subsection (a) the fol-  
2           lowing new subsection:

3           “(b) RANK.—The Special Coordinator shall either be  
4           appointed by the President, with the advice and consent  
5           of the Senate, or shall be an individual holding the rank  
6           of Under Secretary of State or higher.”.

7           (b) TIBET UNIT AT UNITED STATES EMBASSY IN  
8           BEIJING.—

9           (1) IN GENERAL.—The Secretary of State shall  
10          establish a Tibet Unit in the Political Section of the  
11          United States Embassy in Beijing, People’s Republic  
12          of China (PRC).

13          (2) OPERATION.—The Tibet Unit established  
14          under paragraph (1) shall operate until such time as  
15          the Government of the PRC permits—

16                 (A) the United States Consulate General  
17                 in Chengdu, PRC, to reopen; or

18                 (B) a United States Consulate General in  
19                 Lhasa, Tibet, to open.

20          (3) STAFF.—

21                 (A) IN GENERAL.—The Secretary shall—

22                         (i) assign not fewer than two United  
23                         States direct-hire personnel to the Tibet  
24                         Unit established under paragraph (1); and

1 (ii) hire not fewer than one locally en-  
2 gaged staff member for such unit.

3 (B) LANGUAGE TRAINING.—The Secretary  
4 shall make Tibetan language training available  
5 to the personnel assigned under subparagraph  
6 (A), consistent with the Tibetan Policy Act of  
7 2002 (22 U.S.C. 6901 note).

8 **SEC. 30309. UNITED STATES POLICY AND INTERNATIONAL**  
9 **ENGAGEMENT ON THE SUCCESSION OR REIN-**  
10 **CARNATION OF THE DALAI LAMA AND RELI-**  
11 **GIOUS FREEDOM OF TIBETAN BUDDHISTS.**

12 (a) REAFFIRMATION OF POLICY.—It is the policy of  
13 the United States, as provided under section 342(b) of di-  
14 vision FF of the Consolidated Appropriations Act, 2021  
15 (Public Law 116–260), that any “interference by the Gov-  
16 ernment of the People’s Republic of China or any other  
17 government in the process of recognizing a successor or  
18 reincarnation of the 14th Dalai Lama and any future  
19 Dalai Lamas would represent a clear abuse of the right  
20 to religious freedom of Tibetan Buddhists and the Tibetan  
21 people”.

22 (b) INTERNATIONAL EFFORTS TO PROTECT RELI-  
23 GIOUS FREEDOM OF TIBETAN BUDDHISTS.—The Sec-  
24 retary of State should engage with United States allies  
25 and partners to—

1           (1) support Tibetan Buddhist religious leaders’  
2           sole religious authority to identify and install the  
3           15th Dalai Lama;

4           (2) oppose claims by the Government of the  
5           People’s Republic of China (PRC) that the PRC has  
6           the authority to decide for Tibetan Buddhists the  
7           15th Dalai Lama; and

8           (3) reject interference by the Government of the  
9           PRC in the religious freedom of Tibetan Buddhists.

10 **SEC. 30310. DEVELOPMENT AND DEPLOYMENT OF INTER-**  
11 **NET FREEDOM AND GREAT FIREWALL CIR-**  
12 **CUMVENTION TOOLS FOR THE PEOPLE OF**  
13 **HONG KONG.**

14           (a) FINDINGS.—Congress makes the following find-  
15 ings:

16           (1) The People’s Republic of China (PRC) has  
17           repeatedly violated its obligations under the Joint  
18           Declaration by suppressing the basic rights and free-  
19           doms of the people of Hong Kong.

20           (2) On June 30, 2020, the National People’s  
21           Congress passed a “National Security Law” that  
22           further erodes Hong Kong’s autonomy and enables  
23           authorities to suppress dissent.

24           (3) The Government of the PRC continues to  
25           utilize the National Security Law to undermine the

1 fundamental rights of the Hong Kong people  
2 through suppression of the freedom of speech, as-  
3 ssembly, religion, and the press.

4 (4) Article 9 of the National Security Law au-  
5 thorizes unprecedented regulation and supervision of  
6 internet activity in Hong Kong, including expanded  
7 police powers to force internet service providers to  
8 censor content, hand over user information, and  
9 block access to platforms.

10 (5) On January 13, 2021, the Hong Kong  
11 Broadband Network blocked public access to HK  
12 Chronicles, a website promoting pro-democracy view-  
13 points, under the authorities of the National Secu-  
14 rity Law.

15 (6) On February 12, 2021, internet service pro-  
16 viders blocked access to the Taiwan Transitional  
17 Justice Commission website in Hong Kong.

18 (7) Major tech companies, including Facebook,  
19 Twitter, WhatsApp and Google, have stopped review-  
20 ing requests for user data from Hong Kong authori-  
21 ties.

22 (8) On February 28, 2021, 47 pro-democracy  
23 activists in Hong Kong were arrested and charged  
24 under the National Security Law on the charge of  
25 “conspiracy to commit subversion”.

1 (b) SENSE OF CONGRESS.—It is the sense of Con-  
2 gress that the United States should—

3 (1) support the ability of the people of Hong  
4 Kong to maintain their freedom to access informa-  
5 tion online; and

6 (2) focus on investments in technologies that  
7 facilitate the unhindered exchange of information in  
8 Hong Kong in advance of any future efforts by the  
9 Chinese Communist Party—

10 (A) to suppress internet access;

11 (B) to increase online censorship; or

12 (C) to inhibit online communication and  
13 content-sharing by the people of Hong Kong.

14 (c) HONG KONG INTERNET FREEDOM PROGRAM.—

15 (1) WORKING GROUP.—

16 (A) IN GENERAL.—The Secretary of State  
17 is authorized to establish a working group to  
18 develop a strategy to bolster internet resiliency  
19 and online access in Hong Kong.

20 (B) MEMBERSHIP.—The working group  
21 under subparagraph (A) shall consist of—

22 (i) the Under Secretary of State for  
23 Civilian Security, Democracy, and Human  
24 Rights;

1 (ii) the Assistant Secretary of State  
2 for East Asian and Pacific Affairs;

3 (iii) the Chief Executive Officer of the  
4 United States Agency for Global Media  
5 and the President of the Open Technology  
6 Fund of the Agency; and

7 (iv) the Administrator of the United  
8 States Agency for International Develop-  
9 ment.

10 (2) HONG KONG INTERNET FREEDOM PRO-  
11 GRAMS.—

12 (A) DEPARTMENT OF STATE.—The Sec-  
13 retary of State shall establish a Hong Kong  
14 Internet Freedom Program in the Bureau of  
15 Democracy, Human Rights, and Labor in the  
16 Department of State.

17 (B) OPEN TECHNOLOGY FUND.—The  
18 President of the Open Technology Fund of the  
19 United States Agency for Global Media is au-  
20 thorized to establish a Hong Kong Internet  
21 Freedom Program.

22 (C) OPERATION.—The Programs referred  
23 to in subparagraphs (A) and (B) shall operate  
24 independently, but in strategic coordination  
25 with other entities in the working group under

1 paragraph (1). The Open Technology Fund  
2 shall remain independent from Department of  
3 State direction in its implementation of the  
4 Program of such Fund, and any other internet  
5 freedom programs.

6 (3) INDEPENDENCE.—During the period begin-  
7 ning on the date of the enactment of this Act and  
8 ending on September 30, 2023, the Hong Kong  
9 Internet Freedom Programs described in paragraph  
10 (2) shall be carried out independently from any  
11 other internet freedom programs relating to the Peo-  
12 ple’s Republic of China carried out by the Depart-  
13 ment of State or the Open Technology Fund of the  
14 United States Agency for Global Media, as the case  
15 may be, in order that such Hong Kong Internet  
16 Freedom Programs may focus on supporting lib-  
17 erties presently enjoyed by the people of Hong Kong.

18 (4) CONSOLIDATION OF DEPARTMENT OF  
19 STATE PROGRAM.—Beginning on October 1, 2023,  
20 the Secretary of State may—

21 (A) consolidate the Hong Kong Internet  
22 Freedom Program of the Department of State  
23 with any other internet freedom programs relat-  
24 ing to the People’s Republic of China carried

1 out by the Bureau of Democracy, Human  
2 Rights, and Labor; or

3 (B) continue to carry out the Program in  
4 accordance with paragraph (3).

5 (5) CONSOLIDATION OF OPEN TECHNOLOGY  
6 FUND PROGRAM.—Beginning on October 1, 2023,  
7 the President of the Open Technology Fund of the  
8 United States Agency for Global Media may—

9 (A) consolidate the Hong Kong Internet  
10 Freedom Program of the Fund with any other  
11 internet freedom programs relating to the Peo-  
12 ple’s Republic of China carried out by the  
13 Fund; or

14 (B) continue to carry out the Program in  
15 accordance with paragraph (3).

16 (d) SUPPORT FOR INTERNET FREEDOM TECH-  
17 NOLOGY PROGRAMS.—

18 (1) GRANTS AUTHORIZED.—

19 (A) IN GENERAL.—The Secretary of State,  
20 working through the Bureau of Democracy,  
21 Human Rights, and Labor, and President of  
22 the Open Technology Fund of the United  
23 States Agency for Global Media, are each sepa-  
24 rately and independently authorized to award  
25 grants and contracts to private organizations to

1 support and develop programs in Hong Kong  
2 that promote or expand—

3 (i) an open, interoperable, reliable and  
4 secure internet; and

5 (ii) the online exercise of human  
6 rights and fundamental freedoms of indi-  
7 vidual citizens, activists, human rights de-  
8 fenders, independent journalists, civil soci-  
9 ety organizations, and marginalized popu-  
10 lations in Hong Kong.

11 (B) GOALS.—The goals of the programs  
12 developed pursuant to grants awarded pursuant  
13 to subparagraph (A) should be—

14 (i) to make the internet available in  
15 Hong Kong;

16 (ii) to increase the number of the  
17 tools in the technology portfolio;

18 (iii) to promote the availability of such  
19 technologies and tools in Hong Kong;

20 (iv) to encourage the adoption of such  
21 technologies and tools by the people of  
22 Hong Kong;

23 (v) to scale up the distribution of such  
24 technologies and tools throughout Hong  
25 Kong;

1 (vi) to prioritize the development of  
2 tools, components, code, and technologies  
3 that are fully open-source, to the extent  
4 practicable;

5 (vii) to conduct research on repressive  
6 tactics that undermine internet freedom in  
7 Hong Kong;

8 (viii) to ensure digital safety guidance  
9 and support is available to repressed indi-  
10 vidual citizens, human rights defenders,  
11 independent journalists, civil society orga-  
12 nizations and marginalized populations in  
13 Hong Kong; and

14 (ix) to engage United States private  
15 industry, including e-commerce firms and  
16 social networking companies, on the impor-  
17 tance of preserving internet access in Hong  
18 Kong.

19 (C) GRANT RECIPIENTS.—Grants awarded  
20 pursuant to subparagraph (A) shall be distrib-  
21 uted to multiple vendors and suppliers through  
22 an open, fair, competitive, and evidence-based  
23 decision process—

24 (i) to diversify the technical base; and

1 (ii) to reduce the risk of misuse by  
2 bad actors.

3 (D) SECURITY AUDITS.—New technologies  
4 developed using grants awarded pursuant to  
5 subparagraph (A) shall undergo comprehensive  
6 security audits to ensure such technologies are  
7 secure and have not been compromised in a  
8 manner detrimental to the interests of the  
9 United States or to individuals or organizations  
10 benefitting from programs supported by the  
11 Open Technology Fund.

12 (2) FUNDING SOURCE.—The Secretary of State  
13 is authorized to expend funds made available to the  
14 Human Rights and Democracy Fund of the Bureau  
15 of Democracy, Human Rights, and Labor of the De-  
16 partment of State for each of fiscal years 2022 and  
17 2023 for grants authorized under paragraph (1) by  
18 any entity in the working group established under  
19 subsection (c)(1).

20 (3) AUTHORIZATION OF APPROPRIATIONS.—

21 (A) OPEN TECHNOLOGY FUND.—In addi-  
22 tion to the funds authorized to be expended  
23 pursuant to paragraph (2), there are authorized  
24 to be appropriated to the Open Technology  
25 Fund of the United States Agency for Global

1 Media \$5,000,000 for each of fiscal years 2022  
2 and 2023 for grants to carry out this sub-  
3 section. Such amounts are in addition to any  
4 amounts authorized to be appropriated for the  
5 Open Technology Fund under section 1299P of  
6 the National Defense Authorization Act for Fis-  
7 cal Year 2021 (Public Law 116–283).

8 (B) BUREAU OF DEMOCRACY, HUMAN  
9 RIGHTS, AND LABOR.—In addition to the funds  
10 authorized to be expended pursuant to para-  
11 graph (2), there are authorized to be appro-  
12 priated to the Office of Internet Freedom Pro-  
13 grams of the Bureau of Democracy, Human  
14 Rights, and Labor of the Department of State  
15 \$10,000,000 for each of fiscal years 2022 and  
16 2023 to carry out this subsection.

17 (C) AVAILABILITY.—Amounts authorized  
18 to be appropriated pursuant to subparagraphs  
19 (A) and (B) shall remain available until ex-  
20 pended.

21 (e) STRATEGIC PLANNING REPORT.—Not later than  
22 120 days after the date of the enactment of this Act, the  
23 Secretary of State and the working group under sub-  
24 section (c)(1) shall submit to the appropriate congres-  
25 sional committees a classified report that—

1 (1) describes the Federal Government’s plan to  
2 bolster and increase the availability of Great Fire-  
3 wall circumvention and internet freedom technology  
4 in Hong Kong during fiscal year 2022;

5 (2) outlines a plan for—

6 (A) supporting the preservation of an  
7 open, interoperable, reliable, and secure internet  
8 in Hong Kong;

9 (B) increasing the supply of the technology  
10 referred to in paragraph (1);

11 (C) accelerating the dissemination of such  
12 technology;

13 (D) promoting the availability of internet  
14 freedom in Hong Kong;

15 (E) utilizing presently-available tools in the  
16 existing relevant portfolios for further use in  
17 the unique context of Hong Kong;

18 (F) expanding the portfolio of tools in  
19 order to diversify and strengthen the effective-  
20 ness and resiliency of the circumvention efforts;

21 (G) providing training for high-risk groups  
22 and individuals in Hong Kong; and

23 (H) detecting analyzing, and responding to  
24 new and evolving censorship threats;

1           (3) includes a detailed description of the tech-  
2           nical and fiscal steps necessary to safely implement  
3           the plans referred to in paragraphs (1) and (2), in-  
4           cluding an analysis of the market conditions in  
5           Hong Kong;

6           (4) describes the Federal Government's plans  
7           for awarding grants to private organizations for the  
8           purposes described in subsection (d)(1)(A);

9           (5) outlines the working group's consultations  
10          regarding the implementation of this section to en-  
11          sure that all Federal efforts are aligned and well co-  
12          ordinated; and

13          (6) outlines the Department of State's strategy  
14          to influence global internet legal standards at inter-  
15          national organizations and multilateral fora.

16          (f) DEFINITIONS.—In this section:

17                 (1) APPROPRIATE CONGRESSIONAL COMMIT-  
18                 TEES.—The term “appropriate congressional com-  
19                 mittees” means—

20                         (A) the Committee on Foreign Relations,  
21                         the Committee on Appropriations, and the Se-  
22                         lect Committee on Intelligence of the Senate;  
23                         and

24                         (B) the Committee on Foreign Affairs, the  
25                         Committee on Appropriations, and the Perma-

1           nent Select Committee on Intelligence of the  
2           House of Representatives.

3           (2) JOINT DECLARATION.—The term “Joint  
4           Declaration” means the Joint Declaration of the  
5           Government of the United Kingdom of Great Britain  
6           and Northern Ireland and the Government of the  
7           People’s Republic of China on the Question of Hong  
8           Kong, done at Beijing on December 19, 1984.

9   **SEC. 30311. AUTHORIZATION OF APPROPRIATIONS FOR**  
10                           **PROTECTING HUMAN RIGHTS IN THE PEOP-**  
11                           **LE’S REPUBLIC OF CHINA.**

12           (a) IN GENERAL.—Amounts authorized to be appro-  
13           priated or otherwise made available to carry out section  
14           409 of the Asia Reassurance Initiative Act of 2019 (Public  
15           Law 115–409) should include programs that prioritize the  
16           protection and advancement of the freedoms of associa-  
17           tion, assembly, religion, and expression for women, human  
18           rights activists, and ethnic and religious minorities in the  
19           People’s Republic of China (PRC).

20           (b) USE OF FUNDS.—Amounts appropriated pursu-  
21           ant to section 409 of the Asia Reassurance Initiative Act  
22           of 2019 (Public Law 115–409) may be used to fund non-  
23           governmental agencies within the Indo-Pacific region that  
24           are focused on the issues described in subsection (a).

1 (c) CONSULTATION REQUIREMENT.—In carrying out  
2 this section, the Assistant Secretary of Democracy,  
3 Human Rights and Labor shall consult with the appro-  
4 priate congressional committees and representatives of  
5 civil society regarding—

6 (1) strengthening the capacity of the organiza-  
7 tions referred to in subsection (b);

8 (2) protecting members of the groups referred  
9 to in subsection (a) who have been targeted for ar-  
10 rest, harassment, forced sterilizations, coercive abor-  
11 tions, forced labor, or intimidation, including mem-  
12 bers residing outside of the PRC; and

13 (3) messaging efforts to reach the broadest pos-  
14 sible audiences within the PRC about United States  
15 Government efforts to protect freedom of associa-  
16 tion, expression, assembly, and the rights of ethnic  
17 minorities.

18 **SEC. 30312. MODIFICATIONS TO AND REAUTHORIZATION OF**  
19 **SANCTIONS WITH RESPECT TO HUMAN**  
20 **RIGHTS VIOLATIONS.**

21 (a) DEFINITIONS.—Section 1262 of the Global  
22 Magnitsky Human Rights Accountability Act (Subtitle F  
23 of title XII of Public Law 114–328; 22 U.S.C. 2656 note)  
24 is amended by striking paragraph (2).

1 (b) SENSE OF CONGRESS.—(1) The Global  
2 Magnitsky Human Rights Accountability Act (Subtitle F  
3 of title XII of Public Law 114–328; 22 U.S.C. 2656 note)  
4 is amended by inserting after section 1262 the following  
5 new section:

6 **“SEC. 1262A. SENSE OF CONGRESS.**

7 “It is the sense of Congress that the President should  
8 establish and regularize information sharing and sanc-  
9 tions-related decision making with like-minded govern-  
10 ments possessing human rights and anti-corruption sanc-  
11 tions programs similar in nature to those authorized under  
12 this subtitle.”; and

13 (2) The table of contents in section 2(b) and in title  
14 XII of division A of the National Defense Authorization  
15 Act for Fiscal Year 2017 (Public Law 114–328) are each  
16 amended by inserting after the items relating to section  
17 1262 the following:

“Sec. 1262A. Sense of Congress.”.

18 (c) IMPOSITION OF SANCTIONS.—

19 (1) IN GENERAL.—Subsection (a) of section  
20 1263 of the Global Magnitsky Human Rights Ac-  
21 countability Act (Subtitle F of title XII of Public  
22 Law 114–328; 22 U.S.C. 2656 note) is amended to  
23 read as follows:

24 “(a) IN GENERAL.—The President may impose the  
25 sanctions described in subsection (b) with respect to any

1 foreign person that the President determines, based on  
2 credible information—

3 “(1) is responsible for or complicit in, or has di-  
4 rectly or indirectly engaged in, serious human rights  
5 abuse or any violation of internationally recognized  
6 human rights;

7 “(2) is a current or former government official,  
8 or a person acting for or on behalf of such an offi-  
9 cial, who is responsible for or complicit in, or has di-  
10 rectly or indirectly engaged in—

11 “(A) corruption; or

12 “(B) the transfer or facilitation of the  
13 transfer of the proceeds of corruption;

14 “(3) is or has been a leader or official of—

15 “(A) an entity, including a government en-  
16 tity, that has engaged in, or whose members  
17 have engaged in, any of the activities described  
18 in subparagraph (A) or (B) related to the ten-  
19 ure of the leader or official; or

20 “(B) an entity whose property and inter-  
21 ests in property are blocked pursuant to this  
22 section as a result of activities related to the  
23 tenure of the leader or official;

1           “(4) has materially assisted, sponsored, or pro-  
2           vided financial, material, or technological support  
3           for, or goods or services to or in support of—

4                   “(A) an activity described in subparagraph  
5           (A) or (B) that is conducted by a foreign per-  
6           son;

7                   “(B) a person whose property and inter-  
8           ests in property are blocked pursuant to this  
9           section; or

10                   “(C) an entity, including a government en-  
11           tity, that has engaged in, or whose members  
12           have engaged in, an activity described in sub-  
13           paragraph (A) or (B) conducted by a foreign  
14           person; or

15           “(5) is owned or controlled by, or acts or is  
16           purported to act for or on behalf of, directly or indi-  
17           rectly, a person whose property and interests in  
18           property are blocked pursuant to this section.”.

19           (2) CONSIDERATION OF CERTAIN INFORMA-  
20           TION.—Subsection (c)(2) of such section is amended  
21           by inserting “corruption and” after “monitor”.

22           (3) REQUESTS BY CONGRESS.—Subsection (d)  
23           of such section is amended—

1 (A) in paragraph (1), in the matter pre-  
2 ceding subparagraph (A), by striking “sub-  
3 section (a)” and inserting “subsection (a)(1)”;

4 (B) in paragraph (2)—

5 (i) in subparagraph (A)—

6 (I) in the subparagraph heading,  
7 by striking “HUMAN RIGHTS VIOLA-  
8 TIONS” and inserting “SERIOUS  
9 HUMAN RIGHTS ABUSE OR VIOLA-  
10 TIONS OF INTERNATIONALLY RECOG-  
11 NIZED HUMAN RIGHTS”; and

12 (II) by striking “described in  
13 paragraph (1) or (2) of subsection  
14 (a)” and inserting “described in sub-  
15 section (a)(1) relating to serious  
16 human rights abuse or any violation  
17 of internationally recognized human  
18 rights”; and

19 (ii) in subparagraph (B)—

20 (I) in the matter preceding clause  
21 (i), by striking “described in para-  
22 graph (3) or (4) of subsection (a)”  
23 and inserting “described in subsection  
24 (a)(1) relating to corruption or the

1 transfer or facilitation of the transfer  
2 of the proceeds of corruption”; and

3 (II) by striking “ranking member  
4 of” and all that follows through the  
5 period at the end and inserting “rank-  
6 ing member of one of the appropriate  
7 congressional committees.”.

8 (d) REPORTS TO CONGRESS.—Section 1264(a) of the  
9 Global Magnitsky Human Rights Accountability Act (Sub-  
10 title F of title XII of Public Law 114–328; 22 U.S.C.  
11 2656 note) is amended—

12 (1) in paragraph (5), by striking “; and” and  
13 inserting a semicolon;

14 (2) in paragraph (6), by striking the period at  
15 the end and inserting “;”; and

16 (3) by adding at the end the following:

17 “(7) a description of additional steps taken by  
18 the President through diplomacy, international en-  
19 gagement, and assistance to foreign or security sec-  
20 tors to address persistent underlying causes of seri-  
21 ous human rights abuse, violations of internationally  
22 recognized human rights, and corruption in each  
23 country in which foreign persons with respect to  
24 which sanctions have been imposed under section  
25 1263 are located; and

1 “(8) a description of additional steps taken by  
2 the President to ensure the pursuit of judicial ac-  
3 countability in appropriate jurisdictions with respect  
4 to those foreign persons subject to sanctions under  
5 section 1263 for serious human rights abuse, viola-  
6 tions of internationally recognized human rights,  
7 and corruption.”.

8 (e) REPEAL OF SUNSET.—(1) Section 1265 of the  
9 Global Magnitsky Human Rights Accountability Act (Sub-  
10 title F of title XII of Public Law 114–328; 22 U.S.C.  
11 2656 note) is repealed.

12 (2) The table of contents in section 2(b) and in title  
13 XII of division A of the National Defense Authorization  
14 Act for Fiscal Year 2017 (Public Law 114–328) are each  
15 amended by striking the items relating to section 1265.

16 **SEC. 30313. SENSE OF CONGRESS CONDEMNING ANTI-ASIAN**  
17 **RACISM AND DISCRIMINATION.**

18 (a) FINDINGS.—Congress makes the following find-  
19 ings:

20 (1) Since the onset of the COVID–19 pan-  
21 demic, crimes and discrimination against Asians and  
22 those of Asian descent have risen dramatically  
23 worldwide. In May 2020, United Nations Secretary  
24 General Antonio Guterres said “the pandemic con-  
25 tinues to unleash a tsunami of hate and xenophobia,

1 scapegoating and scare-mongering” and urged gov-  
2 ernments to “act now to strengthen the immunity of  
3 our societies against the virus of hate”.

4 (2) Over 2 million Asian Americans and Pacific  
5 Islanders are working on the front lines of the  
6 COVID–19 pandemic in healthcare, law enforce-  
7 ment, first responders, transportation, super-  
8 markets, and other service industries. AAPI workers  
9 also make up a large share—between 6 percent and  
10 12 percent based on sector—of the bio medical field.

11 (3) The United States Census Bureau notes  
12 that Americans of Asian descent made up 7.2 per-  
13 cent of the population according to the 2020 decen-  
14 nial census, and that Asian Americans are the fast-  
15 est-growing racial group in the United States, pro-  
16 jected to represent 14 percent of the United States  
17 population by 2065.

18 (4) Since January 2020, there has been a dra-  
19 matic increase in reports of hate crimes and inci-  
20 dents against those of Asian descent.

21 (5) According to reports, there are over 10,000  
22 reported cases of anti-Asian American hate incidents  
23 and discrimination related to COVID–19 between  
24 March 19, 2020 and September 30, 2021.

1           (6) Local police departments are reporting an  
2 exponential increase in anti-Asian hate incidents and  
3 crimes. The New York Police Department reported  
4 a 343 percent spike in anti-Asian crime in 2021  
5 from 2020, and the San Francisco Police Depart-  
6 ment reported anti-AAPI hate crimes increased by  
7 567 percent from 2020 to 2021.

8           (7) Multiple incidents of anti-Asian violence oc-  
9 curred since March 2020, including a woman wear-  
10 ing a mask who was kicked and punched at a New  
11 York City subway station, two children and two  
12 adults were stabbed at a wholesale grocery store in  
13 Midland, Texas, a couple was assaulted and robbed  
14 by a group of attackers in Philadelphia, and a 16-  
15 year-old boy was sent to the hospital after being at-  
16 tacked by bullies in Los Angeles, California.

17           (8) Anti-Asian discrimination and hate since  
18 the start of the COVID–19 outbreak has continued  
19 throughout the pandemic.

20           (9) Since the start of 2021, there has been a  
21 surge in anti-Asian attacks targeting predominately  
22 elderly Asian Americans.

23           (10) On January 30, 2021, an 84-year-old Thai  
24 man, Vicha Ratanapakdee, died from injuries sus-

1       tained from an unprovoked assault while on his rou-  
2       tine morning walk in San Francisco, California.

3               (11) In January 2021, a series of attacks oc-  
4       curred in Oakland’s Chinatown targeting Asian  
5       American seniors, the victims included a 91-year-old  
6       man, a 60-year-old man, and a 55-year-old woman,  
7       who were all violently shoved to the ground in three  
8       separate incidents.

9               (12) In February 2021, victims of anti-Asian  
10      violence included a 61-year-old Filipino man who  
11      was attacked and slashed across his face on a New  
12      York City subway, a Filipino woman in her 80s who  
13      was punched in an unprovoked attack while riding a  
14      trolley in San Diego, and a 52-year-old Asian  
15      woman who was attacked and forcefully shoved while  
16      waiting in line outside of a bakery in Flushing, New  
17      York.

18              (13) In December 2021, a 61-year-old Chinese  
19      man, Yao Pan Ma, died from injuries sustained from  
20      an unprovoked assault in April of 2021 in New York  
21      City.

22              (14) Anti-Asian racism has also resulted in  
23      Asian American businesses being targeted for van-  
24      dalism.

1           (15) There are approximately 2 million Asian  
2 American-owned businesses that generate over \$700  
3 billion in annual revenue and employ millions of  
4 workers.

5           (16) More than 1,900,000 Asian American and  
6 Pacific Islander older adults, particularly those older  
7 adults who are recent immigrants or have limited  
8 English proficiency, may face even greater chal-  
9 lenges in dealing with the COVID–19 pandemic, in-  
10 cluding discrimination, economic insecurity, and lan-  
11 guage isolation.

12           (17) The World Health Organization (WHO)  
13 and the Centers for Disease Control and Prevention  
14 (CDC) recognize that naming COVID–19 by its geo-  
15 graphic location or linking it to a specific ethnicity  
16 perpetuates stigma.

17           (18) In 2015, the WHO issued guidance calling  
18 on media outlets, scientists, and national authorities  
19 to avoid naming infectious diseases for locations to  
20 avoid stigmatizing groups of people.

21           (19) On February 27, 2020, the Secretary of  
22 Health and Human Services stated, “ethnicity is not  
23 what causes the novel coronavirus” and that it is in-  
24 appropriate and inaccurate to call COVID–19 the  
25 “Chinese virus”.

1           (20) On February 28, 2020, Dr. Mitch Wolfe,  
2           the Chief Medical Officer of the CDC, said, “Stigma  
3           is the enemy of public health”.

4           (21) On March 10, 2020, Dr. Robert Redfield,  
5           the Director of the CDC, testified that use of the  
6           term “Chinese coronavirus” is wrong and inappro-  
7           priate.

8           (22) On January 26, 2021, President Biden  
9           issued a Presidential Memorandum “Condemning  
10          and Combating Racism, Xenophobia, and Intoler-  
11          ance Against Asian Americans and Pacific Islanders  
12          in the United States”.

13          (b) SENSE OF CONGRESS.—It is the sense of Con-  
14          gress as follows:

15               (1) The use of anti-Asian terminology and rhet-  
16               oric related to COVID–19, such as the “Chinese  
17               Virus”, “Wuhan Virus”, and “Kung-flu”, has per-  
18               petuated anti-Asian stigma.

19               (2) The use of anti-Asian rhetoric has resulted  
20               in Asian Americans being harassed, assaulted, and  
21               scapegoated for the COVID–19 pandemic.

22               (3) The reprehensible attacks on people of  
23               Asian descent and the concerning increase in anti-  
24               Asian sentiment and racism in the United States

1 and around the world have no place in a peaceful,  
2 civilized, and tolerant world.

3 (4) The United States is a diverse country with  
4 a proud tradition of immigration, and the strength  
5 and vibrancy of the United States is enhanced by  
6 the diverse ethnic backgrounds and tolerance of its  
7 citizens, including Asian Americans and Pacific Is-  
8 landers.

9 (5) The United States Government should en-  
10 courage foreign governments to use the official and  
11 scientific names for the COVID–19 pandemic, as  
12 recommended by the World Health Organization and  
13 the Centers for Disease Control and Prevention.

14 (6) The United States Government and other  
15 governments around the world must actively oppose  
16 racism and intolerance, and use all available and ap-  
17 propriate tools to combat the spread of anti-Asian  
18 racism and discrimination.

19 **SEC. 30314. ANNUAL REPORTING ON CENSORSHIP OF FREE**  
20 **SPEECH WITH RESPECT TO INTERNATIONAL**  
21 **ABUSES OF HUMAN RIGHTS.**

22 Section 116(d) of the Foreign Assistance Act of 1961  
23 (227 U.S.C. 2151n(d)) is amended—

24 (1) in paragraph (11)(C), by striking “and” at  
25 the end;

1           (2) in paragraph (12)(C)(ii), by striking the pe-  
2           riod at the end and inserting a semicolon; and

3           (3) by adding at the end the following:

4           “(13) wherever applicable, instances in which  
5           the government of each country has attempted to  
6           extraterritorially intimidate or pressure a company  
7           or entity to censor or self-censor the speech of its  
8           employees, contractors, customers, or associated  
9           staff with regards to the abuse of human rights in  
10          such country, or sought retaliation against such em-  
11          ployees or contractors for the same, including any  
12          instance in which the Government of the People’s  
13          Republic of China has sought to extraterritorially  
14          censor or punish speech that is otherwise legal in the  
15          United States on the topics of—

16                 “(A) repression and violation of funda-  
17                 mental freedoms in Hong Kong;

18                 “(B) repression and persecution of reli-  
19                 gious and ethnic minorities in China, including  
20                 in the Xinjiang Uyghur Autonomous Region  
21                 and the Tibet Autonomous Region;

22                 “(C) efforts to proliferate and use surveil-  
23                 lance technologies to surveil activists, journal-  
24                 ists, opposition politicians, or to profile persons  
25                 of different ethnicities; and

1           “(D) other gross violations of human  
2           rights; and

3           “(14) wherever applicable, instances in which a  
4           company or entity located in or based in a third  
5           country has censored or self-censored the speech of  
6           its employees, contractors, customers, or associated  
7           staff on the topic of abuse of human rights in each  
8           country or sought to retaliate against such employ-  
9           ees for the same, due to intimidation or pressure  
10          from or the fear of intimidation by the foreign gov-  
11          ernment.”.

12 **SEC. 30315. POLICY TOWARD THE XXIV OLYMPIC WINTER**  
13                   **GAMES AND THE XIII PARALYMPIC WINTER**  
14                   **GAMES.**

15          (a) FINDINGS.—Congress finds the following:

16           (1) In October 2020, 39 countries at the  
17           United Nations Third Committee of the General As-  
18           sembly appealed for action on the mass arbitrary de-  
19           tentions and other crimes against the Uyghur Mus-  
20           lim population of the Xinjiang Uyghur Autonomous  
21           Region.

22           (2) The 2018 concluding observations of the  
23           United Nations Committee on the Elimination of  
24           Racial Discrimination decried reports of mass arbi-  
25           trary detention of Uyghurs.

1           (3) Over 400 international nongovernmental or-  
2           ganizations have joined together to decry the mass  
3           arbitrary detentions of Uyghurs in the Xinjiang  
4           Uyghur Autonomous Region.

5           (4) The Olympic Charter states that the prac-  
6           tice of sport “is a human right” that “shall be se-  
7           cured without discrimination of any kind, such as  
8           race, colour, sex, sexual orientation, language, reli-  
9           gion, political or other opinion, national or social ori-  
10          gin, property, birth or other status”, a right that by  
11          definition cannot be secured in a country in which  
12          over 1,000,000 people are imprisoned in camps be-  
13          cause of their race, language, and religion.

14          (5) The 2008 Olympics in Beijing were accom-  
15          panied by widespread tracking, arrest, and intima-  
16          tion of foreign journalists and bloggers, as well as  
17          restrictions on movement of journalists, contrary to  
18          explicit commitments made by the Government of  
19          the People’s Republic of China (PRC) to the Inter-  
20          national Olympic Committee.

21          (6) The Government of the PRC denied visas  
22          for some journalists granted press accreditation for  
23          the 2008 Olympic Games, and the Beijing  
24          Organising Committee of the Olympic Games repeat-

1 edly refused to address incidents involving freedom  
2 of expression.

3 (7) The International Olympic Committee faced  
4 broad criticism for failing to adequately anticipate  
5 infringements by the Government of the PRC's on  
6 freedom of expression and press for international  
7 media and 2008 Olympics participants, and failing  
8 to hold the Government of the PRC to their own  
9 commitments to safeguard human rights during the  
10 2008 games.

11 (b) SENSE OF CONGRESS.—It is the sense of Con-  
12 gress that the International Olympic Committee should—

13 (1) consider that the Olympic Charter's prin-  
14 ciples of solidarity and nondiscrimination are hard to  
15 reconcile with holding the 2022 Winter Games in a  
16 country the government of which stands credibly ac-  
17 cused of perpetrating crimes against humanity and  
18 genocide against ethnic and religious minorities;

19 (2) take into account the recent precedent of  
20 the 2008 games, at which Olympic athletes, spec-  
21 tators, and international media had their funda-  
22 mental freedoms severely challenged, and the likely  
23 limitations the Government of the PRC will seek to  
24 enforce on participants speaking out about ongoing  
25 persecution of the Uyghurs and other human rights

1 abuses in the PRC, despite repeated commitments  
2 by the Government of the PRC;

3 (3) emphasize that the International Olympic  
4 Committee is not opposed to moving an Olympic  
5 competition in all circumstances, and should imme-  
6 diately rebid the 2022 Winter Olympic Games to be  
7 hosted by a country that recognizes and respects  
8 human rights;

9 (4) develop a framework for reprimanding or  
10 disqualifying host cities and the countries in which  
11 they are located if the governments of such countries  
12 are actively committing mass atrocities—

13 (A) during the Olympic and Paralympic  
14 bidding process; or

15 (B) between a city's election as a host city  
16 and the duration of the Olympic and  
17 Paralympic Games that its government is  
18 hosting;

19 (5) affirm the International Olympic Commit-  
20 tee's—

21 (A) desire to stay above politics does not  
22 permit turning a blind eye to mass atrocity  
23 crimes, which cannot and should not be dis-  
24 missed as mere political concerns; and

1 (B) commitment to the fundamental rights  
2 instruments of the international system, which  
3 are beyond partisan or domestic policy, and  
4 upon which the success of the entire Olympic  
5 project depends;

6 (6) not hold future Olympic games in countries  
7 that are committing genocide;

8 (7) propose a set of clear, executable actions to  
9 be taken by the International Olympic Committee  
10 upon infringement of freedom of expression by a  
11 host country's government during any Olympics  
12 event, including the 2022 Winter Olympics, against  
13 athletes, participants, and international media; and

14 (8) rescind Rule 50 of the Olympic Charter,  
15 which restricts the freedom of expression by athletes  
16 when competing during Olympics events, and affirm  
17 the rights of athletes to political and other speech  
18 during athletic competitions, including speech that is  
19 critical of their host countries.

20 (c) STATEMENT OF POLICY.—It shall be the policy  
21 of the United States—

22 (1) to implement a presidential and cabinet  
23 level diplomatic boycott of the XXIV Olympic Winter  
24 Games and the XIII Paralympic Winter Games in  
25 the PRC;

1           (2) to encourage other nations, especially demo-  
2           cratic partners and allies, to do the same; and

3           (3) to call for an end to the Chinese Communist  
4           Party's ongoing human rights abuses, including the  
5           Uyghur genocide.

6 **SEC. 30316. REVIEW AND CONTROLS ON EXPORT OF ITEMS**  
7                           **WITH CRITICAL CAPABILITIES TO ENABLE**  
8                           **HUMAN RIGHTS ABUSES.**

9           (a) STATEMENT OF POLICY.—It is the policy of the  
10          United States to use export controls to the extent nec-  
11          essary to further the protection of internationally recog-  
12          nized human rights.

13          (b) REVIEW OF ITEMS WITH CRITICAL CAPABILITIES  
14          TO ENABLE HUMAN RIGHTS ABUSES.—Not later than  
15          180 days after the date of the enactment of this Act, and  
16          as appropriate thereafter, the Secretary, in coordination  
17          with the Secretary of State, the Director of National Intel-  
18          ligence, and the heads of other Federal agencies as appro-  
19          priate, shall conduct a review of items subject to controls  
20          for crime control reasons pursuant to section 742.7 of the  
21          Export Administration Regulations.

22          (c) CONTROLS.—In furtherance of the policy set forth  
23          in subsection (a), not later than 60 days after completing  
24          the review required by subsection (b), the Secretary, in  
25          coordination with the heads of other Federal agencies as

1 appropriate, shall determine whether additional export  
2 controls are needed to protect human rights, including  
3 whether—

4           (1) controls for crime control reasons pursuant  
5           to section 742.7 of the Export Administration Regu-  
6           lations should be imposed on additional items, in-  
7           cluding items with critical capabilities to enable  
8           human rights abuses involving—

9                   (A) censorship or social control;

10                   (B) surveillance, interception, or restriction  
11           of communications;

12                   (C) monitoring or restricting access to or  
13           use of the internet;

14                   (D) identification of individuals through  
15           facial or voice recognition or biometric indica-  
16           tors; or

17                   (E) DNA sequencing; or

18           (2) end-use and end-user controls should be im-  
19           posed on the export, reexport, or in-country transfer  
20           of certain items with critical capabilities to enable  
21           human rights abuses that are subject to the Export  
22           Administration Regulations if the person seeking to  
23           export, reexport, or transfer the item has knowledge,  
24           or the Secretary determines and so informs that per-

1 son, that the end-user or ultimate consignee will use  
2 the item to enable human rights abuses.

3 (d) COOPERATION OF OTHER AGENCIES.—Upon re-  
4 quest from the Secretary, the head of a Federal agency  
5 shall provide full support and cooperation to the Secretary  
6 in carrying out this section.

7 (e) INTERNATIONAL COORDINATION ON CONTROLS  
8 TO PROTECT HUMAN RIGHTS.—It shall be the policy of  
9 the United States to seek to secure the cooperation of  
10 other governments to impose export controls that are con-  
11 sistent, to the extent possible, with the controls imposed  
12 under this section.

13 (f) REPORT.—Not later than 180 days after the date  
14 of the enactment of this Act, the Secretary shall submit  
15 to the appropriate committees of Congress (including the  
16 Permanent Select Committee on Intelligence of the House  
17 of Representatives and the Select Committee on Intel-  
18 ligence of the Senate) a report on the matters covered by  
19 this section. The report shall be submitted in unclassified  
20 form, but may include a classified annex.

21 (g) CONFORMING AMENDMENT.—Section 1752(2)(A)  
22 of the Export Control Reform Act of 2018 (50 U.S.C. 20  
23 4811(2)(A)) is amended—

24 (1) in clause (iv), by striking “; or” and insert-  
25 ing a semicolon;

1           (2) in clause (v), by striking the period and in-  
2           serting “; or”; and

3           (3) by adding at the end the following:

4                           “(vi) serious human rights abuses.”.

5           (h) DEFINITIONS.—In this section:

6           (1) END-USER; KNOWLEDGE; ULTIMATE CON-  
7           SIGNEE.—The terms “end-user”, “knowledge”, and  
8           “ultimate consignee” have the meanings given those  
9           terms in section 772.1 of the Export Administration  
10          Regulations.

11          (2) EXPORT; EXPORT ADMINISTRATION REGU-  
12          LATIONS; IN-COUNTRY TRANSFER; ITEM; REEX-  
13          PORT.—The terms “export”, “Export Administra-  
14          tion Regulations”, “in-country transfer”, “item”,  
15          and “reexport” have the meanings given those terms  
16          in section 1742 of the Export Control Reform Act  
17          of 2018 (50 U.S.C. 4801).

18          (3) SECRETARY.—The term “Secretary” means  
19          the Secretary of Commerce.

20   **SEC. 30317. SENSE OF CONGRESS ON COMMERCIAL EXPORT**  
21                           **CONTROL POLICY.**

22          It is the sense of Congress that the President should  
23          reexamine United States commercial export control policy  
24          for any country, including the People’s Republic of China,  
25          that is known to supply arms or dual use items to any

1 country the government of which has been designated pur-  
2 suant to any applicable provision of law as a state sponsor  
3 of terrorism or to any entity designated by the Secretary  
4 of State as a foreign terrorist organization.

5 **SEC. 30318. IMPOSITION OF SANCTIONS WITH RESPECT TO**  
6 **SYSTEMATIC RAPE, COERCIVE ABORTION,**  
7 **FORCED STERILIZATION, OR INVOLUNTARY**  
8 **CONTRACEPTIVE IMPLANTATION IN THE**  
9 **XINJIANG UYGHUR AUTONOMOUS REGION.**

10 (a) IN GENERAL.—Section 6(a)(1) of the Uyghur  
11 Human Rights Policy Act of 2020 (Public Law 116–145;  
12 22 U.S.C. 6901 note) is amended by inserting after sub-  
13 paragraph (E) the following:

14 “(F) Systematic rape, coercive abortion,  
15 forced sterilization, or involuntary contraceptive  
16 implantation policies and practices.”

17 (b) EFFECTIVE DATE; APPLICABILITY.—The amend-  
18 ment made by subsection (a)—

19 (1) takes effect on the date of the enactment of  
20 this Act; and

21 (2) applies with respect to the first report re-  
22 quired by section 6(a)(1) of the Uyghur Human  
23 Rights Policy Act of 2020 submitted after such date  
24 of enactment.

1 **SEC. 30319. SENSE OF CONGRESS REGARDING CENSORSHIP**  
2 **OF POLITICAL SPEECH.**

3 (a) FINDINGS.—Congress finds the following:

4 (1) The People’s Republic of China censors po-  
5 litical speech of throughout the country through  
6 many means including through mass censorship of  
7 the Internet, the Great Firewall, radical curtailment  
8 of the freedom of the press.

9 (2) The PRC employs several other means to  
10 stifle dissent including instigating private person to  
11 target dissenting individuals and private companies  
12 to target offending companies.

13 (b) SENSE OF CONGRESS.—It is the sense of Con-  
14 gress that—

15 (1) censorship of political speech in China is  
16 contrary to the human rights of the Chinese people;

17 (2) censorship of political speech, whether con-  
18 ducted by the government, or private or quasi-pri-  
19 vate entities is antithetical to United States values  
20 and interests; and

21 (3) the democratic way to conduct political dis-  
22 putes is through argument and persuasion, not force  
23 or political speech.

1 **SEC. 30320. REPORT ON MANNER AND EXTENT TO WHICH**  
2 **THE GOVERNMENT OF CHINA EXPLOITS**  
3 **HONG KONG TO CIRCUMVENT UNITED**  
4 **STATES LAWS AND PROTECTIONS.**

5 Title III of the United States-Hong Kong Policy Act  
6 of 1992 (22 U.S.C. 5731 et seq.) is amended by adding  
7 at the end the following:

8 **“SEC. 303. REPORT ON MANNER AND EXTENT TO WHICH**  
9 **THE GOVERNMENT OF CHINA EXPLOITS**  
10 **HONG KONG TO CIRCUMVENT UNITED**  
11 **STATES LAWS AND PROTECTIONS.**

12 “(a) IN GENERAL.—Not later than 180 days after  
13 the date of the enactment of this section, the Secretary  
14 of State shall submit to the appropriate congressional  
15 committees a report on the manner and extent to which  
16 the Government of China uses the status of Hong Kong  
17 to circumvent the laws and protections of the United  
18 States.

19 “(b) ELEMENTS.—The report required by subsection  
20 (a) shall include the following:

21 “(1) In consultation with the Secretary of Com-  
22 merce, the Secretary of Homeland Security, and the  
23 Director of National Intelligence—

24 “(A) an assessment of how the Govern-  
25 ment of China uses Hong Kong to circumvent  
26 United States export controls; and

1           “(B) a list of all significant incidents in  
2           which the Government of China used Hong  
3           Kong to circumvent such controls during the re-  
4           porting period.

5           “(2) In consultation with the Secretary of the  
6           Treasury and the Secretary of Commerce—

7           “(A) an assessment of how the Govern-  
8           ment of China uses Hong Kong to circumvent  
9           duties on merchandise exported to the United  
10          States from the People’s Republic of China; and

11          “(B) a list of all significant incidents in  
12          which the Government of China used Hong  
13          Kong to circumvent such duties during the re-  
14          porting period.

15          “(3) In consultation with the Secretary of the  
16          Treasury, the Secretary of Homeland Security, and  
17          the Director of National Intelligence—

18          “(A) an assessment of how the Govern-  
19          ment of China uses Hong Kong to circumvent  
20          sanctions imposed by the United States or pur-  
21          suant to multilateral regimes; and

22          “(B) a list of all significant incidents in  
23          which the Government of China used Hong  
24          Kong to circumvent such sanctions during the  
25          reporting period.

1           “(4) In consultation with the Secretary of  
2 Homeland Security and the Director of National In-  
3 telligence, an assessment of how the Government of  
4 China uses formal or informal means to extradite or  
5 coercively move individuals, including United States  
6 persons, from Hong Kong to the People’s Republic  
7 of China.

8           “(5) In consultation with the Secretary of De-  
9 fense, the Director of National Intelligence, and the  
10 Director of Homeland Security—

11                   “(A) an assessment of how the intelligence,  
12 security, and law enforcement agencies of the  
13 Government of China, including the Ministry of  
14 State Security, the Ministry of Public Security,  
15 and the People’s Armed Police, use the Hong  
16 Kong Security Bureau and other security agen-  
17 cies in Hong Kong to conduct espionage on for-  
18 eign nationals, including United States persons,  
19 conduct influence operations, or violate civil lib-  
20 erties guaranteed under the laws of Hong  
21 Kong; and

22                   “(B) a list of all significant incidents of  
23 such espionage, influence operations, or viola-  
24 tions of civil liberties during the reporting pe-  
25 riod.

1 “(c) FORM OF REPORT; AVAILABILITY.—

2 “(1) FORM.—The report required by subsection  
3 (a) shall be submitted in unclassified form, but may  
4 include a classified index.

5 “(2) AVAILABILITY.—The unclassified portion  
6 of the report required by subsection (a) shall be  
7 posted on a publicly available internet website of the  
8 Department of State.

9 “(d) DEFINITIONS.—In this section:

10 “(1) APPROPRIATE CONGRESSIONAL COMMIT-  
11 TEES.—The term ‘appropriate congressional com-  
12 mittees’ means—

13 “(A) the Committee on Foreign Relations,  
14 the Committee on Banking, Housing, and  
15 Urban Affairs, the Committee on Finance, and  
16 the Select Committee on Intelligence of the  
17 Senate; and

18 “(B) the Committee on Foreign Affairs,  
19 the Committee on Financial Services, the Per-  
20 manent Select Committee on Intelligence, and  
21 the Committee on Ways and Means of the  
22 House of Representatives.

23 “(2) FOREIGN NATIONAL.—The term ‘foreign  
24 national’ means a person that is neither—

1           “(A) an individual who is a citizen or na-  
2           tional of the People’s Republic of China; or

3           “(B) an entity organized under the laws of  
4           the People’s Republic of China or of a jurisdic-  
5           tion within the People’s Republic of China.

6           “(3) REPORTING PERIOD.—The term ‘reporting  
7           period’ means the 5-year period preceding submis-  
8           sion of the report required by subsection (a).

9           “(4) UNITED STATES PERSON.—The term  
10          ‘United States person’ means—

11           “(A) a United States citizen or an alien  
12           lawfully admitted for permanent residence to  
13           the United States; or

14           “(B) an entity organized under the laws of  
15           the United States or of any jurisdiction within  
16           the United States, including a foreign branch of  
17           such an entity.”.

18 **SEC. 30321. SENSE OF CONGRESS REGARDING ANNUAL**  
19 **COUNTRY REPORTS ON HUMAN RIGHTS**  
20 **PRACTICES.**

21          It is the sense of Congress that the Department of  
22 State’s annual Country Reports on Human Rights Prac-  
23 tices should include relevant information regarding wheth-  
24 er a particular country has provided assistance to the PRC  
25 or any entity under the influence of the Chinese Com-

1    munist Party in its genocide against the Uyghurs, includ-  
2    ing through the forcible repatriation of Uyghurs to the  
3    PRC without reasonable opportunity for them to be as-  
4    sessed and protected as refugees.

5    **SEC. 30322. SENSE OF CONGRESS REGARDING PRESS FREE-**  
6                                   **DOM IN THE PEOPLE'S REPUBLIC OF CHINA.**

7           (a) FINDINGS.—Congress finds that the People's Re-  
8    public of China maintains one of the worst media environ-  
9    ments in the world and seeks to curtail political speech  
10   inside and outside the country, including by—

11           (1) targeting independent and foreign media in  
12    China through systematic harassment including the  
13    denial of visas to foreign journalists, imprisonment,  
14    the denial of medical care to imprisoned journalists,  
15    and curtailing access to legal representation;

16           (2) pervasively monitoring and censoring online  
17    and social media content, including through the ban-  
18    ning of virtual private networks;

19           (3) using the full force of the State to stifle in-  
20    ternal dissent including dissent online, particularly  
21    dissent that could lead to political change and con-  
22    tent that criticizes China's leaders, however trivial,  
23    reportedly even to the point of censoring compari-  
24    sons of Xi Jinping's looks with Winnie the Pooh;

1           (4) spreading propaganda to foreign audiences  
2 through the United Front Work Department and re-  
3 lated activities;

4           (5) seeking to intimidate American-based jour-  
5 nalists working for Radio Free Asia and reporting  
6 on gross human rights violations in China’s Xinjiang  
7 Uyghur Autonomous Region by jailing or otherwise  
8 harassing members of their families; and

9           (6) championing a “sovereign Internet” model  
10 and exporting technology to enhance the ability of  
11 like-minded authoritarian regimes to suppress dis-  
12 sent online and monitor the activity of their people.

13       (b) SENSE OF CONGRESS.—It is the sense of Con-  
14 gress that—

15           (1) the freedom of the press is an unalienable  
16 right that is necessary for citizens to hold their gov-  
17 ernment to account;

18           (2) the PRC should cease its repression of jour-  
19 nalists, citizen journalists, news organizations; and

20           (3) the PRC should cease the censorship of po-  
21 litical satire, including comparisons of Xi Jinping’s  
22 looks with Winnie the Pooh.

1 **SEC. 30323. UNITED STATES SPECIAL ENVOY FOR XINJIANG**  
2 **PROVINCE.**

3 (a) IN GENERAL.—The Secretary of State shall es-  
4 tablish within the Department of State the position of  
5 United States Special Envoy for Xinjiang Province (in this  
6 section referred to as the “Special Envoy”).

7 (b) APPOINTMENT.—The Secretary may appoint an  
8 individual to the position of Special Envoy from among  
9 officers and employees of the Department of State. The  
10 Secretary may allow such officer or employee to retain the  
11 position (and the responsibilities associated with such po-  
12 sition) held by such officer or employee prior to the ap-  
13 pointment of such officer or employee to the position of  
14 Special Envoy.

15 (c) DUTIES.—The Special Envoy shall coordinate  
16 diplomatic, political, public diplomacy, financial assist-  
17 ance, sanctions, counterterrorism, security resources, and  
18 congressional reporting requirements within the United  
19 States Government to respond to the gross violations of  
20 universally recognized human rights occurring in Xinjiang  
21 Province of the People’s Republic of China, including by  
22 addressing—

23 (1) the mass detentions of Uyghurs and other  
24 predominantly Muslim ethnic minorities;

25 (2) the deployment of technologically advanced  
26 surveillance and police detection methods; and

1           (3) the counterterrorism and counter-radicalism  
2           claims used to justify the policies of the Chinese  
3           Government in Xinjiang Province.

4 **SEC. 30324. CHINA CENSORSHIP MONITOR AND ACTION**  
5           **GROUP.**

6           (a) REPORT ON CENSORSHIP AND INTIMIDATION OF  
7           UNITED STATES PERSONS BY THE GOVERNMENT OF THE  
8           PEOPLE'S REPUBLIC OF CHINA.—

9           (1) REPORT.—

10           (A) IN GENERAL.—Not later than 90 days  
11           after the date of the enactment of this Act, the  
12           Secretary of State shall select and seek to enter  
13           into an agreement with a qualified research en-  
14           tity that is independent of the Department of  
15           State to write a report on censorship and in-  
16           timidation in the United States and its posses-  
17           sions and territories of United States persons,  
18           including United States companies that conduct  
19           business in the People's Republic of China,  
20           which is directed or directly supported by the  
21           Government of the People's Republic of China.

22           (B) MATTERS TO BE INCLUDED.—The re-  
23           port required under subparagraph (A) shall—

24           (i) assess major trends, patterns, and  
25           methods of the Government of the People's

1 Republic of China's efforts to direct or di-  
2 rectly support censorship and intimidation  
3 of United States persons, including United  
4 States companies that conduct business in  
5 the People's Republic of China, which are  
6 exercising their right to freedom of speech;

7 (ii) assess, including through the use  
8 of illustrative examples, as appropriate, the  
9 impact on and consequences for United  
10 States persons, including United States  
11 companies that conduct business in the  
12 People's Republic of China, that criticize—

13 (I) the Government of the Peo-  
14 ple's Republic of China;

15 (II) the Chinese Communist  
16 Party;

17 (III) the authoritarian model of  
18 government of the People's Republic  
19 of China; or

20 (IV) a particular policy advanced  
21 by the Chinese Communist Party or  
22 the Government of the People's Re-  
23 public of China;

1 (iii) identify the implications for the  
2 United States of the matters described in  
3 clauses (i) and (ii);

4 (iv) assess the methods and evaluate  
5 the efficacy of the efforts by the Govern-  
6 ment of the People’s Republic of China to  
7 limit freedom of expression in the private  
8 sector, including with respect to media, so-  
9 cial media, film, education, travel, financial  
10 services, sports and entertainment, tech-  
11 nology, telecommunication, and internet in-  
12 frastructure interests;

13 (v) include policy recommendations  
14 for the United States Government, includ-  
15 ing recommendations regarding collabora-  
16 tion with United States allies and partners,  
17 to address censorship and intimidation by  
18 the Government of the People’s Republic of  
19 China; and

20 (vi) include policy recommendations  
21 for United States persons, including  
22 United States companies that conduct  
23 business in China, to address censorship  
24 and intimidation by the Government of the  
25 People’s Republic of China.

1 (C) APPLICABILITY TO UNITED STATES  
2 ALLIES AND PARTNERS.—To the extent prac-  
3 ticable, the report required under subparagraph  
4 (A) should identify implications and policy rec-  
5 ommendations that are relevant to United  
6 States allies and partners facing censorship and  
7 intimidation directed or directly supported by  
8 the Government of the People’s Republic of  
9 China.

10 (2) SUBMISSION OF REPORT.—

11 (A) IN GENERAL.—Not later than one year  
12 after the date of the enactment of this Act, the  
13 Secretary of State shall submit the report writ-  
14 ten by the qualified research entity selected  
15 pursuant to paragraph (1)(A) to the appro-  
16 priate congressional committees.

17 (B) PUBLICATION.—The report referred to  
18 in subparagraph (A) shall be made accessible to  
19 the public online through relevant United  
20 States Government websites.

21 (3) FEDERAL GOVERNMENT SUPPORT.—The  
22 Secretary of State and other Federal agencies se-  
23 lected by the President shall provide the qualified re-  
24 search entity selected pursuant to paragraph (1)(A)  
25 with timely access to appropriate information, data,

1 resources, and analyses necessary for such entity to  
2 write the report described in paragraph (1) in a  
3 thorough and independent manner.

4 (b) CHINA CENSORSHIP MONITOR AND ACTION  
5 GROUP.—

6 (1) CERTIFICATION.—Upon receipt and review  
7 of the report described in subsection (a), the Presi-  
8 dent shall make a determination on whether the  
9 Government of the People’s Republic of China en-  
10 engages in the censorship and intimidation of United  
11 States persons, including United States companies  
12 that conduct business in the People’s Republic of  
13 China, which are exercising their right to freedom of  
14 speech, taking into account the contents of the re-  
15 port and other information available to the govern-  
16 ment of the United States.

17 (2) IN GENERAL.—If there is a determination  
18 under paragraph (1) that the Government of the  
19 People’s Republic of China engages in the censorship  
20 and intimidation of United States persons, including  
21 United States companies that conduct business in  
22 the People’s Republic of China, which are exercising  
23 their right to freedom of speech, the President shall  
24 establish an interagency task force, which shall be  
25 known as the “China Censorship Monitor and Action

1 Group” (referred to in this section as the “Task  
2 Force”).

3 (3) MEMBERSHIP.—If, upon receipt and review  
4 of the report described in subsection (a), he deems  
5 it in the national interest, the President shall—

6 (A) appoint the chair of the Task Force  
7 from among the staff of the National Security  
8 Council;

9 (B) appoint the vice chair of the Task  
10 Force from among the staff of the National  
11 Economic Council; and

12 (C) direct the head of each of the following  
13 executive branch agencies to appoint personnel  
14 to participate in the Task Force:

15 (i) The Department of State.

16 (ii) The Department of Commerce.

17 (iii) The Department of the Treasury.

18 (iv) The Department of Justice.

19 (v) The Office of the United States  
20 Trade Representative.

21 (vi) The Office of the Director of Na-  
22 tional Intelligence, and other appropriate  
23 elements of the intelligence community (as  
24 defined in section 3 of the National Secu-  
25 rity Act of 1947 (50 U.S.C. 3003)).

1 (vii) The Federal Communications  
2 Commission.

3 (viii) The United States Agency for  
4 Global Media.

5 (ix) Other agencies designated by the  
6 President.

7 (4) RESPONSIBILITIES.—The Task Force  
8 shall—

9 (A) oversee the development and execution  
10 of an integrated Federal Government strategy  
11 to monitor and address the impacts of efforts  
12 directed, or directly supported, by the Govern-  
13 ment of the People’s Republic of China to cen-  
14 sor or intimidate, in the United States or in  
15 any of its territories, any United States person,  
16 including United States companies that conduct  
17 business in the People’s Republic of China,  
18 which are exercising their right to freedom of  
19 speech; and

20 (B) submit the strategy developed pursu-  
21 ant to subparagraph (A) to the appropriate  
22 congressional committees not later than 120  
23 days after the date of the enactment of this  
24 Act.

1           (5) MEETINGS.—The Task Force shall meet  
2 not less frequently than twice per year.

3           (6) CONSULTATIONS.—The Task Force should  
4 regularly consult, to the extent necessary and appro-  
5 priate, with—

6                   (A) Federal agencies that are not rep-  
7 resented on the Task Force;

8                   (B) independent agencies of the United  
9 States Government that are not represented on  
10 the Task Force;

11                   (C) relevant stakeholders in the private  
12 sector and the media; and

13                   (D) relevant stakeholders among United  
14 States allies and partners facing similar chal-  
15 lenges related to censorship or intimidation by  
16 the Government of the People’s Republic of  
17 China.

18           (7) REPORTING REQUIREMENTS.—

19                   (A) ANNUAL REPORT.—The Task Force  
20 shall submit an annual report to the appro-  
21 priate congressional committees that describes,  
22 with respect to the reporting period—

23                           (i) the strategic objectives and policies  
24 pursued by the Task Force to address the  
25 challenges of censorship and intimidation

1 of United States persons while in the  
2 United States or any of its territories,  
3 which is directed or directly supported by  
4 the Government of the People's Republic of  
5 China;

6 (ii) the activities conducted by the  
7 Task Force in support of the strategic ob-  
8 jectives and policies referred to in clause  
9 (i); and

10 (iii) the results of the activities re-  
11 ferred to in clause (ii) and the impact of  
12 such activities on the national interests of  
13 the United States.

14 (B) FORM OF REPORT.—Each report sub-  
15 mitted pursuant to subparagraph (A) shall be  
16 unclassified, but may include a classified annex.

17 (C) CONGRESSIONAL BRIEFINGS.—Not  
18 later than 90 days after the date of the enact-  
19 ment of this Act, and annually thereafter, the  
20 Task Force shall provide briefings to the appro-  
21 priate congressional committees regarding the  
22 activities of the Task Force to execute the  
23 strategy developed pursuant to paragraph  
24 (3)(A).

1 (c) SUNSET.—This section shall terminate on the  
2 date that is five years after the date of the enactment of  
3 this Act.

4 (d) DEFINITIONS.—In this section:

5 (1) APPROPRIATE CONGRESSIONAL COMMIT-  
6 TEES.—The term “appropriate congressional com-  
7 mittees” includes the Permanent Select Committee  
8 on Intelligence of the House of Representatives and  
9 the Select Committee on Intelligence of the Senate.

10 (2) QUALIFIED RESEARCH ENTITY.—The term  
11 “qualified research entity” means an entity that—

12 (A) is a nonpartisan research organization  
13 or a federally funded research and development  
14 center;

15 (B) has appropriate expertise and analyt-  
16 ical capability to write the report required  
17 under subsection (a); and

18 (C) is free from any financial, commercial,  
19 or other entanglements, which could undermine  
20 the independence of such report or create a  
21 conflict of interest or the appearance of a con-  
22 flict of interest, with—

23 (i) the Government of the People’s  
24 Republic of China;

25 (ii) the Chinese Communist Party;

1 (iii) any company incorporated in the  
2 People's Republic of China or a subsidiary  
3 of such company; or

4 (iv) any company or entity incor-  
5 porated outside of the People's Republic of  
6 China that is believed to have a substantial  
7 financial or commercial interest in the Peo-  
8 ple's Republic of China.

9 (3) UNITED STATES PERSON.—The term  
10 “United States person” means—

11 (A) a United States citizen or an alien law-  
12 fully admitted for permanent residence to the  
13 United States; or

14 (B) an entity organized under the laws of  
15 the United States or any jurisdiction within the  
16 United States, including a foreign branch of  
17 such an entity.

18 **SEC. 30325. PUBLIC DISCLOSURE ON BIS LICENSING INFOR-**  
19 **MATION.**

20 The Committee on Foreign Affairs of the House of  
21 Representatives shall make aggregate statistics on licens-  
22 ing information, ensuring all confidential business infor-  
23 mation is protected, for PRC companies on the Entity List  
24 contained in the Export Administration Regulations avail-  
25 able to the public.

1 **SEC. 30326. MODIFICATION OF AUTHORITY OF THE PRESI-**  
2 **DENT UNDER THE EXPORT CONTROL RE-**  
3 **FORM ACT OF 2018.**

4 Section 1753(a)(2)(F) of the Export Control Reform  
5 Act of 2018 (50 U.S.C. 4812(a)(2)(F)) is amended by in-  
6 serting “, security, or” before “intelligence”.

7 **SEC. 30327. DETERMINATION WITH RESPECT TO THE IMPO-**  
8 **SITION OF SANCTIONS ON ENTITIES IN-**  
9 **VOLVED IN USING UYGHUR FORCED LABOR.**

10 (a) FINDINGS.—Congress finds the following:

11 (1) U.S. Customs and Border Protection seized  
12 a shipment of 40.31 megawatts of modules manufac-  
13 tured by LONGi Green Energy Technology Co. in  
14 October 2021 out of the concerns that LONGi used  
15 forced Uyghur labor in Xinjiang.

16 (2) The Department of Commerce added five  
17 Chinese entities to the entity list for participating in  
18 using forced Uyghur labor in Xinjiang in June  
19 2021, these entities include: Hoshine Silicon Indus-  
20 try (Shanshan) Co., Ltd, Xinjiang Daqo New En-  
21 ergy Co., Ltd, Xinjiang East Hope Nonferrous Met-  
22 als Co., Ltd, and Xinjiang GCL New Energy,  
23 Xinjiang Production and Construction Corps  
24 (XPCC).

25 (3) The Uyghur Human Rights Policy Act of  
26 2021 (Public Law 116–145), as amended by Public

1 Law 117–78, requires the President to impose asset  
2 blocking sanctions on foreign persons responsible for  
3 serious human rights abuses in connection with  
4 forced labor in Xinjiang, China.

5 (b) IN GENERAL.—Not later than 180 days after the  
6 date of the enactment of this Act, the Secretary of the  
7 Treasury, in consultation with the Secretary of State, shall  
8 report to the appropriate congressional committees a de-  
9 termination, including a detailed justification, regarding  
10 whether LONGi Green Energy Technology Co., Hoshine  
11 Silicon Industry (Shanshan) Co., Ltd, Xinjiang Daqo New  
12 Energy Co., Ltd, Xinjiang East Hope Nonferrous Metals  
13 Co., Ltd, and Xinjiang GCL New Energy, each meets the  
14 criteria for designation under section 6 of the Uyghur  
15 Human Rights Policy Act (Public Law 116–145), as  
16 amended by section 5 of the Uyghur Forced Labor Pre-  
17 vention Act (Public Law 117–78).

18 (c) PUBLIC AVAILABILITY OF INFORMATION.—The  
19 report required under this section shall be made available  
20 on a publicly available website of the Federal Government.

21 (d) APPROPRIATE CONGRESSIONAL COMMITTEES  
22 DEFINED.—In this section, the term “appropriate con-  
23 gressional committees” means—

24 (1) the Committee on Banking, Housing, and  
25 Urban Affairs, the Committee on Finance, the Com-

1 mittee on Foreign Relations, and the Committee on  
2 Armed Services of the Senate; and

3 (2) the Committee on Financial Services, the  
4 Committee on Ways and Means, the Committee on  
5 Foreign Affairs, and the Committee on Armed Serv-  
6 ices of the House of Representatives.

7 **TITLE IV—INVESTING IN OUR**  
8 **ECONOMIC STATECRAFT**

9 **SEC. 30401. SENSE OF CONGRESS REGARDING THE PEO-**  
10 **PLE’S REPUBLIC OF CHINA’S INDUSTRIAL**  
11 **POLICY.**

12 It is the sense of Congress that—

13 (1) the challenges presented by a nonmarket  
14 economy like the economy of the People’s Republic  
15 of China (PRC), which has captured such a large  
16 share of global economic exchange, are in many  
17 ways unprecedented and require sufficiently elevated  
18 and sustained long-term focus and engagement;

19 (2) in order to truly address the most detri-  
20 mental aspects of Chinese Communist Party (CCP)-  
21 directed mercantilist economic strategy, the United  
22 States must adopt policies that—

23 (A) expose the full scope and scale of intel-  
24 lectual property theft and mass subsidization of  
25 Chinese firms, and the resulting harm to the

1 United States, foreign markets, and the global  
2 economy;

3 (B) ensure that PRC companies face costs  
4 and consequences for anticompetitive behavior;

5 (C) provide options for affected United  
6 States persons to address and respond to un-  
7 reasonable and discriminatory CCP-directed in-  
8 dustrial policies; and

9 (D) strengthen the protection of critical  
10 technology and sensitive data, while still fos-  
11 tering an environment that provides incentives  
12 for secure but open investment, innovation, and  
13 competition;

14 (3) the United States must work with its allies  
15 and partners and multilateral venues and fora—

16 (A) to reinforce long-standing generally ac-  
17 cepted principles of fair competition and market  
18 behavior and address the PRC's anticompetitive  
19 economic and industrial policies that undermine  
20 decades of global growth and innovation;

21 (B) to ensure that the PRC is not granted  
22 the same treatment as that of a free-market  
23 economy until it ceases the implementation of  
24 laws, regulations, policies, and practices that  
25 provide unfair advantage to PRC firms in fur-

1 therance of national objectives and impose un-  
2 reasonable, discriminatory, and illegal burdens  
3 on market-based international commerce; and

4 (C) to align policies with respect to curbing  
5 state-directed subsidization of the private sec-  
6 tor, such as advocating for global rules related  
7 to transparency and adherence to notification  
8 requirements, including through the efforts cur-  
9 rently being advanced by the United States,  
10 Japan, and the European Union;

11 (4) the United States and its allies and part-  
12 ners must collaborate to provide incentives to their  
13 respective companies to cooperate in areas such as—

14 (A) advocating for protection of intellectual  
15 property rights in markets around the world;

16 (B) fostering open technical standards;  
17 and

18 (C) increasing joint investments in over-  
19 seas markets; and

20 (5) the United States should develop policies  
21 that—

22 (A) insulate United States entities from  
23 PRC pressure against complying with United  
24 States laws;

1 (B) together with the work of allies and  
2 partners and multilateral institutions, counter  
3 the potential impact of the blocking regime of  
4 the PRC established by the Ministry of Com-  
5 merce of the PRC on January 9, 2021, when  
6 it issued Order No. 1 of 2021, entitled “Rules  
7 on Counteracting Unjustified Extraterritorial  
8 Application of Foreign Legislation and other  
9 Measures”; and

10 (C) plan for future actions that the Gov-  
11 ernment of the PRC may take to undermine the  
12 lawful application of United States legal au-  
13 thorities, including with respect to the use of  
14 sanctions.

15 **SEC. 30402. ECONOMIC DEFENSE RESPONSE TEAMS.**

16 (a) PILOT PROGRAM.—Not later than 180 days after  
17 the date of the enactment of this Act, the President shall  
18 develop and implement a pilot program for the creation  
19 of deployable economic defense response teams to help  
20 provide emergency technical assistance and support to a  
21 country subjected to the threat or use of coercive economic  
22 measures (in this section referred to as a “partner coun-  
23 try”) and to play a liaison role between the legitimate gov-  
24 ernment of that country and the United States Govern-

1 ment. Such assistance and support may include the fol-  
2 lowing activities:

3           (1) Reducing the partner country's vulnerability  
4           to coercive economic measures.

5           (2) Minimizing the damage that such measures  
6           by an adversary could cause to the partner country.

7           (3) Implementing any bilateral or multilateral  
8           contingency plans that may exist for responding to  
9           the threat or use of such measures.

10          (4) In coordination with the partner country,  
11          developing or improving plans and strategies by the  
12          country for reducing vulnerabilities and improving  
13          responses to such measures in the future.

14          (5) Assisting the partner country in dealing  
15          with foreign sovereign investment in infrastructure  
16          or related projects that may undermine the partner  
17          country's sovereignty.

18          (6) Assisting the partner country in responding  
19          to specific efforts from an adversary attempting to  
20          employ economic coercion that undermines the part-  
21          ner country's sovereignty, including efforts in the  
22          cyber domain, such as efforts that undermine cyber-  
23          security or digital security of the partner country or  
24          initiatives that introduce digital technologies in a

1 manner that undermines freedom, security, and sov-  
2 ereignty of the partner country.

3 (7) Otherwise providing direct and relevant  
4 short-to-medium term economic or other assistance  
5 from the United States and marshalling other re-  
6 sources in support of effective responses to such  
7 measures.

8 (b) REPORTS REQUIRED.—

9 (1) REPORT ON ESTABLISHMENT.—Upon estab-  
10 lishment of the pilot program required by subsection  
11 (a), the Secretary of State, in consultation with  
12 other relevant Federal agencies and offices, shall  
13 provide the appropriate congressional committees  
14 with a detailed report and briefing describing the  
15 pilot program, the major elements of the program,  
16 the personnel and institutions involved, and the de-  
17 gree to which the program incorporates the elements  
18 described in subsection (a).

19 (2) FOLLOW-UP REPORT.—Not later than one  
20 year after the date on which the report required by  
21 paragraph (1) is submitted, the Secretary of State,  
22 in consultation with other relevant Federal agencies  
23 and offices, shall provide the appropriate congres-  
24 sional committees with a detailed report and briefing  
25 describing the operations over the previous year of

1 the pilot program established pursuant to subsection  
2 (a), as well as the Secretary's assessment of its per-  
3 formance and suitability for becoming a permanent  
4 program.

5 (3) FORM.—Each report required under this  
6 subsection shall be submitted in unclassified form,  
7 but may include a classified annex.

8 (c) DECLARATION OF AN ECONOMIC CRISIS RE-  
9 QUIRED.—

10 (1) NOTIFICATION.—The President may acti-  
11 vate an economic defense response team for a period  
12 of 180 days under the authorities of this section to  
13 assist a partner country in responding to an unusual  
14 and extraordinary economic coercive threat by an  
15 adversary of the United States upon the declaration  
16 of a coercive economic emergency, together with no-  
17 tification to the Committee on Foreign Relations of  
18 the Senate and the Committee on Foreign Affairs of  
19 the House of Representatives.

20 (2) EXTENSION AUTHORITY.—The President  
21 may activate the response team for an additional  
22 180 days upon the submission of a detailed analysis  
23 to the committees described in paragraph (1) justi-  
24 fying why the continued deployment of the economic  
25 defense response team in response to the economic

1 emergency is in the national security interest of the  
2 United States.

3 (d) SUNSET.—The authorities provided under this  
4 section shall expire on December 31, 2026.

5 (e) RULE OF CONSTRUCTION.—Neither the authority  
6 to declare an economic crisis provided for in subsection  
7 (d), nor the declaration of an economic crisis pursuant to  
8 subsection (d), shall confer or be construed to confer any  
9 authority, power, duty, or responsibility to the President  
10 other than the authority to activate an economic defense  
11 response team as described in this section.

12 (f) APPROPRIATE COMMITTEES OF CONGRESS DE-  
13 FINED.—In this section, the term “appropriate congres-  
14 sional committees” means—

15 (1) the Committee on Foreign Relations, the  
16 Committee on Banking, Housing, and Urban Af-  
17 fairs, the Committee on Commerce, Science, and  
18 Transportation, the Committee on Energy and Nat-  
19 ural Resources, the Committee on Agriculture, Nu-  
20 trition, and Forestry, and the Committee on Finance  
21 of the Senate; and

22 (2) the Committee on Foreign Affairs, the  
23 Committee on Financial Services, the Committee on  
24 Energy and Commerce, the Committee on Agri-

1 culture, and the Committee on Ways and Means of  
2 the House of Representatives.

3 **SEC. 30403. COUNTERING OVERSEAS KLEPTOCRACY.**

4 (a) FINDINGS.—Congress finds the following:

5 (1) Authoritarian leaders in foreign countries  
6 abuse their power to steal assets from state institu-  
7 tions, enrich themselves at the expense of their coun-  
8 tries' economic development, and use corruption as  
9 a strategic tool both to solidify their grip on power  
10 and to undermine democratic institutions abroad.

11 (2) Global corruption harms the competitiveness  
12 of United States businesses, weakens democratic  
13 governance, feeds terrorist recruitment and  
14 transnational organized crime, enables drug smug-  
15 gling and human trafficking, and stymies economic  
16 growth.

17 (3) Illicit financial flows often penetrate coun-  
18 tries through what appear to be legitimate financial  
19 transactions, as kleptocrats launder money, use shell  
20 companies, amass offshore wealth, and participate in  
21 a global shadow economy.

22 (4) The Government of the Russian Federation  
23 is a leading model of this type of kleptocratic sys-  
24 tem, using state-sanctioned corruption to both erode  
25 democratic governance from within and discredit de-

1       mocracy abroad, thereby strengthening the authori-  
2       tarian rule of Vladimir Putin.

3               (5) Corrupt individuals and entities in the Rus-  
4       sian Federation, often with the backing and encour-  
5       agement of political leadership, use stolen money—

6               (A) to purchase key assets in other coun-  
7       tries, often with a goal of attaining monopolistic  
8       control of a sector;

9               (B) to gain access to and influence the  
10      policies of other countries; and

11              (C) to advance Russian interests in other  
12      countries, particularly those that undermine  
13      confidence and trust in democratic systems.

14              (6) Systemic corruption in the People’s Repub-  
15      lic of China (PRC), often tied to, directed by, or  
16      backed by the leadership of the Chinese Communist  
17      Party (CCP) and the Government of the PRC is  
18      used—

19              (A) to provide unfair advantage to certain  
20      PRC economic entities;

21              (B) to increase other countries’ economic  
22      dependence on the PRC to secure greater def-  
23      erence to the PRC’s diplomatic and strategic  
24      goals; and

1 (C) to exploit corruption in foreign govern-  
2 ments and among other political elites to enable  
3 PRC state-backed firms to pursue predatory  
4 and exploitative economic practices.

5 (7) Thwarting these tactics by Russian, Chi-  
6 nese, and other kleptocratic actors requires the  
7 international community to strengthen democratic  
8 governance and the rule of law. International co-  
9 operation in combating corruption and illicit finance  
10 is vital to such efforts, especially by empowering re-  
11 formers in foreign countries during historic political  
12 openings for the establishment of the rule of law in  
13 those countries.

14 (8) Technical assistance programs that combat  
15 corruption and strengthen the rule of law, including  
16 through assistance provided by the Department of  
17 State's Bureau of International Narcotics and Law  
18 Enforcement Affairs and the United States Agency  
19 for International Development, and through pro-  
20 grams like the Department of Justice's Office of  
21 Overseas Prosecutorial Development, Assistance and  
22 Training and the International Criminal Investiga-  
23 tive Training Assistance Program, can have lasting  
24 and significant impacts for both foreign and United  
25 States interests.

1           (9) There currently exist numerous inter-  
2 national instruments to combat corruption,  
3 kleptocracy, and illicit finance, including—

4           (A) the Inter-American Convention against  
5 Corruption of the Organization of American  
6 States, done at Caracas March 29, 1996;

7           (B) the Convention on Combating Bribery  
8 of Foreign Public Officials in International  
9 Business Transactions of the Organisation of  
10 Economic Co-operation and Development, done  
11 at Paris December 21, 1997 (commonly re-  
12 ferred to as the “Anti-Bribery Convention”);

13           (C) the United Nations Convention against  
14 Transnational Organized Crime, done at New  
15 York November 15, 2000;

16           (D) the United Nations Convention against  
17 Corruption, done at New York October 31,  
18 2003;

19           (E) Recommendation of the Council for  
20 Further Combating Bribery of Foreign Public  
21 Officials in International Business Trans-  
22 actions, adopted November 26, 2009; and

23           (F) recommendations of the Financial Ac-  
24 tion Task Force comprising the International  
25 Standards on Combating Money Laundering

1           and the Financing of Terrorism and Prolifera-  
2           tion.

3           (b) DEFINITIONS.—In this section:

4           (1) APPROPRIATE CONGRESSIONAL COMMIT-  
5           TEES.—The term “appropriate congressional com-  
6           mittees” means—

7                   (A) the Committee on Foreign Relations,  
8                   the Committee on Banking, Housing, and  
9                   Urban Affairs, the Committee on Finance, the  
10                  Committee on the Judiciary, and the Select  
11                  Committee on Intelligence, and the Committee  
12                  on Appropriations of the Senate;

13                   (B) the Committee on Foreign Affairs, the  
14                   Committee on Financial Services, the Com-  
15                   mittee on Ways and Means, the Committee on  
16                   the Judiciary, and the Permanent Select Com-  
17                   mittee on Intelligence, and the Committee on  
18                   Appropriations of the House of Representatives.

19           (2) FOREIGN ASSISTANCE.—The term “foreign  
20           assistance” means foreign assistance authorized  
21           under the Foreign Assistance Act of 1961 (22  
22           U.S.C. 2251 et seq.).

23           (3) FOREIGN STATE.—The term “foreign state”  
24           has the meaning given such term in section 1603(a)  
25           of title 28, United States Code.

1           (4) INTELLIGENCE COMMUNITY.—The term  
2 “intelligence community” has the meaning given  
3 such term in section 3(4) of the National Security  
4 Act of 1947 (50 U.S.C. 3003(4)).

5           (5) PUBLIC CORRUPTION.—The term “public  
6 corruption” includes the unlawful exercise of en-  
7 trusted public power for private gain, such as  
8 through bribery, nepotism, fraud, extortion, or em-  
9 bezzlement.

10          (6) RULE OF LAW.—The term “rule of law”  
11 means the principle of governance in which all per-  
12 sons, institutions, and entities, whether public or  
13 private, including the state, are accountable to laws  
14 that are—

15                   (A) publicly promulgated;

16                   (B) equally enforced;

17                   (C) independently adjudicated; and

18                   (D) consistent with international human  
19 rights norms and standards.

20          (e) STATEMENT OF POLICY.—It is the policy of the  
21 United States—

22                   (1) to leverage United States diplomatic en-  
23 gagement and foreign assistance to promote the rule  
24 of law;

1           (2)(A) to promote international instruments to  
2 combat corruption, kleptocracy, and illicit finance,  
3 including instruments referred to in subsection  
4 (a)(9), and other relevant international standards  
5 and best practices, as such standards and practices  
6 develop; and

7           (B) to promote the adoption and implementa-  
8 tion of such laws, standards, and practices by for-  
9 eign states;

10          (3) to support foreign states in promoting good  
11 governance and combating public corruption;

12          (4) to encourage and assist foreign partner  
13 countries to identify and close loopholes in their  
14 legal and financial architecture, including the misuse  
15 of anonymous shell companies and other legal struc-  
16 tures, that are enabling illicit finance to penetrate  
17 their financial systems;

18          (5) to help foreign partner countries to inves-  
19 tigate, prosecute, adjudicate, and more generally  
20 combat the use of corruption by malign actors, in-  
21 cluding authoritarian governments, particularly the  
22 Government of the Russian Federation and the Gov-  
23 ernment of the People's Republic of China, as a tool  
24 of malign influence worldwide;

1           (6) to assist in the recovery of kleptocracy-re-  
2           lated stolen assets for victims, including through the  
3           use of appropriate bilateral arrangements and inter-  
4           national agreements, such as the United Nations  
5           Convention against Corruption, done at New York  
6           October 31, 2003, and the United Nations Conven-  
7           tion against Transnational Organized Crime, done at  
8           New York November 15, 2000;

9           (7) to use sanctions authorities, such as the  
10          Global Magnitsky Human Rights Accountability Act  
11          (subtitle F of title XII of the National Defense Au-  
12          thorization Act for Fiscal Year 2017 (Public Law  
13          114–328; 22 U.S.C. 2656 note)) and section  
14          7031(e) of the Department of State, Foreign Oper-  
15          ations, and Related Programs Appropriations Act,  
16          2020 (division G of Public Law 116–94), to identify  
17          and take action against corrupt foreign actors;

18          (8) to ensure coordination between relevant  
19          Federal departments and agencies with jurisdiction  
20          over the advancement of good governance in foreign  
21          states; and

22          (9) to lead the creation of a formal grouping of  
23          like-minded states—

24                  (A) to coordinate efforts to counter corrup-  
25                  tion, kleptocracy, and illicit finance; and

1 (B) to strengthen collective financial de-  
2 fense.

3 (d) ANTI-CORRUPTION ACTION FUND.—

4 (1) ESTABLISHMENT.—There is established in  
5 the United States Treasury a fund, to be known as  
6 the “Anti-Corruption Action Fund”, only for the  
7 purposes of—

8 (A) strengthening the capacity of foreign  
9 states to prevent and fight public corruption;

10 (B) assisting foreign states to develop rule  
11 of law-based governance structures, including  
12 accountable civilian police, prosecutorial, and  
13 judicial institutions;

14 (C) supporting foreign states to strengthen  
15 domestic legal and regulatory frameworks to  
16 combat public corruption, including the adop-  
17 tion of best practices under international law;  
18 and

19 (D) supplementing existing foreign assist-  
20 ance and diplomacy with respect to efforts de-  
21 scribed in subparagraphs (A), (B), and (C).

22 (2) FUNDING.—

23 (A) TRANSFERS.—Beginning on or after  
24 the date of the enactment of this Act, if total  
25 criminal fines and penalties in excess of

1           \$50,000,000 are imposed against a person  
2           under the Foreign Corrupt Practices Act of  
3           1977 (Public Law 95–213) or section 13, 30A,  
4           or 32 of the Securities Exchange Act of 1934  
5           (15 U.S.C. 78m, 78dd–1, and 78ff), whether  
6           pursuant to a criminal prosecution, enforcement  
7           proceeding, deferred prosecution agreement,  
8           nonprosecution agreement, a declination to  
9           prosecute or enforce, or any other resolution,  
10          the court (in the case of a conviction) or the At-  
11          torney General shall impose an additional pre-  
12          vention payment equal to \$5,000,000 against  
13          such person, which shall be deposited in the  
14          Anti-Corruption Action Fund established under  
15          paragraph (1). Amounts deposited into such  
16          Fund under this subparagraph shall be credited  
17          as discretionary offsetting collections.

18                 (B) AVAILABILITY OF FUNDS.—Amounts  
19                 deposited into the Anti-Corruption Action Fund  
20                 pursuant to subparagraph (A) shall be available  
21                 to the Secretary of State only to the extent and  
22                 in such amounts as provided in advance in ap-  
23                 propriations Acts for the purposes described in  
24                 paragraph (1).

1           (C) LIMITATION.—None of the amounts  
2           made available to the Secretary of State from  
3           the Anti-Corruption Action Fund may be used  
4           inside the United States, except for administra-  
5           tive costs related to overseas program imple-  
6           mentation pursuant to paragraph (1).

7           (3) SUPPORT.—The Anti-Corruption Action  
8           Fund—

9           (A) may support governmental and non-  
10           governmental parties in advancing the purposes  
11           described in paragraph (1); and

12           (B) shall be allocated in a manner com-  
13           plementary to existing United States foreign as-  
14           sistance, diplomacy, and anti-corruption activi-  
15           ties.

16           (4) ALLOCATION AND PRIORITIZATION.—In  
17           programming foreign assistance made available  
18           through the Anti-Corruption Action Fund, the Sec-  
19           retary of State, in coordination with the Attorney  
20           General, shall prioritize projects that—

21           (A) assist countries that are undergoing  
22           historic opportunities for democratic transition,  
23           combating corruption, and the establishment of  
24           the rule of law; and

1           (B) are important to United States na-  
2           tional interests.

3           (5) TECHNICAL ASSISTANCE PROVIDERS.—For  
4           any technical assistance to a foreign governmental  
5           party under this section, the Secretary of State, in  
6           coordination with the Attorney General, shall  
7           prioritize United States Government technical assist-  
8           ance providers as implementers, in particular the Of-  
9           fice of Overseas Prosecutorial Development, Assist-  
10          ance and Training and the International Criminal  
11          Investigative Training Assistance Program at the  
12          Department of Justice.

13          (6) PUBLIC DIPLOMACY.—The Secretary of  
14          State shall announce that funds deposited in the  
15          Anti-Corruption Action Fund are derived from ac-  
16          tions brought under the Foreign Corrupt Practices  
17          Act to demonstrate that the use of such funds are—

18                (A) contributing to international anti-cor-  
19                ruption work; and

20                (B) reducing the pressure that United  
21                States businesses face to pay bribes overseas,  
22                thereby contributing to greater competitiveness  
23                of United States companies.

24          (7) REPORTING.—Not later than 1 year after  
25          the date of the enactment of this Act and not less

1 frequently than annually thereafter, the Secretary of  
2 State shall submit a report to the appropriate con-  
3 gressional committees that contains—

4 (A) the balance of the funding remaining  
5 in the Anti-Corruption Action Fund;

6 (B) the amount of funds that have been  
7 deposited into the Anti-Corruption Action  
8 Fund; and

9 (C) a summary of the obligation and ex-  
10 penditure of such funds.

11 (8) NOTIFICATION REQUIREMENTS.—None of  
12 the amounts made available to the Secretary of  
13 State from the Anti-Corruption Action Fund pursu-  
14 ant to this section shall be available for obligation,  
15 or for transfer to other departments, agencies, or en-  
16 tities, unless the Secretary of State notifies the  
17 Committee on Foreign Relations of the Senate, the  
18 Committee on Appropriations of the Senate, the  
19 Committee on Foreign Affairs of the House of Rep-  
20 resentatives, and the Committee on Appropriations  
21 of the House of Representatives, not later than 15  
22 days in advance of such obligation or transfer.

23 (e) INTERAGENCY ANTI-CORRUPTION TASK  
24 FORCE.—

1           (1) IN GENERAL.—The Secretary of State, in  
2 cooperation with the Interagency Anti-Corruption  
3 Task Force established pursuant to paragraph (2),  
4 shall manage a whole-of-government effort to im-  
5 prove coordination among Federal departments and  
6 agencies and donor organizations with a role in—

7                   (A) promoting good governance in foreign  
8 states; and

9                   (B) enhancing the ability of foreign states  
10 to combat public corruption.

11           (2) INTERAGENCY ANTI-CORRUPTION TASK  
12 FORCE.—Not later than 180 days after the date of  
13 the enactment of this Act, the Secretary of State  
14 shall establish and convene the Interagency Anti-  
15 Corruption Task Force (referred to in this section as  
16 the “Task Force”), which shall be composed of rep-  
17 resentatives appointed by the President from appro-  
18 priate departments and agencies, including the De-  
19 partment of State, the United States Agency for  
20 International Development, the Department of Jus-  
21 tice, the Department of the Treasury, the Depart-  
22 ment of Homeland Security, the Department of De-  
23 fense, the Department of Commerce, the Millennium  
24 Challenge Corporation, and the intelligence commu-  
25 nity.

1           (3) ADDITIONAL MEETINGS.—The Task Force  
2 shall meet not less frequently than twice per year.

3           (4) DUTIES.—The Task Force shall—

4                   (A) evaluate, on a general basis, the effec-  
5 tiveness of existing foreign assistance programs,  
6 including programs funded by the Anti-Corrup-  
7 tion Action Fund, that have an impact on—

8                           (i) promoting good governance in for-  
9 eign states; and

10                           (ii) enhancing the ability of foreign  
11 states to combat public corruption;

12                   (B) assist the Secretary of State in man-  
13 aging the whole-of-government effort described  
14 in paragraph (1);

15                   (C) identify general areas in which such  
16 whole-of-government effort could be enhanced;  
17 and

18                   (D) recommend specific programs for for-  
19 eign states that may be used to enhance such  
20 whole-of-government effort.

21           (5) BRIEFING REQUIREMENT.—Not later than  
22 1 year after the date of the enactment of this Act  
23 and not less frequently than annually thereafter  
24 through the end of fiscal year 2026, the Secretary  
25 of State shall provide a briefing to the appropriate

1 congressional committees regarding the ongoing  
2 work of the Task Force. Each briefing shall include  
3 the participation of a representative of each of the  
4 departments and agencies described in paragraph  
5 (2), to the extent feasible.

6 (f) DESIGNATION OF EMBASSY ANTI-CORRUPTION  
7 POINTS OF CONTACT.—

8 (1) EMBASSY ANTI-CORRUPTION POINT OF CON-  
9 TACT.—The chief of mission of each United States  
10 embassy shall designate an anti-corruption point of  
11 contact for each such embassy.

12 (2) DUTIES.—The designated anti-corruption  
13 points of contact designated pursuant to paragraph  
14 (1) shall—

15 (A) coordinate, in accordance with guid-  
16 ance from the Interagency Anti-Corruption  
17 Task Force established pursuant to subsection  
18 (e)(2), an interagency approach within United  
19 States embassies to combat public corruption in  
20 the foreign states in which such embassies are  
21 located that is tailored to the needs of such for-  
22 eign states, including all relevant Federal de-  
23 partments and agencies with a presence in such  
24 foreign states, such as the Department of State,  
25 the United States Agency for International De-

1           velopment, the Department of Justice, the De-  
2           partment of the Treasury, the Department of  
3           Homeland Security, the Department of De-  
4           fense, the Millennium Challenge Corporation,  
5           and the intelligence community;

6           (B) make recommendations regarding the  
7           use of the Anti-Corruption Action Fund and  
8           other foreign assistance funding related to anti-  
9           corruption efforts in their respective countries  
10          of responsibility that aligns with United States  
11          diplomatic engagement; and

12          (C) ensure that anti-corruption activities  
13          carried out within their respective countries of  
14          responsibility are included in regular reporting  
15          to the Secretary of State and the Interagency  
16          Anti-Corruption Task Force, including United  
17          States embassy strategic planning documents  
18          and foreign assistance-related reporting, as ap-  
19          propriate.

20          (3) TRAINING.—The Secretary of State shall  
21          develop and implement appropriate training for the  
22          designated anti-corruption points of contact.

23          (g) REPORTING REQUIREMENTS.—

24                  (1) REPORT OR BRIEFING ON PROGRESS TO-  
25          WARD IMPLEMENTATION.—Not later than 180 days

1 after the date of the enactment of this Act, and an-  
2 nually thereafter for the following 3 years, the Sec-  
3 retary of State, in consultation with the Adminis-  
4 trator of the United States Agency for International  
5 Development, the Attorney General, and the Sec-  
6 retary of the Treasury, shall submit a report or pro-  
7 vide a briefing to the appropriate congressional com-  
8 mittees that summarizes progress made in com-  
9 bating public corruption and in implementing this  
10 Act, including—

11 (A) identifying opportunities and priorities  
12 for outreach with respect to promoting the  
13 adoption and implementation of relevant inter-  
14 national law and standards in combating public  
15 corruption, kleptocracy, and illicit finance;

16 (B) describing—

17 (i) the bureaucratic structure of the  
18 offices within the Department of State and  
19 the United States Agency for International  
20 Development that are engaged in activities  
21 to combat public corruption, kleptocracy,  
22 and illicit finance; and

23 (ii) how such offices coordinate their  
24 efforts with each other and with other rel-  
25 evant Federal departments and agencies;

1 (C) providing a description of how the pro-  
2 visions under paragraphs (4) and (5) of sub-  
3 section (d) have been applied to each project  
4 funded by the Anti-Corruption Action Fund;

5 (D) providing an explanation as to why a  
6 United States Government technical assistance  
7 provider was not used if technical assistance to  
8 a foreign governmental entity is not imple-  
9 mented by a United States Government tech-  
10 nical assistance provider;

11 (E) describing the activities of the Inter-  
12 agency Anti-Corruption Task Force established  
13 pursuant to subsection (e)(2);

14 (F) identifying—

15 (i) the designated anti-corruption  
16 points of contact for foreign states; and

17 (ii) any training provided to such  
18 points of contact; and

19 (G) recommending additional measures  
20 that would enhance the ability of the United  
21 States Government to combat public corruption,  
22 kleptocracy, and illicit finance overseas.

23 (2) ONLINE PLATFORM.—The Secretary of  
24 State, in conjunction with the Administrator of the  
25 United States Agency for International Develop-

1 ment, should consolidate existing reports with anti-  
2 corruption components into a single online, public  
3 platform that includes—

4 (A) the Annual Country Reports on  
5 Human Rights Practices required under section  
6 116 of the Foreign Assistance Act of 1961 (22  
7 U.S.C. 2151n);

8 (B) the Fiscal Transparency Report re-  
9 quired under section 7031(b) of the Depart-  
10 ment of State, Foreign Operations and Related  
11 Programs Appropriations Act, 2019 (division F  
12 of Public Law 116–6);

13 (C) the Investment Climate Statement re-  
14 ports;

15 (D) the International Narcotics Control  
16 Strategy Report;

17 (E) any other relevant public reports; and

18 (F) links to third-party indicators and  
19 compliance mechanisms used by the United  
20 States Government to inform policy and pro-  
21 gramming, as appropriate, such as—

22 (i) the International Finance Corpora-  
23 tion’s Doing Business surveys;

24 (ii) the International Budget Partner-  
25 ship’s Open Budget Index; and

1 (iii) multilateral peer review anti-cor-  
2 ruption compliance mechanisms, such as—

3 (I) the Organisation for Eco-  
4 nomic Co-operation and Develop-  
5 ment’s Working Group on Bribery in  
6 International Business Transactions;

7 (II) the Follow-Up Mechanism  
8 for the Inter-American Convention  
9 Against Corruption; and

10 (III) the United Nations Conven-  
11 tion Against Corruption, done at New  
12 York October 31, 2003.

13 **SEC. 30404. ANNUAL REPORT ON CHINESE SURVEILLANCE**  
14 **COMPANIES.**

15 (a) IN GENERAL.—Not later than 180 days after the  
16 date of the enactment of this Act, and annually thereafter  
17 until 2040, the Secretary of State, in coordination with  
18 the Director of National Intelligence, shall submit to the  
19 Committee on Foreign Affairs and Permanent Select  
20 Committee on Intelligence of the House of Representa-  
21 tives, and the Committee on Foreign Relations and the  
22 Select Committee on Intelligence of the Senate, a report  
23 with respect to persons in China that the Secretary deter-  
24 mines—

1           (1) have operated, sold, leased, or otherwise  
2 provided, directly or indirectly, items or services re-  
3 lated to targeted digital surveillance to—

4           (A) a foreign government or entity located  
5 primarily inside a foreign country where a rea-  
6 sonable person would assess that such transfer  
7 could result in a use of the items or services in  
8 a manner contrary to human rights; or

9           (B) a country or any governmental unit  
10 thereof, entity, or other person determined by  
11 the Secretary of State, in a notice published in  
12 the Federal Register, to have used items or  
13 services for targeted digital surveillance in a  
14 manner contrary to human rights; or

15           (2) have materially assisted, sponsored, or pro-  
16 vided financial, material, or technological support  
17 for, or items or services to or in support of, the ac-  
18 tivities described in paragraph (1).

19           (b) MATTERS TO BE INCLUDED.—The report re-  
20 quired by subsection (a) shall include the following:

21           (1) The name of each foreign person that the  
22 Secretary determines—

23           (A) meets the requirements of subsection  
24 (a)(1); and

1 (B) meets the requirements of subsection  
2 (a)(2).

3 (2) The name of each intended and actual re-  
4 cipient of items or services described in subsection  
5 (a).

6 (3) A detailed description of such items or serv-  
7 ices.

8 (4) An analysis of the appropriateness of in-  
9 cluding the persons listed in (b)(1) on the entity list  
10 maintained by the Bureau of Industry and Security.

11 (c) CONSULTATION.—In compiling data and making  
12 assessments for the purposes of preparing the report re-  
13 quired by subsection (a), the Secretary of State shall con-  
14 sult with a wide range of organizations, including with re-  
15 spect to—

16 (1) classified and unclassified information pro-  
17 vided by the Director of National Intelligence;

18 (2) information provided by the Bureau of De-  
19 mocracy, Human Rights, and Labor’s Internet Free-  
20 dom, Business and Human Rights section;

21 (3) information provided by the Department of  
22 Commerce, including the Bureau of Industry and  
23 Security;

24 (4) information provided by the advisory com-  
25 mittees established by the Secretary to advise the

1 Under Secretary of Commerce for Industry and Se-  
2 curity on controls under the Export Administration  
3 Regulations, including the Emerging Technology and  
4 Research Advisory Committee;

5 (5) information on human rights and tech-  
6 nology matters, as solicited from civil society and  
7 human rights organizations through regular consult-  
8 ative processes; and

9 (6) information contained in the Country Re-  
10 ports on Human Rights Practices published annually  
11 by the Department of State.

12 (d) FORM AND PUBLIC AVAILABILITY OF REPORT.—  
13 The report required by subsection (a) shall be submitted  
14 in unclassified form. The report shall be posted by the  
15 President not later than 14 days after being submitted  
16 to Congress on a text-based, searchable, and publicly avail-  
17 able internet website.

18 (e) DEFINITIONS.—In this section:

19 (1) TARGETED DIGITAL SURVEILLANCE.—The  
20 term “targeted digital surveillance” means the use  
21 of items or services that enable an individual or enti-  
22 ty to detect, monitor, intercept, collect, exploit, pre-  
23 serve, protect, transmit, retain, or otherwise gain ac-  
24 cess to the communications, protected information,  
25 work product, browsing data, research, identifying

1 information, location history, or online and offline  
2 activities of other individuals, organizations, or enti-  
3 ties, with or without the explicit authorization of  
4 such individuals, organizations, or entities.

5 (2) FOREIGN PERSON.—The term “foreign per-  
6 son” means an individual or entity that is not a  
7 United States person.

8 (3) IN A MANNER CONTRARY TO HUMAN  
9 RIGHTS.—The term “in a manner contrary to  
10 human rights”, with respect to targeted digital sur-  
11 veillance, means engaging in targeted digital surveil-  
12 lance—

13 (A) in violation of basic human rights, in-  
14 cluding to silence dissent, sanction criticism,  
15 punish independent reporting (and sources for  
16 that reporting), manipulate or interfere with  
17 democratic or electoral processes, persecute mi-  
18 norities or vulnerable groups, or target advo-  
19 cates or practitioners of human rights and  
20 democratic rights (including activists, journal-  
21 ists, artists, minority communities, or opposi-  
22 tion politicians); or

23 (B) in a country in which there is lacking  
24 a minimum legal framework governing its use,  
25 including established—

1 (i) authorization under laws that are  
2 accessible, precise, and available to the  
3 public;

4 (ii) constraints limiting its use under  
5 principles of necessity, proportionality, and  
6 legitimacy;

7 (iii) oversight by bodies independent  
8 of the government's executive agencies;

9 (iv) involvement of an independent  
10 and impartial judiciary branch in author-  
11 izing its use; or

12 (v) legal remedies in case of abuse.

13 **SEC. 30405. REPORT ON THE PEOPLE'S REPUBLIC OF CHI-**  
14 **NA'S INVESTMENTS IN FOREIGN MINING AND**  
15 **PROCESSING INDUSTRIES.**

16 (a) IN GENERAL.—No later than 180 days after the  
17 date of the enactment of this Act and annually thereafter  
18 for five years, the Secretary of State, in consultation with  
19 the Secretary of Commerce and Secretary of Homeland  
20 Security, shall submit to the Committee on Foreign Af-  
21 fairs, the Committee on Energy and Commerce, and the  
22 Committee on Homeland Security of the House of Rep-  
23 resentatives and the Committee on Foreign Relations, the  
24 Committee on Finance, and the Committee on Homeland  
25 Security and Governmental Affairs a report that—

1           (1) describes the involvement of the Govern-  
2           ment of the People’s Republic of China (PRC), state  
3           sponsored companies, and companies incorporated in  
4           the PRC in the exploration, planning, development,  
5           operation, production, financing, or ownership of  
6           mining or processing facilities in countries identified  
7           in the United States Geological Survey’s (USGS)  
8           Annual Mineral Commodity Summaries for which  
9           the United States imports minerals, metals, and ma-  
10          terials; and

11           (2) evaluates strategic or security concerns and  
12          implications for United States national security and  
13          economic interests and the interests of the countries  
14          identified pursuant to paragraph (1) with respect to  
15          the PRC’s involvement and influence in developing  
16          the country’s mining and processing industries.

17          (b) PUBLICATION.—The report required under sub-  
18          section (a) shall be published on the respective websites  
19          of the Department of State, the Department of Commerce,  
20          and the Department of Homeland Security.

1 **TITLE V—ENSURING STRATEGIC**  
2 **SECURITY**

3 **SEC. 30501. COOPERATION ON A STRATEGIC NUCLEAR DIA-**  
4 **LOGUE.**

5 (a) STATEMENT OF POLICY.—It is the policy of the  
6 United States—

7 (1) to pursue, in coordination with United  
8 States allies and partners, arms control negotiations  
9 and sustained and regular engagement with the Peo-  
10 ple’s Republic of China (PRC)—

11 (A) to enhance understanding of each oth-  
12 er’s respective nuclear policies, doctrine, and ca-  
13 pabilities;

14 (B) to improve transparency; and

15 (C) to help manage the risks of miscalcula-  
16 tion and misperception;

17 (2) to formulate a strategy to engage the Gov-  
18 ernment of the PRC on relevant issues that lays the  
19 groundwork for a constructive arms control frame-  
20 work, including—

21 (A) fostering dialogue on arms control  
22 leading to the convening of strategic security  
23 talks;

24 (B) negotiating norms for outer space;

1 (C) developing pre-launch notification re-  
2 gimes aimed at reducing nuclear miscalculation;  
3 and

4 (D) expanding lines of communication be-  
5 tween both governments for the purposes of re-  
6 ducing the risks of conventional war and in-  
7 creasing transparency;

8 (3) to pursue relevant negotiations in coordina-  
9 tion with United States allies and partners to ensure  
10 the security of United States and allied interests to  
11 slow the PRC's military modernization and expan-  
12 sion, including on—

13 (A) ground-launched cruise and ballistic  
14 missiles;

15 (B) integrated air and missile defense;

16 (C) hypersonic missiles;

17 (D) intelligence, surveillance, and recon-  
18 naissance;

19 (E) space-based capabilities;

20 (F) cyber capabilities; and

21 (G) command, control, and communica-  
22 tions; and

23 (4) to ensure that the United States policy con-  
24 tinues to reassure United States allies and partners.

1 (b) SENSE OF CONGRESS.—It is the sense of Con-  
2 gress that—

3 (1) it is in the interest of the United States and  
4 China to cooperate in reducing risks of conventional  
5 and nuclear escalation;

6 (2) a physical, cyber, electronic, or any other  
7 People’s Liberation Army (PLA) attack on United  
8 States early warning satellites, other portions of the  
9 nuclear command and control enterprise, or critical  
10 infrastructure poses a high risk to inadvertent but  
11 rapid escalation;

12 (3) the United States and its allies and part-  
13 ners should promote international norms on military  
14 operations in space, the employment of cyber capa-  
15 bilities, and the military use of artificial intelligence,  
16 as an element of risk reduction regarding nuclear  
17 command and control; and

18 (4) United States allies and partners should  
19 share the burden of promoting and protecting norms  
20 regarding the weaponization of space, highlighting  
21 unsafe behavior that violates international norms,  
22 such as in rendezvous and proximity operations, and  
23 promoting responsible behavior in space and all  
24 other domains.

1 **SEC. 30502. REPORT ON UNITED STATES EFFORTS TO EN-**  
2 **GAGE THE PEOPLE'S REPUBLIC OF CHINA ON**  
3 **NUCLEAR ISSUES AND BALLISTIC MISSILE**  
4 **ISSUES.**

5 (a) REPORT ON THE FUTURE OF UNITED STATES-  
6 PRC ARMS CONTROL.—Not later than 180 days after the  
7 date of the enactment of this Act, the Secretary of State,  
8 in coordination with the Secretary of Defense and the Sec-  
9 retary of Energy, shall submit to the appropriate congres-  
10 sional committees a report, and if necessary a separate  
11 classified annex, that outlines the approaches and strate-  
12 gies such Secretaries will pursue to engage the Govern-  
13 ment of the People's Republic of China (PRC) on arms  
14 control and risk reduction, including—

15 (1) areas of potential dialogue between the Gov-  
16 ernments of the United States and the PRC, includ-  
17 ing on ballistic, hypersonic glide, and cruise missiles,  
18 conventional forces, nuclear, space, and cyberspace  
19 issues, as well as other new strategic domains, which  
20 could reduce the likelihood of war, limit escalation if  
21 a conflict were to occur, and constrain a desta-  
22 bilizing arms race in the Indo-Pacific region;

23 (2) how the United States Government can en-  
24 gage the Government of the PRC in a constructive  
25 arms control dialogue;

1           (3) identifying strategic military capabilities of  
2           the PRC that the United States Government is most  
3           concerned about and how limiting these capabilities  
4           may benefit United States and allied security inter-  
5           ests;

6           (4) mechanisms to avoid, manage, or control  
7           nuclear, conventional, and unconventional military  
8           escalation between the United States and the PRC;

9           (5) the personnel and expertise required to ef-  
10          fectively engage the PRC in strategic stability and  
11          arms control dialogues; and

12          (6) opportunities and methods to encourage  
13          transparency from the PRC.

14          (b) REPORT ON ARMS CONTROL TALKS WITH  
15          PRC.—Not later than 180 days after the date of the en-  
16          actment of this Act, the Secretary of State, in consultation  
17          with the Secretary of Defense and the Secretary of En-  
18          ergy, shall submit to the appropriate congressional com-  
19          mittees a report that describes—

20                (1) a concrete plan for arms control talks with  
21                the PRC;

22                (2) if a bilateral arms control dialogue does not  
23                arise, what alternative plans the Department of  
24                State envisages for ensuring the security of the

1 United States and its allies through international  
2 arms control negotiations;

3 (3) effects on the credibility of United States  
4 extended deterrence assurances to allies and part-  
5 ners if arms control negotiations do not materialize  
6 and the implications for regional security architec-  
7 tures;

8 (4) efforts at engaging the PRC to join arms  
9 control talks, whether on a bilateral or international  
10 basis; and

11 (5) the interest level of the Government of PRC  
12 in joining arms control talks, whether on a bilateral  
13 or international basis, including through—

14 (A) a formal invitation to appropriate offi-  
15 cials from the PRC, and to each of the perma-  
16 nent members of the United Nations Security  
17 Council, to observe a United States-Russian  
18 Federation New START Treaty on-site inspec-  
19 tion to demonstrate the security benefits of  
20 transparency into strategic nuclear forces;

21 (B) discussions on how to advance inter-  
22 national negotiations on the fissile material cut-  
23 off;

24 (C) an agreement with the PRC that al-  
25 lows for advance notifications of ballistic missile

1 launches, through the Hague Code of Conduct  
2 or other data exchanges or doctrine discussions  
3 related to strategic nuclear forces;

4 (D) an agreement not to target or interfere  
5 in nuclear command, control, and communica-  
6 tions (commonly referred to as “NC3”) infra-  
7 structure; or

8 (E) any other cooperative measure that  
9 benefits United States-PRC strategic stability.

10 (c) APPROPRIATE CONGRESSIONAL COMMITTEES DE-  
11 FINED.—In this section, the term “appropriate congres-  
12 sional committees” means—

13 (1) the Committee on Foreign Relations, the  
14 Committee on Armed Services, and the Committee  
15 on Energy and Natural Resources of the Senate;  
16 and

17 (2) the Committee on Foreign Affairs, the  
18 Committee on Armed Services, and the Committee  
19 on Energy and Commerce of the House of Rep-  
20 resentatives.

1 **SEC. 30503. COUNTERING THE PEOPLE'S REPUBLIC OF CHI-**  
2 **NA'S PROLIFERATION OF BALLISTIC MIS-**  
3 **SILES AND NUCLEAR TECHNOLOGY TO THE**  
4 **MIDDLE EAST.**

5 (a) MTCR TRANSFERS.—Not later than 30 days  
6 after the date of the enactment of this Act, the President  
7 shall submit to the appropriate congressional committees  
8 a written determination, and any documentation to sup-  
9 port that determination detailing—

10 (1) whether any foreign person in the People's  
11 Republic of China (PRC) knowingly exported, trans-  
12 ferred, or engaged in trade of any item designated  
13 under Category I of the MTCR Annex to any foreign  
14 person in the previous three fiscal years; and

15 (2) the sanctions the President has imposed or  
16 intends to impose pursuant to section 11B(b) of the  
17 Export Administration Act of 1979 (50 U.S.C.  
18 4612(b)) against any foreign person who knowingly  
19 engaged in the export, transfer, or trade of that item  
20 or items.

21 (b) PRC'S NUCLEAR FUEL CYCLE COOPERATION.—  
22 Not later than 30 days after the date of the enactment  
23 of this Act, the President shall submit to the appropriate  
24 committees of Congress a report detailing—

25 (1) whether any foreign person in the PRC en-  
26 gaged in cooperation with any other foreign person

1 in the previous three fiscal years in the construction  
2 of any nuclear-related fuel cycle facility or activity  
3 that has not been notified to the International  
4 Atomic Energy Agency and would be subject to com-  
5plementary access if an Additional Protocol was in  
6 force; and

7 (2) the policy options required to prevent and  
8 respond to any future effort by the PRC to export  
9 to any foreign person an item classified as “plants  
10 for the separation of isotopes of uranium” or  
11 “plants for the reprocessing of irradiated nuclear re-  
12 actor fuel elements” under Part 110 of the Nuclear  
13 Regulatory Commission export licensing authority.

14 (c) FORM OF REPORT.—The determination required  
15 under subsection (b) and the report required under sub-  
16 section (c) shall be unclassified with a classified annex.

17 (d) DEFINITIONS.—In this section:

18 (1) The term “appropriate congressional com-  
19 mittees” means—

20 (A) the Select Committee on Intelligence  
21 and the Committee on Foreign Relations of the  
22 Senate; and

23 (B) the Permanent Select Committee on  
24 Intelligence and the Committee on Foreign Af-  
25 fairs of the House of Representatives.

1           (2) FOREIGN PERSON; PERSON.—The terms  
2           “foreign person” and “person” mean—

3                   (A) a natural person that is an alien;

4                   (B) a corporation, business association,  
5                   partnership, society, trust, or any other non-  
6                   governmental entity, organization, or group,  
7                   that is organized under the laws of a foreign  
8                   country or has its principal place of business in  
9                   a foreign country;

10                  (C) any foreign governmental entity oper-  
11                  ating as a business enterprise; and

12                  (D) any successor, subunit, or subsidiary  
13                  of any entity described in subparagraph (B) or  
14                  (C).

15 **SEC. 30504. REPORT ON SUPPORT FOR BIODEFENSE STEER-**  
16 **ING COMMITTEE IN IMPLEMENTATION OF**  
17 **NATIONAL BIODEFENSE STRATEGY.**

18           (a) REPORT.—Not later than 180 days after the date  
19 of the enactment of this Act, the Director of National In-  
20 telligence, in coordination with the heads of such other ele-  
21 ments of the intelligence community as the Director may  
22 determine relevant, shall submit to the congressional intel-  
23 ligence committees a report on the efforts of the intel-  
24 ligence community to support the Biodefense Steering

1 Committee in the implementation of the National Bio-  
2 defense Strategy.

3 (b) MATTERS.—The report under subsection (a) shall  
4 include the following:

5 (1) A description of any previous, ongoing, or  
6 planned efforts or activities of the intelligence com-  
7 munity to support the implementation of the Na-  
8 tional Biodefense Strategy by the Biodefense Steer-  
9 ing Committee.

10 (2) An inventory and assessment of any exist-  
11 ing strategy, plan, or policy of the intelligence com-  
12 munity, or interagency agreement entered into by  
13 the intelligence community, that relates to the provi-  
14 sion of support to the Biodefense Steering Com-  
15 mittee, including for the implementation of the Na-  
16 tional Biodefense Strategy.

17 (3) A description of assessed opportunities for
