SECTION 1. SHORT TITLE.

This Act may be cited as the “Define WOTUS Act of 2021”.

(a) NAVIGABLE WATERS DEFINITION.—Section 502 of the Federal Water Pollution Control Act (33 U.S.C. 1362) is amended by striking paragraph (7) and inserting the following:

The following:
“(7) NAVIGABLE WATERS.—

“(A) IN GENERAL.—The term ‘navigable waters’ means—

“(iii) relatively permanent, standing, or continuously flowing bodies of water that form geographical features commonly known as streams, rivers, or lakes, that flow directly into waters described in clause (ii); and

“(iv) wetlands that are adjacent to and have a continuous surface water connection to waters described in clause (ii) or (iii).

“(B) EXCLUSIONS.—The term ‘navigable waters’ does not include—

“(i) intermittent or ephemeral waters, including features that flow only in response to precipitation or melt from snowpack;
(ii) subsurface waters, such as groundwater or underground streams, including subsurface waters drained through subsurface drainage systems, such as drain tiling;

“(xiii) any other waters that do not meet the requirements under subparagraph (A), without regard to whether the water—

“(I) previously met or would have met those requirements; or

“(II) may in the future meet those requirements.

“(C) ASSOCIATED DEFINITIONS.—For the purposes of this paragraph:

“(i) CONTINUOUS SURFACE WATER CONNECTION.—The term ‘continuous surface water connection’ means a connection with respect to which an ordinary person would not be able to visually determine by the naked eye, by looking at the water surface, where 1 body of water ends and the other begins.
