IN THE SENATE OF THE UNITED STATES

JUNE 16, 2022

Mr. VAN HOLLEN (for himself and Mr. CARDIN) introduced the following bill; which was read twice and referred to the Committee on Commerce, Science, and Transportation

A BILL

To authorize amounts to be made available for improvements to the Coast Guard Yard, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Service to the Fleet
5 Act”.

6 **SEC. 2. FINDINGS; PURPOSES.**

7 (a) FINDINGS.—Congress makes the following find-
8 ings:

9 (1) For more than 100 years, the Coast Guard
10 Yard has built, repaired, and renovated ships.

1 (2) The Coast Guard Yard—

2 (A) is the sole shipbuilding facility, and a
3 major repair facility, of the Coast Guard;

4 (B) is 1 of only 5 remaining public ship-
5 yards in the United States;

6 (C) supports more than 2,000 full-time
7 personnel and their families;

8 (D) supports the Army, the Navy, the Na-
9 tional Oceanic and Atmospheric Administration,
10 and other Federal agencies;

11 (E) hosts the largest warehousing oper-
12 ation of the Department of Homeland Security,
13 which serves the entire Coast Guard surface
14 fleet;

15 (F) is the Coast Guard's only Navy-cer-
16 tified heavy weapons overhaul facility;

17 (G) hosts an average of 8 visiting Coast
18 Guard Cutters and vessels of other Federal
19 agencies, and their crews, at any given time;

20 (H) supports the renovation and transfer
21 of vessels and weapons systems for foreign mili-
22 tary sale; and

23 (I) provides housing, medical and emer-
24 gency services, human resources, morale, wel-
25 fare and recreation support, and other base ac-

1 tivities to approximately 1,000 visiting crew
2 members annually.

3 (3) The Coast Guard Yard faces a rapid and
4 widespread failure of critical infrastructure, nearly
5 all of which was built in during a 4-year period dur-
6 ing World War II.

7 (4) Based on the grading criteria of the Amer-
8 ican Society of Civil Engineers, the overall infra-
9 structure grade for the Coast Guard Yard is a D+,
10 which is below the C- average for other Coast Guard
11 facilities.

12 (5) Infrastructure and facilities at the Coast
13 Guard Yard are failing at a rate that is faster than
14 the rate at which such infrastructure and facilities
15 can be maintained with current resources.

16 (6) Infrastructure failures at the Coast Guard
17 Yard have caused injuries, had negative environ-
18 mental impacts, reduced productivity, increased re-
19 pair costs, and undermined the ability of the Coast
20 Guard Yard to carry out its mission.

21 (b) PURPOSES.—The purposes of this Act are—

22 (1) with respect to the Coast Guard Yard—

23 (A) to improve resilience and capacity;

24 (B) to maintain and expand Coast Guard
25 organic manufacturing capacity;

- 1 (C) to expand training and recruitment;
2 (D) to enhance safety; and
3 (E) to improve environmental compliance;
4 and
5 (2) to ensure that the Coast Guard Yard is pre-
6 pared to meet the growing needs of the modern
7 Coast Guard fleet.
