7 **SEC. 2. FINDINGS.**

8 Congress finds the following:

1 (1) According to the Centers for Disease Con-

3 are reported each year nationwide among adults age
4 65 and over.

5 (2) These falls result in 38,000 deaths.

6 (3) Each year, approximately 3,000,000 older
7 adults are treated in emergency departments for a
8 fall injury.

9 (4) Falls are the top cause of injury and injury-
10 related deaths for adults over 65.

11 (5) Falls among adults aged 65 and above re-
12 sult in over \$80,000,000,000 per year in medical ex-
13 penses.

14 (6) More than 95 percent of hip fractures are
15 caused by falling.

16 (7) Falls are the most common cause of trau-
17 matic brain injuries.

18 (8) According to the National Institutes of
19 Health (NIH), over 70 percent of falls occur in the
20 home.

21 (9) Falls can often be prevented, including by
22 implementing simple home modifications.
