H. R. 7062

To amend titles 23 and 49, United States Code, to modify the rules relating to eligible projects under the TIFIA program and the railroad rehabilitation and financing program, to establish a transit-oriented development financing program for projects of a certain size, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

JANUARY 14, 2026

Ms. FRIEDMAN (for herself and Mr. LAWLER) introduced the following bill; which was referred to the Committee on Transportation and Infrastructure

A BILL

To amend titles 23 and 49, United States Code, to modify the rules relating to eligible projects under the TIFIA program and the railroad rehabilitation and financing program, to establish a transit-oriented development financing program for projects of a certain size, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Build Housing, Unlock
5 Benefits and Services Act” or the “Build HUBS Act”.

1 **SEC. 2. FINDINGS.**

2 Congress finds that—

3 (1) the United States is facing a housing avail-
4 ability and affordability crisis, marked by an inabil-
5 ity of many citizens to find homes in their desired
6 communities at a price affordable to them;

7 (2) transit-oriented development benefits com-
8 munities, transit agencies, and the people of the
9 United States by improving access to transit, jobs,
10 and services, spurring revitalization of neighbor-
11 hoods and economic development, and boosting tran-
12 sit ridership;

13 (3) the transportation infrastructure finance
14 and innovation program under chapter 6 of title 23,
15 United States Code (referred to in this section as
16 the “TIFIA program”), and the railroad rehabilita-
17 tion and improvement financing program under
18 chapter 224 of title 49, United States Code (referred
19 to in this section as the “RRIF program”), can help
20 respond to the urgent need for additional housing by
21 financing transit-oriented development projects with
22 mixed use or housing components and have already
23 been authorized to do so under the FAST Act (Pub-
24 lic Law 114–94; 129 Stat. 1312);

25 (4) if made more efficient, the transit-oriented
26 development provisions of the TIFIA program and

1 the RRIF program would offer attractive financing
2 strategies that could be used to forge public-private
3 partnerships to deliver accelerated housing produc-
4 tion and improved economic development and com-
5 munity vitality near transit nodes nationwide;

6 (5) improving the information available about
7 the application process, shortening the underwriting
8 timeline, improving internal deliberation processes
9 and government efficiency, and executing the adjust-
10 ments required to make transit-oriented development
11 projects easier to finance through the program
12 would benefit communities across the country, espe-
13 cially in smaller communities with less robust devel-
14 opment environments; and

15 (6) while significant administrative reforms
16 have improved the programs, the Department of
17 Transportation has been limited in its ability to fa-
18 cilitate such development under the constraints of
19 the current law governing the TIFIA program and
20 the RRIF program.

21 **SEC. 3. EXTENSION OF AND IMPROVEMENTS TO THE TIFIA**
22 **PROGRAM.**
